BACKGROUND: A continuing need is anticipated for the FFS requirements at locations listed below. Attached are the draft Performance Work Statement (PWS) and Performance Requirements Summary (PRS).

The Government currently contracts for Full Food Services under contract W9124J-21-D-0001 at FSGA.

The Contractor shall provide quality services in support of the installation food service program supporting the warfighter with flexible, efficient, and cost-effective services through management innovations and use of industry best practices, where applicable, while ensuring compliance with all applicable laws, rules, and regulations. The services outlined encompass full food service functions, to include food receiving and storage, food preparation, food serving, remote site feeding, and facility sanitation duties. These services shall be performed in building 19225 on Fort Stewart, and building 110 located

on Hunter Army Airfield, GA (HAAF). Additionally, remote feeding has rarely been utilized in the past two years; however remote site feeding could become an active task to support Unit field training exercises. In the case FFS is necessary at these locations, then this service would be required for three (3) additional historical buildings located at FGSA. These buildings are (H1) 12902/12903, (H2) 13102/13103, and (H3) 13302/13303.

The Contractor shall provide all supervision, labor, personnel, equipment, materials, and supplies, except for Government Furnished Property (GFP), to perform activities that comprise the full operation of an Army Dining Facility and full food services.

PURPOSE OF THIS SOURCES SOUGHT: To request information on capabilities of potential offerors to provide the services described herein to determine if this will be set-aside. Please note, full food service requirements are subject to both the priority established by the Randolph Sheppard Act (RSA) and the preferences set out in FAR Part 19.
