QUALIFICATION REQUIREMENTS			DATE 12 JAN., 2021
NOUN NARROWBAND WFG	NATIONAL STOCK NUMBER 5998-01-554-8049	PART NUMBER 124K707G01	

Only the checked statement applies to this NSN.

QUALIFICATIONS REQUIREMENTS PRIOR TO 19 OCT 84

- **Section F.1**

This item qualifies under FAR 9.206-1(a)(2) and the requirements of FAR 9.202(a) are not applicable. Prequalification of sources is essential to maintain high quality and maximum operational safety.

- **Section F.2**

(a) ____ Qualification requirements are set forth in DLA Aviation Source Approval Request Guide. Due to the complexity and criticality of this part, **only actual manufacturers** that have successfully completed all testing required by the original company responsible for the design, can be considered approved sources for this item.

(b) ____ Qualification requirements are set forth in DLA Aviation Source Approval Request Guide. Due to the complexity and criticality of this part, **only actual manufacturers** that have successfully completed all testing required by the original company responsible for the design, **or manufacturers that have successfully completed all testing on items determined by the government to be similar in complexity and criticality, can be considered approved sources for this item.**

(c) ____ Qualification requirements are set forth in DLA Aviation Source Approval Request Guide. Category III capability is permissible.

- **Section F.3**

The provisions of FAR 9.206-1 and -2, as supplemented, apply. In accordance with AFMCFARS, 1 July 97, Part 5309.206-1(e)(1), Notes A and B apply. Qualification requirements were established prior to 19 Oct 84.

QUALIFICATION REQUIREMENTS AFTER 19 OCT 84

Justification for Qualification Requirement (JQR) is required.

- **Section F.1**

Prequalification of sources is essential to maintain high quality and maximum operational safety. The requirements of FAR 9.202(a) apply.

- **Section F.2**

(a) ☒ Qualification requirements are set forth in DLA Aviation Source Approval Request Guide. Due to the complexity and criticality of this part, **only actual manufacturers** that have successfully completed all testing required by the original company responsible for the design, can be considered approved sources for this item.

(b) ____ Qualification requirements are set forth in DLA Aviation Source Approval Request Guide. Due to the complexity and criticality of this part, **only actual manufacturers** that have successfully completed all testing required by the original company responsible for the design, **or manufacturers that have successfully completed all testing on items determined by the government to be similar in complexity and criticality, can be considered approved sources for this item.**

- **Section F.3**

The provisions of FAR 9.206-1 and -2, as supplemented, apply. In accordance with AFMCFARS, 1 July 97, Part 5309.206-1(e)(1), Notes A and D apply. Qualification requirements were established after 19 Oct 84.
