General Internet Search:

- A general internet search for potential manufacturing sources other than those listed above Section 5 above yielded the following results: None

- No results were returned on GSA or CID database. Market research did not yield any readily available published catalog price lists, schedules, or other form of commercial pricing that are regularly maintained and updated by a manufacturer or vendor, and that are available to the general public for inspection. There

is no evidence of sale prices at which sales were made to a significant number of buyers constituting the general public. Therefore, the Contracting Officer determines this item to be non-commercial, thus FAR 15 procedures will be utilized.
