CFPF Attestation Form Directions:

The Contractor must submit both Form A and Form B for electricity from coal-based power supplies. Form A, provided to the Government, details the total amount of coal-based power delivered during the Annual Compliance Period. This form includes the total electricity supplied under the contract and a breakdown of each CLIN's consumption.

The Contractor is responsible for providing Form B to every coal-fired production facility that it has a contractual agreement with that fulfilled the government's requirements during the contract compliance period. These facilities must then complete the form and return the completed and signed document to the Contractor for submission to the Government.
