PART 1 – BIDDER INSTRUCTIONS

1. INTRODUCTION

This solicitation is being conducted under the authority of the California Department of Technology (CDT) pursuant to Public Contract Code (PCC) §6611. This statute authorizes the use of a competitive negotiation process when the State has identified its business need or the purpose of the procurement, but negotiation is necessary to ensure that the State obtains the best value or the most cost-efficient goods, services, information technology, and/or telecommunications.

This solicitation contains the instructions governing the requirements for a fixed-price response to be submitted by Bidders. Also, included in this solicitation is the required format and materials Bidders must follow when responding to this solicitation. This solicitation also addresses the requirements that Bidders must meet to be eligible for consideration, as well as their responsibilities before and after award.

The following terms are used interchangeably throughout the solicitation documents: (1) "Contract" and "Agreement"; (2) "response" and "bids".

1.1. PURPOSE

The purpose of this Invitation For Bid (IFB) (hereafter referred to as "solicitation") is to obtain bids from qualified Bidders to provide the State of California (hereafter referred to as "State") with environmental monitoring equipment, including remote automated weather stations (RAWS) equipment, sensors, software, & maintenance equipment and services (hereafter referred to as "EME"). The EME and related services for indoor/outdoor use can cover air quality, weather, noise, water, soil, vegetation, and atmospheric monitoring equipment. The services shall include labor for maintenance, repair, and calibration of EME. The State seeks responses from manufacturers or authorized resellers capable of supplying environmental monitoring equipment and related services under a multiple award contract. The State has not specified detailed technical requirements as environmental monitoring equipment and related service offerings vary widely. Specific technical requirements will be provided by the ordering agency at the time of purchase. EME and related services for this Statewide contract are classified into six (6) categories as listed below:

- Category 1: Atmospheric & Environmental Monitoring Equipment (EME)
- Category 2: EME Related Accessories and Sensors
- Category 3: EME Maintenance Agreements
- Category 4: Emergency/Unscheduled Repairs and Maintenance
- Category 5: Training
- Category 6: Installation

The Bidder must submit a response for a minimum of one (1) or EME and services in Categories 1 through 6 of the [EXHIBIT B: COST WORKBOOK](#). The Bidder must provide equipment and/or services for applicable category items or equivalent alternative items offered by the Bidder under the terms of this

contract.

Multiple Contractors may be awarded a contract as a result of this IFB. The Contracts will be available for use by State of California departments and any federal, city, county, special district, educational agency, tribal entity, local government, or corporation empowered to expend public funds. The use of this contract is not mandatory by any State and local government agencies/entities. The State makes no guarantee of purchases through this statewide agreement.

The Contract Award, if made, will be in accordance with the methodology defined in [SECTION 6. EVALUATION](#).

1.2. TERM OF CONTRACT

Effective upon approval of CDT, the Office of Statewide Technology Procurement (OSTP), the base term of the Contract is four (4) years.

The State, at its sole discretion, may exercise its option to execute up to three (3), two (2) year extensions for a maximum Contract term of ten (10) years (includes Base Contract term plus all optional extensions).

The Contractor shall not be authorized to deliver goods or commence performance of services described in this Agreement prior to the effective date. Any delivery of goods or performance of services by the Contractor that is commenced prior to the effective date shall be at no cost to the State.

The State is not obligated to use any or all of these options. The Agreement is of no effect unless approved by CDT and no work shall begin before full execution of the Agreement.

1.2.1. ELECTED OPEN PERIOD

The State reserves the right to elect to re-open this solicitation to add Contractors via an Elected Open Period (EOP).

The EOP will be implemented at the State's sole discretion. The EOP participation for new Bidders may not occur sooner than 12 months after Contract award and not later than 12 months before expiration of the maximum contract term. Further, the EOP will not extend the original term of this Contract for new Bidders or incumbent Contractors.

The new Bidders participating must meet and adhere to all of the requirements identified in this solicitation. Evaluation of the new bids and Contract Award, if made, shall be in accordance with the original evaluation and award methodology in [SECTION 6. EVALUATION](#).

Should the EOP occur, it will be announced on the State's electronic procurement system, Cal eProcure,

and notification will be provided to all incumbent Contractors.

1.3. CURRENT AND PROPOSED ENVIRONMENT

1.3.1. CURRENT ENVIRONMENT

Environmental Monitoring Equipment (EME) provides the foundational data for all weather modeling, fire modeling, and fire weather forecasting conducted by departments. The forecasts and models derived from the EME data are used to determine fire equipment staffing needs, dispatch levels, resource allocation, Fire Hazard Severity Zones, air quality impacts from smoke, forensic analysis of cause and origin of fires, conduct fuels mitigation projects such as prescribed fire planning, and to determine activity restrictions placed on public and industry.

For following example demonstrates how a State Department currently uses EME and related services:

The Department of Forestry and Fire Protection (CAL FIRE) maintains a statewide network of Remote Automated Weather Stations (RAWS) which provides the foundational data for all weather modeling, fire modeling, and fire weather forecasting conducted by the Department. The forecasts and models derived from the RAWS data are used to determine fire equipment staffing needs, dispatch levels, resource allocation, Fire Hazard Severity Zones, air quality impacts from smoke, forensic analysis of cause and origin of fires, conduct fuels mitigation projects such as prescribed fire planning, and to determine activity restrictions placed on public and industry.

Sensors, including but not limited to soil, weather, and temperature sensors, may be added to RAWS that remotely obtain data that is otherwise obtained manually by emergency response personnel. Including them as a standard complement to CAL FIRE's RAWS array will provide data that can be used to track how much water is in the soil at that location and the temperature of the soil, providing the Department with more robust data points to improve all weather modeling, fire modeling, and fire weather forecasting.

This equipment will be used to collect local and microclimate weather data. As the number of Vegetation Management Projects (VMP) being conducted has increased, so has the demand for this site-specific data. The RAWS data will be used in the development of VMP projects to increase confidence on the fuels conditions throughout the event. The weather data will provide invaluable site-specific data to the weather forecaster thus enabling the development of a more accurate spot weather forecast and provide hourly updates. The requested RAWS will also be utilized for pre-project planning through post-project evaluation and monitoring. This data is used to assist in the determination of fire and smoke spread for operational decision making and evacuation planning.

EME and related services are currently obtained by State departments and agencies following internal procurement processes and/or CDT's oversight through a competitive procurement process. Establishing a multiple-award EME and related services contract allows Ordering Agencies to procure equipment and

services through this Statewide Contract using the Request for Offer (RFO) process.

1.3.2. PROPOSED ENVIRONMENT

This statewide EME and related services contract provides the opportunity for state and local government agencies/entities to procure EME and related services. The Contract will allow for efficient ordering and competitive pricing.

CDT will develop User Instructions for ordering procedures that shall be followed. The quote requests may include additional terms and conditions at the discretion of the ordering agency/entity.

The Contracts awarded as a result of this IFB does not, by itself, guarantee any revenue or order requests for goods and/or services. Further, the Contractors may lower their prices to be competitive, but they may not increase their prices beyond their Contract-approved rates.

1.4. AMERICANS WITH DISABILITIES ACT (ADA)

To comply with the nondiscrimination requirements of ADA, it is the policy of the State of California to make every effort to ensure that its programs, activities, and services are available to all persons, including persons with disabilities.

For persons with a disability needing a reasonable accommodation to participate in the procurement process or for persons having questions regarding reasonable accommodations of the procurement process, you may contact the Procurement Officer identified in [SECTION 2.2.1. The Bidder must explain why the question is sensitive in nature. If the State concurs that the disclosure of the question or the answer would expose the proprietary nature of the bid, the question will be answered and both the question and answer will be confidentially maintained. If the State does not concur with the proprietary nature of the question, the Bidder will be notified and may withdraw the question. If the question is not withdrawn, the question and response will not be confidentially maintained.

2.4. RULES GOVERNING COMPETITION

This solicitation, the evaluation of responses, and the award of any resultant Contract shall be made in conformance with current competitive bidding procedures as they relate to the procurement of IT goods and services or telecommunications by public bodies in the State of California.

2.4.1. IDENTIFICATION AND CLASSIFICATION OF SOLICITATION REQUIREMENTS

The State has established certain requirements with respect to bids to be submitted by prospective Contractors. The use of “shall,” “must,” or “will” (except to indicate simple futurity) in the solicitation indicates a requirement or condition which is mandatory.

Non-compliance with any non-negotiable requirement will disqualify a Bidder from further participating in Evaluation, Negotiations, and Contract Award.

Non-compliance with any mandatory requirement may disqualify a Bidder from further participating in Negotiations and Contract Award.

The words “should” or “may” in the solicitation indicate desirable attributes or conditions, but are non-mandatory in nature.

2.4.2. SOLICITATION DOCUMENTS

This solicitation document includes, in addition to an explanation of the State’s requirements which must be met, instructions which prescribe the format and content of bids to be submitted and the model of the Contract to be executed between the State and the successful Bidder.

If a Bidder discovers any ambiguity, conflict, discrepancy, omission, or other error in this solicitation document, the Bidder shall immediately notify the Procurement Officer identified in [SECTION 2.2.1. PROCUREMENT OFFICER](#), of such error in writing and request clarification or modification of the document.

If the solicitation document contains an error known to the Bidder, or an error that reasonably should have been known, the Bidder shall bid at its own risk. If the Bidder fails to notify the State of the error prior to

the date fixed for submission of bids, and is awarded the Contract, the Bidder shall not be entitled to additional compensation or time by reason of the error or its later correction. Modifications will be made by addenda issued pursuant to [SECTION 2.4.6. ADDENDA](#).

2.4.3. EXAMINATION OF THE WORK

The Bidder should carefully examine the entire solicitation document and any addenda thereto, and all related materials and data referenced in the solicitation document or otherwise available to the Bidder, and should become fully aware of the nature and location of the work, the quantities of the work, and the conditions to be encountered in performing the work.

2.4.4. EXCLUSION FOR CONFLICT OF INTEREST

No consultant shall be paid out of State funds for developing recommendations on the acquisition of IT and/or telecommunication products or services or assisting in the preparation of project documents, while in effect, if that consultant is to be a source of such acquisition or could otherwise directly and/or materially benefit from State adoption of such recommendations or the course of action recommended in the project documents. Further, no consultant shall be paid out of State funds for developing recommendations on the disposal of State surplus IT and/or telecommunication products if that consultant would directly and/or materially benefit from State adoption of such recommendations.

2.4.5. CONFIDENTIALITY

Bidder material becomes public only after the Notification of Award is released. If material marked “confidential,” “proprietary,” or “trade secret” is requested pursuant to the Public Records Act, the State will make an independent assessment whether it is exempt from disclosure. If the State disagrees with the Bidder, the State will notify the Bidder and give them a reasonable opportunity to justify their position or obtain a court order protecting the material from disclosure.

The Bidder should be aware that marking a document “confidential” or “proprietary” in a bid may exclude it from consideration for award and will not keep that document from being released after notice of award as part of the public record, unless a court has ordered the State not to release the document.

The content of all working papers and discussions relating to the Bidder’s bid shall be held in confidence indefinitely, unless the public interest is best served by an item’s disclosure because of its direct pertinence to a decision, agreement or the evaluation of the bid.

Any disclosure of confidential information by the Bidder is a basis for rejecting the Bidder’s bid and ruling the Bidder ineligible to further participate. Any disclosure of confidential information by a State employee

is a basis for disciplinary action, including dismissal from State employment, as provided by Government Code §19570 et seq. Total confidentiality is paramount; it cannot be over emphasized.

2.4.6. ADDENDA

The State may modify the solicitation at any time prior to submission of bid by issuing an addendum. Addenda will be numbered consecutively and released to all Bidders via Cal eProcure.

The Bidder is allowed five (5) working days to submit written questions regarding the addendum according to the instructions contained in [SECTION 2.2.2. QUESTIONS REGARDING THE SOLICITATION DOCUMENT](#) .

2.4.7. COST FOR DEVELOPING BID

Costs for developing bids are the responsibility entirely of the Bidder and shall not be chargeable to the State.

2.4.8. IRREVOCABLE OFFER

Bidder's response to this solicitation shall constitute a firm offer, which shall remain irrevocable for not less than 120 calendar days following the Contract Award date specified in [SECTION 2.3. KEY ACTION DATES](#) . In the event of a delay in Contract Award, a Bidder may extend the expiration date of its firm offer an additional 30 calendar days by written notice to the State.

This expiration date may be further extended by mutual agreement between the State and the Bidder, in order to accommodate processing time for required approvals and other solicitation-related reviews.

2.4.9. FALSE OR MISLEADING STATEMENTS

Bids that contain false or misleading statements, or provide references that do not support an attribute or condition claimed by the Bidder, may be the basis for rejecting the Bidder's bid. If, in the opinion of the State, such information was intended to mislead the State in its evaluation of the bid, and the attribute, condition, or capability is a requirement of this solicitation document, may be the basis for rejecting the Bidder's bid.

2.5. BIDDING STEPS

The following instructions provide the steps to submit a response to this solicitation by interested Bidders. Details surrounding bids are described further in [SECTION 3. BID REQUIREMENTS](#).

The Bidder is expected to follow the format requirements and utilize all forms included in this solicitation necessary for its response. This solicitation also addresses the Bidder responsibilities and requirements it must meet to be eligible for consideration. If the Bidder fails to follow the provided instructions, the Bidder may be disqualified from the solicitation process.

Refer to [SECTION 2.3. KEY ACTION DATES](#) to determine which phases and mandatory steps are included in this solicitation. [SECTION 2.3. KEY ACTION DATES](#) lists milestones, mandatory steps, and due dates for deliverables in this solicitation. Bidders must submit a pre-qualified Electronic Vendor Application of Qualifications (eVAQ) as detailed in [SECTION 3.1.1.1. INCORPORATION OF EVAQ REQUIREMENTS](#).

2.5.1. FINAL PHASE

The final phase consists of a bid (Mandatory) and, if requested by the State, a Best and Final Offer (BAFO).

The purpose of the final phase is to obtain bids that are responsive in every respect. The bid is a mandatory step for all Bidders; all other steps are optional unless otherwise stated in [SECTION 2.3. KEY ACTION DATES](#).

The bid must be complete, and include all cost information, required signatures, contract changes issued by the State via an addendum and corrections made to those defects noted by the State in its review of the draft bid, if any. Bidders that submitted bids meeting the criteria identified in [+SECTION 2.8. NEGOTIATIONS](#), will be eligible to receive an invitation to negotiate with the State.

The State, at its sole discretion, may request a BAFO from those Bidders that participated in the Negotiation Process as identified in [SECTION 7. NEGOTIATIONS](#).

2.5.2. WITHDRAWAL AND RESUBMISSION/MODIFICATION OF BIDS

A Bidder may withdraw its bid at any time prior to the bid submission date by submitting a written notification of withdrawal signed by an authorized representative of the Bidder in accordance with [SECTION 3.2.1. This section contains the mandatory, mandatory optional, and optional bid requirements that must be met in order to be considered responsive to this solicitation.

The documents that must be submitted with the Bidder's bid are noted as "Mandatory" "(M)", or "Mandatory Optional" "(MO)" in this section. Items labeled "Optional" "(O)" are optional.

The bid requirements listed in this section are denoted as follows:

1. (M) Sections labeled as "Mandatory" or "M" are not negotiable. To be considered responsive to these requirements, all requirements identified as (M) must receive a response from the Bidder. Failure to respond to any (M) requirements where indicated shall result in a "fail" and disqualification of the bid.
2. (MO) Sections labeled "Mandatory Optional" or "MO" are not negotiable. To be considered responsive to these requirements, all requirements identified as (MO) must receive a response. Failure to respond to any (MO) requirement where indicated shall result in a "fail" and disqualification of the bid. It is at the State's option/discretion on whether to utilize the option in the Contract.
3. (O) Sections labeled as "Optional" or "O" are not required to be offered by the Bidder in order to be responsive to the solicitation requirements. A Bidder may choose whether to meet administrative requirements labeled as (O) such as those relating to preference points. However, if a Bidder offers any of these (O) requirements, the Bidder must meet the minimum requirements as stated in the section. The State will review responses to optional requirements and apply points, if applicable, in accordance with [SECTION 6. EVALUATION](#).

3.1. PREQUALIFICATION REQUIREMENTS

This section details the requirements necessary for Bidders to qualify for contract award. Failure to complete or comply will disqualify Bidder(s) and the State will not move forward with evaluating the bid, conducting negotiations and contract award. The State will not seek modifications or clarifications after bid submission due date for any prequalification requirements.

3.1.1. ELECTRONIC VENDOR APPLICATION OF QUALIFICATION (eVAQ)(M)

The State's eVAQ is an external process to this solicitation. The intent of the pre-qualification is to

process as much of the administrative requirements required to do business in the State of California in advance to streamline the solicitation process. Bidders are required to have an OSTP-approved eVAQ application on file prior to the Key Action Date for the Last day to submit bid (refer to [SECTION 2.3. KEY ACTION DATES](#)) in order for your bid to be accepted for evaluations.

It is the responsibility of the Bidder to ensure they have an OSTP-approved eVAQ and all applicable requirements and provisions for this solicitation are met. Failure to have an OSTP-approved eVAQ prior to bid submission due date will disqualify Bidder(s) and the State will not move forward with evaluating the bid, conducting negotiations and contract award. The State will not seek eVAQ modifications or clarifications after bid submission due date.

The application can be accessed at <https://cadtprod.service-now.com/vendor>.

If the Bidder's firm is new to the eVAQ process, account registration is necessary and free of charge.

If a Bidder has an approved eVAQ on file, it is the Bidder's responsibility to ensure:

1. The eVAQ is a CDT OSTP-approved eVAQ (not a Department of General Services (DGS) eVAQ).
2. All information required to be submitted with the eVAQ is up to date and valid.

All questions related to the eVAQ should be addressed to the Procurement Officers.

In the event there is inconsistent requirements between the solicitation and the Bidder's OSTP approved eVAQ documents, the solicitation documents shall take precedence.

Verification of an approved OSTP eVAQ certification shall be submitted with [ATTACHMENT 4: COVER LETTER FORM](#), and in accordance with [SECTION 3.2.1. COVER LETTER \(M\)](#) .

3.2. ADMINISTRATIVE REQUIREMENTS

This section contains the mandatory and optional administrative requirements that must be met in order to be considered responsive to this solicitation. A cover letter shall be considered an integral part of the bid and any bid form requiring a signature must be signed by an individual who is authorized to bind the bidding firm contractually. The signature block must indicate the title or position that the individual holds in the firm. An unsigned bid may be considered non-responsive and may be the basis for rejecting the Bidder's bid.

3.2.2. ADMINISTRATIVE REQUIREMENTS DOCUMENT (M)

The Bidder must complete and submit [ATTACHMENT 5: RESPONSE TO ADMINISTRATIVE REQUIREMENTS](#). The Bidder must indicate its willingness and ability to satisfy these requirements by marking "Yes" in the "Bidder Agrees Yes/No" column. 3.2.3. CONFIDENTIALITY STATEMENT (M)

The Bidder must agree to the State's confidentiality requirements by submitting a signed [ATTACHMENT 3: CONFIDENTIALITY STATEMENT FORM](#), for the Bidder's company. The completed confidentiality statement must be submitted as indicated in [SECTION 2.3. KEY ACTION DATES](#).

The Bidder engaging in services pertaining to this solicitation, requiring contact with confidential State information or State customer information will be required to exercise security precautions for all such data that is made available and must accept full legal responsibility for the protection of this confidential information. If, during the evaluation process, the State is unable to assure itself of the Bidder's ability to perform under the Contract if awarded, the State has the option of requesting from the Bidder any information that the State deems necessary to determine the Bidder's responsibility. If such information is required, the Bidder will be so notified and will be permitted five (5) state business days to submit the information requested in writing.

Examples of the type of financial responsibility information requested may include annual reports and current audited balance sheets for the Bidder's firm.

3.2.5. PRIMARY BIDDER

An award, if made, will be to a primary Bidder. The awarded primary Bidder will be responsible for successful performance of all subcontractors and support services offered in response to this solicitation. All State policies, guidelines, and requirements that apply to the primary Bidder also apply to subcontractors, as applicable to the products and services they provide and to their role as a subcontractor. Furthermore, the State will consider the primary Bidder to be the sole point of contact regarding contractual matters for the term of the resulting Contract. The Bidder shall not assign financial documents to a third-party without prior written approval by the State, and an amendment to the resulting Contract.

3.2.6. SUBCONTRACTORS

The Contractor is fully responsible to the State for the acts and omissions of the Contractor's subcontractors and of persons either directly or indirectly employed by Contractor.

The Contractor shall not change subcontractor(s) and/or DVBE subcontractor(s) if such changes conflict with the work to be performed under this Contract. For DVBE subcontractor changes, the Contractor shall utilize another DVBE subcontractor. The State recognizes that changes to subcontractor(s) may be necessary and in the best interests of the State, however, advance notification of a contemplated change and the reasons for such change must be made to the State no less than seven (7) business days prior to the existing subcontractor's termination. If this should occur, the Contractor should be aware that the State Contract administrator or designee must approve any changes to the subcontractor(s) prior to the termination of the existing subcontractor(s). This also includes any changes made between submittal of the bid and actual start of the Contract.

Changes to the scope of work that impact the DVBE subcontractor(s) identified in the bid or offer and approved DVBE substitutions will be documented by contract amendment.

The State will not compensate the Contractor for any of the Contractor's time or effort to educate or

otherwise make the new subcontractor(s) ready to begin work on the contract.

The Contractor's obligation to pay its subcontractors is independent of the State's obligation to make payments to the Contractor. The Bidder is expected to have a proven record of success and be responsible for all aspects of the service, including any subcontractors.

The Bidder must meet the mandatory Qualification Requirements. Failure to meet any of the mandatory requirements may be considered non-responsive and may be the basis for rejecting the Bidder's bid.

The Bidder must complete and submit as part of the bid, [ATTACHMENT 10: BIDDER QUALIFICATIONS FORM](#), to confirm that the Bidder's experience meets all the mandatory requirements identified in [ATTACHMENT 10: BIDDER QUALIFICATIONS FORM](#). Unless stated otherwise, experience must have occurred within 10 years prior to the solicitation due date for all projects. Points will be awarded based on desirable experience in accordance with [SECTION 6. EVALUATION](#).

The State may contact Bidder's references stated in the [ATTACHMENT 10: BIDDER QUALIFICATIONS FORM](#) to verify the information provided by the Bidder. Any conflicting information may result in the bid being deemed non-responsive. The reference and contact name(s) must be from the end user of the project.

4. COST REQUIREMENT

Cost is a primary evaluation criterion and will be evaluated based on the methodology in this section and [SECTION 6. EVALUATION](#).

The pricing format is structured to facilitate a straightforward comparison among all Bidders and foster competition to obtain the best market pricing. Consequently, the Bidder must complete and format its Cost Bid as described in this section. Failure to comply with the instructions in this section, such as submission of an incomplete bid, use of alternative pricing structures or different formats than the one required, may result in the rejection of the Bidder's bid.

It is imperative that no cost information be included in the body of the bid. Cost information must only be submitted in the Bidder's Response, Volume 2, Cost in accordance with [SECTION 5. BID FORMAT AND SUBMISSION REQUIREMENTS](#). Inclusion of cost figures in any bid content other than Volume 2, Cost may result in the rejection of the Bidder's bid.

STATEMENT OF WORK](#) and [EXHIBIT B: COST WORKBOOK](#). If an alternative item of equivalent quality is included in the bid, technical information for each equipment item must be submitted.

The brand name or equivalent specifications used in this solicitation are intended to describe the standards of quality, performance, and characteristics desired, and are not intended to limit or restrict competition. A bid with an alternative item equivalent quality, design, and performance will be considered if the alternative item offered is identified in the bid, including sufficient technical information, and is determined by the State to be an equal in all material respects to the brand name product referenced in the solicitation. Alternative items are subject to approval by the State.

In this instance, the Bidder must indicate the cost as a zero (\$0). In addition, if any character other than a numeral is used (e.g., a dash), the State will assume the cost of the item to be zero (\$0). If the cost workbook is modified or cells are left blank, the State may be considered non-responsive and may be the basis for rejecting the Bidder's proposal. The cost workbook must be filled out completely or the State may be considered non-responsive and may be the basis for rejecting the Bidder's response.

The State has populated some of the cells with formulas, however it is the responsibility of the Bidder to ensure worksheets and calculations are correct and accurate. Bidder shall upload an electronic copy of its bid, including the cost workbook, as specified in [SECTION 5.4. BID CONTENT AND STRUCTURE](#). It is important that Bidder's electronic files that comprise its bid are clearly labeled, or they may be considered non-responsive and may be the basis for rejecting the Bidder's bid.

The State will not be liable for any costs incurred by any Bidder in responding to this solicitation, regardless of whether the State awards the Contract through this process, decides not to move forward with the project, cancels this solicitation for any reason, or Contracts for the project through other processes or by issuing another solicitation.

5.1. PREPARATION

Bids are to be prepared in such a way as to provide a straightforward, concise delineation of capabilities to satisfy the requirements of this solicitation document. High-definition graphics, multi-colored content, promotional materials, etc., are neither necessary nor desired. Emphasis should be concentrated on conformance to the solicitation document instructions, responsiveness to the solicitation document requirements, and completeness and clarity of content.

5.2. COMPLETION OF BIDS

Bids must be complete in all respects as required. A bid may be rejected if it is conditional, includes assumptions, includes exceptions that conflict with requirements or the intent of the effort, includes modifications to requirements, or if it contains any alterations of form or other irregularities of any kind. The bid must contain all costs as required in [SECTION 4. COST REQUIREMENT](#) and [SECTION 5. BID FORMAT AND SUBMISSION REQUIREMENTS](#).

5.3. DELIVERY OF SUBMITTALS

The Bidder must email the Procurement Officers by the due date specified in [SECTION 2.3. KEY ACTION DATES](#) , no more than two (2) contacts who will have access to the State's file-sharing site to electronically upload Bidder's bid. Once provided, an invitation to the State's file-sharing site will be sent to those individuals. It is the Bidder's responsibility to confirm receipt of the invitation with the Procurement Officers.

A separate file location will be created for each Bidder accessible only to the Bidder Contact(s).

The file-sharing site does not allow access from outside the Continental United States.

It is highly recommended that Bidders upload a test MS Word, MS Excel, and PDF file to each folder at

least five (5) calendar days prior to the due date to test access to the State's file-sharing site. Upon successful upload, notify the Procurement Officers and the test file will be deleted. It is the Bidder's responsibility to gain access to the file-sharing site to submit their bid.

The file-sharing site will provide a primary folder for each Bidder to submit their bid. Each Bidder's folder will contain subfolders: Volume 1, Volume 2.

The Bidder contacts will be required to upload a complete copy of the Bidder's bid to the appropriate folders.

If a Bidder fails to request access to the file-sharing site by the due date specified in the Key Action Dates, the State cannot guarantee access to the site prior to the bid submittal due date and no other submissions outside of the file-sharing site will be considered.

COST:

- The Bidder Contacts will be required to upload a complete copy of the Bidder's [EXHIBIT B: COST WORKBOOK](#) in the appropriate cost folder.
- The Bidder's [EXHIBIT B: COST WORKBOOK](#) file shall be titled with the *[Bidder's Name]* - Environmental Monitoring Equipment - STP-SW-EME-26 - [EXHIBIT B: COST WORKBOOK](#).
- The Bidder's cost workbook shall be in MS Excel format (version 2019 or higher).

If a file is uploaded in error to a file-sharing site folder, the Bidder may submit a request by email to the Procurement Officers prior to the last day to submit bids. **Do not upload compressed files (.zip files) onto the file-sharing site.**

Bids must be received no later than the date and time specified in [SECTION 2.3. KEY ACTION DATES](#) . Late receipt of an offer may be considered non-responsive and may be the basis for rejecting the Bidder's bid.

5.4. BID CONTENT AND STRUCTURE

It is the Bidder's responsibility to ensure its bid is submitted in a manner that enables the State to easily locate all response descriptions, Attachments, and Exhibits for each requirement of this solicitation. Page numbers should be in the same position throughout the bid. Figures, tables, charts, etc., should be assigned index numbers and should be referenced by these numbers in the text and in the Table of Contents. Figures, tables, charts, etc., should be placed as close to text references as possible. The bid should be organized to identify the Attachments/Exhibits.

1. Show the following on each page of the bid:
 - a. Solicitation #
 - b. Name of Bidder

- c. Attachment/Exhibit Number
 - d. Page number (Page # of ##)
-
2. Response components shall be submitted electronically using the Arial or Century Gothic font no smaller than 12 points, with headers/footers and table/figures no smaller than 10 point font.
 3. Documents must be formatted to fit, if printed, on 8.5" x 11" letter-size paper and have a perimeter margin no less than one-half inch (0.5").
 4. Electronic copies of the bid must be in Microsoft Office version 2019 or higher (e.g., MS Word, MS Excel, MS Visio, etc.). The Bidder may include a PDF version of its bid; however, the Bidder must ensure PDF versions are identical in content and pagination. **The content of all PDF files must be searchable.**
 5. PDF versions of documents shall be used for those submissions of the bid that require signature.
 6. The Bidder must ensure that no cost information of any type is included outside of the Cost Workbook. The inclusion of cost in any part of the bid, except for Volume 2, may be the basis for rejection of the Bidder's bid.
 7. Bidders must ensure their bid is submitted in the applicable file-sharing site folders.
 8. As stated in [SECTION 2.4.5. CONFIDENTIALITY](#), offers marked "confidential" or "proprietary" may exclude the Bidder from consideration for award.

6. EVALUATION

This section details the evaluation process and scoring procedures the State will follow when evaluating bids submitted in response to this solicitation. The evaluation process is a multi-step review of each Bidder's bid to determine that it is responsive and meets all requirements set forth in this solicitation and any State negotiated items.

The State reserves the right to modify or cancel this procurement in its entirety or in part at any time.

6.1. EVALUATION TEAM

This procurement is being conducted under the guidance of a Procurement Officer listed in [SECTION 2.2.1. PROCUREMENT OFFICER](#)). The Procurement Officer will serve as the Bidder's point of contact for questions and clarification, and will identify the rules governing this procurement.

The State will establish an evaluation team consisting of State employees only, including management and staff, to review and evaluate bids. The State Procurement Officers will provide guidance and oversight to the evaluation team. The State may engage additional qualified individuals or subject matter experts (SME) during the evaluation process to assist the State in gaining a better understanding of technical, financial, legal, contractual, or program issues. These other individuals do not have voting privileges or responsibility for the evaluation process and will serve solely in an advisory capacity.

6.2. BID EVALUATION

This section identifies how the State will evaluate each bid in a manner that preserves the integrity of the competitive procurement process.

Bids will be evaluated based on compliance with all solicitation requirements, using mandatory pass/fail criteria. The evaluation result of each component will be made by consensus of the Evaluation Team members. Each bid component evaluated is as follows:

Table 6.2-1: Evaluation Scoring

REQUIREMENT	SCORING ELEMENT	SCORING METHOD
Non-Negotiable Requirements	Mandatory	Pass/Fail
Administrative Requirements	Mandatory	Pass/Fail
Qualification Requirements	Mandatory	Pass/Fail
Cost Requirements	Mandatory	Pass/Fail

6.2.1. VALIDATION AGAINST REQUIREMENTS

The State will review each bid in detail to determine its compliance with the solicitation requirements. The State reserves the right to use multiple means to validate and determine the Bidder's response to a requirement. This may be through details in its description and/or supporting documentation provided or material that is publicly available, that may either support or contradict the Bidder's claim of intended compliance.

During the bid evaluation, the State may request the Bidder clarify any area of the bid that the State determines to be unclear in accordance with [SECTION 6. EVALUATION](#).

If a Bidder's bid fails to meet a mandatory requirement, it will be considered a deviation in accordance with [SECTION 2.4.1. IDENTIFICATION AND CLASSIFICATION OF SOLICITATION REQUIREMENTS](#).

6.2.2. ERRORS IN THE BID

An error in the bid may cause the rejection of that bid. However, the State may at its sole option retain the bid and make certain corrections. In determining if a correction will be made, the State will consider the conformance of the bid to the format and content required by the solicitation, and any unusual complexity of the format and content required by the solicitation. If appropriate, errors may be corrected in accordance with the following:

- A. If the Bidder's intent is clearly established based on review of the complete bid submittal, the State may at its sole option correct an error based on that established intent.
- B. If the State discovers obvious clerical or arithmetic errors, the State may, at its sole option, correct such errors. If the mathematical correction results in significant changes to the Bidder's response, the State will provide the Bidder the opportunity to validate the resulting correction.
- C. It is essential that Bidders carefully review the cost elements in their bids since they may not be provided the opportunity to correct errors after submission.
- D. In the event an ambiguity or discrepancy between any of the State's solicitation documents is detected after review of the bids, the State reserves the right to seek clarification and acceptance from the Bidder.
- E. The Bidder is required to thoroughly review the solicitation to ensure that its bid is fully responsive with the solicitation requirements and thereby avoid the possibility of being ruled non-responsive. It is the Bidder's responsibility to utilize the question and answer process to clarify any ambiguities in the solicitation requirements to ensure that the Bidder is submitting a responsive bid.
- F. At the State's sole discretion, it may declare all bids to be Draft Bids. Bidders may not protest the State's determination of all bids being declared Draft Bids. If all bids are declared to be Draft Bids, the State may issue an addendum to this solicitation. Should this occur, confidential discussions may be held with Bidders that wish to remain under consideration. Each Bidder will be notified of

the due date for the submission of a new bid to the State. This submission must conform to the requirements of the original IFB or as modified by an addendum. The new bids will be evaluated as required by [SECTION 6. EVALUATION](#).

6.2.2.1. BIDDER RESPONSE CLARIFICATION

The State may request that a Bidder clarify any area of their response that the State determines to be unclear. The State may also request clarification for areas that may render the bid non-responsive to the requirements and provide Bidders the opportunity to resubmit a responsive bid by the date and time specified by the State. However, if the Bidder does not resubmit a responsive bid to the areas identified by the date and time specified by the State, the Bidder's bid will be rendered non-responsive, and ineligible to proceed to the next phase of the solicitation process. Clarifications may be requested via writing or confidential discussion.

6.3. NON-NEGOTIABLE REQUIREMENT EVALUATION

Review of the bids will begin with the Evaluation team ensuring that the Bidder has responded to the non-negotiable requirement(s) identified in [SECTION 3.1. PREQUALIFICATION REQUIREMENTS](#).

Non-negotiable Requirements will be evaluated as a Pass/Fail. If a bid fails to meet any non-negotiable requirement, it may be considered non-responsive and may be the basis for rejecting the Bidder's bid.

6.4. ADMINISTRATIVE REQUIREMENTS EVALUATION

Administrative Requirements will be evaluated as a Pass/Fail. Responsiveness to the requirements listed in this solicitation will be given either a "Pass" (e.g., complied with requirement, completed and returned document) or "Fail" (e.g., did not comply with requirement, did not complete or return document). If a bid fails to meet any mandatory requirement specified in [SECTION 3.2. ADMINISTRATIVE REQUIREMENTS](#) it may be considered non-responsive and may be the basis for rejecting the Bidder's bid.

Unless otherwise required, e-Signatures are acceptable.

6.4.1. SOCIOECONOMIC PROGRAMS EVALUATION

Bidders who claim socioeconomic programs will be evaluated to determine whether they submitted the required forms, documents, attachments, exhibits, and/or the responses necessary to validate their qualification and eligibility for the claim. If the State is able to validate the Bidder's claim, the qualified programs for the Contractor will be indicated in the ordering instructions after award.

6.5. QUALIFICATION REQUIREMENTS EVALUATION

Qualification Requirements will be evaluated as a Pass/Fail. Responsiveness to the requirements listed

in this solicitation will be given either a “Pass” (e.g., complied with requirement, completed and returned document) or “Fail” (e.g., did not comply with requirement, did not complete or return document). If a bid fails to meet any mandatory requirement specified in [SECTION 3.3. QUALIFICATION REQUIREMENTS](#) it may be considered non-responsive and may be the basis for rejecting the Bidder's bid.

Unless otherwise required, e-Signatures are acceptable.

6.5.1. BIDDER QUALIFICATIONS EVALUATION

The State will evaluate Bidder qualifications using the information contained in the completed [ATTACHMENT 10: BIDDER QUALIFICATIONS FORM](#). Descriptions of experience must be clear, concise, and apply directly to the requirements.

To aid the State in evaluating Bidder qualifications, the Bidder should use a MM/DD/YYYY format when indicating project start and end dates. If a Bidder submits a bid using any other date format, the State will count only the whole months or years between the start and end dates specified.

If a project end date is ongoing or exceeds the bid due date, then the Bidder will receive credit for only the experience acquired up to the bid due date specified in [SECTION 2.3. KEY ACTION DATES](#) . In this instance, Bidders are instructed to use the bid due date as the end date of ongoing projects. Concurrent project timeframes (overlapping dates) will only count once for calculating the number of years and months of qualification experience.

If the number of years and months for a project was not indicated on the Bidder Qualification form “Experience gained on this cited Project” and the Bidder checked “yes” to meeting the total experience on the project cited, then the Bidder will only receive experience credit for the minimum number of years required for that requirement **OR** will receive the number of years indicated on the start/end date of the Bidder Qualification form, whichever is less.

Bidders that do not complete and submit all required Bidder qualification forms with their bid may be considered non-responsive and may be the basis for rejecting the Bidder's bid.

6.6. COST REQUIREMENT EVALUATION

After [SECTION 3.2. ADMINISTRATIVE REQUIREMENTS](#) and [SECTION 3.3. QUALIFICATION REQUIREMENTS](#) have been evaluated, the Evaluation Team will evaluate the cost workbook (Bidder's response to Volume 2). The evaluation team will verify the cost workbook is complete and free of mathematical errors. If appropriate, errors will be corrected in accordance with [SECTION 6.2.2. ERRORS IN THE BID](#).

After the initial completeness and accuracy review, the evaluation team will review the individual line item

pricing to determine fair and reasonable costs. Each category will be independently evaluated. All line items included in the Bidder's cost workbook must contain the following information:

1. Category of EME Items:
 - a. Equipment or service item listed in applicable category
 - i. Alternative item equivalent may be considered
 - b. Description/Specifications of the item listed
 - c. Unit of Measure
 - d. Product Identifier (example: SKU #)
 - e. Manufacturer's Suggested Retail Price (MSRP)(catalog price for each item)
 - f. Discount percentage (%) off the published MSRP (the State is seeking a minimum of 10%)
 - g. Contract price (unit price for each item after discount)
2. If available, Bidder shall provide a public-facing link to a searchable catalog that includes Category Items and all MSRP catalog items (referred to as an 'electronic catalog') on the [EXHIBIT B: COST WORKBOOK](#), Tab #1 - Cover Page. **For evaluation purposes only, the State is requesting Bidders to submit a completed [EXHIBIT B: COST WORKBOOK](#) to include the public-facing catalog items.**

Cost Requirements will be evaluated as a pass/fail. If a Bid fails to meet any mandatory requirement specified in [SECTION 4. COST REQUIREMENT](#), it will be considered a deviation in accordance with Section [SECTION 2.4.1. IDENTIFICATION AND CLASSIFICATION OF SOLICITATION REQUIREMENTS](#).

Any elements not specifically priced or identified in the Bidder's cost workbook, or those that are identified after Contract Award as necessary to meet the requirements of this solicitation, will be at no additional cost to the State.

NOTE: It is imperative that no cost information be included anywhere outside of [EXHIBIT A: COST WORKBOOK](#) may be considered non-responsive and may be the basis for rejecting the Bidder's bid.

6.7. BID EVALUATION RESULTS

The evaluation team will document the results of each Bidder's evaluation to determine which bids are eligible for negotiations with the State.

7. NEGOTIATIONS

This solicitation is being conducted under the authority of CDT pursuant to Public Contract Code (PCC) §6611, which provides the authority to use a competitive negotiation process when the State's business needs or the purpose of a procurement or contract is known, but negotiation is necessary to ensure the

State receives the best value or the most cost-efficient goods, services, information technology, and telecommunications technology.

Negotiations allow the State and Bidder an opportunity to discuss items that could, in the State's opinion, enhance the Bidder's bid and potential for award. Negotiations are not intended to allow a Bidder to completely rewrite its bid. The negotiations are exchanges between the State and the Bidder, which are undertaken with the intent of allowing the Bidder to revise its bid only in areas determined by the State during the negotiation process. Negotiations will be conducted either orally or in writing.

The State may discuss any aspect of the Bidder's bid that could, in the opinion of the State, be altered or explained to enhance the bid's potential for award. However, the State is not required to discuss every area where the Bidder's bid could be improved. The scope and extent of negotiation exchanges are the matter of the State's judgment. The State reserves the right to modify or cancel this solicitation in its entirety or in part at any time.

At the State's discretion, the State will determine the topics for negotiation and reserves the right to revise the scoring criteria for Best and Final Offer evaluation to obtain the best value solution.

Award of a contract, if made, will be to the Bidder(s) that meet and/or exceed the State's requirements and provides the best value to the State. All aspects of the Bidder's bid are confidential until after the issuance of the notification of award.

7.1. PROCEEDING TO NEGOTIATIONS

The State will use the following non-negotiable item(s) to determine if a Bidder's response is successful and the Bidder is eligible to participate in the negotiation process:

1. The Bidder must have a CDT OSTP approved eVAQ application on file by the bid submission due date of this IFB, specified in [SECTION 2.3. KEY ACTION DATES](#) .

Negotiated items will be determined by the State after bids are evaluated. If a Bidder's bid deviates from any of the non-negotiable requirements above, the bid may be basis for rejection and not considered for negotiation or Contract Award. Failure to meet any requirement other than the mandatory non-negotiable requirements may be considered non-responsive and may be basis for rejecting the Bidder's bid.

7.2. NEGOTIATION INVITATION

Bidder(s) invited to participate in negotiations will receive an Invitation to Negotiate with the following information:

1. The general purpose and scope of the negotiations;
2. The anticipated schedule for the negotiations;

3. The procedures to be followed for negotiations; and
4. Confirmation of negotiation attendance within two (2) working days of invitation.

The Bidder(s) must submit any additional information requested by the State by the due date specified in the Invitation to Negotiate letter.

7.3. BEST AND FINAL OFFER SUBMISSION (BAFO)

At the conclusion of negotiations, the State may request a best and final offer (BAFO) submission. The intent of the BAFO is to clarify and document understandings reached during negotiations. The State will include a date and time for submission of the BAFO. A Bidder's BAFO is an irrevocable offer for one hundred and twenty {120} calendar days following the Contract Award date specified in [SECTION 2.3. KEY ACTION DATES](#). A Bidder may extend the offer in the event of a delay in the Contract Award.

7.4. EVALUATION OF BAFO SUBMISSION

The State will evaluate the BAFO submission based on topics negotiated. BAFOs will be evaluated using the criteria and methodologies described in [SECTION 6. EVALUATION](#) or a BAFO addendum, if issued for purposes of this solicitation's negotiations.

8. CONTRACT AWARD

Contract Award, if made, will be to the Bidder that meets and/or exceeds the State's requirements and provides the best value to the State and will occur pursuant to the Key Action Dates of the solicitation document specified in [SECTION 2.3. KEY ACTION DATES](#). However, the State, at its sole option, may change the Contract Award date.

The State will publish a Notification of Award to all Bidders that have submitted a response to this solicitation. Notification of Award will be sent at the time of Agreement execution.

All aspects of the Bidder's offer are confidential until after the issuance of the Notification of Award.

9. DEBRIEFING

A debriefing may be held within fifteen (15) calendar days following Contract award at the request of any Bidder for the purpose of receiving specific information concerning the evaluation. The discussion will be based primarily on the bid requirements and cost evaluations of the Bidder's bid. A debriefing is not the forum to challenge the solicitation specifications or requirements. Statements made during the debrief are non-binding on the State and are intended for informational purposes only.

10. PROTESTS

This procurement process does not include any provisions to protest either the process or resulting contract award(s). However, pursuant to PCC § 6611(d), an unsuccessful Bidder may file a petition for a writ of mandate in accordance with Section 1085 of the Code of Civil Procedure. The venue for the petition for a writ of mandate will be Sacramento, California.
