PURCHASE DESCRIPTION

Gartner Licenses

1. INTRODUCTION

This scope of work is for Program Executive Office Integrated Warfare Systems' (PEO IWS) Front Office which seeks to procure subscription-based access to Gartner products. Gartner's commercial-off-the-shelf (COTS) license products enable immediate, web-based access to an online database of published reports, tools, and guides that are Gartner intellectual property (IP). These tools are critical for PEO IWS software, data, digital, process, strategy, and architecture efforts. Gartner offers more than 98,000 documents and tools accessible only through a research subscription.

2. BACKGROUND

PEO IWS seeks to procure 12-month subscriptions to Gartner's subscription-based solution to enable faster results, smarter decisions and stronger performance on PEO IWS mission-critical priorities, including technology modernization, software effectiveness, enhanced government efficiency and productivity.

3. REQUIREMENTS

The contractor shall provide 1 Base year license subscription + 4 Option years of Gartner for Enterprise IT Leadership Team Plus — Team Leader (Quantity 1), Gartner for Enterprise IT Leadership Team Plus — Advisor Member (Quantity 5), CDAOs Executive – Team Leader (Quantity 1), CDAOs Executive – Team Advisor (Quantity 1), and GTP Advisor Team (Comprised of 1 Team Leader + 4 Team Members) (Quantity 1).

Licenses will include access to research topics covering software development, software integration, Model-based systems engineering (MBSE), Process improvement, Digital transformation, IT landscape and strategy, Technical infrastructure, and Integrated data environments.

The contractor shall provide IT research and advisory support for implementation and adoption of software development and model-based system engineering. The contractor shall support IT system accreditation of cloud-native technologies via inheritance model and understanding the intricacies of developing and visualizing software across multiple environments. The contractor shall support development of automated monitoring capabilities for IT systems in unmanned vessels, and integration of technologies enabling IT system updates at geographically dispersed sites.

General Security

The contractor will require a facility security clearance at the SECRET level. Contractor will need cleared personnel able to attend classified meetings and review classified information up to the TOP SECRET level at another contractor's facility or government activity. The contractor will be required to access CUI and receive, store, and generate CUI.

The Contractor is required to protect critical information associated with this contract to prevent unauthorized disclosure and will observe OPSEC requirements.

DRAFT

The following Brand Name Gartner products are required at the specified quantities.
