SOW

1. **Scope:**
   Military Sealift Command (MSC), Office of Congressional and Public Affairs, requires annual access to a legislative database, monitoring and analysis service to provide current information and analysis on congressional activities in order to conduct legislative liaison activities for MSC.

2. **Specific provisions/tasks related to access will include:**

- Access to news and analysis of current Congressional activities, updated daily, and more often when Congress is in session.
- The ability to track legislation, analysis of bill text, and the capability to compare different legislation on the same or similar subjects.
- Full committee coverage to include scheduling, access to bill and amendment text, voting summaries, text of committee reports, prepared hearing testimony and transcripts of selected hearings.
- Access to other internal congressional documents such as press releases and documents from government sources that impact the legislative process.
- Access to a website that contains congressional news and analysis, current legislative and budget information, congressional committee coverage and the ability to search and track that information.
- The ability to provide emails covering topics as requested by MSC subscribers. Such emails to be on a daily basis, and more often when Congress is in session.
- Providing five (5) individuals with access to the website.
- The ability to track and compare specific bills and issues as requested by MSC subscribers.

3. **Place of Performance:**
   Access to the information shall be provided via the Internet.

4. **Period of Performance:**

Performance Period	Dates
