All services will be provided by:
Action Target Inc.

Justification:

1. Contractor's Unique Qualifications: Action Target is uniquely qualified as the Original Equipment Manufacturer (OEM) of the entire, fully integrated firing range system installed at Goodfellow AFB in 2009. They possess exclusive proprietary knowledge of the engineering, control software, and safety interlocks that bind the target retrieval system to the range's other critical components. Furthermore, as the incumbent maintenance provider since 2008 and current contract holder until 2027, they have unparalleled, site-specific experience and a proven performance record with the 17th SFS. Their specialization in manufacturing systems to meet specific Air Force Courses of Fire further distinguishes them from any other potential source.

2. Nature of the Acquisition: This acquisition is for a follow-on upgrade to highly specialized equipment. It is not for a standalone item, but for a component of a larger proprietary ecosystem. Awarding to another source would force them to interface with Action Target's proprietary equipment, voiding the Government's warranty on its installation.
