Subject: LEGISLATIVE MONITORING SUBSCRIPTION SERVICE

DESCRIPTION: This is a market survey for acquisition planning purposes, and no formal solicitation exists at this time. MSC is soliciting input to determine the technical, administrative, management and financial capability of potential offerors to perform this kind of work.

Military Sealift Command (MSC), Office of Congressional and Public Affairs, requires annual access to a legislative database, monitoring and analysis service to provide current information and analysis on congressional activities in order to conduct legislative liaison activities for MSC. All Small Businesses, Service-Disabled Veteran-Owned Small Business, Certified Woman Owned Small Business Certified HUBZone and Certified 8(a) Small Businesses are encouraged to respond.

Specific provisions/tasks related to access will include:

- Access to news and analysis of current Congressional activities, updated daily, and more often when Congress is in session.
- The ability to track legislation, analysis of bill text, and the capability to compare different legislation on the same or similar subjects.
- Full committee coverage to include scheduling, access to bill and amendment text, voting summaries, text of committee reports, prepared hearing testimony and transcripts of selected hearings.
- Access to other internal congressional documents such as press releases and documents from government sources that impact the legislative process.
- Access to a website that contains congressional news and analysis, current legislative and budget information, congressional committee coverage and the ability to search and track that information.
- The ability to provide emails covering topics as requested by MSC subscribers. Such emails to be on a daily basis, and more often when Congress is in session.
- Providing five (5) individuals with access to the website.
- The ability to track and compare specific bills and issues as requested by MSC subscribers.

NAICS CODE: The NAICS Code for this requirement is 519290: Web Search Portals and All Other Information Services, and the Size Standard is 1,000 employees.

This information will be used by the Contracting Officer to assist in developing the procurement strategy, including whether a small business set-aside can be established, if the requirement should be sole sourced to large business, or whether small businesses and large businesses should be able to compete for work. If a small business set-aside is established, then RFO FAR clause 52.219-14, Limitations on Subcontracting, applies. Note that if there is sufficient demonstrated interest and capability among small businesses, a key factor in determining if an acquisition will be a small business set-aside is that two or more potential small business prime contractors must be capable of performing at least 50% of the effort, as defined in RFO FAR clause 52.219-14.

This is a request for information only and your response is not an offer. This request for information does not commit the Government to pay for any costs incurred in preparation of any submission to this market survey.
