8.1.1-08 (existing)	The Contractor shall proceed to work on Deliverables prior to the State's formal Acceptance of any preceding Deliverables; as this does not relieve the Contractor of the obligation to adhere to the Deliverable Schedule as defined in the approved Work Plan.
8.1.1-09 (existing)	The Contractor shall work collaboratively with assigned State staff, including the State Contracts team, and committees and workgroups during the Deliverable development and review process, where appropriate, to minimize expectation gaps and expedite the acceptance process.
8.1.1-10 (existing)	The Contractor shall complete all Contract approved Deliverables, subject to SOW Sections 8.7 - 8.13.
8.1.1-11 (existing)	The Contractor shall ensure that all recommendations and Contract Informal and Formal Deliverables comply with the Patient Protection and Affordable Care Act of 2010, as well as all state law requirements that were passed in Assembly Bill 1602 (Chapter 655, Statutes of 2010), and Senate Bill 900 (Chapter 659, Statutes of 2010).
8.1.1-12 (existing)	The Contractor shall provide all Informal and Formal Deliverables within the timeframe specified and required by the State.
8.1.1-13 (existing)	The Contractor shall understand that all Informal and Formal Deliverables shall be reviewed, approved and accepted by the State.
8.1.1-14 (existing)	The Contractor understands that any State-requested revisions to any Deliverable shall be incorporated by the Contractor within seven (7) calendar days from the date in which the State provided its feedback or within a timeframe required and specified by the State.
8.1.1-15 (existing)	In the event the State requires additional refinements and modifications for any Deliverable which occurs after that Deliverable has been previously accepted by the State, the Contractor shall be required to make the additional revisions until the revised Deliverable is accepted and approved by the State.

8.2 DELIVERABLE EXPECTATION DOCUMENT (DED)

There are not many deliverables that require a DED. However, in the event that a DED is required, refer to the guidance herein.

A DED outlines what the Contractor proposes to include in the Deliverable. The DED should reflect the planned Deliverable content for all versions, even if the content is not included in the initial version.

Transition in deliverables will use the existing CalHEERS Transition DED as the starting point for creation of a new DED. The expectation is that the contractor will create a new DED by adopting the existing DED structure and content, making updates only to incorporate necessary changes resulting from the new contract. The Contractor shall create a new DED with additional expectations for the new deliverable, to be delivered for review and approval by the State. Upon approval of the new DEDs and based on existing CalHEERS Transition deliverables as samples

for the structure of the deliverable, the Contractor shall submit new Transition deliverables with updated and new DED requirements for review and approval by the State.

The DED identifies the Contractor's proposed response to the Deliverable's requirements specifications. The DED is submitted to the State Project Director or designee for review and approval prior to the development of the actual Deliverable. Modifications to Deliverable requirement specifications and/or the Contractor's DED can be identified during the review and approval process.

8.2.1 Deliverable Expectation Document

Table 8-2: DED Requirements

Req #	SOW Requirement
8.2.1-01 (existing)	The Contractor shall ensure that a DED will be submitted to the State Project Director or designee for each new Formal Deliverable, or as requested by the State Project Director or designee. Existing Deliverables (e.g., Operations Plan) will not require a DED, unless requested by the State Project Director or designee.
8.2.1-02 (existing)	The Contractor shall obtain the State's approval of a DED prior to developing the initial Deliverable.
8.2.1-03 (existing)	The Contractor shall ensure that Deliverables address all contractual requirements through the development and refinement of their associated DED.
8.2.1-04 (existing)	The Contractor shall ensure that the DED will be developed to conform to the standards agreed upon by the State Project Director or designee and the Contractor.
8.2.1-05 (existing)	The Contractor shall ensure that the DED will specify the content description, proposed format, proposed media, and number of copies for each Deliverable.
8.2.1-06 (existing)	The Contractor shall ensure that the DED includes a summary that, at a minimum, contains the following information: 1. Deliverable Number 2. Deliverable Name 3. Version Number 4. Review Gate Alignment 5. Acceptance Review & Walkthrough Requirements 6. Frequency of Submission 7. Final Deliverable Due Date 8. Date of Subsequent Submission 9. Delivery/Format
8.2.1-07 (existing)	The Contractor shall include, with all DEDs, a crosswalk table which maps each item listed in the Deliverable's SOW requirements to the DED section where the requirement is met.
8.2.1-08 (existing)	The Contractor shall ensure that each DED will include a DED transmittal letter, the document title, version number, a document control number, and date of the delivery.
8.2.1-09 (existing)	The Contractor shall ensure the DED lists the specific requirements for the Deliverable as described in the Contract.
8.2.1-10 (existing)	The Contractor shall ensure the DED lists the specific source of the requirement, including the document name, paragraph or page number, and the requirement number.
8.2.1-11 (existing)	The Contractor shall ensure the DED lists all applicable requirements (not just the single requirement that the Deliverable must be provided).
8.2.1-12 (existing)	The Contractor shall ensure the DED lists any documents that are referenced within the DED for the Deliverable.

Req #	SOW Requirement
8.2.1-13 (existing)	The Contractor shall provide a high-level outline of the Deliverable in the following format: Introduction 1. Assumptions, Constraints and Risks 2. Requirements 3. Referenced Documents 4. Glossary/Terminology 5. Acronyms 6. <Section 1 > - <Description> a. <Subsection 1> b. <Subsection 2> 7. <Section 2> - <Description> a. <Subsection 1> 8. <Subsection 1>
8.2.1-14 (existing)	The Contractor shall ensure each DED includes, at a minimum the following: 1. Approach for Deliverable development 2. Assumptions, constraints or risks related to the Deliverable 3. Scope 4. Schedule (key activities, due dates) 5. Critical Dependencies 6. Resources 7. Acceptance Criteria

8.2.2 DED Approval and Acceptance Process

Table 8-3: DED Approval and Acceptance

Req #	SOW Requirement
8.2.2-01 (existing)	The Contractor shall submit a DED to the State Project Director or designee for review and approval.
8.2.2-02 (existing)	The Contractor will work with the State to resolve all outstanding comments and issues related to a DED's acceptance.
8.2.2-03 (existing)	The State will approve the DED if the DED conforms to the Deliverable's requirements specifications and does not contain formatting errors. In addition, the State will provide comments and suggested edits electronically, by using Microsoft Word's track changes functionality, when a DED is not accepted.
8.2.2-04 (existing)	The State will notify the Contractor of the DED approval when there are no outstanding comments or suggested edits. The Contractor is then authorized to produce the Deliverable.

8.3 PREPARATION OF DELIVERABLES

This section outlines the expectations for preparation of Deliverables.

8.3.1 Preparation of Deliverables

For the preparation of Deliverables, the Contractor must include the following requirements.

Table 8-4: Preparation of Deliverables

Req #	SOW Requirement
8.3.1-01 (existing)	Except for Status Reports and unless otherwise approved, the Contractor shall accurately include the following standard sections in each Formal Deliverable: 1. Introduction 2. Assumptions, Constraints and Risks 3. Requirements 4. Referenced Documents 5. Glossary 6. Acronyms 7. Appendices as applicable
8.3.1-02 (existing)	The Contractor shall accurately define and implement the process for submitting CalHEERS Project Deliverables including but not limited to: 1. DEDs 2. General Acceptance Criteria 3. Draft Submissions 4. Revisions 5. Final submissions 6. Approval/Acceptance
8.3.1-03 (existing)	The Contractor's processes and Deliverables shall meet or exceed the current version of standards (IEEE, Project Management Body of Knowledge (PMBOK), and Information Technology Infrastructure Library (ITIL)) cited within Appendix A-4, STATEMENT OF WORK (SOW). As new versions of standards are available, adoption of the new standard will be considered through the change control process and approved by the State Project Director or designee.
8.3.1-04 (existing)	The Contractor shall use a document process that adheres to ISO/IEC 121207 IEEE Std. 12207-2008 Systems and Software Engineering—Software Life Cycle Processes (7.2.1 - Software Documentation Management Process).
8.3.1-05 (existing)	The Contractor shall adhere to the State's Document Management Plan and processes.
8.3.1-06 (existing)	The Contractor shall ensure that each work plan or Deliverable shall be placed under configuration management, in accordance with the processes defined within the Configuration Management Plan.
8.3.1-07 (existing)	The Contractor shall develop, deliver, and maintain user documentation, as follows: 1. Contractor shall identify the user documentation using the methodology of ISO/IEC/IEEE 26512- Systems and Software Engineering - Requirements for acquirers and suppliers of user documentation (5- User Documentation within a System/Software Life Cycle, 8-User documentation specification) and ISO/IEC/IEEE 23026:2015—Systems and Software Engineering—Engineering and management of websites for systems, software, and services information (7.3 - Developing a Strategy for Website Lifecycle Management) to include User's Manuals and Service Desk Procedures. 2. All user documentation shall have a Flesch Reading ease score of at least 60 and Flesch-Kincaid Grade Level of no more than 8.
8.3.1-08 (existing)	The Contractor shall ensure that Deliverables will be developed with consistent style and quality, in accordance with the Document Management Plan and the technical writing standards, as defined by the State Project Director or designee. This means that if the Deliverable is the composite work of multiple people within the Contractor's organization, the Deliverable shall be edited for style and consistency.
8.3.1-09 (existing)	The Contractor shall develop each Deliverable identified as requiring a DED, ensuring that it is consistent with all components identified in the related State approved DED.
8.3.1-10 (existing)	The Contractor shall ensure that each work plan or Deliverable will be updated to reflect the current business and system requirements.

Req #	SOW Requirement
8.3.1-11 (new)	The Contractor shall ensure that Deliverables are identifiable on the Deliverable Hierarchy Diagram and categorized correctly in accordance with the requirements for the DEL.
8.3.1-12 (new)	The Contractor shall provide training on formal deliverables for the State Deliverable Owner and their Team as deliverables are assigned for review as part of the Deliverable Prioritization Recommendation Report process. The State at its discretion shall notify the Contractor if a training session will be canceled.

8.4 DELIVERABLE SUBMISSION

The initial Deliverable shall conform to the Deliverable's Requirements Specifications. Contractor may submit a draft version of the Deliverable electronically, prior to the Deliverable's initial due date, for State review and comment. As specified in the General Provisions, "Time, if stated as a number of days, shall mean calendar days unless otherwise specified." (See APPENDIX A-2, CalHEERS SDMO GENERAL PROVISIONS, Section 14, DELIVERY)

8.4.1 Formal Deliverable Submission

For the submission of Deliverables, the Contractor must include the following requirements.

Table 8-5: Deliverable Submission

Req #	SOW Requirement
8.4.1-01 (existing)	The Contractor shall submit all Deliverables to the State Project Director or designee with a signed Deliverable Transmittal Letter. Each Deliverable Transmittal Letter shall be signed by the Contractor's representative who has been authorized to sign legal documents on behalf of the company and shall contain the following: 1. Deliverable Name 2. Related SOW Reference(s) 3. Deliverable due date 4. Actual completion date 5. Actual transmittal date 6. CalHEERS comments due date 7. Include the following statement: "I certify this Deliverable has been prepared in accordance with the relevant terms and conditions of the Contract and meets all Contract requirements." 8. Include the following statement: "<Contractor Name> has used the internal Deliverable review process as described in the Deliverable Management Process" 9. Include the following statement: "A walkthrough may be held during the CalHEERS review period upon request." 10. Signature of a Contractor representative who is authorized to sign legal documents on behalf of the company.
8.4.1-02 (existing)	The Contractor shall provide to the State Project Director or designee, in writing, the names and positions of the Contractor representatives who are authorized to sign Deliverable Transmittal Letters and other legal documents on behalf of the Contractor.
8.4.1-03 (existing)	The Contractor shall provide to the State Project Director or designee, in writing, with an updated list of the names and positions of the Contractor representatives who are authorized to sign Deliverable Transmittal Letters and other legal documents on behalf of the Contractor within five (5) Business Days of identification of a change to the list.
8.4.1-04 (existing)	The Contractor shall submit all Deliverables for acceptance to the State Project Director or designee.
8.4.1-05 (existing)	The Contractor shall submit Deliverables to the State Project Director or designee in accordance with SOW Sections 8.7 – 8.13 and the Transition-In work plan for the initial submittal, and the CalHEERS M&O Master Plan and the Document Management Plan for subsequent submittals.

Req #	SOW Requirement
8.4.1-06 (existing)	The Contractor shall submit Deliverables in the format specified in SOW Section 8, DELIVERABLES, the Document Management Plan, or as requested by the State Project Director or designee.
8.4.1-07 (existing)	The Contractor shall submit Deliverables in versions of software that are compatible with the versions of software used by the CalHEERS Project Management Office.
8.4.1-08 (existing)	The Contractor shall submit Deliverables via the media specified in this Section, the Document Management Plan, or as requested by the State Project Director or designee. Utilization of alternate media shall be approved by the State Project Director or designee.
8.4.1-09 (existing)	The Contractor shall submit two (2) electronic versions of Deliverables, one (1) in PDF format and one (1) in Microsoft changes to reflect the changes from the prior submission.
8.4.1-10 (existing)	The Contractor shall give Confirmation for each Deliverable.
8.4.1-11 (existing)	The Contractor shall include, with all Deliverables, a quality assurance (QA) checklist as defined in SOW Section 8.5, FORMAL DELIVERABLE APPROVAL PROCESS.
8.4.1-12 (existing)	When revisions to a Deliverable are identified by the State, the Contractor shall update and re-submit the Deliverable within five (5) Business Days of receipt of State notification.
8.4.1-13 (existing)	The Contractor shall mark any recurring Deliverable, which has not been changed since the last submission, with "No Changes Made". The Contractor shall make this entry within the Deliverable's document history section.

8.4.2 Formal Deliverable Format

As it relates to Deliverable format, any deviations to established standards must be approved by the OTSI Information Technology Office (ITO) and Information Security Office (ISO).

Hard copy Deliverables must be on standard format as agreed to with the State. Electronic versions must be stored in an approved State designated repository and remain the sole property of the State.

For the submission of Deliverables, the Contractor must adhere to the following requirements.

Table 8-6: Deliverable Format

Req #	SOW Requirement
8.4.2-01 (existing)	The Contractor shall ensure that all Deliverables must be developed in versions of software that are compatible with the current CalHEERS Project Office standard applications (Microsoft Office).
8.4.2-02 (existing)	The Contractor shall verify the software's compatibility with the State's Contract Manager prior to the creation or delivery of any electronic documentation.
8.4.2-03 (existing)	The Contractor shall ensure the delivery media shall be compatible with State storage devices.
8.4.2-04 (existing)	The Contractor shall ensure that each Formal Deliverable, includes but is not limited to the following: 1. Cover Page - document title, version number, date, and Contractor name 2. Table of Contents 3. Document History - that reflects each version, the date, document control number, revision reason/description and author 4. Documentation Location Listing 5. Introduction - that includes the document's purpose, suggested audience, and key terms 6. Summary - that describes the Deliverable's scope and summarizes the main points 7. Assumptions, constraints, and risks 8. Requirements

Req #	SOW Requirement
	a. Requirement Number/RTM number b. Requirement Description c. Contract Identifier (e.g., Section of RFP, SOW, Exhibit, Change Request (CR)) 9. Comments- if applicable 10. Listing of referenced document(s) 11. Page headers - that include the document title 12. Page footers - that include the page number, document version, and date 13. Acronyms and Abbreviations 14. Glossary 15. Appendices – if applicable

8.4.3 Quality Assurance Checklist

The following Quality Assurance (QA) checklist is intended to provide the Contractor with guidance in identifying and planning related to Deliverable quality.

For each Formal Deliverable, the Contractor must include the following requirements.

Table 8-7: Quality Assurance Checklist

Req #	SOW Requirement
8.4.3-01 (existing)	As a tracking and Deliverable management tool, the Contractor shall accurately provide and maintain the following information within a single file: 1. All Deliverable Expectation Documents (DEDs) and their associated due dates, submittal dates and approval dates. 2. All Deliverables, their due dates, submittal dates, approval dates, invoice dates and payment dates (as applicable).
8.4.3-02 (existing)	The Contractor shall ensure the QA Checklist Deliverable includes but is not limited to the following: 1. The Contractor's content reviewer or approved designee's signature and date signifying a review of the Deliverable's content. 2. The Contractor's format reviewer or approved designee's signature and date signifying a review of the Deliverable's format.
8.4.3-03 (existing)	The Contractor shall ensure the Quality Assurance (QA) Checklist Deliverable. The QA Checklist shall include, but not be limited to the following: 1. Deliverable name 2. Contractor Deliverable owner 3. Deliverable owner 4. Deliverable submission date 5. Include the following statement: "This Deliverable has been developed/updated to include content up to and including Release (n.n)." 6. Deliverable walkthrough date(s)
8.4.3-04 (existing)	The Contractor shall ensure the Quality Assurance Checklist Deliverable includes a QA Checklist Table (Y/N) that contains, but is not limited to the following: 1. Have the changes, edits and deletions that were identified and mutually agreed upon by Deliverable Owners in walkthrough(s) been applied to the Deliverable? (Y/N) 2. Does the Deliverable address all walkthrough discussion items? (If not, attach list of exceptions.) (Y/N) 3. Has the Contractor addressed all State comments in the Deliverable? (If not, attach list of exceptions.) (Y/N) 4. Does the Deliverable meet content requirements of the Contract and DED? (Y/N) 5. Does the Deliverable meet the format requirements and quality level? (Y/N)

Req #	SOW Requirement
	6. Does the Deliverable contain consistent and accurate: - Spelling? (Y/N) - Grammar, sentence structure, syntax? (Y/N) - Acronym definitions? (Y/N) - Formatting? (Y/N) - Cross references? (Y/N) 7. Has the Deliverable been properly included in the Configuration Management Tool?(Y/N) 8. Has the Deliverable and DED been properly linked to the Deliverable specification requirements in the SOW? (Y/N)

8.4.4 Deliverable Transmittal Letter

Table 8-8: Deliverable Transmittal Letter

Req #	SOW Requirement
8.4.4-01 (existing)	For each Deliverable submitted for acceptance/approval, the Contractor shall accurately include a formal transmittal letter from the Contractor Project Manager (or designee) to the State Project Director or designee. The transmittal letter must certify that the subject Deliverable meets all applicable Specifications, DEDs, and Contract requirements.
8.4.4-02 (existing)	The Contractor shall submit a Transmittal Letter that contains the following: - Deliverable name - Related SOW reference(s) - Deliverable due date - Actual completion date - Actual transmittal date - State comments due date - Include the following statement: "I certify this Deliverable has been prepared in accordance with the relevant terms and conditions of the Contract, and meets all Contract requirements." - Include the following statement: "<Contractor Name> has used the internal Deliverable review process as described in the Document Management Plan." - Include the following statement: "A walkthrough can be held during the CalHEERS review period upon request." - Signature of the Contractor representative who is authorized to sign legal documents on behalf of the company.

8.4.5 Media and Number of Copies

This specific Deliverable and all supporting documents are to be submitted to the following location:

Table 8-9: Media and Number of Copies

Req #	SOW Requirement
8.4.5-01 (existing)	The Contractor shall provide the transmittal letter in a format as agreed to with the State and submitted as directed by the State Project Director or designee.

8.5 FORMAL DELIVERABLE APPROVAL PROCESS

The CalHEERS Project Deliverables are categorized into two groups, "Formal" and "Informal" Deliverables. This is based upon the type of Deliverable and the review and acceptance process.

Formal Deliverables are required to meet all Deliverable requirements and go through a rigorous review and acceptance process.

Informal Deliverables (e.g., meeting agendas/minutes, ad hoc reports) are also required to meet all Deliverable requirements but go through a less rigorous review and acceptance process.

8.5.1 Formal Deliverable Review and Approval Process

Formal Deliverables must conform to the Deliverable submission requirements referenced in the requirements in the following table.

Refer to APPENDIX A-2, SPECIAL PROVISION, A-2.3, SERVICE LEVEL AGREEMENTS & LIQUIDATED DAMAGES.

Table 8-10: Formal Deliverable Review and Approval

Req #	SOW Requirement
8.5.1-01 (existing)	The Contractor shall accurately provide the State with Deliverables according to a work plan and applicable DEDs, the solicitation, the response, the Deliverables for which the State has previously granted acceptance, Contractor's knowledge, experience and expertise, and this Contract as the basis of subsequent Deliverables.
8.5.1-02 (existing)	The Contractor shall retain backup copies in writing and on electronic media of all Deliverables until 180 calendar days after termination or expiration of this Contract and shall provide the State on its request with a copy thereof until that time.
8.5.1-03 (existing)	The Contractor shall accurately submit an electronic Version of each Deliverable to the State Project Director, or designee, for acceptance. Once the State has approved a Deliverable, the Contractor must provide a read-only electronic copy.
8.5.1-04 (existing)	The Contractor shall submit each Deliverable no later than the delivery date established as per the Annual Deliverable Prioritization and the approved work plan.
8.5.1-05 (existing)	For the following specific formal Deliverables, the Contractor shall accurately conduct a formal walkthrough of the initial and final Deliverables with State Project staff, stakeholders, QA, Independent Verification & Validation (IV&V) and oversight consultants. 1. Project Work Plan 2. Master Plan 3. Technical System / Technical Architecture Design Document 4. Interface Control Document 5. Test Plan 6. Training Plan 7. Operations Manual
8.5.1-06 (existing)	In the event of a contradiction, conflict, ambiguity or inconsistency in or among Deliverables (including without limitation a Deliverable that has already received acceptance), any such contradiction, conflict, ambiguity or inconsistency shall be resolved in favor of the latest State-approved Deliverable except in the case where a previous documented requirement is inadvertently omitted or not addressed directly in a subsequent Deliverable.
8.5.1-07 (existing)	The Contractor shall not omit any requirement from the Specifications without the written consent of the State Project Director or designee.
8.5.1-08 (existing)	The State may have a minimum of five (5) Business Days for review of the Contractor's revised Deliverables. In addition, the State will submit a letter indicating acceptance of a revised Formal Deliverable when there are no outstanding comments or concerns.
8.5.1-09 (existing)	All Deliverables, and all updates to Deliverables (as agreed upon by the State and the Contractor), are subject to the State's Acceptance, including without limitation Deliverables provided pursuant to executed CRs.
8.5.1-10 (existing)	The State's review of Deliverables shall accurately be in accordance with the time frames set forth in a work plan.

Req #	SOW Requirement
8.5.1-11 (modified)	Notwithstanding the foregoing, or anything in this Contract to the contrary, the State's review, confirmation, and approval of design artifacts that are located in the central repository managed by the State, and those portions of Deliverables containing such design artifacts, shall accurately be subject to SOW 4.3.5, Detailed System Design Deliverable Design Merge Process.
8.5.1-12 (existing)	The State shall, with the Contractor's assistance and in accordance with any executed CR and other applicable Project documents, review or perform acceptance tests on the Deliverable, as applicable, to determine whether it conforms to its acceptance criteria.
8.5.1-13 (existing)	The State will provide Acceptance for a Deliverable or service if it does not have a Deficiency (except Cosmetic Deficiencies). However, if a Deficiency (other than a Cosmetic Deficiency) is found, the State will notify the Contractor in an email or other document of the Deficiencies used as the grounds for the State's decision not to give acceptance.
8.5.1-14 (existing)	If the Contractor is unable to correct a Deficiency(s) (except Cosmetic Deficiencies) within the number of days indicated in a work plan following the scheduled Acceptance, or if no such date is in a work plan, within 60 calendar days from such scheduled Acceptance, the State may, at its option: (a) continue reviewing or performing Acceptance Tests and require the Contractor to continue until Deficiencies (except for Cosmetic Deficiencies) are corrected or eliminated;(b) request the Contractor to provide, at its expense, a replacement Deliverable or Service for further review Acceptance Tests; or (c) after completion of the process set forth in the Contract, and providing Notice of default to the Contractor, terminate this Contract, in whole or in part as provided in APPENDIX A-2, SPECIAL PROVISIONS, Section 17.2, INABILITY TO CORRECT DEFICIENCIES DURING CURE PERIOD.
8.5.1-15 (new)	In coordination with the State, the Contractor shall adopt, maintain, and make recommendations to streamline the deliverable development, review, and approval process.
8.5.1-16 (new)	The Contractor shall update and submit for review and approval any off-cycle deliverable as requested by the State Deliverable Owner or Project Director or designee.

8.5.2 Revised Formal Deliverables

The revised Formal Deliverable process requirements are included in the Revised Formal Deliverables Table below.

Table 8-11: Revised Formal Deliverables

Req #	SOW Requirement
8.5.2-01 (existing)	If a Formal Deliverable is rejected, the Contractor shall correct the Deliverable and re-submit it to the State Project Director or designee within five (5) Business Days.
8.5.2-02 (existing)	If the modification requires longer than five (5) Business Days, or at the State's request, the Contractor shall provide a Corrective Action Plan (CAP) within five (5) Business Days of receiving the rejection letter.
8.5.2-03 (existing)	The Contractor shall submit a draft electronic copy of a revised Deliverable for State review and comment prior to formal submission of the revised Deliverable.
8.5.2-04 (existing)	For each revised Deliverable submitted to the State, the Contractor shall provide an electronic copy that shows the changes made to the Deliverable.
8.5.2-05 (existing)	For each revised Deliverable submitted to the State, the Contractor shall provide written responses to all State comments.
8.5.2-06 (existing)	The Contractor shall develop, submit, and gain State Project Director or designee approval of a CAP when a Deliverable is deemed deficient by the State, and it will take longer than five (5) Business Days to correct.

Req #	SOW Requirement
8.5.2-07 (existing)	The Contractor shall execute the CAP and facilitate a Deliverable review with the State once the Deliverable is corrected. (See SOW section 3.11.4, CORRECTIVE ACTION PLAN.)
8.5.2-08 (existing)	The Contractor shall conduct a walkthrough of any Deliverable upon request of the State Project Director or designee.
8.5.2-09 (existing)	The Contractor shall not change a Deliverable that has been accepted by the State without the written approval of the State Project Director or designee.
8.5.2-10 (existing)	The Contractor shall accurately correct deficiencies and re-submit a corrected Deliverable to or re-perform the Service for the State which will review or perform acceptance tests to verify whether the Deliverable or Service lacks deficiencies (except for cosmetic deficiencies) and in writing shall accurately either give its acceptance or reject it following such review or acceptance tests.
8.5.2-11 (existing)	The Contractor's times for correcting Deficiencies shall accurately be in accordance with the timeframes therefor set in a work plan and other Project documents.
8.5.2-12 (existing)	If time periods for correcting Deficiencies by the Contractor and reviewing and retesting corrected Deliverables or services by the State are not in a work plan or another Project document, each such time period for the Contractor to correct the deficiencies shall accurately be ten (10) Business Days.
8.5.2-13 (existing)	The Contractor shall accurately give notice to the State if the State has not given the Contractor Notice of rejection or acceptance in accordance with a work plan. If the State has not given notice within ten (10) Business Days following the receipt of notice from the Contractor, the State shall allow the Contractor to issue an invoice for one-half of the applicable payment that would have been due if the Deliverable had received acceptance, and the second half would be invoiced follow acceptance of such Deliverable.

8.5.3 Noncompliance to Deliverable Requirements

If the State rejects a Deliverable, it will notify the Contractor in writing. The State may withhold all payments associated with the rejected Deliverable until the Contractor corrects any outstanding deficiencies. The Contractor shall remediate the defective Deliverables pursuant to the State's direction and may only receive payment once the Deficiencies have been remediated to the State's satisfaction.

Table 8-12: Noncompliance to Deliverable Requirements

Req #	SOW Requirement
8.5.3-01 (existing)	If a Deliverable is rejected, the Contractor shall correct and resubmit the Deliverable within the agreed upon timeframes as defined in the approved work plan that will vary with the type, complexity, and volume of the Deliverable.

8.5.4 Formal Deliverable Approval

The figure below shows the process by which formal Deliverables are approved.

Figure 8-1: Formal Approval Process

8.6 INFORMAL DELIVERABLE APPROVAL PROCESS

8.6.1 Informal Deliverable Submission

The following requirements apply to the preparation and submission of an Informal Deliverable. For each Informal Deliverable, the Contractor must adhere to the following requirements.

Table 8-13: Informal Deliverable Submission

Req #	SOW Requirement
8.6.1-01 (new)	The Contractor shall submit the first iteration of all Informal Deliverables to include a TOC, include the content or a representative example of the informal deliverable submission, and Appendix 1, 2 and 3 for approval by the State Project Director or designee.
8.6.1-02 (existing)	The Contractor shall submit all Informal Deliverables to the State Project Director or designee based upon the Deliverable's requirements specifications.
8.6.1-03 (existing)	The Contractor shall include a cover page with the document title, version number, date, document control and the Contractor's name in all Informal Deliverables, unless otherwise requested or waived by the State.
8.6.1-04 (existing)	The Contractor shall include a table of contents in all Informal Deliverables, unless otherwise requested or waived by the State.

Req #	SOW Requirement
8.6.1-05 (existing)	The Contractor shall include an introduction section that describes the document's purpose, suggested audience, and key terms in all Informal Deliverables, unless otherwise referenced or waived by the State.

8.6.2 Informal Deliverable Format

All Informal Deliverables must be provided in a format compatible with the CalHEERS Project Office standard applications (Microsoft Office). Any deviations to these standards must be approved by the OTSI ITO and ISO.

Table 8-14: Informal Deliverable Approval Process

Req #	SOW Requirement
8.6.2-01 (modified)	The Contractor shall ensure that all hard copy production of Deliverables are produced in State desired format.
8.6.2-02 (existing)	The Contractor shall ensure that electronic versions are stored in a State designated/approved central repository and remain the sole property of the State.
8.6.2-03 (existing)	The Contractor shall ensure that the delivery media shall be compatible with the State storage devices.
8.6.2-04 (existing)	In all cases, the Contractor shall verify the software's compatibility with the State's Contract Manager prior to the creation of delivery of any electronic documentation.

8.6.3 Media and Number of Copies

For each Informal Deliverable, the media and number of copies will be decided per mutual agreement between the State and the Contractor.

8.6.4 Informal Deliverable Review

The steps for State review of Informal Deliverables includes the following:

- The State will complete its review of each Informal Deliverable submitted in accordance with SOW Sections 8.7 – 8.13 and the Transition-In & Transformation Work Plan for initial submittal, and the CalHEERS M&O Master Plan and the Document Management Plan for subsequent submittals.
- The State will have a maximum of seven (7) Business Days for review of the Contractor's Informal Deliverables.
- The State will reject an Informal Deliverable submission if the Deliverable does not contain all content specified in the Deliverable requirements and/or contains formatting errors and/or typographical errors. The State will notify the Contractor of the rejection.
- If the State does not reject an Informal Deliverable within seven (7) Business Days, the Contractor can consider the Deliverable accepted.
- The State, at its request, may perform a formal review with signed approval for an informal deliverable.

8.6.5 Revised Deliverable Submission

For Informal Deliverables, the revised Deliverable submission process will be decided on a case-by-case basis per mutual agreement between the State and the Contractor. This process will be completed on an as-needed basis.

8.6.6 Noncompliance to Deliverable Submission Requirements

Informal Deliverables that are either not delivered per the Contract requirements or fall short on quality will be recorded by the State as noncompliant in the Issue Management tool for Contractor resolution.

8.6.7 Informal Deliverable Approval

For Informal Deliverables, the approval process will be decided on a case-by-case basis per mutual agreement between the State and the Contractor. This process will be completed on an as-needed basis.

APPENDIX A-4 - SOW EXHIBIT A SYSTEM REQUIREMENTS SPECIFICATION

Category	Sub Category	Req ID	Requirement
Accessibility			
Accessibility	Assister Management		
Accessibility	Assister Management	47235	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow a Family PACT provider site certifier to create an account for Family PACT.
Accessibility	Assister Management	47241	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow a provider site certifier to review, edit, and submit account information.
Accessibility	Assister Management	47242	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow a Family PACT provider site certifier to log in for Family PACT.
Accessibility	Assister Management	47243	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display a Legal Notice to Family PACT provider site certifiers at each successful login attempt.
Accessibility	Assister Management	47244	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display pending, active, and inactive Family PACT provider staff accounts on the Family PACT provider site certifier dashboard.
Accessibility	Assister Management	47245	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow a pending status for Family PACT staff account creation for after the provider site certifier submits the staff user information and before the staff user completes the account creation process.
Accessibility	Assister Management	47246	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow a Family PACT provider site certifier to add a Family PACT provider staff account for the provider site certifier's provider site location.
Accessibility	Assister Management	47250	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow a Family PACT provider site certifier to manage a pending Family PACT provider staff account that is associated with the provider site certifier's provider site location.
Accessibility	Assister Management	47251	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow a Family PACT provider site certifier to edit the following fields of a pending Family PACT provider staff account: 1. First Name 2. Middle Name (Optional) 3. Last Name 4. Email
Accessibility	Assister Management	47252	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow a Family PACT provider site certifier to resend the email invitation for the pending provider staff account.
Accessibility	Assister Management	47253	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate a new access code that is valid for 24 hours for the pending Family PACT provider staff when the provider site certifier resends the email invitation or sends an email invitation to a pending staff account that was edited.
Accessibility	Assister Management	47254	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall email the new access code to the Family PACT provider staff user's email address that was inputted by the provider site certifier.
Accessibility	Assister Management	47255	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow a Family PACT provider site certifier to revoke the email invitation for a pending Family PACT provider staff account.
Accessibility	Assister Management	47256	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow a Family PACT provider site certifier to disable a Family PACT provider staff account that is associated with the provider site certifier's provider site location.
Accessibility	Assister Management	47262	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow a provider staff to review, edit, and submit account information.
Accessibility	Assister Management	47263	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow a Family PACT provider site staff to log in for Family PACT.
Accessibility	Assister Management	47264	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display a Legal Notice to Family PACT provider staff at each successful login attempt.
Accessibility	Assister Management	47280	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall disable the Family PACT provider site certifier and all provider staff accounts when a provider site location has been deactivated from the Family PACT program.
Accessibility	Assister Management	47487	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow a Family PACT super admin to disable an active Family PACT provider site certifier account that is associated with the provider site certifier's provider site location.
Accessibility	Assister Registration		
Accessibility	Assister Registration	47236	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate a access code that is valid for 24 hours for the Family PACT provider site certifier at each Family PACT provider site location that will be used to validate a Family PACT provider site certifier when they create a provider site certifier account on the Family PACT Portal.
Accessibility	Assister Registration	47237	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall email the access code to the Family PACT provider site certifier's email address that was inputted by the Family PACT admin user.
Accessibility	Assister Registration	47238	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow a provider site certifier to confirm their site access using the following elements: 1. Access Code 2. Location National Provider Identifier (NPI)
Accessibility	Assister Registration	47239	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow provider site certifier to create an account by entering the following information: 1. First Name 2. Middle Name (Optional) 3. Last Name 4. Email 5. Professional License Number 6. Date of Birth (Date of Birth) 7. Username 8. Password

Category	Sub Category	Req ID	Requirement
Accessibility	Assister Registration	47240	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow a provider site certifier to have the following fields pre-populated during account creation: 1. First Name 2. Middle Name (Optional) 3. Last Name 4. Email
Accessibility	Assister Registration	47247	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow a Family PACT provider site certifier to add Family PACT provider staff accounts for that provider site certifier's provider site location by inputting the following information: 1. First Name 2. Middle Name (Optional) 3. Last Name 4. Email
Accessibility	Assister Registration	47248	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate an access code for the Family PACT provider staff that was added by the provider site certifier that will be used by the provider staff to create an account.
Accessibility	Assister Registration	47249	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall email the access code to the Family PACT provider staff user's email address that was inputted by the provider site certifier.
Accessibility	Assister Registration	47257	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow a Family PACT provider staff to create an account for Family PACT.
Accessibility	Assister Registration	47258	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate an access code for the Family PACT provider staff at each Family PACT provider site location that will be used to validate a Family PACT provider staff when they create a provider site staff account on the Family PACT Portal.
Accessibility	Assister Registration	47259	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall email the access code to the Family PACT provider staff's email address that was inputted by the Family PACT provider site certifier.
Accessibility	Assister Registration	47260	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow a provider staff to confirm their site access using the following elements: 1. Access Code 2. Location National Provider Identifier (NPI)
Accessibility	Assister Registration	47261	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow a Family PACT provider staff to complete the account creation process using the following information: 1. First Name 2. Middle Name (Optional) 3. Last Name 4. Email 5. Professional License Number (Optional) 6. Date of Birth (DOB) 7. Username 8. Password
Accessibility	Consumer Management		
Accessibility	Consumer Management	47154	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow a client to create a Family PACT account to apply for the Family PACT program.
Accessibility	Consumer Management	47155	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display a message to a Family PACT client to reach out for in case the client does not have an email or phone to register in the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system.
Accessibility	Consumer Management	47156	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow a client to use Family PACT login credentials to login so as to apply for the Family PACT program.
Accessibility	Consumer Management	47157	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall require a client to use different Family PACT login credentials than the login credentials used for the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SSApp
Accessibility	Consumer Management	47158	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide Log Out button for the user to log out of the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Family PACT portal.
Accessibility	Consumer Management	47159	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow a Family PACT client to complete the pre-application screener to determine potential eligibility.
Accessibility	Consumer Management	47160	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow a Family PACT client to skip the pre-application screener if the client has an existing Family PACT application or California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Family PACT account.
Accessibility	Consumer Management	47161	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow a Family PACT client that is determined to be potentially eligible to be directed to account creation and apply for the Family PACT program.
Accessibility	Consumer Management	47224	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall require SSApp clients to create a new account to apply for the Family PACT program.
Accessibility	General Requirement		
Accessibility	General Requirement	45152	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System must provide Covered CA with the ability to change content in both the Header and Footer information. Covered CA must be able to control the look, feel and content of the header / footer displayed on all application pages.
Accessibility	General Requirement	45467	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide web-based Exchange access that complies with the following recognized usability standards (Reference: Affordable Care Act §155.210): A) American Disabilities Act (ADA) B) Older Americans Act, C) Rehabilitation Act D) California Accessibility

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Accessibility	General Requirement	45487	The Vendor shall report its compliance with Section 508 of the Federal Rehabilitation Act and the World Wide Web Consortium (W3C) Web Accessibility Initiative, Section 508, (a)(1)(A)
Accessibility	General Requirement	45488	The Vendor shall report compliance with California policy regarding accessibility per Cal Gov Code 11135: Accessibility requirements of Section 508 of the Rehabilitation Act of 1973, as amended (29 U.S.C. Sec 794d), and regulations implementing that act as set forth in Part 1194 of Title 36 of the Federal Code of Regulations.
Accessibility	General Requirement	45489	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall allow customers to submit applications and appropriate documentation electronically with an electronic signature that complies with State, federal and agency requirements and standards.
Accessibility	General Requirement	45496	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall be developed and remain in compliance with Section 508 of the Federal Rehabilitation Act and the World Wide Web Consortium (W3C) Web Accessibility Initiative, Section 508, (a)(1)(A)
Accessibility	General Requirement	45497	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall be fully accessible from smart mobile devices
Accessibility	General Requirement	45498	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall be developed and remain in compliance with California policy regarding accessibility per Cal Gov Code 11135: Accessibility requirements of Section 508 of the Rehabilitation Act of 1973, as amended (29 U.S.C. Sec 794d), and regulations implementing that act as set forth in Part 1194 of Title 36 of the Federal Code of Regulations.
Accessibility	General Requirement	45502	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system must increase the contrast ratio between the foreground text and background text in the Left Menu Navigation.
Accessibility	General Requirement	45503	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system must increase the contrast ratio between the foreground text and background text in the Top Menu Navigation.
Accessibility	General Requirement	45504	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system must increase the contrast ratio between the foreground text and background text for disabled buttons.
Accessibility	General Requirement	45505	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system must increase the contrast ratio between the foreground text and background text and the size of the required field asterisk.
Accessibility	General Requirement	45506	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system must use a text equivalent in additional to graphic images to communicate the progress of the application in the top menu navigation.
Accessibility	General Requirement	49070	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall clear the email and/or phone of the deactivated provider site certifier account.
Accessibility	General Requirement	49071	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the cleared email and/or phone of the deactivated provider site certifier account to be used in a future account creation.
Accessibility	General Requirement	49072	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not allow the username and password of a deactivated provider site certifier account to be used in a future account creation.
Accessibility	General Requirement	49090	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall clear the email and/or phone of the deactivated provider site certifier and staff accounts.
Accessibility	General Requirement	49091	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the cleared email and/or phone of the deactivated provider site certifier and staff accounts to be used in a future account creation.
Accessibility	General Requirement	49092	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not allow the username and password of a deactivated provider site certifier and staff accounts to be used in a future account creation.
Accessibility	General Requirement	49094	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the provider account creation access code to be valid for 24 hours when a Family PACT super admin generates the access code for a Family PACT provider site certifier and when a Family PACT provider site certifier generates the access code for a Family PACT provider staff.
Accessibility	General Requirement	49095	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall restrict the use of the access code for pending Family PACT provider site certifier and provider staff accounts in the following ways: 1. The access code was generated more than 24 hours ago 2. The email invitation for account creation was resent 3. The email invitation for account creation was revoked
Accessibility	General Requirement	49096	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall clear the email and/or phone of the deactivated provider staff account.
Accessibility	General Requirement	49097	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the cleared email and/or phone of the deactivated provider staff account to be used in a future account creation.
Accessibility	General Requirement	49098	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not allow the username and password of a deactivated provider staff account to be used in a future account creation.
Accessibility	Notices		
Accessibility	Notices	43317	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall display to the Consumers the SAWS generated MAGI notices of action in Consumer’s secure mailbox in California Healthcare Eligibility, Enrollment and Retention System (CalHEERS)
Accessibility	Notices	43318	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall display to the Service Center staff and County Eligibility Workers the SAWS MAGI notices of action in Documents and Correspondence page
Admin Portal	Alerts and Notices		
Admin Portal	Alerts and Notices	46478	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the language that appears in the Case Status paragraph within the Case Status Admin Screen
Admin Portal	Alerts and Notices	46480	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide the functionality to turn on and off the FTR Codes. This functionality should be configurable by benefit year.
Admin Portal	Alerts and Notices	48102	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide the functionality to turn on and off the FTR Codes by benefit year. This functionality should be configurable by benefit year and when configuration is enabled for the same benefit year for which the application is being submitted, FTR codes will be considered during eligibility determination.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Admin Portal	Alerts and Notices	48103	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall make updates to the FTR configuration page to add code 011 - "Non-Tax Filer, and/or did not reconcile for two consecutive tax years".
Admin Portal	Assister Management		
Admin Portal	Assister Management	47459	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow Family PACT Admins to log in for Family PACT.
Admin Portal	Assister Management	47460	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display a Legal Notice to Family PACT admins at each successful login attempt.
Admin Portal	Assister Management	47461	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the super admin dashboard when a Family PACT super admin logs in for Family PACT.
Admin Portal	Assister Management	47462	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the User Accounts Administration (UAA) screen when a Family PACT SCR admin logs in for Family PACT.
Admin Portal	Assister Management	47463	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the client management search screen when a Family PACT read-only admin logs in for Family PACT.
Admin Portal	Assister Management	47464	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow a Family PACT super admin to perform user account administration including the ability to create, activate, and disable, unlock user accounts.
Admin Portal	Assister Management	47465	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow a Family PACT super admin to search for all Family PACT user accounts using the following fields in UAA search: 1. User Type 2. First Name 3. Last Name 4. Username 5. Email 6. Phone Number
Admin Portal	Assister Management	47467	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow a Family PACT SCR admin to perform basic user account administration for Family PACT client, provider site certifier, and provider staff users.
Admin Portal	Assister Management	47468	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow a Family PACT SCR admin to search for all Family PACT client, provider site certifier, and provider staff user accounts using the following fields in UAA search: 1. User Type 2. First Name 3. Last Name 4. Username 5. Email 6. Phone Number
Admin Portal	Assister Management	47470	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display pending, active, and inactive Family PACT provider site certifier accounts on the Family PACT super admin dashboard.
Admin Portal	Assister Management	47471	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow a pending status for Family PACT site certifier account creation for after the super admin submits the site certifier user information and before the site certifier user completes the account creation process.
Admin Portal	Assister Management	47472	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow a Family PACT super admin to add Family PACT provider site certifier accounts from the super admin dashboard.
Admin Portal	Assister Management	47475	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall email the access code to the Family PACT provider site certifier user's email address that was inputted by the super admin.
Admin Portal	Assister Management	47476	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow a Family PACT super admin to manage a pending Family PACT provider site certifier account that is associated with the provider site location.
Admin Portal	Assister Management	47477	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow a Family PACT super admin to edit the following fields of a pending Family PACT provider site certifier account: 1. First Name 2. Middle Name (Optional) 3. Last Name 4. Email
Admin Portal	Assister Management	47478	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow a Family PACT super admin to resend the email invitation for the pending provider site certifier account.
Admin Portal	Assister Management	47479	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate a new access code for the pending Family PACT provider site certifier when the super admin resends the email invitation or sends an email invitation to a pending site certifier account that was edited.
Admin Portal	Assister Management	47480	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall email the new access code to the Family PACT provider site certifier user's email address that was inputted by the super admin.
Admin Portal	Assister Management	47481	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow a Family PACT super admin to revoke the email invitation for a pending Family PACT provider site certifier.
Admin Portal	Assister Management	47482	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow a Family PACT super admin to change a pending provider site certifier and to change an active provider site certifier.
Admin Portal	Assister Management	47483	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall disable the active Family PACT provider site certifier or revoke the email invitation for a pending provider site certifier and add a new provider site certifier for the respective provider site location when a Family PACT super admin submits a change a site certifier action.

Category	Sub Category	Req ID	Requirement
Admin Portal	Assister Management	47484	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow a Family PACT super admin to add a new pending provider site certifier or an active provider site certifier by inputting the following information when changing a provider site certifier: 1. First Name 2. Middle Name (Optional) 3. Last Name 4. Email
Admin Portal	Assister Management	47486	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall email the access code to the Family PACT provider site certifier user's email address that was inputted by the super admin.
Admin Portal	Assister Registration		
Admin Portal	Assister Registration	47473	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow a Family PACT super admin to add a Family PACT provider site certifier account for that provider site location by inputting the following information: 1. First Name 2. Middle Name (Optional) 3. Last Name 4. Email
Admin Portal	Case Management		
Admin Portal	Case Management	47495	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow a Family PACT super admins to manage the Family PACT client's case on behalf of a client.
Admin Portal	Case Management	47496	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow a Family PACT super admin or read-only admin to enter HAP card number for existing Family PACT consumers known to HAP.
Admin Portal	Case Management	47497	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall prompt a Family PACT super admin to ask the consumer client during initial application, "Have you ever had Family PACT services in the past?"
Admin Portal	Case Management	47498	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow a Family PACT super admin to view/edit a Family PACT client's client details
Admin Portal	Case Management	47500	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow a Family PACT super admin to view a Family PACT application history and transaction history.
Admin Portal	Case Management	47501	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow a Family PACT super admin to change a Family PACT client's date of birth (DOB) after initial Family PACT application submission.
Admin Portal	Case Management	47502	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow a Family PACT read-only admin to view a Family PACT client's client details.
Admin Portal	Case Management	47503	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow a Family PACT read-only admin to view a Family PACT client's case notes.
Admin Portal	Case Management	47504	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow a Family PACT read-only admin to view a Family PACT client's application history and transaction history.
Admin Portal	Case Management	48628	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display adequate details in the search results table for all members of a household to allow for admin to adequately identify other members of the household
Admin Portal	Case Management	48629	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the DOB for all members displayed for a case in the search results table
Admin Portal	Case Management	48630	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the last 4 of the SSN for all members displayed for a case in the search results table
Admin Portal	Case Management	48631	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not display the Pseudo ID field for all members of the household in the search results table
Admin Portal	Case Management	48632	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add a [Preferred Contact] field in the search results table.
Admin Portal	Case Management	48633	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall navigate to the case specific Flex landing page on click of Flexible app in the dropdown on the search results page
Admin Portal	Consumer Management		
Admin Portal	Consumer Management	47488	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the ability for a Family PACT super admin and a Family PACT read-only admin to search for a Family PACT client.
Admin Portal	Consumer Management	47489	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the ability for a Family PACT super admin and a Family PACT read-only admin to search for a Family PACT client by using the following information that returns a full, exact match: 1. HAP ID 2. Date of Birth (DOB)
Admin Portal	Consumer Management	47490	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the ability for a Family PACT super admin and a Family PACT read-only admin to search for a Family PACT client by using the following information that returns a full, exact match: 1. First Name 2. Last Name 3. Date of Birth (DOB) 4. Sex 5. Zip Code
Admin Portal	Consumer Management	47491	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the ability for a Family PACT super admin or Family PACT read-only admin to search for a Family PACT client using the following information that returns a full, exact match: 1. Application Number
Admin Portal	Consumer Management	47492	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall only show search results to the Family PACT super admin or Family PACT read-only admin if the inputted search criteria returns a single result that fully matches the fields used for the search.

Category	Sub Category	Req ID	Requirement
Admin Portal	Consumer Management	47493	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the following fields when a search result is displayed to a Family PACT super admin or Family PACT read-only admin: 1. Client Name 2. HAP ID 3. Coverage Status 4. Application Status 5. Date of Birth (DOB) 6. Eligibility Effective Dates
Admin Portal	Consumer Management	48934	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Help Desk Staff to manually lift a Carry Forward Status for an individual from the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) portal.
Admin Portal	Enrollment		
Admin Portal	Enrollment	48736	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide an informational message to privileged user when they are reinstating a policy and there were changes for the enrollee details in the HBX system.
Admin Portal	Enrollment	48738	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall include a navigation link back to enrollment dashboard from the health and dental plan shopping page.
Admin Portal	Enrollment	48741	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update "Premium Start Date" to "Premium Effective Date" in the enrollment dashboard and enrollment details pages and display this date consistently on both Health and Dental pages.
Admin Portal	General Requirement		
Admin Portal	General Requirement	46634	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall select the checkbox for "Send 834" and make this the default setting in the Enrollment override page.
Admin Portal	General Requirement	47494	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall keep a record of client management search transactions performed by a Family PACT super admins and Family PACT read-only admins.
Admin Portal	General Requirement	47505	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow Family PACT admins to view a Family PACT client's eligibility related information.
Admin Portal	General Requirement	47507	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display a client's Family PACT eligibility results history to the Family PACT admin including the eligibility status, aid code, eligibility factors, and eligibility effective dates in the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Portal.
Admin Portal	General Requirement	47509	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow a Family PACT super admin to send messages to a Family PACT client's message center informing the client of the notices generated in the Family PACT portal.
Admin Portal	General Requirement	47510	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide a link for Family PACT super admins or Family PACT read-only admins to navigate to search for Family PACT providers on the familypact.org website in a new tab on behalf on Family PACT clients.
Admin Portal	General Requirement	48737	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide an informational message to privileged user when they are reinstating a policy and there were changes for the subscriber address in the HBX system.
Admin Portal	General Requirement	48966	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the following Negative Actions added via Disposition on the Negative Action Configuration page with no ability to modify the configuration: - Gets Duplicate Aid - Out of the Home - Duplicate/Hidden Person - Other
Admin Portal	General Requirement	48967	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the following Negative Actions added via Disposition on the Manual Verification page with no ability to remove the Negative Action: - Gets Duplicate Aid - Out of the Home - Duplicate/Hidden Person - Other
Admin Portal	General Requirement	49073	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow a Family PACT super admin and read-only admin to view a Family PACT client's change log.
Admin Portal	Issuer Profile Management		
Admin Portal	Issuer Profile Management	47454	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow a Family PACT super admin to add other Family PACT super admin, Family PACT service center representative (SCR) admin, and Family PACT read-only admin accounts.
Admin Portal	Issuer Profile Management	47455	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provision an initial set of Family PACT super admin accounts for California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) staff and DHCS/OFP staff based on a list provided by California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) and DHCS/OFP. by following the existing California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Service Now (SNOW) ticket process.

Category	Sub Category	Req ID	Requirement
Admin Portal	Issuer Profile Management	47456	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow a Family PACT super admin to add a new Family PACT super admin, SCR admin, or read-only admin by inputting the following information: 1. First Name 2. Middle Name (Optional) 3. Last Name 4. Email 5. Date of Birth (DOB) 6. User Type
Admin Portal		47457	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate the username and a temporary password for the newly added Family PACT admin user
Admin Portal		47458	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send an email notification with the username and a temporary password to the newly added Family PACT admin user
Application Maintenance			
Application Maintenance	Application Submission and Update		
Application Maintenance	Application Submission and Update	38269	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add a business rule to unlock the DOB field on the Household Primary Contact page and the Household Members page if the SSN verification cache is cleared.
Application Maintenance	Application Submission and Update	43292	"The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall require all users to manually complete a Consumer's Date of Birth field in MM/DD/YYYY format on the following pages: - Account Creation (User Information) - Primary Contact - Household Member - Flexible Application Entry"
Application Maintenance	Application Submission and Update	45471	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall notify the consumer notify the consumer throughout the application process regarding Data saves, mandatory fields, and expiration of incomplete applications.
Application Maintenance	Case Management		
Application Maintenance	Case Management	43109	The "Note to Employers and Employees" statement on the Household Member page must be removed from the Individual portal as this is in reference to SHOP.
Application Maintenance	Eligibility Determination		
Application Maintenance	Eligibility Determination	40897	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall capture the Punjabi and Hindi languages as a selection for spoken and written language preferences on Authorized Representative Information screen and Contact Preferences screen on California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Portal, as well as FlexiApp.
Application Maintenance	Eligibility Determination	41132	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall include language in the CoveredCA portal to advise the applicant of the length of the postpartum coverage.
Application Maintenance	Eligibility Determination	46420	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display Schema Validation issue for the response code HE007000 when received from CMS for IFSV, ESI and Non-ESI Service at the Individual Level on the Personal Verification Page in the Error Code(s) column.
Application Maintenance	General Requirement		
Application Maintenance	General Requirement	38235	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall add functionality to allow designated users to close and reopen cases. Reopening a case does not restore eligibility or enrollments to previous state.
Application Maintenance	General Requirement	38236	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall add functionality to ensure that an HX40 transaction is not generated when eligibility ends as a result of closing a case that is indicated as a duplicate.
Application Maintenance	General Requirement	38237	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall add messaging and a preventative measure for consumers accessing a closed case from their login accounts.
Application Maintenance	General Requirement	38238	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall add functionality to allow admin roles to access closed case summary information.
Application Maintenance	General Requirement	38239	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall add functionality to allow admin roles to close or reopen a case.
Application Maintenance	General Requirement	39123	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall display a flashy message on Consumer Portal's home page around tax season that states where consumers should go in order to view/download 1095 tax forms.
Application Maintenance	General Requirement	39124	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall display the message only if there is at least one 1095 available for the previous benefit year in the secure inbox.
Application Maintenance	General Requirement	39125	The message shall stop displaying on or around April 16th of each year.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Application Maintenance	General Requirement	40445	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall split the California Franchise Tax Board henceforth FTB data received monthly into California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) customers and California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) non-customers. California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall host the customers data on the HBX database, and the entire FTB data file is retained on-premise FTB database
Application Maintenance	General Requirement	40448	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall modify existing logic in CALEXT_PR_FETCH_540_INCOME stored procedure code to first lookup data locally in HBX database, and if a record is not found, then CALEXT_PR_FETCH_540_INCOME stored procedure code will retrieve the record using database link on FTB database hosted on Exadata on-premise hardware. California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall then insert this record in HBX database locally as it is a California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) customer
Application Maintenance	General Requirement	40449	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall modify existing FTB-1000-IB-01.sh shell script or build a new process to split California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) customers after monthly FTB data is loaded in on-premise FTB database
Application Maintenance	General Requirement	40450	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall modify the connection string in FTB_540_properties file to point to new FTB on-premise database created to hold all FTB data
Application Maintenance	General Requirement	40451	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall modify existing FTB-1000-IB-01.sh shell script or build a new process to TRUNCATE and INSERT California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) customers data into HBX table
Application Maintenance	General Requirement	42147	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall remove the Back to Application Menu link when consumers are in the Review Application flow (view-only navigation).
Application Maintenance	General Requirement	42148	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall exclude inactive cases from the Renewal batch process.
Application Maintenance	General Requirement	44034	The vendor shall establish and operate Inventory and Asset Management software and associated processes.
Application Maintenance	General Requirement	44035	The vendor shall include include in DEL 7 - Equipment and Software Acquisition Plan Equipment & Software acquisition Plan and Deliverable 33 O&M Manual the state's inventory and asset management requirements.
Application Maintenance	General Requirement	44036	The vendor shall implement an Asset Management Software (AMS) platform that enables the discovery and managegement of software assets across the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) platform.
Application Maintenance	General Requirement	44037	The vendor shall implement an Asset Management Software (AMS) platform that provides desktop to datacenter software asset management functionality, including surveys of software installations and usage.
Application Maintenance	General Requirement	44038	The vendor shall implement an Asset Management Software (AMS) platform that provides purchased versus installed license reconciliation.
Application Maintenance	General Requirement	44039	The vendor shall implement an Asset Management Software (AMS) platform that enables the vendor to identify and evaluate areas of compliance concern and take required actions when warranted.
Application Maintenance	General Requirement	44040	The vendor shall implement an Asset Management Software (AMS) platform that will track and manage hardware assets consistent with Contractor's Alternative CalHEERS technology Infrastructure proposal in Exh. F.
Application Maintenance	General Requirement	44041	The vendor shall implement an Asset Management Software (AMS) platform that integrates with the ITSM service management platform's Configuration Management Database (CMDB) application.
Application Maintenance	General Requirement	44042	The vendor shall provide required staffing for implementation and operation of the AMS.
Application Maintenance	General Requirement	44043	The vendor shall provide required staffing for inventory control and management –related interaction with theExcahnge, IV&V contractors and the inventory and audit personnel.
Application Maintenance	General Requirement	44044	The vendor shall provide a datafile from the Asset Management Software (AMS) to the Excahnge and IV&V as requested.
Application Maintenance	General Requirement	44045	The vendor shall provide required staffing for ongoing asset inventory functions based in the D&I Sacramento facility.
Application Maintenance	General Requirement	44046	The vendor shall determine, document and detail the inventory control and asset management requirements, including tagging, surveys, reporting and other operational aspects will be included in DEL 7 - Equipment and Software Acquisition Plan Equipment & Software Acquisition Plan and Deliverable 33 O&M Manual.
Application Maintenance	General Requirement	44047	The vendor shall implement an Asset Management Software (AMS) platform that provides reporting functionality in support of functions including oversight and audit.
Application Maintenance	General Requirement	44048	The vendor shall provide all details of ongoing inventory and asset management activities in Deliverable 33 O&M Manual and associated work products.
Application Maintenance	General Requirement	44049	The vendor shall manage the procurement, licensing, configuration, implementation and maintenance of the assets for the duration of the contract.
Application Maintenance	General Requirement	44050	The vendor shall provide inventory and asset management services from procurement through disposal of the asset based on federal and state requirements.
Application Maintenance	General Requirement	44051	The vendor shall develop the processes required to conduct inventory and asset management.
Application Maintenance	General Requirement	44052	The vendor shall configure the AMS platform to support the defined processes
Application Maintenance	General Requirement	44053	The vendor shall define and create specified documentation and reports for software inventory management and software license compliance.

Category	Sub Category	Req ID	Requirement
Application Maintenance	General Requirement	44054	The vendor shall load asset management data management data including maintenance, warranty and contract data into the AMS platform.
Application Maintenance	General Requirement	44055	The vendor shall verify received equipment against orders and affix asset control tags per specifications
Application Maintenance	General Requirement	44056	The vendor shall track installation, moves, adds and changes of hardware and update the AMS data on an ongoing basis
Application Maintenance	General Requirement	44057	The vendor shall provide periodic reporting, detailing updates to the hardware and software asset base.
Application Maintenance	General Requirement	44058	The vendor shall answer questions and reconcile discrepancies identified as a result of review of reports.
Application Maintenance	General Requirement	44059	The vendor inventory and asset management staff shall interact with the Exchange staff or designees
Application Maintenance	General Requirement	44060	The vendor shall detail Accenture and Exchange Roles & Responsibilities in Deliverable 33 Operations and Maintenance Manual
Application Maintenance	General Requirement	44061	The vendor shall include specific inventory audit information and audit related process requirements in Deliverable 33 Operations and Maintenance Manual
Application Maintenance	General Requirement	44062	The vendor shall support annual inventory audits by providing reports detailing the current status and location of state assets, coordinating site visits to the data center and project facilities.
Application Maintenance	General Requirement	44063	The vendor shall provide access for the Excahnge or designated auditors to inspect assets in accordance with security protocols and procedures; providing assistance with the identification of assets; providingresources to resolve discrepancies or issues generated by audit activity.
Application Maintenance	General Requirement	44064	The vendor shall track procurement activities against the proposed bill of materials
Application Maintenance	General Requirement	44065	The vendor shall define in scope and out of scope assets to be tracked and managed.
Application Maintenance	General Requirement	44066	The vendor shall define lost/stolen asset process.
Application Maintenance	General Requirement	44067	The vendor shall define how peripherals inventory is maintained.
Application Maintenance	General Requirement	44068	The vendor shall define equipment and software purchases and ongoing maintenance and support, including software license agreements, and financial information required for asset and inventory management, and audit purposes.
Application Maintenance	General Requirement	44069	The vendor shall provide information on where Flexera will reside • Environment(s) • Interfaces • Accessibility • Usability • Reliability • Backup and recovery
Application Maintenance	General Requirement	44070	The vendor shall provide information on Flexera Security • Overall security of the tool • Administrative Overview
Application Maintenance	General Requirement	44071	The vendor shall provide Flexera Reporting • Reports to be provided • Exportability • Time frame for compliance reporting • Ability for Ad hoc reports
Application Maintenance	General Requirement	44072	The vendor shall detail Accenture and Exchange Roles & Responsibilities in DEL 7 - Equipment and Software Acquisition Plan Equipment & Software Acquisition Plan.
Application Maintenance	General Requirement	44073	The vendor shall include specific inventory audit information and audit related process requirements in DEL 7 - Equipment and Software Acquisition Plan Equipment & Software Acquisition Plan.
Application Maintenance	General Requirement	44075	The vendor shall update Del 33 O&M Manual to reflect inventory and asset management activities as appropriate.
Application Maintenance	General Requirement	44076	The vendor shall provide a work plan (i.e., schedule) in Del 33 O&M Manual to reflect inventory and asset management tasks as appropriate.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Application Maintenance	General Requirement	46024	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall migrate the functionalities mentioned below from the Akamai CDN to AWS Cloufront CDN. 1 - WAF (Web Application Firewall) Services 2 - Waiting Room 3 - Content Delivery 4 - DDOS (Denial of Services)
Application Maintenance	Verify Application Information		
Application Maintenance	Verify Application Information	46451	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the English and Spanish Translations for the below Error Response code on the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Portal and Flexi App Screen: RIDP - HE000050-RF2, HE200026, HE200027, HX005001, HE007000, HE007004, HE007005. FARS - HS000000-RF2, HE007004, HE007005
Application Maintenance	Verify Application Information	46452	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall deprecate the following Error Response Code mock rules and their interpretation on the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Portal and Flexi App Screen as CMS has deprecated the error codes at their end. RIDP - HE200024, HE200025, HE200028, HE200029, HE200030, HE200031, HE200037, HE200038, HE200039, HE200042, HX005000, HX200004, HX200005, HX200008, HX200009, HX200010 FARS - HE200001, HE200002, HE200003, HE200013, HE200014, HE200015, HE200016.
Architecture			
Architecture	Appeal		
Architecture	Appeal	44491	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) team will configure and deploy the paper application workflow.
Architecture	Eligibility Determination		
Architecture	Eligibility Determination	45244	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall separate the application logic from post-eligibility processing into separate services.
Architecture	Enrollment		
Architecture	Enrollment	45245	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall separate Enrollment Processing logic from other post-eligibility processing into a separate service.
Architecture	General Requirement		
Architecture	General Requirement	39547	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have a configuration to toggle the State Subsidy program on and off, based on a specified effective date.
Architecture	General Requirement	39583	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have functionality at the Dynamic Application CheckPoint 4 to determine a divorce or separation instrument order/execution/modification date as required for alimony income.
Architecture	General Requirement	39584	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have functionality at the Dynamic Application CheckPoint 4 to determine a divorce or separation instrument order/execution/modification date as required for alimony paid deduction.
Architecture	General Requirement	39585	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have functionality at the Dynamic Application CheckPoint 3 to pass a divorce or separation instrument order/execution/modification date along with alimony income.
Architecture	General Requirement	39586	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have functionality at the Dynamic Application CheckPoint 3 to pass a divorce or separation instrument order/execution/modification date along with alimony paid deduction.
Architecture	General Requirement	41398	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide infrastructure for production and non-production environments for replacing OHS server with Apache HTTP web server.
Architecture	General Requirement	41399	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall install Apache HTTP web server for production and non-production environments.
Architecture	General Requirement	41400	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall customize the default Apache HTTP web server configurations (mod plugins) as per the requirements in California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) project.
Architecture	General Requirement	41401	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall install the ForgeRock web agents on the Apache HTTP web server.
Architecture	General Requirement	41402	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall modify Build and Deployment (B&D) scripts for deploying React code on Apache HTTP web server.
Architecture	General Requirement	41403	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall point Akamai to the Apache Load Balancer.
Architecture	General Requirement	41404	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall configure monitoring for the Apache HTTP web server
Architecture	General Requirement	41405	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall conduct regression, system, and performance testing with the replaced web server.
Architecture	General Requirement	41570	The System shall align with Anonymous Screening rules via OPA (Oracle Policy Automation) for eligibility determination.
Architecture	General Requirement	41571	The System shall have a Quick Sort calculator to quickly determine a customer's eligibility based on a series of question regarding APTC and FPL . (i.e. number of people living in your family, pregnancy, income level, disability, county, preferred language, etc.)
Architecture	General Requirement	41572	The System shall apply a set of business rules to determine eligibility. (see Quick Sort Business Rules)
Architecture	General Requirement	41583	The System shall bring in FPL information as a data source table (Excel Spreadsheet)
Architecture	General Requirement	41584	The System shall have a source table with counties and county phone numbers for routing the customer in case they need to be transferred to the county (e.g., a Medical Specialist).
Architecture	General Requirement	41652	The CRM system shall integrate with Pinnacle's IVR/CTI system (Avaya)
Architecture	General Requirement	41653	"For telephony initiated searches, the System shall automatically search for existing contacts in RightNow by ANI or Agent License No and screen pop to: a) Contact Detail View for exact match b) Contact List View for multi-match c) Contact Search View for no match "

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

OTSI CalHEERS RFP #73040873 Addendum 1
October 31, 2025

Category	Sub Category	Req ID	Requirement
Architecture	General Requirement	41654	The System shall display search results for the purpose of identification including: a) Last Name (individual only) b) First Name (individual only) c) Middle Initial (individual only) d) Zip Code (pertinent for multiple Contact types) e) Contact Role (pertinent for all Contact types) f) Phone Number (pertinent for multiple Contact types)
Architecture	General Requirement	41655	The System shall associate unique information associated with an agent/broker's Contact record: a) Business Address b) Company Name c) ANI (or business phone) d) Email Address e) Agent/Broker ID (if available) f) Agent/License No
Architecture	General Requirement	41656	The System shall not store Quick Sort data. Record of Quick Sort use and Quick Sort outcome shall be noted in CRM Incident.
Architecture	General Requirement	41740	The System shall batch load Contact records from existing California Health Programs targeted for lead outreach and conversion to Covered California Health Plans.
Architecture	General Requirement	42273	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall reuse the Foundation Components, Reference Data Cache, Centralized Configuration for all property key/values, Common Set of Utilities and The Endpoints in LW_Common Service that were developed in LW Phase 1, as part of this change.
Architecture	General Requirement	42274	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement the following endpoints in LW_HouseHold 1 - /discontinious/getdetails (GET) that were carried over from the LW Phase 2 scope, as apart of this change.
Architecture	General Requirement	42275	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement Dashboard and Correspondence java code that exists in the monolith application in the following Light Weight components: 1) LW_Noticesservice 2) LW_IndvHome 3) LW_SalesForce_Mail 4) LW_securemailbox 5) LW_AemNotices 6) LW_LoginPublic 7) LW_LoginRegister 8) LW_IdentityService 9) LW_PrivilegeAdmin 10) LW_SecurityAPI
Architecture	General Requirement	42276	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement the endpoints documented in "CorrespondenceMonolithEndpoints" Tab in Lightweight services
Architecture	General Requirement	42277	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use Spring Boot 2.4.X and OpenJDK11 in the Lightweight services deployed using the container based deployment architecture
Architecture	General Requirement	42278	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create the following new endpoints in LW_Noticesservice for the following functionalities. 1 - NOD01 Event Persistence 2 - NOD61 Event Persistence 3 - NOD70 Event Persistence 4 - Download Notice
Architecture	General Requirement	42279	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provision infrastructure, software and monitoring tools for production and non-production environments for deploying and monitoring Lightweight services using the container based deployment architecture
Architecture	General Requirement	42280	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall conduct regression, system and performance testing for Lightweight services using the container based deployment architecture
Architecture	General Requirement	42281	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create/update the Build and Deployment scripts to provide deployment capabilities for container based deployment architecture
Architecture	General Requirement	42292	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall reuse the Foundation Components, Reference Data Cache, Centralized Configuration for all property key/values, Common Set of Utilities and The Endpoints in LW_Common Service that were developed in LW Phase 1, as part of this change.
Architecture	General Requirement	42293	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create and reuse a new LightWeight called LW_CommonUtilitiesService that will have the endpoints for commonly used Business Functionalities like EPin and Waiting Room that can be called from multiple LightWeights, as part of this change.
Architecture	General Requirement	42294	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement the following endpoints in LW_HouseHold 1- /application/keep/switch/coverage (PUT) 2 - /application/{pendingAppld}/eligdetermination (PUT) that were carried over from the LW Phase 2 scope, as apart of this change.

Category	Sub Category	Req ID	Requirement
Architecture	General Requirement	42295	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement Eligibility related java code that exists in the monolith application in the following Light Weight components: 1) LW_Fars 2) LW_Eligibility 3) LW_VLP 4) LW_DocMgmt 5) LW_DivsService 6) LW_SSA
Architecture	General Requirement	42296	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement the endpoints documented in "EligibilityMonolithEndpoints" Tab in Lightweight services
Architecture	General Requirement	42297	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use Spring Boot 2.4.X and OpenJDK11 in the Lightweight services deployed using the container based deployment architecture
Architecture	General Requirement	42298	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall migrate the functionalities mentioned below from the Portal WS to LW components without changing any existing functionalities. 1 - Eligibility Service call Orchestration 2 - Waiting Room 3 - PIN Validation 4 - Change Log 5 - Case Persistence 6 - Determine BRE call required or not 7 - Determine Verification Indicator for External call required or not 8 - SSA Call from Eligibility Orchestration 9 - VLP Call from Eligibility Orchestration 10 - Identify Member call 11 - VIED Request payload preparation 12 - Call VIED Service 13 - VIED Response payload processing 14 - Eligibility & Budget Data persist 15 - Verification status and data persist 16 - BPM Task creation for Other QLE Reason 17 - DER/DER-U Event persist 18 - Notice Event persist 19 - Non-Magi Referral processing 20 - Subsidy Calculation – APTC/State subsidy 21 - COR Update 22 - Account Transfer 23 - Generate Access Code 24 - ROP Eligibility Determination Simulation
Architecture	General Requirement	42299	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall make the required changes to the endpoints being called from Portal WS to LW Eligibility Orchestration for the following batch jobs 1- Eligibility Determination batch that includes RAC and Renewal 2 - CCHIP Age Out/Renewal Eligibility Determination 3 - DIVs Eligibility Determination 4 - PDM Verification - Eligiblity Determination 5 - Keep or Switch - Eligiblity Determination 6 - VLP - Eligibility Determination
Architecture	General Requirement	42300	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall make the required changes to the endpoints called from Portal WS to LW Eligibility Orchestration for EDR/Disposition on OSB Poller
Architecture	General Requirement	42301	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall track all Eligibility endpoint calls and their returned status' and persist the data in Eligibility Event table
Architecture	General Requirement	42302	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provision infrastructure, software and monitoring tools for production and non-production environments for deploying and monitoring Lightweight services using the container based deployment architecture
Architecture	General Requirement	42303	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall conduct regression, system and performance testing for Lightweight services using the container based deployment architecture
Architecture	General Requirement	42304	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create/update the Build and Deployment scripts to provide deployment capabilities for container based deployment architecture

Category	Sub Category	Req ID	Requirement
Architecture	General Requirement	42305	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement the Security Best Practices comments mentioned in the NUW SIR#180595 for the following Lightweights 1) LW_Fars 2) LW_Eligibility 3) LW_VLP 4) LW_DocMgmt 5) LW_DivsService 6) LW_SSA
Architecture	General Requirement	42409	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement related java code that exists in the monolith application in the following Light Weight components: 1)LW_Account 2)LW_PrivilegeAdmin 3)LW_ConsumerSearch 4)LW_AccountAdmin 5)LW_Admin_Verification 6)LW_Internal_config 7)LW_AuthRep 8)LW_DevTools
Architecture	General Requirement	42410	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement the endpoints documented in "Admin&AccountMonolithEndpoints" Tab in Lightweight services
Architecture	General Requirement	42411	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use Spring Boot 2.4.X and OpenJDK11 in the Lightweight services deployed using the container based deployment architecture
Architecture	General Requirement	42412	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall migrate the jsp pages mentioned below to the React Framework. 1)Specialized Account Creation 2) Certified Insurance Agent - Account Creation 3) Approved Admin Staff - Account Creation 4) Insurance Agency - Account Creation 5) Certified Enrollment Counselor - Account Creation 6) Health Insurance Plan - Account Creation 7) Authorized Representative - - Account Creation 8) Case Status(To Be converted to a Modal) 9) Program Overridden 10) Case Note(To Be converted to a Modal) 11) Outstanding Verification Date Update 12) Update Consent for Verification 13) Update Tax Filling Attestation 14) CCHIP Page(To Be converted to a Modal) 15) Renewal Page(To Be converted to a Modal) 16)Admin - Manual Verification Page 17)Admin Search Page 18)Budget Worksheet
Architecture	General Requirement	42413	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provision infrastructure, software and monitoring tools for production and non-production environments for deploying and monitoring Lightweight services using the container based deployment architecture
Architecture	General Requirement	42414	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall conduct regression, system and performance testing for Lightweight services using the container based deployment architecture
Architecture	General Requirement	42415	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create/update the Build and Deployment scripts to provide deployment capabilities for container based deployment architecture
Architecture	General Requirement	42416	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement the SecurityBest Practices comments mentioned in the NUW SIR#180595 for the following Lightweights 1)LW_Account 2)LW_PrivilegeAdmin 3)LW_ConsumerSearch 4)LW_AccountAdmin 5)LW_Admin_Verification 6)LW_Internal_config 7)LW_AuthRep 8)LW_DevTools
Architecture	General Requirement	44492	The California Healthcare Eligiblity, Enrollment and Retention System (CalHEERS) team will configure and deploy the SEP Other workflow.
Architecture	General Requirement	44493	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) team will configure and deploy the manual verification.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

OTSI CalHEERS RFP #73040873 Addendum 1
October 31, 2025

Category	Sub Category	Req ID	Requirement
Architecture	General Requirement	44834	Vendor shall design and document California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Exchange Lifecycle (ELC, the process) that is aligned to the CMS Exchange Reference Architecture: Foundation Guidance and Collaborative Environment and Life Cycle Governance – ERA Supplement.
Architecture	General Requirement	44835	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Business Process Model shall comply with: A) CMS Exchange Reference Architecture: Foundation Guidance (ERA Foundation Guidance Draft 0 99_03162011.pdf) B) Medicaid Information Technology Architecture (MITA) (http://www.cms.gov/MedicaidInfoTechArch/04_MITAFramework.asp#TopOfPage)
Architecture	General Requirement	44966	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Business Processes shall comply with the following Business Transaction standards as mandated by Affordable Care Act: A) HIPAA Transaction Standards: Adopt HIPAA transaction standards for electronic health care transactions. B) Electronic Eligibility and Enrollment rules: California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Electronic Eligibility and Enrollment transactions shall comply to the set of operating rules as described in HIT Policy and Standards found at http://healthit.hhs.gov/portal/server.pt?open=512&mode=2&objID=3161 . C) Exchange Data Standard: Standardize Information Exchange Model based on NIEM as required by the Affordable Care Act. The details can be found at: Appendix B Core Data Analysis: http://healthit.hhs.gov/pdf/electronic-eligibility/appendix-b.pdf
Architecture	General Requirement	44976	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Business Processes shall be documented using Business Process Modeling Notation (BPMN) and WS-BPEL standards.
Architecture	General Requirement	45003	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Business Process Models shall include A) Static views and Dynamic views of business processes B) An input and output message structure C) Business events D) Exception business events E) Exception Event Actions for the five core Exchange Business Areas
Architecture	General Requirement	45018	The Vendor shall design and document the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Business Process Models for each of the following business functions: A) Eligibility and Enrollment B) Plan Management C) Financial Management D) Consumer Assistance E) Reports and Notices
Architecture	General Requirement	45019	The Vendor shall provide a Business Process Management System (BPMS) to design, implement and manage the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Business Process Management (BPM) lifecycle including the following functions (at the minimum): A) Analyze B) Model C) Design D) Deploy E) Manage F) Monitor
Architecture	General Requirement	45042	The Vendor shall provide a Business Capability Matrix (BCM) and a transformation roadmap for each California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Business Process Model that describes the MITA Maturity Model Refer to the Bidders Library: MITA 2.0 [Part I Chapter 3 Maturity Model, Part I Chapter 4, Business Process Model, and Part I Chapter 5, Business Capability Matrix, respectively])
Architecture	General Requirement	45047	The Vendor shall provide a Business Activity Monitoring (BAM) tool to design, implement and manage business performance analytics.
Architecture	General Requirement	45055	The Vendor shall provide a California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Conceptual Data Model (CDM) that is designed, built, and maintained in compliance with NIEM and HL7 reference models.
Architecture	General Requirement	45057	Vendor shall define and implement an end-to-end Service Analysis and Design Methodology process for Business Process Analysis and Modeling, Service Identification and Specification, based on the following standards, process and best practices including, but not limited to: A) SOA Architectural Styles B) Service Oriented Modeling and Architecture (SOMA) C) Model Driven Architecture (MDA) D) XML Schema design best practices.
Architecture	General Requirement	45065	The Vendor shall define, document and implement process tools and technologies for a comprehensive Data Management Strategy covering at a minimum the following topics: A) Data Governance B) Data Architecture C) Storage Architecture D) Master Data Management (MDM) E) Data Sharing Architecture F) Data Warehouse and Business Intelligence Refer to bidders library: MITA 2.0, [MITA Part II Chapter 2 Data Management Strategy]
Architecture	General Requirement	45079	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Service Bus shall be used to mediate the transfer of information between various health and human services systems such as but not limited to California Healthcare Eligibility, Enrollment and Retention System (CalHEERS), SAWS, MEDS, CWS/CMS and CMIPS.

Category	Sub Category	Req ID	Requirement
Architecture	General Requirement	45082	The Vendor shall design, build, and maintain California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Physical Data Model (PDM) based in NIEM and HL7 reference model including: A) Persistent Data Model B) Core XML Schema Model C) Message XML Schema Model
Architecture	General Requirement	45105	The Vendor shall design and implement Technical Services that comply with principles and standards from MITA 2.0 Technical Services specification, Part III Chapter 6-Technical Services Specification.
Architecture	General Requirement	45106	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Technical architecture shall provide interoperability and reusability capabilities by creating a Shared Services Infrastructure that adheres to Open technology standards Refer to the Bidders Library: MITA 2.0 Interoperability Capability described in PART III Chapter 6 Technical Services.pdf.
Architecture	General Requirement	45107	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall comply with the recommendations issued pursuant to section 1561 of the Affordable Care Act and shall externalize all the business rules from the application.
Architecture	General Requirement	45108	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) technical architecture shall align with the "Zoned Architecture" defined in CMS Exchange Reference Architecture: Foundation Guidance.
Architecture	General Requirement	45157	The Vendor shall provide and implement an industry standard Business Rules Management System (BRMS) for the maintenance of California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) business rules.
Architecture	General Requirement	45158	The Vendor shall implement a single centralized business rules repository in a consistent, standards-based, human readable format.
Architecture	General Requirement	45159	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Business Rules shall be expressed using a consistent, technology-neutral standard format congruent with NIEM standards.
Architecture	General Requirement	45160	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall conform to N-Tiered web architecture that will realize and enable a Service Oriented Architecture (SOA) design.
Architecture	General Requirement	45161	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Service Bus shall be the single point-of-access to all California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) web services.
Architecture	General Requirement	45191	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Enterprise Service Bus shall provide centralized services for: A) Logging B) Auditing C) Exception Management functions
Architecture	General Requirement	45192	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Service Bus shall provide the following service integration features: A) Request Validation (V) B) Request Enrichment (E) C) Inbound and outbound data Transformation (T) D) Dynamic Routing (R) E) Virtualized service Operation (O) F) Messaging G) Event Driven Architecture (EDA)
Architecture	General Requirement	45193	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) environments shall centrally manage services including the following functions: deployment, versioning, monitoring and administration.
Architecture	General Requirement	45208	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) environments shall provide centralized implementation, management, monitoring, administration and governance of security compliance policies.
Architecture	General Requirement	45217	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) cloud document storage implementation shall operate in a functionally consistent manner to the current WCC document solution.
Architecture	General Requirement	45218	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) cloud document storage implementation shall include the migration of the existing WCC document repository contents to cloud storage.
Architecture	General Requirement	45219	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) cloud document storage implementation shall include the decommissioning of appropriate databases, servers, and other components able to be deprecated based on this solution.
Architecture	General Requirement	45220	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall extend security governance and risk management processes around control implementation maintenance to the cloud document storage.
Architecture	General Requirement	45221	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall extend security governance and risk management processes around policy, procedures, standards, and guidelines to the cloud document storage.
Architecture	General Requirement	45222	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall extend security governance and risk management processes around communications and awareness to the cloud document storage.
Architecture	General Requirement	45223	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall extend security governance and risk management processes around industry and regulatory compliance to the cloud document storage.
Architecture	General Requirement	45224	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall extend security technology and / or processes around firewalls and network security to the cloud document storage.
Architecture	General Requirement	45225	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall extend digital identity technology and / or processes around user provisioning to the cloud document storage.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Architecture	General Requirement	45226	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall extend digital identity technology and / or processes around identity integration to the cloud document storage.
Architecture	General Requirement	45227	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall extend data privacy and protection technology and / or processes around data encryption at rest and in transit to the cloud document storage.
Architecture	General Requirement	45228	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall extend data privacy and protection technology and / or processes around data access control to the cloud document storage.
Architecture	General Requirement	45229	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall extend cyber defense technology and / or processes around SIEM to the cloud document storage.
Architecture	General Requirement	45230	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall extend operations management technology and / or processes around system and service monitoring to the cloud document storage.
Architecture	General Requirement	45231	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall extend operations management technology and / or processes around environments configuration and management to the cloud document storage.
Architecture	General Requirement	45232	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall extend operations management technology and / or processes around backup, restore, archival, and recovery to the cloud document storage.
Architecture	General Requirement	45233	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall extend data management technology and / or processes around data lifecycle management to the cloud document storage.
Architecture	General Requirement	45234	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall extend performance and availability management technology and / or processes around availability and performance monitoring to the cloud document storage.
Architecture	General Requirement	45235	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall extend performance and availability management technology and / or processes around IT capacity management to the cloud document storage.
Architecture	General Requirement	45236	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall extend software configuration management technology and / or processes around release management to the cloud document storage.
Architecture	General Requirement	45238	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall support document retrieval and storage in cloud.
Architecture	General Requirement	45247	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall separate MEDS Notification logic from other post-eligibility processing into a separate service.
Architecture	General Requirement	45248	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall separate DER Outbound Processing logic from other post-eligibility processing into a separate service.
Architecture	General Requirement	45249	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall build each service, listed in TR1, such that it is separately maintainable and deployable from other services.
Architecture	General Requirement	45250	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall build each service, listed in TR1, such that it supports production monitoring by passing a correlation ID with each request to any child service that is called.
Architecture	General Requirement	45251	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall build each service, listed in TR1, to support authentication of requests via a JWT Token passed in the header.
Architecture	General Requirement	45252	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall build each service, listed in TR1, such that it supports production monitoring by providing service request logging: --Service request failure --Service system information if a failure occurs --Service request success
Architecture	General Requirement	45253	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall build each service, listed in TR1, such that it supports production monitoring by providing service request logging of data attributes: • Service name and operation name. • Business description of operation called. • If request failed, failure reason, if known. • If request failed, timestamp of failure • If request failed, business impact, if known • If request failed, corrective action (user retry, intervention required – if known) • User (or system process) that initiated request
Architecture	General Requirement	45255	The Vendor shall implement open standard based Service Repository/Registry that supports: Service Governance and Runtime Discovery/Binding.
Architecture	General Requirement	45256	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) services shall be portable across platforms.
Architecture	General Requirement	45257	The Vendor shall develop and expose web services to consumers using the following open standards: A) XML B) WSDL C) SOAP D) WS-I Web Services E) WS-Security
Architecture	General Requirement	45258	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall build each service, listed in TR1, such that it supports production monitoring by providing a health check operation that includes DB connection health and inter-service connectivity health.

Category	Sub Category	Req ID	Requirement
Architecture	General Requirement	45259	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall build each service, listed in TR1, such that has a unique property file that drives service configuration different that other service property files.
Architecture	General Requirement	45262	The NICE application shall support call record retrieval and storage in cloud.
Architecture	General Requirement	45263	The cloud call recordings storage implementation shall operate in a functionally consistent manner to the current NICE application solution.
Architecture	General Requirement	45264	The cloud call recording storage implementation shall include the migration of the existing NICE voice call recordings archives to cloud storage.
Architecture	General Requirement	45265	The cloud call recordings storage implementation shall include the decommissioning of appropriate databases, servers, and other components able to be deprecated based on this solution.
Architecture	General Requirement	45266	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall extend security governance and risk management processes around control implementation maintenance to the cloud call recordings storage.
Architecture	General Requirement	45267	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall extend security governance and risk management processes around policy, procedures, standards, and guidelines to the cloud call recordings storage.
Architecture	General Requirement	45268	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall extend security governance and risk management processes around communications and awareness to the cloud call recordings storage.
Architecture	General Requirement	45269	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall extend security governance and risk management processes around industry and regulatory compliance to the cloud call recordings storage.
Architecture	General Requirement	45270	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall extend security technology and / or processes around firewalls and network security to the cloud call recordings storage.
Architecture	General Requirement	45271	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall extend digital identity technology and / or processes around user provisioning to the cloud call recordings storage.
Architecture	General Requirement	45272	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall extend digital identity technology and / or processes around identity integration to the cloud call recordings storage.
Architecture	General Requirement	45273	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall extend data privacy and protection technology and / or processes around data encryption at rest and in transit to the cloud call recordings storage.
Architecture	General Requirement	45274	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall extend data privacy and protection technology and / or processes around data access control to the cloud call recordings storage.
Architecture	General Requirement	45275	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall extend cyber defense technology and / or processes around SIEM to the cloud call recordings storage.
Architecture	General Requirement	45276	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall extend operations management technology and / or processes around system and service monitoring to the cloud call recordings storage.
Architecture	General Requirement	45277	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall extend operations management technology and / or processes around backup, restore, archival, and recovery to the cloud call recordings storage.
Architecture	General Requirement	45278	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall extend data management technology and / or processes around data lifecycle management to the cloud call recordings storage.
Architecture	General Requirement	45279	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall extend performance and availability management technology and / or processes around availability and performance monitoring to the cloud call recordings storage.
Architecture	General Requirement	45280	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall extend performance and availability management technology and / or processes around IT capacity management to the cloud call recordings storage.
Architecture	General Requirement	45281	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall extend software configuration management technology and / or processes around release management to the cloud call recordings storage.
Architecture	General Requirement	45298	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) services shall be reusable as an enterprise resource with agnostic functional contexts.
Architecture	General Requirement	45311	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system should support running development, test, and tools environments in cloud.
Architecture	General Requirement	45312	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall extend security technology and / or processes around firewalls and network security to the cloud development, test, and tools environments.
Architecture	General Requirement	45313	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall extend security technology and / or processes around system hardening to the cloud development, test, and tools environments.
Architecture	General Requirement	45314	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall extend security technology and / or processes around system integrity to the cloud development, test, and tools environments.
Architecture	General Requirement	45315	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall extend digital identity technology and / or processes around user provisioning to the cloud development, test, and tools environments.
Architecture	General Requirement	45316	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall extend digital identity technology and / or processes related to directory services to the cloud development, test, and tools environments.
Architecture	General Requirement	45317	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall extend digital identity technology and / or processes around access management to the cloud development, test, and tools environments.
Architecture	General Requirement	45318	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall extend data privacy and protection technology and / or processes around data encryption at rest and in transit to the cloud development, test, and tools environments.
Architecture	General Requirement	45319	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall extend data privacy and protection technology and / or processes around data access audit to the cloud development, test, and tools environments.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Architecture	General Requirement	45320	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall extend cyber defense technology and / or processes around vulnerability management to the cloud development, test, and tools environments.
Architecture	General Requirement	45321	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall extend cyber defense technology and / or processes around SIEM to the cloud development, test, and tools environments.
Architecture	General Requirement	45322	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall extend security operations management technology and / or processes around patch management to the cloud development, test, and tools environments.
Architecture	General Requirement	45323	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall extend security governance and risk management processes around strategy and risk management to the cloud development, test, and tools environments.
Architecture	General Requirement	45324	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall extend security governance and risk management processes around control implementation maintenance to the cloud development, test, and tools environments.
Architecture	General Requirement	45325	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall extend security governance and risk management processes around policy, procedures, standards, and guidelines to the cloud development, test, and tools environments.
Architecture	General Requirement	45326	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall extend security governance and risk management processes around communications and awareness to the cloud development, test, and tools environments.
Architecture	General Requirement	45327	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall extend security governance and risk management processes around industry and regulatory compliance to the cloud development, test, and tools environments.
Architecture	General Requirement	45328	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall extend security technology and / or processes around server and endpoint security to the cloud development, test, and tools environments.
Architecture	General Requirement	45329	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall extend security technology and / or processes around IDS and IPS to the cloud development, test, and tools environments.
Architecture	General Requirement	45330	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall extend security technology and / or processes around malware treatment to the cloud development, test, and tools environments.
Architecture	General Requirement	45331	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall extend digital identity technology and / or processes around identity integration to the cloud development, test, and tools environments.
Architecture	General Requirement	45332	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall extend operations management technology and / or processes around automation and scheduling to the cloud development, test, and tools environments.
Architecture	General Requirement	45333	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall extend operations management technology and / or processes around system and service monitoring to the cloud development, test, and tools environments.
Architecture	General Requirement	45334	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall extend operations management technology and / or processes around server configuration and management to the cloud development, test, and tools environments.
Architecture	General Requirement	45335	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall extend operations management technology and / or processes around environments configuration and management to the cloud development, test, and tools environments.
Architecture	General Requirement	45336	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall extend operations management technology and / or processes around backup, restore, archival, and recovery to the cloud development, test, and tools environments.
Architecture	General Requirement	45337	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall extend data management technology and / or processes around data lifecycle management to the cloud development, test, and tools environments.
Architecture	General Requirement	45338	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall extend performance and availability management technology and / or processes around capacity planning to the cloud development, test, and tools environments.
Architecture	General Requirement	45339	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall evaluate and, if compatible with the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) application, implement performance and availability management technology and / or processes around autoscaling to the cloud development, test, and tools environments.
Architecture	General Requirement	45340	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall extend performance and availability management technology and / or processes to performance tune the cloud development, test, and tools environments.
Architecture	General Requirement	45341	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall extend performance and availability management technology and / or processes around availability and performance monitoring to the cloud development, test, and tools environments.
Architecture	General Requirement	45342	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall extend performance and availability management technology and / or processes around IT capacity management to the cloud development, test, and tools environments.
Architecture	General Requirement	45343	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall extend software configuration management technology and / or processes around release management to the cloud development, test, and tools environments.
Architecture	General Requirement	45344	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) cloud development, test, and tools environments implementation shall include the decommissioning of appropriate databases, servers, and other components able to be deprecated based on this solution.
Architecture	General Requirement	45345	The Vendor shall implement service access patterns (e.g. "External Gateway Pattern", "EDI Gateway" etc.) to provide unique access point to the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) services from various access channels.
Architecture	General Requirement	45346	The Vendor shall establish a data warehouse for storing, and maintaining California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) data.
Architecture	General Requirement	45347	The Vendor shall provide a Business Intelligence System with a minimum of ten [10] simultaneous users.
Architecture	General Requirement	45355	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Software services architecture shall enable the capabilities to deploy the services in the cloud environment.
Architecture	General Requirement	45356	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) services and capabilities shall be available as Software-as-a-Service (SaaS) within California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) and across various county, State, federal and private agencies.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Architecture	General Requirement	45358	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system should support the billing system running in cloud.
Architecture	General Requirement	45359	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) implementation of the cloud billing system shall operate in a functionally consistent manner to the current on-premise billing solution.
Architecture	General Requirement	45360	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) cloud billing system implementation shall include the decommissioning of appropriate databases, servers, and other components able to be deprecated based on this solution.
Architecture	General Requirement	45377	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall have the capability to bundle correspondence/notices for printing, storage, reprinting and emailing.
Architecture	General Requirement	45378	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Architecture shall align with the CMS Exchange Reference Architecture's (ERA) framework.
Architecture	General Requirement	45379	The Vendor shall document the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Technical Capability Matrix to various MITA 2.0 Maturity Levels (MITA Maturity Model, MMM).
Architecture	General Requirement	45380	The Vendor shall expose the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) services consistent with WS-I web service guidelines and interoperability tests that are based on Service Contract Specification.
Architecture	General Requirement	45381	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Enterprise Service Bus shall support the following architectures and standards: A) Medi-care information technology architecture (MITA) B) WS-I guidelines C) NIEM D) HL7
Architecture	General Requirement	45387	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Service Bus shall provide the following connectivity services at a minimum: A) Web Services Connectivity: SOAP, REST B) Data Source Connectivity: connectivity adaptors to MEDS and SAWS data sources C) Transport Services: (S)FTP, HTTP(s), JMS providers, RMI, web services, CORBA, DCOM, and e-mail (POP, SMTP, IMAP)
Architecture	General Requirement	45388	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Access Channel/Application Layer shall provide application access for the States eligibility and enrollment services for consumers, providers, and assisters.
Architecture	General Requirement	45393	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Access Channel/Application Layer shall provide access to California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) by the following methods: A) Web Portal B) Smart Mobile Device C) Interactive Voice Response (IVR) D) Fax Interface
Architecture	General Requirement	45397	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall extend security governance and risk management processes around control implementation maintenance to the cloud billing system.
Architecture	General Requirement	45398	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall extend security governance and risk management processes around policy, procedures, standards, and guidelines to the cloud billing system.
Architecture	General Requirement	45399	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall extend security governance and risk management processes around communications and awareness to the cloud billing system.
Architecture	General Requirement	45400	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall extend security governance and risk management processes around industry and regulatory compliance to the cloud billing system.
Architecture	General Requirement	45401	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall extend security technology and / or processes around firewall and network security to the cloud billing system.
Architecture	General Requirement	45402	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall extend security technology and / or processes around system hardening to the cloud billing system.
Architecture	General Requirement	45403	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall extend security technology and / or processes around system integrity to the cloud billing system.
Architecture	General Requirement	45404	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall extend security technology and / or processes around server and endpoint security to the cloud billing system.
Architecture	General Requirement	45405	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall extend security technology and / or processes around IDS and IPS to the cloud billing system.
Architecture	General Requirement	45406	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall extend security technology and / or processes around malware treatment to the cloud billing system.
Architecture	General Requirement	45407	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall extend digital identity technology and / or processes around user provisioning to the cloud billing system.
Architecture	General Requirement	45408	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall extend digital identity technology and / or processes related to directory services to the cloud billing system.
Architecture	General Requirement	45409	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall extend digital identity technology and / or processes around access management to the cloud billing system.
Architecture	General Requirement	45410	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall extend digital identity technology and / or processes around identity integration to the cloud billing system.
Architecture	General Requirement	45411	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall extend data privacy and protection technology and / or processes around data encryption at rest and in transit to the cloud billing system.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Architecture	General Requirement	45412	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall extend data privacy and protection technology and / or processes around data access audit to the cloud billing system.
Architecture	General Requirement	45413	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall extend data privacy and protection technology and / or processes around data access controls to the cloud billing system.
Architecture	General Requirement	45414	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall extend cyber defense technology and / or processes around vulnerability management to the cloud billing system.
Architecture	General Requirement	45415	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall extend security cyber defense processes around SIEM to the cloud billing system.
Architecture	General Requirement	45416	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall extend operations management technology and / or processes around automation and scheduling to the cloud billing system.
Architecture	General Requirement	45417	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall extend operations management technology and / or processes around system and service monitoring to the cloud billing system.
Architecture	General Requirement	45418	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall extend operations management technology and / or processes around server configuration and management to the cloud billing system.
Architecture	General Requirement	45419	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall extend operations management technology and / or processes around workstation configuration and management to the cloud billing system.
Architecture	General Requirement	45420	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall extend operations management technology and / or processes around environments configuration and management to the cloud billing system.
Architecture	General Requirement	45421	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall extend operations management technology and / or processes around backup, restore, archival, and auto recovery to the cloud billing system.
Architecture	General Requirement	45422	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall extend data management technology and / or processes around data lifecycle management to the cloud billing system.
Architecture	General Requirement	45423	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall extend performance and availability management technology and / or processes around capacity planning and auto scaling to the cloud billing system.
Architecture	General Requirement	45424	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall extend performance and availability management technology and / or processes around performance tuning to the cloud billing system.
Architecture	General Requirement	45425	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall extend performance and availability management technology and / or processes around performance profiling to the cloud billing system.
Architecture	General Requirement	45426	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall extend performance and availability management technology and / or processes around availability and performance monitoring to the cloud billing system.
Architecture	General Requirement	45427	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall extend performance and availability management technology and / or processes around IT capacity management to the cloud billing system.
Architecture	General Requirement	45428	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall extend security operations management technology and / or processes around patch management to the cloud billing system.
Architecture	General Requirement	45429	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall extend software configuration management technology and / or processes around release management to the cloud billing system.
Architecture	General Requirement	45430	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall extend software configuration management technology and / or processes around version source management to the cloud billing system.
Architecture	General Requirement	45434	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System web portal shall have the ability to collect feedback from users regarding (functionality, features, web portal problems, performance, accessibility (ADA and languages) etc.)
Architecture	General Requirement	45528	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create the foundation components required for deploying the Lightweight services with container based deployment architecture and also create the framework components required as part of this change.
Architecture	General Requirement	45529	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall migrate the code for Data Access Validation filter from monolith application to a new LW_Common Service
Architecture	General Requirement	45530	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall migrate the code for Error Service used for logging exceptions in HBX_MONITOR and HBX_ERROR table from monolith application to a new LW_Common Service
Architecture	General Requirement	45531	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall tag the exceptions logged in HBX_MONITOR table as business exception or technical exception based on the type of exception logged
Architecture	General Requirement	45532	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create Reference Data cache to be used by Lightweight services deployed using container based deployment architecture to avoid database calls.
Architecture	General Requirement	45533	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create new endpoints in LW_Common Service that can be used by other Lightweight services to retrieve the reference data values.
Architecture	General Requirement	45534	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall maintain centralized configuration/service for all property key/values and it should be available for all LW components deployed using container based deployment architecture
Architecture	General Requirement	45535	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use a new log message format from all Lightweight projects deployed using the container based deployment architecture for issue analysis and debug
Architecture	General Requirement	45536	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement log rotation policy for the Lightweight projects deployed using the container based deployment architecture

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Architecture	General Requirement	45537	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create a common set of Utilities that can be used by all Lightweight projects deployed using the container based deployment architecture
Architecture	General Requirement	45538	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use service discovery process to automate discovery of new instances of Lightweight services deployed using container based architecture
Architecture	General Requirement	45539	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement IVR & Demographics java code that exists in the monolith application in the following Light Weight components: 1) LW_CommonServices 2) LW_AppStart 3) LW_PendingApp 4) LW_Household 5) LW_Income 6) LW_HealthCare 7) LW_AppPdf 8) LW_Citizenship 9) LW_AppSignature 10) LW_IVR
Architecture	General Requirement	45540	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement the endpoints documented in "Demographic Monolith Endpoints" Tab in Lightweight services
Architecture	General Requirement	45541	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use Spring Boot 2.3.X and OpenJDK11 in the Lightweight services deployed using the container based deployment architecture
Architecture	General Requirement	45542	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provision infrastructure, software and monitoring tools for production and non-production environments for deploying and monitoring Lightweight services using the container based deployment architecture
Architecture	General Requirement	45543	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall conduct regression, system and performance testing for Lightweight services using the container based deployment architecture
Architecture	General Requirement	45544	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create/update the Build and Deployment scripts to provide deployment capabilities for container based deployment architecture
Architecture	General Requirement	45663	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall prevent Non-Admin user account passwords from being changed more than 1 time per calendar day
Architecture	General Requirement	45664	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have messaging for users who attempted to change passwords more than 1 time per calendar day
Architecture	General Requirement	45665	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have messaging after a user changes a password that it cannot be changed again until the next calendar day
Architecture	General Requirement	45666	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update password criteria to include messaging that passwords must not be changed more than once per calendar day
Architecture	General Requirement	45667	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall mask the Date of Birth field for the Consumer and Authorized Representative to display only the day and month, masking the year, after the application has been submitted
Architecture	General Requirement	45668	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall change the "My Profile" Date of Birth field to a read only label by default, with a button to edit
Architecture	General Requirement	45669	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add messaging to the profile page indicating that the data changes made in the profile page will not impact application data
Architecture	General Requirement	45670	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall require users (Authorized Reps and Consumers) to enter a OTP to access tax forms less than or equal to 2021 tax year
Architecture	General Requirement	45671	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add messaging to inform the user (Authorized Reps and Consumers) that OTP set up is required to access tax forms
Architecture	General Requirement	45672	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide enhanced messaging on Verify Your Account/OTP pages to enhance visibility of hint text
Architecture	General Requirement	45673	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall capture audit trail to record all the OTP transactions performed by Consumer and Auth Rep to access the tax forms less than or equal to 2021 tax year
Architecture	General Requirement	45709	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall be restrict the use of database management utilities to only authorized database administrators,Prevent users from accessing database data files at the logical data view, field, or field-value level, Implement table-level access control
Architecture	General Requirement	45710	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall be define and Document separates duties of individuals as necessary to prevent malevolent activity
Architecture	General Requirement	45711	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall be enforce role-based access control policies over all subjects and objects
Architecture	General Requirement	45712	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall be maintain a limited group of administrators with access based upon the users' roles and responsibilities
Architecture	General Requirement	45713	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall be configured databases containing federal information in accordance with the organizational security administration guide to provide role-based access controls, enforcing assigned privileges and permissions at the file, table, row, column, or cell level, as appropriate
Architecture	General Requirement	45714	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall be constrained a subject that has been granted access to information from doing any of the following: (i) Passing the information to unauthorized subjects or objects; (ii) Granting its privileges to other subjects; (iii) Changing one or more security attributes on subjects, objects, the information system, or information system components; (iv) Choosing the security attribute and attribute values to be associated with newly created or modified objects.
Architecture	General Requirement	45715	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall be limit IRS data access to identified US Resources

Category	Sub Category	Req ID	Requirement
Architecture	General Requirement	45716	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall be limit FTB data access to identified resources
Architecture	General Requirement	45717	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Technology Refresh - Oracle to RDS Aurora PostgreSQL Database - Database - HIGH AVAILABILITY
Architecture	General Requirement	45718	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall be support fault tolerance at compute and storage level of database
Architecture	General Requirement	45719	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall be automatically and quickly failover to standby database to minimize downtime
Architecture	General Requirement	45720	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall be ensure no or minimum amount of data loss during a database failure
Architecture	General Requirement	45721	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall be able to manually failover and failback to minimize downtime during planned maintenance
Architecture	General Requirement	45764	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall conduct regression, system, Integration and performance testing for Lightweight services using the container based deployment architecture
Architecture	General Requirement	45765	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement related java code that exists in the monolith application in the following Light Weight components: 1)LW_Enrollment 2)LW_UpdateMemberOutbound 3)LW_UpdateMemberInbound 4)LW_DER 5)LW_Meds 6)LW_Disposition 7)LW_MEDS_Alert 8)LW_Individual 9)LW_ROP 10)LW_Account_Transfer 11)LW_BulkTransfer 12)LW_SalesforceBPM
Architecture	General Requirement	45766	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement the endpoints documented in "MEDS&SAWSMonolithEndpoints" Tab in Lightweight services
Architecture	General Requirement	45767	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall migrate the functionalities mentioned below from the Portal WS to LW components without changing any existing functionalities. 1 - CompanionEligibilityDeterminationEndPoint 2 - CancelDER
Architecture	General Requirement	45768	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use Spring Boot 2.6.6 and OpenJDK11 in the Lightweight services deployed using the container based deployment architecture
Architecture	General Requirement	45769	CALHEERS shall implement ENUM removal for 18 screens and related Java codes as part of code optimization.

Category	Sub Category	Req ID	Requirement
Architecture		45816	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall migrate the JSF pages mentioned below to the React Framework. 1) Apply for Health Insurance 2) HouseHold Primary Contact - Apply for Health Insurance 3) Identify Proofing - HouseHold Primary Contact a)Upload Documents - Confirm Your Identity b)Identify Proofing Options c)Confirm your Address d)Unable to Validate Address e)Confirm Identity f)Confirmation g)Session Expired h)Not Able to verify i)Help Me Decide j)Identify Confirmation Failed 4) Primary Contact - Name - HouseHold Primary Contact 5) Primary Contact Home Address - HouseHold Primary Contact 6) Primary Contact Mailling Address - HouseHold Primary Contact 7) Communication and Language Preferences - HouseHold Primary Contact 8) Application Assosiation - Apply for Health Insurance 9) Consent For Verification - Apply for Health Insurance 10) HouseHold Members a) Person 1 i)General ii)Address & Contact iii)Relationships iv)Demographic Info v)Tax information vi)Health Insurance Information vii)Optional Data viii)Income 11) Income Summary 12) Notes 13) Create corresspondence
	General Requirement		
Architecture	General Requirement	45817	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use React 17 for the migration of Flexi App(JSF page) to React.
Architecture	General Requirement	45818	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement separate Lightweight for the backend service of FlexiApp using Spring Boot 2.6.6 and OpenJDK11 deployed using the container based deployment architecture
Architecture	General Requirement	45819	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall migrate all the Endpoints across all the Lightweights as mentioned in RemainingEndpoints tab for which the Monolithic code was not migrated until 22.9 which needs to be migrated with 23.2 and needs to deploy the Lightweight components which are currently deployed in Weblogic should be deployed to OCP except OSB,OPA,SOA and GI.
Architecture	General Requirement	45820	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provision infrastructure, software and monitoring tools for production and non-production environments for deploying and monitoring Lightweight services using the container based deployment architecture
Architecture	General Requirement	45821	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall conduct regression, system, Integration and performance testing for Lightweight services using the container based deployment architecture
Architecture	General Requirement	45822	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create/update the Build and Deployment scripts to provide deployment capabilities for container based deployment architecture

Category	Sub Category	Req ID	Requirement
Architecture		45823	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement the Security Best Practices comments mentioned in the NUW SIR#180595 for the following Lightweights 1)LW_Enrollment 2)LW_UpdateMemberOutbound 3)LW_UpdateMemberInbound 4)LW_DER 5)LW_Meds 6)LW_Disposition 7)LW_MEDS_Alert 8)LW_Individual 9)LW_ROP 10)LW_Account_Transfer 11)LW_BulkTransfer 12)LW_SalesforceBPM
	General Requirement		
Architecture	General Requirement	45824	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall migrate the monolithic code(legacy/existing business logic) from the ECM Service component to LW components without changing any existing functionalities.
Architecture	General Requirement	45825	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall migrate the monolithic code from Portal Service to Batch components without changing any existing functionalities
Architecture	General Requirement	46007	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall extend security governance and risk management processes around strategy and risk management to the cloud billing system.
Architecture	General Requirement	46206	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall reuse the Foundation Components, Reference Data Cache, Centralized Configuration for all property key/values, Common Set of Utilities and The Endpoints in LW_Common Service that were developed in LW Phase 1, as part of this change.
Architecture	General Requirement	46207	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall move all the ENUM listed in the "EnumMigration" tab for the screens which were part of the LW Phase 5 CR 200355 to the reference data caching.
Architecture	General Requirement	46567	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide infrastructure for production and non-production environments for implementation of micro-batch architecture.
Architecture	General Requirement	46568	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) will incorporate micro batch architecture extending SAWS renewals to be processed outside the batch window. This will allow faster processing of combined SAWS renewal (resulted from CalWIN migration into CalSAWS).
Architecture	General Requirement	46569	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) will Incorporate Interface (CMS/ FTB/ EDD) Governor Limits management which will automatically throttle-up and throttle-down to maximize the interface calls and keep interface calls within the allowed boundaries for SAWS batch (Regular Batch EDR + Monthly Renewal EDR).
Architecture	General Requirement	46570	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall conduct Performance testing for SAWS renewal volumes using the container-based deployment architecture
Architecture	General Requirement	46714	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall enhance the code logic to allow plan loading for a future year
Architecture	General Requirement	46715	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall incorporate Replace Year action to add or replace plan data for a given year for PlanRateData job.
Architecture	General Requirement	46716	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall enhance the base framework of the Shop and Compare utility to support batch processing of data.
Architecture	General Requirement	46717	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall incorporate Batch processing for all Actions of the PlanRateData job - Replace All, Append Year, Replace Year.
Architecture	General Requirement	46718	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall make necessary updates to the build and deployment job pipeline to incorporate Replace Year action.
Architecture	General Requirement	46719	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall be able to deploy and revert (if Needed) Shop and Compare plans during off business hours.
Architecture	General Requirement	46857	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provision infrastructure and software for production and non-production environments for deploying Fuse services using the container based deployment architecture
Architecture	General Requirement	46858	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall migrate the EHIT transaction related OSB services to Red Hat Fuse

Category	Sub Category	Req ID	Requirement
Architecture		46859	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall migrate all the below OSB services to Red Hat Fuse. 1. California Healthcare Eligibility, Enrollment and Retention System (CalHEERS)EHITInterface_v2 2. DER_v3 3. InterfaceEvents_v3 4. InterfaceEventsInbound_v1 5. PollCalifornia Healthcare Eligibility, Enrollment and Retention System (CalHEERS)EHITLogInterface 6. PollCancelDER_v1 7. PollDERBatchCalWINCompanion_v1 8. PollDERBatchLeaderCompanion_v1 9. PollDERCalWINCompanion_v1 10. PollDERCalWINInterfaceEvents_v2 11. PollDERCWBatch_v1 12. PollDERLDBatch_v1 13. PollDERLeaderCompanion_v1 14. PollDERLeaderInterfaceEvents_v2 15. PollDisposition_v1_1 16. PollDisposition_v1_2 17. PollDisposition_v1_3 18. PollEDRCaWIN_v1 19. PollEDRCaWINBatch_v1 20. PollEDRCaWINBatchCompanion_v1 21. PollEDRCaWINCompanion_v1 22. PollEDRLD_v1 23. PollEDRLDBatch_v1 24. PollEDRLeaderBatchCompanion_v1 25. PollEDRLeaderCompanion_v1 26. PollLogLeader 27. PollLogCaWIN_v1 28. PollUpdateMemberInbound_v1 29. PollUpdateMemberOutboundCW_v1 30. PollUpdateMemberOutboundLD_v1
	General Requirement		
Architecture		46860	Build common Fuse service for all the EHIT transactions to be exposed to SAWS for inbound transactions . Build common Fuse service for all the Outbound EHIT transactions to invoke SAWS. And Pollers related to EHIT should perform below operations 1. Poll for the newly inserted records in the inbound table. 2. Read the payload and transform it into the request format of LightWeight Services. 3. Invoke LightWeight Services. 4. Process the payload received from LightWeight Services 5. Based on the response from LightWeight Services endpoint update/insert the records in the inbound and outbound tables.
	General Requirement		
Architecture	General Requirement	46861	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall migrate the FDSH transaction related OSB services to Red Hat Fuse
Architecture		46862	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall migrate all the below OSB services to Red Hat Fuse. 1. FraudArchivingReportingSystem_v1 2. RemoteIDProofing_v2 3. VerifyAnnualHouseHoldIncome_v3 4. VerifyESIMEC_v2 5. VerifyNonESIMEC_v3 6. VerifyFTB540Income_v1 7. VerifyCurrentIncome_v1 8. EmployeeIncome_v2 9. AIM_v1 10. PollFTBHCSOutbound_v1
	General Requirement		

Category	Sub Category	Req ID	Requirement
Architecture	General Requirement	46863	Fuse FDSH related services should perform below operations 1. Accept the request received from source/invoking system. 2. Validate the request received against the schema configured. 3. Log the request payload in the Interface_Log table. 4. Invoke the Hub service. 5. Log the response payload in the Interface_Log table. 6. Respond back with the payload.
Architecture	General Requirement	46864	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall migrate the MEDS transaction related OSB services to Red Hat Fuse
Architecture	General Requirement	46865	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall migrate all the below OSB services to Red Hat Fuse. 1. GetMEDSCreateApplicationInterfaceEvents_v2 2. GetMEDSCreateEligibilityInterfaceEvents_v2 3. IdentifyMember_v3 4. EligibilityService_v3 5. MEDSInterfaceEvents_v1 6. PollMEDSInterfaceEvents_v1
Architecture	General Requirement	46866	Fuse MEDS related services shall perform below operations 1. Accept the request received from source/invoking system. 2. Validate the request received against the schema configured. 3. Log the request payload in the Interface_Log table. 4. Invoke the Hub service. 5. Log the response payload in the Interface_Log table. 6. Respond back with the payload.
Architecture	General Requirement	46867	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall migrate the below common OSB services to Red Hat Fuse, which are primarily used for logging the payloads into the log tables. 1. LoggingService_v1 2. IRSLoggingService_v1 3. IRSResponseLoggingService_v1
Architecture	General Requirement	46868	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall migrate the VIED related SOA services to Red Hat Fuse
Architecture	General Requirement	46869	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall migrate all the below VIED related SOA services to Red Hat Fuse. 1. VIEDService 2. VIEDVerifyAnnualHouseHoldIncome 3. VIEDVerifyNonESIMECBPEL 4. VerifyESIMEC 5. VIEDInquireMember 6. VIEDIRSLoggingService 7. VIEDLoggingService
Architecture	General Requirement	46870	Fuse VIED related services should perform below operations 1. Accept the request from LightWeights 2. Logg the request in the log table 3. Read and transform the request paylaod 4. Invoke the verifications services/cache tables paralelly with the respective transformed payloads, based on the indicators received from LightWeights. 5. Club the responses received from all the verification sources and build OPA request file. 6. Log the OPA request file and invoke OPA endpoint. 7. Log the response receievd from OPA in logging table. 8. Transform the OPA response payload into VIED response payload and respond back to the LightWeights.
Architecture	General Requirement	46871	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall migrate the AIM related SOA services to Red Hat Fuse
Architecture	General Requirement	46872	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall migrate all the below AIM related SOA services to Red Hat Fuse. 1. BEPLAIM 2. BEPLAIMSSAComposite
Architecture	General Requirement	46873	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall migrate the RRV/PVC payload generation related SOA services to Red Hat Fuse

Category	Sub Category	Req ID	Requirement
Architecture	General Requirement	46874	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall migrate all the below RRV/PVC payload generation related SOA services to Red Hat Fuse. 1. DSH_Payload_creation 2. VCI_RVV_Payload_Creation 3. Medicare_RVV_Payload_Creation
Architecture			Fuse RRV/PVC payload generation related services should perform below operations 1. Based on the request received, read the records from the RRV/PVC request tables. 2. Based on the mock rules, build the mock file by using transformation file. 3. Place the mock file in the SFTP location. 4. Respond back with the status of file generation
Architecture			California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall conduct regression, system, integration, security and performance testing for Fuse services using the container based deployment architecture
Architecture	General Requirement	46877	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) should update the B&D scripts to provide deployment capabilities for container based deployment architecture
Architecture	Interfaces		
Architecture	Interfaces	49148	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement a mechanism to control the flow of CalSAWS Case Search requests, ensuring California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system stability and preventing performance degradation during transaction spikes.
Architecture	Non-Functional Requirement		
Architecture	Non-Functional Requirement	45886	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provision infrastructure and software for production and non-production environments for developing Drools rule engine services using the container based deployment architecture.
Architecture	Non-Functional Requirement	45887	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the build and deployment scripts to provide deployment capabilities for Drools rule engine artifacts.
Architecture	Non-Functional Requirement	45888	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall migrate the Oracle Policy Automation (OPA) policies to Red Hat's Drools based policies.
Architecture	Non-Functional Requirement	45889	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall migrate all the OPA rules present in Word files and Excel spreadsheets, including HBX OPA spreadsheets, to corresponding Drools artifacts while retaining functional equivalency to the existing OPA rules.
Architecture	Non-Functional Requirement	45890	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall replace the application's OPA integrations with Drools
Architecture	Non-Functional Requirement	45891	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall replace existing OPA integrations corresponding to the 4 checkpoints in the portal with Drools integration
Architecture	Non-Functional Requirement	45892	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall replace OPA integrations in SOA service that supports ONLINE, BATCH and SAWS eligibility determinations.
Architecture	Notices		
Architecture	Notices	43321	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall build a SAWS configurable dual architecture.
Architecture	Notices	45246	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall separate Notice Triggering logic from other post-eligibility processing into a separate service.
Architecture	Web Portal Online Help		
Architecture	Web Portal Online Help	38802	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall have portal pages associated with "Secure Mailbox" functionality migrated to React based framework.

Assister Portal	Assister Management	46979	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create a related list on Lead profiles to identify duplicate profiles existing within the system.
Assister Portal	Assister Management	46980	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add Federal Poverty Level percentage to the Enroller Portal Book of Business.
Assister Portal	Assister Management	46981	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall make English the default language in multi-select picklists for Enroller portal applications and downline profile forms.
Assister Portal	Assister Management	46982	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall include a summary of estimated number of Individuals served for each Location
Assister Portal	Assister Management	46983	CalHEERs shall include a spoken languages summary at the Account level for Agency and Entity Accounts.
Assister Portal	Assister Management	46984	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow Agent and Entity Admins to update Certification/Approval Date for Contacts.
Assister Portal	Assister Management	46985	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow Entity Admins to bulk send Counselor agreements for Contacts and Leads.
Assister Portal	Assister Management	46986	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow Entity Admins to bulk send Entity agreements for Leads
Assister Portal	Assister Management	46987	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the Onboarding Email for newly Approved Entities to add more details related to next steps for Primary/Authorized Contacts and Counselors.
Assister Portal	Assister Management	46988	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow Internal Salesforce users to see historical information for Location.
Assister Portal	Assister Management	46989	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display Hours of Operation for Agencies in Find Local Help.
Assister Portal	Assister Management	46990	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow internal Salesforce users to send targeted prompts and notifications to Enroller Portal users (Agent Alerts and Community Partner Alerts).
Assister Portal	Assister Management	46991	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add the NMA Contract Number and MA Contract Number fields to the Contact Object and Agency Manager, Authorized Signer and Agent page layouts to drive the NMA and MA DocuSign Contracting processes.
Assister Portal	Assister Management	46992	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall streamline DocuSign fields in Agency Lead, Contact, and Account page layouts
Assister Portal	Assister Management	46993	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall restrict all internal users from editing Criminal Record Disclosure forms.
Assister Portal	Assister Management	46994	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display a list view or a report for Lead Applications whose Criminal Record Disclosures are outstanding.
Assister Portal	Assister Management	46995	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display a list view of Lead Applications whose Criminal Record Disclosures are submitted.
Assister Portal	Assister Management	46996	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the ability for an Agency Manager Level 2 choose to be changed to an Agent Level 1 or Agent Level 2 when adding a new MA holder to the Agency
Assister Portal	Assister Management	46997	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the ability for an Agency Manager Level 2 to change role to an Agent Level 1 or Agent Level 2
Assister Portal	Assister Management	46998	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the ability for an Approved Admin Staff Level 1 to change role to an Approved Admin Staff Level 2 (and vice versa)
Assister Portal	Assister Management	46999	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add further filtering options for Bulk Certification/Approval Status Updates page.
Assister Portal	Assister Management	47000	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall only allow monetary contract holders whose version number includes “IFP Only” to make updates to their mailing address.
Assister Portal	Assister Management	47895	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add Strike Lockout Subsidy to Salesforce Consumer Contact related Object.
Assister Portal	Assister Management	47896	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add Strike Lockout Subsidy to BoB report
Assister Portal	Assister Management	47897	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall push the Strike Lockout Subsidy from HBX to the Enroller Portal when a user accesses the Get Real Time Consumer Information button.
Assister Portal	Assister Management	47898	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the Enroller Portal with the Strike/Lockout Subsidy amount during the nightly Data Warehouse incremental load.
Assister Portal	Assister Management	47899	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add California Premium Credit Subsidy to Salesforce Consumer Contact related Object.
Assister Portal	Assister Management	47900	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add California Premium Credit Subsidy to BoB report
Assister Portal	Assister Management	47901	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall push the California Premium Credit Subsidy from HBX to the Enroller Portal when a user accesses the Get Real Time Consumer Information button.
Assister Portal	Assister Management	47902	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the Enroller Portal with the California Premium Credit Subsidy amount during the nightly Data Warehouse incremental load.

Category	Sub Category	Req ID	Requirement
Assister Portal	Assister Management	47903	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall automatically transfer an Agent Level 1 or Agent Level 2 consumer delegations to the Agency's AM1 or AM2 when an Agent Admin updates an Agent's Certification/Approval Status to 'Terminated'.
Assister Portal	Assister Management	47904	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall automatically transfer an Agent Level 1 or Agent Level 2 consumer delegations to the Agency's AM1 or AM2 when an Agent Admin updates an Agent's Certification/Approval Status to 'Deceased'.
Assister Portal	Assister Management	48299	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create a new Agency Manager 2 role in HBX
Assister Portal	Assister Management	48300	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall map existing Agency Manager 2 in Salesforce to HBX
Assister Portal	Assister Management	48301	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update a users role in HBX after role conversion is performed in Salesforce.
Assister Portal	Assister Management	48302	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display or hide the Enroller Primary Location address on Find Local Help by adding a flag in HBX, and SF will always auto-populate OtherAddress with the Enroller Primary Location address regardless of the flag.
Assister Portal	Assister Management	48303	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow for the creation of user accounts with the same personal information for multi-affiliated Enroller Portal users at different organizations with the same record type.
Assister Portal	Assister Management	48304	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow enrollers to have both an Enroller Portal user account and Consumer accounts.
Assister Portal	Assister Management	48571	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not display Enrollers in Find Local Help that do not have the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Username populated in their Salesforce Contact record.
Assister Portal	Assister Management	48572	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall apply flag to record when SmartyStreet API/Lightweight service does not provide a response
Assister Portal	Assister Management	48573	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the "Unable to Validate Address" message when SmartyStreet API/Lightweight service does not provide a response
Assister Portal	Assister Management	48574	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall apply flag to record when Enroller selects original address instead of one of the Smarty Street recommended addresses.
Assister Portal	Assister Management	48575	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the number of unread messages in HBX secure mailbox on the Enroller Portal
Assister Portal	Assister Management	48709	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement an On/Off switch in the Salesforce custom metadata to allow System Admins to turn OFF the Secure Mailbox message count functionality when there is a need to improve performance.
Assister Portal	Assister Management	48710	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add a BOT Broker user checkbox on the Contact and Account Object to differentiate external BOT Broker users from standard Enroller Portal users and exclude BOT Broker users with this checkbox checked from the API that supports the Secure Mailbox message count functionality.
Assister Portal	Assister Management	48711	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add a Spinner to the Quick Links component which will appear until the data load is complete to alert the user that their Secure Mailbox message count is being calculated.
Assister Portal	Assister Management	48827	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update Salesforce to allow the Agent and Entity Admin team to update Delegation Start Date on a Consumer's Case
Assister Portal	Assister Management	48828	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow creation of PBE account for the same user who already has an Issuer (IER, IR) account in California Healthcare Eligibility, Enrollment and Retention System (CalHEERS)
Assister Portal	Assister Management	48829	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow creation of IER and IR accounts for the same user who already has a PBE account in the Salesforce.
Assister Portal	Assister Management	48830	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow users enter a valid United States zip code on the Find Local Help pages for Agents and Counselors.
Assister Portal	Assister Management	48831	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the Zip Code label on Find Local Help pages for Agents and Counselors from 'Zip Code' to 'Your ZIP Code'
Assister Portal	Assister Management	48832	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall change the default Distance on Find Local Help pages for Agents and Counselors from '5' to 'ANY'.
Assister Portal	Assister Management	48833	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow Distribution Service/Agent Admin/Entity Admin to create new delegation requests.
Assister Portal	Assister Management	48834	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow Distribution Service/Agent Admin/Entity Admin to create multiple new delegation requests.
Assister Portal	Assister Registration		
Assister Portal	Assister Registration	46219	New Agency Onboarding - AM2 Submit Agency Application - AS Submit Agency Application - Complete Agency Manager Information - Complete AS Information - Pending Agency Application - Add Downline Agent Information - Pending Downline Agent Information
Assister Portal	Assister Registration	46221	New Entity Onboarding - PC Submit CEC Application - PC Submit CAE Application - Complete PC Information - Pending Entity Application - Add Downline CEC/CAC Information - Pending Downline CEC/CAC Information
Assister Portal	Assister Registration	46558	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the ability for Agent Admin/Entity Admin to submit new leads to onboard a new Agency/Entity from the Internal Salesforce Portal.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Assister Portal	Assister Registration	46559	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the ability for Agent Admin/Entity Admin to submit new leads for adding Enrollers (AM1, A1/2, Counselors) and Staff (AS, AAS1/2, PC, AC) to Certified/Approved Agency and Entity from the internal Salesforce portal
Assister Portal	Assister Registration	46560	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the ability for Approved Primary Contact (PC)/Authorized Contact (AC) to add an additional PC/AC to certified Entity from Enroller Portal.
Assister Portal	Assister Registration	46561	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the ability for an Entity Admin to send an updated Counselor Agreement to a Certified Enroller using a new Send Counselor Agreement button.
Assister Portal	Assister Registration	46562	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the ability for Internal Users to capture the following: ATI Number, Criminal Record Disclosure Completion Date, NLI checkbox, and NLI Completion Date.
Assister Portal	Assister Registration	46563	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the ability for Agent/Entity Admin to update all address fields on any Object from Internal Salesforce Portal
Assister Portal	Assister Registration	46564	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the ability for Agent Admin to capture the E&O Expiration Date.
Assister Portal	Assister Registration	46565	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) should not allow Agent Level 1s to see other Agent profiles within the Agency's roster.
Assister Portal	Assister Registration	46697	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the ability for Agent Admin/Entity admin to bulk Suspend and Re-Certify Agency/Entity Staff and Enroller's Certification/Approval Status.
Assister Portal	Assister Registration	46698	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the ability to send bulk suspension/recertification status updates for Agency and Entity staff members from Salesforce to HBX.
Assister Portal	Assister Registration	46699	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display a warning message when Agent Admin/Entity Admin selects an Enroller with active delegation for bulk suspension.
Assister Portal	Assister Registration	46700	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall include a CCSB checkbox on the Agency application.
Assister Portal	Assister Registration	46701	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow an Agency Manager Level 2 and an Authorized Signer to add an Authorized Signer to an existing Agency.
Assister Portal	Assister Registration	46702	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow an Authorized Signer to add an Agency Manager Level 2 to an existing Agency.
Assister Portal	Assister Registration	46703	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall prompt the enroller to correct their data if they have more than one Site Served marked as an Enroller's primary location.
Assister Portal	Assister Registration	46704	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the ability for Agency Managers to be converted to Agents (and vice versa) regardless of level.
Assister Portal	Assister Registration	46705	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall accommodate a code change that will invoke a security update within ForgeRock to allow Agent Level 1, Agent Level 2, and Agency Managers to change roles within the HBX system.
Assister Portal	Assister Registration	46706	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement a checkbox to allow applicants to choose whether their Location address should appear in Find Local Help results.
Assister Portal	Assister Registration	46707	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall modify Enroller Portal search result columns by removing: Contact Owner Alias and Certification/Approval Status and adding California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Case/Application ID, Case Status, Application Status, and Date of Birth.
Assister Portal	Assister Registration	46708	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add 2 new fields (Case Status and Application Status) on the Consumer Contact Object.
Assister Portal	Assister Registration	46709	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update Case Status and Application Status for individual Consumer Contacts on an incremental basis.
Assister Portal	Assister Registration	46710	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update Case Status and Application Status for all historical records in Salesforce on the Consumer Contact Object with the latest individual values.
Assister Portal	Assister Registration	46711	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add the following columns to the Account list for the Global Search feature: FEIN, Agency Certification/Approval Status, Agency/Entity Name, Role, Name of the AM2 or AS, Agency License Number, Account Record Type
Assister Portal	General Requirement		
Assister Portal	General Requirement	46942	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall updated Company Name to Legal Business name for DocuSign Templates.
Assister Portal	General Requirement	46943	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update error message on Lead so that it does not state the user must verify Secretary of State fields in order to certify an enroller, and only make Secretary of State fields required for Corporate Agency Leads/Accounts.
Assister Portal	General Requirement	46944	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the functionality of the Cancel button on the add subsite flow to prevent a subsite from being saved.
Assister Portal	General Requirement	46945	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display a customized maintenance page when there is an Enroller Portal deployment with no HBX inteference.
Assister Portal	General Requirement	46946	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow Enroller Portal users to search amongst Active Delegations for a specific case (by Name, Application , SSN , DOB, or case number)
Assister Portal	General Requirement	46947	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update error messages and bell notifications to display specific wording based on the role or the action the user is performing.
Assister Portal	General Requirement	46948	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall track contract status changes on Agency Staff DocuSign Status related list
Assister Portal	General Requirement	46949	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the DocuSign Status related list view columns
Assister Portal	General Requirement	46950	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create a report for DocuSign Status grouped by Agency – Active and Inactive
Assister Portal	General Requirement	46951	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow enroller portal users to remove a site served location and track whether locations are active or inactive.
Assister Portal	General Requirement	46952	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the OtherAddress field when the Enroller Primary Location is updated on the Contact object.
Assister Portal	General Requirement	46953	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display a warning message for the Agent Admin notifying them that attempting to change the Legal Business Name or Federal Tax ID will display a warning message of the fields that will be changed with this action.
Assister Portal	General Requirement	46954	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement a new button on the internal and external Lead, Contact, and Agency/Entity (Account) records to launch a custom file upload component.

Category	Sub Category	Req ID	Requirement
Assister Portal	General Requirement	48418	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the next benefit year in the Year Dropdown and enable Issuer Enrollment Representatives to search for and view enrollments for the next benefit year as soon as Renewals begins.
Assister Portal	General Requirement	48419	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the message displayed to Issuer Admins, Issuer Representatives, and Issuer Enrollment Representatives on the My Profile Page to prevent navigation to the Consumer Portal.
Audit Support			
Audit Support	Case Management		
Audit Support	Case Management	38268	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have an ROP transaction definition in the Transaction History Table.
Audit Support	General Requirement		
Audit Support	General Requirement	42913	FGA audit records will be retained online for 90 days and offline for 7 years.
Audit Support	General Requirement	42914	Application log data will be retained and available online for 60 days and moved offline in line with retention policy.
Audit Support	General Requirement	44309	The Vendor shall actively participate and assist Exchange auditors in conducting annual audits. The Vendor shall work collaboratively with these auditors and provide complete and accurate information and Documentation in a timely manner.
Audit Support	General Requirement	45142	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the automated functionality to log and audit all changes to the business information.
Audit Support	General Requirement	45143	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) audit trails shall have the flexibility and scalability to monitor all application, data, security and System events and internal and external user activity.
Audit Support	General Requirement	45435	The Vendor shall maintain records and supporting documentation under audit or involved in litigation for a period of three (3) years, or as directed the Exchange following the conclusion of the litigation or audit and the date that the Exchange submits the last expenditure report to the Federal Department of Health and Human Services (DHHS). The Vendor shall verify this period with the Exchange prior to storing any confidential information.
Audit Support	General Requirement	45436	The Vendor shall conduct monthly physical security audit of selected requirements to ensure HIPAA compliance.
Audit Support	General Requirement	45437	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall implement PHI access audit capability (e.g. monitor PHI received, access, and purpose for use).
Audit Support	General Requirement	45438	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide audit reports to the Exchange for the purpose of tracking users and associated security groups, roles, settings, passwords, and duplicate IDs.
Audit Support	General Requirement	45439	The Vendor shall ensure that Exchange's third-party auditors shall have security access at the Vendor's Facility as authorized in writing by Exchange.
Audit Support	General Requirement	45440	The Vendor shall provide written explanation, cause, resolution, and timeframe for correction of the any audit discrepancies.
Audit Support	General Requirement	45441	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall have the capability to configure the frequency and content of security audit reports.
Audit Support	General Requirement	45446	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the automated functionality to log and audit all changes to the business information.
Audit Support	General Requirement	45455	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall log and examine System activity in accordance with audit policies and procedures adopted by the Exchange, State and federal healthcare agencies.
Audit Support	General Requirement	45456	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) audit trails shall have the flexibility and scalability to monitor all application, data, security and System events and internal and external user activity.
Audit Support	General Requirement	45457	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) application-level audit trails shall monitor and log user and System activities, including data files opened and closed, specific actions (e.g., reading, editing, and deleting records or fields), and printing reports.
Audit Support	General Requirement	45458	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall have the capability to provide the following program checks: A) Record counts B) Total records C) Limit checks D) Dollar totals
Audit Support	Monitor Compliance		
Audit Support	Monitor Compliance	38608	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall acquire a renewal for AirMagnet software.
Audit Support	Reports		
Audit Support	Reports	38866	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create a report that tracks issuer contractual timeliness and accuracy as evidenced by the 834 transactions.
Audit Support	Reports	38867	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall be able to provide Total number of outbound 834 transactions specific to a benefit year where Exchange successfully received TA1 and/or 999 file from issuer within 3 business days
Audit Support	Reports	38868	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall be able to provide Total number of effectuation and cancellation notices received from issuer for a benefit year
Audit Support	Reports	38869	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall be able to provide Total number of enrollment responses (effectuations and cancellations) for the a benefit year where Exchange received notice within 60 days of coverage effective date or transaction timestamp
Audit Support	Reports	38870	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall be able to provide Total number of termination notices (for non-payment terminations only) received from issuer for the a benefit year
Audit Support	Reports	38871	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall be able to provide Total number of termination notices (for non-payment terminations only) for the a benefit year received from the issuer within 10 days of expiration of the applicable grace period (30 days for non-APTC and 3 months for APTC)
Audit Support	Reports	38873	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall be able to provide the total number of outbound 834 transactions specific to a benefit year sent by Exchange to issuer

Category	Sub Category	Req ID	Requirement
Audit Support	Reports	39105	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) analytics solution shall provide a summary metrics view from which plan management end users may assess issuer contractual timeliness and accuracy as evidenced by the 834 transactions
Audit Support	Reports	39106	The analytics solution shall provide the plan management end user with the means to drilldown into the transactional data for the purposes of understanding metric counts through association with transactional data
Audit Support	Reports	39107	The analytics solution shall be able to extract/process large source data volume.
Audit Support	Reports	39108	The analytics solution shall have the potential for more curated metrics and reports.
Backup/Recovery			
Backup/Recovery	General Requirement		
Backup/Recovery	General Requirement	40453	Post implementation of R21.2, California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) will backup HBX database (excluding non-customer FTB data) to AWS
Backup/Recovery	General Requirement	44031	The Vendor shall provide a Primary Data Center (PDC) Site Facility and Backup Data Center (BDC) Site Facility that meet the Uptime Institute Tier III – Concurrently Maintainable Site Infrastructure requirements. The State encourages the Vendor to provide Facilities that comply with U.S. Building Council Leadership in Energy and Environmental Design (LEED) requirements for a Silver rating.
Backup/Recovery	General Requirement	44032	The Vendor shall demonstrate the execution of the disaster recovery/business continuity plan for all critical System components at a remote site once during the first year after initial system go-live and annually thereafter. The demonstration at the remote site shall be performed for all functions.
Backup/Recovery	General Requirement	44033	The Vendor shall be responsible to perform the disaster recovery / business continuity plan demonstrations at no additional cost to the Exchange. A successful demonstration, as determined by the State, shall be considered a key decision criteria factor for Implementation/Go-Live. Failure to successfully demonstrate the procedures may be considered grounds for termination of this contract. The Exchange reserves the right to waive or defer part or all of the demonstrations. In the event the Vendor's demonstration is deemed by the Exchange to be unsuccessful, the Vendor shall continue to perform the demonstration until satisfactory to the Exchange, at no additional cost.
Backup/Recovery	General Requirement	44117	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall have sufficient redundancy and modularity to prevent down time due to failure of any single component or part of a component fails.
Backup/Recovery	General Requirement	45447	The Vendor shall develop and maintain a business resumption plan for recovering from a service outage at the PDC Facility and/or Backup Facility.
Backup/Recovery	General Requirement	45459	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide Real Time Replication of Data from the Production location to the backup location. All data shall be synchronized in real time in order to minimize recovery periods.
Backup/Recovery	General Requirement	45462	The Vendor shall provide a Backup Facility that replicates the PDC data and provide compute capacities for disaster recovery purposes.
Backup/Recovery	General Requirement	45694	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Technology Refresh - Oracle to RDS Aurora PostgreSQL Database - Security- Auditing
Backup/Recovery	General Requirement	45695	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) will define the events to be audited. The events to be audited are accepted and approved by the Authorizing Official
Backup/Recovery	General Requirement	45696	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall be audit User log-on and log-off (successful or unsuccessful) in database
Backup/Recovery	General Requirement	45697	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall be audit modification of privileges and access on database
Backup/Recovery	General Requirement	45698	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall be audit start up and shut down of database
Backup/Recovery	General Requirement	45699	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall be audit account creation, modification, or deletion
Backup/Recovery	General Requirement	45700	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall be audit read access to sensitive information
Backup/Recovery	General Requirement	45701	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall be audit modification to sensitive information
Backup/Recovery	General Requirement	45702	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall be audit successful and unsuccessful attempts to create, read, write, modify, and/or delete extracts containing PII from a database or data repository
Backup/Recovery	General Requirement	45703	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall be audit privileged activities or system level access to PII
Backup/Recovery	General Requirement	45704	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall be audit concurrent logons from different workstations - excluding service accounts
Backup/Recovery	General Requirement	45705	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall be audit administrator activities
Backup/Recovery	General Requirement	45706	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall be audit override of access control mechanisms
Backup/Recovery	General Requirement	45707	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall be generates audit records containing information that specifies: a. Date and time of the event; b. Component of the information system (e.g., software component, hardware component) where the event occurred; c. Type of event; d. User/subject identity; e. Outcome (success or failure) of the event; f. Execution of privileged functions; and g. Command line (for process creation events). all Process creation events for Interactive or not interactive command
Backup/Recovery	General Requirement	45708	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Technology Refresh - Oracle to RDS Aurora PostgreSQL Database - Security- ACCESS CONTROL
Batch			
Batch	Application Submission and Update		
Batch	Application Submission and Update	45472	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall automatically expire incomplete applications saved but not completed within 30 calendar days if the application initiation date falls outside of the Open Enrollment period.
Batch	Application Submission and Update	45473	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall automatically expire incomplete applications the date after Open Enrollment ends if the 30th day after the application initiation date falls within the Open Enrollment period.

Category	Sub Category	Req ID	Requirement
Batch	Assister Management		
Batch	Assister Management	39759	The system shall generate an EDI 834 transaction to the Carrier for the impacted enrollment records when the Agent Admin Team updates Agent information in the Broker Admin Portal.
Batch	Case Management		
Batch	Case Management	38247	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have an automated process to identify consumers that are conditionally eligible for CCP/APTC/CSR programs due to verification inconsistencies for at least 1 of the following attributes: - Citizenship - Lawful Presence - Incarceration - Deceased
Batch	Case Management	38772	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall have an automated process to identify consumers that are conditionally eligible for APTC, CSR, (CCP not included) programs due to verification inconsistencies for at least 1 of the following attributes that is added to the existing list of verification: - Household Income - Subsidy
Batch	Disenrollment		
Batch	Disenrollment	38601	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System must provide the functionality to flag the records within the weekly data files provided by the SAWS as defined below: - California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) will flag ""4"" for the records known to California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) and SAWS; - California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) will flag ""1"" for the records known to California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) but not in SAWS; - California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) will flag ""2"" for the records known to SAWS but not in California Healthcare Eligibility, Enrollment and Retention System (CalHEERS).
Batch	Disenrollment	38650	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System must provide the functionality to apply a data fix to the records flagged with the number "4" to inactivate the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) cases in the weekly data files provided by the SAWS.
Batch	Disenrollment	38651	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System must provide the functionality to populate the MEDS code "P" in the data for Bucket #1 (Canceled Determination Eligibility Response [DERs] from SAWS).
Batch	Disenrollment	38652	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System must provide the functionality to consume the denial or discontinuance reason code to populate appropriate case comments as defined in the "Bucket Specific Description in California Healthcare Eligibility, Enrollment and Retention System (CalHEERS)" table in CR 33806.
Batch	Disenrollment	38653	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System must provide the functionality to flag the records that are not successfully processed with "3
Batch	Disenrollment	38655	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System must provide the functionality to stage the file in the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SFTP server for SAWS and MEDS retrieval.
Batch	EDI Validations		
Batch	EDI Validations	42374	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall submit health enrollment records for effectuated, cancelled and terminated enrollments until CMS no longer requires records to be sent for that coverage year.
Batch	Eligibility Determination		
Batch	Eligibility Determination	38249	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have an automated process to discontinue APTC/CSR/CCP program eligibility and enrollments due to expiration of consumer's reasonable opportunity period to resolve verification inconsistencies for: - Citizenship - Lawful Presence - Incarceration - Deceased
Batch	Eligibility Determination	38323	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall update the RRV Batch to exclude unsubsidized applications.
Batch	Eligibility Determination	39688	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall perform a one-time data update for individuals with a tax filing status of Married Filing Jointly and a relationship of spouse, and does not have a spouse relationship with more than one individual, to create the tax filing status association of Married Filing Jointly. Eligibility will NOT be run after this one time data update.
Batch	Enrollment		
Batch	Enrollment	38295	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall obtain and store the benchmark premium amount during the enrollment process for unsubsidized applications.
Batch	Enrollment	43205	IRS reporting should begin using the new business rules implemented as part of this CR, which includes changes to financial amounts and corresponding effective dates
Batch	Enrollment	43206	There shall be a one-time data conversion for all 2015 enrollment data as part of this CR
Batch	Enrollment Dashboard		
Batch	Enrollment Dashboard	42377	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide an ability to run multiple instances of the batch to generate SBMI files for Coverage Year and HIOS ID combination.
Batch	Enrollment Dashboard	42378	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall store PBP data sent in SBMI files in Database tables.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Batch	General Requirement		
Batch	General Requirement	37982	Pinnacle shall secure transfer Encrypted 1095 XLM report to California Healthcare Eligibility, Enrollment and Retention System (CalHEERS)
Batch	General Requirement	37983	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall unencrypt the file, and then re-encrypt he Pinnalce file using CMS certificates and upload to CMS via California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) IRS exisiting interface
Batch	General Requirement	37984	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall download CMS / IRS response files and unencrypt the file. CAIHEERS shall encrypt and secure transport CMS response to Pinnacle
Batch	General Requirement	38119	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall be updated to use the HHS ACA XML Library version 8.18 for Market Reporting.
Batch	General Requirement	38120	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall update the following: Within the Common folder and the IRS-CAC.xsd file: 1. Removed xmlns:xml=http://www.w3.org/XML/1998/namespace from the namespace declarations 2. Removed EmployeeCoverage data element 3. Added new element PersonAddressGrp with PersonAddressGrpType 4. Removed PediatricDentalPlanPremiumInd from AssociatedPolicyType 5. Added EmployeeShareOfPremiumForEmployerPlanAmt to EmployerMECType as OPTIONAL (minOccurs=""0) element 6. In HouseholdType changed AssociatedPolicy to OPTIONAL (minOccurs=""0) element 7. In InsuranceCoverageType removed PediatricDentalPlanPremiumInd 8. In InsuranceCoverageType added SLCSPPMonthlyPremiumAmt as OPTIONAL (minOccurs=""0) element 9. Added PersonAddressGrpType as a choice element between USAddressGrp and ForeignAddressGrp 10. In PersonInformationType replaced USAddressGrp with PersonAddressGrp
Batch	General Requirement	38121	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall update the following: Within the Common folder and the IRS-CBC.xsd file: 1. Added new element EmployeeShrPremForEmplrPlanAmt as AmountType 2. Removed InternalDocumentSystemFileNm element 3. Changed the version Effective Date of the ResponseCodeDescription element 4. Added new element SLCSPPMonthlyPremiumAmt as AmountType 5. Removed VersionEffectiveBeginDt attribute from the Timestamp element 6. Changed the type of the USStateCd from USStateCdType to StateType
Batch	General Requirement	38122	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall update the following: Within the Common folder and the IRS-SDT.xsd file: 1. Removed InternalDocumentSystemFileNameType 2. Replaced USStateCdType with StateType (US state code to accept all valid USPS state abbreviations including military and US territories)
Batch	General Requirement	38123	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement the new HHS-IRS-IndividualExchangePeriodicData.xml provided based on the new schema definitions.
Batch	General Requirement	38124	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement the new HHS-IRS-EPDIndividualErrorResponse.xml provided based on the new schema definitions.
Batch	General Requirement	38248	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall exclude consumers in an APTC Carry Forward Status (CFS) from the ROP Batch (with the CFS transition flag).
Batch	General Requirement	38641	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) executes queries to extract two datasets from their database. Each dataset is a CSV file that is zipped with password protection. California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) zips then loads the files to the DRU SFTP server for delivery to DHCS: YYMMDD_Backlog_Pending_Medi_Cal_with_CINs.csv – This file has a list of CINs from the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) records with a Medi Cal status of ELIGIBLE, CONDITIONAL ELIGIBLE, or PENDING. This file is processed according to Appendix D – Mainframe Processing Steps. In 2015, California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) changed their value from “CONTINGENT ELIGIBLE” to “CONDITIONAL ELIGIBLE”. This change was documented deep in a release notes document at the time and DHCS was not aware of the change. As a result, the processing of this file failed until the program could be updated. Now the program will accept either value in case a change is made back to the original.
Batch	General Requirement	38642	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) executes queries to extract two datasets from their database. Each dataset is a CSV file that is zipped with password protection. California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) zips then loads the files to the DRU SFTP server for delivery to DHCS: YYMMDD_pending.csv – This file is a data extract of all California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) application records that have a Medi Cal status of PENDING. This file is downloaded to the current week’s processing folder on the Z drive. This file contains date fields that should be checked for the correct format and values after loading.
Batch	General Requirement	38643	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) creates added individuals list and sends to DHCS: Each week there are new applications for individuals that are added to existing cases in California Healthcare Eligibility, Enrollment and Retention System (CalHEERS). If the case has already been dispositioned, these are not considered in-take applications and therefore not part of the population that are reviewed and processed. California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) has developed a query that identifies these applications. It is run each week and the results sent to the Backlog Team so that the applications can be excluded from AE processing.
Batch	General Requirement	38644	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) stages CINs to create master NIM list: The CIN list sent to California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) by DHCS (YYMMDD_NIM_CIN_LIST.txt) is loaded into a staging table for processing.
Batch	General Requirement	38645	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) runs process to pull data for master NIM list based on staged CINs: California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) runs a query that extracts application data for each record that is associated with a CIN that is in the staging table. A second file is also generated that selects all Medi-Cal ELIGIBLE or CONDITIONAL ELIGIBLE applications from California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) that do not have a CIN associated. DHCS DRU splits (by county) and distributes Rivera Mailing List for prior week to counties Each Friday, the Batch Team sends the “Weekly Rivera Extract” data file to DRU for delivery to the Office of State Publishing for the Rivera Notices of Inaction (NOI) mailing. On Monday, DRU provides the file to the counties letting them know what applicants received a NOI.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

OTSI CalHEERS RFP #73040873 Addendum 1
October 31, 2025

Category	Sub Category	Req ID	Requirement
Batch	General Requirement	38646	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) sends NIM list files: California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) creates two files for the applications that have a status of Eligible or Conditional Eligible. The first – YYMMDD_NIM.csv – is created from the list of CINs sent in the file YYMMDD_NIM_CIN_LIST.txt produced in an earlier step. The second – YYMMDD_Null_CIN.csv – contains the Eligible or Conditional Eligible applications with a Null CIN. These files are sent to the Batch Team for processing. These files contain SSN and date fields that should be checked for the correct format and values after loading.
Batch	General Requirement	38647	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) sends latest STNA cases to DHCS for exclusion process: Each week counties send cases to California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) that are subject to Short Term Negative Action. California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) consolidates these cases and provides a list to the Batch team so that they can be excluded from batch processing.
Batch	General Requirement	38648	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) runs queries to extract AE, Demographics, Renewals, and Rivera Mailing files Using the extract files, California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) creates four export files: • AE Sweep – California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) status data for the applications identified as AE Candidates. • Demographics – for each record that will be sent to the counties for review, California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) extracts the first name, last name, date of birth (DOB), and SSN. This data is added to the county file to assist county workers with identifying the applicant. • Renewals – for each record that will be sent to the counties for review, California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) checks to see which are currently in Renewal status. • Rivera Mailing – for each record that will be sent to the counties for review, California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) extracts the name and mailing address data for the Head of Household and for the Applicant.
Batch	General Requirement	38649	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) delivers results of the queries for the AE, Demographics, Renewals, and Rivera Mailing files: The four files identified above are extracted, zipped, and delivered to the DHCS team via SFTP. They are loaded into the Master and Sweeper databases as appropriate and are used in the subsequent processing. The four files are extracted, zipped, and delivered to the DHCS team via SFTP
Batch	General Requirement	39464	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall do a data conversion to convert admin verified SSN to e-verified SSN under the following conditions: - Individual's SSN is admin verified and SSN e-verification exists for the same SSN which was admin verified
Batch	General Requirement	39934	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create a new batch to send emails using Salesforce Marketing Cloud transactional REST APIs.
Batch	General Requirement	39935	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall disable EML-1000-DD-02 , EML-1000-DD-03 and EML-1000-DD-04 batches as they are no longer needed with Salesforce Marketing Cloud integration
Batch	General Requirement	42149	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall make the Passive Renewal Eligibility Batch (BAT10B) configurable to add parameters to limit the number of records that get processed for an execution.
Batch	General Requirement	44524	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall utilize the Renewal Batch Job to perform an Eligibility Simulation for the State Subsidy Program
Batch	General Requirement	44617	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall be updated to use the HHX ACA XML Library most current available for both the IRS and CMS policy level reporting. The current version currently is 8.8 for Market Reporting V2.
Batch	General Requirement	44618	"The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall use the following: Within the Common folder and the IRS-CAC.xsd file, the Dependent data element which used the EPDPersonType has been replaced by a Dependent Person data element which uses a DependentPersonType for both the IRS and CMS policy level reporting. The data elements which define the DependentPerson remain the same as for the Dependent (CompletePersonName, SSN, and BirthDt). "
Batch	General Requirement	44619	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall be updated to use the most current manifest schema, as enbaded in the most current BSD for transmission to CMS for both IRS and CMS policy level reporting.
Batch	General Requirement	45203	General – California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the ability to run SAWS Batch jobs for a specific California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) case and/or specific date range.
Batch	General Requirement	45204	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the ability to run the County Of Responsibility (COR) enablement batch (SAW-5000-DD-01) for a specific case and/or specific date range.
Batch	General Requirement	45205	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the ability to run the IAP Discontinuance (ELG-1004-DD-01) batch job for a specific case and/or specific date range.
Batch	General Requirement	45206	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall be avaiable for testing with SAWS for a period of 2 weeks
Batch	General Requirement	45384	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall utilize a job scheduling tools that control batch jobs by transaction type.
Batch	General Requirement	45385	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall have the capability to sequence multiple jobs based on outcome of each successive job.
Batch	General Requirement	45386	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide automatic program checks for: A) Controlling data files B) Verifying correct processing C) Ensuring data integrity
Batch	General Requirement	45442	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide for and support the ability to control batch job execution: A) By time of day B) Date C) Processing cycle (daily, weekly, Monthly, Yearly, Quarterly) D) Upon request.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Batch	General Requirement	45443	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide for and support the ability to sequence multiple jobs with multiple dependencies on jobs, files, exceptions, etc.
Batch	General Requirement	47099	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide infrastructure for production and non-production environments for implementation of batch framework enhancements.
Batch	General Requirement	47100	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) will enhance Spring batch Version from 2.1.9 RELEASE to 4.3.8 RELEASE for the identified batches : VER-2000-DD-01, VER-2001-OB-01, VER-2002-FM-01, VER-2003-EC-01, VER-2004-DD-02, VER-2004-IB-01, VER-2005-DC-01, VER-2005-DD-02, VER-3000-DD-01, VER-3000-DD-02, VER-4000-DD-01, VER-4000-OB-01
Batch	General Requirement	47101	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall enhance the Spring framework version from 3.2.2 RELEASE to 5.3.25 RELEASE for the identified batches: VER-2000-DD-01, VER-2001-OB-01, VER-2002-FM-01, VER-2003-EC-01, VER-2004-DD-02, VER-2004-IB-01, VER-2005-DC-01, VER-2005-DD-02, VER-3000-DD-01, VER-3000-DD-02, VER-4000-DD-01, VER-4000-OB-01
Batch	General Requirement	47102	CalHeers shall enhance the Java Version from 1.7 to 1.8 for the identified batches : VER-2000-DD-01, VER-2001-OB-01, VER-2002-FM-01, VER-2003-EC-01, VER-2004-DD-02, VER-2004-IB-01, VER-2005-DC-01, VER-2005-DD-02, VER-3000-DD-01, VER-3000-DD-02, VER-4000-DD-01, VER-4000-OB-01
Batch	Health & Dental Plan Shopping		
Batch	Health & Dental Plan Shopping	42375	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send SBMI payment files only for Health enrollments.
Batch	Interfaces		
Batch	Interfaces	42380	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall assign unique File Name (Combination of File ID, File Create Date/Time, TenantId) to each SBMI submitted to CMS.
Batch	Interfaces	42381	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall enable bi-directional SBMI and SBMR files transmission with CMS over encrypted channel via secure Electronic File Transfer (EFT) using the SFTP/SSH protocol.
Batch	Interfaces	42382	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall automate the exchange of PBP files with CMS via Secure File Transfer Protocol (SFTP) for test and production servers.
Batch	Interfaces	42383	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall ensure and validate that the SBMI file naming convention is according to the CMS guidelines. SBMI files shall include Application ID of EPS indicating the SBMI files are intended for Enrollment and Payments System (EPS) application. Naming Convention to CMS: SMBI File Name = TradingPartnerID.AppId.FuncCode.Date.Time.EnvCode.Direction (Sample: FEP0099CA.EPS.SBMI.D210101.T002623413.T.IN)
Batch	Interfaces	42384	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall validate all the SBMR response files to follow the proper naming conventions with the below standards. Naming Convention from CMS: SBMR File Name: SourceID.FuncCode.Date.Time.EnvCode.Direction (Sample: FEP0099CA.SBMR.D211112.T075212015.T.OUT)
Batch	Interfaces	42385	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall adhere to the CMS submission cycle deadlines to ensure processing of all SBMI files prior to the defined CMS Payment cycles.
Batch	Interfaces	42386	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall maintain and provide unique Exchange Assigned Policy IDs in the SBMI files for use in reporting and payment.
Batch	Interfaces	42387	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall assign a new Exchange Assigned Policy ID when a plan or product changes within a specific Issuer due to the change in 14-digit QHP ID.
Batch	Interfaces	42403	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the references to the new PCAP Enrollment tables in the existing 1095/3895 void process to fetch the Enrollment Codes in the IRS-5000-DD-00 batch for all the identified cases that requires void reporting.
Batch	Notices		
Batch	Notices	39247	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall populate the renewal due date as [last batch sweep date] if the case is flagged for the last batch sweep at the time that the NOD12 is generated
Batch	Notices	39248	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate NOD12s based on defined prioritization.
Batch	Notices	43314	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall receive the final (i.e., accepted by EW and sent to print in SAWS) MAGI notices of action generated by SAWS System or Eligibility Worker in PDF format via a daily batch (eHIT inbound to California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) transaction #7 tagged as NOA) from each of the SAWS.
Batch	Notices	43315	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall receive the final (i.e., accepted by EW and sent to print in SAWS) MAGI notices of action imaged by Eligibility Worker in SAWS in image format via a daily batch (eHIT inbound to California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) transaction #7 tagged as NOA) from each of the SAWS.
Batch	Notices	49321	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement optimization of NOD01 Notices staging and generation process to meet increased load for the NOD01 notices
Batch	Notices	49322	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall optimize the NOD01 A/B - Intake , Renewal staging process to a chunk /case based staging process
Batch	Notices	49323	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement a chunk-oriented processing for batch jobs that require additional processing cycles.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Batch	Plan and Benefit Assistance		
Batch	Plan and Benefit Assistance	42379	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send a single SBMI file per Issuer per Coverage Year to CMS on a month-to-month schedule.
Batch	Renewal		
Batch	Renewal	40720	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall exclude cases with terminated enrollments from the Passive Renewal eligibility determination batch process.
Batch	Renewal	40721	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow multiple last batch sweeps
Batch	Renewal	42388	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall maintain the same Exchange Assigned Policy ID for CSR Variant ID changes.
Batch	Renewal	42389	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall validate for the enrollment and financial data accuracy during data retrieval for SBMI file generation.
Batch	Renewal	42390	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall validate SBMI files generated before sending them out via EFT.
Batch	Renewal	42391	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall validate the SBMI XML files created based on the XSD provided by CMS.
Batch	Renewal	42392	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall ensure to review the SBMR files received from CMS and address the errors/warnings based on the final disposition status (rerun or next run) in order to facilitate accurate payment processing for CMS.
Batch	Renewal	42393	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall process the SBMR files received from CMS to update the File Level Status, Warnings and Log Error messages/rejections received.
Batch	Renewal	42394	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall process the SBMR files and generate an operational report based on the data in the Error Log Tables.
Batch	Renewal	42395	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall triage and correct the errors and warning received from CMS and retrigger the SBMI files based on the Final Disposition Status received.
Batch	Renewal	42396	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send prorated Monthly Total Premium Amount, Monthly Total Individual Responsibility Amount, Monthly APTC Amount and Monthly CSR Amount for partial month coverage under Financial Information Tag.
Batch	Renewal	42397	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create the new Staging batch to extract the enrollment data from PCAP Enrollment Tables for 1095/3895 Process.
Batch	Renewal	42398	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use the new staging batch to extract enrollment data from PCAP Enrollment Tables for the 1095 Process.
Batch	Renewal	42399	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use the new staging batch to extract enrollment data from PCAP Enrollment Tables for the 3895 Process.
Batch	Renewal	42400	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the references to the new PCAP Enrollment tables in the existing 1095/3895 process to extract the latest rates, rate's effective start/end dates & Enrollment Codes information in IRS-1000-DD-02 batch for all the identified cases that require annual/monthly reporting.
Batch	Renewal	42401	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the references to the new PCAP Enrollment tables in the existing 1095/3895 process to extract the latest rates, rate's effective start/end dates & Enrollment Codes information in IRS-3000-DD-02 batch for all the identified cases that require correction.
Batch	Renewal	42402	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the references to the new PCAP Enrollment tables in the existing 1095/3895 correction process to fetch the Enrollment Codes in the IRS-3000-DD-05 batch that requires additional business validation from California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) for all the identified cases that require correction.
Batch	Renewal	42404	The enrollment details (snippets) associated with NOD 62 A, B, C, and D shall be populated from the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) PCAP module.
Batch	Renewal	42405	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the naming convention of the Batch Table Name and Column names to remove references of the current COTS vendor.
Batch	Renewal	48578	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement additional batch processing cycle for timely completion of OE passive renewal cycle.
Batch	Renewal	48579	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement a fuse poller based architecture for batch jobs that require portioned execution.
Batch	Renewal	48580	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement common framework for the batch project to be used for batch modularization by functional area initiatives in the batch modernization roadmap.
Batch	Renewal	48581	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement governor limits for interfaces as applicable.
Batch	Renewal	48582	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall enhance the Spring Batch version from 2.1.9 to 5.1.x, Spring core version from 3.2.2 to 6.1.x, and OpenJDK version from 7 to 17 for the identified batches.
Batch	Reports		
Batch	Reports	38654	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System must provide the functionality to generate an output file using the same SAWS input file with the additional status field populated based on the processing outcome.
Batch	Reports	44465	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall process records as follows in the case of a correction that needs to later be voided: If California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) transmitted an original record and subsequently transmitted two corrections to that record before it is discovered that the record needed to be marked void, California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) will populate the VoidedRecordSequenceNum with the Batch Id, the Document Sequence Number and the Record Sequence Number from the second correction record transmitted.
Batch	Reports	44467	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall have a new process to create and match up the voided records with the corrected record sequence that need to be included in the XML.
Batch	Reports	44468	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall have a new void XML created to pick up void records.

Category	Sub Category	Req ID	Requirement
Batch	Reports	44600	"The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall add two new batch category codes at the manifest level: IRS_EOY_SUBMIT_VOID_RECORDS_REQ IRS_EOY_RESUBMIT_VOID_RECORDS_REQ"
Batch			The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall send a VoidedRecordSequenceNum that includes a BatchID that matches a BatchID from a transmission that IRS has processed when voiding a record.
Batch	Reports	44602	"The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall send a VoidedRecordSequenceNum that includes a DocumentSequenceNum that matches one of the DocumentSequenceNum received in the batch referenced by the BatchId. "
Batch	Reports	44603	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall process any responses received for the void records.
Batch	Reports	44605	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall not comingle original records with correction or voided records.
Batch	Reports	44606	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall set the VoidInd on every record to 1 when the BatchCategoryCD is IRS_EOY_SUBMIT_VOID_RECORDS_REQ" or IRS_EOY_RESUBMIT_VOID_RECORD_REQ.
Batch	Reports	44607	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall set the CorrectedInd on every record must be "false" and the CorrectedRecordSequenceNum must be empty when BatchCategoryCD is IRS_EOY_SUBMIT_VOID_RECORDS_REQ" or IRS_EOY_RESUBMIT_VOID_RECORD_REQ.
Batch	Reports	44608	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall send the following associated data BatchID, DocumentSequenceNumber and RecordSequenceNumber of the record being voided
Batch	Reports	45999	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall void the last record accepted by the IRS.
Batch	Reports	46001	A new process will be created to zip the void records.
Batch	Reports	46002	A new process will be created to encrypt the void zip records.
Batch	Reports	46004	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall generate and transmit the correction XML to captures a "Voided" 1095A.
Batch	SEP/RAC		
Batch	SEP/RAC	42373	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate and submit cumulative monthly enrollment XML file (SBMI - SBM Inbound File) including all previously reported enrollments and members that have coverage for any period during the specified coverage year.
Batch	Timeshifter		
Batch	Timeshifter	42376	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide an ability to track if SBMI files for all Health Issuers have been transmitted successfully to CMS as part of the monthly PBP execution process.
Batch	Verify Application Information		
Batch	Verify Application Information	38246	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have an automated process to attempt re-verification of inconsistent verifications at the end of the reasonable opportunity period, only if the verification inconsistency is responsible for a consumer's conditional eligibility status to CCP/APTC/CSR programs.
Budget Management			
Budget Management	General Requirement		
Budget Management	General Requirement	44264	The Vendor must assist the State in the planning for and preparation of the biannual IAPDU and in any other documentation and justification required for the Spring and Fall State budget processes. Projected costs by line item and sub-line item must be provided for the upcoming and future State Fiscal Years, along with justification associated with any actual and planned changes.
Budget Management	General Requirement	44265	On a monthly basis, the Vendor shall track and report its actual costs compared to planned costs and reasons for variances. This tracking and reporting must be performed at the budget line item and sub-line item levels, as well as for each Change Order. The Vendor must also identify actual or planned variances that may require line item adjustments.
Budget Management	General Requirement	44323	On or before the fifth (5th) calendar day of each month, the Vendor shall provide invoice projections and updates for the upcoming 90- 60- and 30-day periods.
Capacity			
Capacity	General Requirement		
Capacity	General Requirement	45363	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall have the capability to retain five (5) years of Business transactional data (non adducting related data) online and ten (10) years of Business transactional data offline storage.
Capacity	General Requirement	45432	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) solution shall be able to accommodate varying retention periods for data, uploaded document images, documents, and business transactional data.
Capacity	General Requirement	45433	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) solution shall have the ability to change or update retention periods for data, images, documents, etc.
Capacity	General Requirement	45460	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall have configurable retention periods for online and offline storage for the following information categories: A) Data B) Images C) Documents E) Other exchange-related content
Capacity	General Requirement	45463	The Vendor shall report and address all capacity issues that impact System performance requirements.
Communication Management			

Category	Sub Category	Req ID	Requirement
Communication Management	General Requirement		
Communication Management	General Requirement	38980	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall conduct kick-off meeting with all existing carriers.
Communication Management	General Requirement	38981	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide integration test related documentation(Test Plan, Test Templates, Test Scenarios, Companion Guide etc.) to all existing Carriers.
Communication Management	General Requirement	38982	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide response to all existing carriers regarding questions related to integration testing.
Communication Management	General Requirement	38984	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have meetings twice a week with all existing carriers to discuss testing status, testing issues, next steps and answer carriers' questions
Communication Management	General Requirement	38985	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide daily test status report to CovCA regarding carriers' testing progress.
Communication Management	General Requirement	39932	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall interface with Salesforce Marketing Cloud email service to send emails for NOD61D and NOD61E(English and Spanish).
Communication Management	General Requirement	39933	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall configure Salesforce Marketing Cloud business units (Non-PROD and PROD) with required setup to send emails from Salesforce Marketing Cloud.
Communication Management	General Requirement	41379	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the consumer to complete the Opt In and/or Opt Out process through IVR once all the disclosures have been read and agreed to.
Communication Management	General Requirement	41381	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the consumer to complete the Opt In and/or Opt Out process through IVR if option is available on California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Portal.
Communication Management	General Requirement	44267	The Vendor shall establish and use California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Project standards and/or templates for written communications, including: A) Information Transmittals B) Requests for Information C) Agendas D) Meeting Minutes E) Notices, Memos and Letters F) Documents and Reports which are not formal deliverables G) Email H) Presentations I) Interviews/Surveys/Forms/Questionnaires
Communication Management	General Requirement	44287	The Vendor shall implement a strategy for communicating and working collaboratively with its subcontractors to meet the Project objectives.
Communication Management	General Requirement	44304	The Vendor shall actively participate with California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) project management to provide effective communication and coordination with the large and diverse stakeholder group, both internal and external to the project.
Communication Management	General Requirement	44312	The Vendor shall maintain and update the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Project phone lists, including global contact lists, for use by the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Project.
Communication Management	General Requirement	44313	The Vendor shall maintain and update the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Project e-mail distribution groups for use by the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Project.
Communication Management	General Requirement	44319	The Vendor shall establish and use structured protocols for the following types of communications: A) Internal Communications B) External Communications C) Meeting Scheduling/Facilitation/Agendas/Minutes (ensuring sufficient meeting notice, travel time, and advance materials and identifying in advance who will take minutes). D) Conference Calls F) Webcasts G) Web Collaboration Tools, including SharePoint H) Interviews/Surveys/Forms/Questionnaires I) Scheduling
Communication Management	General Requirement	44324	The Vendor shall monitor and evaluate the effectiveness of California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Project communications, and document findings from communication monitoring and evaluation, on a quarterly basis, including: A) Recommendations for improvement, including methods, procedures, and/or mechanisms for future communications. B) Communication findings and recommendations remaining open from previous periods.
Consumer Assistance			
Consumer Assistance	Assister Management		
Consumer Assistance	Assister Management	38712	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall implement the Agency Manager Dashboard in the new agency portal.
Consumer Assistance	Assister Management	41085	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality for consumers provide complaint information relating to Assisters.
Consumer Assistance	Assister Management	41086	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to receive, track and report Assister complaints.

Category	Sub Category	Req ID	Requirement
Consumer Assistance	Assister Management	41094	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality record and track Assister training, education, and languages spoken.
Consumer Assistance	Assister Management	41095	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System will have the functionality to upload and maintain images of Assister Certification and associate the image to an Assister record.
Consumer Assistance	Assister Management	41157	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System will generate an e-mail or notice to the Assister and /or Entity confirming that the Assister and/or Entity is active / inactive when there is a change in status.
Consumer Assistance	Assister Management	41158	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide functionality to allow an Entity Representative to submit a self-service application to start the Entity approval process.
Consumer Assistance	Assister Management	41162	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall not display Inactive Assistors to consumers during a consumers' search for an Assister.
Consumer Assistance	Assister Management	41163	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall generate notifications, either in paper or electronic form, in the following situations: • An Assister successfully completes their training and they have been registered in California Healthcare Eligibility, Enrollment and Retention System (CalHEERS). The Admin person will create a User ID and temporary password for the Assister. The notification will give instruction of how to login in and change their password, answer security questions, and will provide a link to the login page. • An Assister Certification Renewal is due. This notice will include the steps the Assister must take to continue Certification and the due date. This notice must go out XX Days prior to the renewal date. (number of days TBD) • An Assister's Certification is denied for failure to successfully complete training. This notification will include the reasons and any action necessary to resolve the issue. • An Entity's Registration is approved and they have been registered in California Healthcare Eligibility, Enrollment and Retention System (CalHEERS). The Admin person will create a User ID and temporary password for the Entity. The notice will give instruction of how to login in and change their password, answer security questions, and will provide a link to the login page. • An Entities Registration Renewal is due. This notice will include the steps the Entity must take to continue California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Registration and the due date. This notice must go out XX Days prior to the renewal date. (number of days TBD) • An Entity's registration is denied. This notification will include the reasons and any action necessary to resolve the issue. • An Assister or Entity has been Decertified/Deregistered. This notification will include the reasons and any action necessary to resolve the issue. • Notify Assistors associated to the Entity when the Entity is Deregistered. • Notify an Entity when an Assister, associated to the Entity, is Decertified. • Notify Customers when an Assister/Entity is Decertified/Deregistered, and their application/case is pending/in process. • Notify Customers of their Assister selection. The notification would include the Assister's contact information and the consumer's rights.
Consumer Assistance	Assister Management	41165	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System will have the functionality to end date an Assistors' association with the Entity. (The Admin has the ability to end date the Assister from an Entity's Roster for reasons such as a known retirement date. This End Date will prevent the Assister from accepting new clients.)
Consumer Assistance	Assister Management	41465	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide functionality to capture the following Assister Entity banking information: - Bank Name - Bank Address - Bank Account Number - Bank Routing Number - Type of Account: Checking or Savings
Consumer Assistance	Assister Management	41466	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall display a question allowing the Assister Entity to choose to receive a payment in the form of a check or electronically.
Consumer Assistance	Assister Management	41490	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to track an In Person Assister (IPA) Assister Entity and a Navigator Assister Entity for payment funding.
Consumer Assistance	Assister Registration		
Consumer Assistance	Assister Registration	39512	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall allow only the user in the role "AssisterEnrollmentEntityAdmin" to complete manual updates to Entity Registration and Assister information directly in the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) application.
Consumer Assistance	Assister Registration	39513	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow read-only access to Entity and Assister profile information by the users in the "AssisterEnrollment Entity" role and "Assister" role except for Counselor Status.
Consumer Assistance	Assister Registration	41042	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to register and track Assistors.
Consumer Assistance	Assister Registration	41043	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System will have automated functions to validate that the Assister information added to an Entity Roster matches the information stored in California Healthcare Eligibility, Enrollment and Retention System (CalHEERS). (The validation elements to be determined but must include the Assister Certification Number. When that information is entered, the system must validate that the Certification number entered matches the other demographic information entered for the Assister.)

Category	Sub Category	Req ID	Requirement
Consumer Assistance	Assister Registration	41044	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System will have the functionality for an Entity to monitor the Assister account progress, productivity and outcomes. For example: • Payments made to entities. - o Number of applications that resulted in successful qualifying enrollments - o Payment issue date - o Check number - o Check Amount • Report of qualifying applications for the month • Outcome of applications – enrollment disposition into Medi-Cal, QHP, missing information, etc. • Number of applications submitted per individual for the overall entity and globally at the Assister level to monitor performance.
Consumer Assistance	Assister Registration	41045	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System will have the functionality that supports logging into California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) using the Entity unique user id and password.
Consumer Assistance	Assister Registration	41046	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System will have the functionality / Web Page that supports the Entity in viewing and managing open/in progress/ renewal cases associated to the Entity Registration Number.
Consumer Assistance	Assister Registration	41047	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System will have the functionality to monitor Assister activities including but not limited to: • Percentage of cases directed to health plans • Number of applications processed per day, week and/ or month • Outcome of applications (enrolled, denied, program disposition, missing information)
Consumer Assistance	Assister Registration	41048	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System will have the functionality to create an Entity unique User Id and Password associated to an Entity Registration Number. An Entity must be registered prior to accessing California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) for business.
Consumer Assistance	Assister Registration	41049	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide functionality to allow an Entity Representative to update specific fields on the Assister profile.
Consumer Assistance	Assister Registration	41050	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System will have the functionality to create an Assister unique User Id and Password associated to an Assister Certification Number. An Assister must be Certified prior to accessing California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) for business.
Consumer Assistance	Assister Registration	41051	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System will have the functionality to associate the Assister user id to all case/applications, assigned to that Assister, with the Assister Certification Number. (Regardless of the entity association)

Category	Sub Category	Req ID	Requirement
Consumer Assistance		41053	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System will have a web page that supports the addition and maintenance of Assister information including: 1. Name a. Last Name b. First Name c. Middle Initial 2. Address a. Business b. Mailing 3. Phone Number a. Primary b. Secondary Phone Number 4. e-mail Address 5. Language a. Written b. Spoken 6. Demographics served 7. Assister Certification Training a. Date of Certification (Start) b. Date of Certification Expiration (End) c. Certification Number d. History of recertification (Includes all dates associated with recertification.) 8. Status (Active / Inactive) 9. Inactive Status Reason 10. Begin Date of activation/inactivation 11. End Date of activation/inactivation 12. Administrative Action a. Suspended b. Investigation c. (All Admin Actions to be defined during System Design.) 13. Start Date of Administrative Action 14. End Date of Administrative Action 15. Administrative Action Comments a. Date of comment b. Reason for Action
Consumer Assistance	Assister Registration	41054	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System will have the functionality to prompt the Assister to create challenging questions to confirm authorization for User ID requests as well as Password Resets.

Category	Sub Category	Req ID	Requirement
Consumer Assistance		41055	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System will have a web page that supports the addition and maintenance of Entity information including: 1. Business Legal Name 2. Primary Mailing Address 3. Other Address 4. Primary Phone Number 5. Fax Number 6. Primary e-mail Address 7. Preferred Method of Communication 8. Contacts a. Primary Contact b. Human Resources c. Accounts Receivable 9. Language Supported a. Written b. Spoken 10. This location will accept referrals during the hours of: a. 8:00 a.m. – 5:00 p.m. M-F b. After 5:00 p.m. M-F c. Saturday Hours: _____ d. Sunday Hours: _____ e. Other Hours: _____ 11. Entity Registration Number 12. Entity Registration Date 13. Entity Is Eligible for Payment (Y/N) (Will the Entity receive payment for services) 14. Federal Tax ID 15. State Tax ID 16. Outreach and Education Grantee (Y/N) a. Grant Contract Number b. Grant Award Amount c. Grant Populations Served d. Grant Demographics served 17. Type of Entity/Organization a. School
Consumer Assistance	Assister Registration		
Consumer Assistance	Assister Registration	41056	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System will have the functionality (Web Page) that supports adding Assisters to an Entity.
Consumer Assistance	Assister Registration	41057	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System will have the functionality that supports the Entity logging into California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) using the Entity unique User ID and password.
Consumer Assistance	Assister Registration	41058	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System will have the functionality to notify Assisters and / or Entities of changes in Assister and / or Entity status.
Consumer Assistance	Assister Registration	41074	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System will have the functionality to prompt the Entity to create challenging questions to confirm authorization for User ID requests as well as Password resets.
Consumer Assistance	Assister Registration	41075	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the delegation code when the Assister is certified.
Consumer Assistance	Assister Registration	41087	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System will have the functionality to support Assister password maintenance. (The Assister will be able to login to California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) and change their password.)
Consumer Assistance	Assister Registration	41088	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System will have the functionality to prevent an Assister from accessing another Assisters "book of work".
Consumer Assistance	Assister Registration	41089	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System will have the functionality for an assister to access a specific account/application (account information provided by consumer) to support consumer calls/walk ins.
Consumer Assistance	Assister Registration	41092	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall have the functionality to support the Assister creating a password associated with their Certification Number to access California Healthcare Eligibility, Enrollment and Retention System (CalHEERS).
Consumer Assistance	Assister Registration	41093	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System will have the functionality that supports logging into California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) using the Assisters unique user id and password.
Consumer Assistance	Assister Registration	41097	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System will have the functionality / screen that support the Assister in viewing and managing open/in progress/ renewal /redetermination cases associated to the Assisters' Certification Number.
Consumer Assistance	Assister Registration	41099	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System will have the functionality to sort and view the Assister book of work by: • Renewal date • Accounts pending renewal • Or any other Assister portfolio management activities displayed (i.e. Enrollment disposition, etc).

Category	Sub Category	Req ID	Requirement
Consumer Assistance	Consumer Assistance - SHOP		
Consumer Assistance	Consumer Assistance - SHOP	39642	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to display a static help message related to the Access Code on the Account Creation page to assist Consumers with linking their account to an application that may have been submitted on their behalf.
Consumer Assistance	Eligibility Determination		
Consumer Assistance	Eligibility Determination	39865	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to replace the "Upload a New Document" link with an "Add Document" button on the "Documents and Correspondence" page for both consumers and admin.
Consumer Assistance	Eligibility Determination	39866	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to update text language above the "Add Document" button based on user roles.
Consumer Assistance	Eligibility Determination	39867	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to add a document pop-up modal for uploading a document from the "Documents and Correspondence" page for consumers.
Consumer Assistance	Eligibility Determination	39868	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to add a document pop-up modal for uploading a document from the "Documents and Ccorrespondence" page for admin.
Consumer Assistance	Eligibility Determination	39869	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to display the pending verification(s) that matches the Document Ccategory and Document Ttype when uploading a document.
Consumer Assistance	Eligibility Determination	39870	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to display pending verifications at the individual level.
Consumer Assistance	Eligibility Determination	39879	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to display "optional" text for the Former Foster Youth verification on the on the add document pop-up modal.
Consumer Assistance	Enrollment		
Consumer Assistance	Enrollment	38284	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System must provide the functionality for users to view, filter and sort consumers with active delegations.
Consumer Assistance	Enrollment	38285	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System must provide the functionality for users to filter and sort on application type.
Consumer Assistance	Enrollment	38286	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System must provide the functionality for users to filter and sort on enrollment status.
Consumer Assistance	Enrollment	38287	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System must provide the functionality for users to filter and sort on eligibility status.
Consumer Assistance	Enrollment	40002	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create a new 'Document Category' of "Tax Form" for the NOD62 a, b, c, & d that will display for all new and past NOD62's.
Consumer Assistance	Enrollment	40003	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the ability to resend to the consumer State Form 3895 Health Insurance Marketplace Statement(s) without being required to regenerate all annual 3895 forms.
Consumer Assistance	Enrollment	40004	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide users with the ability to access their most recent 1095-A and 3895 tax forms in the "Important Documents" section as well as the "Notices & Documents" section.
Consumer Assistance	Enrollment	40005	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide users with the ability to navigate to the "Documents and Correspondence" page to access previous 1095-A and 3895 tax forms in the "Important Documents" section as well as the "Notices and Documents" section.
Consumer Assistance	Enrollment	40006	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update all relevant corresponding documentation.
Consumer Assistance	Enrollment	40007	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create a new California State Tax Form 3895 button icon and add the button icon to the "Icon Library" tab in CM 10.01.
Consumer Assistance	Enrollment	40008	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the link in the Account Information Section on the Account Home page from "Previous Tax Form 1095-A's" to "Previous Tax Forms."
Consumer Assistance	Enrollment	40038	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the Button icon name from [Tax Form 1095-A Icon] to [Tax Form Federal 1095-A Icon].
Consumer Assistance	Enrollment	40039	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the button from "View [YYYY] Tax Form 1095-A" to "View [YYYY] Federal Tax Form 1095-A."
Consumer Assistance	Enrollment	40040	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the corresponding BR's for the button "View [YYYY] Federal Tax Form 1095-A" to identify Federal Tax Form 1095-A.
Consumer Assistance	Enrollment	40041	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the link in the "Account Information" Section under "Notices and Documents" Section from Most Recent Tax Form 1095-A to Most Recent Federal Tax Form 1095-A.
Consumer Assistance	Enrollment	40042	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the corresponding BR's for the link "Most Recent Federal Tax Form 1095-A" to identify Federal Tax Form 1095-A.
Consumer Assistance	Enrollment	40284	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide the capability, outside of the application for coverage, to allow the consumer to delegate access to a new enroller after a duplicate user validation check has identified a match.
Consumer Assistance	Enrollment	40285	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall capture the re-delegation request after invoking a secondary duplicate user validation check on consumer's name (First and Last), DOB, and one of the following: Residential Address or a phone number or an email address; if SSN is not available or the combination of DOB and SSN match is not found.
Consumer Assistance	Enrollment	40286	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to invoke a duplicate user validation check based upon consumer's DOB and SSN when an intake application is being created by Certified Insurance Agents, Certified Enrollment Counselors, Plan Based Enrollers, Agency Managers, Approved Admin Staff Level 1, and Approved Admin Staff Level 2.
Consumer Assistance	Enrollment	40287	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall capture the License Number and Agency Tax ID for the new delegation in the re-delegation request.
Consumer Assistance	Enrollment	40288	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide the capability to capture consent for re-delegation through this re-delegation process.
Consumer Assistance	Enrollment	40289	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide the capability to capture consent for receiving text messages with an authentication code.
Consumer Assistance	Enrollment	40290	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate an authentication code that is sent via text message to the Consumer's mobile phone number provided in the re-delegation request if the validation is successful.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Consumer Assistance	Enrollment	40291	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display a message when the validation is unsuccessful.
Consumer Assistance	Enrollment	40292	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide the capability for an enroller to enter an authentication code.
Consumer Assistance	Enrollment	40293	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall re-delegate the access to the consumer's case when the enroller enters the authentication code.
Consumer Assistance	Enrollment	40296	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display a message to the enroller if the authentication code is not valid.
Consumer Assistance	Enrollment	40297	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide the capability to re-enter the authentication code up to a maximum of three times.
Consumer Assistance	Enrollment	40298	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide the capability to request for a new authentication code without re-entering the consumer information up to a maximum of three times.
Consumer Assistance	Enrollment	40299	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall re-delegate access to the new enroller specified in the new re-delegation process and terminate any active pre-existing delegation.
Consumer Assistance	Enrollment	40300	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display a re-delegation status message to the enroller.
Consumer Assistance	Enrollment	40301	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display a message to the enroller about the option to contact the Service Center or to repeat the process if the re-delegation is not successful.
Consumer Assistance	Enrollment	40302	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the Reason for Delegation End for any pre-existing delegation that is terminated through this process as "Automated Consumer Delegation Code".
Consumer Assistance	Enrollment	40303	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide the capability to disable or enable the enroller (Certified Insurance Agent, Agency Manager, Approved Admin Staff Level 1 and 2, Certified Enrollment Counselor, Plan Based Enrollers) from continuing with the application if a duplicate individual is found.
Consumer Assistance	Enrollment	40304	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the messaging displayed when a duplicate individual is identified to include a link to the re-delegation process.
Consumer Assistance	Enrollment	47710	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send a flag to the IVR and ChatBot interface which identifies a household that went through the Manual APS process 1, 2, or 3.
Consumer Assistance	Enrollment	47711	Consumers that are eligible for Manual APS will be redirected out of IVR to take action on the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Portal.
Consumer Assistance	Enrollment	47712	Consumers that are eligible for Manual APS will be redirected out of the ChatBot to take action on the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Portal.
Consumer Assistance	General Requirement		
Consumer Assistance	General Requirement	38394	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality for the user to agree to receive autodialed and/or prerecorded calls and text messages.
Consumer Assistance	General Requirement	38395	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall allow the consent be modified by a user on a going forward basis without retriggering the business rules engine.
Consumer Assistance	General Requirement	39505	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the ability to view the Agency Manager name(s) on Agency page in the Agency Portal.
Consumer Assistance	General Requirement	39506	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the ability to view the Agent and Agency Portals on a mobile device.
Consumer Assistance	General Requirement	39507	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the ability to access Toolkit links from the Agency and Agent Portals under the Resources section.
Consumer Assistance	General Requirement	40544	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display an Alert Banner on the Account Home and Household Eligibility Results Summary page when Account Transfer (AT) fails.
Consumer Assistance	General Requirement	40545	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display fixable and non-fixable Account Transfer (AT) errors on Account Transfer Error modal.
Consumer Assistance	General Requirement	40546	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display Account Transfer (AT) Error modal with AT failure errors and Steps to fix the AT errors to Admin users.
Consumer Assistance	General Requirement	40547	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display Account Transfer (AT) Error modal with AT failure errors and Steps to fix the AT errors to consumers and authorized representatives.
Consumer Assistance	General Requirement	40548	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display Account Transfer (AT) Error modal with AT failure errors and Steps to fix the AT errors to Enrollers.
Consumer Assistance	General Requirement	40549	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide a visual transactional audit trail history to the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) admin users for Account Transfer (AT) errors that the user encounters.
Consumer Assistance	General Requirement	40550	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the ability to filter the Account Transfer (AT) transactions based on Determination Date (From & To - 90 Day date parameter), Transaction ID, Transfer ID or Account Transfer status - Failed or Successful.
Consumer Assistance	General Requirement	40551	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the ability to display the search results based on the filter criteria used.
Consumer Assistance	General Requirement	41161	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide functionality to allow entity representative to view all of the assisters "book of work".
Consumer Assistance	General Requirement	41388	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add an alert to the Enroller Portal Alerts when a consumer goes through the Auto Plan Selection process for APS New enrollment groups.
Consumer Assistance	General Requirement	41389	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate an access code for EDR/Disposition transactions (Intake/RAC/Renewal) if the following conditions are true (the same checks as Portal): -There is no existing consumer account on the case -There is no existing access code
Consumer Assistance	General Requirement	42153	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display messaging to consumers who choose to Opt Out of their current year APS Health enrollment after it has been renewed for the next year.

Category	Sub Category	Req ID	Requirement
Consumer Assistance			The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System must provide the functionality to provide the Agent with an extract file/report of their Book of Business. The extract should contain the following data items for each case: • First Name • Middle Name • Last Name • Customer DOB • Residence Address Line 1 • Residence Address Line 2 • Address - City • Address - State • Address - Zip Code • Customer Email • Customer Home Phone • Customer Account Flag (Y/N) • AHBX Application ID • AHBX Case ID • Application Status • Case Status • Medi-Cal Eligibility Status • Enrollment Status • Plan Type • Carrier Name • Plan Level • Plan Name • Plan Effective Date • Termination Date (if not active) • Number of Enrolled Members • Income Used to Calculate APTC • Old APTC • Old Gross Rate • Renewal APTC (once it has been Carrier (Medical and Dental)) • Federal Consent Flag • Years of Consent • Date of Consent
	General Requirement	42572	
Consumer Assistance	General Requirement	42573	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System must provide the ability for the Agent Manager to view the Agent Book of Business/Data Extract information for one Agent at a time using OBIEE.
Consumer Assistance	General Requirement	42793	The Vendor must maintain any field or online help information when system, security, or policy changes occur.
Consumer Assistance	General Requirement	42832	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System must pass the CaseID and PersonID, to CRM Survey Tool, for the person who is logged into California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) and clicks the "Take Survey" link.
Consumer Assistance	General Requirement	42833	The CRM Survey Tool must have the ability to accept the CaseID and PersonID.
Consumer Assistance	General Requirement	42834	The CRM Survey Tool must have the ability to store the CaseID and Person ID.
Consumer Assistance	General Requirement	42835	The CRM Survey Tool must have the ability to link the Survey answers with the CaseID and Person ID provided.
Consumer Assistance	General Requirement	42836	The solution must provide the ability to update the survey URL in AHBX as needed for Survey deployment to Consumers via the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) application.
Consumer Assistance	General Requirement	42875	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow Agents the ability to use SEP ADMIN Functionality.
Consumer Assistance	General Requirement	42876	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow for the Agents use of SEP Functionality to be enabled/disabled as a configurable item
Consumer Assistance	General Requirement	42944	The Vendor must provide a data dump of specified Planned Based Enroller Entities (PBEE) and their associated Planned Based Enrollers (PBE), both Active and Inactive, from the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) database. This is a one time request.
Consumer Assistance	General Requirement	43196	The CalHEERS System must protect the Agent's Business Legal Name, Address, and Federal Tax ID fields in the Agent Portal after the Agent is Certified.
Consumer Assistance	General Requirement	43197	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System must provide the functionality to display a message/field help to the Agent when they attempt to make a change to the Business Legal Name, Address, or Federal Tax ID/SSN. The message should provide the Agent with instructions to contact their Service Center for assistance.
Consumer Assistance	Notices		
Consumer Assistance	Notices	40023	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use the yearly template provided by IRS to generate the 1095-A form for the tax year 2020 and beyond.
Consumer Assistance	Notices	40024	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update trigger logic for snippet 368 so it is not suppressed when snippet 365 is generated on the NOD01.
Consumer Assistance	Notices	40025	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the snippet order on the NOD01 notice for snippet 369 to appear below the denial for APTC.
Consumer Assistance	Notices	40026	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the snippet order on the NOD01 notice for snippet 325 and 326 to match snippet placement of snippet 321 which appears below the State Subsidy snippets.

Category	Sub Category	Req ID	Requirement
Consumer Assistance	Notices	40027	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall ensure the "Marketplace-assigned policy number" field can populate alphanumeric values.
Consumer Assistance	Notices	40028	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall ensure the demographic fields on the 1095-A Form populate according to the new criteria identified by IRS.
Consumer Assistance	Notices	40029	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall ensure all fields on the original 1095-A Form are populated as expected.
Consumer Assistance	Notices	40030	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall ensure all fields on the corrected 1095-A Form are populated as expected.
Consumer Assistance	Notices	40031	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall ensure all fields on the void 1095-A Form are populated as expected.
Consumer Assistance	Notices	40319	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate an extract file, or many extract files, containing either the original or corrected/void Form 1095 along with the Covered CA cover letter and the form instructions prior to securely transmitting the files to the third party vendor for printing each Form 1095-A Health Insurance Marketplace Statement.
Consumer Assistance	Outreach		
Consumer Assistance	Outreach	42652	The solution must provide the functionality to define and select population and demographic segments to meet marketing and outreach campaign objectives.
Consumer Assistance	Outreach	42653	The solution must provide the ability to select data from other repositories brought into CRM (e.g. California Healthcare Eligibility, Enrollment and Retention System (CalHEERS), CRM, and others) by consumer information based on defined criteria such as zip code, preferred language, ethnicity, plan selection, date of birth, life changing circumstances, progress through enrollment, prior marketing campaign participation and/or outcomes, etc.
Consumer Assistance	Outreach	42654	The solution must provide the ability to associate consumer data and automatically trigger events (e.g. email, postal notices, etc.) based on defined marketing and outreach campaign criteria.
Consumer Assistance	Outreach	42655	The solution must provide the ability to view marketing and outreach campaign interactions at the Contact level, via the CRM.
Consumer Assistance	Outreach	42656	The solution must monitor data repositories to identify triggering events associated with marketing and outreach campaigns.
Consumer Assistance	Outreach	42657	The solution must provide the ability to segment consumers based on demographic data (e.g., aged out of Foster Care, upcoming 26th birthday, married, divorced, unemployment, etc.)
Consumer Assistance	Outreach	42658	The solution must provide the functionality to add Market & Outreach campaigns to the CRM.
Consumer Assistance	Outreach	42659	The solution must provide the ability to add Market & Outreach selection criteria, trigger events, and automated actions.
Consumer Assistance	Outreach	42660	The solution must provide the ability to gather Marketing and Outreach campaign results (e.g. customer responses, customer attendance at events, customer progress towards enrollment subsequent to campaign, customer contact with enrollment support providers, etc.).
Consumer Assistance	Outreach	42661	The solution must automatically gather vital record information (birth, death, marriage, imprisoned, recently discharged from military, etc.).
Consumer Assistance	Outreach	42662	The solution must provide the ability to trigger Marketing and Outreach campaigns based on defined time constraints.
Consumer Assistance	Outreach	42704	The solution must provide functionality that supports the full spectrum of Marketing and Outreach campaigns.
Consumer Assistance	Outreach	42705	The solution must provde functionality to produce on-demand static reports in support of Marketing and Outreach campaigns.
Consumer Assistance	Outreach	42706	The solution must provide the functionality to evaluate lead data and rank leads, idetifying the leads with the highest potential of positive outcomes (e.g., enrollment completion, effectuation, etc.).
Consumer Assistance	Outreach	42707	The solution must provide the functionality to produce data extracts / reports to include: • Performance • Sales channel performance analysis and reporting • Forecast sales pipeline • Marketing metrics by media type
Consumer Assistance	Outreach	42708	The solution must provide the functionality to produce real-time, holistic view of all Marketing category reports in a dashboard view.
Consumer Assistance	Outreach	42709	The solution must provide the functionality to create and produce dashboards based on Marketing categories, population segments and other criteria
Consumer Assistance	Outreach	42710	The solution must provide the functionality to gather and produce extracts and reporting metrics on outreach activity by date, location, and success.
Consumer Assistance	Outreach	42711	The solution must provide the functionality to generate a report of lead opportunities by Service Channels on a weekly and monthly basis. The report header should include: (1) Number of lead opportunities by Service Channel and (2) Year-To-Date total of lead opportunities by Service Channel.
Consumer Assistance	Outreach	42712	The solution must provide functionality to engage market segments with polls and surveys.
Consumer Assistance	Outreach	42713	The solution must provde functionality to support salesforce (Covered CA Certified Staff) contact/prospect/client management.
Consumer Assistance	Outreach	42714	The solution must provide the functionality to generate real-time email alerts sent directly to Covered CA Certified staff after a customer visits, the Covered CA website and completes a form and the 'opt in' (sharing information option).
Consumer Assistance	Outreach	42715	The solution must provide the functionality to produce direct communication with consumers (via email integration from CRM) to track and log activity.
Consumer Assistance	Outreach	42716	The solution must provide the functionality to track when a an e-mail has been successfully delivered, opened, etc.
Consumer Assistance	Outreach	42717	The solution must provide the functionality for a sales pipeline and activity dashboard.
Consumer Assistance	Outreach	42718	The solution must provide the functionality to assign leads and set appointments based on territory assignment and sales force availability.
Consumer Assistance	Outreach	42719	The solution must provide functionality to perform lead management.
Consumer Assistance	Outreach	42720	The solution must provide functionality for Covered CA Certified Staff to enter consumer leads (into the CRM) through the Covered CA website's "Contact Me" form and the "Shop and Compare" tool.
Consumer Assistance	Outreach	42721	The solution must provide the functionality to automatically prioritize leads based on lead status.
Consumer Assistance	Outreach	42722	The solution must provide functionality for the entry of data through the following devices: • Tablets • iPads • Computer Workstations • Printers • Scanners

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Consumer Assistance	Outreach	42723	The solution must provide functionality for consumers to request to be contacted by specific Counselors if a unique Counselor ID is provided in the “Contact Me” form or “Shop and Compare” tool.
Consumer Assistance	Outreach	42724	The solution must provide functionality to identify consumer leads that originated from public relation efforts.
Consumer Assistance	Outreach	42725	The solution must provide functionality for Certified Staff to access assigned leads and lead statuses and follow the consumer’s application journey from X through enrollment.
Consumer Assistance	Outreach	42726	The solution must provide functionality to identify and remove duplicate leads.
Consumer Assistance	Outreach	42727	The solution must provide logic to process lead in a manner that facilitates an enrollment based on the consumer profile and other criteria.
Consumer Assistance	Outreach	42728	The solution must provide the functionality to capture specific languages requested by the lead.
Consumer Assistance	Outreach	42729	The solution should capture specific languages requested by the lead.
Consumer Assistance	Outreach	42730	The solution must provide functionality to support Special Enrollment and annual redetermination objectives.
Consumer Assistance	Outreach	42731	The solution must provide the functionality to capture consumer consent to process annual auto income verification / validation.
Consumer Assistance	Outreach	42732	The solution must provide the functionality to identify where in the Eligibility and Enrollment process a consumer is "stuck".
Consumer Assistance	Outreach	42733	The solution must provide functionality for California Healthcare Eligiblity, Enrollment and Retention System (CalHEERS) and CRM consumer Association.
Consumer Assistance	Outreach	42734	The solution must provide the functionality to capture and describe the marketing and outreach activities (volumes, target audience, dates, recommended response to questions, mailer code/unique ID). Note: link ID code to knowledge base
Consumer Assistance	Outreach	42735	The solution must provide the functionality to manage event calendaring, participate enrollment and follow-up activities.
Consumer Assistance	Outreach	42736	The solution must provide the functionality to support consumer self service for finding and registering for events.
Consumer Assistance	Outreach	42737	The solution must provide the ability for SCR's (could extend to CEC's, Agents, etc.) to search for events based on zip code, date or other unique selection criteria.
Consumer Assistance	Outreach	42738	The solution must provide the ability Consumers to search for events based on zip code, date or other unique selection criteria on a publicly available website.
Consumer Assistance	Outreach	42739	The solution must provide the ability for consumers to add event registration to their calendar client (e.g. Outlook, etc.).
Consumer Assistance	Outreach	42740	The solution must provide the administrative ability to easily add, edit and remove calendared events.
Consumer Assistance	Outreach	42741	The solution must provid the ability, via a public web interface, for interested parties to registered and withdraw from calendared events.
Consumer Assistance	Outreach	42742	The solution must provide the ability to send confirmation, via the performed method of communication, (e.g. email, usps, etc.) of event registration with information regarding the event to registered parties.
Consumer Assistance	Outreach	42743	The solution must provide the ability to send reminders, via the preferred method of communication, of upcoming events to registered parties.
Consumer Assistance	Outreach	42744	The solution must provide the ability to send follow up information, via the performed method of communication, to event attendees.
Consumer Assistance	Outreach	42745	The solution must provide SCR's (could extend to CEC's, Agents, etc.) visibility to consumer event participation via the CRM.
Consumer Assistance	Outreach	42746	The solution must provide the ability to store information about events including: Event ID Event Name Event Type Event Date Event Start Time Event End Time Event Sponsor Event Address Event City Event Zip Code Event Registration Limit Targeted Audience Business Initiative Preferred Language
Consumer Assistance	Outreach	42747	The solution must provide the functionality to interact via social media channels (e.g. Facebook, Twitter, YouTube, etc.)
Consumer Assistance	Outreach	42748	The solution will allow Marketing to engage their audience with polls and surveys.
Consumer Assistance	Outreach	42749	The solution must provide the ability for the CRM to present (display) consumer progress through the enrollment process. -Expansion of 360 View Functionality
Consumer Assistance	Outreach	42750	The solution must display most resent consumer enrollment information with family status.
Consumer Assistance	Outreach	42751	The solution must track and display all consumer outreach activities and outcomes at the marketing campaign level.
Consumer Assistance	Outreach	42752	The solution must track and provide the ability to manage consumer outreach activities based on age of interaction (aging driven events).
Consumer Assistance	Outreach	42753	The solution must provide the functionality to manage the timing and frequency of consumer outreach and marketing communication.
Consumer Assistance	Outreach	42754	The CRM must display consumer information such as account establishment date, application submission date, plan selection date, payment coverage effectuation date, plan selection, eligibility determination, etc.
Consumer Assistance	Outreach	42755	The CRM must display consumer upcoming enrollment events (e.g. re-determination, etc.)
Consumer Assistance	Outreach	42756	The solution must trigger events (consumer notification) based on income or family status that change consumer subsidy thresholds. (APTC vs Medical)

Category	Sub Category	Req ID	Requirement
Consumer Assistance	Outreach	42757	The solution must track and display all outreach activities and outcomes at the consumer level.
Consumer Assistance	Outreach	42758	The solution must track and display all consumer outreach activities and outcomes at the market segment level.
Consumer Assistance	Outreach	42759	The solution must associate consumers to assisters.
Consumer Assistance	Outreach	42760	The solution must allow assignment of a consumer or a lead to an in-person assister such as agent, CEC, Navigator, PBE, CEW, etc.
Consumer Assistance	Outreach	42761	The solution must provide review by delegation (i.e. An Assister/CEC needs to name someone who has their delegated authority to update records in the Lead Portal).
Consumer Assistance	Outreach	42762	The solution must allow reporting by delegation and report on the status of applications and leads worked to evaluate effectiveness (top producers).
Consumer Assistance	Outreach	42763	The solution must provide the ability to schedule or allow a consumer to sign-up/register for an event.
Consumer Assistance	Outreach	42764	The solution must capture allow for the capture, assignment, and reportability by "sales territory".
Consumer Assistance	Outreach	42765	The solution must provide a "sales territory" field with the ability to assign consumers to a "sales territory". The assignment of consumers to a specific territory would be done automatically based on criteria including geography, language, and other demographics.
Consumer Assistance	Outreach	42766	The solution must allow the "sales territory" field to be a variable so reports can be generated based on geographic areas, sales channels, or delegates within a sales channel.
Consumer Assistance	Outreach	42773	The solution must provide metrics for event interactions and event enrollment outcomes.
Consumer Assistance	Plan and Benefit Assistance		
Consumer Assistance	Plan and Benefit Assistance	40902	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to allow a consumer or designated Assister to access their own case information through multiple service channels (e.g. web portal, phone, IVR).
Consumer Assistance	Plan and Benefit Assistance	40903	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to allow a consumer to report changes to their case information through multiple service channels (e.g. web portal and phone).
Consumer Assistance	Plan and Benefit Assistance	40904	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to link consumers to a list of Assistors that will be constructed by rules to be determined by the Exchange.
Consumer Assistance	Plan and Benefit Assistance	40905	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality for consumers to shop and compare plans with minimal initial data entry, for anonymous shopping.
Consumer Assistance	Plan and Benefit Assistance	40921	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the following languages on the Web Portal and Online Chat: English and Spanish. The toll free number, IVR, and Online Chat shall state in Medi-Cal Managed Care Threshold languages they can reach an operator in their language.
Consumer Assistance	Plan and Benefit Assistance	40992	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall be compatible with Windows functionality allowing the Consumer to print, save to file, send information via email, or use any additional browser functionality.
Consumer Assistance	Plan and Benefit Assistance	40993	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to email consumers when they have a new notification in their secure mailbox.
Consumer Assistance	Plan and Benefit Assistance	40994	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System must provide the functionality to send an email to the Consumer that correspondence is available for viewing in the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Secure Mailbox, when the Counsumer selects "Email" as their Preferred Method of Communication. This email will only be generated for Consumers who have created a California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Account. The email must be sent in the Consumer's preferred language.
Consumer Assistance	Plan and Benefit Assistance	40995	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to allow consumers to view, save and archive their California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) email notifications from their Web Portal login account.
Consumer Assistance	Plan and Benefit Assistance	41002	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to save consumer information while consumer is logged on, and notify consumer of timeout expiration for saving data.
Consumer Assistance	Plan and Benefit Assistance	41003	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to save consumer information if requested by consumer, and allow access to saved work, and to restart where the consumer left off at the time of their last save.
Consumer Assistance	Plan and Benefit Assistance	41004	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to exit any screen without saving changes.
Consumer Assistance	Plan and Benefit Assistance	41030	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality for a consumer to officially and securely designate an Assister.
Consumer Assistance	Plan and Benefit Assistance	41031	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to receive and record the consumer's designation of an authorized representative that can act on their behalf.
Consumer Assistance	Plan and Benefit Assistance	41040	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality for consumers to manage their account on mobile device via browser.
Consumer Assistance	Plan and Benefit Assistance	41366	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality allow Consumers the ability to identify and confirm selected assisters.
Consumer Assistance	Plan and Benefit Assistance	41393	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to allow for tracking assister activities to ensure compliance with program requirements
Consumer Assistance	Reports		
Consumer Assistance	Reports	38288	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System must provide users a report of their active delegations.
Consumer Assistance	Reports	42813	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall be able to display, and make available to print, the Form 1095-A Health Insurance Marketplace Statement from within the member's Portal.

Category	Sub Category	Req ID	Requirement
Consumer Assistance	Reports	42826	If a third-party vendor is used for printing Form 1095-A Health Insurance Marketplace Statement, the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall be able to generate an extract file, or many extract files, containing either the original or corrected/void Form 1095 along with the Covered CA cover letter and the form instructions; of which, will securely transmit to the third party vendor.
Consumer Assistance	Web Portal Online Help		
Consumer Assistance	Web Portal Online Help	40697	The Web Portal shall take advantage of and/or exceeds the consumer experience and framework defined by the UX2014 Project.
Consumer Assistance	Web Portal Online Help	40700	The Web Portal shall accommodates different consumers' access needs and facilitate and simplify the end-to-end process to attain and maintain health coverage.
Consumer Assistance	Web Portal Online Help	40779	The Web Portal shall include a toll free and online chat functionality for consumer assistance in Spanish and English.
Consumer Assistance	Web Portal Online Help	40780	The Web Portal shall provide links to phone, online chat, or IVR assistance in the Medi-Cal Managed Care Threshold languages.
Consumer Assistance	Web Portal Online Help	40813	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality for help screens and question icons (Spanish and English) to assist consumers with navigation and questions, and update help screens and question icons as needed.
Consumer Assistance	Web Portal Online Help	40823	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to allow a person acting on behalf of an applicant/recipient to have the same access as the applicant/recipient, but with their own log on. For example, a guardian or responsible person can complete an application and check benefits.
Consumer Assistance	Web Portal Online Help	40842	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to show the consumer the progress in the application process as the application is being completed by the consumer.
Consumer Assistance	Web Portal Online Help	40843	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide online chat whereby consumers can make inquiries to Service Center personnel.
Consumer Assistance	Web Portal Online Help	40844	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Web Portal shall provide links to other entity websites that deliver other benefits.
Consumer Assistance	Web Portal Online Help	41159	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to accommodate and support different users.
Consumer Assistance	Web Portal Online Help	41203	The Web Portal shall provide the functionality to receive consumer complaints, categorize the complaints, and route them for processing based on business rules.
Content			
Content	Application Submission and Update		
Content	Application Submission and Update	38587	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall streamline messaging and collections screens for Renewals to improve the application flow for the end user.
Content	General Requirement		
Content	General Requirement	39484	Update Live chat link in portal
Content	General Requirement	45470	The following case management content shall be provided in English and Spanish languages to support assisters in accordance to each assister's role and security authorization: A) Case management information B) Reporting, Forms, and Notices C) Appeal case information D) Issuer, Assister, Broker, Agent, and Navigator information
Content	General Requirement	45474	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall associate and manage consumer content from various sources: consumer, navigator, assister agent, and broker.
Content	General Requirement	45491	The following content for the Web Portal shall be provided in English and Spanish languages: A) Website text, instructions, links, field-level help, and navigation guidance B) Education Materials C) Online Assistance D) Online Chat E) Web-Videos F) Frequently Asked Questions (FAQs) G) Guided Self Help Tools H) QHP Information I) Forms J) Information and links to other health benefit programs
Content	General Requirement	45492	To enable users to reach an operator in their language, the following content for the Web Portal shall be provided in the Medi-Cal Managed Care Threshold Languages: A) Toll-free number B) IVR C) Online Chat
Content	General Requirement	45836	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add a static message with a link on the Other Health Coverage (Current Enrollment) page. Static message with a link shall appear on consumer view during Intake, Report A Change and Renewal application mode.
Content	Plan and Benefit Assistance		
Content	Plan and Benefit Assistance	39622	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide messaging to consumers who enroll between the dates of 1/16/2020 and 1/31/2020 regarding the importance of using the Pay Now function to make their binder payment so that they may begin using their benefits immediately.
Content	Renewal		

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Content	Renewal	38325	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall update benefit-year-specific text as necessary on all California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) pages (e.g. Changing hard coded dates to dynamic dates, etc).
Content	Web Portal Online Help		
Content	Web Portal Online Help	38966	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Shall have a Google Tag Manager script enabled on the Single Streamlined Application pages.
Content	Web Portal Online Help	38967	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Shall have a Eloqua Tag Manager script enabled on the Single Streamlined Application pages.
Contract Management			
Contract Management	General Requirement		
Contract Management	General Requirement	44260	As part of the Budget Management approach, the Vendor shall address processes by which invoices can be objectively assessed for accuracy, completeness, and adherence to contract terms and related cost schedules.
Contract Management	General Requirement	44261	The Vendor shall describe how the implications of potential Contract changes will be considered, analyzed, and documented as part of a formal Change Order and/or contract amendment. As appropriate, additional cost schedules must be developed, augmented, and maintained within the existing set of schedules to ensure that all costs are contained within a single file
Contract Management	General Requirement	44302	The Vendor shall develop and maintain a Contract Management approach that will include specific processes and procedures to ensure that contractual obligations related to the following areas are tracked and fulfilled: A) Deliverable completion, submittal, Review, and Acceptance. B) Deliverable schedules. C) Deliverable, Services, System, Enhancements, and performance warranties and remedies. D) Equipment and Software purchases and ongoing Maintenance and Support, including software license agreements, and financial information required for asset and inventory management, and audit purposes E) Key Milestones are acceptable and associated liquidated damages are applied appropriately if the Key Milestones are not achieved timely F) Key Staff are acceptable and associated liquidated damages are applied appropriately if the Key Staff are not provided in accordance with agreement terms G) Adherence to SLAs H) Payment schedules, holdbacks and release of holdbacks based on defined conditions I) Warranty assessment and reporting J) Administrative terms (e.g., insurance, confidentiality policies, and staff agreements) K) Management of subcontracts
Conversion			
Conversion	General Requirement		
Conversion	General Requirement	43409	The Vendor shall develop a Conversion methodology that addresses the needs of each conversion effort. The Vendor shall: analyze data of existing Systems data files; develop a Conversion plan; provide the necessary Software; develop training materials to support the Conversion of information from third party Systems; and implement the Conversion plan. The Vendor shall use an automated approach to converting the data into the System.
Conversion	General Requirement	43410	An analysis of existing Systems input files shall be accomplished to determine the validity and internal integrity of the data selected for Conversion. This is anticipated to be a joint effort, with the Vendor taking the lead role, but relying on the Exchange for specific information. It is fully expected that Exchange staff will assist the Vendor in determining which data from the existing System input files are valid and reliable. A process for data verification shall be developed that identifies and reports inconsistencies with the existing Systems and other errors. The timing of the analysis shall be early enough in the Conversion planning activity so that it provides ample opportunity to allow for the manual and/or electronic clean up of data well in advance of actual data conversions. An approved methodology shall be used to determine unduplicated individual data and electronic images.
Conversion	General Requirement	43411	The Vendor shall prepare a Conversion Test Plan, and provide the test environment.
Conversion	General Requirement	43417	The Vendor shall develop an Conversion File Agreement that will document file layouts (mock and production files, transactions frequencies, test procedures, security and file transfer protocols.
Conversion	General Requirement	43426	All Conversion programs shall be unit, integration, and System tested by the Vendor, as well as acceptance tested by the Exchange prior to use in production Conversion activities.
Conversion	General Requirement	43427	The Vendor shall conduct multiple sets of trial conversions. These tests shall simulate the actual Conversion process, including all manual Conversion procedures, and subsequent processing cycles operate normally. The Vendor shall provide a written Conversion Test Report as a result of the Conversion shall ensure that all subsequent processing cycles operate normally. Test that includes at a minimum: A) The test results and performance analysis B) The problems encountered C) Corrective actions taken D) Percentage of automated conversions, discrepant conversions, failed conversions, and retest efforts
Conversion	General Requirement	43428	The final Conversion processes shall be executed by the Vendor in accordance with the Conversion Plan.
Conversion	General Requirement	43429	The Vendor shall review each automated Conversion run to ensure the accuracy of the Conversion and to generate a report of those data elements that are unable to be converted before users access the System in production.
Conversion	General Requirement	43430	The Vendor shall analyze any failed Conversion attempts, document the planned approach for another attempt(s) (such as additional data cleanup and rerun, or manual processes) and execute and oversee reruns or manual processes as appropriate
Conversion	General Requirement	43431	The Vendor shall conduct, oversee, and monitor manual Conversion activities as appropriate, identify and document problems associated with manual case Conversion processes, recommend and implement corresponding solutions, and perform time studies of The resulting time study information will be used to refine Conversion-related training, manual Conversion processes, and Exchange implementation Conversion expectations, as appropriate.
Conversion	General Requirement	43496	The Vendor shall store all data files that are transitioned to the Vendor. These files shall be stored in the back-end once the data has been converted.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Conversion	General Requirement	43497	The Vendor shall supply the necessary Equipment and Software to conduct conversion and conversion testing activities.
Conversion	General Requirement	46320	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall migrate multi-affiliated Agents and Agencies to Salesforce PCAP Org from the current production Salesforce Org
Conversion	General Requirement	46321	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create relationships of migrated Agents with related objects
Conversion	General Requirement	46324	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create records for Account, Contact and User objects in Salesforce
Conversion	General Requirement	46325	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create additional relationship records between Contact and Training, LMS Course, Criminal Record Disclosure, Required Documentation, Files, Site Served, Location objects
Data Warehouse			
Data Warehouse	General Requirement		
Data Warehouse	General Requirement	42313	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall be able to create a data model to capture Eligibility determination for all applications California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) data warehouse shall identify eligibility activity that results in a change to key eligibility values California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) data warehouse shall identify the latest eligibility for each consumer
Data Warehouse	General Requirement	42314	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide traceability on eligibility results for use by data users across all applications, plan selections, and other data domains
Data Warehouse	General Requirement	42315	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall facilitate analysis of income and other application inputs that were used by BRE to derive eligibility results data for all eligibility determinations
Data Warehouse	General Requirement	42316	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide Member Month View of eligibility by coverage year including detailed analysis of eligibility transitions, sequences, or overlaps
Data Warehouse	General Requirement	42317	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide Insurance Affordability Programs (IAP) transition—including both Carry Forward transitions (CC-> MC) and consumers transitioning from Medi-Cal to Covered California (MC->CC) -- and their impact on enrollment data
Data Warehouse	General Requirement	42318	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow historical view of eligibility status changes across various programs and coverage periods
Data Warehouse	General Requirement	42319	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) data warehouse shall provide verification results and subsequent conditional eligibility, ROP, and document upload actions and results, impacting eligibility determinations across all applications California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) data warehouse shall provide comprehensive history of document upload activity for each consumer
Data Warehouse	General Requirement	42320	Implementation of Audit Balance Framework on California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) data warehouse. 1. Provide automated results for data processing/loads (the start/end date and time, number of rows processed, inserted, updated, and rejected/deleted in each step etc.) for each run 2. Identify data discrepancies against source data and capture daily run times
Data Warehouse	General Requirement	42321	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall facilitate Fault Tolerance of loads and Data Deduplication. 1.Facilitate auto restart of loads from point of failure 2. Eliminate the redundant storage and data structures based on defined keys
Data Warehouse	General Requirement	42322	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) data warehouse shall provide Error-Reprocessing capability 1. Handle error – failures and enable re-processing by creating error logic codes 2. Provide ability to process data and run ETLs for previous runs based on data dependencies. 3. Provide micro batch run capability(Multiple ETL runs in a day) 4. Email notification in case of failure
Data Warehouse	General Requirement	42323	Data Model -Lineage
Data Warehouse	General Requirement	42324	Data Model - Catalog Updates & Governance
Data Warehouse	General Requirement	42325	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) data warehouse shall be able to create a data model to capture all applications, and describe associated attributes related to enrollment, eligibility, users, delegation, and other dimensions and to capture core features of all Applications, including related to predefined consumer paths or activity California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) data warehouse shall provide details related to household/application level that are not part of the submitted application for eligibility, such as employer contact information, mail undeliverable flags, etc.
Data Warehouse	General Requirement	42326	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) data warehouse shall provide various verification results (eligibility and otherwise) for all Applications
Data Warehouse	General Requirement	42327	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) data warehouse shall provide Renewal details for all Applications for each coverage year
Data Warehouse	General Requirement	42328	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) data warehouse shall be able to create a frozen view of application data that was current at the time of submission for every submission for every application
Data Warehouse	General Requirement	42329	Special Enrollment Period for all Applications 1.Provide QLE event details and the various statuses for all application created during Special enrollment period 2.Capture new addition to QLE and SEP reasons will be added
Data Warehouse	General Requirement	42330	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) data warehouse shall provide details related to household/application level that are not part of the submitted application for eligibility, such as employer contact information, mail undeliverable flags, etc.
Data Warehouse	General Requirement	42331	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) data warehouse shall facilitate association of application data to various attributes that were current on the case at the time of submission
Data Warehouse	General Requirement	42332	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) data warehouse shall capture enrollee (defined as each individual covered on each enrollment) information and associated enrollment details
Data Warehouse	General Requirement	42333	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) data warehouse shall provide enrollee details related to IAP transitions
Data Warehouse	General Requirement	42334	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) data warehouse shall provide details on Enrollee Churn Population with plan choices per enrollment year

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Data Warehouse	General Requirement	42335	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) data warehouse shall provide views of enrollee and enrollment information organized by coverage month
Data Warehouse	General Requirement	42336	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) data warehouse shall facilitate Premium Credit details of enrollee
Data Warehouse	General Requirement	42337	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) data warehouse shall provide insight into continuous enrollment history for each enrollee
			California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) data warehouse shall provide insight into Prior and Future Year Enrollee Attributes
			California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) data warehouse shall provide insight into Enrollee Historical Attributes
Data Warehouse	General Requirement	42338	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) data warehouse shall provide detailed information on Plan Enrollment data
Data Warehouse	General Requirement	42339	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) data warehouse shall provide IAP transition information related to enrollments
Data Warehouse	General Requirement	42340	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) data warehouse shall provide Enrollments Member Month View per coverage year at Enrollment grain
Data Warehouse	General Requirement	42341	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) data warehouse shall produce a report of all individuals on all submitted applications, by coverage year
Data Warehouse	General Requirement	42342	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) data warehouse shall provide historical details of individual metrics for submitted application
Data Warehouse	General Requirement	42343	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) data warehouse shall produce all CMS metrics
			California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) data warehouse shall produce public reporting and KPIs on eligibility and applications
Data Warehouse	General Requirement	42344	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide detailed information on Delegation attributes
Data Warehouse	General Requirement	42345	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide historical details for delegation attributes
Data Warehouse	General Requirement	42346	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall facilitate analysis on role-based user profiles (delegate details)
Data Warehouse	General Requirement	42347	Orchestration & ETL Process Flow Scheduling
Data Warehouse	General Requirement	42348	Snowflake & Tableau Reporting Integration
Data Warehouse	General Requirement	42349	Oracle to Snowflake Integration
Data Warehouse	General Requirement	42350	BIP Reports to Extracts Conversion
Data Warehouse	General Requirement	42351	Graphical Reports to Tableau Conversion
Data Warehouse	General Requirement	42352	Eligibility Adhoc Reporting
Data Warehouse	General Requirement	42353	Enrollee Adhoc Reporting
Data Warehouse	General Requirement	42354	Enrollment Adhoc Reporting
Data Warehouse	General Requirement	42355	Application Adhoc Reporting
Data Warehouse	General Requirement	42356	Submitted Individual Adhoc Reporting
Data Warehouse	General Requirement	42357	Delegation Adhoc Reporting
Data Warehouse	General Requirement	42358	OBIEE Dashboards to Tableau Dashboard conversion
Data Warehouse	General Requirement	42359	Data Quality Reporting
Data Warehouse	General Requirement	42360	Document Upload History/Activity
Data Warehouse	General Requirement	42361	Tableau Data connections & Frequency set up
Data Warehouse	General Requirement	45683	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Technology Refresh - Oracle to RDS Aurora PostgreSQL Database - Security- Encryption
Data Warehouse	General Requirement	45684	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall store encrypted data in the cloud
Data Warehouse	General Requirement	45685	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall be encrypt PII data during transit and at rest using FIPS 140-2 encrytion standards
Data Warehouse	General Requirement	45686	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall encrypt transaction data
Data Warehouse	General Requirement	45687	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall encrypt log and audit files
Data Warehouse	General Requirement	45688	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall encrypt database backups for secure long-term retention
Data Warehouse	General Requirement	45689	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall encrypt database data objects stored in S3
Data Warehouse	General Requirement	45722	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall document disaster recovery policies and procedures (SOP) for backup and restoration of databases.
Data Warehouse	General Requirement	45723	Autoscaling of storage and compute
Data Warehouse	General Requirement	45724	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Technology Refresh - Oracle to RDS Aurora PostgreSQL Database - Database - Performance
Data Warehouse	General Requirement	45725	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system performance shall match current system performance for average page response time
Data Warehouse	General Requirement	45726	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system performance shall be match current system performance for EHIT processing
Data Warehouse	General Requirement	45727	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system performance shall be match current system performance for Batch processing
Data Warehouse	General Requirement	45728	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Technology Refresh - Oracle to RDS Aurora PostgreSQL Database - Database - Backup
Data Warehouse	General Requirement	45729	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system database backups shall be comply with CMS requirements for protecting data at rest
Data Warehouse	General Requirement	45730	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system database backups shall be encrypt PII at the storage location
Data Warehouse	General Requirement	45731	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall determines policy for system backup verification and appropriate periodicity of the check.
Data Warehouse	General Requirement	48314	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create Google Tag in GTM.

Category	Sub Category	Req ID	Requirement
Data Warehouse	General Requirement	48315	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create tags in MAPS3 Final Submit Page for following items: Check/uncheck actions for Provide eSignature Check/uncheck/error response for Binding Arbitration Agreement
Data Warehouse			California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create tags on Choose a Health/Dental Plan page (both logged in and anonymous Shop and Compare flows) for following items: Label/up and down arrow clicks for Metal Tiers, Insurance Companies and Network Types Page number traverse (both back arrow and front arrow)
Data Warehouse	Reports		
Data Warehouse	Reports	48236	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the outbound weekly reconciliation file to align with SOGI changes made in the outbound 834 transactions to add columns for Gender Identity, Birth Gender, and Sexual Orientation.
Data Warehouse	Reports	48239	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall populate the Outbound Weekly Audit file with Gender Identity information at the member-level, if provided.
Data Warehouse	Reports	48240	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall populate the Outbound Weekly Audit file with Birth Gender information at the member-level, if provided.
Data Warehouse	Reports	48241	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall populate the Outbound Weekly Audit file with Sexual Orientation information at the member-level, if provided.
Data Warehouse	Shop & Compare		
Data Warehouse	Shop & Compare	48458	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall capture the Plan tile position on the Choose a Health Plan Page
Data Warehouse	Shop & Compare	48459	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall capture where the plan is initially placed on the page (plan tile default position) after the default filtering is applied based on preferences and prior to any user filtering/sorting.
Deliverable Management			
Deliverable Management	General Requirement		
Deliverable Management	General Requirement	44297	The Vendor shall define and implement the process for submitting California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) project deliverables defined in this RFP including but not limited to: A) DEDs B) General Acceptance Criteria C) Draft Submissions D) Revisions E) Final submissions F) Approval/Acceptance G) CMS Defined Stage Gate Review Deliverables
Deliverable Management			As a tracking and deliverable management tool, the Vendor shall provide and maintain the following information within a single file: A) All DEDs and their associated due dates, submittal dates and approval dates B) All deliverables, their due dates, submittal dates, approval dates, invoice dates and payment dates (as applicable)
Deliverable Management	General Requirement	44299	For the following specific key deliverables, the Vendor shall conduct a formal walkthrough of the initial and final deliverables with Exchange Project staff, stakeholders, QA, IV&V and oversight consultants. A) Initial Project Work Plan B) System Design Document C) Interface Control Document D) Test Plan E) Implementation Plan F) Training Plan G) O&M Manual
Deliverable Management			The Vendor shall store formal draft and final versions of all deliverables on the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Project SharePoint site, which should be readily accessible by all Exchange Project staff, QA, IV&V and oversight consultants.
Detailed Design Review			
Detailed Design Review	General Requirement		

Category	Sub Category	Req ID	Requirement
Detailed Design Review	General Requirement	43522	As part of the Detailed Design Review, the Vendor shall prepare a Detailed Requirements Traceability Matrix to include but not be limited to: A) Approach to Requirements Analysis and Traceability B) Summary of Findings C) List of Requirements D) List of Deliverables E) Requirements mapped to Deliverables F) Deliverables mapped to Requirements G) Requirements without matching Deliverables H) Deliverables without matching Requirements I) Description and cataloging of specific services, both technical and business, that will be available for reference and reuse by other State agencies
Detailed Design Review			The Vendor shall prepare a System Design Document (Preliminary) to include at a minimum: A) System Architecture B) Data Design C) Human-Machine Interface D) Operational Scenarios E) Detailed Design F) System Integrity Controls G) External Interfaces
Detailed Design Review			The Vendor shall prepare an Interface Control Document (Preliminary) to include at a minimum: A) Description of all System Interfaces: Federal, State and Local B) Detailed Interface Requirements C) Communication Protocols with external entities D) Interface development and test schedule E) Contingency plans
Detailed Design Review			The Vendor shall prepare a Database Design Document (Preliminary) to include at a minimum: A) Design Decisions B) Detailed Database Design C) Database Administration And Monitoring
Detailed Design Review			The Vendor shall prepare a Data Management Plan (P) to include at a minimum: A) Approach for managing data during and after project execution. B) Data archiving plan C) Data retention plan
Detailed Design Review	General Requirement	43528	The Vendor shall prepare a Physical Data Model (Preliminary) to include at a minimum: B) Participants Roles And Responsibilities C) Conceptual, Logical, And Physical Data Models D) PDM Concepts E) PDM Relationship Views F) Deliverables G) Physical Data Model (PDM) Development H) Extract, Transform And Load Process I) PDM Data Dictionary Development J) Project's Acronyms K) Appendix A: Physical Data Model Diagram L) Appendix B: Extract, Transform, And Load Diagram M) Appendix C: Physical Data Model Matrix N) Appendix D: PDM Data Dictionary

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Detailed Design Review		43529	The Vendor shall prepare a Data Conversion Plan (Preliminary) to include at a minimum: A) Data Conversion Strategy and Approach B) Staffing and roles and responsibilities of Exchange and Vendor staff C) A list of files being converted D) Data Conversion Preparation E) Data Conversion Specifications F) A cross-reference of existing data elements to California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) data elements G) Conversion rules for each existing and new data element H) Methods for calculating default values, as appropriate I) Manual processes required including preparation and actual Conversion, and estimated work effort and timeline for each J) The approach for training users and technical staff in both automated and manual Conversion procedures K) Reports
	General Requirement		
Detailed Design Review	General Requirement	43530	The Vendor shall prepare and deliver a Assister Management Plan to describe the approach to Assister Management, to include recording and tracking Assister training, education, tracking spoken languages and handling Assister complaints.
Detailed Design Review	General Requirement	43531	The Vendor shall prepare and deliver a comprehensive plan to describe the approach to managing the Shop functionality and services.
Detailed Design Review	General Requirement	43550	The Vendor shall prepare and deliver a Centralized Provider Directory Database Plan to describes the approach to delivering the Centralized Provider Directory Database, its contents and how it would be maintained.
Development and Testing			
Development and Testing	General Requirement		
Development and Testing	General Requirement	39754	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall change/modify the Schema to consume CMS State-based Exchange Response (SBMR) file.
Development and Testing	General Requirement	39936	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create new callback service (SOAP Service) to receive email bounce-back status from Salesforce Marketing Cloud
Development and Testing	General Requirement	39950	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall extract the existing processing logic when email notification is bounced from EML-1000-DD-04 to this new callback service
Development and Testing	General Requirement	39951	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement an OAUTH refresh logic to request a new OAUTH token from Salesforce Marketing Cloud based on the configured 20 mins TTL (time to live) in Salesforce Marketing Cloud
Development and Testing	General Requirement	39952	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement Oracle API Gateway policies to allow outbound calls from California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) to Salesforce Marketing Cloud.
Development and Testing	General Requirement	39953	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement Oracle API Gateway policies to configure callback SOAP service from Salesforce Marketing Cloud to California Healthcare Eligibility, Enrollment and Retention System (CalHEERS)
Development and Testing	General Requirement	39954	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement the firewall changes per the new Interfacing Partner onboarding document to allow connectivity between California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) and Salesforce Marketing Cloud
Development and Testing		43412	Non Phase-Specific Artifacts Some artifacts will be used throughout the project life cycle to facilitate decision making and communication. The following list of artifacts are recommended by CMS and the Vendor shall utilize: A) Section 508 Product Assessment: Assessment by COTS/GOTS/custom software manufacturers, developers, or Vendors to demonstrate how their product does or does not meet the various Section 508 requirements. B) Security: Continual assessment and refinement of security considerations within the Exchange and between interfacing agencies. C) Earned Value Management Data: Data related to measuring project progress by combining measurements of scope, schedule, and cost to provide early warning of performance problems. E) Periodic Briefings and Meeting Minutes: Pre-scheduled and as-needed meetings with CMS and other key stakeholders to discuss progress, joint-solution building, and issue resolution.
	General Requirement		
Development and Testing	General Requirement	43413	The Vendor shall support User Acceptance Testing for each Release for durations mutually agreed to in User Acceptance Test Plan. Overall UAT test timeframe across the DD&I releases will not be less than 60 days.
Development and Testing	General Requirement	43414	The Vendor shall provide the ability to "select" production data for input into test environment. Production data must be de-identified. The requirement for de-identified data may be waived or modified at the discretion of the Exchange.
Development and Testing	General Requirement	43432	The Vendor shall provide documentation of test results on all System changes. Implementation of the new functionality may only begin after approval by the Exchange of the test results and required deliverables.
Development and Testing	General Requirement	43433	The Vendor shall allow for setup of test cases for positive and negative testing and configurations that enable testing new capability that is not yet in production.
Development and Testing	General Requirement	43434	The Vendor shall conduct changes to the Baseline (core functionality) System application (functionality developed to meet the January 1, 2014 deadline) through an allocation of 15,000 hours during the Development and Implementation phase. The allocation of these hours is at the sole discretion of the Exchange.
Development and Testing	General Requirement	43435	The Vendor shall conduct changes to the Expanded System (core enhanced functionality) System application through an allocation of 15,000 hours during the Development and Implementation phase. The allocation of these hours is at the sole discretion of the Exchange.
Development and Testing	General Requirement	43438	Implementation planning must be integrated with Site Preparation and Installation of Equipment and Software, Training Delivery, Training Development, and Organizational Change Management

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Development and Testing	General Requirement	43448	The Vendor shall provide analysis of production versus test results (e.g., field level compares with reporting).
Development and Testing	General Requirement	43453	The Vendor shall conduct Unit, Assembly, System, End-to-End, Automated Regression, and Performance/Stress Testing on System and System modifications.
Development and Testing	General Requirement	43454	The Vendor shall ensure that end-to-end functional Testing is done across all organizational boundaries including all interfaces.
Development and Testing	General Requirement	43455	The Vendor shall successfully complete Assembly Test for a given set of integrated functionality prior to beginning System or Interface Testing.
Development and Testing	General Requirement	43456	The Vendor shall develop and deliver a California specific 834 companion guide that will be used as the interface design that will support sponsor's contract with the carriers.
Development and Testing	General Requirement	43457	The Vendor shall provide the ability to save and reuse all test cases without the need to re-enter the data.
Development and Testing	General Requirement	43458	The Vendor shall use the CMS ELC methodology, processes, and tools to identify and capture the necessary details, direction, and artifacts to define and implement California Healthcare Eligibility, Enrollment and Retention System (CalHEERS).
Development and Testing	General Requirement	43459	The Vendor shall clarify each required CMS ELC artifacts as part of the Requirements, Analysis and Design phase and include them all project management plans and schedules.
Development and Testing	General Requirement	43460	The Vendor shall be responsible for facilitating and managing Joint Application Requirement Sessions (JARS), Joint Applicatin Design Sessions (JADS), focus groups, etc supporting the Exchange
Development and Testing	General Requirement	43461	The Vendor shall provide the capability for regression testing that supports complete System life cycle testing.
Development and Testing	General Requirement	43462	The Vendor shall support the ability to test and implement two concurrent releases on a monthly basis.
Development and Testing	General Requirement	43463	The Vendor shall track test cases that have expected results documented to show that the proposed change does not introduce other changes that produce unwanted results.
Development and Testing	General Requirement	43464	The Vendor shall provide a library of test cases and use cases that may be selected and modified by the user for testing.
Development and Testing	General Requirement	43465	The Vendor shall provide search capability for the test case library that is cross-referenced to the logic/edit that the identified test case is designed to test.
Development and Testing	General Requirement	43466	The Vendor shall allow for testing of all System development projects before and after implementation.
Development and Testing	General Requirement	43467	The Vendor shall provide and maintain the capability for on-line end-to-end testing of all California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) business processes through the System, and return processing and error messages to the submitter.
Development and Testing	General Requirement	43469	Vendor shall propose and implement a strategy to interface with each of the existing SAWS.
Development and Testing	General Requirement	43471	The Vendor shall include a test version of all batch and on-line programs and files to be used for testing releases and non-release changes.
Development and Testing	General Requirement	43472	The Vendor shall provide the ability to execute impact analysis testing of any proposed change.
Development and Testing	General Requirement	43473	The Vendor shall allow users to create and edit application, enrollment, case and health plan records for testing.
Development and Testing	General Requirement	43549	The Vendor shall establish all necessary environments of sufficient size to support all phases of the system development life cycle including Development, testing (including user acceptance and production testing), Implementation, Maintenance, Operations, and continued Development and testing required after initial Operations have commenced.
Development and Testing	General Requirement	43560	The vendor shall perform end-to-end testing for each release as mutually agreed to in the Final System Test Plan. Overall end-to-end test timeframe across the DD&I releases will not be less than three months.
Development and Testing	General Requirement	43561	The Vendor shall provide and Requirements Management tool,processes and procedures for managing, tracking and tracing requirements throughtout D&I and O&M.
Development and Testing	General Requirement	45099	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall provide a Time-shift enabled test environment for integrated system testing between California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) and LRS.
Development and Testing	General Requirement	45100	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall provide a Mock Conversion environment to test LEADER to LRS conversion including the eHIT interface transactions with California Healthcare Eligibility, Enrollment and Retention System (CalHEERS).
Development and Testing	General Requirement	45260	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall include Regression Integration testing for this CR.
Development and Testing	General Requirement	45862	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall accommodate an additional 2 weeks of data prep for SAWS integration testing in the R22.9 release schedule, for a total of 4 weeks data prep.
Development and Testing	General Requirement	45863	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide all necessary functional test environment support for SAWS renewal batch testing.
Ease of Use			

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

OTSI CalHEERS RFP #73040873 Addendum 1
October 31, 2025

Category	Sub Category	Req ID	Requirement
Ease of Use	Eligibility Determination		
Ease of Use	Eligibility Determination	39204	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall only count household members that qualify for Covered California programs in the Health Plan Selection - Preview page.
Ease of Use	General Requirement		
Ease of Use	General Requirement	41326	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update language on the Create Account Page to direct consumers in linking an existing application (Medi-Cal/MCAP/CCHIP transition specific) to their account.
Ease of Use	General Requirement	41327	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall streamline the account creation process by automatically using the existing user data to create the user account.
Ease of Use	General Requirement	41328	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow consumers to access the streamlined account creation process through the "Access Your Information" tile on the "Choose Plan" page.
Ease of Use	General Requirement	41329	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall require an activation/Opt In from the consumer if auto-plan selection results in a \$0 net premium for transitioning consumers who are added to a new enrollment group.
Ease of Use	General Requirement	41330	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the consumer to Opt In until one of the following occurs: -The consumer decides to Opt Out for coverage -Until the last day of the first month of coverage - Until they complete the Opt-in process -The enrollment status is no longer "Pending" (meaning consumer canceled/terminated the enrollment from GI screens)
Ease of Use	General Requirement	41331	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the consumer to provide their Opt In confirmation on a new California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) page.
Ease of Use	General Requirement	41332	CalHEERS shall communicate the consumer's Opt In attestation to GI.
Ease of Use	General Requirement	41333	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create a process to Opt Out/Cancel enrollments in which the consumer is auto-plan selected to a new enrollment group.
Ease of Use	General Requirement	41334	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the consumer to opt out until one of the following occurs: -The consumer decides to Opt In for coverage (this is only available to \$0 Net Premium transitions) -Until the last day of the first month of coverage -The plan moves to "Confirm" status because the consumer has paid their premium and the carrier has sent the confirmation transaction back (this is only available to consumers with > \$0 Net Premium) -The enrollment status is no longer "Pending" (meaning consumer canceled/terminated the enrollment from GI screens) - They complete the Opt Out process.
Ease of Use	General Requirement	41335	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the consumer to provide their Opt Out attestation on a new California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) page.
Ease of Use	General Requirement	41336	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall capture reasons why the consumer has decided to Opt Out on a new California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) page.
Ease of Use	General Requirement	41337	CalHEERS shall communicate the consumer's Opt Out attestation to GI.
Ease of Use	General Requirement	41340	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display messaging on the Consumer Home Page for the Medi-Cal/MCAP/CCHIP transitioning population.
Ease of Use	General Requirement	41341	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall build a page to display the transition-specific information for all consumers with a transition flag who are auto-plan selected into a new plan or have eligibility to Unsubsidized CCP.
Ease of Use	General Requirement	41342	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the consumer's auto-plan selection plan details at an enrollment group level including their monthly premium, carrier, plan name and metal tier, enrollment status, Enrollment ID, household members' name/age enrolled in the enrollment group, and coverage start date.
Ease of Use	General Requirement	41343	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the consumer to take the following actions on the new dashboard: -Opt In/Opt Out (\$0 Net Premium) -Keep Plan/Opt Out (> \$0 Net Premium)
Ease of Use	General Requirement	41344	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall communicate all the carriers available to the consumers in their County of Responsibility (COR).
Ease of Use	General Requirement	41367	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide a redirection link to the "Enrollment Dashboard" to allow consumers to take actions on the GI dashboard.
Ease of Use	General Requirement	41368	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display a "Contact Us" section which will provide the consumer with information on who to contact for assistance.
Ease of Use	General Requirement	41369	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display a "Report a Change" call to action to allow the consumer to report a change to their application.
Ease of Use	General Requirement	41370	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the remaining days for the consumers to complete their Opt In/Opt Out decisions at an enrollment level.
Ease of Use	General Requirement	41371	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display a module for transition individuals with eligibility to unsubsidized CCP only including the following: -Plan Selection Status -QLE end date -Name and Age of transition consumers Eligible/Conditionally Eligible to Unsubsidized CCP only -Choose Plan button that redirects the consumer to the "Enrollment Dashboard". -Review Application button that will navigate the consumer to their "Submitted Application". -Tooltip banner with a link to the "Eligibility Results Summary" page.

Category	Sub Category	Req ID	Requirement
Ease of Use	General Requirement	41372	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow consumers to select the enrollment groups they want to respond for.
Ease of Use	General Requirement	41373	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not consume the response when all members of a > \$0 Net Premium New APS enrollment group chooses to keep plan (not Opt Out).
Ease of Use	General Requirement	41374	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the consumer to review their attestation responses on a confirmation screen.
Ease of Use	General Requirement	41375	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall direct the consumer to the "Enrollment Dashboard" once attestations have been successfully submitted.
Ease of Use	General Requirement	41376	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the MCT dashboard for APS-New consumers if they have the ability to take Opt In/Opt Out actions.
Ease of Use	General Requirement	41377	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the MCT dashboard for Unsubsidized CCP individuals until their QLE end date or until the transition flag is no longer valid or if all household members have completed health plan selection whichever occurs first.
Ease of Use	General Requirement	41380	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall communicate to IVR household members who can Opt In/Opt Out via the authenticateIVRUser response.
Ease of Use	General Requirement	41382	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall capture reasons why the consumer has decided to Opt Out via IVR.
Ease of Use	General Requirement	41383	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall consume the Opt In/Opt Out response from IVR in a new endpoint.
Ease of Use	General Requirement	41392	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display a banner on the "Household Eligibility Results Summary" page if there is an active APS flag and the consumer is Eligible/Conditionally Eligible to APTC when they land on the page.
Ease of Use	General Requirement	42256	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the MCT dashboard for Unsubsidized CCP individuals until their QLE end date or until the transition flag is no longer valid or if all transition Unsubsidized CCP household members have completed health plan selection whichever occurs first.
Ease of Use	General Requirement	45475	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall pre-populate screens if the consumer information already exists in California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) or other Exchange-approved sources.
Ease of Use	General Requirement	45476	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall identify mandatory fields that require completion before accepting.
Ease of Use	General Requirement	45477	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall determine eligibility, enrollment, and start of coverage in real time.
Ease of Use	General Requirement	45478	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall confirm successful transmission of submitted customer information (e.g., application, verification, or information update) and include confirmation number and contact information for the receiving location(s) via email when consumer email is available.
Ease of Use	General Requirement	45479	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall enable the customer to download forms and notices from the Web Portal.
Ease of Use	General Requirement	45480	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide print options to format for printing the application, correspondence, notices and any stored images.
Ease of Use	General Requirement	45481	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide multiple options for customer correspondence (e.g., e-mail, print, save file)
Ease of Use	General Requirement	45482	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall have the ability to notify the consumer prior to expiration that their incomplete work will be deleted.
Ease of Use	General Requirement	45493	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall allow navigation between multiple, related input screens without losing information input from the original screen and consumer to print each screen with a print layout that is formatting for printing.
Ease of Use	General Requirement	45494	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provides a mechanism for the webmaster to obtain feedback accessibility improvement, general comments and other recommendations.
Ease of Use	General Requirement	45500	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall support role-based workflow routing in which tasks are assigned to job functions.
Ease of Use	Interfaces		
Ease of Use	Interfaces	47647	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the Data Element 3035 "Expected Delivery Date" in the HX12 transaction to send the Pregnancy End Date when a consumer attests a Pregnancy End Date either from California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) or SAWS.
Ease of Use	Interfaces	47648	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall enhance the portal screens for consumer to report a change in pregnancy information to include the ability to report that a current pregnancy has ended and also include an ability to report a new pregnancy in the same application.
Ease of Use	Rate Review		
Ease of Use	Rate Review	41168	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall consume below data transferred from the CoveredCA.com page- • Coverage Year • Zip code • Household income • Size • Age of individuals • How many need coverage
Ease of Use	Rate Review	41169	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall pre-populate below Shop and Compare fields with the data sent from the CoveredCa.com page- • Coverage Year • What is your Zip Code? • What is your total household income per year? • How many people are in your household? • Age of Head of Household/Age of Person 2 etc. • Needs Coverage checkbox
Ease of Use	Web Portal Online Help		
Ease of Use	Web Portal Online Help	39205	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall allow Shop and Compare to be Web Responsive.
Ease of Use	Web Portal Online Help	39206	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall indicate which household members qualify for which programs in the Shop and Compare tool.

Category	Sub Category	Req ID	Requirement
Ease of Use	Web Portal Online Help	39207	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall allow users to navigate back with the prepopulated data from any pages within the Shop and Compare tool.
EDI 834			
EDI 834	1095		
EDI 834	1095	41730	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall validate all the Enrollment Files (Inbound & Outbound) to follow the proper naming conventions with the below standards. Naming Convention from/to Trading Partners: Outbound: 834 Daily: to _<HIOS_Issuer_ID>_CA_834_INDV_<CCYYMMDDHHMMSS>.<BenefitYearYYYY>.edi TA1 Daily: to _<HIOS_Issuer_ID>_CA_TA1_834_INDV_<CCYYMMDDHHMMSS>.edi 999 Daily: to _<HIOS_Issuer_ID>_CA_999_834_INDV_<CCYYMMDDHHMMSS>.edi Inbound: 834 Daily: from _<HIOS_Issuer_ID>_CA_834_INDV_<CCYYMMDDHHMMSS>.edi TA1 Daily: from _<HIOS_Issuer_ID>_CA_TA1_834_INDV_<CCYYMMDDHHMMSS>.edi 999 Daily: from _<HIOS_Issuer_ID>_CA_999_834_INDV_<CCYYMMDDHHMMSS>.edi
EDI 834	1095	41731	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall store and archive the Inbound/Outbound 834, TA1, and 999 Files
EDI 834	1095	41732	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall track and capture audit details for all the files that are generated
EDI 834	1095	41733	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create EDI Batch jobs with additional job parameters to allow multiple execution for enhanced processing of EDI batch triggers.
EDI 834	1095	41734	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall log the error when an Inbound Issuer 834 file fails as a duplicate, the Error Log should show the fields and Control Numbers that are in error and should provide the name of the original file that caused the failure.
EDI 834	1095	41735	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall log the error when an Inbound Issuer Acknowledgement (TA1 or 999) file fails as duplicate, the Error log should show the fields and Control Numbers that are in error and should provide the name of the original file that caused the failure.
EDI 834	1095	41736	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create a new California specific 834 Companion Guide to align with the PCAP changes. New 834 CG shall be used as the interface design that will support sponsor's contract with the Issuers.
EDI 834	1095	41737	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create new batch jobs to create Health and Dental CSV files for Issuer Reconciliation.
EDI 834	1095	41738	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create the CSV files which are compatible with current REM (Reconciliation of Enrollments and Members) process.
EDI 834	1095	41739	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the current REM and Dispute process to be aligned with PCAP changes
EDI 834	Consumer Management		
EDI 834	Consumer Management	41697	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send the APTC AMT field in the 2750 Loop to communicate APTC Amount to the Issuers.
EDI 834	Consumer Management	41698	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send the OTH PAY AMT 1 field in the 2750 Loop to communicate State Subsidy Amount.
EDI 834	Consumer Management	41699	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send the OTH PAY AMT 2 field in the 2750 Loop to communicate CA Premium Credit Amount.
EDI 834	Consumer Management	41700	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send the Premium Amounts under both Payment (9V) and Account category (9X) in the 2750 Loop. Member Level Premium Amount Gross Level Premium Amount Net Premium Amount
EDI 834	Consumer Management	41701	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send all the non-financials associated with the enrollment in the 2750 Loop.
EDI 834	Consumer Management	41702	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send the "REQUEST SUBMIT TIMESTAMP" in LOOP 2750.
EDI 834	Consumer Management	41703	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send the "RATING AREA" information under Account category in the 2750 Loop
EDI 834	Consumer Management	41704	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send the "SOURCE EXCHANGE ID" information under Account category in the 2750 Loop
EDI 834	Consumer Management	41705	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide the operational capability for the bi-directional exchange of TA1 Acknowledgements for every inbound and outbound 834 file.
EDI 834	EDI Validations		
EDI 834	EDI Validations	48014	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall reject inbound Cancel and Termination transactions for non-payment of premium for APS enrollments, both with net premium of \$0 and >\$0, if received on or before the last day of the first month of coverage.
EDI 834	EDI Validations	48015	The system shall reject inbound Cancel and Termination transactions for non-payment of premium for all enrollments where the net premium is \$0 as of the Coverage End Date.
EDI 834	EDI Validations	48016	The system shall include all APS \$0 net premium enrollments during the first month of coverage that do not have an opt-in attestation regardless of the enrollment status in the SB 260 Discontinuance Cancellation batch and generate Cancel transactions.
EDI 834	EDI Validations	48017	The system shall generate Cancel transactions after a one-time clean-up on the enrollments that have \$0 net premium and terminated status without an opt-in.
EDI 834	EDI Validations	48020	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall enforce validations on the member-level information received in inbound EDI 834 transactions.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
EDI 834	EDI Validations	48021	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall reject effectuations with member-level information where the number of enrollees does not match the number of active enrollees in California Healthcare Eligibility, Enrollment and Retention System (CalHEERS).
EDI 834	EDI Validations	48022	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall reject effectuations with member-level information where one or more reference identifiers does not match the data in California Healthcare Eligibility, Enrollment and Retention System (CalHEERS).
EDI 834	EDI Validations	48026	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate transactions in the order of the oldest Enrollment ID to the newest Enrollment ID when multiple EDI transactions associated with the same Case ID have the same REQUEST SUBMIT TIMESTAMP.
EDI 834	EDI Validations	48027	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall accept an inbound EDI 834 transaction where the state in the address field is not 'CA'.
EDI 834	EDI Validations	48228	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the 834 transactions with SOGI data, when available.
EDI 834	EDI Validations	48229	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall populate Loop 2750 with SOGI information at the member-level, when provided, in EDI 834 transactions for initial enrollment, maintenance, reinstatement, renewal, and compare transactions. (INS03 = 021, 001, 025, and 030)
EDI 834	EDI Validations	48230	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send SOGI information to the Carriers in EDI 834 transactions in Loop 2750 with the Additional Reporting Category of GENDER IDENTITY, REF value indicating code, when provided by the consumer.
EDI 834	EDI Validations	48231	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send SOGI information to the Carriers in EDI 834 transactions in Loop 2750 with the Additional Reporting Category of BIRTH GENDER, REF value indicating code, when provided by the consumer.
EDI 834	EDI Validations	48232	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send SOGI information to the Carriers in EDI 834 transactions in Loop 2750 with the Additional Reporting Category of SEXUAL ORIENTATION, REF value indicating code, when provided by the consumer.
EDI 834	EDI Validations	48233	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate maintenance transactions with Maintenance Reason Code "33" when a response to any of the SOGI questions is updated.
EDI 834	EDI Validations	48234	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall maintain the consolidation priority of 6 when a response to any of the SOGI questions is updated along with other updates to the enrollment record in a single Report A Change (RAC) submission.
EDI 834	EDI Validations	48235	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not validate Loop 2750 with the Additional Reporting Categories of Gender Identity, Birth Gender, or Sexual Orientation, for content in inbound EDI 834 transactions and will not update the consumer's record with values from the inbound transactions from Carriers.
EDI 834	EDI Validations	48349	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall relabel the Additional Reporting Category in Loop 2750 for State CSR as "CSR CREDIT NET AMT" in N102 and populate the Amount in REF02 and the Effective date in the 834 EDI. This amount will be populated by the difference between the CSR Credit Amount and the CSR Credit Withholding amount.
EDI 834	EDI Validations	48842	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate EDI 834 maintenance transactions for SB 260 enrollments without the Additional Reporting Category of SB 260 in Loop 2750 when the net premium changes from >\$0 in the first month of coverage to \$0 effective the second month of coverage or later.
EDI 834	EDI Validations	48843	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate EDI 834 maintenance transactions for SB 260 enrollments with the Additional Reporting Category of SB 260 in Loop 2750 and REF02 = N when the net premium changes from >\$0 in the first month of coverage to \$0 effective the coverage start date and the enrollment status is "Pending".
EDI 834	EDI Validations	48844	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate EDI 834 maintenance transactions for SB 260 enrollments without the Additional Reporting Category of SB 260 in Loop 2750 when the net premium changes from >\$0 in the first month of coverage to \$0 effective the coverage start date and the enrollment status is "Enrolled".
EDI 834	EDI Validations	48845	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate EDI 834 maintenance transactions for SB 260 enrollments with the Additional Reporting Category of SB 260 in Loop 2750 and REF02 = X when the net premium changes from \$0 to >\$0 effective the coverage start date and the enrollment status is "Pending".
EDI 834	EDI Validations	48846	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate multiple EDI 834 transactions to the Carrier if the SCR Admin user manually updates the APTC amount using the Admin override option for any given month.
EDI 834	EDI Validations	48847	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall include CSR Amount segments in Loop 2750 in all subsequent EDI 834 Outbound transactions (001*, 025*41, 030*XN) after CSR Variant Change for the entire duration of enrollment policy.
EDI 834	EDI Validations	48848	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall persist the OPT-IN attestation for the APS enrollments with a Net Premium >\$0.
EDI 834	EDI Validations	48849	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) must generate EDI 834 maintenance transactions for SB 260 enrollments with the Additional Reporting Category of SB 260 in Loop 2750 and REF02 = Y when the net premium changes from >\$0 to \$0 effective the coverage start date, the consumer has previously selected "Keep" on the MCT dashboard, and the enrollment status is "Pending".
EDI 834	EDI Validations	48850	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall process the effectuation based on the Net Premium amount for the first month of coverage for APS enrollments.
EDI 834	Enrollment		
EDI 834	Enrollment	46492	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send an EDI 834 initial enrollment transaction to the carriers if there is a change in Subscriber in the new enrollment year and the new Subscriber was previously enrolled as a dependent in the prior benefit year, in the same plan.
EDI 834	Enrollment	46493	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall include the Reporting Category of ADDL MAINT REASON only for change transactions at the member-level.
EDI 834	Enrollment	46580	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the ability for SCR L3 to send the latest and complete enrollment and Agent delegation data to Carrier for a selected enrollment.
EDI 834	Enrollment	46581	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall consolidate and send all enrollment snapshot transactions with a code of 030*XN in a separate file from the daily system generated 834 EDI Transactions
EDI 834	Enrollment	46582	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the Issuer Enrollment Reps to trigger the latest and complete enrollment and Agent delegation data to Carrier for a selected enrollment.
EDI 834	Enrollment	46583	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall limit the number of enrollment snapshot transactions generated on an enrollment policy to 1 per calendar day.
EDI 834	Enrollment	46584	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide user messaging for any requests that are made after the original trigger.
EDI 834	Enrollment	46585	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have to the ability to capture transactional history for who requested the 834 enrollment snapshot transaction.
EDI 834	Enrollment	46642	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send carriers a notification of all outbound files generated and sent to them.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
EDI 834	Enrollment	46643	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send carrier notification when an inbound file fails due to syntax or file validation errors.
EDI 834	Enrollment	46644	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall consolidate and send all inbound transaction level processing errors to Carriers.
EDI 834	Enrollment	46645	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall store all carrier notifications in an accessible location for audit purposes.
EDI 834	Enrollment	46646	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send a notification to the Carriers for all outbound 834s generated within the last 3 business days for which TA1 and/or 999 acknowledgement files have not been received and processed successfully.
EDI 834	Enrollment	46647	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update verbiage for second level failure messages sent to carriers as a part of the inbound summary report.
EDI 834	Enrollment	48030	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall populate the Subscriber's mailing address in the Responsible Party address fields of the EDI 834 transaction if the EDR does not contain address information for the Responsible Party.
EDI 834	General Requirement		
EDI 834	General Requirement	48437	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send Text Consent information to the Carriers in EDI 834 transactions in Loop 2750 with the Additional Reporting Category of CARRIER TEXT CONSENT, REF value indicating member consent, and the date when the consumer updated the consent.
EDI 834	General Requirement	48438	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall populate EDI 834 transactions in Loop 2750 with CARRIER TEXT CONSENT at the enrollment-level provided in initial enrollment, maintenance, reinstatement, renewal, and compare transactions. (INS03 = 021, 001, 025, and 030)
EDI 834	General Requirement	48439	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall maintain the Consumer's consent response when new applications or changes to the application are received via EDRs.
EDI 834	General Requirement	48440	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate maintenance transactions with Maintenance Reason Code "033" when the consent to receive text messages is updated.
EDI 834	General Requirement	48441	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall maintain the consolidation priority of 6, when consent to receive text messages is updated along with other updates to the enrollment record in a single Report A Change (RAC) submission.
EDI 834	General Requirement	48442	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not validate Loop 2750 with CARRIER TEXT CONSENT for content in inbound EDI 834 transactions and will not update the consumer's record with values in the inbound transactions from Carriers.
EDI 834	General Requirement	48443	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall retain the text consent response even when the cell phone number changes, regardless of changes made on the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) portal or received via EDR.
EDI 834	General Requirement	48447	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall populate the phone number for Carriers to send text messages in the Member Communication Segment for the Subscriber.
EDI 834	Interfaces		
EDI 834	Interfaces	41603	834, TA1 and 999 ACK files will use the below standard transaction delimiters. Asterisk (*) -> Data element separator Carat (^) -> Repetition Separator Colon (:) -> Component Element Separator Tilde (~) -> Segment Terminator
EDI 834	Interfaces	41604	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) 834 Inbound, Outbound files shall be validated for necessary SNIP Levels from the available Level 1 to Level 7.
EDI 834	Interfaces	41605	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send and receive each 834 Outbound and Inbound file containing one Interchange Envelope (ISA/IEA), one Functional Group (GS/GE) and one or more Transaction Sets (ST/SE) per Functional Group, each containing an enrollment group of a Subscriber and any applicable dependents.
EDI 834	Interfaces	41606	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate every EDI 834 file with an Interchange Control Header (ISA) and an Interchange Control Trailer (IEA).
EDI 834	Interfaces	41607	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate every EDI 834 file with Functional Group Header (GS) and Functional Group Trailer (GE).
EDI 834	Interfaces	41608	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate every EDI 834 Transaction Set with a Transaction Set Header (ST) and a Transaction Set Trailer (SE).
EDI 834	Interfaces	41609	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate every EDI 834 transaction with one or more transaction sets that will include Header, LOOP 1000, LOOP 2000, LOOP 2100A, LOOP 2100C, LOOP 2100G, LOOP 2300, LOOP 2700-2750.
EDI 834	Interfaces	41610	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate every EDI 834 transaction set with information which includes, Beginning Segment (BGN), File Effective Date (DTP) (when applicable in the TEST environment only), and Transaction Set Control Totals (QTY) segments.
EDI 834	Interfaces	41611	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate EDI 834 transactions with a Beginning Segment (BGN).
EDI 834	Interfaces	41612	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate EDI 834 transactions with a File Effective Date (DTP) when the effective date does not match the interchange date.
EDI 834	Interfaces	41613	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate EDI 834 transactions with a Transaction Set Control Totals (QTY).

Category	Sub Category	Req ID	Requirement
EDI 834	Interfaces	41614	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall transmit the below segments in 834 Outbound files to Issuers LOOP 1000A: Sponsor Details LOOP 1000B: Payer Details LOOP 1000C: Broker Details (Sub Loop: 1100C) LOOP 2000: Member Details LOOP 2100A: Member Name, SSN, Residence Address, Phone, Language LOOP 2100B: Prior Incorrect Info [if applicable] LOOP 2100C: Mailing Address LOOP 2100F: Custodial Parent LOOP 2100G: Responsible Person LOOP 2300: Health Coverage Details LOOP 2700: Reporting Categories (Sub Loop: 2750)
EDI 834			California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall make sure all the HIPAA segments and qualifiers must be submitted in UPPERCASE letters only (Segments/Elements & Codes).
EDI 834	Interfaces	41615	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate EDI 834 files with LOOP 1000/1100 with the following segments: Sponsor Name, Payer Name, TPA/Broker Name and Broker Account Information.
EDI 834	Interfaces	41616	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate EDI 834 transactions with Sponsor Information in LOOP ID - 1000A.
EDI 834	Interfaces	41617	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate EDI 834 transactions with Payer Information in LOOP ID - 1000B Payer.
EDI 834	Interfaces	41618	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate EDI 834 transactions with Agent Information in LOOP ID - 1000C/1100C for an active agent delegation.
EDI 834	Interfaces	41619	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate an EDI 834 maintenance transaction to the Issuer when there is an Addition, Removal, or Information update for the Agent associated with the enrollment.
EDI 834	Interfaces	41620	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate an EDI 834 maintenance transaction to the Issuer when an Agent is added to an enrollment.
EDI 834	Interfaces	41621	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate an EDI 834 maintenance transaction to the Issuer when an Agent is removed from an enrollment.
EDI 834	Interfaces	41622	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate an EDI 834 maintenance transaction to the Issuer when Agent information is changed for an active delegation
EDI 834	Interfaces	41623	Agent Name, Agent Tax ID, and/or Agent License Number
EDI 834			California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate EDI 834 files with Member Level Details (Insured Benefit segment), Subscriber Identifier, Exchange-Assigned Policy Identifier, Member Identifier and Member Level Dates in LOOP - 2000 Member Level Detail.
EDI 834	Interfaces	41624	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate 834 EDI transactions with the Insured Benefit segment (INS) to provide information on the subscriber or dependent information in the Member Level Details in LOOP 2000.
EDI 834	Interfaces	41625	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate 834 EDI transactions with Subscriber Identifier, Exchange-Assigned Policy Identifier, and Member Identifier in multiple Reference Information segments (2000, REF).
EDI 834	Interfaces	41626	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate 834 EDI transactions with Member Level Dates (2000, DTP).
EDI 834	Interfaces	41627	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall assign the Primary Tax Filer as the default Subscriber for a subsidized case with a single enrollment group. If the Primary Tax Filer is not in the enrollment group, the Subscriber is the oldest Adult member or the youngest child in a child-only enrollment.
EDI 834	Interfaces	41628	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall assign the Primary Household Contact as the default Subscriber for an unsubsidized case with a single enrollment group. If the Primary Household Contact is not part of the enrollment group, the Subscriber is the oldest Adult member within the enrollment group or the youngest child in a child-only enrollment.
EDI 834	Interfaces	41629	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate EDI 834 files with Member Level Details including Member Name, Incorrect Member Name, Member Mailing Address, Custodial Parent, Responsible Person information in LOOP ID – 2100, when applicable.
EDI 834	Interfaces	41630	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate EDI 834 files with Member Name, Member Communication Numbers, Member Residence Address, Member Demographics and Member Language Information in LOOP ID - 2100A Member Name
EDI 834	Interfaces	41631	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate 834 EDI transactions with the Member Name Details in LOOP 2100A (NM1)
EDI 834	Interfaces	41632	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate 834 EDI transactions with the Member Communication Numbers in LOOP 2100A (PER)
EDI 834	Interfaces	41633	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate 834 EDI transactions with the Member Residence Street Address and Member City, State, Zip Code, County Code in LOOP 2100A (N3, N4).
EDI 834	Interfaces	41634	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate 834 EDI transactions with the Member Residence Street Address and Member City, State, Zip Code, County Code in LOOP 2100A (N3, N4).
EDI 834	Issuer Profile Management		
EDI 834	Issuer Profile Management	41706	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall validate and process TA1 Acknowledgement files received from Issuers in response to the 834 Outbound file transmission.
EDI 834	Plan and Benefit Assistance		

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

OTSI CalHEERS RFP #73040873 Addendum 1
October 31, 2025

Category	Sub Category	Req ID	Requirement
EDI 834	Plan and Benefit Assistance	41635	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate 834 EDI transactions with the Member Demographics Information in LOOP 2100A (DMG).
EDI 834	Plan and Benefit Assistance	41636	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall populate the Race and Ethnicity codes in LOOP 2100A when available capturing a maximum of 10 unique codes.
EDI 834	Plan and Benefit Assistance	41637	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall populate the latest values of Race & Ethnicity during RAC in the 834 EDI enrollment files.
EDI 834	Plan and Benefit Assistance	41638	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate 834 EDI transactions with the Member Language Information in LOOP 2100A (LUI).
EDI 834	Plan and Benefit Assistance	41639	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate EDI 834 files with Incorrect Member Name and Incorrect Demographics Information in LOOP ID - 2100B Incorrect Member Name.
EDI 834	Plan and Benefit Assistance	41641	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate 834 EDI transactions with the Incorrect Member Demographics Information in LOOP 2100B (DMG).
EDI 834	Plan and Benefit Assistance	41643	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate EDI 834 files with Member Mailing Address, Member Mail Street Address, Member Mail City, State and Zip Code in LOOP ID - 2100C Member Mailing Address.
EDI 834	Plan and Benefit Assistance	41645	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate 834 EDI transactions with the Member Mailing Address and Member Mailing City, State, ZIP Code Information in LOOP 2100C (N3, N4).
EDI 834	Plan and Benefit Assistance	41646	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate EDI 834 files with Custodial Parent Information, Custodial Parent Communication Numbers, Custodial Parent Street Address and Custodial Parent City, State and Zip Code in LOOP ID - 2100F Custodial Parent.
EDI 834	Plan and Benefit Assistance	41647	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate 834 EDI transactions with the Custodial Parent Information in LOOP 2100F (NM1, PER, N3, N4), when available.
EDI 834	Policy Based Payments		
EDI 834	Policy Based Payments	41707	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate the Outbound TA1 Acknowledgement file based on the validation performed on the Inbound 834 files received from the Issuers.
EDI 834	Policy Based Payments	41708	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide the operational capability for the bi-directional exchange of 999 Acknowledgements for every inbound and outbound 834 file.
EDI 834	Policy Based Payments	41709	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall validate and process the Inbound 999 Acknowledgement files received from Issuer in response to the 834 Outbound file transmission.
EDI 834	Policy Based Payments	41710	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate the Outbound 999 Acknowledgement files based on the validation performed on the Inbound 834 files received from the Issuers.
EDI 834	Policy Based Payments	41711	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall exchange 834, TA1, 999 encrypted files with the Issuers via Secure File Transfer Protocol (SFTP).
EDI 834	Policy Based Payments	41712	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall establish and verify SFTP connectivity using a SFTP location for exchanging 834 files with Issuers.
EDI 834	Policy Based Payments	41713	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall track the rejections/errors for all the Inbound and Outbound files exchanged with the Issuers.
EDI 834	Policy Based Payments	41714	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall track any file rejections/errors captured as part of the Inbound TA1, 999 files received from Issuers for the corresponding 834 Outbound files.
EDI 834	Policy Based Payments	41715	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall track any file rejections/errors captured as part of Outbound TA1, 999 files for the 834 Inbound file received from Issuers.
EDI 834	Policy Based Payments	41716	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall process Inbound 834 Effectuation, Non-payment Cancellation and Non-payment Termination transactions from Issuers by validating them and updating the enrollment record status in the system.
EDI 834	Policy Based Payments	41717	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall perform transactional and data element level validation for 834 Inbound Effectuation transactions for pending enrollments upon receipt of their binder payments at Issuer end.
EDI 834	Policy Based Payments	41718	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall perform transactional and data element level validation of 834 Inbound Cancellation transactions when the initial/binder payment is not received by Issuers in a timely manner for a specific enrollment.
EDI 834	Policy Based Payments	41719	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall perform transactional and data element level validation of 834 Inbound Termination transactions when the payment is not received by Issuers in a timely manner for a specific enrollment.
EDI 834	Policy Based Payments	41720	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate 834 EDI transaction based on the updates made by Covered California Admin Users using Edit Enrollment Tool anytime after plan selection.
EDI 834	Policy Based Payments	41721	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate EDI 834 maintenance transactions to Issuers.
EDI 834	Policy Based Payments	41722	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate EDI 834 maintenance transactions to Issuers when a user reports a change and remains in the same Plan (same Policy ID/Enrollment ID).
EDI 834	Policy Based Payments	41723	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate EDI 834 termination and enrollment transactions to Issuers when a user reports a change and selects a new Plan (new Exchange-Assigned Policy ID/Enrollment ID).
EDI 834	Policy Based Payments	41724	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate EDI 834 Reinstatement transaction when a cancelled or terminated enrollment group gets reinstated to its prior enrollment status.
EDI 834	Policy Based Payments	41725	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send the 834 Renewals transactions to the Issuers, that clearly denotes the Active and Passive Renewals with the specific codes, so that Issuers can process the information accordingly.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
EDI 834	Policy Based Payments	41726	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send 834 Renewal transactions to the Issuers for consumers who actively or passively renew into the same plan under the current Issuer.
EDI 834	Policy Based Payments	41727	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send 834 Renewal transactions to the Issuers for consumers who actively or passively renew into a different plan under the current Issuer.
EDI 834	Policy Based Payments	41728	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send 834 new enrollment (add) transactions to the Issuers for consumers who actively renew their coverage into a new plan with a different Issuer.
EDI 834	Policy Based Payments	41729	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send an EDI 834 new enrollment (add) transaction if the consumer is automatically renewed into a different plan with a different Issuer. (Cross Issuer Auto-Renewal)
EDI 834	Provider/Plan Directory		
EDI 834	Provider/Plan Directory	41602	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create healthcare transaction types complying with the Electronic Data Interchange (EDI) standards of healthcare as established by Department of Health and Human Services (HHS). 1. 834 Membership Enrollments 2. TA1 Interchange Acknowledgements 3. 999 Functional Acknowledgements
EDI 834	Renewal		
EDI 834	Renewal	41601	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall follow Interchange Control Structure (ICS) and Functional Group Structure (GS) guidelines for HIPAA in order to process ASC X12N/005010XX220A1-834 Benefit Enrollment and Maintenance Transactions.
EDI 834	SEP/RAC		
EDI 834	SEP/RAC	41648	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send Custodial Parent/Primary Caretaker information in Loop 2100F for every minor Subscriber and minor dependent.
EDI 834	SEP/RAC	41649	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate EDI 834 transaction with Responsible Person details for each member in the enrollment group in LOOP 2100G.
EDI 834	SEP/RAC	41650	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate 834 EDI transactions with the Responsible Person Name and Identification Information in LOOP 2100G (2100G, NM1).
EDI 834	SEP/RAC	41682	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate 834 EDI transactions with the Responsible Person Communication Numbers in (2100G, PER), when available.
EDI 834	SEP/RAC	41683	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate 834 EDI transactions with the Responsible Person's Mailing Address in Street Address (2100G, N3) and City, State, Zip Code (2100G, N4).
EDI 834	SEP/RAC	41684	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate EDI 834 files with Health Coverage, Health Coverage Dates, Health Coverage Policy Number Information in LOOP ID - 2300 Health Coverage.
EDI 834	SEP/RAC	41685	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate 834 EDI transactions with the Health Coverage Information in LOOP 2300 (2300, HD).
EDI 834	SEP/RAC	41686	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate 834 EDI transactions with the Health Coverage Dates Information in LOOP 2300 (2300, DTP).
EDI 834	SEP/RAC	41687	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate 834 EDI transactions with the Health Coverage Policy Number Information in LOOP 2300 (2300, REF).
EDI 834	SEP/RAC	41688	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate EDI 834 files with Reporting Category Information in LOOP ID - 2700 Member Reporting Categories.
EDI 834	SEP/RAC	41689	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate EDI 834 files with Reporting Category (N1), Reporting Category Reference (REF) and Reporting Category Date (when applicable) (DTP), information in LOOP ID - 2750 Reporting Category.
EDI 834	SEP/RAC	41690	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate EDI 834 transactions with the Member Reporting Category in LOOP (2750, N1).
EDI 834	SEP/RAC	41691	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate EDI 834 transactions with the Reporting Category Reference in LOOP (2750, REF).
EDI 834	SEP/RAC	41692	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate EDI 834 transactions with the Member Reporting Category Date in LOOP (2750, DTP).
EDI 834	SEP/RAC	41693	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send the Member Reporting Categories in a pre-defined order in LOOP 2750 (2750, N1).
EDI 834	SEP/RAC	41694	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send 834 file with certain Reporting Categories in LOOP 2750.
EDI 834	SEP/RAC	41695	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send all the financials amounts and effective dates associated with the enrollment in the 2750 Loop of the Subscriber.
EDI 834	SEP/RAC	41696	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send the CSR AMT field in the 2750 Loop to communicate CSR Amount (if applicable)
EDI 834	Shop & Compare		
EDI 834	Shop & Compare	41640	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate 834 EDI maintenance transactions with the Incorrect Member Name Information when a change has been reported in LOOP 2100B (NM1).
EDI 834	Shop & Compare	41642	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate EDI 834 Maintenance transaction capturing the updated Member information in LOOP 2100B - Incorrect Member Name.
EDI 834	Shop & Compare	41644	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate 834 EDI transactions with the Member Mailing Address in LOOP 2100C (NM1).
Education and Outreach			

Category	Sub Category	Req ID	Requirement
Education and Outreach	Outreach		
Education and Outreach	Outreach	41238	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to create and deliver via email, letter, text or voice mail, multi-lingual mass notices to targeted groups for purposes of outreach, increased awareness, enrollment and participation.
Education and Outreach	Outreach	41239	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to generate random surveys, via online, email, letter or phone, and compile and analyze responses of Exchange consumers for the purpose assessing consumer service or other related matters.
Education and Outreach	Outreach	41253	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to generate reports from consumer survey responses.
Education and Outreach	Outreach	41262	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to track the source of possible outreach efforts (e.g., how did you hear about us? TV, billboard, magazine, etc.).
Education and Outreach	Outreach	41290	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to send a survey based on specified demographic criteria.
Education and Outreach	Outreach	44592	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to identify high-use/low-use of Exchange eligibility by demographics (e.g., age, sex, location, etc.) and program. (Under utilization- where to target outreach.)
Eligibility			
Eligibility	Application - SHOP		
Eligibility	Application - SHOP	44458	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality for employers to select an employer premium contribution level based on rules such as dollar amount and / or percentages.
Eligibility	Application - SHOP	44731	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall include in the rules engine verification of employee's non-covered family member enrollment in the Exchange.
Eligibility	Application - SHOP	44732	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to allow designated SHOP Assisters to complete employer applications on behalf of the employer.
Eligibility	Application - SHOP	44736	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to allow employers to select a level of plans (tier), or if allowed another method determined by the Exchange for QHPs and / or qualified stand-alone dental plans to be available.
Eligibility	Case Management		
Eligibility	Case Management	38508	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall display explanatory text on the screen when a consumer selects a document type on "Secondary List A."
Eligibility	Case Management	38509	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall prompt a consumer to upload a document from "Secondary List B" if the consumer uploads a document from "Secondary List A."
Eligibility	Case Management	38510	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall consolidate some document type names for verification of citizenship.
Eligibility	Case Management	38511	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall add additional document types for verification of citizenship.
Eligibility	Case Management	38926	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall maintain the lock to the existing County of Responsibility for cases where a disposition is received for the Medi-Cal program (includes Non-MAGI) and the program eligibility status is not discontinued or ineligible for all individuals on the case.
Eligibility	Case Management	38927	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System's COR enablement sweep shall maintain the lock of the existing County of Responsibility for California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Non-MAGI Medi-Cal Program referrals until a disposition is received for the Medi-Cal program (includes Non-MAGI) and a program eligibility status is provided.
Eligibility	Case Management	38928	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System COR Enablement sweep shall enable a County Of Responsibility reassignment based on the latest disposition received and that disposition has a Medi-Cal program (includes Non-MAGI) eligibility status update of discontinued or ineligible for all individuals on the case.
Eligibility	Case Management	38929	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS Interface COR Enablement sweep shall no longer consider a 90 day cure period as part of the evaluation criteria for the enablement of COR release.
Eligibility	Case Management	38930	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS Interface COR Enablement sweep shall not consider the referral identifier in the logic to enable County reassignment.
Eligibility	Data Collection Screens		
Eligibility	Data Collection Screens	47700	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall build screens to display the Manual APS specific information for all consumers that meet the following criteria: - Active Manual APS Indicator = "Y" - Review Application Updates flow will allow consumers who went through Manual APS process 1,2, or 3 to confirm their attestation to having MEC/ESI Coverage as well as review and confirm the data changes made by the Manual APS process - Modified version of the MCT dashboard will display the potential auto-enrollment ('APS-Lite') for cases that go through Manual APS Process 3 and can still confirm or deny their application changes and keep or reject enrolling into the suggested 'APS-Lite' plan
Eligibility	Data Collection Screens	47701	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the consumers that have gone through Manual APS Process 1 or 2 to take the following actions on the Review Account Updates Flow: - Attest Yes or No to having MEC/ESI Coverage - Accept Application Data Changes - Reject Application Data Changes - Exit the Confirm Application Data Flow prior to Accepting or Rejecting Application Data Changes

Category	Sub Category	Req ID	Requirement
Eligibility	Data Collection Screens	47702	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the consumers that have gone through Manual APS Process 3 to take the following actions on the Confirm Application Data Flow/Modified MCT Dashboard: - Accept Application Data Changes and Keep potential 'APS-Lite' enrollment - Accept Application Data Changes and Cancel potential 'APS-Lite' enrollment - Reject Application Data Changes - Exit the Confirm Application Data Flow prior to Accepting or Rejecting Application Data Changes
Eligibility	Data Collection Screens	47703	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display messaging to inform Manual APS Process 3 consumers that they are able to take action on the Modified MCT Dashboard for Manual APS.
Eligibility	Data Collection Screens	47704	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display a new messaging on the Account Home screen to encourage consumers staged for Manual APS Process 1, 2, or 3 to submit an application for the future benefit year when the following criteria is met: - Case has been assigned "MAPS1", "MAPS2", or "MAPS3" treatment indicator - Case has an Active Manual APS Indicator with value of "Y" at the time Account Home screen is accessed - The System Date is on or after 12/1 of the benefit year in which the consumer has been staged for Manual APS when the User logs into the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Portal
Eligibility	Disenrollment		
Eligibility	Disenrollment	38656	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System must provide the resources to facilitate the discussion and solution to Bucket #1 (Canceled DERs from SAWS) and the cases previously exceptioned from the process
Eligibility	Disenrollment	47302	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall deactivate the Health Access Program (HAP) ID if a client is found to be discontinued from the Family PACT program.
Eligibility	Eligibility Determination		
Eligibility	Eligibility Determination	37903	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) will grant full scope eligibility to all SB 75 children under 19 effective May 1, 2016.
Eligibility	Eligibility Determination	37937	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall grant full scope Medi-Cal eligibility for all Modified Adjusted Gross Income (MAGI) eligible young adults who are 19 through 25 years of age, inclusive, regardless of their citizenship or immigration status if they meet all other eligibility criteria.
Eligibility	Eligibility Determination	37938	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall apply the corresponding full scope aid codes to the effected young adults.
Eligibility	Eligibility Determination	37943	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall update the FPL tables used for eligibility calculations on a yearly basis.
Eligibility	Eligibility Determination	37944	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System Shall use the MAGI FPL table effective the first day of the current benefit year. The Subsidy table will be effective during open enrollment for the following benefit year.
Eligibility	Eligibility Determination	37945	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update Anonymous screening tool (Preview Plans and Quick Sort) managed by California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) with the new MAGI and Subsidy FPL tables on a yearly basis.
Eligibility	Eligibility Determination	37946	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the Quick Sort tool with the new MAGI and Subsidy FPL tables on a yearly basis.
Eligibility	Eligibility Determination	37998	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall have the functionality to determine ineligibility for the New Adult Group for consumers who are entitled to Medicare at intake.
Eligibility	Eligibility Determination	37999	"The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall have the functionality to continue eligibility for the New Adult Group using ""Soft Pause"" for consumers who are entitled to Medicare and no other MAGI groups at renewal. Consumers who are entitled to Medicare and no other MAGI groups at renewal, must be referred to the county to evaluate the consumer for all other Medi-Cal programs."
Eligibility	Eligibility Determination	38000	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall have the functionality to determine continue eligibility for the New Adult Group using "Soft Pause" for consumers who are entitled to Medicare and no other MAGI groups at RAC. Consumers who are entitled to Medicare at RAC, must be referred to the county to evaluate the consumer for all other Medi-Cal programs.
Eligibility	Eligibility Determination	38001	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall have the functionality to allow the consumer to upload/submit document from social security or Medicare as proof when Medicare verification result is inconsistent.
Eligibility	Eligibility Determination	38002	"The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall have the functionality to assign pending eligibility status to a consumer at intake when the federal hub is down or the consumer attests to not being entitled to Medicare and the federal hub indicates the consumer is entitled to Medicare A referral must be sent to the County to verify Medicare and/or evaluate for all other Medi-Cal programs."
Eligibility	Eligibility Determination	38003	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall have the functionality to communicate the Medicare verification results from the federal hub via California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) to the SAWS, and the admin verification from SAWS back to California Healthcare Eligibility, Enrollment and Retention System (CalHEERS), if applicable, as defined during JADs.
Eligibility	Eligibility Determination	38004	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall record the results of the Medicare check on the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) manual verification results page
Eligibility	Eligibility Determination	38006	"The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall have the functionality to modify the existing hover text to the existing SSApp question on MEC (including Medicare) coverage. "
Eligibility	Eligibility Determination	38007	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall communicate to SAWS the eligibility evaluation reason when the individual is ineligible or pending due to the Medicare verification.
Eligibility	Eligibility Determination	38008	"The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall update verbiage for the verification result language on the eligibility results page for ""when the hub is down, and when verification is inconsistent"" at intake."
Eligibility	Eligibility Determination	38009	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide messaging on the eligibility result page when the individual is ineligible due to the Medicare verification.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

OTSI CalHEERS RFP #73040873 Addendum 1
October 31, 2025

Category	Sub Category	Req ID	Requirement
Eligibility	Eligibility Determination	38016	"The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update a. Portal messaging b. Messaging on the Eligibility Results Page"
Eligibility	Eligibility Determination	38017	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall include new snippet for the consumers who are assigned the L9 and a CCP/APTC aid code on the NOD01
Eligibility	Eligibility Determination	38266	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall remove the "Re-set VLP flag" business rule from the Submit button on the Application Signature page.
Eligibility	Eligibility Determination	38267	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall revise the conditionally eligible snippet/business rules on the Eligibility Results page to reflect ROP expiration dates.
Eligibility	Eligibility Determination	38415	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall assign the County of Responsibility on initial case linkage from the SAWS Access Channel based on the SAWS County that established the communication.
Eligibility	Eligibility Determination	38417	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall conduct a scheduled process to identify triggering events that satisfy specific case conditions to determine if the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System can set the enablement flag to reassign the County of Responsibility (COR) of the case in the future event that the assigned Primary Contact's residence address changes to a different County.
Eligibility	Eligibility Determination	38420	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall use the established California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) County of Responsibility for the corresponding MEDS transactions HX12, HX18, HX20, HX20U, HX34, HX40 County of Responsibility for all individuals on the case based on the residence address of the primary applicant.
Eligibility	Eligibility Determination	38421	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall communicate and update the county of responsibility for the primary contact (all co-applicants will have their COR align with the primary contact) to MEDS for APTC, CSR, CCP, MCAP, and CCHIP members via HX05 transaction.
Eligibility	Eligibility Determination	38422	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS interface shall validate an individuals residential zip and county code for processing in California Healthcare Eligibility, Enrollment and Retention System (CalHEERS).
Eligibility	Eligibility Determination	38423	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS interface shall change the county of responsibility upon request of an ICT by the SAWS for a prospective benefit month.
Eligibility	Eligibility Determination	38424	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS interface shall process case eligibility that has been transferred via ICT for a prospective benefit month
Eligibility	Eligibility Determination	38425	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide a business validation to only accept ICT EDRs for prospective benefit months.
Eligibility	Eligibility Determination	38426	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS interface will route traffic according to the original source system that sent it.
Eligibility	Eligibility Determination	38427	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall update consumer messaging when a change in residence address is made on the Portal
Eligibility	Eligibility Determination	38436	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall not maintain SAWS Case and corresponding person linkage after the release of County of Responsibility.
Eligibility	Eligibility Determination	38450	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall have the functionality to modify the existing hover text to the existing SSApp question on MEC (including Medicare) coverage.
Eligibility	Eligibility Determination	38544	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall collect additional American Indian and Alaska Native information where other demographic information is collected.
Eligibility	Eligibility Determination	38545	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall collect if a consumer has a service from the Indian Health Service, a tribal health program, or an urban Indian health program or through a referral from one of these programs
Eligibility	Eligibility Determination	38546	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall collect if a consumer is eligible to get services from the Indian Health Service, a tribal health program, or an urban Indian health program or through a referral from one of these programs.
Eligibility	Eligibility Determination	38547	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS)-SAWS interface shall send and receive the American Indian and Alaska Native information
Eligibility	Eligibility Determination	38548	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add "Tribe not listed" to the Federal Recognized dropdown for AI/AN.
Eligibility	Eligibility Determination	38549	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall collect transgender information in the application where the applicant's sex is asked and male or female are the other possible answers .
Eligibility	Eligibility Determination	38550	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS)-SAWS interface shall send and receive the transgender information collected by California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) and SAWS.
Eligibility	Eligibility Determination	38551	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall transmit a gender to MEDS for individuals who state that they are Transgender.
Eligibility	Eligibility Determination	38552	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall display pregnancy questions to individuals regardless of gender.
Eligibility	Eligibility Determination	38553	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall determine eligibility using attested pregnancy information for individuals regardless of gender.
Eligibility	Eligibility Determination	38554	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall collect optional information on gender identity and sexual orientation after application submission.
Eligibility	Eligibility Determination	38555	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS)-SAWS interface shall send and receive gender identity and sexual orientation information collected by California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) and SAWS.
Eligibility	Eligibility Determination	38556	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall send collected information on gender identity and sexual orientation to MEDS.
Eligibility	Eligibility Determination	38557	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall collect military service information where Demographic Information is collected.
Eligibility	Eligibility Determination	38558	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS)-SAWS interface shall send and receive the military service information collected.
Eligibility	Eligibility Determination	38559	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall update the race and ethnicity options collected.
Eligibility	Eligibility Determination	38560	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS)-SAWS interface shall send and receive the information collected.
Eligibility	Eligibility Determination	38561	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall send multiple race and ethnicity codes to MEDS.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

OTSI CalHEERS RFP #73040873 Addendum 1
October 31, 2025

Category	Sub Category	Req ID	Requirement
Eligibility	Eligibility Determination	38562	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall collect Third Party Liability information.
Eligibility	Eligibility Determination	38563	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS)-SAWS interface shall send and receive the third party liability information collected by California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) and SAWS.
Eligibility	Eligibility Determination	38565	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall inform the consumer on when a Social Security Number is required.
Eligibility	Eligibility Determination	38566	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall collect the Social Security Number information when required by policy.
Eligibility	Eligibility Determination	38567	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall update the relationships drop down options.
Eligibility	Eligibility Determination	38568	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall inform the consumer how to switch to Spanish on the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Portal.
Eligibility	Eligibility Determination	38569	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall update the option of written languages collected.
Eligibility	Eligibility Determination	38570	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall update Summary pages with all questions displayed to the consumer/user.
Eligibility	Eligibility Determination	38571	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall add estate recovery information to all signature pages.
Eligibility	Eligibility Determination	38572	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall not collect deprivation information.
Eligibility	Eligibility Determination	38573	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS)-SAWS interface shall no longer send and receive the deprivation information.
Eligibility	Eligibility Determination	38574	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall update the PDF application with all questions displayed to the consumer/user.
Eligibility	Eligibility Determination	38575	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall collect information about attested date of birth, household size, pregnancy status, parent/caretaker status, qualified non-citizen that is subject to 5 year bar status, military background and income prior to the collection of employer sponsored insurance information.
Eligibility	Eligibility Determination	38576	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall utilize attested date of birth, household size, pregnancy status, parent/caretaker status and income to calculate an applicant's potential eligibility to MAGI Medi-Cal based on FPL limit prior to asking questions about employer sponsored insurance. This does not apply to MCAP or CCHIP.
Eligibility	Eligibility Determination	38577	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall utilize the determination of an applicant's potential eligibility to MAGI Medi-Cal to suppress questions related to affordability and minimum value standard of employer sponsored health insurance. This does not apply to MCAP or CCHIP.
Eligibility	Eligibility Determination	38578	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall ensure individuals who appear to be eligible for the NQI Program based on date of birth, household size, qualified non-citizen that is subject to 5 year bar status, pregnancy status, and military background are asked questions related to affordability and minimum value standard of employer sponsored health insurance, regardless of attested income that is within the MAGI Medi-Cal limit.
Eligibility	Eligibility Determination	38579	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS)-SAWS interface shall send and receive the affordability and minimum value standard of employer sponsored insurance information when available.
Eligibility	Eligibility Determination	38580	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall add non-discrimination information to all signature pages.
Eligibility	Eligibility Determination	38581	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall add Medi-Cal 10-day reporting requirement information to all Application signature pages.
Eligibility	Eligibility Determination	38586	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall streamline application messaging, hover text, and collection screens to improve the application flow for the end user.
Eligibility	Eligibility Determination	38776	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall update the budget worksheet based on the income provide by the hub.
Eligibility	Eligibility Determination	38777	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall continue to use the electronic source of income for APTC/CSR/CCP eligibility determination when a report a change (RAC), that involves no change in household income and the income continues to be not compatible occurs post an ROP batch execution that used the electronic source income in establishing the person's APTC/CSR/CCP eligibility.
Eligibility	Eligibility Determination	38778	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall use the attested income for APTC/CSR/CCP eligibility determination when a report a change (RAC) that involves a change in household income occurs post an ROP batch execution that used the electronic source income in establishing the person's prior APTC/CSR/CCP eligibility.
Eligibility	Eligibility Determination	38781	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall update the conditionally eligible snippets/business rules on the Eligibility Results page to reflect ROP expiration dates.
Eligibility	Eligibility Determination	38840	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall evaluate both benefit years instantaneous when Carry Forward is active across two benefit years and a redetermination results in Carry Forward ending in the current benefit year.
Eligibility	Eligibility Determination	38850	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall suppress DER-U associated with the next benefit year if there is no change in Eligibility between the current benefit year and the next benefit year
Eligibility	Eligibility Determination	38905	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall update the conditionally eligible snippets in the NOD01.
Eligibility	Eligibility Determination	39328	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall assign aid code L6 for each person with a disabled person indicator who would otherwise be determined eligible in aid code M1 with income less than or equal to 128% FPL.
Eligibility	Eligibility Determination	39329	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send HX20 webservice transaction at intake to MEDS for L6 aid code.
Eligibility	Eligibility Determination	39330	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall assign aid code L7 for each person with a disabled person indicator who would otherwise be determined eligible in aid code M2 with income less than or equal to 128% FPL.
Eligibility	Eligibility Determination	39331	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send HX20 webservice transaction at intake to MEDS for L7 aid code.
Eligibility	Eligibility Determination	39332	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall store and use the "person disabled indicator" from SAWS if provided to determine L6 or L7 aid code eligibility.
Eligibility	Eligibility Determination	39333	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add Aid Codes L6 and L7 to the MEDS MEC check table.
Eligibility	Eligibility Determination	39334	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall grant aid codes L6/L7 based on release date.
Eligibility	Eligibility Determination	39335	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall allow specifying components of the composite request to the Fed Hub SSA Service.

Category	Sub Category	Req ID	Requirement
Eligibility	Eligibility Determination	39433	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall accept the following Non-Compliance reason(s) received from SAWS: a. Failure to apply for or accept unconditionally available income including but not limited to: - UIB, SDI, Veteran's Benefits b. Failure to provide the Veteran's information to complete the MC 05 c. Failure to provide other health insurance information d. Failure to comply with Third party Liability e. Failure to apply for Medicare f. Failure to provide 2.1Q (Child Support) g. Failure to provide or apply for SSN h. Failure to provide identity/name
Eligibility	Eligibility Determination	39434	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to deny pending MAGI-Based Medi-Cal applicants with pending eligibility status for which Non-Compliance reason(s) codes are received via SAWS EDR transactions.
Eligibility	Eligibility Determination	39435	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall bypass the 10-day notice period requirement for Non-Compliance reason(s) codes denials of MAGI-Based Medi-Cal applicants with pending eligibility status.
Eligibility	Eligibility Determination	39436	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to discontinue conditionally eligible or eligible MAGI-Based Medi-Cal beneficiaries for prospective months for which Non-Compliance reason(s) codes are received via SAWS EDR transactions.
Eligibility	Eligibility Determination	39437	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall observe a 10-day notice period (10 calendar days from the last day of the current month) prior to discontinuing benefits for a current conditionally eligible or eligible MAGI-Based Medi-Cal beneficiary when the Non-Compliance reason(s) codes are received via SAWS EDR transactions.
Eligibility	Eligibility Determination	39438	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send SAWS an Eligibility Evaluation Reason code for each of the following Non-Compliance reason(s) received from SAWS when applied. a. Failure to apply for or accept unconditionally available income including but not limited to: - UIB, SDI, Veteran's Benefits b. Failure to provide the Veteran's information to complete the MC 05 c. Failure to provide other health insurance information d. Failure to comply with Third party Liability e. Failure to apply for Medicare f. Failure to provide 2.1Q (Child Support) g. Failure to provide or apply for SSN h. Failure to provide identity/name
Eligibility	Eligibility Determination	39439	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall add messaging on the Eligibility Results page for each of the following Non-Compliance reason(s) when applied. a. Failure to apply for or accept unconditionally available income including but not limited to: - UIB, SDI, Veteran's Benefits b. Failure to provide the Veteran's information to complete the MC 05 c. Failure to provide other health insurance information d. Failure to comply with Third party Liability e. Failure to apply for Medicare f. Failure to provide 2.1Q (Child Support) g. Failure to provide or apply for SSN h. Failure to provide identity/name
Eligibility	Eligibility Determination	39440	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall evaluate individuals for all CCP/APTC/CSR subsidized or unsubsidized programs when they get denied/discontinued from MAGI Medi-Cal due to following Non-Compliance reason(s) and if their income is above the MAGI Medi-Cal FPL. • Failure to apply for or accept unconditionally available income including but not limited to: - UIB, SDI, Veteran's Benefits • Failure to provide the Veteran's information to complete the MC 05 • Failure to provide other health insurance information • Failure to comply with Third party Liability • Failure to provide 2.1Q (Child Support) • Failure to apply for Medicare • Failure to provide or apply for SSN
Eligibility	Eligibility Determination	39441	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not evaluate individuals for all CCP/APTC/CSR subsidized or unsubsidized programs when they get denied/discontinued from MAGI Medi-Cal due to following Non-Compliance reason(s) regardless of the FPL. • Failure to provide identity/name

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Eligibility	Eligibility Determination	39442	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall evaluate individuals for MCAP and/or CCHIP when they get denied/discontinued from MAGI Medi-Cal due to the four Non-Compliance reason(s) listed below, if their income is within MCAP/CCHIP range. • Failure to apply for or accept unconditionally available income including but not limited to: UIB, SDI, Veteran's Benefits • Failure to provide the Veteran's information to complete the MC 05 • Failure to comply with Third party Liability • Failure to provide 2.1Q (Child Support)
Eligibility	Eligibility Determination	39443	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not evaluate individuals for MCAP and/or CCHIP when they get denied/discontinued from MAGI Medi-Cal due to the four Non-Compliance reason(s) listed below, if their income is within MCAP/CCHIP range. • Failure to provide other health insurance information • Failure to apply for Medicare • Failure to provide or apply for SSN • Failure to provide identity/name
Eligibility	Eligibility Determination	39444	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall close the case if all individuals on the case are no longer eligible for MAGI Medi-Cal, CCP/APTC/CSR, MCAP and/or CCHIP after receiving disposition for Non-Compliance.
Eligibility	Eligibility Determination	39445	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall maintain and continue to apply non-compliance reason received via SAWS EDR for MAGI-Based Medi-Cal individuals until the Non-Compliance reason(s) is removed from the individual via eHIT.
Eligibility	Eligibility Determination	39446	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall remove the Non-Compliance reason(s) previously received via SAWS EDR for MAGI-Based Medi-Cal individuals when the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) case is closed and the household reapplies through the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) portal.
Eligibility	Eligibility Determination	39447	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall remove the Non-Compliance reason(s) previously received via SAWS EDR for MAGI-Based Medi-Cal individuals when the eligibility is re-determined and the person is found eligible for CCP/APTC/CSR, MCAP and CCHIP.
Eligibility	Eligibility Determination	39448	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not trigger verification services when only a Non-Compliance reason(s) is received for individuals within the MAGI Medi-Cal FPL Limits.
Eligibility	Eligibility Determination	39449	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall lift the Soft Pause on the individual when a Non-Compliance reason(s) is sent for individual in Soft Pause allowing ineligibility determination for MAGI Medi-Cal.
Eligibility	Eligibility Determination	39450	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall lift the Carry Forward on the individual when a Non-Compliance reason(s) is sent for individual in Carry Forward allowing ineligibility determination for MAGI Medi-Cal.
Eligibility	Eligibility Determination	39454	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide authorized users the ability to remediate eligibility during the hours of 6:00 AM and 8:00 PM, for initial application, manual renewals or RAC on the same day the eligibility result was received.
Eligibility	Eligibility Determination	39455	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall remediate eligibility for individuals for whom an initial application was received during the hours of 6:00 AM and 8:00 PM within the same day regardless of run reason.
Eligibility	Eligibility Determination	39456	All eligibility determinations from Batch processing are excluded from same day remediation.
Eligibility	Eligibility Determination	39457	When an authorized user re-runs eligibility during the hours of 6:00 AM and 8:00 PM to remediate any eligibility result received that day, California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not invoke consumer protection programs with the remediated result for the same period of eligibility being evaluated.
Eligibility	Eligibility Determination	39458	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate all MEDS transactions after 8:00 PM for any changes to each program eligibility.
Eligibility	Eligibility Determination	39469	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall evaluate individuals for CCP/APTC/CSR subsidized or unsubsidized programs regardless of the Non-Compliance reason(s) if Carry Forward is lifted and their income is above the MAGI Medi-Cal FPL.
Eligibility	Eligibility Determination	39473	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall update the technical components for the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS Interface (known as EHIT) for communication with the SAWS for functional changes made to the system on a per release basis.
Eligibility	Eligibility Determination	39557	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement configurable functionality to grant full scope eligibility to the effected young adults (without impacting other release functionality) based on the program implementation date.
Eligibility	Eligibility Determination	39612	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall utilize information received from IRS, FTB, EDD, and SSA to verify attested income for the purpose of determining eligibility to the California Premium Subsidy Program.
Eligibility	Eligibility Determination	39616	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow consumers to enroll in a health plan through Covered California under the open-enrollment period till January 31st of the benefit year.
Eligibility	Eligibility Determination	39617	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall give the coverage begin date of February 1 for consumers enrolling without a more advantageous QLE from January 16th to January 31st of the benefit year.
Eligibility	Eligibility Determination	39677	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall inform individuals that they have been determined ineligible/discontinued due to residing out-of-State or out of country. Eligibility Results screen shall be updated to display ineligible/discontinued message for out-of-state/out-of-country.
Eligibility	Eligibility Determination	39678	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update existing language for Notice Snippet 223 for the denial/discontinuance of individuals residing Out-of-State/Out of Country for APTC/CSR/SS program.
Eligibility	Eligibility Determination	39679	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add a new Notice Snippet for the denial/discontinuance of individuals residing Out-of-State/Out-of-Country for MAGI Medi-Cal program
Eligibility	Eligibility Determination	39680	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add a new Notice Snippet for the denial/discontinuance of individuals residing Out-of-State/Out-of-Country for MCAP program
Eligibility	Eligibility Determination	39681	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add a new Notice Snippet for the denial/discontinuance of individuals residing Out-of-State/Out-of-Country for CCHIP program

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

OTSI CalHEERS RFP #73040873 Addendum 1
October 31, 2025

Category	Sub Category	Req ID	Requirement
Eligibility	Eligibility Determination	39686	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display a warning message on the screen for an individual who selects Married Filing Jointly status with more than one individual(s) on the case.
Eligibility	Eligibility Determination	39687	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display a warning message on the Relationships screen for an individual who selects "Spouse" relationship with more than one individual(s) on the case.
Eligibility	Eligibility Determination	39749	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not count the COVID-19 Unemployment Insurance Benefit Stimulus Payments for MAGI Medi-Cal eligibility determinations.
Eligibility	Eligibility Determination	39750	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall count the COVID-19 Unemployment Insurance Benefit Stimulus Payments for Covered California program eligibility determinations.
Eligibility	Eligibility Determination	39751	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to configure either to count or not count the COVID-19 Unemployment Insurance Benefit Stimulus Payments for Covered California programs eligibility determinations.
Eligibility	Eligibility Determination	39825	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall trigger an account transfer for demographic updates which do not result in a BRE run.
Eligibility	Eligibility Determination	39828	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall determine a consumer ineligible/discontinued for Covered CA programs when the federal hub indicates the consumer has Medicare.
Eligibility	Eligibility Determination	39829	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall determine a consumer ineligible/discontinued at a RAC for Covered CA programs when the federal hub indicates the consumer has Medicare and the consumer is not enrolled in a plan.
Eligibility	Eligibility Determination	39830	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide messaging on the eligibility result page when the individual is ineligible/discontinued due to the Medicare verification.
Eligibility	Eligibility Determination	39831	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send via eHIT an Eligibility Evaluation Reason Code (EERC) when an individual is ineligible/discontinued to Covered CA programs due to the Medicare verification.
Eligibility	Eligibility Determination	39833	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the fair share adjustment percentage amount for APTC for the benefit year 2021
Eligibility	Eligibility Determination	39834	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall run a daily batch to withdraw a 'Report a Change' if it has not been submitted for 30 days.
Eligibility	Eligibility Determination	39835	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have messaging indicating an expiration date after which an unsubmitted RAC application will be withdrawn, while requesting for a RAC.
Eligibility	Eligibility Determination	39836	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall reset the In-progress RAC 30 day clock when an update to the RAC is saved.
Eligibility	Eligibility Determination	39837	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display specific Eligibility Results Page verbiage when individuals are determined Conditionally Eligible/Ineligible/Discontinued for Covered CA programs due to self-attestation to receiving ESI, Non-ESI and Medicare, and the following hub responses, MEDS responses or/and Hubs/MEDS error response(s)/down , - Existing Non-ESI Coverage (Including Medicare) - Existing ESI Coverage - Existing Medi-Cal - MEDS Interface Error Response/Hub Down (MEDS MEC) - Hub Error Responses/Hub Down (ESI/Non-ESI)
Eligibility	Eligibility Determination	39838	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display specific Eligibility Results page verbiage when individuals are determined Ineligible/Discontinued to APTC/CAPS due to the hub returning active Medicare coverage during RAC or Renewals while the individual has a plan selection.
Eligibility	Eligibility Determination	39843	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall trigger an account transfer for demographic updates which do not result in a BRE run.
Eligibility	Eligibility Determination	39844	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall change the renewal due date to the day prior to the last batch sweep date for cases with an FTR code of 009 and the case has not actively renewed.
Eligibility	Eligibility Determination	39845	When running last batch sweep for cases with an FTR code of 009, California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall: -Clear the cache for FTR Response -check the Hub for a new response -run eligibility using the new response
Eligibility	Eligibility Determination	39846	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create a new batch process to re-run eligibility after checking the Hub for a new FTR response for cases, which had a FTR response code of 009 and the case got actively renewed.
Eligibility	Eligibility Determination	39847	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall run a batch along with RRV to call SSA Composite service (H03) for Incarceration.
Eligibility	Eligibility Determination	39876	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the fair share adjustment percentage amount for California Premium Subsidy for the benefit year 2021
Eligibility	Eligibility Determination	40122	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall grant full scope Medi-Cal eligibility for all Modified Adjusted Gross Income (MAGI) eligible individuals who are 50 years of age or older, regardless of their citizenship or immigration status.
Eligibility	Eligibility Determination	40123	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall apply the corresponding full scope aid codes for otherwise eligible individuals who are 50 years of age or older, regardless of their citizenship or immigration status and meet all other eligibility criteria.
Eligibility	Eligibility Determination	40124	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement configurable functionality to grant full scope Medi-Cal eligibility to otherwise eligible individuals who are 50 years of age or older, regardless of their citizenship or immigration status (without impacting other release functionality) based on the policy effective date, 5/1/2022.
Eligibility	Eligibility Determination	40125	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement a configurable functionality to update the age group which shall grant full scope Medi-Cal eligibility for all Modified Adjusted Gross Income (MAGI) eligible individuals, regardless of their citizenship or immigration status.
Eligibility	Eligibility Determination	40141	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall update the technical components for the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS Interface (known as EHIT) for communication with the SAWS for functional changes made to the system on a per release basis.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Eligibility	Eligibility Determination	40142	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow granting of MAGI Medi-Cal Retroactive eligibility for any of the 3 months prior to the Carry Forward Transition month. This would be for individuals who were APTC/CSR/State Subsidy eligible/Conditionally Eligible and enrolled in those months and have transitioned to MAGI Medi-Cal.
Eligibility	Eligibility Determination	40163	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall clear the cache for MEDS MEC Verification for all APTC/CSR/CAPS/CCP eligible/conditionally eligible individuals on Report a Change if previous call to MEDS MEC or Admin verification is more than 30 days.
Eligibility	Eligibility Determination	40164	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall clear the cache and call MEDS MEC Verification for all APTC/CSR/CAPS/CCP eligible/conditionally eligible individuals on California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Renewals eligibility determinations if the current MEC MEDS verification status is "Pending", "Not-Verified", "E-Verified" or Admin Verified (Pass or Fail) and the previous call to MEDS MEC is more than 30 days.
Eligibility	Eligibility Determination	40165	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement three configuration settings that will be set for all Negative Action Reasons, at the reason code level, which will determine if the negative action will impact eligibility to CCP/APTC/CAPS/CSR.
Eligibility	Eligibility Determination	40166	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement a configuration setting that will be set for all Negative Action Reasons, which will decide if the negative action will impact eligibility to CCP for consumers who are within MAGI Medi-Cal Income limits. If the setting is "ON", the person will be eligible for CCP. If the setting is "OFF", the person will be ineligible for CCP.
Eligibility	Eligibility Determination	40167	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement a configuration setting that will be set for all Negative Action Reasons, which will decide if the negative action will impact eligibility to CCP for consumers who are outside MAGI Medi-Cal Income limits.
Eligibility	Eligibility Determination	40168	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement a configuration setting that will be set for all Negative Action Reasons, which will decide if the negative action will impact eligibility to APTC/CAPS/CSR programs for consumers who are outside MAGI Medi-Cal Income limits.
Eligibility	Eligibility Determination	40169	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have a validation on the Negative Action Configuration page where if the user has set the configuration setting as "ON/Enabled" for individual(s) who are eligible for APTC/CSR/CAPS with income outside the MAGI Medi-Cal Income limit then the setting for individual(s) who are eligible for CCP with income outside the MAGI Medi-Cal income limit should also be "ON/Enabled".
Eligibility	Eligibility Determination	40170	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create the following new snippet on the Eligibility Results Page for individual(s) denied/discontinued for APTC/CSR/CAPS/CCP due to negative action: "You do not qualify for Covered California plans or financial help. This is based on Medi-Cal case information provided by your local county. If you think this is an error, call the county office to find out what is still needed. [Click here to find your local county office]. (http://www.dhcs.ca.gov/services/medi-cal/Pages/CountyOffices.aspx)."
Eligibility	Eligibility Determination	40171	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall suppress the following income snippets on the Eligibility Results Page for individuals ineligible to APTC/CSR/CAPS and the income is within APTC/CSR/CAPS FPL: - Household income is in the Federal Advance Premium Tax Credits (APTC) program limits. This program provides premium assistance that lowers the cost of insurance for eligible households. - Household income is in the California Premium Subsidy program limits. This program provides premium assistance that lowers the cost of insurance for eligible households. - Household income is in the Cost Sharing Reduction (CSR) program limits. This program lowers the cost of deductible and copayments for eligible households.
Eligibility	Eligibility Determination	40172	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall suppress the following income snippets on the Eligibility Results Page for individuals ineligible to APTC/CSR/CAPS due to reasons other than income: - Household income is not in the Federal Advance Premium Tax Credits (APTC) program limits. This program provides tax credits that lower the cost of insurance for eligible households. - Household income is not in the California Premium Subsidy program limits. This program provides premium assistance that lowers the cost of insurance for eligible households. - Household income is not within in the Cost Sharing Reduction (CSR) program limits. This program lowers the cost of deductibles and copayments for eligible households.
Eligibility	Eligibility Determination	40173	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall remove the following snippet on the Eligibility Results Page for individuals ineligible to APTC/CAPS due to the reason of not planning to file taxes: - You will receive up to \$0.00 for [Benefit Year]. This is because our records show you do not plan to file a tax return for <Benefit Year>. To qualify for financial assistance, you must agree to file a federal tax return for the year you are applying for coverage.
Eligibility	Eligibility Determination	40174	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create the following new snippet on the Eligibility Results page for individuals ineligible to APTC/CSR/CAPS due to married filing separately, FTR, and not planning to file reasons - You are not eligible to receive premium assistance for one or more of the following reasons: •The primary tax filer does not plan to file federal income taxes. •The primary tax filer has a spouse but does not plan to file taxes as “Married Filing Jointly.” •The primary tax filer plans to file taxes as “Married Filing Separately.” •Someone in your household did not file a federal income tax return with IRS Form 8962 for a year when they got premium tax credits.
Eligibility	Eligibility Determination	40175	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create the following new snippet on the Eligibility Results page for individuals ineligible to APTC/CSR/CAPS due to consumer not being a part of tax filing household - You are not part of the primary tax filer's household. If you want financial help to lower the cost of a Covered California health plan, you must apply on a separate application. Or, if this is a mistake, please update the tax filing household on your current application.
Eligibility	Eligibility Determination	40176	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the existing snippet "You did not give us permission to check federal sources to verify your information. We need your permission to see if your household qualifies for free or reduced cost coverage", if consent for income verification has not been provided.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

OTSI CalHEERS RFP #73040873 Addendum 1
October 31, 2025

Category	Sub Category	Req ID	Requirement
Eligibility	Eligibility Determination	40177	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall remove the following snippet Eligibility Factor_089 on the Eligibility Results Page for individuals ineligible to APTC/CAPS due to the reason of a IRS response code: You are not eligible to receive premium assistance for one of the following reasons: · You may not have filed a federal income tax return for your household. · Your consent to allow Covered California to use computer sources to check your income and family size, including information from tax returns may have expired. · Your household income may be too high. For more information, please call the Customer Service Center at (800) 300-1506 or you can update your tax filing status or update your consent by clicking on the Update Consent for Verification and Tax Filing Attestation link.
Eligibility	Eligibility Determination	40178	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow a consumer to create an access code for Covered California login using a case ID that is not "closed as a duplicate" or already linked to an account along with four levels of authentication namely Case ID, Primary Contact's Name, SSN, DOB.
Eligibility	Eligibility Determination	40179	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add the below data elements to persist the successful vs unsuccessful generation of consumer generated access codes for the monthly report: Consumer Name, Last 4 digits of SSN (if available), DOB, Case ID (California Healthcare Eligibility, Enrollment and Retention System (CalHEERS)/SAWS), Access Code Created Flag, Reason for not generating Access Code.
Eligibility	Eligibility Determination	40180	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the consumer three unsuccessful attempts for access code retrieval/generation per session. At the third unsuccessful attempt, an error message will display indicating that the user has expired his/her attempts for retrieving/generating access code and will be redirected to "Contact Us" page.
Eligibility	Eligibility Determination	40181	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display a generic error message at every unsuccessful attempt to retrieve/generate an access code.
Eligibility	Eligibility Determination	40182	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create a new page which provides two options to the user to select between "New Application" Vs. "Existing Application" to create an Account.
Eligibility	Eligibility Determination	40183	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create a new page which asks the consumer if they already have an access code or not. If the consumer has an access code, he/she can enter it and proceed. If the consumer does not have an access code, he/she can click "No" and this will lead them to the next page to search for their access code.
Eligibility	Eligibility Determination	40184	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create a new page where the consumer is able to search for the access code by entering information on the following fields, 1. Case Number 2. First Name and Last Name 3. DOB 4. SSN (Optional)
Eligibility	Eligibility Determination	40185	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall disable the following fields on "Create an Account to Apply" when an access code is successfully created, 1. First Name 2. Last Name 3. DOB 4. SSN (If Provided) 5. Enter Access Code
Eligibility	Eligibility Determination	40186	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall remove the following fields from the "Create an Account to Apply" page, 1. Do you have an Access Code to link an existing case to this application? 2. The help message "If you created a Covered California application by phone or in person, you will need an access code to link your application to your account. If you do not have your access code, call Covered California: 800-787-6921."
Eligibility	Eligibility Determination	40187	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create a transition flag at an individual level when a consumer is transitioning from MAGI Medi-Cal to Covered California programs.
Eligibility	Eligibility Determination	40188	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the transition flag which indicates the transition from MAGI Medi-Cal to Covered California programs on the budget worksheet.
Eligibility	Eligibility Determination	40189	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall persist the transition flag which indicates the transition from MAGI Medi-Cal to Covered California for a period which extends till the expiration date of the transition QLE plus 30 days, unless the case moves to Carry Forward Status or moves back to MAGI Medi-Cal.
Eligibility	Eligibility Determination	40190	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send the transition flag and the Transition QLE End Date in the Account Transfer.
Eligibility	Eligibility Determination	40191	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall persist and display the QLE reason of "Lost or will lose health coverage", when detecting a loss of MEC for consumers transitioning from MAGI Medi-Cal to Covered California.
Eligibility	Eligibility Determination	40192	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use the QLE reason of "Lost or will lose health coverage" when detecting a loss of MEC for consumers transitioning from MAGI Medi-Cal to Covered California at plan selection and for Account Transfer.
Eligibility	Eligibility Determination	40193	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall receive Aid Code, Status, effective dates in the Disposition transaction from SAWS, when a consumer is determined eligible to Non-MAGI Medi-Cal.
Eligibility	Eligibility Determination	40194	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use the aid code, status and effective dates to determine if coverage meets MEC when a disposition was received from SAWS for a consumer transitioning to Non-MAGI.
Eligibility	Eligibility Determination	40195	SAWS req to consistently send the data.
Eligibility	Eligibility Determination	40211	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to display eligibility results authorized by SAWS in the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Portal.
Eligibility	Eligibility Determination	40212	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to display Non-MAGI Medi-Cal Aid Codes (MEC and Non-MEC) authorized by SAWS under Non-MAGI Medi-Cal programs in the 'Program Eligibility History Summary' section of 'Program Eligibility by Person' page.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Eligibility	Eligibility Determination	40213	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to display the source "SAWS" on "Program Eligibility by Person" page when eligibility dispositioned by SAWS differs from that provided by California Healthcare Eligibility, Enrollment and Retention System (CalHEERS).
Eligibility	Eligibility Determination	40214	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to display eligibility determination factor "Our records indicate that you have existing Medi-Cal coverage. If you think this is an error, please contact your local county office. [Click here to find your local county office](http://www.dhcs.ca.gov/services/medi-cal/Pages/CountyOffices.aspx)" when disposition is received from SAWS with a Medi-Cal MEC aid code that is different from that provided by California Healthcare Eligibility, Enrollment and Retention System (CalHEERS).
Eligibility	Eligibility Determination	40216	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to call electronic services for all outstanding verifications (regardless of ROP Configuration Page selection) and the positive action will be taken if verifications are e-verified or Admin Verified
Eligibility	Eligibility Determination	40217	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to take action, during ROP Processing, only to the attributes that are turned "On" in the ROP Batch configuration page.
Eligibility	Eligibility Determination	40218	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to exclude taking adverse action, during ROP Processing, for the attributes that are turned "Off" in the ROP Batch Configuration page.
Eligibility	Eligibility Determination	40219	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to call the Electronic Verification Services only for all the enrolled members who are Conditionally Eligible for APTC/CA Premium Subsidy, CSR, and/or CCP for their outstanding verifications during the ROP Processing
Eligibility	Eligibility Determination	40220	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to call the Electronic Verification Services for outstanding income verification, during ROP Processing, for all members regardless of their enrollment status.
Eligibility	Eligibility Determination	40221	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall skip the Electronic Verification calls and run eligibility for any case included in the ROP Batch which has insufficient information to trigger a HUB call for the verification.
Eligibility	Eligibility Determination	40222	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall handle the technical error codes while calling Verification services during ROP batch run, and not take action while running BRE for the attribute which errored out.
Eligibility	Eligibility Determination	40223	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall handle the functional error codes while calling Verification services during ROP batch run, and take adverse action while running BRE for the attribute which errored out.
Eligibility	Eligibility Determination	40224	During ROP Batch run California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not call VLP if Lawful presence verification for the selected individual is outstanding and if his DHS Case is in open status.
Eligibility	Eligibility Determination	40225	During ROP Batch run California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not call VLP if DHS Case is Closed after Step 3 and lawful presence verification is still pending.
Eligibility	Eligibility Determination	40226	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall discontinue the consumer from CCP/APTC/CSR/State Subsidy if the last DHS response is verified as "Not Lawfully Present" or pending and the DHS case is "closed".
Eligibility	Eligibility Determination	40227	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall exclude from the ROP selection batch, all cases in which the only expired outstanding verifications are for Lawful Presence and/or for Naturalized or Derived Citizenship and the identified individuals have an "open" DHS case.
Eligibility	Eligibility Determination	40228	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have an automated process to attempt re-verification of inconsistent verifications at the end of the reasonable opportunity period, only if the verification inconsistency is responsible for a consumer's conditional eligibility status to CCP/APTC/CA Premium Subsidy/CSR programs.
Eligibility	Eligibility Determination	40229	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have an automated ROP process to discontinue APTC/CA Premium Subsidy/CSR/CCP program eligibility and enrollments only for outstanding verifications with an ROP expiration date in the past for: - Citizenship - Lawful Presence - Incarceration - Deceased
Eligibility	Eligibility Determination	40230	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall remove the ROP Expiration Date for a given verification attribute when the affected program eligibility is discontinued or if a given verification status is modified to E-verified, Pass, or Fail.
Eligibility	Eligibility Determination	40231	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall only extend the ROP Expiration Date for a given verification attribute when a CCP renewal determination is made or if an Admin extends the ROP Expiration Date
Eligibility	Eligibility Determination	40232	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the Simulation functionality for the ROP Process
Eligibility	Eligibility Determination	40233	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to store Electronic Verification services results retrieved during Simulation for use in both Simulation and subsequent Production BRE runs
Eligibility	Eligibility Determination	40234	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to determine eligibility in simulation mode without committing the eligibility results to the production case.
Eligibility	Eligibility Determination	40236	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide a functionality to allow ROP Simulation and Regular ROP batch to run in parallel with their respective attributes settings
Eligibility	Eligibility Determination	40237	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to purge the ROP Simulation run related data from the Simulation schema post 60 days from the ROP Simulation run.
Eligibility	Eligibility Determination	40243	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to display Non-MAGI Medi-Cal eligibility record authorized by SAWS under the Current Eligibility Summary section of the Program Eligibility by Person page.
Eligibility	Eligibility Determination	40244	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to prevent program name "Medi-Cal" from displaying on the "Learn more about this Determination" section of the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Eligibility Results Summary page, if the person is determined eligible for MAGI Medi-Cal and/or Non-MAGI Medi-Cal programs based on SAWS dispositions.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Eligibility	Eligibility Determination	40246	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to re-evaluate eligibility in real time using Non-MAGI Medi-Cal MEC Aid Code provided by SAWS.
Eligibility	Eligibility Determination	40247	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to re-evaluate eligibility in real time using MAGI Medi-Cal Aid Code provided by SAWS.
Eligibility	Eligibility Determination	40248	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to update Non-MAGI Medi-Cal eligibility aid code in real time using Non-MAGI Medi-Cal Non-MEC Aid Code provided by SAWS.
Eligibility	Eligibility Determination	40249	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to automatically lift Carry Forward when MEC Medi-Cal is eligible and the end date is a high date on the disposition from SAWS.
Eligibility	Eligibility Determination	40250	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to suppress verification calls for Non-MAGI MEC Medi-Cal only households when running eligibility via disposition.
Eligibility	Eligibility Determination	40251	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to suppress MEDS verification calls when running eligibility via disposition.
Eligibility	Eligibility Determination	40253	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to insert case notes in the portal when the eligibility authorized by SAWS differs from that generated by California Healthcare Eligibility, Enrollment and Retention System (CalHEERS).
Eligibility	Eligibility Determination	40306	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall apply aid code '8E' to all eligible Accelerated Enrollment individuals.
Eligibility	Eligibility Determination	40307	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall determine an individual Conditionally Eligible for MAGI Medi-Cal when the individual is granted Accelerated Enrollment.
Eligibility	Eligibility Determination	40308	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send the '8E' Aid Code to MEDS via the HX20 transaction when an Individual is granted Accelerated Enrollment from California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) access channel.
Eligibility	Eligibility Determination	40309	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send an HX20 where existing household member becomes an Applicant and all subsequent RACs submitted within same day remediation timeframe for MAGI Medi-Cal programs.
Eligibility	Eligibility Determination	40310	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send an HX20 where existing household member becomes an Applicant and all subsequent RACs submitted within same day remediation timeframe for Covered CA, CCHIP, and MCAP programs.
Eligibility	Eligibility Determination	40311	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall validate that an individual has a CIN prior to granting eligibility for Accelerated Enrollment.
Eligibility	Eligibility Determination	40312	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add the ability for Accelerated Enrollment functionality for adults to be enabled or disabled based on a configuration.
Eligibility	Eligibility Determination	40313	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall suppress HX18 transactions to MEDS for Accelerated Enrollment aid code 8E.
Eligibility	Eligibility Determination	40324	SIR 164207: California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the reference of old eligibility table HBX_INDV_CASE_ELIG with new eligibility table(s) for Disposition service implementation.
Eligibility	Eligibility Determination	40329	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have an automated process to request Periodic Verification Service (PVC) for Medicare information for consumers who are enrolled in a Health plan (Enrolled, Pending) and meet the following criteria: - Consumers who are eligible for APTC/CSR/State Subsidy; or - Consumers who are conditionally eligible for APTC/CSR/State Subsidy And - Consumers who have an E-Verified SSN
Eligibility	Eligibility Determination	40330	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall exclude cases from the Periodic Verification process for Medicare where at least one individual meets the following criteria: - In carry forward status; or - In QHP hold
Eligibility	Eligibility Determination	40331	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall request data from the Periodic Verification Service (PVC) regarding enrollment in a Medicare program.
Eligibility	Eligibility Determination	40332	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use the Medicare information gathered from the Periodic Verification (PVC) Service for individuals who are flagged by PVC for receiving Medicare.
Eligibility	Eligibility Determination	40333	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall flag the consumer when an active enrollment in Medicare is detected by PVC Batch.
Eligibility	Eligibility Determination	40334	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide a configuration setting for “number of days” that will be used to set an expiration date, when consumer is flagged by Periodic Verification.
Eligibility	Eligibility Determination	40335	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the PVC expiration date for Medicare on the following pages: - Account home - Verifications screen
Eligibility	Eligibility Determination	40336	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not flag the consumer when the PVC service returns a "Not Verified" status for a consumer while checking for enrollment in Medicare.
Eligibility	Eligibility Determination	40337	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall clear the cache, update the verification for Medicare and not flag the consumer when the PVC service returns a value indicating that the consumer is not enrolled in Medicare.
Eligibility	Eligibility Determination	40348	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall grant Accelerated Enrollment Medi-Cal Eligibility for all Modified Adjusted Gross Income (MAGI) Medi-Cal eligible adults regardless of category (Adult, Parent/Caretaker, pregnancy, Etc.) and who are pending for any verifications other than Deceased and MEDS MEC verification from California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) access channel for intake run reasons or during reapplication.
Eligibility	Eligibility Determination	40349	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall grant Accelerated Enrollment Medi-Cal eligibility for all Modified Adjusted Gross Income (MAGI) Medi-Cal eligible Children who are under 19 years of age and who are pending for any verifications other than Deceased and MEDS MEC verification from California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) access channel for intake run reasons or during reapplication.
Eligibility	Eligibility Determination	40355	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall set same Expiration date for all the individuals flagged for Medicare or Deceased by the PVC service

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Eligibility	Eligibility Determination	40356	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow users to record the following consumer responses to the Periodic Verification for Medicare and Deceased flagged consumers: - Agreement with the electronic data - Disagreement with the electronic data
Eligibility	Eligibility Determination	40357	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow all users provisioned with access to the case to record a response to the Medicare and Deceased Verification and run eligibility on the case.
Eligibility	Eligibility Determination	40358	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide users having "Admin" profile with an additional option to save the consumer response to the Medicare and Deceased Verification and skip eligibility run on the case.
Eligibility	Eligibility Determination	40359	For consumers who respond "Disagree" to the Medicare data and for which an eligibility run has occurred, California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall take the following actions: - Remove the Periodic Verification flag - Update the verification status to Admin Pass and discard the PVC response for Medicare - Eligibility status will be "Eligible" based on medicare verification status, if otherwise eligible - Remove Medicare ROP date, if it exists - Suppress Non MAGI referrals for cases
Eligibility	Eligibility Determination	40360	For consumers who respond "Agree" to the Medicare data and for which an eligibility run has occurred, California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall take the following actions: - Remove the Periodic Verification flag - Set the consumer as Self Attesting to Medicare (Medicare Part A question will be set to "Yes") - Update the verification status to E-Verified - Use the self-attestation to Medicare to discontinue eligibility to financial assistance - Non-MAGI Referral will be generated due to Medicare Self-Attestation
Eligibility	Eligibility Determination	40361	While running eligibility which is not a PVC eligibility run during the PVC process, California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use the cached verification for Medicare and not the verification received from PVC Service for a consumer who has not provided a response to the PVC data.
Eligibility	Eligibility Determination	40362	While running eligibility which is not a PVC eligibility run during the PVC process and no cached verification is present for Medicare, California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use the existing verification caching rules for updating the verification status and eligibility determination for a consumer who has not provided a response to the PVC reponse.
Eligibility	Eligibility Determination	40363	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Eligibility run will differentiate between the PVC run and the regular eligibility run
Eligibility	Eligibility Determination	40364	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall set the Origination code on DER-U to CHA when sent as part of the PVC Batch Eligibility run for when, 1. Consumer has not provided a response (Agree/Disagree) and No response auto eligibility batch is triggered at the end of the expiration date 2. Admin saved a response (Agree/Disagree) and the case was picked up by the nightly batch process to run eligibility using the saved response.
Eligibility	Eligibility Determination	40365	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have an automated process at the end of Medicare Verification Expiration date if the responses have not been provided for any household members: - Remove the Periodic Verification flag - Update the verification status to "Pending" to match the PVC response - Use the Medicare response to grant conditional eligibility - Suppress Non MAGI referrals for cases - If a person is in ROP period due to a previous determination, the ROP date will not be re-set. If there was no ROP date previously then a 95 days ROP date will be set for the individual.
Eligibility	Eligibility Determination	40366	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall trigger an automated process daily to run eligibility on all the cases where atleast one individual have a saved response (Agree, Disagree) and Periodic Verification flag is set to "Yes".
Eligibility	Eligibility Determination	40367	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use the "Agree" or "Disagree" rules for eligibility determination. The Periodic Verification flag and expiration date will be removed.
Eligibility	Eligibility Determination	40368	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use the existing EERC code of "CN" on the DER to SAWS for individuals discontinued from APTC/CSR/CAPS benefits due to PVC Agree response for Medicare.
Eligibility	Eligibility Determination	40369	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create a unique transaction name in the Transaction History table to track actions taken on periodic verification, eligibility determination, and enrollment update
Eligibility	Eligibility Determination	40370	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall clear the Periodic Verification Flag and expiration date for the consumer and apply the existing verification caching and eligibility determination rules in a BRE run if any of the following conditions is met after the person is flagged for Medicare/Deceased verification, 1. When a data element which impacts Medicare and Deceased verification has been updated 2. If an individual is no longer eligible/conditionally eligible for APTC/CSR/CAPS , clear the Periodic Verification flag for Medicare 3. If an individual is no longer eligible/conditionally eligible for APTC/CSR/CAPS and CCP, clear the Periodic Verification flag for Deceased 4. If the individual's case is closed as duplicate or terminated 5. If the flagged individual is Actively or Passively Renewed for the next benefit year for Covered CA programs 6. If the flagged individual with no saved response is re-determined, follow the existing verification caching rules to use Admin verification (if present) or calling the hub based on the run reason. Remove the Periodic Verification flag and expiration date only if the person become Eligible or gets Discontinued due to call to SSA/Non-ESI or Admin verification.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

OTSI CalHEERS RFP #73040873 Addendum 1
October 31, 2025

Category	Sub Category	Req ID	Requirement
Eligibility	Eligibility Determination	40371	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have an automated process to request Periodic Verification (PVC) Service for Deceased information for all consumers who have an active Health or Dental or both enrollment(s) (Enrolled/Pending) and their eligibility status is: 1. Eligible for CCP OR 2. Conditionally eligible for CCP And 3. Consumers who have an E-Verified SSN
Eligibility	Eligibility Determination	40372	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall exclude cases from the Periodic Verification (PVC) process for deceased, where at least one individual meets the following criteria: - In carry forward status; or - In QHP hold
Eligibility	Eligibility Determination	40373	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall request data from the Periodic Verification (PVC) Service regarding Deceased status.
Eligibility	Eligibility Determination	40374	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use the Deceased information gathered from the Periodic Verification (PVC) Service for individuals who are flagged for being deceased.
Eligibility	Eligibility Determination	40375	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall flag the consumer when a Deceased response is detected by PVC Batch.
Eligibility	Eligibility Determination	40380	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow SAWS to review real time MAGI Medi-Cal Eligibility Results that require SAWS Eligibility Review and result in Conditionally Eligible, Eligible, or Discontinued for California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) access channel eligibility runs.
Eligibility	Eligibility Determination	40381	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall pend MAGI Medi-Cal Eligibility Results when a report a change is submitted for a MAGI Medi-Cal only case until confirmation is received from SAWS.
Eligibility	Eligibility Determination	40382	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall pend MAGI Medi-Cal Eligibility Results when a report a change is submitted for a Mixed Household case until confirmation is received from SAWS.
Eligibility	Eligibility Determination	40383	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall pend MAGI Medi-Cal Eligibility Results when an active Exchange renewal is submitted for a Mixed Household case until confirmation is received from SAWS.
Eligibility	Eligibility Determination	40384	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow SAWS to review real time MAGI Medi-Cal Eligibility Results that require SAWS Eligibility Review and result in Conditionally Eligible, Eligible, or Discontinued for SAWS access channel eligibility runs.
Eligibility	Eligibility Determination	40385	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall pend MAGI Medi-Cal Eligibility Results for a MAGI Medi-Cal only intake case until confirmation is received from SAWS.
Eligibility	Eligibility Determination	40386	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall pend MAGI Medi-Cal Eligibility Results for a Mixed Household intake case until confirmation is received from SAWS.
Eligibility	Eligibility Determination	40387	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall pend MAGI Medi-Cal Eligibility Results when a report a change is submitted for a MAGI Medi-Cal only case until confirmation is received from SAWS.
Eligibility	Eligibility Determination	40388	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall pend MAGI Medi-Cal Eligibility Results when a report a change is submitted for a Mixed Household case until confirmation is received from SAWS.
Eligibility	Eligibility Determination	40389	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall pend MAGI Medi-Cal Eligibility Results when a manual MAGI Medi-Cal only renewal is submitted for a MAGI Medi-Cal only case until confirmation is received from SAWS.
Eligibility	Eligibility Determination	40390	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall pend MAGI Medi-Cal Eligibility Results when a manual MAGI Medi-Cal only renewal is submitted for a Mixed Household case until confirmation is received from SAWS.
Eligibility	Eligibility Determination	40391	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not evaluate individuals for Covered California programs until confirmation is received from SAWS for full scope MAGI Medi-Cal discontinuance.
Eligibility	Eligibility Determination	40392	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow MCAP individuals to remain eligible for the MCAP program until transition to MAGI Medi-Cal program is confirmed by SAWS.
Eligibility	Eligibility Determination	40393	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow CCHIP individuals to remain eligible for the CCHIP program until transition to MAGI Medi-Cal program is confirmed by SAWS.
Eligibility	Eligibility Determination	40396	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send the MAGI Medi-Cal Eligibility Results determined by California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Business Rules Engine as Eligible, Conditionally Eligible, or Discontinued on the DER/DER-U when the MAGI Medi-Cal Eligibility Results in California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) are Pending for SAWS confirmation.
Eligibility	Eligibility Determination	40397	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall trigger Business Rules Engine run when the Medi-Cal Eligibility Results are confirmed by SAWS.
Eligibility	Eligibility Determination	40398	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display updated messaging to consumers for MAGI Medi-Cal Eligibility Results that are awaiting SAWS confirmation.
Eligibility	Eligibility Determination	40399	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the Eligibility Status of "Awaiting Review" for Medi-Cal program on the "Current Eligibility Summary Section" of Program Eligibility by Person page when the MAGI Medi-Cal Eligibility Results in California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system are Pending for SAWS confirmation.
Eligibility	Eligibility Determination	40400	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the Eligibility Status of "Medi-Cal: Awaiting Review: Your local County Office will review your Medi-Cal eligibility and contact you if additional information is needed. You do not need to take any action at this time." for Medi-Cal program on the "Program Eligibility History Summary Section" of Program Eligibility by Person page when the MAGI Medi-Cal Eligibility Results in California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system are Pending for SAWS confirmation.
Eligibility	Eligibility Determination	40401	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display updated messaging of "Medi-Cal: Awaiting Review" for Medi-Cal program on Household Eligibility Results Summary page when the MAGI Medi-Cal Eligibility Results in California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system are Pending for SAWS confirmation.

Category	Sub Category	Req ID	Requirement
Eligibility	Eligibility Determination	40402	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the PVC expiration date for Deceased on the following pages: - Account home - Verifications screen
Eligibility	Eligibility Determination	40403	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not flag the consumer when the PVC service returns a "Not Verified" status for a consumer while checking for Deceased.
Eligibility	Eligibility Determination	40404	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall clear the Periodic Verification Fag for the consumer when a user provisioned with access to the case records a response to the Deceased Verification. California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall clear the cache, update the verification for Deceased and not flag the consumer when the PVC service returns a value indicating that the consumer is not deceased.
Eligibility	Eligibility Determination	40405	For consumers who respond "Disagree" to the Deceased data and for which an eligibility run has occurred, California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall take the following actions: - Remove the Periodic Verification flag - Update the verification status to Admin Pass and discard the PVC response for deceased - Eligibility status will be "Eligible" based on deceased verification status, if otherwise eligible - Remove the ROP date if it exists for deceased from a previous run
Eligibility	Eligibility Determination	40406	For consumers who respond "Agree" to the Deceased data and for which an eligibility run has occurred, California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall take the following actions: - Remove the Periodic Verification flag - Update the default value of deceased self-attestation on the Verification page to "Yes". This value should not flip back to "No", once set as "Yes" due to Agreed response unless clear verification action is performed on the Verification page. - Update the Deceased Verification Status to "E-Verified" - Discontinue consumer from CCP/APTC/CSR/CAPS (all programs)
Eligibility	Eligibility Determination	40407	While running eligibility which is not a PVC eligibility run during the PVC process, California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use the cached verification for Deceased and not the verification received from PVC Service for a consumer who has not provided a response to the PVC data.
Eligibility	Eligibility Determination	40408	While running eligibility which is not a PVC eligibility run during the PVC process and no cached verification is present for Deceased, California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use the existing verification caching rules for updating the verification status and eligibility determination for a consumer who has not provided a response to the PVC reponse.
Eligibility	Eligibility Determination	40409	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have an automated process at the end of the Verification Expiration date if the responses have not been provided for any household members: - Remove the Periodic Verification flag - Update the verification status to "Pending" to match the PVC response - Use the Deceased response to grant conditional eligibility - If a person is already in ROP due to a previous determination, do not re-set the ROP date. If there was no previous ROP date then set a ROP date of 95 days.
Eligibility	Eligibility Determination	40410	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall trigger an automated process daily to run eligibility on all the cases where atleast one individual have a saved response (Agree, Disagree) and Periodic Verification flag is set to "Yes".
Eligibility	Eligibility Determination	40411	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use the "Agree" or "Disagree" rules for eligibility determination. The Periodic Verification flag and expiration date will be removed.
Eligibility	Eligibility Determination	40412	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create and send a new EERC code for individuals discontinued from APTC/CSR/CAPS/CCP benefits due to PVC Agree response for Deceased on the DER-U to SAWS for Mixed Household cases.
Eligibility	Eligibility Determination	40413	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall persist date of death received from the PVC response for sending to SAWS on the DER-U.
Eligibility	Eligibility Determination	40414	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall call the hub for Medicare and/or Deceased during a RAC if the verification status is "Pending" and eligibility status is "Conditionally Eligible" due to PVC when the consumer did not respond.
Eligibility	Eligibility Determination	40415	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall only update the cache and use the response from hub for Eligibility Determination if the individual's eligibility status becomes "Eligible" due to the verification status as result of hub call.
Eligibility	Eligibility Determination	40420	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send the "Date of Death" to SAWS via eHIT in the DER/DER-U as part of the Demographics node when eligibility is determined due to agree response to Deceased verification for Periodic Verification Confirmation (PVC).
Eligibility	Eligibility Determination	40436	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display updated messaging of "Medi-Cal: Awaiting Review: Your local County Office will review your Medi-Cal eligibility and contact you if additional information is needed. You do not need to take any action at this time." for Medi-Cal program on Individual Eligibility Details section of Household Eligibility Results Summary page when the MAGI Medi-Cal Eligibility Results in California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system are Pending for SAWS confirmation.
Eligibility	Eligibility Determination	40437	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the "Program Eligibility" as "Medi-Cal: Awaiting Review" on the "Household Summary Section" of the "Account Home Page" when the MAGI Medi-Cal Eligibility Results in California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system are Pending for SAWS confirmation.
Eligibility	Eligibility Determination	40439	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to insert case notes in the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) portal when MAGI Medi-Cal Eligibility Results are confirmed by SAWS.
Eligibility	Eligibility Determination	40440	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send an Eligibility Evaluation Reason Code of "Prospective Change to MAGI Medi-Cal Eligibility Result" (PM) when an individual has a prospective change to MAGI Medi-Cal Eligibility Result that is not being sent on the DER/DER-U for the benefit month.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

OTSI CalHEERS RFP #73040873 Addendum 1
October 31, 2025

Category	Sub Category	Req ID	Requirement
Eligibility	Eligibility Determination	40441	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall suppress MAGI Medi-Cal only eligibility determination factors on Individual Eligibility Details section of Household Eligibility Results Summary page when the MAGI Medi-Cal Eligibility Results in California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system are Pending for SAWS confirmation.
Eligibility	Eligibility Determination	40478	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use the Alternate fair share adjustment percentage for APTC for the evaluated benefit year.
Eligibility	Eligibility Determination	40479	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have a configurable setting for using the alternate fair share percentage for APTC for the evaluated benefit year, based on the specified effective date.
Eligibility	Eligibility Determination	40480	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall grant eligibility to Federal APTC subsidy for individuals whose APTC household income is > 400% FPL and who are otherwise eligible or conditionally eligible to APTC.
Eligibility	Eligibility Determination	40481	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use the Aid Code of X1 to grant eligibility to APTC for individuals whose APTC household income is > 400% FPL
Eligibility	Eligibility Determination	40482	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use the Aid Code of X6 to grant eligibility to APTC for AI/AN individuals whose APTC household income is > 400% FPL
Eligibility	Eligibility Determination	40483	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have a configurable setting for using the Alternate APTC Cliff for the evaluated benefit year based on the specified effective date.
Eligibility	Eligibility Determination	40484	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have a configurable APTC Cliff value (APTC upper limit) for the evaluated benefit year and it will be used only if the APTC Cliff configuration is effective.
Eligibility	Eligibility Determination	40485	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall develop a one-time process to run eligibility on all subsidized applications with Covered CA enrollment, to get the eligibility and subsidy amounts as per the new FPL limits for APTC eligibility
Eligibility	Eligibility Determination	40486	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall make updates to Eligibility Results screen to display the below message for consumers conditionally eligible/eligible to APTC/CAPS and their monthly APTC amount or/and monthly State Subsidy amount is \$0: "If your premium assistance amount is \$0.00, it is because the cost of the standard plan in your area is less than the maximum monthly amount you are expected to pay for a health plan. It could also be because you have received all the premium assistance your household qualifies for this year."
Eligibility	Eligibility Determination	40553	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall develop a one-time process to run eligibility on all the existing subsidized applications with at least one person eligible/conditionally eligible to CCP, using the alternate APTC cliff and alternate fair share percentage adjustments for APTC for the evaluated benefit year.
Eligibility	Eligibility Determination	40554	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall exclude the following cases from the one-time process to run eligibility using the alternate APTC cliff and alternate fair share percentage adjustments for APTC for the evaluated benefit year, 1. At least one member on the case is in Carry Forward status 2. A case is closed as duplicate 3. Cases with Intake/Re-determination post 4/5 (M1 implementation) 4. Cases with Dental Enrollment Only 5. Cases with Health plan in "Terminated" or "Cancelled" status (For all members on the case) 6. Cases with no consent for the current year (Individuals receiving CCP Only due to no consent in 2021) 7. Cases where all CCP eligible individuals are ineligible/discontinued to APTC/CSR/CAPS due to reasons other than income limit (For e.g., self-attested to Medicare) 8. Cases with Application Status as "Terminated"
Eligibility	Eligibility Determination	40555	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use the new Sub Run Reason Code "CLF" in the Re-determination batch (ELG-1002-DD-01) when running eligibility on the cases as part of this one-time redetermination process using the alternate APTC cliff and alternate fair share percentage adjustments for APTC for the evaluated benefit year.
Eligibility	Eligibility Determination	40556	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use the QLE reason "None of the above" in the Re-determination batch (ELG-1002-DD-01) when running eligibility on the cases as part of this one-time redetermination process using the alternate APTC cliff and alternate fair share percentage adjustments for APTC for the evaluated benefit year.
Eligibility	Eligibility Determination	40557	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add the following text to the case notes in the Re-determination batch (ELG-1002-DD-01) when running eligibility on the cases as part of this one-time redetermination process using the alternate APTC cliff and alternate fair share percentage adjustments for APTC for the evaluated benefit year, "Due to a legislative update, the eligibility for this case has been run with the updated required contribution table. No change to application data has been made. Financial assistance may have been updated effective 05/01/2021. Billing from the carrier may not reflect the change until the June invoice."
Eligibility	Eligibility Determination	40558	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall calculate preliminary eligibility results in the Shop and Compare tool using the alternate APTC Cliff and alternate FPL contribution percentage table for the applicable benefit year.
Eligibility	Eligibility Determination	40559	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display preliminary eligibility results in the Shop and Compare tool using the alternate APTC Cliff and alternate FPL contribution percentage table for the applicable benefit year.
Eligibility	Eligibility Determination	40613	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall override the subsidy household FPL if either the primary tax filer or spouse of the primary tax filer has UI income greater than zero and at least one individual in the primary tax filer's household is otherwise conditionally eligible/eligible to APTC benefits.
Eligibility	Eligibility Determination	40614	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have a configuration to toggle on and off the functionality for APTC FPL Lock due to UI in a benefit year, based on a specified effective date.
Eligibility	Eligibility Determination	40615	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall grant consumers aid codes based on the overridden FPL%.
Eligibility	Eligibility Determination	40616	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not apply UI Lock to cases where at least one person in the case is in carry forward status.
Eligibility	Eligibility Determination	40617	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not apply UI Lock to cases where the individual(s) receiving UI on the case have either HH Income-Subsidy or HH Income -CA State Subsidy failed.
Eligibility	Eligibility Determination	40618	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use the self attested countable income for reasonable compatibility if individual met the UI Lock criteria.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Eligibility	Eligibility Determination	40619	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall override the income verification status (Subsidy/CA Subsidy) for individuals who met the UI Lock criteria to "E-verified" if their income verification status is "Pending" or "Not Verified".
Eligibility	Eligibility Determination	40620	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display "Overridden" as verification source for income verification (Subsidy/CA Subsidy) for individuals who met the UI Lock criteria when their income verification status is overridden to "E-Verified".
Eligibility	Eligibility Determination	40621	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send "Overridden" as verification source for income verification (subsidy/CA Subsidy) in the eHIT transaction to SAWS when the verification status is overridden to "E-Verified".
Eligibility	Eligibility Determination	40622	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall make updates to Eligibility Results screen to provide explanation for overridden APTC FPL.
Eligibility	Eligibility Determination	40623	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send a new EERC code (UI) in the eHIT transaction when eligibility is run on cases with overridden APTC FPL.
Eligibility	Eligibility Determination	40624	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the overridden APTC household FPL on the budget worksheet when the FPL is overridden due to unemployment income in the benefit year.
Eligibility	Eligibility Determination	40625	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display a flag on the budget worksheet that indicates that the APTC FPL has been overridden due to unemployment income in the benefit year.
Eligibility	Eligibility Determination	40626	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall suppress the Overridden flag and overridden FPL% on the budget worksheet if the UI lock change is not effective at eligibility determination.
Eligibility	Eligibility Determination	40627	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display a warning message to alert admins who are attempting to delete a UI income record for an individual.
Eligibility	Eligibility Determination	40637	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display a banner/message on the Shop and Compare page indicating that UI lock changes are not applied when eligibility is determined using Shop and Compare tool if the coverage year is 2021.
Eligibility	Eligibility Determination	40638	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not display this banner/text if the coverage year is 2022 and beyond.
Eligibility	Eligibility Determination	40647	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall develop a one-time process to run eligibility on all the existing subsidized applications where either primary tax filer or spouse of the primary tax filer has UI income (greater than \$0) and at least one individual in the Primary Tax Filer's Household is otherwise eligible/conditionally eligible to APTC benefits.
Eligibility	Eligibility Determination	40648	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall exclude the following cases from the one-time process to run eligibility for overriding the exchange FPL% for the evaluated benefit year, 1. At least one member on the case is in Carry Forward status 2. A case is closed as duplicate 3. Cases with Dental Enrollment Only 4. Cases with Health plan in "Terminated" or "Cancelled" status (For all members on the case) 5. Cases with no consent for the current year (Individuals receiving CCP Only due to no consent in 2021) 6. Cases where all CCP eligible individuals are ineligible/discontinued to APTC/CSR/CAPS due to reasons other than income limit (For e.g., self-attested to Medicare) 7. Cases with Application Status as "Terminated" 8. Cases where the income verification for HH Income-Subsidy or HH Income -CA State Subsidy is failed
Eligibility	Eligibility Determination	40649	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use the new Sub Run Reason Code "UIL" in the Re-determination batch (ELG-1002-DD-01) when running eligibility for overriding the exchange FPL% on the cases as part of this one-time redetermination process for the evaluated benefit year.
Eligibility	Eligibility Determination	40650	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use the QLE reason "None of the above" in the Re-determination batch (ELG-1002-DD-01) when running eligibility on the cases as part of this one-time redetermination process for overriding the exchange FPL% for the evaluated benefit year.
Eligibility	Eligibility Determination	40651	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add the following text to the case notes in the Re-determination batch (ELG-1002-DD-01) when running eligibility on the cases as part of this one-time redetermination process for overriding the exchange FPL% for the evaluated benefit year, "Due to the American Rescue Plan, the eligibility for this case has been redetermined to check for additional financial assistance because a household member reported receiving unemployment income for this benefit year. No change to application data has been made. Financial assistance may have been updated effective 07/01/2021. Billing from the carrier may not reflect the change until the August invoice."
Eligibility	Eligibility Determination	40652	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create and generate a new snippet for Covered CA eligibility section in the NOD01 for members who are eligible for APTC/CCP and Eligible/Conditionally eligible for CSR and UI lock is applied to override their FPL%. "You are eligible for health and dental plans through Covered California. Because your household reported Unemployment Insurance benefits for {Benefit Year}, your household qualifies for up to \${TAX_CREDIT_AMOUNT} per month in federal premium tax credits. You also qualify for cost-sharing reductions (CSR). If you enroll in a Silver plan you can save money when you receive medical care. Cost-sharing reductions lower out-of-pocket costs, such as copays, coinsurance and deductibles."
Eligibility	Eligibility Determination	40653	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall suppress this snippet if snippet 775 or 361 is triggered.
Eligibility	Eligibility Determination	40654	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create and generate a new snippet for Covered CA eligibility section in the NOD01 for members who are conditionally eligible for APTC/CSR/CCP and UI lock is applied to override their FPL%. "You are conditionally eligible for health and dental plans through Covered California. Because your household reported Unemployment Insurance benefits for {Benefit Year}, your household qualifies for up to \${TAX_CREDIT_AMOUNT} per month in federal premium tax credit. We need more information to continue your eligibility. Look for the "We need proof" section below. You also qualify for cost-sharing reductions (CSR). If you enroll in a Silver plan you can save money when you receive medical care. Cost-sharing reductions lower out-of-pocket costs, such as copays, coinsurance and deductibles."
Eligibility	Eligibility Determination	40655	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall suppress this snippet if snippet 775 or 788 is triggered.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Eligibility	Eligibility Determination	40656	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create and generate a new snippet under the introduction section of NOD01 for all cases that have their eligibility redetermined by the 2021 UI Lock batch.
Eligibility	Eligibility Determination	40668	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall discontinue MAGI Medi-Cal eligibility when an adverse action occurs for an individual whose eligibility status is Pending and the month preceding the Pending status was Eligible or Conditionally Eligible.
Eligibility	Eligibility Determination	40679	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall correct Spanish Translations for all the HBX consumer facing text on the screens in the Spanish version of the portal.
Eligibility	Eligibility Determination	40680	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall correct Spanish Translations for 'help screen' and 'question icon' in the Spanish version of the portal to assist consumers with navigation and questions.
Eligibility	Eligibility Determination	40681	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall correct Spanish Translations for all the dropdown values on the screens in the Spanish version of the portal.
Eligibility	Eligibility Determination	40708	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the fair share adjustment percentage amount for California Premium Subsidy for the benefit year 2022
Eligibility	Eligibility Determination	40709	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall grant eligibility to CA premium subsidy for individuals who are otherwise eligible or conditionally eligible to APTC and whose income is > 138% and <= 200% FPL, and ineligible for full scope Medi-Cal benefits
Eligibility	Eligibility Determination	40710	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall grant eligibility to CA premium subsidy for individuals whose income is > 138% and <= 200% FPL based on a yearly configuration setting
Eligibility	Eligibility Determination	40711	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall calculate and display preliminary eligibility results for CA premium subsidy for individuals whose income is > 138% and <= 200% FPL in the Shop and Compare tool.
Eligibility	Eligibility Determination	40725	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not send an update transaction (HX20-U) for the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Renewal to MEDS during the month of October if the consumer has been subsequently, after the Renewal, discontinued for the current benefit year and an HX20-U transaction was held due to the unavailability of the MEDS Renewal Calendar for January.
Eligibility	Eligibility Determination	40726	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display multiple Calls to Action in the Next Steps Module on the Account Home
Eligibility	Eligibility Determination	40727	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall always display the year toggle with two years for Admins.
Eligibility	Eligibility Determination	40728	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the year toggle for all other user roles including Admins when current year and future year are available to take action on.
Eligibility	Eligibility Determination	40729	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the 1st of the following month coverage start date during the open enrollment period when the system is configured to allow this coverage start date.
Eligibility	Eligibility Determination	40730	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall expand the configurations for open enrollment extension dates found on the Account Home Page.
Eligibility	Eligibility Determination	40731	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display MAGI Medi-Cal Renewal Mode for Mixed Households which have started CCA Renewal but not completed it and have received a MC Renewal EDR.
Eligibility	Eligibility Determination	40732	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the fair share adjustment percentage amount for APTC for the benefit year 2022.
Eligibility	Eligibility Determination	40736	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not send demographic transaction (HX12) for the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Renewals to MEDS during the month of October if the consumer has been subsequently, after the Renewal, discontinued for the current benefit year and an HX12 transaction was held due to the unavailability of the MEDS Renewal Calendar for January.
Eligibility	Eligibility Determination	40825	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow a consumer to reapply for coverage through the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Portal when their current eligibility status is Ineligible, Discontinued, or Undetermined for financial assistance programs.
Eligibility	Eligibility Determination	40826	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall apply MAGI Medi-Cal/MCAP/CCHIP Programs applicant rules on consumers who are reapplying through the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Portal when their current eligibility status is Ineligible, Discontinued, or Undetermined for all financial assistance programs.
Eligibility	Eligibility Determination	40827	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall lift Negative Action or Non-Compliance for a consumer who is reapplying for coverage through the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Portal.
Eligibility	Eligibility Determination	40831	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall lift Negative Action or Non-Compliance when a consumer is outside of the MAGI Medi-Cal FPL limit.
Eligibility	Eligibility Determination	40832	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall lift Negative Action when a consumer is outside of the MAGI Medi-Cal FPL limit and the Negative Action is configured to not apply to Exchange Subsidized programs.
Eligibility	Eligibility Determination	40834	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall continue to determine a person as Ineligible or Discontinued for MAGI Medi-Cal when the person has a Negative Action or Non-Compliance that was automatically lifted, and the person remains outside of the MAGI Medi-Cal income limit.
Eligibility	Eligibility Determination	40835	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall apply the verification Reapplication Caching Rules for consumers that do not have active eligibility, and are reapplying for coverage through the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) portal when Negative Action or Non-Compliance is lifted by California Healthcare Eligibility, Enrollment and Retention System (CalHEERS).
Eligibility	Eligibility Determination	40841	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall ensure that a person who has been discontinued from MAGI Medi-Cal and did not go into Soft Pause due to a Soft Pause lift from SAWS, will remain Discontinued from MAGI Medi-Cal when outside of the MAGI Medi-Cal FPL limit.
Eligibility	Eligibility Determination	40923	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the effective dating logic for individuals who transition from restricted to full scope MAGI Medi-Cal eligibility to be the first of the redetermination month.
Eligibility	Eligibility Determination	41129	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall change 60 days postpartum to 365 days postpartum (365 day period after the pregnancy ends and any remaining days in the month in which the 365th day falls)
Eligibility	Eligibility Determination	41130	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall apply the extended postpartum period to all the individuals who are subject to postpartum protection.
Eligibility	Eligibility Determination	41131	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall extend the postpartum protection period for existing individuals with an ongoing unexpired postpartum date when eligibility is determined on or after the policy effective date.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

OTSI CalHEERS RFP #73040873 Addendum 1
October 31, 2025

Category	Sub Category	Req ID	Requirement
Eligibility	Eligibility Determination	41133	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have a configurable functionality to turn this change ON/OFF based on the policy effective date.
Eligibility	Eligibility Determination	41134	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add the functionality to set a configurable postpartum period (in number of days) when this change is effective based on the configurable effective date of the policy.
Eligibility	Eligibility Determination	41135	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send the configured postpartum period (Number of Days) to SAWS on E-Hit transaction when eligibility is determined.
Eligibility	Eligibility Determination	41136	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send the postpartum end date to SAWS on E-Hit transaction when eligibility is determined.
Eligibility	Eligibility Determination	41137	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the postpartum end date on the Budget worksheet when eligibility is determined.
Eligibility	Eligibility Determination	41138	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall run a one-time batch for redetermining eligibility for individuals who are MCAP eligible with an unexpired post partum end date after the change is effective for postpartum extension
Eligibility	Eligibility Determination	41139	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall exclude the following cases from this one-time staging batch, 1. Cases closed as duplicate 2. Cases with application status as Terminated
Eligibility	Eligibility Determination	41140	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall set the following case note for the one-time staging batch - 'Effective April 1, 2022, pursuant to the American Rescue Plan Act (ARPA), an individual eligible for pregnancy and postpartum care services under the Medi-Cal Access Program (MCAP) is entitled to 365 days of postpartum coverage instead of 60 days. Coverage will be effective until the end of the month in which the 365th day falls'
Eligibility	Eligibility Determination	41141	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall set the QLE reason as 'None of the Above (Continue to Review my application for Medi-Cal or MCAP)' for one-time staging batch
Eligibility	Eligibility Determination	41142	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall apply the extended postpartum period to all the individuals irrespective of the MAGI Medi-Cal Aid Code.
Eligibility	Eligibility Determination	41143	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall apply the discontinuance rules for individuals in postpartum period only if specific Negative Action is received.
Eligibility	Eligibility Determination	41144	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not apply any discontinuance rules for individuals in postpartum period when Non-compliance action is received.
Eligibility	Eligibility Determination	41195	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the portal language in the tool tips for Minimum Value and Affordability Standards in consumer view.
Eligibility	Eligibility Determination	41196	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the portal language in the hover over icon for Minimum Value and Affordability Standards in flexible application.
Eligibility	Eligibility Determination	41197	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the link provided in the consumer view portal for definition of Minimum Value Standard.
Eligibility	Eligibility Determination	41198	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the link provided in the consumer view portal for definition of Affordability.
Eligibility	Eligibility Determination	41199	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the Spanish translation text for incorrect Authentication Code error messages on Consumer Delegation page
Eligibility	Eligibility Determination	41200	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the link provided in the consumer view portal for definition of Employer Coverage.
Eligibility	Eligibility Determination	41201	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the Spanish portal language in the tool tips for Employer Coverage in consumer view.
Eligibility	Eligibility Determination	41228	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall rebrand 'Coverage Date Category' as 'Eligibility Effective Date Category' on the Special Enrollment page and the Household Verifications page.
Eligibility	Eligibility Determination	41229	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add a new Eligibility Effective Date Category of 'Loss of Coverage (MEC)' on the Special Enrollment page and the Household Verifications page.
Eligibility	Eligibility Determination	41230	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall assign an exchange eligibility effective date of the 1st day of the month following either the application date or the QLE date, whichever is later, when the Eligibility Effective Date Category 'Loss of Coverage (MEC)' is selected by the admin user.
Eligibility	Eligibility Determination	41231	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall assign an exchange eligibility effective date of the 1st day of the month following either the Report a Change date or the QLE date, whichever is later, and the Eligibility Effective Date Category 'Loss of Coverage (MEC)' is selected by the admin user.
Eligibility	Eligibility Determination	41233	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add functionality to no longer send the TermDateOfCurrentOrOfferedCoverage element on the DER/DER-U.
Eligibility	Eligibility Determination	41234	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add functionality to no longer persist or use the TermDateOfCurrentOrOfferedCoverage element when received from SAWS via the EDR.
Eligibility	Eligibility Determination	41235	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall turn off business validation 153 - 'Current Coverage Ind Mapped to Yes'.
Eligibility	Eligibility Determination	41236	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall apply updated exchange eligibility determination rules when SEP reason 'Lost or will lose Health Coverage' is selected.
Eligibility	Eligibility Determination	41240	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall assign an exchange eligibility effective date of the 1st day of the month following either the application date or the QLE date, whichever is later, when SEP reason 'Lost or will lose health coverage' is selected.
Eligibility	Eligibility Determination	41241	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall assign an exchange eligibility effective date of the 1st day of the month following either the Report a Change date or the QLE date, whichever is later, when SEP reason 'Lost or will lose health coverage' is selected.
Eligibility	Eligibility Determination	41242	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall evaluate the individual for all Exchange programs when other health coverage is ending in the next 60 days.
Eligibility	Eligibility Determination	41243	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall only evaluate the individual for unsubsidized program eligibility when other health coverage is not ending in the next 60 days, and discontinue subsidy if the individual is found previously eligible for subsidy programs.
Eligibility	Eligibility Determination	41244	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall auto-populate the Eligibility Effective Date Category based on the SEP reason selected on the Special Enrollment page.
Eligibility	Eligibility Determination	41245	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the label on the QLE Date field on the Special Enrollment page.
Eligibility	Eligibility Determination	41246	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the Accordion on the QLE Date field on the Special Enrollment page.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

OTSI CalHEERS RFP #73040873 Addendum 1
October 31, 2025

Category	Sub Category	Req ID	Requirement
Eligibility	Eligibility Determination	41247	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) BRE shall detect the SEP reason 'APTC – Detected low FPL' during OSEP and SEP, for individuals whose APTC household income is at or below a configured FPL limit and at least one member of the household meets all other eligibility criteria to be deemed Eligible or Conditionally Eligible to APTC/CSR, regardless of whether the household attested to a valid QLE.
Eligibility	Eligibility Determination	41248	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have a configurable setting for the FPL limit used to determine the Detected SEP Reason 'APTC – Detected low FPL' for exchange eligible individuals.
Eligibility	Eligibility Determination	41249	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have a configurable setting for the Detected SEP Reason 'APTC – Detected low FPL' to be turned on and off.
Eligibility	Eligibility Determination	41250	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall apply the first of following month rule to determine the eligibility effective date when the new SEP reason 'APTC – Detected low FPL' is detected.
Eligibility	Eligibility Determination	41251	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall grant Exchange eligibility for individuals when the attested SEP reason is 'None of the above', detected SEP reason is 'APTC - Detected Low FPL' and the individual meets all the other eligibility criteria to be Eligible or Conditionally Eligible to APTC/CSR.
Eligibility	Eligibility Determination	41252	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) BRE shall apply the most advantageous Exchange eligibility effective date when the attested SEP reason, detected SEP reason, or Eligibility Effective Date Category is present, with the following exception: - When the attested SEP reason has a valid prospective QLE date and the detected SEP reason is not 'Loss of MEC', the eligibility effective date rule for the attested SEP reason shall apply.
Eligibility	Eligibility Determination	41254	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send the detected SEP reason of 'APTCDetectedLowFPL' in the Extended Applicant Event Code to GI via Account transfer, if 'APTC – Detected low FPL' is used to determine the eligibility for that BRE run.
Eligibility	Eligibility Determination	41255	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the 'Change Plan' button on the Eligibility Results Page once the user has chosen the plan and the 'APTC-Detected Low FPL' is detected until a different SEP is sent to GI via Account Transfer.
Eligibility	Eligibility Determination	41256	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the 'Change Plan' button on the Account Home Page once the user has chosen the plan and 'APTC-Detected Low FPL' is detected until a different SEP is sent to GI via Account Transfer.
Eligibility	Eligibility Determination	41257	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add "Current health care program or Medicare coverage to end in the next 60 days, resulting in loss of coverage?" with the values "Yes/No" on the following pages: Health Care & Citizenship Review Final Review: Individual Info
Eligibility	Eligibility Determination	41258	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall replace the "MM/DD/YYYY Day/Time" values with the values "Y/N" for the question "Is [HJM] expecting their current health care program or Medicare to end in the next 60 days resulting in the loss of coverage?" on the Application PDF.
Eligibility	Eligibility Determination	41286	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the technical components for the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS Interface (known as EHIT) for communication with the SAWS for functional changes made to the system for the following Release 22.2 functional CRs: - CR 171387 (Case Linkage) - CR 168267 (Implement additional language preferences per MEDS update) - CR 164426 (Implement “Verify Current Income” Service for FDSH e-verification of Income) - CR 171373 (BREfS Initiative #10: California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Application Life Cycle) - CR 172212 (California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Verification Caching Update Phase II) - CR 182474 (Provide 12 months postpartum coverage to all aid codes with pregnancy services (M7, M8, M9, M0 & 0E))
Eligibility	Eligibility Determination	41288	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall enable the 'Choose Plan' button on the Eligibility Results Page for initial enrollment when 'APTC-Detected Low FPL' is detected, until a different SEP reason is sent to GI via Account Transfer.
Eligibility	Eligibility Determination	41289	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall enable the 'Choose Plan' button on the Account Home Page for initial enrollment when 'APTC-Detected Low FPL' is detected, until a different SEP reason is sent to GI via Account Transfer.
Eligibility	Eligibility Determination	41295	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the "Newly qualifies for app-based driver stipend" SEP reason to have its separate code and send to GI and SAWS.
Eligibility	Eligibility Determination	41296	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send and receive the SEP reason code for "Newly qualifies for app-based driver stipend" to SAWS via eHIT transaction.
Eligibility	Eligibility Determination	41298	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the list of federally recognized tribes.
Eligibility	Eligibility Determination	41345	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add the states of Virginia and Indiana to the dropdown of State for the AI/AN tribes.
Eligibility	Eligibility Determination	41346	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add the recognized tribes to the database.
Eligibility	Eligibility Determination	41347	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not display tribes which are no longer recognized by the Federal Tribe recognition website.
Eligibility	Eligibility Determination	41348	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update tribes to match the tribes on the Federal website.
Eligibility	Eligibility Determination	41349	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send and receive the newly added tribes via the eHIT transaction.
Eligibility	Eligibility Determination	41350	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall deprecate State Recognized tribes from eHIT.
Eligibility	Eligibility Determination	41351	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update individuals in the following tribes to "Tribe Not Listed": 1. AK - Unrelated 2. WI - Reservation of Wisconsin
Eligibility	Eligibility Determination	41352	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add a case note: "The tribal affiliation that was previously selected by a household member is not federally recognized. The tribal affiliation has been updated to Tribe Not Listed" for individuals who have had their tribe updated to "Tribe Not Listed" as their Tribe selected is no longer federally recognized.
Eligibility	Eligibility Determination	41353	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall move individuals from “Table Bluff Reservation-Wiyot Tribe” to “Wiyot Tribe (formerly the Table Bluff Reservation-Wiyot Tribe)”.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

OTSI CalHEERS RFP #73040873 Addendum 1
October 31, 2025

Category	Sub Category	Req ID	Requirement
Eligibility	Eligibility Determination	41354	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement a user-friendly approach for consumers to select the federally recognized tribe for the state that is selected.
Eligibility	Eligibility Determination	41355	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the flexi app to display the AI/AN Tribes in alphabetical order.
Eligibility	Eligibility Determination	41356	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall deprecate code 255 in eHIT code categories tribe list.
Eligibility	Eligibility Determination	41357	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add effective dating logic for the display of AI/AN Tribes.
Eligibility	Eligibility Determination	41358	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display BV163 if a tribe that has been end dated is submitted in EDR.
Eligibility	Eligibility Determination	41359	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update Spanish translations of the updated tribe names.
Eligibility	Eligibility Determination	41493	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall disregard incarceration verification when determining eligibility for the MAGI Medi-Cal program.
Eligibility	Eligibility Determination	41494	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the ability to configure the disregarding of the incarceration verification and the disregarding of the admin fail for incarceration.
Eligibility	Eligibility Determination	41497	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall disregard admin fail for incarceration verification for MAGI Medi-Cal determination.
Eligibility	Eligibility Determination	41498	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the eligibility results screen to: 1. Update Elig Factor 022, to display for CCP/MAGI Medi-Cal when SSA returns an individual is incarcerated or when an Admin Fails the Incarceration Verification. 2. Update upload documents next steps section when SSA returns an individual is incarcerated and has an outstanding incarceration verification that the individual may provide documents and therefore is not required to provide documents.
Eligibility	Eligibility Determination	41499	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send EERC 'NS' in DER when individuals are discontinued due to the new Negative Action for Incarceration.
Eligibility	Eligibility Determination	41513	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall deprecate all Portal snippet language referencing premiums for MCAP, CCHIP and OTLICP (Optional Targeted Low Income Children Program - MAGI Medi-Cal aid codes T1 through T0).
Eligibility	Eligibility Determination	41514	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall make the deprecation of portal snippet language configurable.
Eligibility	Eligibility Determination	41517	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall remove the discontinuance reason "Non-Payment of Premium" from the Discontinue County Children's Health Initiative Program (CCHIP) screen.
Eligibility	Eligibility Determination	41518	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall make the removal of the discontinuance reason "Non-Payment of Premium" from the Discontinue County Children's Health Initiative Program (CCHIP) screen configurable.
Eligibility	Eligibility Determination	41519	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update EligStatus_020 to change the number of days required to submit documentation from 23 to 17 days.
Eligibility	Eligibility Determination	41591	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall round the Maximum Premium Percentage to the nearest hundredth percent while calculating APTC and/or State Subsidy amounts.
Eligibility	Eligibility Determination	41592	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall truncate the decimal values for the household FPL % that is used to calculate MPP (Maximum Premium Percentage).
Eligibility	Eligibility Determination	41593	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall include the truncated FPL % in the budget worksheet under the APTC section.
Eligibility	Eligibility Determination	42118	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the link and PDF for the "Medi-Cal Confirmation Letter" to all consumers who are Conditionally Eligible for MAGI Medi-Cal programs.
Eligibility	Eligibility Determination	42176	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) will detect 'Loss of MEC' QLE when an MCAP individual is discontinued at the end of the postpartum period.
Eligibility	Eligibility Determination	42177	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall determine the next program eligibility when the MCAP individual has been discontinued due to the postpartum period ending.
Eligibility	Eligibility Determination	42178	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create a monthly MCAP discontinuance staging batch for active cases that have an MCAP individual with a postpartum end date in the benefit month when batch is run.
Eligibility	Eligibility Determination	42179	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall set the following case note for the Monthly MCAP discontinuance batch - 'MCAP discontinued by batch due to end of postpartum period'
Eligibility	Eligibility Determination	42180	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall set the QLE reason as 'None of the Above (Continue to Review my application for Medi-Cal or MCAP)' for the staging batch for MCAP.
Eligibility	Eligibility Determination	42181	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall exclude the following cases from this monthly staging batch, 1. Cases closed as duplicate 2. Cases with application status as Terminated
Eligibility	Eligibility Determination	42182	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not apply the discontinuance rules for individuals post postpartum period for prior Negative action & Non-Compliance reasons.
Eligibility	Eligibility Determination	42183	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not apply the discontinuance rules for individuals post postpartum who received a Negative action that was not applied during the postpartum period.
Eligibility	Eligibility Determination	42184	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not apply the discontinuance rules for individuals post postpartum who received a Non-Compliance reason that was not applied during the postpartum period
Eligibility	Eligibility Determination	42185	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall run a one-time DBCR to end date Negative Action and Non-Compliance records across existing MAGI Medi-Cal cases where an individual is under active pregnancy or active post partum and the individual was not Discontinued
Eligibility	Eligibility Determination	42186	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create a one-time staging batch for active cases that have MCAP Discontinuance built for a future month with respect to the batch run date and system determined postpartum end date is in future
Eligibility	Eligibility Determination	42187	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall set the following case note for the staging MCAP batch - 'One time batch to fix defect 58925-CCP eligibility for December 2022 is an error - MCAP eligibility is protected for 365 days after the end of pregnancy. No loss of MEC.'

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

OTSI CalHEERS RFP #73040873 Addendum 1
October 31, 2025

Category	Sub Category	Req ID	Requirement
Eligibility	Eligibility Determination	42188	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall set the QLE reason as 'None of the Above (Continue to Review my application for Medi-Cal or MCAP)' for the one-time MCAP Determination staging batch.
Eligibility	Eligibility Determination	42189	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall exclude the following cases from this one-time staging batch, 1. Cases closed as duplicate 2. Cases with application status as Terminated
Eligibility	Eligibility Determination	42257	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the fair share adjustment percentage amount for APTC for the benefit year 2023.
Eligibility	Eligibility Determination	43110	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall remove the “or click Renew” text and link in the Renewal Video section.
Eligibility	Eligibility Determination	43111	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall relabel the Renew button as the “Continue” button under the “RENEW YOUR COVERED CALIFORNIA COVERAGE” and "MEDI-CAL RENEWAL" sections that brings you to the “Renewal Summary” page.
Eligibility	Eligibility Determination	43112	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall relabel the “RENEW HEALTH PLAN” button to “CHOOSE HEALTH PLAN” on the Renewal Enrollment Introduction page.
Eligibility	Eligibility Determination	43113	The following sentence will be removed from the Renewal Enrollment Introduction page: “If your plan is not available for next year, you must take action to prevent a break in coverage. If you do not pick a plan by 12/15/2014, you will not have coverage for 1/1/2015.”
Eligibility	Eligibility Determination	43114	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall replace the following sentence, “For Covered California, if you do not select a plan by DATE, Covered California will automatically enroll you in your current plan for the 2015 benefit year.” with the following: “For Covered California, in most cases if you do not select a plan by <Cutoff Date>, Covered California will automatically enroll you in your current plan for the <Benefit Year> benefit year.”
Eligibility	Eligibility Determination	43115	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall disable the “Apply” and "Preview Plan" header navigation tabs on the menu bar when a user in Renewal mode is logged in.
Eligibility	Eligibility Determination	43116	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall update the Report A Change Summary page by changing “To make changes, click Edit or click next to the number you want to change” to read “To make changes, Click Edit”.
Eligibility	Eligibility Determination	43117	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall remove the question “Is this person a member of a Federally-recognized Indian Tribe?” from the Personal Data - Optional Data Page.
Eligibility	Eligibility Determination	43118	When a user's response is "Yes" on the Personal Data - Demographic Page to the question "Is this person a member of a Federally-recognized Indian Tribe?", the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall display the question "What state is the tribe recognized in?".
Eligibility	Eligibility Determination	43119	When a user's response is "Yes" on the Personal Data - Demographic Page to the question "Is this person a member of a Federally-recognized Indian Tribe?", the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall display the question "What is the name of the tribe?".
Eligibility	Eligibility Determination	43120	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall send the first ten Race options listed by the Consumer in GI and 834-outbound transactions.
Eligibility	Eligibility Determination	43121	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall provide messaging on the Eligibility Results page and the plan selection page when the eligibility start date is in the current year but the reported change cannot take effect during the current enrollment year.
Eligibility	Eligibility Determination	43122	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall support the ability to opt in and opt out of Exchange Renewals.
Eligibility	Eligibility Determination	43123	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall enable an admin user only to opt in or opt out of an Exchange Renewal.
Eligibility	Eligibility Determination	43124	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall allow an admin user to opt in or opt out of an Exchange Renewal until the renewal has been completed.
Eligibility	Eligibility Determination	43125	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall have the ability to remove a consumer from the automated batch renewal process for exchange renewals.
Eligibility	Eligibility Determination	43126	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the consumer the ability to terminate enrollment in the same manner as an Admin User.
Eligibility	Eligibility Determination	43127	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall be limited to at most two enrollment years at a time as defined by the REF_CALENDAR Specification.
Eligibility	Eligibility Determination	43128	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall enable/disable multi-year functionality through "Year" dropdown features. This includes on the Terminate Participation, Reinstate, Change Plan Effective Dates, and Preview Plan pages.
Eligibility	Eligibility Determination	43129	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall have validation rules for Terminate Participation, Reinstatement and Change Plan Effective Date, and Update Year of Consent pages so that data integrity is maintained.
Eligibility	Eligibility Determination	43130	"The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall use the following validation logic on the Terminate Participation page: - Termination Date must be between 1/1 and 12/31 of the benefit year in question. - Termination Date must be after the coverage start date."
Eligibility	Eligibility Determination	43131	"The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall use the following validation logic on the Reinstatement and Change Plan Effective Date page: - Start date must be on or after 1/1 of the benefit year in question. - End date must be between 1/1 and 12/31 of the benefit year in question, and must be after the coverage start date."
Eligibility	Eligibility Determination	43132	"The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall use the following validation logic on the Update Year of Consent page: - No dates before 10/01/2013 - No future dates from date user enters value."
Eligibility	Eligibility Determination	43133	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall enable Report a Change right hand navigation link for the renewal year following the renewal application submission.
Eligibility	Eligibility Determination	43134	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall always show an actionable button on the Individual Landing page regardless of whether the case is currently under magi medical renewal.

Category	Sub Category	Req ID	Requirement
Eligibility	Eligibility Determination	43135	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display conditional linfomation for MAGI and Exchange Renewals and a single "Continue" button when either program is in renewal mode.
Eligibility	Eligibility Determination	43136	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall navigate the user to the appropriate page when they click the Continue button when either program is in Renewal Mode.
Eligibility	Eligibility Determination	43137	The California Healthcare Eligiblity, Enrollment and Retention System (CalHEERS) System shall modify the page display for the Renewals landing page to inlcude a single box containing conditionally displayed text informing the consumer of their next actions to complete renewal.
Eligibility	Eligibility Determination	43157	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall bypass the plan selection process for an Exchange Program when the user reports only a change in residence address, regardless of life event when the rating region based on zip code and/or county code has not been changed.
Eligibility	Eligibility Determination	43158	The California Healthcare Eligiblity, Enrollment and Retention System (CalHEERS) System shall bypass the plan selection process for a case when the user reports only a change in mailing address regardless of life event.
Eligibility	Eligibility Determination	43159	The California Healthcare Eligiblity, Enrollment and Retention System (CalHEERS) System shall accept out of State Mailing Addresses.
Eligibility	Eligibility Determination	43160	The California Healthcare Eligiblity, Enrollment and Retention System (CalHEERS) System shall allow out of state addresses on the following pages: Primary Contact, Address and Contact, and Flexible Application
Eligibility	Eligibility Determination	43161	"The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall grant whichever CSR level is available to all members of an APTC Household whenever an eligibility determination is completed including during Batch runs. Per Covered California regulations §6474(d)(4), the hierarchy of CSR categories are: 1. AI/AN <300% FPL (CS2) 2. Silver 94 (CS6) 3. Silver 87 (CS5) 4. Silver 73 (CS4) 5. AI/AN >300% FPL (CS3) 6. Ineligible for CSR (CS1) "
Eligibility	Eligibility Determination	43162	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall automatically determine when to apply Special Enrollment rules even during an Open Enrollment period.
Eligibility	Eligibility Determination	43163	"The California Healthcare Eligiblity, Enrollment and Retention System (CalHEERS) System shall have the functionality for Admin users to select a Qualifying Life Event that is associated with the Special Enrollment Period during the Open Enrollment Period."
Eligibility	Eligibility Determination	43164	"The California Healthcare Eligiblity, Enrollment and Retention System (CalHEERS) System shall have the functionality for Non-Admin users to select a Qualifying Life Event that is associated with the Special Enrollment Period during the Open Enrollment Period. "
Eligibility	Eligibility Determination	43165	The California Healthcare Eligiblity, Enrollment and Retention System (CalHEERS) System shall have the functionality to determine eligibility for consumers with Qualifying Life Events associated with the Special Enrollment Period during the Open Enrollment Period.
Eligibility	Eligibility Determination	43166	The California Healthcare Eligiblity, Enrollment and Retention System (CalHEERS) System shall have the functionality to allow Non-Admin Users to Report A Change for the current benefit year during the Open Enrollment Period until 12/31.
Eligibility	Eligibility Determination	43216	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide the ability for an Admin to Redetermine Eligibility without a special enrollment reason.
Eligibility	Eligibility Determination	43217	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall trigger eligibility determination process whenever an applicant's name is changed and there is a resultant change in the SSA/VLP verification results.
Eligibility	Eligibility Determination	43218	The California Healthcare Eligiblity, Enrollment and Retention System (CalHEERS) System shall display the View Confirmation Pop-Up for Admin Users on click of RAC 2014 link on the Individual Landing Page.

Category	Sub Category	Req ID	Requirement
Eligibility		43219	"The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall validate Email with the following rules. Email: - Minimum of 1 character (if required) and maximum of 50 characters - Name - If there is a period, first characters prior to first period character (any combination of) - Underscores - Lower case letters - Upper case letters - Digits 0 through 9 - Hyphens - Rest of name (any combination of) - Periods - Underscores - Lower case letters - Upper case letters - Digits 0 through 9 - Hyphens - @ symbol - Domain name (any combination of) - If there is a period, prior to first period - Lower case letters - Upper case letters - Digits 0 through 9 - Hyphens - After first period (any combination of) - Periods - Lower case letters - Upper case letters - Digits 0 through 9 - Hyphens - Extension (last period precedes extension) - 2 to 4 lower case letters or upper case letters for example ('com', 'net', 'org', etc.)"
Eligibility	Eligibility Determination	43220	"The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall validate Address Line 1, Address Line 2 with the following rules. Address Line 1 and Address Line 2 (any combination of): • Minimum of 1 character (if required) and maximum of 50 characters • Digits 0 to 9 • Lower case letters • Upper case letters • Periods • Apostrophes • Hyphens • Commas • Spaces • Forward Slash • Backward Slash • Number Sign (#) "
Eligibility	Eligibility Determination	43225	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall display the qualifying life events of "Had a baby or adopted a child" and "None of the above (Continue to review my application for Medi-Cal or MCAP)" when the Consumer is in Open Special Enrollment and may qualify for an earlier start date.
Eligibility	Eligibility Determination	43307	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall Discontinue Pending Medi-Cal individuals that were previously Conditionally Eligible or Eligible on Medi-Cal for the same application when a Negative Action is applied.
Eligibility	Eligibility Determination	43308	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall issue a Denial for individuals reapplying for aid regardless when the person was previously Conditionally Eligible or Eligible on Medi-Cal when a Negative Action is applied.
Eligibility	Eligibility Determination	43309	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall observe a 10-day notice period (10 calendar days from the last day of the current month) prior to discontinuing benefits for an individual who has gone from Conditionally Eligible or Eligible to Pending for MAGI Medi-Cal and a Negative Action is applied.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Eligibility	Eligibility Determination	43310	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall not observe a 10-day notice period (10 calendar days from the last day of the current month) prior to discontinuing benefits for an individual who has gone from Conditionally Eligible/Eligible to Pending for MAGI Medi-Cal and a Negative Action is applied if one of the following individual level negative action run reason codes is provided for at least one member in the household: o 85 - Deceased o K4 - Requested Disc. - Written o CN - On Aid Another Case o 07 - Whereabouts Unknown
Eligibility	Eligibility Determination	44488	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall apply the existing IAP Application rules for Intake/Add a Person during the Open Enrollment and Renewal period when determining eligibility for MAGI Medi-Cal, MCAP or CCHIP.
Eligibility	Eligibility Determination	44489	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display "Apply Now" mode for MAGI Medi-Cal only cases when MAGI-Medi-Cal eligibility for all members is Inactive.
Eligibility	Eligibility Determination	44490	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display Report a Change (RAC) for MAGI Medi-Cal only cases when MAGI-Medi-Cal eligibility for one or more members is Active
Eligibility	Eligibility Determination	45786	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall place a MAGI Medi-Cal beneficiary in Awaiting Review status when a beneficiary's eligibility is set to discontinue during SAWS Batch Renewal and the beneficiary does not meet Soft-Pause criteria
Eligibility	Eligibility Determination	45827	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display "Report A Change" button for the future year after the in-progress Renewal Report A Change (RRC) is withdrawn by the BAT 41 Closure batch
Eligibility	Eligibility Determination	45828	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display "Apply Now" button for the future year after the in-progress/unsubmitted Renewal application is withdrawn by the BAT 41 Closure batch
Eligibility	Eligibility Determination	45829	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not withdraw submitted Renewal or submitted Renewal Report a Change (RRC) applications when Admin opt out of renewal has been performed on the case for future benefit year
Eligibility	Eligibility Determination	45830	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall withdraw in-progress/unsubmitted Renewal applications when Admin opt out has been performed on the case for future benefit year
Eligibility	Eligibility Determination	45831	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not withdraw In-progress Renewal Report A Change (RRC) applications when Admin opt out has been performed on the case for future benefit year
Eligibility	Eligibility Determination	45847	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not trigger Soft-Pause for MAGI Medi-Cal beneficiaries moving from a MAGI Medi-Cal non-premium aid code to a MAGI Medi-Cal premium aid code, when there is a change initiated during an eligibility run if an individual meets the Soft-Pause criteria and the configuration is turned ON.
Eligibility	Eligibility Determination	45848	When moving from non-premium MAGI Medi-Cal aid code to premium MAGI Medi-Cal aid code, the Soft Pause functionality will be configured such that it can be turned on or off.
Eligibility	Eligibility Determination	45849	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not apply the Soft-Pause for MAGI Medi-Cal beneficiaries moving from a MAGI Medi-Cal non-premium aid code to a MAGI Medi-Cal premium aid code when the configuration is turned ON
Eligibility	Eligibility Determination	45850	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall apply the Soft-Pause for MAGI Medi-Cal beneficiaries moving from a MAGI Medi-Cal non-premium aid code to a MAGI Medi-Cal premium aid code when the configuration is turned OFF
Eligibility	Eligibility Determination	45851	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall make text updates to ROP snippets in the NOD01 ab/c.
Eligibility	Eligibility Determination	45852	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall make text and triggering updates to ROP snippets in the NOD01ab/c
Eligibility	Eligibility Determination	45853	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the text for snippet 301 in the NOD01
Eligibility	Eligibility Determination	45854	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the triggering conditions for snippet 301 under NOD01 Snippet Table
Eligibility	Eligibility Determination	45855	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create a new snippet for the NOD01ab/c for consumers who are conditionally eligible for CCA/CCHIP or pending MCAP
Eligibility	Eligibility Determination	45856	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the text of the triggering conditions for snippets 890 and 891 to reflect current functionality
Eligibility	Eligibility Determination	45857	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create a new snippet containing Health Insurance Counseling & Advocacy Program (HICAP) information in case a consumer would like to utilize those resources.
Eligibility	Eligibility Determination	45858	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall make triggering updates to snippets in the NOD01ab/c.
Eligibility	Eligibility Determination	45859	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not trigger the NOD70A/b for households with the following criteria: • Was enrolled in a QHP or QDP at the time of staging but both QHP and QDP are in terminated or cancelled status at the time of notice generation
Eligibility	Eligibility Determination	45860	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the SB260 fliers in all threshold languages to remove the Bright HealthCare logo on the bottom of the first page.
Eligibility	Eligibility Determination	45940	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not set the ROP date if an individual is in the PVC process for one of the data elements – Medicare or Deceased and a RAC is performed in a subsequent run which meets ROP criteria for the same data element with the following exception: When cache is cleared for the verification attribute that is in the PVC process
Eligibility	Eligibility Determination	45943	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the triggering conditions for the Eligibility factors Elig Factor_021, EligFactor_058 and EligFactor_91 to display on the Eligibility Individual Result
Eligibility	Eligibility Determination	45944	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the eligibility results screen to update the Language for Elig Factor_021, EligFactor_058 and EligFactor_91.
Eligibility	Eligibility Determination	45945	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall deprecate EligFactor_124.
Eligibility	Eligibility Determination	45946	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add a new Eligibility Snippet to display when a household member is Discontinued from Exchange Financial Assistance Programs as a result of the PDM Discontinuance Batch run due to an expired Medicare due date.

Category	Sub Category	Req ID	Requirement
Eligibility	Eligibility Determination	45950	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall interpret the correct verification status for Non-ESI and ESI when the individual has been verified to have Non-ESI or ESI.
Eligibility	Eligibility Determination	45951	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not mark an SSN verification as e-verified when the SSN is removed prior to Intake submission.
Eligibility	Eligibility Determination	45952	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall only use the current SSN data attested regardless of the verification status for SSA calls
Eligibility	Eligibility Determination	45953	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall call all electronic verification services, except VLP and MEDS, only when an SSN is e-verified
Eligibility	Eligibility Determination	45954	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create a mock service for the State Residency verification attribute to indicate the verification source that is used to determine electronic verifications.
Eligibility	Eligibility Determination	45955	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display an individual's first name and last name on the VLP Summary screen when the DocumentInfo tag received under EDR didn't have the required details.
Eligibility	Eligibility Determination	45956	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall re-verify the SSN when date of birth has changed.
Eligibility	Eligibility Determination	45957	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update an Admin's ability to update Verification Statuses on the Personal Verification page of the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Portal or via the SAWS access channel.
Eligibility	Eligibility Determination	45958	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update mock services for testing of 5 Year Bar functionality by removing invalid mock services from Step 1, Step 2, and Step 3.
Eligibility	Eligibility Determination	45959	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the BRF01.03 to indicate that the eligibility impact from 5 Year Bar is contained in BRF01.16.
Eligibility	Eligibility Determination	45960	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the PRUCOL verification status to display only 'Not Verified', 'Admin Pass' or 'Admin Fail'.
Eligibility	Eligibility Determination	45961	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the ability to recall a VLP Step after the 24 hour retry has ended for Step 2 or Step 3, and the case is in an error status or the VLP case can be closed to recall Step 1.
Eligibility	Eligibility Determination	45962	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not display "Not Lawfully Present" on VLP Admin pages when the call has a response code other than HS000000.
Eligibility	Eligibility Determination	45963	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create mock services for a scenario where self-attested application has \$0 income and is determined as Reasonable Compatible via all sources.
Eligibility	Eligibility Determination	45964	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update WPS08.18c to specify the display logic for the Outstanding Verification page.
Eligibility	Eligibility Determination	45965	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update BRF01.16 to state that Incarceration and Deceased should not be getting a ROP date if SSN has not been provided
Eligibility	Eligibility Determination	46008	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the attribute name of 5 Year Bar met/exempt on the Personal Verification page.
Eligibility	Eligibility Determination	46025	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use the saved response (Agree/Disagree) for the PVC flagged individual(s) at subsequent eligibility determination run during the PVC process and remove the PVC flag and PVC expiration date regardless of, - If call to SSA/Non-ESI is made due to a "Pending" or "Not Verified" verification status for Medicare and/or Deceased - If SSA is called due to update to data elements other then deceased (E.g., income), Deceased verification is returned regardless, as it is a tag along element? If there is an Admin verification (Pass/Fail) received from SAWS/California Healthcare Eligibility, Enrollment and Retention System (CalHEERS)
Eligibility	Eligibility Determination	46060	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall utilize existing/cached e-verifications or admin verifications for Income, Medicare, and Deceased from up to 90 days prior to the eligibility determination request date if available for SAWS MAGI Medi-Cal Renewals verification.
Eligibility	Eligibility Determination	46061	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall utilize the existing/cached e-verification or admin verification within the past 365 days for Incarceration when available for SAWS MAGI Medi-Cal Renewals verification.
Eligibility	Eligibility Determination	46088	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not allow an Admin user to directly update the verification status of attributes with an existing "E-Verified" status unless the verification cache is cleared.
Eligibility	Eligibility Determination	46089	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not consume Admin Pass or Admin Fail received from SAWS for an existing "E-Verified" status unless the verification cache is cleared.
Eligibility	Eligibility Determination	46090	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall only allow an Admin user to update verifications from "Pending", "Not Verified", "Pass", or "Fail" statuses to only "Pass" or "Fail".
Eligibility	Eligibility Determination	46315	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall grant full scope Medi-Cal eligibility for all Modified Adjusted Gross Income (MAGI) eligible individuals who are 26 through 49 years of age, inclusive, regardless of their citizenship or immigration status if they meet all other eligibility criteria.
Eligibility	Eligibility Determination	46316	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall apply the corresponding full scope aid codes for otherwise eligible individuals who are 26 through 49 years of age, inclusive, regardless of their citizenship or immigration status.
Eligibility	Eligibility Determination	46317	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement configurable functionality to grant full scope Medi-Cal eligibility to otherwise eligible individuals who are 26 through 49 years of age, inclusive, regardless of their citizenship or immigration status (without impacting other release functionality) based on the policy effective date, 1/1/2024.
Eligibility	Eligibility Determination	46318	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide all necessary system testing and batch processing support for SAWS as needed.
Eligibility	Eligibility Determination	46334	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow users to navigate further when a file is not uploaded successfully on the Eligibility Results Upload Document screen.
Eligibility	Eligibility Determination	46335	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the error message as There was a file upload error. You will need to upload this document again. when a file upload is unsuccessful on the Eligibility Results Upload Document screen.
Eligibility	Eligibility Determination	46336	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall only allow specific users to access the Link ECM Document under Add Document section.
Eligibility	Eligibility Determination	46346	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update eligibility re-determination rules that will allow a MCAP individual with a postpartum ending in the month of December to be re-determined for the current and upcoming benefit year.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

OTSI CalHEERS RFP #73040873 Addendum 1
October 31, 2025

Category	Sub Category	Req ID	Requirement
Eligibility	Eligibility Determination	46470	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall always reference the income tax data from most recent tax year available from FTB income verification source across all eligibility run reasons
Eligibility	Eligibility Determination	46471	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create a new mock service rule to specify the tax year of income data which is received from FTB income verification source.
Eligibility	Eligibility Determination	46586	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the triggering conditions for the EligFactor_91 to display on the Eligibility Individual Result: 1. Display if person household member is Discontinued or denied because an admin set the Medicare verification to“Fail”. 2. Display when the individual household member does not qualify for APTC/CSR/CAPS due to Medicare coverage because they are enrolled in a plan and the hub returns that the person has Medicare coverage. Please note having a plan includes "enrolled", "pending" and "future terminations of a plan".
Eligibility	Eligibility Determination	46626	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the configuration for the "valid cache period" for SAWS Batch Renewals to be -1 for Income, Incarceration, Medicare, and Deceased so verification calls are always made for these verification types during SAWS Batch Renewals.
Eligibility	Eligibility Determination	46627	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the configuration for the "valid cache period" for SAWS Manual Renewals to be 999999 for Income, Incarceration, Medicare, and Deceased so verification calls are not made for these verification types unless there is a change in an impacted data element during SAWS Manual Renewals.
Eligibility	Eligibility Determination	46651	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall grant Accelerated Enrollment for all Modified Adjusted Gross Income (MAGI) Medi-Cal eligible adults regardless of category (Adult, Parent/Caretaker, pregnancy, Etc.) and who are Pending/Not Verified for any verifications except Pending MEC MEDS or Not Verified MEC MEDS without a CIN from California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) access channel for following intake scenarios : - Initial Intake/Same day remediation, - Add a person scenario (Report a Change/Renewals), - RAC/Renewal scenario where existing household member becomes a new Applicant.
Eligibility	Eligibility Determination	46652	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall grant Accelerated Enrollment for all Modified Adjusted Gross Income (MAGI) Medi-Cal eligible Children who are under 19 years of age and who are Pending or Not Verified for any verifications except Pending MEC MEDS or Not Verified MEC MEDS without CIN from California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) access channel for following intake scenarios: - Initial Intake/Same day remediation, - Add a person scenario (Report a Change/Renewals), - RAC/Renewal scenario where existing household member becomes a new Applicant.
Eligibility	Eligibility Determination	46653	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement three configuration settings that will be set for all Negative Action Reasons, at the reason code level, which in addition to the active/ pending enrollment status for the individual, will determine if the negative action will impact eligibility to CCP/APTC/CAPS/CSR.
Eligibility	Eligibility Determination	46654	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement a configuration setting that will be set for all Negative Action Reasons, in addition to the active/ pending enrollment status for the individual, will decide if the negative action will impact eligibility to CCP for consumers who are within MAGI Medi-Cal Income limits. If the setting is "ON", the person will be eligible for CCP regardless of the enrollment status. If the setting is "OFF" and the individual is not actively enrolled, the person will be ineligible for CCP.
Eligibility	Eligibility Determination	46655	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement a configuration setting that will be set for all Negative Action Reasons, which in addition to the active/ pending enrollment status for the individual, will decide if the negative action will impact eligibility to CCP for consumers who are outside MAGI Medi-Cal Income limits.
Eligibility	Eligibility Determination	46656	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement a configuration setting that will be set for all Negative Action Reasons, which in addition to the active/ pending enrollment status for the individual, will decide if the negative action will impact eligibility to APTC/CAPS/CSR programs for consumers who are outside MAGI Medi-Cal Income limits.
Eligibility	Eligibility Determination	46657	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall evaluate the individual for Exchange program eligibility, if the individual is actively enrolled (Active/Pending) and a negative action is received for the individual, regardless of the configuration settings for the negative action.
Eligibility	Eligibility Determination	46658	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall deny (Ineligible)/discontinue Exchange eligibility for an individual who does not have an active/pending enrollment, when SAWS sends a Negative Action of "On aid on another case" and SAWS admin verification for MEDS MEC is set as 'Fail', regardless of the Negative Action configurations.
Eligibility	Eligibility Determination	46659	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall utilize the results from the MEDS MEC check and consider an individual's MAGI Medi-Cal MEC AID Code received from MEDS to indicate the individual is receiving MEC and ineligible for exchange programs if the individual is not transitioning/discontinuing from MAGI Medi-Cal eligibility on the same case.
Eligibility	Eligibility Determination	46660	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall evaluate the individual for conditional eligibility to exchange program(APTC/CSR/CAPS) if the MEDS MEC check response is for a MAGI Medi-Cal MEC Aid Code for a future period.
Eligibility	Eligibility Determination	46666	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement a functionality to determine Strike Lockout (SLS) Benefit Eligibility for consumers who have attested to Loss of MEC and attested to the fact that the loss is due to labor disputes caused by a Strike Lockout.
Eligibility	Eligibility Determination	46667	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create and display a new question asking the user "Did you lose health coverage due to a Strike or Lockout" in an intake application during the OE period to all users.
Eligibility	Eligibility Determination	46668	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall only display the new Strike Lockout question "Did you lose health coverage due to a Strike or Lockout" in intake applications during SEP if the user selects the QLE "Lost or will lose health Coveage"
Eligibility	Eligibility Determination	46669	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the new Strike Lockout question "Did you lose health coverage due to a Strike or Lockout"during the RAC flow if the consumer does not have a previously attested Strike Lockout instance and selects the QLE "Lost or will lose health coverage"
Eligibility	Eligibility Determination	46670	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create a new screen that will maintain the strikes/lockouts that are active and will maintain the duration of the Strike Lockout.
Eligibility	Eligibility Determination	46671	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow specific admin users with access to add or edit Strike Lockout instances
Eligibility	Eligibility Determination	46672	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display all active Strike Lockout records in the active tab of the new Strike Lockout admin screen.
Eligibility	Eligibility Determination	46673	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display all inactive Strike Lockout records in the inactive tab of the new Strike Lockout admin screen where they will be view only and cannot be edited

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Eligibility	Eligibility Determination	46674	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to display the active strikes/lockout on the Portal for the consumer/user to select while attesting to being impacted by labor disputes.
Eligibility	Eligibility Determination	46675	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display default values "Not Listed" and "Labor Dispute" as an option if consumers cannot find an impacted active Strike Lockout instance
Eligibility	Eligibility Determination	46676	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display a next text box for user entry to add a Strike Lockout detail when consumer selects an active strike record as "Not Listed" or "Labor Dispute"
Eligibility	Eligibility Determination	46677	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall cease to display a strike record under the Portal SLS option after it is inactivated or end dated under the admin screen
Eligibility	Eligibility Determination	46678	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add the ability for users to select and indicate which household members are impacted by the Strike Lockout reason while attesting for an active Strike Lockout
Eligibility	Eligibility Determination	46679	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall require that consumers apply for an Insurance Affordability Program (IAP) with a subsidized application in order to be eligible for Strike Lockout benefit.
Eligibility	Eligibility Determination	46680	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add the responses to the Strike Lockout questions in the review before application submission page
Eligibility	Eligibility Determination	46681	CalHEERS shall add the responses to the Strike Lockout questions in the application pdf that is generated from the view application link from the Eligibility Results page
Eligibility	Eligibility Determination	46682	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add the folowing messaging in the application flow, when a consumer attests to being impacted by a strike: The Strike Lockout Benefit will not show in your eligibility. Do not pick a plan once you submit your information. Please call our service center at (800) 793-6385 so we can enroll you in a plan that saves you the most on your premium (monthly cost).
Eligibility	Eligibility Determination	46842	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall disregard MAGI Medi-Cal Discontinuance records from the look-back logic for MAGI Medi-Cal eligibility determinations that occurred within the Continuous Coverage [Start Date] and [End Date].
Eligibility	Eligibility Determination	46844	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the ability to configure [Start Date], [End Date] and the [Discontinuance Start Date].
Eligibility	Eligibility Determination	46846	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate the following case note at the case level when the enhanced look back logic is triggered on the case: 'CR 247111 Enhanced Lookback logic was triggered on this case. MAGI Medi-Cal eligibility determination may have disregarded a previous discontinuance if it occurred during the Medicaid Continuous Coverage period due to the Public Health Emergency.'
Eligibility	Eligibility Determination	46888	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add a configuration for Policy Effective Date to determine DACA as lawful presence and eligibility for APTC/CSR/CCP/CAPS programs
Eligibility	Eligibility Determination	46889	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update mock services to include DACA as Lawfully Present.
Eligibility	Eligibility Determination	46890	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send DE2009 as '3' if any of the following conditions meet: - - consumer attests to Immigration status of 'DACA' - if COA Code returned from VLP is DAT or ER
Eligibility	Eligibility Determination	47041	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall apply the income verification waiver to Current Monthly Income (CMI) and Projected Annual Income (PAI) for individuals that are renewed on MAGI Medi-Cal renewals (RE) if their attested household income is at or below 100% FPL and their CMI and/or PAI verification is either pending or not verified until the income verification waiver expires.
Eligibility	Eligibility Determination	47042	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add a new eligibility determination factor of "IWC" (person meets income verification waiver - CMI) for any individual with an attested CMI at or below 100% FPL whose income verification was waived during MAGI Medi-Cal renewals (RE).
Eligibility	Eligibility Determination	47043	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have an ability to configure the Income Verification Waiver Expiration Date.
Eligibility	Eligibility Determination	47044	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall set a person's MAGI Medi-Cal CMI and PAI verification statuses to be Admin Pass with a verification source of "Admin Verified" when applicable when their income verification is waived.
Eligibility	Eligibility Determination	47045	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add a case note to a California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) case when the income verification waiver is applied to any individual on the case.
Eligibility	Eligibility Determination	47046	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add a new eligibility determination factor of "IWP" (person meets income verification waiver - PAI) for any individual with an attested PAI at or below 100% FPL whose income verification was waived during MAGI Medi-Cal renewals (RE).
Eligibility	Eligibility Determination	47084	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the URL for Acceptable Documentation List hyperlink on Identity Proofing Options modal in both Consumer View and Flexible App View. English: https://www.coveredca.com/documents-to-confirm-eligibility/ Spanish: https://www.coveredca.com/espanol/documents-to-confirm-eligibility/
Eligibility	Eligibility Determination	47085	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the URL for "Click here to start this process" hyperlink on "Why we're asking this" tooltip on Primary Contact Address page in Consumer View. URL: https://www.coveredca.com/pdfs/privacy/Request_to_Amend_by_Rep.pdf
Eligibility	Eligibility Determination	47112	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall grant Accelerated Enrollment for all Modified Adjusted Gross Income (MAGI) Medi-Cal eligible adults regardless of category (Adult, Parent/Caretaker, pregnancy, Etc.) during the application month and who are Pending/Not Verified for any verifications except Pending MEC MEDS or Not Verified MEC MEDS without a CIN from SAWS or California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) access channel when the initial MAGI Medi-Cal eligibility was determined as Pending due to outstanding verification (Not Verified MEC MEDS without a CIN) and during any subsequent runs, CIN was established for that individual

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Eligibility	Eligibility Determination	47113	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall grant Accelerated Enrollment for all Modified Adjusted Gross Income (MAGI) Medi-Cal eligible Children who are under 19 years of age during the application month and who are Pending/Not Verified for any verifications except Pending MEC MEDS or Not Verified MEC MEDS without a CIN from SAWS or California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) access channel when the initial MAGI Medi-Cal eligibility was determined as Pending due to outstanding verification (Not Verified MEC MEDS without a CIN) and during any subsequent runs, CIN was established for that individual.
Eligibility	Eligibility Determination	47281	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall determine eligibility for the Family PACT program based on client attested data.
Eligibility	Eligibility Determination	47282	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall determine potential eligibility for a Family PACT client based on questions in a pre-application screener to determine potential eligibility before the client continues to the intake application.
Eligibility	Eligibility Determination	47283	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall determine a Family PACT client eligible if the client's self-attestation meets the following program eligibility requirements: • California resident; • Total taxable family income at or below 200 percent of the federal poverty guidelines; • No other source of health coverage (OHC) for family planning services, or meet the criteria specified for eligibility with OHC • At least 12 years of age
Eligibility	Eligibility Determination	47284	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall determine the client's total family taxable income and household size based on the information provided which could include the following people: • Client • Client's spouse, if the client is married or has a common law marriage established in a state where common law marriages are legally recognized; it does not recognize common-law marriages occurring in California • Any minor children (age 17 and below) claimed as a tax dependent • If the client is claimed as a tax dependent by spouse or parents, the client's basic family unit includes the client, spouse if living together, the tax filer and the tax filer's other tax dependents.
Eligibility	Eligibility Determination	47285	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall evaluate the consumer to be having Other Health Coverage if the consumer answers yes to one of the following questions: • I currently receive Medi-Cal benefits. • I have restricted Medi-Cal (such as "Emergency Medi-Cal") that cover contraceptive methods. • I have Other Health Coverage that covers contraceptive methods. Other Health Coverage may include Medi-Cal Managed Care plans, Commercial Health Plans (Kaiser, BlueCross, Health Net) or student health insurance.
Eligibility	Eligibility Determination	47286	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall determine the Family PACT client eligible if the client has Other Health Coverage (OHC), but meets the following criteria specified for eligibility with OHC: • If the other health coverage requires an annual deductible that you are unable to meet on the date of service. • If you have a Medi-Cal unmet share of cost on the date of service. • If you have limited-scope (restricted) Medi-Cal that does not cover family planning (including contraceptive methods). • You are not able to access contraceptive methods because you are worried your parents, partner or spouse could find out your use it for family planning (this is called a barrier to access). • I do not know if I have other health coverage.
Eligibility	Eligibility Determination	47287	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall determine the client ineligible for report a change (RAC) and recertify Family PACT applications for at least one of the following reasons: • Not a California resident • Total taxable family income above 200 percent of the federal poverty guidelines • Receives health insurance coverage for family planning services without barrier to access • Full scope Medi-Cal (does not have an unmet SOC) without barrier to access • Pregnant • Below the minimum age of 12
Eligibility	Eligibility Determination	47288	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall discontinue Family PACT coverage for the at least one of following reasons: • No longer a California resident • Total taxable family income is above 200 percent of the federal poverty guidelines • Sterilized, no longer contracepting • Receives other health insurance coverage for family planning services • Full scope Medi-Cal (does not have an unmet SOC) without barrier to access • Requesting discontinuance • Failure to complete annual recertification • Provider permanent deactivation of HAP ID (lost/stolen) • No longer has a medical necessity (i.e., ability to get pregnant or cause a pregnancy) for family planning services • Becomes pregnant
Eligibility	Eligibility Determination	47289	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use a periodic batch process to deactivate the HAP ID's for Family PACT clients that do not complete their annual recertification.

Category	Sub Category	Req ID	Requirement
Eligibility	Eligibility Determination	47291	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow a Family PACT provider to request discontinuance on behalf of a Family PACT client for at least one of the following reasons: • No longer a California resident • Client is over 200 percent of the poverty level guidelines • Client no longer has a medical necessity (sterilization) • Client has health insurance coverage for family planning services • Client has full-scope Medi-Cal without Share of Cost • Permanent deactivation
Eligibility	Eligibility Determination	47292	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow a Family PACT super admin to request discontinuance on behalf of a Family PACT client for at least one of the following reasons: • No longer a California resident • Client is over 200 percent of the poverty level guidelines • Client no longer has a medical necessity (sterilization) • Client has health insurance coverage for family planning services • Client has full-scope Medi-Cal without Share of Cost • Permanent deactivation
Eligibility	Eligibility Determination	47293	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall assign aid code 8H to client who are eligible for the Family PACT program.
Eligibility	Eligibility Determination	47294	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to determine Family PACT eligibility if no SSN is provided by/for the client.
Eligibility	Eligibility Determination	47295	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall determine the client ineligible for initial and reapply Family PACT applications for at least one of the following reasons: • Not a California resident • Total taxable family income above 200 percent of the federal poverty guidelines • Receives health insurance coverage for family planning services without barrier to access • Full scope Medi-Cal (does not have an unmet SOC) without barrier to access • Pregnant • Below the minimum age of 12
Eligibility	Eligibility Determination	47296	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall determine the Family PACT eligibility effective date to be the system run date of application submission.
Eligibility	Eligibility Determination	47297	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall determine the Family PACT eligibility end date to be plus 1 year, minus 1 day of the system run date of intake/reapplication submission.
Eligibility	Eligibility Determination	47298	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall set the Family PACT eligibility end date to be plus 1 year, minus 1 day from the system run date of recertification submission.
Eligibility	Eligibility Determination	47299	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall retain the same eligibility end date as that of application submission when a report a change (RAC) is submitted that does not impact the Family PACT consumer's eligibility status.
Eligibility	Eligibility Determination	47300	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall discontinue the Family PACT eligibility effective the system run date when the change is reported as part of report a change (RAC) or recertify such that one of the ineligible reasons is met.
Eligibility	Eligibility Determination	47301	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate the Health Access Program (HAP) ID when the client is found to be eligible for the Family PACT program using the following format: - 10 digit alphanumeric - 1st digit: always '9' - 2nd-8th digit: unique number generated sequentially (beginning with '0000001') - 9th digit: always 'Z' - 10th digit: Sum the odd digits values of HAP ID number and sum the even digits values of HAP ID number. Then sum these results from odd and sum calculation. Then move this result's singular position digit value to HAP ID number's tenth digit, also known as HAP-CHECK-DIGIT
Eligibility	Eligibility Determination	47430	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have an automated process at the end of the Deceased Verification Expiration date if the responses have not been provided for any household members: - Remove the Periodic Verification flag - Update the verification status to "Pending" to match the PVC response - Use the Deceased response to discontinue eligibility to all exchange programs (CCP/APTC/CAPS/CSR) - Terminate the enrollment from the day after the date of death or the first day of the current benefit year, whichever is later
Eligibility	Eligibility Determination	47431	For consumers who respond "Agree" to the Deceased data and for which an eligibility run has occurred, California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall take the following actions: - Remove the Periodic Verification flag - Update the default value of deceased self-attestation on the Verification page to "Yes". This value should not flip back to "No", once set as "Yes" due to Agreed response unless clear verification action is performed on the Verification page. - Update the Deceased Verification Status to "E-Verified" - Discontinue consumer from all exchange programs (CCP/APTC/CSR/CAPS) - Terminate the enrollment from the day after the date of death or the first day of the current benefit year, whichever is later

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Eligibility	Eligibility Determination	47435	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall stop generating the case note that was implemented in CR 199836 - PDM Phase 2
Eligibility	Eligibility Determination	47447	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not display EligFactor_025 and EligFactor_015 snippets when individual has Former Foster Youth eligibility.
Eligibility	Eligibility Determination	47448	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall perform a MEC MEDS check for a non-applying child when that child is a dependent child of an applying parent/caretaker relative per CFR 435.119(c).
Eligibility	Eligibility Determination	47449	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall evaluate eligibility for MAGI Medi-Cal New Adult Group for a spouse of a parent/caretaker relative in the home of dependent children for the CFR 435.119(c).
Eligibility	Eligibility Determination	47569	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall discontinue MCAP eligibility for an individual during a SAWS disposition run if one of the following aid code is received in SAWS disposition – 03,04,06,07,10,16,20,26,30,31,32,33,35,36,3A, 3C, 3D, 3E, 3F, 3G, 3H, 3L, 3M, 3P, 3R, 3S, 3U, 3W,40,42,43,45,46,49,4A,4F,4G,4H,4K, 4N,4P,4R, 4S,4T,4W,4M,5K,60,66,6A,6C,80,8C,8D,8A
Eligibility	Eligibility Determination	47570	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall discontinue MCAP eligibility for an individual during SAWS disposition run with MAGI Medi-Cal aid code if the MCAP eligibility was established on same day
Eligibility	Eligibility Determination	47571	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall retain MCAP eligibility and not evaluate MAGI Medi-Cal program eligibility if an individual reports a decrease in income which meets the MAGI Medi-Cal program limit during MCAP postpartum period
Eligibility	Eligibility Determination	47576	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall stage the individuals provided by SAWS that are MAGI Medi-Cal Discontinued or Denied in SAWS and shall set the prior MAGI Medi-Cal status to Discontinued status in the Enhanced Look Back Logic.
Eligibility	Eligibility Determination	47577	BR 1.1 - California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall run the eligibility redetermination batch for Active California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) cases that have individuals included in the SAWS case list and those individuals meet any of the following conditions in California Healthcare Eligibility, Enrollment and Retention System (CalHEERS): a) At least 1 member is in MAGI Medi-Cal DS (Awaiting Review) status or b) At least 1 member is MAGI Medi-Cal Soft Pause
Eligibility	Eligibility Determination	47578	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate a report of eligibility results post each eligibility redetermination batch runs
Eligibility	Eligibility Determination	47579	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall utilize the staged Discontinuance in the enhanced lookback for MAGI Medi-Cal once via BRE run.
Eligibility	Eligibility Determination	47580	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not utilize the staged Discontinuance in the enhanced lookback for MAGI Medi-Cal if any of the following occurs: i) Case has been run with the run reason code of Intake ii) SAWS sends a high dated disposition for individual with MAGI Medi-Cal Eligible
Eligibility	Eligibility Determination	47581	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not utilize the staged Discontinuance in the enhanced lookback for MAGI Medi-Cal and will remain staged for the next BRE run if any of the following occurs: i) Case is run with the run reason code of Retro ii) Case is run via a closed dated disposition for individual with MAGI Medi-Cal Eligible
Eligibility	Eligibility Determination	47760	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall create a new Intelligent Document Processing system for systematically verifying outstanding verification documents using Google Document AI.
Eligibility	Eligibility Determination	47761	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) and IDP system shall utilize the REST API to transmit the data using JSON format.
Eligibility	Eligibility Determination	47762	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) and IDP system shall utilize the REST API to transmit the data using JSON format for IDP verification service.
Eligibility	Eligibility Determination	47763	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) and IDP system shall utilize the REST API to transmit the data using JSON format for IDP Quality Check service.
Eligibility	Eligibility Determination	47764	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) and IDP system shall utilize the REST API to transmit the data using JSON format for IDP Case Match OCR service.
Eligibility	Eligibility Determination	47765	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) and IDP system shall utilize the REST API to transmit the data using JSON format for IDP verification result service.
Eligibility	Eligibility Determination	47766	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall integrate with the Intelligent Document Processing (IDP) system to systematically verify documents submitted for the outstanding verifications.
Eligibility	Eligibility Determination	47767	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall integrate with the Intelligent Document Processing (IDP) system to verify only documents with a category of 'Manual Verifications' that are from the 'Print / Mail' vendor.
Eligibility	Eligibility Determination	47768	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall integrate with the Intelligent Document Processing (IDP) system to systematically verify documents if uploaded from the portal from Upload Eligibility Documents page or Documents and Correspondence Page.
Eligibility	Eligibility Determination	47769	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall integrate with the Intelligent Document Processing (IDP) system to verify multiple outstanding verification documents for multiple individuals for a household when submitted in a single request.
Eligibility	Eligibility Determination	47770	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall define a separate case match rule for each document type based on extracted data from IDP.
Eligibility	Eligibility Determination	47771	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall associate case number and verification information to the document when California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) case match service has a success outcome.
Eligibility	Eligibility Determination	47772	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall limit the IDP systematic verification process to APTC/CSR/CCP/CAPS conditionally eligible individuals on Mixed Household Case
Eligibility	Eligibility Determination	47773	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall NOT trigger BRE and automatically re-determine the eligibility for 'APTC/CSR/CCP/CAPS' conditionally eligible individuals on a Mixed Household case.
Eligibility	Eligibility Determination	47774	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall limit the IDP systematic verification process to conditionally eligible individuals on 'APTC/CSR/CCP/CAPS Only' cases.

Category	Sub Category	Req ID	Requirement
Eligibility	Eligibility Determination	47775	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall automatically redetermine eligibility for conditionally eligible 'APTC/CSR/CCP/CAPS Only' cases when a 'Pass' response is received from the IDP.
Eligibility	Eligibility Determination	47776	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall follow existing Verification Caching rules when the Business Rules Engine (BRE) is triggered due to a 'Pass' response from IDP.
Eligibility	Eligibility Determination	47777	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not use the IDP Pass for eligibility re-determination for the documents that need to be verified via VLP.
Eligibility	Eligibility Determination	47778	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall provide case and individual information for the IDP to verify the supplied documentation.
Eligibility	Eligibility Determination	47779	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall define the schema request and response elements for IDP Quality Check, IDP Verification, IDP Case Match OCR, CalHERS Case Match Service and IDP Verification Result Service.
Eligibility	Eligibility Determination	47780	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall define the errors tied to schema request and response transactions for IDP Quality Check, IDP Verification, IDP Case Match OCR, CalHERS Case Match Service and IDP Verification Result Service.
Eligibility	Eligibility Determination	47781	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall receive a 'Pass' or 'Cannot Verify' response to a request for verification from the IDP.
Eligibility	Eligibility Determination	47782	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall store a response of 'Cannot Verify' and reason in the database when received from IDP for the outstanding verifications.
Eligibility	Eligibility Determination	47783	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall display the response of 'Cannot Verify' and reason on the Personal Verification page when received from IDP for the outstanding verifications.
Eligibility	Eligibility Determination	47784	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall generate a Salesforce BPM task if the IDP returns a 'Cannot Verify' response.
Eligibility	Eligibility Determination	47785	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall store the 'Pass' received from the IDP in the database for the outstanding verifications.
Eligibility	Eligibility Determination	47786	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall display the response of 'Pass' and reason on the Personal Verification page when received from IDP for the outstanding verifications.
Eligibility	Eligibility Determination	47787	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall generate Salesforce BPM Task when IDP response of Pass is received, but BRE is not triggered to automatically re-determine the eligibility for 'APTC/CSR/CCP/CAPS' individuals.
Eligibility	Eligibility Determination	47788	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall suppress Salesforce BPM Task when IDP response of Pass is received and BRE run happens to automatically re-determine the eligibility.
Eligibility	Eligibility Determination	47789	The IDP system shall define a verification rule for each document type.
Eligibility	Eligibility Determination	47790	The IDP system shall define the extracted fields for each document type to apply data match and verification rule.
Eligibility	Eligibility Determination	47791	IDP System shall define the separate data match criteria for comparison between California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) attested and IDP extracted First Name and Last Name fields
Eligibility	Eligibility Determination	47792	The IDP System shall calculate the cumulative annual household income and apply the acceptable income percentage differentiation criteria for each of the applicable income document group to determine the 'Pass' or 'Cannot Verify' response from IDP for the CCP/APTC/CSR/CAPS conditionally eligible members received in the same IDP transaction with outstanding income verification.
Eligibility	Eligibility Determination	47793	The IDP system shall define the income document groups for the purpose of verifying the income of the CCP/APTC/CSR/CAPS conditionally eligible members received in the same IDP transaction.
Eligibility	Eligibility Determination	47794	The IDP system shall make the income percentage differentiation as a configurable field.
Eligibility	Eligibility Determination	47795	The IDP System shall pass the income verification if any of the income document group meets the acceptable income percentage differentiation criteria.
Eligibility	Eligibility Determination	47796	The IDP System shall provide the response of 'Cannot Verify' for the income verification if none of the income document group meets the acceptable income percentage differentiation criteria
Eligibility	Eligibility Determination	47797	The IDP system shall perform a check for unique Employer names on the income documents within the same income document group to determine the annual Income.
Eligibility	Eligibility Determination	47798	The IDP System shall provide the outcome of 'Pass' for person level verifications for an individual if any one of the required documents has passed the verification rule.
Eligibility	Eligibility Determination	47799	The IDP System shall perform the case and person level verifications to determine the outcome of 'Pass' or Cannot Verify'.
Eligibility	Eligibility Determination	47825	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall grant a child under the age of 19 MAGI Medi-Cal Conditional Eligibility, when they would otherwise be accelerated enrollment for the following run reasons: - Initial Intake/Same day remediation, - Add a person(child under 19) scenario (Report a Change/Renewals), - RAC/Renewal scenario where existing household member (child under 19)becomes a new Applicant.
Eligibility	Eligibility Determination	47826	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall determine a child under the age of 19 Conditionally Eligible for MAGI Medi-Cal when there are outstanding verifications.
Eligibility	Eligibility Determination	47827	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall grant appropriate MAGI Medi-Cal aid code to children under the age of 19 based on their attested FPL within the MAGI Medi-Cal FPL limits.
Eligibility	Eligibility Determination	47828	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall protect a child under the age of 19 for 12 months or until their 19th birthday which ever comes first.
Eligibility	Eligibility Determination	47829	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not apply soft pause to children under 19 who are currently within the 12-months protection period for Eligibility Status Protection.

Category	Sub Category	Req ID	Requirement
Eligibility	Eligibility Determination	47830	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall discontinue children under 19 that are protected under Eligibility Status Protection when one of the following negative actions occur: Deceased (85) California Residency (IY) Requested Disc. (K4) On Aid Another Case (CN) Deemed Child - Fam ReApp (KI)
Eligibility			California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall discontinue the Eligibility Status Protection for children under 19 when one of the following occurs: •Case is closed as duplicate either from California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) or SAWS access channels •Child is deceased •CancelDER is received from SAWS •The child is not a California Resident •The person is determined Eligible for Non-MAGI Medi-Cal (MEC) with a high dated end date via SAWS disposition. •The person's Eligibility Result is confirmed as Discontinued by SAWS for Medi-Cal with a high-dated end date via a Disposition containing the eligibility status of Discontinued or Ineligible •Outstanding verifications are Admin verified resulting in MAGI Medi-Cal Eligible status.
Eligibility	Eligibility Determination	47832	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add a case note to a California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) case when the Eligibility Status Protection for children under 19 is granted.
Eligibility	Eligibility Determination	47833	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the ability to configure the Eligibility Status Protection for children under 19 with a policy effective date.
Eligibility	Eligibility Determination	47834	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall persist and send a new EERC 'EP' for Eligibility Protection to SAWS when the Eligibility Status Protection for children under 19 is applied.
Eligibility	Eligibility Determination	47835	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send the 12 month Eligibility Status Protection period end date via MAGIMediCalRenewalDate element on the DER/DER-U to SAWS.
Eligibility	Eligibility Determination	47851	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update Sacramento County Contact Number from 1-916-874-3100 to 1-800-560-0976 displayed on California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Portal.
Eligibility	Eligibility Determination	47857	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the FPL values for 2024 based on the FPL guidelines received for 2024 from DHCS.
Eligibility	Eligibility Determination	48144	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow a user to enter a future QLE date up to 60 days for the following QLEs: - Permanently moved to/within California - Released from jail or prison
Eligibility			California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall apply the eligibility effective dating rules of "Loss of Coverage (MEC)" for the QLE "Permanently moved to/within California" and "Released from jail or prison".
Eligibility	Eligibility Determination	48146	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the attested QLE description on the review household information page and the application pdf based on the activated and end-dated QLE selected during the application submission (intake/RAC).
Eligibility	Eligibility Determination	48147	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the most advantageous QLE name, attested QLE name, QLE event date, and most advantageous SEP end date on the budget worksheet screen based on the QLE applied during the application submission (intake/RAC).
Eligibility	Eligibility Determination	48148	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add "REG" to the dropdown list of coverage code category on QLE Configuration Edit page
Eligibility	Eligibility Determination	48149	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use the first day of the next month rule for discontinuance to exchange financial assistance programs, if the individual retains CCP eligibility and the eligibility to exchange financial assistance programs is discontinued except for ROP run reason.
Eligibility	Eligibility Determination	48150	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use 15-day rule for discontinuance to all exchange programs, if an individual's eligibility to all exchange programs (including CCP) is discontinued except for case closed as duplicate.
Eligibility	Eligibility Determination	48151	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update verbiage for number of days to select a plan under important dates section on Account Home page.
Eligibility	Eligibility Determination	48153	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display a plain language interpretation of Admin Pass/Fail for all verification attributes on the Personal Verification page.
Eligibility	Eligibility Determination	48155	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall continue to display the E-Verification Response and the E-Verification Response Date for the most recent HUB response on the Personal Verification page when a subsequent admin verification is received until the cache is cleared for that data element by an admin or a new electronic call is made.
Eligibility	Eligibility Determination	48157	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall continue to display error codes if applicable on the Personal Verification page when an admin verification is present.
Eligibility	Eligibility Determination	48159	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the citizenship and lawful presence attributes on the Personal Verification page based on the consumer's current attestation
Eligibility	Eligibility Determination	48160	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall close an existing DHS case and re-trigger a new DHS case when an user updates the attestation from citizenship to lawful present or vice versa only when a response was received for a current step
Eligibility	Eligibility Determination	48161	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall accept the user update of the Citizenship attestation to Yes, without triggering a new DHS case, when an individual previously attested to being an immigrant that was e-Verified as a Naturalized US Citizen and close any open DHS case.
Eligibility	Eligibility Determination	48162	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall retain the user attestation for Lawful Presence verification attribute, AND duplicate the Citizenship e-verification response fields for Lawful Presence on the Personal Verification screen, if the individual attests to being lawfully present and the hub e-verified the individual as a US Citizen.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Eligibility	Eligibility Determination	48163	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall mark MAGI Medi-Cal Current Monthly Income and Projected Annual Income verification attributes' status as Not Verified for an individual 19 years or older when SSN is not present or not E-verified
Eligibility	Eligibility Determination	48164	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall mark all the members of the APTC household as e-verified for the verification attributes of "Household Income - Subsidy" and "Household Income - CA Subsidy", if the household income is evaluated to be reasonably compatible following the reasonable compatibility rules for the subsidy programs, regardless of whether one or more members in the household has no SSN or has an SSN that is not e-verified.
Eligibility	Eligibility Determination	48182	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall restrict the display of the default error message ER1000 when there is no hub call made to any electronic source
Eligibility	Eligibility Determination	48183	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall restrict the display of the default error message ER1000 for any of the income verification attributes when at least one of the income data elements (CMI/Household Income Subsidy) is electronically verified (E-Verified/Pending) from any source
Eligibility	Eligibility Determination	48184	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall call the following verification services for Not Applying members in an application: a. SSA (SSN & Deceased) b. Income Services
Eligibility	Eligibility Determination	48185	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall also call the following services for not applying members that are below the age of 19. a. MEC-MEDS b. MEC-Employer Sponsored c. MEC-Non-Employer Spnsored d. Medicare
Eligibility	Eligibility Determination	48186	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall apply the attestation of 'No' to the ESI and Non-ESI attributes on the Personal Verification page, when the individual attests "Yes" to the question 'Does <HHM> expect their current health care program or Medicare coverage to end in the next 60 days, resulting in loss of coverage?'
Eligibility	Eligibility Determination	48194	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall make a call to VLP Service if necessary data elements are present and update the Attestation for Lawful Presence on Manual Verification Page when the Lawful Presence/5YB/QNC category is updated
Eligibility	Eligibility Determination	48263	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide the user in both consumer app and Flexi-app mode, an option to state that they do not know if the employer sponsored insurance provided by the employer of any of the household members meet the affordability standards.
Eligibility	Eligibility Determination	48264	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall invoke the CiCi Chatbot ESI affordability calculator when the user attests to not knowing if the employer sponsored insurance provided by the employer of any of the household members meet the affordability standards.
Eligibility	Eligibility Determination	48265	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to accept the affordability calculation result from the CiCi Chatbot ESI affordability calculator, and update the Portal page to answer the question for the ESI plan meeting affordability standards.
Eligibility	Eligibility Determination	48266	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall mark an individual with Pending MCAP eligibility as MCAP Ineligible if, during a SAWS disposition run, one of the following aid codes is received in a SAWS disposition – 03,04,06,07,10,16,20,26,30,31,32,33,35,36,3A, 3C, 3D, 3E, 3F, 3G, 3H, 3L, 3M, 3P, 3R, 3S, 3U, 3W,40,42,43,45,46,49,4A,4F,4G,4H,4K, 4N,4P,4R, 4S,4T,4W,4M,5K,60,66,6A,6C,80,8C,8D,8A
Eligibility	Eligibility Determination	48268	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall enhance the current ROP Batch Configuration in both Production and Simulation to add the following verification attributes: - MEC - SSN - AI/AN
Eligibility	Eligibility Determination	48269	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) ROP batch shall have the ability to take action on APTC/CCP/CSR/CAPS on conditionally eligible and enrolled individuals with expired ROP dates for any of the following verification attributes if the configuration is turned ON: - MEC - SSN - AI/AN
Eligibility	Eligibility Determination	48270	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) ROP Batch shall discontinue consumers from APTC/CAPS/CSR, if the consumer is still found inconsistent for the verification attributes of MEC/SSN.
Eligibility	Eligibility Determination	48271	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) ROP Batch shall discontinue consumers from AI/AN specific CSR, if the consumer is still found inconsistent for the verification attribute of AI/AN.
Eligibility	Eligibility Determination	48272	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall take the appropriate enrollment action by moving the affected member(s) to a separate enrollment group(s) when there is a change in eligibility for an established enrollment group during RAC, ROP, or PDM run reasons.
Eligibility	Eligibility Determination	48273	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update ROP Batch configuration individuals per day - Maximum from 10,000 to 20,000
Eligibility	Eligibility Determination	48274	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display corresponding EligFactors on the Eligibility Result Screen, when ROP batch acts on an individual due to the follow outstanding verifications: Income, SSN, AI/AN, MEC
Eligibility	Eligibility Determination	48275	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the ability to specify a configurable ROP time period (in number of days) for each verification attribute that impacts Covered CA program eligibility.
Eligibility	Eligibility Determination	48276	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use the configurable ROP number of days that has been set for each verification attribute, to calculate the Reasonable Opportunity Period date for the verifications during eligibility determination of Covered CA programs across all run reasons.
Eligibility	Eligibility Determination	48277	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement a configuration setting for all verification attributes that impact Covered CA programs to decide if the verification result received from the verification hub/services for that attribute will be used in eligibility determination for Covered CA programs across all run reasons except PDM batch.
Eligibility	Eligibility Determination	48278	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to determine eligibility following the existing verification rules for an attribute if the configuration setting is "ON".

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Eligibility	Eligibility Determination	48279	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to not result in Conditional Eligibility for Covered CA programs for the verification attributes that are turned "OFF".
Eligibility	Eligibility Determination	48280	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall ignore the attribute configuration OFF when an attribute is in Admin Fail status or PDM/PVC Batch.
Eligibility	Eligibility Determination	48281	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create a new page that allows authorized users to configure the ROP Number of Days and an additional setting to bypass verification result from the verification hub/services impacting Covered CA eligibility during eligibility determination for Covered CA programs.
Eligibility	Eligibility Determination	48282	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display all the verification attributes that impact Covered CA eligibility on this page.
Eligibility	Eligibility Determination	48283	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use the origination code of "CHA" on DER-U when eligibility is determined through ROP batch
Eligibility	Eligibility Determination	48284	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use QLE reason of 'None of the Above' for ROP batch process new ROP attributes (AI/AN, MEC, SSN) when determining eligibility for ROP Run Reason.
Eligibility	Eligibility Determination	48285	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall exclude inactive cases from ROP processing
Eligibility	Eligibility Determination	48286	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall initiate a manual trigger of ROP process based on an extract from Covered CA for exchange applicable attributes which will trigger a redetermination of eligibility, the ROP date assigned to that attribute/category, and downstream noticing
Eligibility	Eligibility Determination	48287	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use the manual trigger for ROP verification status in the eligibility determination that will result in a Conditional Eligible status for the attribute as applicable to the appropriate program(s) that has the manual trigger of ROP as the verification status.
Eligibility	Eligibility Determination	48288	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create an ROP period for an attribute that has a manual trigger of ROP verification status and Conditional Eligibility as applicable to the appropriate program(s) based on the specified attribute.
Eligibility	Eligibility Determination	48289	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall trigger Eligibility Results page corresponding snippets when an ROP date has been created by a manual trigger of ROP status.
Eligibility	Eligibility Determination	48290	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) ROP Batch process shall pick up expired Manual Trigger of ROP status for attributes/category with a Manual Trigger of ROP status when ROP batch configuration for that attribute/category is turned ON.
Eligibility	Eligibility Determination	48291	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not call electronic services for any manual trigger of ROP Expired attribute/category status when ROP batch is run.
Eligibility	Eligibility Determination	48292	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow Admin users to clear or extend the Manual Trigger of ROP date and status.
Eligibility	Eligibility Determination	48293	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create a new screen to apply the Manual Trigger of ROP process to an extract provided by Covered CA.
Eligibility	Eligibility Determination	48294	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display a history showing when Manual Trigger of ROP was: Set for which attribute/category (Conditional Eligibility), Admin cleared, and applied to Eligibility (due to ROP batch run) for the appropriate programs.
Eligibility	Eligibility Determination	48295	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall verify the documents using DIVS and use the DIVS verification response to remove Manual Trigger of ROP and corresponding ROP date when DIVS Pass is reported for the Manual Trigger of ROP attribute
Eligibility	Eligibility Determination	48296	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall perform validation checks on each verification attribute configured ON prior to running ROP batch job BAT31C to confirm that the verification attribute for the staged records have expired ROP date and the case is not in Inactive status.
Eligibility	Eligibility Determination	48297	CalHEERS shall display ROP dates for MEC attributes on the Personal Verification screen when the verification is outstanding.
Eligibility	Eligibility Determination	48318	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall stage the individuals provided by SAWS that do not have an aid code and are MAGI Medi-Cal Discontinued or Denied/Ineligible in SAWS, and shall set the prior MAGI Medi-Cal status to Discontinued status in the Enhanced Look Back Logic.
Eligibility	Eligibility Determination	48319	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall utilize the last known MAGI Medi-Cal aid code in California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) to stage these individuals.
Eligibility	Eligibility Determination	48320	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide an extract of individuals who do not have a MAGI Medi-Cal aid code in California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) and were included in the SAWS Discontinued or Denied/Ineligible list.
Eligibility	Eligibility Determination	48321	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall suppress the DER-U from being sent when the BRE is utilizing the staged Discontinuance in the enhanced lookback for MAGI Medi-Cal and all members on the case are Discontinued/Ineligible/Undetermined in California Healthcare Eligibility, Enrollment and Retention System (CalHEERS).
Eligibility	Eligibility Determination	48322	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall release the COR for cases that have an individual who is included in the SAWS Discontinuance list for MAGI Medi-Cal and all members on the case are either included in the Discontinuance list or are Discontinued/Ineligible/Undetermined for MAGI Medi-Cal in California Healthcare Eligibility, Enrollment and Retention System (CalHEERS).
Eligibility	Eligibility Determination	48323	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add a case note when running the eligibility redetermination batch for Active California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) cases that have individuals included in the SAWS case list.
Eligibility	Eligibility Determination	48324	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall run the eligibility redetermination batch for Active California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) cases that have individuals included in the SAWS case list and those individuals meet any of the following conditions in California Healthcare Eligibility, Enrollment and Retention System (CalHEERS): a) At least 1 member is in MAGI Medi-Cal DS (Awaiting Review) status or b) At least 1 member is MAGI Medi-Cal Soft Pause
Eligibility	Eligibility Determination	48325	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate a report of eligibility results post each eligibility redetermination batch runs
Eligibility	Eligibility Determination	48326	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall utilize the staged Discontinuance in the enhanced lookback for MAGI Medi-Cal once via BRE run.
Eligibility	Eligibility Determination	48327	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not utilize the staged Discontinuance in the enhanced lookback for MAGI Medi-Cal if any of the following occurs: i) Case has been run with the run reason code of Intake ii) SAWS sends a high dated disposition for individual with MAGI Medi-Cal Eligible

OTSI CalHEERS RFP #73040873 Addendum 1
October 31, 2025

Category	Sub Category	Req ID	Requirement
Eligibility	Eligibility Determination	48328	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not utilize the staged Discontinuance in the enhanced lookback for MAGI Medi-Cal and will remain staged for the next BRE run if any of the following occurs: i) Case is run with the run reason code of Retro ii) Case is run via a closed dated disposition for individual with MAGI Medi-Cal Eligible
Eligibility	Eligibility Determination	48552	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the display logic in Budget Worksheet for when "None of the Above (Continue to review my application for Medi-Cal or MCAP)" QLE is selected.
Eligibility	Eligibility Determination	48623	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall consider an individual as Lawfully Present when LP is returned as N from VLP and Policy Effective Date is set for DACA Configuration when: 1. ESC of 188 is returned in Step 1, or 2. ESC of 387 is returned in Step 1, or 3. ESC of 10 along with EAD of C33 is returned in Step 1, or 4. ESC of 128 along with EAD of C33 is returned in Step 1, or 5. ESC of 10 along with EAD of A14 is returned in Step 1, or 6. ESC of 128 along with EAD of A14 is returned in Step 1, or 7. Major Code of 016 is returned in Step 2/3.
Eligibility	Eligibility Determination	48624	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall consider an individual as Lawfully Present when LP is returned as P from VLP and Policy Effective Date is set for DACA Configuration when: 1. ESC of 370 is returned in Step 1, or 2. ESC of 228 is returned in Step 1, or 3. ESC of 368 is returned in Step 1, or 4. ESC of 10 along with EAD of C35 is returned in Step 1, or 5. ESC of 128 along with EAD of C35 is returned in Step 1, or 6. ESC of 10 along with EAD of C36 is returned in Step 1, or 7. ESC of 128 along with EAD of C36 is returned in Step 1. 8. Major Code of 019 is returned in Step 2/3.
Eligibility	Eligibility Determination	48625	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall consider an individual as not Lawfully Present for when LP is returned as N from VLP and Policy Effective Date is set for DACA Configuration when ESC of 368 is returned in Step 1.
Eligibility	Eligibility Determination	48917	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall place an individual into Awaiting Review Status for MAGI Medi-Cal, beginning the Transition month, when they are placed into Carry Forward Status due to a RAC or MAGI Medi-Cal Renewal and would otherwise be EL/CE for MAGI Medi-Cal.
Eligibility	Eligibility Determination	48918	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall place an individual into Awaiting Review Status for MAGI Medi-Cal, beginning January of the Renewal year, when they are placed into Carry Forward Status due to an Exchange Renewal and would otherwise be EL/CE for MAGI Medi-Cal.
Eligibility	Eligibility Determination	48919	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall output MAGI Medi-Cal eligibility status as "Pending" when an individual is placed in Carry Forward and they have outstanding verifications that would result in "Pending" eligibility status for MAGI Medi-Cal.
Eligibility	Eligibility Determination	48925	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow MAGI Medi-Cal to be granted to an individual who is or was in Carry Forward Status for Carry Forward/Transition/Retroactive months regardless of the individual's prospective eligibility determination.
Eligibility	Eligibility Determination	48926	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow MAGI Medi-Cal to be granted to an individual who is or was in Carry Forward Status for Carry Forward/Transition/Retroactive months when there has not been a prospective MAGI Medi-Cal determination for the individual.
Eligibility	Eligibility Determination	48927	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall evaluate Exchange eligibility prospectively when an individual's Carry Forward status is ended for a prior benefit month in the Carry Forward Period.
Eligibility	Eligibility Determination	48929	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall deny an individual in Carry Forward Status for MAGI Medi-Cal from Transition month to High Date, and end the individual's Carry Forward Status, when an EDR is received for the Transition month which makes the individual Ineligible for MAGI Medi-Cal (e.g., Negative Action, Non-Compliance, failed Admin Verification, increase in income above MAGI Medi-Cal FPL limits, etc.).
Eligibility	Eligibility Determination	48930	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall deny an individual in Carry Forward Status for MAGI Medi-Cal from the requested benefit month the EDR is received for to High Date, and end the individual's Carry Forward Status, when an EDR is received for a Carry Forward month which makes the individual Ineligible for MAGI Medi-Cal (e.g., Negative Action, Non-Compliance, failed Admin Verification, increase in income above MAGI Medi-Cal FPL limits, etc.).
Eligibility	Eligibility Determination	48931	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall deny and end both Carry Forward periods across two coverage years when an individual is denied for the earlier Transition month.
Eligibility	Eligibility Determination	48932	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall deny and end both Carry Forward periods across two coverage years when an individual is denied for a Carry Forward month in the earlier Carry Forward period.
Eligibility	Eligibility Determination	48936	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the Transition End Date logic when the Carry Forward ends in the Transition month, or when it ends prior to the Transition month, to include the first Carry Forward month.
Eligibility	Eligibility Determination	48937	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow a consumer to be granted MAGI Medi-Cal for the current month if the consumer is eligible for APTC and/or State Subsidy and enrolled in a plan with a prospective termination date.
Eligibility	Eligibility Determination	48962	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall consume the final MAGI Medi-Cal eligibility status from SAWS on a Disposition, including denials (IE) and discontinuances (DS).
Eligibility	Eligibility Determination	48963	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall consume the MAGI Medi-Cal denial (IE) or discontinuance (DS) reason sent from SAWS on a Disposition.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Eligibility	Eligibility Determination	48964	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall apply the Medi-Cal DS/IE status sent on the Disposition to the Non-MAGI Medi-Cal Program if the individual is currently eligible for Non-MAGI Medi-Cal Program.
Eligibility	Eligibility Determination	48968	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall place a consumer into Awaiting Review for Discontinuance whenever a consumer is being discontinued for MAGI Medi-Cal (including NA, NC, and RAC regardless of real time/batch).
Eligibility	Eligibility Determination	48970	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall consume a MAGI Medi-Cal 'PE' status on the Disposition.
Eligibility	Eligibility Determination	48971	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall retain an individual's existing eligibility when SAWS sends a PE eligibility status on the Disposition.
Eligibility	Eligibility Determination	48972	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall retain the latest MAGI Medi-Cal status when a member is not included on a Disposition.
Eligibility	Eligibility Determination	48973	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall stale date the Disposition being processed and disregard it based on either the processed Dispositions or the BRE runs
Eligibility	Eligibility Determination	48974	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall trigger a BV if a Disposition is determined to be stale dated.
Eligibility	Eligibility Determination	48975	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall retain an individual's MAGI Medi-Cal “CE” status and consume the aid code on the Disposition if a Medi-Cal status of EL is received on the Disposition with a MAGI Medi-Cal aid code, and the individual is MAGI Medi-Cal CE in California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) with outstanding verifications.
Eligibility	Eligibility Determination	48976	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall process all eligibility segments for all case members on a Disposition.
Eligibility	Eligibility Determination	49419	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall determine Conditional Eligible for MCAP individuals when the individual meets the Medi-Cal Access Program (MCAP) program criteria AND one or more of the following verifications are outstanding: - income is not reasonably compatible; - incarceration status; - deceased indicator; - California state residency; - ESI/Non ESI MEC
Eligibility	Eligibility Determination	49421	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall determine effective eligibility begin date as the 1st of the month of the application date for MCAP conditionally eligible or eligible individuals during Intake or RAC - Add a Person.
Eligibility	Eligibility Determination	49425	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the business rules of MCAP portal snippets to populate when consumers are Conditionally Eligible for MCAP rather than when they are Pending Eligible for MCAP.
Eligibility	Eligibility Determination	49426	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add proof of non-deceased status to the View Actions Needed and Alerts Modal on the Account Home screen, the Eligibility Results Summary and Individual Eligibility Results screens for individuals who are MCAP Conditionally Eligible due to pending Deceased verification.
Eligibility	Eligibility Determination	49427	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add proof of California residency status to the View Actions Needed and Alerts Modal on the Account Home screen, the Eligibility Results Summary and Individual Eligibility Results screens for individuals who are MCAP Conditionally Eligible due to pending residency verification.
Eligibility	Eligibility Determination	49429	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the MCAP Monthly Discontinuance batch to discontinue Conditionally Eligible MCAP individuals when their postpartum coverage is ending.
Eligibility	Eligibility Determination	49430	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall place Conditionally Eligible MCAP individuals in MCAP Pregnancy Hold for when an MCAP individual is redetermined and becomes either Medi-Cal or APTC/CSR/State Subsidy/CCP eligible.
Eligibility	Enrollment		
Eligibility	Enrollment	38748	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall discontinue MCAP on the last day of the month according to the 15 day discontinuance rule when a consumer elects to switch from MCAP to MAGI Medi-Cal.
Eligibility	Enrollment	39864	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to suppress all verifications for conditionally eligible Former Foster Youth (FFY) individuals other than the optional FFY verification.
Eligibility	Enrollment	40318	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall only set the status to “RAC Withdraw” from the Renewals Closure Batch if the case does not have future year eligibility established.
Eligibility	Enrollment	46348	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall turn on the Microsite functionality for Aetna
Eligibility	Enrollment	46360	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall consume a ROP BOT request report from CoveredCA and create a ROP BOT process to stage records for BOT execution
Eligibility	Enrollment	46361	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall run BRE and make the following changes via a BOT process for consumers with Pending/Not Verified SSNs and/or MEC, the system date is past their ROP date and the consumer is enrolled in a subsidized health plan: -discontinue eligibility to APTC/CSR/CAPS -move the CSR enrolled consumers into unsubsidized health plans -move the non-CSR enrolled consumers into the unsubsidized version of their current plans
Eligibility	Enrollment	46362	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall run BRE and make the following changes via a BOT process for consumers with Not Verified AI/AN status, the system date is past their ROP date and the consumer is enrolled in a health plan with CS2 level CSR: -discontinue eligibility to CS2 level CSR -move into Non-AI/AN Silver variant of their current plan with the same carrier and product based on FPL
Eligibility	Enrollment	46363	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall run BRE and make the following changes via a BOT process for consumers with Not Verified AI/AN status, the system date is past their ROP date and the consumer is enrolled in a health plan with CS3 level CSR: -discontinue eligibility to CS3 level CSR -move into Non-AI/AN version of their current plans

Category	Sub Category	Req ID	Requirement
Eligibility	Enrollment	46364	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall insert a case note when the ROP BOT runs for Pending/Not Verified SSNs and/or MEC and/or Not Verified AI/AN.
Eligibility	Enrollment	46365	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate a report for the ROP BOT runs for successful and fallout cases/individuals including the case details, individual details, individual eligibility status to all the programs, plans that the consumers are enrolled into, and fallout reasons when the ROP BOT runs for Pending/Not Verified SSN and/or MEC and/or Not Verified AI/AN.
Eligibility	Enrollment	47303	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall reactivate a previously deactivated Health Access Program (HAP) ID if the reapplication is submitted and the client is determined to be eligible for the Family PACT program.
Eligibility	Enrollment	47684	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall build 4 manual APS processes and choose one of the 4 processes to apply to cases identified for manual APS using the following criteria: -MAGI Medi-Cal/MCAP/CCHIP to CCP transition flag is active -Single Member Household -Eligible to Unsubsidized CCP only -"Planning to File Taxes" question set as No or Null.
Eligibility	Enrollment	47685	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall build the following process (Manual APS - Process 1) for a configurable % of cases identified for manual APS using randomization method: - update the planning to file taxes indicator and any required data elements for Report a Change to evaluate APTC/CSR/CAPS/CCP eligibility as per BR 2. - re-run eligibility to see if the individual could be eligible/conditionally eligible to APTC -Trigger a new Eligibility Snippet for this consumer in NOD01 if they have become APTC eligible.
Eligibility	Enrollment	47686	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall build the following process (Manual APS - Process 2) for a configurable % of cases identified for manual APS using randomization method: - update the planning to file taxes indicator and any required data elements for Report a Change to evaluate APTC/CSR/CAPS/CCP eligibility as per BR 2. - re-run eligibility to see if the individual could be eligible/conditionally eligible to APTC - Trigger a new Eligibility Snippet as well as a new flier for this consumer in NOD01 if they have become APTC eligible.
Eligibility	Enrollment	47687	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall build the following process (Manual APS - Process 3) for a configurable % of cases identified for manual APS using randomization method: - update the planning to file taxes indicator and any required data elements for Report a Change to evaluate APTC/CSR/CAPS/CCP eligibility as per BR 2. - re-run eligibility to see if the individual could be eligible/conditionally eligible to APTC - auto select a plan per the SB260 APS hierarchy but do not send the transaction to the carrier until the consumer has Accepted the data element changes that have been made on their behalf and they have elected to Keep the suggested, 'APS-Lite' plan. - Trigger a modified version of NOD01T (NOD01X) with a new Eligibility Snippet for this consumer if they have become APTC eligible.
Eligibility	Enrollment	47688	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall build the following process (Manual APS - Process 4) for a configurable % of cases identified for manual APS using randomization method: - Consumers will only receive the Manual APS indicator for Process 4 - No application changes will be made on this behalf of consumers in this Manual APS process - Eligibility will not be redetermined for consumers outside of existing functionality
Eligibility	Enrollment	47689	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the following data elements for all consumers selected in the Manual APS process regardless of prior attestation made via SAWS or California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Portal: -Primary Tax Filer should be selected as the single household member -Plan to File Taxes should be updated to "Yes" -Claimed as Dependent should be set to "No" -Tax Filing Status should be set as "Single" -QLE selected should be selected as "Lost or will lose health coverage"
Eligibility	Enrollment	47690	The following fields should be defaulted to the value set by Portal/Eligibility when SAWS does not send these values in EDR for Manual APS consumers that do not have an existing attestation for these fields: - Are you an American Indian or Alaska Native? - Are you pregnant? - Has any employer, including a spouse or parent's employer, offered your health insurance? This does not include COBRA and Retiree health plan. - Required to File Taxes Indicator"
Eligibility	Enrollment	47691	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall run the manual APS processes on a daily basis to identify the population of cases which are eligible for Manual APS and use a randomized algorithm to apply one of the 4 processes for the cases that satisfy all of the following criteria: - The case satisfies the basic criteria listed for Manual APS in BR1. - The consumer is transitioning from MAGI Medi-Cal/MCAP/CCP to Unsubsidized CCP only eligibility and that MCT transition was triggered by a BRE run which was submitted between the system date of the previous run of Manual APS Staging Batch and the system date of the current run the Manual APS Staging Batch.

Category	Sub Category	Req ID	Requirement
Eligibility	Enrollment	47692	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall exclude the following cases from the Manual APS process: -Cases where the Case Status is “Inactive” or “Closed” -Cases where transition consumer is already actively enrolled (confirm/pending) in a Health Plan (plan should still update per current functionality) -Cases where transition consumer’s Transition Flag is no longer active -Cases where member on the case is in CFS -Cases where transition consumer’s Shopping Window is expired -Case is no longer a single-member household -Case where plan to file taxes indicator is set to yes -Cases where transition consumer has been negative actioned for “Failed to Complete Determination” or “Failed to Complete Redetermination” or received any non-compliance reason
Eligibility	Enrollment	47693	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create configurable values to indicate the probability that a consumer will be assigned to each of the 4 Manual APS processes that will be assigned to each of the 4 Manual APS processes.
Eligibility	Enrollment	47696	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create new indicator(s) to differentiate between each of the 4 Manual APS processes.
Eligibility	Enrollment	47714	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall trigger the Automatic Plan Selection (APS) logic and the downstream processes built in the SB260 CR for consumers who transitioned from Medi-Cal/MCAP/CCHIP to Covered CA and meet all the following criteria: - SAWS EDR transaction was received and transitioning individual was negative actioned for “Failed to Complete Determination” or “Failed to Complete Redetermination” or received any non-compliance reason in BRE run which triggered the MCT Transition Unsubsidized CCP only eligibility after initial transition - In a subsequent redetermination of eligibility, the transition individual becomes Eligible or Conditionally Eligible to APTC - The MCT flag is still active, or the MCT flag is not active but still within "X" number of days from the QLE Event Date, and the new flag for this population is still active.
Eligibility	Enrollment	47715	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create a new configurable value “X” which will be used to determine the Procedural Discontinuance APS End Date as either "X" number of days after the QLE Event Date or the MCT Transition End Date, whichever is later.
Eligibility	Enrollment	47716	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall assign an indicator for consumers that are transitioning from MAGI Medi-CAL/MCAP/CCHIP to Unsubsidized CCP due to Procedural Denial from receiving “Failed to Complete Determination” or “Failed to Complete Redetermination” or received any non-compliance reason resulting in Unsubsidized CCP only eligibility after initial transition.
Eligibility	Enrollment	47859	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall dynamically display the eligibility results that correspond to the highest record in the run date coverage year when user navigates from: - Eligibility Results link on the Account Home page OR - Eligibility tab on the Case History page OR - Household Summary on the Account Home page OR - "Choose a Plan"/"RAC"/"Apply Now" button on the Account Home page
Eligibility	Enrollment	48348	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send the enhanced CS level to the enrollment system based on the configuration set for the Household FPL % and the enrollment system should display the correct Silver level plans for selection, if the Enhanced CSR configuration is turned ON for a benefit year.
Eligibility	Enrollment	48354	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use the locked FPL% in the enhanced CSR computation when all of the following criteria are met: - System has enabled a FPL lock as part of a special functionality - Both Enhanced CSR and the functionality implementing the FPL lock are turned ON for a benefit year - Case has eligibility determinations impacted by both the enhanced CSR and the FPL lock functionality
Eligibility	Enrollment	48355	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the following new CS level categories on the Budget Worksheet: - "Baseline CSR without FPL Override" - "Enhanced CSR without FPL Override"
Eligibility	Enrollment	48356	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide an additional configuration to enable the Enhanced CS level to be mapped to a more advantageous CS level for SLS-eligible AI/AN populations, per the state’s discretion.
Eligibility	Enrollment	48362	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display, within the Budget Worksheet on the “Eligible For:” tag, the language “California Premium Subsidy and CSR without AI/AN” if a non-AI/AN individual is eligible to receive CSR and the California Premium Subsidy only.
Eligibility	Enrollment	48683	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall identify and give appropriate Portal messaging to active enrollment subscribers who updated their residential address to move to a region in which their current plan is not available, and they have not updated their enrollment.
Eligibility	Enrollment - SHOP		
Eligibility	Enrollment - SHOP	44821	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality for the consumer to provide known current or future medical usage and disease scenarios to adjust the estimated annual out of pocket costs for each plan selected for comparison.
Eligibility	Enrollment - SHOP	44822	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall highlight any generous provisions for each plan selected for comparison.
Eligibility	General Requirement		
Eligibility	General Requirement	37962	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall redetermine eligibility if the pregnant woman reports a change in the pregnant woman's marital status, i.e. reports they are married.
Eligibility	General Requirement	37964	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide the following messaging to the pregnant women under 21 on the eligibility results page when this income disregard has been applied. Good news! You qualify for Medi-Cal for pregnant women because you are single, under 21 years old, and pregnant. Your eligibility for Medi-Cal begins <MONTH DD, YYYY>. Your Medi-Cal coverage will continue unless you are found no longer eligible. This could happen at any time your eligibility is renewed or when your situation changes.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

OTSI CalHEERS RFP #73040873 Addendum 1
October 31, 2025

Category	Sub Category	Req ID	Requirement
Eligibility	General Requirement	38099	For mixed households, California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send an eligibility evaluation reason via eHIT when the QHP pregnancy hold applies.
Eligibility	General Requirement	38416	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall assign the County of Responsibility on initial case submission from the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Access Channel based the primary applicant's county of residence.
Eligibility	General Requirement	38418	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall identify cases for evaluation based on any of the following triggering conditions: 1. Eligibility is processed successfully from the last successful run of the Batch to the current Batch run. 2. A Disposition is processed successfully from the last successful run of the Batch to the current Batch run. 3. A 90 day Discontinuance cure period for the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Case's eligibility evaluation has expired.
Eligibility	General Requirement	38419	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall be allowed to reassign the County of Responsibility after the process has evaluated the case met all of the following conditions: 1. All applying members are Denied, Ineligible, or Discontinued from MAGI Medi-Cal 2. For MAGI Medi-Cal Discontinuance, at least one Disposition corresponding to the MAGI Medi-Cal Discontinuance determination is processed 3. 90 Day cure period of a discontinuance for failure to provide has expired 4. The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) case has no open referrals for Non-MAGI Medi-Cal 5. All California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Non-MAGI referrals reported per case member have a status of Ineligible or Discontinued The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System process of evaluation shall account the 90 day cure period from the first day of the benefit month of discontinuance for each case member incurring a 'Failure to Provide' reason of discontinuance.
Eligibility	General Requirement	38542	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall use 50% as the threshold for the reasonable compatibility test for income when determining eligibility for APTC/CSR consumers.
Eligibility	General Requirement	38897	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall update existing NOD01 snippets with new triggering conditions reflecting the reason for the action that was taken with the 009 and 010 tax filing codes received from IRS.
Eligibility	General Requirement	38898	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall have new verbiage in the NOD12 for consumers who are enrolled in a plan that is no longer being carried in the Exchange.
Eligibility	General Requirement	38899	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall have new verbiage in the NOD12 for consumers who are enrolled with an issuer that is no longer participating in the Exchange.
Eligibility	General Requirement	38900	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall have new language in the NOD12c for consumers losing their Catastrophic plan eligibility for the following benefit year during renewals.
Eligibility	General Requirement	38901	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the NOD01 with a new snippet for consumers currently enrolled in a catastrophic plan but no longer eligible for catastrophic coverage due to age during renewals.
Eligibility	General Requirement	38902	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall modify existing MCAP snippets in NOD01 to include instructions to keep or switch coverage to MAGI Medi-Cal or when a woman is retained in MCAP due to the MCAP pregnancy hold.
Eligibility	General Requirement	38903	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall include language on the NOD01 when: - a pregnant woman elects to transition from MCAP to MAGI Medi-Cal - a pregnant woman has the option to switch to a MAGI Medi-Cal
Eligibility	General Requirement	38904	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate new discontinuance snippets on the NOD01 for consumers that have been discontinued during the reasonable opportunity expiration process.
Eligibility	General Requirement	38906	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall suppress notices NOD50, NOD53, NOD56 and NOD59.
Eligibility	General Requirement	38907	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall update snippets 238 to align with the increased reasonable compatibility of 25%.
Eligibility	General Requirement	38908	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall add a field for benefit year in snippet 241 and make this a new snippet 829.
Eligibility	General Requirement	38909	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall map the default auto renewal date of 12/15 12/13 for NOD12s generated for Carry Forward cases.
Eligibility	General Requirement	38910	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall create a new snippet for the ROP reason related to Death and Incarceration on the NOD01ab.
Eligibility	General Requirement	38911	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall create a new snippet for the ROP reason related to Death and Incarceration on the NOD03.
Eligibility	General Requirement	38971	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall map the last day of the renewal period of the current year per the open enrollment calendar for NOD12s generated for Carry Forward cases.
Eligibility	General Requirement	38972	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall create a new snippet for the ROP reason related to Death and Incarceration on the NOD01.
Eligibility	General Requirement	38973	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall create a new snippet for the ROP reason related to Death and Incarceration on the NOD03.
Eligibility	General Requirement	38974	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall create a new snippet for consumers who are ineligible for APTC/CSR due to indicating they do not plan to file taxes.
Eligibility	General Requirement	39021	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall grant eligibility for APTC/CSR/CCP and MCAP and CCHIP to consumers with an SSN that have not attested to having ESI-MEC without requiring a response for ESI-MEC service
Eligibility	General Requirement	39022	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall not use Failure to Reconcile (FTR) codes sent from IRS as part of the Eligibility Determination.
Eligibility	General Requirement	39098	Change the label on the consumer preferences button from “SKIP TO VIEW PLANS” to “SKIP”
Eligibility	General Requirement	39101	Change the label on the consumer preferences button from “SKIP TO VIEW PLANS to SKIP
Eligibility	General Requirement	39102	Change the functionality of the “SKIP” button on the medical usage screen to navigate to provider search page instead of plan selection page
Eligibility	General Requirement	39103	Change the functionality of the “SKIP” button on the prescription usage screen to navigate to provider search page instead of plan selection page.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

OTSI CalHEERS RFP #73040873 Addendum 1
October 31, 2025

Category	Sub Category	Req ID	Requirement
Eligibility	General Requirement	39104	The functionality of the "SKIP" button on the provider search screen will navigate the consumer to the plan selection page.
Eligibility	General Requirement	39189	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall only produce Eligibility Evaluation Reasons for the assigned administrative verifications that resulted in the individual being determined ineligible or discontinued from MAGI Medi-Cal: -SSN -SSN Waiver -Incarceration -Deceased -Residency -Medicare -Projected Annual Income (PAI) -Current Monthly Income (CMI)
Eligibility	General Requirement	39194	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add and modify outputs in accordance with 42 CFR 435.119(c), which is applied to individuals who are within the Federal poverty limit of the MAGI Medi-Cal New Adult Group and who are parent/caretaker relatives with a child living in the home without Minimum Essential Coverage.
Eligibility	General Requirement	39195	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add an Eligibility Evaluation Reason for Parent/Caretaker Relative individuals with an FPL greater than 114% up to and including 138% who are discontinued / ineligible for MAGI Medi-Cal because a dependent child who lives in the home does not have minimum essential coverage (MEC).
Eligibility	General Requirement	39223	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall block from sending non-compliant Alien Numbers through the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) VLP interface to CMS. The blocked Alien Numbers are as follows: "0000000" "00000000" "000000000" "11111111" "111111111" "1111111111" "11111111111" "9999999" "99999999" "999999999" "9999999999"
Eligibility	General Requirement	39228	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display a naturalized or derived citizenship question.
Eligibility	General Requirement	39229	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the portal to allow a consumer to enter document information for their naturalized or derived status.
Eligibility	General Requirement	39256	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall enable the Change Health Plan button regardless of Dental plan selection.
Eligibility	General Requirement	39315	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall limit the DIVS systematic verification process to APTC/CSR/State Subsidy/CCP conditionally eligible individuals.
Eligibility	General Requirement	39316	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall limit the DIVS systematic verification process to conditionally eligible individuals on 'APTC/CSR/State Subsidy/CCP Only' cases.
Eligibility	General Requirement	39317	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall automatically redetermine eligibility for 'APTC/CSR/CCP Only' cases when a 'Pass' response is received from the DIVS.
Eligibility	General Requirement	39349	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use the Verify Lawful Presence verification of U.S. Citizenship when provided by the Federal Data Services Hub regardless of attestation for eligibility evaluation.
Eligibility	General Requirement	39350	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the Verify Lawful Presence U.S. Citizenship indicator on the Personal Verification page.
Eligibility	General Requirement	39351	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the Verify Lawful Presence U.S. Citizenship verification when providing consumers more beneficial aid as part of the eligibility.
Eligibility	General Requirement	39353	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide the following additional immigration statuses separate from the Immigration Status menu: - Battered non-citizen, or parent or child of battered non-citizen - Filed for a U Visa - Taking Steps to apply for a T Visa or for certification by the office of Refugee Resettlement
Eligibility	General Requirement	39354	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall do data conversion of the following additional three immigration statuses: *Battered non-citizen, or parent or child of battered non-citizen *Filed for a U Visa *Taking Steps to apply for a T Visa or for certification by the office of Refugee Resettlement
Eligibility	General Requirement	39355	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall have the ability to collect and consume additional information regarding their immigration statuses for an individual who attests to the following: *Battered non-citizen, or parent or child of battered non-citizen *Filed for a U Visa *Taking Steps to apply for a T Visa or for certification by the office of Refugee Resettlement

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Eligibility	General Requirement	39356	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use the Immigration Status and the below additional immigration statuses in the eligibility determination for consumer benefits for Medi-Cal and Exchange programs: - Battered non-citizen, or parent or child of battered non-citizen - Filed for a U Visa - Taking Steps to apply for a T Visa or for certification by the office of Refugee Resettlement
Eligibility	General Requirement	39508	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to capture an 11 character alpha numeric I-94 number where the 10th character can be a letter or a number on the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) portal.
Eligibility	General Requirement	39509	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the error message for the I-94 number on the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) portal.
Eligibility	General Requirement	39525	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the Eligibility Results page with State Subsidy information, including: Household Eligibility Results Summary, Individual Eligibility Details, and eligibility factors.
Eligibility	General Requirement	39548	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall disregard income verification statuses of "Pending", "Not Verified", "E-Verified", or "Pass" for the purpose of determining eligibility to the California Premium (State Subsidy) Program.
Eligibility	General Requirement	39565	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall utilize the income verification status of "Fail" for the purpose of determining eligibility to the California Premium (State Subsidy) Program.
Eligibility	General Requirement	39566	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall grant eligibility to CA premium subsidy for individuals who are otherwise eligible or conditionally eligible to APTC and whose income falls under < 100 % FPL who are denied full scope MAGI Medi-cal only for the reason of immigration status.
Eligibility	General Requirement	39567	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall grant eligibility to CA premium subsidy for individuals who are otherwise eligible or conditionally eligible to APTC and whose income is >= 100% and up to 138 % FPL who are denied full scope MAGI Medi-cal
Eligibility	General Requirement	39572	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall collect and/or modify the divorce or separation instrument order/ execution/ modification date for individuals that report alimony income in Insurance Affordability Programs (IAPs) applications.
Eligibility	General Requirement	39573	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall collect and/or modify the divorce or separation instrument order/ execution/ modification date for individuals that report alimony paid deduction in IAPs applications.
Eligibility	General Requirement	39581	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall only count divorce or separation instrument alimony as income when the order/execution/modification date is on or before 12/31/2018 in IAPs.
Eligibility	General Requirement	39582	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall only count alimony paid as a deduction when the divorce or separation instrument order/execution/modification date is on or before 12/31/2018 in IAPs.
Eligibility	General Requirement	39613	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall make the use of IRS data for State Subsidy income verification configurable.
Eligibility	General Requirement	39614	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall apply Pass or Fail to both Household Income - Subsidy and Household Income- CA Subsidy when Pass or Fail is manually selected for one of these verifications.
Eligibility	General Requirement	39615	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall clear the cache for both Household Income - Subsidy and Household Income- CA Subsidy when the cache is cleared for either of these verifications.
Eligibility	General Requirement	41007	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall trigger the Business Rules Engine run for the two highest benefit years when an override or confirmation is received via Disposition and crosses multiple coverage years that exist in California Healthcare Eligibility, Enrollment and Retention System (CalHEERS).
Eligibility	General Requirement	41595	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall capture UserRole as admin on Google Analytics Data Layer on HBX for the following roles if granted access to HBX pages: AssisterEnrollmentEntityAdmin Assister_Admin BROKER_Admin Broker
Eligibility	General Requirement	41596	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall remove populating UserRole as admin on Google Analytics Data Layer on HBX for following roles: Supervisor_announcement Admin_announcement Admin_Notices Supervisor_Notices
Eligibility	General Requirement	41598	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall capture UserDetailedRole as on Google Analytics Data Layer on HBX for the following roles if granted access to HBX pages: AssisterEnrollmentEntityAdmin Assister_Admin BROKER_Admin Broker

Category	Sub Category	Req ID	Requirement
Eligibility	General Requirement	41599	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall remove populating UserDetailedRole on Google Analytics Data Layer on HBX for following roles: Supervisor_announcement Admin_announcement Admin_Notices Supervisor_Notices DHCS_Softpause_Lift DHCS_Staff
Eligibility			California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall only calculate APTC/CSR/CAPS/CCP changes for the benefit year the RAC/Renewal is submitted for
Eligibility	General Requirement	42144	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall carry the following values over from the previous eligibility determination run for the current year during RRE (Re-run Eligibility at Intake): -Benchmark plan monthly premium -Maximum Annual Premium Amount (APTC) -Maximum Monthly Premium Amount (APTC) -Annual Federal APTC Amount -Maximum Monthly Federal APTC Amount -Total Maximum Monthly Premium Assistance Amount -Maximum Annual Premium Amount (CAPS) -Maximum Monthly Premium Amount (CAPS) -Annual CAPS Amount -Monthly CAPS Amount -Baseline CSR -Enhanced CSR
Eligibility			California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add a new flag on the Budget Worksheet to indicate that the current year eligibility was triggered due to RRE (Re-run Eligibility at Intake).
Eligibility	General Requirement	42150	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall set a consumer's Consent to 5 years when they are identified as being APS eligible as the result of a Medi-Cal/MCAP/CCHIP to APTC transition.
Eligibility	General Requirement	42151	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall insert a case note for APS consumers who had their consent updated due to being APS Eligible.
Eligibility	General Requirement	42152	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall apply Carry Forward status to the latest eligibility determination for the enrollment benefit year, regardless if the eligibility start date has been reached.
Eligibility	General Requirement	42154	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall only display the current year for MAGI Medi-Cal only cases during Open Enrollment on the Account Home page.
Eligibility	General Requirement	42155	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send HX20 ESAC-1 during RRE (Re-Run Eligibility at intake) for the current benefit year eligibility for MAGI Medi-Cal/MCAP/CCHIP when two years of eligibility is triggered.
Eligibility	General Requirement	42878	The Vendor must update the 'How Did You Hear About Covered California?' question drop-down with the following options and they must display in this order: · TV advertisement · Certified Enrollment Counselor · Certified Insurance Agent · County Eligibility Worker · Outdoor Advertisement (Billboard, Transit, Bus/Bus Shelters) · Family / Friend (Word of Mouth) · News Program or Story · Radio Advertisement · Social Media (Facebook, Twitter, YouTube) · Mail · Web / Internet Search · Online Advertisement · Magazine or Newspaper Advertisement · Email Message · Provider / Hospital · Other NOTE: The "Other" selection will NOT include a textbox for Consumer entry. NOTE: This list will replace the Extisting list.
Eligibility			If California Healthcare Eligiblity, Enrollment and Retention System (CalHEERS) gets an eligibility determination request from the SAWS and an individual household member requires a Lawful Presence verification and an existing Lawful Presence verification is already cached for the member then California Healthcare Eligiblity, Enrollment and Retention System (CalHEERS) will not call the hub for that household member.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Eligibility	General Requirement	45353	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall mark all DER-U's, generated in the same day remediation period, as "processed" after 8:00 PM when the last eligibility determination for all individuals resulted in any of the following programs and no MAGI Medi-Cal eligibility: • APTC/CSR/CCP, or • MCAP/CCHIP
Eligibility	General Requirement	45912	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall prevent the consumer or admin user from entering an income/deduction start date which is later than the end date for a previously ended income/deduction, when user changes income/deduction amount or frequency on "How is your income/deduction changing?" modal in Consumer View.
Eligibility	General Requirement	45913	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall prevent an admin user from entering an income/deduction start date which is later than the end date for a previously ended income/deduction, when admin edits errors in an income/deduction record on "How is your income/deduction changing?" modal in Consumer View
Eligibility	General Requirement	45914	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall prevent an admin user from entering an income start date which is later than the end date for a previously ended income, when admin edits income on "Edit Income" modal in Flexi App View
Eligibility	General Requirement	45915	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall capture the Start Date and/or End Date of the Income/Deduction records based on consumer or admin user's input to the questions on "Edit Income/Deduction" modal (for Intake)
Eligibility	General Requirement	45916	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall capture the Start Date and/or End Date of the Income/Deduction records based on admin user's input to the questions on "Edit an Error in This Income/Deduction Record" modal (for RAC/Renewal) in Consumer View
Eligibility	General Requirement	45917	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall capture the Start Date and/or End Date of the Income/Deduction records based on admin user's input to the questions on "Edit Income/Deduction" modal (for Intake) in Flexi App View
Eligibility	General Requirement	45918	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall capture the Start Date and/or End Date of the Income/Deduction records based on admin user's input to the questions on "Edit Income/Deduction" modal (for RAC/Renewal) in Flexi App View
Eligibility	General Requirement	46184	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality for the Admin (SCR/CEW) to search for a case from the Admin Home page
Eligibility	General Requirement	46185	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow Admin the functionality to search on the following: Consumer Information: a. First Name b. Last Name c. DOB d. SSN e. Account Email f. Client Index Number g. Pseudo ID Unique Identifier: h. California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Case ID i. Username j. Application ID
Eligibility	General Requirement	46186	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall require the Admin to include an input in at least one other search field when searching by First Name or by Date of Birth
Eligibility	General Requirement	46187	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow Admin the functionality to apply the following on search: a. Phonetic Name Search b. Name "like" search c. DOB Range
Eligibility	General Requirement	46188	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the Admins to clear all search inputs
Eligibility	General Requirement	46189	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall retain and display the last selected Admin search type
Eligibility	General Requirement	46190	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality for the Admin to view the search results
Eligibility	General Requirement	46191	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display a message when there are no search results or when query returns over 200 results
Eligibility	General Requirement	46192	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow Admin to view the following tier 1 information on the Search Results page- a. California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Case ID b. Name (First Name, Middle Initial, Last Name, Suffix) c. Date of Birth d. SSN e. Case Status f. Application ID g. Application Status

Category	Sub Category	Req ID	Requirement
Eligibility	General Requirement	46193	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow Admin to view the following tier 2 information for more details in the Search Results: a. Household Member b. Household Size c. Primary Contact d. CIN e. Pseudo ID f. Program Eligibility g. Account Email h. Username (Do not display for MCIEP Cases)
Eligibility	General Requirement	46194	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow Admin to view the following tier 2 information for more details in the Search Results for pending applications: a. Primary Contact b. CIN c. Pseudo ID d. Account Email e. Username (Do not display for MCIEP Cases)
Eligibility	General Requirement	46195	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display PseudoID according to the State MCIEP user role
Eligibility	General Requirement	46196	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display pagination and maximum number of results in Search results
Eligibility	General Requirement	46197	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow Admin to sort the search results
Eligibility	General Requirement	46198	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow Admin to filter the search result on Application status and Case status
Eligibility	General Requirement	46199	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow Admin to navigate to the following California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) portal pages: a. Case History b. Account Home c. Case Overview d. Manual Eligibility d. Manual Verifications e. View Access Code f. COR/Case Linkage g. Flexible App View
Eligibility	General Requirement	46200	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall visually indicate when tier 2 information has been viewed.
Eligibility	General Requirement	46201	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow Admin to navigate to the following California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) portal pages: a. Case History b. Account Home c. Enrollment Dashboard d. Manual Verifications e. View Access Code f. COR/Case Linkage g. Flexible App View
Eligibility	General Requirement	46202	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow Admin the ability to select and manually deselect records from the search results and revisit the selected records on subsequent logins
Eligibility	General Requirement	46203	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display a message to the Admin once the maximum number of records selected for revisit has been reached
Eligibility	General Requirement	46204	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement a configuration to enable/disable the Admin Search Functional pages designed in CR 147420
Eligibility	General Requirement	46542	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall grant Accelerated Enrollment Medi-Cal Eligibility for all Modified Adjusted Gross Income (MAGI) Medi-Cal eligible adults regardless of category (Adult, Parent/Caretaker, pregnancy, Etc.) and who are Pending/Not Verified for any verifications except Pending MEC MEDS or Not Verified MEC MEDS without a CIN from both California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) and SAWS access channels for intake run reasons. - Initial Intake/Same day remediation, - Add a person scenario (Report a Change/Renewals), - RAC/Renewal scenario where existing household member becomes a new Applicant.
Eligibility	General Requirement	46543	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not place individuals into Eligibility Review during intake if they are granted Accelerated Enrollment Medi-Cal Eligibility from the SAWS Access Channel.
Eligibility	General Requirement	46544	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall maintain eligibility to Accelerated Enrollment in subsequent transactions from SAWS if they were granted Accelerated Enrollment in their intake application and continue to meet the Accelerated Enrollment eligibility criteria.
Eligibility	General Requirement	46545	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall apply aid code '8E' to all eligible Accelerated Enrollment individuals.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

OTSI CalHEERS RFP #73040873 Addendum 1
October 31, 2025

Category	Sub Category	Req ID	Requirement
Eligibility	General Requirement	46546	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall determine an individual Conditionally Eligible for MAGI Medi-Cal when the individual is granted Accelerated Enrollment.
Eligibility	General Requirement	46547	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send the '8E' Aid Code to MEDS via the HX20 ESAC-1 transaction when an Individual is granted Accelerated Enrollment from California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) or SAWS access channel.
Eligibility	General Requirement	46548	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not send HX18 transactions for Accelerated Enrollment aid code 8E granted from SAWS Access Channel.
Eligibility	General Requirement	46549	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall grant Accelerated Enrollment Medi-Cal eligibility for all Modified Adjusted Gross Income (MAGI) Medi-Cal eligible Children who are under 19 years of age and who are Pending/Not Verified for any verifications except Pending MEC MEDS or Not Verified MEC MEDS without a CIN from both California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) and SAWS access channels for intake run reasons. - Initial Intake/Same day remediation, - Add a person scenario (Report a Change/Renewals), - RAC/Renewal scenario where existing household member becomes a new Applicant.
Eligibility	General Requirement	46550	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall validate that an individual has a CIN prior to granting eligibility for Accelerated Enrollment.
Eligibility	General Requirement	46551	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add the ability for Accelerated Enrollment granted from SAWS Access Channel for adults and children to be enabled or disabled based on a configuration.
Eligibility	General Requirement	46552	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall grant Accelerated Enrollment based on the configuration if the system date/run date is greater than or equal to the configuration effective date.
Eligibility	General Requirement	46553	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not grant Accelerated Enrollment for retro months of eligibility from the SAWS Access Channel.
Eligibility	General Requirement	46830	During CalSAWS Renewals RE EDR batch, California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall verify the attributes for Medicare, Deceased and Incarceration using the following rules: -Use the MAGI Medi-Cal RRV bulk verification data, if available. -If MAGI Medi-Cal RRV data is not available, then call the source.
Eligibility	General Requirement	46835	During CalSAWS Renewals EDR batch, California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall verify the attributes for Income: - Use the MAGI Medi-Cal RRV/FTB bulk verification data, if available. - If MAGI Medi-Cal RRV/FTB bulk verification data is not present, then call the source.
Eligibility	General Requirement	46836	During CalSAWS Renewal RE EDR batch, California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall continue to call the EDD online service for all the MAGI Medi-Cal households.
Eligibility	General Requirement	46838	During CalSAWS Renewals RE EDR Batch, California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall invoke the real-time API for Income (SSA Income, VCI, IRS), Medicare, Deceased and Incarceration attribute if there is an change to an impacted data element.
Eligibility	General Requirement	46839	During CalSAWS Renewals RE EDR Batch, California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall restrict the calls to CMS for Income, Medicare, Deceased, Incarceration verification attribute if there is a change to a non-impacted Data element.
Eligibility	General Requirement	46958	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the Eligibility Snippets-EligStatus 26 and 28 text word "members" to "member(s)" in English and "miembros" to "miembro(s)" for the Spanish translation.
Eligibility	General Requirement	46959	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update Eligibility Snippet-EligStatus 006 for individuals that are not eligible for Covered California Benefits
Eligibility	General Requirement	46962	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall make text updates Eligibility Snippets-EligStatus 009
Eligibility	General Requirement	47694	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall consider cases that have transitioned from MAGI Medi-Cal to Unsubsidized CCP coverage due to a BRE run triggered on or after 1/1/2024 and prior to the System Date at the time of the first run of Manual APS staging batches after CR 213355 go-live for inclusion in the Manual APS process.
Eligibility	General Requirement	47695	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall assign cases staged for Manual APS to one of the 4 Manual APS processes based on the following randomization process: - The probability of a case being assigned to Manual APS Process 1, 2, 3, or 4 will be defined by the value of the configurable value provided by Covered CA - A random value between 0 and 1 will be generated for the case following a uniform distribution - The value of the random value will be used to assigned the case to Process 1, 2, 3, or 4
Eligibility	General Requirement	47697	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall assign a Manual APS Treatment Indicator to cases which are staged for Manual APS to indicate which Process the consumer is assigned to.
Eligibility	General Requirement	47698	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall assign an Active Manual APS Indicator at an individual level to determine whether a consumer meets the criteria for Manual APS Process 1, 2, or 3 functionality to be triggered.
Eligibility	General Requirement	47699	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the Active Manual APS Indicator to “N” when a consumer is no longer eligible to take action related to Manual APS functionality for Manual APS Process 1, 2, or 3.
Eligibility	General Requirement	47713	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate new case notes for the following cases that were impacted by the Manual APS process: - Application updates were made and the consumer was assigned to Manual APS Process 1 - Application updates were made, and the case was assigned to Manual APS Process 2 - Application updates were made, and the case was assigned to Manual APS Process 3
Eligibility	General Requirement	47726	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) business rules engine will re-evaluate Medicare during every run of eligibility using the latest cached Insurance effective start and end dates for Medicare.
Eligibility	General Requirement	47727	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall utilize admin verifications for Medicare for an individual during every run of eligibility until the individual's Medicare cache is cleared.
Eligibility	General Requirement	47728	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use the Insurance Effective Start and End Dates to determine whether a person has Medicare.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

OTSI CalHEERS RFP #73040873 Addendum 1
October 31, 2025

Category	Sub Category	Req ID	Requirement
Eligibility	General Requirement	47729	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall determine an individual's estimated eligibility effective start date for health coverage programs that will be compared to the insurance effective start and end dates to determine whether a person has Medicare.
Eligibility	General Requirement	47730	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall determine an individual's estimated eligibility effective start date for Exchange programs during the open enrollment period to be either the first of January of the following year if the application date is in November or December of the current year or first of February if the application date is January.
Eligibility	General Requirement	47731	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall determine an individual's estimated eligibility effective start date for Exchange programs during special enrollment period to be the first of the month following the application date or QLE date, whichever is later, if the consumer's Eligibility Effective Date Category is "Loss of Coverage (MEC)".
Eligibility	General Requirement	47732	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall determine an individual's estimated eligibility effective start date for CCP during special enrollment period to be the QLE date when the Eligibility Effective Date Category is "Birth/Adoption/Appeals Mid-Month".
Eligibility	General Requirement	47733	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall determine an individual's estimated eligibility effective start date for APTC/CSR/CAPS during special enrollment period to be either the QLE date if the QLE date is the first day of the month or the first of the month following the QLE date when the Eligibility Effective Date Category is "Birth/Adoption/Appeals Mid-Month".
Eligibility	General Requirement	47734	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall determine an individual's estimated eligibility effective start date for Exchange programs during special enrollment period to be the first of the month following the application date for all reported Qualifying Life Events in the "First of the following month" eligibility effective category.
Eligibility	General Requirement	47735	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall determine an individual's estimated eligibility effective start date for Exchange programs to be the first of the month following the application date when no QLE is reported and a QLE is detected.
Eligibility	General Requirement	47736	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall determine an individual's estimated eligibility effective start date for Exchange programs to be the first of the requested benefit month if the requested benefit month is a future month compared to the run date.
Eligibility	General Requirement	47737	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall determine an individual's estimated eligibility effective start date for MAGI Medi-Cal/MCAP/CCHIP to be the first of the application submission month.
Eligibility	General Requirement	47738	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall determine an individual's estimated eligibility effective start date to be the first of January of the following year as part of the Exchange Renewals.
Eligibility	General Requirement	47739	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall determine an individual's estimated eligibility effective start date for PVC to be the PVC verification batch run date.
Eligibility	General Requirement	47740	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall interpret the following response received from Non-ESI Real time API, RRV and PVC service: - If Insurance effective start and end date is not returned in the response from Non-ESI or RRV or PVC for Medicare Coverage, then it is considered as no Medicare Coverage irrespective of MEC Verification Code. - If MEC Verification Code is received as P or Y and Insurance Start Date is present & End Date is not returned or is NULL in the response from Non-ESI or RRV or PVC for Medicare Coverage, then it is considered as ongoing Medicare Coverage.
Eligibility	General Requirement	47741	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall request Medicare eligibility for a 12 month time span from January 1st to December 31st of the requested benefit year when a Medicare verification call is made.
Eligibility	General Requirement	47742	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add a new verification caching rule for Medicare to call verification for a 12 month time span from January 1st to December 31st if Medicare coverage dates have not previously been requested for that requested benefit year.
Eligibility	General Requirement	47743	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall reset the maximum call counter for Medicare verifications and invoke a new verification call if Medicare coverage dates are not stored in the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) DB for the requested benefit year.
Eligibility	General Requirement	47744	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall consider an individual as having Medicare coverage if the Insurance Effective Start Date from the latest Medicare Response is prior or equal to the estimated eligibility effective start date, and the Insurance Effective End Date is later than the estimated eligibility effective start date.
Eligibility	General Requirement	47745	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall consider an individual as not having Medicare coverage if the Insurance Effective Start Date from the latest Medicare Response is a date that is later than the estimated eligibility effective start date and there are no other records from the latest Medicare Response indicating coverage during the estimated eligibility effective start date.
Eligibility	General Requirement	47746	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall consider an individual as not having Medicare coverage if the Insurance Effective Start Date and End Date from the latest Medicare Response are prior or equal to the estimated eligibility effective start date, and there are no other records from the latest Medicare Response indicating coverage during the estimated eligibility effective start date.
Eligibility	General Requirement	47747	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display up to the two latest Medicare coverage date range slices on the Personal Verification page.
Eligibility	General Requirement	47800	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall enhance the Upload Eligibility Documents page and Documents & Correspondence page to provide near real time document quality feedback.
Eligibility	General Requirement	47801	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall display a message to the Consumer on the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) portal for the document quality issues in the event when the uploaded document quality is below the configurable document quality threshold and allow them to either upload new file or continue for the submission of document.
Eligibility	General Requirement	47802	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall display a message to the Consumer on the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) portal when the document quality looks good in the event when the uploaded document quality is above the configurable document quality threshold and allow them to either upload new file or continue for the submission of document.
Eligibility	General Requirement	47804	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall enhance the reason(s) to be displayed on Personal Verification page following a Cannot Verify result from IDP.
Eligibility	General Requirement	47805	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall reset and clear the reason(s) tied to IDP 'Cannot Verify' only for the specific verification which are administratively (Admin pass/fail) or electronically verified (e-verified).
Eligibility	General Requirement	47806	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall reset and clear all the reason(s) tied to IDP 'Cannot Verify' when the individual is no longer qualified for the Covered California Programs (APTC/CSR/CCP/CAPS).

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

OTSI CalHEERS RFP #73040873 Addendum 1
October 31, 2025

Category	Sub Category	Req ID	Requirement
Eligibility	General Requirement	47807	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall display a message to the consumer that the documents have been submitted and are being verified.
Eligibility	General Requirement	47808	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall display a message to the consumer that their document(s) verification is under review if IDP response is "Cannot Verify".
Eligibility	General Requirement	47809	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add a new transaction 'Eligibility Determination - IDP' on Transaction History page when IDP response of "Pass" triggers BRE to re-determine the eligibility.
Eligibility	General Requirement	47860	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall retain the current year eligibility when a prior year benefit intake application is submitted during the current benefit year to maintain continuity of eligibility already established in current year.
Eligibility	General Requirement	47861	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update Spanish Translations for the following eligibility snippets: - EligStatus_026 - EligStatus_028 - EligFactor_006
Eligibility	General Requirement	47889	During the MAGI Medi-Cal RRV and Exchange RRV process, California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall ensure an Equifax-destined transmission file does not exceed 100 MB of uncompressed XML.
Eligibility	General Requirement	47908	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement a functionality to determine Strike Lockout (SLS) Benefit Eligibility for consumers who have attested to Loss of MEC and attested to the fact that the loss is due to labor disputes caused by a Strike Lockout
Eligibility	General Requirement	47909	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall only display the new Strike Lockout question "Did you lose health coverage due to a Strike or Lockout" in intake applications during OSEP/SEP if the user selects the QLE "Lost or will lose health Coverage"
Eligibility	General Requirement	47910	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create and display a confirmation question to users asking if they are still part of an active Strike Lockout instance if the system detects that the previously attested Strike Lockout reason is still active when the user is entering a Renewals/RAC and the tax household was previously eligible for Strike Lockout benefit
Eligibility	General Requirement	47911	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display an informational note when the consumer selects "NO" to the confirmation question that is asking if the household is still part of the previously attested Strike Lockout.
Eligibility	General Requirement	47912	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall evaluate all applying members of the primary tax filing household eligible/conditionally eligible for Strike Lockout benefits if at least one member in the tax filing household attests to a loss of MEC and is impacted by a Strike Lockout and the applying members meet all other eligibility criteria
Eligibility	General Requirement	47913	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall require that consumers meet the APTC eligibility requirements to be eligible to the Strike Lockout benefit with the exception of FPL levels in order to be eligible for the new Strike Lockout benefit
Eligibility	General Requirement	47914	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall continue to utilize existing rules for effective dating and qualifying life events effective dating rules will be applicable to the Strike Lockout program
Eligibility	General Requirement	47915	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall disregard income verifications for the Strike Lockout benefit program.
Eligibility	General Requirement	47916	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall continue to follow the existing ROP rules while determining eligibility for SLS program
Eligibility	General Requirement	47917	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall continue to follow the existing PDM while determining eligibility for SLS program
Eligibility	General Requirement	47918	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall cap the FPL% at 138.1% for the determination of the Strike Lockout benefit, if the consumer is found eligible to Strike Lockout benefit.
Eligibility	General Requirement	47919	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall utilize the actual FPL for the determination of the Strike Lockout benefit, if the consumer is found eligible for Strike Lockout, and the calculated FPL range is between 100% and up or equal to 138%
Eligibility	General Requirement	47920	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall lock the FPL at 100% for the determination of the Strike Lockout benefit if the consumer is found eligible for Strike Lockout benefit and the calculated FPL falls below 100%
Eligibility	General Requirement	47921	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use the Fairshare Percentage table that is used for the APTC eligibility determination to determine the Strike Lockout benefit amount.
Eligibility	General Requirement	47922	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall continue to use the appropriate FPL% for the respective programs in the determination of APTC/CAPS Subsidy, if the consumer is found eligible to Strike Lockout benefit.
Eligibility	General Requirement	47923	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall continue to determine a consumer's CovCA program aid code (including SLS) based off the attested budget calculation even when SLS FPL % is overridden
Eligibility	General Requirement	47924	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall override the CSR FPL at 138.1% for consumers eligible to SLS to grant the most beneficial Baseline CSR plan
Eligibility	General Requirement	47925	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall override the CS level for non-AI/AN consumers irrespective of the attested income to CS6 if determined eligible for the Strike Lockout benefit
Eligibility	General Requirement	47926	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall override the CS level for AI/AN consumers with attested income over 300% FPL from CS3 to CS6 if determined eligible for the Strike Lockout benefit
Eligibility	General Requirement	47927	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall retain the CS level for AI/AN consumers with attested income equal to or below 300% FPL at CS2 if determined eligible for the Strike Lockout benefit
Eligibility	General Requirement	47928	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement a configuration which will enable/disable the functionality for the determination of the Strike Lockout Eligibility for a benefit year.
Eligibility	General Requirement	47929	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall continue to grant Strike Lockout benefits during renewals to a consumer in the next benefit year if the Strike Lockout configuration is turned "ON" for the next year, the previously attested Strike Lockout instance is still active, and the consumer meets Strike Lockout eligibility requirements
Eligibility	General Requirement	47930	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall discontinue a consumer from Strike Lockout benefits during renewals in the next benefit year if the Strike Lockout configuration is turned "ON" for the next benefit year, the previously attested Strike Lockout instance is still active, but the consumer fails to meet Strike Lockout eligibility requirements

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Eligibility	General Requirement	47931	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall discontinue a consumer from Strike Lockout benefits during renewals in the next benefit year if the Strike Lockout configuration is turned "ON" for the next benefit year, and the previously attested Strike Lockout instance has or is ending in the current enrollment year
Eligibility	General Requirement	47932	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall discontinue a consumer from Strike Lockout benefits during renewals in the next benefit year if the Strike Lockout configuration is turned "OFF" for the upcoming benefit year.
Eligibility	General Requirement	47933	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to display the Strike Lockout benefit as a State Subsidy for consumers.
Eligibility	General Requirement	47934	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the Eligibility for Strike Lockout program at a case level in the Household Eligibility Results Summary, grouped under the Financial Help section
Eligibility	General Requirement	47935	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall disregard the unemployment income type while counting income towards the computation of Strike Lockout benefit
Eligibility	General Requirement	47936	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall treat any income not countable for APTC as also not countable for Strike Lockout benefit
Eligibility	General Requirement	47937	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the Eligibility Results page with Strike Lockout information, including: Household Eligibility Results Summary, Individual Eligibility Details, and Eligibility factors.
Eligibility	General Requirement	47938	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display "Strike Lockout Benefit" in the "Program Eligibility by Person" section as its own line item/eligibility to denote status, start and end dates.
Eligibility	General Requirement	47939	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall group "Strike Lockout Benefit" in the Household Eligibility Results Summary page under Financial Help category
Eligibility	General Requirement	47940	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the "Strike Lockout Benefit" as its own new blurb (Official name TBD) with it's own "additional details" paragraph section in the individual financial eligibility details under the "Financial Information "section
Eligibility	General Requirement	47941	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall only display Strike Lockout eligibility snippets under Eligibility Results Financial Help section when the SLS configuration is turned ON and the household is eligible for the Strike Lockout program or being discontinued from it.
Eligibility	General Requirement	47942	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall make updates to the Budget page to show calculations for Strike Lockout benefit amount.
Eligibility	General Requirement	47943	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add and display "Strike Lockout Benefit" as a program in the "Eligible For" Section of the Budget Worksheet when a consumer is found eligible for the program
Eligibility	General Requirement	47944	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add the "Strike Lockout Benefit" line items for annual, maximum monthly and then including that additional subsidy amount in the Total Maximum Monthly Premium Assistance Amount (last line which post-implementation would be sum of APTC+CAPS+SLS).
Eligibility	General Requirement	47945	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add Strike Lockout detail to the top introduction paragraph under "Budget Worksheet" screen.
Eligibility	General Requirement	47946	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall utilize the self-attested APTC FPL for consumers currently receiving SLS who go into CFS or QHP Pregnancy Hold and continue to cap the FPL at 138.1% for the Strike Lockout benefit and CSR evaluations
Eligibility	General Requirement	47947	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall discontinue a consumer from an ongoing Strike Lockout program after CCA renewals for the next benefit year if the SLS configuration is turned "OFF" for the next benefit year and the consumer was placed on CFS or QHP Pregnancy Hold
Eligibility	General Requirement	47948	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall continue granting Strike Lockout benefits to a consumer after CCA renewals for the next benefit year if the configuration is turned "ON" for the next benefit year and the consumer is placed on CFS or QHP Pregnancy Hold
Eligibility	General Requirement	47949	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall develop a batch process to discontinue consumers from eligibility to all exchange programs (excludes eligibility to Medi-Cal programs) when: - a strike/lockout instance is deactivated, OR - cases attesting to ""Not Listed"" or ""Labor Dispute"" are identified
Eligibility	General Requirement	47950	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add a new sub reason code for the eligibility determination from the batch that is run when a Strike Lockout instance is de-activated.
Eligibility	General Requirement	47951	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add the following case note when the Strike/Lockout discontinuance batch is run and enrollment and eligibility are successfully updated: The strike or lockout reported on this case has ended and the household is no longer eligible for Strike Lockout Benefits for [YYYY]. The household eligibility for exchange programs has been discontinued and enrollment has been terminated. See Manual Work - Strike Eligibility Enrollment Task Guide SC.104
Eligibility	General Requirement	47952	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add the following case note when the Strike/Lockout discontinuance batch is run and enrollment and eligibility are not successfully updated: Manual Work Needed: The strike or lockout reported on this case has ended and the household is no longer eligible for Strike Lockout Benefits for [YYYY]. The household eligibility and enrollment could not be updated automatically and requires manual work. See Manual Work - Strike Eligibility Enrollment Task Guide SC.104
Eligibility	General Requirement	47953	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall utilize the 15 day rule when discontinuing a consumer from all Exchange programs including CCP when running the Strike Lockout Discontinuance Batch
Eligibility	General Requirement	47954	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall design the Strike Lockout Discontinuance batch to take in either the official Strike Record as a parameter, or a case list to discontinue at a case level
Eligibility	General Requirement	47955	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall design the Strike Lockout Discontinuance batch to run eligibility twice in the scenario where the consumer has already been renewed for the upcoming benefit year and must be discontinued for both years.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

OTSI CalHEERS RFP #73040873 Addendum 1
October 31, 2025

Category	Sub Category	Req ID	Requirement
Eligibility	General Requirement	47956	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall design the Strike Lockout Discontinuance Batch to have the follow exclusion criteria 1. Cases where case status is "Inactive", "Closed" , or "Closed as Duplicate" are excluded 2. Cases where the "Strike Attestation Flag" is set as "N" 3. Cases where the consumer is not actively enrolled in a plan should be excluded 4. Cases in CFS or QHP Pregnancy Hold are excluded
Eligibility	General Requirement	47957	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall discontinue a consumer from the Strike Lockout program if the consumer manually updates that they are no longer part of the active Strike Lockout or if they re-gained MEC
Eligibility	General Requirement	47977	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall disregard the Strike Lockout benefit amounts while communicating with FTB and generating the 3895 form.
Eligibility	General Requirement	47982	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add messaging/alert to the Account Home page to display to all Strike Lockout eligible consumers that they are currently receiving Strike Lockout benefits and to update the application if they are no longer a part of the Strike Lockout
Eligibility	General Requirement	47983	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add messaging/alerts to Account home page notifying a consumer that their Strike Lockout has ended and that they will no longer receive Strike Lockout benefits.
Eligibility	General Requirement	47987	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall continue granting eligibility to the Strike Lockout program to an existing SLS consumer if any type of EDR is received and the system detects that the previously attested Strike Lockout instance is still active (no end -date) and the consumer meets all other eligibility criteria
Eligibility	General Requirement	47988	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall discontinue an existing SLS consumer from the Strike Lockout program if any type of EDR is received and the system detects that the previously attested Strike Lockout is no longer active (has an end-date) or if they no longer meet other exchange eligibility criteria.
Eligibility	General Requirement	47989	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use the first of the following month effective dating rules for SLS when SLS is ended and consumer remains eligible for CCP
Eligibility	General Requirement	47990	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall remove the following messaging from the application flow when a consumer attests to being impacted by a strike: "The Strike Lockout Benefit will not show in your eligibility. Do not pick a plan once you submit your information. Please call our service center at (800) 793-6385 so we can enroll you in a plan that saves you the most on your premium (monthly cost)."
Eligibility	General Requirement	47991	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall restrict the user input to the text box of the "Not Listed" or "Labor Dispute" to only allow alphabet characters , numbers, spaces, hyphens & periods.
Eligibility	General Requirement	47992	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall make the field for the name of the strike/lockout or the labor dispute as a mandatory required data item, if the consumer selects an active strike record as "Not Listed" or "Labor Dispute"
Eligibility	General Requirement	47993	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the "Enrollments " Page in the Admin Portal to display Strike Lockout Benefit in the "Savings Breakdown" under the Health Plans Details.
Eligibility	General Requirement	47996	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add Strike Lockout as a display criteria under the "Covered CA" grouping for the Program Eligibility column with the Enhanced Admin Search Bar
Eligibility	General Requirement	47999	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the language in the Review Screens & App.PDF to display the full Strike Lockout Questions
Eligibility	General Requirement	48000	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the Strike Lockout Admin Config Page "Add/Edit Strike" to allow self service admin OFF/ON for "Not Listed" and "Labor Dispute"
Eligibility	General Requirement	48001	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall queue up the "Strike Lockout Attestation Page" during Open Enrollment Intake Applications for users who were using the Flexi-App channel and were navigated to the consumer Portal to complete the application.
Eligibility	General Requirement	48002	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the Final Household Review Screen (for RAC) to capture the QLE and Strike Lockout Information that was selected during the current RAC.
Eligibility	General Requirement	48104	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall discontinue the consumer from APTC/Income Based CSR when any of the tax filing codes are received from IRS and the configuration is turned ON for the benefit year.
Eligibility	General Requirement	48105	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the following snippet on the Eligibility Results page for individuals ineligible to APTC/CSR/CAPS/SLS due to married filing separately, FTR, and not planning to file reasons - You are not eligible to receive premium assistance for one or more of the following reasons: •The primary tax filer does not plan to file federal income taxes. •The primary tax filer has a spouse but does not plan to file taxes as "Married Filing Jointly." •The primary tax filer plans to file taxes as "Married Filing Separately." •Someone in your tax household did not file a federal income tax return with IRS Form 8962 for 2 years in a row when they got premium tax credits.
Eligibility	General Requirement	48106	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the following Business rules conditions for the EligFactor_060: Display if consumer is ineligible/discontinued for APTC/CSR/CAPS/SLS for one or more of the following reasons: 1a. Not Planning to File Reasons 1b. Married Filing Separately 1c. Primary Tax Filer has a spouse and is not filing taxes as "Married Filing Jointly" 1d. FTR codes (007, 009, 010, 011)
Eligibility	General Requirement	48397	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow users with Covered CA or Mixed Household cases, involving Covered CA benefits to apply application changes on California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Portal to both benefit years until end of the current benefit year (12/31) when one of the following is reported - 1. Case is staged for Covered CA renewals and user initiates a RAC for current benefit year or renewal for upcoming benefit year 2. Covered CA renewal is complete for the next benefit year and user initiates a RAC (for any of the benefit year)

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Eligibility	General Requirement	48398	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall introduce a new data element which allows the user to indicate whether the changes reported should be applied across both current and future benefit years.
Eligibility	General Requirement	48399	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display a QLE selection screen if user attests to apply application data changes across both current and future benefit years.
Eligibility	General Requirement	48400	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall determine eligibility for the current year followed by the future year when user attests to apply same changes across both current and future benefit years
Eligibility	General Requirement	48401	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall grant new Strike Lockout eligibility for both current and future benefit year if the user attests to a new strike lockout during Renewals or RAC (any benefit year) and they opt to apply application data changes across both current and future benefit years
Eligibility	General Requirement	48402	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall evaluate Strike Lockout eligibility for both current and future benefit year if the user attests that the household is still impacted by an ongoing strike during Renewals or RAC (any benefit year) and they opt to apply application data changes across both current and future benefit years
Eligibility	General Requirement	48403	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall discontinue the user from the Strike Lockout program for both current and future benefit year if the user attests that the household is no longer part of the Strike Lockout during Renewals or RAC (any benefit year) and opts to apply application data changes across both current and future benefit years.
Eligibility	General Requirement	48408	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the fair share adjustment percentage amount for APTC for the benefit year 2025.
Eligibility	General Requirement	48420	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall make updates to the Header Paragraph on the Race/Ethnicity section in the application flow for SSA during intake and Flexi-App during Intake, RAC, Renewals.
Eligibility	General Requirement	48421	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Renewals Batch (BAT10A) shall pick up cases for passive renewal if the case has at least one exchange member eligible for renewal for an upcoming enrollment year and was not renewed along with other member(s) in the household already having coverage in the future enrollment year with MAGI Medi-Cal/MCAP/CCHIP eligibility
Eligibility	General Requirement	48422	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the Spanish translation for the dropdown value of "Closed -Duplicate Case" when the user navigates to the Case Status page to update the case status.
Eligibility	General Requirement	48425	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the Procedural Discontinuance APS Flag from "Y" to "E" for cases/individuals that were identified as candidates for Procedural Discontinuance APS, as soon as plan selection occurs, which can be either manual plan section or auto-plan selection for any benefit year
Eligibility	General Requirement	48426	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use Admin verifications/E-verification, if received for verification attributes, during California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Renewal Mode when processed after the initial run of renewal eligibility.
Eligibility	General Requirement	48430	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the existing Deferred Renewal Operational Process (DROP) batch logic while renewing Automatic Plan Selection (APS) enrollments to include the case only if the opt-in is received or the enrollment status is confirmed.
Eligibility	General Requirement	48449	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the Strike Lockout Discontinuance Batch to evaluate for Strike Lockout Eligibility in current and future benefit years and stage the case for discontinuance regardless if it is a renewed case or not.
Eligibility	General Requirement	48451	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall modify document list on portal to match up to date document list on Covered California Website
Eligibility	General Requirement	48452	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall notify the user of the discrepancy between the user classified document and the IDP-detected document type if IDP's classification do not align with user's classification.
Eligibility	General Requirement	48486	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall retain MAGI Medi-Cal conditional eligibility when SAWS sends a Disposition during the same day remediation timeframe that is confirming conditional eligibility.
Eligibility	General Requirement	48488	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall interpret any of the following responses from income Sources as a zero-dollar income for Reasonable compatible evaluation: - o SSA Title II Monthly/Annual Income Verification Request Indicator as “False”/ “N” - o IRS response is "Return Information is unavailable" (HE020004 or 004), or - o FTB response is "Not Found" (404), or - o EDD response is "SSN Unknown" (9991), or - o VCI response is “Applicant Not Found” (HE000001) or "Record Not Found" (17004)
Eligibility	General Requirement	48489	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall evaluate reasonable compatibility when the dollar amount returned from SSA and one of the other income sources (IRS, EDD, FTB, VCI) is available.
Eligibility	General Requirement	48490	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall apply a hierarchy for reasonable compatibility check for Household Income Subsidy verification as follows: 1. If the income returned from IRS + SSA is reasonably compatible for Household Income Subsidy then only use IRS for reasonable compatibility check and do not check for reasonable compatibility with other income sources (FTB,EDD,VCI) for Household Income Subsidy. 2. If the income returned from IRS is not reasonably compatible then continue to check with other income sources for reasonable compatibility. 3. If individual attests to \$0 of income, the existing hierarchy and reasonable compatibility rules shall be followed.
Eligibility	General Requirement	48491	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not include previous year end-dated income in the calculation of current year total income for the income verification process of MAGI Medi-Cal Cases as part of SIR 263660.
Eligibility	General Requirement	48492	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the mock services to enable testing of EDD Response Codes 9990, 9991, 9998.
Eligibility	General Requirement	48856	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create a process called "Reasonable Explanation" where consumers who have submitted an application and are determined to have pending income verifications can select a "Reasonable Explanation" via the Portal to be applied to themselves
Eligibility	General Requirement	48857	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow "Reasonable Explanation" to be received in the initial intake EDR and will consume the "Reasonable Explanation" regardless of the response from the hub call
Eligibility	General Requirement	48858	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall trigger a Business Rule Engine (BRE) Run when a consumer submits a selection of a Reasonable Explanation value from the Portal or when an EDR is received for the consumer with Reasonable Explanation

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Eligibility	General Requirement	48859	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create an "ON/OFF" configuration for "Exchange - Reasonable Explanation"
Eligibility	General Requirement	48860	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall always allow a consumer that is Pending/Conditionally Eligible to MAGI Medi-Cal, MCAP, or CCHIP to select a 'Reasonable Explanation' from a dropdown menu via the Portal to apply to themselves, if they meet the following criteria: -Consumer's MAGI Medi-Cal Current Monthly Income and/or MAGI Medi-Cal Projected Annual Income is "Pending" and, - Attesting to Income greater than \$0 and, - MAGI Medi-Cal Household Composition does not include an individual that is “Not Verified” for both MAGI Medi-Cal Current Monthly Income and MAGI Medi-Cal Projected Annual Income
Eligibility	General Requirement	48861	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall always allow a consumer who is Exchange Subsidy Conditionally Eligible/Eligible to select a “Reasonable Explanation” from a drop-down menu via the Portal when they meet the following criteria: -Consumer's MAGI Medi-Cal Current Monthly Income and/or MAGI Medi-Cal Projected Annual Income is "Pending" and, - Attesting to income greater than \$0 and, - There is at least one person on the case that is Pending or Conditionally Eligible to MAGI Medi-Cal, MCAP, or CCHIP due to Pending Income Verifications and, - MAGI Medi-Cal Household Composition does not include an individual that is “Not Verified” for both MAGI Medi-Cal Current Monthly Income and MAGI Medi-Cal Projected Annual Income
Eligibility	General Requirement	48862	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow Exchange conditionally eligible consumers in an Exchange only household to select a "Reasonable Explanation" from a drop down menu via the Portal when the "Reasonable Explanation - Exchange configuration is "ON" and if they meet the following criteria: -Attesting to income greater than \$0 and, -Consumer's MAGI Medi-Cal Current Monthly Income and/or MAGI Medi-Cal Projected Annual Income is "Pending" and, -Consumer's Household Income - Subsidy and/or Household Income – CA Subsidy is "Pending" and, - Household Composition does not include an individual that is “Not Verified” for MAGI Medi-Cal Current Monthly Income, MAGI Medi-Cal Projected Annual Income, Household Income - Subsidy , and Household Income - CA Subsidy
Eligibility	General Requirement	48863	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not display the Reasonable Explanation menu for the entire household via the Portal when there is a child that is reporting income greater than \$0 with an exception for the following scenario: - "Reasonable Explanation - Exchange configuration" is "ON" and, - the case is an Exchange Only household
Eligibility	General Requirement	48864	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display a non-applying member on the Reasonable Explanation menu page if they have attested to greater than \$0 in income and have income which counts in the budget for an individual that is Conditionally Eligible/Pending to MAGI Medi-Cal/MCAP/CCHIP/Exchange due to Pending Income Verifications
Eligibility	General Requirement	48865	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display a non-eligible member on the Reasonable Explanation menu page if they have attested to greater than \$0 in income and have income which counts in the budget for an individual that is Conditionally Eligible/Pending to MAGI Medi-Cal/MCAP/CCHIP/Exchange due to Pending Income Verifications
Eligibility	General Requirement	48866	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall determine an individuals' verification status for MAGI Medi-Cal Current Monthly Income and/or MAGI Medi-Cal Overridden Projected Annual Income as “Reasonably Explained” when 'Reasonable Explanation' is selected for the individual from the Portal and submitted and "Reasonable Explanation - Exchange" configuration is OFF
Eligibility	General Requirement	48867	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall determine an individual's verification status for MAGI Medi-Cal Current Monthly Income and/or MAGI Medi-Cal Overridden Projected Annual Income, Household Income - Subsidy , and Household Income - CA Subsidy as “Reasonably Explained” when a valid 'Reasonable Explanation' (not "other") is selected for the individual from the Portal and submitted and Reasonable Explanation - Exchange" configuration is ON
Eligibility	General Requirement	48868	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall protect a cached "E-Verified" or "Pass" verification status if the individual selects a "Reasonable Explanation" from the Portal.
Eligibility	General Requirement	48869	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall determine an individual's verification source as "REX" when a Reasonable Explanation is selected and submitted from the Portal
Eligibility	General Requirement	48870	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall maintain a consumer’s MAGI Medi-Cal Current Monthly Income and/or MAGI Medi-Cal Projected Annual Income verification status as “Pending” when “Other” is selected from “Reasonable Explanation” drop-down regardless if "Reasonable Explanation - Exchange" configuration is OFF or ON
Eligibility	General Requirement	48871	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall determine an individual's verification source as "REX-OTH" when Reasonable Explanation - Other is selected from the Portal and submitted
Eligibility	General Requirement	48872	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create a BPM task for a CCA Admin to review the case when an individual in an Exchange Only Case selects "Other" from the Reasonable Explanation Drop-Down when the "Reasonable Explanation - Exchange" configuration is ON.
Eligibility	General Requirement	48873	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall maintain a consumer’s Household Income – Subsidy and Household Income – CA Subsidy verification status as “Pending” when “Other” is selected from “Reasonable Explanation” drop-down if "Reasonable Explanation - Exchange" configuration is ON
Eligibility	General Requirement	48874	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create and display a new eligibility factor to notify a consumer that an Admin (CEW/CCA admin) is performing a review of the “Other” Selection from Reasonable Explanation.
Eligibility	General Requirement	48875	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send or receive the Reasonable Explanation verification status in the EDR/DER/DER-U when 'Reasonable Explanation' is selected and submitted for a pending MAGI Medi-Cal income verification
Eligibility	General Requirement	48876	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send or receive the actual “Reasonable Explanation” value in the EDR/DER/DER-U
Eligibility	General Requirement	48877	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall receive reasonable explanation details at a member level via SAWS EDR.
Eligibility	General Requirement	48878	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create the following new EDR tags: rexOtherReason, rexVerifReason, rexVerifInd, rexVerificationResponseInterpretation, rexVerifTypes, and rexVerifType.
Eligibility	General Requirement	48879	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create the following new DER tags: rexOtherReason, rexVerifReason, rexVerifInd, rexVerificationResponseInterpretation, rexVerifTypes, and rexVerifType.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

OTSI CalHEERS RFP #73040873 Addendum 1
October 31, 2025

Category	Sub Category	Req ID	Requirement
Eligibility	General Requirement	48880	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall determine eligibility based on the 'Reasonable Explanation' received in an EDR from SAWS access channel
Eligibility	General Requirement	48881	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall prioritize Admin Pass in an EDR if there is also Reasonable Explanation contained
Eligibility	General Requirement	48882	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the verification status for Household Income – Subsidy and Household Income – CA Subsidy as 'Reasonably Explained' when 'Reasonable Explanation' is received in an EDR for a "Pending" or "Not Verified" MAGI Medi-Cal CMI and/ or MAGI Medi-Cal PAI and Reasonable Explanation - Exchange configuration is ON.
Eligibility	General Requirement	48883	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the verification status for MAGI Medi-Cal Current Monthly Income and/or MAGI Medi-Cal Overridden Projected Annual Income as 'REX- Confirm' when the "REX-Confirm" that documents a CEW has reviewed and confirmed a prior selection of "Other" from Reasonable Explanation is received.
Eligibility	General Requirement	48884	CalHEERS shall maintain the verification status for MAGI Medi-Cal Current Monthly Income and/or MAGI Medi-Cal Overridden Projected Annual Income as "Pending" and update the verification source as "REX-Deny" when the "REX-Deny" that documents a CEW has reviewed and Denied a prior selection of "Other" from Reasonable Explanation is received via EDR.
Eligibility	General Requirement	48885	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the verification status for each applicable income attribute as 'REX- Confirm' when a SCR (CCA Admin)/admin user confirms reviews an "Other" selection from the Reasonable Explanation Menu via the Manual Verification Page for an Exchange Only Case.
Eligibility	General Requirement	48886	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall maintain the verification status of "Pending" with "REX-Deny" as the source for the applicable income attributes when a SCR (CCA Admin) reviews and denies the "Other" Selection from the Reasonable Explanation Menu via the Manual Verification Page by selecting "Deny REX"
Eligibility	General Requirement	48887	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall set the individual's verification source as "Admin" when an admin user accesses the manual verification page to either Confirm or Deny a consumer's "REX-Other" Selection.
Eligibility	General Requirement	48888	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall set the individual's verification source as "SAWS" when Reasonable Explanation is received and consumed from an EDR
Eligibility	General Requirement	48889	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall set the individual's verification source as "REX-OTH" when Reasonable Explanation - Other is received and consumed from an EDR
Eligibility	General Requirement	48890	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall always protect a cached "E-Verified" or "Admin Pass" response when an incoming EDR is received with Reasonable Explanation contained and discard the Reasonable Explanation
Eligibility	General Requirement	48891	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall always discard an existing "Admin Fail" and consume any Reasonable Explanation verification (Reasonably Explained, REX-Confirm, or Pending with REX-Other or REX-Deny as the source) when received in an incoming EDR.
Eligibility	General Requirement	48892	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall consume an "E-Verified" Hub response when a subsequent RAC is submitted and the individual was prior "Pending" verification status with "REX-Other" or "REX-Deny" verification source and a hub call is triggered which returns an "E-Verified" response
Eligibility	General Requirement	48893	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall "pull forward" or "lock in" a REX-Other when a subsequent RAC without an income change or SSN change is made and a hub call is triggered which returns a "Pending" response
Eligibility	General Requirement	48894	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall flush the REX-Other or REX Deny from the verification source when a subsequent RAC with an income change or SSN change is made and a hub call is triggered which returns a "Pending Response"
Eligibility	General Requirement	48895	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall flush the REX-Other or REX Deny from the verification source when a subsequent RAC with or without an income change or SSN Change is made and a hub call is made resulting in "Not Verified"
Eligibility	General Requirement	48896	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have "Reasonable Explanation" as a verification status follow the same verification caching rules as "Admin Pass"
Eligibility	General Requirement	48897	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create and display an alert/message/link on the consumer's Account Home Page, Eligibility Results Summary Page, and the Household Summary Page to direct them to the Reasonable Explanation Drop Down Menu if it is applicable to the consumers.
Eligibility	General Requirement	48898	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall align an individual's income verification status to Admin Pass, Reasonably Explained, or REX-Confirm when all other members in their household composition who have income have their pending income verified and the individual is determined eligible for MAGI Medi-Cal or Exchange Subsidy.
Eligibility	General Requirement	48899	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall capture the selection and submission of "Reasonable Explanation" via portal or receipt via EDR and the following BRE run that is triggered in the Change Log Table and the Case Transaction History
Eligibility	General Requirement	48900	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall capture the usage of a Reasonable Explanation in the Verification History Page
Eligibility	General Requirement	48901	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall continue to display the E-Verification Response and the E-Verification Response Date for the most recent HUB Response on the Personal Verification page when a subsequent admin verification or a Reasonable Explanation is received until the cache is cleared for that data element by an admin or a new electronic call is made
Eligibility	General Requirement	48902	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create a new "Reasonable Explanation" Section on the Verification Response Module and populate Interpretation Text when a Reasonable Explanation verification is applied
Eligibility	General Requirement	48903	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the MCAP and CCHIP daily Extract report to include Reasonable Explanation "other" reason when available.
Eligibility	General Requirement	48904	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall trigger two Business Rules Engine (BRE) runs-- one for the current year and one for the future year-- when a consumer is accessing the Reasonable Explanation module menu during the renewals timeframe.
Eligibility	General Requirement	48905	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall ensure all Reasonable Explanation submissions are submitted for the current year when a consumer selects the future year Reasonable Explanation call-to-actions.
Eligibility	General Requirement	48906	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use the same existing Admin verification hierarchy logic during California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Renewals, RRC, and SAWS Renewals for the "Reasonable Explanation" and "REX-Confirm" statuses.
Eligibility	General Requirement	48907	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create a new portal page/module to capture Reasonable Explanation attestations.
Eligibility	General Requirement	48908	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall group members on a given case by household composition on the new Reasonable Explanation page.

Category	Sub Category	Req ID	Requirement
Eligibility	General Requirement	48909	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add a due date element in the Reasonable Explanation page.
Eligibility	General Requirement	48910	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the following dropdown values as possible Reasonable Explanation attestations: [Loss of job] [Decrease in job hours] [Fluctuating income] [Commission-based work] [Seasonal income] [Self-employment related reasons] [Change in marital status] [Household member moving in or out of house] [Homelessness] [Victim of identity theft] [Victim of natural disaster] [Intimate partner violence] [Other]
Eligibility	General Requirement	48911	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow users to enter a reason in a freeform textbox upon selection of "other" from the dropdown.
Eligibility	General Requirement	48912	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall continue to display the Reasonable Explanation module and call-to-actions after the due date has expired.
Eligibility	General Requirement	48913	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall no longer display the Reasonable Explanation menu for an individual if the individual is has already selected a Reasonable Explanation and is Reasonably Explained or Pending with REX-Oth for any of the income verification attributes (MAGI Medi-Cal CMI, MAGI Medi-Cal PAI, Household Income - CA Subsidy, Household Income - Subsidy).
Eligibility	General Requirement	48914	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) should display the Reasonable Explanation menu again if a consumer becomes Pending with REX-Deny for any of the income verification attributes (MAGI Medi-Cal CMI, MAGI Medi-Cal PAI, Household Income - CA Subsidy, Household Income - Subsidy).
Eligibility	General Requirement	48915	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall prioritize Admin Pass in an EDR if there is also Reasonable Explanation contained
Eligibility	Interfaces		
Eligibility	Interfaces	40578	During California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Renewals (Passive and Active), California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall verify the attributes for Income using the following rules: -Use the RRV/FTB bulk verification data, if available. (RRV for IRS/SSA/VCI and FTB Bulk verification for FTB) -If RRV data is not available then call IRS/SSA/VCI (for the source where data is not available from RRV) - If FTB Bulk verification is not available then call the FTB real time API - If no responses are received from the income sources ("Not Verified") response, then use the admin verification if available
Eligibility	Interfaces	41414	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update VIED to incorporate the Verify Current income request and response as part of RRV.
Eligibility	Interfaces	41415	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall enforce schema validations as provided in the XSD as provided by CMS for the H79 - Renewal and Redetermination Verification (RRV) Composite (bulk).
Eligibility	Interfaces	41416	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall ensure a transmission does not exceed 500 MB of uncompressed XML.
Eligibility	Interfaces	41417	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use Escape Characters for the following XML characters within the request file: & (ampersand) as & < (less than) as < > (greater than) as > ' (Apostrophe) as ' " (quotation mark) as "
Eligibility	Interfaces	41418	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) to remove the leading and trailing spaces from the Name Fields (FN, LN, MN) applicable for VCI, SSA, IRS, and Non-ESI MEC services called as part of RRV.
Eligibility	Interfaces	41419	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall replace the First, Middle, Last Name containing only the special characters (`~!@#\$\$%^*()_+ -=[]{}<&\' ";:./?>.,) with "Unknown" so the record does not error out applicable for VCI, SSA, IRS, and Non-ESI MEC services called as part of RRV.
Eligibility	Interfaces	41420	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not send any other special characters to CMS for all the Name Fields (FN, MN, LN) applicable for VCI, SSA, IRS, and Non-ESI MEC services called as part of RRV.
Eligibility	Interfaces	41421	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall persist the request and response made to the VCI-RRV Service in California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) DB.
Eligibility	Interfaces	41422	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall normalize VCI-RRV response received from CMS at Individual Level.
Eligibility	Interfaces	41423	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall ensure that RRV batch job should update INDV_ID and status details in RRV Tables
Eligibility	Interfaces	41424	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the Batch and Transmission Metadata to include VCI Manifest Data Elements in the Manifest File.
Eligibility	Interfaces	41425	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall consider record level response code of 2000 as not verified as the call is failed at the CMS Gateway for VCI-RRV service.
Eligibility	Interfaces	41426	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall consider record level response codes of 17004 as not having income from this source for VCI-RRV service.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Eligibility	Interfaces	41427	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement a re-try mechanism to re-generate the Request and Manifest files if error codes are received at File, Batch or Manifest Level.
Eligibility	Interfaces	41428	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update Mock Services to simulate responses from the “Verify Current Income” RRV service in order to support testing.
Eligibility	Interfaces	41429	During California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Renewals (Passive and Active, with consent on file), California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall populate the VCI response in DER-U when an updated VCI-RRV response is received for each individual if there is any change to case data elements/eligibility results/aid codes.
Eligibility	Interfaces	41430	During California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Renewals (Passive and Active, with consent on file), California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send DER-U with updated VCI-RRV response and set Exchange Informational Update Flag as “Yes” for cases where an updated VCI response is received and there is no change to case data elements/eligibility results/aid codes.
Eligibility	Interfaces	41431	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send up to 12 months of Pay Period Information to SAWS in a DER-U via eHIT when an updated VCI-RRV response is received for each individual.
Eligibility	Interfaces	49420	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall trigger MEDS transactions for individuals determined Conditional Eligible for MCAP.
Eligibility	Notices		
Eligibility	Notices	38005	"The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System must have the functionality to send notices of action at intake, renewal, and RAC."
Eligibility	Notices	38994	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall generate and send a new Notices of Action (NOAs) to the beneficiaries (via the authorized representative's address provided by CDCR) who have applied for the MAGI State Inmate or MAGI State Medical Parole Programs.
Eligibility	Notices	38995	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall allow for single-month noticing for retroactive months of eligibility for the MAGI MCIEP State Inmate or MAGI MCIEP State Medical Parole Programs.
Eligibility	Notices	39003	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall update the Eligibility Results page to include information for the consumer when they are ineligible to APTC/CSR due to indicating they are not planning to file their taxes.
Eligibility	Notices	39212	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send Section 1557 non-discrimination verbiage with every outbound notice.
Eligibility	Notices	39213	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate the CalNOD11 when the consent for verification is equal to or less than 0 years.
Eligibility	Notices	39475	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate Failure to Reconcile (FTR) Action Notices for FTR Codes 007, 009, and 010 in the 12 Threshold languages.
Eligibility	Notices	39741	Text Updates for NOD01 per template version 01
Eligibility	Notices	39742	Text Updates for NOD38 per template version 01
Eligibility	Notices	39743	Text Updates for NOD63 per template version 03
Eligibility	Notices	39888	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create new snippet for NOD01 to address the gap for cases/individuals found ineligible due to negative action received from SAWS.
Eligibility	Notices	39889	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create a new snippet for NOD01 for cases denied for the current year when the consumer applied for the next year with a QLE during open enrollment.
Eligibility	Notices	39890	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall separate the notice from the 1095-A Form in NOD62A.
Eligibility	Notices	39891	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall dynamically populate the tax year in the notice for tax year 2020 and beyond.
Eligibility	Notices	39892	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall merge the NOD62A notice with the applicable 1095-A Form before uploading to the consumer's Documents & Correspondence page, mailing or e-mailing (uploading to Secure Mailbox).
Eligibility	Notices	39893	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall separate the notice from the 1095-A Form in NOD62B.
Eligibility	Notices	39894	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall dynamically populate the tax year in the notice for tax year 2020 and beyond.
Eligibility	Notices	39895	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall merge the NOD62B notice with the applicable 1095-A Form before uploading to the consumer's Documents & Correspondence page, mailing or e-mailing (uploading to Secure Mailbox).
Eligibility	Notices	39923	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall make language updates to snippet 883 for consumers who need to update consent.
Eligibility	Notices	39924	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the existing combined snippet 154 so that it triggers when the consumer is not in carry forward status and is ineligible to either APTC, CSR, California Premium Subsidy or QHP due to MEC determination received via attestation, admin fail, or hub response.
Eligibility	Notices	39925	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create a new snippet for NOD01 to address the gap for cases/individuals found ineligible due to Soft Pause.
Eligibility	Notices	39926	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall trigger the NOD01c, irrespective of whether the Individual's information is successfully or unsuccessfully verified by the Hub.
Eligibility	Notices	40145	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate a single NOD01 when a transaction received from SAWS results in discontinuance for QHP/MCAP/CCHIP, even if there are subsequent 'continuing discontinuance' eligibility transactions that are received on the same day.
Eligibility	Notices	40146	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall ensure snippet 321 is generated when a QLE is not received from SAWS for consumers transitioning from MAGI Medi-Cal to Covered CA.
Eligibility	Notices	40147	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall trigger NOD69 for the newly added member in batch, if there is no subsequent denial or discontinuance for that member on the same day.
Eligibility	Notices	40148	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall make language updates to the NOD69 and the associated appeals page.
Eligibility	Notices	40149	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall suppress the snippets 911, 912, and 913 when the consumer is in CFS.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Eligibility	Notices	40150	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall ensure the snippet 910 is suppressed when the consumer is in CFS.
Eligibility	Notices	40151	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall make language updates to NOD11.
Eligibility	Notices	40198	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall consolidate the annual batch for NOD11 to remove the separation of effectuated vs non-effectuated.
Eligibility	Notices	40199	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall make language updates to NOD61 A,B, & C
Eligibility	Notices	40200	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the NOD61 A, B & C to include the mini babel page and discontinue using the separate specific babel document.
Eligibility	Notices	40201	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall make language update to snippet 881.
Eligibility	Notices	40202	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall ensure the language updates made to snippet 881 populate on the NOD03.
Eligibility	Notices	40487	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create and generate a new snippet for Covered CA eligibility section in the NOD01 for members who are Eligible/Conditionally eligible for California Premium Subsidy and ther California Premium Subsidy (Monthly) is \$0. "You meet the program eligibility requirements for California Premium Subsidy. Your household qualifies for \$0.00 per month. We based our decision on the household size and income you reported."
Eligibility	Notices	40488	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall suppress this snippet if snippet 775 is triggered.
Eligibility	Notices	40489	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall suppress snippet 910 and 910, if this new snippet is triggered.
Eligibility	Notices	40490	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create and generate a new snippet for Covered CA eligibility section in the NOD01 for members who are Eligible/Conditionally eligible for APTC and ther APTC (Monthly) is \$0 AND/OR Eligible/Conditionally Eligible for State Subsidy and State Subsidy (Monthly) is \$0. "If your household financial help amount is \$0.00, it is because the cost of the standard plan in your area is less than the maximum monthly amount you are expected to pay for a health plan. It could also be because you have received all the financial help your household qualifies for this year."
Eligibility	Notices	40491	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall suppress this snippet if snippet 775 is triggered.
Eligibility	Notices	40492	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the language for snippet 359 "You are eligible for health and dental plans through Covered California with up to \${TAX_CREDIT_AMOUNT} per month in premium assistance (a federal tax credit). This can be used to lower your household's health plan premium (monthly cost). We based this decision on the household size and income you reported (\${CCA_ANNUAL_INCOME} for the year. However, you do not qualify for cost-sharing reductions (lower co-payments and deductibles) because your household income is over the limit for this program. "
Eligibility	Notices	40493	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the trigger conditions for snippet 359 to generate when the consumer is eligible to APTC/CCP and not eligible to CSR.
Eligibility	Notices	40494	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall suppress/remove snippet 360.
Eligibility	Notices	40495	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the language for snippet 376 "You do not qualify for cost-sharing reductions (lower co-payments and deductibles) because your household income is over the limit for this program. "
Eligibility	Notices	40496	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the trigger conditions for snippet 372 to generate when the consumer is part of Primary tax filer's household, eligible/conditionally eligible for CCP and not eligible to APTC due to income limit.
Eligibility	Notices	40497	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the trigger conditions for snippet 910 to generate when a consumer is eligible for State Subsidy and State Subsidy (monthly) amount is greater then \$0.
Eligibility	Notices	40498	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the trigger conditions for snippet 911 to generate when a consumer is conditionally eligible for State Subsidy and State Subsidy (monthly) amount is greater then \$0.
Eligibility	Notices	40500	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate a new notice when a consumer is flagged by Periodic Data Matching for the following: - PDM Verification returns the consumer is eligible to Medicare Part A. - PDM Verification returns the consumer is 'Deceased'.
Eligibility	Notices	40501	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate NOD01c when source is "California Healthcare Eligibility, Enrollment and Retention System (CalHEERS)" and run reason is "Periodic Reverification."
Eligibility	Notices	40502	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall trigger snippet 169 in NOD01 when the run reason is Periodic Reverification.
Eligibility	Notices	40503	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall make language updates to NOD69.
Eligibility	Notices	40504	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall trigger NOD69, when enrollment changes are detected in a case, if there was no eligibility run that would trigger NOD01.
Eligibility	Notices	40505	CalHEERs shall trigger the most recent enrollment information in NOD69.
Eligibility	Notices	40506	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the language for ROP snippets
Eligibility	Notices	40507	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the trigger condition for snippets 910, 911, 912, and 913 so that it continues to trigger when the run reason is ROP batch.
Eligibility	Notices	40508	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate the correct County Contact Phone Number on the NOD01 and NOD64.
Eligibility	Notices	40509	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate snippet 917 for consumers with a non compliance reason.
Eligibility	Notices	40510	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate a new snippet for NOD01 for individuals who are denied or discontinued for CCHIP who are over the 322% FPL.
Eligibility	Notices	40511	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall suppress snippets 443, 718, 702 when snippet 480 generates.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

OTSI CalHEERS RFP #73040873 Addendum 1
October 31, 2025

Category	Sub Category	Req ID	Requirement
Eligibility	Notices	40512	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate a delegation notice to the Consumer's secure mailbox when an Accelerated Consumer Delegation Consent request is triggered with a successful OTP code.
Eligibility	Notices	40513	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate a delegation notice when Successful Delegation occurred through Accelerated Consumer Delegation Consent request.
Eligibility	Notices	40517	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate a delegation notice when Unsuccessful Delegation occurred through Accelerated Consumer Delegation Consent request.
Eligibility	Notices	40518	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall attach a copy of the delegation notice to the Consumer's documents & correspondence.
Eligibility	Notices	40519	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate a delegation notice to Enroller's secure mailbox when an Accelerated Consumer Delegation Consent request is submitted for a OTP code and DPL check found multiple cases within California Healthcare Eligibility, Enrollment and Retention System (CalHEERS).
Eligibility	Notices	40520	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall populate a snippet in the NOD01 for consumers who do not have an online account linked to their case.
Eligibility	Notices	40521	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create and generate new snippet for Medi-Cal eligibility section in the NOD01 for members whose determinations are subject to "Eligibility Review", the potential eligibility status for MAGI Medi-Cal is "Discontinued" and there is any change to Covered CA eligibility for other members in the case: "You may qualify or continue to be eligible for Medi-Cal. The Medi-Cal office in your county will contact you if they need more information. You will get a separate notice about your eligibility for Medi-Cal. If you have already received a notice about your Medi-Cal eligibility, please disregard this message."
Eligibility	Notices	40522	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create and generate a new snippet for Covered CA eligibility section in the NOD01 for members whose MAGI MC determinations are subject to "Eligibility Review", the potential eligibility status for MAGI Medi-Cal is "Discontinued" and current Covered CA eligibility status is IE/DS.
Eligibility	Notices	40523	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add snippets for enrollment information, which if available will be printed on CalNOD01, when generated. - Plan/Carrier Name - Enrollment Effective Start Date - Enrollment Effective End Date - Plan/Enrollment Status - Premium Amount
Eligibility	Notices	40524	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall make the determination to generate the NOD01 (abc) when one or more members in a mixed household case are subject to "Eligibility Review" and the potential eligibility status for MAGI Medi-Cal is "Discontinued" regardless if there is change to Covered CA eligibility for other members in the case.
Eligibility	Notices	40525	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall make the determination to skip the NOD01 (abc) when all members in the case are subject to "Eligibility Review" and the potential eligibility status for MAGI Medi-Cal is "Discontinued".
Eligibility	Notices	40560	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create and generate a new snippet under the introduction section of NOD01 for all cases that have their eligibility redetermined by the the 2021 Stimulus Batch. "The American Rescue Plan (2021 federal stimulus package) expanded financial help and lowered the cost of health insurance through Covered California. We checked your eligibility to see if you qualify for more or new financial help beginning {Eligibility_Start_Date}. If you are enrolled in a health plan, we applied the maximum amount of financial help you may qualify for. We have sent this information to your health insurance company to make updates to your bill, if needed."
Eligibility	Notices	40675	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update language and notice formatting on the NOD12A and D.
Eligibility	Notices	40676	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall adjust the placement of the 'Changes you may need to report' table.
Eligibility	Notices	40677	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall trigger a renewal notice for consumers who are eligible in the current year and not enrolled.
Eligibility	Notices	40764	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update triggering conditions for NOD38.
Eligibility	Notices	40765	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the name variable information to include suffix for members in Carry Forward Status on the NOD64.
Eligibility	Notices	40766	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update language on the NOD64.
Eligibility	Notices	40767	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate 3895 notices & tax forms based on the newly identified notice/form/instruction order. Example, CalNOD62 for 1095 & 3895 should appear as follows: 1. Cover letter 2. Form for Jan-March 2021 enrollment 3. Form for June-July 2021 enrollment 4. Form for Oct-Dec 2021 enrollment 5. Instruction's page 6. FAQ 7. Section 1557 8. Babel Page
Eligibility	Notices	40768	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate the 1095 & 3895 forms chronologically for each benefit year.
Eligibility	Notices	40769	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate CalNOD64 only once for a case at the initial determination of Carry Forward status.
Eligibility	Notices	40770	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update snippet 897 language and placement in the NOD01.
Eligibility	Notices	40771	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update trigger conditions and language on the NOD01 for snippets 900, 354, 882, 330 and 261.
Eligibility	Notices	40772	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create a new snippet for the 'Questions?' content to populate when the triggering conditions of snippet 900 are not met.
Eligibility	Notices	40773	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the trigger conditions for snippet 786 so it is populated in the notice all year including during SEP.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Eligibility	Notices	40774	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add the additional 4 digits to the zip code (zip code + 4 digits) to California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) notices.
Eligibility	Notices	40775	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add the suffix to the consumer name on the NOD70A/B notices.
Eligibility	Notices	40776	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the NOD01 (Snippet 923) and NOD69 notices to display the CA subsidy payment for the CA premium credit amount.
Eligibility	Notices	40802	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update language on the NOD01 for snippet 923.
Eligibility	Notices	40803	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall remove the 'Date_Generated' variable from snippet 923 for the NOD01.
Eligibility	Notices	40907	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update all identified snippet translations to the correct language format.
Eligibility	Notices	40908	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update snippet 881 for the Hmong threshold language to correct the word "Dam" to 'Daim' in the snippet.
Eligibility	Notices	40909	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update translated text for NOD01 threshold languages for the following snippets: 829, 885, 899, 238, 359 and 878.
Eligibility	Notices	40910	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update NOD01 snippet 775, 829, 912, 918, 917 translations for the Hmong language to correct language errors.
Eligibility	Notices	40911	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update NOD70b for the Hmong language to correct language errors.
Eligibility	Notices	40912	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update NOD01 snippet 434 translations for the Vietnamese language to correct language errors.
Eligibility	Notices	40913	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall ensure the State is populated on the NOD61 notices.
Eligibility	Notices	40914	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall ensure all snippets containing monetary variables accurately display two decimal places in the cents position when the second decimal is a zero.
Eligibility	Notices	40915	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update NOD62a/b/c/d, NOD01ab/c, NOD69, NOD61a/b/c, NOD64, NOD63 and related documentation with the corrected babel page reflecting the updated language for the Punjabi, Chinese, Korean, Tagalog, Hmong, and Thai threshold languages.
Eligibility	Notices	40916	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update snippet 885 (proof chart) to ensure table does not split in threshold languages.
Eligibility	Notices	40917	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update text for all threshold languages on the NOD62C original notice.
Eligibility	Notices	40918	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update text for all threshold languages on the NOD62A original notices.
Eligibility	Notices	40919	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update text for all threshold languages on the NOD62B correction/void notices.
Eligibility	Notices	40920	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update text for all threshold languages on the NOD62D correction/void notices.
Eligibility	Notices	41028	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the triggering logic for snippet 786. Snippet 786 should trigger when a consumer is CE for QHP and either - the consumer is not eligible for APTC/CSR OR -the consumer is conditionally eligible for CSR, and -the consumer is not eligible for APTC
Eligibility	Notices	41029	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the snippet order for snippet 369 to appear below the denial reasons.
Eligibility	Notices	41078	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate CalNOD62A/C along with the 2021 IRS and FTB Forms so they can be sent to the print vendor for print and mailing.
Eligibility	Notices	41079	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate CalNOD62B/D along with the 2021 IRS and FTB Forms so they can be sent to the print vendor for print and mailing.
Eligibility	Notices	41080	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate 1095 & 3895 notices & tax forms in tandem for a household.
Eligibility	Notices	41081	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall list benefit coverage dates chronologically for the same plan on the IRS/FTB Forms.
Eligibility	Notices	41082	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update language and trigger conditions on the NOD69. NOD69 must generate only when there is a change in the following trigger conditions: - Carrier Name - Plan Name/Plan Type - APTC Amount/CAPS Amount - Gross Premium - Net Premium - When a new enrollee is added
Eligibility	Notices	41083	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall remove the 'Date_Generated' variable from the NOD69.
Eligibility	Notices	41270	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update NOD01 with a new snippet to comply with consumer disclosure requirements of the Fair Credit Reporting Act.

Category	Sub Category	Req ID	Requirement
Eligibility	Notices	41271	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall make the determination to generate the NOD01 (ab)/c if an eHIT EDR is received from the SAWS access channel, irrespective of the run reason, AND one of the following conditions apply: * Households with 1 or more members who are eligible/conditionally eligible/discontinued for CCP, APTC, California Premium Subsidy, CSR, MCAP, CCHIP programs * At least one applying member in a household is ineligible for all of the following: CCP, APTC, California Premium Subsidy, CSR, MCAP, CCHIP and MAGI Medi-Cal AND The eligibility benefit month is greater than or equal to the eligibility run month * Results in a change of eligibility to CCP, APTC, California Premium Subsidy, CSR for at least 1 member of the household from the previously sent or queued to be sent NOD01. * One or more members in a mixed household case are subject to “Eligibility Review” and the potential eligibility status for MAGI Medi-Cal is “Discontinued” and there is a change to Covered CA eligibility for other members in the case
Eligibility	Notices	41272	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall first print Address line 2 followed by Address line 1 in all the notices so that bulk readers can read them correctly.
Eligibility	Notices	41273	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate NOD01, NOD03 and NOD69 in Punjabi and Hindi languages when selected for written language preferences.
Eligibility	Notices	41274	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update Appeals language in the notices.
Eligibility	Notices	41275	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create a new CCA denial snippet in NOD01 for MCAP eligible consumers when consumers are eligible for MCAP and above MAGI income limits.
Eligibility	Notices	41276	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update snippet 917 for negative action when they are denied only financial help and are still eligible for CCA unsub.
Eligibility	Notices	41277	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update NOD03, NOD11a, NOD12a/d/e, NOD70a/b, NOD72a/b and NOD73 and related documentation with the corrected babel page reflecting the updated language for the Chinese, Korean, Tagalog, Hmong, Thai, and Punjabi threshold languages.
Eligibility	Notices	41278	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the NOD11 page numbers to display only the page number.
Eligibility	Notices	41279	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate a new snippet for consumers that do not have an SEP end date.
Eligibility	Notices	41280	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update trigger for snippet 900.
Eligibility	Notices	41515	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall deprecate all Notice snippet language referencing premiums for MCAP, CCHIP and OTLICP.
Eligibility	Notices	41516	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall make the deprecation of Notice snippet language configurable.
Eligibility	Notices	41520	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update NOD01 snippet table variable "{MCAP DUE DATE}" to change the number of days required to submit documentation from 23 to 17 days.
Eligibility	Notices	42952	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate a NOD02 if there is a change in MAGI Medi-Cal eligibility between the month prior to the benefit month of evaluation and the benefit month evaluated. A change in MAGI Medi-Cal eligibility for NOD02 is defined if one of the following combinations of conditions are met: - condition A OR - condition B and C or D OR - condition C OR - condition D Conditions: A) The run reason is 'RE' or 'RM' with a disposition and no notice for renewals has previously been generated. B) The run reason is 'RE' or 'RM' with a disposition and a notice for renewals has previously been generated. C) A change in Eligibility Status for Medi-Cal: Pending to Eligible or Conditionally Eligible or Ineligible Eligible or Conditionally Eligible to Ineligible Eligible or Conditionally Eligible to Discontinued Ineligible to Eligible or Conditionally Eligible Discontinued to Eligible or Conditionally Eligible D) Any change in Eligibility Scope for Medi-Cal.
Eligibility	Notices	42953	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send only one NOD02 notice per new or change in eligibility determination when: a) An initial eligibility determination is made, OR b) an eligibility redetermination is made, AND c) there are one or more changes in eligibility for any member within the household since the previous eligibility determination.
Eligibility	Notices	42978	When a disposition is received for a MAGI or mixed household with multiples months of eligibility, California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) must determine if there is any change in MAGI eligibility for any MAGI member for any of the months received.
Eligibility	Notices	42987	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) NOD02 shall only display the earliest effective date for the eligibility determination when the benefit month determined is equal to or following the month of application.
Eligibility	Notices	42988	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate a notice (NOD02) when the benefit month determined is on or after the month of application and there is a change in eligibility for any member in a household, following an eligibility redetermination, after a disposition is received from SAWS.
Eligibility	Notices	43037	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate a notice for the benefit month of the eligibility determination (NOD02) when the benefit month for determination is prior to the month of application.

Category	Sub Category	Req ID	Requirement
Eligibility	Notices	43038	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate a NOD01c for each eligibility determination made from the SAWS Channel for the current benefit month by case.
Eligibility	Notices	43319	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall generate NOD02 notices (under the NOD02 California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) NOA framework requirements implemented prior to 16.2 release) from dispositions received from SAWS for eligibility determinations made prior to the deployment of Phase 1 (16.2 release) until < three months after the deployment of 16.2 release>).
Eligibility	Notices	43320	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall track NOD02 Notice transactions (NOD02 NOAs received from SAWS as well as NOD02 NOAs generated by California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) up to three months after the last NOD02 notice is generated by California Healthcare Eligibility, Enrollment and Retention System (CalHEERS)) through California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) production system-monitoring operational reports.
Eligibility	Notices	45947	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the Triggering Conditions for Snippet Id- 436.
Eligibility	Notices	46252	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create a process to generate a supplemental notice insert (content previously known as buck slip), that can be run on demand for an active notice with configuration ON/OFF.
Eligibility	Notices	46255	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) will allow specific admin users to upload notice insert across each category (NOD01ab/ NOD01c/NOD01T)within a Notice type
Eligibility	Notices	46256	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the capability to generate the supplemental notice insert such that the insert could be in full color/gray scale as part of image upload feature.
Eligibility	Notices	46257	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the capability to generate the supplemental notice insert in all the languages supported by California Healthcare Eligibility, Enrollment and Retention System (CalHEERS).
Eligibility	Notices	46259	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the option of positioning the supplemental notice insert to the front or back of a notice.
Eligibility	Notices	46260	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall only allow the supplemental notice insert to be printed on a single or double page on a full size sheet of paper.
Eligibility	Notices	46261	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the supplemental notice insert to be in the package of more than one notice.
Eligibility	Notices	46262	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add system functionality to be able to upload a supplemental notice insert along with the original notice to the consumers account under Documents and Correspondence page and/or Secure mailbox.
Eligibility	Notices	46264	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall expand the functionality of an Admin Notice (NOD00) to be generated in all the supported languages.
Eligibility	Notices	46268	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall include the short version of the babel page and the non-discrimination 1557 language in the Admin Notice.
Eligibility	Notices	46269	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall enhance the Admin Notice functionality to add full color/gray scale as part of image upload feature.
Eligibility	Notices	46274	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall require that the admin user actively select whether the Admin Notice should be printed in Color or Grayscale.
Eligibility	Notices	46279	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall save the previously entered information in the Admin Notice screen until the Admin Notice is sent.
Eligibility	Notices	46282	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add system flexibility to the process of holding and releasing notices independently of each other for all applicable notices.
Eligibility	Notices	46283	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow admin users to Hold Release Notices across each category (NOD01AB or NOD01c) within a Notice type
Eligibility	Notices	46284	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display all generated notice(s) for a particular category (E.g.: NOD01 AB) under Docs Correspondence for a case configured under HOLD list for that particular category (E.g.: NOD01 AB) until admin releases the notices
Eligibility	Notices	46285	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not mail or email any generated notice(s) for a particular category (E.g.: NOD01 AB) to the consumer for a case configured under HOLD list for that particular category (E.g.: NOD01 AB) until admin releases the notices
Eligibility	Notices	46456	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall develop a process to suppress NOD01 for the following population criteria: SAWS EDR transaction has been received for a case AND At least one member is currently transitioning from Medi-Cal to CCA (MCT) AND All applying members are MCTs AND All applying members have received negative action for "Failed to Complete Determination," "Failed to Complete Redetermination," or any non-compliance reason AND All members are now eligible for only unsubsidized CCP
Eligibility	Notices	46587	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall continue to generate Supplement Insert across a particular category (E.g.: NOD01 AB) for a case configured under that particular category (E.g.: NOD01 AB) until admin updates the Insert configuration to OFF
Eligibility	Notices	46596	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow admin users to Suppress Notices across each category within a Notice type
Eligibility	Notices	46598	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create a new screen that will be accessible by specific admin users for following business processes - 1. Add Supplement Notice Insert for all active categories 2. HOLD/Release Suppress Notices for all active categories 3. Add content for Admin Notice 4. Add content for Box Snippet
Eligibility	Notices	46599	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Admin Users shall navigate to the new Notices page through the Management dropdown on the Admin home page.
Eligibility	Notices	46600	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the admin user to select a Clear All button which will return selections to the default state and clear any uploaded images or case lists.
Eligibility	Notices	46903	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the renewal due date in NOD12ad from 30 days to 15 days and the renewal due date will be calculated as NOD12 generation date + 15 days.
Eligibility	Notices	46904	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the renewal due date from 30 days to 15 days for the NOD12, Annual Open Enrollment Notice, batch job.

Category	Sub Category	Req ID	Requirement
Eligibility	Notices	46905	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall populate the Renewal due date on the consumer home page with the Renewal Mode Start Date + 15 days when: - the case is moved into Renewal Mode, AND - the system date is still within Renewal Mode Start Date + 15 days, AND - NOD12 has not yet been generated
Eligibility	Notices	46906	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall populate the Renewal due date on the consumer home page with the Renewal End Date - 2 days when - the case is moved into Renewal Mode, AND - the system date is past the Renewal Mode Start Date + 15 days, AND - the NOD12 has not yet been generated.
Eligibility	Notices	49428	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the NOD01 and NOD03 snippets to populate for individuals who are Conditionally Eligible to MCAP rather than when they are Pending Eligible for MCAP.
Eligibility	Provider Directory - SHOP		
Eligibility	Provider Directory - SHOP	44353	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide provider directories for each plan selected for comparison and to search for a specific doctor or facility.
Eligibility	Provider Directory - SHOP	44354	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall show provider quality information within the provider directory as well as for the selected provider.
Eligibility	Reports		
Eligibility	Reports	42838	CalHEERS shall Suspend all NOD01c that would otherwise be generated when an EDR is received from SAWS for a Mixed Household
Eligibility	Reports	42839	CalHEERS must continue to generate the NOD01a when the IAPs application is initiated in SAWS and an EDR is received for a Mixed Household.
Eligibility	Reports	47038	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall develop a summary level monthly report to include data from the previous month. The report should only include the following three data points: -The count of all enrollments from the previous month. -The total count of enrollments in the previous month that have a financial difference in the amount of APTC between carriers and California Healthcare Eligibility, Enrollment and Retention System (CalHEERS). -The % of enrollments in the previous month that have a financial difference in the amount of APTC between carriers and California Healthcare Eligibility, Enrollment and Retention System (CalHEERS). -The date of the report
Eligibility	Shop & Compare		
Eligibility	Shop & Compare	48357	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the Shop and Compare tool to determine either the existing Permanent (Baseline) CSRs or the Temporary (Enhanced) CSRs for a benefit year based on the configuration setting for CSR program in the main application.
Eligibility	Verify Application Information		
Eligibility	Verify Application Information	39781	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall set no expiration dates for cached verifications for both administrative and electronic verifications for the following attributes when verification is required: Deceased, Incarceration, ESI-MEC, Non-ESI MEC, Income, Medicare.
Eligibility	Verify Application Information	39782	During California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Renewals (Passive and Active), California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall verify the attributes for Deceased, Income, Medicare using the following rules: - Use the Renewal and Redetermination Verification (RRV) verification data, if available. - If RRV data is not available then use the Admin verification value - If Admin verification value is not available then call the hub
Eligibility	Verify Application Information	39785	During California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Renewals (Passive and Active), California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall verify the attribute for Incarceration using the following rules: - Use the verification data from Incarceration Batch, if available. - If data from Incarceration Batch is not available then use the Admin verification value - If Admin verification value is not available then call the hub
Eligibility	Verify Application Information	39786	During reapplication, California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use the cached verification for SSN if it has been e-verified and there is no change to impacted data elements.
Eligibility	Verify Application Information	39787	During reapplication, California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use the cached verification for Citizenship, and Lawful Presence and not call VLP if they have been e-verified or admin verified and there is no change to impacted data elements.
Eligibility	Verify Application Information	39788	During reapplication, California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use the cached verification (E-Verified or Admin Verified) for Deceased, Incarceration, ESI-MEC, Non-ESI MEC, Income, and Medicare and not call the service if there is a cached verification within the refresh cycle and there is no change to the impacted data elements.
Eligibility	Verify Application Information	39789	During reapplication, California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall call hub for Deceased, Incarceration, ESI-MEC, Non-ESI MEC, Income, and Medicare outside of the refresh cycle.
Eligibility	Verify Application Information	39790	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall always display all the verification attributes on the Personal Verification page.
Eligibility	Verify Application Information	39791	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall always display all the verification attributes in a static order on the Personal Verification page.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

OTSI CalHEERS RFP #73040873 Addendum 1
October 31, 2025

Category	Sub Category	Req ID	Requirement
Eligibility	Verify Application Information	40926	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall incorporate the VCI real-time service call into existing income verification functionality.
Eligibility	Verify Application Information	40928	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall follow the existing income verification caching rules (IRS, FTB, EDD, VCI,SSA) in VIED.
Eligibility	Verify Application Information	40929	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall apply existing reasonable compatibility rules to income values received from the real-time VCI service.
Eligibility	Verify Application Information	40930	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update income verification caching rules to account for Maximum Call Counter and Refresh Cycle for the real-time VCI API.
Eligibility	Verify Application Information	40931	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display VCI as a source in the Source column on the Personal Verification page when it is reasonably compatible.
Eligibility	Verify Application Information	40951	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall set the refresh cycle for the MEDS MEC Verification to 1 day.
Eligibility	Verify Application Information	40952	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the DVF01.16 to correctly state the conditions for resetting service counters to zero in the following text: "Note: Service Counters are reset to zero under the following conditions: A Cancel DER is sent to SAWS, Short Term Negative Action (STNA) is done, Case is closed in Portal".
Eligibility	Verify Application Information	40953	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the DHS verifications of Lawful Presence, QNC and 5YB as Not applicable and disable these fields on the Manual Verification page if the Citizenship verification from the DHS is equal to "Y" on the VLP response.
Eligibility	Verify Application Information	40954	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not make a call to VLP when Lawful Presence, QNC and 5YB values are updated as Not applicable and disabled on the Manual Verifications page.
Eligibility	Verify Application Information	40955	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall apply a hierarchy for reasonable compatibility check for Household Income Subsidy verification as follows: 1. If the income returned from IRS + SSA is reasonably compatible for Household Income Subsidy then only use IRS for reasonable compatibility check and do not check for reasonable compatibility with other income sources (FTB,EDD,VCI) for Household Income Subsidy. 2. If the income returned from IRS is not reasonably compatible then continue to check with other income sources for reasonable compatibility. 3. If individual attests to \$0 of income, all income verification sources will be checked for reasonable compatibility and the hierarchy will not be followed.
Eligibility	Verify Application Information	40956	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the display of income sources verification codes to include SSA in the list of sources when SSA is used for checking reasonable compatibility.
Eligibility	Verify Application Information	40957	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the display of income sources verification codes to include SSA in the list of sources when SSA is used by other income sources in checking reasonable compatibility.
Eligibility	Verify Application Information	40958	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add/update verification source codes that can be sent to SAWS in the eVerificationSource data element in DER/DER-U transactions to indicate the following additional income verification sources that include SSA: 1. FDSH : IRS to IRS : SSA 2. FDSH : FTB to IRS : FTB : SSA 3. FDSH : EDD to IRS : EDD : SSA 4. FDSH : FTB : EDD to IRS : FTB : EDD : SSA 5. EDD to EDD : SSA 6. FTB : EDD to FTB : EDD : SSA 7. FTB : SSA (added)
Eligibility	Verify Application Information	40959	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add a new column "e-Verification Response Date" to the Personal Verification screen to display the verification response received date from the hub/services on the Personal Verification screen for all the run reasons.
Eligibility	Verify Application Information	40960	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add a new data element to send the verification response received date from the hub/services on DER/DER-U transactions.
Eligibility	Verify Application Information	40961	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the run reason call logic in design document, DVF01.16, specific to Subsidized and Unsubsidized outcomes.
Eligibility	Verify Application Information	40962	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add a new column "e-Verification Response" to the Personal Verification screen to display an interpretation of the verification response received from all the verification hub/services to clarify the verification status
Eligibility	Verify Application Information	40963	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add a new column Error Code(s) under the Personal Verification screen to display the error code(s) along with the corresponding error code description received from the verification hub/services for each verification attribute
Eligibility	Verify Application Information	40964	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send to SAWS a new eVerificationErrorCode data element for each error code received from the verification hub/services in a new eVerificationErrorCodes node on DER-U/DER transactions.
Eligibility	Verify Application Information	40965	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send the interpretation of the verification response received from all the verification hub/services on DER/DER-U transactions
Eligibility	Verify Application Information	40966	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send to SAWS a new eVerificationErrorCodeDescription data element for each error code received from the verification hub/services in a new eVerificationErrorCodes node on DER-U/DER transactions.
Eligibility	Verify Application Information	40967	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall maintain all self-attested values on the Personal Verification screen.
Eligibility	Verify Application Information	40968	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the 'Date of Death' on the Personal Verification screen when received from SSA during Periodic ReVerification.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

OTSI CalHEERS RFP #73040873 Addendum 1
October 31, 2025

Category	Sub Category	Req ID	Requirement
Eligibility	Verify Application Information	40969	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the "Date of Death" as read-only value on the Personal Verification screen page.
Eligibility	Verify Application Information	40970	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send the "Date of Death" to SAWS via eHIT in the DER/DER-U as part of the eVerification node in the response interpretation element when this date is received from SSA during Periodic ReVerification..
Eligibility	Verify Application Information	40971	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send the "Date of Death" to SAWS via eHIT in the DER/DER-U as part of the ManualVerification node when this date is received from SSA during Periodic ReVerification and the deceased verification is passed/failed.
Eligibility	Verify Application Information	40973	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall set a new EERC code "DD" on e-HIT transaction to SAWS when Date of Death is received from SSA from Periodic ReVerification.
Eligibility	Verify Application Information	40974	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add clarification in DVF01.16 to call out when each verification service is invoked for each verification attribute.
Eligibility	Verify Application Information	40975	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update a VLP Case to 'Closed' status if the error code HE001121 is being received during the retry batch.
Eligibility	Verify Application Information	40976	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update Mock Service to mock VLP error code HE001121.
Eligibility	Verify Application Information	40977	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall consider an applying or non-applying dependent child, living with a Parent/Caretaker Relative as receiving MEC when SAWS sends an Admin Fail verification for MEC MEDS with a Negative action for the dependent child when evaluating the Parent/Caretaker Relative for the MAGI Medi-Cal New Adult Group.
Eligibility	Verify Application Information	40978	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall remove the 'Valid Until' column from the Personal Verification screen
Eligibility	Verify Application Information	40979	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the 'Verification end date' data element to not be sent on DER/DER-U transactions.
Eligibility	Verify Application Information	40980	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall evaluate document only update SIR 186019 to clearly call out admin pass/fail functionality for each verification attribute in IDD - Electronic Health Transfer and BRF 01.16 - Electronic Verification.
Eligibility	Verify Application Information	40981	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the headers of columns on the Personal Verification screen
Eligibility	Verify Application Information	40982	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the header "Attribute Description" to "Attribute" on the Personal Verification screen
Eligibility	Verify Application Information	40983	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the header "Verification Date" to "Verification Cached Date" on the Personal Verification screen
Eligibility	Verify Application Information	41026	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the header "Value" to "Attestation" on the Personal Verification screen
Eligibility	Verify Application Information	41287	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not call identify member if the individual already has a CIN number.
Eligibility	Verify Application Information	41511	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the Reasonable Compatibility threshold to be configured to be turned on or off for existing income verifications for MAGI Medi-Cal, MCAP, and CCHIP programs.
Eligibility	Verify Application Information	41512	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the Reasonable Compatibility threshold amount for MAGI Medi-Cal, MCAP, and CCHIP programs to be modified for existing income verifications.
Eligibility	Verify Application Information	45650	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall enable clear verification checkbox on the Personal Verification page for consumers with immigration status of Lawful presence if their verification status is E-verified/Pass/Fail
Eligibility	Verify Application Information	45651	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall enable Clear Verification checkbox on the Personal Verification page for Lawful Presence when the existing DHS Case is closed or no DHS case is found (Admin verification) and when their verification status is E-verified/Pass/Fail
Eligibility	Verify Application Information	45652	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall disable the clear verification checkbox for Qualified Non Citizen and Five Year Bar Exempt/Five Year Bar Met
Eligibility	Verify Application Information	45653	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall enable Clear Verification checkbox on the Personal Verification page for Citizenship when the existing DHS Case is closed or no DHS case is found (Admin verification) and when their verification status is E-verified/Pass/Fail
Eligibility	Verify Application Information	45654	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display 4-digit zipcode extension on the portal when the zipcode extension in an address begins with a "0"
Eligibility	Verify Application Information	45655	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall print the 4-digit zipcode extension on Notices when the zipcode extension of an address begins with a "0"
Eligibility	Verify Application Information	45656	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall fix the existing data in database to store all 4 digits of the zipcode extension
Eligibility	Verify Application Information	45657	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall assign M3 aid code to a parent or a primary caretaker if their household income is less than or equal to 109% FPL and the individual assumes primary responsibility for a dependent child under the age of 18 years, or in the case of a full-time student, under age 19 years and resides in the same residence as the primary caretaker.
Eligibility	Verify Application Information	45658	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall assign M4 aid code to a parent or a primary caretaker if their household income is less than or equal to 109% FPL and the individual assumes primary responsibility for a dependent child under the age of 18 years, or in the case of a full-time student, under age 19 years and resides in the same residence as the primary caretaker but does not meet citizenship or immigration Status requirements

Category	Sub Category	Req ID	Requirement
Eligibility	Verify Application Information	45659	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the MCAP snippet: "You must provide the following documents to begin or continue to receive coverage. [Required Document to Submit]" when an individual is pending for MCAP.
Eligibility	Verify Application Information	45660	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the "Upload documents" button for an individual pending for MCAP.
Eligibility	Verify Application Information	45661	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall return PregnancyInfo tag in the generated DER, when pregnancy end date is less than or equal to system date
Eligibility and Enrollment			
Eligibility and Enrollment	Appeal		
Eligibility and Enrollment	Appeal	38564	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to adjust eligibility determination resulting from appeal.
Eligibility and Enrollment	Appeal	38582	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to notify the applicant of adjusted eligibility based on a final adjudicated appeal decision.
Eligibility and Enrollment	Application Submission and Update		
Eligibility and Enrollment	Application Submission and Update	37865	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to allow Assisters to submit an application on behalf of the consumer and the consumer's attestation of information provided.
Eligibility and Enrollment	Application Submission and Update	37905	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall remove or modify the signature declaration page to capture updated self-attestation language.
Eligibility and Enrollment	Application Submission and Update	37927	"The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) systems shall apply the following new effective dates when an Eligible or Conditionally Eligible CCHIP consumer moves from one CCHIP county to another and continues to be Eligible or Conditionally Eligible to CCHIP: - Effective Start Date is the first of the month following the reported change in address; - Renewal Date is the last day of the month, 12 months from the Start Date "
Eligibility and Enrollment	Application Submission and Update	38067	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to validate field level entry data based on field specified criteria (e.g. dates, address matches, completeness, etc.).
Eligibility and Enrollment	Application Submission and Update	38138	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall direct consumers changing an income record or Projected Annual Income to the income summary page and require the consumer to confirm the change is correct, or require further edits to income entries.
Eligibility and Enrollment	Application Submission and Update	38189	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to track the source of the application (e.g. California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) WEB Portal, SAWS, Service Center mail or phone, efax, email, in-person), including the geographic location of the in-person contact.
Eligibility and Enrollment	Application Submission and Update	38353	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to notify an individual / consumer if an account already exist in real-time.
Eligibility and Enrollment	Application Submission and Update	38494	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to communicate to consumer / applicant the ability to or need to correct or complete their online application via online portal.
Eligibility and Enrollment	Application Submission and Update	38529	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall have the ability to count shared income between Registered Domestic Partners and apply it when determining eligibility.
Eligibility and Enrollment	Application Submission and Update	38530	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall require a consumer who applies on their own and indicates they are a Registered Domestic Partner to add the other RDP before continuing the application.
Eligibility and Enrollment	Application Submission and Update	39110	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall enable users to view the consumer's latest submitted application information.
Eligibility and Enrollment	Application Submission and Update	39161	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality for consumers to select and update their account preferences for outbound communication methods (mail, email, phone).
Eligibility and Enrollment	Application Submission and Update	39163	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality for consumers to select and update their account preferences for plan selection criteria (providers, costs, medical usage and quality ratings.) which are currently part of the preferences page.
Eligibility and Enrollment	Application Submission and Update	39275	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall restore review (inquiry) navigation functionality to all pages within the application in the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Portal for all users.
Eligibility and Enrollment	Application Submission and Update	39276	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall restore a navigation menu to allow all users to navigate to sections or pages in the portal.
Eligibility and Enrollment	Application Submission and Update	39336	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to track review status of individual documents that have been provided by the consumer as verification (e.g. verified, not verified, pending, etc.)
Eligibility and Enrollment	Application Submission and Update	39467	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall only accept current and future dates when the answer is "No" to the question "Has ____ already received this payment?" once the One-Time Lump Sum is entered.
Eligibility and Enrollment	Application Submission and Update	39468	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall only accept current and past dates when the answer is "Yes" to the question "Has ____ already received this payment?" once the One-Time Lump Sum is entered.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

OTSI CalHEERS RFP #73040873 Addendum 1
October 31, 2025

Category	Sub Category	Req ID	Requirement
Eligibility and Enrollment	Application Submission and Update	39489	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality for consumers to bypass the application for subsidized health coverage and direct the consumer to Exchange QHP and / or qualified stand-alone dental plan screening questions only for anonymous shopping. California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide notice of availability and cost that will depend on program eligibility determination.
Eligibility and Enrollment	Application Submission and Update	39490	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality for an applicant to self-attest application data.
Eligibility and Enrollment	Application Submission and Update	39606	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality for an applicant to provide an online signature that complies with State and federal requirement standards and shall require an acknowledgement, under penalty of perjury, by the applicant or authorized person completing the application that the rights and responsibility related to the application process have been read and are understood.
Eligibility and Enrollment	Application Submission and Update	39632	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to invoke a duplicate user validation check based upon consumer's DOB and SSN when an intake application is being created by Sales Agents.
Eligibility and Enrollment	Application Submission and Update	39633	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality, if the SSN is not available, or the combination of DOB and SSN match is not found, to invoke a secondary duplicate user validation check based upon consumer's name (First and Last), DOB, and one of the following: Residential Address (Line 1 and Zip Code) or a cell phone number, or an email address.
Eligibility and Enrollment	Application Submission and Update	39634	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality for the duplicate user validation check to only include cases in active or inactive status, and exclude Medi-Cal Inmate Eligibility Program (MCIEP) cases.
Eligibility and Enrollment	Application Submission and Update	39635	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to display a message recommending Sales Agents to contact the Service Center if a duplicate individual is found in the system.
Eligibility and Enrollment	Application Submission and Update	39636	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to allow Sales Agents to continue with the application even if the duplicate individual is found.
Eligibility and Enrollment	Application Submission and Update	39637	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to invoke a duplicate user validation check based upon the consumer's DOB and SSN when an intake application is being created by consumers and authorized representatives.
Eligibility and Enrollment	Application Submission and Update	39638	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality, if the SSN is not available, or the combination of DOB and SSN match is not found, to invoke a secondary duplicate user validation check based upon consumer's name (First and Last), DOB, and one of the following: Residential Address (Line 1 and Zip Code) or a cell phone number or an email address.
Eligibility and Enrollment	Application Submission and Update	39639	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality for the duplicate user validation check to only include cases in active or inactive status, and exclude Medi-Cal Inmate Eligibility Program (MCIEP) cases.
Eligibility and Enrollment	Application Submission and Update	39640	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to display a message indicating that the consumer may be known to California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) if a duplicate individual is found.
Eligibility and Enrollment	Application Submission and Update	39641	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to allow consumers and authorized representatives to continue with the application even if the duplicate individual is found.
Eligibility and Enrollment	Application Submission and Update	39748	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall collect and store the COVID-19 Unemployment Insurance Benefit Stimulus Payments.
Eligibility and Enrollment	Application Submission and Update	39861	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality for a family to apply for different Health Insurance Affordability Programs for different family members.
Eligibility and Enrollment	Application Submission and Update	40009	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to download and print an application with pre-populated information if consent is provided (or blank if consent is not provided) for an applicant to apply for full health care coverage or other non-health services.
Eligibility and Enrollment	Application Submission and Update	40010	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to download and print an application, with pre-populated information if consent is provided, for an applicant to apply for Health Insurance Affordability Programs and Non Subsidized Coverage.
Eligibility and Enrollment	Application Submission and Update	40011	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to download and print a blank application, for Health Insurance Affordability Programs and Non Subsidized Coverage.
Eligibility and Enrollment	Application Submission and Update	40012	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to link consumer to additional information for an applicant to apply for other non-health services.
Eligibility and Enrollment	Application Submission and Update	40116	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to track the progress / status of the receipt of documentation received with the initial application or after the initial application date.
Eligibility and Enrollment	Application Submission and Update	40118	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to track the progress / status of receipt of alternate documentation from the initial application date and notify the consumer, and Assister or Eligibility Administrator of pending deadlines.
Eligibility and Enrollment	Application Submission and Update	40119	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to notify the consumer and Assister or Eligibility Administrator of pending deadlines.
Eligibility and Enrollment	Application Submission and Update	40256	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to process cases with application exceptions and/or discrepancies where manual review or intervention is required.
Eligibility and Enrollment	Application Submission and Update	40353	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to update manually individual citizenship or lawful presence and document the substantiation.
Eligibility and Enrollment	Application Submission and Update	40470	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to electronically store all documents submitted (viewable image) with an application or for verification of application data with the consumers account/application.
Eligibility and Enrollment	Application Submission and Update	40698	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality for a consumer to securely log into the Web Portal to access and view their personal information and received notices.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

OTSI CalHEERS RFP #73040873 Addendum 1
October 31, 2025

Category	Sub Category	Req ID	Requirement
Eligibility and Enrollment	Application Submission and Update	41077	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not allow user to submit an application/case with duplicate SSN from HBX screens when the user enters or updates the SSN from “Flexible Admin View” and after clicking the “Save and Exit” button, the user submits the application/case from “Consumer View.”
Eligibility and Enrollment	Application Submission and Update	41084	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to allow applicants and Assisters to view the status of their application via the Web Portal when additional verification is necessary.
Eligibility and Enrollment	Application Submission and Update	41260	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall withdraw any Initial unsubmitted Open Enrollment application the day after Open Enrollment Period ends or application date + 31 days, whichever is later, when a user accesses the Account Home page.
Eligibility and Enrollment	Application Submission and Update	41261	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the application expiration date for in-progress/intake applications initiated during Open Enrollment period as the application start date + 30 days or Open Enrollment end date, whichever is later.
Eligibility and Enrollment	Application Submission and Update	41263	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the in-progress/intake application expiration date for the Continue or Exit Application modal during the Open Enrollment Period to be the last date of Open Enrollment or application start date + 30 days, whichever is later.
Eligibility and Enrollment	Application Submission and Update	41264	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not withdraw any initial unsubmitted application during Special Enrollment Period after 30 days from the application start date (Application Start Date + 31 Days) when a user accesses the Account Home page.
Eligibility and Enrollment	Application Submission and Update	41265	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the in-progress/intake application expiration date during the Special Enrollment Period as last day of the current benefit year if the expiration date is in the future benefit year and the user accesses Account Home Page in the current year.
Eligibility and Enrollment	Application Submission and Update	41266	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the in-progress/intake application expiration date during the Special Enrollment Period as application start date + 30 days if the expiration date is in the future benefit year and an Admin user accesses the Account Home Page in the next benefit year.
Eligibility and Enrollment	Application Submission and Update	41293	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display admin fields on the Special Enrollments page to Agents initiating or modifying consumer applications if the system date is greater than the Open Enrollment End Date and less than or equal to the Over the Finish Line date.
Eligibility and Enrollment	Application Submission and Update	41365	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to track and record the timeframes for the receipt of application, request for verification, and receipt of data/document verification per program based upon the business rules for those programs
Eligibility and Enrollment	Application Submission and Update	41488	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to record individual preferences for desired language for written and spoken communication and communication methods such as mail, email, telephone, and text.
Eligibility and Enrollment	Application Submission and Update	41585	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to collect optional voluntary demographic data categories such as ethnicity, primary language, disability status, and other categories recognized by Secretary of Health and Human Services and as determined by the Exchange or program policies.
Eligibility and Enrollment	Application Submission and Update	41741	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide a statement that the optional voluntary demographic and any health status information are collected to improve the quality of care.
Eligibility and Enrollment	Application Submission and Update	41830	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to allow an applicant to consent to have their form prepopulated with available data which can be revised or deleted.
Eligibility and Enrollment	Application Submission and Update	41928	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality for an applicant to withdraw their application at any time prior to Program Eligibility.
Eligibility and Enrollment	Application Submission and Update	41929	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to inform an applicant of the penalty for failure to have minimum essential health coverage.
Eligibility and Enrollment	Application Submission and Update	42084	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality for an applicant to attach / upload required documentation with their application when completing on the Web Portal.
Eligibility and Enrollment	Application Submission and Update	42163	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to download and print individual pages or a complete application from the Web Portal.
Eligibility and Enrollment	Application Submission and Update	42164	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to download and/or print a complete application from the Web Portal.
Eligibility and Enrollment	Application Submission and Update	42165	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to print individual pages from the Web Portal.
Eligibility and Enrollment	Application Submission and Update	42258	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall withdraw any Initial unsubmitted Open Enrollment application the day after Open Enrollment Period ends or application date + 31 days, whichever is later, via a nightly batch process
Eligibility and Enrollment	Application Submission and Update	42259	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not withdraw any initial unsubmitted application during Special Enrollment Period after 30 days from the application start date (Application Start Date + 31 Days) when a user accesses the Account Home page.
Eligibility and Enrollment	Application Submission and Update	42522	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall automatically save data entered into the application.
Eligibility and Enrollment	Application Submission and Update	42632	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality via the Web Portal to present and receive applicant data per the single streamlined application for non-subsidized or subsidized health coverage.

Category	Sub Category	Req ID	Requirement
Eligibility and Enrollment		42664	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall capture the following income types for program eligibility determination: Work Self-Employment Social Security Benefits Unemployment Retirement/pension Capital gains Rental or royalty income farming or fishing income Alimony Received Cancelled Debts Court Awards Jury Duty Pay Miscellaneous Interest income (taxable and non-taxable), 1099-INT Ordinary/qualified dividends, 1099-DIV Taxable refunds, credits, or offsets of state/local income taxes Other gains (or losses), Form 4797 Railroad retirement benefits (taxable and non-taxable), RRB-1099 Foreign Earned Income (taxable and non-taxable), Form 2555 Income from American Indian or Alaska Native Sources AmeriCorps State/National Stipend and Education Award AmeriCorps National Civilian Community Corps Stipend and Education Award AmeriCorps Vista Stipend and Educational Award Education scholarships, awards, and fellowship grants used for living expenses Education scholarships, awards, and fellowship grants not used for living expenses
Eligibility and Enrollment	Application Submission and Update	42853	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to scan any mailed applications or verification documents, and link, track and route for processing any scanned, faxed, or emailed applications or verification documents. In order to properly link, track and route documents for processing, California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) will have the functionality to categorize each document into different 'media types.' Examples of different 'media types' include Application, Annual Eligibility Redeterminations, Open Enrollment, Special Enrollment, Appeals, etc.
Eligibility and Enrollment	Application Submission and Update	43056	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to obtain a unique Client Identification Number (CIN) from the Statewide Client Index (SCI) in real-time for each family member listed on the application (using required application data such as SSN, date of birth, address, and complete name).
Eligibility and Enrollment	Application Submission and Update	43229	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to identify Assisters if they are completing applications on behalf of an individual.
Eligibility and Enrollment	Application Submission and Update	43257	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall message consumers in the Eligibility Results page who are determined eligible for APTC/CSR who also meet the MCAP eligibility criteria
Eligibility and Enrollment	Application Submission and Update	43263	"The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) application shall be updated with all the MCAP program information where needed on the following pages: - Program Eligibility by Person - Enrollment Introduction (Initial, Report a Change, Renewal) - Enrollment Summary (Initial, Report a Change, Renewal) - Get Help With Costs - Eligibility Results - Application Signature (Initial, Report a Change, Renewal) - Terminate Participation - Budget Worksheet - Preview Plans "
Eligibility and Enrollment	Application Submission and Update	43265	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall update the Preview Plans tool to remove references to AIM and replace them with MCAP as a California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) program
Eligibility and Enrollment	Application Submission and Update	43266	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall update the fact sheet link on the Preview Plans page to direct the consumer to the following URL: <URL TBD>.
Eligibility and Enrollment	Application Submission and Update	43268	"The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall not display MCAP program ineligibility status to consumers who are found Eligible, Conditionally Eligible, or Pending Eligible for full-scope MAGI Medi-Cal AND do not meet the following criteria: - Female and pregnant"
Eligibility and Enrollment	Application Submission and Update	43278	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall allow MAXIMUS staff to access case information, manage verifications and report changes via California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) portal for MCAP consumers

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Eligibility and Enrollment	Application Submission and Update	43327	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall allow consumers and administrative users to request discontinuance from the CCHIP program from California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) portal.
Eligibility and Enrollment	Application Submission and Update	43331	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall have the ability for administrative users to discontinue CCHIP consumers for non-payment of premium via the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) portal.
Eligibility and Enrollment	Application Submission and Update	43332	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall have the ability for administrative users to certify that a first payment was received by a CCHIP consumer.
Eligibility and Enrollment	Application Submission and Update	43343	"The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall not display CCHIP program ineligibility status to consumers who do not meet the following criteria: - Children from 0 to 19 years old, AND/OR - Children who are residing in one of the CCHIP counties "
Eligibility and Enrollment	Application Submission and Update	43378	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall allow CCHIP staff to manually update renewal date, enrollment date and add the CCHIP case number into the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) portal.
Eligibility and Enrollment	Application Submission and Update	43380	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall host the CCHIP Fact sheet in the ECM and link to it from the Anonymous Screening page.
Eligibility and Enrollment	Application Submission and Update	43381	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall update the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) portal pages where there is existing information of the programs that are currently offered within the system.
Eligibility and Enrollment	Application Submission and Update	43382	"The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall include the CCHIP program eligibility on the Eligibility Results page that includes: - Eligibility status - Outstanding verifications (Direct to SCRs or upload - no to the County Health Plan) - Reasons for Eligibility/Ineligibility - Contact the County Health Plan for enrollment"
Eligibility and Enrollment	Application Submission and Update	43383	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall update the Anonymous Screening tool to include CCHIP as a California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) program.
Eligibility and Enrollment	Application Submission and Update	43384	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall include the CCHIP program information screen on the Anonymous Screening tool.
Eligibility and Enrollment	Application Submission and Update	43385	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System must provide the functionality to require the Consumer to enter their email address twice to confirm the email entered is correct.
Eligibility and Enrollment	Application Submission and Update	43386	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System must provide the functionality to default the Preferred Method of Communication back to Mail when an email notification returns due to an invalid email address.
Eligibility and Enrollment	Application Submission and Update	43391	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System must provide the functionality to default the Preferred Method of Communication back to Mail when the Consumer has not created a California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) account.
Eligibility and Enrollment	Application Submission and Update	44593	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to record and track for statistical analysis and reporting the timeframe for applying and receiving eligibility determination.
Eligibility and Enrollment	Case Management		
Eligibility and Enrollment	Case Management	38241	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide the ability for designated administrative workers to manage the reasonable opportunity period for consumers to provide evidence in response to inconsistent verifications.
Eligibility and Enrollment	Case Management	38243	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow authorized administrative users to make updates to reasonable opportunity expiration dates captured in the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) application.
Eligibility and Enrollment	Case Management	38244	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) will restrict user updates to the reasonable opportunity expiration date based on the following criteria: - At the time of update, the new date must not be in the past - At the time of update, the new date must not be more than 60 days in the future - Updates to reasonable opportunity dates may only be made for conditionally eligible consumers
Eligibility and Enrollment	Case Management	38245	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow authorized administrative users to view verification response codes for the following Federal Data Service Hub interfaces: - Social Security Administration Composite Service - Verify Lawful Presence Step 1 Services
Eligibility and Enrollment	Case Management	38583	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to scan any received correspondence, link to a case, and route for subsequent case management processing.
Eligibility and Enrollment	Case Management	38599	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality for account/case management functions for the management of the consumer's application/case information and processing.
Eligibility and Enrollment	Case Management	38620	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to transfer any new received document images to the SAWS upon receipt for referred applications.
Eligibility and Enrollment	Case Management	38636	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality for authorized users to update accounts / cases with updated information.

Category	Sub Category	Req ID	Requirement
Eligibility and Enrollment	Case Management	38637	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall expand the functionality for authorized users to update accounts/cases with updated information for all user account types as defined in the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Security Roles Matrix
Eligibility and Enrollment	Case Management	38660	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide flexible workflows to support frequently changing business models.
Eligibility and Enrollment	Case Management	38661	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide workflow functionality to support multiple service delivery models. (e.g., case management model vs. task oriented model).
Eligibility and Enrollment	Case Management	38673	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide a customizable workflows capability. (e.g., automatic sequencing, smart scripting, guided trip, etc.)
Eligibility and Enrollment	Case Management	38691	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide event triggers that will be sent to appropriate staff or appropriate online/batch process on prioritized basis. (e.g., age of task, pregnant woman, etc.)
Eligibility and Enrollment	Case Management	38692	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide functionality to define workflow events that may be based on user-defined criteria [e.g., Transaction Code, Agency, Data values (for example date of application, type of application), other user-defined values or parameters.]
Eligibility and Enrollment	Case Management	38729	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide functionality to initiate event triggers that will send notification to workflow System user (e.g., documentation has been received on a pending case or specific tasks that must be performed). Notifications should be configurable to be used anywhere in the workflow to notify the participant.
Eligibility and Enrollment	Case Management	38759	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide functionality to alert assigned staff when new data has been received for a case, if eligibility is affected or if follow-up action is required.
Eligibility and Enrollment	Case Management	38760	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide functionality to alert assigned staff or specified work queue when conflicting data has been received for a case (Ex. the birth date for an applicant has changed).
Eligibility and Enrollment	Case Management	38767	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide functionality to assign work using flexible criteria (e.g., type, caseload, task, queue, etc.).
Eligibility and Enrollment	Case Management	38804	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality for authorized users to view an applicant or enrollee account information including the household members and their respective health coverage and eligibility status. This will include household members that are / may be eligible for non-MAGI Medi-Cal.
Eligibility and Enrollment	Case Management	38807	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality for multi-level (drill down) searching and filtering searches to locate needed account/case information.
Eligibility and Enrollment	Case Management	38834	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide functionality to create caseload reports and statistics.
Eligibility and Enrollment	Case Management	38861	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide functionality to retain consumer health coverage history by type of health coverage (APTC, CSR, MAGI Medi-Cal which includes C-CHIP, MCAP, and non-subsidized), enrollment effective dates, for online retrieval and reporting for a period of 60 months.
Eligibility and Enrollment	Case Management	38862	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality for authorized users to search and view a specific consumer's information according to role-based security controls and California policy, for online retrieval for 60 months of historical data.
Eligibility and Enrollment	Case Management	38914	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to uniquely record and track individuals and have the ability to associate individuals with one or more cases in a manner that facilitates case management yet allow for both duplicated and unduplicated caseload counts.
Eligibility and Enrollment	Case Management	38915	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to automatically generate comments, viewable with the case file, whenever authorized users make case change changes including but not limited to: a description of the change which includes the prior value(s), the date and time of the change, the source of the change (User, California Healthcare Eligibility, Enrollment and Retention System (CalHEERS)-generated, etc.) and, if User-generated, the name and User ID of the User making the change.
Eligibility and Enrollment	Case Management	38916	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide functionality to retain history and viewing capability of all received and sent applications and documentation. This includes the ability to designate documents and notices which are kept indefinitely as a permanent part of the case record and will not be purged (e.g. - notices related to claims).
Eligibility and Enrollment	Case Management	38932	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to electronically receive and route for processing exception files from MEDS (i.e. MEDS Alerts).
Eligibility and Enrollment	Case Management	42859	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall determine plan prospective effective dates for a consumer who is in a renewal case and a Change Plan action has been completed.
Eligibility and Enrollment	Case Management	42860	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall reset the application date to the actual date of the re-application and not the previous application date when an individual/case has been withdrawn or terminated and then they re-apply / re-submit a subsequent application
Eligibility and Enrollment	Case Management	42861	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall remove the 6 month application date limitation when processing paper applications
Eligibility and Enrollment	Case Management	42862	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall not have a timeframe limitation when entering the application date for paper applications.
Eligibility and Enrollment	Case Management	42863	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide functionality to retroactively terminate coverage as required to support business policy and consumer need.
Eligibility and Enrollment	Case Management	42864	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not allow the plan termination date be later than 12/31/20XX whenever termination takes place through Report a Change or Terminate Participation.
Eligibility and Enrollment	Case Management	42981	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System must provide the functionality for the User to view ALL Eligibility Transactions with sufficient detail to support the eligibility determined by the Business Rules Engine.
Eligibility and Enrollment	Case Management	42982	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System must be updated to display all Eligibility Transaction types to the User as well as the Eligibility Determination detail for each transaction for a case.

Category	Sub Category	Req ID	Requirement
Eligibility and Enrollment	Case Management	42983	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System must provide the functionality for the User to view a PDF of the Application associated with the Eligibility Details.
Eligibility and Enrollment	Case Management	42984	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System must clearly identify the User who completed each transaction.
Eligibility and Enrollment	Case Management	42985	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System must provide the functionality to search for specific Transaction Types by date or date range.
Eligibility and Enrollment	Case Management	43237	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall provide the functionality to allow the Production Support Supervisor and Production Support Team Members (L1/L2/L3) to search for a case and update the enrollment for a member from a California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Internal Portal. The Search page will be in English only.
Eligibility and Enrollment	Case Management	43238	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality for the Production Support Supervisor and Production Support Team Member (L1/L2/L3) to update the Enrollment Effective Dates, Member Effective Dates and/or Enrollment Status for a case/member from a California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Internal Portal. The update page will be in English only.
Eligibility and Enrollment	Case Management	43239	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System must send the manually updated enrollment and member Effective dates and/or Enrollment Status to ABE for individual PMPM billing adjustments.
Eligibility and Enrollment	Case Management	43240	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System must save the updated information to the Audit Tables.
Eligibility and Enrollment	Case Management	43241	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall only allow access to the Internal Portal page to L2 and L3 with a specific Security Role.
Eligibility and Enrollment	Case Management	43242	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall allow internal L2 or L3 team members to bypass soft pause evaluation for a MAGI beneficiary from the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) internal portal.
Eligibility and Enrollment	Case Management	43326	SCRs (Service Center Representatives) will be responsible for managing the verifications of cases who include CCHIP consumers except for cases with at least one consumer is determined Eligible, Conditionally Eligible and Pending for MAGI Medi-Cal.
Eligibility and Enrollment	Case Management	44494	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide functionality to monitor caseload size per assigned staff.
Eligibility and Enrollment	Disenrollment		
Eligibility and Enrollment	Disenrollment	38154	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall discontinue APTC/CSR/CCP eligibility and terminate enrollment when Carry Forward is lifted and eligibility is determined for another IAP based on the 15-day rule.
Eligibility and Enrollment	Disenrollment	38156	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow auto-disenrollment when SAWS initiates a change that results in discontinuance from APTC/CSR/CCP.
Eligibility and Enrollment	Disenrollment	38157	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use the existing auto-disenrollment rules and generate an 834 to the carriers, if applicable, when Carry Forward has ended and the individual is discontinued from APTC/CSR/CCP.
Eligibility and Enrollment	Disenrollment	38263	At the end of the Reasonable Opportunity Period, the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall update the eligibility and enrollment for Family Dental plans based on the results of the redetermined eligibility for health plans.
Eligibility and Enrollment	Disenrollment	38264	A consumer should be terminated from his/her QDP in conjunction with termination from his/her QHP only when the consumer fails the ROP for lawful presence/citizenship, incarceration, and/or death.
Eligibility and Enrollment	Disenrollment	38953	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to allow an individual to disenroll from a QHP and / or stand-alone dental plan at any time.
Eligibility and Enrollment	Disenrollment	38954	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to notify individual of insurance requirements and penalties upon disenrollment.
Eligibility and Enrollment	Disenrollment	38968	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to notify CMS Federal Data Hub of an individual's disenrollment.
Eligibility and Enrollment	Disenrollment	38975	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to notify a QHP and / or stand-alone dental plan of an individual's disenrollment.
Eligibility and Enrollment	Disenrollment	39010	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to notify an individual that is disenrolled from a QHP and / or stand-alone dental plan of their current healthcare options.
Eligibility and Enrollment	Disenrollment	39091	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to notify an enrollee of effective dates of disenrollment due to nonpayment of premium
Eligibility and Enrollment	Disenrollment	39092	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to disenroll an individual for non-payment of premium.
Eligibility and Enrollment	Disenrollment	39143	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to accept disenrollment from the Carriers for any reason as determined by the Exchange and State and federal regulations.
Eligibility and Enrollment	Disenrollment	39165	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide for Continued Enrollment (CE) if the applicant/enrollee submits a complete CE form to dispute the disenrollment decision by a certain deadline.
Eligibility and Enrollment	Disenrollment	44479	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality for authorized users to reinstate enrollment without going through the appeal process in accordance with established State policies.

Category	Sub Category	Req ID	Requirement
Eligibility and Enrollment	Disenrollment	44480	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to track for audit purposes all manual enrollment reinstatements.
Eligibility and Enrollment	Eligibility Determination		
Eligibility and Enrollment	Eligibility Determination	37879	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall update the FPL limit for aid code P5 0% up to and including 133% of the federal poverty level as referenced in 42 CFR 435.118(c)(2)(i)
Eligibility and Enrollment	Eligibility Determination	37880	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall update the FPL limit for aid code P6 0% up to and including 133% of the federal poverty level as referenced in 42 CFR 435.118(c)(2)(i)
Eligibility and Enrollment	Eligibility Determination	37881	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall determine eligibility for children ages 6 - 19 (follow current age rules in California Healthcare Eligibility, Enrollment and Retention System (CalHEERS)) with income greater than 108% up to and including 133% FPL based on self-attestation of having Other Health Coverage, by answering "yes" or "no" to the Other Health Insurance Information on the Personal Data Demographics page of the application.
Eligibility and Enrollment	Eligibility Determination	37882	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall determine eligibility for children ages 6-19 (follow current age rules in California Healthcare Eligibility, Enrollment and Retention System (CalHEERS)) with an income greater than 108% up to and including 133% FPL, who self-attested to having Other Health Coverage by answering "yes" to the Other Health Insurance Information on the Personal Data Demographics page of the application, shall be determined eligible to Medi-Cal aid codes P5/ P6.
Eligibility and Enrollment	Eligibility Determination	37883	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall determine eligibility for children ages 6 - 19 (follow current age rules in California Healthcare Eligibility, Enrollment and Retention System (CalHEERS)) with income greater than 108% and up to and including 133% FPL, that are uninsured, and answered "no" to having Other Health Coverage on the Personal Data Demographics page of the application, shall be determined eligible to Medi-Cal aid codes M5/M6.
Eligibility and Enrollment	Eligibility Determination	37884	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall determine whether to apply the results of the MEDS MEC check when determining Insurance Affordability Program eligibility.
Eligibility and Enrollment	Eligibility Determination	37885	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall enable an admin user at the portal, to bypass the MEDS MEC check as determined by the admin user.
Eligibility and Enrollment	Eligibility Determination	37886	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) will determine whether MEDS is available and grant eligibility accordingly.
Eligibility and Enrollment	Eligibility Determination	37887	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) will display messaging to the Consumer on the Eligibility Results page when they are ineligible to MAGI Medi-Cal due to the MEDS MEC check or if they are pending due to no CIN or MEDS being unavailable.
Eligibility and Enrollment	Eligibility Determination	37888	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) will return an eligibility evaluation reason on DERs indicating that a Consumer was ineligible or discontinued from MAGI Medi-Cal due to the MEDS MEC check or if they are pending due to no CIN or MEDS being unavailable.
Eligibility and Enrollment	Eligibility Determination	37889	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall deny MAGI Medi-Cal to all intake applicants who have an active health aid code based on the MEDS MEC check.
Eligibility and Enrollment	Eligibility Determination	37890	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) will have the ability to independently send to SAWS the verification status for each MEC type - ESI, non-ESI, and MEDS.
Eligibility and Enrollment	Eligibility Determination	37892	"The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall apply soft pause to all MAGI Medi-Cal beneficiaries receiving an adverse action (as defined in BR 2) from any MAGI groups who meet the following conditions: • Aged 65+; or • Attesting to Blindness; or • Attesting to being Disabled; or • A parent of a child under 21; or • A caretaker relative of a child under 21; or • A child under 21; • Pregnant woman up to the end of the 60-Day Post Partum Period"
Eligibility and Enrollment	Eligibility Determination	37893	"The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall define a pending adverse action as an eligibility determination that results in placing the individual in soft pause. Adverse action is defined as any action that results in: • A discontinuance from MAGI Medi-Cal; or • A shift from a MAGI Medi-Cal non-premium aid code to a MAGI Medi-Cal premium aid code "
Eligibility and Enrollment	Eligibility Determination	37894	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall never apply soft pause to beneficiaries in Accelerated Eligibility.
Eligibility and Enrollment	Eligibility Determination	37895	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall maintain the current beneficiary aid code, when the beneficiary is determined eligible for soft pause protection.
Eligibility and Enrollment	Eligibility Determination	37896	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall display the status of soft pause protection.
Eligibility and Enrollment	Eligibility Determination	37897	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall allow SAWS Systems to lift soft pause protection and re-determine eligibility from SAWS

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

OTSI CalHEERS RFP #73040873 Addendum 1
October 31, 2025

Category	Sub Category	Req ID	Requirement
Eligibility and Enrollment	Eligibility Determination	37898	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall allow DHCS users with admin security profiles to lift Soft Pause.
Eligibility and Enrollment	Eligibility Determination	37899	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall notify SAWS when a consumer/case is in Soft Pause protection mode as well as when it has been lifted via eHIT.
Eligibility and Enrollment	Eligibility Determination	37900	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall update the eligibility results page messaging consumers who are placed in a "Soft Pause" hold that describes the intent of "Soft Pause" and next steps.
Eligibility and Enrollment	Eligibility Determination	37901	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system allow the consumer to enter a pregnancy end date into the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Portal, when reporting a change.
Eligibility and Enrollment	Eligibility Determination	37902	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS eHIT Interface shall send pregnancy end date element at the person level.
Eligibility and Enrollment	Eligibility Determination	37904	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall determine only MAGI Medi-Cal and/or unsubsidized eligibility for households whose primary tax filer and /or spouse fail to file their federal tax return in a year in which they previously received APTC.
Eligibility and Enrollment	Eligibility Determination	37908	"The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall have the functionality for an admin user to override the failed to file federal tax return/reconcile indicator. "
Eligibility and Enrollment	Eligibility Determination	37963	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) will no longer apply the pregnant women under 21 income disregard, and shall not apply soft pause to, individuals who reports a marriage.
Eligibility and Enrollment	Eligibility Determination	37966	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall indicate on the Budget Worksheet page that the Unmarried Pregnant Woman under 21 income disregard applies.
Eligibility and Enrollment	Eligibility Determination	37970	"California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall distribute APTC amount per plan based on the following calculation: Maximum APTC Amount allowed per APTC-eligible individual = [Total APTC Amount awarded to the tax household/(Rate band adjustment for the enrollee)]* (Sum of rate band adjustments for the tax household) The adjustment calculation is based on the rate band table. "
Eligibility and Enrollment	Eligibility Determination	37971	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall determine and apply surplus APTC equally to any other member level groups within the same APTC tax filing household that have not selected/enrolled in a plan.
Eligibility and Enrollment	Eligibility Determination	37973	"California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall modify relationship values to provide the following consolidation: - Husband/Wife ----> Spouse"
Eligibility and Enrollment	Eligibility Determination	38010	The CalHEERS system shall determine eligibility for an individual who is eligible for the Affordability and Benefit Program for New Qualified Immigrants (NQI) and APTC for NQI. An individual is eligible for this program if they are: a. 21 years of age or older and less than 65 years of age, b. not pregnant, c. with no minor child(ren) who is determined eligible for Medi-Cal, d. have income at or below 138% of the Federal Poverty Level (FPL), e. A qualified alien who is subject to the 5 year bar f. A qualified alien that hasn't met the 5 year bar.
Eligibility and Enrollment	Eligibility Determination	38011	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall assign aid code M1 to Qualified Aliens, who are otherwise eligible for the Affordability and Benefit Program for New Qualified Immigrants (NQI), at open enrollment or at a qualifying life event if they meet the following conditions: a. Individual is within six months of their 65th birthday, or b. Individual is within six months of meeting the five-year bar.
Eligibility and Enrollment	Eligibility Determination	38012	The CalHEERS System shall have the functionality to allow consumers who are Newly Qualified Immigrants (NQI) and meet APTC NQI criteria to opt into the Affordability and Benefit Program for NQIs during open enrollment and/or during a special enrollment period (SEP), qualifying life event (QLE).
Eligibility and Enrollment	Eligibility Determination	38013	The CalHEERS System shall have the ability to identify NQI individuals who have been assigned the L9 aid code but have not selected a plan and assign them to the appropriate restricted scope aid code when: - the special enrollment period for the qualified life event expires - open enrollment ends
Eligibility and Enrollment	Eligibility Determination	38014	"The CalHEERS System shall assign the appropriate full scope aid code to the NQI individual when their application is submitted and a. It is not open enrollment and/or b. The consumer does not meet a qualifying life event. "
Eligibility and Enrollment	Eligibility Determination	38015	The CalHEERS system shall provide the functionality to terminate the L9 aid code and reevaluate the Medi-Cal eligibilty if the NQI is no longer eligible for the Affordability and Benefit Program. A NQI is no longer eligible for the program if: a. He or she has met the five-year bar b. She reports a pregnancy subsequent to application. c. He or she has a minor child who is determined eligible for Medi-Cal. d. He or she obtains age 65. e. Income goes above 138% of the FPL.

Category	Sub Category	Req ID	Requirement
Eligibility and Enrollment	Eligibility Determination	38018	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall grant APTC/CSR/CCP when a consumer is moved to restricted scope MAGI Medi-Cal from the NQI Wrap due to not choosing an NQI plan, or discontinuance from their NQI plan due to Soft Pause.
Eligibility and Enrollment	Eligibility Determination	38019	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall send the Exchange Aid Code always to MEDS when granting NQI Eligibility with both L9 and X2.
Eligibility and Enrollment	Eligibility Determination	38020	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall begin granting eligibility to the L9 Aid Code on eligibility determinations effective on or after 1/1/2017.
Eligibility and Enrollment	Eligibility Determination	38041	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall determine eligibility for Medi-Cal based on lawfully present and qualified noncitizen information that was added in CR 6197.
Eligibility and Enrollment	Eligibility Determination	38042	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall utilize the FDSH VLP electronic verifications added as part of the VLP interface update, the manual administrative verifications, and the applicant attestation information, pertaining to statuses of lawfully present and qualified noncitizen status, to determine eligibility for Medi-Cal.
Eligibility and Enrollment	Eligibility Determination	38043	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall grant full scope Medi-Cal eligibility for lawfully present immigrants who are eligible for federally funded full scope Medi-Cal because they are under 21 or pregnant. A lawfully present immigrant includes all current immigration statuses eligible for coverage through Covered California and others as defined for Medi-Cal eligibility purposes.
Eligibility and Enrollment	Eligibility Determination	38044	"California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall grant full scope Medi-Cal eligibility for Qualified Aliens who are eligible for Medi-Cal regardless of their five-year bar status if they are under 21 or pregnant. Qualified Aliens include: • Lawful Permanent Residents • Asylees under INA section 208 • Refugees under INA section 207 • Immigrants paroled for at least one year under INA section 212(d)(5) • Immigrants whose deportation is withheld under INA section 243 (h) • Immigrants granted conditional entry under INA section 203(a)(7) • Cuban/Haitian immigrants • Battered immigrants"
Eligibility and Enrollment	Eligibility Determination	38045	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use the additional immigration status information obtained through the federal hub as a result of the latest update to the “Verify Lawful Presence” (VLP) interface to properly determine the level of Medi-Cal benefits an immigrant is entitled to receive and whether or not eligibility is conditional. The new data elements provide additional information on qualified alien status, five-year bar status and other variables related to Medi-Cal eligibility that need to be incorporated into the eligibility determination process.
Eligibility and Enrollment	Eligibility Determination	38046	"California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall grant restricted scope Medi-Cal benefits for a lawfully present immigrant as defined for Medi-Cal eligibility purposes, *An individual who is not a qualified alien or a PRUCOL immigrant and who is 21 or older, or is not pregnant. "
Eligibility and Enrollment	Eligibility Determination	38047	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall grant conditional full scope Medi-Cal eligibility to otherwise eligible immigrants who claim to be in a satisfactory immigration status (for full scope Medi-Cal) during the 90-day reasonable opportunity period.
Eligibility and Enrollment	Eligibility Determination	38048	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add a value to the existing documents type drop down menu "Document or status not listed." The "Document or status not listed" value will grant conditional eligibility if otherwise eligible.
Eligibility and Enrollment	Eligibility Determination	38049	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall change the Alien Number field from a required field to an optional field if the "Document or status not listed" category is selected.
Eligibility and Enrollment	Eligibility Determination	38050	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall change the Alien Number verbiage from "Alien number" to "Alien number/USCIS number"

Category	Sub Category	Req ID	Requirement
Eligibility and Enrollment			"California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide functionality to collect application information necessary to identify PRUCOL individuals as per regulations 42 CFR 435.408 and 436.408 (in each of the 15 documented PRUCOL categories on the MC 13). The online application shall have the functionality to ask the individual if they are in a PRUCOL status. If a PRUCOL status is selected in the selectable drop-down menu, described in BR 15, provide conditional full scope eligibility. The 15 documented PRUCOL categories are: ? A conditional entrant admitted to the United States before April 1, 1980 ? An immigrant paroled into the United States, including Cuban/Haitian entrants ? An immigrant subject to an Order of Supervision ? An immigrant granted an indefinite stay of deportation ? An immigrant granted an indefinite voluntary departure ? An immigrant on whose behalf an immediate relative petition (INS Form I-130) has been approved and who is entitled to voluntary departure ? An immigrant who has properly filed an application for lawful permanent resident status ? An immigrant granted a stay of deportation for a specified period ? An immigrant granted asylum ? A refugee admitted to the United States since April 1, 1980 ? An immigrant granted voluntary departure who is awaiting issuance of a visa ? An immigrant in deferred action status ? An immigrant who entered and has continuously resided in the United States since before January 1, 1972, who would be eligible for an adjustment of status to lawful permanent resident pursuant to INA Section 249 (eligible as a Registry Alien) ? An immigrant granted a suspension of deportation whose departure INS does not contemplate enforcing ? An immigrant granted withholding of deportation pursuant to INA Section 243(h) ? Document or status not listed"
	Eligibility Determination	38052	
Eligibility and Enrollment	Eligibility Determination	38053	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall have the functionality to determine eligibility for PRUCOL individuals in any of the 16 PRUCOL categories available on the MC 13 (12/09) and to place them in the full scope MAGI Medi-Cal Category aid codes (based on financial and non-financial eligibility criteria).
Eligibility and Enrollment			"The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall add the following immigration statuses to a selectable drop-down menu to correctly determine Medi-Cal eligibility for all PRUCOL immigrants: ? A conditional entrant admitted to the United States before April 1, 1980 ? An immigrant paroled into the United States, including Cuban/Haitian entrants ? An immigrant subject to an Order of Supervision ? An immigrant granted an indefinite stay of deportation ? An immigrant granted an indefinite voluntary departure ? An immigrant on whose behalf an immediate relative petition (INS Form I-130) has been approved and who is entitled to voluntary departure ? An immigrant who has properly filed an application for lawful permanent resident status ? An immigrant granted a stay of deportation for a specified period ? An immigrant granted asylum ? A refugee admitted to the United States since April 1, 1980 ? An immigrant granted voluntary departure who is awaiting issuance of a visa ? An immigrant in deferred action status ? An immigrant who entered and has continuously resided in the United States since before January 1, 1972, who would be eligible for an adjustment of status to lawful permanent resident pursuant to INA Section 249 (eligible as a Registry Alien) ? An immigrant granted a suspension of deportation whose departure INS does not contemplate enforcing ? An immigrant granted withholding of deportation pursuant to INA Section 243(h) ?Document or status not listed"
	Eligibility Determination	38054	
Eligibility and Enrollment	Eligibility Determination	38055	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) must grant restricted scope Medi-Cal eligibility (without requiring immigration document and Alien Number information) to otherwise eligible immigrants who claim to be in the “document or status not listed” category of the drop-down menu.
Eligibility and Enrollment	Eligibility Determination	38056	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) must grant full scope Medi-Cal eligibility to consumers who selected “document or status not listed” category of the drop down menu and the consumer provides the county with a signed MC-13 attesting to PRUCOL category 16. The county will use administrative verification to indicate the MC-13 has been provided. No other electronic or administrative verification is required.
Eligibility and Enrollment	Eligibility Determination	38057	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall add an “Admin Verified” option for verification of all 16 PRUCOL categories.
Eligibility and Enrollment	Eligibility Determination	38058	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall grant conditional full scope eligibility to otherwise eligible documented PRUCOL immigrants while their status is being verified, and shall grant appropriate eligibility once status is verified.
Eligibility and Enrollment	Eligibility Determination	38059	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall request immigration status verifications through the VLP interface from all of the documented PRUCOL categories including the 9 documented PRUCOL categories that do not meet the federal definition of “Qualified Alien”. Immigration status verification will not be requested from individuals who claim the last selectable category on the immigration status list. (The last selectable category is: "Document or status not listed".)
Eligibility and Enrollment	Eligibility Determination	38060	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system will add new validation to assist consumers with what happens next in the application process when they select "Document or status not listed" in the 'Document Type' dropdown.
Eligibility and Enrollment	Eligibility Determination	38061	If administrative verification of immigration status is required because electronic verification fails, and immigration status is not verified during the reasonable opportunity period, then eligibility shall be reduced to restricted scope Medi-Cal with proper notice in accordance with current Medi-Cal policy.

Category	Sub Category	Req ID	Requirement
Eligibility and Enrollment	Eligibility Determination	38062	"The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall treat the following immigration statuses as always exempt from the 5 year bar: A refugee under 207, Cuban /Haitian Entrant (501e), Deportation withheld (243(h)), Granted Asylum (208), Amerasians, Trafficking victims with ORR certification"
Eligibility and Enrollment	Eligibility Determination	38063	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall eliminate the question and check box for "eligible immigration status".
Eligibility and Enrollment	Eligibility Determination	38065	"California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall remove the following question from the portal: *Has this person lived in the US since August 22,1996?"
Eligibility and Enrollment	Eligibility Determination	38078	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall direct consumers changing an income record or Projected Annual Income to the income summary page and require the consumer to confirm the change is correct, or require further edits to income entries.
Eligibility and Enrollment	Eligibility Determination	38082	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall always determine which income value (PAI or CMI), the lower of the two, has been used to calculate MAGI Medi-Cal eligibility and if either the value used has not been previously cached, the uncached value used shall be re-verified via the Federal Data Services Hub (FDSH).
Eligibility and Enrollment	Eligibility Determination	38086	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add aid code 0G for the Medi-Cal Access Program effective October 1, 2016 through June 30, 2017.
Eligibility and Enrollment	Eligibility Determination	38087	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add aid code 0E for the Medi-Cal Access Program effective July 1, 2017.
Eligibility and Enrollment	Eligibility Determination	38088	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall assign aid codes 0G or 0E for pregnant women with incomes above 213 of the federal poverty level up to and including 322 of the federal poverty who are eligible for the Medi-Cal Access Program .
Eligibility and Enrollment	Eligibility Determination	38089	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall discontinue the use of aid code 0D for new applicants effective October 1, 2016.
Eligibility and Enrollment	Eligibility Determination	38090	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall discontinue the use of aid code 0G for new applicants effective July 1, 2017.
Eligibility and Enrollment	Eligibility Determination	38091	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall maintain the aid code 0D for all pregnant women determined eligible for the Medi-Cal Access Program prior to October 1, 2016 when a change is reported, unless the reported change will discontinue eligibility for the Medi-Cal Access Program.
Eligibility and Enrollment	Eligibility Determination	38092	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall maintain the aid code 0G for all pregnant women determined eligible for the Medi-Cal Access Program prior to July 1, 2017 when a change is reported, unless the reported change will discontinue eligibility for the Medi-Cal Access Program.
Eligibility and Enrollment	Eligibility Determination	38127	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall attempt to verify both amounts with the Federal Data Service Hub (FDSH). If only the higher amount can be e-verified, and both amounts are within MAGI Medi-Cal income limits, then eligibility can be granted by California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) based upon the lower amount.
Eligibility and Enrollment	Eligibility Determination	38128	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall e-verify the lower amount when only the higher amount can be e-verified, and both amounts are within MAGI Medi-Cal income limits.
Eligibility and Enrollment	Eligibility Determination	38129	If only the lower amount can be e-verified, and the lower amount is within Medi-Cal limits, then CalHEERS shall establish eligibility based upon that lower amount.
Eligibility and Enrollment	Eligibility Determination	38130	If neither amount can be e-verified, California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall pend eligibility for admin verification
Eligibility and Enrollment	Eligibility Determination	38131	If the higher amount of either CMI and PAI is above the Medi-Cal limits and the lower unverified amount is within Medi-Cal limits, California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall pend eligibility for admin verification.
Eligibility and Enrollment	Eligibility Determination	38132	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall not permit consumers to submit their application or reported changes until they validate that their updated income is accurate.
Eligibility and Enrollment	Eligibility Determination	38133	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS)-SAWS eHIT interface shall add a verification element under the income fields on the Manual Verifications Page that denotes if admin verification is needed (Y for Yes, N for No) for CMI, PAI, or both amounts that could not be e-verified.
Eligibility and Enrollment	Eligibility Determination	38134	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add data element fields on the Self Employment screen for consumers to enter Projected Annual Income and Expenses.
Eligibility and Enrollment	Eligibility Determination	38135	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS)-SAWS eHIT interface shall add Projected Annual income effective dates and calendar year elements
Eligibility and Enrollment	Eligibility Determination	38136	If only the higher amount can be e-verified, and the higher amount is above Medi-Cal limits and the lower unverified amount is within Medi-Cal limits, California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall pend eligibility for admin verification.
Eligibility and Enrollment	Eligibility Determination	38140	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall place eligible and conditionally eligible APTC/CSR/CCP individuals into “Carry Forward” when a redetermination of eligibility results in “eligible”, “conditionally eligible” or “pending” MAGI Medi-Cal program eligibility.
Eligibility and Enrollment	Eligibility Determination	38141	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall output MAGI Medi-Cal eligibility status as "Pending" regardless of the actual status based on the eligibility results when placed in "Carry Forward".
Eligibility and Enrollment	Eligibility Determination	38142	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall place cases that have members who are in “Carry Forward” during the Renewals Batch process into Renewal mode. These cases will be excluded from the Passive Renewal process initially, but can be actively renewed.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Eligibility and Enrollment	Eligibility Determination	38143	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall passively renew cases that have members who are in 'Carry Forward' and are in Renewal Mode but have not actively renewed via the last batch sweep for renewals if all other criteria for the passive renewal is met.
Eligibility and Enrollment	Eligibility Determination	38146	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide a Carry Forward indicator at the member level in the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Portal for the following transition: APTC/CSR/CCP to MAGI M/C
Eligibility and Enrollment	Eligibility Determination	38149	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall continue Carry Forward for an individual when an EDR is sent from SAWS with a Carry Forward Lift Indicator and the redetermination of eligibility results in MAGI Medi-Cal pending.
Eligibility and Enrollment	Eligibility Determination	38151	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall end Carry Forward for an individual when there is a RAC in the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Portal and the redetermination of eligibility results in APTC/CSR/CCP, MCAP or CCHIP.
Eligibility and Enrollment	Eligibility Determination	38152	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall end "Carry Forward" no later than 12/31 of the current CC benefit year when the consumer is in a "Carry Forward" status due to IAP transition.
Eligibility and Enrollment	Eligibility Determination	38153	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall end Carry Forward for an individual when a Negative Action is sent from SAWS and a reevaluation for other programs occurs.
Eligibility and Enrollment	Eligibility Determination	38155	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use the 15-day rule to discontinue an individual's APTC/CSR/CCP program eligibility when Carry Forward has ended and the individual is found MAGI Medi-Cal Eligible or Conditionally Eligible.
Eligibility and Enrollment	Eligibility Determination	38158	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall evaluate MAGI Medi-Cal eligibility for an individual in a requested Carry Forward month when a Carry Forward Lift Indicator is received for that individual.
Eligibility and Enrollment	Eligibility Determination	38159	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall determine dual eligibility when: - The individual is in Carry Forward (APTC/CSR/CCP Eligible or Conditionally Eligible) and - The current month is requested with a Carry Forward Lift Indicator and - The requested month is a Carry Forward Month and - The individual is found Eligible or Conditionally Eligible for MAGI Medi-Cal This is irrespective of the APTC/CSR/CCP discontinuance (which uses the 15 Day Rule).
Eligibility and Enrollment	Eligibility Determination	38160	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall determine dual eligibility when: - The individual is in Carry Forward (APTC/CSR/CCP Eligible or Conditionally Eligible) and - The future month is requested with a Carry Forward Lift Indicator after the 15th of the month and - The requested month is a Carry Forward Month and - The individual is found Eligible or Conditionally Eligible for MAGI Medi-Cal This is irrespective of the APTC/CSR/CCP discontinuance (which uses the 15 Day Rule).
Eligibility and Enrollment	Eligibility Determination	38161	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall evaluate MAGI Medi-Cal for an individual when a prior Ineligible or Pending IAP Transition Month is requested by SAWS after the individual has been determined eligible or conditionally eligible for MAGI Medi-Cal for a Carry Forward Month and allow for dual eligibility if applicable.
Eligibility and Enrollment	Eligibility Determination	38162	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall begin CCHIP eligibility the first of the month after discontinuance from another IAP.
Eligibility and Enrollment	Eligibility Determination	38163	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall open plan selection for APTC/CSR/CCP cases in Carry Forward and use the Carry Forward Budget in the following scenarios: -The APTC/CSR/CCP household moves to a new region -New applicant(s) are added to the case and are found eligible for APTC/CSR/CCP The current plan selection rules will apply.
Eligibility and Enrollment	Eligibility Determination	38164	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall maintain the APTC/CSR/CCP Carry Forward budget when a member of the APTC/CSR/CCP household is disenrolled from the plan and at least one member remains in Carry Forward.
Eligibility and Enrollment	Eligibility Determination	38166	When California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) receives a Non-MAGI Medi-Cal aid code via eHIT it will evaluate the aid code for MEC. If there is valid MEC for the Non-MAGI Medi-Cal aid code, California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) will trigger a redetermination of eligibility for IAPs.
Eligibility and Enrollment	Eligibility Determination	38167	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display Covered CA transition text on the eligibility results page when a MAGI Medi-Cal individual's redetermination of eligibility results in eligible or conditionally for APTC/CSR/CCP.
Eligibility and Enrollment	Eligibility Determination	38242	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall set the initial reasonable opportunity expiration date based on a configurable time period after the date the conditional eligibility was determined.
Eligibility and Enrollment	Eligibility Determination	38250	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall set the discontinuance date to the end of the current month if the eligibility determination is performed on or before the 15th of the current month.
Eligibility and Enrollment	Eligibility Determination	38251	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall set the discontinuance date to the end of the coming month if the eligibility determination is performed after the 15th of the current month.

Category	Sub Category	Req ID	Requirement
Eligibility and Enrollment	Eligibility Determination	38254	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall only determine MAGI Medi-Cal eligibility to APTC individuals whose reasonable opportunity period has expired under the following conditions: - The consumer income is within the MAGI Medi-Cal FPL range; and - The verification inconsistency is for citizenship, lawful presence or incarceration.
Eligibility and Enrollment	Eligibility Determination	38255	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall apply the Carry Forward rules to a consumer's enrollment if the consumer is newly eligible to MAGI Medi-Cal due to the ROP Batch and shall not take action to discontinue the consumer when their verification inconsistency is for citizenship, lawful presence or incarceration.
Eligibility and Enrollment	Eligibility Determination	38258	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall enable APPLY mode as of the ROP run date if all members are discontinued/terminated.
Eligibility and Enrollment	Eligibility Determination	38259	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall enable REPORT A CHANGE mode if at least one of the members is eligible for one of the programs (includes MAGI Medi-Cal).
Eligibility and Enrollment	Eligibility Determination	38265	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to allow consumers to have access to the case summary page from the Individual homepage if case history exists for the consumer.
Eligibility and Enrollment	Eligibility Determination	38289	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall modify its existing computational method for calculating Advance Premium Tax Credit (APTC).
Eligibility and Enrollment	Eligibility Determination	38290	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall modify the maximum annual APTC amount calculation by: • only considering the number of applicable coverage months for the household in the benefit year. An applicable coverage month is defined as a month in which the consumer is enrolled in a QHP and eligible or conditionally eligible to APTC for the entire month • accommodating benchmark premiums that vary by month
Eligibility and Enrollment	Eligibility Determination	38291	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall determine benchmark premiums as follows: • Use member-level coverage start dates to derive the benchmark premium • Benchmark premiums should be recalculated to reflect changes in household circumstances, such that the household can have different benchmark premiums from month to month • When a change is reported, the old coverage start date should be used in the benchmark premium calculation only if the same plan is kept. If a new plan is selected, the new coverage start date should be used (going forward) • When plan effective date is changed, the new coverage start date should be used.
Eligibility and Enrollment	Eligibility Determination	38292	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide the capability to store maximum monthly APTC amount, applied monthly APTC amount, and monthly benchmark premium amount. When maximum annual APTC amount changes, California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) will recalculate the maximum monthly APTC amount for future months such that no surplus or deficit will occur if possible. When maximum annual APTC amount does not change, California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not change the maximum monthly amount for future months.
Eligibility and Enrollment	Eligibility Determination	38293	When eligibility is determined and the consumer is eligible to APTC, California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the maximum annual APTC amount and the prospective maximum monthly APTC amount.
Eligibility and Enrollment	Eligibility Determination	38294	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall recalculate APTC according to the new coverage start date when the plan effective date is changed by an admin user.
Eligibility and Enrollment	Eligibility Determination	38314	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall have the ability to provide quotes for only part of a household.
Eligibility and Enrollment	Eligibility Determination	38315	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall support the admin ability to view quotes and plan data for multiple years.
Eligibility and Enrollment	Eligibility Determination	38316	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall not display past benefit year rates to consumer past open enrollment.
Eligibility and Enrollment	Eligibility Determination	38317	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall not display programs that do not have potential eligibility on the My Options page.
Eligibility and Enrollment	Eligibility Determination	38326	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall call for e-verifications from the hub when a household member is being added during Renewals.
Eligibility and Enrollment	Eligibility Determination	38338	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to auto-enroll a consumer in their current plan if still eligible with currently verified data.
Eligibility and Enrollment	Eligibility Determination	38340	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to receive individual enrollment renewal responses/ updates through California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Web Portal, Mail, Phone, and e-mail.

Category	Sub Category	Req ID	Requirement
Eligibility and Enrollment			The following OPA budget elements shall be populated in the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS)-SAWS eHIT Interface for both MAGI and APTC: 1. Soft Paused Due To 2. Person Primary Tax Filer 3. Person Included in Primary Tax Filer's Tax Household 4. Person Plans to File Taxes 5. Person Expected to be Required to File Taxes 6. Person Tax Filing Status 7. Person Tax Dependent Status 8. Who claims this person as a tax dependent 9. MAGI - Employment Income (Monthly) 10. MAGI - Self-Employment Income (Monthly) 11. MAGI - Other income (Monthly) 12. MAGI - Total Income 13. MAGI - Allowable deductions (Monthly) 14. MAGI - Total Income after Deductions 15. MAGI - Projected Monthly Income 16. MAGI - Countable Income 17. MAGI - Number of household member + Number of expected babies 18. MAGI - List of Household Members 19. MAGI - Federal Poverty Level 20. MAGI - Federal Poverty Level % for individual 21. MAGI - MAGI Medi-Cal Eligible 22. MAGI- Meets 435.603(f)(2)(I-iii) to use a non-tax filer household composition for MAGI Medi-Cal 23. MAGI - Meets 435.603(l) exception to use APTC income/deduction calculations for MAGI Medi- Cal determination 24. MAGI - Meets 435.119(c): Adults ineligible to the New Adult Group due to dependent child under age 19 without Minimum Essential Coverage
	Eligibility Determination	38350	
Eligibility and Enrollment	Eligibility Determination	38442	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display questions regarding the consumer's employer contact information only if the consumer is eligible or conditionally eligible for APTC
Eligibility and Enrollment	Eligibility Determination	38443	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide APTC consumers the ability to update answers to the employer contact information questions at any time.
Eligibility and Enrollment	Eligibility Determination	38444	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall remove employer contact information questions from the Personal Data-Health Insurance Information page
Eligibility and Enrollment	Eligibility Determination	38445	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall update the ESI Question flow on the Personal Data - Health Insurance Information page.
Eligibility and Enrollment			California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall call the Hub for the following federal-based verifications and store the outcome and response codes for eligibility determinations for Covered California Programs: o Medicare, o Peace Corps, o TRICARE, and o VHA
	Eligibility Determination	38446	
Eligibility and Enrollment			California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not call the Hub for the following state-based verifications: o Medicaid, o CHIP, and o BHP
	Eligibility Determination	38447	
Eligibility and Enrollment	Eligibility Determination	38448	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall determine ineligibility for APTC/CCP when an Admin Failure of any MEC verification attribute (ESI, NON-ESI, MEDS, Medicare) even if another is e-verified.
Eligibility and Enrollment	Eligibility Determination	38449	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall update the Household Member page "If No SSN, Why" Drop Down field"
Eligibility and Enrollment	Eligibility Determination	38465	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall remove the employer questions on the Employer Information of the Earned Income Details page
Eligibility and Enrollment	Eligibility Determination	38468	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall preserve Employer Contact Information in Mixed Household scenarios.
Eligibility and Enrollment	Eligibility Determination	38470	Parent: The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall determine a consumer ineligible for CCP when the consumer attested to have Medicare at intake, or add a person during Report A Change, or add a person during Renewal.
Eligibility and Enrollment	Eligibility Determination	38471	Child: The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall continue a consumer's eligibility for CCP when the consumer has an active plan selection and attests to have Medicare at Report or Change or Renewal and continues to be otherwise eligible for CCP
Eligibility and Enrollment	Eligibility Determination	38472	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have an Update Employer Contact Information transaction in the Transaction History Table.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

OTSI CalHEERS RFP #73040873 Addendum 1
October 31, 2025

Category	Sub Category	Req ID	Requirement
Eligibility and Enrollment	Eligibility Determination	38512	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall streamline income messaging, hover texts and collection screens to improve the income flow for the end user.
Eligibility and Enrollment	Eligibility Determination	38513	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide access to the Income and Deduction Types chart on the DHCS Website.
Eligibility and Enrollment	Eligibility Determination	38514	If a One-Time Lump Sum is entered for the month of application and one or more members are not MAGI Medi-Cal eligible, the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall determine eligibility for the month of application and for the month after application.
Eligibility and Enrollment	Eligibility Determination	38515	If a One-Time Lump Sum is entered for a future month for a Medi-Cal beneficiary, the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall disregard the One-Time Lump Sum for the MAGI Medi-Cal determination.
Eligibility and Enrollment	Eligibility Determination	38516	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall prevent a non tax filer from claiming a dependent.
Eligibility and Enrollment	Eligibility Determination	38517	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System will identify per capita gaming distributions of AI/AN income and count them for the MAGI Medi-Cal and APTC determinations.
Eligibility and Enrollment	Eligibility Determination	38518	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall compare the individual's countable MAGI Medi-Cal income to the appropriate dollar income limit when determining eligibility for MAGI Medi-Cal and Exchange programs.
Eligibility and Enrollment	Eligibility Determination	38519	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall make all members of a MAGI-MC household eligible only when all of the countable income of that MAGI-MC household has been verified.
Eligibility and Enrollment	Eligibility Determination	38520	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall rename "Miscellaneous" to "Other Taxable Income" in the "What type of income?" dropdown option on the "Add Other Income" page.
Eligibility and Enrollment	Eligibility Determination	38526	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall apply the exception to the counting of income based on the member's role in the tax filing household under evaluation. This includes whether or not they are a Tax Filer or whether they are a dependent or child under 19 or 21 if a full time student with a parent living in the household. These are contained in 42 CFR Section 435.603 (f) and 42 CFR 435.603 (d)(2)(i).
Eligibility and Enrollment	Eligibility Determination	38527	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall always count a tax dependent's MAGI based income for their MAGI-Medi-Cal budget when the tax dependent is claimed by someone other than a parent; except when the tax-dependent's parent is in their MAGI Medi-Cal budget and the tax dependent is not expected to be required to file taxes.
Eligibility and Enrollment	Eligibility Determination	38659	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS)-SAWS eHIT interface shall add a verification element that denotes if admin verification is needed for CMI, PAI, or both amounts that could not be e-verified.
Eligibility and Enrollment	Eligibility Determination	38773	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall apply the income amount provided by the electronic data sources upon expiration of the reasonable opportunity period for income verification inconsistencies.
Eligibility and Enrollment	Eligibility Determination	38774	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall use the hierarchy of IRS, FTB, EDD in case of income inconsistency for eligibility determination.
Eligibility and Enrollment	Eligibility Determination	38775	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall not apply the income amount provided by electronic data sources to the consumer's eligibility determination if the value is unavailable.
Eligibility and Enrollment	Eligibility Determination	38782	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall update the transaction history table when the ROP date is updated by admin users
Eligibility and Enrollment	Eligibility Determination	38783	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall enable consumer to change plan up to 60 days if the ROP batch execution is responsible for consumer's APTC/CSR eligibility discontinuance.
Eligibility and Enrollment	Eligibility Determination	38806	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add data element fields on the Self Employment screen for consumers to enter Projected Annual Income and Expenses.
Eligibility and Enrollment	Eligibility Determination	38837	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall have the functionality to discontinue APTC/CSR when the 009 or 010 tax filing codes are received from IRS.
Eligibility and Enrollment	Eligibility Determination	38838	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall update the Eligibility Results Page with new language reflecting the reason for the action that was taken with the 009 and 010 tax filing codes received from IRS.
Eligibility and Enrollment	Eligibility Determination	38841	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall always call income services during active renewals.
Eligibility and Enrollment	Eligibility Determination	38844	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall allow designated individuals the ability to extend the Open Enrollment date that yields a coverage start date of 1/1 or 2/1 for the Open Enrollment benefit year.
Eligibility and Enrollment	Eligibility Determination	38845	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall have the Open Enrollment extension in consideration in determining the plan selection dates on Eligibility Results page and Enrollment Introduction Page.
Eligibility and Enrollment	Eligibility Determination	38952	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS)-SAWS eHIT interface shall add Projected Annual income effective dates and calendar year elements.
Eligibility and Enrollment	Eligibility Determination	39112	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the ability for Admin users to submit applications (Intake, Report A Change, Renewals) without providing a PIN. (California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) will restore the functionality/capability which allows CEWS and SCRs to process a case in California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) without the use of PIN.)

Category	Sub Category	Req ID	Requirement
Eligibility and Enrollment	Eligibility Determination	39159	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add effective dates for each PAI record and the calendar year for which the PAI applies on the "Expected Income for <Year>" application and RAC portal pages.
Eligibility and Enrollment	Eligibility Determination	39169	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall grant Full scope MAGI Medi-Cal for immigrants who have been administratively verified by SAWS as PRUCOL Last Category when immigration status is "Document or status not listed," any document type is selected or document type is blank, and the consumer is otherwise eligible for MAGI Medi-Cal.
Eligibility and Enrollment	Eligibility Determination	39274	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall calculate the premium rate based on the age of the enrollee at the date of policy issuance or renewal.
Eligibility and Enrollment	Eligibility Determination	39466	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall count the taxable portion of the following income types only for APTC/CSR determinations: AmeriCorps State/National Stipend and Education Award AmeriCorps National Civilian Community Corps Stipend and Education Award AmeriCorps Vista Stipend and Educational Award Education scholarships, awards, fellowship grants not used for living expenses.
Eligibility and Enrollment	Eligibility Determination	39500	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall only apply 42 CFR 435.603(i) to individuals who meet the eligibility requirements for an advanced premium tax credit (APTC).
Eligibility and Enrollment	Eligibility Determination	39550	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the eligibility rules to use the non-ESI MEC verification service so that people will be conditionally eligible to APTC/CSR if the service returns enrollment information for Tri-Care, Peace Corps, and/or Veterans Health.
Eligibility and Enrollment	Eligibility Determination	39551	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the eligibility rules to use the non-ESI MEC verification service so that people will be ineligible/discontinue to APTC/CSR if the service returns enrollment information for Medicare.
Eligibility and Enrollment	Eligibility Determination	39552	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the ability for an Admin user to override Medicare verification status.
Eligibility and Enrollment	Eligibility Determination	39553	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not run the Business Rules Engine or call the verification services when: Only non-eligibility data elements are updated by any user type within a Report a Change (RAC), regardless if Verification caching has expired
Eligibility and Enrollment	Eligibility Determination	39555	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall request and store the Medicare information from the RRV, and use the verification for eligibility determination.
Eligibility and Enrollment	Eligibility Determination	39559	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall allow consumers to report changes or apply for coverage for the current benefit year during Open Enrollment.
Eligibility and Enrollment	Eligibility Determination	39560	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall allow enrollment start date following the SEP rules If the consumer reports a qualifying life event of Loss of MEC, Marriage, or Birth / Adoption.
Eligibility and Enrollment	Eligibility Determination	39682	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall require individuals who attest to a tax filing status of Married Filing Jointly to include on the application, regardless of relationship status, the individual with whom they are Married Filing Jointly.
Eligibility and Enrollment	Eligibility Determination	39684	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not enforce individuals who attest to a tax filing status of Married Filing Jointly to include on the application, regardless of relationship status, the individual with whom they are Married Filing Jointly when there is at least one individual attesting to Former Foster Youth.
Eligibility and Enrollment	Eligibility Determination	39685	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall require individuals who attest to a tax filing status of Married Filing Jointly to identify the other individual with whom they are Married Filing Jointly, and that person must also have tax filing status of Married Filing Jointly. An individual can have Married Filing Jointly status with more than one individual(s) on the case.
Eligibility and Enrollment	Eligibility Determination	39703	GI shall add the following races to the EDI 834 Transactions to carriers: Cambodian Other Hispanic\Latino/Spanish
Eligibility and Enrollment	Eligibility Determination	39704	GI shall not send 'Other' (2131-1) when a consumer fails to select a value for Race/Ethnicity in the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Portal
Eligibility and Enrollment	Eligibility Determination	39714	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow out-of-state residence addresses for all individuals on an application/case, including the Primary Contact, and the referral(s) logic shall be suppressed in rules engine for the individuals who are out-of-state. The "More Benefits Option" question will not be displayed on Household Eligibility Results Summary page when all individual(s) are denied/ineligible/discontinued due to residing out-of-state.
Eligibility and Enrollment	Eligibility Determination	39715	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall collect an out-of-country indicator for all individuals who are residing out-of-country. The Primary Contact on the case cannot have an out-of-country residence or mailing address. The referrals shall be suppressed for out-of-country individuals. The "More Benefits Option" question will not be displayed on Household Eligibility Results Summary screen when all individual(s) are denied/ineligible/discontinued due to residing out-of-country.
Eligibility and Enrollment	Eligibility Determination	39726	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall apply the same rules for calling the verification services that are used for non-applying members, to individuals who reside out-of-state/out-of-country and whose income counts in the budget.
Eligibility and Enrollment	Eligibility Determination	39727	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall determine individuals ineligible/discontinued when they attest to an out-of-state or out of country residence.
Eligibility and Enrollment	Eligibility Determination	39728	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall inform individuals that they have been determined ineligible/discontinued due to residing out-of-state or out-of-country. The Eligibility Results screen shall be updated to display ineligible/discontinued message for out-of-state/out-of-country.
Eligibility and Enrollment	Eligibility Determination	39730	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use non-tax filer rules to determine MAGI Medi-Cal eligibility for unmarried individuals (all relationships other than "Spouse") who, regardless of relationship status, attest to a tax filing status of Married Filing Jointly, and this includes their dependents.
Eligibility and Enrollment	Eligibility Determination	39752	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send and receive the COVID-19 Unemployment Insurance Benefit Stimulus Payments as a separate Income type.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Eligibility and Enrollment	Eligibility Determination	39763	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to allow the Enrollers to search for consumer cases by DOB (MM/DD/CCYY) on the Active Consumers for Agency, Agent and Counselor Portals.
Eligibility and Enrollment	Eligibility Determination	39764	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to allow the Enrollers to search for consumer case by Last 4-digits of SSN on the Active Consumers for Agency, Agent and Counselor Portals.
Eligibility and Enrollment	Eligibility Determination	39766	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall consume the Benchmark Premium amount returned by Get Insured API at the household level when calculating APTC/State Subsidy eligibility
Eligibility and Enrollment	Eligibility Determination	39806	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to allow the Enrollers to search for consumer case by house address number on the Active Consumers for Agency, Agent and Counselor Portals.
Eligibility and Enrollment	Eligibility Determination	39807	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to display the consumer phone, email address, address, subscriber ID, DOB (MM/DD), Last 4-digits of SSN on the Active Consumer results page for Agency Managers and Approved Admin Staff.
Eligibility and Enrollment	Eligibility Determination	39850	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display a dynamic coverage start date on the Account Home page Important Dates messaging for the Open Enrollment period.
Eligibility and Enrollment	Eligibility Determination	39852	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to display the consumer subscriber ID, DOB (MM/DD), Last 4-digits of SSN on the Active Consumer results page for Agents and Counselors.
Eligibility and Enrollment	Eligibility Determination	39853	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to allow the Enrollers to search for consumer case by Case ID on the Active Consumers for Agent and Counselor Portals.
Eligibility and Enrollment	Eligibility Determination	39881	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall consume the Benchmark Premium amount returned by Get Insured API at the household level when calculating APTC/State Subsidy eligibility
Eligibility and Enrollment	Eligibility Determination	39885	Get Insured shall return the Benchmark Premium Amount at the household level in the GI Recalc API
Eligibility and Enrollment	Eligibility Determination	39917	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow a consumer to be granted MAGI Medi-Cal for a prior month if the person was eligible for APTC and/or State Subsidy, but they were not enrolled for that prior month.
Eligibility and Enrollment	Eligibility Determination	39918	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall place eligible and conditionally eligible APTC/CSR/CCP/State Subsidy individuals into “Carry Forward” only if the consumer has selected a plan and a redetermination of eligibility results in MAGI Medi-Cal program eligibility.
Eligibility and Enrollment	Eligibility Determination	39947	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add a new SEP Reason for "Victim of domestic abuse or spousal abandonment"
Eligibility and Enrollment	Eligibility Determination	39948	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use the "Returned from Active Duty Military Service" SEP in the Eligibility determination when "Victim of domestic abuse or spousal abandonment" is selected as the SEP reason.
Eligibility and Enrollment	Eligibility Determination	39949	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the SEP reason "Victim of domestic abuse or spousal abandonment" as the value before the SEP reason "Returned from Active Duty Military Service" in the dropdown menu for QLE reasons.
Eligibility and Enrollment	Eligibility Determination	39960	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall suppress adding a Qualifying Life Event when applying for the upcoming year outside of the timeframe that a Qualifying Life Event would be applicable.
Eligibility and Enrollment	Eligibility Determination	39961	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow a newly added member to become eligible for Covered California programs outside of Open and Special Enrollment, when a Renewal has been completed for the upcoming year.
Eligibility and Enrollment	Eligibility Determination	40136	SIR 128769: California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow users to update income/deduction name for the income/deduction records that are received on EDR without income/deduction name
Eligibility and Enrollment	Eligibility Determination	40138	SIR 125445: California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Portal shall be updated to display MEDICARE part A and B questions for all applying and non-applying members.
Eligibility and Enrollment	Eligibility Determination	40139	SIR 156792: California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Portal shall be updated to display ""MCAP pregnancy hold applies?"" on the Budget Worksheet screen.
Eligibility and Enrollment	Eligibility Determination	40196	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall store the Transition Flag and the Transition QLE End Date which indicates the transition from MAGI Medi-Cal to Covered CA.
Eligibility and Enrollment	Eligibility Determination	40263	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall collect, store and use 'Lost Wages Assistance' income for eligibility determinations.
Eligibility and Enrollment	Eligibility Determination	40264	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add 'Lost Wages Assistance' on the 'Government & Assistance Income' page for all modes (Intake, RAC, Renewal).
Eligibility and Enrollment	Eligibility Determination	40265	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add a tool tip for 'Lost Wages Assistance' on the 'Government & Assistance Income' page for all modes (Intake, RAC, Renewal).
Eligibility and Enrollment	Eligibility Determination	40266	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create a 'Lost Wages Assistance' Modal to collect the following data: Income Name, Amount, Frequency, Begin and End Dates.
Eligibility and Enrollment	Eligibility Determination	40267	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall count the 'Lost Wages Assistance' income for Covered California programs (APTC, State Subsidy, CSR) eligibility determinations.
Eligibility and Enrollment	Eligibility Determination	40268	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not count the 'Lost Wages Assistance' income for Medi-Cal programs (MAGI Medi-Cal, MCAP, CCHIP) eligibility determinations.
Eligibility and Enrollment	Eligibility Determination	40269	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send and receive the income related to 'Lost Wages Assistance' as a separate Income type via eHIT to SAWS.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Eligibility and Enrollment	Eligibility Determination	40270	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to configure the 'Lost Wages Assistance' income to be countable or not countable for Covered California programs (APTC, State Subsidy, CSR) and Medi-Cal programs (MAGI Medi-Cal, MCAP, CCHIP) eligibility determinations.
Eligibility and Enrollment	Eligibility Determination	40271	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add 'Lost Wages Assistance' on the 'What type of Income' dropdown in the Flexi App.
Eligibility and Enrollment	Eligibility Determination	40272	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add a banner for 'Lost Wages Assistance' Income Type in Lost Wages Assistance Modal for all modes (Intake, RAC and Renewal).
Eligibility and Enrollment	Eligibility Determination	40273	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall collect, store and use 'Disaster Unemployment Assistance' income for eligibility determinations.
Eligibility and Enrollment	Eligibility Determination	40274	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add 'Disaster Unemployment Assistance' on the 'Government & Assistance Income' page for all modes (Intake, RAC, Renewal).
Eligibility and Enrollment	Eligibility Determination	40275	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add a tool tip for 'Disaster Unemployment Assistance' on the 'Government & Assistance Income' page for all modes (Intake, RAC, Renewal).
Eligibility and Enrollment	Eligibility Determination	40276	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create a 'Disaster Unemployment Assistance' Modal to collect the following data: Income Name, Amount, Frequency, Begin and End Dates.
Eligibility and Enrollment	Eligibility Determination	40277	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall count the 'Disaster Unemployment Assistance' income for both Medi-Cal programs (MAGI Medi-Cal, MCAP, CCHIP) and Covered California programs (APTC, State Subsidy, CSR) eligibility determinations.
Eligibility and Enrollment	Eligibility Determination	40278	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send and receive the income related to 'Disaster Unemployment Assistance' as a separate Income type via eHIT to SAWS.
Eligibility and Enrollment	Eligibility Determination	40279	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to configure the 'Disaster Unemployment Assistance' income to be countable or not countable for Covered California programs (APTC, State Subsidy, CSR) and Medi-Cal programs (MAGI Medi-Cal, MCAP, CCHIP) eligibility determinations.
Eligibility and Enrollment	Eligibility Determination	40280	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add 'Disaster Unemployment Assistance' dropdown value on the 'What type of Income' dropdown in the Flexi App.
Eligibility and Enrollment	Eligibility Determination	40281	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update a banner to include information related to 'Lost Wages Assistance' and 'Disaster Unemployment Assistance' Income types in 'Unemployment Income' page for all modes (Intake, RAC and Renewal)
Eligibility and Enrollment	Eligibility Determination	40282	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall map 'Lost Wages Assistance' and 'Disaster Unemployment Assistance' Income type to code 'Other' on all HX transactions where income is sent to MEDS interface
Eligibility and Enrollment	Eligibility Determination	40422	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add 7 new "placeholder" SEP Reason, which will be configured and selected as a QLE reason when requested by Covered CA.
Eligibility and Enrollment	Eligibility Determination	40423	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add configurability to the following attributes for all existing and new "placeholder" SEP reasons: - Description (English/Spanish) - Effective Start Date - Effective End Date - Priority in the SEP drop down - Coverage Code Category - Consideration for OSEP
Eligibility and Enrollment	Eligibility Determination	40424	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the SEP reason in the QLE drop down during the effective period configured and current system date is falling between effective start date and effective end date.
Eligibility and Enrollment	Eligibility Determination	40425	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the SEP reasons based on the order of priority configured.
Eligibility and Enrollment	Eligibility Determination	40426	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall follow the coverage date rules for the SEP reasons as per the coverage code category configured.
Eligibility and Enrollment	Eligibility Determination	40427	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the SEP reasons during open special enrollment period only if the reason is configured to be displayed.
Eligibility and Enrollment	Eligibility Determination	40428	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the "Victim of domestic abuse or spousal abandonment" SEP reason to have its separate code and send to GI and SAWS.
Eligibility and Enrollment	Eligibility Determination	40429	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send and receive the SEP reason code for "Victim of domestic abuse or spousal abandonment" to SAWS via eHIT transaction.
Eligibility and Enrollment	Eligibility Determination	40430	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall configure SEP reasons to follow the first of the following month logic for all SEP reasons.
Eligibility and Enrollment	Eligibility Determination	40431	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall set the SEP Reasons of Birth/Adoption/Appeals Mid-Month with an effective date as the QLE date.
Eligibility and Enrollment	Eligibility Determination	40432	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall apply the SEP first of the following month rule for currently enrolled consumers who report a change, are not attesting to an SEP, and the report a change results in a detected SEP.
Eligibility and Enrollment	Eligibility Determination	40433	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall apply the first of the following month rule for currently enrolled consumers who report a change with no attested or detected SEP, and the report a change results in a detected increase or decrease in their financial assistance.
Eligibility and Enrollment	Eligibility Determination	40434	On the Admin view QLE page, California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not display the "Regular" Code coverage date category option.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Eligibility and Enrollment	Eligibility Determination	40435	On the Admin view QLE page, California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall rename the “MEC or Marriage/Domestic Partnership” to “First of the following month”.
Eligibility and Enrollment	Eligibility Determination	40629	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall change the description of the SEP Reason for "Learned of new state penalty" to "Learned of American Rescue Plan"
Eligibility and Enrollment	Eligibility Determination	40630	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the new "Learned of American Rescue" SEP reason as the first value in the dropdown menu for QLE reasons.
Eligibility and Enrollment	Eligibility Determination	40631	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall make the new SEP Reason for "Learned of new state penalty" available from 05/01/2021
Eligibility and Enrollment	Eligibility Determination	40660	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall remove and concatenate the special characters in the Medicare XML for all the Data Elements: Person First Name, Last Name, Middle Name, Suffix Name.
Eligibility and Enrollment	Eligibility Determination	40712	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the system functionality to place an individual who selects "Citizen of Micronesia, the Marshall Islands, or Palau" on the immigration drop down menu (Compact of Free Association) into a MAGI full scope aid code, if otherwise eligible.
Eligibility and Enrollment	Eligibility Determination	40713	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the system functionality to move the immigration status of "Citizen of Micronesia, the Marshall Islands, or Palau" under the category of Lawful presence and QNC with no five-year bar.
Eligibility and Enrollment	Eligibility Determination	40714	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall apply the verification rules and determine eligibility for MAGI Medi-Cal benefits following the existing rules for Lawful Presence and QNC category with no five-year bar.
Eligibility and Enrollment	Eligibility Determination	40715	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the system functionality to move the immigration status of "Citizen of Micronesia, the Marshall Islands, or Palau" under the category of Lawful presence and QNC with no five-year bar, and apply the corresponding eligibility determination rules for full scope MAGI Medi-Cal benefits, if otherwise eligible when the benefit month being requested is 12/1/2020 and onwards.
Eligibility and Enrollment	Eligibility Determination	40716	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall apply the corresponding full scope aid codes to individuals who select "Citizen of Micronesia, the Marshal Islands, or Palau" on the immigration drop down menu.
Eligibility and Enrollment	Eligibility Determination	40722	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall evaluate current and future year MAGI Medi-Cal/MCAP/CCHIP eligibility for newly added members via RAC in the future year after the case is renewed.
Eligibility and Enrollment	Eligibility Determination	40733	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall exclude cases which have been closed as duplicate in the Renewals batch
Eligibility and Enrollment	Eligibility Determination	40735	During renewal or RAC, California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) will only trigger a Non-MAGI Medi-Cal referral for a person when one of the following conditions are newly met: • the person's age is greater than or equal to 65, or • the person is blind or disabled, or • the person is entitled to or enrolled in Medicare part A or B benefits (whether attested, electronically verified, or Admin failed), or • the person was in former foster care, is under the age of 26, and is not eligible to a mandatory MAGI-Based Medi-Cal program, or • the person is requesting Long Term Care or a person requesting home health services The Non-MAGI Medi-Cal referral shall be complete (closed) in California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) when SAWS has sent a disposition with ReferralStatusCode = Processed (PR) for the ReferralProgramTypeCode = Medi-Cal (MC).
Eligibility and Enrollment	Eligibility Determination	40737	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not newly evaluate an individual as "Potentially Eligible" to Non-MAGI Medi-Cal if no new referral condition has been met and the previous referral was dispositioned with an eligibility status (for example IE/EL).
Eligibility and Enrollment	Eligibility Determination	40738	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not trigger a Non-MAGI Medi-Cal Referral or determine an individual as "Potentially Eligible" to Non-MAGI Medi-Cal if the individual is EL to Non-MAGI Medi-Cal which is MEC then no further referrals are needed.
Eligibility and Enrollment	Eligibility Determination	40739	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have a one-time data update for California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) cases existing prior to Release 21.9 to consider individuals as aged for Non-MAGI Medi-Cal referral purposes if consumer is aged 66 and over as of 10/1/2021.
Eligibility and Enrollment	Eligibility Determination	40740	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have a one-time data update for California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) cases existing prior to Release 21.9 to consider individuals as having Medicare for Non-MAGI Medi-Cal referral purposes if at least one of the following conditions are met: 1) The consumer's self-attestation to Medicare (which triggers referral) is Yes 2) The current Medicare verification indicates that the hub returns the consumer has Medicare coverage 3) The current Medicare verification is Admin Fail

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

OTSI CalHEERS RFP #73040873 Addendum 1
October 31, 2025

Category	Sub Category	Req ID	Requirement
Eligibility and Enrollment	Eligibility Determination	41008	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use SmartyStreets address validation API to validate and certify home/mailling addresses that are entered in the following Portal screens. - Consumer Account Creation - Household Primary Contact - Who Lives with Primary Contact Person? - Authorized Representative Account Creation - Authorized Representative Information (React) - Report a change/Renewal Household Member Address - Employer Contact Information Required - FlexiApp - primary Contact - FlexiApp - Household Members - Agency /Agent/Admin Staff /CEC - New account creation
Eligibility and Enrollment	Eligibility Determination	41009	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall support 50 characters limit in address line 1 and 2 on the HBX and Flexi App portal screens - Consumer Account Creation - Household Primary Contact - Who Lives with Primary Contact Person? - Authorized Representative Account Creation - Authorized Representative Information (React) - Report a change/Renewal Household Member Address - Employer Contact Information Required - Consumer Delegation - FlexiApp - primary Contact - FlexiApp - Household Members
Eligibility and Enrollment	Eligibility Determination	41010	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display and persist county code information returned from SmartyStreets Address validation API.
Eligibility and Enrollment	Eligibility Determination	41011	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display additional message if SmartyStreets address validation indicates the suggested address as undeliverable.
Eligibility and Enrollment	Eligibility Determination	41012	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display additional message if SmartyStreets address validation indicates the suggested address as a renamed, renumbered or converted address
Eligibility and Enrollment	Eligibility Determination	41013	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display all the address suggestions (maximum of 10) from SmartyStreets to user on HBX and FlexiApp portal screens
Eligibility and Enrollment	Eligibility Determination	41014	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display user friendly message on portal if secondary information (ex apartment, suite, etc) returned as missing from Smarty Streets
Eligibility and Enrollment	Eligibility Determination	41015	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall persist the address change performed via Flexi App as a new record in database and update the 'is_delete_flag' as 'Y' for old record.
Eligibility and Enrollment	Eligibility Determination	41020	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display error/generic message to the users for different error codes received from US Street Address API.
Eligibility and Enrollment	Eligibility Determination	41036	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display correct county information for suggested address in Address Confirmation pop up in Flexi App Primary contact screen and allow to save the County selected in dropdown in Flexi App Primary contact screen.
Eligibility and Enrollment	Eligibility Determination	41038	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement new headers called "Home Address", "Mailing Address" and "Contact Information" to display on the "Who is the Primary Contact for your household?" screen
Eligibility and Enrollment	Eligibility Determination	41125	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall perform a one-time closure of MAGI Medi-Cal Renewal on the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Portal for cases that have MAGI Medi-Cal Renewal open for 90 days or more.
Eligibility and Enrollment	Eligibility Determination	41126	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall close MAGI Medi-Cal Renewals on a monthly basis (first weekend of the month) for cases that have MAGI Medi-Cal Renewal open for 90 days or more.
Eligibility and Enrollment	Eligibility Determination	41127	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add case notes on cases where MAGI Medi-Cal Renewal was closed.
Eligibility and Enrollment	Eligibility Determination	41172	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall turn on the Accelerated Enrollment configuration effective 07/01/2021 for the adult population from the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) access channel.
Eligibility and Enrollment	Eligibility Determination	41173	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add potential eligibility for Accelerated Enrollment to Checkpoint 3 of the Dynamic Application functionality.
Eligibility and Enrollment	Eligibility Determination	41208	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall remove/hide 'Lost Wages Assistance' on the 'Government & Assistance Income' page for all modes (Intake, RAC, Renewal).
Eligibility and Enrollment	Eligibility Determination	41209	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall remove the tool tip and banner for 'Lost Wages Assistance' on the 'Government & Assistance Income' page for all modes (Intake, RAC, Renewal).
Eligibility and Enrollment	Eligibility Determination	41210	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall remove/hide 'Lost Wages Assistance' on the 'What type of Income' dropdown in the Flexi App.

Category	Sub Category	Req ID	Requirement
Eligibility and Enrollment	Eligibility Determination	41211	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow a user to view, edit, end or delete existing "Lost Wages Assistance" income record in both the consumer view and Flexi-App View
Eligibility and Enrollment	Eligibility Determination	41212	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update banner on the 'Lost Wages Assistance - Edit modal' page for all modes (Intake, RAC, Renewal)
Eligibility and Enrollment	Eligibility Determination	41213	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall remove the option for adding new 'Pandemic Unemployment Compensation' under the consumer view for all modes (Intake, RAC, Renewal)
Eligibility and Enrollment	Eligibility Determination	41214	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow all users to view, edit, end or delete existing "Pandemic Unemployment Compensation" income record.
Eligibility and Enrollment	Eligibility Determination	41215	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update banners on the 'Unemployment - Edit Income Modal' pages for all modes (Intake, RAC, Renewal)
Eligibility and Enrollment	Eligibility Determination	41385	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create a unique transaction name in the Transaction History table to track when a consumer Opts In, Opts Out, or does not provide a response to the Opt In.
Eligibility and Enrollment	Eligibility Determination	41487	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the case status to "INACTIVE" when the case is terminated.
Eligibility and Enrollment	Eligibility Determination	41500	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall record "Case Terminated" in the Case Transaction History page when Admin submits case for termination.
Eligibility and Enrollment	Eligibility Determination	41501	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall remove the question "What year do you wish to terminate participation for?" from the Terminate Case page.
Eligibility and Enrollment	Eligibility Determination	41502	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the language that appears in the Cancel Coverage pop-up modal on the Terminate Case page.
Eligibility and Enrollment	Eligibility Determination	41503	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall discontinue eligibility for all individuals on a case for the current benefit year the first day of the following month when a case is closed as a duplicate or CancelDER is received from SAWS.
Eligibility and Enrollment	Eligibility Determination	41504	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall discontinue eligibility for the future benefit year effective 1/1 if the case has been renewed, and is closed as a duplicate or CancelDER is received from SAWS.
Eligibility and Enrollment	Eligibility Determination	41505	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send Account Transfers for current and future benefit years when the case has been renewed and the case is closed as a duplicate or CancelDER is received from SAWS.
Eligibility and Enrollment	Eligibility Determination	41506	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall record "Duplicate Case Closure" in the Case Transaction History page for cases closed as duplicate or CancelDER is received from SAWS.
Eligibility and Enrollment	Eligibility Determination	41748	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to add an unborn child in the third trimester (trigger month 6 for month 7) of pregnancy to the existing definition of a dependent child for women who have no other children.
Eligibility and Enrollment	Eligibility Determination	41749	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to determine a pregnant mother in her third trimester (trigger month 6 for month 7) of pregnancy eligibility under the ACA Parent / Caretaker Relative group (Section 1931 (b) of the ACT.
Eligibility and Enrollment	Eligibility Determination	41750	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall no longer use deprivation as an eligibility criteria for the ACA Parent/Caretaker Relatives coverage group when the individual has income at or below the income limit established in the state plan.
Eligibility and Enrollment	Eligibility Determination	41828	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall no longer use deprivation for an individual who assumes primary responsibility for a child under the age of 18 yrs or in case of a full-time student under age 19.
Eligibility and Enrollment	Eligibility Determination	41829	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall no longer use deprivation for individuals who are the spouse or domestic partner of the parent or caretaker relative even after the marriage or domestic partnership has been terminated (death or divorce). As long as they maintain primary responsibility for the child's primary care.
Eligibility and Enrollment	Eligibility Determination	42008	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall display "begin dates" for income records on the Income pages.
Eligibility and Enrollment	Eligibility Determination	42077	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall display "begin dates" for deduction records on the Deduction page.
Eligibility and Enrollment	Eligibility Determination	42078	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall display "end dates" for income records on the Income pages.
Eligibility and Enrollment	Eligibility Determination	42079	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall display "end dates" for deduction records on the Deduction page.
Eligibility and Enrollment	Eligibility Determination	42080	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall display old (end) dated income records on the Income pages.
Eligibility and Enrollment	Eligibility Determination	42081	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall display old (end) dated deduction records on the Deduction page.
Eligibility and Enrollment	Eligibility Determination	42082	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall have the functionally to collect begin dates of income on the Income Detail pages for all income types.
Eligibility and Enrollment	Eligibility Determination	42114	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall have the functionality to collect end dates of income on the Income Detail pages for all income types.
Eligibility and Enrollment	Eligibility Determination	42115	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall have the functionally to collect begin dates of deductions on the Deduction Detail page for all deduction types.

Category	Sub Category	Req ID	Requirement
Eligibility and Enrollment	Eligibility Determination	42116	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall have the functionality to collect end dates of deductions on the Deduction Detail page for all deduction types.
Eligibility and Enrollment	Eligibility Determination	42121	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement a configuration for cost sharing to either use the existing Permanent (Baseline) CSR program or the Temporary (Enhanced) CSR program for a benefit year.
Eligibility and Enrollment	Eligibility Determination	42122	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall require that consumers meet the APTC eligibility requirements with the exception of FPL levels in order to be eligible for the Temporary (Enhanced) CSR program.
Eligibility and Enrollment	Eligibility Determination	42123	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement a configuration to set the upper FPL limit for Temporary (Enhanced) CSR Eligibility Determination for a benefit year.
Eligibility and Enrollment	Eligibility Determination	42124	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall build configurability to map the Temporary (Enhanced) cost sharing level to an income band within an array of preset income bands for a benefit year.
Eligibility and Enrollment	Eligibility Determination	42125	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall grant the appropriate Temporary (Enhanced) CS level to the household for a benefit year as per the configurations built for the income FPL% of the household.
Eligibility and Enrollment	Eligibility Determination	42126	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall build 3 new CS levels : CS7 to CS9 for the Temporary (Enhanced) CSR program.
Eligibility and Enrollment	Eligibility Determination	42127	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall continue to evaluate the Permanent (Baseline) CSRs along with the Temporary (Enhanced) CSRs when a benefit year is configured ON for Temporary (Enhanced) CSR determination.
Eligibility and Enrollment	Eligibility Determination	42128	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall evaluate only the Permanent (Baseline) CSRs when a benefit year is configured OFF for Temporary (Enhanced) CSR determination.
Eligibility and Enrollment	Eligibility Determination	42129	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send the Temporary (Enhanced) CS levels and the Permanent (Baseline) CS levels in Account Transfer, when a benefit year is configured ON for Temporary (Enhanced) CSR determination.
Eligibility and Enrollment	Eligibility Determination	42130	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall only send the Permanent (Baseline) CS levels in Account Transfer, when a benefit year is configured OFF for Temporary (Enhanced) CSR determination.
Eligibility and Enrollment	Eligibility Determination	42131	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the Shop and Compare tool to determine either the existing Permanent (Baseline) CSRs or the Temporary (Enhanced) CSRs for a benefit year based on the configuration setting for CSR program.
Eligibility and Enrollment	Eligibility Determination	42132	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send the Temporary (Enhanced) CSR Attribute(s) via IND73 when a benefit year is configured ON for Temporary (Enhanced) CSR program.
Eligibility and Enrollment	Eligibility Determination	42133	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall continue to send only the Permanent (Baseline) CSR Attribute(s) via IND73 when a benefit year is configured OFF for Temporary (Enhanced) CSR program.
Eligibility and Enrollment	Eligibility Determination	42134	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall fetch the Temporary (Enhanced) CSR and Permanent (Baseline) CSR attributes from the nightly sync batch when a benefit year is configured ON for Temporary (Enhanced) CSR program.
Eligibility and Enrollment	Eligibility Determination	42135	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall fetch only the Permanent (Baseline) CSR attributes from the nightly sync batch when a benefit year is configured OFF for Temporary (Enhanced) CSR.
Eligibility and Enrollment	Eligibility Determination	42136	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall fetch the Temporary (Enhanced) CSR and Permanent (Baseline) CSR attributes from getAPI when a benefit year is configured ON for Temporary (Enhanced) CSR.
Eligibility and Enrollment	Eligibility Determination	42137	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall fetch only the Permanent (Baseline) CSR attributes from getAPI when a benefit year is configured OFF for Temporary (Enhanced) CSR.
Eligibility and Enrollment	Eligibility Determination	42138	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display both the Temporary (Enhanced) CSR level and Permanent (Baseline) CSR level on the Budget Worksheet when the benefit year is configured ON for Temporary (Enhanced) CSR program.
Eligibility and Enrollment	Eligibility Determination	42139	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display only the Permanent (Baseline) CSR level on the Budget Worksheet when the benefit year is configured OFF for Temporary (Enhanced) CSR program.
Eligibility and Enrollment	Eligibility Determination	42158	The system will save verification data, received electronically through for SSA (verifying SSN, Name, Date of birth, Citizenship, Incarceration status and death) , VLP Step1, ESI MEC (OPM), non-ESI MEC and EDD, for a predefined period of time, to be used in future eligibility determinations.
Eligibility and Enrollment	Eligibility Determination	42159	The system will have the ability to maintain business rules that determine how long an electronic verification can be maintained for, to be used in future eligibility determinations.
Eligibility and Enrollment	Eligibility Determination	42160	The system will have the ability to bypass calls to federal and state electronic interfaces calls when there is a valid, current, saved verification in the system.
Eligibility and Enrollment	Eligibility Determination	42161	The system will have the ability to determine when a saved electronic verification is still valid, and therefore the call to the verification interface can be bypassed.
Eligibility and Enrollment	Eligibility Determination	42173	The system will have the ability to detect changes in attested data, that would require the verification interface to be called, even if a saved verification exists.
Eligibility and Enrollment	Eligibility Determination	42190	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow individuals to end date/update ongoing pregnancy under application submission workflow when existing members are removed from the household
Eligibility and Enrollment	Eligibility Determination	42370	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall calculate and display preliminary eligibility results for CA Premium Subsidy in the Shop and Compare tool.
Eligibility and Enrollment	Eligibility Determination	42371	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the fair share adjustment percentage amount for California Premium Subsidy for the Benefit year 2023.

Category	Sub Category	Req ID	Requirement
Eligibility and Enrollment	Eligibility Determination	42434	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall create a page to collect authorization of release of tax data for annual redeterminations (renewals) for APTC/CSR.
Eligibility and Enrollment	Eligibility Determination	42435	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall allow users to change the authorization of release of tax data for annual redeterminations (renewals) for APTC/CSR at any time.
Eligibility and Enrollment	Eligibility Determination	42437	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall remove the California Residency verification check from OPA (BRE) Eligibility Determination as a condition for MAGI Medi-Cal Eligibility.
Eligibility and Enrollment	Eligibility Determination	42469	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall deny pending MAGI-Based Medi-Cal eligibility or conditional eligibility to 8E, from the requested benefit month forward- until the eligibility status is other than pending, ineligible, or conditionally eligible for 8E, when the requested benefit month is equal to or after the application month.
Eligibility and Enrollment	Eligibility Determination	42490	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall Change the current FFY question on the Personal Data-Demographic Information Page to state: Was this person in foster care in any state on his or her 18th birthday or later? If yes, this person may qualify for free Medi-Cal up to age 26 and income does not matter. For immediate coverage for former foster youth contact your county human services agency.
Eligibility and Enrollment	Eligibility Determination	42492	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall check for MEDS Medi-Cal Minimum Essential Coverage when determining MAGI Medi-Cal eligibility at application, renewal or change of circumstances.
Eligibility and Enrollment	Eligibility Determination	42493	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall disregard the results of the MEDS MEC check for existing case members when a person is being added to the household at Report a Change or Renewal.
Eligibility and Enrollment	Eligibility Determination	42502	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall determine eligibility under aid codes M7, M8, M9 or M0 when pregnancy is attested in the initial application, all other criteria is met and consumer is not eligible for any other MAGI Medi-Cal category above the pregnancy group based on the hierarchy.
Eligibility and Enrollment	Eligibility Determination	42503	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall remove the pregnancy restriction from eligibility determination of MAGI Medi-Cal Newly Adult Group (NAG) with aid codes M1 and M2 when the pregnancy status is reported as a change in circumstances.
Eligibility and Enrollment	Eligibility Determination	42504	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall retain eligibility under existing aid codes M1 or M2 when pregnancy is reported as a change of circumstance if the beneficiary otherwise remains eligible for these coverage groups (i.e., continue to meeting income, family size, citizenship/immigration criteria for the coverage group).
Eligibility and Enrollment	Eligibility Determination	42505	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall retain eligibility under existing aid codes M3 or M4 when pregnancy is reported as a change of circumstance if the beneficiary otherwise remains eligible for these coverage groups (i.e., continue to meeting income, family size, citizenship/immigration criteria for the coverage group).
Eligibility and Enrollment	Eligibility Determination	42506	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall not use the pregnancy due date as criteria to end MAGI Medi-Cal pregnancy related services, California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use the 60-day postpartum to end the pregnancy related services. (Eliminate the hard cut off of expected delivery due date).
Eligibility and Enrollment	Eligibility Determination	42575	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall display an individual MAGI-Based Medi-Cal budget calculation including the income and deductions and family compositions for each member of the application to the administrative profiles in California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) portal.
Eligibility and Enrollment	Eligibility Determination	42576	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall display an APTC/CSR Family budget calculation including the income and deductions and family compositions for each member of the application to the administrative profiles in California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) portal.
Eligibility and Enrollment	Eligibility Determination	42577	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall have Eligibility Determination budget calculations for MAGI Medi-Cal and APTC/CSR viewable in California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Portal to admin users for up to 5 years and available upon request if over 60 months.
Eligibility and Enrollment	Eligibility Determination	42578	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall display a budget worksheet for all the members included in a case if Eligibility Determination has been processed.
Eligibility and Enrollment	Eligibility Determination	42580	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall create an Application History Page to displays application history.
Eligibility and Enrollment	Eligibility Determination	42582	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall allow admin users to access the most current prospective Monthly MAGI Medi-Cal and Annual APTC/CSR budget calculation
Eligibility and Enrollment	Eligibility Determination	42583	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall allow admin users to access the historical Monthly MAGI Medi-Cal and Annual APTC/CSR budget calculation
Eligibility and Enrollment	Eligibility Determination	42584	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall display the eligibility determination date and programs effective date for which the Monthly MAGI Medi-Cal and Annual APTC/CSR budget calculation was performed
Eligibility and Enrollment	Eligibility Determination	42585	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall include the following data/status in the budget worksheet at the individual/family level: - Soft Paused Due To: - Person Primary Tax Filer: - Person included in Primary Tax Filer's Tax household: - Person Plans to File Taxes: - Person Expected to be Required to File Taxes: - Person Tax Filing Status: - Person Tax Dependent Status: - Who claims this person as a tax dependent?

Category	Sub Category	Req ID	Requirement
Eligibility and Enrollment		42586	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall include the following information in the Individual Monthly MAGI Medi-Cal budget calculation: a. Employment Income (Monthly) b. Self-Employment Income (Monthly) c. Other Income (Monthly) d. Total Income (sum of a, b, c) e. Allowable deductions (Monthly) f. Total Income after Deductions (Subtract e from d) g. Projected Monthly Income h. Countable Income (Sum of f and g) i. Number of household members + Number of expected babies j. Federal Poverty Level for (i) (Monthly) k. FPL % for individual (Divide (h) by (j) and round) MAGI Medi-Cal Eligible? Meets 435.603(f)(2)(i-iii) to use a non tax filer household composition for MAGI Medi-Cal Meets 435.603(i) exception to use APTC income/deduction calculations for MAGI Medi-Cal determination Meets 435.119(c): Adults ineligible to the New Adult Group due to dependent child under age 19 without Minimum Essential Coverage
	Eligibility Determination		
Eligibility and Enrollment		42587	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall include the following information in the Family Annual APTC/CSR budget calculation: (a) Employment Income (Yearly) (b) Self-Employment Income (Yearly) (c) Other Income (Yearly) (d) Projected Annual Income (e) Total Household Income (sum of a, b, c, & d) (f) Allowable Deductions (Yearly) (g) Countable Income (subtract f from e) (h) Number of household members (i) Federal Poverty Level for (h) (Yearly) (j) FPL % for individual (Divide (g) by (i) and round) Eligible for Tax Credit and Cost Sharing Reductions? Eligible for Tax Credit only? Eligible for AI/AN Cost Sharing Reduction? Benchmark plan monthly premium: Maximum Annual Premium Amount: Maximum Monthly Premium Amount:
	Eligibility Determination		
Eligibility and Enrollment	Eligibility Determination	42588	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall allow the admin users to access the members in the household that are counted in the household composition for each member in the budget worksheet
Eligibility and Enrollment		42589	The Application History page shall display the: Request Type User ID Date/Time Requested Determination Start Date Eligibility Results (Link) Application PDF (Link).
	Eligibility Determination		
Eligibility and Enrollment	Eligibility Determination	42598	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall update the binding arbitration agreement to move the Check box and Tax Question above the Binding Arbitration Agreement.
Eligibility and Enrollment	Eligibility Determination	42630	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall update the MEC table to match the most current MEC Table.
Eligibility and Enrollment	Eligibility Determination	42778	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall update the latest version of Verify Lawful Presence Service (VLP)

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Eligibility and Enrollment	Eligibility Determination	42779	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall request the 5 year bar verification and store the results.
Eligibility and Enrollment	Eligibility Determination	42781	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) will update the portal pages to collect immigration documentation from California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) and SAWS Channels based on requirements.
Eligibility and Enrollment	Eligibility Determination	42782	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the 5 year bar and qualified non-citizen electronic verifications result to SAWS
Eligibility and Enrollment	Eligibility Determination	42788	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall check electronic sources for Income, Incarceration and Deceased verifications when the eligibility run reason is 'RE'.
Eligibility and Enrollment	Eligibility Determination	42789	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall leverage cached verifications (is applicable) for income, Incarceration and Deceased verifications when the eligibility run reason is 'RM'.
Eligibility and Enrollment	Eligibility Determination	42790	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall leverage cached verifications (if applicable) for income, Incarceration and Deceased verifications when running renewals via the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) auto-renewal batch.
Eligibility and Enrollment	Eligibility Determination	42795	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall identify cases that were not picked up for Renewal Mode and are now eligible to a Covered California Program and are in an 'enrolled' status.
Eligibility and Enrollment	Eligibility Determination	42796	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall identify cases that have not initiated a 2015 benefit year application during open enrollment.
Eligibility and Enrollment	Eligibility Determination	42797	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall auto-renew these cases for 2015 in a nightly batch run that begins no later than 12/01/14 through 12/15/14.
Eligibility and Enrollment	Eligibility Determination	42798	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall generate NOD01 and NOD60.
Eligibility and Enrollment	Eligibility Determination	42799	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall generate a report with case name, case id, etc. for each batch run.
Eligibility and Enrollment	Eligibility Determination	42829	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to automatically determine effective dates of temporary coverage timeframes based on program eligibility rules.
Eligibility and Enrollment	Eligibility Determination	42842	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow selection of 1/1/2015 coverage start date through the portal through midnight 12/21/2014.
Eligibility and Enrollment	Eligibility Determination	42850	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to display online the results of the eligibility determination or redetermination and the reasons and data associated with the result.
Eligibility and Enrollment	Eligibility Determination	42851	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to allow an applicant choose or decline a reduced or no advanced premium tax credit for which they are eligible.
Eligibility and Enrollment	Eligibility Determination	42852	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to determine the category of cost-sharing reductions based on Federal Poverty Level (FPL).
Eligibility and Enrollment	Eligibility Determination	42883	For a mixed household case where Medi-Cal is in renewal, SAWS shall send the transaction as RE for the entire household. California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall determine if APTC is in renewal. If APTC is not in renewal, the system shall process APTC as report-a-change.
Eligibility and Enrollment	Eligibility Determination	42884	For a mixed household where APTC is in renewal, the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall process Medi-Cal as Continuing (CO). The Medi-Cal will be finalized with a confirmation from SAWS
Eligibility and Enrollment	Eligibility Determination	42890	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall capture all identified income types regardless if they are counted or not counted for program eligibility determination. (add list income types when available)
Eligibility and Enrollment	Eligibility Determination	42891	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall use non-taxable interest income, non-taxable social security benefits and non-taxable foreign earned income in the calculation for MAGI-Based M/C program eligibility.
Eligibility and Enrollment	Eligibility Determination	42892	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall restrict the lump sum frequency only to the identified income types. (add list income types when available)
Eligibility and Enrollment	Eligibility Determination	42893	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall restrict the lump sum frequency only to the identified deduction types. (add list income types when available)
Eligibility and Enrollment	Eligibility Determination	42894	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall not use projected yearly income data at the person level in the MAGI-Based M/C calculation when projected yearly income data is collected.
Eligibility and Enrollment	Eligibility Determination	42895	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall use allowable deduction types in the calculation for MAGI-Based M/C program eligibility. (Add income deduction types when available)
Eligibility and Enrollment	Eligibility Determination	42904	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to screen individuals for non-MAGI eligibility criteria (e.g. blind or disabled, etc.) and send a referral, including application data and document images to the appropriate SAWS.
Eligibility and Enrollment	Eligibility Determination	42905	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to send a referral, including application data and document images, to the appropriate SAWS for potential eligibility for screened non-MAGI Medi-Cal.
Eligibility and Enrollment	Eligibility Determination	42906	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to screen individuals for non-MAGI eligibility criteria such as aged, blind, disabled, receiving Medicare benefits, institutionalized, long- term care or former foster care so data can be sent to appropriate SAWS for full eligibility determination.

Category	Sub Category	Req ID	Requirement
Eligibility and Enrollment	Eligibility Determination	42919	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall update income levels of the following aid codes to the following: M7: 0% FPL up to and including 138% FPL M8: 0% FPL up to and including 138% FPL M9: above 138% FPL up to and including 213% FPL M0: above 138% FPL up to and including 213% FPL
Eligibility and Enrollment	Eligibility Determination	42920	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall use the updated income levels for Pregnancy Aid Codes M7, M8, M9, and M0 for intake and continuing applications effective July 1st, 2015.
Eligibility and Enrollment	Eligibility Determination	42921	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall generate a report at the time of implementation of this change, ordered by county, for the targeted mailing population of the cases that have a household member with the M9 Aid Code between 60% and 138% of FPL that includes the following information: - California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Case ID - SAWS Case ID (When available) - First Name and Last Name of the affected Case Member - Primary Contact Address - Phone Number and Email Address (when available) - CIN
Eligibility and Enrollment	Eligibility Determination	42922	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall use the Annual 2015 Subsidy FPLs as of the month of the effective date per Covered California Guidance.
Eligibility and Enrollment	Eligibility Determination	42923	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall use the Annual 2015 Subsidy FPLs for California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) access channel applications and reported changes beginning with Renewals in October 2015.
Eligibility and Enrollment	Eligibility Determination	42924	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall use the Annual 2015 Subsidy FPLs for SAWS access channel applications and reported changes beginning with Renewals in October 2015.
Eligibility and Enrollment	Eligibility Determination	42925	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall use the 2015 Monthly MAGI Medi-Cal FPL table for Anonymous Screening as of the month of the effective date per DHCS and Covered California Guidance.
Eligibility and Enrollment	Eligibility Determination	42926	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall use the 2015 Monthly MAGI Medi-Cal FPL table for Quick Sort as of the month of the effective date per DHCS and Covered California Guidance.
Eligibility and Enrollment	Eligibility Determination	42927	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall update the Monthly MAGI Medi-Cal FPL Table in OPA with the Actual 2015 FPLs.
Eligibility and Enrollment	Eligibility Determination	42928	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall use the Monthly 2015 MAGI Medi-Cal FPLs as of the month of the effective date per DHCS Guidance.
Eligibility and Enrollment	Eligibility Determination	42929	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall use the Monthly 2015 MAGI Medi-Cal FPLs for California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) access channel applications and reported changes on or after January 1, 2015.
Eligibility and Enrollment	Eligibility Determination	42930	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall use the Monthly 2015 MAGI Medi-Cal FPLs for SAWS access channel applications and reported changes on or after January 1, 2015.
Eligibility and Enrollment	Eligibility Determination	42931	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall use the 2015 Monthly MAGI Medi-Cal FPL table for SAWS access channel Retroactive changes with an assessment date requested by SAWS on or after January 1, 2015.
Eligibility and Enrollment	Eligibility Determination	42932	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall update the Annual 2015 Subsidy FPL Table in OPA with the Actual 2015 FPLs.
Eligibility and Enrollment	Eligibility Determination	42933	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to calculate advance premium tax credit and cost sharing reduction.
Eligibility and Enrollment	Eligibility Determination	42957	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to notify the applicant that they may be eligible for other State programs and direct them to the appropriate links (Cal Works, CalFresh, etc.)
Eligibility and Enrollment	Eligibility Determination	42974	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to send basic application information, upon consumer request and or consent, to the appropriate SAWS in order to process for other non-health services.
Eligibility and Enrollment	Eligibility Determination	42986	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall perform a database batch update to remove the negative action indicators for the 660,000 cases that were identified through California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) analysis that currently exist in the production environment. Batch sweep/update to be run prior to implementing CR 28702.
Eligibility and Enrollment	Eligibility Determination	42995	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall program the 5% MAGI income disregard for determining income eligibility under the ACA Parent/Caretaker Relative coverage group for certain non-pregnant adults who are not eligible for enrollment in the ACA New Adult coverage group.
Eligibility and Enrollment	Eligibility Determination	42996	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall apply the 5% MAGI income disregard to the non-pregnant Parent/Caretaker Relative group when: a) a child under 19 linking the individual is not enrolled in minimum essential coverage (MEC), or b) the non-pregnant Parent/Caretaker Relative is enrolled for coverage under Medicare Parts A or B, or c) the non-pregnant Parent/Caretaker Relative is 65 years old or older.
Eligibility and Enrollment	Eligibility Determination	42998	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall change the "Add Employment Income," "Add Other Income," and "Add Deductions" pages so that at intake and when income changes are reported in the portal and the consumer selects a frequency of Paid Daily or Hourly, the "days per week" or "hours per week" fields will be required.
Eligibility and Enrollment	Eligibility Determination	42999	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Business Rules Engine shall default existing null values for hours per week and days per week to a value of "1" for those sub-frequencies.

Category	Sub Category	Req ID	Requirement
Eligibility and Enrollment	Eligibility Determination	43000	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Business Rules Engine shall default e-HIT null values for hours per week and days per week to a value of "1" for those sub-frequencies.
Eligibility and Enrollment	Eligibility Determination	43001	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall change the "Add Employment Income," "Add Other Income," and "Add Deductions" panels so that on the Flexible Application page when the user selects a frequency of Paid Daily or Hourly, the "days per week" or "hours per week" fields will be required.
Eligibility and Enrollment	Eligibility Determination	43002	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall program the eligibility rules for ACA-related mandatory categorically needy and optional Former Foster Youth coverage groups and assign the 4M aid code to them.
Eligibility and Enrollment	Eligibility Determination	43003	"Per Federal Regulations 42 CFR 435.150 and California Welfare and Institutions Code 14005.28, the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall use the following criteria to determine conditional eligibility for mandatory categorically needy and optional FFY programs using aid code 4M: 1) Were enrolled in foster care under the responsibility of the State (any state) or tribe and enrolled in Medicaid under the State's Medicaid State Plan or 1115 demonstration waiver upon obtaining age 18, or at such higher age at which the State's or Tribes foster care assistance ends under title IV-E of the Act, and 2) the applicant is under age 26, and 3) No income test is required."
Eligibility and Enrollment	Eligibility Determination	43004	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall determine conditional eligibility for self-attested Former Foster Youth (FFY) individuals, as per Federal Regulations 42 CFR 435.150 and 435.226 and state law, California Welfare and Institutions Code 14005.28 and 14005.285.
Eligibility and Enrollment	Eligibility Determination	43005	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall assign the 4M Aid Code to individuals when a determination is made via the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) access channel.
Eligibility and Enrollment	Eligibility Determination	43006	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall assign the 4M Aid Code to applicable individuals when a full MAGI determination is sent via eHIT.
Eligibility and Enrollment	Eligibility Determination	43035	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to notify an enrollee in real-time of changes to APTC or CSR calculations based on income updates provided via the Web Portal.
Eligibility and Enrollment	Eligibility Determination	43040	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall remove Former Foster Youth from the 4M Aid code at Age 26.
Eligibility and Enrollment	Eligibility Determination	43041	"The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall add the following pop-up explaining to an FFY over age 26 their options to be assessed for other health options: a) Header : 26-year-old Former Foster Youth – Need More Information b) Pop-Up Information: ""Right now you are in the Medi-Cal program for Former Foster Youth. This program gives free Medi-Cal to people who were in foster care at age 18 or older. You qualified for this Medi-Cal program until your 26th birthday. On [X date] you turned 26. We looked at the information we have about you to decide if you still qualify for Medi-Cal, but we now need more information from you, such as your income. This information will help to decide if you still qualify for Medi-Cal or another affordable health program. You can give us this information online through Covered California or you can contact your county Medi-Cal worker. Your Medi-Cal will continue while your information is checked to see if you are still eligible for another Medi-Cal program or another affordable health program."" "
Eligibility and Enrollment	Eligibility Determination	43042	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system will accept and process all MAGI determinations from the SAWS Access Channel for FFY over age 26 and return a full MAGI determination including a new aid code.
Eligibility and Enrollment	Eligibility Determination	43043	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall add logic to allow FFY to be a part of a household while maintaining their 4M status.
Eligibility and Enrollment	Eligibility Determination	43044	"The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall add the following information explaining to FFY that their income is required if they are a part of a household when they attest to being a former foster youth: a) Header : Applying with Other Household Members b) Pop-Up Information: ""If a former foster youth applies for health insurance with other household members, such as a their child or spouse, then their income information must be given to decide whether those other household members will get help paying for health insurance. The former foster youth will qualify for Medi-Cal regardless of their income information.""
Eligibility and Enrollment	Eligibility Determination	43045	"The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide information for Former Foster Youth on the Eligibility Results page: ""Good news! Your Medi-Cal application dated [x] has been conditionally approved and will be reviewed by the county. Your Medi-Cal coverage begins on [Y] and you can begin using health care services through Medi-Cal on this date. Your information will be sent to your county social services office, and the county will check that you were in foster care at age 18 or older. If the county has any difficulty checking your information, the county will contact you and ask for more information. The Former Foster Youth Program gives free Medi-Cal to individuals who were in foster care at age 18 or older and their income does not matter.""
Eligibility and Enrollment	Eligibility Determination	43046	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall exclude the Former Foster Youth individual from the initial and ongoing NOD02 while they receive conditional or full eligibility under the 4M Aid Code.
Eligibility and Enrollment	Eligibility Determination	43047	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall exclude the Former Foster Youth individual from the initial and ongoing NOD02 while they receive a negative action under the 4M Aid Code.

Category	Sub Category	Req ID	Requirement
Eligibility and Enrollment	Eligibility Determination	43048	"The California Healthcare Eligiblity, Enrollment and Retention System (CalHEERS) system add language to the NOD01 for Former Foster Youth only. The language shall read: Good news! Based on the information you gave us, you have been conditionally approved for the Medi-Cal program for former foster youth. You can begin using your Medi-Cal while your information is sent to your county social services office. The county social services office will contact you and ask for more information if needed. You will get a separate notice from your county social service office telling you about your ongoing Medi-Cal eligibility. If you have already received a notice from your county about your Medi-Cal eligibility, please disregard this message. If you have questions, please contact your county social services office. Covered California Eligibility You do not qualify for Covered California with premium assistance (a federal tax credit) or cost-sharing reductions (lower co-payments and deductibles) because you qualify for the Medi-Cal program for former foster youth. "
Eligibility and Enrollment	Eligibility Determination	43049	The California Healthcare Eligiblity, Enrollment and Retention System (CalHEERS) system shall discontinue a Former Foster Youth from a 4M when a Negative Action is received.
Eligibility and Enrollment	Eligibility Determination	43050	"The California Healthcare Eligiblity, Enrollment and Retention System (CalHEERS) system will revise the foster care referral question to say: ""Was this person in foster care in any state on his or her 18th birthday or later? If yes ,this person may qualify for free Medi-Cal up to age 26 and his or her income does not matter.""
Eligibility and Enrollment	Eligibility Determination	43051	"The California Healthcare Eligiblity, Enrollment and Retention System (CalHEERS) flexible application page will revise the foster care referral question to say: ""Was this person in foster care in any state on his or her 18th birthday or later? If yes ,this person may qualify for free Medi-Cal up to age 26 and his or her income does not matter.""
Eligibility and Enrollment	Eligibility Determination	43052	"If the answer is yes to the foster care referral question, display the following question: ""Where was this person in foster care on his or her 18th birthday or later?"" (Drop down listing all states, ""I don't know"", ""US Territories"", ""Washington, D.C."", and ""An American Indian or Alaska Native Tribe"")"
Eligibility and Enrollment	Eligibility Determination	43053	"The California Healthcare Eligiblity, Enrollment and Retention System (CalHEERS) flexible application page will include the question ""Where was this person in foster care on his or her 18th birthday or later?"" (Drop down listing all states, ""I don't know"", ""US Territories"", ""Washington, D.C."", and ""An American Indian or Alaska Native Tribe"")"
Eligibility and Enrollment	Eligibility Determination	43054	"The California Healthcare Eligiblity, Enrollment and Retention System (CalHEERS) system will revise the information for Former Foster Youth on the Get Help Page to say: ""If you were in foster care in any state on your 18th birthday or later, you may qualify for free Medi-Cal until age 26. Your income does not matter, and you do not need to give income or tax information when you sign up for Medi-Cal. The easiest way for you to apply is through your county social services office. You can also sign up online through Covered California, but you will be asked questions about your income and taxes. You do not need to give this information if you sign up through your county social services office. You can apply through the county using a simple one-page form for former foster youth, called the MC 250A, or by giving your information over the phone. You can get the MC 250A form here: http://www.dhcs.ca.gov/formsandpubs/forms/Forms/MCED/MC_Forms/MC250A_Eng.pdf . Most counties have a specific phone number, office, or staff to help former foster youth sign up for Medi-Cal. To find out the former foster youth contact for your county, go to: http://www.dhcs.ca.gov/services/medi-cal/Pages/CountyOffices.aspx . For more information about the Medi-Cal program for former foster youth, go to http://www.dhcs.ca.gov/services/medi-cal/eligibility/Pages/FFY.aspx OR www.covereditil26.org .""
Eligibility and Enrollment	Eligibility Determination	43055	"The California Healthcare Eligiblity, Enrollment and Retention System (CalHEERS) system shall add a pop-up for Former Foster Youth on the Demographics Page when there is only one applicant and they attest to being Former Foster Youth. a) Header: Medi-Cal for Former Foster Youth b) Pop-Up Information ""If you were in foster care in any state on your 18th birthday or later, you may qualify for free Medi-Cal until age 26 and your income does not matter. You can 1) continue with this application or 2) sign up for Medi-Cal by contacting your county social services office. The easiest way for you to apply is through your county social services office. If you continue with this on-line application you will be asked questions about your income or taxes. If you apply through the county, you will not have to give this information. You can apply over the phone by telling the county worker you are a former foster youth or by using a simple one-page form (MC 250A). You can get the MC 250A form online at: http://www.dhcs.ca.gov/formsandpubs/forms/Forms/MCED/MC_Forms/MC250A_Eng.pdf Most counties have a specific phone number, office, or staff to help former foster youth sign up for Medi-Cal. To find out who the former foster youth contact is in your county, go to: http://www.childrennow.org/uploads/documents/Covereditil26_CountyContactList.pdf For more information about the Medi-Cal program for former foster youth, go to http://www.dhcs.ca.gov/services/medi-cal/eligibility/Pages/FFY.aspx OR www.covereditil26.org "" "
Eligibility and Enrollment	Eligibility Determination	43060	If an active monthly income record for the benefit year and Projected Annual Income are both available, The California Healthcare Eligiblity, Enrollment and Retention System (CalHEERS) System shall divide PAI by 12, compare PAI divided by 12 with user-entered monthly income, and then use the lower of the two (PAI divided by 12 or user-entered monthly income). If user-entered income is not provided for the benefit year, PAI divided by 12 shall be used.
Eligibility and Enrollment	Eligibility Determination	43061	When determining the MAGI Medi-Cal individual household monthly income, the California Healthcare Eligiblity, Enrollment and Retention System (CalHEERS) System, when both the user-entered Projected Annual Income divided by 12 and user-entered monthly income are of equal values, shall use the Projected Annual Income divided by 12 value.

Category	Sub Category	Req ID	Requirement
Eligibility and Enrollment	Eligibility Determination	43062	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall alert consumers changing an income record or Projected Annual Income that they should review their Income Summary Page.
Eligibility and Enrollment	Eligibility Determination	43064	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall ensure that the question, "Is this person a U.S. Citizen or National?" will not appear in the application for household members who answered 'No' to the following question. 'Does this person want health insurance? Even if you have insurance now, you may find better coverage or lower costs.'
Eligibility and Enrollment	Eligibility Determination	43065	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall ensure that the question, "Is this person a U.S. Citizen or National?" will not appear in the single page flexible application for household members who answered 'No' to the following question. 'Does this person want health insurance? Even if you have insurance now, you may find better coverage or lower costs.'
Eligibility and Enrollment	Eligibility Determination	43066	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall ensure that the question, "Check this box if this person has satisfactory immigration status" will not appear in the application for household members who answered 'No' to the following question. 'Does this person want health insurance? Even if you have insurance now, you may find better coverage or lower costs.'
Eligibility and Enrollment	Eligibility Determination	43067	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall ensure that the question, "Check this box if this person has satisfactory immigration status" will not appear in the single page flexible application for household members who answered 'No' to the following question. 'Does this person want health insurance? Even if you have insurance now, you may find better coverage or lower costs.'
Eligibility and Enrollment	Eligibility Determination	43068	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall ensure that all immigration status question follow ups will not appear in the application for household members who answered 'No' to the following question. 'Does this person want health insurance? Even if you have insurance now, you may find better coverage or lower costs.'

Eligibility and Enrollment	Eligibility Determination	43078	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall ensure that the question, "Does this person need help with long-term care or home and community-based services?" will not appear in the application for household members who answered 'No' to the following question.
Eligibility and Enrollment	Eligibility Determination	43079	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall ensure that the question, "Does this person need help with long-term care or home and community-based services?" will not appear in the single page flexible application for household members who answered 'No' to the following question. 'Does this person want health insurance? Even if you have insurance now, you may find better coverage or lower costs.'
Eligibility and Enrollment	Eligibility Determination	43080	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall ensure that the following question, "Does this person receive Medicare benefits?" will not appear in the application for household members who answered 'No' to the following question.
Eligibility and Enrollment	Eligibility Determination	43081	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall ensure that the following question, "Does this person receive Medicare benefits?" will not appear in the single page flexible application for household members who answered 'No' to the following question. 'Does this person want health insurance? Even if you have insurance now, you may find better coverage or lower costs.'
Eligibility and Enrollment	Eligibility Determination	43082	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall display text on the eligibility results page to explain to household members who answered 'No' to the following question that they did not apply for coverage. 'Does this person want health insurance? Even if you have insurance now, you may find better coverage or lower costs.'
Eligibility and Enrollment	Eligibility Determination	43083	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall include a "click here" link in the display text on the eligibility results page for household members who answered 'No' to the following question. 'Does this person want health insurance? Even if you have insurance now, you may find better coverage or lower costs.' On click of "click here" link, a pop-up window will be generated with additional instructions and "Continue" button to return to the home page.
Eligibility and Enrollment	Eligibility Determination	43084	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall generate non-applying snippets for the NOD01 when at least one member of the household answered 'No' to the following question. 'Does this person want health insurance? Even if you have insurance now, you may find better coverage or lower costs.'
Eligibility and Enrollment	Eligibility Determination	43085	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall treat non-applying members, who are part of the tax filing household, whose US Citizenship/National/Satisfactory Immigration status or Undocumented status is unknown to California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) as citizens when calculating APTC eligibility for the applying members of the tax filing household.
Eligibility and Enrollment	Eligibility Determination	43086	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall not call the Verify Lawful Presence services for non-applying members.
Eligibility and Enrollment	Eligibility Determination	43087	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall not display existing user entered data in the summary pages for non-applicants for the following question set: - Is this person a U.S. Citizen or National? - Check this box if this person has satisfactory immigration status - all immigration status question follow up questions - Has this person lived in the U.S. since 1996? - Is this person an honorably discharged veteran or active duty member of the military? - Does this person have a physical, mental, emotional, or developmental disability? - Does this person need help with long-term care or home and community-based services? - Does this person receive Medicare benefits?
Eligibility and Enrollment	Eligibility Determination	43088	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall direct a 4M Aid Code recipient on an application alone to the Get Help With Costs page when they click the Report a Change or Resume Change Report buttons and are 26 and over in the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Access Channel. The user will be required to follow the intake-mode full MAGI page flow after clicking the button and receive a full MAGI determination including a new aid code.
Eligibility and Enrollment	Eligibility Determination	43089	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall not apply business validations or persist data to the below element when provided by SAWS through Eligibility Determination Request (EDR) for a consumer who is not applying for health coverage: • ReceiveMediCareBenefitsInd
Eligibility and Enrollment	Eligibility Determination	43090	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall not store the “DocumentInfo” node when provided by SAWS through Eligibility Determination Request (EDR) for a consumer who is not applying for health coverage.
Eligibility and Enrollment	Eligibility Determination	43091	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) eHIT Interface shall not persist the “DocumentInfo” node in the Determination Eligibility Response (DER) for a consumer who is not applying for health coverage.
Eligibility and Enrollment	Eligibility Determination	43092	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall not store the “NONMagiReferrals” node when provided by SAWS through Eligibility Determination Request (EDR) for consumer who is not applying for health coverage.
Eligibility and Enrollment	Eligibility Determination	43093	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) eHIT Interface shall not send the “NonMAGIReferrals” node in the Determination Eligibility Response (DER) for a consumer who is not applying for health coverage.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

OTSI CalHEERS RFP #73040873 Addendum 1
October 31, 2025

Category	Sub Category	Req ID	Requirement
Eligibility and Enrollment	Eligibility Determination	43104	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall collect the following information for notifying all current employers when a consumer indicates they are employed: o Employer Name o Employer Mailing Address Line 1, Address Line 2, City, State, Zip, County
Eligibility and Enrollment	Eligibility Determination	43105	"The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall collect the following additional information for all current employers for random sampling when a consumer indicates they are employed: o Employer Phone Number o Employer Contact Person"
Eligibility and Enrollment	Eligibility Determination	43106	"The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall collect the following additional information for all current employers for 1095 reporting when a consumer indicates they are employed: o Employer Identification Number (EIN) o if address is foreign, Employer Mailing Address Line 1, Employer Mailing Address Line 2, City Name, Country Code, Foreign Province Name, Foreign Postal Code"
Eligibility and Enrollment	Eligibility Determination	43108	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall use street level address validation if employer mailing address is within USA (same as CR 9494)
Eligibility and Enrollment	Eligibility Determination	43167	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add defined Babel pages to all outbound NOD01 notices.
Eligibility and Enrollment	Eligibility Determination	43168	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add a new Income Verification page to all NOD01 notices that indicate income verification inconsistencies for the consumer household.
Eligibility and Enrollment	Eligibility Determination	43169	"The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall annually update applicable percentages to calculate fair share (required contribution) that determines the maximum annual APTC. Updates shall be made based on annual IRS publication. For 2016 benefit year, updates shall be based on IRS guidance in the following link: http://www.irs.gov/irb/2014-50_IRB/ar11.html "
Eligibility and Enrollment	Eligibility Determination	43199	When eligibility is determined and the consumer is eligible to APTC, California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the maximum annual APTC amount and the prospective maximum monthly APTC amount
Eligibility and Enrollment	Eligibility Determination	43200	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide a field for admin users to input a plan selection date in order to derive the correct plan effective date when the system date is different from the application date
Eligibility and Enrollment	Eligibility Determination	43201	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use the assessment date to derive program eligibility for SEP reasons marriage/domestic partnership and loss of MEC, and use the plan selection date to derive coverage start date (1st of month following plan selection date) from the standard California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) application
Eligibility and Enrollment	Eligibility Determination	43202	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use the assessment date to derive program eligibility for SEP reasons marriage/domestic partnership and loss of MEC, and use the plan selection date to derive coverage start date (1st of month following plan selection date) from the flexible app
Eligibility and Enrollment	Eligibility Determination	43203	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall modify the Coverage Date Category label for "Life Event Date" on the Application Signature page to "Birth/Adoption/Appeals Mid-Month" on the standard California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) application
Eligibility and Enrollment	Eligibility Determination	43204	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall modify the Coverage Date Category label for "Life Event Date" on the Application Signature page to "Birth/Adoption/Appeals Mid-Month" on the flexible application
Eligibility and Enrollment	Eligibility Determination	43207	"When one or more household members are not lawfully present, the APTC program eligibility for the remaining household members should be evaluated using a FPL that 1) does not consider those not lawfully present individuals in the household size, and 2) reduces the annual household income by the following multiplier: 100% FPL for the family size excluding the unlawfully-present individual(s) ÷ 100% FPL for the family size including the unlawfully-present individual(s). "
Eligibility and Enrollment	Eligibility Determination	43208	"When one or more household members are not lawfully present and some members of the household meet the program requirements for APTC, the maximum premium percent of income should be calculated using a FPL that 1) does not consider those not lawfully present individuals in the household size, and 2) reduces the annual household income by the following multiplier: 100% FPL for the family size excluding the unlawfully-present individual(s) ÷ 100% FPL for the family size including the unlawfully-present individual(s). "
Eligibility and Enrollment	Eligibility Determination	43209	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall display the Annual APTC amount and the Monthly APTC amount on the Tax Credit & Cost Sharing Reduction Income Budget.
Eligibility and Enrollment	Eligibility Determination	43210	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall change the title of 'Household PTC Info.' pop up to 'Tax Filing Status' and replace the content of the pop up with 'To qualify for health insurance through Covered California, married applicants and their spouse must file taxes jointly.' in 'Personal Data – Tax Information' page.
Eligibility and Enrollment	Eligibility Determination	43234	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall display a validation message on the flexible app stating 'To qualify for health insurance through Covered California, married applicants and their spouse must file taxes jointly.' in 'Personal Data – Tax Information' page" when 'Married, Filing Separately' is selected
Eligibility and Enrollment	Eligibility Determination	43255	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall include eligibility determination rules for the Medi-Cal Access Program (MCAP) as an Insurance Affordability Program

Category	Sub Category	Req ID	Requirement
Eligibility and Enrollment	Eligibility Determination	43256	"The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall determine eligibility for pregnant women to the Medi-Cal Access Program (MCAP) based on the following eligibility criteria: *individual must be a California resident; and *individual must meet the income thresholds of greater than 213% FPL and up to and including 322% FPL; and *individual must be female and pregnant at application; and *individual is not currently receiving no-cost full scope Medi-Cal (MEDS MEC); and *individual is not currently covered by private Employer/Non-Employer Sponsored Insurance; and *individual is not currently enrolled in Medicare as of the application date; and *individual is verified as not incarcerated; and *individual is verified as not deceased"
Eligibility and Enrollment	Eligibility Determination	43258	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall determine MCAP effective eligibility date (begin date) for pregnant women as the date the applicant is determined Eligible or Pending Eligible for MCAP
Eligibility and Enrollment	Eligibility Determination	43259	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall re-determine the MCAP effective eligibility date (begin date) for pregnant women who are going from Pending to Eligible or Ineligible as the date the applicant is determined Eligible or Ineligible
Eligibility and Enrollment	Eligibility Determination	43260	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall determine MCAP end date for pregnant women as the last day of the month when the 60 days postpartum takes place based on the expected delivery due date or child's date of birth when available
Eligibility and Enrollment	Eligibility Determination	43267	"The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall determine eligibility for Insurance Affordability Programs using the following hierarchy for pregnant female consumers who have NOT been previously determined eligible or conditionally eligible for APTC/CSR: MAGI Medi-Cal MCAP APTC/CSR Unsub CCP"
Eligibility and Enrollment	Eligibility Determination	43274	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall retain APTC/CSR eligibility for pregnant female consumers who have been previously determined eligible or conditionally eligible for APTC/CSR when due to an eligibility re-determination the consumer falls within the MCAP eligibility criteria.
Eligibility and Enrollment	Eligibility Determination	43275	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall add aid code 0D for pregnant women who are granted MCAP eligibility with incomes above 213%FPL up to and including 322% FPL using the MAGI Medi-Cal FPL calculation.
Eligibility and Enrollment	Eligibility Determination	43276	"The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall determine Pending Eligible for MCAP mothers when the mother meets the MCAP program criteria AND one or more of the following verifications are outstanding: - income is not reasonably compatible; - incarceration status; - deceased indicator; - California state residency; - ESI/Non ESI MEC"
Eligibility and Enrollment	Eligibility Determination	43277	"The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall determine Ineligible status for MCAP mothers when the mother fails to provide one or more of the following outstanding verifications and MAXIMUS has manually failed them through the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) portal: - income is not reasonably compatible; - incarceration status; - deceased indicator; - California state residency (if verification comes from SAWS on initial application); - ESI/Non ESI MEC"
Eligibility and Enrollment	Eligibility Determination	43279	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall discontinue MCAP consumers when due to a change consumer becomes eligible to a more beneficial program
Eligibility and Enrollment	Eligibility Determination	43281	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall send a weekly data extract to San Francisco County of children under the following criteria: 1) Resides in San Francisco County, 2) Ages 0 through age 19, 3) Household income is above 266% and below 322% of Federal Poverty Level
Eligibility and Enrollment	Eligibility Determination	43282	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall send a weekly data extract to San Mateo County of children under the following criteria: 1) Resides in San Mateo County, 2) Ages 0 through age 19, 3) Household income is above 266% and below 317% of Federal Poverty Level
Eligibility and Enrollment	Eligibility Determination	43283	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall send a weekly data extract to Santa Clara County of children under the following criteria: 1) Resides in Santa Clara County, 2) Ages 0 through age 19, 3) Household income is above 266% and below 317% of Federal Poverty Level
Eligibility and Enrollment	Eligibility Determination	43284	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall place the output file in the established two-way secure File Transfer Protocol server between California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) and DHCS. The data extract will be transferred from DHCS to the counties securely through the server and the counties will have the ability to send information pertaining to enrollment results back to DHCS.
Eligibility and Enrollment	Eligibility Determination	43285	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall add the following fields to the CCHIP Daily / Incremental report 1.) Social Security Number 2.) Health Plan 3.) Spoken Language
Eligibility and Enrollment	Eligibility Determination	43291	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall update the current minimum essential coverage (MEC) table used for APTC/CSRs for aid code M9 (limited-scope Medi-Cal for pregnant women) from "False" to "True".

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

OTSI CalHEERS RFP #73040873 Addendum 1
October 31, 2025

Category	Sub Category	Req ID	Requirement
Eligibility and Enrollment	Eligibility Determination	43293	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall update the MEC table to match the most current MEC Table as provided by DHCS.
Eligibility and Enrollment	Eligibility Determination	43294	"The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall add the following sentence to the signature/declaration page in both English and Spanish applications: I attest that if I or anyone in my tax household received premium tax credits for Covered California health coverage in <previous year>, I or the person who received premium tax credits, have filed or will file a <previous year> federal tax return. "
Eligibility and Enrollment	Eligibility Determination	43295	"The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall update the following dates in the reference table: 1. 2014 End Special Enrollment: 11-Oct-15 2. 2014 End Preview Plans: 11-Oct-15 3. 2015 End Special Enrollment: 31-Oct-16 4. 2015 End Preview Plans: 31-Oct-16 5. 2016 Start Open Enrollment: 1-Nov-15 6. 2016 End Open Enrollment: 31-Jan-16 7. 2016 Start Open Special Enrollment: 16-Dec-15 8. 2016 End Open Special Enrollment: 31-Jan-16 9. 2016 Start Special Enrollment: 1-Feb-16 10. 2016 End Special Enrollment: 31-Oct-17 11. 2016 Start Preview Plans: 12-Oct-15 12. 2016 End Preview Plans: 31-Oct-17 13. 2016 Start Renewal: 12-Oct-15 14. 2016 End Renewal: 15-Dec-15"
Eligibility and Enrollment	Eligibility Determination	43305	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall collect electronic and administrative verifications on application intake/initial case linkage through SAWS Interface Access Channel.
Eligibility and Enrollment	Eligibility Determination	43306	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall apply admin verifications to eligibility determinations when both electronic verification and admin verification are present.
Eligibility and Enrollment	Eligibility Determination	43311	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall update the Business Rules Engine to prorate income using begin and end dates for months in which a record is not active for the entire month.
Eligibility and Enrollment	Eligibility Determination	43322	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall treat CCHIP as another program type (another insurance affordability program).
Eligibility and Enrollment	Eligibility Determination	43323	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall determine eligibility for the CCHIP program at application intake, report a change, and at renewals.
Eligibility and Enrollment	Eligibility Determination	43324	"The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall determine Conditionally Eligible for CCHIP children when the child meets the CCHIP program criteria AND one or more of the following verifications are outstanding: - citizenship or lawful presence; - income is not reasonably compatible; - incarceration status; - deceased indicator; - MEC."
Eligibility and Enrollment	Eligibility Determination	43325	"The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall determine Ineligible for CCHIP children when the admin has failed any of the following verifications: - Citizenship or lawful presence; - State residency; - Deceased; - Incarceration; - Income; - MEC."
Eligibility and Enrollment	Eligibility Determination	43328	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall have the ability to identify CCHIP children who are aging out as per CCHIP age criteria in a monthly basis 60 days before the end of the month in which they turn 19, the month of Discontinuance.
Eligibility and Enrollment	Eligibility Determination	43329	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall have the ability to redetermine eligibility for CCHIP consumers who are aging out of the program in 30 days.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Eligibility and Enrollment	Eligibility Determination	43333	"The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall apply the following discontinuance criteria for CCHIP consumers: - CCHIP to MAGI Medi-Cal transition * Determine eligibility for MAGI Medi-Cal the first day of the following month (since this is a more beneficial change the 10 days-notice period is not followed) - CCHIP to APTC transition * Protection for 12 months of coverage based on the renewal date * Due to loss of MEC, APTC starts following the 10 days-notice period for CCHIP "
Eligibility and Enrollment	Eligibility Determination	43334	"The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall evaluate CCHIP eligibility following the hierarchy listed below: 1. MAGI Medi-Cal 2. MCAP 3. CCHIP 4. APTC/CSR 5. Unsub CCP"
Eligibility and Enrollment	Eligibility Determination	43336	"The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall follow the 10 days-notice period rule when one or more of the following verifications are manually failed: - citizenship or lawful presence; - income; - incarceration status; - deceased; - MEC."
Eligibility and Enrollment	Eligibility Determination	43340	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall protect CCHIP consumers from getting discontinued from CCHIP when there is an increase on income that places consumer out of CCHIP threshold until the renewal date.
Eligibility and Enrollment	Eligibility Determination	43341	"The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall not apply CCHIP protection under the following circumstances: - Child is aging out (until the end of the month on which child turns 19) - Child moves out of the CCHIP county - At renewals - Child is confirmed deceased - At discontinuance request - Non-Payment of premium"
Eligibility and Enrollment	Eligibility Determination	43344	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall determine CCHIP effective coverage date (begin date) as the date the applicant is determined Eligible or Conditionally Eligible for CCHIP.
Eligibility and Enrollment	Eligibility Determination	43345	"The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall determine CCHIP for children who reside in one of the following counties: - San Mateo County, or - San Francisco County, or - Santa Clara County"
Eligibility and Enrollment	Eligibility Determination	43346	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add, store and update Projected Annual Income verification in the Manual Verifications page.
Eligibility and Enrollment	Eligibility Determination	43347	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the label on the Manual Verifications page for existing MAGI Medi-Cal income verification to "MAGI Medi-Cal Current Monthly Income" verification.
Eligibility and Enrollment	Eligibility Determination	43348	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS)-SAWS eHIT interface shall add a verification element for MAGI Medi-Cal Projected Annual Income.
Eligibility and Enrollment	Eligibility Determination	43349	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall always determine which income value (PAI or CMI), the lower of the two, has been used to calculate MAGI Medi-Cal eligibility and if either value has not been previously cached, the uncached value used shall be re-verified via the Federal Data Services Hub (FDSH).
Eligibility and Enrollment	Eligibility Determination	43350	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use Projected Annual Income in it's Medi-Cal income evaluation only when electronically verified as reasonable compatible or admin verified.
Eligibility and Enrollment	Eligibility Determination	43351	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall continue to use Projected Annual Income prospectively (even after the budget period expires) until a reported change of income or at renewal when income is determined to NOT be reasonably compatable and admin verification of income is requested.
Eligibility and Enrollment	Eligibility Determination	43353	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall include an administrative verification for Former Foster Youth.
Eligibility and Enrollment	Eligibility Determination	43354	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall make an individual eligible for coverage under the 4M Aid Code when they recieve a passing verification for Former Foster Youth status.
Eligibility and Enrollment	Eligibility Determination	43355	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall make an individual ineligible for coverage under the 4M Aid Code when they recieve a failed verification for Former Foster Youth status.
Eligibility and Enrollment	Eligibility Determination	43356	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall add the ability for Former Foster Youth who are Conditionally Eligible to upload verification documents to California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) for verification of the former foster youth status.

Category	Sub Category	Req ID	Requirement
Eligibility and Enrollment	Eligibility Determination	43357	"The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS eHIT interface shall include the following elements in the eHIT Schema: - Document Category of ""Proof of Former Foster youth Status"" - Document Types within Document Category of ""Proof of Former Foster youth status"" of: a) California Documents b) Out of State Documents c) American Indian or Alaska Native Tribal Documents"
Eligibility and Enrollment	Eligibility Determination	43358	"The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall not display the Tax, Health, or Income pages for members who meet the below criteria. If data already exist in California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) and the user reports a change that causes the member to meet the criteria below, the Tax, Health, and Income pages will be hidden and the associated data will be removed - single applicant - attest to being Former Foster Youth - age between 18 and 26."
Eligibility and Enrollment	Eligibility Determination	43359	"The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall not apply business validations or persist data to the below nodes when provided by SAWS through Eligibility Determination Request (EDR) for a consumer who is applying alone and attests to being a Former Foster Youth individual: - TaxFilingInfo; - OtherHealthCare; and - IncomeInfo."
Eligibility and Enrollment	Eligibility Determination	43360	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall display the name of the Foster Parent, when present, in the dropdown list for the question "Who is the Primary Caretaker of this child?".
Eligibility and Enrollment	Eligibility Determination	43361	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall not grant eligibility to the Parent/Caretaker Relative Aid Code category to a Foster Parent who is identified as the Primary Caretaker of a child.
Eligibility and Enrollment	Eligibility Determination	43362	"The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall modify the pop-up for Former Foster Youth on the Get Help with costs foster youth popup to the following: ?If you were in foster care in any state on your 18th birthday or later, you may qualify for free Medi-Cal until age 26. Your income does not matter, and you do not need to give income or tax information when you sign up for Medi-Cal for yourself. If you are applying for health insurance for a member of your family, such as your child, you will need to answer questions about your income and taxes to see if your child qualifies for Medi-Cal or another insurance affordability programs. You can apply (1) through Covered California using the on-line application or (2) through the county using a simple one-page form for former foster youth, called the MC 250A, or by giving your information over the phone. If you continue with the online application you may need to give more information about yourself than you need to give if you apply through the county using the MC 250A form. You can get the MC 250A form here: http://www.dhcs.ca.gov/formsandpubs/forms/Forms/MCED/MC_Forms/MC250A_Eng.pdf Most counties have a specific phone number, office, or staff to help former foster youth sign up for Medi-Cal. To find out the former foster youth contact for your county, go to: http://www.childrennow.org/uploads/documents/Coveredtil26_CountyContactList.pdf For more information about the Medi-Cal program for former foster youth, go to http://www.dhcs.ca.gov/services/medi-cal/eligibility/Pages/FFY.aspx OR www.coveredtil26.org "
Eligibility and Enrollment	Eligibility Determination	43363	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall maintain the Former Foster Youth verification for the lifetime of the individual once verified.
Eligibility and Enrollment	Eligibility Determination	43364	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall determine CCHIP end date as the last day of the anniversary (one year) month of CCHIP coverage from the date CCHIP was granted.
Eligibility and Enrollment	Eligibility Determination	43365	"The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall determine CCHIP Eligible for children who meet the following criteria: 1) U.S. Citizen, US National, or lawfully present, AND 2) Ages 0 up to age 19, AND 3) Household income is above 266% and up to and including 322% (includes the 5% disregard) of Federal Poverty Level (FPL). 4) Does not have MEC 5) Is not incarcerated 6) Is not deceased"
Eligibility and Enrollment	Eligibility Determination	43368	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall assign aid code 2C to children who are found eligible for CCHIP.
Eligibility and Enrollment	Eligibility Determination	43371	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall determine CCHIP renewal date as the last day of the anniversary (one year) month of CCHIP coverage from the date CCHIP was granted (same as the end date).
Eligibility and Enrollment	Eligibility Determination	43372	"The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall update the renewal date as the last day of the anniversary (one year) month of CCHIP coverage from the date the following change is reported: - New child (under the age of 19) is added to the case"

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

OTSI CalHEERS RFP #73040873 Addendum 1
October 31, 2025

Category	Sub Category	Req ID	Requirement
Eligibility and Enrollment	Eligibility Determination	43373	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall run CCHIP renewal determination for CCHIP consumers whose renewal date is at the end of the current month.
Eligibility and Enrollment	Eligibility Determination	43374	"The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall evaluate CCHIP consumers who are going through the renewal process using the following rules: - More beneficial coverage change will be applied even before the renewal date - Less beneficial coverage change will be applied prospectively after the renewal date - Begin date and End Date/Renewal Date will be re-set - Protection will applied for the current coverage period"
Eligibility and Enrollment	Eligibility Determination	43375	"The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall apply the following rules after the renewal determination has been established: - More beneficial coverage change will be applied even before the renewal date - Less beneficial coverage change will be applied prospectively after the renewal date"
Eligibility and Enrollment	Eligibility Determination	44499	"California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall re-word the following question with the new verbiage below: * Is this person an active duty or honorably discharged member of the military, or the spouse or child of a person who is?"
Eligibility and Enrollment	Eligibility Determination	44519	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall always display the QLE Event page for Service Center Representatives and County Eligibility Workers
Eligibility and Enrollment	Eligibility Determination	44521	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall always display the QLE Event page for Agents
Eligibility and Enrollment	Eligibility Determination	44613	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to create and maintain eligibility qualifying events (e.g. pregnancy, recently unemployed, turned 65, etc.) by program.
Eligibility and Enrollment	Eligibility Determination	44614	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to record an applicant's qualifying event(s).
Eligibility and Enrollment	Eligibility Determination	45172	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall update the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS EHIT schema to version 7.0 to account for change requests 10021, 52600, 30049, and 29911 for changes aligned to 2017 Q1.
Eligibility and Enrollment	Eligibility Determination	45674	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall cease to display the interim banner (Alert: You continue to have MCAP coverage for 365 days after the end of your pregnancy. Coverage will be re-determined during the month in which your 365th day falls. Please contact MCAP if you have questions.) introduced under Eligibility Summary screen
Eligibility and Enrollment	Eligibility Determination	45921	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall identify non-primary applicants' contact information (email, phone number, residence address, and mailing address) as sensitive based on a sensitive indicator received from SAWS.
Eligibility and Enrollment	Eligibility Determination	45929	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall perform a one-time data population activity on the existing sensitive non-primary applicant population in California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) to flag existing sensitive individuals.
Eligibility and Enrollment	Eligibility Determination	45930	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall hide sensitive non-primary applicant's contact information (email, phone number, residence address, and mailing address) on California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Portal from consumers, authorized representatives, and enrollers.
Eligibility and Enrollment	Eligibility Determination	45931	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall hide sensitive non-primary applicant's contact information (email, phone number, residence address, and mailing address) on California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Portal from consumers, authorized representatives, and enrollers in the Renewal/RAC Application.
Eligibility and Enrollment	Eligibility Determination	45932	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall hide sensitive non-primary applicant's contact information (email, phone number, residence address, and mailing address) on California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Portal from consumers, authorized representatives, and enrollers in the Intake Application (for reapplication scenarios).
Eligibility and Enrollment	Eligibility Determination	45933	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall hide sensitive non-primary applicant's contact information (email, phone number, residence address, and mailing address) on California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Portal from consumers, authorized representatives, and enrollers on case management screens.
Eligibility and Enrollment	Eligibility Determination	45995	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall have the functionality to access the stored FTB file to verify state residency.
Eligibility and Enrollment	Eligibility Determination	45996	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall have the functionality to track verification of state residency from FTB.
Eligibility and Enrollment	Eligibility Determination	45997	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to establish residency for a child/dependent when he/she resides with the parent or parents and they have established that they meet the requirements of state residency in accordance with the requirements of subdivision (b).
Eligibility and Enrollment	Eligibility Determination	45998	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to establish residency for a child/dependent when he/she resides with the caretaker relative and the caretaker relative establishes that he/she meet the requirements of state residency in accordance with the requirements of subdivision (b).
Eligibility and Enrollment	Eligibility Determination	46010	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the FPL values for 2023 based on the FPL guidelines received for 2023 from DHCS.
Eligibility and Enrollment	Eligibility Determination	46011	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall hide contact information updates on the Case Transaction History screen from consumers, authorized representatives, and enrollers for contact information updates that were made prior to the application submitted where an individual is moved from being sensitive to no longer sensitive.
Eligibility and Enrollment	Eligibility Determination	46012	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall hide contact information of individuals on Application PDFs from consumers, authorized representatives, and enrollers for applications that were submitted prior to where an individual is moved from being sensitive to no longer sensitive.
Eligibility and Enrollment	Eligibility Determination	46013	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display messaging to admins when sensitive contact information is displayed.
Eligibility and Enrollment	Eligibility Determination	46014	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display messaging to admins when sensitive contact information is displayed on the Renewal/RAC Application.
Eligibility and Enrollment	Eligibility Determination	46015	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display messaging to admins when sensitive contact information is displayed on the Intake Application (for reapplicaiton scenarios).

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Eligibility and Enrollment	Eligibility Determination	46016	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display messaging to admins when sensitive contact information is displayed on case management screens.
Eligibility and Enrollment	Eligibility Determination	46017	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display messaging to admins for contact information updates on the Case Transaction History screen for contact information updates that were made prior to the date when an individual is moved from being sensitive to no longer sensitive.
Eligibility and Enrollment	Eligibility Determination	46465	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall evaluate all prior months a consumer was enrolled in a Qualified Health Plan and then becomes eligible to Covered CA Subsidy Programs in the same benefit year, in the determination of the annual APTC and State Subsidy amounts.
Eligibility and Enrollment	Eligibility Determination	46466	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall only include prior months in which a consumer was enrolled in a Qualified Health Plan (CCP) and has not attested to receiving MEC, when determining the annual APTC and State Subsidy amounts.
Eligibility and Enrollment	Eligibility Determination	46467	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use the benchmark premium for all enrolled months even if there was no active eligibility for subsidy programs for that month.
Eligibility and Enrollment	Eligibility Determination	46468	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall navigate the consumer to the 1.0R Introduction page on click of Report a Change page from the Enrollment Dashboard.
Eligibility and Enrollment	Eligibility Determination	46841	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall enhance the prior eligibility look-back logic for MAGI Medi-Cal eligibility determinations to find the most recent eligibility record that is Eligible, Conditionally Eligible or Discontinued when determining eligibility for MAGI Medi-Cal for Run reasons other than Intake or Retro.
Eligibility and Enrollment	Eligibility Determination	46843	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use MAGI Medi-Cal Discontinuance records that occur on/after SAWS CCU Renewal (RE/RM) run date for the enhanced look-back logic for MAGI Medi-Cal eligibility determinations.
Eligibility and Enrollment	Eligibility Determination	46845	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not utilize the enhanced prior eligibility look-back logic for MAGI Medi-Cal eligibility status protections.
Eligibility and Enrollment	Eligibility Determination	46852	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall enhance the prior eligibility look-back logic to use program begin and end dates when retrieving the prior eligibility for the current enrollment year or enrollment year - 1.
Eligibility and Enrollment	Eligibility Determination	46853	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the individual's Exchange eligibility and enrollment to be protected in Carry Forward status when a redetermination of eligibility due to enhanced look-up logic results in the individual being potentially eligible for MAGI Medi-Cal.
Eligibility and Enrollment	Eligibility Determination	46854	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall reinstate enrollment via BOT process for the individuals who are enrolled in their own group and whose Exchange eligibility has been Discontinued and their enrollment has been Terminated as of 8/31/23 or Canceled as of 9/1/23, due to enhanced look up logic.
Eligibility and Enrollment	Eligibility Determination	46856	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall discontinue MAGI Medi-Cal eligibility when the individual is in MAGI Medi-Cal Discontinuance Awaiting Review status and a Disposition is received with Discontinuance or Ineligible status
Eligibility and Enrollment	Eligibility Determination	46937	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not use the Enhanced look-back logic results for Non-Applying members.
Eligibility and Enrollment	Eligibility Determination	46938	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall enhance the MAGI Medi-Cal Enhanced look-back logic to ignore the MAGI Medi-Cal eligibility records created due to a Retro Run from SAWS (Run Reason: RO)
Eligibility and Enrollment	Eligibility Determination	46939	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the Enhanced look-back logic to ignore any eligibility records prior to 01/01/2019
Eligibility and Enrollment	Eligibility Determination	46940	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the ability to configure the Enhanced look-back logic start date
Eligibility and Enrollment	Eligibility Determination	47434	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall log a consumer's active response to the PDM inconsistency for Medicare and Deceased verification attribute in the case transaction history.
Eligibility and Enrollment	Eligibility Determination	47452	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not discontinue Covered California program eligibility or terminate enrollment if the individual is eligible or conditionally eligible for Covered California programs and enrolled in a health plan when an individual is placed in MAGI Medi-Cal Awaiting Review for discontinuance.
Eligibility and Enrollment	Eligibility Determination	47644	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display both the Covered California and DHCS/Medi-Cal logo on the Medi-Cal Eligibility Confirmation Letter.
Eligibility and Enrollment	Eligibility Determination	47645	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update following in Medi-Cal Eligibility Confirmation Letter: 1. Label for CIN field to Identification Number 2. Remove gender 3. Spelling of word "country" to "county"
Eligibility and Enrollment	Eligibility Determination - SHOP		
Eligibility and Enrollment	Eligibility Determination - SHOP	42780	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall store the qualified non-citizen attestation and the results of the qualified non-citizen verification.
Eligibility and Enrollment	Enrollment		
Eligibility and Enrollment	Enrollment	37931	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to print the plan comparisons.
Eligibility and Enrollment	Enrollment	37932	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality for an online calculator to calculate the net premium of selected plans based on eligibility for Advanced Premium Tax Credit (APTC), the impact of Cost Sharing Reductions (CSR) for subsidized out-of-pocket costs, and also show the consumer the gross premium with the net savings.
Eligibility and Enrollment	Enrollment	37933	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to notify individuals who select APTC subsidies of penalties and / or liabilities that may occur at time of tax filing due to increase in income.

Category	Sub Category	Req ID	Requirement
Eligibility and Enrollment	Enrollment	37935	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide easily understood descriptions and quality ratings of the various aspects of each plan's care and service quality for each plan selected for comparison.
Eligibility and Enrollment	Enrollment	37972	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall allow any FR AI/AN members and non-FR AI/AN members to select the same non-FR AI/AN policy as a deviation from the suggested FR AI/AN default grouping.
Eligibility and Enrollment	Enrollment	37974	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall prevent subsidized (APTC) members and unsubsidized members from enrolling into the same member level plans.
Eligibility and Enrollment	Enrollment	37975	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall prevent NQI members and non-NQI members from enrolling into the same member level plan.
Eligibility and Enrollment	Enrollment	37976	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update snippets on the Household Enrollment Introduction page and add a popup on the Regroup button. .
Eligibility and Enrollment	Enrollment	37977	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display a default grouping for mixed Federally Recognized American Indian/ Alaska Native families (families with FR AI/AN and non-FR AI/AN members) into separate groups.
Eligibility and Enrollment	Enrollment	38033	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to process plan selection and confirm enrollment in the selected plan(s).
Eligibility and Enrollment	Enrollment	38034	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to process plan selection and confirm enrollment in the QHP Plans
Eligibility and Enrollment	Enrollment	38035	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to list available plans and benefit designs via the Web Portal based on the individual's circumstances (e.g. income, age, location, etc.) and stored preferences.
Eligibility and Enrollment	Enrollment	38037	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to notify issuer of individual enrollment in a QHP and / or stand-alone dental plan.
Eligibility and Enrollment	Enrollment	38038	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to track individual enrollments with a qualified health plan(s) for issuer notifications.
Eligibility and Enrollment	Enrollment	38039	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to process acknowledgement of individual enrollment from Issuer.
Eligibility and Enrollment	Enrollment	38113	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to process Issuer enrollment discrepancies and payment information.
Eligibility and Enrollment	Enrollment	38125	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall track the enrollees' effective dates of coverage in each QHP.
Eligibility and Enrollment	Enrollment	38181	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall track and report all manually changed plan enrollment effective dates.
Eligibility and Enrollment	Enrollment	38183	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system will allow authorized users to edit (effectuate, terminate, and cancel) current and past enrollment segments.
Eligibility and Enrollment	Enrollment	38184	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system will allow authorized users to edit (effectuate, terminate, and cancel) an enrollment that is prior to the current enrollment without impacting the current enrollment.
Eligibility and Enrollment	Enrollment	38185	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system will display a history log of transactions performed by manual override.
Eligibility and Enrollment	Enrollment	38187	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system will have a new user role for authorized users to access the manual override functionality.
Eligibility and Enrollment	Enrollment	38197	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system will allow authorized users to choose whether or not to trigger an 834 when performing a manual override.
Eligibility and Enrollment	Enrollment	38198	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system will allow authorized users to enter case notes when performing a manual override.
Eligibility and Enrollment	Enrollment	38199	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system will allow authorized users to view case notes that were entered when performing a manual override.
Eligibility and Enrollment	Enrollment	38201	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system will allow authorized users to perform a manual override for APTC eligible amount and APTC applied amounts for consumers.
Eligibility and Enrollment	Enrollment	38202	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system will allow authorized users to change the enrollment status and benefit effective dates for a consumer: Pending to Enrolled, Cancelled to Pending, and Cancelled to Enrolled.
Eligibility and Enrollment	Enrollment	38203	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system will allow authorized users to change the effective date for an APTC eligibility determination without being limited by the 15 day rule.
Eligibility and Enrollment	Enrollment	38253	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall terminate the consumer's insurance policy when all active consumers on the insurance policy are discontinued.
Eligibility and Enrollment	Enrollment	38260	If re-apply is performed, California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall apply APTC/CSR/CCP eligibility is effectuated based on the current 15 days rules during open enrollment period or based on the SEP rules during special enrollment period and new ROP date is set if appropriate.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

OTSI CalHEERS RFP #73040873 Addendum 1
October 31, 2025

Category	Sub Category	Req ID	Requirement
Eligibility and Enrollment	Enrollment	38271	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have an automated process to update a consumer's insurance policy under the following outcomes from reasonable opportunity period processing: - Removal of a dependent listed on the consumer's policy - Updates to Advanced Premium Tax Credit (APTC) benefits for a consumer's policy - Update from a subsidized Covered CA plan to an unsubsidized Covered CA plan when there is no CSR level change.
Eligibility and Enrollment	Enrollment	38296	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send an automatic maintenance transaction to update the APTC amount to the carriers when the user reports a change and only the APTC amount changes (no CSR changes and no SHOP option).
Eligibility and Enrollment	Enrollment	38352	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall persist delegations between a consumer and a CEC regardless of eligibility and consumer enrollment status, until either the CEE, CEC, SCR admin, or consumer removes the delegation.
Eligibility and Enrollment	Enrollment	38740	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall retain Medi-Cal Access Program (MCAP) eligibility for a woman when a report a change results in Modified Adjusted Gross Income (MAGI) Medi-Cal eligibility.
Eligibility and Enrollment	Enrollment	38741	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display messaging on the Eligibility Results page when a woman is retained in MCAP due to the MCAP pregnancy hold.
Eligibility and Enrollment	Enrollment	38742	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add functionality allowing all users to select the option for a pregnant woman in MCAP pregnancy hold to transition from MCAP to MAGI Medi-Cal.
Eligibility and Enrollment	Enrollment	38743	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add functionality to allow the Business Rules Engine to assign an aid code based on the existing aid code hierarchy when a pregnant woman in the MCAP pregnancy hold selects the option to transition from MCAP to MAGI Medi-Cal.
Eligibility and Enrollment	Enrollment	38744	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall set the end date for the MCAP Pregnancy Hold to the Expected Date of Delivery, or the date that the Consumer switches coverage, or to the end of the pregnancy as reported by the consumer, whichever occurs first.
Eligibility and Enrollment	Enrollment	38745	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall limit the option to transition from MCAP to MAGI Medi-Cal to the 15th day of the month prior to the end of the month of the MCAP Pregnancy Hold. After this date, the option to transition shall no longer be displayed.
Eligibility and Enrollment	Enrollment	38746	For mixed households, California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send an eligibility evaluation reason via eHIT when the MCAP pregnancy hold applies.
Eligibility and Enrollment	Enrollment	38747	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send an eligibility evaluation reason via eHIT when the pregnant women elects to switch from MCAP to MAGI Medi-Cal and when an Admin returns a user to MCAP after switching.
Eligibility and Enrollment	Enrollment	38749	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add functionality for the eligibility into MAGI Medi-Cal to begin the day after the last day of eligibility in MCAP.
Eligibility and Enrollment	Enrollment	38750	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall limit the transition from MCAP into MAGI Medi-Cal to once per pregnancy.
Eligibility and Enrollment	Enrollment	38751	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall suppress the text that contains the option to switch on the Eligibility Results page after user elects to keep or switch eligibility or after the last date to switch has passed. If consumer is still eligible to switch, user will have the option to switch on the Individual homepage.
Eligibility and Enrollment	Enrollment	38752	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add the functionality for admins to return consumers who have elected to transition to another coverage to MCAP.
Eligibility and Enrollment	Enrollment	38753	For individuals who transition from MCAP or the County Children's Health Insurance Program into MAGI Medi-Cal, California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send the HX20 ESAC 1 transaction to MEDS upon an eligibility determination that results in an Eligible or Conditionally Eligible status for the MAGI program.
Eligibility and Enrollment	Enrollment	38754	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall follow the 15 day rule for all MCAP and CCHIP discontinuances.
Eligibility and Enrollment	Enrollment	38779	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall have an automated process to update a consumer's enrollment under the outcomes from reasonable opportunity period processing.
Eligibility and Enrollment	Enrollment	38846	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall set the enrollment status to "Enrolled" for active renewals in custom group cases where the subscriber remains in the same carrier and the current status is enrolled.
Eligibility and Enrollment	Enrollment	38847	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall exclude a case with custom grouping from passive enrollment when an active renewal has started and custom grouping has been changed and plan selection completed for at least one of the groups.
Eligibility and Enrollment	Enrollment	39765	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall call the IND22 at the household level
Eligibility and Enrollment	Enrollment	39767	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall pass the Benchmark Premium used to calculate APTC/State Subsidy to GI in the Account Transfer.
Eligibility and Enrollment	Enrollment	39880	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall call the IND22 at the household level
Eligibility and Enrollment	Enrollment	39882	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall pass the Benchmark Premium used to calculate APTC/State Subsidy to GI in the Account Transfer.
Eligibility and Enrollment	Enrollment	39883	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall apply the new APTC/State Subsidy calculation methodology for eligibility in 2021 and forward.
Eligibility and Enrollment	Enrollment	40295	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate an EDI 834 transaction to the Carrier with an indicator when there is a change to the broker information or delegation associated with the existing case.
Eligibility and Enrollment	Enrollment	40314	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the eligibility for California Premium Subsidy (CAPS) for each member in the Household Eligibility Information screen on the enroller portals (Agency/Agent/CEC Portals).

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Eligibility and Enrollment	Enrollment	40315	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow Issuer Enrollment Representatives to search for consumer cases by HBX Household Case ID on the Issuer Enrollment Portal.
Eligibility and Enrollment	Enrollment	40316	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display HBX Household Case ID on the Issuer Enrollment Portal in the Search results, Enrollment details screen, and Export file.
Eligibility and Enrollment	Enrollment	40602	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow Agents, Entity, and CEC search for Consumer First Name and Last Name with a search operator of 'Contains'.
Eligibility and Enrollment	Enrollment	40603	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) to reduce the number of characters for the City field on the Correspondence Address Section for an Agency Application.
Eligibility and Enrollment	Enrollment	40604	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the capability for Entity Managers to export all the household cases on the Entity Portal.
Eligibility and Enrollment	Enrollment	40605	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the capability for Certified Enrollment Counselors to export all the household cases on the Entity Portal
Eligibility and Enrollment	Enrollment	40606	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide the ability for a Broker Admin to do a bulk BoB Transfer for an Agency.
Eligibility and Enrollment	Enrollment	40607	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide the ability for an Entity Admin to do a bulk BoB Transfer for an Entity.
Eligibility and Enrollment	Enrollment	40608	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide the ability to select more than 10 cases to change delegation within the Agency Portal
Eligibility and Enrollment	Enrollment	40609	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide the ability to select one or more up to all cases to change delegation within the Entity Portal
Eligibility and Enrollment	Enrollment	40610	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) to increase the number of characters for the Address 1 and Address 2 fields on the Correspondence Address Section for an Agency/Agent Application.
Eligibility and Enrollment	Enrollment	40611	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display CAPS column after APTC column in the Premium and APTC Grid.
Eligibility and Enrollment	Enrollment	40612	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall capture the delegation changes in all enrollments including terminated enrollments within the current benefit plan year.
Eligibility and Enrollment	Enrollment	40640	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create an informational page within California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) with co-branding of the carrier logo and the consumer will have 2 options: Login as an existing customer Create a New Account
Eligibility and Enrollment	Enrollment	40641	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the user to select the option for the consumer to be matched to their previous Agent.
Eligibility and Enrollment	Enrollment	40642	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add carrier co-branding on every page of the application for consumers who are referred to California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) via the Covered California carrier-only link/microsite.
Eligibility and Enrollment	Enrollment	40643	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide consumers the ability to toggle between English and Spanish
Eligibility and Enrollment	Enrollment	40644	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall stop co-branding and do lead termination if - entire household is eligible for MAGI Medical plans - active lead is inactive beyond 60 days
Eligibility and Enrollment	Enrollment	40645	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide co-branding for mobile views
Eligibility and Enrollment	Enrollment	40646	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create necessary tags for Google Analytics reporting
Eligibility and Enrollment	Enrollment	40724	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall retain the Renewal mode for cases who complete an RAC between Active Renewal period and OEP.
Eligibility and Enrollment	Enrollment	40741	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall passively renew enrollments which have one or more members in Carry Forward Status in the existing or crosswalked plan
Eligibility and Enrollment	Enrollment	40742	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send an EDI 834 renewal transaction to the carriers if the subscriber renews into a plan with the same Carrier regardless of adding or removing members in the enrollment group.
Eligibility and Enrollment	Enrollment	40743	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send an EDI 834 renewal transaction to the carriers if there is a change in Subscriber in the new enrollment year and the new Subscriber was previously enrolled as a dependent in the prior benefit year, in the same plan.
Eligibility and Enrollment	Enrollment	40744	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall verify enrollment status daily before passive renewal is applied to each enrollment
Eligibility and Enrollment	Enrollment	40745	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall renew dental only enrollments if their same plan is available, regardless of CCA eligibility
Eligibility and Enrollment	Enrollment	40746	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall set a confirmation date for renewed enrollments if a consumer actively renews into the same plan, or a crosswalked plan, after shopping to compare prices

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Eligibility and Enrollment	Enrollment	41207	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall turn on the Microsite functionality for Bright Health Care
Eligibility and Enrollment	Enrollment	41281	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display “Change Plan” as the primary call to action on the Account Home page once the health and dental plan selection is completed and the SEP/OEP window is open.
Eligibility and Enrollment	Enrollment	41282	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display a "Change Plan" link on the Household Summary modal accessed from the Account Home Page once the health and dental plan selection is completed and the SEP/OEP window is open.
Eligibility and Enrollment	Enrollment	41283	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display a "Change Plan" link on the Account Alert banner on the Eligibility Results Summary Page once the health and dental plan selection is completed and the SEP/OEP window is open.
Eligibility and Enrollment	Enrollment	41284	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display a "Change Plan" button on the Household Next Steps section on the Eligibility Results Summary Page once the health and dental plan selection is completed and the SEP/OEP window is open.
Eligibility and Enrollment	Enrollment	41285	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall direct the user to the same benefit year on the GI Enrollment Dashboard as the benefit year for which the user selects "Change Plan" on the Account Home Page.
Eligibility and Enrollment	Enrollment	42307	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall add voter registration page in English and Spanish application prior to eligibility determination page. The voter registration page shall display specific language in English or Spanish to consumer and shall also ask if the consumer would like to register to vote and shall provide three selections to the consumer.
Eligibility and Enrollment	Enrollment	42308	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall display the following question in the voter registration page: "If you are not registered to vote where you live now, would you like to apply to register to vote today?"
Eligibility and Enrollment	Enrollment	42309	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall display the following answer with a radio button to select each choice to the question "If you are not registered to vote where you live now, would you like to apply to register to vote today?": - "Yes, open the California Online Voter Registration website in a new tab" - "Yes, please mail me a voter registration card" - "No"
Eligibility and Enrollment	Enrollment	42310	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall add voter registration page to subsidized and unsubsidized application.
Eligibility and Enrollment	Enrollment	42311	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall display voter registration page to all covered transactions which includes application, change of address, and renewal.
Eligibility and Enrollment	Enrollment	42362	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall collect and record each choice selected by the consumer on the voter registration page in a manner that can be stored for at least two years.
Eligibility and Enrollment	Enrollment	42363	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall differentiate the difference between those who selects "No" as an answer and those who does not answer the question.
Eligibility and Enrollment	Enrollment	42364	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall store the consumer's answer on the voter registration page only if the application is submitted.
Eligibility and Enrollment	Enrollment	42365	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall open the California Online Voter Registration website in a new tab with the following link when the consumer select "Yes, open the California Online Voter Registration website in a new tab" as the final answer. If consumer is in English mode, use "http://registertovote.ca.gov/?t=n&id=4/" If consumer is in Spanish mode, use "http://registertovote.ca.gov/es/?t=n&id=4/"
Eligibility and Enrollment	Enrollment	42366	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall not take any action when the consumer selects "No" on the voter registration page.
Eligibility and Enrollment	Enrollment	42367	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall mail the consumer voter registration card when no choice is selected when the consumer leaves the voter registration page and when the consumer selects "Yes, please mail me a voter registration card".
Eligibility and Enrollment	Enrollment	42368	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall create an exportable list of people who answer "Yes, please mail me a voter registration card" or do not answer the voter registration question for all covered transactions which include application, change of address, and renewal. The list shall include: Head of Household/Primary Contact, Physical Mailing address, preferred method of contact, email address (if available), preferred written language, and Program. This list will be sent to CovCA fulfillment vendor to mail voter registration cards and letter notices in appropriate preferred language. The list shall be created and sent to the fulfillment vendor monthly. The list will also be used to pull email's of consumers whose preferred method was electronic, and email notices (in appropriate language) with SOS links, instead of paper mailing.
Eligibility and Enrollment	Enrollment	42369	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall trigger a mailing addressed to the head of household, in consumer's preferred written language, if no choice is selected when the consumer leaves the voter registration page. If consumer's preferred method of contact is email, default to email instead of mail.
Eligibility and Enrollment	Enrollment	42417	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall generate a report on a monthly basis with the following data elements based on responses to the voter registration page and separately for the English and Spanish applications. -Number and percent of each of the three choices and non-responses by user role -Number and percent of each of the three choices and non-responses by covered transaction (application, change of address, renewal) -Number and percent of each of the three choices and non-responses by program eligibility (Medi-Cal, subsidized Covered CA, unsubsidized Covered CA, ineligible for all programs)
Eligibility and Enrollment	Enrollment	42868	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System will allow a consumer to change their APTC outside of a Report a Change.

Category	Sub Category	Req ID	Requirement
Eligibility and Enrollment	Enrollment	42869	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall only allow an enrollee, who qualifies for an APTC amount above \$0, to change/adjust their APTC monthly amount when initiating an APTC change/adjustment.
Eligibility and Enrollment	Enrollment	42870	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall not limit the number of times that the monthly APTC amount is changed/adjusted.
Eligibility and Enrollment	Enrollment	42871	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall allow enrollees (who are receiving APTC subsidies) to make changes/adjustments to their monthly APTC amount any time on or prior to November 15th of the current benefit year.
Eligibility and Enrollment	Enrollment	42872	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall allow enrollees, (who are receiving APTC subsidies), with an enrollment for the next benefit year, to make changes to the APTC amount prior to the beginning of the next benefit year
Eligibility and Enrollment	Enrollment	42873	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall only allow prospective modifications to the change of the APTC amount applied to the monthly premium.
Eligibility and Enrollment	Enrollment	42874	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall allow consumers to change the applied APTC amount if the current enrollment status is 'Enrolled' or 'Pending' for the current or future benefit year.
Eligibility and Enrollment	Enrollment	43057	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to allow plan selection and transfer due to plan decertification.
Eligibility and Enrollment	Enrollment	43058	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to qualify individual for an enrollment period.
Eligibility and Enrollment	Enrollment	43059	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to create and maintain rules (including historical rules) for enrollment effective dates based on State or Exchange policies for each program and/or qualifying event.
Eligibility and Enrollment	Enrollment	43138	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to gather individual plan preferences.
Eligibility and Enrollment	Enrollment	43139	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to present the consumer the detailed comparisons of qualified health plans filtered on individual plan preferences.
Eligibility and Enrollment	Enrollment	43140	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to present appropriate MAGI Medi-Cal, MCAP, C-CHIP and BHP (if enacted) plans for which an applicant is eligible to enroll.
Eligibility and Enrollment	Enrollment	43211	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall validate presence of potential duplicate or overlap coverage whenever a user goes through plan selection or plan update process.
Eligibility and Enrollment	Enrollment	43212	"The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall display an error message on the portal to the user if a potential duplicate coverage has been identified with the exception of a re-enrollment due to an ""add a member"" with a life event date < current policy coverage start date "
Eligibility and Enrollment	Enrollment	43213	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall validate if the new coverage start date keyed by SCR on Change Plan Effective Date page is within the benefit year of the selected enrollment.
Eligibility and Enrollment	Enrollment	43214	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall display an error message on the Portal if the new coverage start date falls outside the benefit year of the selected enrollment.
Eligibility and Enrollment	Enrollment	43223	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to support individual selection of a Qualified Health Plan in the Exchange.
Eligibility and Enrollment	Enrollment	43227	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to estimate annual costs (premium plus out of pocket cost) for each plan selected for comparison.
Eligibility and Enrollment	Enrollment	43228	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall determine plan availability, calculate plan cost and display their results, including average monthly premium costs and estimated annual out of pocket, net costs, gross costs (net savings) and at risk costs.
Eligibility and Enrollment	Enrollment	43230	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to display the QHP summary of benefits and coverage as specified by ACA regulations.
Eligibility and Enrollment	Enrollment	43231	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to hide and unhide plan selection criteria and cost components.
Eligibility and Enrollment	Enrollment	43232	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to display for each plan selected, the plan quality rating, and one or more quality indicators and one or more customer service indicators, as determined by the Exchange.
Eligibility and Enrollment	Enrollment	43297	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality for applicants to select multiple QHPs or qualified stand-alone dental plans and sort the results by premium, quality rating, deductible amount, out of pocket limits, annual costs, quality indicators, and customer service indicators.
Eligibility and Enrollment	Enrollment	43298	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall show a range (low, medium, high) of estimated annual cost based on consumer's possible or actual health conditions (from consumer provided or pre-defined utilization scenarios) for each plan selected for comparison.
Eligibility and Enrollment	Enrollment	43299	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the maximum out-of-pocket costs for each plan selected for comparison.
Eligibility and Enrollment	Enrollment	43300	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality for the consumer to provide known current or future medical usage (Dr. visits, prescriptions, surgeries, etc.) and disease scenarios to dynamically and real-time adjust the estimated annual out of pocket costs for each plan selected for comparison.
Eligibility and Enrollment	Enrollment	43396	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall display benefits or features in a plan consistent with the SERFF Template.

Category	Sub Category	Req ID	Requirement
Eligibility and Enrollment	Enrollment	44476	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to generate reports to Issuer about individuals and family enrollments in Qualified Health Plans.
Eligibility and Enrollment	Enrollment	44477	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality for authorized users to manually change individual plan effective dates.
Eligibility and Enrollment	Enrollment	44615	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality for special enrollment periods based on specified criteria (birth, death, change in address, change in household, laid off, etc.).
Eligibility and Enrollment	Enrollment	47015	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall only allow reinstatement through Reconciliation when eligibility has been verified for the consumer
Eligibility and Enrollment	Enrollment	47016	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall develop a report for the cases that are not going to be reinstated due to being not eligible for reinstatement.
Eligibility and Enrollment	Enrollment	47017	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add the total case count by HIOS ID to the existing Reconciliation Dashboard after the Others_to_fix_ column. The new column name should be CalHeers_Ineligible_Reinstate
Eligibility and Enrollment	Enrollment	47105	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall turn on the Microsite functionality for IEHP for PY 2024.
Eligibility and Enrollment	Enrollment	48024	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use “first of the month following the QLE date” rule for APS Coverage Start Date when the member transitions from MAGI MC/MCAP/CCHIP to Exchange Programs but had prior Exchange eligibility with no enrollments during this Eligibility Record.
Eligibility and Enrollment	Enrollment	48025	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall make sure the coverage start date for any dependents added to an enrollment will be equal to or later than the subscriber Coverage start date.
Eligibility and Enrollment	General Requirement		
Eligibility and Enrollment	General Requirement	37867	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall allow the SCR, CEW, Agent, CEC and PBE to have access to all pages and links seen by a Consumer when the Consumer has or has not created an account.
Eligibility and Enrollment	General Requirement	37959	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall identify all unmarried pregnant women not eligible for any other mandatory or optional categorically needy coverage group (not eligible to any other Medi-Cal aid code) who are either: (a) under age 21 and living with her parent(s), and is not going to file a tax return for the taxable year, or (b) under age 21 and is going to be claimed as a tax dependent by parent(s) in the taxable year.
Eligibility and Enrollment	General Requirement	37960	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall exempt all household income when determining the eligibility for unmarried pregnant women as defined.
Eligibility and Enrollment	General Requirement	37961	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall determine eligibility for the identified population and assign eligibility status in aid code M7 or M8 depending on their immigration status (Aid Code M7 for Satisfactory Immigration Status and M8 for all cases without Satisfactory Immigration Status). Authority: SPA 13-0029, SSA 1902(a)(10)(A)(ii)(I), and 42 CFR 435.222
Eligibility and Enrollment	General Requirement	37965	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall communicate to SAWS when an individual is determined eligible to the Unmarried Pregnant Women Under 21 Income Disregard program.
Eligibility and Enrollment	General Requirement	37967	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow APTC households to be allowed to utilize current custom grouping functionality and select a plan(s).
Eligibility and Enrollment	General Requirement	37968	"California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow APTC households with Federally Recognized American Indians / Alaska Natives to utilize the current custom grouping functionality and select a plan(s)."
Eligibility and Enrollment	General Requirement	37969	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide (display the) explanation to splitting APTC before plan selection in the Plan Selection - In Progress page.
Eligibility and Enrollment	General Requirement	38079	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall retain APTC/CSR/CCP eligibility and enrollment for pregnant women or women who have reported a pregnancy and have selected a Qualified Health Plan and have income at or above 100 percent subsidy FPL up to and including 322 percent MAGI FPL. This will be called "QHP pregnancy hold".
Eligibility and Enrollment	General Requirement	38080	During renewals, California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall determine APTC/CSR/CCP eligibility for pregnant women or women who have reported a pregnancy and have income at or above 100 percent subsidy FPL up to and including 322 percent MAGI FPL and who are in the QHP pregnancy hold and are otherwise eligible.
Eligibility and Enrollment	General Requirement	38081	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display messaging on the Eligibility Results page when a pregnant woman is retained in a Qualified Health Plan due to QHP pregnancy hold.
Eligibility and Enrollment	General Requirement	38083	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall include language on the NOD01 when a pregnant woman is retained in a Qualified Health Plan due to the QHP pregnancy hold.
Eligibility and Enrollment	General Requirement	38094	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall modify existing MCAP snippets in NOD01 to include opt out instructions to keep or switch coverage.
Eligibility and Enrollment	General Requirement	38095	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add functionality allowing all users to select the option for a pregnant woman in QHP pregnancy hold to transition from a Qualified Health Plan to another Insurance Affordability Program.
Eligibility and Enrollment	General Requirement	38096	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add functionality to allow the Business Rules Engine to assign an aid code based on the existing aid code hierarchy when a pregnant woman in QHP pregnancy hold selects the option to transition from a QHP to another Insurance Affordability Program.
Eligibility and Enrollment	General Requirement	38097	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall set the end date for the QHP pregnancy hold to the expected date of delivery. The QHP pregnancy hold will end at expected date of delivery or when the consumer reports the end of the pregnancy or the birth of the child, whichever is sooner.
Eligibility and Enrollment	General Requirement	38098	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall limit the option to transition from APTC to other insurance affordability programs to the 15th of the month prior to the month of the Expected Delivery Date. Once the pregnancy end date is reported, the option to transition shall no longer be displayed.

Category	Sub Category	Req ID	Requirement
Eligibility and Enrollment	General Requirement	38100	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) eHIT interface shall add a new title 21 program node which will be populated with MCAP and CCHIP program information.
Eligibility and Enrollment	General Requirement	38101	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall discontinue APTC following the 15 day rule when a consumer elects to end the QHP pregnancy hold.
Eligibility and Enrollment	General Requirement	38102	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add functionality for the eligibility into MCAP to begin the day after the last day of Qualified Health Plan eligibility.
Eligibility and Enrollment	General Requirement	38103	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add functionality for the eligibility into Medi-Cal to begin based on the effective dating rules defined in CR 46047 (Carry Forward).
Eligibility and Enrollment	General Requirement	38104	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add functionality allowing all users to select the option for a pregnant woman in MCAP, who meets the QHP eligibility criteria, to transition to QHP during Open Enrollment or in a Special Enrollment Period.
Eligibility and Enrollment	General Requirement	38105	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall disregard the existing aid code hierarchy and assign a QHP aid code when a pregnant woman, with current MCAP eligibility and who meets the QHP eligibility criteria, elects to transition to a QHP.
Eligibility and Enrollment	General Requirement	38106	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall limit the transition from the Medi-Cal Access Program into a Qualified Health Plan to the open enrollment period or upon declaration of a qualifying life event.
Eligibility and Enrollment	General Requirement	38107	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall discontinue MCAP following the 15 day rule when a consumer elects to switch out of MCAP.
Eligibility and Enrollment	General Requirement	38108	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add functionality for the eligibility into the Qualified Health Plan to begin the day after the last day of eligibility in the Medi-Cal Access Program.
Eligibility and Enrollment	General Requirement	38109	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall suppress the text that contains the option to switch on the Eligibility Results page after user elects to keep or switch eligibility. If consumer is still eligible to switch, user will have the option to switch on the Individual homepage.
Eligibility and Enrollment	General Requirement	38110	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create a report to track the enrollments that were pending to see if they become effectuated and capture the choice made on the Keep or Switch Coverage page.
Eligibility and Enrollment	General Requirement	38111	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add the functionality for admins to return consumers who have selected to transition to another coverage to their previous program
Eligibility and Enrollment	General Requirement	38115	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add language in the NOD01 to inform the consumer when the admin returned them to previous coverage
Eligibility and Enrollment	General Requirement	38678	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall display to the consumer the minimum set of applicable questions necessary to determine eligibility.

Category	Sub Category	Req ID	Requirement
Eligibility and Enrollment			California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use the following immigration statuses to determine lawful presence and eligibility for APTC/CSR/CCP/CAPS. If one of the following immigration statuses is selected but there is no document information sufficient for electronic verification of immigration status, eligibility shall be conditional until electronic or admin verification is provided.
		38788	1) Lawful Permanent Resident (LPR/Green Card holder) 2) A non-citizen with an approved visa petition, who has a pending application for adjustment to LPR status 3) A non-citizen, without a visa petition, who has a pending application for adjustment to LPR Status, with Employment Authorization 4) Refugee 5) Asylee 6) Cuban/Haitian Entrant 7) Amerasian Immigrant 8) Granted withholding of deportation or removal 9) Granted a stay of deportation 10) Granted suspension of deportation whose departure USCIS does not contemplate enforcing 11) Conditional Entrant granted before 1980 12) Paroled into the United States for one year or more 13) Paroled into the United States for less than one year 14) Battered non-citizen, or parent or child of battered non-citizen 15) Granted Deferred Action (but not under Deferred Action for Childhood Arrivals - DACA) Deferred Action for Childhood Arrivals - DACA 16) Granted Order of Supervision, with Employment Authorization 17) Registry applicant, with Employment Authorization 18) Pending application for Creation of Record of Lawful Admission for Permanent Residence, with Employment Authorization 19) Granted withholding of removal under the Convention against Torture – CAT 20) Granted for a Victim of Trafficking visa (T visa), or spouse, child, sibling, or parent 21) Pending application for a Victim of Trafficking visa (T visa), or spouse, child, sibling, or parent 22) Granted U non-immigrant visa 23) Student Visa – Granted a student visa (e.g. F or M visa) 24) Work Visa – Granted a work visa (e.g. H-1, J-1, O, R, P visa) 25) Visitor Visa – Granted a visitor visa (e.g. B visa) 26) Lawful Temporary Resident (special agricultural workers, or certain immigrants admitted into the U.S. before 1982) 27) Granted Temporary Protected Status (TPS), or pending applicants for TPS (pending applicants must have Employment Authorization) 28) Family Unity Beneficiary 29) Granted Deferred Enforced Departure
	General Requirement		

Category	Sub Category	Req ID	Requirement
Eligibility and Enrollment			California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall grant conditional full scope Medi-Cal eligibility (without requiring immigration document and Alien Number information) for otherwise eligible consumers who attest to any of the following immigration statuses listed below. Conditional eligibility status shall be removed once verified.
		38789	1) Lawful Permanent Resident (LPR/Green Card holder) 2) A non-citizen with an approved visa petition, who has a pending application for adjustment to LPR status 3) A non-citizen, without a visa petition, who has a pending application for adjustment to LPR Status, with Employment Authorization 4) A non-citizen who has a pending application for adjustment to LPR status, without Employment Authorization 5) Refugee 6) Asylee 7) Cuban/Haitian Entrant 8) Amerasian Immigrant 9) Granted withholding of deportation or removal 10) Granted a stay of deportation 11) Granted suspension of deportation whose departure USCIS does not contemplate enforcing 12) Conditional Entrant granted before 1980 13) Paroled into the United States for one year or more 14) Paroled into the United States for less than one year 15) Battered non-citizen, or parent or child of battered non-citizen 16) Granted Deferred Action (but not under Deferred Action for Childhood Arrivals - DACA) 17) Granted Deferred Action for Childhood Arrivals – (DACA) 18) Granted Order of Supervision, with Employment Authorization 19) Granted Order of Supervision, without Employment Authorization 20) An immigrant who entered and has continuously resided in the United States since before January 1, 1972, who would be eligible for an adjustment of status to lawful permanent resident (eligible as a Registry immigrant). 21) Granted voluntary departure and awaiting issuance of a visa 22) A non-citizen on whose behalf an immediate relative petition (I-130) has been approved and who is entitled to voluntary departure 23) Granted for a Victim of Trafficking visa (T visa), or spouse, child, sibling, or parent 24) Pending application for a Victim of Trafficking visa (T visa), or spouse, child, sibling, or parent 25) Taking steps to apply for a T visa or for certification by the Office of Refugee Resettlement 26) Granted U non-immigrant visa 27) Filed for a U visa
	General Requirement		

Category	Sub Category	Req ID	Requirement
Eligibility and Enrollment		38790	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall determine INELIGIBILITY for APTC/CSR when the consumer is eligible or conditionally eligible to full-scope Medi-Cal, household income is less than or equal to 138%FPL, and who attest to any of the following immigration statuses: 1) Lawful Permanent Resident (LPR/Green Card holder) 2) A non-citizen with an approved visa petition, who has a pending application for adjustment to LPR status 3) A non-citizen, without a visa petition, who has a pending application for adjustment to LPR Status, with Employment Authorization 4) A non-citizen who has a pending application for adjustment to LPR status, without Employment Authorization 5) Refugee 6) Asylee 7) Cuban/Haitian Entrant 8) Amerasian Immigrant 9) Granted withholding of deportation or removal 10) Granted a stay of deportation 11) Granted suspension of deportation whose departure USCIS does not contemplate enforcing 12) Conditional Entrant granted before 1980 13) Paroled into the United States for one year or more 14) Paroled into the United States for less than one year 15) Battered non-citizen, or parent or child of battered non-citizen 16) Granted Deferred Action (but not under Deferred Action for Childhood Arrivals - DACA) 17) Granted Deferred Action for Childhood Arrivals – (DACA) 18) Granted Order of Supervision, with Employment Authorization 19) Granted Order of Supervision, without Employment Authorization 20) An immigrant who entered and has continuously resided in the United States since before January 1, 1972, who would be eligible for an adjustment of status to lawful permanent resident (eligible as a Registry immigrant). 21) Granted voluntary departure and awaiting issuance of a visa 22) A non-citizen on whose behalf an immediate relative petition (I-130) has been approved and who is entitled to voluntary departure 23) Granted for a Victim of Trafficking visa (T visa), or spouse, child, sibling, or parent 24) Pending application for a Victim of Trafficking visa (T visa), or spouse, child, sibling, or parent 25) Taking steps to apply for a T visa or for certification by the Office of Refugee Resettlement 26) Granted U non-immigrant visa 27) Filed for a U visa
	General Requirement		
Eligibility and Enrollment		38791	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall grant restricted scope Medi-Cal eligibility (without requiring immigration document and Alien Number information) for otherwise eligible consumers who attest to any of the following immigration statuses if the individual is known to be 21 or older and not pregnant. 1) Pending application for Creation of Record of Lawful Admission for Permanent Residence, with Employment Authorization 2) Granted withholding of removal under the Convention against Torture – CAT 3) Student Visa – Granted a student visa (e.g. F or M visa) 4) Work Visa – Granted a work visa (e.g. H-1, J-1, O, R, P visa) 5) Visitor Visa – Granted a visitor visa (e.g. B visa) 6) Lawful Temporary Resident (special agricultural workers, or certain immigrants admitted into the U.S. before 1982) 7) Granted Temporary Protected Status (TPS), or pending applicants for TPS (pending applicants must have Employment Authorization) 8) Family Unity Beneficiary 9) Granted Deferred Enforced Departure 10) Resident of American Samoa 11) Citizens of Micronesia, the Marshall Islands, and Palau 12) Administrative order staying removal issued by the Department of Homeland Security 13) Registry applicant, with Employment Authorization 14) Pending application for legalization under Immigration Reform and Control Act - IRCA, with Employment Authorization 15) Pending application for asylum with Employment Authorization or is under the age of 14 and has had a pending application for asylum for at least 180 days 16) Pending application for withholding of removal with Employment Authorization, or is under the age of 14 and has had a pending application for withholding of removal for at least 180 days 17) Pending application for legalization under the LIFE Act, with Employment Authorization 18) Pending application for suspension of deportation, or cancellation of removal or special rule cancellation of removal, with Employment Authorization 19) Pending application for Special Immigrant Juvenile Status
	General Requirement		

Category	Sub Category	Req ID	Requirement
Eligibility and Enrollment		38792	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall grant conditional (if not verified) full scope Medi-Cal to consumers otherwise eligible and known to be under 21 or pregnant for the following immigration statuses: 1) Pending application for Creation of Record of Lawful Admission for Permanent Residence, with Employment Authorization 2) Granted withholding of removal under the Convention against Torture – CAT 3) Student Visa – Granted a student visa (e.g. F or M visa) 4) Work Visa – Granted a work visa (e.g. H-1, J-1, O, R, P visa) 5) Visitor Visa – Granted a visitor visa (e.g. B visa) 6) Lawful Temporary Resident (special agricultural workers, or certain immigrants admitted into the U.S. before 1982) 7) Granted Temporary Protected Status (TPS), or pending applicants for TPS (pending applicants must have Employment Authorization) 8) Family Unity Beneficiary 9) Granted Deferred Enforced Departure 10) Resident of American Samoa 11) Citizens of Micronesia, the Marshall Islands, and Palau 12) Administrative order staying removal issued by the Department of Homeland Security 13) Registry applicant, with Employment Authorization 14) Pending application for legalization under Immigration Reform and Control Act - IRCA, with Employment Authorization 15) Pending application for asylum with Employment Authorization or is under the age of 14 and has had a pending application for asylum for at least 180 days 16) Pending application for withholding of removal with Employment Authorization, or is under the age of 14 and has had a pending application for withholding of removal for at least 180 days 17) Pending application for legalization under the LIFE Act, with Employment Authorization 18) Pending application for suspension of deportation, or cancellation of removal or special rule cancellation of removal, with Employment Authorization 19) Pending application for Special Immigrant Juvenile Status
	General Requirement		
Eligibility and Enrollment		38793	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall determine eligible or conditionally eligible (if not verified) for CCP/APTC/CSR when the consumer is eligible or conditionally eligible to restricted-scope Medi-Cal, if household income is less than or equal to 138%FPL, for the following immigration statuses. Pending Medi-Cal eligibility shall not allow eligibility or conditional eligibility for CCP/APTC/CSR. 1) Pending application for Creation of Record of Lawful Admission for Permanent Residence, with Employment Authorization 2) Granted withholding of removal under the Convention against Torture – CAT 3) Student Visa – Granted a student visa (e.g. F or M visa) 4) Work Visa – Granted a work visa (e.g. H-1, J-1, O, R, P visa) 5) Visitor Visa – Granted a visitor visa (e.g. B visa) 6) Lawful Temporary Resident (special agricultural workers, or certain immigrants admitted into the U.S. before 1982) 7) Granted Temporary Protected Status (TPS), or pending applicants for TPS (pending applicants must have Employment Authorization) 8) Family Unity Beneficiary 9) Granted Deferred Enforced Departure 10) Resident of American Samoa 11) Citizens of Micronesia, the Marshall Islands, and Palau 12) Administrative order staying removal issued by the Department of Homeland Security 13) Registry applicant, with Employment Authorization 14) Pending application for legalization under Immigration Reform and Control Act - IRCA, with Employment Authorization 15) Pending application for asylum with Employment Authorization or is under the age of 14 and has had a pending application for asylum for at least 180 days 16) Pending application for withholding of removal with Employment Authorization, or is under the age of 14 and has had a pending application for withholding of removal for at least 180 days 17) Pending application for legalization under the LIFE Act, with Employment Authorization 18) Pending application for suspension of deportation, or cancellation of removal or special rule cancellation of removal, with Employment Authorization 19) Pending application for Special Immigrant Juvenile Status .
	General Requirement		
Eligibility and Enrollment		38794	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use SAWS administrative verification of immigration if available instead of VLP verification.
	General Requirement		
Eligibility and Enrollment		38795	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall request Grant Date through VLP if sufficient document information is provided to make a VLP request and SAWS provides administrative verification without the Grant Date for the following statuses: oLawful Permanent Resident (LPR/Green Card holder) o Conditional Entrant granted before 1980 o Paroled into the United States for one year or more o Battered non-citizen, or parent or child of battered non-citizen
	General Requirement		
Eligibility and Enrollment		38864	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall auto-determine eligibility for the next benefit year when ""Report a Change"" occurs between system dates 11/1 and 12/31 for the current benefit year for when MAGI Medi-Cal only case results in at least 1 household member being ineligible/discontinued for all programs for the current benefit year and the case is not part of the Exchange Renewal population.
	General Requirement		

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Eligibility and Enrollment	General Requirement	38918	With the exception of intake or renewals, the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall only trigger the Income Services Verification for individual within the subsidy FPL limits when subsidy income verification is not cached.
Eligibility and Enrollment	General Requirement	38919	With the exception of intake or renewals, the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall only trigger the Income Services Verification for individuals within the MAGI Medi-Cal FPL limits when MAGI Medi-Cal income verification is not cached at an individual level
Eligibility and Enrollment	General Requirement	38920	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall not trigger the Income Services Verification when a Negative Action is received for individuals within the MAGI Medi-Cal FPL Limits and their current MAGI Medi-Cal Income Verifications are not cached.
Eligibility and Enrollment	General Requirement	38921	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall limit the number of IRS requests made to the Income Services Verification to no more than once per refresh cycle per SSN list value for a Report a Change.
Eligibility and Enrollment	General Requirement	38922	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall limit the number of IRS requests made to the Income Services Verification to no more than once per refresh cycle per SSN list even if the impacted data elements related to Income (except for SSN) are changed.
Eligibility and Enrollment	General Requirement	38923	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall call IRS income service if the SSN list value is changed within the Refresh Cycle.
Eligibility and Enrollment	General Requirement	39027	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall create a dynamic application for the State Medi-Cal Inmate Eligibility Program (MCIEP).
Eligibility and Enrollment	General Requirement	39028	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall only allow DHCS MCIEP staff to create, submit and make changes to State MCIEP applications.
Eligibility and Enrollment	General Requirement	39029	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall prevent individuals other than the DHCS MCIEP staff from creating or updating State MCIEP cases.
Eligibility and Enrollment	General Requirement	39030	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall have the ability to capture the following information: • Incarceration Status • Date of Incarceration • CDCR Number • Deceased status and date of death (if applicable) • Long Term Care status and start and end date of Long Term Care (if applicable) • Pseudo ID • Place of Birth (Country and State) • Inmate's County of Responsibility
Eligibility and Enrollment	General Requirement	39031	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall only evaluate State MCIEP applications for State Inmate and State Medical Parole Program aid codes.
Eligibility and Enrollment	General Requirement	39032	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall have the functionality to determine eligibility for the State Inmate Program and the State Medical Parole Program aid codes as State MCIEP.
Eligibility and Enrollment	General Requirement	39033	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall have the ability to determine eligibility for the following State Inmate aid codes under State MCIEP. • N5 (Full Scope) • N6 (Restricted Scope)
Eligibility and Enrollment	General Requirement	39034	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall allow eligibility determinations under MAGI MCIEP State Inmate Medi-Cal aid code N5 when a consumer: • is an adult age 19-64 • is a U.S. citizen or has satisfactory immigration status • is at or below 138% FPL • is not enrolled or entitled to Medicare Part A and/or B • is a recipient of inpatient services off the correctional facility ground (in the past, current, or future) • is incarcerated in a state facility • is not deceased • is not pregnant • is not blind or disabled
Eligibility and Enrollment	General Requirement	39035	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall allow eligibility determinations under MAGI MCIEP State Inmate Medi-Cal aid code N6 when a consumer: • is an adult age 19-64 • is undocumented or does not have satisfactory immigration status • is at or below 138% FPL • is not enrolled or entitled to Medicare Part A and/or B • is a recipient of inpatient services off the correctional facility ground (in the past, current, or future) • is incarcerated in a state facility • is not deceased • is not pregnant • is not blind or disabled

Category	Sub Category	Req ID	Requirement
Eligibility and Enrollment	General Requirement	39036	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall have the ability to determine eligibility for the State Medical Parole aid codes under State MCIEP: • K2 (Full Scope) • K3 (Restricted Scope) • K4 (Full Scope) • K5 (Restricted Scope).
Eligibility and Enrollment	General Requirement	39037	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall allow eligibility determinations under MAGI MCIEP State Medical Parole aid code K2 when a consumer: • is an adult age 19-64 • is a citizen or has satisfactory immigration status • is at or below 138% FPL • is not pregnant • is not enrolled or entitled to Medicare Part A and/or B • is not deceased • is in Long Term Care
Eligibility and Enrollment	General Requirement	39038	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall allow eligibility determinations under MAGI MCIEP State Medical Parole aid code K2 when a consumer: • is an adult age 19-64 • is a citizen or has satisfactory immigration status • is disabled or blind • is above 128% FPL & under 138% FPL • is not pregnant • is not enrolled or entitled to Medicare Part A and/or B • is not deceased • is in Long Term Care
Eligibility and Enrollment	General Requirement	39039	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall allow eligibility determinations under MAGI MCIEP State Medical Parole aid code K3 when a consumer: • is adult age 19-64 • is undocumented or does not have satisfactory immigration status • is at or below 138% FPL • is not pregnant • is not enrolled or entitled to Medicare Part A and/or B • is not deceased • is in Long Term Care
Eligibility and Enrollment	General Requirement	39040	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall allow eligibility determinations under MAGI MCIEP State Medical Parole aid code K3 when a consumer: • is adult age 19-64 • is undocumented or does not have satisfactory immigration status • is disabled or blind • is above 128% FPL & under 138% FPL • is not pregnant • is not enrolled or entitled to Medicare Part A and/or B • is not deceased • is in Long Term Care
Eligibility and Enrollment	General Requirement	39041	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall allow eligibility determinations under MAGI MCIEP State Medical Parole aid code K4 when a consumer: • is an adult age 19-64 • is a citizen or has satisfactory immigration status • is disabled or blind • is at or below 128% FPL • is not pregnant • is not enrolled or entitled to Medicare Part A and/or B • is not deceased • is in Long Term Care

Category	Sub Category	Req ID	Requirement
Eligibility and Enrollment	General Requirement	39042	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall allow eligibility determinations under MAGI MCIEP State Medical Parole aid code K5 when a consumer: • is an adult age 19-64 • is undocumented or does not have satisfactory immigration status • is disabled or blind • is at or below 128% FPL • is not pregnant • is not enrolled or entitled to Medicare Part A and/or B • is not deceased • is in Long Term Care
Eligibility and Enrollment	General Requirement	39043	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall grant eligibility for the State Inmate Program aid codes under State MCIEP using the following effective start date rules for prospective eligibility determinations: • if application date and incarceration date fall within the same month, start date should be the date of incarceration • if incarceration date is in a month prior to the application date, start date should be the first day of the application month. • If the applicant is transitioning from a State Medical Parole aid code to a State Inmate aid code, start date should be the date following the Long Term Care End Date
Eligibility and Enrollment	General Requirement	39044	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall grant eligibility for the State Medical Parole aid codes under State MCIEP using the following effective start date rules for prospective eligibility determinations: • If the applicant is transitioning from a State Inmate aid code to Medical Parole aid code, start date should be the start date at Long Term Care Facility (LTC). • If the applicant does not have prior State MCIEP eligibility, the effective start date will be the first day of the application month.
Eligibility and Enrollment	General Requirement	39045	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall add the functionality to determine eligibility for State Inmate and Medical Parole programs within the same month when applicable.
Eligibility and Enrollment	General Requirement	39046	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall have the ability for the DHCS MCIEP staff to request a retroactive eligibility determination for State MCIEP applications.
Eligibility and Enrollment	General Requirement	39047	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall have the ability to grant closed period of eligibility for the State MCIEP up to three months prior to the application date when retroactive eligibility determination is requested.
Eligibility and Enrollment	General Requirement	39048	When retroactive eligibility determination is requested for State MCIEP and the inmate is not in a Long Term Care facility during the evaluation period, California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall grant eligibility for State Inmate aid codes based on the following rules: • if incarceration date falls within the requested benefit month, eligibility should start on the date of incarceration and end at the end of the requested benefit month • if incarceration date is in a month prior to the requested benefit month, eligibility should start on the first day of the requested benefit month • if incarceration date is in a month after the requested benefit month, the applicant will be Ineligible for the requested benefit month.
Eligibility and Enrollment	General Requirement	39049	When retroactive eligibility determination is requested for the State MCIEP and the inmate is in Long Term Care during the requested time period, California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall grant eligibility to a State Medical Parole aid code based on the following rules: • if Long Term Care start date falls within the requested benefit month, eligibility should start on the start date of Long Term Care and end at the end of the requested benefit month • if Long Term Care start date is in a month prior to the requested benefit month, eligibility should start on the first day of the requested benefit month • if Long Term Care start date is in a month after the requested benefit month, the applicant will be Ineligible for the requested benefit month.
Eligibility and Enrollment	General Requirement	39050	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall add the functionality for DHCS MCIEP staff to apply negative action reasons in the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Portal to deny or discontinue State MCIEP cases.
Eligibility and Enrollment	General Requirement	39051	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall add the following negative action reasons for denial of State MCIEP eligibility: • Withdrew application for State MCIEP and requested to not be evaluated. • Not a resident of California.
Eligibility and Enrollment	General Requirement	39052	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall add the following negative action reasons for discontinuance of State MCIEP eligibility: • Requested for State MCIEP benefits to end • Failed to complete the annual redetermination process. • Paroled from a state correctional facility and began receiving Medi-Cal on a non-MCIEP aid code. • Ex parte review completed by the county. • Not a resident of California.
Eligibility and Enrollment	General Requirement	39053	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall deny or discontinue beneficiaries from State MCIEP when they no longer meet the program eligibility criteria or when they are negative actioned.
Eligibility and Enrollment	General Requirement	39054	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall deny eligibility for State Inmate Program and State Medical Parole Programs using the following effective dating rules: • When an applicant is Ineligible and was not previously Pending, the effective date of ineligibility is the run date. • When an applicant is Ineligible and was previously Pending, the effective date of ineligibility is the previous start date of Pending eligibility.
Eligibility and Enrollment	General Requirement	39055	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall discontinue eligibility for State Inmate and State Medical Parole Programs first day of the following month when the following negative action reasons are received: • Requested for State MCIEP benefits to end. • Failed to complete the annual redetermination process. • Not a resident of California.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Eligibility and Enrollment	General Requirement	39056	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall discontinue eligibility for State Inmate Program effective on the release date when the following negative action reasons are received: Released from a state correctional facility and began receiving Medi-Cal on a non-MCIEP aid code. • Ex parte review completed by the county.
Eligibility and Enrollment	General Requirement	39057	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall discontinue eligibility for State Medical Parole Program effective first day of the following month when the following negative action reasons are received: • Released from a state correctional facility and began receiving Medi-Cal on a non-MCIEP aid code. • Ex parte review completed by the county.
Eligibility and Enrollment	General Requirement	39058	When death is reported, the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall discontinue State Inmate and State Medical Parole programs effective one day following the date of death.
Eligibility and Enrollment	General Requirement	39059	When the beneficiary no longer meets the age criteria for State Inmate or State Medical Parole Programs, the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall discontinue eligibility effective the first of the month of the beneficiary's 65th birthday.
Eligibility and Enrollment	General Requirement	39060	When the beneficiary's no longer meets the FPL requirements for State Inmate or State Medical Parole programs, the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall discontinue State Inmate or State Medical Parole programs effective on the first date of the following month subsequent to the 10 day Medi-Cal Notice of Action being met.
Eligibility and Enrollment	General Requirement	39061	When any of the following verifications are failed for a State Inmate or State Medical Parole beneficiary, the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall discontinue eligibility on the first day of the following month subsequent to the 10 day Medi-Cal Notice of Action being met. • SSN • MEC - Non ESI • Income • Medicare
Eligibility and Enrollment	General Requirement	39062	When the deceased verification is failed for a State Inmate or State Medical Parole beneficiary, the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall discontinue eligibility on the first day of the following month.
Eligibility and Enrollment	General Requirement	39063	When a beneficiary of the State MCIEP is transitioning from the State Inmate Program to the State Medical Parole Program or vice versa, the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall update the aid code.
Eligibility and Enrollment	General Requirement	39064	When a beneficiary of the State Inmate Program aid code is transitioning to the State Medical Parole Program, the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall end date the State Inmate Program aid code effective one day prior to the start date of Long Term Care.
Eligibility and Enrollment	General Requirement	39065	When a beneficiary of a State Medical Parole Program aid code is transitioning into the State Inmate Program, the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall end date the State Medical Parole Program aid code effective the end date of Long Term Care.
Eligibility and Enrollment	General Requirement	39066	When a beneficiary's aid code for the State MCIEP is updated from State Inmate Program to State Medical Parole aid code or vice versa, the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall send a discontinuance transaction (HX40) to MEDS.
Eligibility and Enrollment	General Requirement	39067	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall have the ability to protect eligibility for the State MCIEP.
Eligibility and Enrollment	General Requirement	39068	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system will protect eligibility for the State Inmate program aid codes if the selection value for any of the following elements change for the inmate: • State Facility indicator • Pregnancy status
Eligibility and Enrollment	General Requirement	39069	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system will protect eligibility for the State Inmate program aid codes when the following verifications are failed: • Residency
Eligibility and Enrollment	General Requirement	39070	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System will protect eligibility for the Medical Parole program aid codes if the selection value for any of the following elements change for the inmate: • Pregnancy Status
Eligibility and Enrollment	General Requirement	39071	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system will protect eligibility for the Medical Parole program aid codes when the following verifications are failed: • Residency
Eligibility and Enrollment	General Requirement	39072	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the ability to automatically discontinue beneficiaries who no longer meet the age requirements for State MCIEP.
Eligibility and Enrollment	General Requirement	39073	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall create new messaging on the Eligibility Results page for the State MCEIP.
Eligibility and Enrollment	General Requirement	39074	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall update the budget worksheet to include the State MCIEP budget.
Eligibility and Enrollment	General Requirement	39075	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall suppress all Non MAGI referrals from the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system for the State MCIEP cases.
Eligibility and Enrollment	General Requirement	39076	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall have the ability to identify and send to MEDS the aid codes relevant to the State Inmate or State Medical Parole Programs.
Eligibility and Enrollment	General Requirement	39077	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall update the following MEDS transactions for the State MCIEP: HX12, HX18, HX34, HX40, HX20 ESAC-1, HX20 ESAC-2.
Eligibility and Enrollment	General Requirement	39078	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall send 'Place of Birth' (Country and State) on the HX18, if present.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Eligibility and Enrollment	General Requirement	39079	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall send date of death on the following MEDS transactions when date of death is reported for the State Inmate: HX12, HX18, HX40.
Eligibility and Enrollment	General Requirement	39080	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall send Pseudo ID in lieu of the SSN on the following MEDS transactions whenever SSN is unavailable and Pseudo ID is available: Identify Member, HX12, HX18, HX34, HX40, HX20 ESAC-1, HX20 ESAC-2.
Eligibility and Enrollment	General Requirement	39081	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall send the DHCS MCIEP entered County of Responsibility (not the residence address) as the County of Responsibility for the following transactions: HX12, HX18, HX20, HX34, HX40.
Eligibility and Enrollment	General Requirement	39082	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System will start sending HX20 ESAC-6 and HX20 ESAC-7 for closed period retroactive determinations for State MCIEP.
Eligibility and Enrollment	General Requirement	39083	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System will send effective start and end dates, termination dates and termination reason on the HX20 ESAC-6 and HX20 ESAC-7.
Eligibility and Enrollment	General Requirement	39084	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall display MEDS alerts for HX20 ESAC-6 and HX20 ESAC-7.
Eligibility and Enrollment	General Requirement	39085	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall send HX34 to MEDS when State MCIEP eligibility goes from Pending to Ineligible.
Eligibility and Enrollment	General Requirement	39086	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall send the appropriate denial reasons to MEDS for State MCIEP.
Eligibility and Enrollment	General Requirement	39087	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall send the appropriate discontinuance reasons on HX40 to MEDS.
Eligibility and Enrollment	General Requirement	39088	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall add renewal functionality for the State MCIEP.
Eligibility and Enrollment	General Requirement	39089	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall determine the State MCIEP renewal date as the last date of the twelfth month of State MCIEP coverage from the date eligibility was granted.
Eligibility and Enrollment	General Requirement	39090	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall add the functionality for DHCS MCIEP staff to indicate that the manual renewal process is complete.
Eligibility and Enrollment	General Requirement	39094	When any of the following verifications are failed for State MCIEP applicant without prior State Inmate or State Medical Parole program eligibility, the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall deny eligibility. • SSN • MEC - Non ESI • Income • Deceased • Medicare
Eligibility and Enrollment	General Requirement	39095	At Renewals, California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall verify income, deceased, and Medicare verifications.
Eligibility and Enrollment	General Requirement	39096	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall enable 'Apply Now' mode on State MCIEP cases after eligibility is no longer effective on the case.
Eligibility and Enrollment	General Requirement	39119	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall suppress the following calls to the FDSH: Incarceration Verification, MEDS MEC, MEC - ESI, and VLP for State MCIEP.
Eligibility and Enrollment	General Requirement	39120	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall grant coverage for State MCIEP cases regardless of any other existing aid code in MEDS.
Eligibility and Enrollment	General Requirement	39121	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall pend eligibility when there's a discrepancy between the applicant's attested information and the response from the SSA and VLP verification service.
Eligibility and Enrollment	General Requirement	39167	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use the ESI-MEC service response for eligibility purposes.
Eligibility and Enrollment	General Requirement	39180	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall log the reason for making or not making Income services call (IRS, EDD and FTB) based on the income verification caching rules.
Eligibility and Enrollment	General Requirement	39192	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall produce an Eligibility Evaluation Reason for MAGI Medi-Cal individuals determined ineligible or discontinued for MAGI Medi-Cal because of the dependency of another MAGI Medi-Cal household member's projected annual or current monthly income that is administratively assigned as not verified.
Eligibility and Enrollment	General Requirement	39196	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add consumer messaging in the Eligibility Results page for Parent/Caretaker Relative individuals with an FPL greater than 114% up to and including 138% who are discontinued/ineligible for MAGI Medi-Cal because a dependent child who lives in the home does not have minimum essential coverage (MEC).
Eligibility and Enrollment	General Requirement	39198	Enter requirement text.
Eligibility and Enrollment	General Requirement	39200	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall display the dropdown menu for Immigration Status before the dropdown menu for Immigration Document Type.
Eligibility and Enrollment	General Requirement	39201	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall update the system validation for the Receipt or Card Number field to only allow the User to enter the number as first 3 characters as alpha the rest as numeric for a total of 13 characters to proceed with submission.
Eligibility and Enrollment	General Requirement	39203	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall be updated to only allow numeric values in the Alien Number field to proceed with submission.

Appendix A-4 - SOW Exhibit A - System Requirements Specification

OTSI CalHEERS RFP #73040873 Addendum 1
October 31, 2025

Category	Sub Category	Req ID	Requirement
Eligibility and Enrollment	General Requirement	39208	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall not display the Change Log in Report A Change Application flow
Eligibility and Enrollment	General Requirement	39209	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall allow the consumer to provide Change Reason for Remove a Member Application flow.
Eligibility and Enrollment	General Requirement	39214	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the Secure Mailbox link to Consumers and Authorized Representatives on the Account Home page.
Eligibility and Enrollment	General Requirement	39243	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall include cover page with NOD01 when at least one household member is conditional eligible.
Eligibility and Enrollment	General Requirement	39244	The cover page shall be the first page of the notice for the NOD01.
Eligibility and Enrollment	General Requirement	39245	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall include cover page with NOD03 when at least one household member is conditional eligible.
Eligibility and Enrollment	General Requirement	39246	The cover page shall be the first page of the notice for the NOD03.
Eligibility and Enrollment	General Requirement	39249	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send a DER-U when case data triggers eligibility, or there is a change in aid code or eligibility status for any individual on the case.
Eligibility and Enrollment	General Requirement	39250	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the functionality for income begin dates to ensure that we capture current calendar year income and open enrollment benefit year income information during OEP.
Eligibility and Enrollment	General Requirement	39251	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have functionality for all users to access and submit current year RAC while case is in renewal mode.
Eligibility and Enrollment	General Requirement	39252	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add the consent for verification dropdown on the sign and submit page for Report a Change.
Eligibility and Enrollment	General Requirement	39253	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall prompt consumers who discontinue/terminate enrollment in current benefit year after passive or active renewal to confirm intent to discontinue/terminate enrollment for the next benefit year coverage.
Eligibility and Enrollment	General Requirement	39254	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate ad-hoc reports from DW instead of requesting from OBIEE.
Eligibility and Enrollment	General Requirement	39255	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow non-Admin user to apply for the current year from open enrollment start date to 12/31 of current benefit year.
Eligibility and Enrollment	General Requirement	39257	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall process the Passive Renewal Simulation prior to Passive Renewals starting in Production to identify unknown issues.
Eligibility and Enrollment	General Requirement	39258	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not call EDD or FTB at passive renewal when no consent for verification is on file.
Eligibility and Enrollment	General Requirement	39259	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the change plan effective date for enrollment extension.
Eligibility and Enrollment	General Requirement	39260	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the corresponding dates on the eligibility results page during open enrollment period from the enrollment extension date page.
Eligibility and Enrollment	General Requirement	39261	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality for FTR Codes to be configurable so that they can be turned on or off independently of each other.
Eligibility and Enrollment	General Requirement	39262	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have functionality to update the new Extension page to include -Open Enrollment-Begin and End dates -Renewal Begin and End Dates -Preview Plan-Start Date -RAC-End Date for Prior year -Over finish line-date
Eligibility and Enrollment	General Requirement	39263	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have a configurable date for the consumer home page based on enrollment extension periods.
Eligibility and Enrollment	General Requirement	39264	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall update the fair share adjustment percentage amount for the benefit year 2019.
Eligibility and Enrollment	General Requirement	39265	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall populate the renewal due date as [Renewal end date - 2 days] if the case is flagged for the last batch sweep at the time that the NOD12 is generated or NOD12 has not been generated and system date is greater than Renewal start date + 30 days.
Eligibility and Enrollment	General Requirement	39280	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall grant AI/AN limited cost sharing for AI/AN members when consent for electronic verification is not on file.
Eligibility and Enrollment	General Requirement	39281	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall request and store the SSA Title II for monthly and annual income and disabled person indicator in RRV batch.
Eligibility and Enrollment	General Requirement	39289	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall systematically verify outstanding verification documents via the DIVS.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Eligibility and Enrollment	General Requirement	39290	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall verify only documents with a category of 'Manual Verifications' that are from the 'Print / Mail' vendor.
Eligibility and Enrollment	General Requirement	39291	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall systematically verify conditional eligibility verification documents of any category or type if uploaded from the portal.
Eligibility and Enrollment	General Requirement	39292	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall send multiple individuals with multiple outstanding verifications in a single request.
Eligibility and Enrollment	General Requirement	39293	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall define a separate case match rule for each document type.
Eligibility and Enrollment	General Requirement	39294	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall associate the document to the match case.
Eligibility and Enrollment	General Requirement	39295	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall provide case and individual information for the DIVS to verify the supplied documentation.
Eligibility and Enrollment	General Requirement	39296	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall receive a 'Pass' or 'Cannot Verify' response to a request for verification from the DIVS.
Eligibility and Enrollment	General Requirement	39297	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall store a response of 'Cannot Verify' and reason and display on the portal from the DIVS.
Eligibility and Enrollment	General Requirement	39298	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall generate a BPM Manual Verification task if the DIVS returns a 'Cannot Verify' response.
Eligibility and Enrollment	General Requirement	39299	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall store the reason for the failed verification and display on the screen portal.
Eligibility and Enrollment	General Requirement	39300	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall mark the verification as 'Pass' when 'Pass' is sent from the DIVS.
Eligibility and Enrollment	General Requirement	39301	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall store the 'Pass' received from the DIVS.
Eligibility and Enrollment	General Requirement	39302	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall follow all other existing Verification Caching rules when the BRE is triggered.
Eligibility and Enrollment	General Requirement	39305	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall use certificate authentication for the encrypted webservice transactions.
Eligibility and Enrollment	General Requirement	39306	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall receive a search request from DIVS to be utilized to locate Case/Verification Data.
Eligibility and Enrollment	General Requirement	39307	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall return search result to DIVS including relevant case information or a result indicating no case found.
Eligibility and Enrollment	General Requirement	39308	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall receive encrypted web service transaction from DIVS for search request.
Eligibility and Enrollment	General Requirement	39459	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall e-verify \$ 0 (zero) or no value attested income when all of the following responses are received: - SSN is e-verified from SSA, and - SSA Title II Monthly Income Information Indicator is False, and - SSA Title II Annual Income Information Indicator is False, and - IRS response is ""No tax return found"", and - FTB response is ""No Record Found"", and - EDD response is ""No Record Found"".
Eligibility and Enrollment	General Requirement	39465	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall count the taxable portion of the following income types for MAGI Medi-Cal and APTC/CSR determinations: Education scholarships, awards, and fellowship grants used for living expenses.
Eligibility and Enrollment	General Requirement	39526	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the messaging in the Shop and Compare pages to include information for State Subsidy.
Eligibility and Enrollment	General Requirement	39527	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall calculate preliminary eligibility results for the State Subsidy in the Shop and Compare tool.
Eligibility and Enrollment	General Requirement	39528	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display preliminary eligibility results for the State Subsidy in the Shop and Compare tool.
Eligibility and Enrollment	General Requirement	39529	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall freeze the State Subsidy amount for consumers in Carry Forward Status as it currently freezes the APTC amount.
Eligibility and Enrollment	General Requirement	39530	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use the existing QHP eligibility requirements when determining eligibility for the State Subsidy.
Eligibility and Enrollment	General Requirement	39531	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall require that consumers meet the APTC/CSR eligibility requirements with the exception of FPL levels in order to be eligible for the new State Subsidy.
Eligibility and Enrollment	General Requirement	39532	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall calculate eligibility for the State Subsidy amount based on >200% to <=400% of the Federal Poverty Level (FPL).

Category	Sub Category	Req ID	Requirement
Eligibility and Enrollment	General Requirement	39533	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall calculate eligibility for the State Subsidy amount based on >400% to <=600% of the Federal Poverty Level (FPL).
Eligibility and Enrollment	General Requirement	39534	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall freeze the State Subsidy amount for consumers in QHP Hold as it currently freezes the APTC amount.
Eligibility and Enrollment	General Requirement	39535	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall require that consumers apply for an Insurance Affordability Program (IAP) with a subsidized application in order to be eligible for a State Subsidy.
Eligibility and Enrollment	General Requirement	40896	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display MCAP phone number on Account Homepage when at least one household member is Pending for MCAP.
Eligibility and Enrollment	General Requirement	41032	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall allow the SCR, CEW, Agent, CEC and PBE to enter or modify the Consumer's designation of an Authorized Representative when the Consumer has or has not created an account.
Eligibility and Enrollment	General Requirement	41378	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall include an Automatic Plan Selection indicator and APS Effective Date at an individual level in Account Transfer to determine whether a consumer meets the criteria for auto-enrollment.
Eligibility and Enrollment	General Requirement	41412	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the FPL values for 2022 based on the FPL guidelines received for 2022 from DHCS.
Eligibility and Enrollment	General Requirement	41743	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall have the functionality to determine MAGI-Based Medi-Cal eligibility, based on defined rules from DHCS, for Pre-Affordable Care Act (ACA) Medi-Cal cases for a Pre-ACA annual renewal received from SAWS via eHIT.
Eligibility and Enrollment	General Requirement	41744	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall have the functionality to determine MAGI-Based Medi-Cal eligibility, based on defined rules from DHCS, for Pre-Affordable Care Act (ACA) Medi-Cal members/cases for a Change in Circumstances received from SAWS via eHIT.
Eligibility and Enrollment	General Requirement	41745	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall have the functionality to return eligibility determinations to SAWS via eHit.
Eligibility and Enrollment	General Requirement	41931	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall include a DHCS specific Federal Poverty Levels (FPLs) table.
Eligibility and Enrollment	General Requirement	42004	The Vendor shall update the DHCS specific FPLs table annually as directed by DHCS.
Eligibility and Enrollment	General Requirement	42156	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall insert a skip reason into HBX_ELIG_REDETERM_STAGING table for cases which are skipped from BAT10A (Passive Renewal Eligibility Determination) due to having terminated/canceled enrollments.
Eligibility and Enrollment	General Requirement	42290	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall exclude the Non Hyde Abortion portion of premium from the Benchmark Premium amount when calculating subsidies in anonymous shop and compare.
Eligibility and Enrollment	General Requirement	42461	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall have the functionality to accept negative actions, as defined in the Negative Action design, via eHIT Eligibility Determination Requests (EDRs) from SAWS.
Eligibility and Enrollment	General Requirement	42462	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall have the functionality to deny pending MAGI-Based Medi-Cal applicants with pending eligibility status for which negative actions are received via SAWS EDR transactions.
Eligibility and Enrollment	General Requirement	42463	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall have the functionality to discontinue conditionally eligible or eligible MAGI-Based Medi-Cal beneficiaries for prospective months for which negative actions are received via SAWS EDR transactions.
Eligibility and Enrollment	General Requirement	42464	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall generate a single Denial Notice Of Action (CalNOD02) for a MAGI-Based Medi-Cal applicant with pending eligibility status for which a negative action is received and the individual has been denied.
Eligibility and Enrollment	General Requirement	42465	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall generate a single Discontinuance Notice Of Action (CalNOD02) for conditionally eligible or eligible MAGI-Based Medi-Cal beneficiaries for which a negative action has been processed and the individual has been discontinued.
Eligibility and Enrollment	General Requirement	42466	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall accept the following codes via EDR transactions from SAWS as valid individual-level negative action run reasons for denial of MAGI-Based Medi-Cal applicants with pending eligibility status: 09 - Application Opened in Error CR - Child Applied for Self 10 - Duplicate Application 18 - Written Withdrawal IZ - Receives SSI 16 - Failed to Complete Determination CN - On Aid Another Case 07 - Whereabouts Unknown 85 - Deceased IY - California Residency

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Eligibility and Enrollment			The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall accept the following codes via EDR transactions from SAWS as valid individual-level negative action run reasons for discontinuance of conditionally eligible or eligible MAGI-Based Medi-Cal beneficiaries : KI - Deemed Child - Fam ReApp RD - Failed to Complete Redetermination K4 - Requested Disc. - Written C9 - Stop Aid for Optional Member CH - TMC Report Incomplete CG - TMC Report Not Recvd E4 - Non-Payment of Premium CN - On Aid Another Case 07 - Whereabouts Unknown 85 - Deceased IY - California Residency
	General Requirement	42467	
Eligibility and Enrollment	General Requirement	42468	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall accept CR (Child Applied for Self) via EDR transactions from SAWS as a valid individual-level negative action run reason for denial or discontinuance of all Exchange programs.
Eligibility and Enrollment	General Requirement	42470	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall bypass the 10-day notice period requirement for negative action denials of MAGI-Based Medi-Cal applicants with pending eligibility status.
Eligibility and Enrollment	General Requirement	42471	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall observe a 10-day notice period (10 calendar days from the last day of the current month) prior to discontinuing benefits for a current conditionally eligible or eligible MAGI-Based Medi-Cal beneficiary.
Eligibility and Enrollment	General Requirement	42472	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall process eligibility determination requests as continuing for individuals when the negative action run reason code for the individual is sent after the 10-day notice period cut-off.
Eligibility and Enrollment			The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall not observe a 10-day notice period (10 calendar days from the last day of the current month) prior to discontinuing benefits for a current conditionally eligible or eligible MAGI-Based Medi-Cal beneficiary if one of the following individual level negative action run reason codes is provided for at least one member in the household: 85 - Deceased K4 - Requested Disc. - Written CN - On Aid Another Case 07 - Whereabouts Unknown IY - California Residency
	General Requirement	42473	
Eligibility and Enrollment	General Requirement	42474	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall exclude MAGI-Based Medi-Cal applicants from ongoing CalNOD02 notices after a negative action has been processed for the applicant.
Eligibility and Enrollment	General Requirement	42475	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall exclude conditionally eligible or eligible MAGI-Based Medi-Cal beneficiaries from ongoing CalNOD02 notices after a negative action has been processed for the beneficiary.
Eligibility and Enrollment			The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall continue to generate CalNOD02 notices for conditionally eligible or eligible MAGI-Based Medi-Cal beneficiaries for which: - No negative action has been received or - Their negative action has been cleared
	General Requirement	42476	
Eligibility and Enrollment	General Requirement	42477	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall deny pending MAGI-Based Medi-Cal eligibility or conditional eligibility to 8E, from the requested benefit month forward if the requested benefit month is equal to or after the application month.
Eligibility and Enrollment	General Requirement	42478	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall deny pending MAGI-Based Medi-Cal eligibility or conditional eligibility to 8E, for only the requested benefit month if the requested benefit month is before the application month.
Eligibility and Enrollment	General Requirement	42486	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall evaluate a non-custodial child's eligibility on a non-custodial parent's Insurance Affordability Programs (IAPs) application for APTC only and if determined eligible for APTC/QHP enrollment, enroll the non-custodial child in APTC/QHP.
Eligibility and Enrollment	General Requirement	42487	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall not evaluate a non-custodial child's eligibility on a non-custodial parent's IAPs for Medi-Cal health insurance benefits.
Eligibility and Enrollment	General Requirement	42488	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall deny applicants who receive Medicare for all Covered California Plans.
Eligibility and Enrollment	General Requirement	42633	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall display the question: "Are you expecting any changes to your current health care coverage?" on the Health Care Page during initial Insurance Affordability Programs applications and Report A Change.
Eligibility and Enrollment			The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall display as an option: "I do not qualify for a SSN" as per regulations a. 435.907(h)(1)(i) exception applies to individuals not eligible to receive an SSN. The b. 435.907(h)(1)(ii) exception applies to individuals who do not have an SSN and may only be issued an SSN for a valid non-work reason in accordance with 20 CFR 422.104.
	General Requirement	42634	
Eligibility and Enrollment	General Requirement	42635	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall use taxable income in the calculation for MAGI-Based M/C program eligibility.
Eligibility and Enrollment	General Requirement	42636	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall use taxable income in the calculation for APTC/CSR program eligibility.

Category	Sub Category	Req ID	Requirement
Eligibility and Enrollment	General Requirement	42637	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall update messaging on application income pages to better guide consumers towards accurate completion of these pages.
Eligibility and Enrollment	General Requirement	42638	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall update messaging on application deduction pages to better guide consumers towards accurate completion of these pages.
Eligibility and Enrollment	General Requirement	42639	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall use non-taxable interest income, non-taxable social security benefits and non-taxable foreign earned income in the calculation for APTC/CSR program eligibility.
Eligibility and Enrollment	General Requirement	42640	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall restrict the lump sum frequency to only “Other Income” types.
Eligibility and Enrollment	General Requirement	42641	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall collect projected yearly income data at the person level.
Eligibility and Enrollment	General Requirement	42642	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall use projected yearly income data at the person level in the APTC calculation when projected yearly income data is collected.
Eligibility and Enrollment	General Requirement	42643	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall display "Yes" and "No" radio buttons next to the question "Are you expecting any changes to your current health care coverage?" on the Health Care Page.
Eligibility and Enrollment	General Requirement	42644	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall use allowable deduction types in the calculation for MAGI-Based M/C program eligibility: Alimony Paid Student Loan Interest Other Business expenses of reservists, performing artists, etc. Deductible part of self-employment tax Domestic production activities Educator expenses Health Savings Account Hobby income expenses, or expenses from an activity you did not expect to see a profit IRA deduction Moving expenses Penalty on early withdrawal of savings Rental of personal property expenses Self-employed health insurance deduction Self-employed SEP, Simple, and qualified deduction Tuition and fees paid by individual (not paid by financial aid)
Eligibility and Enrollment	General Requirement	42645	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall use allowable deduction types in the calculation for APTC program eligibility.
Eligibility and Enrollment	General Requirement	42646	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall use projected annual income for the calendar year as the basis of financial eligibility for Medi-Cal beneficiaries. As required by CMS approved MAGI SPA 13-0023.
Eligibility and Enrollment	General Requirement	42647	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall use the projected annual income in all Renewals after the implementation of this functionality.

Category	Sub Category	Req ID	Requirement
Eligibility and Enrollment		42649	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall validate Email with the following rules. Email: - Minimum of 1 character (if required) and maximum of 50 characters - Name - If there is a period, first characters prior to first period character (any combination of) - Underscores - Lower case letters - Upper case letters - Digits 0 through 9 - Hyphens - Rest of name (any combination of) - Periods - Underscores - Lower case letters - Upper case letters - Digits 0 through 9 - Hyphens - @ symbol - Domain name (any combination of) - If there is a period, prior to first period - Lower case letters - Upper case letters - Digits 0 through 9 - Hyphens - After first period (any combination of) - Periods - Lower case letters - Upper case letters - Digits 0 through 9 - Hyphens - Extension (last period precedes extension) - 2 to 4 lower case letters or upper case letters for example ('com', 'net', 'org', etc.)
	General Requirement		
Eligibility and Enrollment		42650	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall validate Address Line 1, Address Line 2 with the following rules. Address Line 1 and Address Line 2 (any combination of): • Minimum of 1 character (if required) and maximum of 50 characters • Digits 0 to 9 • Lower case letters • Upper case letters • Periods • Apostrophes • Hyphens • Commas • Spaces • Forward Slash • Backward Slash • Number Sign (#)
	General Requirement		
Eligibility and Enrollment	General Requirement	42666	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall display the AI/AN-specific income types to AI/AN consumers.
Eligibility and Enrollment	General Requirement	42667	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall not use AI/AN-specific income types in the calculation for MAGI-Based M/C program eligibility.
Eligibility and Enrollment	General Requirement	42668	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall use AI/AN-specific income types in the calculation for APTC program eligibility.
Eligibility and Enrollment	General Requirement	42669	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall project the annual income based on monthly income when projected annual income is not present.
Eligibility and Enrollment	General Requirement	42670	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall use the income as reported and use effective dating to calculate Magi-Medi-Cal eligibility when a change of income is reported or during renewal.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

OTSI CalHEERS RFP #73040873 Addendum 1
October 31, 2025

Category	Sub Category	Req ID	Requirement
Eligibility and Enrollment	General Requirement	42671	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall offer the consumer the opportunity to enter PAI. The PAI when PAI is present when determining Medi-Cal eligibility for both applicants and beneficiaries. As per CMS approved MAGI SPA 13-0023.
Eligibility and Enrollment	General Requirement	42672	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall display "Date of change" with a date field when the "Yes" radio button is selected to the question "Are you expecting any changes to your current health care coverage?"
Eligibility and Enrollment	General Requirement	42673	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall update eHIT schema to SAWS when a consumer reports a future increase or decrease in income.
Eligibility and Enrollment	General Requirement	42674	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall not annualize lump sum income when reported in the month of application or a retro-active month of application.
Eligibility and Enrollment	General Requirement	42675	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall use Lump Sum income when reported in the month of application or in a retro-active month as income only in the month received.
Eligibility and Enrollment	General Requirement	42676	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall display the question "Is this person expected to be required to file taxes?" to all members on the application without any conditions.
Eligibility and Enrollment	General Requirement	42677	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall require all members of the application to complete the question "Is this person expected to be required to file taxes?"
Eligibility and Enrollment	General Requirement	42678	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall display an error message and prevent the applicant from proceeding from the tax filing page when an applicant selects Head of Household as a filing status and claims to be a dependent of another tax payer.
Eligibility and Enrollment	General Requirement	42679	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall prevent married applicants from on spouse selecting married filing jointly as a filing status and the other spouse does not select married filing jointly as their filing status but instead selects a different filing status.
Eligibility and Enrollment	General Requirement	42680	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall display an error message and prevent the applicant from proceeding from the tax filing page when a married applicant selects married filing jointly as a filing status and their spouse does not select married filing jointly as their filing status but instead select a different filing status.
Eligibility and Enrollment	General Requirement	42681	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall require the question "Does this person receive Medicare benefits?" of all applicants regardless if they are requesting assistance for paying for health insurance or requesting unsubsidized health insurance.
Eligibility and Enrollment	General Requirement	42682	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall update the streamlined application by removing the question "Is this person a naturalized citizen.
Eligibility and Enrollment	General Requirement	42683	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall have functionality that prevents actual plan effectuation to occur on a date < / = to the end date entered for "Date of change" next to the question "Are you expecting any changes to your current health care coverage? When "Yes" has been selected and the date of change is entered in the end date field.
Eligibility and Enrollment	General Requirement	42684	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall display a link on the "Get Help with Costs" page to inform a parent of a deemed infant the proper steps to obtain coverage for that child.
Eligibility and Enrollment	General Requirement	42685	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall ask the following questions relating to Employer Sponsored Insurance for subsidy applicants: 1) Name 2) Whether the plan meets minimum value standard 3) How much an employee pays in premiums for the lowest cost plan? 4) How frequently an employee premium is paid on the plan (choose from Weekly, Every 2 weeks, Quarterly, Monthly, Twice a month, Yearly
Eligibility and Enrollment	General Requirement	42686	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall display the following text relating to Employer Sponsored Insurance: "What's the name of the lowest-cost, self-only health plan this employee could enroll in at this job? Consider only those plans that meet the minimum value standard* set by the Federal Patient Protection and Affordable Care Act of 2010. If you're not sure, ask your health insurance issuer."
Eligibility and Enrollment	General Requirement	42687	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall display the following help text relating to Employer Sponsored Insurance: "Minimum value standard means that a plan pays at least 60% of the total cost of plan benefits provided to the employee. (Section 36B(c)(2)(C)(ii) of the Internal Revenue Code of 1986)".
Eligibility and Enrollment	General Requirement	42688	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall not ask for prior year tax filing status information.
Eligibility and Enrollment	General Requirement	42689	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall create a page at the beginning of the single streamlined application flow that displays the first question of the application, do you want help paying for your health insurance?
Eligibility and Enrollment	General Requirement	42690	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall include the functionality to change the application type to either Subsidized or Unsubsidized.
Eligibility and Enrollment	General Requirement	42691	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall Update to a single collection method of Social Security Numbers (SSNs) three connected boxes, first box takes 3 numbers, second box takes 2 numbers, third box takes 4 numbers.
Eligibility and Enrollment	General Requirement	42692	Update to a single collection labeling format for Date of Birth (DOB) collection format to be MM/DD/YYYY.
Eligibility and Enrollment	General Requirement	42693	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall Create links within the Application pages that redirect to specific information dealing with the question(s) on the page, providing greater detail on the nature of the question. These links will be hosted outside of California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) but presented during the application process, allowing for the information to be updated on an as-needed basis based on feedback and other criteria.
Eligibility and Enrollment	General Requirement	42694	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall allow a future date to be entered into the "Date of change" date field next to the question "Are you expecting any changes to your current health care coverage? When "Yes" has been selected.
Eligibility and Enrollment	General Requirement	42695	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall allow a user to enter the Termination Date of their source of MEC.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Eligibility and Enrollment	General Requirement	42696	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall remove the exemption for a Child under the age of one (1) from providing a social security card (SSN). (435.907(h)(1)(iii) exception applies to individuals who refuse to obtain an SSN because of well-established religious objections.) This would include parents or caretaker relatives who refuse to apply for an infant's SSN because of well-established religious objection.
Eligibility and Enrollment	General Requirement	42697	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall add a reason of - "I have applied for a SSN".
Eligibility and Enrollment	General Requirement	42698	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall display a space for the consumer to enter ATIN.
Eligibility and Enrollment	General Requirement	42699	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall display a space for the consumer to enter the ITIN.
Eligibility and Enrollment	General Requirement	42886	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System must provide the functionality to allow the Service Center Representative (SCR) and County Eligibility Worker (CEW) and/or any Covered CA designated roles to skip mandatory fields in California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) when assisting the Consumer.
Eligibility and Enrollment	General Requirement	42897	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) allow for selection of SEP Reason 'Informed of Penalty'
Eligibility and Enrollment	General Requirement	42935	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall include all individuals from a MAGI-Based Medi-Cal or Mixed Household case on a single Discontinuance or Denial Notice of Action (CALNOD02) for which a change in eligibility has been determined.
Eligibility and Enrollment	General Requirement	42936	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall send a DER with the program eligibility status for the benefit month for which eligibility has been determined.
Eligibility and Enrollment	General Requirement	42937	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall maintain, and continue to apply, individual-level negative action run reason codes received via SAWS EDR for MAGI-Based Medi-Cal individuals until the negative action is removed from the individual.
Eligibility and Enrollment	General Requirement	42938	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall allow County Eligibility Workers (CEWs), and users within the same security group, to remove an existing individual-level negative action run reason code in California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) for individuals with MAGI-Based Medi-Cal.
Eligibility and Enrollment	General Requirement	42939	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall have the functionality to remove an existing individual-level negative action run reason code in California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) when an EDR transaction from SAWS is received with the individual-level negative action run reason code absent from the request.
Eligibility and Enrollment	General Requirement	42940	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall only evaluate eligibility for APTC and CSR programs if a negative action is received from SAWS, and the individual is outside of the income range for Full Scope MAGI-Based Medi-Cal.
Eligibility and Enrollment	General Requirement	42941	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall display messaging to the consumer on the eligibility results page, informing them of their eligibility status and the reason for the negative action.
Eligibility and Enrollment	General Requirement	42942	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) and SAWS shall process eligibility requests (EDR) and responses (DER) to retain the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) determined future program eligibility status up to high date in both systems for all applicants or beneficiaries on a MAGI-Based Medi-Cal and mixed household case.
Eligibility and Enrollment	General Requirement	42945	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall maintain the existing verification and caching end dates when a negative action has been processed and an individual on the case has been denied or discontinued from MAGI-Based Medi-Cal.
Eligibility and Enrollment	General Requirement	42946	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall display Apply Now to the consumer on the individual landing page when a negative action has been processed and all individuals on the case have been denied or discontinued from MAGI based Medi-Cal
Eligibility and Enrollment	General Requirement	42947	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall display Report a Change to the consumer on the individual landing page when a negative action has been processed and an individual on the case has been denied or discontinued from MAGI based Medi-Cal, but one or more members on the case have an active eligibility determination.
Eligibility and Enrollment	General Requirement	42948	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall generate the CaINOD02 for the benefit month.
Eligibility and Enrollment	General Requirement	42949	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall generate a report which includes Negative Actions sent from SAWS on mixed household cases which include at least one MAGI Medi-Cal consumer.
Eligibility and Enrollment	General Requirement	42950	The CALHEERS System shall have the functionality to process negative action denials and discontinuances for MAGI-Based Medi-Cal applicants and beneficiaries based on program eligibility status.
Eligibility and Enrollment	General Requirement	42951	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall have the functionality to deny MAGI Medi-Cal eligibility for children who are conditionally eligible and granted Accelerated Enrollment aid code 8E.
Eligibility and Enrollment	General Requirement	44523	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to perform an Eligibility Simulation for the State Subsidy Program prior to Renewals start date.
Eligibility and Enrollment	General Requirement	45969	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall close renewal mode and change any in progress RRC to in-progress RAC application and keep the case in RAC mode when a user accesses the Account Home page after submitting renewal application and selecting both Health and Dental plans for the future benefit year.
Eligibility and Enrollment	General Requirement	45970	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall close renewal mode and change any in progress RRC to in-progress RAC application and keep the case in RAC mode when an Admin user accesses the Household Verifications page after submitting renewal application and selecting both Health and Dental plans for the future benefit year.
Eligibility and Enrollment	General Requirement	47134	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall change the Reasonable compatibility % computation for APTC/CAPS/CSR consumers to use the difference between the income amount received from electronic sources and the attested income over the e-source income amount when determining eligibility for APTC/CAPS/CSR.
Eligibility and Enrollment	General Requirement	47135	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create a new page that allows authorized users to configure reasonable compatibility threshold % and threshold dollar amount.
Eligibility and Enrollment	General Requirement	47136	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use a configurable % as the threshold for the reasonable compatibility test for income when determining eligibility for APTC/CAPS/CSR consumers.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

OTSI CalHEERS RFP #73040873 Addendum 1
October 31, 2025

Category	Sub Category	Req ID	Requirement
Eligibility and Enrollment	General Requirement	47137	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall make the reasonable compatibility percentage configurable by benefit year for APTC/CAPS/CSR consumers.
Eligibility and Enrollment	General Requirement	47138	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement the use of a configurable threshold dollar amount to evaluate reasonable compatibility test for income when determining eligibility for APTC/CAPS/CSR
Eligibility and Enrollment	General Requirement	47139	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall make the reasonable compatibility threshold dollar amount configurable by benefit year for APTC/CAPS/CSR consumers.
Eligibility and Enrollment	General Requirement	47140	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall evaluate a household as reasonably compatible for income for exchange financial assistance programs (APTC/CAPS/CSR) if the income from sources is found to be reasonably compatible by using either the threshold percentage or the threshold dollar amount.
Eligibility and Enrollment	General Requirement	47141	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall evaluate a household member as reasonably compatible for income for exchange financial assistance programs (APTC/CSR) if the response code from IRS is "Return information is unavailable"
Eligibility and Enrollment	General Requirement	47142	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide an indicator when Household Income - Subsidy is e-verified as a result of a "Return information is unavailable"
Eligibility and Enrollment	General Requirement	47143	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create a new SEP configuration page.
Eligibility and Enrollment	General Requirement	47144	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have capability to make updates to existing SEP reasons on new SEP Configuration page.
Eligibility and Enrollment	General Requirement	47145	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have capability to enable an existing Placeholder SEP reason on new SEP Configuration page.
Eligibility and Enrollment	General Requirement	47146	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add configurability in number of days for SEP expiration date for each of the QLE reason.
Eligibility and Enrollment	General Requirement	47147	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) BRE shall calculate the SEP End Date (Plan Selection End Date) using the configurable number of days for the QLE that was evaluated by the BRE run and using the most advantageous SEP End Date (Plan Selection End Date) logic when multiple QLE's are active.
Eligibility and Enrollment	General Requirement	47148	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) portal shall display the appropriate SEP End Date (Plan Selection End Date) by default based on the configurable number of days for the QLE that was evaluated by the BRE run. Impacted Pages: Basic Information – Special Enrollment Page Report a Change – Special Enrollment Page Admin Portal – Change Special Enrollment Period Type Page Admin Portal – Open Plan Shopping Window Page Household Verifications Page
Eligibility and Enrollment	General Requirement	47149	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) portal shall display the appropriate SEP End Date (Plan Selection End Date) based on the QLE that was evaluated by the BRE run and using the most advantageous SEP End Date (Plan Selection End Date) logic when multiple QLE's are active. Impacted Pages: Account Home – Household Summary Page Eligibility Results Summary Page Individual Eligibility Details Page MCT Dashboard
Eligibility and Enrollment	General Requirement	47150	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall remove 60 days static text for SEP days from snippets displayed on California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) portal. Impacted Pages: Basic Information – Special Enrollment Page RAC/Renewal – Special Enrollment Page Account Home – Important Dates Section Account Home - Household Summary Section Individual Eligibility Details Page Plan Selection Not Available Modal
Eligibility and Enrollment	General Requirement	47151	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the functionality of "None of the Above (Continue to review my application for Medi-Cal or MCAP)" QLE reason to have 0 days for SEP Expiration Date.
Eligibility and Enrollment	General Requirement	49114	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall trigger the Automatic Plan Selection (APS) logic, and the downstream processes for consumers who transitioned from Medi-Cal/MCAP/CCHIP to Covered CA and meet all the following criteria: - Consumer is not eligible to Procedural Discontinuance APS - In a subsequent redetermination of eligibility, the transition individual becomes Eligible or Conditionally Eligible to APTC - The transition individual becomes Eligible or Conditionally Eligible to APTC prior to the end of the configurable time frame.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Eligibility and Enrollment	General Requirement	49115	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create a new configurable value which will be used to determine the 'MCT Unsub to APS' End Date for consumers to gain APTC eligibility after the Unsubsidized CCP transition.
Eligibility and Enrollment	General Requirement	49116	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall assign an indicator for consumers that are transitioning from MAGI Medi-CAL/MCAP/CCHIP to Unsubsidized CCP and the following is applicable to the consumer: - Consumer is not eligible to Procedural Discontinuance APS
Eligibility and Enrollment	General Requirement	49117	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the 'MCT Unsub to APS' Flag from "Y" to "E" for cases/individuals that were identified as candidates for 'MCT Unsub to APS', as soon as plan selection occurs, which can be either manual plan selection or auto-plan selection for any benefit year.
Eligibility and Enrollment	General Requirement	49118	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall remove consumer's eligibility for 'MCT Unsub to APS' functionality if they become eligible to Manual APS Process 1 (MAPS1), Process 2 (MAPS2), or Process 3 (MAPS).
Eligibility and Enrollment	Notices		
Eligibility and Enrollment	Notices	37906	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall add a snippets to the Eligibility Results page and to the ineligibility notice due to failure to file federal taxes/reconcile.
Eligibility and Enrollment	Notices	38169	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate an informational notice with new snippets for an APTC/CSR/CCP consumer in a "Carry Forward" status for all MAGI Medi-Cal IAP cases when at least one member of a household is in APTC/CSR/CCP and transitioning through "Carry Forward".
Eligibility and Enrollment	Notices	38170	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall suppress the NOD01 if the entire household is in a "Carry Forward" Status.
Eligibility and Enrollment	Notices	38171	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update NOD01 Snippets addressing MAGI Medi-Cal to APTC/CSR/CCP transitions.
Eligibility and Enrollment	Notices	38172	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create new NOD01 Snippets addressing MAGI Medi-Cal to APTC/CSR/CCP transitions.
Eligibility and Enrollment	Notices	38173	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update NOD01 Snippets to include updated advocate language.
Eligibility and Enrollment	Notices	38174	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate an NODO1 with IAP transition specific snippets when the "Carry Forward" ends.
Eligibility and Enrollment	Notices	38175	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate an NODO1 with IAP transition specific snippets when an individual is discontinued and disenrolled (when applicable) after the Carry Forward period ends by being determined eligible or conditionally eligible for MAGI Medi-Cal.
Eligibility and Enrollment	Notices	38178	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate a NODO1 with new snippets for an APTC/CSR/CCP consumer in a "Carry Forward" status for all MAGI Medi-Cal IAP cases in which at least one member of the household is in MCAP or CCHIP.
Eligibility and Enrollment	Notices	38256	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate and send verification reminder notices to conditionally eligible consumers at configurable intervals during the reasonable opportunity expiration process.
Eligibility and Enrollment	Notices	38257	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate and send eligibility discontinuance notices to consumers that have been discontinued during the reasonable opportunity expiration process.
Eligibility and Enrollment	Notices	38328	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall map "About Special Enrollment Periods" snippet (ID 328) at the household/case level instead of mapping at the primary contact level.
Eligibility and Enrollment	Notices	38346	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall notify consumers of their projected eligibility in the notice of annual enrollment. (Note: This requirement applies to CCP/APTC/CSR programs only)
Eligibility and Enrollment	Notices	38462	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate a notice to employers in the following conditions: • If all mandatory employer information is available, and • When a consumer has an Initial determination of eligibility for APTC and is in an (Effectuated) Enrolled status with active employer income, or • When a consumer renews for the next benefit year and is eligible for APTC and is in an (Effectuated) Enrolled status and with active employer income, or • When a consumer, who is eligible for APTC and is in an (Effectuated) Enrolled status, reports a new current employer, or • When a consumer, who is eligible for APTC and is in an (Effectuated) Enrolled status, updates employer information and an employer notice has not been generated in the benefit year.
Eligibility and Enrollment	Notices	38463	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall upload a copy of the employer notice to the consumer's Documents and Correspondence page without triggering the secure mailbox notification to the consumer.
Eligibility and Enrollment	Notices	38464	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add a new reason snippet for ineligibility to APTC/CCP/CSR programs during intake, or add a person during Report A Change, or add a person during Renewal, based on attestation to Medicare enrollment.
Eligibility and Enrollment	Notices	38521	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add a new reason snippet to CalNOD01 for a consumer who is a new applicant and reports a lump sum income amount, which makes the consumer MAGI MC Ineligible in the application month and MAGI MC EL, CE or PE in the following month in order to inform the consumer of the current month Medi-Cal denial and following month Medi-Cal potential eligibility.
Eligibility and Enrollment	Notices	38522	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the appeals language on the NOD01 notice.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Eligibility and Enrollment	Notices	38523	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall remove duplicate text from snippet 165 that already exists in snippet 328.
Eligibility and Enrollment	Notices	38533	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall continue to generate Babel page for English NOD01.
Eligibility and Enrollment	Notices	38534	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall generate NOD01 according to Language Preference (Written) as noted in California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Portal.
Eligibility and Enrollment	Notices	38611	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate an NOD01a/b to households when all members are ineligible to APTC, CSR, CCP, MCAP, CCHIP and MAGI M/C from the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) access channel.
Eligibility and Enrollment	Notices	38612	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate an NOD01a/b to households when at least one of the household members are ineligible to APTC, CSR, CCP, MCAP ,CCHIP and MAGI M/C, and at least one of the household members, on the same application, are eligible or conditionally eligible or pending eligible to MAGI M/C regardless of access channel.
Eligibility and Enrollment	Notices	38613	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate an NOD01c to households when all members are ineligible to APTC, CSR, CCP, MCAP, CCHIP and MAGI M/C from the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) access channel.
Eligibility and Enrollment	Notices	38614	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate an NOD01c when at least one of the household members are ineligible to APTC, CSR, CCP, MCAP, CCHIP and MAGI M/C and at least one of the household members, on the same application, are eligible or conditionally eligible or pending eligible to MAGI M/C from the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) access channel.
Eligibility and Enrollment	Notices	38615	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate an NOD01a/b to households when all applying members are ineligible to APTC, CSR, CCP, MCAP, CCHIP and MAGI M/C from the SAWS access channel.
Eligibility and Enrollment	Notices	38616	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate an NOD01a/b to households when at least one of the applying household members are ineligible to APTC, CSR, CCP, MCAP, CCHIP and MAGI M/C, and at least one of the household members, on the same application, are eligible or conditionally eligible or pending eligible to MAGI M/C from the SAWS access channel.
Eligibility and Enrollment	Notices	38617	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate an NOD01c to households when all applying members are ineligible to APTC, CSR, CCP, MCAP, CCHIP and MAGI M/C from the SAWS access channel.
Eligibility and Enrollment	Notices	38618	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate an NOD01c when at least one of the applying household members are ineligible to APTC, CSR, CCP, MCAP, CCHIP and MAGI M/C and at least one of the household members, on the same application, are eligible or conditionally eligible or pending eligible to MAGI M/C from the SAWS access channel.
Eligibility and Enrollment	Notices	38623	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not generate an NOD01a/b to households when all members are found ineligible to APTC, CSR, CCP, MCAP ,CCHIP and found eligible or conditionally eligible or pending eligible to MAGI M/C when an eHIT an eligibility determination is received via the SAWS access channel.
Eligibility and Enrollment	Notices	38624	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not generate an NOD01c to households when all members are ineligible to APTC, CSR, CCP, MCAP ,CCHIP and all members are eligible or conditionally eligible or pending eligible to MAGI M/C when an eHIT an eligibility determination is received via the SAWS access channel.
Eligibility and Enrollment	Notices	38625	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate a notice to employers in the following conditions (NOD65): • If all mandatory employer information is available, and • When a consumer has an Initial eligibility determination of eligible or conditionally eligible for APTC and is in an (Effectuated) Enrolled status with active employer income, or • When a consumer renews for the next benefit year and is eligible or conditionally eligible for APTC and is in an (Effectuated) Enrolled status and with active employer income, or • When a consumer, who is eligible or conditionally eligible for APTC and is in an (Effectuated) Enrolled status, reports a new current employer, or • When a consumer, who is eligible for or conditionally eligible APTC and is in an (Effectuated) Enrolled status, updates employer information and an employer notice has not been generated in the benefit year.
Eligibility and Enrollment	Notices	38626	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall update the text of snippets 176, 373, 378, 444, 720, 741, 763 and 764 on CalNOD01.
Eligibility and Enrollment	Notices	38627	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall update the text of snippets 811 on CalNOD03.
Eligibility and Enrollment	Notices	38628	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall resolve defects: SIR 47181, SIR 78467.
Eligibility and Enrollment	Notices	38629	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall update the NOD03 triggering conditions to not generate if a consumer has not picked a plan by the QLE Expiration date during SEP.
Eligibility and Enrollment	Notices	38630	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall update the NOD03 triggering conditions to not generate if a consumer has not picked a plan by January 31st during OEP.

Category	Sub Category	Req ID	Requirement
Eligibility and Enrollment	Notices	38639	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall produce NOD01 with updated FTI snippets in the following languages: - Arabic - Farsi - Russian - Tagalog - Armenian - Khmer - Chinese - Vietnamese - Korean
Eligibility and Enrollment	Notices	38690	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall provide the technical framework to support agile updates to notice snippet language.
Eligibility and Enrollment	Notices	38714	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall generate a NOD01 ab/c when an E-HIT EDR is received from the SAWS access channel and at least one consumer is Discontinued from CCP, APTC, CSR, MCAP or CCHIP.
Eligibility and Enrollment	Notices	38715	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall update the NOD01 ab/c triggering conditions for CFS Lift.
Eligibility and Enrollment	Notices	38717	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall create new CCHIP eligibility portal snippets.
Eligibility and Enrollment	Notices	38719	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall suppress NOD01 snippet 326 when the consumer is Eligible or Conditionally Eligible for the CCHIP program.
Eligibility and Enrollment	Notices	38720	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall suppress NOD01 snippet 325 when the consumer is Eligible or Conditionally Eligible for the CCHIP program.
Eligibility and Enrollment	Notices	38721	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall suppress NOD01 snippet 382 when the consumer is Eligible or Conditionally Eligible for the CCHIP program and there are no other applying household members.
Eligibility and Enrollment	Notices	38722	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall suppress NOD01 snippet 721 when the consumer is Eligible or Conditionally Eligible for the CCHIP program and there are no other applying household members.
Eligibility and Enrollment	Notices	38723	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall update the triggering conditions for existing reason snippets on CalNOD01 when an admin fails a verification.
Eligibility and Enrollment	Notices	38724	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall resolve defects: SIRs 60552, 62658, 79873.
Eligibility and Enrollment	Notices	38725	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall update Footer Snippets 166 (verbiage and trigger), 330 (trigger), 354, 381 (trigger), 382 (trigger) so the Dynamic Date variables provide correct "Pay by" dates and resolved SIR 87590.
Eligibility and Enrollment	Notices	38990	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall generate new reason snippets on the CalNOD01 when a consumer is Ineligible or Discontinued due to Admin Verification fail or system determination.
Eligibility and Enrollment	Notices	38991	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall update snippet 330, snippet 381, and snippet 828 (previously snippet 166) with new verbiage.
Eligibility and Enrollment	Notices	38992	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall move Snippet 121 (How to Turn in Your Information) from its current location in the NOD01abc to above Snippet 182 "We Need Proof You Do Not Have Other Coverage."
Eligibility and Enrollment	Notices	38993	"The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall generate the NOD03 in the following languages: - English, Spanish, Chinese, Vietnamese, Russian, Tagalog, Khmer/Cambodian, Arabic, Farsi, Korean, Hmong, Armenian"
Eligibility and Enrollment	Notices	39277	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall simulate modified trigger conditions of NOD01 to identify how daily NOD01 volumes are impact compared to current NOD01 trigger conditions.
Eligibility and Enrollment	Notices	39971	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate a new notice NOD62C, which will provide instructions for the FTB Form 3895 - Original and will include a description of: • Why the consumer is getting the notice • How Covered CA calculates financial assistance • How to obtain tax filing help California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall include the NOD62C notice in the same envelope as FTB Form 3895 - Original.
Eligibility and Enrollment	Notices	39972	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate a new notice NOD62D, which will provide instructions for the FTB Form 3895 - Voided/Corrected and will include a description of: • Why the consumer is getting the notice • How Covered CA calculates financial assistance • How to obtain tax filing help California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall include the NOD62D notice in the same envelope as FTB Form 3895 - Voided/Corrected.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Eligibility and Enrollment	Notices	39973	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use the data elements defined in the FTB interface to print on the notice "FTB Form 3895 Original/Voided or Corrected".
Eligibility and Enrollment	Notices	39974	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send consumer information on FTB Form 3895 as defined by FTB guidelines, which includes: • Recipient information (name, address, marketplace info, policy number, etc.) • Covered individuals (individuals covered, SSN, DOB, coverage start/end date) • Coverage information (premium information per month, etc.)
Eligibility and Enrollment	Notices	39975	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall populate FTB Form 3895 with the monthly advance payment of California premium subsidy.
Eligibility and Enrollment	Notices	39976	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall populate FTB Form 3895 with the Second Lowest Cost Silver Plan (SLCSP) for every month of enrollment regardless of receipt of subsidy.
Eligibility and Enrollment	Notices	39977	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall populate the "Repayment Cap May Not Apply" Checkbox on the 3895 Form only if the tax household attested to income that was over 400% FPL for the entire benefit year that they were enrolled with CCA.
Eligibility and Enrollment	Notices	39978	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate the NOD62c and NOD62d notices in the top 5 languages (English, Spanish, Chinese, Vietnamese, and Korean).
Eligibility and Enrollment	Notices	39979	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate, at the end of the tax year, FTB Form 3895 that lists each individual (reflected as 'Recipient' on the form) who purchased a policy through the Covered CA Marketplace regardless if financial assistance was accepted; there will be one (1) form per policy. If multiple individuals are enrolled in a single qualified health plan (QHP), a single State Form 3895 must be distributed to the Primary Tax Filer or Other Relevant Adult.
Eligibility and Enrollment	Notices	39980	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall, when generating the State Form 3895 Health Insurance Marketplace Statement, use all known individual information and include 100% of records for all policies purchased through the CA Marketplace. For example, if State Form 3895 is being generated in January 2021, then all individual data from calendar year 2020 will be used for its creation.
Eligibility and Enrollment	Notices	39981	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall make available, on or before January 31st of each calendar year beginning 2021 and every year thereafter, for distribution to the Tax Filer, or Other Relevant Adult the FTB Form 3895 in the consumers Documents and Correspondence page and if applicable their Secure Mailbox, based on the following delivery method: For consumers who have opted to receive their correspondence by email, a hardcopy of the FTB Form 3895. For consumers who have opted to receive their correspondence by email, a copy of the FTB Form 3895 into their Secure mailbox will trigger an email notification.
Eligibility and Enrollment	Notices	39982	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall clearly indicate 'corrected' or 'void' on the FTB Form 3895 if the form is corrected or voided.
Eligibility and Enrollment	Notices	39983	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display and allow consumers to print the FTB Form 3895 through their Docs and Correspondences and Secure Mailbox.
Eligibility and Enrollment	Notices	39984	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate, on a bi-weekly basis (two times in a 7 calendar day range), corrected or voided version of the FTB Form 3895 when a data change has occurred.
Eligibility and Enrollment	Notices	39985	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not generate a 3895 correction (NOD62d), for a given Marketplace Assigned Policy ID, after an original 3895 (NOD62c) has been generated when there is only a change of enrollment status, there is no change to the benefit end date(s), and no changes to demographic or enrollment / household information.
Eligibility and Enrollment	Notices	39986	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate CalNOD62C notices labeled "{Tax Year} California Tax Form (3895) - Original". "Tax Year" is a variable and shall populate with the applicable tax year for which the Form 3895 is being generated (2020 or later).
Eligibility and Enrollment	Notices	39987	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate CalNOD62d notices labeled "{Tax Year} California Tax Form (3895) - Revised". "Tax Year" is a variable and shall populate with the applicable tax year for which the Form 3895 is being generated (2020 or later).
Eligibility and Enrollment	Notices	39988	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall be able to accurately populate data from the staging table into the 3895 form.
Eligibility and Enrollment	Notices	39989	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not generate a 3895 form for enrollment in catastrophic plans.
Eligibility and Enrollment	Notices	39990	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not generate, mail, or post to a member's Documents & Correspondence page or secure mailbox the CalNOD62C or CalNOD62D for a enrollment in a catastrophic plan.
Eligibility and Enrollment	Notices	39991	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall dynamically populate the tax year for tax year 2020 and beyond for Form FTB 3895 - Original and notice -NOD62C.
Eligibility and Enrollment	Notices	39992	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall merge the NOD62c notice with the applicable Form FTB 3895 - Original before uploading to the consumer's Documents & Correspondence page, mailing or e-mailing (uploading to Secure Mailbox).
Eligibility and Enrollment	Notices	39993	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall dynamically populate the tax year for tax year 2020 and beyond for Form FTB 3895 - Revised and notice -NOD62D.
Eligibility and Enrollment	Notices	39994	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall merge the NOD62d notice with the applicable Form FTB 3895 - Revised before uploading to the consumer's Documents & Correspondence page, mailing or e-mailing (uploading to Secure Mailbox).
Eligibility and Enrollment	Notices	39995	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall be able to identify and capture (log) any system errors preventing the generation of all print vendor State Form 3895 Health Insurance Marketplace Statement files.
Eligibility and Enrollment	Notices	39996	CaHEERS shall generate an extract file containing either the original or corrected/voided State Form 3895 Health Insurance Marketplace Statement along with the applicable NOD62C or NOD62D and form instructions before securely transmitting to the print vendor.
Eligibility and Enrollment	Notices	39997	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall accept and process the confirmation of transmission success or failure response, and be able to resend the print file to the print vendor when needed.

Category	Sub Category	Req ID	Requirement
Eligibility and Enrollment	Notices	39998	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall capture State Form 3895 file processing discrepancies to denote which 3895 forms where not processed or distributed by the print vendor and the discrepancy reason.
Eligibility and Enrollment	Notices	39999	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the ability to resend to the consumer State Form 3895 Health Insurance Marketplace Statement(s) without being required to regenerate all annual 3895 forms.
Eligibility and Enrollment	Notices	40000	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create a new 'Document Category' of "Tax Form" for State Form 3895.
Eligibility and Enrollment	Notices	40001	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall work with the print vendor to ensure all envelopes that will be used to mail the CalNOD62C and CalNOD62D notices, regardless of the notice print language, will display a Covered CA defined message and/or image in the English, Spanish, Chinese, Vietnamese, and Korean languages on the address facing side of the envelope.
Eligibility and Enrollment	Notices	40043	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide notices in the Medi-Cal Managed Care Threshold languages. As of June 2016 those languages are: 01. English 02. Spanish 03. Arabic 04. Armenian 05. Chinese 06. Farsi 07. Hmong 08. Khmer 09. Korean 10. Russian 11. Tagalog 12. Vietnamese
Eligibility and Enrollment	Notices	40562	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement the functionality to determine whether to generate a CalNOD01 (ab)/c for cases that ran eligibility on a day by comparing the latest eligibility results from the day to the last generated NOD01 or a NOD01 that is queued to be generated, AND at least one of the following factors have changed for Covered California (APTC/CSR/CAPS/CCP) individuals: * Eligibility status * Aid code * Financial Subsidy Amount * At least one household member moves into Carry Forward status * Add a new household member * At least one household member moves into QHP Hold status
Eligibility and Enrollment	Notices	40563	The duplicate check comparison will be between the last BRE run of the day that is high end dated, if it meets the driving query trigger conditions, and the last notice generated for the current benefit year.
Eligibility and Enrollment	Notices	40564	While determining the latest eligibility results from the day, California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall consider the high dated eligibility results for the applicable benefit year.
Eligibility and Enrollment	Notices	40565	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate 2 NOD01s for the same case in the same day if additional changes reported meets the trigger and duplicate condition check for Exchange or MAGI Medi-Cal or MCAP or CCHIP benefits after Carry Forward (CFS) ends. The duplicate check will be between the Carry Forward Lift BRE run and the subsequent re-determination(s) for that day.
Eligibility and Enrollment	Notices	40566	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement the functionality to determine whether to generate a CalNOD01 (ab)/c for cases that ran eligibility on a day by comparing the latest eligibility results from the day to the last generated NOD01 or a NOD01 that is queued to be generated, AND at least one of the following factors have changed for MAGI Medi-Cal individuals: * Individual transitioned to/from MAGI Medi-Cal to Exchange benefits (APTC/CSR/CAPS/CCP) or CCHIP or MCAP * Individual discontinued from MAGI Medi-Cal and not eligible or discontinued for Covered California (APTC/CSR/CAPS/CCP), CCHIP or MCAP benefits * Add a new household member
Eligibility and Enrollment	Notices	40567	The duplicate check comparison will be between the last BRE run of the day that is high end dated, if it meets the driving query trigger conditions, and the last notice generated for the current benefit year.
Eligibility and Enrollment	Notices	40568	While determining the latest eligibility results from the day, California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall consider the high dated eligibility results for the applicable benefit year.
Eligibility and Enrollment	Notices	40569	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement the functionality to determine whether to generate a CalNOD01 (ab)/c for cases that ran eligibility on a day by comparing the latest eligibility results from the day to the last generated NOD01 or a NOD01 that is queued to be generated, AND at least one of the following factors have changed for MCAP/CCHIP individuals: * Individual transitioned to MAGI Medi-Cal or Exchange benefits (APTC/CSR/CAPS/CCP) * Individual discontinued from CCHIP/MCAP and not eligible for Covered California (APTC/CSR/CAPS/CCP) and MAGI Medi-Cal benefits * Add a new household member * Individuals are renewed for CCHIP

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Eligibility and Enrollment	Notices	40570	The duplicate check comparison will be between the last BRE run of the day that is high end dated, if it meets the driving query trigger conditions, and the last notice generated for the current benefit year.
Eligibility and Enrollment	Notices	40571	While determining the latest eligibility results from the day, California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall consider the high dated eligibility results for the applicable benefit year.
Eligibility and Enrollment	Notices	40580	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate NOD01 ab/c for any benefit year if at least one person on the case meets both the trigger conditions for NOD01 generation and the duplicate check.
Eligibility and Enrollment	Notices	40581	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall hold the generation of the notice for a configurable amount of time.
Eligibility and Enrollment	Notices	40582	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate all the notices that are placed in queue for generation during the hold time once the configuration setting is reset to default setting.
Eligibility and Enrollment	Notices	40583	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall make the determination to generate the NOD01 (ab)/c if the first eligibility run for the case on the eligibility run date was an initial eligibility run, and the final eligibility determination for the eligibility run date is one of the following (Intake case with multiple runs in the same day as Intake): * Eligible/Conditionally Eligible/Ineligible/Pending/Discontinue for MAGI Medi-Cal * During Open Enrollment, the initial eligibility run determines at least one individuals in the household MAGI Medi-Cal (EL, PE or CE) for the months of November and December of the current benefit year (due to RRE functionality). * All members of a household ineligible to APTC, California Premium Subsidy, CSR, CCP, MCAP, CCHIP and MAGI Medi-Cal * At least one member of a household ineligible to APTC, California Premium Subsidy, CSR, CCP, MCAP, CCHIP and MAGI Medi-Cal and at least one member, on the same application, is eligible, conditionally eligible, or pending eligible to MAGI Medi-Cal * A pregnant woman is either Eligible, or Pending Eligible, or Ineligible for MCAP * Eligible / Ineligible / Conditionally eligible / Discontinue for APTC/California Premium Subsidy/CSR/CCP * Eligible / Conditionally Eligible / Discontinue for CCHIP * Conditionally Eligible for the Former Foster Youth Program (4M) AND The source is California Healthcare Eligibility, Enrollment and Retention System (CalHEERS)
Eligibility and Enrollment	Notices	40584	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall make the determination to generate the NOD01 (ab) during auto or manual renewal run when Individual opts to renew or takes no action within 30 days of Renewal Period beginning and the final eligibility determination for an individual for the eligibility run date is one of the following: * Eligible/Conditionally Eligible for APTC/California Premium Subsidy/CSR * Eligible/Pending Eligible for MCAP * Eligible/Conditionally Eligible for CCHIP * Eligible/Conditionally Eligible for any Covered California Plan (subsidized application or unsubsidized application) * All members of a household is ineligible to APTC, California Premium Subsidy, CSR, CCP, MCAP, CCHIP and MAGI Medi-Cal OR * At least one member of a household is ineligible to APTC, California Premium Subsidy, CSR, CCP, MCAP, CCHIP and MAGI Medi-Cal and at least one member, on the same application, is eligible, conditionally eligible, or pending eligible to MAGI Medi-Cal * One or more members in a mixed household case are subject to “Eligibility Review” and the potential eligibility status for MAGI Medi-Cal is “Discontinued” and there is a change to Covered CA eligibility for other members in the case AND The source is California Healthcare Eligibility, Enrollment and Retention System (CalHEERS)
Eligibility and Enrollment	Notices	40585	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall make the determination to generate the NOD01c run if the eligibility run(s) for the case on the eligibility run date is for re-evaluation/redetermination, and the final eligibility determination for the eligibility run date is one of the following: * Eligible/Conditionally Eligible/Ineligible/Pending/Discontinue for MAGI Medi-Cal * All members of a household is ineligible to APTC, California Premium Subsidy, CSR, CCP, MCAP, CCHIP and MAGI Medi-Cal * At least one member of a household is ineligible to APTC, California Premium Subsidy, CSR, CCP, MCAP, CCHIP and MAGI Medi-Cal and at least one member, on the same application, is eligible, conditionally eligible, or pending eligible to MAGI Medi-Cal * Eligibility determination of pregnant woman is Eligible for MCAP * Eligible / Conditionally Eligible / Discontinue for CCHIP * Eligible / Ineligible / Conditionally Eligible / Discontinue for APTC/California Premium Subsidy/CSR/CCP * One or more members in a mixed household case are subject to “Eligibility Review” and the potential eligibility status for MAGI Medi-Cal is “Discontinued” and there is a change to Covered CA eligibility for other members in the case AND The source is California Healthcare Eligibility, Enrollment and Retention System (CalHEERS)

Category	Sub Category	Req ID	Requirement
Eligibility and Enrollment	Notices	40586	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall make the determination to generate the NOD01 (ab)/c if an eHIT EDR is received from the SAWS access channel and the Run reason is not Rescind, Negative Action, Retro, Cola or Periodic Reverification, AND one of the following conditions apply: * Households with 1 or more members who are eligible/conditionally eligible/discontinued for CCP, APTC, California Premium Subsidy, CSR, MCAP, CCHIP programs * At least one applying member in a household is ineligible for all of the following: CCP, APTC, California Premium Subsidy, CSR, MCAP, CCHIP and MAGI Medi-Cal AND The eligibility benefit month is greater than or equal to the eligibility run month * Results in a change of eligibility to CCP, APTC, California Premium Subsidy, CSR for at least 1 member of the household from the previously sent or queued to be sent NOD01. * One or more members in a mixed household case are subject to “Eligibility Review” and the potential eligibility status for MAGI Medi-Cal is “Discontinued” and there is a change to Covered CA eligibility for other members in the case
Eligibility and Enrollment	Notices	40587	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall make the determination to generate NOD01c for current benefit month during re-evaluation/redetermination, when eHIT EDRs are received from a SAWS access channel for Mixed Eligibility Household, if only one person exists in a household and also has dual eligibility (eligible or conditionally eligible for CCP and eligible or potential/pending eligible for Medi-Cal programs).
Eligibility and Enrollment	Notices	40588	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall make the determination to skip the NOD01 (ab) during initial eligibility run when any one of the following conditions apply: - A case is closed for being a duplicate under CR 52314, - The application type is State MCIEP - All members in the case are undetermined for APTC/CSR/CAPS/CCP and ineligible for MAGI Medi-Cal, MCAP and CCHIP for the current year. This condition is applicable to current year only.
Eligibility and Enrollment	Notices	40589	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall make the determination to skip the NOD01 (ab) during auto or manual renewal run for current or future year when one of the following conditions apply: * A case is closed for being a duplicate under CR 52314, * All household members are in Carry Forward Status (CFS) * The application type is State MCIEP * New members are added during the Renewal run, unless the new member(s) are determined MAGI Medi-Cal, MCAP or CCHIP (EL, PE, or CE) for the months of November and December of the current benefit year (due to RRE functionality). This skip condition is applicable to current year only. * One or more members in the mixed household case are subject to “Eligibility Review” and the potential eligibility status for MAGI Medi-Cal is “Discontinued” and there are no changes to Covered CA eligibility for other members in the case. This condition is applicable to current year only.
Eligibility and Enrollment	Notices	40590	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall make the determination to skip the NOD01c during re-evaluation/redetermination run when one of the following conditions apply: * A case is closed for being a duplicate under CR 52314; * All household members are in Carry Forward Status (CFS) * The application type is State MCIEP *All members in the case are subject to “Eligibility Review” and the potential eligibility status for MAGI Medi-Cal for all members is Discontinued [From Medi-Cal] and the member is not Eligible, Conditionally Eligible, or Discontinued for Covered CA programs. * One or more members in the mixed household case are subject to “Eligibility Review” and the potential eligibility status for MAGI Medi-Cal is “Discontinued” and there are no changes to Covered CA eligibility for other members in the case. * New members are added during a Report a Change for the future year after Renewal, unless the new member(s) are determined MAGI Medi-Cal, MCAP or CCHIP (EL, PE, or CE) for the months of November and December of the current benefit year (due to RRE functionality). This skip condition is applicable to current year only.
Eligibility and Enrollment	Notices	40707	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not display State Subsidy snippets in NOD01 ab/c when the configuration for State Subsidy is turned OFF.
Eligibility and Enrollment	Notices	43101	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall Not generate, mail, or post to a member's secure mailbox the CalNOD62-A or CalNOD62-B (Form 1095-A) for Exchange members who are enrolled in a catastrophic plan.
Eligibility and Enrollment	Notices	43243	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall maintain the ability to generate CalNOD02 notices for eligibility determinations created prior to California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Release 15.7, using the forms and generation requirements established prior to Release 15.7.
Eligibility and Enrollment	Notices	43261	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall notice consumer in regards to their option to keep MCAP enrollment when consumer is granted MAGI Medi-Cal after a change has been reported using NOD02.
Eligibility and Enrollment	Notices	43262	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall use the current NOD01 notice to notify eligibility determination for pregnant women who are found Eligible, Pending Eligible or Ineligible for MCAP program.
Eligibility and Enrollment	Notices	43273	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not display MCAP snippets in NOD01ab and NOD01c whenever a pregnant woman is determined to be eligible for MAGI Medi-Cal.
Eligibility and Enrollment	Notices	43296	Modify Snippet 354 in NOD01a eligibility determination notice to map open enrollment start date and end date dynamically based on the benefit year.
Eligibility and Enrollment	Notices	43330	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall generate a pre-notice for childre who are going to age out from CCHIP program 60 days prior to the end of the month of their 19th birthday.
Eligibility and Enrollment	Notices	43342	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall generate and send CCHIP discontinuance notice to CCHIP consumers under all discontinuance reasons.
Eligibility and Enrollment	Notices	43370	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall use the current NOD01 notice to notify eligibility determination for children who are found Eligible or Conditionally Eligible for CCHIP program.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

OTSI CalHEERS RFP #73040873 Addendum 1
October 31, 2025

Category	Sub Category	Req ID	Requirement
Eligibility and Enrollment	Notices	43376	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall send a notice to the CCHIP consumers once renewal determination has been automatically established by California Healthcare Eligibility, Enrollment and Retention System (CalHEERS).
Eligibility and Enrollment	Notices	43387	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System must generate and mail a notice to inform qualified individuals of their decision to receive notices electronically. With the new “electronic preference,” the Consumers will no longer receive paper mail from the system. This notice must generate in the Consumer's preferred language.
Eligibility and Enrollment	Notices	43388	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to issue an electronic notice to inform qualified individuals of their decision to receive notices electronically. With the new “electronic preference,” the Consumers will no longer receive paper mail from the system. This notice must generate in the Consumer's preferred language. This notice would only be generated for Consumers who have created a California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Account.
Eligibility and Enrollment	Notices	43389	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System must generate and mail a notice to the Consumer indicating that their email has failed.
Eligibility and Enrollment	Notices	43390	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to mail the paper copy of the originally generate notice to the Consumer when the Consumer's email fails.
Eligibility and Enrollment	Notices	44495	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate a Cal NOD01c whenever a CFS flag is present on an EDR.
Eligibility and Enrollment	Notices	45759	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall ensure the 1095/3895 process does not error during staging when a primary tax claimer for the unsubsidized application is no longer a member of the household.
Eligibility and Enrollment	Notices	46263	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow specific admin users to attach Supplement Notice insert across any category (NOD01AB or NOD01C) for specific case list
Eligibility and Enrollment	Notices	46273	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow specific admin users to upload up to 2 scanned image(s) of the content per language for the Admin notice for the applicable case lists - One for the Front page and second for Back portion of First page .
Eligibility and Enrollment	Notices	46280	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow specific admin users to generate Admin Notice for specific case list
Eligibility and Enrollment	Notices	46588	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow specific admin users to Hold Notices across any category for specific case list
Eligibility and Enrollment	Notices	46589	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall be able to generate NOD01 with a dynamic box snippet that can be configured ON/OFF
Eligibility and Enrollment	Notices	46590	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow specific admin users to enter box snippet content in English and Spanish languages.
Eligibility and Enrollment	Notices	46591	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall set a dynamic box outline across the box snippet content
Eligibility and Enrollment	Notices	46592	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall place the box snippet under intro section for generated NOD01
Eligibility and Enrollment	Notices	46593	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall continue to generate the box snippet for configured case list if a case generates multiple NOD01 instances until the Box snippet configuration is turned OFF
Eligibility and Enrollment	Notices	46594	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow specific admin users to generate box snippet for specific case list
Eligibility and Enrollment	Notices	46595	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall develop a process where any active notices can be suppressed for the provided list of cases.
Eligibility and Enrollment	Notices	46597	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow specific admin users to SUPRESS Notices across any category for specific case list
Eligibility and Enrollment	Notices	47115	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the date variable in snippet 808, 778, and 779.
Eligibility and Enrollment	Notices	47116	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the text and trigger of snippet 907 and 909 in the NOD03.
Eligibility and Enrollment	Notices	47117	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the text and trigger of snippet 890 and 891 in the NOD01ab/c/T.
Eligibility and Enrollment	Notices	47118	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the triggering conditions of 9 snippets to populate in ROP - 356, 787, 875, 222, 151, 224, 216, 219, and 835.
Eligibility and Enrollment	Notices	47119	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create one new snippet for consumers who are transitioning from Medi-Cal to CCA, have a negative action or non-compliance reason and they are eligible for only unsubsidized CCP and are still within MAGI FPL range.
Eligibility and Enrollment	Notices	47120	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update NOD01 snippet 900, NOD01T snippets 3007 and 3008, and NOD74 to populate the appropriate SEP End Date/Choose Plan by Date based on getAPI from PCAP and update the text of snippet 321 to remove reference to the static 60 day SEP period.
Eligibility and Enrollment	Notices	47121	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the NOD01abc trigger/duplicate check rule to allow NOD01abc to generate when an initial non-applying member is changed to applying but results in no change to overall household eligibility.
Eligibility and Enrollment	Notices	47122	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create two new eligibility snippets for Manual APS consumers in MAPS Process 1 or 2.
Eligibility and Enrollment	Notices	47123	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create one new NOD01ab/c flier for Manual APS consumers in MAPS Process 2.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Eligibility and Enrollment	Notices	47124	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create a modified version of the NOD01T which will be called CalNOD01x and will be sent to Manual APS consumers in MAPS Process 3.
Eligibility and Enrollment	Notices	47125	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create four new CalNOD01x intro snippets.
Eligibility and Enrollment	Notices	47126	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create a modified version of the enrollment table to show the APS lite enrollment and premium information in the CalNOD01x.
Eligibility and Enrollment	Notices	47127	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create five new CalNOD01x MAPS color fliers.
Eligibility and Enrollment	Notices	47128	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall trigger an enroller portal alert when CalNOD01x is generated.
Eligibility and Enrollment	Notices	47129	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall expand the Admin Notice Portal functionality to include CalNOD01x for the Notice Insert, Hold, Suppress, and Box Snippet functionalities.
Eligibility and Enrollment	Notices	47130	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall always print and mail the CalNOD01x regardless of the consumer's preferred method of communication.
Eligibility and Enrollment	Notices	47131	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send the CalNOD01x in the same envelope type as CalNOD01T
Eligibility and Enrollment	Notices	47132	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send CalNOD01T to Procedural Denial consumers who are redetermined EL/CE to APTC and go through APS logic
Eligibility and Enrollment	Notices	48040	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate a new notice with MAGI Medi-Cal Denial Snippets for consumers ineligible to MAGI Medi-Cal due to being over MAGI income limits from prior benefit month transactions received where: -The transaction is an intake EDR OR - The transaction is an EDR adding a new member applying for MAGI Medi-Cal and new member is ineligible OR -The transaction is for a consumer who was initially "Conditionally Eligible / Pending" for MAGI Medi-Cal AE and was later ineligible
Eligibility and Enrollment	Notices	48041	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall trigger NOD01ab/c/t and NOD03 and and relevant ROP and Proof Chart snippets based on Manual Trigger ROP
Eligibility and Enrollment	Notices	48042	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create a new snippet for the NOD01ab/c/T to populate for consumers who may be eligible to terminate their CCA Enrollmentat the end of the current month when their plan ends at the end of the following month.
Eligibility and Enrollment	Notices	48043	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add new discontinuance notice snippets for the following verification attributes: MEC, SSN, AI/AN
Eligibility and Enrollment	Notices	48044	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create a new notice for consumers who are turning 65 or over 65 and enrolled in a health plan.
Eligibility and Enrollment	Notices	48045	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add the new notice for consumers who are turning 65 or over 65 to the Admin Notice Portal screen for notice insert, hold, and suppress functionalities.
Eligibility and Enrollment	Notices	48046	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall trigger an enroller portal alert for the new notice for consumers who are turning 65 or over 65
Eligibility and Enrollment	Notices	48047	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create a new notice for consumers with online accounts that have less than 30 days before becoming dormant.
Eligibility and Enrollment	Notices	48048	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add the new notice for consumers whose account is being disabled in 30 days to the Admin Notice Portal screen for notice insert, hold, and suppress functionalities.
Eligibility and Enrollment	Notices	48049	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the Hindi word for "Amount" in Snippet 923 in NOD01ab/c Hindi notice
Eligibility and Enrollment	Notices	48050	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate NOD01ab/c/t when the NOD01ab/c/t notice is triggered and a subsequent prior benefit month transaction is received but the notice trigger is not nullified at the end of the day.
Eligibility and Enrollment	Notices	48051	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create a new notice for consumers who had NOD01 suppressed due to CR 236884 NOD01 Suppression.
Eligibility and Enrollment	Notices	48052	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add the new notice for consumers who had NOD01 suppressed due to CR 236884 to the Admin Notice Portal screen for notice insert, hold, and suppress functionalities.
Eligibility and Enrollment	Notices	48053	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall trigger an enroller portal alert for the new notice for consumers who had NOD01 suppressed due to CR 236884 NOD01 Suppression.
Eligibility and Enrollment	Notices	48054	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add new snippets for NOD01 and make updates to existing snippets for ESI Family Glitch Fix
Eligibility and Enrollment	Notices	48055	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the existing or add a new proof chart snippet for SSN Unknown pending verification
Eligibility and Enrollment	Notices	48056	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the Sacramento County phone number in the Notices

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Eligibility and Enrollment	Notices	48057	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the existing NOD01AB/C/T and NOD03 proof chart snippets to display the ROP Expiration date as per the new configuration page, and in NOD01ab/c snippet 805 to populate the least of the ROP Expired dates across all attributes where each verification attribute is set with a different ROP Number of Days under new configuration page.
Eligibility and Enrollment	Notices	48461	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the NOD12e trigger condition to 1) generate for unsubsidized consumers and 2) not generate for non-applying consumers and for consumers who applied during OE.
Eligibility and Enrollment	Notices	48462	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall make updates to the NOD12a, d and e templates.
Eligibility and Enrollment	Notices	48463	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the NOD12d and e to include snippet NOD12_09 Online Access Code variable.
Eligibility and Enrollment	Notices	48464	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the NOD12a trigger condition to remove the suppression for the APS population and add a new snippet for this population in the NOD12a
Eligibility and Enrollment	Notices	48465	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the placement of snippet 839.
Eligibility and Enrollment	Notices	48466	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the MAPS and SB260 fliers to dynamically populate the plan level and dollar amounts.
Eligibility and Enrollment	Notices	48467	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall make updates to the content and trigger of the NOD38 Failure to Reconcile notice
Eligibility and Enrollment	Notices	48468	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create a new failure to reconcile warning notice
Eligibility and Enrollment	Notices	48469	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add the new failure to reconcile warning notice to the Admin Notice Portal screen for notice insert, hold, and suppress functionalities.
Eligibility and Enrollment	Notices	48470	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update NOD01 snippet 373 to include the IRS code 011 in the triggering condition.
Eligibility and Enrollment	Notices	48471	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the CalNOD01 snippet 829 and 805 to include the regulations.
Eligibility and Enrollment	Notices	48472	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add 2 new notice fliers to the NOD01 for consumers who are successfully renewed into a Silver plan as a part of the affordability crosswalk batch.
Eligibility and Enrollment	Notices	48473	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add a new notice flier to the NOD01 for consumers who are not successfully renewed into a Silver plan as a part of the affordability crosswalk batch.
Eligibility and Enrollment	Notices	48474	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate NOD01 for individuals granted eligibility to Accelerated Enrollment from a prior benefit month intake or RAC transaction from the SAWS Access Channel and that transaction meets all other NOD01 triggering conditions.
Eligibility and Enrollment	Notices	48475	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add CalNOD77 to the Admin Notice Portal screen for notice insert, hold, and suppress functionalities.
Eligibility and Enrollment	Notices	48476	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create a snippet for the NOD01 for consumers over the MAGI income limits who have a negative action, and that negative action is configured "OFF."
Eligibility and Enrollment	Notices	48477	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the address block for the NOD38a and NOD38b to address to the primary tax filer
Eligibility and Enrollment	Notices	48659	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the NOD03 template.
Eligibility and Enrollment	Notices	48660	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the NOD62a & b templates.
Eligibility and Enrollment	Notices	48661	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall populate the primary tax filer's name with appropriate spaces in the NOD62a & b in the address block and salutation line of these notices.
Eligibility and Enrollment	Notices	48662	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add the 2024 IRS 1095A tax form to NOD62a & b
Eligibility and Enrollment	Notices	48663	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the formatting in the enrollment summary in the NOD69 and snippets 923, 3006, 3041.
Eligibility and Enrollment	Notices	48664	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create a new notice for consumers whose reported strike has ended.
Eligibility and Enrollment	Notices	48665	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add the new SLS notice to the Admin Notice Portal screen for notice insert, hold, and suppress functionalities.
Eligibility and Enrollment	Notices	48666	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall trigger an enroller portal alert for the new SLS notice
Eligibility and Enrollment	Notices	48667	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the SLS "yellow alert" on the Account Home screen to continue displaying as long as the household is EL/CE to SLS.
Eligibility and Enrollment	Notices	48668	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate Admin Notices for Inactive cases or cases with terminated applications.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Eligibility and Enrollment	Notices	48669	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the proof chart for snippet 885 and snippet 165.
Eligibility and Enrollment	Notices	48670	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create a new notice for consumers who are enrolled in a health plan and who reported SSDI income.
Eligibility and Enrollment	Notices	48671	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add the new notice for consumers who report SSDI income to the Admin Notice Portal screen for notice insert, hold, and suppress functionalities.
Eligibility and Enrollment	Notices	48672	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall trigger an enroller portal alert for the new SSDI income notice.
Eligibility and Enrollment	Notices	48719	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the trigger condition for snippet 835.
Eligibility and Enrollment	Notices	48720	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the text of snippet 3014.
Eligibility and Enrollment	Notices	48721	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create a new notice for households with an enrolled over age dependent.
Eligibility and Enrollment	Notices	48722	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add the new notice households with an enrolled over age dependent to the Admin Notice Portal screen for notice insert, hold, and suppress functionalities.
Eligibility and Enrollment	Notices	48723	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall trigger an enroller portal alert for the new OAD notice
Eligibility and Enrollment	Notices	48724	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create 3 new plan removal notices that will be sent to consumers when their plan is no longer available for the next benefit year.
Eligibility and Enrollment	Notices	48725	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add the new Plan Removal notices to the Admin Notice Portal screen for notice insert, hold, and suppress functionalities.
Eligibility and Enrollment	Notices	48726	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall trigger an enroller portal alert for the new plan removal notices
Eligibility and Enrollment	Notices	48727	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update NOD01 snippet 219.
Eligibility and Enrollment	Notices	48728	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the contact information list for snippet 948.
Eligibility and Enrollment	Notices	48729	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add a new NOD01 snippet for consumers who are discontinued from Covered California when they choose to switch to MCAP.
Eligibility and Enrollment	Notices	48730	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the NOD01 snippets with the county contact phone number variable to populate based on the individuals county of residence or if the individual lives out of state, the snippet should be suppressed
Eligibility and Enrollment	Notices	48731	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the NOD01 CCHIP snippets to populate a generic CCHIP phone number for the CCHIP phone number variable
Eligibility and Enrollment	Notices	48732	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall make updates to NOD00 and the Intro page in NOD01 snippet table to keep the terminology consistent.
Eligibility and Enrollment	Notices	48733	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create 1 new snippet in NOD01 and 1 new snippet in NOD69 for consumers who have their enrollment updated by the region bot
Eligibility and Enrollment	Notices	48734	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall move the placement of all three new ROP snippets Snippets 958 (MEC), 959 (AI/AN), and 960 (SSN) up in the snippet order, to populate 2nd in the snippet flow.
Eligibility and Enrollment	Notices	49121	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall trigger Carry Forward Information CalNOD64 when: An individual on the case is enrolled in a health plan, and during a RAC or Renewal transaction, individual is placed in Carry Forward Status with MAGI Medi-Cal eligibility as Awaiting Review.
Eligibility and Enrollment	Notices	49122	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the template for the CalNOD64: Carry Forward Status Informational Notice
Eligibility and Enrollment	Notices	49123	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow SCR admin users to choose mail as communication method irrespective of consumers preferred communication method while reprinting any notices.
Eligibility and Enrollment	Notices	49124	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the MAGI Medi-Cal snippet in NOD03 to include language for MCAP and CCHIP consumers.
Eligibility and Enrollment	Notices	49125	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create new snippets for the 1557 and Babel pages that will apply to all notice templates.
Eligibility and Enrollment	Notices	49126	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the template for the CalNOD11A: Consent Notice
Eligibility and Enrollment	Notices	49127	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the template for the CalNOD69: Plan Selection Summary Notice
Eligibility and Enrollment	Notices	49128	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the text of snippet 365

Category	Sub Category	Req ID	Requirement
Eligibility and Enrollment	Notices	49129	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send the NOD01 when Carry Forward has been lifted from a prior benefit month high dated disposition or EDR
Eligibility and Enrollment	Notices	49130	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall trigger NOD01 when an individual's CFS is lifted from a current/future benefit month transaction with a high dated disposition or EDR
Eligibility and Enrollment	Notices	49131	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add one new proof chart snippet for REX in NOD01
Eligibility and Enrollment	Notices	49132	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) to update the MCAP snippets to trigger when consumer is MCAP Conditionally Eligible
Eligibility and Enrollment	Notices	49133	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) to update the appeals language for the Hmong Translation in NOD01 snippet 260
Eligibility and Enrollment	Notices	49394	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the language of the Reprint Modal
Eligibility and Enrollment	Notices	49395	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall remove the odd/even page requirement for the Section 1557 and Babel Page from CalNOD38b
Eligibility and Enrollment	Notices	49396	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall trigger NOD01 when an admin sets the CFS override flag and an individual's CFS is lifted from a subsequent RAC transaction
Eligibility and Enrollment	Notices	49397	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add one new proof chart snippet for REX in NOD03
Eligibility and Enrollment	Notices	49440	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update NOD01 suppression logic (From CR 236884) to include disposition transactions.
Eligibility and Enrollment	Notices	49441	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the CalNOD80 FDD to match the update being made to the NOD01 suppression logic (From CR 236884) to include disposition transactions.
Eligibility and Enrollment	Notices	49442	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the NOD01T trigger conditions to trigger for consumers that qualify for “MCT to Unsub APS” and all other NOD01T conditions are met
Eligibility and Enrollment	Notices	49443	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the SSN proof chart snippet to populate regardless of citizenship status.
Eligibility and Enrollment	Other Health Services		
Eligibility and Enrollment	Other Health Services	42521	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide the functionality to screen for potential eligibility for non-MAGI Medi-Cal
Eligibility and Enrollment	Other Health Services	42525	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide the functionality to send and receive application, case Data, and documentation to/from SAWS for non-MAGI Medi-Cal.
Eligibility and Enrollment	Other Health Services	42526	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide the functionality to Interface with SAWS to accept the the disposition of non-MAGI eligibility determination.
Eligibility and Enrollment	Other Health Services	42527	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide the functionality to keep households that contain MAGI and non-MAGI members as a unified case in the member account features.
Eligibility and Enrollment	Other Health Services	42547	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall collect and send the application Data to the appropriate System of record to complete the application process for Other Heath Services programs not within California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) scope.
Eligibility and Enrollment	Other Non-Health Services		
Eligibility and Enrollment	Other Non-Health Services	37950	"California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall pre-screen applicants to identify if a member has MAGI Medi-Cal Income a.) less than or equal to 200% or b.) greater than 200% of the Federal Poverty Level (FPL) based on their household size. "
Eligibility and Enrollment	Other Non-Health Services	37951	"The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system must provide the functionality to display the ""Additional Benefit Options"" page when a member of the application has been screened as having their MAGI Medi-Cal Income greater than 200% FPL. "
Eligibility and Enrollment	Other Non-Health Services	37952	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system must provide the functionality to display the ""Additional Benefit Options"" page with the inclusion of conditional text encouraging the User to apply for additional programs when a member of the application has been screened as having their MAGI Medi-Cal Income less than or equal to 200% FPL.
Eligibility and Enrollment	Other Non-Health Services	37953	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide the User with the ability to apply for CalWORKs/CalFresh via www.benefitscal.org/CH from the "Additional Benefit Options" page.

Category	Sub Category	Req ID	Requirement
Eligibility and Enrollment	Other Non-Health Services	37954	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide adequate messaging on the "Additional Benefit Options" page.
Eligibility and Enrollment	Other Non-Health Services	37955	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add a new Apply Now button at the bottom of the "Additional Benefit Options" page, which will both trigger eHIT for sending the applicant's information to SAWS when the checkbox for CalFresh or CalWORKs is selected and launch a new child window that allows the User to complete their CalWORKs/CalFresh application via www.benefitscal.org/CH .
Eligibility and Enrollment	Other Non-Health Services	37956	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide a pop-up window with messaging to: a.) encourage the consumer to complete the plan selection process for their current application and b.) instruct the consumer on how to apply for additional benefits.
Eligibility and Enrollment	Other Non-Health Services	37957	Covered California shall report the number of applicants who have selected to go to www.benefitscal.org/CH broken down by which program(s) they are sharing their information with and whether they a.) less than or equal to 200% or b.) greater than 200% of the Federal Poverty Level (FPL) based on their household size.
Eligibility and Enrollment	Other Non-Health Services	37958	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the "Referral to Other Programs" label to: "Additional Benefit Options" on the Eligibility Results pages.
Eligibility and Enrollment	Other Non-Health Services	42566	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to notify the applicant that they may be eligible for other State programs and directing them to the appropriate links (e.g., CalWORKs and CalFresh)
Eligibility and Enrollment	Other Non-Health Services	42601	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall collect and send the basic application Data for non-health services programs, along with any documents provided by the applicant, to the System of record for that program to complete the application process.
Eligibility and Enrollment	Provider/Plan Directory		
Eligibility and Enrollment	Provider/Plan Directory	37930	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall include and keep current a centralized Provider Directory database that contains consumer-centric information on providers (i.e., independent clinicians, medical groups, dentists, specialists, and other health plan-specific providers) in a plan's geographic coverage area Key functionality of the centralized Provider Directory database includes, but is not limited to, compiling and presenting information on: B) Provider their being in or out of network on respective plans or products C) Provider's acceptance of new patients D) Language(s) spoken by the provider E) The Vendor is encouraged to recommend other elements to be presented as part of the centralized Provider Directory.
Eligibility and Enrollment	Renewal		
Eligibility and Enrollment	Renewal	38191	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to automatically process annual eligibility redetermination based on self attested data and 2014 FPL tables.
Eligibility and Enrollment	Renewal	38206	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to receive and process eligibility criteria, either from the consumer or SAWS.
Eligibility and Enrollment	Renewal	38207	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to send a task to the service center queue to process data or information received from a system and/or a consumer to assess for a change in eligibility.
Eligibility and Enrollment	Renewal	38208	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to sort by zip code, batch and print renewal forms and correspondence.
Eligibility and Enrollment	Renewal	38209	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to determine available plans and allow enrollee to change plans during the renewal period as specified by the Exchange.
Eligibility and Enrollment	Renewal	38212	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide an automated workflow to generate tasks and assign to Service Center queue. (Note: This requirement applies to CCP/APTC/CSR programs only)
Eligibility and Enrollment	Renewal	38278	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to process individual disenrollment due to change in circumstance (e.g., moved to SHOP or Employer coverage) or non-payment of premium.
Eligibility and Enrollment	Renewal	38336	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to obtain verification data (only what is necessary e.g., income, incarceration, residency) in advance of annual renewal.
Eligibility and Enrollment	Renewal	38337	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to issue a notice of annual enrollment period via mail to current enrollees.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Eligibility and Enrollment	Renewal	38345	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to issue a notice of annual enrollment period to current enrollees, based on preferences (e.g., mail, email, phone) which includes pre-populated data. (Note: This requirement applies to CCP/APTC/CSR programs only)
Eligibility and Enrollment	Renewal	38411	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to produce written notification / request for individuals to verify key eligibility factors (e.g., income, household composition, residency, etc.) for the purposes of annual eligibility redetermination or enrollment renewal and report changes if necessary.
Eligibility and Enrollment	Renewal	38412	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to process individual responses to initiate eligibility redetermination process if necessary.
Eligibility and Enrollment	Renewal	38455	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to notify enrollees of disenrollment due to change in eligibility criteria. The notice is to include the reasons for ineligibility, the effective date, and a toll free number for customer service.
Eligibility and Enrollment	Renewal	44478	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality for enrollees to transfer to another QHP and / or stand-alone dental plan outside the annual renewal period based on certain qualifying events that change availability of plans (move to new location, decertification of a plan, etc.).
Eligibility and Enrollment	Reports		
Eligibility and Enrollment	Reports	38176	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall generate a report(s) based on a monthly calendar basis with all consumers/beneficiaries that have transitioned from APTC to MC (pending, eligible, conditionally eligible status identified by unique transition indicators) and from MC to APTC (discontinued, denied, ineligible status identified by an unique transition indicator).
Eligibility and Enrollment	Reports	38179	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate a report of cases for which members have been determined program ineligible for APTC/CSR/CCP via SAWS (eHIT) where members of the case remain program eligible for APTC/CSR/CCP and need to re-select a plan on the following frequency: Covered CA: Daily DHCS: Monthly
Eligibility and Enrollment	Reports	38180	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate a report of cases for which members have been determined program ineligible for MAGI M/C and APTC/CSR/CCP eligible or conditionally eligible via SAWS (eHIT) and need to select a plan on the following frequency: Covered CA: Daily DHCS: Monthly
Eligibility and Enrollment	Reports	38473	Update the existing ESI Employer Notices Extract (WKPG 68880) to add employer address information and update/add-to project documentation.
Eligibility and Enrollment	Reports	43100	When reporting monthly and yearly 1095-A electronic information to the IRS, the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall exclude catastrophic plans.
Eligibility and Enrollment	Reports	43107	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall report additional employer information on the 1095 report.
Eligibility and Enrollment	Verify Application Information		
Eligibility and Enrollment	Verify Application Information	38068	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to validate an application submission to a valid USPS address, including correct zip code and county. This validation will include determining the correct zip code without allowing the consumer to change.
Eligibility and Enrollment	Verify Application Information	38069	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall notify the consumer if their input address is not valid and allow correction.
Eligibility and Enrollment	Verify Application Information	38252	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not take action on a consumer's eligibility or enrollment if the electronic data source responsible for the verification inconsistency is not available for re-verification at the end of the reasonable opportunity period.
Eligibility and Enrollment	Verify Application Information	40723	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall notify consumers of SSN verification failures and present them with an opportunity to correct the data during the application flow
Eligibility and Enrollment	Verify Application Information	40950	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use the following income hierarchy during ROP Eligibility re-determination when income verifications results are inconsistent and income from electronic sources will be used to determine eligibility. 1. IRS and SSA 2. EDD and SSA 3. VCI and SSA 4. FTB and SSA 5. SSA
Eligibility and Enrollment	Verify Application Information	42283	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to verify applicant citizenship or status as a national or lawful presence, and income in real-time via external interface with the Federal Data Services Hub.
Eligibility and Enrollment	Verify Application Information	42284	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall not verify citizenship if the applicant does not attest to US Citizenship.
Eligibility and Enrollment	Verify Application Information	42285	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall not verify citizenship if the applicant indicates they are not applying for benefits.
Eligibility and Enrollment	Verify Application Information	42286	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall not verify citizenship if the applicant has already verified citizenship previously.

Category	Sub Category	Req ID	Requirement
Eligibility and Enrollment	Verify Application Information	42287	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall verify citizenship if the applicant attests to citizenship and is applying for benefits and has not had citizenship verified previously, including if the applicant reports a change from non-citizen to citizen.
Eligibility and Enrollment	Verify Application Information	42288	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall verify immigration status if the applicant claims eligible immigration status and provides immigration document details to verify, including reporting a change in their immigration status or documentation.
Eligibility and Enrollment	Verify Application Information	42406	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to verify residency, incarceration in real-time via external interface with various State Systems and/or federal Systems.
Eligibility and Enrollment	Verify Application Information	42407	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall not verify incarceration if the applicant indicates they are not applying for benefits.
Eligibility and Enrollment	Verify Application Information	42456	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to perform all verifications as described in the Data Verification Plan. (e.g. minimum essential coverage).
Eligibility and Enrollment	Verify Application Information	42457	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to automatically notify online in real-time if the individual will need to provide additional verification of income, citizenship or lawful presence.
Eligibility and Enrollment	Verify Application Information	42484	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to track the status of citizenship or lawful presence verification.
Eligibility and Enrollment	Verify Application Information	42491	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to verify in real-time whether an individual is already eligible and receiving benefits for subsidized healthcare via MEDS interface.
Eligibility and Enrollment	Verify Application Information	42507	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to notify the individual of all verified information in real-time via the Web Portal.
Eligibility and Enrollment	Verify Application Information	43286	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement the Federal HUB Renewal and Redetermination Verification (RRV) service for California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) initiated, passive auto renewals.
Eligibility and Enrollment	Verify Application Information	43287	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall modify the renewal verification plan to only include re-verification of SSN, death and income for California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) initiated, passive auto renewals.
Eligibility and Enrollment	Verify Application Information	43288	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall modify the existing real time income verification service to store response data in a structured column format, for future reporting enhancements.
Eligibility and Enrollment	Verify Application Information	43289	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the ability to re-process consumers through the RRV service as part of a technical or business exception process.
Eligibility and Enrollment	Verify Application Information	43377	"The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall re-verify ALL of the following verifications at renewals: - Lawful presence - income reasonable compatibility - incarceration status - deceased status - MEC"
Eligibility and Enrollment	Web Portal Online Help		
Eligibility and Enrollment	Web Portal Online Help	38329	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall display a popup modal window when a consumer clicks on any Plan Preview link.
Enrollment			
Enrollment	Alerts and Notices		
Enrollment	Alerts and Notices	40797	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall notify the Enroller (Agency Manager, Agent, Entity Manager, and Assister/CEC) that their Consumer has received a notice or snippet part of a notice that could require some action.
Enrollment	Alerts and Notices	40798	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide a daily summary notice outlining notification topics to the enroller
Enrollment	Alerts and Notices	40799	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall retain the notification excel sheet files in AWS for 90 days
Enrollment	Alerts and Notices	41219	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall proactively notify Enrollers (Agency Manager, Agent, Entity Manager, and Assister/CEC) on 08/01, 09/01, 10/01 with a list of Consumers 'Consent Valid Thru' will expire in the current benefit year.
Enrollment	Alerts and Notices	41220	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall notify the Enroller (Agency Manager, Agent, Entity Manager, and Assister/CEC) when there's an alert on Consumer's portal.
Enrollment	Alerts and Notices	41221	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send Enroller Portal Alerts information to Salesforce in the Agent / Assister Search Response
Enrollment	Alerts and Notices	41222	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add a new "Enroller Portal Alerts Sheet Download Link" data element to the Agent / Assister Search Response that a Service Center Representative shall be able to access using their California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) login credentials to download the Enroller Portal Alerts excel file.
Enrollment	Alerts and Notices	41223	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall enhance export book of business (All Agents/CEC) (Agency Manager, Entity Manager). Remove Attributes: 1. Consent Received Date 2. Consent Duration Add Attribute: 1. Consent Valid Through Coverage Year Report

Category	Sub Category	Req ID	Requirement
Enrollment	Alerts and Notices	41224	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall enhance export book of business columns for Enroller (Agency Manager, Agent, Entity, CEC).
			Remove Attributes: 1. Consent Received Date 2. Consent Duration Add Attribute: 1. Consent Valid Through Coverage Year Report
Enrollment	Assister Management		
Enrollment	Assister Management	39650	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Issuer Enrollment Portal shall allow the Issuer Representative to search for enrollments by an agency Federal Tax ID.
Enrollment	Assister Management	39651	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Issuer Enrollment Portal shall allow the Issuer Representative to export the results; the results spreadsheet shall include the delegation information for the enrollment (Agent's name,Agency Federal Tax ID', License Number, Delegation Start Date, Delegation End Date).
Enrollment	Assister Management	39654	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Issuer Enrollment Portal shall display the active delegation information (Agent's name,Agency Federal Tax ID', and License Number) associated with an enrollment record when an enrollment is selected for viewing.
Enrollment	Assister Management	39663	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall capture and store the delegation history for each household case regardless of programs and enrollment status.
Enrollment	Assister Management	39664	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall capture, store, and display the date when delegation was added, changed, and removed for each household case.
Enrollment	Assister Management	39665	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall capture and, store, and display who changed the delegation for each household case.
Enrollment	Assister Management	39666	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the user to refine transactions to display.
Enrollment	Assister Management	39667	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display all delegation history transactions to Service Center Representatives and Consumers.
Enrollment	Assister Management	39668	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display delegation history limited to the brokers at their agency only for Agency Managers and Approved Admin Staff.
Enrollment	Assister Management	39669	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display delegation history limited to his/her own book of business only for Certified Insurance Agent.
Enrollment	Assister Management	39670	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display delegation history limited to his/her own book of business only for Certified Enrollment Counselor.
Enrollment	Assister Management	39671	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall store delegation history in the DW and accessible in DM.
Enrollment	Assister Management	39672	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display consumer enrollment history, premium history, enrollee data for Certified Insurance Agents.
Enrollment	Assister Management	39673	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Issuer Enrollment Portal shall display Delegation History for an enrollment; the history shall include Agent's name,Agency Federal Tax ID', License Number, Delegation Start Date, Delegation End Date.
Enrollment	Assister Management	39690	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display consumer enrollment history, premium history, enrollee data for Certified Enrollment Counselors, Plan Base Enrollers.
Enrollment	Assister Management	39691	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display consumer enrollment history, premium history, enrollee data for Approved Admin Staff.
Enrollment	Case Management		
Enrollment	Case Management	41815	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Health Plan Compare screen shall include and display the following summary for each health plan selected for comparison: 1. Provider name and logo 2. Health Plan name (metal tier, plan type) hyperlink 3. Health Plan description as a banner (metal tier, plan type, CSR if it applies) 4. Monthly premium amount 5. Monthly savings amount 6. Monthly savings details 7. Add to cart button
Enrollment	Custom Grouping Rules		
Enrollment	Custom Grouping Rules	42071	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the user to provide the following health care needs information, this information will be utilized by the system to find and sort plan options for the household. 1. Preferred Providers (Doctors, Hospitals, Dentists) 2. Medical service needs (Number of Doctors visits, type of treatment etc.) 3. Prescription usage (Number of prescriptions, Low or High cost drug usage)
Enrollment			California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow a user to search their preferred health care providers.
Enrollment	Custom Grouping Rules	42073	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display a warning message when a user enters a ZIP code outside of the State of California.
Enrollment	Custom Grouping Rules	42074	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow a user to select their preferred health care providers.
Enrollment	Custom Grouping Rules	42075	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the following information for the preferred provider selected: 1. Provider type 2. Provider name 3. Provider specialty description 4. Provider address

Category	Sub Category	Req ID	Requirement
Enrollment	Custom Grouping Rules	42076	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall include and display the following functionalities for the preferred health provider selection page: 1. Main section header 2. Section description 3. Introductory provider directory text 4. Forward navigation 5. Back navigation to Dashboard for authenticated user 6. Back navigation to Shop and Compare for anonymous user
Enrollment	Custom Grouping Rules	42089	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) should allow a user to select their expected medical services need during the coverage year.
Enrollment	Custom Grouping Rules	42090	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall include and display the following functionalities for the medical services usage screen: 1. Main section header 2. Section description 3. Forward navigation 4. Back navigation 5. Display Back to Shop and Compare button for anonymous user 6. Display Back to Dashboard button for authenticated user
Enrollment	Custom Grouping Rules	42091	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow a user to select their expected prescriptions need for the coverage year.
Enrollment	Custom Grouping Rules	42092	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall include and display the following functionalities for the prescription usage screen: 1. Main section header 2. Section description 3. Forward navigation 4. Back navigation 5. Display Back to Shop and Compare button for anonymous user 6. Display Back to Dashboard button for authenticated user
Enrollment	Custom Grouping Rules	42095	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow a user to sort the health plans returned for a user by the following on health plan shopping page: 1. Total cost estimate amount 2. Monthly premium 3. Preferred providers
Enrollment	Disenrollment		
Enrollment	Disenrollment	38270	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall terminate and re-enroll the consumer's insurance policy under the following outcomes from reasonable opportunity period processing: If the subscriber is discontinued and there is at least one active member remaining on the policy
Enrollment	Disenrollment	41993	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) enrollment module shall include all functional changes documented CR 177296 - Moving Off Exchange Enrollments to California Healthcare Eligibility, Enrollment and Retention System (CalHEERS).
Enrollment	Disenrollment	41995	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) enrollment module shall include all functional changes documented CR 176483 - \$0 Premium Bill.
Enrollment	Disenrollment	41996	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) enrollment module shall include all functional changes documented CR 189423 - Add a Carrier Link to Enrollment Dashboard.
Enrollment	Disenrollment	41998	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) enrollment module shall include all functional changes documented CR 1880309 - Exchange Eligibility Dating.
Enrollment	Disenrollment	42003	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) enrollment module shall include all functional changes documented CR 170285 - System Design and Code Small Change Enhancements.
Enrollment	Disenrollment	42093	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall include the following functionalities for each of the health plans returned for the user in the health plan shopping page: 1. Calculate total cost estimate amount 2. Determined total cost estimate range (Lower, Average, and Higher)
Enrollment	Disenrollment	42094	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall adjust the total cost estimate amount to account for the number of months the consumer needs coverage.
Enrollment	Disenrollment	42096	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) enrollment module shall accept and process the existing QLE reason provided by business rules engine.
Enrollment	Disenrollment	42097	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall determine the earliest coverage start date based on the SEP details received from the business rules engine.
Enrollment	EDI Validations		
Enrollment	EDI Validations	41658	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display a loading screen/indicator until the plans are ready to be displayed based on the user inputs.
Enrollment	EDI Validations	41659	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide users with navigation options to guide user back to the user preferences and/or Shop and Compare page.
Enrollment	EDI Validations	41660	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) - Shopping Screen shall have functionality to navigate between Health Plan Summary and Dental Plan Summary screens to allow users to choose between varying types of plan selections: 1. Type (Health Plans) 2. Type (Dental Plans)

Category	Sub Category	Req ID	Requirement
Enrollment	EDI Validations	41661	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) - Health Plan Shopping Screen shall display following details regarding the user based on the data collected on the Shop & Compare and user preference pages. 1. Estimated Monthly Savings (per month basis) 2. Number of Members shopping in the Household 3. Coverage Start Date 4. ZipCode
Enrollment	EDI Validations	41662	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) - Health Plan Shopping Screen shall display the breakdown of 'Estimated Monthly Savings'
Enrollment	EDI Validations	41663	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) - Health Plan Shopping Screen shall display Cost-Sharing Reduction (CSR) Header with CSR Icon.
Enrollment	EDI Validations	41664	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) - Health Plan Shopping Screen shall allow user to access the definition of CSR to understand Cost-Sharing Reduction.
Enrollment	EDI Validations	41665	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) - Health Plan Shopping Screen shall display pagination for pages available to user for Health Plan Shopping.
Enrollment	EDI Validations	41666	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) - Health Plan Shopping Screen shall display count of items added to the shopping cart
Enrollment	EDI Validations	41667	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) - Health Plan Shopping Screen shall display 'Benefits Summary Disclaimer' details.
Enrollment	EDI Validations	41668	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) - Health Plan Shopping Screen shall display a disclaimer regarding the source of quality ratings details
Enrollment	EDI Validations	41669	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) - Health Plan Shopping Screen shall have functionality to sort Health Plans based on the following sorting categories: 1. Total Expense Estimate 2. Monthly Premium (low to high) 3. Preferred Doctor or Provider
Enrollment	EDI Validations	41670	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) - Health Plan Shopping Screen shall have the functionality to guide users to filter Health Plans based on the following data categories: 1. Plan Type 2. Plan Features 3. Metal Tier 4. Yearly Deductible 5. Companies 6. Quality Rating
Enrollment	EDI Validations	41671	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) - Health Plan Shopping Screen shall allow users to filter based on the Plan Type which includes following: 1. HMO 2. EPO 3. PPO
Enrollment	EDI Validations	41672	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) - Health Plan Shopping Screen shall allow user to filter based on Plan Features which includes following: 1. Cost-Sharing Reductions (CSR) 2. Health Savings Account (HSA)
Enrollment	EDI Validations	41673	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) - Health Plan Shopping Screen shall allow user to filter based on Metal Tier which includes following: 1. Platinum 2. Gold 3. Silver 4. Bronze 5. Minimum Coverage
Enrollment	EDI Validations	41674	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) - Health Plan Shopping Screen shall display the Minimum Coverage filter for the users who are less than the age of 30.
Enrollment	EDI Validations	41675	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) - Health Plan Shopping Screen shall allow user to filter based on Yearly Deductible which includes following: 1. \$2500 and less 2. \$7500 and less 3. \$10,000 and less
Enrollment	EDI Validations	41676	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) - Health Plan shall provide tooltip for all the filters with the title below: 1. Metal Tier 2. Yearly Deductible
Enrollment	EDI Validations	41677	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) - Health Plan Shopping Screen shall allow user to filter based on companies which includes list of companies who are providing QHP based on the user provided information
Enrollment	EDI Validations	41678	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) - Health Plan Shopping Screen shall allow user to filter based on Quality Ratings of the Health Plans. The Quality Rating filters include options ranging from 5 stars quality ratings to 1 star quality rating.
Enrollment	EDI Validations	41679	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display all the filters selected by user in the Health Shopping screen.
Enrollment	EDI Validations	41680	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have a functionality for users to clear all the applied filters in the Health Shopping Screen.
Enrollment	EDI Validations	41681	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) - Health Plan Shopping Screen shall display summary for each of the Health Plans recommended by the system. The summary includes the details mentioned in BRs 12.1-12.18

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Enrollment	EDI Validations	41751	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) - Health Plan Shopping Screen shall display the company/carrier logo image for each of the Health Plans recommended by the system.
Enrollment	EDI Validations	41752	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) - Health Plan Shopping Screen shall display the Plan Name for each of the Health Plans recommended by the system.
Enrollment	EDI Validations	41753	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) - Health Plan Shopping Screen shall display the "Metal Tier", "Plan Type", "Plan Feature" for each of the Health Plans recommended by the system.
Enrollment	EDI Validations	41754	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) - Health Plan Shopping Screen shall display the "Plan Type" for each of the Health Plans recommended by the system.
Enrollment	EDI Validations	41755	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) - Health Plan Shopping Screen shall display the "Plan Features" for each of the Health Plans recommended by the system.
Enrollment	EDI Validations	41756	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) - Health Plan Shopping Screen shall display the Monthly Premium Cost after APTC and/or CA premium credit deductions for each of the Health Plans recommended by the system.
Enrollment	EDI Validations	41757	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall cap the monthly premium amount to \$0 for the users who have APTC and/Or CA premium credit greater than the monthly premium amount.
Enrollment	EDI Validations	41758	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) - Health Plan Shopping Screen shall display the Monthly savings amount for each of the Health Plans recommended by the system.
Enrollment	EDI Validations	41759	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) - Health Plan Shopping Screen shall display the Primary Care Visit Copay for each of the Health Plans recommended by the system.
Enrollment	EDI Validations	41760	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) - Health Plan Shopping Screen shall display the Generic Drugs Copay for each of the Health Plans recommended by the system.
Enrollment	EDI Validations	41761	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) - Health Plan Shopping Screen shall display the Yearly Deductible for each of the Health Plans recommended by the system.
Enrollment	EDI Validations	41762	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) - Health Plan Shopping Screen shall display the 'May not Apply' for each of the Health Plans that have a non-zero yearly deductible for each of the Health Plan recommended by the system.
Enrollment	EDI Validations	41763	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) - Health Plan Shopping Screen shall display the Total Expense Estimate for each of the Health Plans recommended by the system.
Enrollment	EDI Validations	41764	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) - Health Plan Shopping Screen shall display the Quality Ratings for each of the Health Plans recommended by the system. The Quality Ratings are currently defined by no. of stars ranging from 1 star to 5 star.
Enrollment	EDI Validations	41765	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Health Plan Shopping Screen shall display an indicator to distinguish all the Top Performing Quality Health Plans recommended by the system.
Enrollment	EDI Validations	41766	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) - Health Plan Shopping Screen shall display the list of providers/facilities who provide coverage for each of the Health Plans recommended by the system. The following details should be available for each of the providers: 1. Name of the provider 2. Provider is in network or Out-of-network
Enrollment	EDI Validations	41767	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) - Health Plan Shopping Screen shall have a functionality/option to navigate to the Individual Health Plan details page(s) for each of the Health Plans recommended by the system.
Enrollment	EDI Validations	41768	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) - Health Plan Shopping Screen shall provide user with the Add to Cart feature for each of the Health Plans recommended by the system.
Enrollment	EDI Validations	41769	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) - Health Plan Shopping Screen shall allow user to add only one Health Plan at a time instance to the shopping cart.
Enrollment	EDI Validations	41770	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) - Health Plan Shopping Screen shall provide user with the feature to 'Remove' the Health Plan from the shopping cart
Enrollment	EDI Validations	41771	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) to show a validation/warning message during the Anonymous Flow indicating that the user cannot purchase Dental Plan only.
Enrollment	EDI Validations	41772	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display a visual confirmation after selecting the plan to provide confirmation of Plan selected and provide user with navigation for next steps: 1. Functionality to navigate to the Dental Plans Summary page 2. Functionality to navigate to the Shopping Cart Page
Enrollment	EDI Validations	41773	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) - Dental Plan Shopping Screen shall display following details regarding the user based on the data collected on the Shop & Compare and user preference pages. 1. Number of Members shopping in the Household 2. Coverage Start Date 3. ZipCode
Enrollment	EDI Validations	41774	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) - Dental Plan Shopping Screen shall display pagination for pages available to user for Dental Plan Shopping.
Enrollment	EDI Validations	41775	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) - Dental Plan Shopping Screen shall display count of items added to the shopping cart
Enrollment	EDI Validations	41776	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) - Dental Plan Shopping Screen shall display 'Benefits Summary Disclaimer' details.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

OTSI CalHEERS RFP #73040873 Addendum 1
October 31, 2025

Category	Sub Category	Req ID	Requirement
Enrollment	EDI Validations	41777	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) - Dental Plan Shopping Screen shall have functionality to sort Dental Plans based on the following sorting categories: 1. Monthly Premium (low to high)(Default Sort Option) 2. Yearly Deductible (low to high)
Enrollment	EDI Validations	41778	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) - Dental Shopping Screen shall have the functionality for the users to filter Dental Plans based on the following: 1. Plan Type 2. Plan Tier 3. Yearly Deductible 4. Companies
Enrollment	EDI Validations	41779	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) - Dental Plan Shopping Screen shall allow users to filter based on the Plan Type which includes following: 1. HMO 2. PPO
Enrollment	EDI Validations	41780	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) - Dental Plan Shopping Screen shall allow user to filter based on Plan Tier.
Enrollment	EDI Validations	41781	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) - Dental Plan Shopping Screen shall allow user to filter based on Yearly Deductible which includes following: 1. \$49 and under 2. \$50 to \$ 99 3. \$100 and over
Enrollment	EDI Validations	41782	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) - Dental Plan Shopping Screen shall allow user to filter based on companies/carriers.
Enrollment	EDI Validations	41783	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display all the filters selected by user in the Dental Shopping screen.
Enrollment	EDI Validations	41784	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) - Dental Plan Shopping Screen shall display summary for each of the Dental Plans recommended by the system. The summary includes the details mentioned in BRs 20.1-20.11
Enrollment	EDI Validations	41785	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) - Dental Plan Shopping Screen shall display the company/carrier logo image for each of the Dental Plans recommended by the system.
Enrollment	EDI Validations	41786	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) - Dental Plan Shopping Screen shall display the Plan Name for each of the Dental Plans recommended by the system.
Enrollment	EDI Validations	41787	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) - Dental Plan Shopping Screen shall display the Plan Type and Plan Tier for each of the Dental Plans recommended by the system.
Enrollment	EDI Validations	41788	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) - Dental Plan Shopping Screen shall display the Monthly Premium Cost for each of the Dental Plans recommended by the system.
Enrollment	EDI Validations	41789	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) - Dental Plan Shopping Screen shall display the Routine Dental Copay for Adults for each of the Dental Plans recommended by the system.
Enrollment	EDI Validations	41790	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) - Dental Plan Shopping Screen shall display the Routine Dental Copay for Children for each of the Dental Plans recommended by the system.
Enrollment	EDI Validations	41791	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) - Dental Plan Shopping Screen shall display the Yearly Deductible for each of the Dental Plan recommended by the system.
Enrollment	EDI Validations	41792	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) - Dental Plan Shopping Screen shall have a functionality/option to navigate to the "Individual Dental Plan" details pages for each of the Dental Plans recommended by the system.
Enrollment	EDI Validations	41793	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) - Dental Plan Shopping Screen shall provide user with the "Add to Cart" feature for each of the Dental Plans recommended by the system.
Enrollment	EDI Validations	41794	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) - Dental Plan Shopping Screen shall allow user to add only one Dental Plan at a time/instance to the shopping cart.
Enrollment	EDI Validations	41795	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) - Dental Plan Shopping Screen shall provide user with the feature to 'Remove' the Dental Plan from the shopping cart
Enrollment	EDI Validations	41796	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display a visual confirmation of Plan selected and provide user with the ability to do the following: 1. Functionality to navigate to the Shopping Cart Page
Enrollment	EDI Validations	41797	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) - Health Plan Shopping Screen shall display field label for yearly deductibles which can be configured to include verbiage around Metal Tier and CSR Tier for the yearly deductible.
Enrollment	EDI Validations	41798	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have a hover over text for the Yearly Deductible field which can be dynamic to include verbiage regarding the Metal tier and CSR tier .
Enrollment	EDI Validations	41799	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall include and display the following functionalities for Health Plan Details screen: 1. Back navigation to shop and compare and plan selection screens 2. Main section header
Enrollment	EDI Validations	41810	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) -- Health Plan Details screen shall have a hover over text for the Yearly Deductible field which can be dynamic to include verbiage regarding the Metal tier and CSR tier .
Enrollment	EDI Validations	41816	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display a visual confirmation after selecting the plan to provide confirmation of Plan selected and provide user with navigation for next steps: 1. Functionality to navigate to the Dental Plan Shopping 2. Functionality to navigate to the Shopping Cart Page

Category	Sub Category	Req ID	Requirement
Enrollment	EDI Validations	41817	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the following content in the Summary section: 1. Total Expense Estimate 2. Doctors & Facilities 3. Plan Type 4. Health Savings Account (HSA) 5. Quality Rating
Enrollment		41818	***The BR for Provider Directory Search implementation will be discussed in a separate RV Session *** California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall include and display the following functionalities for the doctors and facilities card: 1. Section header for doctors and facilities 2. Check for your doctor hyperlink appears if user did not select a preferred provider previously. 3. Provider name and address appears if user selected a preferred provider previously. 4. Edit hyperlink appears if user selected a preferred provider previously. 5. Provider network indicator whether provider is in the health plan network if user selected a preferred provider(s) previously. 6. User will have an option to search, view (list view and map view), or edit preferred provider list.
Enrollment		41819	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall include and display the following functionalities for health services based on information coming SERFF 1. Section header for the name of service 2. List of sub-categories for the service 3. Coverage information for each service for in-network providers will be populated based on information from SERFF
Enrollment	EDI Validations	41825	***The BR for Provider Directory Search implementation will be discussed in a separate RV Session *** California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall include and display benefits resources section with following functionalities: 1. Ability to view Summary of Benefits and Coverage PDF 2. Plan brochure label/hyperlink 3. Provider directory hyperlink
Enrollment		41834	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the following features for the Dental Plan comparison page: 1. Back navigation to shop and compare and plan selection pages 2. Main section header
Enrollment			
Enrollment	Enrollment	37913	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall initiate a term/re-enroll during the enrollment update process whenever a consumer, SCR, or assistor-initiated Report a Change transaction occurs that would result in a change to the identification of the subscriber
Enrollment	Enrollment	38074	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall default termination dates to the end of the month in consideration of the 14 day rule (while still maintaining SCR rules for exception handling).
Enrollment	Enrollment	38075	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall include a new termination date field (in addition to Life Event Date) that shows derived value per correct business rules when reporting life events
Enrollment	Enrollment	38077	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall display maintained reasons viewable on the portal for disenrolled members.
Enrollment	Enrollment	38273	When there is custom grouping and the ROP batch discontinues and disenrolls the subscriber in a custom group (i.e. group 1) the other member(s) in the same custom group (i.e. group 1) remain in the same custom group (i.e. group 1.)
Enrollment	Enrollment	38977	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall retest the connectivity with all existing Carriers(Health and Dental).
Enrollment	Enrollment	39284	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) team shall perform Integration test to ensure that carriers are able to accept, process, and provide response to transactions including 834, TA1, 999.
Enrollment	Enrollment	39376	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall create a new security profile for the Issuer Enrollment Module.
Enrollment	Enrollment	39474	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall retest the connectivity with all existing Carriers(Health and Dental).
Enrollment	Enrollment	39488	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) team shall perform Integration test to ensure that carriers are able to accept, process, and provide response to transactions including 834, TA1, 999.
Enrollment	Enrollment	39515	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall send the Salesforce system consumer's demographic, eligibility and enrollment information of submitted applications.
Enrollment	Enrollment	39624	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the table structure for REM to include a new table to capture the financial discrepancies. (L5)
Enrollment	Enrollment	39626	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall build the python rules for the financial reconciliation
Enrollment	Enrollment	39628	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the carrier action file to include carrier fixes resulting from the financial reconciliation
Enrollment	Enrollment	39643	GI shall configure the Enhanced Provider Data Management Module on for California Healthcare Eligibility, Enrollment and Retention System (CalHEERS)
Enrollment	Enrollment	39644	GI shall provide a User Interface to load provider directory files
Enrollment	Enrollment	39645	GI shall provide comprehensive log files for loaded provider directory files
Enrollment	Enrollment	39646	GI shall provide the number of records uploaded each time
Enrollment	Enrollment	39647	GI shall store the loaded file for future reference
Enrollment	Enrollment	39648	GI shall provide the capability to 'activate' the last successfully uploaded file and make it available to the consumer

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Enrollment	Enrollment	39649	GI shall provide an audit trail for loaded files
Enrollment	Enrollment	39710	GI shall create a new enrollment ID any time a member who was previously terminated from an enrollment is added back with a new coverage start date.
Enrollment	Enrollment	39711	GI shall maintain the rating age for any continuing member when creating the new enrollment ID
Enrollment	Enrollment	39744	GI shall use the added members current age when rating them for the new enrollment ID
Enrollment	Enrollment	39760	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display configurable date on the Confirmation page which prompts the consumer to use Pay Now in order to ensure they have coverage by the effective start date of their plan
Enrollment	Enrollment	39762	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall rename the button for online payment to "Pay Now".
Enrollment	Enrollment	39792	GI shall remove “may not apply” deductible link and hover text from plans that show a Yearly Deductible as a \$0-dollar value
Enrollment	Enrollment	39793	GI shall add a Provider sort feature on the Plan Selection page.
Enrollment	Enrollment	39794	GI shall add an "Edit Preferences" indicator to the plan tile
Enrollment	Enrollment	39804	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the current APTC/State Subsidy attestations on Enrollment Confirmation page to all IAP applicants
Enrollment	Enrollment	39805	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use unapplied subsidy eligibility to the entire enrollment year when the consumer uses the Change Plan functionality in the GI portal without running eligibility.
Enrollment	Enrollment	39822	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall passively renew cases in which the consumer started the Active renewal process but did not enroll into a plan, and the case has an active enrollment in the current year.
Enrollment	Enrollment	39823	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow a consumer with a passively renewed dental only plan to enroll in a QHP during open enrollment when a new application has been submitted
Enrollment	Enrollment	39824	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow a consumer with an active dental only plan to enroll in a QHP when they Report a Change and have a valid Qualifying Life Event
Enrollment	Enrollment	39826	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send a renewal transaction to the carriers if a consumer actively renews into the same plan after shopping to compare prices
Enrollment	Enrollment	39827	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall include the original policy ID in the 834 renewal transaction to carriers when a consumer actively renews in the same plan after shopping to compare prices
Enrollment	Enrollment	39921	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall retest the connectivity with all existing Carriers (Health and Dental).
Enrollment	Enrollment	39922	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) team shall perform Integration testing to ensure that carriers are able to accept, process, and provide responses to transactions including 834, TA1, 999.
Enrollment	Enrollment	40747	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the QRS language on the Plan Tile and Plan Tile summary page
Enrollment	Enrollment	40748	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the benefit design logic for any benefit design changes made for the new year
Enrollment	Enrollment	40749	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the Out of Pocket calculator for any benefit design changes made for the new year
Enrollment	Enrollment	40800	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall require a consumer in active renewal to select a qualified health plan before selecting a dental plan
Enrollment	Enrollment	40801	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall terminate all Health and Dental enrollments on a case when it is closed as a duplicate
Enrollment	Enrollment	41103	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the enrollment sync nightly batch to include the CA subsidy payment for the Non Hyde Abortion portion of premium.
Enrollment	Enrollment	41104	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the Enroller Book of Business (Agency/Agent/Entity/Certified Enrollment Counselor) csv file to display the CA subsidy payment for the Non Hyde Abortion portion of premium amount.
Enrollment	Enrollment	41105	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the weekly carrier reports to include the CA subsidy payment for the Non Hyde Abortion portion of premium amount.
Enrollment	Enrollment	41106	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the REM File Layout to include the new Non Hyde Abortion subsidy amount.
Enrollment	Enrollment	41107	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the REM L2 rules based on the new Non Hyde Abortion subsidy amount.
Enrollment	Enrollment	41108	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the REM L3 rules to include the Non Hyde Abortion subsidy amount.
Enrollment	Enrollment	41109	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the REM L5 rules to include the Non Hyde Abortion subsidy amount.
Enrollment	Enrollment	41110	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the REM Report to include the Non Hyde Abortion subsidy amount.
Enrollment	Enrollment	41111	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the D2 & D3 rules to include the Non Hyde Abortion subsidy amount.
Enrollment	Enrollment	41112	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add a new Dispute flag for the Non Hyde Abortion subsidy amount.
Enrollment	Enrollment	41113	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the D2 Validation Report & Dispute reports to include the Non Hyde Abortion subsidy amount.
Enrollment	Enrollment	41114	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add the Non Hyde Abortion subsidy amount to the Dispute Dashboard.
Enrollment	Enrollment	41115	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the enrollment sync package to include the Non Hyde Abortion subsidy amount.
Enrollment	Enrollment	41225	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall enable the Choose Plan button on the Account Home when a user implements the Plan Selection Override in GI
Enrollment	Enrollment	41226	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the Logic of the Alerts pop up on Account Home page to display the choose plan Link when a user implements the plan selection override in GI.
Enrollment	Enrollment	41227	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the logic of displaying the choose plan link and Continue link on the household eligibility summary Page
Enrollment	Enrollment	41294	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall match the hover text for PIN on GI side with the hover text for PIN on HBEX side.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Enrollment	Enrollment	42785	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to calculate and maintain the carrier advance CSR amount per enrollment based on CMS Plan Variation Multipliers (based on effective dates for the multipliers) and Cost-Sharing Reduction Plan Variation..
Enrollment	Enrollment	42786	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to update, as necessary per CMS, the CSR Plan Multipliers and maintain effective dates for use of multipliers based on enrollment date.
Enrollment	Enrollment	43103	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system must be able to accept plan information and data in the format documented in the SERFF templates at: http://www.cms.gov/CCIIO/Programs-and-Initiatives/Health-Insurance-Marketplaces/qhp.html#Instructions, Templates and Materials
Enrollment	Enrollment	43184	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to load and update family dental plan data, via the existing plan data load process (SERFF template) for pediatric dental plans.
Enrollment	Enrollment	43185	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to list and maintain family dental plans for consumer portal selection. Shopping page listing of family dental plans requires modification to the existing pediatric dental plan benefit labels, metal tier indicator, and APTC references, displayed on: - Plan Comparison screen - Plan Details screen
Enrollment	Enrollment	43186	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to allow consumers to shop for Medical with embedded pediatric dental plan (10.0), and a family dental plan.
Enrollment	Enrollment	43187	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide a link on to a pdf document for details of family dental plans, on the: - Preview Plans page - Plan Comparison page for health plans
Enrollment	Enrollment	43188	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to notify the consumers via onscreen messaging that the family dental plan contains duplicative pediatric dental benefits if they have already chosen a medical plan with embedded pediatric dental.
Enrollment	Enrollment	43189	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to allow a consumer to choose a dental plan at any time (during open enrollment) if plan selection was not completed when a medical plan was chosen.
Enrollment	Enrollment	43190	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to remove the ability to select a dental plan when open enrollment has ended and allow changes only if an SEP is triggered.
Enrollment	Enrollment	43191	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to only allow all children to be added to an adult policy.
Enrollment	Enrollment	43192	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to notify the consumers via onscreen messaging that the consumer may make changes to the plan selection by accessing the 'Change Plans' or 'Report a Change' functionalities within the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) application
Enrollment	Enrollment	43193	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to notify the consumers via onscreen messaging that the consumer has to make premium payment for coverage to become effective.
Enrollment	Enrollment	43194	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to inform/notify the consumer about the medical carrier names and their embedded dental carrier partner
Enrollment	Enrollment	43195	[Technical Requirement] California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall process family dental plan selection similar to the current process for pediatric dental, in terms of the enrollment transactions on interfaces IND19/IND20.
Enrollment	Enrollment	43198	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the business rules for the effective dating of all of the following financial fields in the 834 transactions: gross premium, net premium, member level gross premium, rating area, CSR amount and APTC
Enrollment	Enrollment	44225	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) requires a new test environment be initiated and prepared to support testing and build deployment activities
Enrollment	Enrollment	44533	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the end of cycle report to include the financial discrepancies resulting from the financial reconciliation
Enrollment	Enrollment	44534	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create a new heat map report for financial discrepancies
Enrollment	Enrollment	44535	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create a new dashboard report for financial discrepancies
Enrollment	Enrollment	45242	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall allow Issuer Enrollment Representatives to view issuer specific enrollment data.
Enrollment	Enrollment	45645	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add a button to a SAML redirect to the Carrier's Primary Care Provider selection process on the Enrollment pages.
Enrollment	Enrollment	45646	The redirect button shall only display for new enrollments with a \$0 Net Premium
Enrollment	Enrollment	45647	The redirect button shall only display for carriers that have provided a URL for this feature
Enrollment	Enrollment	45648	The redirect button shall stop displaying after a fixed time limit.
Enrollment	Enrollment	46181	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow displaying enrollment snapshot modal for the converted enrollment records.
Enrollment	Enrollment	46182	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall convert the point in time data for the legacy 834 EDI triggers.
Enrollment	Enrollment	46183	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update enrollment snapshot modal to display following fields: Agent Information, Agent Name, Agent License Number, Agency FEIN
Enrollment	Enrollment	46343	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the Spanish translation for Change Group Type under Enrollment groups
Enrollment	Enrollment	46344	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the QRS Disclaimer language on the Enrollment Plan Shopping screen
Enrollment	Enrollment	46357	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall filter plans for Aetna when the Microsite code is passed to California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) for this carrier
Enrollment	Enrollment	46488	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display CAPS amount in the Premium/Savings breakdown section on the Enrollment pages only when an individual is evaluated and is determined eligible for the CAPS program.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Enrollment	Enrollment	46489	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall grant first of current month as the coverage start date when plan shopping is done during the OFL (Over the finish line) period for the open enrollment applications submitted without a QLE.
Enrollment	Enrollment	46490	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall grant first of current month as the coverage start date when plan shopping is done during the OFL (Over the finish line) period for the open enrollment applications submitted without a QLE.
Enrollment	Enrollment	46491	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send a maintenance transaction for the Subscriber and any applicable dependents who renew into a plan with the current Issuer, along with a member-level termination transaction (coverage end date 12/31) for any dependent who does not renew in the same enrollment group as the current Subscriber.
Enrollment	Enrollment	46494	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the benefit design logic for any benefit design changes made for the new year
Enrollment	Enrollment	46495	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the Out of Pocket calculator for any benefit design changes made for the new year
Enrollment	Enrollment	46496	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the updated Plan Quality Rating Disclaimer text for the specific benefit year.
Enrollment	Enrollment	46497	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the updated Plan Quality Rating Disclaimer text for the 2023 benefit year.
Enrollment	Enrollment	46498	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the updated Plan Quality Rating Disclaimer text for the 2024 benefit year.
Enrollment	Enrollment	47106	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall filter plans for IEHP when the Microsite code is passed to California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) for this carrier
Enrollment	Enrollment	47108	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall include the county information for the Primary Contact, separately, below the address with a label of - County of Residence.
Enrollment	Enrollment	47109	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall include the primary contact's email address on the Case Overview page.
Enrollment	Enrollment	47110	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall enable and default the checkbox for “Send in 834” in the Enrollment Override page for all reasons except "non-payment" When the user updates the selected reason from “Non-Payment” to any other reason from drop down the checkbox should be enabled and selected to send in 834.
Enrollment	Enrollment	47705	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall restrict users from completing plan selection on the Enrollment Dashboard while Active Manual APS Indicator = "Y" for the consumer.
Enrollment	Enrollment	47706	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall redirect users to the Review Account Updates screen if they attempt to access the Enrollment Dashboard/Plan Selection while the following is true for at least one member on the case: •Active Manual APS Indicator = “Y” •Treatment Indicator = “MAPS1” or “MAPS2”
Enrollment	Enrollment	47707	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall redirect users to the Modified MCT Dashboard for Manual APS if they attempt to access the Enrollment Dashboard form the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Portal or attempt to enter the Plan Selection flow on the Enrollment Portal while the following is true for at least one member on the case: •Active Manual APS Indicator = “Y” •Treatment Indicator = “MAPS3”
Enrollment	Enrollment	47708	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) will lift restrictions on the Enrollment Portal for Manual APS process 1, 2, and 3 consumers when the Active Manual APS Indicator is no longer "Y".
Enrollment	Enrollment	47709	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send the MRC-EC in the 834 EDI transactions when consumer is auto-enrolled into the new Manual APS - Process 3 enrollment.
Enrollment	Enrollment	47890	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the Health Preference Page screen for A/B Testing
Enrollment	Enrollment	47891	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall navigate users to both the existing and new Health Preference Page
Enrollment	Enrollment	47892	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement a configuration which will enable/disable traffic to either Health Preference Pages
Enrollment	Enrollment	48029	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate a cancel transaction to disenroll individuals from the Auto Plan Selection (APS) enrollment if they lose Exchange eligibility before the coverage start date.
Enrollment	Enrollment	48031	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall maintain the same enrollment Coverage Start date when the Change Plan functionality is used prior to the effective date to create a new enrollment.
Enrollment	Enrollment	48246	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall suggest default groupings for CCP-APTC or CCP only consumers under the following plan dependent rules: • Single family policy under one subscriber when all members in the plan meet the plan dependent definition in relation to the subscriber, all members are subsidized, all members are federally recognized AI/AN members, and all members belong to the same CSR eligibility. • Single family policy under one subscriber when all members in the plan meet the plan dependent definition in relation to the subscriber, all members are subsidized, all members are non AI/AN members, and all members belong to the same CSR level (including CS1). • Single family policy under one subscriber when all members in the plan meet the plan dependent definition in relation to the subscriber and all members are eligible for un-subsidized plans.
Enrollment	Enrollment	48247	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update existing messaging on the enrollment pages regarding enrollment groups.
Enrollment	Enrollment	48248	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall enforce the plan dependent definition rules when consumers are creating custom enrollment groupings and display messaging when those rules are not met.
Enrollment	Enrollment	48249	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow over-age dependents to stay in the same enrollment group within the benefit year and will remove them at renewals.
Enrollment	Enrollment	48250	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have an indicator/flag for enrollees 25 years old or older.
Enrollment	Enrollment	48251	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the Disability Indicator Flag history on the Admin Self Service Portal.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Enrollment	Enrollment	48252	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have ability for Issuer Enrollment Representatives (IERs) to check and uncheck the Disability Indicator Flag in the Issuer portal for members with active enrollments (Pending/Enrolled).
Enrollment	Enrollment	48253	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the Disability Indicator Flag history on the Issuer Portal.
Enrollment	Enrollment	48254	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall consider the Disability Indicator Flag when forming the enrollment groups during future RAC/Renewal flows.
Enrollment	Enrollment	48255	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall consider the following relations to be plan dependents of a subscriber, and only allow plan dependents to enroll in the same Covered CA enrollment group/plan that a subscriber belongs to: • Married spouses • Registered domestic partners • Biological/adopted/step/ certified child under age of 26, including those of Registered Domestic Partners • Disabled adult children of any age (including 26 or above) • Siblings under the age of 21 in a children only enrollment group • Tax dependent parents/In-Law
Enrollment	Enrollment	48256	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) while creating default enrollment groupings and/or allowing custom grouping, shall ensure that the following enrollment rules are followed: • Every member in an enrollment group is a qualified plan dependent relative of the subscriber of the enrollment • Members in an enrollment group are all AI/AN members or they are all Non-AI/AN members • Every member in the enrollment group has the same CSR eligibility • Members in an enrollment group are all subsidized members or they are all Non-subsidized members
Enrollment	Enrollment	48350	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall evaluate the Enhanced CSR amount based on the appropriate benefit year Per Member Per Month(PMPM) computation which will use the rating region, and FPL of the household into consideration, if the Enhanced CSR configuration is turned ON for a benefit year.
Enrollment	Enrollment	48351	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall calculate Enhanced CSR amount using different PMPM amounts for a rating region and Enhanced CS level, and these amounts would be maintained as configurable amounts for a benefit year.
Enrollment	Enrollment	48352	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow a configurable percentage of withholding at a CS level in the Enhanced CSR computation.
Enrollment	Enrollment	48353	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement the CS levels 7, 8 and 9 in the enrollment module of California Healthcare Eligibility, Enrollment and Retention System (CalHEERS), so that enhanced CSR functionality can be extended to use CS levels.
Enrollment	Enrollment	48412	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall renew members who are between the Current year FPL% of 100 - 259 and enrolled in non – silver plans to target Silver CSR plans as per CSR eligibility by affordability crosswalk batch.
Enrollment	Enrollment	48413	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall stage members who are between the Current year FPL% of 100 - 259 and enrolled in non – silver plans for affordability Crosswalk staging batch.
Enrollment	Enrollment	48414	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall select target silver plan for the affordability Crosswalk population based on the current Issuer and Product type.
Enrollment	Enrollment	48415	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add a case note indicating that the case was included in the automated Affordability Crosswalk batch process that will indicate if the automated process was successfully able to renew the enrollment or not.
Enrollment	Enrollment	48416	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send Active renewal indicator for Affordability Crosswalk Population as part of EDI transactions.
Enrollment	Enrollment	48423	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall load the Case Overview page correctly when the user navigates to the page for a case which has an In-progress application for the most recent enrollment year without a prior submitted application for the same enrollment year.
Enrollment	Enrollment	48424	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall collect consent from consumers to allow the carriers to send them text messages
Enrollment	Enrollment	48427	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the existing enrollment if user chooses the same plan in a shopping flow during RAC.
Enrollment	Enrollment	48428	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate a term transaction for the current year and a cancel transaction for the renewal year if the consumer ends coverage for the current year after being renewed.
Enrollment	Enrollment	48429	After the renewal transaction has been cancelled, California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate a new add transaction for the next benefit year if the consumer wishes to retain coverage for the renewal year.
Enrollment	Enrollment	48448	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate a cancel transaction with the MRC 07 termination of Benefits when individuals are disenrolled from the Auto Plan Selection (APS - New) enrollment if they are moving back to MAGI MC before the coverage start date.
Enrollment	Enrollment	48532	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display all plan benefit attributes used to calculate the estimated total cost expense within the Estimated Total Cost section. SSJ: See edits to BR1. Since (b) is referring to display on the portal, I have updated the attribute labels to match what was sent to CLH/DLT/HCD for BR1.6 to update the labels which includes the request to group outpatient services, inpatient services, and prescription drugs.
Enrollment	Enrollment	48533	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not display any plan benefit attributes used to calculate the estimated total cost expense when that cost amount equals \$0. SSJ: See edits to BR1. Since (b) is referring to display on the portal, I have updated the attribute labels to match what was sent to CLH/DLT/HCD for BR1.6 to update the labels which includes the request to group outpatient services, inpatient services, and prescription drugs.

Category	Sub Category	Req ID	Requirement
Enrollment	Enrollment	48534	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update portal design documentation to reference how the estimated total cost expense is calculated and what documents to refer to for full context and details. a. Display rules for the Estimated Total Cost section needs more detail and to cite the other functional design documents used to display/calculate these values in PCAP. b. Enrollment design documents to review are WPS/CM 46.01 - Plan Shopping/Plan Details, but any and all related docs should be captured and reviewed for clarity on how the portal displays. c. This BR is doc update only. d. No test or Code update Required.
Enrollment	Enrollment	48535	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the labels of each plan benefit attribute used in the estimated total cost calculation. SSJ: See edits to BR1. Since (b) is referring to display on the portal, I have updated the attribute labels to match what was sent to CLH/HLT/HCD for BR1.6 to update the labels which includes the request to group outpatient services, inpatient services, and prescription drugs.
Enrollment	Enrollment	48536	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall make updates to the health plan benefit attributes to align with the 2025 Plan Benefit Design changes. a. For the Bronze benefit design update for 2025 where deductible no longer applies for certain benefits. b. This is a Test only BR. No Doc update or Code update needed.
Enrollment	Enrollment	48537	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add and display "Gender-affirming care" details for both "in-network cost" and "out-of-network cost" on the Plan Details page.
Enrollment	Enrollment	48538	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display a tooltip to describe "Gender-affirming care" services and helpful information.
Enrollment	Enrollment - SHOP		
Enrollment	Enrollment - SHOP	44247	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to present the employer or employee the detailed comparisons of qualified health plans filtered on their plan preferences.
Enrollment	Enrollment - SHOP	44248	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality highlight any benefit gaps in a plan as compared to other selected plans .
Enrollment	Enrollment - SHOP	44249	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall highlight any generous provisions for each plan selected for comparison.
Enrollment	Enrollment - SHOP	44796	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to display a detailed quality and cost comparison of all available health plans based on information (e.g. location, gender, age, smoking) about employees and employee dependents listed in the employee roster.
Enrollment	Enrollment Dashboard		
Enrollment	Enrollment Dashboard	41969	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the enrollment group to change plans on click of "Change Plans" on the "Shop for Health Plans" page. The following information and features will be displayed: -Title -Static message -Feature to Change Plan -Disenrollment static message -Feature to select applicable household members to disenroll -Feature to Continue
Enrollment	Enrollment Dashboard	41970	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall redirect the user to the "Confirm Your Plan Selection" page with the selected enrollment group and allow them to change their plans on click of "Back to Shopping".
Enrollment	Enrollment Dashboard	41971	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall disenroll all selected members on the "Change Plan" feature on click of "Continue".
Enrollment	Enrollment Dashboard	41972	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display a Confirmation Details feature for the members who have been disenrolled stating the following details: - Member Names who have been disenrolled - Static message explaining the disenrollment details - Feature to "Continue"
Enrollment	Enrollment Dashboard	41973	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall distribute APTC amounts for the household amongst the groups based on the proportion of the rate bands for each APTC-eligible member in the household.
Enrollment	Enrollment Dashboard	41974	In the event that the eligible APTC amount exceeds the EHB premium amount for the enrolled group, California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall carry forward any surplus APTC after EHB Premiums, and allocate that to the Eligible unenrolled groups.
Enrollment	Enrollment Dashboard	41975	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall only allocate APTC amounts for member(s) of the household that are enrolled in non-catastrophic plans.
Enrollment	Enrollment Dashboard	41976	In the event that the enrollment group decides not to apply the entire APTC amount, California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not apply the remaining balance of APTC amount to other groups.
Enrollment	Enrollment Dashboard	41977	In the event that an enrollment group disenrolls from a plan, California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall reallocate the unutilized APTC to unenrolled APTC-eligible members.
Enrollment	Enrollment Dashboard	41978	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall redistribute APTC for the following situations: - When there is CS level change - If the user chooses to shop in a group composition that is different from the existing group
Enrollment	Enrollment Dashboard	41979	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall redistribute APTC if the household reports a change in DOB.
Enrollment	Enrollment Dashboard	41980	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall redistribute APTC when a new member is added to the household.
Enrollment	Enrollment Dashboard	41981	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall redistribute APTC when a member is removed from the household.

Category	Sub Category	Req ID	Requirement
Enrollment	Enrollment Dashboard	41982	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall calculate and apply the individual level APTC amounts during the plan selection/enrollment process using the following: - Premium age ratio - Existing APTC calculation logic
Enrollment	Enrollment Dashboard	41983	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall apply APTC and State CAPS/CA Premium Credit amount for the consumers who fall in the below scenarios: 1. HH is quoted for State CAPS/CA Premium Credit 2. HH is quoted for both APTC and State CAPS/CA Premium Credit
Enrollment	Enrollment Dashboard	41984	In the event that the eligible CAPS amount exceeds the EHB premium amount for the enrolled group, California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall carry forward any surplus CAPS and allocate that to the other Eligible unenrolled groups.
Enrollment	Enrollment Dashboard	41985	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall only allocate CAPS amounts for member(s) of the household that are enrolled in non-catastrophic plans.
Enrollment	Enrollment Dashboard	41986	In the event where an APTC and CAPS eligible household is shopping in a single enrollment group, California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall apply subsidies in the following order: 1. Non-Hyde Abortion Subsidy/CA Premium Credit 2. Max APTC amount 3. CAPS
Enrollment	Enrollment Dashboard	41987	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall redistribute APTC/CAPS amounts when there is delayed plan selection made by the consumer.
Enrollment	Enrollment Dashboard	41988	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall continue to support the existing Timeshifter functionality for the new enrollment module.
Enrollment	Enrollment Dashboard	41989	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall confirm that 834 EDI transaction files contain the current accurate system date time stamp information about enrollment events
Enrollment	Enrollment Dashboard	41990	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send the CR 189474 Termination Transaction details to the old carrier when a consumer with a 2020 enrollment renews coverage into a plan with a different carrier for 2021.
Enrollment	Enrollment Dashboard	41991	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall confirm the Net Premium on the Health Plan Shopping will be always in match with the Gross Premium - the (APTC+ CA Premium Credit Amount + CA Premium Subsidy (If applicable)).
Enrollment	Enrollment Dashboard	41992	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall confirm that updated/modified OE extension dates are propagated/transferred to new enrollment module.
Enrollment	Enrollment Dashboard	41994	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) enrollment module shall include all functional changes documented CR 189473 - Microsite for Bright HealthCare
Enrollment	Enrollment Dashboard	41997	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) enrollment module shall include all functional changes documented CR 188570 - APTC Calculation with prior CCP only benefits.
Enrollment	Enrollment Dashboard	42000	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) enrollment module shall include all functional changes documented CR 174936 - Addition of federally recognized tribes in California Healthcare Eligibility, Enrollment and Retention System (CalHEERS).
Enrollment	Enrollment Dashboard	42001	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) enrollment module shall include all functional changes documented CR 160531 - Medi-Cal Transition Auto-Enrollment per SB260 Part I.
Enrollment	Enrollment Dashboard	42002	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) enrollment module shall include all functional changes documented CR 122823 - Time shifter Feature in California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) for Enrollment Screens.
Enrollment	Enrollment Dashboard	42009	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) enrollment module shall include all functional changes documented CR 179136 - Enroller Portal Alerts - Phase II.
Enrollment	Enrollment Dashboard	42010	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) enrollment module shall include all functional changes documented CR 190956 - State-Level Cost Sharing Reduction program.
Enrollment	Enrollment Dashboard	42011	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the user to access the "Pay Now" option from the following points of entry: - Plan Confirmation Page - My Enrollments Page - View My Plan Details Page
Enrollment	Enrollment Dashboard	42012	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display a message informing the user that they will be navigated to a Payment Portal in order to proceed with their payment
Enrollment	Enrollment Dashboard	42013	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall redirect the user to the Carrier payment page in a new window upon selecting "Proceed to Payment"
Enrollment	Enrollment Dashboard	42014	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create the SAML request for each policy in an acceptable format to send to the Carrier site upon selection of "Proceed to Payment" allowing user to complete their payment.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Enrollment		42015	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall transmit the following fields to the Carrier over HTTP Post: -PaymentTransactionId -QHPPlanId -TotalPremiumOwed -TotalPremiumAmount -APTCAmount -ProposedCoverageEffectiveDate -CaseID -SubscriberID -Language -ResponsibleParty (FirstName, Middle Name {Optional}, Last Name, Suffix Name {Optional}, StreetName1, StreetName2 {Optional}, City Name, State, ZipCode, Email Address {Optional}) -Member Information (FirstName, Last Name, Middle Name {Optional}, Relationship Code, Age, MemberID, TotalMemberPremiumAmount) -ResidenceZipCode -ResidenceCountyCode
	Enrollment Dashboard		
Enrollment	Enrollment Dashboard	42016	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate a new PaymentTransactionID upon every click of Pay Now
Enrollment	Enrollment Dashboard	42017	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall confirm Individual's information is secured through SAML 2.0 with HTTPS Post Binding
Enrollment	Enrollment Dashboard	42018	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall digitally sign the request before it is pushed to the individual's browser.
Enrollment		42019	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the following when user proceeds to complete health plan selection {Active Renewals}: -Text informing user to renew current enrollment or change plans for enrollment groups - Functionality to shop in new groups - Health Enrollment Groups from the Previous Year <# of members> - APTC amounts for the following Enrollment year - Functionality to Renew or Change Plans
	Enrollment Dashboard		
Enrollment	Enrollment Dashboard	42020	If the user would like to make changes to enrollment groupings, California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the user to change plans for the remaining unenrolled members by clicking on the functionality to shop in new groups.
Enrollment	General Requirement		
Enrollment	General Requirement	39538	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the State Subsidy amount as a separate line in addition to the APTC amount every place where the APTC amount is displayed if the consumer is eligible or conditionally eligible for State Subsidy.
Enrollment	General Requirement	39539	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the net premium amount on the plan tiles (Premium minus Federal APTC, minus State Subsidy).
Enrollment	General Requirement	39540	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall require that consumers apply the maximum amount of APTC before they can apply State Subsidy.
Enrollment	General Requirement	39541	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not apply State Subsidy to a household when the premium amount is less than or equal to the APTC amount.
Enrollment	General Requirement	39542	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) must require that the total amount received between APTC and State Subsidy must not be greater than the household premium amount.
Enrollment	General Requirement	39543	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate a monthly and annual file for the carriers that includes the State Subsidy information.
Enrollment	General Requirement	39544	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall recalculate the remaining State Subsidy after a mid-year Report a Change (RAC).
Enrollment	General Requirement	39545	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the enrollment sync nightly batch to include the State Subsidy.
Enrollment	General Requirement	39558	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add the State Subsidy amount and the State Subsidy Effective Start Date to the 834.
Enrollment	General Requirement	39563	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall prorate the State Subsidy amount using the same methodology as APTC and premium when there are partial months of coverage.
Enrollment	General Requirement	39571	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add the State Subsidy to the Book of Business extract for Agents and Assistors (CEC and PBE).
Enrollment	General Requirement	39595	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall insert additional tab to Consumer Assistance Portal (CAP) to show high level application information for available years
Enrollment	General Requirement	39596	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall move the action override button from member impersonation to CAP
Enrollment	General Requirement	39597	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall be persisting premium paid through date and allow admins to update this date through GI Enrollment Edit Page
Enrollment	General Requirement	39598	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update SEP consumer messaging for adding a member, removing a member, and income change on enrollment dashboard page.
Enrollment	General Requirement	39604	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add State Subsidy information to the Issuer Portal.
Enrollment	General Requirement	39605	Enter requirement text.
Enrollment	General Requirement	41384	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall only allow effectuation through Recon when the consumer has completed the Opt In process to keep the auto-selected \$0 Net Premium plan.
Enrollment	General Requirement	41386	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall track the auto enrollment at an individual level and enrollment level and differentiate between auto enrollments into new or existing enrollment groups.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Enrollment	General Requirement	41387	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall request and consume the following information from GI in real time when a consumer is auto-enrolled: -Auto-Enrollment flag at an individual level indicating if consumer is auto-enrolled in new or existing enrollment groups. -Auto-Enrollment plan details including Enrollment Status, Enrollment ID, Coverage Start Date, Plan Name, Carrier, Metal Tier, Premium Amount, Names of the Individuals Enrolled. -List of carriers available to consumer based on the County of Responsibility (COR) -Primary Care Visits Cost, Generic Drugs Cost
Enrollment		41390	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add the Attestation Indicator as a new column to Weekly Audit file.
Enrollment	General Requirement	42990	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) must enable the terminate participation link for prior year enrollments for ADMIN only whether or not an enrollment exists for current year.
Enrollment	General Requirement	44522	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the preference question language in the Medical Usage and Prescription Usage Pages
Enrollment	General Requirement	47087	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall include the CSR Level in the premium history table.
Enrollment	General Requirement	47088	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall include the plan name in the premium history table.
Enrollment	General Requirement	47089	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall make the Premium history table viewable in it's entirety without the need to scroll (left<-->right).
Enrollment	General Requirement	47090	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall make the enrollment change log viewable in it's entirety without the need to scroll (left<-->right).
Enrollment	General Requirement	47091	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall make the Enrollment change log viewable below the enrollment tile without the need to click a link.
Enrollment	General Requirement	47092	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall make the Premium Table viewable on the same page as the enrollment tile without the need to click a link to go to another page.
Enrollment	General Requirement	47093	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the deductible in the below format when both medical and drug deductible amounts are zero: "\$0/year" The same format should apply when there is an integrated deductible amount is zero.
Enrollment		47094	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall realign the position of the below fields within the Enrollment page providing the users with a better shopping experience. 1.Case ID 2.Member's Delegate 3.Manage Delegates 4.Case Summary 5.Enrollment Dashboard 6.Transaction ID 7.CMS Plan ID 8.Current CSR Level
Enrollment	General Requirement	47095	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall move the Other Information section to the same page as the enrollment tile without the need to click a link to go to another page.
Enrollment	General Requirement	47096	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall rename the label Agent TPA number to Agent License number within the Other Information section
Enrollment	General Requirement	47097	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall rename the Header Labels in Premium and APTC Information table (Health) and Premium History table (Dental) to acquire more screen space.
Enrollment	General Requirement	47437	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall prevent the creation of an enrollment that will cause an overlap with Medi-Cal eligibility for the same consumer.
Enrollment	General Requirement	47438	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow Enrollers to view the CSR eligibility history in the Enrollment portal.
Enrollment	General Requirement	47439	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the functionality for an Admin to Override the Dental Rules for the PCAP module to allow renewals for Dental only enrollments.
Enrollment	General Requirement	47440	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) must limit " renewal" into the same plan as the previous benefit year when enrollment is completed before renewal closure.
Enrollment	General Requirement	47441	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) must limit enrollment into the same plan as the previous benefit year when enrolling after the renewal closure batch.
Enrollment	General Requirement	47442	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the Admin Portal Page to include the enrollment year in the phrase "There are no health enrollments for [year] yet."
Enrollment	General Requirement	47443	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the verbiage for dental attestation on the Dental Plan confirmation page.
Enrollment	General Requirement	47444	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall navigate user to Enrollment Dashboard when the user selects "Enrollments" tab from the local nav page.
Enrollment	General Requirement	47445	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide the default "You Have Not Submitted an Application" modal when a user does not have an application and enrollment for the current year.
Enrollment	General Requirement	47529	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the Issuer Enrollment Representative to search for all enrollments associated with a Household Case ID across any Enrollment year the consumer was enrolled in a plan.
Enrollment	General Requirement	47530	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow an Issuer Enrollment Representative to search for an Enrollment ID across any Enrollment year the consumer was enrolled in a plan.
Enrollment	General Requirement	47531	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the results for cases that are closed as duplicates when an Issuer Enrollment Representative tries to search for the case.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Enrollment	General Requirement	47532	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the current CSR level and CSR History in the Issuer Enrollment Portal.
Enrollment	General Requirement	47533	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the CSR amount for each applicable month in the Premium and APTC grid.
Enrollment	General Requirement	47534	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the header as Enrollees in the Enrollees Table.
Enrollment	General Requirement	47535	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the ability to show enrollment history with the following details: Transaction Date, Transaction Type, Transaction Reason, Initiated By, EDI File Name, TA1 File Name, TA1 Date, TA1 Status, 999 Transaction Date, 999 File Name, 999 Status. Initiated By shall display the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) user role who triggered the enrollment transaction. Transaction date shall display the datetime when the user submitted the change.
Enrollment	General Requirement	47536	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the Transaction Type as "Addition" for transaction type code 021.
Enrollment	General Requirement	47537	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the Transaction Reason as "Re-enrollment" for maintenance reason code 41.
Enrollment	General Requirement	47538	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the Rating Area, Rating Area Effective Date, Home Address, Billing Address in the Issuer Enrollment Portal.
Enrollment	General Requirement	47539	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow Issuer Admins to search for an Issuer Representative and/or Issuer Enrollment Representative on the Manage Representatives page.
Enrollment	General Requirement	47540	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall restrict Issuer Admins from registering Issuer Representatives and/or Issuer Enrollment Representatives for an Issuer if they already exist in California Healthcare Eligibility, Enrollment and Retention System (CalHEERS).
Enrollment	General Requirement	47541	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) will allow Issuer Enrollment Rep and Issuer Rep accounts to be created with the first name, last name, DOB, email address, and phone number when the HIOS IDs are for different issuers.
Enrollment	General Requirement	47542	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall mandate entries of 2 verification methods (OTP Email and Security Questions) during account registration for Issuer Enrollment Representatives (IERs) and Issuer Representatives.
Enrollment	General Requirement	47543	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall match the HIOS ID, Role, First Name, Last Name, delegation code, Email Address/Phone number, and business legal name against the Issuer Enrollment Rep/Issuer Rep portals during the Account creation process. Users will not be allowed to create duplicate accounts if matches are found in the existing California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system.
Enrollment	General Requirement	47544	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the Issuer Enrollment Reps and Issuer Reps to update the First Name, Last Name, and Phone # on the My Profile Page.
Enrollment	General Requirement	47545	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the Add Issuer Representative page to indicate "Enrollment Representative" as the first and default selection.
Enrollment	General Requirement	47546	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the Plan Search page to default Plan Year in the search criteria elements to the latest year available in the dropdown.
Enrollment	General Requirement	47547	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send the CSR AMT field in the 2750 Loop to communicate CSR Amount (if a CSR plan is selected or a CSR variant change occurs).
Enrollment	General Requirement	47548	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the Premium and APTC Grid with the ability for the Carrier to export the information.
Enrollment	General Requirement	47549	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the Enrollment History Panel with the ability for the Carrier to export the information.
Enrollment	General Requirement	47550	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide the capability to search for a list of comma-separated case IDs, Enrollment IDs, or Subscriber IDs and export the results.
Enrollment	General Requirement	47551	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide the capability to export Search results up to a maximum of 2000 records at a time.
Enrollment	General Requirement	47552	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide the capability to download an export request for search results greater than 2000 records.
Enrollment	General Requirement	47553	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display appropriate messaging to inform Carriers that there are additional search results that can be exported, when available.
Enrollment	General Requirement	47554	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the filters to be continued to the next pages when Issuer Admin uses the Pagination on Manage Representative page.
Enrollment	General Requirement	47555	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the filters to be continued to the page when Issuer Admin navigates back to the Manage Representative page.
Enrollment	General Requirement	47556	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide export list functionality to download the list of Issuer Enrollment Reps on Manage Representative Page on Issuer Admin Portal.
Enrollment	General Requirement	47557	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the Issuer Admin to export all the Issuer Enrollment Reps and Issuer Rep details.
Enrollment	General Requirement	47558	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the Issuer Admin to export Issuer Enrollment Rep and Issuer Rep details for a specific Issuer.
Enrollment	General Requirement	47559	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall separate the "Name" column into two columns: First Name and Last Name.
Enrollment	General Requirement	47958	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall limit the application of the subsidies from Strike Lockout eligibility to the enrollment to no more than the gross premium less the California Premium Credit, maximum eligible APTC (regardless of the applied amount), and maximum eligible CAPS (when active).
Enrollment	General Requirement	47959	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall utilize the subsidies in the following order: California Premium Credit (CAPC), APTC, CAPS (when active), and Strike Lockout benefit
Enrollment	General Requirement	47960	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow any surplus Strike Lockout benefit carry over from one enrollment group to another unenrolled group.
Enrollment	General Requirement	47961	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not apply Strike Lockout benefit to a household when the premium amount after considering the Non Hyde Abortion portion of premium to every quoted member, is less than or equal to the maximum eligible APTC amount.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Enrollment	General Requirement	47962	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not apply Strike Lockout benefit to cover the remaining premium if the consumer choses to not utilize the full APTC amount.
Enrollment	General Requirement	47963	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not allow users to reduce the Strike Lockout benefit that can be applied to the enrollment using the Change APTC Functionality on Enrollment Dashboard or Confirm your Plan Page.
Enrollment	General Requirement	47964	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) must require that the total amount received between APTC, CAPS amount and Strike Lockout benefit must not be greater than the household premium amount after considering the Non Hyde Abortion portion of premium to every quoted member.
Enrollment	General Requirement	47965	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall utilize the existing Age Band Ratio logic that is used in current APTC/CAPS distribution for the Strike Lockout benefit
Enrollment	General Requirement	47966	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the Health Plan Tab under the Enrollment Dashboard Module to display "Strike Lockout Benefit" as an independent line entity under the Savings section and add the subsidy amount to the Savings total calculation.
Enrollment	General Requirement	47967	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the PCAP screen in the Enrollment History Tab under the Enrollment Module to display "Strike Lockout Benefit" as an independent line entity under the Savings section and add the subsidy amount to the Savings Total calculation
Enrollment	General Requirement	47968	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update various screens in the "Plan Shopping" workflow to display "Strike Lockout Benefit" as an independent line entity under the Savings section and add the subsidy amount to the Savings total calculation.
Enrollment	General Requirement	47969	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the "Choose a Health plan" screen in the "Plan Shopping" workflow to include the Strike Lockout Benefit monthly amount in the total savings calculation in the Banner Message
Enrollment	General Requirement	47970	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the "Health Plan Details" screen in the "Plan Shopping" workflow to display "Strike Lockout Benefit" as an independent line entity under the Savings section and adding the subsidy amount to the Savings total calculation in the premium breakdown.
Enrollment	General Requirement	47971	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the "Confirm your plan" screen in the "Plan Shopping" workflow to display "Strike Lockout Benefit" as an independent line entity under the Savings section and adding the subsidy amount to the Savings total calculation in the premium breakdown.
Enrollment	General Requirement	47972	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the "Plan Confirmation and Payment" screen in the "Plan Shopping" workflow to display "Strike Lockout Benefit" as an independent line entity under the Savings section and adding the subsidy amount to the Savings total calculation in the premium breakdown.
Enrollment	General Requirement	47973	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the "Adjust Advance Premium Tax Credit (APTC)" screen in the "Plan Shopping" workflow to display "Strike Lockout Benefit" as an independent line entity under the Savings section and adding the subsidy amount to the Savings total calculation in the premium breakdown.
Enrollment	General Requirement	47974	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use the State Subsidy fields on the 834 to communicate with the carriers regarding the Strike Lockout benefit amount
Enrollment	General Requirement	47975	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall continue to display State Subsidy values on the 834 transactions when SLS configuration is OFF or household does not meet the SLS criteria
Enrollment	General Requirement	47976	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall consolidate the State Subsidy and SLS amount on current State Subsidy values on the 834 transactions when SLS configuration is ON and household does meet the SLS criteria
Enrollment	General Requirement	47984	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use existing State Subsidy fields in the REM/Dispute to be populated with the SLS subsidy values from the Enrollment Database
Enrollment	General Requirement	47985	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall change the REM Live load process to populate the state subsidy fields using the new SLS subsidy fields from Enrollment database.
Enrollment	General Requirement	47986	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall change the Dispute Live load process to populate the state subsidy fields using the new SLS subsidy fields from Enrollment database
Enrollment	General Requirement	47994	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the “Premium and APTC Info” table in Admin Portal PCAP Screen to include two columns for "Max Strike Lockout Benefit" and "Applied Strike Lockout Benefit"
Enrollment	General Requirement	47995	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the “Premium and APTC Grid” in the Issuer (Carrier) PCAP Screen to include "Strike Lockout Benefit"
Enrollment	General Requirement	48003	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the Export file from the Premium and APTC Grid to include a column for Strike Lockout Subsidy in the Issuer portal.
Enrollment	General Requirement	48004	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the Enrollment Details screen in the Issuer Portal to display the Strike Lockout Benefit in the Savings Breakdown.
Enrollment	General Requirement	48005	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the Admin Portal "Change Enrollment Details" Page to include the "Group Max Strike Lockout Benefit" & "Applied Strike Lockout Benefit" Columns to the Premium & APTC Table and make the two columns editable by admins similar to APTC and CAPS
Enrollment	General Requirement	48006	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the Admin Portal "Recreate Health Enrollment" Details page to add "CAPS Amount" and "Strike Lockout Benefit Amount" similar to existing APTC Field
Enrollment	General Requirement	48007	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the Export file from the Enrollment Search screen (Bulk search) to include columns for Strike Lockout Subsidy amount and effective date in the Issuer portal.
Enrollment	General Requirement	48361	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the Weekly Audit File column labeled CSR Credit Net Amount” to align with the field name in the 834 EDI.
Enrollment	General Requirement	48405	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display messaging to consumers that their dental only enrollment will be passively renewed for cases with dental only enrollments.
Enrollment	General Requirement	48406	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display previously enrolled members, now receiving MC/MCAP/CCHIP or no longer eligible for any other reason, on the Enrollment Dashboard in the respective groups after completing the active renewal submission.
Enrollment	General Requirement	48407	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display messaging to members that cannot shop for dental plans due to not having chosen a health plan section in the Intake/RAC/Renewal flows.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

OTSI CalHEERS RFP #73040873 Addendum 1
October 31, 2025

Category	Sub Category	Req ID	Requirement
Enrollment	General Requirement	48409	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the benefit design logic for any benefit design changes made for the benefit year 2025.
Enrollment	General Requirement	48410	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the QRS score and QRS disclaimer text on the Plan Tile and Plan Detail page for the benefit year 2025.
Enrollment	General Requirement	48411	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the Out of Pocket calculator for any benefit design changes made for the benefit year 2025.
Enrollment	General Requirement	48569	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the filtering logic for plan shopping for an intake/RAC/Renewal case with CS06 eligibility to filter out Bronze plans if "Low Premium" has been selected as a preference filter.
Enrollment	General Requirement	49119	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall suppress the Confirmation Date segment (DTP*543) and Paid through date (DTP*343) segment in all Outbound EDI transactions.
Enrollment	General Requirement	49227	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall include the Enroller's information on the generated take away page(s) when applicable for logged-in users (Enrollers) with an account for the Anonymous Shop and Compare Flow.
Enrollment	General Requirement	49228	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the Enroller's information on the generated take away page(s) when applicable for logged-in users (Enrollers) when plan shopping through Enrollment Dashboard flow.
Enrollment	Health & Dental Plan Shopping		
Enrollment	Health & Dental Plan Shopping	41838	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall include and display the following functionalities for dental services based on information coming SERFF 1. Section header for the name of service 2. List of sub-categories for the service 3. Coverage information for each service for in-network providers will be populated based on information from SERFF
Enrollment	Health & Dental Plan Shopping	41840	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) have a Shopping Cart section/screen to view the Health and Dental Plans confirmed by the user to be added to the cart during Shop & Compare Flow.
Enrollment	Health & Dental Plan Shopping	41842	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Shopping Cart shall include the following sections with details: 1. Health Plan section/details 2. Dental Plan section/details 3. Total Cart Section
Enrollment	Health & Dental Plan Shopping	41843	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Shopping Cart shall display a below details in Health Plan section. The section shall include the following items: 1. Name and Logo of the provider 2. Health Plan Category/Type (ex: Platinum 90 EPO) 3. Coverage Start Date 4. Additional details about: Monthly Premium, Monthly Federal Tax Credit, Monthly CA Premium Credit, and Net Monthly Premium.
Enrollment	Health & Dental Plan Shopping	41844	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Shopping Cart screen shall display a preview of Dental Plan details. The preview details shall include the following items: 1. Name and Logo of the provider 2. Dental Plan Category/Type (ex: Family Dental HMO) 3. Coverage Start Date 4. Additional details about: Monthly Dental and Net Monthly Premium.
Enrollment	Health & Dental Plan Shopping	41845	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Shopping Cart shall allow the user to view the plan specific details by navigating to the plan details from Health and Dental plan sections.
Enrollment	Health & Dental Plan Shopping	41846	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow a user to remove the health and/or dental plans selected.
Enrollment	Health & Dental Plan Shopping	41847	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Shopping Cart screen/section shall display cart total monthly cost which includes the following: 1. Net Health Monthly Premium 2. Net Dental Monthly Premium 3. Total Monthly Premium
Enrollment	Health & Dental Plan Shopping	41848	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Shopping Cart screen shall have Apply Now feature.
Enrollment	Health & Dental Plan Shopping	41849	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Shopping Cart screen shall provide provision for the user to navigate back to the plan shopping page.
Enrollment	Health & Dental Plan Shopping	41850	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Shopping Cart screen shall include a message and back navigation to the Shopping cart screen when the shopping cart is empty.
Enrollment	Health & Dental Plan Shopping	41851	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display a banner/message on the Shop and Compare page indicating that UI lock changes are not applied when eligibility is determined using Shop and Compare tool if the coverage year is 2021.
Enrollment	Health & Dental Plan Shopping	41852	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not display this banner/text if the coverage year is 2022 and beyond.
Enrollment	Health & Dental Plan Shopping	41853	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall confirm the Net Premium on the Health Plan Shopping will be always in match with the Gross Premium - the (APTC + CA Premium Credit Amount + CA Premium Subsidy (if applicable)).
Enrollment	Health & Dental Plan Shopping	41854	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) - SHOP and Compare functionality will refer the most recent SBC_UCM_ID and SBC_DOC_NAME while showing details for the Health and Dental Plans in their respective details page.

Category	Sub Category	Req ID	Requirement
Enrollment	Health & Dental Plan Shopping	41855	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall exclude the Non Hyde Abortion portion of premium from the Benchmark Premium amount when calculating subsidies in Shop & Compare Anonymous flow.
Enrollment	Health & Dental Plan Shopping	41856	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) enrollment module shall include all the functional changes documented CR 165044- Changing Shop & Compare Defaults to Reduce Choice Errors for Silver 87- and Silver 94-eligible consumers from Release 22.6
Enrollment	Health & Dental Plan Shopping	41857	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the following navigation options in the Enrollment Dashboard: -My Enrollment Dashboard -My Eligibility History -My Enrollments -My Delegates -Appeals Information -My Account Home
Enrollment	Health & Dental Plan Shopping	41858	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the following static message on the My Enrollment Dashboard: -Welcome, <Primary Contact Name>
Enrollment	Health & Dental Plan Shopping	41859	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the following summary sections on the My Enrollment Dashboard page: -Warning Message -Next Steps Section -Your Application Status -Your Household Eligibility. -Health Plans -Dental Plans
Enrollment	Health & Dental Plan Shopping	41860	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS)-My Enrollment Dashboard shall display warning message/indicator regarding the number of days left to enroll for changes to the Enrollment application.
Enrollment	Health & Dental Plan Shopping	41861	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) My Enrollment Dashboard Next Steps section will provide a dynamic verbiage for the consumer's next steps.
Enrollment	Health & Dental Plan Shopping	41862	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display a button to continue on to "Next Steps" on the My Enrollment Dashboard based on the enrollment period and application status.
Enrollment	Health & Dental Plan Shopping	41863	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the following feature on the My Enrollment Dashboard in the "Next Steps" section based on the enrollment period and application status: -"Start New Application"
Enrollment	Health & Dental Plan Shopping	41864	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the following feature on the My Enrollment Dashboard in the "Next Steps" section based on the enrollment period and application status: -"Report Life Event and Shop"
Enrollment	Health & Dental Plan Shopping	41865	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the following feature on the My Enrollment Dashboard in the "Next Steps" section based on the enrollment period and application status: -"Shop for Plans"
Enrollment	Health & Dental Plan Shopping	41866	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the following feature on the My Enrollment Dashboard in the "Next Steps" section based on the enrollment period and application status: -"Confirm Event and Shop"
Enrollment	Health & Dental Plan Shopping	41867	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the following feature on the My Enrollment Dashboard in the "Next Steps" section based on the enrollment period and application status: -"Provide Additional Information"
Enrollment	Health & Dental Plan Shopping	41868	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the following feature on the My Enrollment Dashboard in the "Next Steps" section based on the enrollment period and application status: -"Confirm Event and Finalize Plan"
Enrollment	Health & Dental Plan Shopping	41869	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the following feature on the My Enrollment Dashboard in the "Next Steps" section based on the enrollment period and application status: -"Finalize Plans"
Enrollment	Health & Dental Plan Shopping	41870	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the following feature on the My Enrollment Dashboard in the "Next Steps" section based on the enrollment period and application status: -"Continue Shopping"
Enrollment	Health & Dental Plan Shopping	41871	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the following feature on the My Enrollment Dashboard in the "Next Steps" section based on the enrollment period and application status: -"Change Plans"
Enrollment	Health & Dental Plan Shopping	41872	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the following feature on the My Enrollment Dashboard in the "Next Steps" section based on the enrollment period and application status: -"Report a Change"

Category	Sub Category	Req ID	Requirement

Enrollment	Interfaces	41831	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have a section on the Dental Plan shopping page: a. To display the dental plans selected by the user to be compared. b. To manage dental plans that are selected by users to be compared.
Enrollment	Maintain Operational Data		
Enrollment	Maintain Operational Data	42140	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add the Temporary (Enhanced) CSR program as a single new column to the Weekly Audit File.
Enrollment	Maintain Operational Data	48019	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall ensure that the start and end dates of an enrollment are contained within the same calendar year, with the earliest start date = 1/1/xxxx and the latest end date = 12/31/xxxx. (To address SIR 246082)
Enrollment	Notices		
Enrollment	Notices	42855	Modify the NOD17 (English and Spanish) to inform all the consumers who have requested an access code and do not already have an online account.
Enrollment	Plan and Benefit Assistance		
Enrollment	Plan and Benefit Assistance	38958	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow Covered CA plan selection when the case is in Medi-Cal Renewal mode and at least one household member is Covered CA Program Eligible or Conditionally Eligible.
Enrollment	Plan and Benefit Assistance	41965	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow new group/regrouping (non AI/AN + AI/AN) during RAC flow when adding new members for members identifying as AI/AN.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Enrollment	Plan and Benefit Assistance	42098	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall apply the coverage start date based on the plan selection date generated by any of the following action: - Automated Process - Manual user selection
Enrollment	Plan and Benefit Assistance	42099	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall apply the coverage end date based on the SEP details received from the business rules engine.
Enrollment	Plan and Benefit Assistance	42100	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall apply the coverage end date based on the following: - Automated Process - Manual user selection
Enrollment	Plan and Benefit Assistance	42101	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall apply the precedence logic in the situations where multiple QLEs are active for the consumer's case.
Enrollment	Plan and Benefit Assistance	42102	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the users to select a new plan or modify the existing plan for the specific changes reported
Enrollment	Plan and Benefit Assistance	42103	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall restrict the certain users from selecting a new plan or modifying the existing plan for the specific changes reported
Enrollment	Plan and Benefit Assistance	42104	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall bypass the safeguards while allowing plan selection for the specified SEPs.
Enrollment	Plan and Benefit Assistance	42105	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the admin user to assess and provide the approval for the specific changes and elements selected by the user under the following QLE reason(s) - Other Qualifying Life Event
Enrollment	Plan and Benefit Assistance	42106	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall be able to create a task for the admin to review and approve the SEP.
Enrollment	Plan and Benefit Assistance	42107	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall apply the changes automatically to the existing enrollment(s) based on the specific changes reported.
Enrollment	Plan and Benefit Assistance	42108	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall apply the re-rating logic based on the business rules currently implemented in the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system.
Enrollment	Plan and Benefit Assistance	42109	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) enrollment module will continue leveraging the existing CSR (enrollment) related business rules based on the details provided by the business rules engine.
Enrollment	Plan and Benefit Assistance	42110	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) enrollment transition module - SEP-RAC sub module shall include the functionalities of the CRs mentioned in the CR, Defects, and PCRs sheet.
Enrollment	Plan and Benefit Assistance	42111	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) enrollment module shall include all the functional changes documented CR 95184 - SEP Dropdowns and Workflow
Enrollment	Plan and Benefit Assistance	42112	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) enrollment module shall include all the functional changes documented CR 179749- Enable Choose Plan for Overrides.
Enrollment	REM		
Enrollment	REM	41835	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Dental Plan Compare screen shall include and display the following summary for each dental plan selected for comparison: 1. Provider name and logo 2. Dental Plan name (plan type) hyperlink 3. Monthly premium amount 4. Add to cart feature
Enrollment	REM	41836	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display a visual confirmation after selecting the plan to provide confirmation of Plan selected and provide user with navigation for next steps: 1. Functionality to navigate to the Health Plan Shopping (if Health plan was not selected) 2. Functionality to navigate to the Shopping Cart Page
Enrollment	REM	41837	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the following content in the Summary section: 1. Plan Type
Enrollment	REM	46636	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create and maintain comprehensive design documentation for the Carrier REM process
Enrollment	REM	46637	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall consolidate the existing CR specific REM functional documents into the one comprehensive functional document
Enrollment	REM	46638	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall consolidate any existing CR specific REM technical documents into one comprehensive technical document
Enrollment	REM	46639	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall consolidate any existing CR specific REM operational documents into one comprehensive operation document
Enrollment	REM	46640	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create and maintain comprehensive design documentation for the Carrier Dispute process.
Enrollment	REM	48028	REM shall reject carrier updates for Cancel and Termination (non-payment of premium) for all enrollments with \$0 Net Premium.
Enrollment	REM	48363	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the weekly audit file to align with state level CSR enhancements
Enrollment	REM	48364	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the Weekly Audit File column "supplemental CSR" to "CSR_CREDIT_NET_AMT" to align with the field name in the 834 EDI.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Enrollment	REM	48365	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the weekly audit file with 12 additional columns (CSR_CREDIT_NET_JAN, CSR_CREDIT_NET_FEB, CSR_CREDIT_NET_MAR, CSR_CREDIT_NET_APR, CSR_CREDIT_NET_MAY, CSR_CREDIT_NET_JUN, CSR_CREDIT_NET_JUL, CSR_CREDIT_NET_AUG, CSR_CREDIT_NET_SEP, CSR_CREDIT_NET_OCT, CSR_CREDIT_NET_NOV, CSR_CREDIT_NET_DEC) that will contain the "CSR Credit net amount" for each month of the enrollment
Enrollment	REM	48366	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) DW shall build the new Report in csv format and has output as attached in the template for all the enrollments which are eligible for Enhanced CS level plan for a benefit year. When an enrollment is Eligible for Enhanced CS level plan, then corresponding eligible months should be populated with the CSR_CREDIT_NET_AMT and CSR level. If enrollment not Eligible, then these fields should be null. This report should be generated every Thursday (same like Health audit files) and uploaded to CH SharePoint.
Enrollment	REM	48367	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add a new L2 rule, L2-S. This L2-S rule will be assigned when the monthly value populated in the monthly CSR Credit Net Amount field is Null for an enrollment with an enhanced CS level plan.
Enrollment	REM	48368	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall validate and load the 13 new fields (CSR_CREDIT_NET_AMT, CSR_CREDIT_NET_JAN, CSR_CREDIT_NET_FEB, CSR_CREDIT_NET_MAR, CSR_CREDIT_NET_APR, CSR_CREDIT_NET_MAY, CSR_CREDIT_NET_JUN, CSR_CREDIT_NET_JUL, CSR_CREDIT_NET_AUG, CSR_CREDIT_NET_SEP, CSR_CREDIT_NET_OCT, CSR_CREDIT_NET_NOV, CSR_CREDIT_NET_DEC) related to CSR Credit Net Amount from carriers initial response file and go back response file into REM database.
Enrollment	REM	48369	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add a new L2 rule, L2-S1. This L2-S1 rule will be assigned when the monthly value populated in the monthly CSR Credit Net Amount field is Null for an enrollment Eligible for an enhanced CS level plan and not null when not Eligible for an enhanced CS level plan.
Enrollment	REM	48370	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add a new L2 rule, L2-S2. This L2-S2 rule will be assigned when the monthly value populated in the monthly CSR Credit Net Amount field is not Null for Cancelled enrollment Eligible for an enhanced CS level plan.
Enrollment	REM	48371	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add a new L5 rule to the REM process. The new L5 rule will be assigned as a "Carrier fix" when CH monthly CSR_Credit_Net_Amount<> QHP monthly CSR Credit Net Amount
Enrollment	REM	48372	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update REM reports to include the newly added rules as appropriate. The reports include: Go back files sent to Carrier from CH, L2 Heatmap, Dashboard, End of Cycle, Financial Carrier Action file, L2 Persistency, L5 Persistency, Enrollment Accuracy, Financial Accuracy, Error Report, L5 Heatmap.
Enrollment	REM	48373	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create a new REM report entitled "Benefit year (YYYY)_Cycle number_Post_REM_ CSR_Credit_Net_Amount_Report" to include: Audit date, HIOS ID, Case ID, Enrollment ID, Subscriber ID, and Enhanced State CS level
Enrollment	REM	48374	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the carrier dispute process to allow for the "CSR Credit net amount" to be disputable.
Enrollment	REM	48375	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall validate and load the 13 new fields related to CSR Credit Net Amount (CSR_CREDIT_NET_AMT, CSR_CREDIT_NET_JAN, CSR_CREDIT_NET_FEB, CSR_CREDIT_NET_MAR, CSR_CREDIT_NET_APR, CSR_CREDIT_NET_MAY, CSR_CREDIT_NET_JUN, CSR_CREDIT_NET_JUL, CSR_CREDIT_NET_AUG, CSR_CREDIT_NET_SEP, CSR_CREDIT_NET_OCT, CSR_CREDIT_NET_NOV, CSR_CREDIT_NET_DEC) from carriers initial disputes file and go back disputes file into Disputes database.
Enrollment	REM	48376	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall modify Disputes D2-D rule for 13 new fields (CSR_CREDIT_NET_AMT, CSR_CREDIT_NET_JAN, CSR_CREDIT_NET_FEB, CSR_CREDIT_NET_MAR, CSR_CREDIT_NET_APR, CSR_CREDIT_NET_MAY, CSR_CREDIT_NET_JUN, CSR_CREDIT_NET_JUL, CSR_CREDIT_NET_AUG, CSR_CREDIT_NET_SEP, CSR_CREDIT_NET_OCT, CSR_CREDIT_NET_NOV, CSR_CREDIT_NET_DEC).
Enrollment	REM	48377	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall modify Disputes D3-IsEqual rule for 13 new fields (CSR_CREDIT_NET_AMT, CSR_CREDIT_NET_JAN, CSR_CREDIT_NET_FEB, CSR_CREDIT_NET_MAR, CSR_CREDIT_NET_APR, CSR_CREDIT_NET_MAY, CSR_CREDIT_NET_JUN, CSR_CREDIT_NET_JUL, CSR_CREDIT_NET_AUG, CSR_CREDIT_NET_SEP, CSR_CREDIT_NET_OCT, CSR_CREDIT_NET_NOV, CSR_CREDIT_NET_DEC).
Enrollment	REM	48541	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add a Go Back phase to the Carrier Dispute process
Enrollment	REM	48542	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall process the go back dispute file received from the carriers.
Enrollment	REM	48543	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Dispute process shall perform D1 Validation on the go back dispute file
Enrollment	REM	48544	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Dispute process shall perform D2 Validation on the go back dispute file
Enrollment	REM	48545	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Dispute process shall load the go back dispute file into Dispute Staging database
Enrollment	REM	48546	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Dispute process shall merge the initial disputes with the updated disputes received in the go back file and load the new disputes from the go back dispute file.
Enrollment	REM	48547	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Dispute process shall move the initial disputes received in the go back dispute file to new disputes audit table
Enrollment	REM	48548	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Dispute process shall clear (soft delete) the initial D2 discrepancies identified using the initial dispute file
Enrollment	REM	48549	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Dispute process shall perform D2 Validation using dispute records from the initial disputes file which are updated using the Go back file and new disputes received in the go back file.
Enrollment	REM	48550	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Dispute process shall create the D2 report after processing go back dispute file which will have all the D2 discrepancies for the respective carrier.
Enrollment	REM	48551	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Dispute process shall create the D2 Heatmap report after processing go back dispute files for all the carriers.
Enrollment	REM	48851	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update L3-59 rule (CH updates status from Confirm to Term) with the additional scenario when the CH Net Premium for the first month is greater than \$0 and CH APS Status is "APS-NEW" and CH APS Attestation Indicator is not equal to "O" (Opt-Out), then flag the record for L3-59 discrepancy.
Enrollment	REM	48852	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update L3-61 rule (CH updates status from Term to Confirm) with the additional scenario when the CH Net Premium for the first month is greater than \$0 and CH APS Status is "APS-NEW" and CH APS Attestation Indicator is not equal to "O" (Opt-Out), then flag the record for L3-61 discrepancy.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Enrollment	REM	48853	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update L3-62 rule (CH updates status from Term to Confirm) with the additional scenario when the CH Net Premium for the first month is greater than \$0 and CH APS Status is "APS-NEW" and CH APS Attestation Indicator is not equal to "O" (Opt-Out), then flag the record for L3-62 discrepancy.
Enrollment	REM	48854	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate new Exclusion list having the APS Enrollments that have been "Cancelled" by the SB260 cancellation batch. The Category for these exclusions will be "SB260 Cancellation".
Enrollment	Renewal		
Enrollment	Renewal	41820	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall include benefits summary disclaimer label for the Health Plan Compare page.
Enrollment	Renewal	41821	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall include plan quality ratings disclaimer label for the Health Plan Compare page.
Enrollment	Renewal	41822	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall include and display the following functionalities for Dental Plan Details screen: 1. Back navigation to shop and compare and plan selection screens 2. Main section header
Enrollment	Renewal	41823	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall include and display the following summary for the dental plan: 1. Provider name and logo 2. Dental Plan name (plan type) label 3. Monthly premium amount 4. Monthly premium details 6. Add to cart button 7. Plan name label and plan name 8. Routine dental (adult) label and routine dental (adult) member's cost 9. Dental checkup (child) label and dental checkup (child) member's cost 10. Yearly deductible label and yearly deductible cost
Enrollment	Renewal	41824	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display a visual confirmation after selecting the plan to provide confirmation of Plan selected and provide user with navigation for next steps: 1. Functionality to navigate to the Shopping Cart Page 2. Functionality to navigate to the Health Plans Shopping page
Enrollment	Renewal	46139	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the following when user proceeds to complete health plan selection {Active Renewals}: -Text informing user to renew current enrollment or change plans for enrollment groups - Functionality to shop in new groups - Health Enrollment Groups from the Previous Year <# of members> - APTC amounts for the following Enrollment year - Functionality to Renew or Change Plans
Enrollment	Renewal	46140	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the user to make changes to the enrollment groupings by changing plans for the remaining unenrolled members on click of the functionality shop in new groups.
Enrollment	Renewal	46141	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the "Renew Your Plans" page for health plan shopping: - Title: Renew Your Plans - Dynamic banner describing any changes to premiums, CA Premium Credit, and APTC.
Enrollment	Renewal	46142	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall alert the user and prompt them to select a new plan for the upcoming year if their plan is not available for renewals.
Enrollment	Renewal	46143	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the following when user proceeds to complete dental plan selection {Active Renewals}: - Text informing user to renew current enrollment or change plans for enrollment groups -Text informing user not to click "Renew or Change Plans" in case all members are not listed in the enrollments section if they would like to keep the same dental plan. - Functionality to shop in new groups - Dental Enrollments from the Previous Year <# of Members> - Functionality to Renew or Change Plans
Enrollment	Renewal	46144	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall enable dental plan renewal shopping once the household has completed enrolling in qualified health plans.
Enrollment	Renewal	46145	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the Renew Your Plans Page for dental plan shopping: - Title: Renew Your Plans
Enrollment	Renewal	46146	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Enrollment Module shall continue to support current renewals crosswalk functionality with the same carrier.
Enrollment	Renewal	46147	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Enrollment Module shall continue to support current renewals crosswalk functionality with a different carrier.
Enrollment	Renewal	46148	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not display members that are made inactive from the household or are ineligible for Renewals on the custom grouping screen. The inactive/ineligible member will not go through the shopping flow.
Enrollment	Renewal	46149	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow newly added members that qualify for renewals to shop for a new plan or get added to existing enrollment groups.
Enrollment	Renewal	46150	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the user to access the "Pay Now" button from the following points of entry: - Enrollment Dashboard Page - Plan Confirmation Page - My Enrollment History Page

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Enrollment	Renewal	46151	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall auto plan select household members that transition from MAGI/Medi-Cal to CCP/APTC eligible during renewals and complete the renewal process for the remaining eligible members.
Enrollment	Renewal	46152	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall cancel an enrollment created via passive renewal when the following criteria is met: - the renewal was from an Auto-Plan Selection (APS) New enrollment from the previous year -the APS enrollment has a \$0 net premium -the consumer has not opted-in for the APS enrollment - the APS enrollment has been cancelled automatically based on a consumers failure to opt in by the APS deadline
Enrollment	Renewal	46153	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display messaging to consumers who choose to Opt Out of their current year enrollment after it has been renewed for the next year.
Enrollment	Renewal	46154	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall retain the SEP period established on the case during OSEP when Open Enrollment ends.
Enrollment	Renewal	46155	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall capture the existing functionality of the Over Aged Dependent BOT process in the PCAP module and custom group Over Aged Dependent in their own enrollment group during Passive Renewals
Enrollment	Renewal	46156	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall enroll any over aged dependent in the same plan ID as their current plan.
Enrollment	Renewal	46157	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not update the policy for the remaining members.
Enrollment	Renewal	46158	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall only separate over aged dependents if renewals for the upcoming benefit year have been completed for the household.
Enrollment	Renewal	46159	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add a case note indicating that the case was included in the automated Over Aged Dependent process that will indicate if the Batch was successfully able to update the enrollment or not
Enrollment	Renewal	46160	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall automate and custom group individuals aging out of Catastrophic plans in their own enrollment group during Passive Renewals
Enrollment	Renewal	46161	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall enroll the individual aging out of the Catastrophic plan in the Ageing off Plan column in Crosswalk SERFF template Bronze version of that plan, if available.
Enrollment	Renewal	46162	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall enroll the remaining Catastrophic-eligible members in the Crosswalk plan mentioned in Crosswalk SERFF template.
Enrollment	Renewal	46163	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add a case note indicating that the case was included in the automated Catastrophic Age Out process that will indicate if the automated process was successfully able to renew the enrollment or not
Enrollment	Renewal	46164	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall automate the existing Bronze to Silver Crosswalk process through a batch process during Passive Renewals.
Enrollment	Renewal	46165	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Case Note shall indicate if the automated process was successfully able to renew all enrollments in a household or not
Enrollment	Renewal	46166	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update BAT55 to extract all the applicable enrollment id and corresponding case id, plan details.
Enrollment	Renewal	46167	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create a new Enrollment Batch that will passively renew cases that are eligible.
Enrollment	Renewal	46168	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall run the Staging Batch to stage the enrollments that were in pending or enrolled status from Current year.
Enrollment	Renewal	46169	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall then run the Renewal Batch will use the data staged in HBX_CROSSWALK_TEMP table, HBX_CATASTROPHIC_TEMP table and Renewal staging table to Renew cases to their Target plans.
Enrollment	Renewal	46170	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the references/stop Account Transfer in the existing renewals batches.
Enrollment	Renewal	46171	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow users to enroll in a plan effective as of First of coming month during the OFL period.
Enrollment	Renewal	46172	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the Admin User to opt consumers out of Passive Renewals after the Renewals eligibility jobs have run
Enrollment	Renewal	46173	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall log all the applicable reason codes for the cases that are not passively renewed.
Enrollment	Renewal	46174	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send the 834 Renewals transactions to the Issuers, that clearly denotes the Active and Passive Renewals with the specific codes, so that Issuers can process the information accordingly.
Enrollment	Renewal	46175	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send 834 Renewal transactions to the Issuers for consumers who actively or passively renew into the same plan under the current Issuer.
Enrollment	Renewal	46176	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send 834 Renewal transactions to the Issuers for consumers who actively or passively renew into a different plan under the current Issuer.
Enrollment	Renewal	46177	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send 834 new enrollment (add) transactions to the Issuers for consumers who actively renew their coverage into a new plan with a different Issuer.
Enrollment	Renewal	46178	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send an EDI 834 new enrollment (add) transaction if the consumer is automatically renewed into a different plan with a different Issuer. (Cross Issuer Auto-Renewal)
Enrollment	Renewal	46179	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall cancel all enrollment records for the future year when a case is closed as a duplicate when exchange renewals has been complete for the future year.
Enrollment	Renewal	46180	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall remove a consumer from Dental only enrollments after passive renewals are complete if they move out of state.
Enrollment	Renewal	49223	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall Passively Renew Dental Only consumers into the same Dental Plan, if available.
Enrollment	Shop & Compare		
Enrollment	Shop & Compare	41839	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall include benefits summary disclaimer label for Dental Plan Compare page.

Category	Sub Category	Req ID	Requirement
Enrollment	Shop & Compare	41841	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Shopping Cart screen shall display a standard verbiage to instruct the users about the next steps in the Shop & Compare Flow.
Enrollment	Shop & Compare	41884	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display a "Confirm your coverage end date" screen displaying more details: -Static Message indicating the date and plan name that the user will be disenrolled from -Plan logo
Enrollment	Shop & Compare	41910	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the "Dental Plans" tab once the user has enrolled in a Health Plan.
Enrollment	Shop & Compare	41925	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall navigate the user to an error message on the carrier website that states that the "Carrier website indicates that Initial Premium Payment functionality is temporarily unavailable" if the initial premium payment URL is not available or times out.
Enrollment	Shop & Compare	41937	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Enrollment Portal - Confirm Your Plan Selection screen shall display the following sections: -Title Page "Confirm Your Plan Selection" -Dental Plan <HH Member First Name and Last Names> -Feature to remove dental plan from the cart -Cart Total -Feature to go "Back to Shopping" -Feature to go "Next"
Enrollment	Shop & Compare	41946	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display a banner with static text displaying payment next steps and a feature to "Exit & Pay Offline"
Enrollment	Shop & Compare	41952	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display a "Minimum Coverage" option in the Metal Tier section on the SHOP & Compare page when all the users enrolling in the health plan are eligible for a catastrophic plan.
Enrollment	Shop & Compare	41953	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the following when there are still household members to be enrolled in a plan: - Enrolled <# of HH Members> - Whom are you shopping for - Feature to Go to Dashboard - Feature to Shop for Health Plans for Applicable Coverage Year <# of Household Members>
Enrollment	Shop & Compare	41963	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display an "Alert" popup message informing the user to select one group.
Enrollment	Shop & Compare	41966	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the following details on the "Confirm Your Plan Selection" when adding a new member to an existing plan: - Banner explaining any updates to the plans including changes to premiums and changes to subsidy amounts - Health Plan Section - Cart Total - Feature to go "Back to Shopping" - Feature to go "Next"
Enrollment	Shop & Compare	41967	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide a "Back to Shopping" feature that contains the following: - Static message about possible premium changes - Feature to "Remove Existing Plans & Go Shopping" - Feature to "Return to Cart"
Enrollment	Shop & Compare	41968	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall preserve enrollment groupings for remaining household members in cases where other household members have been removed. Removed household members will be automatically disenrolled/canceled from coverage.
Enrollment	Shop & Compare	41999	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) enrollment module shall include all functional changes documented CR 177906 - Allow Consumers Unlimited Plan Changes During SEP Window.
Enrollment	Shop & Compare	42025	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the following when user proceeds to complete dental plan selection {Active Renewals}: - Text informing user to renew current enrollment or change plans for enrollment groups -Text informing user not to click "Renew or Change Plans" in case all members are not listed in the enrollments section if they would like to keep the same dental plan. - Functionality to shop in new groups - Dental Enrollments from the Previous Year <# of Members> - Functionality to Renew or Change Plans
Enrollment	Timeshifter		
Enrollment	Timeshifter	42113	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) enrollment module shall include all the functional changes documented CR 177906- Allow Consumers Unlimited Plan Changes During SEP Window.
Environment Management			
Environment Management	Enrollment		

Category	Sub Category	Req ID	Requirement
Environment Management	Enrollment	42418	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall create an exportable list of people who consumers did not access their California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) account during the renewal period (auto renewal) and whose coverage continues. The list shall include: Case number, Head of Household/Primary Contact, Physical Mailing address, preferred method of contact, email address (if available), preferred written language, and Program(s). This list will be sent to CoveredCA fulfillment vendor to mail voter registration cards and letter notices in appropriate preferred language. The list shall be created and sent to the fulfillment vendor once at the end of the renewal period.
			The list will also be used to pull email's of consumers whose preferred method was electronic, and email notices (in appropriate language) with SOS links, instead of paper mailing.
Environment Management		45349	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall receive the new vendor onboarding document with connection and private/public keypair.
Environment Management		45350	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall make an infrastructure change as network/firewall updates to allow the connection from California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) to HMS.
Environment Management		45351	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall create or update an API gateway policy to connect to vendor.
Environment Management	Enrollment	45352	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall send the webservice transaction through SSL channel.
Environment Management	General Requirement		
Environment Management	General Requirement	38682	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall have the functionality to time shift the training environment to a specific date within 4 hours of request by the Covered California University (CCU) team.
Environment Management	General Requirement	38683	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system training environment shall always have the build version that is in the production environment.
Environment Management	General Requirement	38684	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall inform the CCU team when the training environment environment is time shifted.
Environment Management	General Requirement	38685	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall inform the CCU team when the UAT environment environment is time shifted..
Environment Management	General Requirement	38686	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall provide access to the training environment for the computers that located in HQ Training Rooms 1, 2, and 3, and in Fresno Training Rooms 109, 110, and 111.
Environment Management	General Requirement	38687	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall provide access to the UAT environment all Covered California CCU staff..
Environment Management	General Requirement	38688	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System will have the following number of role logins available for CCU use in the training environment: 150 accounts for consumers, 30 accounts for PBE, 30 accounts for Agent, 30 accounts for CEC, and 3 for CEE.
Environment Management	General Requirement	38689	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System will provide an automated method for resetting the passwords for training environment accounts that are provisioned for CCU.
Environment Management	General Requirement	44179	The Vendor shall maintain the Training environments with at least the production version of the System code or one version earlier unless requested otherwise by Exchange Project Director.
Environment Management	General Requirement	44180	The Vendor shall provide the Training and UAT environments to State staff outside of the project Facilities.
Environment Management	General Requirement	44211	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide the Service Center with a "test like" training environment. This training envorinment must mirror produciton functionality using simulated information.
Environment Management	General Requirement	44212	CalHEEERS shall maintain the Training environments with test like data for Plan Selection.
Environment Management	General Requirement	44213	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall maintain the Training environments with test like data for Agent and CEE/CEC delegation.
Environment Management	General Requirement	44214	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide the funtionailty in the Training environment to update data to simulate Production cases through enrollment, upon request.
Environment Management	General Requirement	44215	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Service Center Training Environment shall have the capacity to accommodate 70 concurrent Users.
Environment Management	General Requirement	44216	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) must provide the functionality to allow for the load and reload of a training dataset upon request.
Facilities	General Requirement		

Category	Sub Category	Req ID	Requirement
Facilities	General Requirement	45364	The Vendor shall plan, equip, provide and manage the appropriate number and type of Facilities to successfully operate the System. The Vendor must provide all Facilities necessary in order to support all required System functions: A) Development and Implementation Facility (D&I) - must be located within 30 miles of the State Capitol in Sacramento. B) Production Data Center (PDC) - must be located in California. C) Backup Data Center (BDC) - must be located in the Continental United States. Vendors are free to propose a single Facility to house multiple functions. For example, Vendors may propose one Facility that will accommodate the D&I project team, the Call/Service Center and the Production Data Center.
Facilities	General Requirement	45365	All Sites/Facilities shall be subject to the State acceptance.
Facilities	General Requirement	45366	The Vendor shall designate a point of contact for each State Project Facility.
Facilities	General Requirement	45367	The Vendor shall be responsible for ensuring that State Project Facilities meet all applicable local, State, and federal laws, Codes, and Requirements.
Facilities	General Requirement	45368	The Vendor PDC Facility and Backup Facility shall meet with the Uptime Institute TIER III – Concurrently Maintainable Site Infrastructure requirements. The State encourages PDC and Backup Facility compliance with U.S. Building Council Leadership in Energy and Environmental Design (LEED) requirements for a Silver rating.
Facilities	General Requirement	45369	During non-working hours, all State Facilities shall be protected against intrusion by appropriate surveillance System (e.g., security cameras). The required level of surveillance may vary by Facility, as appropriate.
Facilities	General Requirement	45370	Until the D&I Facility is installed and operational, the Vendor shall provide sufficient temporary office space to perform its project start up activities and to house Vendor and the State staff. Adequate furniture, Equipment, Software, and office supplies must be provided to support all staff located at any temporary Site.
Facilities	General Requirement	45371	The D&I Facility shall provide appropriate office space (cubicles, offices, or work spaces) to accommodate, at a minimum, the following required on-site State staff, vendors, Sponsors and partners: A) Forty (40) State Vendor staff B) Sixty (60) State Staff C) Twenty (20) as-needed Testers and/or other staff D) Ten (10) Sponsors and Partners E) Vendor staff
Facilities	General Requirement	45372	The D&I Facility shall include, at a minimum, the following: A) One (1) very large conference room with the capacity to seat 40 people at or around tables and accommodate at least 90 people absent of tables. B) Two (2) large conference rooms with a capacity to seat 25 C) Three (3) medium conference rooms with a capacity to seat 16 D) Three (3) small conference rooms with a capacity to seat eight (8) E) Each room shall be equipped with the following: I) An appropriate number of large white boards for the space. II) Table(s) and chairs to match the capacity III) Voice Conferencing Equipment, including auxiliary microphones IV) Phone and data lines (data lines to accommodate LAN and SharePoint access for attendees) V) Video Conferencing mechanism in two (2) conference rooms. VI) An Integrated Projection device capable of audio/visual presentation for the very large, large and medium conference rooms. F) Staff PCs or laptops configured with Microsoft Office automation and email Software, internet access, antivirus, and any other Software appropriate for project-wide communication and administration. G) An appropriate number of PC/laptop copies of all Software and Software licenses used in development, testing and maintenance H) An appropriate number of servers and all related Software to support administration, development, testing and maintenance I) An appropriate number of printers located throughout the Facility K) One (1) or more spaces designated and equipped for copy, print, scan, and fax functions, office supplies, and storage equipped with copy/duplicating Equipment with scanning capabilities, including one (1) high-speed Networked copy/duplicating machine and a fax machine. L) A central file and Document storage area.
Facilities	General Requirement	45373	Prior to acquisition, the Vendor shall obtain the approval of the State Project Director, or designee, for sample office and conference room furniture, phones and paint.
Facilities	General Requirement	45374	The D&I Facility shall have, at a minimum, six (6) private areas/study booths, each with a capacity for two (2) individuals, for use by temporary staff, confidential phone calls/discussions, private one-on-one meetings, nursing mothers, and similar purposes. Each breakout area shall be equipped with the following: A) One (1) Desk or work surface B) One (1) telephone C) Two (2) data lines D) Two (2) chairs E) One (1) white board
Facilities	General Requirement	45375	The D&I Facility shall include a large break room/kitchen area with adequate furnishings, Equipment, microwaves, vending machines, and supplies to support food and beverage storage, preparation and recycling for all on-site Project staff, and additional staff attending meetings at the Project Site. The break room/kitchen area shall also contain an adequate number of tables and chairs so staff can sit down to eat.
Facilities	General Requirement	45376	The D&I Facility shall include an adequate number of parking spaces adjacent to the Facility for all on-site Project staff and meeting attendees.

Category	Sub Category	Req ID	Requirement
Facilities	General Requirement	45389	The Vendor shall be responsible for development, maintenance, and distribution of an Emergency Evacuation Plan for each proposed Facility; however, this plan is not a formal Deliverable. The Emergency Evacuation Plan shall address periodic Testing of all emergency alert System and fire drills.
Facilities	General Requirement	45390	The Vendor shall provide and maintain a Backup Facility geographically separate from the PDC Facility. The location of the Backup Facility proposed by the Vendor shall mitigate the risk of both the PDC Facility and Backup Facility being impacted by the same disaster.
Facilities	General Requirement	45391	The PDC Facility and Backup Facility shall be equipped with adequate measures and means to ensure prompt detection of any disaster. The Vendor shall maintain appropriate processes and procedures for reporting disasters at the PDC Facility and/or Backup Facility to appropriate authorities and the emergency handling of fire, water intrusion, explosion, or other disasters.
Facilities	General Requirement	45392	PDC Servers and other essential devices (e.g., Routers and primary Switches) shall be protected from the effect of electrical power outages and fluctuations by the installation of Uninterrupted Power Supply (UPS) devices.
Facilities	General Requirement	45395	The D&I Facility shall include eleven (11) individual locking offices for the state use.
Facilities	General Requirement	45396	All work spaces for on-site State Project staff (partitioned and individual) shall be equipped, at a minimum with the following: A) One (1) ergonomic desk B) One (1) ergonomic desk chair C) One (1) bookcase in offices and large cubicles D) One (1) locking file cabinet or equivalent E) One (1) side chair, if requested F) One (1) Workstation or laptop G) One (1) speaker telephone H) One (1) Telephone Headset, if requested
Facilities	General Requirement	45448	Any change in Facility locations from those specified in the Proposal shall be subject to prior written acceptance by the State.
Facilities	General Requirement	45449	The Vendor shall propose a solution that complies with Data center and architecture requirements, standards, federal, State regulations.
Facilities	General Requirement	45450	The Vendor shall be responsible for the purchase, lease/rental, and operation of the State Facilities, including, the following goods and Services, as appropriate for each Facility: A) Leasehold improvements and ongoing maintenance and repairs B) Utilities C) Telephone System, including communication lines with service providers D) LAN/WAN installation and maintenance E) Secured wireless and remote connectivity and Access F) Office Equipment installation and maintenance G) Office supplies H) Furniture installation and maintenance I) Coordinated Facility maintenance with the Facility owner/manager J) Janitorial Services K) Security L) Adequate parking M) Storage N) Insurance
Facilities	General Requirement	45451	All State Facilities that host State Servers, Data, and central print Equipment shall have, at a minimum, physical security measures including secured doors and entry mechanisms and locked Server rooms with floor-to-ceiling walls. Site entrance doors and doors to Server rooms must be secured at all times and shall have an Auditable entry mechanism (e.g., card reader) that records all entries and departures.
Facilities	General Requirement	45452	The Vendor shall have System application and Data available at all times for production use at the Backup Facility. The Vendor shall provide automated failover to the Backup Facility. The Vendor shall provide redundant power supply to support operations for a minimum of 48 hours in the event of an extended power outage at the PDC Facility.
Facilities	General Requirement	45465	The Vendor shall provide a Backup Facility that includes, but is not limited to: A) Daily backups of the System shall be stored at the Backup Facility B) At least two major versions of the System Software shall be retained at the Backup Facility C) The Vendor shall provide a Backup Facility that replicates the PDC data and provide compute capacities for DR purposes. D) Interfaces with other System that interface with the PDC Facility
Final Detailed Design Review			
Final Detailed Design Review	General Requirement		

Category	Sub Category	Req ID	Requirement
Final Detailed Design Review	General Requirement	43532	As part of the Final Detailed Design Review, the Vendor shall prepare a Final Detailed Requirements Traceability Matrix to include but not be limited to: A) Approach to Requirements Analysis and Traceability B) Summary of Findings C) List of Requirements D) List of Deliverables E) Requirements mapped to Deliverables F) Deliverables mapped to Requirements G) Requirements without matching Deliverables H) Deliverables without matching Requirements
Final Detailed Design Review	General Requirement	43533	The Vendor shall prepare a System Design Document (Final) to include at a minimum: A) Design Considerations B) System Architecture C) Data Design D) Human-Machine Interface E) Operational Scenarios F) Detailed Design G) System Integrity Controls H) External Interfaces
Final Detailed Design Review	General Requirement	43534	The Vendor shall prepare a Interface Control Document (Final) to include at a minimum: A) Description of all System Interfaces: Federal, State and Local B) Detailed Interface Requirements C) Communication Protocols with external entities D) Interface development and test schedule E) Contingency plans
Final Detailed Design Review	General Requirement	43535	The Vendor shall prepare a Database Design Document (Final) to include at a minimum: A) Design Decisions B) Detailed Database Design C) Database Administration And Monitoring
Final Detailed Design Review	General Requirement	43536	The Vendor shall prepare a Data Management Plan (F) to include at a minimum: A) Approach for managing data during and after project execution. B) Data archiving plan C) Data retention plan
Final Detailed Design Review	General Requirement	43537	The Vendor shall prepare a Physical Data Model (Final) to include at a minimum: B) Participants Roles And Responsibilities C) Conceptual, Logical, And Physical Data Models D) PDM Concepts E) PDM Relationship Views G) Physical Data Model (PDM) Development H) Extract, Transform And Load Process I) PDM Data Dictionary Development K) Appendix A: Physical Data Model Diagram L) Appendix B: Extract, Transform, And Load Diagram M) Appendix C: Physical Data Model Matrix N) Appendix D: PDM Data Dictionary
Final Detailed Design Review	General Requirement	43538	The Vendor shall prepare a Data Conversion Plan (Final) to include at a minimum: A) Data Conversion Strategy and Approach B) Staffing and roles and responsibilities of Exchange and Vendor staff C) A list of files being converted D) Data Conversion Preparation E) Data Conversion Specifications F) A cross-reference of existing data elements to California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) data elements G) Conversion rules for each existing and new data element H) Methods for calculating default values, as appropriate I) Manual processes required including preparation and actual Conversion, and estimated work effort and timeline for each J) The approach for training users and technical staff in both automated and manual Conversion procedures K) Reports

Category	Sub Category	Req ID	Requirement
Final Detailed Design Review	General Requirement	43539	The Vendor shall prepare an Infrastructure Design document to include at a minimum: A) Logical and physical architectures and networks for all central and local components B) Technical diagrams and schematics for all central and local components C) Existing System infrastructure components that will continue to be used/leveraged as well as new infrastructural components. Identification of new infrastructure components that can be leveraged or reused by other State agencies D) Schedule for availability, including any phasing if applicable E) How all CMS technical requirements for MITA, SOA and cloud computing are addressed F) Infrastructure test plans
Final Detailed Design Review			The Vendor shall develop and execute an IVR Plan to successfully design and implement the IVR functionality. The IVR Plan shall include but not be limited to: A) Approach B) Roles and Responsibilities clearly delineated for Vendor, Exchange and Service Center staff C) IVR Design D) Schedule E) Processes and Procedures F) Call/decision trees
Financial Management			
Financial Management	Assister Financial Transactions		
Financial Management	Assister Financial Transactions	39652	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to track applications and enrollments for which an Assister or Eligibility Administrator was involved.
Financial Management	Assister Financial Transactions	39653	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to configure a fee for an Assister for a configured timeframe for enrollment and renewal activities based on policies to be determined by the Exchange, DHCS or MRMIB.
Financial Management	Assister Financial Transactions	39655	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to configure and calculate Assister fees that may vary based on programs for which individuals enroll (Exchange, Medi-Cal, Healthy Families, MCAP).
Financial Management	Assister Financial Transactions	39674	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to submit a payment request to the State Controller's Office or designated State agency of Assister fees due.
Financial Management	Assister Financial Transactions	39692	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to automatically and manually reconcile Assister fees.
Financial Management	Consumer Assistance - SHOP		
Financial Management	Consumer Assistance - SHOP	42847	Add verbiage to the Enrollment Summary page to direct consumers to the Covered California How to Pay site for directions on how to make their first payment
Financial Management	Consumer Assistance - SHOP	42848	Add a link on the Enrollment Summary page to the Covered California How To Pay site.
Financial Management	Consumer Assistance - SHOP	42849	Update the Covered California How to Pay site with instructions for consumers to make their first Health Insurance Payment
Financial Management	Exchange Accounting		
Financial Management	Exchange Accounting	39477	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) accounts receivable functionality shall track all premium and Issuer Plan Assessment Fee invoices, receipts, adjustments and write-offs for a minimum of ten years.
Financial Management	Exchange Accounting	39478	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality for accounts receivable to track Issuer Plan Assessment Fees due to the Exchange.
Financial Management	Exchange Accounting	39492	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) accounts receivable functionality shall allow for automated and manual reconciliation of Issuer receivable balances.
Financial Management	Exchange Accounting	39516	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) accounts receivable functionality shall provide an audit trail of all adjustments and write-offs made.
Financial Management	Exchange Accounting	39517	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality for accounts payable to track Assister fees due.
Financial Management	Exchange Accounting	39518	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System accounts payable functionality shall track all Assister payments, adjustments and write-offs for a minimum of ten years.
Financial Management	Exchange Accounting	39564	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System accounts payable functionality shall allow for automated and manual reconciliation of premium refunds and Assister fee balances.
Financial Management	Exchange Accounting	39568	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System accounts payable functionality shall provide an audit trail of all adjustments and write-offs made.
Financial Management	Exchange Accounting	42591	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall provide extracts/files from the state health benefits exchange billing software (ABE) that are formatted properly for upload to the CalSTARS system by FMD staff for general ledger transaction reporting.
Financial Management	Exchange Accounting	42592	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall provide pipe delimited CSV reports from the state health benefits exchange billing software (ABE) that match the extract files but are formatted for FMD review.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Financial Management	Exchange Accounting	42593	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall generate a CalSTARS defined TC240 Accounts Payable payment extract/file that will be ready for manual upload to the CalSTARS system by FMD staff.
Financial Management	Exchange Accounting	42594	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall generate a CalSTARS defined TC121 Accounts Receivable extract/file to record carrier invoices recorded in ABE. The file will split out medical and dental. FMD staff will review, and upload the file to CalSTARS.
Financial Management	Exchange Accounting	42595	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall generate a CalSTARS defined TC143 Accounts Receivable extract/file which includes remittance details at the invoice level from carriers recorded in ABE. FMD staff will review and upload the file to CalSTARS.
Financial Management	Exchange Accounting	42596	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall make available all CalSTARS specific California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) extracts, files, and reports in a secured SharePoint location that can be securely accessed and securely retrieved by authorized Covered CA Financial Management Department staff.
Financial Management	Exchange Accounting	42631	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) billing engine shall include Individual Contract ID, Household Case ID, CEC ID and CEE ID on the AP Pending by CEE Report Extract.
Financial Management	Exchange Accounting	42918	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall support transmission of TC143 (underpayments) through the CalSTARS Interface
Financial Management	Exchange Accounting	42960	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall generate a CalSTARS defined TC109 Accounts Receivable extract/file which includes overpayment details at the invoice level from carriers recorded in ABE. FMD staff will review and upload the file to CalSTARS.
Financial Management	General Requirement		
Financial Management	General Requirement	39590	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to extract, print and electronically send monthly enrollee and plan data (including premium information) to appropriate State entities and CMS for reinsurance and risk adjustment calculations.
Financial Management	General Requirement	42997	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall bill carriers for all consumers whose enrollment status is ENROLLED as of 2016 PMPM Renewal/Open Enrollment Period
Financial Management	Notices		
Financial Management	Notices	42783	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate the CalNOD22 with member and dependent level identifying information detail; such that, a Carrier / Issuer can identify the person receiving benefits Member ID and Member's full name along with the member's relationship to other household members.
Financial Management	Plan Assessment Fees		
Financial Management	Plan Assessment Fees	38228	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall have the functionality to generate invoices to carriers based on a percentage of the consumer's premium amount.
Financial Management	Plan Assessment Fees	38229	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall have the functionality to set a different percentage amount per carrier.
Financial Management	Plan Assessment Fees	38230	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall have the functionality to configure each percentage amount for each benefit year.
Financial Management	Plan Assessment Fees	38231	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall maintain the functionality to run the retroactive additions and terminations for the historical plan years to appear on the current bill.
Financial Management	Plan Assessment Fees	38233	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall invoice Carriers plan participation fees based on the number of consumers effectuated for the previous month of coverage
Financial Management	Plan Assessment Fees	39600	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to configure Plan Assessment Fees by Issuer and /or QHP and / or qualified stand-alone dental plan for defined time periods.
Financial Management	Plan Assessment Fees	39607	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to invoice Issuer QHP and / or qualified stand-alone dental plan Assessment Fees.
Financial Management	Premium Processing		
Financial Management	Premium Processing	39279	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall provide a 'common', 'standardized' web service that can be used across multiple payment vendors.
Financial Management	Premium Processing	39338	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to send an electronic report to CMS Federal Data Hub of all current enrollees determined eligible for APTC and CSR subsidies for the upcoming month, along with the current Second Lowest Cost Silver Plan (SLCSP) premium amounts.
Financial Management	Premium Processing	39367	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to submit a payment request to the State Controller's Office or designated State agency of net premiums due to the Issuers.
Financial Management	Premium Processing	39374	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to track for audit purposes all manual adjustments.
Financial Management	Premium Processing	42006	On the Enrollment Summary Screen, add the Subscriber #.
Financial Management	Premium Processing	42438	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall be able to provide Carriers with a subscriber's policy, contact, and member information.
Financial Management	Premium Processing	42439	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall provide responsible party information sufficient to appropriately address invoicing which is to include the mailing address.
Financial Management	Premium Processing	42440	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall provide case residential address information to support the Carriers ability in assisting consumers with Primary Care Physician (PCP) selection from the transaction. At minimum, residential information will include the residential zip code.
Financial Management	Premium Processing	42441	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall disable the binder payment service after the binder payment has been successfully received by the carrier. a. The pay now button shall be disabled once the Carrier's web service provides initiated payment confirmation. (optional – carrier choice for implementation) b. The pay now button shall be disabled once the carrier 834 effectuation is received by California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) confirming payment receipt.
Financial Management	Premium Processing	42442	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall not require a plan binder payment be made through the Covered CA web portal to effectuate coverage.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Financial Management	Premium Processing	42443	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall display to the Covered CA user an information message when the Carrier payment service is unavailable and direct the consumer to try again later.
Financial Management	Premium Processing	42444	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall open a separate browser window for the consumer to access the carrier site.
Financial Management	Premium Processing	42445	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) portal shall remain open and active for the user when the separate carrier browser window is open for payment processing.
Financial Management	Premium Processing	42446	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall provide member level information sufficient to provide invoice line item billing detail generation including member level premiums.
Financial Management	Premium Processing	42447	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall provide policy level information sufficient to match case information to the 834 transaction including subscriber and plan.
Financial Management	Premium Processing	42448	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall send Carrier requests for binder payments by plan product ID.
Financial Management	Premium Processing	42449	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall display a “pay now” button per policy purchase.
Financial Management	Premium Processing	42450	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall provide sufficient on-screen messaging to the consumer to explain payment components being made and provide warnings that separate plans will require separate payments be made.
Financial Management	Premium Processing	42451	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall send valid premium and tax credit payment data to the Carrier.
Financial Management	Premium Processing	42452	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall provide the “pay now” feature for initial binder payments only. NOTE: Requirement is 'pending' until 'renewals' conversation is held with Carriers.
Financial Management	Premium Processing	42453	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) web service documentation shall provide a crosswalk to the location of each populated data field within the 834 transaction to assist with carrier reconciliation.
Financial Management	Premium Processing	42454	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall utilize the SAML authentication protocol for transactions occurring between Covered CA and the Carrier.
Financial Management	Premium Processing	42455	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall encrypt, and transfer securely, any data related to making an enrollment binder payment.
Financial Management	Premium Processing	44481	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to track QHP and / or stand-alone dental plan gross premium rates per month per enrollee.
Financial Management	Premium Processing	44482	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to generate a report of all individuals enrolled in QHPs or qualified stand-alone dental plans for the upcoming month along with the amounts of gross premiums, APTC and CSR associated with the individuals and transmit to CMS Federal Data Hub electronically.
Format			
Format	General Requirement		
Format	General Requirement	39118	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall remove the current messaging above the immigration status and document type dropdown menus on the Household Members page and replace it with the following text: Please select your current immigration document and status. We can process your application faster if you enter your immigration document information now. If you cannot provide that information now, you will have the chance to provide it at a later date.
Format	General Requirement	45483	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide web-based Exchange access that requires no desktop software except commercially available web-browsers Internet Explorer, Firefox, Chrome, and Safari.
Format	General Requirement	45484	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display each process within California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) in consistent format (e.g., color, layout, font, menus, navigation, graphics, and information location).
Format	General Requirement	45485	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall utilize recognized presentation standards for displaying user, plan, and payment information.
Format	General Requirement	45486	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall displaying information in a culturally sensitive manner, taking into consideration color, symbols, format, and overall presentation.
General			
General	Assister Management		
General	Assister Management	47049	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the Agent/Enroller's name and contact details on MCT Dashboard if the case has an active agent/enroller delegated (the delegated Agent/Enroller is in "Certified/Approved" status with "Active" Delegation)
General	Assister Management	47050	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the Agency/Entity's name and contact details on MCT Dashboard if the delegated Agent/enroller is not able to service the consumer when: 1) the delegated Agent/Enroller is in "Certified/Approved" status with "Pending" Delegation on the case OR 2) the delegated Agent/Enroller is in "Suspended" status with "Active" Delegation on the case
General	Assister Management	47051	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display “Get free enrollment assistance from a Covered CA Certified Partner” section on MCT Dashboard if the case has an no agent/enroller delegated.
General	Assister Management	47052	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display a button to the existing "Manage Delegate" flow within the "You have a Delegated Enroller" section on the MCT dashboard which displays the delegated Agent/Enroller's name and contact details, if applicable.
General	Assister Management	47053	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall always display a "Find Local Help" link within the "Contact Us" section on the MCT Dashboard
General	Assister Management	47054	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display a heading "Need to find an Agent, Certified Enrollment Counselor, or Local County Office?" for the "Find Local Help" link within the "Contact Us" section on the MCT Dashboard

(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
General	Assister Management	47717	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the Agent/Enroller's name and contact details on modified MCT Dashboard for Manual APS process 3 Consumer if the case has an active agent/enroller delegated (the delegated Agent/Enroller is in "Certified/Approved" status with "Active" Delegation)
General	Assister Management	47718	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the Agency/Entity's name and contact details on on modified MCT Dashboard for Manual APS process 3 Consumer if the delegated Agent/enroller is not able to service the consumer when: 1) the delegated Agent/Enroller is in "Certified/Approved" status with "Pending" Delegation on the case OR 2) the delegated Agent/Enroller is in "Suspended" status with "Active" Delegation on the case
General	Assister Management	47719	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display “Get free enrollment assistance from a Covered CA Certified Partner” section on modified MCT Dashboard for Manual APS process 3 Consumer if the case has no agent/enroller delegated.
General	Assister Management	47720	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display a button to the existing "Manage Delegate" flow within the "You have a Delegated Enroller" section on the modified MCT Dashboard for Manual APS process 3 Consumer which displays the delegated Agent/Enroller's name and contact details, if applicable.
General	Assister Management	47721	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall always display a "Find Local Help" link within the "Contact Us" section on the modified MCT Dashboard for Manual APS process 3 Consumer
General	Assister Management	47722	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display a heading "Need to find an Agent, Certified Enrollment Counselor, or Local County Office?" for the "Find Local Help" link within the "Contact Us" section on the modified MCT Dashboard for Manual APS process 3 Consumer
General	Assister Management	47723	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall restrict the display of the Unsubsidized MCT dashboard for the remainder of the benefit year after a consumer has completed Manual APS Process 1 or 2 and the Active Manual APS Indicator was moved to "N".
General	Eligibility Determination		
General	Eligibility Determination	38319	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall remove the consent for verification on the e-signature page for unsubsidized applications.
General	Eligibility Determination	39940	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to prompt the user to give consent to receive calls & text messages for new 'Account Creation'.
General	Eligibility Determination	39941	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to allow existing Account Holders to consent to receive calls & text messages.
General	Eligibility Determination	39942	Remove from UCD, This will be addressed as part of CR159413\BR1
General	Eligibility Determination	39943	Remove from UCD, This will be addressed as part of CR159413\BR2
General	Eligibility Determination	39944	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to allow the user to consent to receive phone calls & text messages on all telephone number(s) (Home, Cell, Work) entered for the 'Primary Contact'.
General	Eligibility Determination	39945	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the consent to receive call & text messages verbiage.
General	Eligibility Determination	39946	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to allow the SCR to consent on behalf of the Consumer to receive phone calls & text messages on all telephone number(s) (Home, Cell, Work) entered for the 'Primary Contact'.
General	Eligibility Determination	40137	SIR 146191: California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update applicable Spanish translations in WPS 08.18 Manual_Verification-Outstanding_Verification
General	Eligibility Determination	40140	SIR 129117: California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the missing static text in the Spanish translations for the Eligibility factor - EligStatus_033
General	Eligibility Determination	40830	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to insert case notes in the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Portal when Negative Action or Non-Compliance is lifted at reapplication from the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Portal.
General	Eligibility Determination	40833	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to insert case notes in the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Portal when Negative Action or Non-Compliance is lifted automatically by California Healthcare Eligibility, Enrollment and Retention System (CalHEERS).
General	Eligibility Determination	40838	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update budget worksheet to display when Negative Action or Non-Compliance is applied for a consumer for Medi-Cal and Exchange programs.
General	Eligibility Determination	40860	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add functionality to display the SAWS-linked case number and COR for a California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) case to Admin users.
General	Eligibility Determination	40861	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the ability to navigate an Admin user to a new Admin screen that displays the SAWS case linkage history and COR history for a California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Case.
General	Eligibility Determination	40862	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add a new Admin screen that displays the latest SAWS case and COR linked to a California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) case, and a history of SAWS case and COR linkage that includes the dates for each linkage.
General	Eligibility Determination	41302	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement functionality to display inactivated individuals in the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Portal
General	Eligibility Determination	41303	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display a default inactivation reason for an inactivated individual if there is no inactivation reason associated to the individual that will also specify if the individual was inactivated from SAWS access channel.
General	Eligibility Determination	41304	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add a new modal to the 'Eligibility Results' screen in California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Portal that shall be displayed upon Intake / RAC / Renewal application submission when the application includes a change to the household composition (a member was added, removed, or reactivated to the household).
General	Eligibility Determination	41305	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display a banner on the 'Review Application' screen ('Review & Submit' mode) in California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Portal when an individual is reactivated informing the user to review the reactivated individual's information before submitting the application.
General	Eligibility Determination	41306	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display inactivated individuals on the 'Household Members' screen during applications in California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Portal with the following information: - Individual Name - Age

Category	Sub Category	Req ID	Requirement
General	Eligibility Determination	41307	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display inactivated individuals on the Flexible Application with the following information: - Individual Name - Latest Date Inactivated - Inactivated Reason - Age
General			California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display inactivated individuals on the 'Search Individual' screen in California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Portal with the following information: - Individual Name - Date of Birth - Last 4 Digits of SSN - California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Case ID - Application ID - CIN - Case Status - Application Status
General	Eligibility Determination	41309	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display inactivated individuals on the 'Case Linkage Admin' screen in California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Portal along with the following information: - Individual Name - CIN - DOB - Last 4 Digits of SSN - SAWS Person Number - California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Person Number
General			California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display inactivated individuals on the 'Manual Verification - Household Verifications' Admin screen in California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Portal along with the following information: - Individual Name - SSN - DOB - Gender
General	Eligibility Determination	41311	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall only display eligibility results for active individuals on the 'Eligibility Results' page on California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Portal.
General	Eligibility Determination	41312	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall determine whether an inactive individual is displayed in California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Portal based on whether there are any duplicate records for the individual on the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Case as determined by the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Duplicate Prevention Logic.
General	Eligibility Determination	41313	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not display an inactive individual record if the record is found to be a duplicate of an active individual record.
General	Eligibility Determination	41314	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall only display the latest inactive individual record (highest Indv ID) for an individual with multiple duplicate inactive individual records.
General	Eligibility Determination	41315	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to reactivate an individual that was previously inactivated from the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Portal and FlexiApp.
General	Eligibility Determination	41316	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add functionality to display messaging to a user to inform the user of the process to reactivate an individual.
General	Eligibility Determination	41317	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall pre-populate the following application information for an inactive individual selected to be reactivated on an application from California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Portal using the latest information stored for the individual. - Pre-Populated Information: Basic Information (Name, DOB, Gender, AI/AN attestation), Contact Information, Language Preferences, Citizenship and Immigration Information, Military Service Information, Optional Demographic Information, and Relationships - Not Pre-Populated Information: Marital Status, Health Care Information, Tax Filing Information, Income Information, and Pregnancy Information.
General			California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display a warning to a user during an application on California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Portal or FlexiApp if a user attempts to add an individual that is identified (based on matching first name, last name, and date of birth) to have an inactive record on the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) case.
General	Eligibility Determination	41319	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall consider a reactivated individual as reapplying for health care when determining eligibility for the reactivated individual.
General	Eligibility Determination	41320	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall maintain cached verification statuses for a reactivated individual for SSN if the previous verification status was e-verified, and Citizenship and Lawful Presence if the previous verification status was e-verified or admin verified.
General	Eligibility Determination	41321	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the search functionality on the 'Search Individual' screen to include inactivated individuals in the search.
General	Eligibility Determination	41322	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add a new 'Person Status' indicator to the search results on the 'Search Individual' screen to indicate whether an individual is active or inactive on their associated case.
General	Enrollment		

Category	Sub Category	Req ID	Requirement
General	Enrollment	38304	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall allow a consumer to shop for a dental plan anytime that they can shop for a health plan.
General	Enrollment	38305	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall allow a consumer to reenroll in all plan type combinations, including: a health plan and a dental plan; a dental plan only; or a health plan only.
General	Enrollment	38306	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall allow a consumer to terminate cases for either: a health plan and a dental plan; a dental plan only; or a health plan only.
General	Enrollment	38309	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall remove the Decline Coverage Pop Up.
General	Enrollment	38310	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall allow a consumer to complete health plan selection without completing a dental plan selection.
General	Enrollment	47025	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Data Integrity dispute process validation rules shall allow carriers to dispute all cases.
General	Enrollment	47026	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall suspend D2-E rule for carrier disputes.
General	Enrollment	47027	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall modify the D2-H rule to add additional condition when issuer indicates a request for further review of financial data. This modification will need to be updated through D2-H SQL
General	Enrollment	47028	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall enhance the dispute process to reduce the number of cases that are routed to service channels
General	Enrollment	47029	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall change the D3 Process File Report name to D3_ROUTING_MASTER_<AUDIT_DATE YYYYMMDD>.<BENEFIT_YEAR YYYY>.CSV
General	Enrollment	47030	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not include AUTO_CLOSED functionality during D3 validation in the D3 routing master report.
General	Enrollment	47031	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall build a process to load the RESPONSE_D3_ROUTING_MASTER_< AUDIT_DATE YYYYMMDD>.<BENEFIT_YEAR YYYY>.CSV for further dispute steps.
General	Enrollment	47032	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall modify the FINAL_DISPOSITION_REPORT_<AUDIT_DATE YYYYMMDD>.<BENETIT_YEAR YYYY>.CSV to include all the dispute records from the current cycle and all IN PROGRESS status disputed records from the previous cycle(s)
General	Enrollment	47033	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall enhance the dispute process (AUTO_CLOSED logic) to capture enrollments fixed through California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) and matching with live refresh data before the dispute disposition report generated.
General	Enrollment	47034	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall enhance the AUTO_CLOSED dispute logic for "California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) REM Fix" discrepancy as below - • REM ID of reported dispute is part of recent CH REM Datafix. This is from the rem2_fix_stage table which has all the records which will be data fixed excluding cases from exclusion list and will be excluded cases due to last minute updates during California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) datafix.
General	Enrollment	47035	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall enhance the AUTO_CLOSED dispute logic for "Is Equal" discrepancy as below - • Status, benefit start date, end date, all the fields related to APTC, NP, GP, SS and CAPC from the reported dispute matches with the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) refresh live data.
General	Enrollment	47036	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall modify D3_ROUTING_<SERVICE CHANNEL>_<AUDIT DATE YYYYMMDD>.<BENEFIT YEAR>.CSV to only report all records (current and previous cycles) with IN PROGRESS status within the benefit year. The column "DIU_ANALYSIS" from the D3 routing master report will be added to the D3 routing for service channels.
General	Enrollment	47037	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall produce a new dashboard to capture YTD total of all the disputes being worked within the benefit year.
General	General Requirement		
General	General Requirement	39524	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the Program Eligibility by Person section with State Subsidy information.
General	General Requirement	39587	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the ability to display the divorce, separation or modification date on the Application PDF.
General	General Requirement	39588	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the references to IRS Topic 452 to IRS Pub 504 in the User interface
General	General Requirement	39589	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide case notes to cases that are automatically processed via passive renewals or batch EDR's where an active alimony income or alimony paid deduction are present.
General	General Requirement	40599	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display a message to the User when the file is blocked & rejected on the Document Upload modals in the following application flows: - RIDP page - Document & Correspondence page - Eligibility Documents page - Flexi App - VLP page - Bulk upload
General	General Requirement	40600	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display a message to the User providing an alternate method to get documents to California Healthcare Eligibility, Enrollment and Retention System (CalHEERS).
General	General Requirement	41408	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall ensure that there is one pageview count per page visit in Google Analytics for the HBX REACT portal pages.
General	General Requirement	42887	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System must provide section in the single-page application for the addition of Notes. This section of the application will link and map to the Notes available for the application/case.
General	General Requirement	42888	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Security Profiles must be updated and modified for those individuals who can edit and view partial applications.
General	General Requirement	42889	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System must provide the functionality for the Admin to associate applications from ECM to the Flexible Application.

Category	Sub Category	Req ID	Requirement
General	General Requirement	42975	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System must provide the functionality to display the Flexible Application for New or Report a Change (RAC) applications.
General	General Requirement	42976	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System must provide the functionality to display the Flexible Application for Manual Renewal applications.
General	General Requirement	43491	Each Deliverable shall be submitted no later than the delivery date established in the approved Work Plan.
General	General Requirement	43492	If a Deliverable is rejected, the Vendor shall correct and resubmit the deliverable within the agreed upon timeframes as defined in the approved Work Plan that will vary with the type, complexity, and volume of the deliverable.
General	General Requirement	43498	Each DED shall present an overview and outline of the associated Deliverable. The DED shall contain at a minimum the following information: 1) Introduction 2) Schedule that reflects all Vendor draft and final submittal dates, and Exchange review and approval dates 3) Requirements associated with the deliverable 4) Approach for Deliverable development 5) Deliverable Outline 6) Vendor resources responsible for development and Exchange, QA and IV&V resources responsible for Review. 7) Assumptions 8) Acceptance Criteria 9) DED Approval
General	General Requirement	43516	The Vendor shall submit an electronic Version of each Deliverable to the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Project Director, or designee, for Acceptance. Once the Exchange has approved a Deliverable, the Vendor must provide a read-only electronic copy.
General	General Requirement	43527	Each Deliverable submitted for Acceptance shall include a formal transmittal letter from the Vendor Project Manager (or designee) to the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Project Director (or designee). The transmittal letter must certify that the subject Deliverable meets all applicable Specifications, DEDs, and Requirements.
General	General Requirement	43578	Except for Status Reports and unless otherwise approved, the Vendor shall include the following standard sections in each deliverable: A) Introduction B) Assumptions, Constraints and Risks C) Requirements D) Referenced Documents E) Glossary F) Acronyms G) Appendices as applicable
General	General Requirement	45919	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall validate that users have successfully completed the confirm identity process prior to initial application submission. C, D, E, F, G, H, I, M, N, R, S, and T
General	General Requirement	45920	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide messaging with clear instructions prior to initial application submission for users who have not completed the confirm identity process.
General	General Requirement	46018	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall include a sensitive individual indicator on the daily MCAP report sent to DHCS.
General	General Requirement	46019	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall include a sensitive individual indicator on the daily CCHIP reports sent to DHCS.
General	General Requirement	46020	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall enable accounts and access codes that have been disabled due to being associated with a case containing sensitive contact information.
General	General Requirement	46021	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add a case note to cases that have had their accounts and access codes re-enabled to note that the accounts and access codes associated to the case are no longer disabled.
General	General Requirement	47432	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall apply a case note to cases included in the no response batch to indicate successful eligibility and enrollment action on one or more members for Medicare/Deceased inconsistency.
General	General Requirement	47433	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall apply a case note to cases included in the no response batch to indicate an unsuccessful enrollment action taken on one or more members for Medicare/Deceased inconsistency.
General	Notices		
General	Notices	38275	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall update the content for NOD01, General Eligibility, including tables, snippets (language TBD), and changing any hard-coded dates to dynamic dates.
General	Notices	38276	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall update the content for NOD12a/b/c, Annual Open Enrollment, including tables, snippets (Change 34 days to 30 days and other language TBD), and changing any hard-coded dates to dynamic dates.
General	Notices	38277	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall trigger the NOD12a/b/c notices, Annual Open Enrollment, based on a new trigger TBD with the result that only one NOD12 is sent per case.
General	Notices	38307	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall update the content for NOD 01 A, B, C including tables and snippets (Dental and other language TBD).
General	Notices	38308	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall update the content for NOD12 A, B, C including tables and snippets (Dental and other language TBD).
General	Notices	38318	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall update the renewal date from 34 days to 30 days for the NOD12, Annual Open Enrollment Notice, batch job.

Category	Sub Category	Req ID	Requirement
General	Notices	38327	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall display “Eligibility Redetermination” as the subject of the Email on the Secure inbox whenever NOD01c is generated.
			California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall display “Renewal – Eligibility Determination” as the subject of the Email on the Secure inbox whenever renewals based NOD01ab is generated.
General	Notices	38496	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall generate new notices for 2016 for the CalNOD 62A and labeled the .pdf as" CalNOD62A_IRSForm1095A_2016" in Documents and Correspondence.
General	Notices	38498	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall generate new notices for 2016 for the CalNOD 62B (Correction and VOID) and labeled the .pdf as" CalNOD62B_IRSForm1095A_2016" in Documents and Correspondence.
General	Notices	38727	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall update the following NOD01 snippets to be more clear & informative.
General	Notices	39005	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall generate new 2017 CalNOD 62A notices in the PDF format placed in the consumer's Documents and Correspondence folder in the portal labeled "CalNOD62A_IRSForm1095A_2017".
General	Notices	39006	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall generate new 2017 CalNOD 62B notices in the PDF format placed in the consumer's Documents and Correspondence folder in the portal labeled "CalNOD62B_IRSRevisedForm1095A_2017".
General	Notices	39007	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall utilize the Pitney Bowes Presort Services (PBPS) to forward 2017 1095 Notices to any consumer who has filed a change of address with the USPS.
General	Notices	39008	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall allow for notices generated in languages other than English to also be available in English.
General	Notices	39179	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall generate NOD12 in English, Spanish, Vietnamese, Arabic, Farsi, Chinese, Russian, Korean, Armenian, Tagalog, Khmer and Hmong.
General	Notices	39385	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate new 2018 CalNOD 62A notices labeled "2018_Tax_Form_1095A".
General	Notices	39386	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate new 2018 CalNOD 62B notices labeled "2018_Tax_Form_1095A_Revised".
General	Notices	39602	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate new 2019 CalNOD 62A notices labeled "2019 Tax Form (1095-A) - Original".
General	Notices	39603	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate new 2019 CalNOD 62B notices labeled "2019 Tax Form (1095-A) - Revised".
General	Notices	40158	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall display a message to Consumers who provide an email address when completing the contact section in 'Account Creation' and Primary Contact & household members contact information on the 'Application' (React App and Flexi-App) to inform Consumer that Covered CA may use the email address(es) provided to contact them regarding health information and their account from Covered California.
General	Notices	44466	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall update the current Correction Auto Sweep batch to include voided 1095 notices.
General	Notices	44604	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall generate new notices for 2015 for the CalNOD 62B
General	Notices	44621	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall generate new notices for 2015 for the CalNOD 62A
General	Notices	46000	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall include the followin as part of A void record: all of the form information from the referencing record that is being voided (Parts I, II, and III) with the only changes being the metadata that marks the record as void and references the record being voided.
General	Notices	46005	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall enhance the current Correction Auto Sweep batch to send out correction notices including the void notices, as defined in the use cases.
General	Renewal		
General	Renewal	38297	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall allow a consumer to actively renew in both a health plan and dental plan if the consumer is currently in both a health plan and dental plan.
General	Renewal	38298	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall allow a consumer to actively renew in only health plan if the consumer is currently in both a health plan and dental plan.
General	Renewal	38299	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall NOT allow a consumer to actively enroll in a health plan and renew in a dental plan if the consumer is currently enrolled only in a dental plan.
General	Renewal	38300	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall allow a consumer to actively enroll in a dental plan and renew in a health plan if the consumer is currently enrolled only in a health plan.
General	Renewal	38301	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall allow any consumer to add or remove a member to a case during renewals and choose to add them to the dental plan.
General	Renewal	38302	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall passively renew consumers in a dental plan.
General	Renewal	38303	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall allow consumers to actively (e.g. indicate through clicking a button) opt out of renewing in a dental plan.
General	Reports		
General	Reports	39131	Remove the Tier 2 Error, Physician Grouping by Taxonomy Classification Error (Code Y), from the Waterfall report
General	Reports	39132	Remove the Tier 2 Error, PCP specialty is not typically associated with PCPs (Code Y), from the Waterfall report
General	Reports	39133	LexisNexis Data Dictionary description of the supression_flag: "flag for records not to be sent on the file for the online directory". Plan Management requests the supression_flag be populated with a Y for any record that is suppressed from the online directory including but not limited to records with Tier 1 errors and records with visibility_flag=N.
General	Web Portal Online Help		

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
General	Web Portal Online Help	38330	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall display the full text of the "Type of Change" on the Application Signature for Reported Changes page as body text and not within a text field.
General	Web Portal Online Help	38331	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall display the before and after values for each "Type of Change" on the Application Signature for Reported Changes page.
General	Web Portal Online Help	38332	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall group the "Type of Change" rows by household member on the Application Signature for Reported Changes page.
General	Web Portal Online Help	38333	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall display additional instructions at the top of the Application Signature for Reported Changes page.
General	Web Portal Online Help	38334	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall display only applicable Reasons for each Type of Change on the Application Signature for Reported Changes page.
General	Web Portal Online Help	38335	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall display the Change Element for each Type of Change on the Application Signature for Reported Changes page.
Help Desk			
Help Desk	General Requirement		
Help Desk	General Requirement	44000	Prior to each Release, the Vendor shall provide training to all Help Desk personnel on the changes and alternative procedures associated with each release and documented in the release notes, webcast, and job aids.
Hosting			
Hosting	General Requirement		
Hosting	General Requirement	44829	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) data center locations shall meet physical security standards found in 508/504 Accessibility standards. http://www.access-board.gov/sec508/guide/index.html
Hosting	General Requirement	44833	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) data center locations shall meet physical security standards found in the NIST security standards: http://csrc.nist.gov/publications/PubsFIPS.html
Hosting	General Requirement	44836	The Vendor shall procure, install, configure, and operate Equipment and Software to the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Project and System. The Vendor may accommodate multiple Data centers in one location; except, for the backup Data center.
Hosting	General Requirement	45394	The Vendor shall procure, install, configure, and operate the System (i.e. Equipment, Software, Network, and database management System).
Hosting	Notices		
Hosting	Notices	43316	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall store the final MAGI notices of action file and notice metadata (including the Notice corresponding DER ID) provided by each of the SAWS, within the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) content management system.
Implementation/Change Management			
Implementation/Change Management	General Requirement		
Implementation/Change Management	General Requirement	38979	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall correct any connectivity issues identified during retest.
Implementation/Change Management	General Requirement	38983	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) team shall perform limited scope integration test (As mentioned in scope of services) with all existing carriers. Integration test shall ensure that carriers are able to accept, process and provide response to California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) transactions(including 834, TA1, 999)
Implementation/Change Management	General Requirement	43415	The Vendor shall provide post-Implementation Release support six month after its Implementation date.
Implementation/Change Management	General Requirement	43416	The Vendor shall collect and document all issues and concerns that the users encounter with the Release for six months after the Implementation date and report them in the Project tracking System.
Implementation/Change Management	General Requirement	43436	The Vendor must develop and deliver an implementation approach that takes into consideration California's size, geographical diversity and broad range of California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) users.
Implementation/Change Management	General Requirement	43437	The Vendor shall provide an Implementation methodology that ensures all users are trained, the proper Equipment and Software is in place, and that user support is ready and available.
Implementation/Change Management	General Requirement	43439	The Vendor shall develop, adhere to and complete an Implementation readiness checklist detailing all required activities and associated timelines and/or due dates.
Implementation/Change Management	General Requirement	43440	The Vendor shall document when and by which method the users (including supervisors and managers): A) Have received orientation and passed all appropriate training prior to Implementation; B) Demonstrate an understanding of the overall Implementation plan and the processes; C) Have reviewed and demonstrated an understanding of the Change Discussion Guides; and D) Have received training in the processes and procedures for communication and problem resolution during the Implementation support period.
Interfaces			
Interfaces	1095		
Interfaces	1095	48679	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall increase the IRS-destined transmission file size up to 95 mb uncompressed.

Category	Sub Category	Req ID	Requirement
Interfaces	1095	48681	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall enhance the Marketplace Policy Number to remove the last two digits of the Plan ID (CSR Level Code) for 1095 Process for the 2024 benefit year and future benefit years.
Interfaces	Appeal - SHOP		
Interfaces	Appeal - SHOP	45210	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send a common error code or unique identifier instead of an actual error id(HBX_MONITOR_ID) in the response message when eHIT transactions fails to process due to California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) internal error.
Interfaces	Assister Management		
Interfaces	Assister Management	46458	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement the change in the Enroller Portal to add the "Does entity serve the disabled?" field to the Initial Entity Application.
Interfaces	Assister Management	46459	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement the change in the Enroller Portal to add the "Disabilities Served" field to the Initial Entity Application.
Interfaces	Assister Management	46460	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement the change in the Enroller Portal to add the "Other Disabilities Served" field to the Initial Entity Application.
Interfaces	Assister Management	46461	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement a 15-character password length requirement when a new Enroller user is creating his/her new California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) credentials from Enroller Portal
Interfaces	Assister Management	46462	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement the password leak detection feature when an Enroller is creating his/her account and the Enroller should see also see the password leak detected modal on account creation when their password is identified as vulnerable.
Interfaces	Assister Management	46463	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the ability for Agent Admin to send Monetary and Non-Monetary Agreement to AM2
Interfaces	Case Management		
Interfaces	Case Management	38240	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall update the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS EHIT schema to version 6.0 to account for change request 46047, 40758, and 59947 changes in the aligned release.
Interfaces	Case Management	38755	The MEDS Message and Alert Search page contains an Advanced Search capability.
Interfaces	Case Management	38756	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to perform an advanced search without also requiring basic search criteria.
Interfaces	Case Management	38757	MEDS Message and Alert Advanced Search Criteria shall contain the following fields: MEDS Alert Date Range (From, To) * Transaction Type * Status * Message Category * Number * Aid Code * County Code
Interfaces	Case Management	38758	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall allow a maximum of 5 day window for Advanced Search date range.
Interfaces	Case Management	38933	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to electronically receive exception files from MEDS.
Interfaces	Case Management	39188	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS)-SAWS Interface shall expand the Primary Contact matching criteria to allow Last Name only changes without the matching bypass flag.
Interfaces	Case Management	43007	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide the functionality via California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Web Pages to present MEDS messages and alerts on MEDS Message and Alert Search and Detail Pages.
Interfaces	Case Management	43008	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display MEDS messages and alerts received through the MEDS batch alert file and via the MEDS web services response.
Interfaces	Case Management	43009	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display MEDS response messages and alert records of types: - Action (Batch) - Reject (Batch) - Error (Web Service) - Information (Web Service) - Warning (Batch and Web Service)
Interfaces	Case Management	43010	The MEDS Message and Alert Search page contains a Basic Search capability.
Interfaces	Case Management	43011	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display all MEDS Messages and Alerts that meet the basic search criteria entered up to 4 months.
Interfaces	Case Management	43012	MEDS Message and Alert Search Basic Criteria contains the following fields: * California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Case Number * CIN * MEDS ID / SSN * Message ID
Interfaces	Case Management	43013	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display MEDS messages and alert records up to 4 months from the MEDS message or alert generation date.
Interfaces	Case Management	43014	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow a user to select a status of Open, Deferred, In Progress, or Closed for each MEDS message or alert. Messages and alerts will initially default to a status of "Open" and a Status Date of the date MEDS message or alert was processed into California Healthcare Eligibility, Enrollment and Retention System (CalHEERS).
Interfaces	Case Management	43015	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display and track only the current record of status (no history) for each MEDS message or alert.

Category	Sub Category	Req ID	Requirement
Interfaces	Case Management	43016	MEDS Messages will be processed into this tool on a daily basis (7 days a week) and will be available for search/display the day after the messages are posted in California Healthcare Eligibility, Enrollment and Retention System (CalHEERS).
Interfaces	Case Management	43017	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow access to the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) MEDS Message and Alert pages to one new security group.
Interfaces	Case Management	45922	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add a new AdministrativeVerificationType of 'SEN' to be used to flag sensitive non-primary applicants received in EDR transactions.
Interfaces	Case Management	45923	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall identify a non-primary applicant's contact information as sensitive when California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) receives an EDR that includes an AdministrativeVerificationType of 'SEN' with an AdministrativeVerificationInd of 'Y' for the non-primary applicant.
Interfaces	Case Management	45924	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send an AdministrativeVerificationType of 'SEN' to SAWS in DER transactions when an AdministrativeVerificationType of 'SEN' is received in the EDR transaction that the DER is generated for.
Interfaces	Case Management	45925	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall ignore and not persist a sensitive indicator for the primary applicant if the sensitive indicator is received from SAWS.
Interfaces	Case Management	45926	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall no longer consider contact information as sensitive when California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) receives an EDR that either: 1. Includes an AdministrativeVerificationType of 'SEN' with an AdministrativeVerificationInd of 'N' for the non-primary applicant. 2. Does not include an AdministrativeVerificationType of 'SEN' for the non-primary applicant.
Interfaces	Case Management	45927	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add a new business validation to prevent Update Inbound transactions received from SAWS that include a sensitive non-primary applicant.
Interfaces	Case Management	45928	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall continue to identify a non-primary applicant's contact information as sensitive when a non-primary applicant is reactivated from California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Portal if the non-primary applicant was identified as sensitive when they were removed from the case.
Interfaces	Consumer Management		
Interfaces	Consumer Management	46605	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add a case origin data element to the Salesforce BPM interface that will be populated with "Mail", "Fax" or "California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Upload" based on the case origin of the document being sent to Salesforce.
Interfaces	Eligibility Determination		
Interfaces	Eligibility Determination	37910	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add business validation on click of the "Continue" button on the User Information page during the account creation process. California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall invoke a new validation based upon DOB and SSN. If a match is found, it will trigger the hard stop popup message. On click of the "Continue" button on the Contact Information page during the account creation process, if DOB and SSN match is not found California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall invoke a new validation based upon Name, DOB, and one of the following: Address, Phone Number, or Email; if a match is found then trigger a hard stop popup message. California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not invoke the validation rules on the "Continue" button on both the User Information and Contact Information pages if the Delegation Code has been provided.
Interfaces	Eligibility Determination	37911	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall enhance the Admin combo search type functionality to search phonetically and by DOB range of plus or minus two years.
Interfaces	Eligibility Determination	37912	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall disable the "Withdraw Application" link on the consumer's Home Page when an application has been submitted.
Interfaces	Eligibility Determination	37928	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall populate the discontinuance effective Start Date minus 1 day (to capture the true eligibility end date) on DE# 0150 of HX40 transaction when the individual is discontinued from APTC/CCP/CSR/MCAP/CCHIP programs.
Interfaces	Eligibility Determination	38064	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add the proper elements to the EHIT schema for sending and receiving the PRUCOL statuses between SAWS and California Healthcare Eligibility, Enrollment and Retention System (CalHEERS)
Interfaces	Eligibility Determination	38144	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall prevent gaps in eligibility and enrollment for APTC/CSR/CCP consumers who are enrolled in an IAP transition to MAGI Medi-Cal when Carry Forward begins in one year and the IAP Transition Month (month prior to the first Carry Forward month) begins in a prior year.
Interfaces	Eligibility Determination	38145	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide a Carry Forward flag in the SAWS eHIT interface at the member level for the following transition: APTC/CSR/CCP to MAGI M/C
Interfaces	Eligibility Determination	38147	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) eHIT Interface shall add a Carry Forward Lift Indicator at the individual level.
Interfaces	Eligibility Determination	38148	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall end "Carry Forward" for the individual once a Carry Forward Lift Indicator has been sent via EDR for that individual from SAWS and received and processed by California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) resulting in Eligible or Conditionally Eligible for MAGI Medi-Cal.
Interfaces	Eligibility Determination	38150	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall end Carry Forward for an individual when an EDR is sent from SAWS with or without a Carry Forward Lift Indicator and the redetermination of eligibility results in APTC/CSR/CCP, MCAP, or CCHIP.
Interfaces	Eligibility Determination	38165	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall keep a QDP (Dental) active when an APTC/CSR/CCP consumer becomes discontinued for APTC/CSR/CCP and transitions to another IAP.
Interfaces	Eligibility Determination	38168	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display MAGI Medi-Cal transition text on the Eligibility Results page when an APTC/CSR/CCP individual is determined "Pending" for the MAGI Medi-Cal program and is in a "Carry Forward" status.
Interfaces	Eligibility Determination	38274	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create new ROP eligibility evaluation reason codes to send to SAWS on DER transaction.
Interfaces	Eligibility Determination	38382	Upgrade the Rancho Internet Circuit from 100Mbps to 150Mbps
Interfaces	Eligibility Determination	38383	Upgrade the Fresno MPLS Circuit from 100Mbps to 150Mbps

Category	Sub Category	Req ID	Requirement
Interfaces	Eligibility Determination	38384	Upgrade the Fresno Internet Circuit from 50Mbps to 150Mbps
Interfaces	Eligibility Determination	38439	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall send any/all MEDS transactions at the member level.
Interfaces	Eligibility Determination	38440	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall send transactions for members who have a CIN number assigned immediately upon triggering action.
Interfaces	Eligibility Determination	38441	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall send transactions for member who do not have a CIN number assigned only after a CIN has been assigned to the individual.
Interfaces	Eligibility Determination	38458	The following OPA budget worksheet elements shall be populated in the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS)-SAWS eHIT Interface for both MAGI and APTC: 1. MAGI: By person to whom income/deduction is assigned, by income/deduction type and by income source: a) MC - Non countable income. (Not currently on Budget display, not in CR 30049. Include source and amount as well) b) MC - Employment Income (Total is included in CR 30049, but need to expand to include source and amount provided for each employment income record entered) c) MC - Self-Employment Income (Total is included in CR 30049, but need to expand to include source and amount provided for each self-employment income record entered) d) MC - Other income (Total is included in CR 30049, but need to expand to include source and amount provided for each other income record entered) e) MC - Allowable deductions (Total is included in CR 30049, but need to expand to include source and amount provided for each allowable deduction entered) f) MC - Disallowed Deductions (Not on budget worksheet, need source and amount) g) MC – Countable Income (Total is included in CR 30049, but need to expand to include source and amount provided for each countable income record entered) (add PAI/CMI indicator to indicate which income is being used) h) Projected Monthly Income (total is included in CR 30049, need to expand to include individual amount) 2. APTC - a) APTC -Total Income after Deduction Monthly (Needed for mixed household notices) b) APTC -Total Income after Deduction Annual (Needed for mixed household notices) c) APTC - Federal Poverty Level (Needed for mixed household notices) d) APTC - Federal Poverty Level % for Individual (Needed for mixed household notices) e) APTC - Eligible for (Needed for mixed household notices) f) APTC - Monthly APTC Amount (Needed for mixed household notices) g) APTC - Annual APTC Amount (Needed for mixed household notices) 3. UPW Income Disregard.
Interfaces	Eligibility Determination	38459	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall pass OPA elements outlined in BR#1 via the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS)-SAWS eHIT Interface for both MAGI and APTC at the household and individual level in the Determination node of the eHIT schema.
Interfaces	Eligibility Determination	38460	CALHEERS shall update the Portal Budget Summary Page to include new elements added in BR1 for MAGI Medi-Cal Only and add source, entity name and amount details if applicable. a) MC - Total Non countable income and details b) MC - Current Monthly Income details c) MC - Allowable deductions details d) MC – Total Countable Income details (add PAI/CMI indicator to indicate which income is being used and amount details)
Interfaces	Eligibility Determination	38461	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS)-SAWS eHIT interface shall add “PA” as an income category and send PAI amounts for each individual when available.
Interfaces	Eligibility Determination	38780	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall create new ROP eligibility evaluation reason codes for income to send to SAWS on DER transaction.
Interfaces	Eligibility Determination	39327	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall receive the DDS disabled indicator from the SAWS via the eHIT interface.
Interfaces	Eligibility Determination	39431	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to accept Non-Compliance reason(s) from SAWS via eHIT.
Interfaces	Eligibility Determination	39432	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) eHIT interface definition shall be updated to transmit zero, one or multiple Non-Compliance reason(s) at the individual level.
Interfaces	Eligibility Determination	39683	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow on the EDR from SAWS, individuals who attest to a tax filing status of Married Filing Jointly, to optionally include on the application the other individual with whom they are Married Filing Jointly.
Interfaces	Eligibility Determination	39689	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send the tax filing status association of Married Filing Jointly on the DER to SAWS.
Interfaces	Eligibility Determination	39705	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall send the Salesforce system consumer's demographic information of in-flight applications during Intake
Interfaces	Eligibility Determination	39706	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall send Username for all applicants under selected household's inflight or submitted application to Salesforce.
Interfaces	Eligibility Determination	39707	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall send Preferred Written and Spoken Language for the household members for submitted and in-flight applications
Interfaces	Eligibility Determination	39708	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall send the date of expiration for 'consent to verify' to Salesforce
Interfaces	Eligibility Determination	39709	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall send the Preferred Method of Contact to Salesforce
Interfaces	Eligibility Determination	39712	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall receive the tax filing status association of Married Filing Jointly on the EDR from SAWS.

Category	Sub Category	Req ID	Requirement
Interfaces	Eligibility Determination	39713	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall invoke a Business Validation, when the Married Filing Jointly association is received in an EDR as self or with a person who is not on the case.
Interfaces	Eligibility Determination	39716	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send on the DER to SAWS, an out-of-country indicator for individuals who are residing out-of-country.
Interfaces	Eligibility Determination	39717	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall receive on the EDR from SAWS, an out-of-country indicator for individuals who are residing out-of-country.
Interfaces	Eligibility Determination	39718	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not require a residence address on the EDR if the out-of-country indicator is sent for an individual. California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use the out-of-country indicator in case both out-of-country indicator and the residence address is received on EDR from SAWS. California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall ignore Residence/Mailing address for individual(s) when out-of-country indicator is set to 'Y' on EDR/EDR-C.
Interfaces	Eligibility Determination	39719	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send primary contact's residence/ mailing address to MEDS as the residence/ mailing address for individuals who attest to residing out-of-country.
Interfaces	Eligibility Determination	39720	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall suppress the following business validations when an EDR is received with an out-of-country indicator as 'Y' for an individual: BV#30 - Missing information in address node BV#31 - Missing Required Field in Address Node BV#33 - Missing address info node for applying member BV#35 - Missing Physical Address 1 BV#36 - Missing Mailing Address 1 BV#37 - Address 1 Required When Address Node Present BV# 38 - Address 1 Field Does Not Adhere to Guidelines BV# 39 -Invalid Address 2 Format BV#40 - Missing High Dated Physical Address BV#128 - Expected FIPS Code BV#147 - Physical Address for Preferred Mode of Communication
Interfaces	Eligibility Determination	39721	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall suppress BV# 128 for FIPSCountyCode for an out-of-state address received in EDR from SAWS.
Interfaces	Eligibility Determination	39722	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not send Residence/Mailing address for individual(s) who reside out-of-country on a DER/DER-U to SAWS.
Interfaces	Eligibility Determination	39723	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send County Code '99' to MEDS for each non-California residence address for all HX transactions.
Interfaces	Eligibility Determination	39724	If the Primary Contact's address is out side of California, California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use the following criteria for County of Responsibility (COR) assignment: 1. If non-primary household members on the case have address(s) in California, then the county of the first non-primary household member added to the case will be used as COR for DER/DER-U and any MEDS transactions. 2. If all household members are out of state, COR that will be used to send any MEDS transactions will be 99.
Interfaces	Eligibility Determination	39725	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not send the FIPSCountyCode on the DER/DER-U for an out of state address.
Interfaces	Eligibility Determination	39729	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send an EERC to SAWS when an individual has been determined ineligible/discontinued due to residing out-of-state and out-of-country.
Interfaces	Eligibility Determination	39731	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall turn off the following business validations to allow out-of-state addresses to be received in EDR from SAWS and allow self attestation of Married Filing Jointly association from SAWS: BV#32 - Resident Address Other than California BV#27 - Current Year Tax Filing Status BV# 175 - Current Year Tax Filing Status Spouse
Interfaces	Eligibility Determination	39732	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall run eligibility and a DER / DER-U will be sent by California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) to SAWS, as applicable, if there are any changes to the Out of Country Address Indicator for any person from California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) access channel.
Interfaces	Eligibility Determination	39733	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall run eligibility and a DER / DER-U will be sent by California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) to SAWS, as applicable, if there are any changes to the Tax Filing Status association for any person from California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) access channel.
Interfaces	Eligibility Determination	39734	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall run eligibility and a DER / DER-U will be sent by California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) to SAWS, as applicable, if there is any change to the 'State' data element of an address for a person from California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) access channel
Interfaces	Eligibility Determination	39769	For authenticateIVRUser endpoint, California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide five different response codes to the Covered California IVR system when authenticating users.
Interfaces	Eligibility Determination	39770	For authenticateIVRUser endpoint, California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send a response to the IVR to indicate that the caller is not authenticated as no cases were found.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Interfaces	Eligibility Determination	39771	For authenticateIVRUser endpoint, California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send a response to the IVR to indicate that the consumer is authenticated with only one active case number.
Interfaces	Eligibility Determination	39772	For authenticateIVRUser endpoint, California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send a response to the IVR to indicate that the consumer is authenticated with multiple active cases for a maximum of 4 cases.
Interfaces	Eligibility Determination	39773	For authenticateIVRUser endpoint, California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send a response to the IVR to indicate that more than 4 active cases were found.
Interfaces	Eligibility Determination	39774	For authenticateIVRUser endpoint, California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send a response to the IVR to indicate that the caller is authenticated with only inactive cases found.
Interfaces	Eligibility Determination	39775	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send a response to the IVR with case data for upto 4 active cases.
Interfaces	Eligibility Determination	39776	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send the case number(s) for all active case(s) upto 4 active cases.
Interfaces	Eligibility Determination	39795	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send the entire SSN as part of the response to IVR system.
Interfaces	Eligibility Determination	39796	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send the INDV_ID as part of the response to the IVR system.
Interfaces	Eligibility Determination	39797	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall expose the GI Get API to IVR to fetch the enrollment data.
Interfaces	Eligibility Determination	39798	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) OAG shall authenticate IVR request for GI Get API and return GI REST response without any California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) application intervention.
Interfaces	Eligibility Determination	39799	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall accept the entire SSN as part of the request from IVR system and shall use the entire SSN for preparing the response to IVR system.
Interfaces	Eligibility Determination	39800	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall convert the existing IVR implementation from SOAP to REST.
Interfaces	Eligibility Determination	39801	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall convert authenticateIVRUser service from SOAP to REST.
Interfaces	Eligibility Determination	39802	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall convert updateUserConsent service from SOAP to REST.
Interfaces	Eligibility Determination	39803	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add new validation error message for request parameters of updateUserConsent.
Interfaces	Eligibility Determination	39851	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall set the exchange informational flag to "No" when there is a change to case data, MAGI Medi-Cal, MCAP, CCHIP, Non-MAGI referral, or a person is soft paused/carry forward; Otherwise the flag will be set to "Yes".
Interfaces	Eligibility Determination	40143	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send via eHIT an Eligibility Evaluation Reason Code (EERC) when an individual is ineligible to MAGI Medi-Cal programs due to being enrolled in APTC/CSR/State Subsidy for the benefit month(s) requested.
Interfaces	Eligibility Determination	40144	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the CX EERC code to only be output when SAWS is requesting a prior period that is within a person's Carry Forward transition period and up to 3 Retro months prior to the transition month.
Interfaces	Eligibility Determination	40197	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to consume Aid Codes authorized by SAWS when eligibility on the Disposition differs from California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) results
Interfaces	Eligibility Determination	40209	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to consume override reason from SAWS when Medi-Cal eligibility on the Disposition differs from California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) results.
Interfaces	Eligibility Determination	40210	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to consume an Aid Code, Program Status, Begin Date, and End Date from SAWS when eligibility on the Disposition differs from California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) results.
Interfaces	Eligibility Determination	40245	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to trigger business rules engine when the Medi-Cal Aid Code authorized by SAWS differs from that provided by California Healthcare Eligibility, Enrollment and Retention System (CalHEERS).
Interfaces	Eligibility Determination	40252	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to suppress unsolicited DER that was generated from consuming disposition and re-evaluating eligibility.
Interfaces	Eligibility Determination	40254	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to clear MEDS MEC cache after disposition from SAWS is received with a Non-MAGI Medi-Cal MEC Aid Code.
Interfaces	Eligibility Determination	40255	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to update the MEC aid codes 5L, 8L, 0G and 0H in the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) MEC tables based on BRF01.14 - Reference and Appendix, Section C MEC Aid Code Table.
Interfaces	Eligibility Determination	40322	SIR 156776: California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall populate the county code based on the zip code provided for mailing address, if county code is not received in an EDR from SAWS, based on the county code to zip code mapping maintained in California Healthcare Eligibility, Enrollment and Retention System (CalHEERS).
Interfaces	Eligibility Determination	40323	SIR 121340: California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not send an HX05 transaction to MEDS for members that are newly added to an application during a RAC/Renewal where COR is changed.
Interfaces	Eligibility Determination	40394	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send an Eligibility Evaluation Reason Code of "MAGI Medi-Cal: Awaiting Review" (RV) on the DER/DER-U when Eligibility Review is required by SAWS.
Interfaces	Eligibility Determination	40395	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send a DER-U with "Exchange Info Update Ind" defaulted to "Yes" when confirmation for MAGI Medi-Cal discontinuance is received from SAWS.
Interfaces	Eligibility Determination	40456	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the schema used for Fraud Archive Reporting Service (FARS) from H66.1 to H140.
Interfaces	Eligibility Determination	40457	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to receive 'RF3' for FinalDecisionCode element in FARS response and initiate downstream impact to application flow.
Interfaces	Eligibility Determination	40458	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the schema used for Remote Identity Proofing (RIDP) from H1.1 to H139.
Interfaces	Eligibility Determination	40459	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the FARS mock service to implement 'RF3' for FinalDecisionCode element

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Interfaces	Eligibility Determination	40460	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update Mock Services to translate a testing for SSN when the service is live for which the SSN passed is considered invalid.
Interfaces	Eligibility Determination	40665	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall set VLP No Call Reason Code to "02" when the following criteria is met: individual has attested to not being "Lawfully Present" and the immigration status is either not "Lawfully Present" or "Document or Status Not Listed" or "Null".
Interfaces	Eligibility Determination	40666	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send a VLP No Call Reason Code 02 on the DER/DER-U for individuals who meet the criteria for VLP No Call Reason Code 02.
Interfaces	Eligibility Determination	40667	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the VLP No Call Reason Code 02 messaging on the "Personal Verifications" section of the "Manual Verifications" Page for the individuals who meet the criteria for VLP No Call Reason Code 02.
Interfaces	Eligibility Determination	40717	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send Citizen/Alien Indicator (DE #2009) value as '4' to MEDS for individuals: 1. If VLP returns COA codes of FSM, MIS, or PAL (COA Codes for the Immigration status of : "Citizen of Micronesia, the Marshall Islands, or Palau") 2. If VLP does not return a COA Code and the individual attest to the Immigration status of : "Citizen of Micronesia, the Marshall Islands, or Palau"
Interfaces	Eligibility Determination	40718	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update MEDS Schema for DE # 2009 and add code '4' to be sent to MEDS.
Interfaces	Eligibility Determination	40719	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send the Citizen/Alien Indicator (DE #2009) value as '4' to MEDS on HX18, HX20 (all ESAC), HX12, HX34 and RX20 transactions if applicable.
Interfaces	Eligibility Determination	40785	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall support all California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) related changes and support required for C-IV to migrate to the CalSAWS System.
Interfaces	Eligibility Determination	40792	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the reference tables for CIV to LRS migration.
Interfaces	Eligibility Determination	40793	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the reference table containing FIPS county code.
Interfaces	Eligibility Determination	40794	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the reference table containing consortia code.
Interfaces	Eligibility Determination	40795	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall modify EDR/ EDR-C/ CancelDER/ DER processing logic to support C-IV to LRS migration.
Interfaces	Eligibility Determination	40796	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement the configurable logic to turn on/ off code changes related to C-IV to CalSAWS migration to support R21.9 and CalSAWS migration go-live.
Interfaces	Eligibility Determination	40828	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send an Eligibility Evaluation Reason Code of "Consumer Reapplied from the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Portal, Negative Action has been lifted" (RA) on the DER-U when Negative Action is lifted at reapplication from the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Portal.
Interfaces	Eligibility Determination	40829	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send an Eligibility Evaluation Reason Code of "Consumer Reapplied from the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Portal, Non-Compliance has been lifted" (RC) on the DER-U when Non-Compliance is lifted at reapplication from the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Portal.
Interfaces	Eligibility Determination	40836	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send the HX18 transaction to MEDS for consumers that do not have active eligibility who are reapplying through the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Portal.
Interfaces	Eligibility Determination	40837	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send the HX20 ESAC-1 transaction to MEDS for consumers that do not have active eligibility who are reapplying through the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Portal if they are determined Eligible or Conditionally Eligible for MAGI Medi-Cal.
Interfaces	Eligibility Determination	40839	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update eHIT to include Negative Action and/or Non-Compliance in the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS)-SAWS eHIT Interface within a budget section for both MAGI Medi-Cal and APTC
Interfaces	Eligibility Determination	40840	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall remove the suppression logic for the HX18 transaction to MEDS for Accelerated Enrollment aid code 8E.
Interfaces	Eligibility Determination	40848	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide SAWS the capability to search California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) for existing California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) case information using search parameters via a new endpoint separate from eHIT.
Interfaces	Eligibility Determination	40849	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement a new Search Request transaction from SAWS to California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) that shall send parameters that California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use to search for existing California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) cases in California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) according to one of the following search types: - California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Case ID - California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Application ID - SSN or ATIN or ITIN - SCIN - FN and LN (Soundex match) and DOB - FN and LN (Soundex match) and DOB and CIN or SSN or ATIN or ITIN - SAWS Case Number and FIPS County Code
Interfaces	Eligibility Determination	40850	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add a search type indicator to the new Search Request transaction for SAWS to notify California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) of which search type should be used for the transaction.
Interfaces	Eligibility Determination	40851	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall search for a California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) case with an exact match to the parameters provided in a Search Request for the following search types: - California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Case ID - California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Application ID

Category	Sub Category	Req ID	Requirement
Interfaces	Eligibility Determination	40852	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall search for an individual with an exact match to the parameters provided in a Search Request for the following search types: - SSN or ATIN or ITIN - SCIN
Interfaces	Eligibility Determination	40853	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall search for an individual with a phonetic match to First Name and Last Name parameters, and an exact match to other parameters provided in a Search Request for the following search types: - FN and LN and DOB (Soundex match) - FN and LN and DOB and CIN or SSN or ATIN or ITIN (Soundex match)
Interfaces	Eligibility Determination	40854	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement a new Search Response transaction from California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) to SAWS that shall send the following information for every individual that is on a California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) case that matches to the search parameters provided in the Search Request: - Individual First Name - Individual Last Name - Date of Birth - SSN/ATIN/ITIN - California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Case ID - California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Application ID - SCIN - California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Case Status - California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Application Status - Actively Linked SAWS Case Number - Actively Linked SAWS Case County - Last Associated SAWS Case Number - Last Associated SAWS Case County - Latest COR - Latest Eligibility Statuses for Medi-Cal Programs - Latest Eligibility Statuses for Covered CA Programs - Actively Enrolled in Plan Indicator - Account Created Indicator - Primary Contact Indicator - Person Status Indicator - California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Case Person Number - SAWS Case Person Number
Interfaces	Eligibility Determination	40855	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall search for a California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) case that is either actively linked to the SAWS case corresponding to the SAWS Case Number and FIPS County Code provided in the Search Request, or a California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) case where the last associated case linkage is to the SAWS case corresponding to the SAWS Case Number and FIPS County Code provided in the Search Request.
Interfaces	Eligibility Determination	40856	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to support a REST based implementation for CalSAWS and SOAP based implementation for CalWIN for the new Search Transaction.
Interfaces	Eligibility Determination	40857	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall log the Search transaction Request / Response message information in a new transaction table in the database.
Interfaces	Eligibility Determination	40858	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send either up to 20 California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) cases in the Search Response or no results and an error message informing SAWS that the maximum threshold was reached if more than 20 California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) cases were found to match the search parameters provided in the Search Request.
Interfaces	Eligibility Determination	40859	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall timeout the Search Response if no response is generated within 30 seconds of receiving the Search Request and send a error response with the corresponding timeout error code and message.
Interfaces	Eligibility Determination	40863	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the CancelDER transaction to add new functionality to allow SAWS to change the COR for an active California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) case.
Interfaces	Eligibility Determination	40864	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add a new cancel reason code to the CancelDER schema that shall be used to indicate that a CancelDER transaction is being used to update the COR for an active California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) case.
Interfaces	Eligibility Determination	40865	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the DER ID field in the CancelDER schema to be an optional field when the CancelDER is being sent to update COR for a California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) case.
Interfaces	Eligibility Determination	40866	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add a new Update COR field to the CancelDER schema that shall be populated with the FIPS county code of the county the COR is being updated to when the CancelDER is used to update COR.
Interfaces	Eligibility Determination	40867	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update BV 169 to accept a new cancel reason code that shall be used to indicate that a CancelDER is being used to update the COR for a California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) case.
Interfaces	Eligibility Determination	40868	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update BV 164 and 165 to be suppressed when a CancelDER is being used to update the COR for a California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) case based on the cancel reason code provided.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Interfaces	Eligibility Determination	40869	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update BV 164 to be triggered when California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) receives a CancelDER with no DER ID when the cancel reason code provided is one of the following: - 01 – Application opened in error - 04 – Duplicate case
Interfaces	Eligibility Determination	40870	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update BV 178 to be triggered when California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) receives a CancelDER to update the COR for an inactive California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) case.
Interfaces	Eligibility Determination	40871	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the COR for a California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) case using the information provided on a CancelDER when the cancel reason code is 'Update COR' and redetermine eligibility using the updated COR to send a DER-U to the updated COR.
Interfaces	Eligibility Determination	40872	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the COR Reassignment Enablement batch to delink a California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) case from its linked SAWS case when the COR is released.
Interfaces	Eligibility Determination	40873	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall perform a one time data fix to end date SAWS case linkage for all California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) cases where the COR has been enabled to be reassigned.
Interfaces	Eligibility Determination	40874	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the EDR transaction to provide SAWS the functionality to override case linkage outside of the current ICT process.
Interfaces	Eligibility Determination	40875	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add a case linkage override indicator to the EDR schema for SAWS to indicate that the existing case linkage for a case should be updated to the case linkage provided in the EDR.
Interfaces	Eligibility Determination	40876	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add a new BV 194 that will trigger if either the SAWS case or California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) case provided in the EDR for a case linkage override have ongoing or pending Medi-Cal eligibility in a different county than the associated California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) case.
Interfaces	Eligibility Determination	40877	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update BVs 9, 15, and 86 to be suppressed when California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) receives an EDR with a case linkage override flag.
Interfaces	Eligibility Determination	40878	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add logic to BV 7 to trigger the BV when California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) receives an EDR with no California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) case info and a case linkage override flag.
Interfaces	Eligibility Determination	40879	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall turn off BV 139 so it is no longer triggered when California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) receives an EDR linking a California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) case with no prior case linkage or referral to a SAWS case.
Interfaces	Eligibility Determination	40880	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall suppress the newly added BV 194 when the EDR provided includes a California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) case that has ongoing or pending Medi-Cal eligibility (including eligibility that is under review) and both a case linkage override flag and an ICT flag sent as 'Y'.
Interfaces	Eligibility Determination	40881	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall process an EDR when both the case linkage override flag and ICT flag are set as 'Y' by updating case linkage based on the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) and SAWS case information sent in the EDR as long as the SAWS case sent in the EDR is currently associated to a different California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) case with no ongoing or pending Medi-Cal eligibility (including eligibility that is under review).
Interfaces	Eligibility Determination	40882	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to inactivate an individual from a case from SAWS access channel or update the SAWS Person Number.
Interfaces	Eligibility Determination	40883	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall only be able to inactivate an individual from a case if they have no ongoing or pending eligibility (including any eligibility that is under review) to both Medi-Cal and Covered California programs.
Interfaces	Eligibility Determination	40884	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add a new field 'Update SAWS Person Association' to the eHIT schema for an EDR transaction for SAWS to indicate that the SAWS Person Number for an individual on a case is being updated.
Interfaces	Eligibility Determination	40885	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update BV 19 to validate that all active individuals with ongoing or pending eligibility (including any eligibility that is under review) on a case are received for an EDR being processed for the current month or a future month.
Interfaces	Eligibility Determination	40886	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the SAWS Case Person Numbers for any person on the case where an 'Update SAWS Person Association' flag has been provided as 'Y' using the SAWS Case Person Number provided in the EDR.
Interfaces	Eligibility Determination	40887	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add a business validation that will trigger if the SAWS Case Person Numbers updated on a case using the 'Update SAWS Person Association' flag results in active members that do not have unique valid SAWS Case Person Numbers.
Interfaces	Eligibility Determination	40888	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add a business validation that will trigger if the 'Update SAWS Person Association' flag is set as 'Y' when no California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Case Person Number is provided for the person.
Interfaces	Eligibility Determination	40889	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update BV 77 to be suppressed for a person with an 'Update SAWS Person Association' flag set as 'Y'.
Interfaces	Eligibility Determination	40890	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall process Dispositions that include an inactive member by bypassing all BVs for inactive California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Case Person Numbers and the inactive member included in the Disposition shall not be reactivated when California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) processes the Disposition.
Interfaces	Eligibility Determination	40891	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add functionality to reactivate an inactive individual on a case from SAWS access channel when the inactive individual has no prior person linkage (no existing SAWS Case Person Number)
Interfaces	Eligibility Determination	40892	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add an "Eligibility Date" field to the Search Request that shall provide the current or future date that shall be used to determine which time period eligibility statuses should be provided for in the Search Response.
Interfaces	Eligibility Determination	40898	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send the language codes "W" for Hindi and "X" for Punjabi to MEDS when selected as a preferred spoken and/or written language on the following transactions where preferred spoken or written language is a data element: HX12, HX18, HX20 ESAC-1, HX34, and RX20
Interfaces	Eligibility Determination	40899	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send and receive the Punjabi and Hindi languages when selected for either spoken or written language preferences to SAWS in the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS)-SAWS eHIT Interface
Interfaces	Eligibility Determination	40922	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update mock services to mock COA codes MIS, PAL, and FSM being returned from VLP.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

OTSI CalHEERS RFP #73040873 Addendum 1
October 31, 2025

Category	Sub Category	Req ID	Requirement
Interfaces	Eligibility Determination	40936	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send the new Source(s) to SAWS in a DER/DER-U via eHIT.
Interfaces	Eligibility Determination	40984	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add new eHIT language codes for Punjabi and Hindi languages.
Interfaces	Eligibility Determination	40986	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send “eng” in the RIDP – Initial Request for a written language preference of Punjabi or Hindi
Interfaces	Eligibility Determination	41123	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement code changes to support splitting of eHIT transactions.
Interfaces	Eligibility Determination	41124	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide testing support and other resources required for SAWS to facilitate PHE automation as required by DHCS.
Interfaces	Eligibility Determination	41323	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the COR Reassignment Enablement Batch to stage and process cases that are Non MAGI Medi-Cal eligible only with no open referrals.
Interfaces	Eligibility Determination	41324	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement a new BV to be triggered when the SAWS case provided in an EDR is actively linked to multiple California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) cases.
Interfaces	Eligibility Determination	41471	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall support all California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) related changes required for CalWIN to migrate to the CalSAWS System for Placer, Contra Costa, and Yolo Counties.
Interfaces	Eligibility Determination	42899	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS eHIT interface for California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Outbound #7 SFTP Document transfer shall execute a bundling and zip process, known as Zip of Zip.
Interfaces	Eligibility Determination	42900	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS eHIT interface for California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Outbound #7 SFTP Document transfer shall execute two patterns for the Zip of Zip process, inner zip encryption or outer zip encryption.
Interfaces	Eligibility Determination	42901	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall prepare the Outbound #7 SFTP for the Zip of Zip process for C-IV as inner zip encrypted and outer zip bundle.
Interfaces	Eligibility Determination	42902	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall prepare the Outbound #7 SFTP for the Zip of Zip process for CalWIN as inner zip encrypted and outer zip bundle.
Interfaces	Eligibility Determination	42903	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall prepare the Outbound #7 SFTP for the Zip of Zip process for LEADER as outer zip encrypted and outer zip bundle.
Interfaces	Eligibility Determination	43215	"California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall reinstate inactive individuals to the prior California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Case Person Number, when received in Eligibility Determination Request (EDR), when the following occurs: 1. California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Case Number and California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Person Number match; OR 2. SAWS Case Number and SAWS Person Number match when California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Case Number and California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Person Number are missing from the EDR"
Interfaces	Eligibility Determination	43222	The Contractor shall provide support for the testing of the EDD Income Verification Service.
Interfaces	Eligibility Determination	43269	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall have the ability to send the 0D aid code to MEDS on initial transaction (ESAC-1) HX20
Interfaces	Eligibility Determination	43270	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall have the ability to update demographic information on the HX12 transaction for MCAP consumers
Interfaces	Eligibility Determination	43271	the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall have the ability to discontinue aid code 0D in MEDS for MCAP program on the HX40 transaction
Interfaces	Eligibility Determination	43272	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall have the ability to send an application transaction HX18 to MEDS for MCAP program determination
Interfaces	Eligibility Determination	43280	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS eHIT interface shall send MCAP eligibility status through the APTC eligibility status code when the consumer is found Eligible or Pending Eligible for the MCAP program.
Interfaces	Eligibility Determination	43335	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall have the ability to discontinue aid code 2C in MEDS for CCHIP program on the HX40 transaction.
Interfaces	Eligibility Determination	43366	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall have the ability to update demographic information on the HX12 transaction for CCHIP consumers.
Interfaces	Eligibility Determination	43367	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall have the ability to send HX20 (ESAC-2) for eligibility updates for CCHIP consumers.
Interfaces	Eligibility Determination	43369	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall have the ability to send the 2C aid code to MEDS on initial transaction HX20 (ESAC-1).
Interfaces	Eligibility Determination	43379	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall send the CCHIP aid code via the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) MEDS Interface on the HX20, HX12 and HX40 transactions.
Interfaces	Eligibility Determination	44851	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS eHIT interface shall include the Administrative Verification for Former Foster Youth applicants.
Interfaces	Eligibility Determination	44852	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS eHIT interface shall include the following elements in the eHIT Schema: - Document Category of "TBD" - Document Types within Document Category of TBD of: a) California Verification Documents b) Out of State Verification Documents c) American Indian or Alaska Native Tribal Verification Documents
Interfaces	Eligibility Determination	44853	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS eHIT interface shall include the CaretakerRelationship element in the PersonDemographicInfo node.
Interfaces	Eligibility Determination	44854	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS eHIT interface shall add the new element to the schema for "Foster Care Person Location" and the element values listing all "US States", "US Territories", "District of Columbia", "I don't know", and "An American Indian or Alaska Native Tribe".
Interfaces	Eligibility Determination	44855	"The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS eHIT interface shall include the following: - new program status for CCHIP - CCHIP start and end date - CCHIP renewal date - CCHIP contingent end date (verifications)"

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Interfaces	Eligibility Determination	44856	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS eHIT Interface shall include the MAGI Income.
Interfaces	Eligibility Determination	44857	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS eHIT Interface shall include the MAGI Income Limit.
Interfaces	Eligibility Determination	44858	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS eHIT Interface shall remove the NaturalCitizenInd element.
Interfaces	Eligibility Determination	44859	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS eHIT Interface shall update the Image Document Type Table code H3 to Non-MAGI NOA for Batch Document Transfer #7
Interfaces	Eligibility Determination	44860	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS eHIT Interface shall update the Image Document Type Codes Table to include MAGI/Mixed MAGI NOA for Batch Document Transfer #7
Interfaces	Eligibility Determination	44973	For the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) MEDS Interface, the HX18 Create Application and HX20 Create Eligibility services shall populate the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Primary Applicant residence County Code for all case members in the provided for County of Responsibility field per service.
Interfaces	Eligibility Determination	45086	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS eHIT Interface for eligibility determination request companion (EDR-C) processing shall provide sequential processing of a unique county/case identifier to mitigate the concurrency issue.
Interfaces	Eligibility Determination	45109	The Contractor shall validate the connectivity between the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) test environment and the EDD Pre-Production Test environment to ensure testing can proceed.
Interfaces	Eligibility Determination	45110	The Contractor shall conduct system testing of the EDD Income Verification Service using test scenarios shared with the EDD testing team.
Interfaces	Eligibility Determination	45111	The Contractor shall conduct performance testing of the EDD Income Verification Service using test scenarios shared with the EDD testing team.
Interfaces	Eligibility Determination	45240	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall support CalACES in the TM05 environment from 9/28/18 through 11/14/18 in validating the results associated with EDRs with Rescind reason code processing.
Interfaces	Eligibility Determination	45241	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall support CalACES with time shifting activities and back end validations.
Interfaces	Eligibility Determination	45788	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall support all California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) related changes and support required for Santa Clara, Tulare and Contra Costa counties to migrate from CalWIN to CalSAWS System.
Interfaces	Eligibility Determination	45868	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall establish RJ74 connectivity service with CMS.
Interfaces	Eligibility Determination	45869	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement new 3scale policies and CMS OAuth token for RJ74 service.
Interfaces	Eligibility Determination	45870	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement new Fuse application for RJ74 service.
Interfaces	Eligibility Determination	45871	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement token refresh in CMS RJ74 service calls.
Interfaces	Eligibility Determination	45872	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update VCI service from a SOAP Based service (H138) to a REST (JSON) based service (RJ138), based on schema from CMS.
Interfaces	Eligibility Determination	45873	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall enforce schema validations as provided in the BSD as provided by CMS for the JSON VCI Service.
Interfaces	Eligibility Determination	45874	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not populate an empty optional tags for the request parameters to avoid schema transmission rejections.
Interfaces	Eligibility Determination	45875	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall utilize the LW_VCI component to invoke the REST service in place of SOAP calls.
Interfaces	Eligibility Determination	45876	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the VIED to incorporate the VCI request and response for real-time REST API.
Interfaces	Eligibility Determination	45877	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update VCI Fuse(Migrated OSB service) service.
Interfaces	Eligibility Determination	45878	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall transmit data to CMS via the REST API Channel using a TLS 1.2-encrypted endpoint.
Interfaces	Eligibility Determination	45879	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the 3Scale/Fuse policies to host the Context Path and process VCI Payload (RJ138) Service.
Interfaces	Eligibility Determination	45880	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement OAuth token based authentication with CMS for VCI (RJ138) service.
Interfaces	Eligibility Determination	45881	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall remove the leading and trailing spaces from Request input parameters for VCI (RJ138) Service.
Interfaces	Eligibility Determination	45882	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall replace the First, Middle, Last Name containing only the following unallowable special characters (~!@#%^(*)_+=[\] ';:/?.,) with Unknown so the record does not error out.
Interfaces	Eligibility Determination	45883	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall strip and concatenate any unallowable special characters to CMS/VCI for all the Name Fields (FN, MN, LN).
Interfaces	Eligibility Determination	45884	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create the new Mock Services to simulate responses from the REST based VCI service in order to support testing.
Interfaces	Eligibility Determination	45893	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the SSA Composite Service from a SOAP Based service (H3) to a REST (JSON) based service (RJ3), based on schema from CMS.
Interfaces	Eligibility Determination	45894	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall enforce schema validations as provided in the BSD as provided by CMS for the JSON SSA Service.
Interfaces	Eligibility Determination	45895	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not populate an empty optional tags for the request parameters to avoid schema transmission rejections.
Interfaces	Eligibility Determination	45896	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall utilize the LW_SSA component to invoke the REST service in place of SOAP calls.
Interfaces	Eligibility Determination	45897	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the VIED to incorporate the SSA request and response for real-time REST API.
Interfaces	Eligibility Determination	45898	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update SSA Fuse(Migrated OSB service) service.
Interfaces	Eligibility Determination	45899	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall transmit data to CMS via the REST API Channel using a TLS 1.2-encrypted endpoint.
Interfaces	Eligibility Determination	45902	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall normalize SSA request and response received from CMS in HBX Database.
Interfaces	Eligibility Determination	45903	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall remove the leading and trailing spaces from Request input parameters for SSA (RJ3) Service.
Interfaces	Eligibility Determination	45904	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall replace the First, Middle, Last Name containing only the following unallowable special characters (~!@#%^(*)_+=[\] ';:/?.,) with "Unknown" so the record does not error out.

Category	Sub Category	Req ID	Requirement
Interfaces	Eligibility Determination	45905	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall strip and concatenate any unallowable special characters to CMS/SSA for all the Name Fields (FN, MN, LN).
Interfaces	Eligibility Determination	45906	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create the new Mock Services to simulate responses from the REST based SSA service in order to support testing.
Interfaces	Eligibility Determination	45941	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall replace the First, Middle, Last Name of names that contain exclusively special characters (^~!@#\$\$%^*()_ +-=[]{}<&\ '";:/?>,.) with "Unknown" so the record does not error out for PVC Batches.
Interfaces	Eligibility Determination	45942	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not send any special characters (^~!@#\$\$%^*()_ +-=[]{}<&\ '";:/?>,.) to CMS for all the Name Fields (FN, MN, LN) for Medicare PVC Payload.
Interfaces	Eligibility Determination	45948	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall exclude the individuals with an active or expired Medicare ROP date for the current benefit year from the automated PVC process for Medicare.
Interfaces	Eligibility Determination	45949	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall exclude the individuals with an active or expired Deceased ROP date for the current benefit year from the automated PVC process for Deceased.
Interfaces	Eligibility Determination	46096	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall support all California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) related changes and support required for San Diego, San Mateo, Santa Cruz and Solano counties to migrate from CalWIN to CalSAWS System.
Interfaces	Eligibility Determination	46122	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall support all California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) related changes and support required for Sacramento, San Luis Obispo and San Francisco counties to migrate from CalWIN to CalSAWS System.
Interfaces	Eligibility Determination	46328	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate a generic case note for the automated process that occurs after the Medicare and Deceased Verification Expiration date for the household members who have not responded.
Interfaces	Eligibility Determination	46329	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall exclude cases from the Periodic Verification process for Medicare, if the case has an Inactive case status or if the case has at least one individual that meets the following criteria: - In carry forward status; or - In QHP hold
Interfaces	Eligibility Determination	46330	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have an automated process at the end of Medicare Verification Expiration date if the responses have not been provided for any household members: - Remove the Periodic Verification flag - Update the verification status to "Pending" to match the PVC response - Use the Medicare response to discontinue eligibility to exchange subsidy programs (APTC/CAPS) - Use the Medicare response to discontinue eligibility to financial based baseline Cost Sharing Reduction program for non AI/AN CSR. - Use the Medicare response to discontinue a financial based baseline Cost Sharing Reduction from X5/CS02 and transition to X6/CS03 Aid code for AI/AN CSR less than or equal to 300% FPL. - Suppress Non MAGI referrals for cases
Interfaces	Eligibility Determination	46331	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall exclude cases from the Periodic Verification (PVC) process for deceased, if the case has an Inactive case status or if the case has at least one individual meets the following criteria: - In carry forward status; or - In QHP hold
Interfaces	Eligibility Determination	46332	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have an automated process at the end of the Deceased Verification Expiration date if the responses have not been provided for any household members: - Remove the Periodic Verification flag - Update the verification status to "Pending" to match the PVC response - Use the Deceased response to discontinue eligibility to all exchange programs (CCP/APTC/CAPS/CSR)
Interfaces	Eligibility Determination	46337	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall continue to send Other outstanding program referrals (CalFresh, CalWORKS and Medi-Cal) from prior system generated DER-U until program referral disposition is received from SAWS.
Interfaces	Eligibility Determination	46338	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add the Spanish translation for field 'Same as home address' in Review Application - Household Address section
Interfaces	Eligibility Determination	46339	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall relax the schema validations for RRV Inbound Batch for all the four services (IRS, SSA, VCI and Medicare) to process the Manifest Response file received from CMS.
Interfaces	Eligibility Determination	46340	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall remove schema validations from RRV Inbound Batch context file.
Interfaces	Eligibility Determination	46341	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement validation logic to validate Manifest response file received from CMS.
Interfaces	Eligibility Determination	46342	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement RRV processing logic to process the Manifest Response file received from CMS.
Interfaces	Eligibility Determination	46358	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the Schema Validation issue for the response code HE007000 when received from CMS/SSA at the Individual Level on the Personal Verification Page in the Error Code(s) column.
Interfaces	Eligibility Determination	46378	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update IFSV service from a SOAP Based service (H09) to a REST (JSON) based service (RJ09), based on schema from CMS.
Interfaces	Eligibility Determination	46379	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall enforce schema validations as provided in the BSD as provided by CMS for the JSON IFSV (RJ09) Service.
Interfaces	Eligibility Determination	46380	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not populate an empty optional tags for the (RJ09) IFSV request parameters to avoid schema transmission rejections.
Interfaces	Eligibility Determination	46381	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update IFSV(RJ09) Fuse(Migrated OSB service) service.
Interfaces	Eligibility Determination	46385	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall remove the leading and trailing spaces from Request input parameters for IFSV (RJ09) Service.

Category	Sub Category	Req ID	Requirement
Interfaces	Eligibility Determination	46386	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall strip and concatenate any unallowable special characters(`~!@#%^(*)_+ -=[]{}<&\\ '";:/?>,.) to CMS for all the Name Fields (FN, MN, LN, Suffix) for IFSV (RJ09) Service.
Interfaces	Eligibility Determination	46387	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall replace the First, Middle, Last Name containing only the following unallowable special characters (`~!@#%^(*)_+ -=[]{}<&\\ '";:/?>,.) with "Unknown" so the record does not error out for IFSV (RJ09) Service.
Interfaces	Eligibility Determination	46388	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall normalize IFSV(RJ09) request and response received from CMS in HBX Database.
Interfaces	Eligibility Determination	46389	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create the new Mock Services to simulate responses from the REST based IFSV service (RJ09) in order to support testing.
Interfaces	Eligibility Determination	46390	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) will update the mock rules for all income source scenarios to replace the response codes HX000000 to HE020004.
Interfaces	Eligibility Determination	46392	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update ESI service from a SOAP Based service (H14) to a REST (JSON) based service (RJ14), based on schema from CMS.
Interfaces	Eligibility Determination	46393	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall enforce schema validations as provided in the BSD as provided by CMS for the JSON ESI (RJ14) Service.
Interfaces	Eligibility Determination	46394	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not populate an empty optional tags for the ESI (RJ14) request parameters to avoid schema transmission rejections.
Interfaces	Eligibility Determination	46395	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update ESI (RJ14) Fuse(Migrated OSB service) service.
Interfaces	Eligibility Determination	46399	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall remove the leading and trailing spaces from Request input parameters for ESI (RJ14) Service.
Interfaces	Eligibility Determination	46400	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall strip and concatenate any unallowable special characters (`~!@#%^(*)_+ -=[]{}<&\\ '";:/?>,.) to CMS for all the Name Fields (FN, MN, LN, Suffix) for ESI (RJ14) Service.
Interfaces	Eligibility Determination	46401	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall replace the First, Middle, Last Name containing only the following unallowable special characters (`~!@#%^(*)_+ -=[]{}<&\\ '";:/?>,.) with "Unknown" so the record does not error out for ESI (RJ14) Service.
Interfaces	Eligibility Determination	46402	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall normalize ESI (RJ14) request and response received from CMS in HBX Database.
Interfaces	Eligibility Determination	46403	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create the new Mock Services to simulate responses from the REST based ESI (RJ14) service in order to support testing.
Interfaces	Eligibility Determination	46404	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall perform Integration performance testing for (RJ14) ESI service.
Interfaces	Eligibility Determination	46405	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update Non-ESI service from a SOAP Based service (H31) to a REST (JSON) based service (RJ31), based on schema from CMS.
Interfaces	Eligibility Determination	46406	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall enforce schema validations as provided in the BSD as provided by CMS for the JSON Non-ESI (RJ31) Service.
Interfaces	Eligibility Determination	46407	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not populate an empty optional tags for the request parameters to avoid schema transmission rejections for Non-ESI (RJ31) Service.
Interfaces	Eligibility Determination	46408	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update Non-ESI (RJ31) Fuse(Migrated OSB service) service.
Interfaces	Eligibility Determination	46412	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall remove the leading and trailing spaces from Request input parameters for Non-ESI (RJ31) Service.
Interfaces	Eligibility Determination	46413	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall strip and concatenate any unallowable special characters (`~!@#%^(*)_+ -=[]{}<&\\ '";:/?>,.) to CMS for all the Name Fields (FN, MN, LN, Suffix) for ESI (RJ14) Service.
Interfaces	Eligibility Determination	46414	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall replace the First, Middle, Last Name containing only the following unallowable special characters (`~!@#%^(*)_+ -=[]{}<&\\ '";:/?>,.) with "Unknown" so the record does not error out for Non-ESI (RJ31) Service.
Interfaces	Eligibility Determination	46415	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall normalize Non-ESI (RJ31) request and response received from CMS in HBX Database.
Interfaces	Eligibility Determination	46416	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create the new Mock Services to simulate responses from the REST based Non-ESI service (RJ31) in order to support testing.
Interfaces	Eligibility Determination	46417	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create new mock rules for HE007000 response code for (RJ31) Non-ESI service.
Interfaces	Eligibility Determination	46418	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall perform Integration performance testing for (RJ31) Non-ESI service.
Interfaces	Eligibility Determination	46419	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall deprecate the following Error Response Code, their interpretations on the personal verification screen and their mock rules for IFSV Service as they are deprecated at CMS end. HX021000, HX021001, HX021101, HX021102, HX021103, HX021104, HX021108,HX021110, HX021109, HX021111, HX023000, HX023001, HX005000
Interfaces	Eligibility Determination	46421	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall deprecate the following Error Response Code, their interpretations on the personal verification screen and their mock rules for ESI Service as they are deprecated at CMS end. HE090001, HE090002, HE090003, HE090004, HE090005, HE090006, HE090007,HX005001, HE090008, HE090009, HE090010, HE090011, HE090012, HE090013, HE090014, HE090015, HE090016, HE090019, HE090020.
Interfaces	Eligibility Determination	46422	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall deprecate the following Error Response Code, their interpretations on the personal verification screen and their mock rules for NESI Service as they are deprecated at CMS end. HE060001, HE060002, HE060003, HE060004, HE060005, HE060006, HE060007, HE060009, HE060010, HE060011, HE060012, HE060013, HE060014, HE060015, HE060016, HE060017, HE060018, HE060019, HE060020
Interfaces	Eligibility Determination	46423	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the following Error Response Code and their interpretations on the personal verification screen for NESI Service. HE009999, HX005001, HX009000, HE000002, HE000100, HE040001, HE040002, HE040003, HE040004, HE040006, HE040007, HE040008, HE040009, HE040010, HE070006, HE080001, HE080002, HX070001, HX070002, HX070003, HX080001, HX080002, HX080003, HX080004
Interfaces	Eligibility Determination	46661	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add mock services for MEC MEDS where individual has MEC for MAGI Medi-Cal benefits

Category	Sub Category	Req ID	Requirement
Interfaces	Eligibility Determination	46662	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add a mock service where individual has MEC MEDS for MAGI Medi-Cal (MEC as Y) with a future start date (Current +1 month)
Interfaces	Eligibility Determination	46663	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add a mock service where individual has MEC MEDS for MAGI Medi-Cal (MEC as Y) with a future future start date (Current +2 month)
Interfaces	Eligibility Determination	46664	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add a mock service where individual has MEC MEDS for MAGI Medi-Cal (MEC as Y) with benefit end date as current month and the individual has no benefits from future month
Interfaces	Eligibility Determination	46728	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the Verify Lawful Presence Service Suite (VLP: Step 1, Step 2, Step 3, Close Case, Retrieve Step 2 and Step 3, Get Case Details and Get Country of Issuance) from a SOAP Based service to a REST "RX142" based service, based on schema provided from CMS.
Interfaces	Eligibility Determination	46729	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall enforce schema validations as provided in the BSD as provided by CMS for the REST XML(RX142) VLP Service.
Interfaces	Eligibility Determination	46730	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not populate empty optional tags for VLP (RX142) request parameters to avoid schema transmission rejections.
Interfaces	Eligibility Determination	46734	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall deprecate Step 1a and 1b as CMS deprecated the service in September of 2019.
Interfaces	Eligibility Determination	46735	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall block invalid Alien Numbers with the following patterns: xxx123456, 123456xxx, xx123456x, x123456xx from being sent to CMS.
Interfaces	Eligibility Determination	46736	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the No call run reason (01) to include the Invalid Alien Patterns that shall be blocked from being sent to CMS.
Interfaces	Eligibility Determination	46737	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall persist the new COA codes in the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Database when received from VLP Service:
Interfaces	Eligibility Determination	46738	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall normalize the request sent to CMS and response when received from CMS for all the VLP suite service.
Interfaces	Eligibility Determination	46739	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall close the DHS case when the CMS request for additional documentation from the individual for the Agency Action ESC Code 13, 128, 328, or 386 with COA code PI is returned in Step 1.
Interfaces	Eligibility Determination	46740	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall Invoke or InitiateThirdVerif Web method for ESC code 39 received in Step 1.
Interfaces	Eligibility Determination	46741	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall obtain documentation from the individual prior and then Invoke or InitiateThirdVerif Web method for Major Code 015 or 026 in Step 2.
Interfaces	Eligibility Determination	46742	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall Invoke InitiateThirdVerif Web method and shall indicate the Applicant, Enrollee, or Beneficiary's Cuban/Haitian status and upload a document for status verification ESC Code 328 or 386 returned in Step 1 with following COAs: CC, CH, CP, DT, IN, ML, OP, PR and QNC or Five-Year Bar Indicators set to P.
Interfaces	Eligibility Determination	46743	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall close the DHS case when the CMS request for additional documentation from the individual for the Agency Action ESC Code 328 or 386 returned in Step 1 with following COA: CP and individual attests to Victim of Trafficking.
Interfaces	Eligibility Determination	46744	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall close the DHS case when the CMS request for additional documentation from the individual for the Agency Action ESC Code 385 returned in Step 1 and LPV indicator is set to P.
Interfaces	Eligibility Determination	46745	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall close the DHS case when the CMS request for additional documentation from the individual for the Agency Action ESC Code 368 returned in Step 1 and LPV or QNC indicator is set to P.
Interfaces	Eligibility Determination	46746	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall close the DHS case when the CMS request for additional documentation from the individual for the Agency Action ESC 370 returned in Step 1 and LPV or QNC indicator is set to P.
Interfaces	Eligibility Determination	46747	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall close the DHS case when the CMS request for additional documentation from the individual for the Agency Action ESC 377, 378, 379 in Step 1 and Five-Year Bar Met indicator set to P.
Interfaces	Eligibility Determination	46748	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall close the DHS case when the CMS request for additional documentation from the individual for the Agency Action ESC Code 250, 288, 381, 401, 402 at Step 1 and non-citizen country of birth (NonCitCountryBirthCd) or non-citizen country of citizenship (NonCitCountryCitCd) value is CUB or HITI, and paroled under 1 year, set QNC to P, or ESC Code 250, 288, 381, 401, 402 at Step 1 and non-citizen country of birth (NonCitCountryBirthCd) or non-citizen country of citizenship (NonCitCountryCitCd) value is CUB or HTI, and paroled for any time period set Five-Year Bar to P.
Interfaces	Eligibility Determination	46749	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall close the DHS case when the CMS request for additional documentation from the individual for the Agency Action ESC Code 250, 288, 381, 401, 402 at Step 1 and COA Code is UHP and non-citizen country of birth (NonCitCountryBirthCd) and non-citizen country of citizenship (NonCitCountryCitCd) are null, set Five-Year Bar to P.
Interfaces	Eligibility Determination	46750	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall close the DHS case when the CMS request for additional documentation from the individual for the Agency Action ESC 128, returned with COA Code T1, ST6 in Step 1, or Form I-766 Category Code A16 with ESC 10 and grant date is less than 5 years, Five-Year Bar indicator set to P.
Interfaces	Eligibility Determination	46751	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall Invoke or InitiateThirdVerif Web method for ESC 128 returned in Step 1 with COA Code T1 or ST6, or Form I-766 Category Code A16 with ESC 10, missing the grant date, and Five-Year Bar indicator set to P .
Interfaces	Eligibility Determination	46752	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall close the DHS case when the CMS request for additional documentation from the individual for the Agency Action Major code 07b or 07e with COA Code UHP in Step 2 or Step 3 and any indicator set to P.

Category	Sub Category	Req ID	Requirement
Interfaces		46753	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall deprecate the following logic: 1. California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall close the DHS case when the CMS request for additional documentation from the individual for the Agency Action ESC Code 10 with COA code PI is returned in Step 2. 2. California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall Invoke InitiateThirdVerif Web method and shall indicate the Applicant, Enrollee, or Beneficiary's Cuban/Haitian status and upload a document for status verification ESC Code 10 returned in Step 1 and Five-Year Bar Indicators set to P. 3. California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall Invoke InitiateThirdVerif Web method and shall indicate the Applicant, Enrollee, or Beneficiary's Cuban/Haitian status and upload a document for status verification ESC Code 10 returned in Step 1 with following COAs: CC, CH, CP, DT, IN, ML, OP, PR and QNC or Five-Year Bar Indicators set to P. 4. California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall close the DHS case when the CMS request for additional documentation from the individual for the Agency Action ESC Code 10 returned in Step 1 with following COA: CP and individual attests to Victim of Trafficking. 5. California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall close the DHS case when the CMS request for additional documentation from the individual for the Agency Action ESC 10 or 13 and grant date is less than 5 years, Five-Year Bar indicator set to P 6. California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall Invoke or InitiateThirdVerif Web method for ESC 10 or 13 returned in Step 1 with COA Code T1, ST6 missing the grant date, and Five-Year Bar indicator set to P
	Eligibility Determination		
Interfaces	Eligibility Determination	46754	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not implement the re-try logic for HE004000 and HE004001 response code when received from CMS.
Interfaces	Eligibility Determination	46755	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall map the response code HE004000 and HE004001 response code when received from CMS at the Individual Level on the Personal Verification Page in the Error Code(s) column.
Interfaces	Eligibility Determination	46756	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall remove the leading and trailing spaces from Request input parameters for VLP (RX142) Service.
Interfaces	Eligibility Determination	46757	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall replace the First, Middle, Last Name containing only the following unallowable special characters (^~!@#%\$%^*()_+ -=[]{}<&\ '";:/?>.,) with "Unknown" so the record does not error out for VLP Service (RX142) Suite
Interfaces	Eligibility Determination	46758	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall strip and concatenate any unallowable special characters to CMS/VLP for all the Name Fields (FN, MN, LN).
Interfaces	Eligibility Determination	46759	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create the new CMS Mock Services to simulate responses from the REST based VLP service in order to support testing.
Interfaces	Eligibility Determination	46760	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS)-SAWS VLP Outbound Notify Interface from a SOAP-Based service to a REST-Based service.
Interfaces	Eligibility Determination	46761	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS)-SAWS VLP Inbound Interface from a SOAP-Based service to a REST-Based service.
Interfaces	Eligibility Determination	46762	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall deprecate Step 1a and 1b from California Healthcare Eligibility, Enrollment and Retention System (CalHEERS)-SAWS VLP Interface as CMS deprecated the service in September of 2019.
Interfaces	Eligibility Determination	46768	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create the new Mock Services for California Healthcare Eligibility, Enrollment and Retention System (CalHEERS)-SAWS VLP Interface to simulate responses from the REST based service.
Interfaces	Eligibility Determination	46769	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall capture the name (First Name, Middle Name, Last Name, Suffix and Date of Birth) on the document when a consumer attests to being Naturalized or Derived citizen in the HBX Database.
Interfaces	Eligibility Determination	46770	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create fields on the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Portal to allow consumers attesting to being a Naturalized or Derived Citizen in the HBX Database.
Interfaces	Eligibility Determination	46771	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall call VLP with the Name on document or the case name, which ever is present.
Interfaces	Eligibility Determination	46772	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the I-94Number data type to include alphanumeric characters up to 11 characters.
Interfaces	Eligibility Determination	46773	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall close the DHS case when the CMS request for additional documentation from the individual for the Agency Action ESC Code 250, 288, 381, 401, or 402 is returned at Step 1 and individual attests to Victim of Trafficking, and paroled under 1 year set the QNC to P; or ESC Code 250, 288, 381, 401, 402 is returned at Step 1 and the individual attests to Victim of Trafficking and paroled for any time period, set Five-Year Bar to P.
Interfaces	Eligibility Determination	46919	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall exclude the individuals with an active or expired Medicare ROP date for the current benefit year from the automated PVC process for Medicare.
Interfaces	Eligibility Determination	46920	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall exclude the individuals with an active or expired Deceased ROP date for the current benefit year from the automated PVC process for Deceased.
Interfaces	Eligibility Determination	47057	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall support all California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) related changes and support required for San Diego, San Mateo, Santa Cruz and Solano counties to migrate from CalWIN to CalSAWS System.
Interfaces	Eligibility Determination	47582	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall support all California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) related changes and support required for Alameda, Fresno and Sonoma counties to migrate from CalWIN to CalSAWS System.
Interfaces	Eligibility Determination	47596	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update MEDS with new COA codes received from VLP.
Interfaces	Eligibility Determination	47597	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send DE2009 in the following Citizen/Alien Indicator MEDS Codes for the transaction types HX12, HX18, HX20 ESAC 1, HX20 ESAC 2, HX34, RX20 where applicable for the following COA codes when received from VLP.
Interfaces	Eligibility Determination	47598	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send DE2009 as code R for COA Codes CQ2, CQ3, SQ4, SQ5, CQ1, OAR, CHP, HHP.
Interfaces	Eligibility Determination	47599	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall close the DHS case for the Agency Action ESC Code 4 and COA Codes HHP, CHP, RCU, RHT returned in Step 1.
Interfaces	Eligibility Determination	47600	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall close the DHS case for the Agency Action ESC Code 250 and COA Codes HHP, CHP, RCU, RHT returned in Step 1.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

OTSI CalHEERS RFP #73040873 Addendum 1
October 31, 2025

Category	Sub Category	Req ID	Requirement
Interfaces	Eligibility Determination	47601	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall initiate Step 2 if indicators Qualified Non-Citizen or 5 Year Bar are set to P when ESC Code 250 or COA Codes HHP, CHP, RCU, or RHT are returned in Step 1.
Interfaces	Eligibility Determination	47602	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall close the DHS case for the Agency Action ESC Code 250 and COA Codes NHP, VHP returned in Step 1.
Interfaces	Eligibility Determination	47603	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall initiate Step 2 verifications if indicators Qualified Non-Citizen or 5 Year Bar are set to P when ESC Code 250 or COA Codes NHP or VHP are returned in Step 1.
Interfaces	Eligibility Determination	47604	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall close the DHS case for the Agency Action Major Code 07b and COA Codes CHP, HHP, RCU, RHT returned in Step 2.
Interfaces	Eligibility Determination	47605	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall close the DHS case for the Agency Action Major Code 07b and COA Codes CHP, HHP, RCU, RHT returned in Step 3 derived directly from Step 1.
Interfaces	Eligibility Determination	47606	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall close the DHS case for Agency Action Major Code 07b and COA Codes NHP, VHP in Step 2.
Interfaces	Eligibility Determination	47607	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall invoke InitiateThirdVerif Web Method for Agency Action Major Code 07b and COA Codes NHP, VHP in Step 2.
Interfaces	Eligibility Determination	47608	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall close the DHS case for the Agency Action Major Code 07e and COA Codes CHP, HHP, RCU, RHT returned in Step 2.
Interfaces	Eligibility Determination	47609	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall close the DHS case for the Agency Action Major Code 07e and COA Codes CHP, HHP, RCU, RHT returned in Step 3.
Interfaces	Eligibility Determination	47610	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall close the DHS case for the Agency Action Major Code 07e, and COA Codes NHP, VHP returned in Step 2.
Interfaces	Eligibility Determination	47611	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall invoke InitiateThirdVerif Web method for the Agency Action Major Code 07e and COA Codes NHP, VHP in Step 2.
Interfaces	Eligibility Determination	47612	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall close the DHS case for the Agency Action Major Code 07b and COA Codes NHP, VHP returned in Step 3.
Interfaces	Eligibility Determination	47613	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall close the DHS case for the Agency Action Major Code 07e and COA Codes NHP, VHP returned in Step 3.
Interfaces	Eligibility Determination	47614	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall mark a case as closed when HE010058 or HE010052 is returned.
Interfaces	Eligibility Determination	47615	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall review the Step request from SAWS or California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) portal and reject the step request if the step is not appropriate based on the agency action from prior step.
Interfaces	Eligibility Determination	47616	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send only the Required data elements to CMS when submitting Step 2 or Step 3.
Interfaces	Eligibility Determination	47617	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create new mock rules to simulate responses from the REST based VLP service for the new COA Codes (CHP, VHP, NHP, HHP, RCU, RHT) in order to support testing.
Interfaces	Eligibility Determination	47618	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall deprecate the following Error Response Code, their interpretations on the personal verification screen and their mock rules for VLP as they are deprecated at CMS end: HX010001, HX010002, HX010003, HX010004, HX010005, HX010006, HX010007, HX010008, HX010009, HE010001, HE010002, HE010003, HE010004, HE010005, HE010006, HE010007, HE010008, HE010009, HE010010, HE010011, HE010012, HE010013, HE010014, HE010015, HE010016, HE010017, HE010018, HE010019, HE010020, HE010021, HE010022, HE010023, HE010024, HE010025, HE010026, HE010027, HE010028, HE010029, HE010030, HE010031, HE010032, HE010033, HE010034, HE010035, HE010036, HE010037, HE010038, HE001033, HE001035, HE001043, HE001048, HE001054, HE001055, HE001057, HE001073, HE001096, HE001098, HE001100, HE001112, HE001114, HE001115, HE001122, HE001123, HE001125, HE001127, HE001166, HE001167, HE001173, HE001197, HE001200, HE001202, HE001203, HE001313, HE001314, HE003012, HE003018
Interfaces	Eligibility Determination	47619	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the following Error Response Code and their interpretations on the personal verification screen for VLP: HE001041, HE003011, HE010056
Interfaces	Eligibility Determination	47620	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the Get Country of Issuance batch to incrementally update the Country table instead of dropping the table and replacing it with the response, leaving existing Get Country of Issuance codes and adding new Get Country of Issuance codes when applicable.
Interfaces	Eligibility Determination	47621	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall close the DHS case when the CMS request for additional documentation from the individual for the Agency Action ESC Code 13, 128, 328, or 386 with COA code PI is returned in Step 1.
Interfaces	Eligibility Determination	47622	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall Invoke or InitiateThirdVerif Web method for ESC code 39 received in Step 1.
Interfaces	Eligibility Determination	47623	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall obtain documentation from the individual prior and then Invoke or InitiateThirdVerif Web method for Major Code 015 or 026 in Step 2.
Interfaces	Eligibility Determination	47624	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall Invoke InitiateThirdVerif Web method and shall indicate the Applicant, Enrollee, or Beneficiary's Cuban/Haitian status and upload a document for status verification ESC Code 328 or 386 returned in Step 1 with following COAs: CC, CH, CP, DT, IN, ML, OP, PR and QNC or Five-Year Bar Indicators set to P.
Interfaces	Eligibility Determination	47625	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall close the DHS case when the CMS request for additional documentation from the individual for the Agency Action ESC Code 328 or 386 returned in Step 1 with following COA: CP and individual attests to Victim of Trafficking.
Interfaces	Eligibility Determination	47626	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall close the DHS case when the CMS request for additional documentation from the individual for the Agency Action ESC Code 385 returned in Step 1 and LPV indicator is set to P.
Interfaces	Eligibility Determination	47627	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall close the DHS case when the CMS request for additional documentation from the individual for the Agency Action ESC Code 368 returned in Step 1 and LPV or QNC indicator is set to P.
Interfaces	Eligibility Determination	47628	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall close the DHS case when the CMS request for additional documentation from the individual for the Agency Action ESC 370 returned in Step 1 and LPV or QNC indicator is set to P.
Interfaces	Eligibility Determination	47629	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall close the DHS case when the CMS request for additional documentation from the individual for the Agency Action ESC 377, 378, 379 in Step 1 and Five-Year Bar Met indicator set to P.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Interfaces	Eligibility Determination	47630	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall close the DHS case when the CMS request for additional documentation from the individual for the Agency Action ESC Code 250, 288, 381, 401, or 402 is returned at Step 1 and individual attests to Victim of Trafficking, and paroled under 1 year set the QNC to P; or ESC Code 250, 288, 381, 401, 402 is returned at Step 1 and the individual attests to Victim of Trafficking and paroled for any time period, set Five-Year Bar to P.
Interfaces	Eligibility Determination	47631	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall invoke InitiateThirdVerif Web method when the CMS request for additional documentation from the individual for the Agency Action ESC Code 250, 288, 381, 401, 402 at Step 1 and non-citizen country of birth (NonCitCountryBirthCd) or non-citizen country of citizenship (NonCitCountryCitCd) value is CUB or HITI, and paroled under 1 year, set QNC to P, or ESC Code 250, 288, 381, 401, 402 at Step 1 and non-citizen country of birth (NonCitCountryBirthCd) or non-citizen country of citizenship (NonCitCountryCitCd) value is CUB or HTI, and paroled for any time period set Five-Year Bar to P.
Interfaces	Eligibility Determination	47632	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall close the DHS case when the CMS request for additional documentation from the individual for the Agency Action ESC Code 250, 288, 381, 401, 402 at Step 1 and COA Code is UHP and non-citizen country of birth (NonCitCountryBirthCd) and non-citizen country of citizenship (NonCitCountryCitCd) are null, set Five-Year Bar to P.
Interfaces	Eligibility Determination	47633	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall close the DHS case when the CMS request for additional documentation from the individual for the Agency Action ESC 128, returned with COA Code T1, ST6 in Step 1, or Form I-766 Category Code A16 with ESC 10 and grant date is less than 5 years, Five-Year Bar indicator set to P.
Interfaces	Eligibility Determination	47634	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall Invoke InitiateAdditionalVerif for ESC 128 returned in Step 1 method for ESC 128 returned in Step 1 with COA Code T1 or ST6, or Form I-766 Category Code A16 with ESC 10, missing the grant date, and Five-Year Bar indicator set to P.
Interfaces	Eligibility Determination	47635	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall close the DHS case when the CMS request for additional documentation from the individual for the Agency Action Major code 07b or 07e with COA Code UHP in Step 2 or Step 3 and any indicator set to P.
Interfaces	Eligibility Determination	47636	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall deprecate the following logic: 1. California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall close the DHS case when the CMS request for additional documentation from the individual for the Agency Action ESC Code 10 with COA code PI is returned in Step 2. 2. California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall Invoke InitiateThirdVerif Web method and shall indicate the Applicant, Enrollee, or Beneficiary's Cuban/Haitian status and upload a document for status verification ESC Code 10 returned in Step 1 and Five-Year Bar Indicators set to P. 3. California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall Invoke InitiateThirdVerif Web method and shall indicate the Applicant, Enrollee, or Beneficiary's Cuban/Haitian status and upload a document for status verification ESC Code 10 returned in Step 1 with following COAs: CC, CH, CP, DT, IN, ML, OP, PR and QNC or Five-Year Bar Indicators set to P. 4. California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall close the DHS case when the CMS request for additional documentation from the individual for the Agency Action ESC Code 10 returned in Step 1 with following COA: CP and individual attests to Victim of Trafficking. 5. California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall close the DHS case when the CMS request for additional documentation from the individual for the Agency Action ESC 10 or 13 and grant date is less than 5 years, Five-Year Bar indicator set to P 6. California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall Invoke or InitiateThirdVerif Web method for ESC 10 or 13 returned in Step 1 with COA Code T1, ST6 missing the grant date, and Five-Year Bar indicator set to P
Interfaces	Eligibility Determination	47637	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send the updated VLP ESC Code, VLP Agency Action Codes to SAWS when received from CMS.
Interfaces	Eligibility Determination	47638	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the mock rules for the Grant Date Logic to append the the tax years from 2020 to 2024
Interfaces	Eligibility Determination	47650	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add the overridden FPL and budget worksheet overridden FPL flag as data elements FPLFlagInd and OverriddenFPLValue to eHIT in DER/DER-U transactions when California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) overrides an FPL.
Interfaces	Eligibility Determination	47651	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create a DER type data element "DERTypeCode" to be sent in DER/DER-U transactions that will be used as a value to indicate whether the DER is a solicited, unsolicited, referral or referral-only type.
Interfaces	Eligibility Determination	47652	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add a new BV to check that the qualifying life event date received in an EDR is within (+/-) one year of the requested benefit year.
Interfaces	Eligibility Determination	47653	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Portal and eHIT to allow a consumer to indicate that they do not know their SSN at time of completing their application.
Interfaces	Eligibility Determination	47654	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the following California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Portal screens to make SSN an optional field when a user selects that the individual has an SSN: - Citizenship Info - Individual Information Review Form - Flexible Application - Household Members
Interfaces	Eligibility Determination	47655	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add a new code to the "ReasonForNoSSNCode" data element on eHIT that will be used to indicate if a consumer does not know their SSN in EDR/DER/DER-U transactions.
Interfaces	Eligibility Determination	47656	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add the following SSN validation to the SSN data element on eHIT to not allow invalid SSNs: •Numbers with all zeros in any digit group (000-##-####, ###-00-####, ###-##-0000) •Numbers with 666 or 900–999 (Individual Taxpayer Identification Number) in the first digit group •Repeat of the same number (111-11-1111, 222-22-2222, 333-33-3333, etc.)
Interfaces	Eligibility Determination	47657	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall initiate a SSN inconsistency for a consumer who has indicated they have an SSN but an SSN has not been provided.
Interfaces	Eligibility Determination	47658	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the Portal to not allow invalid SSNs in the following format: •Repeat of the same number (111-11-1111, 222-22-2222, 333-33-3333, etc.)
Interfaces	Eligibility Determination	47659	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update BV 197 to prevent invalid number formats of ZIP codes.
Interfaces	Eligibility Determination	47660	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update BV 197 in eHIT to not allow an all zero entry for the Zipcode data element.
Interfaces	Eligibility Determination	47661	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the maximum character length of the NoOfBabiesExpected data element on eHIT to 2.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Interfaces	Eligibility Determination	47662	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add a validation to the NoOfBabiesExpected data element to prevent SAWS from sending a value larger than 10.
Interfaces	Eligibility Determination	47663	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the Portal and eHIT to prevent invalid Special Characters in name and address fields.
Interfaces	Eligibility Determination	47664	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the Portal to not allow special character of Period (.) for the data elements Last Name, Middle Name, and First Name.
Interfaces	Eligibility Determination	47665	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update eHIT to only allow the special characters Hyphen (-), Apostrophe ('), Space () for the data elements Last Name, First Name, and Middle Name.
Interfaces	Eligibility Determination	47666	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the Portal to only allow a letter (a-z, A-Z) to be the first character of the data element Middle Name.
Interfaces	Eligibility Determination	47667	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add an eHIT validation to only allow a letter (a-z, A-Z) to be the first character of the Middle Name data element.
Interfaces	Eligibility Determination	47668	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update eHIT to only allow the characters of Letters (a-z, A-Z), Numbers, Period (.), Hyphen (-), Slash (/), Comma (,), Pound (#), Apostrophe ('), and Space () for the data elements related to Street Address.
Interfaces	Eligibility Determination	47669	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the Portal to not allow special character of Backwards Slash (\) for Street Address and Apartment or suite number fields and not allow Comma (,) to be entered as the first character of a field.
Interfaces	Eligibility Determination	47670	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall conduct a one-time data update to correct current invalid address data field entries.
Interfaces	Eligibility Determination	47671	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall conduct a one-time data update to correct current invalid name data field entries.
Interfaces	Eligibility Determination	47672	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update eHIT to only allow the characters of Letters (a-z, A-Z) and Spaces () for the data element of City.
Interfaces	Eligibility Determination	47673	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add logic to remove any commas received in address line 1 and address line 2 data elements in eHIT and replace them with a Space () before the values are stored in the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) database.
Interfaces	Eligibility Determination	47674	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add logic to remove any commas received in the "Street Address" or "Apt. or Suite Number" fields in Portal and replace them with a Space () before the values are stored in the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) database.
Interfaces	Eligibility Determination	47675	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not store phone numbers that are received from SAWS in the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) database if the phone number includes one of the following invalid formats. - Phone number begins with a 0 or 1 - Phone number is any length other than 10 - Phone number contains any non-numeric (0-9) characters
Interfaces	Eligibility Determination	47676	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall default a person's preferred contact method to email (if available) or mailing address (if email is not available) if the person's preferred contact method is phone and California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) received a phone number from SAWS in an invalid format.
Interfaces	Eligibility Determination	47677	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall perform a one-time data update to remove any phone numbers in the following formats from all consumers in California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) and update their preferred method of contact to email (if available) or mailing address (if email is not available): - Phone number begins with a 0 or 1 - Phone number is any length other than 10 - Phone number contains any non-numeric (0-9) characters - Phone number is null and phone number is the preferred contact method
Interfaces	Eligibility Determination	47678	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add a new validation to the phone number field on California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Portal to not allow phone numbers that begin with 1.
Interfaces	Eligibility Determination	47679	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall reactivate "ReasonForNoSSNCode" code of "01" (Child Under Age 1) and allow SAWS to send this reasoning code on EDR transactions.
Interfaces	Eligibility Determination	47680	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display a new SSN waiver reason of "Child Under Age 1" on California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Portal that is not selectable and only displayed when California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) receives a ReasonForNoSSNCode of 01 (Child Under Age 1) via EDR for the individual.
Interfaces	Eligibility Determination	47681	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall remove the "TitleXXIPremium" data element from the eHIT schema
Interfaces	Eligibility Determination	47751	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send uploaded verification documents for Medi-Cal and Mixed Household cases to SAWS.
Interfaces	Eligibility Determination	47752	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send uploaded verification documents to SAWS when a verification document is uploaded to California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) through the following methods: 1. User uploads of verification documents on the Documents & Correspondence page 2. User uploads of verification documents on the Upload Eligibility page 3. Verification documents that are received by mail/fax, which are scanned and uploaded to California Healthcare Eligibility, Enrollment and Retention System (CalHEERS)
Interfaces	Eligibility Determination	47753	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send uploaded verification documents to SAWS if the household includes at least one member that has an ongoing eligibility status of eligible/pending eligible/conditionally eligible to MAGI Medi-Cal at the time when files are sent to SAWS.

Category	Sub Category	Req ID	Requirement
Interfaces	Eligibility Determination	47754	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send documents that are classified as one of the following document types: Proof of Age Proof of American Indian/Alaska Native Status Proof of California Residency Proof of Citizenship Proof of Citizenship (Secondary, list 1) Proof of Immigration Status Proof of Citizenship (Secondary, list 2) Proof of Non-Incarceration Status Proof of Income Proof of Minimum Essential Coverage Proof of SSN Waiver Proof of Former Foster Youth Status Proof of Medicare Coverage Proof of Individual Verification Manual Verifications General Correspondence Deceased
Interfaces			California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have an error handling process to resend files to SAWS in case of errors.
Interfaces			California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send information corresponding to each file sent to SAWS to identify which California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) case the file is associated with and the verification type the file has been used for admin verification.
Interfaces			California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send the verification files to SAWS using the SAWS imaging verification API.
Interfaces			California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create mock services for the new process to send files from California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) to SAWS.
Interfaces			California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the value of a name or address data field to 'UNKNOWN' if the original value is only Space () or special characters that would be replaced with Space () (such as commas in address fields).
Interfaces			California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have an ability to turn ON/OFF the Verify Current Income (VCI) Income source.
Interfaces			California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have an ability to turn ON/OFF the Verify Current Income (VCI) real-time API.
Interfaces			California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have an ability to turn ON/OFF the VCI-RRV request file during the renewals when the VCI configuration switch is turned OFF.
Interfaces			
Interfaces			
Interfaces			California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall include case status in the Account Transfer when a case is closed as a duplicate
Interfaces			California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send the Punjabi and Hindi languages when selected for either spoken or written language preferences for consumers in the Household Search response transaction to Salesforce.
Interfaces			California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send and receive the Punjabi and Hindi languages when selected for spoken and/or written language preferences to GI in the following transactions: IND52 and Account Transfer.
Interfaces			California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send the Punjabi and Hindi languages in an EDI 834 transaction to the carrier, when selected for either spoken or written language preferences
Interfaces			California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the spoken language code for Cantonese from “cesm” to “yue” and the spoken and written language codes for Cambodian from "khmr" to "khm" in EDI 834 transactions
Interfaces	Enrollment	44520	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall configure the SEP Verification Interface to HCV system "Off".
Interfaces	Enrollment	45760	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the 1095 BSD to ignore the following errors as these records are being accepted by IRS: AIRBR235 -Monthly Premium Amount is zero (0.00) and Monthly Advance Payment of Premium Tax Credit is present AIRBR237 -Monthly Premium of Second Lowest Cost Silver Plan is zero (0.00) and Monthly Advance Payment of Premium Tax Credit is present AIRBR234 - Monthly Premium Amount is zero (0.00) in all rows for all months AIRTN500 - TIN Validation Failed
Interfaces			California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall perform CMS Focused Integration Testing for the tax year 2022.
Interfaces			California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall perform FTB Focused Integration Testing for the tax year 2022.
Interfaces			California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the logic to generate 1095/3895 forms/submissions on the basis of confirmation date(date the policy is effectuated/first payment is made) along with the existing enrollment status.
Interfaces			California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall populate the SLCSF amount on 1095/3895 form/submissions with the SLCSF that was used to determine combined household subsidy for all the enrolled members (irrespective of whether all members enroll together or custom group).
Interfaces			California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use the CA Premium Credit while calculating the SLCSF amount to be populated on 1095/3895 forms/submissions.
Interfaces			California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not include the spouse details in 1095/3895 tax forms/submissions when the Inactive Spouse has been removed.
Interfaces

Interfaces			

Category	Sub Category	Req ID	Requirement
Interfaces	Enrollment	46968	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the IRS-2000-DD-01 to ensure that no duplicate records are inserted in the HBX Tables for the same individuals.
Interfaces	Enrollment	46969	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall populate SLCSP amount in <SLCSPAdjMonthlyPremiumAmt> tag in <AssociatedPolicy> node for APTC Eligible individuals and in <SLCSPMonthlyPremiumAmt> tag in <InsurancePolicy> node for APTC Ineligible individuals in the monthly XML file to IRS.
Interfaces	Enrollment	46970	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall enhance the script that loops to process all of the 1095 file generations.
Interfaces	Enrollment	46971	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall perform CMS Focused Integration Testing for the tax year 2023.
Interfaces	Enrollment	46972	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall perform FTB Focused Integration Testing for the tax year 2023.
Interfaces	Enrollment	48258	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) MEDS Interface shall be updated to include health plan information for the consumer in the InquireMember transaction
Interfaces	Enrollment	48259	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update MEDS Inquire Member with new Medi-Cal/ MCAP/CCHIP plan information received
Interfaces	Enrollment	48260	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall persist new Medi-Cal/MCAP/CCHIP Plan information in the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Database when received in MEDS Inquire Member service.
Interfaces	Enrollment	48261	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create the new Mock Services to simulate responses with Medi-Cal/MCAP/CCHIP plan information from the MEDS Inquire Member service to support testing.
Interfaces	General Requirement		
Interfaces	General Requirement	38177	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall introduce and populate new data elements to the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS)-SAWS interface to support the IAP transition process and SAWS generated notices.
Interfaces	General Requirement	38218	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system will display an error message pop-up when a logged in user tries to access the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) site in a new tab on the same browser window to minimize multiple browsing issues.
Interfaces	General Requirement	38428	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall trigger HX05 transaction to convert existing cases where a county of responsibility change is required up through the implementation of this change request.
Interfaces	General Requirement	38466	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall transmit health care, income employer, Non-ESI verification data and hub responses codes and description for Medicare, Tricare, Veterans, and Peace Corps to the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) data warehouse.
Interfaces	General Requirement	38467	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS interface Other Health Care node will be modified to align with the portal changes introduced with this change.
Interfaces	General Requirement	38469	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS interface shall be updated with a new business validations to ensure conditional data elements within the Other Health Care node are send when the certain data within the Other Health Care node is sent.
Interfaces	General Requirement	38784	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send and receive a military service indicator to and from SAWS.

Category	Sub Category	Req ID	Requirement
Interfaces		38785	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall include all of the following updated and re-worded immigration statuses in a selectable drop down menu: 1) Lawful Permanent Resident (LPR/Green Card holder) 2) A non-citizen with an approved visa petition, who has a pending application for adjustment to LPR status 3) A non-citizen, without a visa petition, who has a pending application for adjustment to LPR Status, with Employment Authorization 4) A non-citizen who has a pending application for adjustment to LPR status, without Employment Authorization 5) Refugee 6) Asylee 7) Cuban/Haitian Entrant 8) Amerasian Immigrant 9) Granted withholding of deportation or removal 10) Granted a stay of deportation 11) Granted suspension of deportation whose departure USCIS does not contemplate enforcing 12) Conditional Entrant granted before 1980 13) Paroled into the United States for one year or more 14) Paroled into the United States for less than one year 15) Battered non-citizen, or parent or child of battered non-citizen 16) Granted Deferred Action (but not under Deferred Action for Childhood Arrivals - DACA) 17) Granted Deferred Action for Childhood Arrivals – (DACA) 18) Granted Order of Supervision, with Employment Authorization 19) Granted Order of Supervision, without Employment Authorization 20) An immigrant who entered and has continuously resided in the United States since before January 1, 1972, who would be eligible for an adjustment of status to lawful permanent resident (eligible as a Registry immigrant). 21) Registry applicant, with Employment Authorization 22) Pending application for Creation of Record of Lawful Admission for Permanent Residence, with Employment Authorization 23) Granted voluntary departure and awaiting issuance of a visa 24) A non-citizen on whose behalf an immediate relative petition (I-130) has been approved and who is entitled to voluntary departure 25) Granted withholding of removal under the Convention against Torture – CAT 26) Granted for a Victim of Trafficking visa (T visa), or spouse, child, sibling, or parent 27) Pending application for a Victim of Trafficking visa (T visa), or spouse, child, sibling, or parent 28) Taking steps to apply for a T visa or for certification by the Office of Refugee Resettlement 29) Granted U visa 30) Filed for a U visa 31) Granted Student Visa (e.g. F or M visa) 32) Granted Work Visa (e.g. H-1, L-1, O, P, R visa)
Interfaces	General Requirement	38786	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the eHIT schema to include all immigration statuses, including "Document or Status Not Listed".
Interfaces	General Requirement	38787	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the eHIT schema to include all documents from the document list.
Interfaces	General Requirement	38796	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall request Grant Date through VLP if sufficient document information is provided to make a VLP request and Grant Date is missing from previous cache for the following immigration statuses: - oLawful Permanent Resident (LPR/Green Card holder) - o Conditional Entrant granted before 1980 - o Paroled into the United States for one year or more - o Battered non-citizen, or parent or child of battered non-citizen

Category	Sub Category	Req ID	Requirement
Interfaces		38797	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the appropriate citizen/alien indicator to MEDS in accordance with DHCS mapping for the following immigration statuses: 1) Lawful Permanent Resident (LPR/Green Card holder) 2) A non-citizen with an approved visa petition, who has a pending application for adjustment to LPR status 3) A non-citizen, without a visa petition, who has a pending application for adjustment to LPR Status, with Employment Authorization 4) A non-citizen who has a pending application for adjustment to LPR status, without Employment Authorization 5) Refugee 6) Asylee 7) Cuban/Haitian Entrant 8) Amerasian Immigrant 9) Granted withholding of deportation or removal 10) Granted a stay of deportation 11) Granted suspension of deportation whose departure USCIS does not contemplate enforcing 12) Conditional Entrant granted before 1980 13) Paroled into the United States for one year or more 14) Paroled into the United States for less than one year 15) Battered non-citizen, or parent or child of battered non-citizen 16) Granted Deferred Action (but not under Deferred Action for Childhood Arrivals - DACA) 17) Granted Deferred Action for Childhood Arrivals – (DACA) 18) Granted Order of Supervision, with Employment Authorization 19) Granted Order of Supervision, without Employment Authorization 20) An immigrant who entered and has continuously resided in the United States since before January 1, 1972, who would be eligible for an adjustment of status to lawful permanent resident (eligible as a Registry immigrant). 21) Registry applicant, with Employment Authorization 22) Pending application for Creation of Record of Lawful Admission for Permanent Residence, with Employment Authorization 23) Granted voluntary departure and awaiting issuance of a visa 24) A non-citizen on whose behalf an immediate relative petition (I-130) has been approved and who is entitled to voluntary departure 25) Granted withholding of removal under the Convention against Torture – CAT 26) Granted for a Victim of Trafficking visa (T visa), or spouse, child, sibling, or parent 27) Pending application for a Victim of Trafficking visa (T visa), or spouse, child, sibling, or parent 28) Taking steps to apply for a T visa or for certification by the Office of Refugee Resettlement 29) Granted U non-immigrant visa 30) Filed for a U visa 31) Student Visa – Granted a student visa (e.g. F or M visa)
Interfaces	General Requirement	38798	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add an Administrative Verification labeled "Immigration Category Verification" to eHIT
Interfaces	General Requirement	38799	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add an Administrative Verification labeled ""PRUCOL Last Category"" to eHIT.
Interfaces		38800	In order to ensure that immigrants may attest to their immigration status without providing a document at the time of application, the following fields must be made optional throughout the portal: • Alien Number / USCIS Number • I 94 Number • Passport Number • SEVIS ID • Naturalization Number • Citizenship Number • Receipt Number • Doc Expiration Date • Doc Desc Required • Country of Issuance.
Interfaces	General Requirement	38808	In order to ensure that immigrants may attest to their immigration status without providing a document at the time of application, the "Document Type" field must be made optional in the eHIT schema
Interfaces	General Requirement	38809	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide the VLP Response, when available, to SAWS via EHIT.
Interfaces	General Requirement	38810	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send to SAWS an individuals immigration status and corresponding verification information via eHIT transactions.
Interfaces		38811	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall remove the current messaging above the immigration status and document type dropdown menus on the Household Members page and replace it with the following text: Please select your current immigration document and status. We can process your application faster if you enter your immigration document information now. If you cannot provide that information now, you will have the chance to provide it at a later date.
	General Requirement		

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

OTSI CalHEERS RFP #73040873 Addendum 1
October 31, 2025

Category	Sub Category	Req ID	Requirement
Interfaces	General Requirement	38812	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall log the reason for making or not making a VLP call based, at a minimum, on the following criteria: 1. Availability of minimum data required for a VLP HUB call 2. SAWS Administrative Verification 3. Cached Administrative Verification 4. Need for Grant Date 5. Is the immigration status on the VLP Hub call exclusion list 6. Document Type value is 'Document or Status Not Listed'
Interfaces	General Requirement	38813	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall auto populate the VLP with leading zeroes when less than 9 characters are entered on the Alien Number/USCIS Number on the Household Members page.
Interfaces	General Requirement	38814	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide sample read-only greyed-out text preview samples in the input boxes for the card number and receipt field on the Household Member Page corresponding to the VLP service specification. Note: Patterns moved to Design Considerations
Interfaces	General Requirement	38815	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update "First Name on the Document" to "First Name/Given Name on the Document" field label on the Household Members page.
Interfaces	General Requirement	38816	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update "Last Name on the document" to "Last Name/Surname on the document" field label on the Household Members page.
Interfaces	General Requirement	38817	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall remove the ""Are you a Qualified Non Citizen"" radio button from the Household Member Page.
Interfaces	General Requirement	38818	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS Interface shall removed the Qualified Non-Citizen indicator from the EHIT EDR transaction.
Interfaces	General Requirement	38819	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall separate the following document ""Cuban/Haitian Entrant, Document indicating withholding of removal"" into two separate documents in the Portal document type dropdown menu: ? Document indicating Cuban/Haitian Entrant ? Document indicating withholding of removal
Interfaces	General Requirement	38825	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS Interface shall separate the existing document ""Cuban/Haitian Entrant, Document Indicating Withholding of Removal"" into two separate documents: -Document indicating Cuban/Haitian Entrant -Document indicating withholding of removal
Interfaces	General Requirement	38826	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall make the complete text (wrap text if needed) available for each document type and immigration status
Interfaces	General Requirement	38827	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS Interface shall modify current business validations to account for EDRs providing the Eligible Immigrant indicator or the immigration statuses from the immigration status drop-down menu
Interfaces	General Requirement	38828	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not request verification through the VLP interface for the following immigration statuses even if a Document is provided with sufficient information to make a call to VLP: 1) A non-citizen who has a pending application for adjustment to LPR status, without Employment Authorization 2) Granted Order of Supervision, without Employment Authorization 3) An immigrant who entered and has continuously resided in the United States since before January 1, 1972, who would be eligible for an adjustment of status to lawful permanent resident (eligible as a Registry immigrant). 4) Granted voluntary departure and awaiting issuance of a visa 5) A non-citizen on whose behalf an immediate relative petition (I-130) has been approved and who is entitled to voluntary departure 6) Taking steps to apply for a T visa or for certification by the Office of Refugee Resettlement 7) Filed for a U visa
Interfaces	General Requirement	38829	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add Grant Date to the eHIT schema.
Interfaces	General Requirement	38830	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall display the following message on the Eligibility Results page to consumers who are eligible or conditionally eligible for restricted-scope Medi-Cal and also eligible or conditionally eligible for APTC/CSR with household income less than or equal to 138%FPL: You may qualify for limited Medi-Cal coverage. You also qualify for full health care coverage in a Covered California plan with financial assistance. If you would like to buy a Covered California plan, click on the "Choose Your Health Plan" button.
Interfaces	General Requirement	39115	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall conduct coordinated volume-metric performance testing of eHIT for all SAWS consortia's (C-IV, CalWIN, LRS) for R18.2.
Interfaces	General Requirement	39116	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall support eHIT related post implementation activities and support California Healthcare Eligibility, Enrollment and Retention System (CalHEERS)/SAWS Deep dive sessions for all SAWS consortia's (C-IV, CalWIN, LRS) post R 18.2.
Interfaces	General Requirement	39190	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add messaging to the Eligibility Results page when the new Eligibility Evaluation Reasons are produced for MAGI Medi-Cal individuals who are determined Ineligible or Discontinued because of one or more assigned administrative verifications.
Interfaces	General Requirement	39191	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS interface shall send the new Eligibility Evaluation Reasons when California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) determines the MAGI Medi-Cal individuals Ineligible or Discontinued because of one or more assigned administrative verifications.

Category	Sub Category	Req ID	Requirement
Interfaces	General Requirement	39193	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System will be updated to rename the following LTNA Negative Action Reasons code descriptions : - "Written Withdrawal" to "Requested Withdrawal" - "Requested Disc. - Written" to "Requested Disc."
Interfaces	General Requirement	39197	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS)-SAWS Interface shall send Eligibility Evaluation Reason code to SAWS for Parent/Caretaker Relative individuals with FPL greater than 114% up to and including 138% who are discontinued/ineligible for MAGI Medi-Cal because a dependent child who lives in the home does not have minimum essential coverage (MEC).
Interfaces	General Requirement	39199	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall only send numeric values to the Federal Hub for Alien Number.
Interfaces	General Requirement	39202	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Verify Lawful Presence interface for Green Card - I-551 documents shall make requests to FDSH VLP as an "I-551 Document" or "Other Document with Alien Number" based on the Receipt or Card Number provided.
Interfaces	General Requirement	39225	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall only recall the SSA Composite service when the SSN changes.
Interfaces	General Requirement	39226	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall only recall the IRS, FTB and EDD interface when the income amount and SSN is changed.
Interfaces	General Requirement	39227	A VLP call will be made if there is any change in any of the following document information: - Alien Number - Card Number - Document Expiration Date - I94 Number - Citizenship Number - Naturalization Number - Passport Number - Country of Issuance - SEVIS ID - Visa Number.
Interfaces	General Requirement	39230	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall only make a VLP call when an individual attests to being a naturalized or derived citizen and required document information is provided.
Interfaces	General Requirement	39231	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send the naturalized or derived citizenship information to SAWS via eHIT.
Interfaces	General Requirement	39232	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send the naturalized or derived citizenship information to MEDS.
Interfaces	General Requirement	39233	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall only recall ESI MEC service when SSN changes.
Interfaces	General Requirement	39234	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall only recall Non-ESI MEC for one of the following reasons: - When there is a change in SSN - When there is a change in answer to the questions: - Is this person currently enrolled in any of these Health Plans/Health Coverage?"" - Is this person eligible for free Medicare Part A?
Interfaces	General Requirement	39235	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall limit the number of SSA requests made to the SSA Composite service to no more than once per refresh cycle when no request element has changed.
Interfaces	General Requirement	39242	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall update the technical components for the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS Interface for communication with the SAWS for the following CR. - CR 109700
Interfaces	General Requirement	39266	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall limit the number of VLP requests made to the VLP Service to no more than once per refresh cycle when no request element has changed.
Interfaces	General Requirement	39267	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall limit the number of requests made to the ESI-MEC Interface to no more than once per refresh cycle when no request element has changed.
Interfaces	General Requirement	39268	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall limit the number of requests made to the Non-ESI-MEC Interface to no more than once per refresh cycle when no request element has changed.
Interfaces	General Requirement	39269	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall log the reason for making or not making FDSH service calls based on the each service's caching rules
Interfaces	General Requirement	39322	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall request and store Social Security Administration (SSA) Title II income information from the federal data services hub (FDSH).
Interfaces	General Requirement	39343	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS Interface shall update the BV 136 to provide additional information on the closed case.
Interfaces	General Requirement	39344	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the eHIT Business Validation design document to align with production (R18.2.0.0.1).
Interfaces	General Requirement	39345	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not throw a Business Validation on eHIT when SAWS sends Life Event Type as 'None of the Above'.
Interfaces	General Requirement	39346	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall Modify the 435.119(c) MEC detection to include an admin MEC verification.
Interfaces	General Requirement	39352	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send the Eligibility Evaluation Reason Code (EERC) to SAWS for the usage of the Verify Lawful Presence U.S. citizenship verification.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Interfaces	General Requirement	39357	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS interface shall provide the ability to send and receive the following additional immigration statuses in addition to the 44 immigration statuses in the drop-down menu. - Battered non-citizen, or parent or child of battered non-citizen - Filed for a U Visa - Taking Steps to apply for a T Visa or for certification by the office of Refugee Resettlement
Interfaces	General Requirement	39364	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Portal shall display any documents previously associated to the case for outstanding VLP verifications on the portal when Step 3 needs to be initiated.
Interfaces	General Requirement	39369	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall update the technical components for the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS Interface for communication with the SAWS for the following CR. - CR 92298 - CR 109927 - CR 92295
Interfaces	General Requirement	39379	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the IRS XML library to aca_air-iep_1095-a_fs19_upstream_v0.4_xml_library_12212017-mktplc.
Interfaces	General Requirement	39380	Effective January 1, 2019, the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall exclude optional elements from TY 2018 1095 if data value is blank or missing. Optional element with data value shall pass thru same XML schema validation as required elements. Empty, blank or null XML tags should not be sent in XML data files for IRS returns.
Interfaces	General Requirement	39381	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall use SHA-256 hash functions from SHA-2 family of hash functions for calculating checksum of payload for 1095 Monthly files. The width of ChecksumAugmentationNum needs to be adjusted to have width of 64 characters.
Interfaces	General Requirement	39382	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall use SHA-256 hash functions from SHA-2 family of hash functions for calculating checksum of payload for all Renewal and Redetermination Verification (RRV) files. The width of ChecksumAugmentationNum needs to be adjusted to have width of 64 characters.
Interfaces	General Requirement	39383	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall use SHA-256 hash functions from SHA-2 family of hash functions for calculating checksum of payload for all Policy Level Reporting (PLR) files. The width of ChecksumAugmentationNum needs to be adjusted to have width of 64 characters.
Interfaces	General Requirement	39384	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall support Pinnacle's SHOP file transmittal to IRS for Pinnacle to test their changes with IRS.
Interfaces	General Requirement	39388	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall maintain multiple schemas and files including current and prior years.
Interfaces	General Requirement	39389	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall parse new error codes returned by IRS and persist it in the database.
Interfaces	General Requirement	39460	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall call SSA at Intake, RAC, Renewals, Retro, Continuing (excluding ROP), Manual Verification, and Periodic Reverification to electronically verify SSN if - cache rules fail, or - passed electronic verification is not present (from previous SSA call) and admin verification is not fail
Interfaces	General Requirement	39461	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not call SSA to electronically verify SSN if passed electronic verification is cached (from previous SSA call) or admin verification is fail
Interfaces	General Requirement	39462	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use and maintain passed electronic verification (from previous SSA call) of SSN for evaluation during eligibility determination
Interfaces	General Requirement	39463	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use and maintain admin verification of SSN for evaluation during eligibility determination if electronic verification is pending or not verified
Interfaces	General Requirement	39480	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall be able to receive and respond to requests from Salesforce Service Cloud
Interfaces	General Requirement	39481	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall be able to pass consumer information including basic contact information, eligibility, and enrollment data to the Salesforce Service Cloud
Interfaces	General Requirement	39482	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall accept consumer search request with following search criteria: Case ID, App ID, Indv ID, First Name, Last Name, Last 4 SSN, email, DOB, Zip Code.
Interfaces	General Requirement	39483	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall reply to consumer search request with: First Name, Middle Name, Last Name, DOB, Last 4 SSN, Address, Email, Eligibility Information, Current Enrollment Information, Agent Information
Interfaces	General Requirement	39487	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Team shall assist the Covered California team to move the current Quick Sort functionality from Oracle CRM to Salesforce Service Cloud
Interfaces	General Requirement	39501	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall call SSA for Title II income only if the SSA Title II Annual income is not stored for the individual for the requested tax year.
Interfaces	General Requirement	39510	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to send and receive an 11 character alpha numeric I-94 number on the SAWS-VLP Interface where the 10th character can be a letter or a number.
Interfaces	General Requirement	39511	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to send and receive an 11 character alpha numeric I-94 number on the eHIT Interface where the 10th character can be a letter or a number.
Interfaces	General Requirement	39536	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use a new aid code for the State Subsidy.
Interfaces	General Requirement	39537	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add the new State Subsidy data elements to the Account Transfer schema.
Interfaces	General Requirement	39546	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send X9 (the State Subsidy aid code) on the HX05, HX12, HX20 (ESAC1, 2, 6 and 7), HX40, and RX20.
Interfaces	General Requirement	39574	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS)/SAWS eHIT Interface shall have a field to transmit the divorce or separation instrument order/execution/modification date for the Alimony Income.
Interfaces	General Requirement	39575	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have functionality to require DateOfSeparation as a data element when Alimony Received is an income sent in a non-batch EDR.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Interfaces	General Requirement	39576	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS)/SAWS eHIT Interface shall have a field to transmit the divorce or separation instrument order/execution/modification date for the Alimony Paid Deduction.
Interfaces	General Requirement	39577	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have functionality to require DateOfSeparation as a data element when Alimony Paid is a deduction sent in a non-batch EDR.
Interfaces	General Requirement	39579	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add the State Subsidy data to the Salesforce interface.
Interfaces	General Requirement	39580	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add "PlanName" to the elements being sent back to Salesforce interface.
Interfaces	General Requirement	39609	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the IRS XML library to ACA AIR IEP 5.0 1095A FS20 AIR-IEP 1095A upstream schema v3.0 for Marketplace.
Interfaces	General Requirement	40461	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the ability to invoke the new FTB webservice.
Interfaces	General Requirement	40462	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall request 540 Tax information from FTB via the real time service.
Interfaces	General Requirement	40463	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall request the following data elements as part of the request for 540 Tax Information: See Data elements Tab 540
Interfaces	General Requirement	40464	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send TaxPayer SSN, First Name, Last Name and Date of Birth to request 540 form data.
Interfaces	General Requirement	40465	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall digitally sign each request for 540 form data.
Interfaces	General Requirement	40466	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement error response handling as part of the new FTB Webservice.
Interfaces	General Requirement	40467	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall adhere to the schema constraints as part of the new FTB Webservice.
Interfaces	General Requirement	40468	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall incorporate this real time request/response as part of the application submission.
Interfaces	General Requirement	40469	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall persist the request and response for the new FTB webservice in the new FTB schema. This FTB schema will be created in the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) HBX Database.
Interfaces	General Requirement	40472	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall request the last tax return information submitted to FTB.
Interfaces	General Requirement	40473	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update Mock Services for FTB logic results
Interfaces	General Requirement	40474	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall perform business data consistency checks of all submissions as defined by FTB for the 540 income call.
Interfaces	General Requirement	40475	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall ensure that all transmissions must have a unique transmission identifier (UTID). Along with the submission identifier, the UTID enables a concise method for identifying every element in a transmission.
Interfaces	General Requirement	40476	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall transmit data to FTB via the File Exchange API Channel using a TLS 1.2-encrypted RESTful endpoint.
Interfaces	General Requirement	40671	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the Salesforce interface to send additional data elements on the Household Search Response.
Interfaces	General Requirement	40672	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide Salesforce with Agent/Assister data in a new Agent/Assister Search service operation between California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) and Salesforce that includes request and response messages.
Interfaces	General Requirement	40673	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall receive Agent/Assister Search requests from Salesforce containing basic Agent/Assister information.
Interfaces	General Requirement	40674	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send Agent/Assister Search responses to Salesforce containing demographic and contact information related to the requested Agent/Assister.
Interfaces	General Requirement	40893	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall only send EERC 'PS: QHP Pregnancy Hold – Has elected to switch' when an individual has elected to switch from QHP Pregnancy Hold to Medi-Cal.
Interfaces	General Requirement	40894	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall only send EERC 'MS: MCAP Pregnancy Hold ended – Consumer elected to switch to MAGI MC' when an individual has elected to switch from MCAP to Medi-Cal.
Interfaces	General Requirement	40895	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send HX20-ESAC2 to MEDS when an individual transitions from MCAP to CCHIP, or vice versa.
Interfaces	General Requirement	41472	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall support CalWIN to CalSAWS mock cutover activity during CalWIN to CalSAWS migration.
Interfaces	General Requirement	41479	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the reference tables for Placer, Contra Costa, and Yolo to LRS.
Interfaces	General Requirement	41480	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the reference table containing FIPS county code.
Interfaces	General Requirement	41481	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the reference table containing consortia code.
Interfaces	General Requirement	41482	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the transactional table containing consortia code.
Interfaces	General Requirement	41483	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall modify EDR/ EDR-C/ CancelDER/ DER/ Disposition/ Update and VLP processing logic to support migration of CalWIN Counties of Placer, Contra Costa, and Yolo to LRS.
Interfaces	General Requirement	41484	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement the configurable logic to turn on/ off code changes related to CalWIN to CalSAWS migration of Placer, Contra Costa, and Yolo counties to support R22.10.X and CalSAWS migration go-live.
Interfaces	General Requirement	41485	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall programmatically generate 2 DER-Us for CalWIN and LRS format during cutover window.
Interfaces	General Requirement	41486	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall retrigger DER-Us post migration based on the list provided by CalWIN.
Interfaces	General Requirement	42961	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall reuse existing Los Angeles County eHIT services, specifically EDR-C, DER, Disposition, Update Inbound/Outbound, Batch Documents Transfers, Logging, and SFTP Traffic and Error Detail Reports.
Interfaces	General Requirement	42962	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall make eHIT services available to both LRS and LEADER simultaneously.
Interfaces	General Requirement	42963	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall differentiate LRS inbound transactions from LEADER using existing fields within the eHIT schema.
Interfaces	General Requirement	42967	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall re-trigger DERS for LRS selected cases during data conversion intervals specified by LRS data conversion calendar.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Interfaces	General Requirement	42968	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall send all DERS tied to a specific Los Angeles County case during the data conversion intervals.
Interfaces	General Requirement	42969	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update system case owners as LRS for DER-U identified by LRS during the data conversion intervals .
Interfaces	General Requirement	42970	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall identify a case as LRS once LRS indicates a case as such.
Interfaces	General Requirement	42971	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall maintain existing case and person linkage per California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) case structure.
Interfaces	General Requirement	42972	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall maintain existing California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) case and person numbers as established by the LEADER system.
Interfaces	General Requirement	42973	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall adhere to the approved security protocols established with Los Angeles County for Web Services and file transactions.
Interfaces	General Requirement	44828	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the ability to automatically store information received from SAWS. California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall then attempt to update case information using the Automated Case Update Process. A manual process will be invoked for all cases that cannot be created or updated automatically.
Interfaces	General Requirement	44831	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall interface with DHCS/ITSD Intermediary to transmit and obtain client information in batch and real-time for the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) business process implementation. DHCS/ITSD will route transactions to/from associated systems (MEDS, SCI, App Tracking, IEVS, SAVE).
Interfaces	General Requirement	44839	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall interface with each of the Statewide Automated Welfare Systems (e.g. CalWIN, C-IV, LEADER) to transfer client/case information.
Interfaces	General Requirement	44840	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS Interface eHIT Schema shall include updates to data element annotations for relationships, income, or newly added elements as defined in the Interface Design Document.
Interfaces	General Requirement	44841	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS Interface eHIT Schema shall include updates to the Disposition record to change SAWSCaseDetails CountyCode to ServicingFIPSCountyCode.
Interfaces	General Requirement	44842	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS Interface eHIT Schema shall include updates to change "AffordablItSHOPInd" to "AffordableSHOPInd".
Interfaces	General Requirement	44843	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS Interface eHIT Schema shall remove the change indicator element from Authorized Representative Phone Type element as this is not supported functionality.
Interfaces	General Requirement	44844	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS Interface eHIT Schema shall remove the Incorrect DocumentManifest element.
Interfaces	General Requirement	44845	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS Interface eHIT Schema shall include differential indicators for US citizens and eligible immigrants.
Interfaces	General Requirement	44847	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS eHIT Interface shall include a Change Indicator at the Person Node.
Interfaces	General Requirement	44848	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS eHIT Interface shall include the user role in OriginationCode, for unsolicited Determination Eligibility Reponse and Update transactions from California Healthcare Eligibility, Enrollment and Retention System (CalHEERS).
Interfaces	General Requirement	44849	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS eHIT Interface shall include up to 2 years of historic data for income and deductions.
Interfaces	General Requirement	44850	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS eHIT Interface shall include new reasons for Eligibility Evaluation Reason Code: • No Qualifying Life Event • Life Event is not within Period. • Life Event needs Verification
Interfaces	General Requirement	44868	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS Interface eHIT Schema shall provide a common logging messaging service to report transaction status.
Interfaces	General Requirement	44869	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS Interface eHIT Schema shall provide referential information as to the transaction being sent in the common messaging transaction service.
Interfaces	General Requirement	44870	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS Interface eHIT Schema shall allow for 12 EDR-C requests defined.
Interfaces	General Requirement	44871	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS Interface eHIT Schema shall make the WorkerNumber in the BRE node a required element in the Eligibility Determination Requests as to be able to identify worker driven requests.
Interfaces	General Requirement	44872	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS Interface eHIT Schema shall include an optional element to assist in environment designation.
Interfaces	General Requirement	44873	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS Interface eHIT Schema shall include field labels to distinguish between Servicing county and the Case Member's address county.
Interfaces	General Requirement	44874	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS Interface eHIT Schema shall remove the unused Transfer Comments element.
Interfaces	General Requirement	44875	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS Interface eHIT Schema shall include updates to data elements used for VLP Step 1.
Interfaces	General Requirement	44876	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS Interface eHIT Schema shall include life event options for special enrollment.
Interfaces	General Requirement	44877	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS Interface eHIT Schema shall include a Date of Death element
Interfaces	General Requirement	44878	"The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS Interface eHIT Schema shall include Eligibility Type codes in Determination: Regular and Read-Only"
Interfaces	General Requirement	44879	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS Interface eHIT Schema shall include SoftPauseLiftAdminIndicator in EDR BRE Node.
Interfaces	General Requirement	44880	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS Interface eHIT Schema shall update to add MAGI Medi-Cal evaluation reasons as available, but not including Federal Tax Information.
Interfaces	General Requirement	44881	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS Interface eHIT Schema shall include elements for primary, secondary and tertiary aid codes

Category	Sub Category	Req ID	Requirement
Interfaces	General Requirement	44882	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS Interface eHIT Schema shall allow for 50 character length for PersonGivenName, PersonMiddleName, PersonSurName, and PersonMaidenName elements.
Interfaces	General Requirement	44883	"The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS Interface eHIT Schema shall update NOA Generation elements from Required to Optional, including the following: CountyFaxNumber AdditionalCountyPhone WorkerPhoneNumber"
Interfaces	General Requirement	44884	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS Interface eHIT Schema shall include a Caretaker Relationship element
Interfaces	General Requirement	44885	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS Interface eHIT Schema shall include an element for the Dependent Tax Return Benefit Year.
Interfaces	General Requirement	44886	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS Interface eHIT Schema shall include updates to the language for MEC, Death and Incarceration Indicators to remove double negatives.
Interfaces	General Requirement	44887	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS Interface eHIT Schema shall expand the Disposition transaction elements to include the Primary Applicants first name, last name, social security number, date of birth, and gender as a means of verifying case linkage.
Interfaces	General Requirement	44888	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS Interface eHIT Schema shall include a SSN waiver admin flag for those consumers who don't qualify for an SSN and have a valid reason
Interfaces	General Requirement	44889	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS Interface eHIT schema shall include begin and end dates for the Applying For Health Coverage Ind
Interfaces	General Requirement	44890	Add element "PlanToFileThisYearInd" at the individual level.
Interfaces	General Requirement	44891	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS Interface eHIT Schema shall deprecate the Naturalized Citizen indicator.
Interfaces	General Requirement	44892	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS Interface eHIT Schema shall deprecate the prior year tax information elements.
Interfaces	General Requirement	44893	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS Interface eHIT Schema shall align the Reasons for no SSN with those in the Single Streamline Application.
Interfaces	General Requirement	44894	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS Interface eHIT Schema shall include a new element indicating a Case Worker has seen the letter from SSA when the applicant has applied for a SSN.
Interfaces	General Requirement	44895	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS Interface eHIT Schema shall include updates to Other Healthcare elements including enrollment, expected changes, and termination in other coverage to align with the Single Streamline Application.
Interfaces	General Requirement	44896	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS Interface eHIT Schema shall include new elements for Employee Sponsored Insurance information to align with the Single Streamline Application.
Interfaces	General Requirement	44897	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS Interface eHIT Schema shall include updates to Income and Deduction types to align with the Single Streamline Application.
Interfaces	General Requirement	44898	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS Interface eHIT Schema shall include updates to Tax Household Information to include a Non-Custodial parent not on the application to align with the Single Streamline Application.
Interfaces	General Requirement	44899	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall capture Projected Annual Income.
Interfaces	General Requirement	44900	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS Interface eHIT Schema and system shall include updates to pass and store the information on whether a person is expected to be required to file taxes this year.
Interfaces	General Requirement	44901	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS Interface shall include business validation updates to align with the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system which restricts contradictory Tax Filing statuses.
Interfaces	General Requirement	44902	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS Interface eHIT schema shall include the Pregnancy End Date.
Interfaces	General Requirement	44903	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS Interface eHIT Schema shall include suffix elements as currently defined and provided by the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Access channel.
Interfaces	General Requirement	44904	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS Interface eHIT Schema shall include an option to add Deduction Type of type Other.
Interfaces	General Requirement	44905	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS Interface eHIT Schema shall update Everified and Admin Verifications elements in the Eligibility Determination from Required to Optional.
Interfaces	General Requirement	44906	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the ability to send SAWS the following information: - application data - verifications - accepted EDBC results - non-MAGI screening results - generated MAGI Medi-Cal Notice of Action (.PDF and PCL5) - California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) case # - APTC/CSR disposition (for mixed households) - documents

Category	Sub Category	Req ID	Requirement
Interfaces	General Requirement	44907	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the ability to accept from SAWS: - disposition of non-MAGI Medi-Cal eligibility determination - disposition of MAGI Medi-Cal eligibility determination - SAWS case # - case data changes - application data - verifications - generated non-MAGI Medi-Cal Notice of Action (.PDF) - documents
Interfaces			California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide a web service through the Enterprise Service Bus for SAWS to request verifications and eligibility determination together.
Interfaces	General Requirement	44909	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the ability to send SAWS "Client Information Change" information including, but not limited to: - California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) case # - SAWS case # - type of change - new information - effective date of change - new eligibility determination - documents - generated MAGI Medi-Cal Notice of Action (.PDF and PCL5) - case notes
Interfaces			California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the ability to accept from SAWS "Client Information Change" information including, but not limited to: - California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) case # - SAWS case # - type of change - new information - effective date of change - new eligibility determination - documents - generated MAGI Medi-Cal Notice of Action (.PDF) - case notes
Interfaces	General Requirement	44912	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS Interface eHIT Schema shall include Negative Action reasons.
Interfaces	General Requirement	44913	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS Interface eHIT Schema shall restrict the BusinessName element to 50 characters.
Interfaces	General Requirement	44914	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS eHIT Interface shall send solicited determination eligibility response Error messages through the logging transaction.
Interfaces			The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS eHIT Interface shall update transaction #5 to include residential address.
Interfaces	General Requirement	44916	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS eHIT Interface shall update transaction #5 to include mailing address.
Interfaces	General Requirement	44917	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS eHIT Interface shall include an indicator for removing a person on the case.
Interfaces	General Requirement	44918	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS eHIT Interface shall include an optional element for person Removal Reason.
Interfaces	General Requirement	44919	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS eHIT Interface shall include an optional element for person Removal Date.
Interfaces	General Requirement	44920	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS eHIT Interface shall include an indicator for adding a person on the case.
Interfaces	General Requirement	44921	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS eHIT Interface shall include a change indicator at the Application Node.
Interfaces	General Requirement	44922	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS eHIT interface shall include a unique message ID for all outbound transactions.
Interfaces	General Requirement	44923	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS eHIT interface shall include an unbounded element for Consumer Protection Programs at the person level.
Interfaces	General Requirement	44924	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS eHIT Interface shall include the WasInFosterCareInd at the person level.
Interfaces	General Requirement	44925	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS eHIT Interface schema shall include the Application Identifier for the SAWS system.
Interfaces	General Requirement	44926	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS eHIT Interface schema shall rename ApplicationID to California Healthcare Eligibility, Enrollment and Retention System (CalHEERS)ApplicationID.
Interfaces			The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS eHIT Interface shall accept and send the data within the Environment element for transactions.
Interfaces	General Requirement	44928	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS eHIT interface shall align the address length with the max length allowed for the same fields in the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) portal.
Interfaces			The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS eHIT interface shall deprecate the Tax Filing Status of "DE"
Interfaces	General Requirement	44930	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS eHIT Interface IDD shall remove the reference to Status Codes Table under the PrimaryAidCode element.
Interfaces	General Requirement	44931	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS eHIT Interface IDD shall include CountyCasePeriodDate as repeatable.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

OTSI CalHEERS RFP #73040873 Addendum 1
October 31, 2025

Category	Sub Category	Req ID	Requirement
Interfaces	General Requirement	44932	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS eHIT Interface IDD shall include EthnicCodes as repeatable.
Interfaces	General Requirement	44933	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS eHIT Interface shall include the USCitizenInd element at the person level.
Interfaces	General Requirement	44934	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS eHIT Interface shall include the EligibleImmigrationInd element at the person level.
Interfaces	General Requirement	44935	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS eHIT Interface shall include the QualifiedNonCitizenAttestationInd element at the person level.
Interfaces	General Requirement	44936	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS eHIT Interface schema shall include a repeatable list for Administrative Verifications.
Interfaces	General Requirement	44937	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS eHIT Interface schema shall include a repeatable list for eVerifications.
Interfaces	General Requirement	44938	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS eHIT Interface schema shall update element ImageCode to unbounded.
Interfaces	General Requirement	44939	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS eHIT Interface schema shall update element ReapplyLifeEventCode to unbounded.
Interfaces	General Requirement	44940	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS eHIT Interface schema shall update element DeductionCode to unbounded.
Interfaces	General Requirement	44941	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS eHIT Interface schema shall update element RelationshipCode to unbounded.
Interfaces	General Requirement	44942	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS eHIT Interface schema shall update element Income SourceCode to unbounded.
Interfaces	General Requirement	44943	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS eHIT Interface schema shall update ReferralProgramTypeCode to unbounded.
Interfaces	General Requirement	44944	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS eHIT Interface schema shall update element MessageStatusCode to unbounded.
Interfaces	General Requirement	44945	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS eHIT Interface schema shall update element DocTypeCode to unbounded.
Interfaces	General Requirement	44946	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS eHIT Interface schema shall update element ReasonForNoSSNCode to unbounded.
Interfaces	General Requirement	44947	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS eHIT Interface shall update element USCitizenInd from required to optional.
Interfaces	General Requirement	44948	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS eHIT Interface shall update element EligibleImmigrationInd from required to optional.
Interfaces	General Requirement	44949	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS eHIT Interface shall update element QualifiedNonCitizenAttestationInd from required to optional.
Interfaces	General Requirement	44950	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS eHIT interface shall validate LifeEventChangeDate, if ReapplyLifeEventCode is provided.
Interfaces	General Requirement	44951	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS eHIT interface shall validate ReasonForNoSSNCode, if no SSN is provided.
Interfaces	General Requirement	44952	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS eHIT interface shall validate TribeNameCode, if American Indian or Alaska Native is selected for EthnicCode.
Interfaces	General Requirement	44953	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS eHIT interface shall validate PregnancyExpectedDueDate, if PregnancyInfo is provided.
Interfaces	General Requirement	44954	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS eHIT interface shall validate NoOfBabiesExpected, if PregnancyInfo is provided.
Interfaces	General Requirement	44955	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS eHIT interface shall validate DepntTaxRetrnBenefitYrInd, if TaxFilingInfo is provided.
Interfaces	General Requirement	44956	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS eHIT interface shall validate PlanToFileThisYearInd, if TaxFilingInfo is provided.
Interfaces	General Requirement	44957	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS eHIT interface shall validate IncomeFrequencyCode, for all Income provided.
Interfaces	General Requirement	44958	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS eHIT interface shall validate HaveOrOfferedOtherHealthProg, if the individual is applying for health coverage.
Interfaces	General Requirement	44959	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS eHIT interface shall validate ReceiveMediCareBenefitsInd, if the individual is applying for health coverage.
Interfaces	General Requirement	44960	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS eHIT Interface shall include a Change Indicator for CasePersonDateRange.
Interfaces	General Requirement	44964	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall interface the with a designated financial institution or other payment issuers for the issuance of payments and receipt of payment information for reconciliations.
Interfaces	General Requirement	44965	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall interface with the Employment Development Department (EDD) to obtain and verify State Employer ID number and other appropriate information.
Interfaces	General Requirement	44967	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) MEDS Interface shall include CountyCode data element under the CountyOfResponsibility complex type on the HX18 Web Service Transaction
Interfaces	General Requirement	44968	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) MEDS Interface shall include CountyCode data element under the CountyOfResponsibility complex type on the HX20 Web Service Transaction
Interfaces	General Requirement	45004	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall interface with QHP Issuers to achieve automated exchange of plan and premium data.
Interfaces	General Requirement	45094	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall not archive the generated reports.
Interfaces	General Requirement	45095	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide fault tolerance on failed transmissions.
Interfaces	General Requirement	45101	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system in conjunction with LRS shall conduct network routing exercises to establish environment connectivity for LRS testing and production rollout.
Interfaces	General Requirement	45103	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall provide a mechanism to report on the operational status of the file exchange.
Interfaces	General Requirement	45140	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall update the technical components for the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS Interface for communication with the SAWS. CR 70782 and CR 70497 are scoped for this activity.
Interfaces	General Requirement	45141	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall update the technical components for the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) MEDS Interface for communication with the MEDS. CR 70497 is scoped for this activity.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Interfaces	General Requirement	45168	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall support LRS in the TM03 environment 6/4/18-6/29/18 to create a new master data set.
Interfaces	General Requirement	45169	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall support LRS validation activities after the data creation (150 cases) for 2 weeks (7/2/2018 - 7/13/2018).
Interfaces	General Requirement	45181	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall update the technical components for the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS Interface for communication with the SAWS. CR 69974 is scoped for this activity.
Interfaces	General Requirement	45189	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall turn off the FDSH ESI MEC service until such time the full upgrade to version 2 is completed.
Interfaces	General Requirement	45194	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall upgrade the ESI-MEC schema to version 2
Interfaces	General Requirement	45195	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall turn on the ESI-MEC service
Interfaces	General Requirement	45196	CalHERS shall test new endpoint and provide proof of testing to CMS
Interfaces	General Requirement	45211	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update e-HIT schema to add a Naturalized or Derived Indicator
Interfaces	General Requirement	45212	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall undeprecate document type codes U1 - Certificate of Citizenship (N-560, N- 561)
Interfaces	General Requirement	45213	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall undeprecate document type codes V1 - Naturalization Certificate (N-550, N-570)
Interfaces	General Requirement	45214	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the minimum and maximum value lengths of each document type based on interface requirements.
Interfaces	General Requirement	45215	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall undeprecate the Naturalization certificate number (N-550, N-570)
Interfaces	General Requirement	45216	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall undeprecate the Derived Citizenship certificate number (N-550, N-570)
Interfaces	General Requirement	45284	Effective January 1, 2019, the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall exclude optional elements from TY 2018 1095 if data value is blank or missing. Optional element with data value shall pass thru same XML schema validation as required elements. Empty, blank or null XML tags should not be sent in XML data files for IRS returns.
Interfaces	General Requirement	45285	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall validate all tags, elements and data with XML Schema definitions
Interfaces	General Requirement	45286	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not put leading or trailing spaces in TaxYr element. The TaxYr element is defined by the YearType schema definition.
Interfaces	General Requirement	45287	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not put leading or trailing spaces in DateType elements starting TY 2018. DataType elements shall contain legitimate date.
Interfaces	General Requirement	45288	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall put two decimal points (i.e. ""0.00"") for all elements defined by AmountType XML schema definition of TY2018 & future. Specific elements include: MonthlyPremiumAmt, MonthlyPremiumSLCSPAmt, MonthlyAdvancedPTCAmt, AnnualPremiumAmt, AnnualPremiumSLCSPAmt, AnnualAdvancedPTCAmt
Interfaces	General Requirement	45289	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall always include both recordType and lineNum elements in XML file. The recordType is of type string and lineNum is integer.
Interfaces	General Requirement	45290	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall not exceed RecordSequenceNum value more than 15 digits. The maximum limit is 15 digits.
Interfaces	General Requirement	45309	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Shall adhere to the schema in all validations. If the information does not conform to the schema, then a call will not be made. The pattern validation is applied to all document numbers and name lengths: Alien number is min/max 9 (zero filled if less than 9 digits) Card/Receipt Number is min/max 13 (3 alpha - 10 digit) SEVIS ID is min/max 10 (10 digits) Natualized/Derived min 6 max 12 (alpha numeric) I-94 is min/max 11 (11 digits) Passport is min 6 max 12 (alpha numeric) Visa is min/max 8 (alpha numeric) First name max 25 (truncated) Middle Name max 25 (truncated) Last Name max 40 (truncated)
Interfaces	General Requirement	45354	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Team shall reconfigure quick sort client configuration to accept calls from Salesforce.
Interfaces	General Requirement	45545	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement 3 scale and FUSE on REDHAT OpenShift container platform
Interfaces	General Requirement	45546	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall migrate CalSAWS interfaces from OAG to 3 scale+ FUSE API gateway solution
Interfaces	General Requirement	45547	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall migrate the existing CalSAWS South (CalSAWS - LRS/C-IV) SOAP Webservice inbound interface from OAG to 3Scale + FUSE API gateway solution
Interfaces	General Requirement	45548	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall migrate the existing CalSAWS South (CalSAWS - LRS/C-IV) SOAP Webservice outbound interface from OAG to 3Scale + FUSE API gateway solution
Interfaces	General Requirement	45549	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall migrate the existing CalSAWS - (CalWIN) SOAP Webservice inbound interface from OAG to 3Scale + FUSE API gateway solution
Interfaces	General Requirement	45550	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall migrate the existing CalSAWS - (CalWIN) SOAP Webservice outbound interface from OAG to 3Scale + FUSE API gateway solution
Interfaces	General Requirement	45551	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall migrate the existing CalSAWS South (CalSAWS LRS/C-IV) File inbound interface from OAG to 3Scale + Fuse API gateway solution
Interfaces	General Requirement	45552	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall migrate the existing CalSAWS South (CalSAWS LRS/C-IV) File outbound interface from OAG to 3Scale + Fuse API gateway solution

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Interfaces	General Requirement	45553	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall migrate the existing SAWS (CalWIN) File inbound interface from OAG to 3Scale + Fuse API gateway solution
Interfaces	General Requirement	45554	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall migrate the existing SAWS (CalWIN) File outbound interface from OAG to 3Scale + Fuse API gateway solution
Interfaces	General Requirement	45555	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall migrate the existing EDD SOAP Webservice outbound interface from OAG to 3Scale+ FUSE API gateway solution
Interfaces	General Requirement	45556	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall migrate the FTB interfaces from OAG to 3Scale + FUSE API gateway solution
Interfaces	General Requirement	45557	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall migrate the FTB 3895 REST API outbound interface from OAG to 3Scale + FUSE API gateway solution
Interfaces	General Requirement	45558	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall migrate the FTB 540 REST API outbound interface from OAG to 3Scale + FUSE API gateway solution
Interfaces	General Requirement	45559	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall migrate the existing InfoCap/DIVS SOAP Webservice interface from OAG to 3Scale + FUSE API gateway solution
Interfaces	General Requirement	45560	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall migrate the existing InfoCap/DIVS SOAP Webservice inbound interface from OAG to 3Scale + FUSE API gateway solution
Interfaces	General Requirement	45561	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall migrate the existing InfoCap/DIVS SOAP Webservice outbound interface from OAG to 3Scale + FUSE API gateway solution
Interfaces	General Requirement	45562	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall migrate the existing MEDS SOAP Webservice outbound interface from OAG to 3Scale + FUSE API gateway solution
Interfaces	General Requirement	45563	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall migrate the existing IVR REST API Webservices inbound interface from OAG to 3Scale + FUSE API gateway solution
Interfaces	General Requirement	45564	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall migrate the existing Salesforce Marketing Cloud outbound interface to 3Scale + FUSE API Gateway for outbound transactions
Interfaces	General Requirement	45565	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall migrate the existing WhoisXMI API interface outbound interface from OAG to 3Scale + FUSE API gateway solution
Interfaces	General Requirement	45566	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall migrate the existing GoogleRe-captcha API outbound interfaces from OAG to 3Scale + FUSE API gateway solution
Interfaces	General Requirement	45567	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall migrate the existing Salesforce CRM inbound interfaces from OAG to 3Scale + FUSE API gateway solution
Interfaces	General Requirement	45568	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall migrate the existing OpenMarket interfaces from OAG to 3Scale + FUSE API gateway solution
Interfaces	General Requirement	45569	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall migrate the existing OpenMarket outbound interfaces from OAG to 3Scale + FUSE API gateway solution
Interfaces	General Requirement	45570	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall migrate the existing AIM/Maximus SOAP Webservice inbound interface from OAG to 3Scale + FUSE API gateway solution
Interfaces	General Requirement	45571	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall migrate the existing CMS FEDHUB Webservice interfaces from OAG to 3Scale + FUSE API gateway solution
Interfaces	General Requirement	45572	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall migrate the existing CMS VLP Webservice inbound interface from OAG to 3Scale + FUSE API gateway solution
Interfaces	General Requirement	45573	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall migrate the existing CMS VLP Webservice outbound interface from OAG to 3Scale + FUSE API gateway solution
Interfaces	General Requirement	45574	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall migrate the existing CMS IRS Webservice outbound interface from OAG to 3Scale + FUSE API gateway solution
Interfaces	General Requirement	45575	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall migrate the existing CMS SSA Webservice outbound interface from OAG to 3Scale + FUSE API gateway solution
Interfaces	General Requirement	45576	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall migrate the existing CMS ESI Webservice outbound interface from OAG to 3Scale + FUSE API gateway solution
Interfaces	General Requirement	45577	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall migrate the existing CMS Non-ESI Webservice outbound interface from OAG to 3Scale + FUSE API gateway solution
Interfaces	General Requirement	45578	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall migrate the existing CMS RIDP Webservice outbound interface from OAG to 3Scale + FUSE API gateway solution
Interfaces	General Requirement	45579	archive data older from business tables
Interfaces	General Requirement	45580	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall migrate the existing CMS FARS Webservice outbound interface from OAG to 3Scale + FUSE API gateway solution
Interfaces	General Requirement	45581	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement the CMS Equifax Webservice outbound interface in 3Scale + FUSE API gateway solution
Interfaces	General Requirement	45582	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement the Smarty Street Webservice outbound interface in 3Scale + FUSE API gateway solution
Interfaces	General Requirement	45583	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall migrate the KPCorp File interface from OAG to 3Scale + Fuse API gateway solution
Interfaces	General Requirement	45584	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall migrate the KPCorp File inbound interface from OAG to 3Scale + Fuse API gateway solution
Interfaces	General Requirement	45585	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall migrate the KPCorp File outbound interface from OAG to 3Scale + Fuse API gateway solution
Interfaces	General Requirement	45586	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall migrate the existing MEDS File interface from OAG to 3Scale + Fuse API gateway solution
Interfaces	General Requirement	45587	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall migrate the existing MEDS File inbound interface from OAG to 3Scale + Fuse API gateway solution
Interfaces	General Requirement	45588	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall migrate the existing MEDS File outbound interface from OAG to 3Scale + Fuse API gateway solution
Interfaces	General Requirement	45589	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall migrate the existing DHCS-Reports File interface from OAG to 3Scale + Fuse API gateway solution
Interfaces	General Requirement	45590	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall migrate the existing DHCS-Reports File inbound interface from OAG to 3Scale + Fuse API gateway solution

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

[illegible]

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Interfaces	General Requirement	45635	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall migrate the existing SharpFile interface from OAG to 3Scale + Fuse API gateway solution
Interfaces	General Requirement	45636	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall migrate the existing SharpFile inbound interface from OAG to 3Scale + Fuse API gateway solution
Interfaces	General Requirement	45637	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall migrate the existing SharpFile outbound interface from OAG to 3Scale + Fuse API gateway solution
Interfaces	General Requirement	45638	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall migrate the existing Western Health File interface from OAG to 3Scale + Fuse API gateway solution
Interfaces	General Requirement	45639	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall migrate the existing Western Health File inbound interface from OAG to 3Scale + Fuse API gateway solution
Interfaces	General Requirement	45640	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall migrate the existing Western Health File outbound interface from OAG to 3Scale + Fuse gateway solution
Interfaces	General Requirement	45641	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall migrate the existing Valley File interface from OAG to 3Scale + Fuse API gateway solution
Interfaces	General Requirement	45642	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall migrate the existing Valley File inbound interface from OAG to 3Scale + Fuse API gateway solution
Interfaces	General Requirement	45643	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall migrate the existing Valley File outbound interface from OAG to 3Scale + Fuse API gateway solution
Interfaces	General Requirement	45795	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the reference tables for Santa Clara, Tulare and Contra Costa to LRS.
Interfaces	General Requirement	45796	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the reference table containing consortia code.
Interfaces	General Requirement	45797	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the transactional table containing consortia code.
Interfaces	General Requirement	45798	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall modify EDR/ EDR-C/ CancelDER/ DER/ Disposition/ Update and VLP processing logic to support CalWIN Counties of Santa Clara, Tulare and Contra Costa to LRS.
Interfaces	General Requirement	45799	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update OSB views to remove Santa Clara, Tulare and Contra Costa counties from CalWIN views and add them to the CalSAWS views.
Interfaces	General Requirement	45800	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall convert CalSAWS DER-Us (for migrating counties generated during cutover window) to CalWIN format via PCR in the event of Rollback.
Interfaces	General Requirement	45801	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall support all California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) related changes and support required for Orange, Santa Barbara and Ventura counties to migrate from CalWIN to CalSAWS System.
Interfaces	General Requirement	45808	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the reference tables for Orange, Santa Barbara and Ventura counties to LRS.
Interfaces	General Requirement	45809	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the reference table containing consortia code.
Interfaces	General Requirement	45810	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the transactional table containing consortia code.
Interfaces	General Requirement	45811	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall modify EDR/ EDR-C/ CancelDER/ DER/ Disposition/ Update and VLP processing logic to support CalWIN Counties of Orange, Santa Barbara and Ventura to LRS.
Interfaces	General Requirement	45812	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update OSB views to remove Orange, Santa Barbara and Ventura counties from CalWIN views and add them to the CalSAWS views.
Interfaces	General Requirement	46091	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall convert CalSAWS DER-Us (for migrating counties generated during cutover window) to CalWIN format via PCR in the event of Rollback.
Interfaces	General Requirement	46103	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the reference tables for San Diego, San Mateo, Santa Cruz and Solano to LRS.
Interfaces	General Requirement	46104	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the reference table containing consortia code.
Interfaces	General Requirement	46105	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the transactional table containing consortia code.
Interfaces	General Requirement	46106	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall modify EDR/ EDR-C/ CancelDER/ DER/ Disposition/ Update and VLP processing logic to support CalWIN Counties of San Diego, San Mateo, Santa Cruz and Solano to LRS.
Interfaces	General Requirement	46107	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update OSB views to remove San Diego, San Mateo, Santa Cruz and Solano counties from CalWIN views and add them to the CalSAWS views.
Interfaces	General Requirement	46108	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall convert CalSAWS DER-Us (for migrating counties generated during cutover window) to CalWIN format via PCR in the event of Rollback.
Interfaces	General Requirement	46129	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the reference tables for Sacramento, San Luis Obispo and San Francisco to LRS.
Interfaces	General Requirement	46130	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the reference table containing consortia code.
Interfaces	General Requirement	46131	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the transactional table containing consortia code.
Interfaces	General Requirement	46132	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall modify EDR/ EDR-C/ CancelDER/ DER/ Disposition/ Update and VLP processing logic to support CalWIN Counties of Sacramento, San Luis Obispo and San Francisco to LRS.
Interfaces	General Requirement	46133	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update OSB views to remove Sacramento, San Luis Obispo and San Francisco counties from CalWIN views and add them to the CalSAWS views.
Interfaces	General Requirement	46134	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall convert CalSAWS DER-Us (for migrating counties generated during cutover window) to CalWIN format via PCR in the event of Rollback.
Interfaces	General Requirement	46775	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement a secure file transfer interface with CalSAWS to receive the MAGI Medi-Cal Renewals Reverification Request file(s).
Interfaces	General Requirement	46776	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall accept the MAGI Medi-Cal Renewals Reverification Request file(s) no later than 20 calendar days prior to the end of the month.
Interfaces	General Requirement	46777	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to receive the encrypted and compressed zipped file not exceeding 500 MB containing MAGI Medi-Cal Renewals Reverification Request file(s) using PGP encryption standards.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Interfaces	General Requirement	46778	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall receive the MAGI Medi-Cal Renewals Reverification Request file(s) from CalSAWS ensuring each file does not exceed more than 100 MB when uncompressed.
Interfaces	General Requirement	46779	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create a decryption and decompression batch to decrypt the zipped file containing MAGI Medi-Cal Renewals Reverification Request file(s) received from CalSAWS using PGP decryption standards.
Interfaces	General Requirement	46780	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall receive the MAGI Medi-Cal Renewals Reverification Request file(s) in the form of JSON format containing the following data elements: SAWS Transmission ID, SAWS Transmission Count, SAWS Record Count, Transmission Timestamp,Record ID, California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Case Number, SAWS Case Number and ServicingFipsCountyCode.
Interfaces	General Requirement	46785	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall perform the file level validations on the monthly MAGI Medi-Cal Renewals Reverification request file(s) received from CalSAWS and shall respond with a response file.
Interfaces	General Requirement	46786	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to stop processing and staging the records in a monthly MAGI Medi-Cal Renewals Reverification request file(s) that has a file level validation error.
Interfaces	General Requirement	46787	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall perform the file level validation to ensure that the folder size does not exceed 500 MB and the request file placed in the folder should not exceed 100 MB.
Interfaces	General Requirement	46788	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall perform the file level validation to ensure that the credentials are authorized to receive the transmission via SFTP.
Interfaces	General Requirement	46789	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall perform the file level validation to ensure that CalSAWS adheres to file naming convention.
Interfaces	General Requirement	46790	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall perform the file level validation to ensure that the file extension is valid.
Interfaces	General Requirement	46791	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall perform the file level validation to ensure that the archive file is encrypted as per PGP standards.
Interfaces	General Requirement	46792	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall perform the file level validation to ensure that MMRRV request file is received from CalSAWS no later than 20 calendar days before the end of the month.
Interfaces	General Requirement	46793	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall perform schema level validation for the monthly MAGI Medi-Cal Renewals Reverification request file(s) received from CalSAWS.
Interfaces	General Requirement	46794	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall perform file level validation if transmission timestamp is not unique for each file placed in the batch (folder).
Interfaces	General Requirement	46795	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create a batch and perform the record level validations for the monthly MAGI Medi-Cal Renewals Reverification request file(s) received from CalSAWS.
Interfaces	General Requirement	46796	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to continue processing subsequent records if any record has a record level validation and shall a generate a corresponding error at the record level in the response file generated by California Healthcare Eligibility, Enrollment and Retention System (CalHEERS).
Interfaces	General Requirement	46797	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall perform the record level validation to ensure that the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) case is only staged once for SAWS MAGI Medi-Cal Renewals processing.
Interfaces	General Requirement	46798	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall perform the record level validation to ensure that there is an active case linkage between the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) case and the CalSAWS case.
Interfaces	General Requirement	46799	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall perform the record level validation to ensure that the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) case is not closed.
Interfaces	General Requirement	46800	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall perform the record level validation to ensure that the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) case has on-going MAGI Medi-Cal eligibility.
Interfaces	General Requirement	46801	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall perform the record level validation to ensure that the SAWS case number and the FIPS county code is unique.
Interfaces	General Requirement	46802	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall perform the record level validation to ensure that the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) case number is unique in the file.
Interfaces	General Requirement	46803	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send the compressed zipped monthly MAGI Medi-Cal Renewals Reverification response file(s) to CalSAWS SFTP location ensuring the file size does not exceed a maximum of 500 MB.
Interfaces	General Requirement	46804	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send a monthly MAGI Medi-Cal Renewals Reverification response file(s) to CalSAWS with the following data elements: SAWS Transmission ID, SAWS Transmission Count, SAWS Record Count, Transmission Timestamp, Transmission Status, Error Message, RequestZipFileName, Rule Number if a file level error is identified.
Interfaces	General Requirement	46805	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send a MAGI Medi-Cal Renewal Reverification response file(s) to CalSAWS with the following data elements: SAWS Transmission ID, SAWS Transmission Count, Transmission Timestamp, Transmission Status, SAWS Successful Record Count, SAWS Error Record Count, Record ID, Error Message, Rule Number if record level error(s) are identified.
Interfaces	General Requirement	46806	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send a MAGI Medi-Cal Renewal Reverification response file(s) to CalSAWS with the following data elements: SAWS Transmission ID, SAWS Transmission Count, SAWS Record Count, Transmission Timestamp, Transmission Status if the request file was processed without any file or record level validation errors.
Interfaces	General Requirement	46807	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send the monthly MAGI Medi-Cal Renewals Reverification response file(s) to CalSAWS ensuring each file does not exceed more than 100 MB when uncompressed.
Interfaces	General Requirement	46808	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create a batch to compress the file(s) to be sent to CalSAWS.
Interfaces	General Requirement	46809	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the ability to receive a resubmission request file from CalSAWS within 1 business day upon sending the MAGI Medi-Cal Renewals Reverification Response file to CalSAWS.

Category	Sub Category	Req ID	Requirement
Interfaces	General Requirement	46810	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall normalize the data elements received from CalSAWS for the monthly MAGI Medi-Cal Renewals Reverification request in the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) database.
Interfaces	General Requirement	46811	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall normalize the data elements sent to CalSAWS for the monthly MAGI Medi-Cal Renewal Reverification response in the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) database.
Interfaces	General Requirement	46812	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) and CalSAWS shall adhere to California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) standard folder and file naming conventions.
Interfaces	General Requirement	46813	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall receive the folder from CalSAWS as per defined request folder naming convention.
Interfaces	General Requirement	46814	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall receive the file from CalSAWS as per defined request file naming convention.
Interfaces	General Requirement	46815	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall adhere to MAGI Medi-Cal Renewal response folder naming conventions.
Interfaces	General Requirement	46816	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall adhere to the MAGI Medi-Cal Renewal response file naming conventions.
Interfaces	General Requirement	46817	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the Federal HUB Renewal and Redetermination Verification (RRV) service for MAGI Medi-Cal Renewal cases received from CalSAWS.
Interfaces	General Requirement	46818	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall stage individuals for the MAGI Medi-Cal RRV Process that have E-verified SSN.
Interfaces	General Requirement	46819	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall stage the active applying healthcare individuals for Income (SSA Income, IRS, VCI) as part of SAWS RRV Process.
Interfaces	General Requirement	46820	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall include all the individuals in the MAGI Medi-Cal RRV bulk service who are eligible to MAGI Medi-Cal for Medicare and Deceased.
Interfaces	General Requirement	46821	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall only stage individuals for all verification attributes whose cached verifications are greater than the valid cache period for Income, Medicare, Deceased, and Incarceration attributes from the date that the Renewal EDR is processed.
Interfaces	General Requirement	46822	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall follow the existing CMS process identified for Exchange RRV batches to generate the request and process the response file to renew the MAGI Medi-Cal population in the existing secured schemas.
Interfaces	General Requirement	46823	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall utilize the existing RRV request batches to generate the RRV request file for CMS.
Interfaces	General Requirement	46824	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall utilize the existing RRV response batches to persist the RRV response received from CMS.
Interfaces	General Requirement	46825	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall normalize the RRV request sent to CMS as well normalize the RRV response received from CMS for the MAGI -Medi-Cal RRV Batches in the secured schema.
Interfaces	General Requirement	46826	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall utilize the existing batch for incarceration calls for MAGI Medi-Cal Renewals utilizing staging batch by renewal month for MAGI Medi-Cal Renewals to initiate the calls.
Interfaces	General Requirement	46827	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall include all the individuals in the MAGI Medi-Cal RRV bulk service who are eligible to MAGI Medi-Cal for Incarceration.
Interfaces	General Requirement	46828	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall normalize the MAGI Medi-Cal RRV Incarceration request and response file received from CMS for the MAGI Medi-Cal Renewal individuals in the database.
Interfaces	General Requirement	46829	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the VIED to incorporate the RRV batch call for MAGI Medi-Cal Renewals processing.
Interfaces	General Requirement	46831	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use the existing batches for the FTB Bulk Verification Service for MAGI Medi-Cal Renewals to invoke the API.
Interfaces	General Requirement	46832	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall stage all the individuals for the MAGI Medi-Cal FTB Bulk service.
Interfaces	General Requirement	46833	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall normalize the MAGI Medi-Cal RRV FTB Bulk request and response file received from FTB for the MAGI Medi-Cal Renewal individuals in the secured schema.
Interfaces	General Requirement	46834	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the VIED to incorporate the FTB Bulk batch call for MAGI Medi-Cal Renewals processing.
Interfaces	General Requirement	46837	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall normalize the SSA Disability indicator received from CMS during the Renewals from the secured schema into the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) HBX schema.
Interfaces	General Requirement	46974	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall change the Technical architecture for effectively processing combined SAWS renewal volumes post CalWIN merge.
Interfaces	General Requirement	46975	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall increase the infrastructure for processing associated batch jobs like Passive renewals and ROP that execute in the same time frame as CalSAWS batch renewals.
Interfaces	General Requirement	46976	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall extend the batch window into the day to allow for more CalSAWS Batch renewals
Interfaces	General Requirement	46977	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall enhance reporting and tracking of system performance for anticipated increase in renewal batch volumes.
Interfaces	General Requirement	47064	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the reference tables for San Diego, San Mateo, Santa Cruz and Solano to LRS.
Interfaces	General Requirement	47065	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the reference table containing consortia code.
Interfaces	General Requirement	47066	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the transactional table containing consortia code.
Interfaces	General Requirement	47067	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall modify EDR/ EDR-C/ CancelDER/ DER/ Disposition/ Update and VLP processing logic to support CalWIN Counties of San Diego, San Mateo, Santa Cruz and Solano to LRS.
Interfaces	General Requirement	47068	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update OSB views to remove San Diego, San Mateo, Santa Cruz and Solano counties from CalWIN views and add them to the CalSAWS views.
Interfaces	General Requirement	47069	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall convert CalSAWS DER-Us (for migrating counties generated during cutover window) to CalWIN format via PCR in the event of Rollback.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Interfaces	General Requirement	47589	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the reference tables for Alameda, Fresno and Sonoma to LRS.
Interfaces	General Requirement	47590	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the reference table containing consortia code.
Interfaces	General Requirement	47591	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the transactional table containing consortia code.
Interfaces	General Requirement	47592	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall modify EDR/ EDR-C/ CancelDER/ DER/ Disposition/ Update and VLP processing logic to support CalWIN Counties of Alameda, Fresno and Sonoma to LRS.
Interfaces	General Requirement	47593	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update OSB views to remove Alameda, Fresno and Sonoma counties from CalWIN views and add them to the CalSAWS views.
Interfaces	General Requirement	47594	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall convert CalSAWS DER-Us (for migrating counties generated during cutover window) to CalWIN format via PCR in the event of Rollback.
Interfaces	General Requirement	48107	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality for all users to override the failed to file federal tax return/reconcile indicator by attesting to have filed or planning to file tax return for a year.
Interfaces	General Requirement	48108	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create the new Mock Services for FTR Code to simulate responses for testing purposes.
Interfaces	General Requirement	48109	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create the new Mock Services for FTR Code HE020011 to simulate responses returned from the REST based service.
Interfaces	General Requirement	48110	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create the new Mock Services for FTR Code 011 to simulate responses returned from the RRV-IRS service.
Interfaces	General Requirement	48138	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not display any IRS response code received from IRS Federal Hub on the Manual Verification screen.
Interfaces	General Requirement	48140	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall update the technical components for the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS Interface (known as EHIT) for communication with the SAWS for functional changes made to the system for the following functional CRs: - 206195 - Alternative Formats - 227922 Vefication Phase IV
Interfaces	General Requirement	48214	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall utilize the new Managed File Transfer User Interface for the Federal Interfaces as hosted by CMS.
Interfaces	General Requirement	48215	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the endpoints for MFT Bulk transfer files.
Interfaces	General Requirement	48216	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the Login credentials.
Interfaces	General Requirement	48217	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update Legacy folder Inbound30 for all the "User Upload Bulk Files to" Outbox.
Interfaces	General Requirement	48218	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update Legacy folder Outbound30 for all the "User Download Bulk Files from" Inbox.
Interfaces	General Requirement	48219	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update Legacy folder archive for all the "User retransmit files from" archive.
Interfaces	General Requirement	48395	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement a queuing mechanism to place the Dispositions in a waiting queue and release them to the processing queue in the order of receipt from CalSAWS (First In First Out) on predetermined TBD frequency.
Interfaces	General Requirement	48484	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall populate LastStepInitiated as per the RX pattern shared by CMS per VLP V37.1 in the DER payload. The following services are listed as per RX pattern: RX142.1 - VLP InitialVerificationv37.1 (Step1) RX142.2 - VLP InitialVerificationv37.1 (Step2) RX142.3 – VLP InitiateThirdVerifv37.1 (Step3) RX142.4 - VLP Close Case v37.1
Interfaces	General Requirement	48485	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the eHIT and VLP SAWS schemas to increase maximum character length from 4 to 7 for the data element LastStepInitiated.
Interfaces	General Requirement	48509	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the triggering conditions for BV 19 to no longer trigger when an EDR is received which includes at least one California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Case Person Number but no California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Case Number.
Interfaces	General Requirement	48510	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the Business Validation message for BV 19 to remove the mention of the triggering condition involving an EDR being received which includes at least one California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Case Person Number but no California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Case Number.
Interfaces	General Requirement	48511	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall trigger a new Business Validation when an EDR is received which includes at least one California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Case Person Number but no California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Case Number is provided.
Interfaces	General Requirement	48512	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send a new Business Validation Error Message to SAWS when an EDR is received which includes at least one California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Case Person Number but no California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Case Number is provided.

Category	Sub Category	Req ID	Requirement
Interfaces	General Requirement	48513	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall enhance the Business Validation Logging Request sent to SAWS for BV 19 and BV 77 to include the below information for the individual causing the BV to be triggered: - California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Case Person Number in California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) - SAWS Case Person Number in California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) - California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Case Person Number on the EDR which triggered the BV - SAWS Case Person Number on the EDR which triggered the BV - APTC Eligibility Status in California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) - CSR Eligibility Status in California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) - MAGI Medi-Cal Eligibility Status in California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) - Non-MAGI Medi-Cal Eligibility Status in California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) - QHP Eligibility Status in California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) - Exchange Enrollment Status in California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) - Primary Aid Code in California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) - MAGI Medi-Cal Awaiting Review status in California Healthcare Eligibility, Enrollment and Retention System (CalHEERS)
Interfaces	General Requirement	48514	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall enhance the Business Validation Logging Request sent to SAWS for BV 9 to include the below information: - SAWS Case Number that is currently linked to the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Case Number provided in the EDR which triggered the BV. - California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Case Number that is currently linked to the SAWS Case Number provided in the EDR which triggered the BV. - FIPS County Code associated with the SAWS Case Number that is currently linked to the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Case provided in the EDR.
Interfaces	General Requirement	48515	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall enhance the Business Validation messaging for BV 9 to mention that the EDR did not request an ICT or Case Linkage Override.
Interfaces	General Requirement	48516	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall enhance the Business Validation Logging Request sent to SAWS for BV 159 to include the below case-level information and person-level information for all active individuals on the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Case: Case-level information: - SAWS Case Number that the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Case is currently linked to - FIPS County Code associated with the SAWS Case Number that is currently linked to the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Case. Person-level information: - California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Case Person Number in California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) - SAWS Case Person Number in California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) - Primary Contact Indicator in California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) - Person Demographic Information in California Healthcare Eligibility, Enrollment and Retention System (CalHEERS)
Interfaces	General Requirement	48517	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall enhance the Business Validation messaging for BV 159 to mention that no California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Case Person Number was provided for any existing case member.
Interfaces	General Requirement	48518	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall enhance the Business Validation messaging for BV 86 to mention that the EDR did not request an ICT or Case Linkage Override.
Interfaces	General Requirement	48519	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall suppress the triggering of BV 77 when the Case Linkage Override flag is provided as 'Y' on the EDR and the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Case is not actively linked to any SAWS Case.
Interfaces	General Requirement	48520	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall consider a demographic field on an EDR to pass the matching check for BV 145 if the value of the field is established as NULL in California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) and is also provided as NULL on the EDR.
Interfaces	General Requirement	48521	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall enhance the triggering conditions of BV 145 to only compare the demographic information provided on the EDR with what is currently established in California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) for the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Case ID provided on the EDR.
Interfaces	General Requirement	48522	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall trigger a new Business Validation when an EDR is received which changes the Primary Contact on a California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Case and removes the previous Primary Contact from the case.
Interfaces	General Requirement	48523	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send a new Business Validation Error Message to SAWS when an EDR is received which changes the Primary Contact on a California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Case and removes the previous Primary Contact from the case.
Interfaces	General Requirement	48524	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall enable the County of Responsibility and delink a SAWS case from a California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) case when the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) case has been closed as a duplicate through the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) portal or through a CancelDER received from SAWS.
Interfaces	General Requirement	48525	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall include the BV number in the Business Validation Logging Request sent to SAWS for all BVs.

Category	Sub Category	Req ID	Requirement
Interfaces	General Requirement	48526	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall release the County of Responsibility and delink all California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Cases which are linked to a SAWS Case and satisfy all the following criteria: - The latest BRE run was prior to 1/1/2016, and - All case members are IE/DS/UN for MAGI Medi-Cal, and - There are no open Non-MAGI Medi-Cal referrals on the case
Interfaces	General Requirement	48527	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the Business Validation message for BV 77 to replace the angled apostrophes with single quotes and remove the redundant “#” after the word “Number”.
Interfaces	General Requirement	48554	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall segregate the Exchange RRV and MAGI Medi-Cal RRV processes.
Interfaces	General Requirement	48555	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall segreagate batches for both the processes.
Interfaces	General Requirement	48556	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall segreagate database tables for both the processes.
Interfaces	General Requirement	49224	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall enhance the Business Validation Logging Request sent to SAWS for BV 19 to also include the person demographic information in California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) for the individual causing the BV to be triggered.
Interfaces	Interfaces		
Interfaces	Interfaces	39902	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall update the technical components for the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS Interface (known as EHIT) for communication with the SAWS for functional changes made to the system on a per release basis. For Release 20.9, the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) project shall create a technical change to meet the schema change needs for the following functional CRs: CR 158675
Interfaces	Interfaces	39906	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall include verification data in the DER transaction sent to SAWS for each verification attribute, if available.
Interfaces	Interfaces	39907	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall include the verification value in the DER transaction.
Interfaces	Interfaces	39908	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall include the verification status in the DER transaction.
Interfaces	Interfaces	39909	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall include the verification source in the DER transaction.
Interfaces	Interfaces	39910	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall include the verification begin date in the DER transaction.
Interfaces	Interfaces	39911	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall include the verification end date in the DER transaction.
Interfaces	Interfaces	39912	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall include the verification Reasonable Opportunity Period Expiration Date in the DER transaction.
Interfaces	Interfaces	39913	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall include the verification of Household Income - Subsidy attribute in the DER transaction.
Interfaces	Interfaces	39914	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall include the verification of American Indian/ Alaskan Native attribute in the DER transaction.
Interfaces	Interfaces	39915	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall include the verification of Household Income – CA Subsidy attribute in the DER transaction.
Interfaces	Interfaces	40032	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send information on 100% of all individual market health plan policies (excluding dental and catastrophic plans) purchased in a submission, ensuring that each submission contains the most current information for each coverage month for the individual market and everyone who purchased coverage.
Interfaces	Interfaces	40033	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall only send one coverage year per file.
Interfaces	Interfaces	40034	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall ensure that the monthly data feed will be cumulative, containing monthly data for each month from the start of the coverage year in January through the most recent completed month and shall submit one valid submission per calendar month which includes data for each previous month of the current year. e.g., a monthly transmission produced in September will contain information for each month from January through August, enabling updates to prior months within each monthly submission.
Interfaces	Interfaces	40035	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall report the data it has on record at the time of the report generation. - A change that occurs during the year - either reported to California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) or identified by California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) - will be reflected in the next monthly transmission sent to the FTB.
Interfaces	Interfaces	40036	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall include policy data for the monthly 3895 file for the tax filer (or other relevant adult) to be transmitted electronically received by FTB no later than January 31 and will include data January through the end of December of the coverage year being reported. This will be considered the Annual file received by FTB in the month of January.
Interfaces	Interfaces	40037	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall submit the data elements that are identified as being reported monthly, including the Marketplace-Assigned Policy Number to be populated with the Exchange-Assigned Policy ID (aka Enrollment ID), as described in FTB Design Document (Tech publication).
Interfaces	Interfaces	40045	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall ensure each transmission will contain a manifest that identifies the Transmission ID, Transmission Category, File Size, and total number of files (SubmissionCount), Submission ID), Timestamp, TransmissionChecksum, TransmissionByteSize and FormType in the submission for the monthly data.
Interfaces	Interfaces	40046	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall ensure all of the required information for the entire year regarding a single tax household must be contained within a single transmitted file for the monthly (including January monthly) 3895 transmission.
Interfaces	Interfaces	40047	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) may transmit upto three monthly submissions, one for the prior/current coverage year (original submission), correction over original submission and void over original submission (correction and void for prior coverage year).
Interfaces	Interfaces	40048	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall adhere to the data transmission schedule set forth by FTB. This will ensure the data is transmitted to the FTB by the 15th of the month using the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) FTB 3895 Interface.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
