The following AMSC descriptions are-available in DFARS PGI 217.7506 Part 2.
[X] *AMSC C.* This part requires engineering source approval by the design control activity in order to maintain the quality of the part. Existing unique design capability, engineering skills, and manufacturing knowledge by the qualified source(s) require acquisition of the part from the approved source(s). The approved source(s) retain data rights, manufacturing knowledge, or technical data that are not economically available to the Government, and the data or knowledge is essential to maintaining the quality of the part. An alternate source must qualify in accordance with the design control activity's procedures, as approved by the cognizant Government engineering activity. The qualification procedures must be approved by the Government engineering activity having jurisdiction over the part in the intended application. If one source is approved, AMCs 3, 4, or 5 are valid. If at least two sources are approved or if data is adequate for an alternate source to qualify in accordance with the design control activity's procedures, AMCs 1 or 2 are valid.

On 04/27/2026, the Product Specialist of record certified the accuracy of the approved source(s) and applicable AMC/AMSC codes. A copy of the certification is attached.

6. The following efforts are being taken to ensure that offers are solicited from as many sources as practicable:
[X] The acquisition will be synopsized for 15 days on SAM.GOV.
[X] The solicitation will be posted to the DLA Internet Bid Board System for a minimum of 30 days.
[X] Dealers of the approved source(s) will be solicited.

7. I hereby determine that the anticipated cost to the Government will be fair and reasonable.

A price analysis will be conducted based on a comparison of proposed prices received in response to the solicitation and/or a comparison of proposed prices to historical prices paid. Certified cost or pricing data, when required by FAR 15.403-3, and data other than certified cost or pricing data, will be requested and obtained as necessary to establish a fair and reasonable price, and a cost analysis may be performed on the data submitted.

Procurement History:

- The last procurement was on 10/25/2025 from Sherwood Avionics and Accessories (3EM37) for a quantity of 54 each at a unit price of $4,625.00 each.

- A review of procurement history for potential manufacturing sources other than those listed above Section 5 above yielded the following results: None

General Internet Search:

- A general internet search for potential manufacturing sources other than those listed above Section 5 above yielded the following results: None

- No results were returned on GSA or CID database. Market research did not yield any readily available published catalog price lists, schedules, or other form of commercial pricing that are regularly maintained and updated by a manufacturer or vendor, and that are available to the general public for inspection. There is no evidence of sale prices at which sales were made to a significant number of buyers constituting the general public. Therefore, the Contracting Officer determines this item to be non-commercial, thus FAR 15 procedures will be utilized.

9. A listing of sources, if any, indicating an interest in the acquisition is: None

10. The following actions are being taken to overcome barriers to competition before any subsequent acquisition is made:

[X] The solicitation contains DLAD Procurement Note, L04 Offers for Part Numbered Items, which describes the process for submitting an alternate offer on the current procurement and requesting evaluation of an alternate product's technical acceptability for future procurements of the same item.(***All AMSC codes EXCEPT AMSC B***)

DLA Weapons Support (Columbus) encourages vendors that may be interested in becoming an approved source, even if there is not an active solicitation, to contact the DLA Weapons Support (Columbus) Source Approval Monitor at DSCCAO-SAR@dla.mil for additional information on the steps required to submit a Source Approval Request Package for evaluation.

In accordance with DFARS PGI 206.104-71, a prior justification is not available since all prior acquisitions were under the Simplified Acquisition Threshold.
