Interfaces	Interfaces	40049	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send subsequent annual January data transmissions to FTB with enough time for processing of the files to allow for submission to FTB by January 31 as this is considered the annual electronic representation of the 3895 form submission.
Interfaces	Interfaces	40050	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall submit only one valid 3895 submission (considered the annual electronic representation of the 3895 form) including data on all policies purchased through California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) for the previous coverage year which will be transmitted from California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) to FTB every January (January monthly submission).
Interfaces	Interfaces	40051	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall ensure that a transmission must: • Contain only one Manifest • Contain only one Form Data File • Contain one or more submissions in the Form Data File • Use the SHA-256 Checksum algorithm • Have the same number of actual submissions as reported in the manifest.
Interfaces	Interfaces	40052	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall transmit all errored out (missing, malformed etc.) transmission payloads (with unique SubmissionID) within 48 hours for the 3895, once notified of errored payloads in a submission.
Interfaces	Interfaces	40053	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall ensure all transmissions to have a valid identifiers and other header information as defined by FTB, and meet security standards for the 3895 Monthly file.
Interfaces	Interfaces	40054	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall, on a monthly basis, transmit individual market information to the Franchise Tax Board on individuals, tax households, policies purchased, organized by the existing IRS Group Identifier.
Interfaces	Interfaces	40055	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall utilize the existing logic to create the IRS Group Identifier as a 16-digit system-generated alpha numeric ID for all data to be reported to both IRS and FTB. - This number is unique within each exchange. - The IRS Group and its accompanying IRS Group Identifier is used to track tax households, policies and covered individuals over time (Including multiple cases as part of the group ID if on the same policy, two tax households on the same policy). - The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall ensure policies/tax households will not cross IRS Groups Identifiers, i.e. one policy cannot be spread across multiple IRS Groups, and a policy can only exist in one IRS Group. one tax household cannot be spread across multiple IRS Groups, and a tax household can only exist in one Group.
Interfaces	Interfaces	40056	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create a new IRS Group and IRS Group Identifier whenever a change of circumstance generates a new household with coverage that is separate and not overlapping with an existing IRS Group (e.g. divorce, individual turns 26 and purchases a separate policy) as is currently done for IRS for FTB data.
Interfaces	Interfaces	40057	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not use the IRS Group Identifier within the schema when reporting the 3895 data. This logic is only applied to organizing the data.
Interfaces	Interfaces	40058	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall report monthly activity for an IRS Group to FTB. - California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) will continue to report this activity in the remaining submissions for the calendar year (including the one-month correction period of the following calendar year). e.g. When a single individual purchases a plan through California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) for January, California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) will create an IRS Group for the single individual, and report it for January, 2021 (submission to the FTB by February 15, 2021). If he or she then terminates coverage such that he or she is not enrolled for February, 2021, California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) will continue to include his or her record in the January, 2021 component of each subsequent submission through January 15, 2022.
Interfaces	Interfaces	40059	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall ensure that entire IRS Groups (to include all applicable coverage months) must be contained within a single transmitted file. - The IRS Groups cannot be split across transmissions; and must be a API message (multi-part form data) and manifest that complies with FTB standards.
Interfaces	Interfaces	40060	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall retransmit entire transmission if an Error Code as descibed in the File Exchange API Error Codes for Transmission is received as a ReceiptID will not be returned by FTB.
Interfaces	Interfaces	40061	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall resubmit a corrected submission within 48 hours, if the submission is not accepted. - If the transmission is identified as having missing submissions California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall retransmit only the missing submissions, or if that is not possible, resubmit the entire monthly transmission
Interfaces	Interfaces	40062	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall process error messages returned on the transmissions and submission for the monthly file.
Interfaces	Interfaces	40063	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall request a transmission reports from FTB detailing error messages and error correction processing .
Interfaces	Interfaces	40064	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use an automated informative mechanism for processing error messages either manually or electronically returned on the transmissions and submission from FTB based on processing business rules for specific error types listed in the Technical Error Library detailed in the FTB Design Document (Tech Publication).

Category	Sub Category	Req ID	Requirement
Interfaces	Interfaces	40065	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall perform business data consistency checks of all submissions as defined by FTB for the 3895 Monthly file.
Interfaces	Interfaces	40066	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall ensure each transmission will have an attached file that is well formed XML and adhere to the XML schema defined by the FTB for the 3895 Monthly file.
Interfaces	Interfaces	40067	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall ensure that each transmission is properly identified, threat and attack free, and error free before being submitted to the FTB.
Interfaces	Interfaces	40070	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall process a confirmation of acceptance of the transmission for the 3895 Monthly file.
Interfaces	Interfaces	40071	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall ensure transmissions sent must use the multipart/form-data content type and be encoded as described in the W3C HTML 4 specification (text/plain encoding is not supported). UTF-8 is the only supported character set.
Interfaces	Interfaces	40072	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall ensure that all transmissions must have a unique transmission identifier (UTID). Along with the submission identifier, the UTID enables a concise method for identifying every element in a transmission.
Interfaces	Interfaces	40073	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall include the following in a Unique Transmission Identifier (UTID) in each transmission payload, with a colon seperator: - Universally unique identifier (UUID) - FTB System ID (SYSID) - California Transmitter Control Code (CA-TCC) UUID:SYSID:CA-TCC
Interfaces	Interfaces	40074	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use the Receipt ID (RECEIPTID) in order to request processing status.
Interfaces	Interfaces	40075	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall ensure that all transmissions to FTB contain a manifest as well as the form data.
Interfaces	Interfaces	40076	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall transmit data to FTB via the File Exchange API Channel using a TLS 1.2-encrypted RESTful endpoint.
Interfaces	Interfaces	40077	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use the HTTP POST method on all transmissions to FTB for 3895 data.
Interfaces	Interfaces	40078	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall include a Content-Type header with the value multipart/form-data; boundary must be included on 3895 data.
Interfaces	Interfaces	40079	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall include two custom HTTP headers, APP_ID and APP_KEY, that contain credentials issued during registration and X-FtbApi-TrTs and X-FtbApi-TrsId, that provide a timestamp and the UTID respectively and participate in the signing process on 3895 data.
Interfaces	Interfaces	40080	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have a field named manifest with an embedded XML document that complies with TransmissionManifest.xsd on 3895 data.
Interfaces	Interfaces	40081	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have a field named transmission with an embedded XML document that complies with "HealthCareSubsidyTransmission.xsd".
Interfaces	Interfaces	40082	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall ensure a transmission does not exceed 100 MB of uncompressed and unencrypted XML
Interfaces	Interfaces	40083	A Submission must: • Contain only one Header • Contain only one form FTB 3895
Interfaces	Interfaces	40084	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall ensure that each submission have a unique submission identifier (SID). This value must be a positive integer starting at 1 for the first submission and should increase sequentially by 1 for each subsequent submission in the transmission. This number must not include leading zeroes. This number must be unique within a specific payload and manifest but the number can repeat in other payloads and manifest.
Interfaces	Interfaces	40085	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall process error responses from FTB using the following: Transmission ID, ReceiptID and SID.
Interfaces	Interfaces	40086	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall ensure that all transmissions are signed in accordance with the Amazon Web Services (AWS) Signature Version 4 and use AWS4-HMAC-SHA256 as the value of the Authorization header on 3895 data.
Interfaces	Interfaces	40087	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall employ an annual process to update the app key annually.
Interfaces	Interfaces	40088	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall ensure the signature and all supporting materials must be presented in the Authorization header and have the following form: [Algorithm] Credential=[Credential Scope], SignedHeaders=[Signed Headers], Signature=[Signature] Whitespace must be included as shown above.

Category	Sub Category	Req ID	Requirement
Interfaces	Interfaces	40089	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall ensure that the credential scope must be formed as follows: [CA-TCC]/[YYYYMMDD]/ftb/fx/aws4_request Where - CA-TCC is your California Transmitter Control Code - YYYYMMDD is the four-digit year, two digit month, and two digit day on which the transmission is sent e.g., if your CA-TCC is A0132 and the transmittal date is January 10th, 2020, then the credential scope is A0132/20200110/ftb/fx/aws4_request All alphabetic characters must be in lowercase as shown above.
Interfaces	Interfaces	40090	- California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall ensure that the signature is a hexadecimal-encoded string as described in the AWS documentation. - The Canonical Request (see https://docs.aws.amazon.com/general/latest/gr/sigv4-create-canonical-request.html) must include a hash of the transmission's payload. - Generate the payload by concatenating the value of the transmission field to the value of the manifest field. - California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) must not include any multipart/form-data constructs (e.g. boundary delimiters, Content-Disposition headers, etc.) in the signed payload.
Interfaces	Interfaces	40091	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use Escape Characters for the following: &,',<",>. Escape Characters: & ' < " >
Interfaces	Interfaces	40092	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall set the VoidInd on every record to 1 when the internal California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) BatchCategoryCD is FTB_EOY_SUBMIT_VOID_RECORDS_REQ or FTB_EOY_RESUBMIT_VOID_RECORD_REQ.
Interfaces	Interfaces	40093	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall set the CorrectedInd on every record must be 0 when the internal California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) BatchCategoryCD is FTB_EOY_SUBMIT_VOID_RECORDS_REQ or FTB_EOY_RESUBMIT_VOID_RECORD_REQ.
Interfaces	Interfaces	40094	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall reference a VoidedRecordSequenceNum that includes a BatchID that matches a BatchID from a transmission that FTB has processed when voiding a record.
Interfaces	Interfaces	40095	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall reference a VoidedRecordSequenceNum that includes a DocumentSequenceNum that matches one of the DocumentSequenceNum received in the batch referenced by the BatchId.
Interfaces	Interfaces	40096	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall include the following as part of a void record: All of the form information from the referencing record that is being voided with the only changes being the metadata that marks the record as void and references the record being voided.
Interfaces	Interfaces	40097	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall not comingle original records, correction records or voided records.
Interfaces	Interfaces	40098	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall process records as follows in the case of a correction that needs to later be voided: If California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) transmitted an original record and subsequently transmitted two corrections to that record before it is discovered that the record needed to be marked void, California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) will populate the VoidedRecordSequenceNum with the Batch Id, the Document Sequence Number and the Record Sequence Number from the second correction record transmitted.
Interfaces	Interfaces	40099	The void indicator will be set to 0 when submitting an original or corrected submission.
Interfaces	Interfaces	40100	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not send void records submission until acknowledgement of original submission has been received. If the record was then corrected, void record will not be sent until the correction submission acknowledgement has been received.
Interfaces	Interfaces	40101	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall add two new batch category codes at the payload level: FTB_EOY_SUBMIT_CORRECTED_RECORDS_REQ FTB_EOY_RESUBMIT_CORRECTED_RECORDS_REQ
Interfaces	Interfaces	40102	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall set the Corrected Indicator to 1 and the Void Indicator to 0 when sending a corrected 3895 record.
Interfaces	Interfaces	40103	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall indicate the corrected record with the Corrected Record Sequence Number (Batch Id Document Sequence Number Record Sequence Number)

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Interfaces	Interfaces	40104	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall set the corrected indicator to 0 when submitting an original 3895 submission.
Interfaces	Interfaces	40105	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not send corrected records submission until acknowledgement of original submission has been received.
Interfaces	Interfaces	40106	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall utilize the common data collection process as is used for IRS.
Interfaces	Interfaces	40107	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the common data collection process to include middle initial, if present for the primary tax filer, other relevant adult, spouse submitted in the 3895 file.
Interfaces	Interfaces	40108	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add the Repayment cap may not apply.
Interfaces	Interfaces	40109	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add the State Subsidy amount in 3895 submission
Interfaces	Interfaces	40110	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall transmit the "Repayment Cap May Not Apply" field as True to the Franchise Tax Board only if the tax household attested to income that was over 400% FPL for all months of the benefit year that they were enrolled with CCA.
Interfaces	Interfaces	40111	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) can send void or corrections for four years past the initial coverage year. For example, a Form sent on January 31, 2021 for coverage year 2020 can be voided or corrected until January 31, 2025.
Interfaces	Interfaces	40112	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create a test only process to change the SSN captured during testing to a value acceptable by FTB on creation of test file as FTB specific SSN values are not supported by California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) test environment.
Interfaces	Interfaces	40129	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall replace the Recipient, Recipient Spouse and Covered Individual Name (First, Middle, Last) containing only the special characters (~!@#\$%^&*()_+~[]{}<&\ ";:/?>.,) with "Unknown" so the record does not error out.
Interfaces	Interfaces	40130	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use number of files as an optional parameter in order to control, identify, process or hold transmission data to be sent to FTB (FTB-2020-FX-01).
Interfaces	Interfaces	40131	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create a new Outbound Batch to enforce the 2021 schema validations as provided by FTB for 3895 payloads.
Interfaces	Interfaces	40327	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send and receive the zip+4 code via eHIT.
Interfaces	Interfaces	40574	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create a batch to call the online FTB income API call for the RRV population.
Interfaces	Interfaces	40575	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall spread total call volume to be under daily threshold set by FTB.
Interfaces	Interfaces	40576	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall attempt a retry up to 3 times to retrieve 540 form details using online FTB income API in case of technical errors received from FTB (HTTP response code 401, 403, 500, 503).
Interfaces	Interfaces	40577	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the VIED to incorporate the FTB batch call for California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Renewal processing.
Interfaces	Interfaces	40579	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall perform performance testing of the max call volume load with FTB.
Interfaces	Interfaces	40688	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the FTB 2021 schema from "Subsidy_v1.0" to "Subsidy_v2.0" according to the updated schema package sent by FTB.
Interfaces	Interfaces	40689	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the FTB 2021 schema from "fx_2020" to "fx_2021" according to the updated schema package sent by FTB.
Interfaces	Interfaces	40690	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add "IntegerIdType" into the FileExchangeTypes.xsd and will utilize this type in HealthCareSubsidyHeader.xsd
Interfaces	Interfaces	40691	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall replace hyphen with space in a hyphenated name (First Name, Middle Name and Last Name) for monthly, annual, resubmission, corrections and void processing of 3895 Payload.
Interfaces	Interfaces	40692	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not populate an empty optional tags for monthly, annual, resubmission, corrections and void processing of 3895 payloads to avoid transmission rejections.
Interfaces	Interfaces	40693	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall persist the updated Asynchronous validations codes as updated by FTB and incorporate the business rules as per 2021 schema.
Interfaces	Interfaces	40805	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall persist the updated Synchronous validations codes as updated by FTB and incorporate the business rules as per 2021 schema.
Interfaces	Interfaces	40806	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create new Inbound Batch to enforce the 2021 schema validations as provided in the xsd schema as provided by FTB for 3895 payloads.
Interfaces	Interfaces	40807	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall process the "Transmission Message" tag as per the updated Acknowledgment schema package sent by FTB.
Interfaces	Interfaces	40808	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall process the new transmission status "Accepted with Message" received from FTB.
Interfaces	Interfaces	40809	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create new OAG Policies for v2 endpoints to transmit data to FTB via File Exchange API Channel using a TLS 1.2-encrypted RESTful endpoint.
Interfaces	Interfaces	40810	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create new File Exchange (FX) Batch for V2 to send the payload to FTB over REST protocol via File Exchange API.
Interfaces	Interfaces	40811	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall poll FTB's new WebAPI Enpoints for V2 to retrieve the Acknowledgment Status for the transmission (Accepted, Accepted with Errors, Rejected, Accepted with Message) using the Receipt ID.
Interfaces	Interfaces	40815	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the IRS XML library to ACA AIR IEP 5.0 1095A FS21 AIR-IEP 1095A upstream schema v1.0 for Marketplace.
Interfaces	Interfaces	40816	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall maintain current implemented schemas for coverage year 2019 and prior year.
Interfaces	Interfaces	40817	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall implement the IRS XML library to ACA AIR IEP 5.0 1095A FS21 AIR-IEP 1095A upstream schema v1.0 for coverage year 2020 and future years.

Category	Sub Category	Req ID	Requirement
Interfaces	Interfaces	40818	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall update the “MarketPlacePolicyNum” to allow only alphanumeric values.
Interfaces	Interfaces	40819	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall update the elements in the IRS schema and persist it in the database.
Interfaces	Interfaces	40820	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall update the error codes removed by IRS and validate the business rules by the schema.
Interfaces	Interfaces	40821	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall parse new error codes returned by IRS and persist it in the database.
Interfaces	Interfaces	40932	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update VIED to incorporate the Verify Current income request and response for real-time API.
Interfaces	Interfaces	40934	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall populate Response code and Description in DER/DER-U for each individual received from CMS at request level.
Interfaces	Interfaces	40935	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall populate the VCI response in DER/DER-U when a VCI service is invoked for each applicable individual on the case.
Interfaces	Interfaces	40937	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to invoke VCI service via FDSH and receive response from FDSH for each request.
Interfaces	Interfaces	40938	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall invoke the VCI call only for individuals that have e-verified SSN.
Interfaces	Interfaces	40939	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have functionality to include multiple individuals for a VCI request made to CMS.
Interfaces	Interfaces	40940	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement Error Handling during request generation and response processing for VCI service.
Interfaces	Interfaces	40941	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall enforce schema validations as provided in the XSD schema as provided by CMS for the H138 - Verify Current Income service.
Interfaces	Interfaces	40942	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall transmit data to CMS via the SOAP API Channel using a TLS 1.2-encrypted endpoint.
Interfaces	Interfaces	40943	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall store the request and response made to the VCI Service in a new schema in the HBX database .
Interfaces	Interfaces	40944	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall normalize VCI response received from CMS
Interfaces	Interfaces	40946	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall escape the following characters in the request made from California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) to CMS VCI service: •& (ampersand) as & •< (less than) as < •> (greater than) as > •' (apostrophe) as ' •" (quotation mark) as "
Interfaces	Interfaces	40947	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall treat HE000001 as not having income from this source.
Interfaces	Interfaces	40948	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall consider response codes other than HE000001 and HS000000 as not verified as the call is failed at the CMS Gateway.
Interfaces	Interfaces	40949	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update Mock Services to simulate responses from the VCI service in order to support testing.
Interfaces	Interfaces	41170	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement an API gateway policy to integrate with new EDD gateway interface.
Interfaces	Interfaces	41202	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send up to 12 months of Pay Period Information to SAWS in a DER/DER-U via Ehit
Interfaces	Interfaces	41292	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall support EDD Performance testing on the new API Gateway.
Interfaces	Interfaces	42249	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to convert the following document types to PDF format and save the PDF file in California Healthcare Eligibility, Enrollment and Retention System (CalHEERS): 1. Excel 2. Word 3. Powerpoint 4. JPEG 5. JPG 6. TIFF 7. RTF 8. PNG 9. GIF 10. JFIF
Interfaces	Interfaces	42250	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to show the preview of the converted PDF file to the user and the original file shall not be stored in California Healthcare Eligibility, Enrollment and Retention System (CalHEERS).
Interfaces	Interfaces	42251	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to notify the user if the document conversion fails or errors out.
Interfaces	Interfaces	42252	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add the functionality to allow user to upload documents in GIF, JFIF and PNG in addition to the existing file types of Excel, Word, PowerPoint, JPEG, JPG, TIFF, PDF or RTF on the following screens – 1. Documents and Correspondence 2. Confirm Identity 3. Flexi App 4. Upload Eligibility

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

OTSI CalHEERS RFP #73040873 Addendum 1
October 31, 2025

Category	Sub Category	Req ID	Requirement
Interfaces	Interfaces	42253	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add the functionality to allow user to upload documents in Excel, Word, PowerPoint, TIFF, RTF types on the VLP screen in addition to the existing file types of PDF, JPG, GIF, PNG, JPEG and JFIF.
Interfaces	Interfaces	42254	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to perform a one-time document conversion to convert the existing files in Production for all active/inactive cases to PDF. 1. Excel 2. Word 3. Powerpoint 4. JPEG 5. JPG 6. TIFF 7. RTF 8. PNG 9. GIF 10. JFIF
Interfaces	Interfaces	42255	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display a county phone number that corresponds to a consumer's COR when a phone number is displayed to a consumer for file upload errors on the Upload Eligibility screen for an individual on their case with one of the following Medi-Cal eligibility statuses: - MAGI Medi-Cal Eligible/Conditionally Eligible/Pending - MAGI Medi-Cal Discontinued when also Exchange program ineligible - Non-MAGI Medi-Cal Eligible/Potentially Eligible
Interfaces	Interfaces	45509	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the ability to turn on/off document conversion technology used for user upload functionality.
Interfaces	Interfaces	46313	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall utilize AEM 6.5 as the conversion tool to convert documents upon upload from the following California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) screens to PDF format in real time: 1. Documents and Correspondence 2. Confirm Identity 3. Flexi App 4. Upload Eligibility 5. VLP
Interfaces	Interfaces	47304	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use an inquire client information service in the following scenarios to load Family PACT case information for an existing client from the HAP database to the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Family PACT database: 1. An admin or provider user selects to access an existing client's application from the search results. 2. A consumer attempts to link their account to an existing HAP card during the account creation process.
Interfaces	Interfaces	47305	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send the following data elements to HAP in an inquire client information service request: 1. HAP ID 2. Date of Birth
Interfaces	Interfaces	47306	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall receive the required Family PACT application data elements and eligibility information from HAP in an inquire client information service response if HAP identifies one existing client with a full match to the inquire client information service request.
Interfaces	Interfaces	47307	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall receive an inquire client information service response if no existing clients match the inquire request criteria.
Interfaces	Interfaces	47308	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall only receive the first 9 alphanumeric digits of the HAP ID from the HAP system.
Interfaces	Interfaces	47309	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the capability to handle errors with the inquire client information transaction including validation errors, error response codes, and technical exceptions.
Interfaces	Interfaces	47312	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the capability to handle errors with the identify client transaction including validation errors, error response codes, and technical exceptions.
Interfaces	Interfaces	47313	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use a real-time Activate service to send HAP intake application information including newly generated HAP card number and eligibility information.
Interfaces	Interfaces	47314	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall only send the first 9 alphanumeric digits of the HAP ID to the HAP system.
Interfaces	Interfaces	47315	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the capability to handle errors with the Activate transaction including validation errors, error response codes, and technical exceptions.
Interfaces	Interfaces	47316	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use a real-time Update service to send HAP any updates to application information and no eligibility information is sent during RAC applications.
Interfaces	Interfaces	47317	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the capability to handle errors with the Update transaction including validation errors, error response codes, and technical exceptions.
Interfaces	Interfaces	47318	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use a real-time Recertify service to send HAP updates to application information and eligibility information that are received during Recertify/Reapply applications.
Interfaces	Interfaces	47319	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the capability to handle errors with the Recertify transaction including validation errors, error response codes, and technical exceptions.

Category	Sub Category	Req ID	Requirement
Interfaces	Interfaces	47320	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use a real-time Deactivate service to send HAP updates to eligibility status when a client is determined ineligible or discontinued from Family PACT eligibility.
Interfaces	Interfaces	47321	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the capability to handle errors with the Deactivate transaction including validation errors, error response codes, and technical exceptions.
Interfaces	Interfaces	47322	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall receive a real-time API call from CA-MMIS with updates to the Provider Master File (PMF) for each provider site location that needs to be either activated or deactivated.
Interfaces	Interfaces	47323	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall receive the real-time API call of the PMF with the following data elements: 1. Action 2. Provider Number (NPI) 3. Location ID 4. Enrollment Status 5. Category of Service 6. Business Name 7. Service Address Line 1 8. Service Address Line 2 9. City 10. State 11. Zip
Interfaces	Interfaces	47324	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall process the Provider Master File transaction and depending on the action received, activate or deactivate the provider site location.
Interfaces	Interfaces	47325	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall receive the following provider site location statuses in the action field: 1. Activate 2. Deactivate
Interfaces	Interfaces	47326	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall activate a provider site location when California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) receives a PMF transaction from CA-MMIS that has the activate action field.
Interfaces	Interfaces	47327	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall deactivate a provider site location when California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) receives a PMF transaction from CA-MMIS that updates a provider's site location's status to deactivate.
Interfaces	Interfaces	47329	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the capability to handle errors with the Provider Master File (PMF) transactions including validation errors, error response codes, and technical exceptions.
Interfaces	Interfaces	47330	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use the Smarty Streets service to validate address information entered on the Family PACT Portal.
Interfaces	Interfaces	47331	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add mock services of interface transactions between the Family PACT system and its business partners.
Interfaces	Interfaces	47332	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add mock services of interface transactions between the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Family PACT system and the Health Access Program (HAP) system.
Interfaces	Interfaces	47572	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall update the technical components for the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS Interface (known as EHIT) for communication with the SAWS for functional changes made to the system for the following Release 24.6 functional CRs: - CR 178286 - Adding Data Elements to eHIT.
Interfaces	Interfaces	47642	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall close the DHS case for any unresolved V37 Step 2 and Step 3 and re-initiate Step 1 of the case in V37.1.
Interfaces	Interfaces	47725	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall persist multiple Effective Start and End Dates for Non-ESI real time API, RRV (Medicare) Process, and PVC (Medicare) response received from CMS at the Individual Level.
Interfaces	Interfaces	47748	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update Mock Services to simulate the responses received from Non-ESI API, RRV (Medicare), PVC (Medicare) service in order to support testing.
Interfaces	Interfaces	47836	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall ensure that VER-2004-IB-01 RRV batch job should update INDV_ID and status details in IRS Response Tables.
Interfaces	Interfaces	47837	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall purge the data from all the request and response tables in the secured schema for MMRRV Service.
Interfaces	Interfaces	48100	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add new failure to reconcile code HE020011, (returned from IFSV) when an individual did not reconcile APTC and/or did not file taxes for two consecutive years to the existing Failure to Reconcile code history table.
Interfaces	Interfaces	48101	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add new failure to reconcile code 011, (returned from RRV) - when an individual did not reconcile APTC and/or did not file taxes for two consecutive years to the existing Failure to Reconcile code history table.
Interfaces	Interfaces	48154	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send the plain language interpretation of Admin Pass/Fail to SAWS for all verifications.
Interfaces	Interfaces	48156	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall continue to send E-Verification Response and the E-Verification Response Date to SAWS for the most recent HUB response when a subsequent admin verification is received.
Interfaces	Interfaces	48158	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall continue to send error codes if applicable to SAWS for the most recent HUB response when an admin verification is present.
Interfaces	Interfaces	48176	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create and display a no call reason for each verification attribute on the Personal Verification page.
Interfaces	Interfaces	48177	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send the no call reason for each verification service in the system generated DER/DER-U
Interfaces	Interfaces	48178	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall introduce new mock rules across different data elements for No Call reason

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Interfaces	Interfaces	48189	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall persist or not persist immigration receipt or card number in SAWS EDR if not in acceptable format.
Interfaces	Interfaces	48191	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the retry process for the applicable electronic verification services if hub is down
Interfaces	Interfaces	48192	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall introduce new mock rules across different data elements for recreating hub down scenario
Interfaces	Interfaces	48193	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement retry service with configuration switch for ON/OFF capability
Interfaces	Interfaces	48203	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send and receive the alternative format information collected via eHIT in the EDR, DER, Update Inbound, and Update Outbound transactions.
Interfaces	Interfaces	48204	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have an ability to send the alternative formats to Salesforce (Consumer Search API) that are attested by the consumer on the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) portal or sent from SAWS via eHIT.
Interfaces	Interfaces	48208	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the ability to consume and persist alternative format attestations sent by SAWS via eHIT while the alternative format attestation collection functionality is turned OFF.
Interfaces	Interfaces	48212	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the ability to turn on/off CR 173678 functionality.
Interfaces	Interfaces	48220	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update filename structure to remove .IN suffixes from the Federal Interfaces
Interfaces	Interfaces	48221	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall able to process all the Outbound bulk files when received from CMS after CMS has updated the filename structure to remove the .OUT suffixes.
Interfaces	Interfaces	48222	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the CMS application ID for the Federal Interfaces as applicable.
Interfaces	Interfaces	48417	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall validate the exchange eligibility records in MEDS are in sync with California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) eligibility records, and the renewal eligibility has been extended to 12/31 of the renewal year in MEDS.
Interfaces	Interfaces	48528	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the ability to persist "No" alternative format attestations if SAWS does not send an alternative format attestation via eHIT in EDR transactions.
Interfaces	Interfaces	48530	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall update the technical components for the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS Interface (known as EHIT) for communication with the SAWS for functional changes made to the system for the following functional CRs: 1. CR220303 - BREfS #5 High Impact Business Validations 2. CR252586 - Design Change Request (DCR) for R25.2
Interfaces	Interfaces	48626	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create Mock Services for ESC, EAD and Major Code for VLP response.
Interfaces	Interfaces	48647	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall make Inquire Member call and utilize Eligibility Information to determine user's active Medi-Cal eligibility when user clicks on "Get Confirmation Letter" button on Individual Eligibility Details page.
Interfaces	Interfaces	48648	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send real-time immediate need HX20 ESAC -1 transaction with Eligibility Approval Date field populated to MEDS if Inquire Member call results into Business Validation error or timed out.
Interfaces	Interfaces	48649	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send real-time immediate need HX20 ESAC -1 transaction with Eligibility Approval Date field populated to MEDS when: 1. User clicks on "Get Confirmation Letter" button on Individual Eligibility Details page, and 2. MEDS does not return active Medi-Cal eligibility in response to Inquire Member call, or MEDS returns active Medi-Cal eligibility with 8E aid code in response to the Inquire Member call.
Interfaces	Interfaces	48650	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall populate Eligibility Approval Date field on the real-time immediate need HX20 ESAC-1 transaction, as the date the user clicks on "Get Confirmation Letter" button on Individual Eligibility Details page.
Interfaces	Interfaces	48651	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall receive and utilize the assigned temporary BIC Number from MEDS as response to real-time immediate need HX20 ESAC-1 transaction.
Interfaces	Interfaces	48652	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall populate the Identification Number field on the Medi-Cal Eligibility Confirmation letter in real-time with the the assigned temporary BIC number when California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) sends real-time immediate need HX20 ESAC -1 transaction to MEDS.
Interfaces	Interfaces	48653	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display appropriate message to user reaching out to county in case MEDS returns active Medi-Cal eligibility except 8E aid code in response to the Inquire Member call.
Interfaces	Interfaces	48654	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall replay the real-time immediate need HX20 ESAC-1 once immediately if the transaction timed out the first time.
Interfaces	Interfaces	48657	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create mock rules for Identity Member, Inquire Member, and real-time immediate need HX20 ESAC-1 transactions.
Interfaces	Interfaces	48674	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall enhance the SLCSP function to fetch data from the Enrollment Tables.
Interfaces	Interfaces	48675	For individuals eligible for APTC/CSR/CAPS, California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall enhance the SLCSP function to fetch the data from the Enrollment Tables.
Interfaces	Interfaces	48676	For individuals eligible for CCP only or AI/AN unsubsidized CSR, California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall continue to calculate the SLCSP values for tax years up to 2023, and from 2024 onwards, California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall retrieve SLCSP values from the enrollment tables.
Interfaces	Interfaces	48677	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the ability to report the addition or removal of a spouse for a particular tax year and generate the tax payloads as applicable.

Category	Sub Category	Req ID	Requirement
Interfaces			California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add a new business validation to check the invalid SSN patterns with the following patterns: '111111111' '123456789' '333333333' '000000000' '222222222' '555555555' '666666666' '777777777' '999999999' '888888888' '444444444' '012345678' '000123456' '123004567' '123450000' Length less than 9 digits Contains alphabetic characters
	Interfaces		
Interfaces	Interfaces	48678	
Interfaces	Interfaces	48680	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall exclude Dental and Catastrophic plans and Pending Enrollments from the 1095 and 3895 batch processes.
Interfaces	Interfaces	48794	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have an ability to send the alternative formats to MEDS that are attested by the consumer on the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) portal or sent from SAWS via eHIT.
Interfaces	Interfaces	48796	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the ability to persist "No" alternative format attestations if SAWS does not send an alternative format attestation via eHIT in EDR transactions.
Interfaces			The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall update the technical components for the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS Interface (known as EHIT) for communication with the SAWS for functional changes made to the system for the following functional CRs: 1. CR233034 - Inclusion of Resonable Explanation. 2. CR253663 - Enhancements to Awaiting Review and Disposition Functionality
	Interfaces	48837	
Interfaces	Interfaces	48920	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send an Eligibility Evaluation Reason Code of "MAGI Medi-Cal: Awaiting Review" (RV) on the DER/DER-U when Eligibility Review is required by SAWS for Carry Forward consumers.
Interfaces	Interfaces	48921	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall deprecate the functionality of the CarryForwardLiftInd eHIT element.
Interfaces	Interfaces	48922	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall deprecate the EERC code of 'CX' (CFS Not Completed - Cannot determine prior IAPT Transition Month or three-month Retro period).
Interfaces			California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the business rules of the following EERC's to allow them to be triggered for prior benefit months: - CM (CFS Ended - MAGI Medi-Cal Ineligible) - CA (CFS Ended - Prospective APTC/CSR/CCP Eligibility) - CD (CFS Ended - MAGI Medi-Cal Eligible or Conditionally Eligible)
	Interfaces	48928	
Interfaces	Interfaces	48933	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the business rules for the IAP Transition End Date element to only be sent on the DER/DER-U after the individual's Carry Forward Status has ended.
Interfaces			California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send the HX18, HX20 ESAC 1, HX15 (real-time immediate need HX20 ESAC 1), and HX34 transactions with the following data elements (First Name, Last Name, SSN and DOB) returned from the Inquire Member Service, if the data elements do not match the consumer-provided information for APTC/CSR/CCP/MCAP/CCHIP/MAGI Medi-Cal individuals.
	Interfaces	48957	
Interfaces	Interfaces	48958	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the HX40 with the date of death and the termination reason code: 01 sent for APTC/CSR/CCP/MCAP/CCHIP when the eligibility is determined as discontinued due to death as a result of the Periodic Death Verification process.
Interfaces	Interfaces	48959	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send DE2086 in the HX18, nightly HX20 ESAC-1, and HX15 (real-time immediate need HX20 ESAC-1) MEDS transactions as "3E" when the consumer is verified by VLP as a US Citizen when the consumer originally attested to being lawfully present.
Interfaces	Interfaces	48960	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not send the DE2068 (Alien Verification Code) in the HX18, nightly HX20 ESAC-1, HX15 (real-time immediate need HX20 ESAC-1), and RX20 MEDS transactions.
Interfaces	Interfaces	48969	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send the eligibility of all active case members via a new eHIT transaction (Disposition Acknowledgment Transaction) when the Disposition is processed.
Interfaces	Maintain Operational Data		
Interfaces	Maintain Operational Data	38429	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS eHIT interface shall implement preventative measures to avoid demographic data overlay for person mismatches at the primary contact level.
Interfaces	Maintain Operational Data	38430	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS eHIT Interface shall use a series of demographic data points to identify person mismatches at the primary contact level.
Interfaces	Maintain Operational Data	38431	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS eHIT Interface shall create a logging event and reject the EDR transaction to inform SAWS of a person data mismatch at the primary contact level.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Interfaces	Maintain Operational Data	38432	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS eHIT Interface shall provide an administrative flag at the person level to bypass the matching criteria validation and allow for correcting demographic information within California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) by the SAWS.
Interfaces	Maintain Operational Data	38434	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS Interface shall provide an ability to update the designation of the Primary Applicant and Primary Contact with California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) by the SAWS.
Interfaces	Maintain Operational Data	38733	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) will create a batch Recon file containing RX20 transactions on a the first weekend of every month for the upcoming business day in MEDS.
Interfaces	Maintain Operational Data	38734	The RX20 transactions will include the data elements defined in the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) interpretation of the MEDS IDD.
Interfaces	Maintain Operational Data	38735	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) will send the termination date (program effective end date) as determined by the Business Rules Engine (BRE) on the data element 0150 (termination date).
Interfaces	Maintain Operational Data	38736	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) generated Recon file will contain RX20 transactions only for members eligible to aid codes which are solely reported/managed by the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system.
Interfaces	Maintain Operational Data	38737	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) will send RX20 transactions for the programs below: -APTC -CSR -CCP -CCHIP and -MCAP programs
Interfaces	Maintain Operational Data	38738	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) generated Recon file will contain RX20 transactions for the recon month-specific Eligible and Conditional Eligible individuals (excludes Pending, Ineligible, and Discontinued).
Interfaces	Maintain Operational Data	38739	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) generated Recon file will only include individual transactions for Cases with a Status of Active
Interfaces	Notices		
Interfaces	Notices	38710	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall generate a NEW reason snippet on the portal when a consumer is Ineligible or Discontinued for CCP/APTC/CSR due to CCHIP eligibility.
Interfaces	Notices	38716	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall generate a NEW reason snippet on the notices when a consumer is Ineligible or Discontinued for CCP/APTC/CSR due to CCHIP eligibility.
Interfaces	Notices	38718	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall update the portal snippets to match the verbiage in NOD01 snippets 695, 696, 697, 699, 700, and 701.
Interfaces	Notices	43102	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall update the Business Rules to handle the following conditions for the 1095s: - If the "Multiple APTC Per Evernt Date" and "Multiple Gross per Event Date" fallout reasons and if there are multiple events posted with APTC and/or GROSS changes on the same day take the amount from the latest event. Policies with different APTC amounts tied to the same event will be set to error. - Extend sending the 2014 monthly and correction files though December 2015 We will need to update our configuration to support this. -Remove employer name from the monthly file submission
Interfaces	Notices	43312	"The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall send the following information in the determination of eligibility response to SAWS at the individual level via ehit: -MAGI size, -MAGI Income, -MAGI Income Limit"
Interfaces	Notices	43313	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS eHIT Interface shall include DeterminationOfEligibilityResponseID for Batch Document Transfer #7.
Interfaces	Notices	45763	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update 1095/3895 tax forms to display the correct SLCSP amount and shall not consider the inactive silver plans while choosing the second lowest silver plan for the given Service Area/ZIP code while calculating the SLCSP amount.
Interfaces	Notices	48839	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall transfer the NOD01 notice to CalSAWS when all the following conditions are met: 1. At least one individual on the case is determined Conditionally Eligible for 8E (Accelerated Enrollment) for a SAWS initiated application 2. At least one individual is Conditionally Eligible for 8E (Accelerated Enrollment) at the end of the day prior to the Notice batch run.
Interfaces	Notices	48840	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) will send the encrypted file via SFTP file transfer with additional parameters required by CalSAWS.
Interfaces	Notices	49324	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall minimize delay and ensure timely completion of the Notices generation and electronic delivery for NOD01 notices.
Interfaces	Notices	49325	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall optimize the NOD01 A/B - Intake , renewal notice generation process to cater increased load and to send timely notices to the users immediate next day after 12:01 am
Interfaces	Notices	49326	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall optimize the NOD01 C - RAC notice generation process to cater increased load and to send timely notices to the users immediate next day after 12:01 am
Interfaces	Notices	49327	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send electronic communication - email notices to the consumers on a case by case basis once the notice for the case is generated.
Interfaces	Notices	49328	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall optimize the reprint of notices as part of this change
Interfaces	Renewal		

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Interfaces	Renewal	39556	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall include an “informational update” flag for DER-Us on mixed cases when the only change is to the aid code, subsidy amount, effective date, or eligibility status for an APTC/CSR/CCP member and no change to MAGI Medi-Cal members.
Interfaces	Renewal - SHOP		
Interfaces	Renewal - SHOP	42814	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall be able to generate a Notice that will be included in the same envelope as Form 1095-A Health Insurance Marketplace Statement, which will describe the form and how it's to be used for tax filing purposes. The notice will provide the consumer with a description of: • Why the consumer is getting the notice • How Covered CA calculates financial assistance • How to obtain tax filing assistance • How the Consumer can adjust the amount of APTC claimed
Interfaces	Reports		
Interfaces	Reports	38226	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall report the amounts in Part III of the 1095 form, including Monthly Premium Amount (Column A), SLCS (Column B), and APTC (Column C) per IRS guidance for scenarios where the household is terminated due to non payment
Interfaces	Reports	38497	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall update the static language in NOD62A & NOD62B for consumer who may be impacted by termination due to non-payment
Interfaces	Reports	40021	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall make available for distribution to the Tax Filer, or Other Relevant Adult, a hardcopy, paper Form 1095-A Health Insurance Marketplace Statement on or before January 31st of each calendar year beginning with 2015 and every year thereafter.
Interfaces	Reports	42509	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall, on a monthly basis, transmit individual market information to the IRS through the CMS-managed Data Services Hub on individuals, tax households, policies purchased, and exemptions from the shared responsibility payment, organized by IRS Group Identifier.
Interfaces	Reports	42510	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall ensure that the monthly data feed will be cumulative, containing monthly data for each month from the start of the coverage year in January through the most recent completed month. For example, a monthly transmission produced in September will contain information for each month from January through August, enabling updates to prior months within each monthly submission.
Interfaces	Reports	42511	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall create the IRS Group Identifier as a 16-digit system-generated alpha numeric ID. This number is unique within each exchange. The IRS Group and its accompanying IRS Group Identifier is used to track tax households, exemptions, policies and covered individuals over time (Including multiple cases as part of the group ID if on the same policy, two tax households on the same policy).
Interfaces	Reports	42512	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall ensure policies will not cross IRS Groups, i.e., one policy cannot be spread across multiple IRS Groups, and a policy can only exist in one IRS Group.
Interfaces	Reports	42513	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall ensure tax households will not cross IRS Groups, i.e., one tax household cannot be spread across multiple IRS Groups, and a tax household can only exist in one Group. A new IRS Group and IRS Group Identifier is created whenever a change of circumstance generates a new household with coverage that is separate and not overlapping with an existing IRS Group (e.g. divorce, individual turns 26 and purchases a separate policy).
Interfaces	Reports	42515	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall report monthly activity for an IRS Group. California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) will continue to report this activity in the remaining submissions for the calendar year (including the three-month correction period of the following calendar year). Example: When a single individual purchases a plan through California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) for January, California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) will create an IRS Group for the single individual, and report it for January, 2014 (submission to the IRS by February 15, 2014). If he or she then terminates coverage such that he or she is not enrolled for February, 2014, California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) will continue to include his or her record in the January, 2014 component of each subsequent submission.
Interfaces	Reports	42528	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall adhere to the data transmission schedule set forth by the IRS to the Federal Data Services Hub. This will ensure the data is transmitted to the IRS by the 15th of the month using the Federal Data Services Hub.
Interfaces	Reports	42529	10) The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall submit the data elements that are identified as being reported monthly, as described in Exchange Version of Business Service Definition of Monthly Information and 1095 End of Year Information Return Part I, Table 3, Data Elements Table. The table also provides format and other reporting information for those elements that are included in the monthly feed.
Interfaces	Reports	42530	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall define a record for the monthly information and 1095 End of Year Information return as follows: A record is the collection of data, representing a single, complete IRS Group (used to track Tax Households, Exemptions, Policies and Covered Individuals over time) or a SHOP Employer for all of the applicable coverage months.
Interfaces	Reports	42531	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall define a transmission for the monthly information and 1095 End of Year Information return as follows: A transmission is a single SOAP message to IRS with a file attachment.
Interfaces	Reports	42532	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall define an Invalid transmission for the monthly information and 1095 End of Year Information return as follows: A transmission is determined to be invalid when a single SOAP message to IRS with a file attachment is identified as a potential threat, potential code injection, failed XML schema validation, or failed virus checks. An invalid transmission is rejected and not accepted by the IRS.
Interfaces	Reports	42533	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall define a submission year for the monthly information and 1095 End of Year Information return as follows: The submission year is the calendar year the monthly information is transmitted.
Interfaces	Reports	42534	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall define a submission month for the monthly information and 1095 End of Year Information return as follows: The submission month is the calendar month the monthly information is transmitted.
Interfaces	Reports	42535	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall define a submission for the monthly information and 1095 End of Year Information return as follows: A submission is one or more physical files transmitted to the IRS every month from California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) through the Data Services Hub containing the data described in the Exchange Version of Business Service Definition of Monthly Information and 1095 End of Year Information Return Part I for a given applicable coverage year.
Interfaces	Reports	42536	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall define a incomplete submission for the monthly information and 1095 End of Year Information return as follows: A submission is considered incomplete if the total number of files received by IRS is not equal to the number files expected.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Interfaces	Reports	42537	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall define an invalid submission for the monthly information and 1095 End of Year Information return as follows: An invalid submission is a submission with invalid submission characteristics (Submission Period, Coverage Period or Unidentified Originating Exchange). IRS will reject the entire submission.
Interfaces	Reports	42538	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall define a valid submission for the monthly information and 1095 End of Year Information return as follows: A valid submission is a complete submission with acceptable submission characteristics (Submission Period, Coverage Period, or Originating Exchange). IRS will process the entire valid submission.
Interfaces	Reports	42539	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall define a processed submission for the monthly information and 1095 End of Year Information return as follows: A processed submission is a valid submission that went thru IRS schema validation, TIN validation checks and consistency checks.
Interfaces	Reports	42540	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall submit one valid submission per calendar month which includes data for each previous months of the current year, noting that SHOP may provide data. If a submission is not accepted, the Exchange is expected to submit a corrected submission within 48 hours.
Interfaces	Reports	42541	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) may transmit two submissions, one for the current coverage year and the other for the previous coverage year, beginning in 2015 (during the three-month period of February through April).
Interfaces	Reports	42542	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall ensure that each submission contains the most current information for each coverage months for the individual market and will include everyone who was granted an exemption and everyone who purchased coverage, not just the recipients of APTC.
Interfaces	Reports	42543	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall send separate submissions for the individual market and SHOP.
Interfaces	Reports	42544	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall label multi-file submissions 1 of x, 2 of x...x of x.
Interfaces	Reports	42545	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall perform business data consistency checks of all submissions as specified in the Exchange Version of Business Service Definition of Monthly Information and 1095 End of Year Information Return Part I Tables 3 and 4.
Interfaces	Reports	42546	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall resubmit a submission if not accepted within 48 hours. If a submission is identified as having missing transmissions, The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall retransmit the transmission, or if that is not possible, resubmit the entire submission.
Interfaces	Reports	42550	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall ensure that each transmission will have an attached file that is well formed XML and adheres to the XML schema defined by the IRS.
Interfaces	Reports	42551	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall ensure that entire IRS Groups or SHOP Employers (to include all applicable coverage months) must be contained within a single transmitted file (e.g., IRS Groups cannot be split across transmissions; SHOP Employers cannot be split across transmissions and must be a SOAP message with MTOM attachment and manifest that complies with HHS ACA XML Library.) More detail regarding valid/invalid transmissions is available in appendix B of the Exchange Version of Business Service Definition of Monthly Information and 1095 End of Year Information Return Part I.
Interfaces	Reports	42552	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall ensure that each transmission is properly identified, threat and attack free, and error free before being submitted to the IRS.
Interfaces	Reports	42553	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall ensure all transmissions to have a valid Exchange identifier and other header information as defined by CMS/IRS, and meet security standards.
Interfaces	Reports	42554	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall process a confirmation of acceptance of the transmission.
Interfaces	Reports	42555	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall use an automated informative mechanism for processing error messages either manually or electronically returned on the transmissions and submission from the Federal Data Services Hub or IRS based on processing business rules for specific error types (see error table included in the Exchange Version of Business Service Definition of Monthly Information and 1095 End of Year Information Return Part II (see table 6 Error Codes and Descriptions).
Interfaces	Reports	42556	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall only send one coverage year per file.
Interfaces	Reports	42557	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall process errors returned from the IRS based on the Technical Error Library detailed in the BSD CMS – IRS ACA Integration Initiative Exchange Version of Business Services Definition of Monthly Information and 1095 End of Year Return Part II (see table 6 Error Codes and Descriptions).
Interfaces	Reports	42558	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall only report policy information for QHPs and associated pediatric dental plans sold through California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) (no information about exemptions granted by California Healthcare Eligibility, Enrollment and Retention System (CalHEERS)) for the 1095 End of Year Information Return.
Interfaces	Reports	42559	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall report the data it has on record at the time of the report generation. A change that occurs during the year—either reported to California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) or identified by California Healthcare Eligibility, Enrollment and Retention System (CalHEERS)—will be reflected in the next monthly transmission sent to the IRS. The Exchange 1095 End of Year Information Return will include data through the end of the year.
Interfaces	Reports	42560	After the close of the tax year, The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall report to the tax filer (or other relevant adult) and IRS on individual market policies purchased through California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) for the 1095 End of Year Information Return.
Interfaces	Reports	42561	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall generate a single 1095 for each policy issued to the applicable Tax Filer or Other Relevant Adult associated with the policy based on the required data elements identified in Exchange Version of Business Service Definition of Monthly Information and 1095 End of Year Information Return Part I Table 3. The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall electronically transmit to the IRS a copy of the Exchange 1095 End of Year Information Return that was sent to the tax filer (or other relevant adult).
Interfaces	Reports	42562	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall send subsequent annual data transmissions to the CMS Data Services Hub with enough time for processing of the files to allow for submission to IRS by January 31 for 1095 End of Year Information Return.
Interfaces	Reports	42563	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall send the data elements for the 1095 End of Year Information Return as identified and described in the Exchange Version of Business Service Definition of Monthly Information and 1095 End of Year Information Return Part I, Table 3, Data Elements Table. The table also provides format and other reporting information for those elements.
Interfaces	Reports	42564	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall not use the IRS Group Identifier with the 1095 End of Year Information Return reporting.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Interfaces	Reports	42600	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall send the first Exchange 1095 End of Year Information Return to the tax filer (or other relevant adult) and a copy electronically received by IRS no later than January 31, 2015 and will include data through the end of December 2014.
Interfaces	Reports	42602	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall define record, in the context of the 1095 End of Year Information Return, as the collection of data about a single policy purchased via California Healthcare Eligibility, Enrollment and Retention System (CalHEERS).
Interfaces	Reports	42603	Every January, starting in 2015, The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall submit only one valid 1095 End of Year Information Return submission including data on all policies purchased through California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) for the previous coverage year.
Interfaces	Reports	42604	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall send information on 100% of all individual market policies purchased for the 1095 End of Year Information Return.
Interfaces	Reports	42605	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall label multi-file submissions 1 of x, 2 of x...x of x for the 1095 End of Year Information Return.
Interfaces	Reports	42606	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall perform business data consistency checks of all submissions as defined by CMS/IRS for the 1095 End of Year Information Return.
Interfaces	Reports	42607	If the submission is not accepted, The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall resubmit a corrected submission within 48 hours. If the submission is identified as having missing transmissions, The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall retransmit only the missing transmission, or if that is not possible, resubmit the entire submission for the 1095 End of Year Information Return.
Interfaces	Reports	42608	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall ensure each transmission will be limited to a file ? 100MB uncompressed with the manifest that identifies the valid trading partner (California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) or Covered California), batch number, sequence number, and total number of files in the submission for the 1095 End of Year Information Return.
Interfaces	Reports	42609	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall ensure each transmission will have an attached file that is well formed XML and adhere to the XML schema defined by the IRS for the 1095 End of Year Information Return.
Interfaces	Reports	42610	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall ensure All of the required information for the entire year regarding a single policy must be contained within a single transmitted file (e.g., a policy cannot be split across transmissions) for the 1095 End of Year Information Return.
Interfaces	Reports	42611	If a transmission is rejected by the IRS and CMS is unable to fix the condition, The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall correct the condition and retransmit within 48 hours for the 1095 End of Year Information Return.
Interfaces	Reports	42612	Once notified of missing files in a submission, The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall transmit all missing files within 48 hours for the 1095 End of Year Information Return.
Interfaces	Reports	42613	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall ensure that each transmission is properly identified, virus free, and error free before being submitted to the IRS for the 1095 End of Year Information Return.
Interfaces	Reports	42614	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall ensure all transmissions to have a valid Exchange identifier and other header information as defined by CMS/IRS, and meet security standards for the 1095 End of Year Information Return.
Interfaces	Reports	42615	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall process a confirmation of acceptance of the transmission for the 1095 End of Year Information Return.
Interfaces	Reports	42616	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall process error messages returned on the transmissions and submission for the 1095 End of Year Information Return.
Interfaces	Reports	42617	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall address any annual data correction activities quickly upon notification so the problem can be resolved and the data stored for the 1095 End of Year Information Return.
Interfaces	Reports	42618	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall use an automated informative mechanism for processing error messages either manually or electronically returned on the transmissions and submission from the Federal Data Services Hub or IRS based on processing business rules for specific error types listed in the Technical Error Library detailed in the BSD CMS – IRS ACA Integration Initiative Exchange Version of Business Services Definition of Monthly Information and 1095 End of Year Return Part II (see table 6 Error Codes and Descriptions).
Interfaces	Reports	42619	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall determine the Second Lowest Cost Silver Plan (SLCSP or Bench Mark Plan) by taking the number of silver plans open to enrollment to the taxpayer by the tax payer's residence (service area) and available to all members of the coverage household at the time of enrollment. (Note: SLCSP does not change if the QHP or the cheapest SP closes to enrollment or terminates after the coverage household enrolls).
Interfaces	Reports	42620	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall capture and store the Second Lowest Cost Silver Plan (SLCSP) value and report the value both monthly and yearly for every Exchange member who enrolls in a QHP regardless if the member accepted APTC.
Interfaces	Reports	42806	After the close of the tax year, the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall generate a Form 1095-A Health Insurance Marketplace Statement for each individual (reflected as Recipient on the form) who purchased a policy through the Covered CA Marketplace regardless if financial assistance was accepted; there will be one (1) form per policy. If multiple families are enrolled in a single qualified health plan (QHP), a Form 1095-A must be distributed to each Tax Filer or Other Relevant Adult. For example, if a single QHP is shared among two or more households, each Tax Filer will receive a separate Form 1095-A which will report information about their household's enrollment in that policy.
Interfaces	Reports	42807	When generating the Form 1095-A Health Insurance Marketplace Statement, the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall use all known individual information for the previous calendar year and include 100% of records for all policies purchased through the CA. Marketplace. For example, if Form 1095-A is being generated in January 2017, then all individual data from calendar year 2016 will be used for its creation.
Interfaces	Reports	42808	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall not generate a Form 1095-A Health Insurance Marketplace Statement for policies purchased through SHOP.
Interfaces	Reports	42809	When generating a Form 1095-A Health Insurance Marketplace Statement, the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall exclude any exemption related information.
Interfaces	Reports	42810	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall be able to identify and capture (log) any system errors preventing the generation of all third-party Form 1095-A Health Insurance Marketplace Statement files.

Category	Sub Category	Req ID	Requirement
Interfaces	Reports	42811	When generating the Form 1095-A Health Insurance Marketplace Statement, the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall use data elements as defined in Exchange Version of Business Service Definition of Monthly Information and 1095 End of Year Information Return Part I, Table 3, Data Elements table. (reference Table 3 for additional data element reporting information)
Interfaces	Reports	42812	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall always populate Form 1095-A Health Insurance Marketplace Statement with the Second Lowest Cost Silver Plan (SLCSP) regardless if the individual accepted APTC.
Interfaces	Reports	42815	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall store all data used for producing the Form 1095-A Health Insurance Marketplace Statement according to the approved Covered CA and California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Data Retention Policies.
Interfaces	Reports	42816	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall have the ability to resend one-to-many Form 1095-A Health Insurance Marketplace Statements without being required to regenerate all annual 1095-A forms.
Interfaces	Reports	42817	Outside of the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) CR-8386 identified business requirements, the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall generate and distribute all Form 1095-A Health Insurance Marketplace Statements in compliance with all applicable Federal level requirements and rules as identified with Federal documents: • Federal Data Services Hub (Federal DSH) Marketplace Generation of Monthly and 1095 End-of-Year (EOY) Reporting to the Internal Revenue Service (IRS) Business Service Definition (BSD), June 2014, Version 7.0 • Exchange Version of Business Service Definition of Monthly Information and 1095 End of Year Information Return, Part I, Version 2.0, July 24, 2014 • Exchange Version of Business Service Definition of Monthly Information and 1095 End of Year Information Return, Part II, Version 2.0, August 12, 2014
Interfaces	Reports	42818	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall be able to receive and upload a third-party vendor's 1095-A file processing confirmation file.
Interfaces	Reports	42819	1095-A file processing discrepancies must be captured to denote which 1095-A forms where not processed or distributed by the third-party vendor and the discrepancy reason. All non-processed or distributed 1095-A forms must be corrected and retransmitted to the third-party vendor via established SLA guidelines.
Interfaces	Reports	42820	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall have a mechanism to identify if any data change has occurred that would affect any data field on an already distributed Form 1095-A Health Insurance Marketplace Statement.
Interfaces	Reports	42821	On a bi-weekly basis (two times in a 7 calendar day range), the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall generate corrected versions of the Form 1095-A Health Insurance Marketplace Statement when a data change has ocured.
Interfaces	Reports	42822	"All envelopes that will be used to mail the CalNOD62A and CalNOD62B notices, regardless of the notice print language, will display a Covered CA. defined message and/or image in the English, Spanish, Chinese, Vietnamese, and Korean languages on the address facing side of the envelope."
Interfaces	Reports	42824	On or before January 31st of each calendar year beginning with 2015 and every year thereafter, the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall make available for distribution to the Tax Filer, or Other Relevant Adult, a hardcopy, paper Form 1095-A Health Insurance Marketplace Statement.
Interfaces	Reports	42827	To assist the Service Center with managing hardcopy Form 1095, a new Exela 'Document Category' of "IRS 1095" is required.
Interfaces	Reports	42865	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall support IRS annual schema attributes 'recordType' and 'lineNum' as being a required attribute when transmitting to the IRS.
Interfaces	Reports	42882	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall support using the December 2014 annual response file schema.
Interfaces	Reports	44599	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall receive a transmission reports from the Federal Data Services Hub detailing error messages and error correction processing.
Interfaces	Reports	45993	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall ensure that each transmission will be limited to a file ? 100MB uncompressed with a manifest that identifies the valid trading partner (California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) or Covered California), batch number, sequence number, and total number of files in the submission.
Interfaces	Reports	46003	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall define a file for the monthly information and 1095 End of Year Information return as follows: A file is XML data transmitted to the IRS as an attachment to a SOAP message with a maximum file size limitation of 100MB uncompressed. A file contains multiple, complete records. (A record cannot be split across files.)
Interfaces	Verify Application Information		
Interfaces	Verify Application Information	37909	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall recognize the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Case Number returned in the MEDS Alert file
Interfaces	Verify Application Information	38023	CalHEER shall send the following three alien fields to MEDS for all California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) managed programs: - Alien/INS Entry Date (DE2005) - Citizen/Alien Indicator (DE2009) - Alien Eligibility Code (DE2033)
Interfaces	Verify Application Information	38024	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall store the most recent Fed Hub VLP elements at an individual level from the Federal Data Hub Services Verify Lawful Presence v33 response message for use to send to MEDS.
Interfaces	Verify Application Information	38025	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send Alien/INS Entry Date (DE2005), Citizen/Alien Indicator (DE2009), and Alien Eligibility Code (DE2033), Citizenship Doc Type (DE2081), Citizenship Doc Number (DE2082), Identity Doc Type (DE2086), and Identity Doc Number (DE2087) on the MEDS HX18, HX20,HX20U, HX12, and HX34 transactions when available.
Interfaces	Verify Application Information	38026	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) will continue to provide these data elements if present and associated to the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) case individual.
Interfaces	Verify Application Information	38027	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use the VLP response inputs 'QualfiedNonCitizenCode', 'FiveYearBarApplyCode', 'LawfulPresenceVerifiedCode', and 'USCitizenCode' to determine as per the policy translation defined for the Citizen Indicator, Alien Indicator, and the Alien Eligibility Code.

Category	Sub Category	Req ID	Requirement
Interfaces	Verify Application Information	38028	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall determinethe Citizen Indicator, Alien Indicator, and the Alien Eligibility Code based on inputs from the applicant's alleged immigration status and response to U.S. Military/Veteran question.
Interfaces	Verify Application Information	38029	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall determine the Citizen/Alien Indicator and/or the Alien Eligibility Code based on administrative verifications.
Interfaces	Verify Application Information	38030	When citizenship is verified by FDSH-SSA, California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send Citizenship and Identity Verification Document information 3E defined in the MEDS Data Element Dictionary (DED) # 2081 and 2086.
Interfaces	Verify Application Information	38031	When citizenship is verified via FDSH-VLP (SAVE), California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send Citizenship and Identity Verification Document Type'3F' and associated fields (DEs 2081, 2082, 2086, 2087).
Interfaces	Verify Application Information	39323	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use SSA Title II Income in the reasonable compatibility calculation.
Interfaces	Verify Application Information	39324	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use SSA composite as an income verification source.
Interfaces	Verify Application Information	39325	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall request and store the "disabled person indicator" from the SSA Composite Service of the FDSH.
Interfaces	Verify Application Information	39326	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send the disabled person indicator to the SAWS via the eHIT interface.
Interfaces	Verify Application Information	39358	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall upgrade from Verify Lawful Presence (VLP) version 33 to VLP version 37 which includes following web methods: • Step 1 - Initial Verification – Step 1a - Re-Verification – Step 1b - Re-Submit With SEVIS ID • Step 2 - Initiate Additional Verificaiton • Step 3 - Initiate Third Verification • Get Case Details • Close Case • Notify Resolved Cases • Get Country of Issuance List • RetrieveStep2CaseResolution • RetrieveStep3CaseResolution
Interfaces	Verify Application Information	39359	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall store all the data elements of the request and response of the following VLP v37 services: • Step 1 - Initial Verification – Step 1a - Re-Verification – Step 1b - Re-Submit With SEVIS ID • Step 2 - Initiate Additional Verification • Step 3 - Initiate Third Verification • Get Case Details • Close Case • Notify Resolved Cases • Get Country of Issuance List • RetrieveStep2CaseResolution • RetrieveStep3CaseResolution
Interfaces	Verify Application Information	39360	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the ability for Adminstrative users to view both the request and response of the following VLP v37 web methods: • Step 1 - Initial Verification – Step 1a - Re-Verification – Step 1b - Re-Submit With SEVIS ID • Step 2 - Initiate Additional Verification • Step 3 - Initiate Third Verification • Get Case Details • Close Case • RetrieveStep2CaseResolution • RetrieveStep3CaseResolution

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

OTSI CalHEERS RFP #73040873 Addendum 1
October 31, 2025

Category	Sub Category	Req ID	Requirement
Interfaces	Verify Application Information	39361	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS)-SAWS VLP Interface shall have the ability to receive and send the information from CMS for the following VLP v37 services: • – Step 1a - Re-Verification request and response – Step 1b - Re-Submit With SEVIS ID request and response • Step 2 - Initiate Additional Verification request and response • Step 3 - Initiate Third Verification request and response • Close Case request and response • RetrieveStep2CaseResolution request and response • RetrieveStep3CaseResolution request and response
Interfaces	Verify Application Information	39362	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the ability for Administrative users to initiate the next VLP Steps based on the VLP response received on prior VLP step.
Interfaces	Verify Application Information	39363	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the ability for Administrative users to select a pre-populated comments and/or manually enter comments on VLP steps 2 and 3.
Interfaces	Verify Application Information	39365	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS)-SAWS VLP Interface shall have the ability to receive comments for VLP steps 2 and 3.
Interfaces	Verify Application Information	39370	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the ability for Administrative users to be able to search for a VLP case status.
Interfaces	Verify Application Information	39371	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the ability to communicate to SAWS the response received from VLP to initiate the next VLP steps or last step initiated.
Interfaces	Verify Application Information	39372	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS)-SAWS VLP Interface shall have the ability to indicate the agency action or last step initiated.
Interfaces	Verify Application Information	39373	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS)-SAWS eHIT interface shall be updated for the DER to indicate the agency action or last step initiated.
Interfaces	Verify Application Information	39391	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the ability for Administrative user to upload documents when the VLP Step3 is required.
Interfaces	Verify Application Information	39392	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the ability to consume a document via the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS)-SAWS VLP interface.
Interfaces	Verify Application Information	39393	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the Admin users to upload documents on VLP page only in the following accepted formats: .pdf, .jpg, .gif, or .png.
Interfaces	Verify Application Information	39394	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the Admin users to upload documents on VLP page and will limit the document size to 5MB.
Interfaces	Verify Application Information	39395	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS)-SAWS VLP Interface.
Interfaces	Verify Application Information	39396	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall utilize both eHIT and the new VLP service through the following services: - Step 1 shall be done through EDR/DER via eHIT. - Step 1a shall be done through VLP interface. - Step 1b shall be done through VLP interface. - Step 2 shall be done through VLP interface. - Step 3 shall be done through VLP interface. - Close Case shall be done through VLP interface. - RetrieveStep2CaseResolution shall be done through VLP interface. - RetrieveStep3CaseResolution shall be done through VLP interface.
Interfaces	Verify Application Information	39397	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS)-SAWS eHIT Interface shall be updated to send and receive all data elements for the following VLP v37: Step 1 - Initial Verification (EDR/DER only)
Interfaces	Verify Application Information	39398	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the ability for administrative user to re-initiate InitialVerification (VLP Step 1) without re-running eligibility.
Interfaces	Verify Application Information	39399	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS)-SAWS eHIT interface will include any California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) VLP step 1 validation errors in the eHIT DER response.
Interfaces	Verify Application Information	39400	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use agency contact reference table to populate the agency contact information on all steps.
Interfaces	Verify Application Information	39401	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display a message to the consumer based on the error message or ESC received from the hub.

Category	Sub Category	Req ID	Requirement
Interfaces	Verify Application Information	39402	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display a message to the users to review and update the document demographics when VLP Step 1 returns any of the following: - Document Name Mismatch - Document DOB Mismatch - Record not found
Interfaces	Verify Application Information	39403	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the ability to auto-initiate VLP Step 1a or Step 1b when the user updates the document information.
Interfaces	Verify Application Information	39404	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall only allow 10 numeric values in the SEVIS ID Number field on the portal.
Interfaces	Verify Application Information	39405	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display an 'N' on the portal for SEVIS ID.
Interfaces	Verify Application Information	39406	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the ability to close the DHS Case automatically.
Interfaces	Verify Application Information	39407	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the Administrative user to close the DHS case when step 1 needs to be re-initiated.
Interfaces	Verify Application Information	39408	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS)-SAWS VLP Interface shall allow SAWS to close the DHS
Interfaces	Verify Application Information	39409	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall initiate GetCaseDetails service on demand.
Interfaces	Verify Application Information	39410	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update LPV, QNC and 5 year Bar information that is returned in the amendments detail of the get case details service as well as all of the information DHS has for this case.
Interfaces	Verify Application Information	39411	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall ask the question on the portal if the consumer has lived in the US since August, 1996.
Interfaces	Verify Application Information	39412	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS)-SAWS eHIT Interface shall have the ability to send and receive that the user attested data on the consumer is that they entered the country prior to August 1996.
Interfaces	Verify Application Information	39413	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not request grant date for consumers who attest that they have lived in the US since August 1996.
Interfaces	Verify Application Information	39414	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall only allow the following characters to be entered on the VLP call for document First name, middle name, Last Name: space, a-z, hyphen, and single quote.
Interfaces	Verify Application Information	39415	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall only allow maximum of 40 characters on the document Last Name field.
Interfaces	Verify Application Information	39416	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall only allow maximum of 25 characters on the document first name field and the middle name field.
Interfaces	Verify Application Information	39417	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the consumer to enter either an I-94 number or an Alien Number when the consumer indicates they have an I-797 document.
Interfaces	Verify Application Information	39418	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS)-SAWS eHIT interface shall allow the consumer to enter either an I-94 number or an Alien Number when the consumer indicates they have an I-797 document.
Interfaces	Verify Application Information	39419	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add a clear cache indicator via eHIT for VLP to allow SAWS to clear VLP cache.
Interfaces	Verify Application Information	39420	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Portal Admin VLP Page shall have the ability to generate a report based on data listed on screen for each individual with an unresolved VLP Case.
Interfaces	Verify Application Information	39421	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not use the DIVS pass for VLP verifications or used in eligibility determination.
Interfaces	Verify Application Information	39422	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the ability to systematically rerun eligibility based on response information.
Interfaces	Verify Application Information	39423	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the ability to suppress unsolicited DER for mixed HH cases.
Interfaces	Verify Application Information	39424	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the ability to auto-initiate VLP Step 2 for any case not resolved in step 1, 1A, 1B in which Lawful Presence, QNC, or Five-year bar is set to P (Pending).
Interfaces	Verify Application Information	39425	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the security roles matrix.
Interfaces	Verify Application Information	39426	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall set the Alien number field in eHIT to a min of 7 max of 9 in both DER and EDR.
Interfaces	Verify Application Information	40927	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall request and store income amount and employer data received from the real-time API call.

Category	Sub Category	Req ID	Requirement
Interfaces	Verify Application Information	40933	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send data received from the VCI service to SAWS via eHIT.
Interfaces	Verify Application Information	40972	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall set the ExchangeUpdateInfo Indicator as “N” when date of death is sent on eHIT transaction after received from SSA.
Interfaces	Verify Application Information	41017	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use the Technical Specifications of the US Street Address API (HTTP Method, Request Headers, Request Parameters and Request Body) for invoking the API
Interfaces	Verify Application Information	41018	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall store the request and response of the US Street Address API in the INT database based on the configuration switch .
Interfaces	Verify Application Information	41019	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use the Error Handling framework for logging/tracking any errors during request generation and response processing for US Street Address API .
Interfaces	Verify Application Information	41021	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall validate FIPS county for a physical address received in the Address node of an EDR using the US Street Address API.
Interfaces	Verify Application Information	41022	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the FIPS county code for a physical address based on the county returned from the US Street Address API if a single validated address is received from the service.
Interfaces	Verify Application Information	41023	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send the updated FIPS county code to SAWS in the DER when the FIPS county code for an address is updated by California Healthcare Eligibility, Enrollment and Retention System (CalHEERS).
Interfaces	Verify Application Information	41024	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall map the first FIPS county code sorted in numerical ascending order that maps to the ZIP code provided in the EDR on the ZIP code to FIPS County Code mapping table if a validated address is not received in the response from the US Street Address API.
Interfaces	Verify Application Information	41025	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update BV 128 to be triggered when the Zip Code provided by SAWS is not listed in ZIP code to FIPS County Code mapping table(2.60)
Interfaces	Verify Application Information	41033	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to send Zip+4 (when available) to MEDS for the following transactions: Identify Member Create New Application (HX18) Create Program Eligibility (HX20) Update Member (HX12) Report Medical Denial (HX34) Update County of Responsibility (HX05) Reconcile Exchange Managed Programs (RX20)
Interfaces	Verify Application Information	41034	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall only persist first 50 characters received in Address field 1 and 2 in the address node of an EDR and Update Inbound transactions from SAWS.
Interfaces	Verify Application Information	41035	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send up to 50 characters in Address field 1 and 2 in the address node of DER/DER-Uand Update Outbound transactions from California Healthcare Eligibility, Enrollment and Retention System (CalHEERS)
Interfaces	Verify Application Information	41037	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement a new Business Validation to trigger the data element for LocationPostalCode or LocationPostalExtensionCode in EDR and Update Inbound transactions for the Physical Address when the data element contains alpha-numeric characters
Interfaces	Verify Application Information	45299	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall adopt the Verify Lawful Presence Service (VLP) version 37.
Interfaces	Verify Application Information	45300	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement application error handling when error codes are received from VLP.
Interfaces	Verify Application Information	45301	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS)-SAWS Interface shall have the ability to send specific reasons to SAWS on the VLP call errors. (partner requirement TBD)
Interfaces	Verify Application Information	45302	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall cache the Country of Issuance response from the GetCountryOfIssuanceListResp service.
Interfaces	Verify Application Information	45303	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) VLP Interface shall only accept the following document formats: pdf, .jpg, .gif, or .png
Interfaces	Verify Application Information	45304	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) VLP Interface shall limit the document size to 5MB.
Interfaces	Verify Application Information	45305	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) VLP Interface shall enforce a Base 64 encoded file type for transmission.
Interfaces	Verify Application Information	45306	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall archive VLP request and response data at 240 days.
Interfaces	Verify Application Information	45307	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement mock services for VLP v37.
Interfaces	Verify Application Information	45308	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use the document type 'Other' or 'Other-2' when the consumer attests to I-797 document based on entry of alien number or I-94 number.
Interfaces	Verify Application Information	46425	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update RIDP service from a SOAP Based service (H139) to a REST (JSON) based service (RJ139), based on schema from CMS.

Category	Sub Category	Req ID	Requirement
Interfaces	Verify Application Information	46426	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall enforce schema validations as provided in the BSD as provided by CMS for the JSON RIDP(RJ139) Service.
Interfaces	Verify Application Information	46427	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not populate empty optional tags for RIDP (RJ139) request parameters to avoid schema transmission rejections.
Interfaces	Verify Application Information	46428	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall utilize the LW_pendingapp component to invoke the REST service in place of SOAP calls for RIDP (RJ139) Service.
Interfaces	Verify Application Information	46429	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update ESB Fuse service for RIDP (RJ139) Service.
Interfaces	Verify Application Information	46430	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall truncate the FN, MN, LN field after 32 characters before generating the request for RIDP (RJ139) Service.
Interfaces	Verify Application Information	46431	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall replace the First, Middle, Last Name containing only the following unallowable special characters (~!@#%^*()_+-=[]{}<&\"';:/?>,) with "Unknown" so the record does not error out for RIDP (RJ139) Service.
Interfaces	Verify Application Information	46432	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update FARS service from a SOAP Based service (H140) to a REST (JSON) based service (RJ140), based on schema from CMS.
Interfaces	Verify Application Information	46433	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall enforce schema validations as provided in the BSD as provided by CMS for the JSON FARS (RJ140) Service.
Interfaces	Verify Application Information	46434	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not populate an empty optional tags for FARS (RJ140) request parameters to avoid schema transmission rejections.
Interfaces	Verify Application Information	46435	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall utilize the LW_FARS component to invoke the REST service in place of SOAP calls for FARS (RJ140) service.
Interfaces	Verify Application Information	46436	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update ESB Fuse service for FARS (RJ140)service.
Interfaces	Verify Application Information	46442	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall remove the leading and trailing spaces from Request input parameters for RIDP (RJ139) and FARS (RJ140) Services.
Interfaces	Verify Application Information	46443	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall strip and concatenate any unallowable special characters to CMS for all the Name Fields (FN, MN, LN, Suffix) for RIDP (RJ139) Services.
Interfaces	Verify Application Information	46444	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall normalize RIDP (RJ139) request and response received from CMS in HBX Database.
Interfaces	Verify Application Information	46445	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall normalize FARS (RJ140) request and response received from CMS in HBX Database.
Interfaces	Verify Application Information	46446	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create the new Mock Services to simulate responses from the REST based RIDP services (RJ139) in order to support testing.
Interfaces	Verify Application Information	46447	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the mock rules Response Description Text message for HE000050-RF2.
Interfaces	Verify Application Information	46448	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create the new Mock Services to simulate responses from the REST based FARS services (RJ140) in order to support testing.
Interfaces	Verify Application Information	46449	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall perform Integration performance testing for (RJ139) RIDP and (RJ140) FARS services.
Interfaces	Verify Application Information	46450	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use the ZIP code suffix for the zipcodeExtension data element instead of defaulting to work phone extension for RIDP Initial Request.
Interfaces	Verify Application Information	46453	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create a new Mock rules for HE007004, HE007005, HE007000 response code for RIDP and FARS Services in order to support testing.
Issue Management			
Issue Management	General Requirement		
Issue Management	General Requirement	44254	The Vendor shall provide, at a minimum, the following information about issues: A) A description of the issue B) Priority C) Dependencies D) Schedule Impacts, if appropriate E) Individual assignments F) Targeted and Actual Resolution Dates G) Actual resolution action H) Metrics on resolution timeframes and escalation I) Issue Owner
Issue Management	General Requirement	44289	The Vendor shall establish and implement an approach to Issue Identification, Tracking, Escalation, Management, and Resolution that aligns with the OSI PMO approach to Issue Management.

Category	Sub Category	Req ID	Requirement
Issue Management	General Requirement	44292	The Vendor shall make Issue and Risk tracking details widely and readily accessible to all California Healthcare Eligiblity, Enrollment and Retention System (CalHEERS) Project team members.
Issuer Portal			
Issuer Portal	Disenrollment		
Issuer Portal	Disenrollment	42087	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide an ability for the Issuer Enrollment Representative to search for enrollments belonging to the Issuer's Plans using the fields - Enrollment Year, Subscriber Last Name, Case ID, Enrollment ID, Plan Number (14 character), DOB of the subscriber , Subscriber ID, Last 4 Digits of SSN, Agency Federal Tax ID, Status, Plan Type. Search on Agency federal tax Id shall return enrollments where the agent's delegation is active.
Issuer Portal	Enrollment		
Issuer Portal	Enrollment	48358	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the Premium and APTC Grid modal to include columns for CSR CREDIT NET AMT and CS Level for Enhanced CSR (populate for each applicable month) in the Issuer portal.
Issuer Portal	Enrollment	48359	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the Export file from the Enrollment Search screen (Bulk search) to include columns for CSR CREDIT NET AMT and CSR CREDIT NET AMT Effective Date in the Issuer portal.
Issuer Portal	Enrollment	48360	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the Export file from the Premium and APTC Grid to include columns for CSR Credit Net amount and CS Level for Enhanced CSR in the Issuer portal.
Issuer Portal	Enrollment Dashboard		
Issuer Portal	Enrollment Dashboard	42169	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide an ability for the issuer enrollment rep to view the household's agent delegation history on the Enrollment Detail screen.
Issuer Portal	Enrollment Dashboard	42170	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display all the enrollees (active as well as dis-enrolled) associated to the enrollment in the Enrollment Detail screen.
Issuer Portal	General Requirement		
Issuer Portal	General Requirement	48444	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the member's consent response to receive text messages on the Issuer Portal.
Issuer Portal	General Requirement	48445	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the cell phone number for which the member had provided consent to receive text messages on the Issuer Portal.
Issuer Portal	General Requirement	48446	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the date Consent was provided on the Issuer Portal.
Issuer Portal	Health & Dental Plan Shopping		
Issuer Portal	Health & Dental Plan Shopping	42167	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the user to view the Enrollment Details for any specific enrollment from the search results. Enrollment detail screen shall display the following details - Plan Name, Enrollment Status, Confirmation Date, Effective Date, Premium and APTC Grid, Monthly gross premium, Elected APTC, CA Premium Subsidy, Net Premium, Submitted Date, APTC Effective Date, CAPS Effective Date, Last Updated Date, Case ID, Enrollment ID, Binder Payment Transaction ID, Plan HIOS ID, Agent Name, Agent License Number, Agency Federal Tax ID, Agent Delegation History, List of enrollees. Enrollment detail screen shall display all the binder payment transaction IDs associated to the enrollment.
Issuer Portal	Health & Dental Plan Shopping	42168	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display monthly premium and APTC grid for the enrollment on the Enrollment Detail screen.
Issuer Portal	Issuer Profile Management		
Issuer Portal	Issuer Profile Management	41533	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow registering and creating a User Account for the Issuer Representative and Issuer Enrollment Representative.
Issuer Portal	Issuer Profile Management	41534	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the user to register an Issuer Representative and Issuer Enrollment Representative account after collecting the following information: First Name, Last Name, Title, Phone # & Email.
Issuer Portal	Issuer Profile Management	41535	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate a Delegation Code to enable Issuer Representative and Issuer Enrollment Representative to create a User Account in the system.
Issuer Portal	Issuer Profile Management	41536	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the Delegation Code for the User Account registered by California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Issuer Admin for future retrievals.
Issuer Portal	Issuer Profile Management	41537	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall remove address collection from the account creation process for an Issuer Representative & Issuer Enrollment Representative.
Issuer Portal	Issuer Profile Management	41538	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the Issuer Representative and Issuer Enrollment Representative to utilize the delegation code and create an User Account in the system.
Issuer Portal	Issuer Profile Management	41539	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the user to Disable an Active Issuer Representative and Issuer Enrollment Representative's User Account.
Issuer Portal	Issuer Profile Management	41540	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the user to Activate a Disabled Issuer Representative and Issuer Enrollment Representative's User Account.
Issuer Portal	Issuer Profile Management	41541	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow user to reset password & unblock Issuer Representative and/or Issuer Enrollment Representative 's User Account.
Issuer Portal	Plan and Benefit Assistance		

Category	Sub Category	Req ID	Requirement
Issuer Portal	Plan and Benefit Assistance	42088	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the Issuer enrollment representative to view the results for the enrollment search
Issuer Portal	Plan and Benefit Assistance	42171	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the ability to show enrollment history with the following details: Transaction Date, Transaction Type, Transaction Reason, Member Id, Initiated By , EDI File Name, 999 ACK Transaction Date, 999 File Name, 999 ACK Status. Initiated By shall display the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) user role who submitted the change for outbound transaction, for inbound it shall display 'Issuer'. Transaction date shall display the datetime when the user submitted the change.
Issuer Portal	Renewal		
Issuer Portal	Renewal	42166	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the users to download the enrollment search results.
Issuer Portal	Renewal	42172	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the Issuer Enrollment Representative to view their Issuer's profile page
Issuer Portal	Reports		
Issuer Portal	Reports	48023	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall populate the Last Login date in the Issuer Provisioning Report.
Issuer Portal	Timeshifter		
Issuer Portal	Timeshifter	42086	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow Issuer Enrollment Representatives to login and display the Enrollment Search options on their landing page.
Network			
Network	Enrollment		
Network	Enrollment	39494	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide operational capability for the bi-directional exchange of X12 (834) and other files with Carriers, and if application via the EDI Vendor.
Network	Enrollment	39495	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide for both Test and Production connectivity and, if applicable, support Connectivity testing with the EDI Vendor.
Network	Enrollment	39496	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall continue to support testing and Production with the existing connection via the current channel, and if applicable, with the EDI Vendor.
Network	Enrollment	39497	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall discontinue existing operations capability via the current SFTP connection and change it to the new SFTP connection.
Network	General Requirement		
Network	General Requirement	45015	The Vendor shall provide a comprehensive network infrastructure which leverages automatic notifications.
Network	General Requirement	45016	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) network infrastructure shall support automated failover capabilities.
Network	Interfaces		
Network	Interfaces	46764	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement the VPC private endpoint to connect with CalSAWS AWS API Gateway private endpoint.
Network	Interfaces	47641	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement firewall routes to allow outbound communication with CalSAWS
Network	Notices		
Network	Notices	42908	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall be able to produce and populate the CalNOD62-A and CalNOD62-B notice with accurate and current record data across all 1095-A form fields.
Notices			
Notices	General Requirement		
Notices	General Requirement	47978	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create and send a new monthly notice to household with consumers who attested to a loss of minimum essential coverage due to a labor dispute and is a recipient of the Strike Lockout Benefit.
Notices	General Requirement	47979	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create new snippets for NOD01
Notices	General Requirement	47980	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update snippets for NOD01
Notices	General Requirement	47981	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the {Applied Financial Help} variable in NOD69
Notices	General Requirement	47997	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add the Suppress/Hold/Insert functionality in the Admin Notice Portal to the new "Strike Lockout Benefit Reminder" notice
Notices	General Requirement	47998	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the Admin Notice Portal screen to include the new monthly notice labelled as "Strike Lockout Benefit Reminder Notice - NOD75" to allow admin users to have Suppress/Hold/Insert Functionality
Notices	General Requirement	48306	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the NOD01abc trigger conditions to include checks for changes in the eligibility status or amounts of Strike Lockout Benefit similar to the existing checks for CCP/APTC/CSR/CAPS
Notices	General Requirement	48307	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the behavior of the App.PDF to always display the Strike Lockout Questions and responses if the user had triggered the Strike Lockout Questions and responded during the corresponding application - regardless of the current "ON/OFF" configuration for Strike Lockout.
Notices	General Requirement	49076	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate a Family PACT notice in the client's primary lanaguage based on the client's application submission.

Category	Sub Category	Req ID	Requirement
Notices	General Requirement	49077	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate notices to the Family PACT client in the following languages based on the client's attested primary language indicated on the Family PACT application: 1. English (if client attested to English/Other/Decline to Answer) 2. Arabic 3. Armenian 4. Chinese 5. Farsi 6. Hindi 7. Hmong 8. Japanese 9. Khmer 10. Korean 11. Laotian 12. Punjabi 13. Russian 14. Spanish 15. Tagalog 16. Thai 17. Ukrainian 18. Vietnamese
Notices	General Requirement	49079	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall notify a Family PACT user via email about the one-time password (OTP) for multi-factor authentication (MFA) in the following scenarios: 1. During Account Creation 2. During MFA registration 3. During Login MFA Challenge 4. During Forgot Password 5. During Self-Enable
Notices	General Requirement	49080	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall notify a Family PACT user via email when a user goes through the forgot username process.
Notices	General Requirement	49081	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall notify a Family PACT user via email when a user goes through the forgot password process.
Notices	General Requirement	49082	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall notify a Family PACT user via email when a user's password is about to expire.
Notices	General Requirement	49083	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall notify a Family PACT user via email when a user's password has expired.
Notices	General Requirement	49084	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall notify a Family PACT user via text message about security related account functionality when a Family PACT user has a mobile phone number associated to their Family PACT account.
Notices	General Requirement	49085	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall notify a Family PACT user via text message about the one-time password (OTP) for multi-factor authentication (MFA) in the following scenarios: 1. During Account Creation 2. During MFA registration 3. During Login MFA Challenge 4. During Forgot Password 5. During Self-Enable
Notices	General Requirement	49086	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall notify a Family PACT admin user via email about security related account functionality when a Family PACT admin user has an email associated to their Family PACT account.
Notices	General Requirement	49087	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall notify a Family PACT admin user via email about their username when a Family PACT super admin adds a new Family PACT admin account.
Notices	General Requirement	49088	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall notify a Family PACT admin user via email about their password when a Family PACT super admin adds a new Family PACT admin account.
Notices	General Requirement	49089	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall notify a Family PACT provider site certifier and provider staff via email to create a provider site certifier or staff account when a Family PACT super admin sends an email invitation to a provider site certifier and when a Family PACT site certifier sends an email invitation to a provider staff.
Notices	Notices		
Notices	Notices	41433	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create a new version of NOD01 (NOD01T) for consumers transitioning from MAGI Medi-Cal/CCHIP/MCAP to APTC and are auto plan selected in to a new health plan
Notices	Notices	41434	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall designate the title for NOD01T as Eligibility Notice - Medi-Cal to Covered California in the portal.
Notices	Notices	41435	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use the existing NOD01ab/c batch to generate NOD01T
Notices	Notices	41436	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use the snippet table used in NOD01ab/c for NOD01T.
Notices	Notices	41437	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the capability to specify which snippets used for NOD01ab/c are applicable to NOD01T as well.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

OTSI CalHEERS RFP #73040873 Addendum 1
October 31, 2025

Category	Sub Category	Req ID	Requirement
Notices	Notices	41438	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall trigger NOD01T for a household with at least one member in the household transitioning from MAGI Medi-Cal/CCHIP/MCAP to APTC and are auto plan selected into a new health plan, and will print eligibility information for all members in the household.
Notices	Notices	41439	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall trigger NOD01T notice only at the time of initial transition from MAGI Medi-Cal/CCHIP/MCAP to APTC.
Notices	Notices	41440	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the capability to send NOD01T in a different style/color of envelope.
Notices	Notices	41441	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update eligibility snippets text and triggers across NOD01ab/c/T notices
Notices	Notices	41442	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall make trigger updates to snippet 374 and 781, and delete snippets 780 and 371.
Notices	Notices	41443	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall make text updates to snippet 618, 827, 826, 361, 359, 928, 787, 786, 788, 170.
Notices	Notices	41444	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create 4 new snippets and or make text and trigger updates to snippet 369, 821, and 923.
Notices	Notices	41445	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall make language and placement updates to snippet 885, 879, 881
Notices	Notices	41446	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add a page break after snippet 6 to create an address only cover page for all versions of the NOD01.
Notices	Notices	41447	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create new snippets for the NOD01T for consumers transitioning from MAGI Medi-Cal/CCHIP/MCAP to APTC and they are auto plan selected in to a new health plan.
Notices	Notices	41448	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create 4 new intro and title snippets.
Notices	Notices	41449	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create a new version of the enrollment summary table (snippet 923) with specific information about SB260 for consumers transitioning from MAGI Medi-Cal/CCHIP/MCAP to Covered California and they are auto plan selected in to a new health plan
Notices	Notices	41450	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create 6 new next steps and 3 new closing snippets and 1 header snippet specific for the NOD01T and consumers transitioning to Covered California.
Notices	Notices	41451	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create a new notice for consumers who opt out or cancel their Auto Plan Selection.
Notices	Notices	41452	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate CalNOD74 via daily batch when the following trigger conditions are met: - A person enrolled in a >\$0 premium plan opts out of their plan OR - A person enrolled in a \$0 premium plan opts out of their plan OR - A person enrolled in a \$0 premium plan has not responded with an opt out or opt in and their plan is canceled post the end of the first month of coverage
Notices	Notices	41453	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the active opt out dynamic language in the CalNOD74 notice in a situation where a household has mulitple members and one member actively opts out of their APS plan and another (\$0 premium) member was canceled out of their APS plan due to no response on the same day.
Notices	Notices	41454	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update notices where the suffix variable populates with a period after the suffix.
Notices	Notices	41455	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall identify the last generated NOD01T timestamp and determine whether NOD69 should be generated or skipped.
Notices	Notices	41456	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the NOD01 triggering conditions to generate only for current or prospective dispositions/SAWS EDR Runs.
Notices	Notices	41457	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create a new snippet for the NOD01ab/c consumers who have a newly enrolled dependent added to an existing health plan
Notices	Notices	41458	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not trigger NOD11 for unsubsidized applications
Notices	Notices	41459	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not trigger the NOD11 for households with the following criteria: • Was enrolled in a QHP or QDP at the time of staging but both QHP and QDP are in terminated or cancelled status at the time of notice generation
Notices	Notices	41460	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall print and mail the NOD01T regardless of the consumers communication preference.
Notices	Notices	41461	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate an Enroller Portal Alert upon generation of NOD01T
Notices	Notices	41462	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate an Enroller Portal Alert upon generation of snippet 933 in NOD01ab/c
Notices	Notices	42191	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the triggering condition for snippet 933 to be sent only during SEP.
Notices	Notices	42192	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create a new snippet (similar to 933) for cases applying during Renewal/OE for the next year.
Notices	Notices	42193	This new snippet will trigger a portal alert.
Notices	Notices	42194	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the Address block of the NOD61a, b, c to not be in Bold font.
Notices	Notices	42195	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall first print Address line 2 followed by Address line 1 in CalNOD61a, b, c so that bulk readers can read them correctly.
Notices	Notices	42196	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the NOD12AD Arabic and Farsi templates to display the Case ID and Date variables in the correct location.
Notices	Notices	42197	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall make text updates to NOD69
Notices	Notices	42198	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the NOD69 Babel Page to correct for errors in the Chinese portion of the Babel Page in the NOD69 Chinese translation notice
Notices	Notices	42199	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not trigger the NOD12A/D for households with the following criteria: • Was enrolled in a QHP or QDP at the time of staging but both QHP and QDP are in terminated or cancelled status at the time of notice generation
Notices	Notices	42200	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the flier information in NOD01T for the 2023 benefit year
Notices	Notices	42201	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall suppress snippet 783 for all consumers
Notices	Notices	42202	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update existing snippet text in NOD01 for households who are determined eligible for temporary Enhanced CSR program

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Notices	Notices	42203	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the Korean translation of Snippet 365 to include the word 'month.'
Notices	Notices	42204	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create a new enrollment snippet to notify passively renewed households that their enrollment may have changed.
Notices	Notices	42260	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall remove Snippet 899.
Notices	Notices	42261	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall make text updates to NOD12A
Notices	Notices	42262	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the NOD12A household income variable to capture and use the annual APTC amount based on the primary tax filer.
Notices	Notices	42263	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the variable for snippet 779 and 778 to populate the correct end of coverage date.
Notices	Notices	42264	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall make text updates to NOD64.
Notices	Notices	42265	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall make text updates to eligibility snippet 361 and snippet 359.
Notices	Notices	42266	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall make text and trigger updates to snippet 897
Notices	Notices	42267	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add a new snippet, similar to snippet 897 to include California Premium Subsidy
Notices	Notices	42268	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update triggering conditions for snippet 238/246.
Notices	Notices	45508	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall make the text changes to NOD22 Issuer Bill Statement Notice for all carriers.
Notices	Notices	45510	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall capture system calculated SEP end date under NOD01T for consumers transitioning from MAGI Medi-Cal/CCHIP/MCAP to APTC and they are auto plan selected in to a new health plan.
Notices	Notices	45511	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall capture system calculated SEP end date under NOD74 for consumers transitioning from MAGI Medi-Cal/CCHIP/MCAP to APTC and they are auto plan selected in to a new health plan.
Notices	Notices	45513	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall partially mask the SSN on the 1095/3895 tax forms to display the last 4 digits of the SSN for all individuals on the forms.
Notices	Notices	45514	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall fully mask the DOB on the 1095/3895 tax forms for all individuals that have SSN on the forms.
Notices	Notices	45515	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall mask the birth year of the DOB on the 1095/3895 tax forms for all individuals without SSN on the forms.
Notices	Notices	45516	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall mask the birth year of the DOB on the NOD71.
Notices	Notices	45517	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall make text updates to NOD62 A, B, C, D in the top 5 languages (English, Spanish, Chinese, Vietnamese, and Korean).
Notices	Notices	45518	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the triggering conditions for snippet 154 in the NOD01 to include consumers whose MEC/MEDS verification is pending.
Notices	Notices	45519	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the 3895 addendum page to match the 3895 addendum template instead of 1095 addendum page when there are more than 5 covered individuals populated on the 3895 form.
Notices	Notices	45520	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall standardize Notice Names/Titles as well as trigger condition formatting in Design documents/snippet table.
Notices	Notices	45521	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add the 2022 IRS 1095A tax form to NOD62A/B
Notices	Notices	45522	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the Snippet Table to show snippet 933 with the CoveredCA.com and Coveredca.com/find-help links underlined.
Notices	Notices	45523	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update snippet 900 to add a space between the last character and the Covered California “Find Help” link for the Khmer translation.
Notices	Notices	45524	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update all SB260 fliers in all threshold languages to include Aetna’s logo on the bottom of the first page.
Notices	Notices	45525	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall first print Address line 2 followed by Address line 1 in CaINOD62a,b,c,d so that bulk readers can read them correctly.
Notices	Notices	46034	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall correct the NOD03 Khmer translation.
Notices	Notices	46327	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall insert supplemental information (flier in color) in the NOD01T about SB260 for consumers transitioning from MAGI Medi-Cal/CCHIP/MCAP to APTC and they are auto plan selected into a new health plan.
Notices	Notices	46500	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the renewal due date in NOD12AD to a new implemented configurable number of days and the renewal due date will be calculated as NOD12 generation date + number of days
Notices	Notices	46501	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the renewal due date to a configurable number of days for the NOD12, Annual Open Enrollment Notice, batch job
Notices	Notices	46502	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the renewal due date in NOD12AD for the DROP Population to be DROP Date when the case is identified as a case to be picked up for DROP batch.
Notices	Notices	46503	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add a configuration date for the first DROP batch, so that cases identified for the first DROP Batch can be picked up on that date for Passive Renewals.
Notices	Notices	46504	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use the configurable date to set the DROP date within NOD12 for the following cases: -Case has at least one individual who is enrolled in Catastrophic plan and is aging out on or before 12/31/20xx -Case has at least one member who is in Carry Forward Status for the current benefit year.
Notices	Notices	46505	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have a yearly process to set a DROP date for categories of populations not originally identified within NOD12, which will be used to populate the renewal due date in NOD12.

Category	Sub Category	Req ID	Requirement
Notices	Notices	46506	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall suppress NOD12a for cases if all the following conditions are met: - One or more members of the household have transitioned from MAGI MC/MCAP/CCHIP to exchange program and are Auto Plan Selected for the current year, and the member(s) have not taken the Opt-In/Opt-Out action or their plan is not effectuated AND - Household has no other members enrolled in a non-APS plan AND - Household has no other members enrolled in an APS plan who have Opted in to that plan.
Notices	Notices	46507	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall include cases where at least one member of the household has transitioned from MAGI MC/MCAP/CCHIP to exchange program and is Auto Plan Selected for the current year, and the consumer has not taken the Opt-In/Opt-Out action or their plan is not effectuated in the DROP batch.
Notices	Notices	46508	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall make text updates for NOD12 A/D/E
Notices	Notices	46509	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update triggers for NOD12E to refine population
Notices	Notices	46510	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall make text updates to the NOD70a/b.
Notices	Notices	46511	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall make updates to the NOD69 template
Notices	Notices	46512	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the text of the acceptable documents page (Snippet 881) in the NOD01.
Notices	Notices	46513	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the triggering conditions for the CalNOD11(for section for QHP subsidized) is to only generate for: - Consumers who applied on a subsidized application. - Consumers who are enrolled in a health plan. - Consumers who are eligible for QHP and their consent is expired/expiring.
Notices	Notices	46514	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the text of the acceptable documents page in the NOD03.
Notices	Notices	46515	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the CalNOD03 to display the PO Box address to display consistently on all the pages.
Notices	Notices	46516	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create NOD01T fliers for the year 2024
Notices	Notices	46517	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the QR code in the NOD01T Fliers and NOD01 snippets.
Notices	Notices	46518	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the NOD03 template in Hmong to add the space after the sentence period: "thov dua.Yog"
Notices	Notices	46519	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the CalNOD03 template in Chinese to remove an "I" in between Dear and First/Last name.
Notices	Notices	46520	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the NOD38 babel pages
Notices	Notices	46521	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall upload applicable ad hoc notices to the consumer's Secure Mailbox when they are received from the vendor with the category "Other".
Notices	Notices	46522	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate email notification to consumers who have 'email' as their communication preference when an applicable ad hoc notice is uploaded from the vendor for their household/case.
Notices	Notices	46523	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send an enroller portal alert when the following ad-hoc notices are uploaded to the consumer's secure mailbox: -Medicare_Transition -SSDI_Notice -Social_Security_Number_Error -SSN_Needed_Notice -Over-Age_Dependent_Info -Returned_Mail
Notices	Notices	46524	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add a dynamic "New" after the consumers name in snippet 923 if the consumer is newly enrolled in that plan.
Notices	Notices	46525	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the Date formatting for Korean in the NOD00.
Notices	Notices	46526	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the trigger condition for Snippet 838 to generate only for consumers who are ineligible or discontinued for APTC and CSR.
Notices	Notices	46527	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the formatting in NOD01T snippet 3012 to bold the Agency Name and Agent Phone variables.
Notices	Notices	46892	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create a new snippet for individuals reaching their 365th day of postpartum and are discontinued from MCAP either through being staged in the monthly MCAP end of postpartum redetermination batch or another RAC/transaction.
Notices	Notices	46893	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the batch to not insert the 3895 records in the HBX_GENERATE_DOC table with pending status when 3895 are not generated for the respective tax year.
Notices	Notices	46894	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not send 3895 correction forms from tax years when the 3895 original was not generated.
Notices	Notices	46895	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the Hmong Snippets 154, 3018, and 3022 to show the correct spacing in the texts.
Notices	Notices	46896	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the NOD62A Chinese template FAQ page to display "III" in the same font style.
Notices	Notices	46897	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall make text updates to the NOD62A & B
Notices	Notices	46898	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall expand the NOD62A & B templates to include the remaining threshold languages.
Notices	Notices	46899	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add the 2023 IRS 1095A tax form to NOD62A/B
Notices	Notices	46900	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall remove old combined logo for Medi-Cal to Covered California from the Notices and replace with the new combined logo for Medi-Cal to Covered California.

Category	Sub Category	Req ID	Requirement
Notices	Notices	46901	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create and generate a new notice for consumers who were enrolled in a catastrophic health plan.
Notices	Notices	46956	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the triggering conditions for NOD01ab/c to generate a notice for individuals granted eligibility to Accelerated Enrollment from the SAWS and California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Access Channel.
Notices	Notices	48205	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have an ability to generate notices for any of the following Alternative Formats attested by the primary household on the case - Large Print - Audio Electronic Format - Data Electronic Format - Audio Electronic Format (password protected) - Data Electronic Format (password protected) - Braille
Notices	Notices	48206	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have an ability to configure (ON / OFF) the notices generation in Alternative Formats.
Notices	Notices	48640	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall include an Issue Date on the Medi-Cal Eligibility Confirmation Letter as the date the user clicks on “Get Confirmation Letter” button on the Individual Eligibility Details page.
Notices	Notices	48641	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall include a Good Through Date on the Medi-Cal Eligibility Confirmation Letter that is 30 calendar days from the Issue Date.
Notices	Notices	48643	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not mask the year of birth on the Medi-Cal Eligibility Confirmation Letter for any user.
Notices	Notices	48644	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall replace CoveredCA.com with DHCS.ca.gov at the bottom of Medi-Cal Eligibility Confirmation Letter.
Notices	Notices	48645	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall remove CoveredCA logo from Medi-Cal Eligibility Confirmation Letter.
Notices	Notices	48646	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the Medi-Cal Eligibility Confirmation Letter to include language for providers to verify recipient's eligibility and use this letter as temporary identification only.
Notices	Notices	48744	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate and mail a copy of the consumer's notice for an assigned authorized representative in their preferred language if the authorized representative has a communication preference other than email, AND the consumer has requested their authorized representative to receive notices on their behalf. This change will begin on 08/01/2025.
Notices	Notices	48745	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate and mail a copy of the consumer's notice for an assigned Authorized Representative in the Authorized Representative's preferred format, if they request to receive notices in an alternative format.
Notices	Notices	48746	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use the authorized representative's mailing address to mail a copy of the consumer's notice for an assigned authorized representative
Notices	Notices	48747	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall mail a copy of the consumer's notice for an assigned authorized representative regardless of whether the authorized representative has created an account.
Notices	Notices	48748	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the authorized representative's preferred method of communication to Mail and mail a copy of the consumer's notice for an assigned authorized representative who has Email as the preferred method of communication when the authorized representative has not created an account by the time the first notice is generated.
Notices	Notices	48749	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not mail a copy of the consumer's notice to an assigned authorized representative if the authorized representative has the exact same mailing address as the consumer and both the consumer and the authorized representative have preferred method of communication other than email (excluding different preferred alternate format or different preferred written languages).
Notices	Notices	48750	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall mail one copy of the consumer's notice to only one authorized representative when there are more than one authorized representative with the exact same name and mailing address, using the preferred language and method of communication of the most recently updated duplicate authorized representative.
Notices	Notices	48751	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall indicate on the Documents and Correspondence screen that the notice was sent to the Authorized Representative for any applicable notice generated and uploaded to Documents and Correspondence when the consumer has an authorized representative and the authorized representative is set up to receive notices on the consumer's behalf.
Notices	Notices	48752	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall stop the notice generation for an Authorized Representative once the consumer notifies that the representative is no longer authorized to act on the consumer's behalf.
Notices	Notices	48753	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create a new table that contains all notice information per notice per authorized representative, and include a field that links it to the consumer notice listed in dm_notices.
Notices	Notices	48754	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add portal messaging to the Authorized Representative screen when an Authorized Representative is being delegated to a case and the preferred method of communication is email, identifying that the Authorized Representative needs to create an account to receive emails.
Notices	Notices	48755	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the default preferred method of communication on the Authorized Representative screen when an Authorized Representative is being delegated to a case from Mail to Email.
Notices	Notices	48756	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the order of communication method options for authorized representatives to show Email first.
Notices	Notices	48757	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate a copy of the consumer's notice for an assigned authorized representative in the authorized representative's preferred language and upload the copy of the notice to the authorized representative's secure mailbox when the authorized representative's preferred method of communication is Email and the authorized representative has set up an account.
Notices	Notices	48758	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall move inactive notice documentation to an Archive folder.

Category	Sub Category	Req ID	Requirement
Notices	Notices	48776	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall integrate the print vendor to generate the 6 alternative format notices (Large Print, Braille, Audio Electronic Format, Data Electronic Format, Password protected Audio Electronic Format, Password protected Data Electronic Format) according to the consumer's alternative format selection.
Notices	Notices	48777	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall persist the Large Print, Audio Electronic Format (password-protected or not password-protected), and Data Electronic Format (password-protected or not password-protected) alternative format notices shared by the print vendor.
Notices	Notices	48778	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide the README text file containing the below password format and the password to be used for password-protection to the print vendor to be included for alternative format notices generated in Audio Electronic Format (password-protected) or Data Electronic Format (password-protected): [California Healthcare Eligiblity, Enrollment and Retention System (CalHEERS) case number]+[Date of Birth mmddyyyy]
Notices	Notices	48779	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall include a physical copy of the cover sheet of the notice, including the QR code for returned mail, within the letter for the following alternative formats: -Large Print -Audio Electronic Format -Data Electronic Format -Audio Electronic Format (password protected) -Data Electronic Format (password protected) -Braille
Notices	Notices	48780	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall exclude the following notices from the alternative format notice generation process: NOD22, NOD38a/b, NOD61d, NOD61e, NOD66, NOD68, NOD72a, NOD72b, NOD71, NOD73, NOD62a/b (2016-2019), Admin Notices, Flyers from CalNOD01t/x, Admin Inserted Images (applicable for all notices).
Notices	Notices	48787	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall persist an alternative format indicator and the generation date for each notice that was sent out in Alternative Format.
Notices	Notices	48788	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall upload the generated notices in large print received from the print vendor to the documents and correspondence page and to the secure mail box.
Notices	Notices	48790	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the alternative format indicator, generation date and appropriate label in the documents and correspondence page, for the Large Print, Data Electronic Format, Data Electronic Format (password-protected), Audio Electronic Format, and Audio Electronic Format (password-protected) notices.
Notices	Notices	48791	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement a returned mail process for alternative format notices that were returned.
Notices	Notices	48792	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create a new MWS Document Type of "Returned Mail - Alternative Formats" for any alternative format returned mail on Salesforce BPM.
Notices	Notices	48793	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate Braille notices in English or Spanish.
Notices	Notices	49600	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall print Large Print notices on 11x17 size paper.
Operational Readiness Review			
Operational Readiness Review	General Requirement		
Operational Readiness Review	General Requirement	43490	The Technology Refresh Assessment and Plan shall be submitted by September 1 each year and shall identify the Equipment and Software components that need to be replaced during the two (2) upcoming State Fiscal Years. The Technology Refresh Assessment and Plan shall address minimum, current, and projected capacity and performance analysis associated with the all Equipment and Software. The Technology Refresh Assessment and Plan shall include, at a minimum: A) Schedule for each of the Equipment and Software components listed above that indicates the planned refresh cycle in years, planned refreshes for the two (2) upcoming SFYs, and a refresh date for each component based on the number of years that component is expected to perform at its peak. B) Current and emerging trends in technology that may (or may not) be beneficial to the Exchange and Exchange and why. C) Recommendations for replacement Equipment and Software components and justification for the recommendations, including recommendations for postponement of previously planned refresh items.
Operational Readiness Review	General Requirement	43500	The Vendor shall prepare a Final Project Completion Report to include at a minimum: A) Executive Summary: Scope, Schedule, Budget: Plan vs. Actuals B) Organization and Project Management Approach C) Summaries by major Project Team: PMO, Application Development & Testing, Technical, Implementation, Training D) Summary of key issues and risks E) Key Best Practices and Lessons Learned F) Requirements Summary G) Administrative and Contract Closure H) Contract Closure I) Information Distribution & Archive

Category	Sub Category	Req ID	Requirement
Operational Readiness Review	General Requirement	43501	The Vendor shall prepare a Privacy Impact Assessment (Final) to ensure no collection, storage, access, use or dissemination of identifiable respondent information that is not both needed and permitted. This deliverable must include at a minimum: A) Summary of PIA Required Questions B) PIA Required Information C) System Characterization and Data Characterization D) Information Sharing Practices E) Web Site Hosting Practices F) Administrative Controls G) Technical Controls H) Physical Access I) Approval/Demotion J) Percent Complete
Operational Readiness Review	General Requirement	43502	The Vendor shall develop and submit a Plan of Action & Milestones (Final) Report that includes, but is not limited to, the status of known security weaknesses with associated Plan of Action Milestones.
Operational Readiness Review	General Requirement	43504	The Vendor shall deliver a Release Management Plan, six (6) months prior to go-live, that describes the Release process, which includes, but is not limited to: A) Approach B) Methodology C) Release Schedule for the next year which shall include: D) Roles and responsibilities E) Metrics and Reports F) Entry and exit criteria G) Process for backing a release out of production H) Automated methodology for validating the production Software I) Process and timeframe for the Vendor to issue release notes.
Operational Readiness Review	General Requirement	43596	The Vendor shall develop and execute a Final Implementation Plan to include at a minimum: A) Methodology B) Schedule including task start and end dates C) Roles and responsibilities of Vendor and Exchange teams D) Implementation Readiness and Checklists, including readiness criteria metrics E) Entry and Exit Criteria for beginning and completion of Implementation F) Proven Practices (demonstrate that the plan is based upon Proven Practices) G) Cutover Processes and Procedures H) Implementation Support Plans I) Contingency Plan J) Recovery Plan
Operational Readiness Review	General Requirement	43597	The Implementation Plan shall also detail all of the tasks, Implementation schedules and, the integration of Implementation planning with: A) Site Preparation, Installation and Certification for Infrastructure; B) Training Materials Development; C) Training Delivery; D) Organizational Change Management; E) Conversion (if any); F) Interface and System of record cutover; and G) Efficiency of procedures and work flow.
Operational Readiness Review	General Requirement	43598	The Vendor shall prepare and execute a final Organizational Change Management Plan. The Plan shall entail the following activities and include, but not be limited to: A) Overall Approach and Schedule B) Roles and Responsibilities of Vendor and Exchange/State staff C) Process and role gap analysis of existing workflow and procedures (As Is/To Be Analysis) which should include "a day in the life of" study of people in the roles that will be impacted by the new System D) Gap Analysis between the existing environments and the new California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) environment E) Change Readiness Plan which shall include details regarding the change readiness process, inputs and outputs; readiness criteria; assessment methods; and change readiness tools utilized; G) Communications Strategies H) Tasks and Expected Results I) Method for Documenting and Dealing with Issues.
Operational Readiness Review	General Requirement	43599	The Vendor shall prepare User Manuals (Final) to include at a minimum: A) Getting Started B) Using the System C) Troubleshooting and Support

Category	Sub Category	Req ID	Requirement
Operational Readiness Review	General Requirement	43615	The Vendor shall develop and implement a Final Training Plan that addresses the following: A) Development and Delivery methods and strategies B) Development and Delivery schedules C) Development and Delivery Roles and responsibilities of Vendor and Exchange teams including training management, logistics, establishment of Facilities (as applicable), trainers and users/trainees/participants D) Curriculum, Milestones, tasks, dates, participants, critical resources E) Training content – For each user type and level: content of training to be provided, description of training materials, training development and delivery methods, and location of training F) Training Delivery Sites, Facilities, and Equipment according to the training schedules G) Training Delivery tracking H) Training assessment and retraining I) Ongoing training
Operational Readiness Review	General Requirement	43616	The Vendor shall prepare a Test Report (Final) to include at a minimum: A) Summary Assessment B) Detailed Test Results C) Variances D) Test Incidents E) Recommendations
Operational Readiness Review	General Requirement	43617	The Vendor shall prepare a Data Use/ Data Exchange/ Interconnection Security Agreement (Final) to address and include the following information: The Data Use Agreement (DUA) is developed by the Business Owner and Project Manager and initiated in the Design Phase, continued throughout the Development Phase and Test Phase, and completed in the Implementation Phase. A DUA is a legal binding agreement between a Federal agency and an external entity (e.g., contractor, private industry, academic institution, other Federal government agency, or State agency), when an external entity requests the use of personal identifiable data that is covered by the Privacy Act of 1974. The agreement delineates the confidentiality requirements of the Privacy Act, security safeguards, and the Federal agency's data use policies and procedures. The DUA serves as both a means of informing data users of these requirements and a means of obtaining their agreement to abide by these requirements. Additionally, the DUA serves as a control mechanism through which the Federal agency can track the location of its data and the reason for the release of the data. A DUA requires that a System of Record Notice be in effect, which allows for the disclosure of the data being used. There are five templates available depending upon need: A) New Data Use Agreement B) Update to an Existing Data Use Agreement C) Amendment to an Existing Data Use Agreement D) Disproportionate Share Hospital Data Use Agreement (DSH) E) Disproportionate Share Hospital Data Use Agreement (cost reporting periods that include December 8, 2004 and thereafter) NOTE: The DUA templates can be found on the CMS internal Forms Locator website.
Operational Readiness Review	General Requirement	43618	Business Product (Final) The Systems solution delivered for final release, including; A) Release version identification; B) Hardware and software acquisition and installation status; C) Data conversion issues and status; D) Technical and function documentation status.
Operational Readiness Review	General Requirement	43619	The Vendor shall prepare the Final Training Materials for each user type, including but not limited to: A) Training content B) Description of training materials, training delivery methods and training locations to include at a minimum: C) Web-based instruction D) Instructor guides E) Student guides F) Exercise materials G) Training records.

Category	Sub Category	Req ID	Requirement
Operational Readiness Review		43620	At the conclusion of the Operational Readiness Review, the Vendor shall prepare a Requirements Traceability Matrix Update. This update must include at a minimum: A) Approach to Requirements Analysis and Traceability B) Summary of Findings C) List of Requirements D) List of Deliverables E) Requirements mapped to Deliverables F) Deliverables mapped to Requirements G) Requirements without matching Deliverables H) Deliverables without matching Requirements I) System Test Requirements mapped to System Test Scenarios/Conditions and vice versa J) System Test Requirements without matching scenarios and vice versa K) UAT Requirements mapped to UAT Scenarios/Conditions and vice versa L) UAT Requirements without matching scenarios and vice versa
	General Requirement		
Operational Readiness Review	General Requirement	43621	Immediately following the completion of implementation, the Vendor shall prepare an Implementation Complete Deliverable. The document shall highlight proven practices and recommendations, as well as problem areas, issues and corresponding solutions associated with the application, hand-offs and coordination among other entities involved with the project.
Operations			
Operations	Case Management		
Operations	Case Management	38387	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall have the functionality to import a bulk upload documents from an external sources, including Novitex and Service Center.
Operations	Case Management	38388	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall have the functionality to consume metadata that is associated to documents that are uploaded in bulk.
Operations	Case Management	38389	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall have the functionality to automatically link documents uploaded in bulk to the correct case based on the metadata provided.
Operations	Case Management	38390	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall create a BPM work task to review documents received from KP when the document cannot be linked via Case ID and assign it to a Manual Verification queue.
Operations	Case Management	38391	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall have the functionality to move a document that was erroneously uploaded to a case to the correct case.
Operations	Case Management	38591	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall apply a data fix to the records identified by SAWS as MAGI M/C Denied or Discontinued. The data fix shall change the records to the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) application status from its current status of in progress or terminated to ""terminated"" and the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) case status to ""inactive"".
Operations	Case Management	38592	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to apply a data fix to the records identified by SAWS as MAGI M/C and Mixed Household cases as duplicate cases. The data fix shall change the records to the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) application status from its current status (in progress or terminated) to "terminated" and the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) case status to "closed duplicate". Consumer accounts will not be effected.
Operations	Case Management	38593	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall apply a data fix to discontinue the eligibility of the MAGI Medi-Cal individuals from Mixed Household records identified by SAWS.
Operations	Case Management	38594	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall apply a data fix to SAWS identified Cases that are in withdrawn status to either terminate or restore to active.
Operations	Case Management	38595	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System must provide the functionality to consume the denial or discontinuance reason code in CancelDER service.
Operations	Case Management	38596	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to create and consume an eHIT transaction to communicate a canceled Determination of Eligibility Response (DER)
Operations	Case Management	38597	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall close cases when a Cancelled DER transaction is received.
Operations	Case Management	38602	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall accept and process EDRs on cases that are in a withdrawn status.
Operations	Case Management	38603	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall remove business validation 8 related to the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) withdrawn case status.
Operations	Case Management	38604	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall update ad-hoc eHIT interface operational reports for the inclusion of Cancelled DER service.
Operations	Case Management	38605	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall provide a report of the universe of withdrawn cases with an enrollment indication of the case persons.
Operations	Case Management	38606	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) EHIT Interface shall provide a new web service to receive Cancelled DERs that processes these requests in near realtime.
Operations	Eligibility Determination		
Operations	Eligibility Determination	40786	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) access channel cases for all counties within the C-IV consortia to ensure they are tied to LRS and not C-IV to ensure proper routing of the cases to the LRS/CalSAWS consortia.
Operations	Eligibility Determination	41116	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall split the Portal and eHIT infrastructure, to reduce the dependency of performance between Portal and eHIT transactions.
Operations	Eligibility Determination	41117	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall size Portal and eHIT infrastructure to meet the existing baseline performance.

Category	Sub Category	Req ID	Requirement
Operations	Eligibility Determination	41118	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall ensure that infrastructure components are highly available after splitting the infrastructure.
Operations	Eligibility Determination	41119	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall ensure that infrastructure of Portal and eHIT will support the projected increase in users and increase in eHIT's transactions for next year's OE period.
Operations	Eligibility Determination	41121	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement changes related to system monitoring to capture metrics and reports for the additional infrastructure
Operations	Eligibility Determination	41122	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement security changes to secure the additional infrastructure.
Operations	Enrollment		
Operations	Enrollment	38311	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System will provide operations capability for the bi-directional exchange of X12 (834) files with UHC via their new EDI Vendor (Health Plan Services).
Operations	Enrollment	38312	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System will provide for both test and production connectivity and will support the testing of the new connectivity with the EDI Vendor (Health Plan Services).
Operations	Enrollment	38631	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System will provide operations capability for the bi-directional exchange of X12 (834) files with Blue Shield.
Operations	Enrollment	38632	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System will provide for both test and production connectivity and will support the testing of the new connectivity with Blue Shield.
Operations	Enrollment	38698	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System will provide operations capability for the bi-directional exchange of X12 (834) files with HealthNET.
Operations	Enrollment	38699	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System will provide for both test and production connectivity and will support the testing of the new connectivity with HealthNET.
Operations	Enrollment	38879	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System will provide operations capability for the bi-directional exchange of X12 (834) files with Premier.
Operations	Enrollment	38880	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System will provide for both Test and Production connectivity and will support the testing of the new connectivity with Premier.
Operations	Enrollment	38881	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system will discontinue existing operations capability with the existing inhouse Premier EDI processing via a direct connection and convert it to Sotheon.
Operations	Enrollment	38882	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System will validate that Premier is able to uniquely identify X12 (834) files and provide a unique destination folder (or other mechanism) through which it is providing EDI services.
Operations	Enrollment	38883	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System will send the files via Secured File Transfer Protocol (SFTP) . Premier will be responsible for securing their SFTP site, and also making sure these files are encrypted at rest.
Operations	Enrollment	38884	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall be updated to point to a new PayNow URL. The SAML interface will still be used, but Premier is now using Softheon as their payment vendor.
Operations	Enrollment	43153	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System will provide operations capability for the bi-directional exchange of X12 (834) files with Kaiser Permanante via their new EDI Vendor (Health Plan Services).
Operations	Enrollment	43154	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System will provide for both test and production connectivity and will support the testing of the new connectivity with the EDI Vendor (Health Plan Services).
Operations	Enrollment	43156	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System will need continue to support testing with the existing EDI vendor (Conexis) via this same FTP channel until the new EDI vendor (Health Plan Services) is implemented into production.
Operations	Enrollment	43398	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System will provide operations capability for the bi-directional exchange of X12 (834) files withDental Health Services via their new EDI Vendor (Aldera).
Operations	Enrollment	43399	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System will provide for both test and production connectivity and will support the testing of the new connectivity with the EDI Vendor (Aldera).
Operations	Enrollment	43400	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System will need continue to support testing and Production with the existing connection via the current channel until the new Aldera system is tested, validated and implemented into production.
Operations	Enrollment	43401	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system will discontinue existing operations capability with Dental Health Services current platform via a direct connection and convert it to the new Aldera Vendor (Dental Health Services).
Operations	Enrollment	43402	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System will validate that the new vendor is able to uniquely identify X12 (834) files from multiple California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Partners and provide a unique destination folder.
Operations	Enrollment	43403	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System will send the files via Secured File Transfer Protocol (SFTP) . Carriers will be responsible for securing their SFTP site, and also making sure these files are encrypted at rest. (For California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) directional traffic PGP keys and SSH keys will be provided by Accenture.)
Operations	Enrollment	44501	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide operational capability for the bi-directional exchange of X12 (834) and other files with Valley Health via their new EDI Vendor (UHIN). The new vendor UHIN is a pass-through and makes NO changes to any of the files it routes.
Operations	Enrollment	44527	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide operations capability for the bi-directional exchange of X12 (834) files with Oscar.
Operations	Enrollment	44529	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide for both Test and Production connectivity and will support Connectivity testing of the new connection with UHIN.
Operations	Enrollment	44530	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall continue to support testing and Production with the existing connection via the current channel until the new UHIN pass-through connection is tested, validated and implemented into production.
Operations	Enrollment	44531	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall discontinue existing operations capability via the direct SFTP connection to Valley Health and and change it to a new direct SFTP connection to UHIN when the new Vendor End point has been implemented into Produciton.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Operations	Enrollment	45096	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system will discontinue existing operations capability with Kaiser Permanente's current EDI vendor Conexis (aka KPC) via a direct connection and convert it to the new EDI Vendor (Health Plan Services).
Operations	Enrollment	45097	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System will validate that the new EDI vendor is able to uniquely identify X12 (834) files from multiple California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Partners and provide a unique destination folder (or other mechanism) for each California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) partner for which it is providing EDI services.
Operations	Enrollment	45098	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System will send the files via Secured File Transfer Protocol (SFTP) . Carriers will be responsible for securing their SFTP site, and also making sure these files are encrypted at rest.
Operations	Enrollment	45154	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system will discontinue existing operations capability with UHC via a direct connection and convert it to the new EDI Vendor (Health Plan Services).
Operations	Enrollment	45155	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System will validate that the new EDI vendor is able to uniquely identify X12 (834) files from multiple California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Partners and provide a unique destination folder (or other mechanism) for each California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) partner for which it is providing EDI services.
Operations	Enrollment	45156	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System will send the files via Secured File Transfer Protocol (SFTP) . Carriers will be responsible for securing their SFTP site, and also making sure these files are encrypted at rest.
Operations	Enrollment	45177	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system will discontinue existing operations capability with HPS(Existing EDI vendor) via a direct connection and convert it to the Blue Shield.
Operations	Enrollment	45178	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System will validate that Blue Shield is able to uniquely identify X12 (834) files from multiple California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Partners and provide a unique destination folder (or other mechanism) for each California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) partner for which it is providing EDI services
Operations	Enrollment	45179	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System will send the files via Secured File Transfer Protocol (SFTP) . Carrier will be responsible for securing their SFTP site, and also making sure these files are encrypted at rest.
Operations	Enrollment	45182	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system will discontinue existing operations capability with hCentive(Existing EDI vendor) via a direct connection and convert it to the new_exchange_vendor_name (Centene/Softeon).
Operations	Enrollment	45183	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System will validate that HealthNET is able to uniquely identify X12 (834) files from multiple California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Partners and provide a unique destination folder (or other mechanism) for each California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) partner for which it is providing EDI services.
Operations	Enrollment	45184	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System will send the files via Secured File Transfer Protocol (SFTP) . Carrier will be responsible for securing their SFTP site, and also making sure these files are encrypted at rest.
Operations	Enrollment	45185	Update on CH the new "Issuer Subscriber Id" and "issuer Member Id" That is, the migration on the HN side changes these issuer fields and CH needs to be updated to get these new values.
Operations	Enrollment	45186	Update CH to point to a new PayNow URL. The SAML interface will still be used, but HN is using a new payment vendor.
Operations	Enrollment	45187	Migration is for both HIOS 67138 and 99110
Operations	Enrollment	45188	Schedule is release independent. Start connectivity testing in mid-May (ping, send/receive 834, decrypt) Start basic functionality testing on current CH production release in June. Complete full functional testing with release 17.9 functionality with other carriers durnig normal integration testing.
Operations	Enrollment	45445	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall exchange files with the Carrier via Secure File Transfer Protocol (SFTP). The Carrier will be responsible for securing their SFTP site, and also ensuring these files are encrypted at rest.
Operations	General Requirement		
Operations	General Requirement	37924	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System will provide an operations capability to exchange electronic files with DHCS securely.
Operations	General Requirement	37925	DHCS must provide a single SFTP location for receiving files from California Healthcare Eligibility, Enrollment and Retention System (CalHEERS). Location must be ready 30 days before CR capability goes to production.
Operations	General Requirement	38663	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System will provide an operations capability to exchange electronic files with CC securely.
Operations	General Requirement	38664	This is an assumption not a req. Zaid 20161018
Operations	General Requirement	38665	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system will contain a system folder that contains all the files that will be sent to CC. This folder will be scanned every 60 minutes and all files will be sent to CC and then archived.
Operations	General Requirement	38666	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall send the files via Secured File Transfer Protocol (SFTP)
Operations	General Requirement	38667	All files sent to CC will be archived and stored encrypted on another California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) folder location accessable by State Staff, and automatically removed after 7 days.
Operations	General Requirement	38668	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System will provide the capability for California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) staff to use an SFTP client (like FileZilla) to place files in the outbound system folder to CC.
Operations	General Requirement	38669	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System will provide the capability for files uploaded by OBIEE to be directed to alternate folders on the Covered CA SFTP by directory and naming convention.
Operations	General Requirement	38670	All the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) CC system reports must be sent to the outbound system folder.
Operations	General Requirement	38671	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System will provide the capability to transfer the (monthly) reports that are part of the PMPM Invoice (CaINOD22) billing process to the Covered CA SFTP.
Operations	General Requirement	38875	The system shall be capable to effectuate multiple cases within a single batch job.
Operations	General Requirement	38876	The system batch jobs shall offer a provision to process at the transaction level.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Operations	General Requirement	38877	The System Batch shall be capable of dealing with the timeshift cases submitted, and move them independently through the process aligned with their testing cycle.
Operations	General Requirement	40446	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall configure a new FTB database on Exadata on-premise hardware non-prod and prod with required setup to store entire FTB data file on on-premise FTB database
Operations	General Requirement	40447	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall configure a new database link between HBX and FTB on-premise databases non-prod and prod with required setup to access California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) non-customers data using database link
Operations	General Requirement	40452	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall maintain same level of table security controls on the new FTB on-premise database
Operations	General Requirement	41339	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the auto-enrollment functionality to be configurable on/off.
Operations	General Requirement	41473	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) to update routing of all transactions for Placer, Contra Costa, and Yolo counties to CalSAWS consortia.
Operations	General Requirement	42825	If the Form 1095-A Health Insurance Marketplace Statement is being redistributed due to a correction, the form will clearly indicate that it's a 'corrected' or 'void' version of the original form.
Operations	General Requirement	44183	The Vendor shall document, within the O&M Manual, a Configuration Management section that addresses the following configuration categories: 1. California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Solution Software and Hardware - Commercial software, third party software, custom software, and hardware acquired through the SI contract for the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) solution, as defined within the contract, DEDs and deliverables. 2. Project Documents - Any document formally approved and requiring any form of change management will be managed by configuration management and recorded in the software configuration management tool. This includes documents such as deliverables, work products, testing documents, design artifacts, and build artifacts. 3. Requirements - Conditions or requirements that must be met or possessed by the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) solution or system components to satisfy the contract, standards, specifications, or other formally imposed documents. 4. Business Rule-Based Data - Rules and associated data that are defined and determined by Project Sponsor and Program Partner staff and maintained in the application. For example: Eligibility and enrollment business rules.
Operations	General Requirement	44191	Vendor shall be responsible for the structure, planning, development, and implementation of all change requests incorporated within a Release.
Operations	General Requirement	44238	The Network design shall contain redundancy of all Vendor Equipment and Network components. The Vendor shall configure all Network Equipment to automatically failover to other Vendor provided Equipment when an outage occurs.
Operations	General Requirement	44239	The Vendor shall utilize name resolution instead of hard coded IP addresses where possible.
Operations	General Requirement	44273	The Vendor shall be responsible for making application programming changes to the System required to support an upgrade to a Third-Party Software component.
Operations	General Requirement	44314	The Vendor shall use the Capability Maturity Model Integration (CMMI) as developed by the Software Engineering Institute (SEI) of Carnegie-Mellon University as the standard, as amended or modified, for the quality of the information System and data processing organization of the Vendor.
Operations	General Requirement	44315	The Vendor shall submit to the State for approval, the CMMI methodology to be used for performing System modifications and maintenance activities.
Operations	General Requirement	44316	The Vendor shall assess and verify from an independent third party that the Vendor is performing at CMMI Level 2 or higher within 18 months of the operations start date.
Operations	General Requirement	44317	One (1) year following the initial assessment, if at a Level 2, The Vendor shall obtain a new independent assessment that shall show at least a CMMI Level 3 and this level shall be maintained through the life of the Contract. The specific rating shall be applicable at the organizational/business unit level that shall be providing the services.
Operations	General Requirement	44318	The Vendor shall demonstrate the CMMI level 3 or higher by an independent assessment and provide supporting documentation to the Exchange every two years. Starting in calendar year 2017, this assessment will include both CMMI for Development (CMMI-DEV) and CMMI for Services (CMMI-SVC) process areas as per the CMMI standards.
Operations	General Requirement	44320	The Vendor shall be responsible to advise Exchange of the impact of any Software upgrade to the operations of the System and/or interface partners ninety (90) calendar days prior to upgrading the Software.
Operations	General Requirement	45114	All files sent to DHCS will be archived and stored encrypted on another folder location accessible by State Staff, and removed after 30 days.
Operations	General Requirement	45115	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System will provide the capability for state staff to use an SFTP client (like FileZilla) to place files in the outbound system folder to DHCS.
Operations	General Requirement	45116	All the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) DHCS system reports must be sent to the outbound system folder.
Operations	General Requirement	45117	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system will contain a system folder that contains all the files that will be sent to DHCS. This folder will be scanned every 60 minutes and all files will be sent to DHCS and archived.
Operations	General Requirement	45118	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall send the files via Secured File Transfer Protocol (SFTP) .
Operations	General Requirement	45789	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update routing of all transactions for Santa Clara, Tulare and Contra Costa counties to CalSAWS consortia.
Operations	General Requirement	45802	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update routing of all transactions for Orange, Santa Barbara and Ventura counties to CalSAWS consortia.
Operations	General Requirement	46097	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update routing of all transactions for San Diego, San Mateo, Santa Cruz and Solano counties to CalSAWS consortia.
Operations	General Requirement	46123	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update routing of all transactions for Sacramento, San Luis Obispo and San Francisco counties to CalSAWS consortia.
Operations	General Requirement	46135	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) to bring down CalWIN VLP pollers at the beginning of cutover phase on 10/26/2023 for Wave 6.
Operations	General Requirement	47058	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update routing of all transactions for San Diego, San Mateo, Santa Cruz and Solano counties to CalSAWS consortia.
Operations	General Requirement	47583	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update routing of all transactions for Alameda, Fresno and Sonoma counties to CalSAWS consortia.
Operations	Maintain Operational Data		
Operations	Maintain Operational Data	44184	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide an operational new VM environment to run the batch for Ops Copy in the PDC segmented from production.

Category	Sub Category	Req ID	Requirement
Operations	Maintain Operational Data	44185	The Contractor shall install a batch execution application software stack in the PDC OpsCopy environment.
Operations	Maintain Operational Data	44186	The Contractor shall configure the appropriate RBAC controls (for the new Ops Copy app tier) for the developers needing to access this (and not directly in production).
Operations	Maintain Operational Data	44187	The Contractor shall maintain and perform the batch deployments to new batch server for Ops Copy (in addition to the batch servers in the other environments in the environment streams that exist).
Operations	Notices		
Operations	Notices	40022	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall clearly indicate on the form if the Form 1095-A Health Insurance Marketplace Statement is being redistributed due to a correction ('Corrected'), or when the original form is no longer valid ('Void').
Operations	Outreach		
Operations	Outreach	38702	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system will print a barcode that contains the Case ID on the first page of the notice and any form that is mailed to a consumer.
Operations	Outreach	38703	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system will scan the barcode on every piece of inbound mail.
Operations	Outreach	38704	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system will have the functionality to automatically link returned mail to the correct case based on the barcode.
Operations	Outreach	38705	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system will have the functionality to automatically flag a mailing address as undeliverable on a case in California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) and in the Data Warehouse.
Operations	Outreach	38706	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system will have the functionality to manually add and remove a flag that a mailing address is undeliverable on a case.
Operations	Outreach	38707	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system will update the Outreach Template Report to include cases that have the "Undeliverable Flag" and add an indicator in the report to show which consumers have this flag.
Operations	Outreach	38708	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system will create a BPM task for each piece of returned mail and assign the task to the correct queue.
Operations	Outreach	38709	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system will remove the flag from the consumer's address when the primary mailing address is updated.
Operations	Outreach	38924	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) print vendor will scan only the front of the envelope and the front of the first page of the contents of the notice for all pieces of undeliverable mail.
Org Change Management			
Org Change Management	General Requirement		
Org Change Management	General Requirement	43441	The Vendor shall provide Organizational Change Management to prepare the following California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) user groups for implementation: County, MRMIB, and DHCS.
Org Change Management	General Requirement	43442	The Vendor shall conduct facilitation of meetings prior to System Implementation with appropriate Exchange, County, MRMIB and DHCS staff to determine the new policies and procedures that will be required once the System is implemented.
Org Change Management	General Requirement	43443	The Vendor shall lead the effort to document the new business processes.
Org Change Management	General Requirement	43444	The Vendor and the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) staff shall review existing processes and procedures
Org Change Management	General Requirement	43445	The Vendor shall conduct interviews and studies with a sampling of California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) staff staff within its respective organization. Based on these interviews, studies and decisions made by the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) staff, the Vendor will produce Change Readiness Plan which will describe in detail the process changes affecting the way staff will perform their jobs utilizing the new System.
Org Change Management	General Requirement	43446	The Change Readiness Plan the steps the person in the role will complete once they begin utilizing the new System along with the steps that the person will stop completing once they begin utilizing the new System.
Org Change Management	General Requirement	43447	The Vendor shall plan for, develop and conduct Organizational Change Management training for all appropriate staff as determined by the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Project Director.
Performance			
Performance	Eligibility Determination		
Performance	Eligibility Determination	40787	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall review the performance of transaction processing.
Performance	Eligibility Determination	40788	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall review the performance of Realtime EDR and VLP transactions for CalSAWS system.
Performance	Eligibility Determination	40789	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall review the performance of Realtime EDR and VLP transactions for CalWIN system.
Performance	Eligibility Determination	40790	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall review the performance of Batch EDR transactions for CalSAWS system.
Performance	Eligibility Determination	40791	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall review the performance of Batch EDR transactions for CalWIN system.
Performance	Eligibility Determination	41120	CALHEERS shall ensure that the SAWS real time transaction processing will not be impacted negatively by this change.
Performance	Eligibility Determination	45885	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall perform Integration performance testing with CMS for (RJ138) VCI service.
Performance	Eligibility Determination	45907	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall perform Integration performance testing with CMS for RJ3 SSA Service.
Performance	Eligibility Determination	46391	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall perform Integration performance testing for (RJ09) IFSV service.
Performance	General Requirement		
Performance	General Requirement	41474	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall execute performance testing for CalWIN to CalSAWS migration.

Category	Sub Category	Req ID	Requirement
Performance	General Requirement	41475	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall execute performance of Realtime EDR and VLP transactions for CalSAWS system.
Performance	General Requirement	41476	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall execute performance of Realtime EDR and VLP transactions for CalWIN system.
Performance	General Requirement	41477	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall execute performance of Batch EDR transactions for CalSAWS system.
Performance	General Requirement	41478	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall execute performance of Batch EDR transactions for CalWIN system.
Performance	General Requirement	45261	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall include Performance Integration testing for this CR.
Performance	General Requirement	45690	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall encrypt vendor/partner supplied files for batch processing
Performance	General Requirement	45691	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall encrypt instance (container) image files under the hypervisor
Performance	General Requirement	45692	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall encrypt data transfer request via SSL
Performance	General Requirement	45693	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall be allow client to decrypted data using certificates
Performance	General Requirement	45790	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall execute the performance of transaction processing.
Performance	General Requirement	45791	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall execute the performance of Realtime EDR and VLP transactions for CalSAWS system.
Performance	General Requirement	45792	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall execute the performance of Realtime EDR and VLP transactions for CalWIN system.
Performance	General Requirement	45793	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall execute the performance of Batch EDR transactions for CalSAWS system.
Performance	General Requirement	45794	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall execute the performance of Batch EDR transactions for CalWIN system.
Performance	General Requirement	45803	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall execute the performance of transaction processing.
Performance	General Requirement	45804	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall execute the performance of Realtime EDR and VLP transactions for CalSAWS system.
Performance	General Requirement	45805	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall execute the performance of Realtime EDR and VLP transactions for CalWIN system.
Performance	General Requirement	45806	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall execute the performance of Batch EDR transactions for CalSAWS system.
Performance	General Requirement	45807	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall execute the performance of Batch EDR transactions for CalWIN system.
Performance	General Requirement	46098	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall execute the performance of transaction processing.
Performance	General Requirement	46099	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall execute the performance of Realtime EDR and VLP transactions for CalSAWS system.
Performance	General Requirement	46100	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall execute the performance of Realtime EDR and VLP transactions for CalWIN system.
Performance	General Requirement	46101	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall execute the performance of Batch EDR transactions for CalSAWS system.
Performance	General Requirement	46102	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall execute the performance of Batch EDR transactions for CalWIN system.
Performance	General Requirement	46124	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall execute the performance of transaction processing.
Performance	General Requirement	46125	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall execute the performance of Realtime EDR and VLP transactions for CalSAWS system.
Performance	General Requirement	46126	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall execute the performance of Realtime EDR and VLP transactions for CalWIN system.
Performance	General Requirement	46127	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall execute the performance of Batch EDR transactions for CalSAWS system.
Performance	General Requirement	46128	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall execute the performance of Batch EDR transactions for CalWIN system.
Performance	General Requirement	47059	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall execute the performance of transaction processing.
Performance	General Requirement	47060	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall execute the performance of Realtime EDR and VLP transactions for CalSAWS system.
Performance	General Requirement	47061	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall execute the performance of Realtime EDR and VLP transactions for CalWIN system.
Performance	General Requirement	47062	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall execute the performance of Batch EDR transactions for CalSAWS system.
Performance	General Requirement	47063	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall execute the performance of Batch EDR transactions for CalWIN system.
Performance	General Requirement	47584	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall execute the performance of transaction processing.
Performance	General Requirement	47585	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall execute the performance of Realtime EDR and VLP transactions for CalSAWS system.
Performance	General Requirement	47586	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall execute the performance of Realtime EDR and VLP transactions for CalWIN system.
Performance	General Requirement	47587	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall execute the performance of Batch EDR transactions for CalSAWS system.
Performance	General Requirement	47588	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall execute the performance of Batch EDR transactions for CalWIN system.

Performance	Notices		
Performance	Notices	42801	CalHEERS shall only create one file type to for all notices that are store in the Electronic Content Management System with the implementation of this CR. The file type shall be stored as PDFs. Currently the system creates two file types tied to all notices that are stored within the Electronic Content Management System. This process doubles the amount of disk space used for each notices; which impacts the system current storage space.
Performance	Notices	42880	CalHEERS shall delete the existing duplicate web-viewable files for all notices that are store in the Electronic Content Management System with the implementation of this CR.
Performance	Provider/Plan Directory		
Performance	Provider/Plan Directory	43404	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide provider directories for each plan selected for comparison and to search for a specific doctor or facility.
Plan Management			
Plan Management	Certify QHP		
Plan Management	Certify QHP	39694	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to utilize data provided by the Exchange for determining quality indicators and methods used in plan quality rating.
Plan Management	Certify QHP	39736	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall collect data and sources and use Exchange determined rules and criteria for determining the quality rating. The Vendor will recommend data and sources.
Plan Management	Certify QHP	39739	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to list and maintain Qualified Health Plan (QHP) and qualified stand-alone dental plan criteria for defined time periods.
Plan Management	Certify QHP	44539	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to list Certified QHPs, qualified stand-alone dental plans, and MCAP, CHIP, and BHP (if enacted) plans on the Web Portal.
Plan Management	Certify QHP	44540	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to receive health plan information for Exchange QHPs, qualified stand-alone dental plans, and MCAP, CHIP, and BHP (if enacted) plans.
Plan Management	Certify QHP	44558	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to collect and display for each QHP Issuer the following information: claims payment policies and practices, financial disclosures, enrollment data, disenrollment data, number of claims denied, rating practices, information on cost sharing and payments with respect to any out-of-network coverage, and information on enrollee rights under Title I of the ACA.
Plan Management	Certify Recertify Decertify QHP		
Plan Management	Certify Recertify Decertify QHP	41394	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality for role based Issuer access to their specific account and enrollee data according to the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) security and privacy framework.
Plan Management	Certify Recertify Decertify QHP	41558	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the user to search for the QHP and QDP plans with the following search criteria elements: Plan Number, Issuer, Metal Level, Plan Status (Certified, Loaded, Incomplete, Decertified), Plan Verification Status (Yes, No), Enrollment Availability (Available, Not Available), Plan Year.
Plan Management	Certify Recertify Decertify QHP	41559	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display following details upon successful search: Plan Number, Plan Name, Issuer Name, Metal Level, Enrollment Availability, Last modified, Plan Status, Plan Verification Status

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Plan Management	Certify Recertify Decertify QHP	41560	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the user to view Plan Details, Plan Benefits and Plan Rates once the QHP and/or QDP Plan has been uploaded.
Plan Management	Certify Recertify Decertify QHP	41561	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the user to view the following Plan Details: Issuer Name, Plan Name, Plan Market, Plan Level, EHB Factor, HSA Plan (Yes/No), Plan Type, Standardize Plan Design, Plan Start Date, Plan End Date, Provider Network, Provider Network URL, Formulary URL, Formulary ID, Plan Brochure URL, Plan SBC URL, Service Area ID, Certification Status, Enrollment Availability.
Plan Management	Certify Recertify Decertify QHP	41562	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the user to download Drug List applicable for the FORMULARY ID (CAFXXX).
Plan Management	Certify Recertify Decertify QHP	41563	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the user to download Service Area details (CASXXX) for the Health or Dental Plan
Plan Management	Certify Recertify Decertify QHP	41564	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the user to view and download the Plan Benefits and/or Plan Brochure for the Health and Dental plans from the Plan Benefits page.
Plan Management	Certify Recertify Decertify QHP	41565	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the user to view and download Plan Rates for the Health and Dental plans from the Plan Rates page.
Plan Management	Certify Recertify Decertify QHP	41567	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the user to update Plan Certification Status and Enrollment Availability.
Plan Management	Certify Recertify Decertify QHP	41573	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Issuer Admin to bulk update Enrollment Availability and Certification Status.
Plan Management	Certify Recertify Decertify QHP	41574	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display Change Transaction history indicating the changes made to the Certification Status.
Plan Management	Certify Recertify Decertify QHP	41575	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the user to Verify a Plan(s) and shall capture the following during the Plan verification process: Statement, Attestation, First Name, Last Name, eSignature, and Date of Verification.
Plan Management	Certify Recertify Decertify QHP	41576	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the Issuer Rep to bulk update Plan Verification Status.
Plan Management	Certify Recertify Decertify QHP	41577	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Issuer Admin to view the Change log history indicating the updates to Plan Status, Enrollment Availability and Plan Verification Status.
Plan Management	Certify Recertify Decertify QHP	44544	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide the functionality to manually enter plan data if necessary.
Plan Management	Certify Recertify Decertify QHP	44550	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide the functionality to restrict any changes to plan and rate data for QHPs.
Plan Management	Certify Recertify Decertify QHP	44551	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide the functionality for authorized Issuer and Exchange users to update administrative data as needed, and add additional data and notes where appropriate. Issuer Users will not be able to update plan or rate data.
Plan Management	Certify Recertify Decertify QHP	44595	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide the functionality to present the Issuer home page upon successful Issuer login.
Plan Management	Certify Recertify Decertify QHP	44596	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall allow authorized Issuer users view and update capabilities as specified by the Exchange.
Plan Management	Certify Recertify Decertify QHP	44597	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to capture the electronic signature for approval of data loaded into California Healthcare Eligibility, Enrollment and Retention System (CalHEERS).
Plan Management	Enrollment		
Plan Management	Enrollment	38313	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide support for the testing of the functional test scenarios provided with the new EDI vendor.
Plan Management	Enrollment	38409	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall allow for the addition of an issuer.
Plan Management	Enrollment	38410	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to extend or remove the WSDL service to existing or new issuers.
Plan Management	Enrollment	38633	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) team shall perform integration test with Blue Shield. Integration test shall ensure that Blue Shield is able to accept, process and provide response to California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) transactions
Plan Management	Enrollment	38679	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) team shall perform integration test with HealthNET. Integration test shall ensure that HealthNET is able to accept, process and provide response to California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) transactions (including PayNow SAML and Reconciliation Processes).
Plan Management	Enrollment	38842	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall update the crosswalk for Catastrophic plans enrollment for passive renewals.
Plan Management	Enrollment	38843	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall pick up the aged out Catastrophic plans in the last batch sweep.
Plan Management	Enrollment	38912	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) team shall perform Carrier Integration Testing with Premier. Integration Testing shall ensure that Premier is able to accept, process and provide responses to California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) transactions through SFTP. Testing will include PayNow SAML and Reconciliation Processes.
Plan Management	Enrollment	43155	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide support for the testing of the functional test scenarios provided with the new EDI vendor.
Plan Management	Enrollment	43170	The System must provide the ability for a user to view Enrollment transactions on the Transaction History page.
Plan Management	Enrollment	43171	The System must provide the ability for a user to view the Plan Selection transaction on the Transaction History page.
Plan Management	Enrollment	43172	The System must provide the ability for a user to search based on Enrollment transaction type on the Transaction History page.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Plan Management	Enrollment	43173	The System must provide the ability for a user to search for enrollment transactions by date range.
Plan Management	Enrollment	43174	The System must provide the ability for a user to view active enrollment coverage segments with applied APTC on the Current Enrollment page.
Plan Management	Enrollment	43175	The System must provide the ability for a user to view historical enrollment coverage segments with applied APTC on the Enrollment History page.
Plan Management	Enrollment	43176	The System must provide the ability for a user to view the latest APTC, CSR, net Premium and gross Premium Amounts on the Current Enrollment page and the Enrollment History page.
Plan Management	Enrollment	43177	The System must provide the ability for a user to view the Carrier Policy # associated with a Enrollment on the Current Enrollment page and the Enrollment History page.
Plan Management	Enrollment	43178	The System must provide the ability for a SCR type user to view APTC, CSR, net Premium and gross Premium Amounts applicable to every Enrollment event.
Plan Management	Enrollment	43179	The System must provide the ability for California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) assigned Policy ID/Enrollment ID to be mapped in L2000 REF*1L segment on all types of Outbound 834 transactions (Initial Enrollment/ Maintenance/ Termination/ Cancellation).
Plan Management	Enrollment	43180	The System must provide the ability for California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) assigned Policy ID/Enrollment ID to be mapped in L2300 REF*1L segment on all types of Outbound 834 transactions (Initial Enrollment/ Maintenance/ Termination/ Cancellation).
Plan Management	Enrollment	43181	The System must provide the ability for accepting the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) assigned Policy ID/Enrollment ID returned by Carriers on all types of Inbound 834 transactions (Effectuation/ Cancellation/ Termination).
Plan Management	Enrollment	43182	The System shall use the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) assigned Policy ID/Enrollment ID returned by Carriers on Inbound 834 transactions to identify the corresponding Enrollment.
Plan Management	Enrollment	43183	The System shall continue to use Subscriber ID, Plan ID & benefit year elements if the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) assigned Policy ID/Enrollment ID is not returned by Carriers on Inbound 834 transactions to identify the corresponding Enrollment.
Plan Management	Enrollment	44528	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall perform interface testing with Oscar to ensure that Oscar is able to accept, process, and provide response to EDI transactions including 834, TA1 and 999.
Plan Management	General Requirement		
Plan Management	General Requirement	38404	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall have the functionality to suppress the display of provider data for an individual record by network.
Plan Management	General Requirement	38405	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall use the provider language data fields to display language on the portal.
Plan Management	General Requirement	39273	The equation used to prorate the APTC will be same equation used to prorate the monthly premium amount: Partial month premium = Full month APTC X (# of days of coverage/# of days in month)
Plan Management	General Requirement	42910	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add the following zip code to Anthem Service area ID CAS018 93243
Plan Management	General Requirement	42911	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add the following zip codes to Anthem Service area ID CAS017 90623, 90630, 90631, 91709
Plan Management	Interfaces		
Plan Management	Interfaces	41578	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) QHP Quoting module shall determine monthly premium at the member level for the Health plans available on the Individual Market.
Plan Management	Interfaces	41579	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) QHP Quoting module shall utilize the following criteria to determine PMPM (per member per month) premium: 1. QHP Quoting module shall determine Rating area based on the zip and county provided by the consumer in the application flow. 2. QHP Quoting module shall receive consumer's age as of the earliest coverage start date for the consumer.
Plan Management	Interfaces	41580	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) QHP Quoting Module shall sum PMPM premium for the individuals on the household to determine final monthly premium. When determining premium for a household with more than 3 children's, California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall cap the number of children to the three oldest children on the household.
Plan Management	Interfaces	41581	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall determine monthly premium at the member level for the QDP plans in the Individual Market.
Plan Management	Interfaces	41582	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) QDP Quoting module shall utilize the following criteria to determine PMPM (per member per month) premium: 1. QDP Quoting module shall determine Rating area based on the zip and county provided by the consumer in the application flow. 2. QDP Quoting module shall receive consumer's age as of the earliest coverage start date for the consumer.
Plan Management	Interfaces	41586	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) QDP Quoting Module shall sum PMPM premium for the individuals on the household to determine final monthly premium. When determining premium for a household with more than 3 children, California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall cap the number of children to the three oldest children on the household.
Plan Management	Interfaces	41587	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall determine benchmark premium for the household as the EHB premium of the second lowest cost silver plan in the applicable rating area.
Plan Management	Interfaces	41588	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow 1. Allow a Rep to serve as Issuer Rep & Enrollment Rep for an Issuer (HIOS ID 1). 2. Allow a Rep to serve for multiple HIOS IDs (HIOS ID1, HIOSID2, etc.) for the same Issuer
Plan Management	Issuer Profile Management		
Plan Management	Issuer Profile Management	41524	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the user to register Issuer's Account with the following details: HIOS ID, Issuer Short Name, Company Name/Legal Name, NAIC Code/Group Code, FEIN #, and Issuer's Address.
Plan Management	Issuer Profile Management	41525	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the user to update the Company Profile for the Issuer with the following details: Company Legal Name, Company Logo, Issuer State, Issuer Payment URL.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Plan Management	Issuer Profile Management	41526	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the user to update the Individual Market profile for the Issuer with the following details: Customer Service Phone, Customer Service Toll-Free Phone & Extension, Customer Service TTY, Customer Website Address (URL).
Plan Management	Issuer Profile Management	41527	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the user to create an Issuer profile and establish their status as Certified in the system.
Plan Management	Issuer Profile Management	41528	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall capture Issuer Creation date as the date Issuer is created (Status updated to Certified) in the system.
Plan Management	Issuer Profile Management	41529	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the user to search for an Issuer in the system by Issuer's Name
Plan Management	Issuer Profile Management	41530	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the following details upon successful search: Issuer Name, Issuer Creation Date, Last Updated
Plan Management	Issuer Profile Management	41531	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the user to view and edit Issuer Details (Issuer Account Details, Company Profile, Individual Market Profile).
Plan Management	Issuer Profile Management	41532	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the Change Transaction History page with all the changes made to Issuer details.
Plan Management	Issuer Profile Management	41566	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the user to view Plan URLs for Health and Dental plans: Health Plan: Provider Network URL, Formulary URL, Plan Brochure URL and SBC URL Dental Plan: Provider Network URL, Plan Brochure URL and SBC URL
Plan Management	Maintain Operational Data		
Plan Management	Maintain Operational Data	39956	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality for Issuers to view current and historical monthly enrollment information.
Plan Management	Monitor Compliance		
Plan Management	Monitor Compliance	39808	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to receive and track individually identifiable complaints.
Plan Management	Monitor Compliance	39809	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to document any resolution to individually identifiable complaints.
Plan Management	Monitor Compliance	39862	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to update QHP, qualified stand-alone dental plans, MAGI Medi-Cal, MCAP, CHIP and BHP (if enacted) plan quality ratings and track historical ratings and time periods for these ratings (begin and end dates).
Plan Management	Plan and Benefit Assistance		
Plan Management	Plan and Benefit Assistance	41542	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the user to complete Health and Dental Plan upload using plan upload templates.
Plan Management	Plan and Benefit Assistance	41543	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the user to upload Network data using the NETWORK SERFF template.
Plan Management	Plan and Benefit Assistance	41544	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the user to upload Service area data using the SERVICE_AREA SERFF template.
Plan Management	Plan and Benefit Assistance	41545	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the user to upload Drug data using the PERSCRIPTION_DRUG SERFF template.
Plan Management	Plan and Benefit Assistance	41546	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the user to upload Plan Benefits data using the PLAN&BENEFITS SERFF template.
Plan Management	Plan and Benefit Assistance	41547	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the user to upload Rating data using the RATING SERFF template.
Plan Management	Plan and Benefit Assistance	41548	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the user to bulk update FORMULARY_URL(s), NETWORK_URL(s), and BROCHURE URL(s).
Plan Management	Plan and Benefit Assistance	41549	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow bulk updating of the Formulary URL for an Issuer corresponding to the FORMULARY ID for the given benefit year.
Plan Management	Plan and Benefit Assistance	41550	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow bulk updating of the Network URL for an Issuer corresponding to the NETWORK ID for the given benefit year.
Plan Management	Plan and Benefit Assistance	41551	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow bulk updating of the Plan Brochure URL for a Plan for the given benefit year
Plan Management	Plan and Benefit Assistance	41552	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow bulk updating SBC/EOC Document for a Plan for the given benefit year.
Plan Management	Plan and Benefit Assistance	41553	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the user to upload Crosswalk mapping details for passive renewals using the CROSSWALK SERFF template.
Plan Management	Plan and Benefit Assistance	41554	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display Change Log Transaction history reflecting the successful and unsuccessful Crosswalk uploads.
Plan Management	Plan and Benefit Assistance	41555	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the user to upload Plan Quality Rating for the Health Plans.

Category	Sub Category	Req ID	Requirement
Plan Management	Plan and Benefit Assistance	41556	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display version history with details respective to every Quality rating upload performed by the user.
Plan Management	Plan and Benefit Assistance	41557	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the user to update Zip, County & Rating area mapping.
Plan Management	Plan Assessment Fees		
Plan Management	Plan Assessment Fees	38234	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall update the carrier invoice to reflect billing cycle changes
Plan Management	Premium Processing		
Plan Management	Premium Processing	38832	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) sytem shall estblish Pay Now connectivity with CA Dental Network.
Plan Management	Premium Processing	38896	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) sytem Pay Now URL for carrier Chinese will point to the vendor Instamed.
Plan Management	Premium Processing	38913	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) sytem Pay Now URL for carrier western Health will point to the new vendor.
Plan Management	Premium Processing	38970	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system Pay Now URL for carrier Liberty dental will point to the new vendor.
Plan Management	Premium Processing	39130	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) sytem shall estblish Pay Now connectivity with Valley Health Plan.
Plan Management	Premium Processing	39619	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall establish Pay Now connectivity with Oscar.
Plan Management	Premium Processing	44517	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall establish and verify Pay Now connectivity using new URLs for Premier Access and Access Dental.
Plan Management	Provider/Plan Directory		
Plan Management	Provider/Plan Directory	38402	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall implement the Lexis Nexis ProviderPoint solution/product.
Plan Management	Provider/Plan Directory	38403	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall accept and process provider directory data monthly.
Plan Management	Provider/Plan Directory	43290	"The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall add 1 new zip code. The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall add zip code/county/region combination of 95610/Placer/3 effective for plan benefit year 2016. "
Plan Management	Rate Review		
Plan Management	Rate Review	40015	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide the functionality to display the enrollee's current premium on the comparison chart where new plans and new premiums are shown
PMO			
PMO	General Requirement		
PMO	General Requirement	44256	The Vendor shall establish, staff, and maintain a Project Management Office (PMO) which aligns with the OSI PMO structure and conforms to the OSI best practices for the development of large-scale IT Systems (http://www.bestpractices.osi.ca.gov/). The Vendor PMO shall be responsible for all required California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Project Management functions, including the planning, scheduling, administering, controlling, tracking, and reporting of all Project activities during the Term of the Agreement.
PMO	General Requirement	44296	The Vendor PMO shall be responsible for documenting, disseminating, and maintaining formal administrative processes and procedures for the following areas at a minimum: A) Roll-on for all Vendor staff; B) California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Project overviews and objectives; C) Project organization charts and roles and responsibilities; D) Project Processes, Procedures, Tools, Standards, and templates; E) Administrative items (e.g., email lists, time tracking and weekly status reporting); F) LAN, file, and web portal/SharePoint structures and key file locations; G) LAN, file, web portal/SharePoint access and remote access; H) Facility access, security, and evacuation; I) Staff Roll-offs, including deactivation of all Facility and computer access.
PMO	General Requirement	44311	The Vendor shall provide sufficient the tools to establish, maintain and make available to the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Project team, a Project Management Office (PMO) to guide California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Project management during theD&I and O&M periods. Metrics from the tool will be used formanaging and monitoring the Project and for Project reporting in areas such as Issues, Risks, Deliverable status. The Vendor shall provide training on the tool to the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Project team.
Portal			
Portal	Alerts and Notices		
Portal	Alerts and Notices	46474	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall extend the existing Account Home page configuration to the Household Eligibility Results screen and update messaging for when plan selection or changes must be made to get the most beneficial coverage start date during the Renewal/Open Enrollment/Open Special Enrollment periods.
Portal	Alerts and Notices	46475	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the messaging on the Account Home page and the Household Eligibility results screen to display the first of the following month logic during Open Enrollment period when no QLE is selected.
Portal	Alerts and Notices	46476	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the messaging on the Account Home page and the Household Eligibility results screen to match the coverage start date logic during Open Special Enrollment period based on the QLE is selected on the application.
Portal	Alerts and Notices	46477	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the messaging on the Account Home page and the Household Eligibility results screen to match the coverage start date logic for cases staged for California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Renewals based on the Enrollment Extension configurable date.
Portal	Alerts and Notices	47202	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add and display messaging for the Family PACT user on the portal.

Category	Sub Category	Req ID	Requirement
Portal	Alerts and Notices	47216	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display messaging to the Family PACT user after the Family PACT client has been determined eligible for the Family PACT program.
Portal	Alerts and Notices	47217	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display messaging listing one or more of the below possible reasons as to why a client was determined ineligible for the Family PACT program after submitting an application: • Not a California resident • Total taxable family income above 200 percent of the federal poverty guidelines • Receives health insurance coverage for family planning services without barrier to access • Full scope Medi-Cal (does not have an unmet SOC) without barrier to access • Below the minimum age of 12
Portal	Alerts and Notices	47218	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display messaging listing one or more of the below possible reasons as to why a client was determined ineligible for the Family PACT program after submitting a report a change (RAC)/recertification: • No longer a California resident • Total taxable family income is above 200 percent of the federal poverty guidelines • Receives other health insurance coverage for family planning services • Full scope Medi-Cal (does not have an unmet SOC) without barrier to access • Requesting discontinuance • No longer has a medical necessity (i.e., ability to get pregnant or cause a pregnancy) for family planning services
Portal	Alerts and Notices	47219	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display error messaging to a Family PACT user when there is an internal exception to the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Family PACT system.
Portal	Alerts and Notices	47220	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display Retroactive Eligibility messaging on the Family PACT Client's Dashboard.
Portal	Alerts and Notices	47221	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display Retroactive Eligibility messaging on the Family PACT Client's Dashboard after intake application submission only for first time, eligible Family PACT clients that answered yes to the following question and had their HAP ID generated by California Healthcare Eligibility, Enrollment and Retention System (CalHEERS). • Have you had out-of-pocket expenses for family planning or reproductive health services in the past three months that could be covered by Family PACT?
Portal	Alerts and Notices	47222	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the Retroactive Eligibility messaging on the Family PACT Client's Dashboard for 60 days post initial intake application submission is determined eligible.
Portal	Alerts and Notices	47233	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have messaging on the Family PACT Application homepage indicating an expiration date after which an unsubmitted Intake/Report a Change (RAC)/Recertification/Reapplication will be withdrawn.
Portal	Alerts and Notices	47268	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add and display messaging for Family PACT Providers on the portal.
Portal	Alerts and Notices	47269	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display messaging to the Family PACT provider within the 60 day recertification period.
Portal	Alerts and Notices	48502	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the language of the Medicare alert on the Consumer Account Home screen for better clarity so that consumer can take action timely.
Portal	Alerts and Notices	48684	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the account alerts on the Account Home page with the following priority when more than one alert is triggered to display: 1. APS new enrollment transition 2. S/L end 3. Consumer moving out of region Alert 4. Medicare Alert 5. Deceased Alert 6. S/L begin
Portal	Application Submission and Update		
Portal	Application Submission and Update	46350	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the Spanish translation for Financial Help section on the Individual Eligibility Details page with Page Id 7.0.1 (Page Name: ProgramEligibility)
Portal	Application Submission and Update	46351	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the English text for Financial Help section on the Individual Eligibility Details page with Page Id 7.0.1 (Page Name: ProgramEligibility)
Portal	Application Submission and Update	46352	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the program eligibility status such that when there are two sub-sections for any program and one of the sub-sections is not applicable the text displayed shall occupy the space in the sub-section on the right so that there is no white space. Applicable sections on Eligibility Details page with Page Id 7.0.1 (Page Name: ProgramEligibility): - Financial Help section (APTC, CAPS) - Time Section (ROP, Select a Plan) - Eligibility factors in Ineligible section
Portal	Application Submission and Update	46353	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display eligibility factors for Financial Help in the ineligible section when the HHM is pending or eligible for MCAP on Individual Eligibility Details page with Page Id 7.0.1 (Page Name: ProgramEligibility)

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

OTSI CalHEERS RFP #73040873 Addendum 1
October 31, 2025

Category	Sub Category	Req ID	Requirement
Portal	Application Submission and Update	46354	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display eligibility factors for Financial Help in the ineligible section when the HHM is conditionally eligible or eligible for CCHIP on Individual Eligibility Details page with Page Id 7.0.1 (Page Name: ProgramEligibility)
Portal	Application Submission and Update	46355	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the eligibility factor stating - "Our records show this person may have died" when the household member is discontinued or denied for MCAP or CCHIP because admin fail deceased verification and when HUB returns MCAP or CCHIP member as deceased
Portal	Application Submission and Update	46356	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall remove the link to fact sheet for CCHIP program on Preview Coverage Options – Screening Results page
Portal	Application Submission and Update	46530	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall restrict admin users that do not have an 'AdminSensitiveInfo' entitlement from being able to edit contact information (home address, mailing address, email, or phone number) of a non-primary applicant that is flagged as sensitive on California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Portal.
Portal	Application Submission and Update	46531	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall hide the 'Edit' contact information (home address, mailing address, email, or phone number) link of a non primary applicant that is flagged as sensitive from admin users that do not have an 'AdminSensitiveInfo' entitlement on the following California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Portal screens: - 6.0R Address (Multi-Member HH State) - 14.0R Final Review: Individual Info - 4.0.1.9 Household Member Review - 6.3 Final Review: Individual Info
Portal	Application Submission and Update	46532	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall hide contact information (home address, mailing address, email, or phone number) data fields of a non-primary applicant that is flagged as sensitive from admin users that do not have an 'AdminSensitiveInfo' entitlement on the following California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Portal screens: - 12.1R Individual Information Review Form - 4.0.2.4 Who Lives With Primary Contact - 4.0.1.5 Contact Info (Edit Household Member)
Portal	Application Submission and Update	46533	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display contact information (home address, mailing address, email, or phone number) data fields in a read-only state for a non-primary applicant that is flagged as sensitive for admin users that do not have an 'AdminSensitiveInfo' entitlement on the following California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Portal screens: - 56.04 Flexible Application - Household Members
Portal	Application Submission and Update	46534	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display messaging to admin users on the Flex App in the Household and Contact Information section for a non-primary applicant that is flagged as sensitive to inform the admin user that the information should not be disclosed.
Portal	Application Submission and Update	46535	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall restrict all users from being able to modify the primary contact on the 4.0.2.2 Primary Contact screen during a Reapply application if the household includes a non-primary contact that is flagged as sensitive.
Portal	Application Submission and Update	46536	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall restrict all users from being able to remove the primary contact on the 4.0.1.9 HHM Review screen during a Reapply application if the household includes a non-primary contact that is flagged as sensitive.
Portal	Application Submission and Update	46537	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall hide previously sensitive contact information displayed on the Case Transaction History page from non-admin users when a person with previous sensitive contact information is modified to be the primary contact of their household.
Portal	Application Submission and Update	46538	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall hide sensitive contact information displayed in Application PDFs of previous applications for a household for a person with previous sensitive contact information that is modified to be the primary contact of their household.
Portal	Application Submission and Update	46539	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall perform a one-time data update activity to any primary contacts in California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) that are currently flagged as sensitive to update the flag so all primary contacts in California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) are not flagged as sensitive.
Portal	Application Submission and Update	46540	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not persist the address updates in the database made by admin users without the 'AdminSensitiveInfo' entitlement for sensitive individuals during Reapply applications.
Portal	Application Submission and Update	47162	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow a Family PACT client to link an existing HAP ID to a client's account.
Portal	Application Submission and Update	47163	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow a Family PACT client to link an existing HAP ID to a client's account during the account creation process by inputting the below information that returns a full match: 1. HAP ID 2. Date of Birth (DOB)
Portal	Application Submission and Update	47164	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow a Family PACT client to link an existing HAP ID to a client's account during the account creation process by searching for an existing HAP ID using the below information that returns a full match: 1. First Name 2. Last Name 3. Date of Birth (DOB) 4. Sex 5. Zip Code
Portal	Application Submission and Update	47165	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall support both English and Spanish translation of the Family PACT application.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Portal	Application Submission and Update	47166	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow user to select English or Spanish version of the application and shall allow client to switch to any version during the Family PACT application process.
Portal	Application Submission and Update	47167	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement different Family PACT application modes for the Family PACT application.
Portal	Application Submission and Update	47168	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the user to start an intake application if the client account is not actively linked to a HAP ID or the latest intake application associated to the account has been withdrawn.
Portal	Application Submission and Update	47169	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the user to continue an intake application if the client account is associated to an intake application that has not been withdrawn.
Portal	Application Submission and Update	47170	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the user to start/continue to Report a Change (RAC)once the Family PACT intake application or reapplication is submitted and client is determined eligible in the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Family PACT portal and is prior to the 60-day recertification window.
Portal	Application Submission and Update	47171	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the user to start/continue Recertification effective 60 days from the Family PACT eligibility end date until the current eligibility end date has passed.
Portal	Application Submission and Update	47172	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the user to start/continue to Reapply when consumer's current eligibility status is ineligible or discontinued.
Portal	Application Submission and Update	47173	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement a new application flow for Family PACT Program.
Portal	Application Submission and Update	47174	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the user to move forward with the Family PACT application using "Next" button.
Portal	Application Submission and Update	47175	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall auto save user's Family PACT information upon the click of next button.
Portal	Application Submission and Update	47176	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the user to Edit their saved Family PACT information during the application flow.
Portal	Application Submission and Update	47177	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the user to move to the previous page in the Family PACT application using "Back" button.
Portal	Application Submission and Update	47178	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow user to Save and Exit the Family PACT application at any time during the application process.
Portal	Application Submission and Update	47179	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the user to Cancel the Family PACT application submission at any time during the application process before submission.
Portal	Application Submission and Update	47180	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display a Warning Message when the user cancels the Family PACT application.
Portal	Application Submission and Update	47181	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the Family PACT user to review and edit prior to submitting, the Intake/RAC/Recertify/Reapply Family PACT application.
Portal	Application Submission and Update	47182	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall require the user to scroll through and sign the Family PACT application and the disclaimer before submitting the application.
Portal	Application Submission and Update	47183	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall save data entered within the Family PACT application if the user saves the application or moves to the next page.
Portal	Application Submission and Update	47184	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall only save the Family PACT application data from the start of the application to the previous page if a Family PACT user exits the application without completing the current page.
Portal	Application Submission and Update	47185	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the Family PACT application status as Pending if the user saves and exits the Family PACT intake application/report a change (RAC)/recertification/reapplication before submitting.
Portal	Application Submission and Update	47186	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall run a daily batch to withdraw a Family PACT Application if it has not been submitted for 30 days for Initial Applications, Report a Changes (RACs), Recertifications, and Reapplications.
Portal	Application Submission and Update	47187	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall reset the In-progress Family PACT Application withdrawal 30 day clock when an update to the Intake/RAC/Recertification/Reapplication is saved.
Portal	Application Submission and Update	47188	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow a user to begin an application to apply, report a change (RAC), recertify, or reapply for the Family PACT program based on the Family PACT client's current eligibility status.
Portal	Application Submission and Update	47189	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow one client per Family PACT application.
Portal	Application Submission and Update	47190	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display previously submitted Family PACT application data on a report a change, recertification, or reapplication when the user starts the report a change, recertification, or reapplication.
Portal	Application Submission and Update	47191	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall require the Family PACT user to update/confirm the client's previously entered information during a report a change (RAC), recertification, or reapplication.
Portal	Application Submission and Update	47192	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall consider the application date as the date when the user signs and submits the Family PACT application.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Portal	Application Submission and Update	47193	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall report a total taxable monthly income as \$0 when income is not reported for a Family PACT client.
Portal	Application Submission and Update	47194	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall prevent a minor Family PACT applicant (age 17 and below) from adding family members and the family members' respective incomes.
Portal	Application Submission and Update	47195	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall prevent the Family PACT client from changing their date of birth (DOB) after initial application submission.
Portal	Application Submission and Update	47196	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow a Family PACT user to confirm address once validated by Smarty Streets validation service.
Portal	Application Submission and Update	47197	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display previously saved Family PACT application data.
Portal	Application Submission and Update	47198	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow a Family PACT user to reapply for the Family PACT program.
Portal	Application Submission and Update	47199	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow a Family PACT user to reapply immediately for Family PACT after intake/report a change (RAC)/recertify/reapply application is determined ineligible.
Portal	Application Submission and Update	47200	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow a Family PACT user to reapply immediately for Family PACT if the Family PACT user has requested discontinuance.
Portal	Application Submission and Update	47201	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow a Family PACT user to request discontinuance from the Family PACT program based on the following: • I no longer live in California • I make over 200% of the Federal Poverty Guidelines • I have health insurance • I have full scope Medi-Cal without Share of Cost • I no longer have a medical necessity (sterilization) • Permanent deactivation due to a lost or stolen HAP card
Portal	Application Submission and Update	47203	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the Client's Dashboard to begin the application with "Apply Now" button.
Portal	Application Submission and Update	47204	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the client's latest Family PACT eligibility and individual information on the Client's Dashboard for applications in Report a Change (RAC) Mode.
Portal	Application Submission and Update	47205	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the client's latest Family PACT eligibility and individual information on the Client's Dashboard for applications in Recertification Mode.
Portal	Application Submission and Update	47207	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the following under Family PACT Application History. i. Request Type ii. User ID III. Date/Time Requests iv. Determination Start Date v. Eligibility Results History- upon selecting user shall be able to View Results. View Results will be navigated to a 'Read Only' eligibility results page. vi. Application PDF - upon selecting user shall be able to view PDF version of the application.
Portal	Application Submission and Update	47211	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide a link on the Single Streamline Application for users to navigate to the Family PACT application.
Portal	Application Submission and Update	47212	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide a link on the Family PACT application for users to navigate to the Single Streamline Application.
Portal	Application Submission and Update	47225	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow a Family PACT client that is determined to be potentially ineligible to be directed to apply for an insurance affordability program through CoveredCA or to continue with the Family PACT account creation and application.
Portal	Application Submission and Update	47226	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add the Family PACT application to the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Portal based on the Family PACT Data Elements sheet.
Portal	Application Submission and Update	47227	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display previously saved Family PACT data on an intake, report a change (RAC), recertification, and reapplication when the Family PACT user continues the pending application.
Portal	Case Management		
Portal	Case Management	47208	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display Family PACT current eligibility results in the eligibility results history to the client including the eligibility status, eligibility factors, and eligibility effective dates in the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Portal.
Portal	Case Management	47209	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display Family PACT eligibility results history in the eligibility results history to the client including the eligibility status, eligibility factors, and eligibility effective dates in the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Portal.
Portal	Case Management	47210	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display Family PACT transaction history in the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) portal.
Portal	Case Management	47223	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall persist the Health Access Program (HAP) ID once generated.
Portal	Case Management	47266	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow Family PACT providers to enter HAP card number for existing Family PACT clients known to HAP.

Category	Sub Category	Req ID	Requirement
Portal	Case Management	49110	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow a Family PACT provider to view/edit a Family PACT client's client details
Portal	Case Management	49111	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow a Family PACT provider to view and create case notes for a Family PACT.
Portal	Case Management	49112	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall prevent a Family PACT provider from changing a Family PACT client's date of birth (DOB) after initial application submission.
Portal	Consumer Management		
Portal	Consumer Management	46608	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall only generate one ECM ID when a user uploads a file and selects that the file applies as proof of verification for multiple members on the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) case.
Portal	Consumer Management	46612	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add a new document category for Deceased document types on the Upload New Document Modal on the Documents and Correspondence page.
Portal	Consumer Management	47265	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow Family PACT providers to update the Family PACT client's information on behalf of a client.
Portal	Consumer Management	47270	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display a Family PACT client's current eligibility results to the provider including the eligibility status, eligibility factors, and eligibility effective dates in the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Portal.
Portal	Consumer Management	47271	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display a client's Family PACT eligibility results history to the provider including the eligibility status, eligibility factors, and eligibility effective dates in the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Portal.
Portal	Consumer Management	47272	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the ability for a Family PACT provider to search for a Family PACT client.
Portal	Consumer Management	47273	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the ability for a Family PACT provider to search for a Family PACT client by using the following information that returns a full, exact match: 1. HAP ID 2. Date of Birth (DOB)
Portal	Consumer Management	47274	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the ability for a Family PACT provider to search for a Family PACT client by using the following information that returns a full, exact match: 1. First Name 2. Last Name 3. Date of Birth (DOB) 4. Sex 5. Zip Code
Portal	Consumer Management	47275	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the ability for a Family PACT provider to search for a Family PACT using the following information that returns a full, exact match: 1. Application Number
Portal	Consumer Management	47276	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall only show search results to the Family PACT provider if the inputted search criteria returns a single result that fully matches the fields used for the search.
Portal	Consumer Management	47277	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the following fields when a search result is displayed to a provider: 1. Client Name 2. HAP ID 3. Coverage Status 4. Application Status 5. Date of Birth (DOB) 6. Eligibility Effective Dates
Portal	Consumer Management	47453	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow a Family PACT client to answer the questions in a pre-application screener to determine potential eligibility before the consumer continues to account creation.
Portal	Data Collection Screens		
Portal	Data Collection Screens	40235	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have a functionality to allow designated users to set ROP configuration parameters to be used by ROP Simulation job
Portal	Data Collection Screens	40669	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall reduce the number of calls to GI Adapter Service “getenrollmentdatabyexternalcaseid” from “/ahbx/home-service/v1/alt/choose/year” API invoked from Individual Account Home page.
Portal	Data Collection Screens	40670	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall suppress the duplicate calls triggered for “/ahbx/household-service/v1/household/enrollment/period” and “/ahbx/household-service/v1/household/persons” from Individual Account Home page.
Portal	Data Collection Screens	40682	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update applicable Spanish translations in CM 11.01 - User Log In document
Portal	Data Collection Screens	40683	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the CM 11.01 - Row213 – Section 0.1.9 – Log Out Screen title to "Haga clic en el botón Iniciar sesión para volver a iniciar una sesión en su cuenta."
Portal	Data Collection Screens	40684	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the CM 11.01 - RowG128 – Section 0.1.3.0.1 – Verification Method Informatin Model screen title to ""Q: ¿Qué hace el botón "Continuar"?"
Portal	Data Collection Screens	40685	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the CM 11.01 - RowG15 and G26 – Section 0.1 and Section 0.1.0.1 – Login screen title to "....tarde o haga clic en..."
Portal	Data Collection Screens	40686	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update applicable Spanish translations in CM 08.01 Review and Submit tab
Portal	Data Collection Screens	41000	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update portal messaging for consumers re: end of pandemic related UIB extension/PHE lift

Category	Sub Category	Req ID	Requirement
Portal	Data Collection Screens	41001	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update portal messaging for consumers reminding them to review and update their contact information.
Portal	Data Collection Screens	48188	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall present the first three characters in the receipt or card number field as a drop down in the Non-Citizen Documentation page
Portal	Eligibility Determination		
Portal	Eligibility Determination	40325	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall persist Zip+4 Code returned by the Address Validation Service for a user input address in California Healthcare Eligibility, Enrollment and Retention System (CalHEERS).
Portal	Eligibility Determination	40326	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the Zip+4 Code (read only) on the “Confirm Your Address” popup for the suggested address output from the Address Validation Service.
Portal	Eligibility Determination	40328	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the “Confirm Your Address” Modal pop-up to include additional warning/red text when the original address is selected.
Portal	Eligibility Determination	48165	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall redesign the Personal Verification screen.
Portal	Eligibility Determination	48179	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display verification history for each verification attribute on the Personal Verification page.
Portal	Eligibility Determination	48187	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall prevent a user from submitting the Immigration record, if the user inputs a lawful presence receipt number which is not in a supported format
Portal	Eligibility Determination	48501	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the language on the Keep or Switch Screen for better clarity.
Portal	Eligibility Determination	48923	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display updated messaging for the Eligibility Status of "Medi-Cal: Awaiting Review" when the MAGI Medi-Cal Eligibility Results in California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system are awaiting SAWS confirmation for Carry Forward consumers.
Portal	Eligibility Determination	48924	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display updated messaging of "Medi-Cal: Awaiting Review" with the additional text of "[HHM], you are Awaiting Review for Medi-Cal: You may qualify for Medi-Cal instead of a Covered California health plan because your monthly income is [\$_] and your family has [_] member(s). We have sent your information to your local county office for review. They may contact you for more information. You are still in your Covered California plan and need to keep paying your premium to avoid losing coverage while your case is reviewed by your local county office." for Medi-Cal program on "Individual Eligibility Details" section of "Household Eligibility Results Summary" page when the MAGI Medi-Cal Eligibility Results in California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system are awaiting SAWS confirmation for Carry Forward consumers.
Portal	Eligibility Determination	48935	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to insert case notes in the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) portal when an individual's Carry Forward Status has been lifted.
Portal	Enrollment		
Portal	Enrollment	46722	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall remove old DHCS logos from the Portal and replace with the new DHCS Branded Logo.
Portal	Enrollment	46723	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall remove old combined logo for Medi-Cal to Covered California and replace with the new combined logo for Medi-Cal to Covered California on following pages: - Choose Application during Account creation - User Home - MCT Dashboard
Portal	Enrollment	46724	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall remove old Medi-Cal logo and replace with the new Medi-Cal logo on Additional Benefit Options page on Eligibility Results page
Portal	Enrollment	46725	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall remove old Medi-Cal and DHCS logo and replace with new Medi-Cal and DHCS logo on Medi-Cal Fact Sheet on Shop and Compare - My Options page
Portal	Enrollment	48505	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add a link to navigate to the Documents and Correspondence section of the application from within the Case Overview and the Enrollment Dashboard.
Portal	Enrollment	48694	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall correct the language in the Confirm Zero Years Consent modal for English and Spanish.
Portal	Enrollment	48695	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall correct the English language when selecting '0 years' (missing the word "do" in 2nd sentence of the 1st paragraph).
Portal	Enrollment	48696	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall correct the Spanish language when selecting '0 years' (translation for "tax return" is not correct)
Portal	Enrollment	48697	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display "Click here to learn more about types of income" link on the Intake, RAC, and Renewal screens.
Portal	Enrollment	48698	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update language displayed on the RAC/Renewal Income screens for households with at least one member who reports \$0 income.
Portal	Enrollment	48699	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall change language throughout the Portal from "Estimated Total Cost" to "Estimated Yearly Cost."
Portal	Enrollment	48700	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add the estimated yearly cost tooltip to the desktop view of the Choose Health Plan page
Portal	Enrollment	48701	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the estimated yearly cost tooltip on the mobile view of the Choose Health Plan page to use the correct language.
Portal	Enrollment	48702	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the 'Overall Quality Rating' messaging on the 'Health Plan Details' page.
Portal	Enrollment	48703	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the 'Overall Quality Rating' tooltip messaging on the 'Compare Health Plans' page.
Portal	Enrollment	48704	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the language in all four sections of the "Overall Quality Rating" section on the Health Plan Details page and the Compare Health Plans page to display "Too few results" if the rating field on the QRS data file lists "CSR-I" or "NG"
Portal	Enrollment	48705	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the language in all four sections of the "Overall Quality Rating" section on the Health Plan Details page and the Compare Health Plans page to display "Quality rating in future" if the rating field on the QRS data file is blank
Portal	Enrollment	48706	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the language for the “Get the Right Care” section on the Choose Health Plan page to display “Too few results” if the rating field on the QRS data file lists “CSR-I” or “NG”

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Portal	Enrollment	48707	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the language for the “Get the Right Care” section on the Choose Health Plan page to display “Quality rating in future” if the rating field on the QRS data file is blank
Portal	Enrollment	48708	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not display EligFactor_127 messaging if the consumer is Eligible/Conditionally Eligible/Pending MAGI Medi-Cal/MCAP/CCHIP Programs.
Portal	Enrollment	48739	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update MCT (MAGI Medi-Cal to Covered CA Transition) Dashboard screen to use Carrier Logo and Name information submitted on the Issuer Portal.
Portal	General Requirement		
Portal	General Requirement	46629	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display 1. The deductible \$ values for both medical and drug deductibles will be displayed for all Plans except Gold and Platinum. 2. When there is no deductible for medical or drug \$0 should display. 3. For integrated deductibles, only one \$ value should display. 4. For Silver Plans the word ‘only’ will be removed. 5. For Gold and Platinum Plans, retain the current display of rule: \$[x] (e.g. \$0) 6. Remove the italic stand-alone text “Before insurance coverage starts” from the ‘Yearly deductible’ section of the plan tile for all plans."
Portal	General Requirement	46630	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display 1. Disable the display of "Emergency Room visit" verbiage on the Plan Details page. 2. “Outpatient visit” and frequency for Outpatient visit. 3. '0' before the label, if the frequency is zero for any label.
Portal	General Requirement	46631	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the "combined in and out of network" value found in 'Adult Annual Benefit limit' section of the SERFF template when the 'In Network' value for this benefit is Not Applicable. Display as follows: Display as the value for “Adult Benefit Limit” on Choose a Dental Plan page and display as the value for “Adult yearly benefit limit” on Dental Plan Details page & Compare Dental Plans pages.
Portal	General Requirement	46632	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the plan benefits mapping on the screen as listed below: 1) Dental Plan Details screen, map ‘Adult Checkup’ in ‘Key Cost and Features’ field to ‘Routine Dental Services (Adult)’ value from SERFF
Portal	General Requirement	46633	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update tooltips for for the fields on the Health and Dental plans tile display to be modified based on latest verbiage.
Portal	General Requirement	46960	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update PDF application to reflect the same information displayed on the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) portal when QLE "None of the above (Continue to review my application for Medi-Cal or MCAP)" is selected.
Portal	General Requirement	46961	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the "Create an Account" link on the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) portal log in page to display in Spanish when Spanish is the selected language
Portal	General Requirement	47228	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display Covered California logo on every page in the Family PACT application flow.
Portal	General Requirement	47229	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display DHCS Family PACT logo on every page in the Family PACT application flow.
Portal	General Requirement	47230	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create and display Application # during Family PACT application creation process.
Portal	General Requirement	47231	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the Application ID on where applicable in the Family PACT application once created.
Portal	General Requirement	47232	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the Legal Notice page on the Family PACT Application.
Portal	General Requirement	47278	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall keep a record of search transactions performed by a Family PACT provider.
Portal	General Requirement	47821	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display messaging to inform users to renew Medi-Cal benefits through BenefitsCal or County Office on Log-In Page for all users.
Portal	General Requirement	47822	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display messaging to inform consumers to renew Medi-Cal benefits through BenefitsCal or County Office on Account Home Page for cases having at least one member in a case with program status as Eligible/Conditionally Eligible/Pending/Awaiting Review for MAGI Medical program and Carry Forward Scenario.
Portal	General Requirement	48166	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display all household members in separate tabs on the Personal Verification screen
Portal	General Requirement	48167	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow filtering of verification for each HHM
Portal	General Requirement	48168	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow user to navigate to the current Household Eligibility Results screen
Portal	General Requirement	48169	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow admin users to navigate to Verification History screen from Personal Verification screen
Portal	General Requirement	48170	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall color code data element based on the pending verification
Portal	General Requirement	48171	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display a hyperlink (View Response) to display e-Verification and Admin Verification responses for all applicable data elements
Portal	General Requirement	48172	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow admin to extend ROP date on the Personal Verifications screen.
Portal	General Requirement	48173	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update verification for American Indian / Alaskan Native to American Indian / Alaska Native
Portal	General Requirement	48174	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display IDP Result, IDP Response, and IDP Date & Time in a second tier row for an applicable attribute.
Portal	General Requirement	48175	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display VLP summary link under Citizenship and Lawful Presence attributes on Personal Verification Screen
Portal	General Requirement	48180	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display a hyperlink (View Response) to display e-Verification and Admin Verification responses for all applicable data elements

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Portal	General Requirement	48181	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow display of historical verification based on the verification Type
Portal	General Requirement	48190	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add calendar icon and functionality to Non-Citizen Documentation screen.
Portal	General Requirement	48196	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall collect alternative format information in the Single Streamlined Application and FlexiApp for each individual on the application.
Portal	General Requirement	48197	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow a user to select one of the following alternative formats: - Large Print - Audio Electronic Format - Data Electronic Format - Audio Electronic Format (password protected) - Data Electronic Format (password protected) - Braille
Portal	General Requirement	48198	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall only allow a user to select one alternative format for each individual on the case.
Portal	General Requirement	48199	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the consumer to update alternative format selection during RAC/Renewal applications.
Portal	General Requirement	48200	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall ask the consumer to confirm an alternative format is required for a household member before the alternative formats are presented to the user for selection.
Portal	General Requirement	48201	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall persist the following alternative format selection: "Yes" when the user selected an alternative format, "No" when the user selected that they do not require an alternative format, and do not persist any value when the user does not make a selection.
Portal	General Requirement	48202	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall log the change in alternative format selection attested by the consumer in the Case Transaction History.
Portal	General Requirement	48207	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have an ability to configure (ON / OFF) the alternative format attestation collection functionality.
Portal	General Requirement	48309	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create data layer variables on the Choose a Health/Dental Plan page (both logged in and anonymous Shop and Compare flow) and MAPS3 Final submit page.
Portal	General Requirement	48310	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update DLV for "Language" to capture "EN" for English and "ES" for Spanish whenever user updates the language.
Portal	General Requirement	48311	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create DLVs to capture both expand and collapse accordions for Metal Tiers, Insurance Companies and Network Types filters on Choose a Health/Dental Plan page (both logged in and anonymous Shop and Compare flows).
Portal	General Requirement	48312	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create DLVs to capture page number traverse (both back arrow and front arrow) on Choose a Health/Dental Plan page (both logged in and anonymous Shop and Compare flows).
Portal	General Requirement	48313	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create DLV for MAPS Screen final submit page to capture check and uncheck response for "Provide eSignature" and check/uncheck/error response for "Binding Arbitration Agreement".
Portal	General Requirement	48431	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall navigate consumers who have been identified as MAPS and who enter the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) portal application 12/01 or later back to their Account Home page for their future benefit year, when clicking plan selection call-to-actions on the portal.
Portal	General Requirement	48432	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall navigate the MAPS consumer to the Future Benefit year on Account Home on initial navigation to the portal. On subsequent plan selection actions, California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall navigate the MAPS consumer to the Future Benefit year on the Account Home.
Portal	General Requirement	48433	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the following during 12/1 to 12/31 of the current benefit year when: 1) MAPS consumer is navigated to Current benefit year on the Account Home: "Submit an Application for [YYYY] It's too late to get December coverage but you can submit an application for next year to get covered as early as January 1. [Click on [YYYY] below to start your application.]" 2) MAPS consumer is navigated to Future benefit year on the Account Home: "Submit an Application for [YYYY] It's too late to get December coverage but you can submit an application for next year to get covered as early as January 1."
Portal	General Requirement	48434	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide consumers appropriate messaging and optional fields to select a telephone number provided in the application and consent to receive text messages from carriers at an enrollment level on the Plan confirmation screen.
Portal	General Requirement	48435	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall default the telephone number of the subscriber or responsible adult for a child only enrollment, for collecting consent to receive text messages from the carrier, using the following heirarchy: - Cell phone (if provided) - Home phone (if provided) - Work phone (if provided)
Portal	General Requirement	48436	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the consumer to select a telephone number provided in the application for collecting consent to receive text messages from the carrier.
Portal	General Requirement	48450	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall ensure that the Strike Lockout Confirmation Page is the first page to be navigated to when a user is utilizing the Flexi-App Report a Change and the case had prior Strike Lockout Attestation where the Strike Record is still active
Portal	General Requirement	48507	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the language on privacy data usage disclaimers to reflect operations and legal boundaries.
Portal	General Requirement	48539	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall merge functionality and deprecate Outstanding Verifications page to Personal Verifications Screen
Portal	General Requirement	48559	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display whole numbers if the decimal value is .00 for copay or deductible values on consumer facing screens.
Portal	General Requirement	48560	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide a link to access the Manual Verification page from within Admin Case Overview page.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

OTSI CalHEERS RFP #73040873 Addendum 1
October 31, 2025

Category	Sub Category	Req ID	Requirement
Portal	General Requirement	48561	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the Spanish language of the "Keep" in the radio button options in Individual Opt-In Opt-Out Page to say "Mantener."
Portal	General Requirement	48562	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the English language for the option to switch the page from Spanish back to English. Option will be changed from "Inglés" to "English."
Portal	General Requirement	48563	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the message displayed to Issuer Admins, Issuer Representatives, and Issuer Enrollment Representatives on the My Profile Page in the Email address section.
Portal	General Requirement	48564	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add validation to email address section as email address field cannot be blank.
Portal	General Requirement	48565	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall disable the banner messaging for Pandemic-related Unemployment Insurance Benefits on the Account Home page.
Portal	General Requirement	48566	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall disable the banner messaging for COVID-19 economic impact stimulus payments on the Household Income pages.
Portal	General Requirement	48635	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update language on Individual Eligibility Details page under the Medi-Cal section and include "Get Confirmation Letter" button for consumers who are eligible or conditionally eligible to MAGI Medi-Cal.
Portal	General Requirement	48636	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the previously generated Medi-Cal Eligibility Confirmation Letter until Good Through Date on click of "Get Confirmation Letter" button on Individual Eligibility Details page if the Good Through Date is active.
Portal	General Requirement	48637	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display appropriate message to user when user clicks on "Get Confirmation Letter" button if: 1. Individual Eligibility Details page is accessed after 30 days from latest BRE run date, and 2. Previously generated Medi-Cal Eligibility Confirmation Letter's Good Through Date is expired.
Portal	General Requirement	48638	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate and display Medi-Cal Eligibility Confirmation Letter in a new tab/window as pdf when user clicks on "Get Confirmation Letter" button on Individual Eligibility Details page.
Portal	General Requirement	48639	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display appropriate message to user when user clicks on "Get Confirmation Letter" button on Individual Eligibility Details page during MEDS outage.
Portal	General Requirement	48642	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall make the Medi-Cal Eligibility Confirmation Letter available to the users in Docs and Correspondence page once the letter is generated.
Portal	General Requirement	48655	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display appropriate message to user in case the replayed real-time immediate need HX20 ESAC-1 also timed out.
Portal	General Requirement	48656	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display appropriate messaging to user in case the real-time immediate need HX20 ESAC-1 results into Business Validation error.
Portal	General Requirement	48742	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the display logic of the following CS Level Categories on the Budget Worksheet: - "Baseline CSR without FPL Override" - "Enhanced CSR without FPL Override"
Portal	General Requirement	48781	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the Single Streamlined Application and Flex App where the user selects an alternative format to display the four following alternative formats: - Large Print - Audio Electronic Format - Data Electronic Format - Braille
Portal	General Requirement	48782	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall prompt the consumer to select if they would like their alternative format notice to be password protected if the consumer selects Audio Electronic Format or Data Electronic Format.
Portal	General Requirement	48783	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the authorized representative page to allow the consumer to select one of the following alternative formats for the authorized representative: - Large Print - Audio Electronic Format - Data Electronic Format - Braille
Portal	General Requirement	48784	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall ask the consumer to confirm if an alternative format is required for the authorized representative before the alternative formats are presented to the user for selection.
Portal	General Requirement	48785	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall prompt the consumer to select if they would like the authorized representative's alternative format notice to be password protected if the consumer selects Audio Electronic Format or Data Electronic Format.
Portal	General Requirement	48786	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the consumer to select only one alternative format for the authorized representative.
Portal	General Requirement	48789	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement the functionality to upload the audio/data files received from the print vendor to the documents and correspondence page and to the secure mail box.
Portal	General Requirement	48795	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall pre-populate "No" when the consumer/authorized representative/admin user is prompted to answer if they require an alternative format on the Single Streamlined Application, Flexi App, and Authorized Representative Screen.
Portal	General Requirement	48797	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the phone number displayed on the alternative format screens.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Portal	General Requirement	48798	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the text in the Single Streamlined Application and Flex App for the Alternative Format option for Braille as follows: -Remove "(English and Spanish only)" in the Braille option text -Update the language in the Braille Alert message to state: "Braille is only available in English or Spanish. If your preferred language is not English or Spanish, your notices will be sent in English Braille."
Portal	General Requirement	48799	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall include an indicator on the Documents and Correspondence screen to the standard format version of the notices to indicate what alternative format type the notice has been generated in and sent to the consumer.
Portal	General Requirement	48800	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the text on the Flex App as per DCR 288307.
Portal	General Requirement	48801	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall round the Maximum Premium Percentage to the nearest hundredth percent while calculating APTC amounts in the Shop and Compare flow
Portal	General Requirement	48802	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall truncate the decimal values for the household FPL % that is used to calculate MPP (Maximum Premium Percentage) in the Shop and Compare flow.
Portal	General Requirement	48939	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the Issuer Portal's Agency Federal Tax ID input field to limit the character length to 9 digits.
Portal	General Requirement	48940	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the Individual Eligibility Details page to display the correct Program, "Medi-Cal", and Status, "Eligible", for aid code M9.
Portal	General Requirement	48941	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the Additional Benefits Options Popup link for Medi-Cal to direct to the URL, https://medi-cal.dhcs.ca.gov
Portal	General Requirement	48942	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display, within the Budget Worksheet on the "Eligible For:" tag, the language "Non AI/AN CSR Only" if a non-AI/AN individual is eligible or conditionally eligible to receive CSR and CCP only
Portal	General Requirement	48965	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the following Negative Actions added via Disposition on the budget page as a Negative Action: - Gets Duplicate Aid - Out of the Home - Duplicate/Hidden Person - Other
Portal	General Requirement	49037	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide a dedicated page for banner configuration, accessible only to authorized California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) admin users.
Portal	General Requirement	49038	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall enable messaging directed at specific pages on the portal.
Portal	General Requirement	49039	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall enable banners to be displayed within a specified date range.
Portal	General Requirement	49040	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall enable banner configuration based on user groups (admin user group, enroller user group, issuer user group, consumer user group, anonymous user group).
Portal	General Requirement	49041	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall enable messaging based on each household member's program, aid code and eligibility status on a case.
Portal	General Requirement	49042	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement feature to dynamically display banners based on Federal Poverty Level (FPL) of a case.
Portal	General Requirement	49043	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement feature to configure and display banners specific to insurance carriers
Portal	General Requirement	49044	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement carousel functionality for multiple banners on a screen.
Portal	General Requirement	49045	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement feature that establishes the order of banner display.
Portal	General Requirement	49046	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow consumers to dismiss banners for their current session
Portal	General Requirement	49047	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow for the inclusion of non-case specific variable dates in the banner content.
Portal	General Requirement	49048	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement functionality to assign the color of the banner based on priority levels (yellow, red, blue).
Portal	General Requirement	49049	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall support the inclusion of icons within the banner.
Portal	General Requirement	49050	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall enable creation of new banners with Banner Titles.
Portal	General Requirement	49051	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall require all triggering conditions be met before displaying a banner to end users.
Portal	General Requirement	49052	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall list banners that are beyond their end date as inactive
Portal	General Requirement	49053	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall enable authorized users to reactivate inactive banners.
Portal	General Requirement	49054	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have ability to incorporate existing banner messages currently in production.
Portal	General Requirement	49055	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall enable authorized users to edit banners.
Portal	General Requirement	49056	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display a "Banner Preview" at the top of the Banner Creation and Banner Edit screens.
Portal	General Requirement	49057	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall require a SNOW ticket to be created and provided when creating or modifying a banner.
Portal	General Requirement	49058	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall enable the inclusion of hyperlinks within the banner content.
Portal	General Requirement	49059	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow rich text within a Banner Body Text field.
Portal	General Requirement	49060	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall enable the creation of banners in both English and Spanish.
Portal	General Requirement	49061	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display Banner Version History for auditing purposes.
Portal	General Requirement	49062	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create a modal to present a preview and comprehensive details of the banner.

Category	Sub Category	Req ID	Requirement
Portal	General Requirement	49074	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display a timeout warning to Family PACT admin users after 13 minutes of inactivity.
Portal	General Requirement	49075	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display a timeout warning to Family PACT users after 13 minutes of inactivity.
Portal	General Requirement	49093	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display a timeout warning to Family PACT provider users after 13 minutes of inactivity.
Portal	General Requirement	49099	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display Family PACT transaction history in the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) portal.
Portal	General Requirement	49100	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display Family PACT change log in the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) portal.
Portal	General Requirement	49105	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement masking for the following sensitive data elements on the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) portal screens for all user roles: 1. SSN, 2. Alien Number/USCIS Number, 3. I-94 Number/I-94A Number, 4. SEVIS ID, 5. Passport Number and 6. ITIN/ATIN.
Portal	General Requirement	49106	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement masking for the following sensitive data elements in the backend API data: 1. SSN, 2. Alien Number/USCIS Number, 3. I-94 Number/I-94A Number, 4. SEVIS ID, 5. Passport Number and 6. ITIN/ATIN.
Portal	General Requirement	49107	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement masking for the following sensitive data elements in the HTML in browser development tools (BDT): 1. SSN, 2. Alien Number/USCIS Number, 3. I-94 Number/I-94A Number, 4. SEVIS ID, 5. Passport Number and 6. ITIN/ATIN.
Portal	General Requirement	49108	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide a toggle visibility feature for user roles with access to California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) portal screens with sensitive data elements mentioned below: 1. SSN, 2. Alien Number/USCIS Number, 3. I-94 Number/I-94A Number, 4. SEVIS ID, 5. Passport Number and 6. ITIN/ATIN.
Portal	General Requirement	49109	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall merge the three separate SSN/ATIN/ITIN fields into a single input field.
Portal	General Requirement	49230	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall integrate with the Intelligent Document Processing (IDP) system to systematically verify document types submitted for confirming Consumer's Identity.
Portal	General Requirement	49231	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall integrate with the Intelligent Document Processing (IDP) system to systematically verify document types uploaded from the Confirm Identity Page on the Portal.
Portal	General Requirement	49232	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add all acceptable identity documents from List A and List B to be in scope for IDP classification, extraction and verification.
Portal	General Requirement	49233	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the portal to rename, remove, or separate identity document types that are currently ambiguous, ensuring that each document type is distinct and easily identifiable for user.
Portal	General Requirement	49234	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall automatically classify user-uploaded documents based on IDP classification.
Portal	General Requirement	49235	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall notify the user of the IDP classified document on the document upload based on IDP classification confidence.
Portal	General Requirement	49236	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall request user to upload new document in the event IDP is unable to classify the document or confidence score is below configured threshold or uploaded document is identified as not one of the acceptable identity documents to confirm person's identity.
Portal	General Requirement	49237	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall sort and prioritize display of the list of highly used documents for List A and List B to confirm person's identity.
Portal	General Requirement	49238	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide an option for the user to replace document, if needed.
Portal	General Requirement	49239	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall explicitly notify the user in the event uploaded document exceeds IDP processor page limit.
Portal	General Requirement	49240	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the list of possible document issue of document being a bad quality document (Too Dark or Too Blurry) when the IDP is unable to read the document.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Portal	General Requirement	49241	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) IDP shall define the extracted fields for the Confirm Identity document types to apply data match and verification rule.
Portal	General Requirement	49242	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall match the IDP extracted values with the attested information of the Primary Household contact on the Case.
Portal	General Requirement	49243	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) IDP shall define a verification rule for document types uploaded on the Confirm Identity Page from List A or List B.
Portal	General Requirement	49244	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall consider Identity verification as Pass if IDP passes atleast one Document from List A or two Documents from List B.
Portal	General Requirement	49245	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not trigger a BPM Manual Verification task if the IDP verification result is 'Cannot Verify'.
Portal	General Requirement	49246	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display and store the IDP outcome for Identity verification.
Portal	General Requirement	49247	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display and store the IDP outcome of 'Pass' for Identity verification.
Portal	General Requirement	49248	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display and store the IDP outcome of 'Cannot Verify' along with the reason for Identity verification.
Portal	General Requirement	49249	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display and store and the value of attested data, extracted data and document name as applicable in the event IDP outcome is 'Cannot Verify'.
Portal	General Requirement	49250	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall document the log to capture IDP Outcome (Pass, Cannot Verify along with reasons), user id, date/timestamp and store the user uploaded document(s) for given transaction.
Portal	General Requirement	49251	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the user to continue with the application if the IDP Verification result is 'Pass'.
Portal	General Requirement	49252	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not allow the user to continue with the application if the IDP Verification result is 'Cannot Verify'.
Portal	General Requirement	49253	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide near real time extracted data from the user uploaded documents on the Confirm Identity Page.
Portal	General Requirement	49254	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall notify user on the data mismatch or verification rule failure if any that would otherwise result in IDP Outcome of Cannot Verify.
Portal	General Requirement	49255	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide an option for the user to replace document if IDP is unable to verify.
Portal	General Requirement	49256	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall guide the user to upload one document at a time for a given document type on Confirm Identity page.
Portal	General Requirement	49257	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall guide and prompt user to upload at least one document from List A or two documents from List B to confirm person's identity in the event IDP Outcome is 'Cannot Verify' for identity verification.
Portal	General Requirement	49258	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall notify the user in the event it is unable to open the uploaded document and request user to upload a different document.
Portal	General Requirement	49260	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall integrate with the Intelligent Document Processing (IDP) system to systematically verify additional 11 document types submitted for the outstanding verifications.
Portal	General Requirement	49261	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall integrate with the Intelligent Document Processing (IDP) system to verify additional 10 document types with a category of 'Manual Verifications' that are from the 'Print / Mail' vendor.
Portal	General Requirement	49262	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall integrate with the Intelligent Document Processing (IDP) system to systematically verify additional 10 document types if uploaded from the portal from Upload Eligibility Documents page or Documents and Correspondence Page.
Portal	General Requirement	49263	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) IDP shall define a verification rule for additional 11 document types.
Portal	General Requirement	49264	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) IDP shall define the extracted fields for additional 11 document types to apply data match and verification rule.
Portal	General Requirement	49265	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall enhance the Upload Eligibility Documents page and Documents & Correspondence page to provide near real time extracted data from consumer uploaded documents on portal for the additional 10 document types.
Portal	General Requirement	49266	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall notify user of the data extraction failure for the uploaded document for the additional 10 document types and allows user to either replace document or continue for the submission of document.
Portal	General Requirement	49267	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall notify user of the successful data extraction for the uploaded document for user to preview the extracted data elements for the the additional 10 document types and allows them to either replace document or continue for the submission of document.
Portal	General Requirement	49268	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add the reason(s) to be displayed on Personal Verification page following a Cannot Verify result from IDP for the additional 11 document types.
Portal	General Requirement	49269	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the portal to rename, remove, or separate document types that are currently ambiguous, ensuring that each document type is distinct and easily identifiable for user.
Portal	General Requirement	49270	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall automatically classify user-uploaded documents based on IDP classification.
Portal	General Requirement	49271	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall notify the user of the IDP classified document on the document upload based on IDP classification confidence.
Portal	General Requirement	49272	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall request user to select the document type for the uploaded document in the event IDP is unable to classify the document or confidence score is below configured threshold or document outside of the selected verification type.
Portal	General Requirement	49273	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall sort and prioritize display of the list of highly used documents for the outstanding verification during the user document selection.
Portal	General Requirement	49274	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall store if the uploaded document got classified by IDP or user selected the document type.
Portal	General Requirement	49275	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not display "Change" link at its existing location on "Upload Eligibility Documents" page for user to change the document type of the uploaded document in the event IDP classification of the uploaded document meets or exceeds the configured threshold for the verification type.
Portal	General Requirement	49276	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall continue to display "Change" link at its existing location on "Upload Eligibility Documents" page for user to change the document type of the uploaded document in the event IDP is unable to classify the document or confidence score is below configured threshold or document outside of the selected verification type.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Portal	General Requirement	49277	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall document the use of the "Change" link by the user.
Portal	General Requirement	49278	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall enable user to replace document, if needed.
Portal	General Requirement	49279	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall notify the user in the event it is unable to open the uploaded document and request user to upload a different document.
Portal	General Requirement	49280	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall explicitly notify the user in the event uploaded document exceeds IDP processor page limit.
Portal	General Requirement	49281	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the list of possible document issues displayed on the error state of the Review Document Information modal when the IDP is unable to read the document.
Portal	General Requirement	49282	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall notify user on the data mismatch or verification rule failure if any that would otherwise result in IDP Outcome of Cannot Verify.
Portal	General Requirement	49283	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the value of the attested and extracted data match fields highlighting the mismatch if any that would otherwise result in IDP Outcome of Cannot Verify.
Portal	General Requirement	49284	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall notify user on the verification rule failure tied to the verification fields.
Portal	General Requirement	49285	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall expand the "Cannot Verify" reasons displayed on Personal Verification page to admin users on granular level.
Portal	General Requirement	49286	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall expand the "Cannot Verify" reasons to include details on the document name, values for attested and extracted data match and verification fields.
Portal	General Requirement	49287	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add the "Cannot Verify" reasons for the data match fields when it is not present or not extractable from the document type.
Portal	General Requirement	49288	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add below as a separate case match rule to link the document with unique California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) case number. First Name, Last Name, Case Number
Portal	General Requirement	49289	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide guidance to the user to provide the annual income amount at household level on the Income Attestation form.
Portal	General Requirement	49290	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not trigger IDP calls or create BPM tasks if documents are uploaded by admin users on the Documents and Correspondence page.
Portal	General Requirement	49291	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall run validation and notify the user of any verification discrepancies at the case level prior to verification of documents via IDP.
Portal	General Requirement	49292	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the mismatch between the attested household subsidy income and the IDP calculated annual household income match fields (at the household level) that would otherwise result in IDP Outcome of Cannot Verify.
Portal	General Requirement	49293	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide guidance to the user to electronically attest to income as an alternative solution to confirm its income verification in the event this option is not already used for income verification.
Portal	General Requirement	49294	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide messaging to the user to submit the proof of income verification for all the conditionally eligible exchange outstanding income members that have reported income prior to submission of the documents for IDP verification (in a given IDP transaction) in the event income proof has not yet been submitted.
Portal	General Requirement	49295	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the income amount calculated from the income document group that is closest to the dollar threshold amount (amount derived based on 10% of attested household subsidy income amount for exchange household) for the IDP calculated income on the portal in the event there is income mismatch due to income percentage differentiation criteria is not met.
Portal	General Requirement	49296	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display lowest of the income amounts if the calculated income amounts from two different income document groups are equally close to the dollar threshold amount (amount derived based on 10% of attested household subsidy income amount for exchange household) for the IDP calculated income on the portal in the event there is income mismatch due to income percentage differentiation criteria is not met.
Portal	General Requirement	49297	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) IDP shall extend Paytub acceptance period to 7 days in future.
Portal	General Requirement	49298	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update IDP BSD document to match California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Case Match Service schema for following data elements - Certificate of Citizenship Number Certificate of Naturalization Number Country Of Issuance
Portal	General Requirement	49299	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the Choose People Modal to apply the income document to other members outstanding for income verification in the household prior to the document classification step.
Portal	General Requirement	49300	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall request user to upload document from List A or List B secondary Citizenship documents for outstanding Citizenship verification depending on document being classified as one of the documents from List A or List B document types.
Portal	General Requirement	49301	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the status of all exchange members outstanding for income verification from 'Conditionally Eligible' to 'Eligible' if an IDP 'Pass' is received for any one of the income documents submitted for the case, provided it meets the income percentage differentiation criteria.
Portal	General Requirement	49302	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall utilize income proof provided by any household member outstanding for income verification to determine the eligibility for the entire household for all conditionally eligible exchange outstanding income members, regardless of whether those members have attested to income, provided that the income of other household members submitting income proof is applicable to these conditionally eligible exchange members.
Portal	General Requirement	49303	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide an option to the user to electronically attest their income.
Portal	General Requirement	49304	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow electronic income attestation form to be filled once for the household.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Portal	General Requirement	49305	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall pre-populate the electronic income attestation form with the consumer details for exchange or mixed household cases
Portal	General Requirement	49306	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall make data fields editable for user to make required edits if needed on the pre-populated electronic income attestation form.
Portal	General Requirement	49307	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall request e-signature as a confirmation step in order to accept the electronic attestation of income by users.
Portal	General Requirement	49308	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall automatically apply electronic income attestation form to all the outstanding income members on the case once submitted.
Portal	General Requirement	49309	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall delete electronic income attestation form for all outstanding income members on the case, in the event any of the outstanding income member deletes this form.
Portal	General Requirement	49310	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall capture the identity and role of the user of who they are (consumer, authorized representatives, admins and agent/enrollers) when providing electronic attestation of income.
Portal	General Requirement	49311	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall document the use of the electronic attestation of income in a transaction log.
Portal	General Requirement	49312	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate the electronic income attestation form and display on the portal.
Portal	General Requirement	49313	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall store the data fields from electronic income attestation form.
Portal	General Requirement	49314	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall run IDP classification, extraction and verification on electronic income attestation form.
Portal	General Requirement	49315	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall bypass name match validation via IDP for the electronic income attestation form.
Portal	General Requirement	49316	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) IDP shall consider electronic income attestation form once for all exchange conditionally eligible outstanding income members on the case.
Portal	General Requirement	49317	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not make IDP calls on document upload when exchange conditionally eligible person is on Carry forward status.
Portal	General Requirement	49318	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall restrict the display of "Withdraw" link to only admin users.
Portal	General Requirement	49319	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall document the use of the "Withdraw" link.
Portal	General Requirement	49350	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall replace the existing remote identity proofing process with Socure RIDP solution for all user roles.
Portal	General Requirement	49351	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall call the SOCURE RIDP service in an application flow once the consent has been provided on the User Consent - Socure page and the user proceeds to the next step (Shall be applicable for all user roles)
Portal	General Requirement	49352	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create screen to request consent from users to send information to Socure RIDP services for identity proofing process.
Portal	General Requirement	49353	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the identity proofing options in error message modals when the SOCURE RIDP Step 2 vendor authentication is called, and the authentication fails.
Portal	General Requirement	49354	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Shall display appropriate Error message modal based on Socure RIDP Responses
Portal	General Requirement	49355	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall continue with the existing application flow when the SOCURE RIDP vendor authentication is called, and the authentication is successful.
Portal	General Requirement	49356	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall continue with the existing application flow and display the Successful Identity Verification Modal when the SOCURE RIDP vendor authentication is called, and the authentication is successful by SOCURE automated RIDP flow (Step 1 verification)
Portal	General Requirement	49357	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall continue with the existing application flow and display the Successful Identity Verification Modal when the SOCURE RIDP vendor authentication is called, and the authentication is successful as part of Step 2 verification (DocV) process
Portal	General Requirement	49358	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall integrate HBX portal with Socure 'Capture App' to facilitate Step 2 verification (DocV) process
Portal	General Requirement	49359	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall customize Socure 'Capture App' to provide similar experience as California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) portal example font style, logo, branding, color palette etc.
Portal	General Requirement	49360	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create screen to inform users about step 2 verification(DocV) and allow users to provide email or phone to receive Socure CapureApp link to complete verification process
Portal	General Requirement	49361	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create message templates (Phone/email) for Step 2 verification(DocV) process
Portal	General Requirement	49362	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall call the Socure RIDP service to receive and send a link for Socure (DocV) verification process to be accessed by a mobile device when users selects link method and proceeds to next step.
Portal	General Requirement	49363	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall auto-populate the email or phone field from account creation and MFA preferences in contact information page for logged-in user and same information should be populated in subsequent pages, Primary contact and DocV page
Portal	General Requirement	49364	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall make email or phone fields mandatory (one of these fields) on primary contact page for RIDP
Portal	General Requirement	49365	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display list of approved Identification documents in HBX portal for user selection as part of Step 2 (DocV) process
Portal	General Requirement	49366	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow users to resend a new link for Socure (DocV) verification process.
Portal	General Requirement	49367	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall invalidate the link that was sent for RIDP Step 2 verification (DocV) process after the configured link validity time has passed.
Portal	General Requirement	49368	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall invalidate the link for that was sent for RIDP Step 2 verification (DocV) process when the user chooses to cancel the link or resend a new link.
Portal	General Requirement	49369	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow users to continue their application from the Identity Verification Standby Page when resuming an application for consumers who initiated Socure Step 2 DocV verification, not yet completed identity verification, and their link has not expired (72 hours).

Category	Sub Category	Req ID	Requirement
Portal	General Requirement	49370	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall retain the functionality to allow admin and enroller users to skip RIDP and instead use document upload functionality with existing process.
Portal	General Requirement	49371	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the Identity Proofing Options modal to deprecate the options for Phone, Electronic Upload and fax
Portal	General Requirement	49372	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall make appropriate changes in Flexi-App to facilitate the use of the Socure solution
Portal	General Requirement	49373	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall develop new screen to show the phone/email and list of documents for step 2 verification (DocV)
Portal	General Requirement	49374	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall develop new screen for step 2 verification (DocV) to confirm DocV link was sent and to continue the smartphone or tablet
Portal	General Requirement	49375	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display appropriate message modal based on Socure RIDP responses (Accept, Reject and Re-Submit)
Portal	General Requirement	49376	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display appropriate message modal on Flexi App screen to show the Reject or Re-submit message Modal based on Socure RIDP response when continuing an application through the Flexi App flow from the Admin Search Screen.
Portal	General Requirement	49377	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall pre-populate primary person information for the in-flight applications in Flexi-App flow.
Portal	General Requirement	49378	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall modify the language for RIDP related messages on the Application Initiation page in the Flexi-App to facilitate the use of the Socure solution
Portal	General Requirement	49379	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the consent language for Flexi-App to request if Admin has consumer consent to send information to Socure RIDP services for identity proofing process.
Portal	General Requirement	49380	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow Admin users to continue an application in the Flexi App flow from the Admin search screen and resume on the Flexible Application - Identity Verification Standby Page when resuming an application for consumers who initiated Socure Step 2 DocV verification, not yet completed identity verification, and their link has not expired (72 hours).
Portal	General Requirement	49381	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall call the SOCURE RIDP service in an application flow once the consent has been provided on the Flexi App - Application Initiation page and the admin Proceeds to the next step.
Portal	General Requirement	49382	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create audit history record for the individual identity verification, with details stating if the identification was done via RIDP process
Portal	General Requirement	49383	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall work with Socure to identify and configure rule set for identity proofing
Portal	General Requirement	49384	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall only allow approved Identification documents as part of Step 2 Verification (DocV) Process
Portal	General Requirement	49385	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement secure connectivity (Network/Gateway connection) with Socure
Portal	General Requirement	49386	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement 3scale API policy with Socure
Portal	General Requirement	49387	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement Camel API policy with Socure
Portal	General Requirement	49388	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement auditing for SAWS intake EDR requests for ID proofing.
Portal	General Requirement	49389	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall encourage users to provide consumer's Legal Name when adding household members
Portal	General Requirement	49390	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement 'Day One' scenario for users in an intermediate RIDP system state
Portal	General Requirement	49391	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create and configure sub domain for Socure CaptureApp URL
Portal	General Requirement	49392	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall integrate Socure portal with Active Directory to login into Socure Admin dashboard
Portal	General Requirement	49393	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall auto refresh and invoke the Verification Status API call while users remain on the Identity Verification Standby Page to receive verification response for RIDP Step 2 DocV Verification to display the appropriate response on the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Portal.
Portal	Health & Dental Plan Shopping		
Portal	Health & Dental Plan Shopping	48018	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall correct the spelling of "Authorised" to "Authorized" in all impacted UI pages. (To address SIR 245320)
Portal	Interfaces		
Portal	Interfaces	48770	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow CiCi (CCA Chatbot) to retrieve a consumer's most recent tax form on file for each tax form type (IRS 1095 and FTB 3895).
Portal	Interfaces	48771	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow a Consumer to download their available tax forms (IRS 1095, FTB 3895) through an active CiCi chat session.
Portal	Interfaces	48772	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the "Available Tax Form API" and "Generate Tax Form API" to return whether the consumer's most recent tax form available is an "Original" tax form or a "Revised" tax form.
Portal	Non-Functional Requirement		
Portal	Non-Functional Requirement	49063	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall capture key user behavior actions to push dynamic banner data to Google Tag Manager (GTM).
Portal	Notices		
Portal	Notices	40516	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide all users with access to the case, with the ability to generate Proof of Coverage for a particular quarter in the given year
Portal	Notices	40529	Proof of Coverage will be generated by the consumer from the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) portal for the selected Individual, Year & Quarter combination (E.g. - Indiv1, 2021, Q1; Indiv2, 2021, Q2).

Category	Sub Category	Req ID	Requirement
Portal	Notices	40530	Proof of Coverage can be generated for the current and the last year
Portal	Notices	40531	Proof of Coverage will be generated in real-time with the latest enrollment data fetched from the GI system
Portal	Notices	40532	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall store all the Proof of Coverage PDFs generated by the consumer
Portal	Notices	40533	Proof of Coverage should be available on the Document and Correspondence page
Portal	Notices	40534	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate a Proof of Coverage that is not forgeable.
Portal	Notices	40535	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall utilize watermark to prevent Proof of Coverage from getting forged
Portal	Notices	40536	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate Proof of Coverage in English Language
Portal	Notices	40537	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall print Proof of Coverage with Enrollment and Demographic details
Portal	Notices	40538	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display Year, Quarter, and Date Generated on the Proof of Coverage
Portal	Notices	40539	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display Reference Number, Covered Member's Name, Mailing Address, Date of Birth on the Proof of Coverage
Portal	Notices	40540	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display Carrier Name and Covered months per quarter for the Individual on the Proof of Coverage
Portal	Notices	40541	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall only consider effectuated enrollment in a health plan when determining Covered months for an Individual on the Proof of Coverage
Portal	Notices	40542	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall print a disclaimer text stating that the details on the Proof of coverage are valid as of the Generated Date displayed on the Proof of Coverage
Portal	Notices	40750	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not trigger Proof of Coverage letter if there is no change in an Individual's enrollment or demographic details from the previous generation for proof of coverage .
Portal	Notices	40751	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall utilize QR code to prevent Proof of Coverage from getting forged
Portal	Notices	40752	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate Proof of Coverage in Spanish
Portal	Notices	40753	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add Proof of Coverage letter available in Secure Mailbox
Portal	Notices	40754	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall collect consumers' consent to share their enrollment data with the network companies
Portal	Notices	40755	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall set up a new batch process with the the network companies to validate and send proof coverage for consumers who have provided consent to share their enrollment information.
Portal	Notices	40756	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use the Electronic Signature Process that would require the user to enter their name and pin.
Portal	Notices	40757	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow users to update or end-date the consent.
Portal	Notices	40758	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have audit trail/transaction for the consent functionality.
Portal	Notices	40759	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow users to specify with which companies to share information
Portal	Notices	40760	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall collect from consumer the phone number and email they have provided to each network company for which they provide consent to share with network companies.
Portal	Notices	40761	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Shall send proof coverage for consumers who have provided consent to share their enrollment information with network companies.
Portal	Notices	40762	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send proof of coverage in .xlsx format by SFTP file transfer protocol
Portal	Notices	40763	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send following data elements in the file: driver's California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Case ID, First Name, Last Name, DOB, Address including ZIP code, email address provided to network company as given during consent collection, phone number provided to network company as given during consent collection, date consent provided, consent end-date (or N/A if not applicable), QHP of enrollment, and an explicit "YES/NO" coverage indicator for each month of the applicable coverage quarter
Portal	Notices	48504	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the option of English for consumers and enrollers to view their notices if their preferred language is not English.
Portal	Notices	48506	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add a confirmation modal when the Reprint option is selected on the Documents and Correspondence page.
Portal	Other Non-Health Services		
Portal	Other Non-Health Services	48503	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add an option to the Voter Registration Page so that the system does not send them a Voter Registration card.
Portal	Provider/Plan Directory		
Portal	Provider/Plan Directory	47234	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide a link for clients to navigate to search for Family PACT providers on the familypact.org website using the link: https://familypact.org/provider-search/ in a new tab.
Portal	Provider/Plan Directory	47279	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide a link for Family PACT providers to navigate to search for other Family PACT providers on the familypact.org website in a new tab on behalf on clients.
Portal	Shop & Compare		
Portal	Shop & Compare	48740	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall replace references to "Health Carrier" with "Dental Carrier" in the static text on Dental pages.
Portal	Verify Application Information		
Portal	Verify Application Information	47267	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the Family PACT provider to reaffirm that there are no changes to the client's previously entered information at each provider visit. by submitting a Report a Change (RAC) without any updates to the information.

Category	Sub Category	Req ID	Requirement
Portal	Verify Application Information	48224	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall present SOGI questions in the application flow in both SSA and Flexi-App during Intake, RAC, and Renewals.
Portal	Verify Application Information	48225	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall modify the PDF Application to include the SOGI questions in the Build Household section.
Portal	Verify Application Information	48226	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall make all SOGI questions optional in the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) application and the data shall not to be used to determine the individuals eligibility
Portal	Verify Application Information	48227	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display SOGI questions in the application flow for household members who are 12 years of age or older.
Portal	Verify Application Information	48244	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall deprecate the SOGI page from the Eligibility Results page
Portal	Web Portal Online Help		
Portal	Web Portal Online Help	47206	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the user to hover over the Information Icon in the Family PACT application to get more information about the text.
Portal	Web Portal Online Help	47213	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the Office of Family Planning phone number and e-mail address for providing Family PACT assistance.
Portal	Web Portal Online Help	47214	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the phone number for providing users with Family PACT assistance via the Covered California Service Center.
Portal	Web Portal Online Help	47215	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display messaging to the Family PACT user to seek admin assistance if a duplicate account is identified during account creation or application submission.
Preliminary Design Review (PDR)			
Preliminary Design Review (PDR)	General Requirement		
Preliminary Design Review (PDR)	General Requirement	43515	The Vendor shall prepare a Preliminary Requirements Traceability Matrix to include but not be limited to: A) Approach to Requirements Analysis and Traceability B) Summary of Findings C) List of Requirements D) List of Deliverables E) Requirements mapped to Deliverables F) Deliverables mapped to Requirements G) Requirements without matching Deliverables H) Deliverables without matching Requirements
Preliminary Design Review (PDR)	General Requirement	43517	The Vendor shall prepare an Information Security Risk Assessment (Preliminary) to include at a minimum: A) System Identification B) Risks and Safeguards
Preliminary Design Review (PDR)	General Requirement	43518	The Vendor shall prepare a System Security Plan (Preliminary) which documents the System's security level and describes managerial, technical and operational security controls, to include at a minimum: A) System Identification B) Security Controls Detail by area
Preliminary Design Review (PDR)	General Requirement	43519	The Vendor shall prepare a Test Plan (Preliminary) to include at a minimum: A) Test Schedules and Milestones B) Test Roles and Responsibilities for all test phases (including unit, integration, System, UAT, regression and performance) C) Test Planning and Preparation D) Test Data and Scenarios/Cases E) Test Execution F) Interface Testing G) Reports Testing H) Defect Tracking and Reporting I) Test Environments J) Metrics Collection and Assessment K) Entry and Exit Criteria L) Suspension and Resumption Criteria

Category	Sub Category	Req ID	Requirement
Preliminary Design Review (PDR)	General Requirement	43520	The Technical Architecture Diagrams (Final) consists of models, diagrams, tables, and narrative, which show the proposed solution's integration into CMS operations from both a logical and technical perspective. The Vendor shall prepare a Technical Architecture Diagrams (Final) deliverable to include at a minimum: A) Design Considerations B) System Architecture C) Data Design D) Human-Machine Interface E) Operational Scenarios F) Detailed Design G) System Integrity Controls H) External Interfaces
Preliminary Design Review (PDR)	General Requirement	43521	The Vendor shall prepare a Logical Data Model (Final) to include at a minimum: B) Participants Roles And Responsibilities C) Conceptual, Logical, And Physical Data Models E) LDM Fields F) LDM Relationship Views G) Logical Data Model (LDM) H) Data Flows Diagrams (DFD) I) LDM Data Dictionary / CRUD Matrix J) Appendix A:Logical Data Model Diagram K) Appendix B:Logical Data Model Matrix L) Appendix C:Data Flow Diagram M) Appendix D:LDM Data Dictionary N) Appendix E:Crud Matrix
Pre-Operational Readiness Review			
Pre-Operational Readiness Review	General Requirement		
Pre-Operational Readiness Review	General Requirement	43541	The Vendor shall prepare a Test Plan (Final) to include at a minimum: A) Test Schedules and Milestones B) Test Roles and Responsibilities for all test phases (including unit, integration, System, UAT, regression and performance) C) Test Planning and Preparation D) Test Data and Scenarios/Cases E) Test Execution F) Interface Testing G) Reports Testing H) Defect Tracking and Reporting I) Test Environments J) Metrics Collection and Assessment K) Entry and Exit Criteria L) Suspension and Resumption Criteria
Pre-Operational Readiness Review	General Requirement	43542	The Vendor shall develop and execute a Preliminary Implementation Plan to include at a minimum: A) Methodology B) Schedule including task start and end dates C) Roles and responsibilities of Vendor and Exchange teams D) Implementation Readiness and Checklists, including readiness criteria metrics E) Entry and Exit Criteria for beginning and completion of Implementation F) Proven Practices (demonstrate that the plan is based upon Proven Practices) G) Cutover Processes and Procedures H) Implementation Support Plans I) Contingency Plan J) Recovery Plan

Category	Sub Category	Req ID	Requirement
Pre-Operational Readiness Review	General Requirement	43543	The Implementation Plan (Preliminary) shall also detail all of the tasks, Implementation schedules and, the integration of Implementation planning with: A) Site Preparation, Installation and Certification for Infrastructure; B) Training Materials Development; C) Training Delivery; D) Organizational Change Management; E) Conversion (if any); F) Interface and System of record cutover; and G) Efficiency of procedures and work flow.
Pre-Operational Readiness Review	General Requirement	43544	The Vendor shall prepare and execute an Organizational Change Management Plan (Preliminary). The Plan shall entail the following activities and include, but not be limited to: A) Overall Approach and Schedule B) Roles and Responsibilities of Vendor and Exchange/State staff C) Process and role gap analysis of existing workflow and procedures (As Is/To Be Analysis) which should include "a day in the life of" study of people in the roles that will be impacted by the new System D) Gap Analysis between the existing environments and the new California Healthcare Eligiblity, Enrollment and Retention System (CalHEERS) environment E) Change Readiness Plan which shall include details regarding the change readiness process, inputs and outputs; readiness criteria; assessment methods; and change readiness tools utilized; G) Communications Strategies H) Tasks and Expected Results I) Method for Documenting and Dealing with Issues.
Pre-Operational Readiness Review	General Requirement	43552	The Vendor shall develop and submit a Service Center Management Plan as a stand-alone deliverable. The Service Center Management Plan shall include, at a minimum, the following components and corresponding descriptions: A) Approach to providing Service Center services B) Staffing Overview to include org charts, the number and type of Vendor and Exchange personnel needed to handle the Exchange Service Center requirements for Levels 1, 2, and 3, and roles and responsibilities of each level and position C) Detailed description of the Service Center application and tools, including but not limited to: I) Description of the Equipment and Software used to support the Service Center III) Approach to management and maintenance so that both the application and its knowledge base are kept current IV) Standard reports available for Exchange oversight of Service Center activities D) Detailed description of the functions performed and how they interface with other support activities for which the Vendor is responsible (e.g., problem reporting, tracking, and resolution) E) Description of the various categories of tickets, including prioritization and status/disposition F) Incident/ticket management processes including opening, diagnosing, escalating, resolving, and closing tickets as well as tracking, aging and reporting G) Service Center communication procedures including, but not limited to: I) Service Center telephone contact and Automated Call Distribution scripts II) Web-chat and email communication procedures and templates H) Automated Call Distribution (ACD) System monitoring I) Reports, including all planned reports and report templates J) Initial and ongoing Training
Pre-Operational Readiness Review	General Requirement	43553	The System shall manually search the knowledge base based on defined fields: a) Incident type category b) Specific subject c) Contact type d) Keywords
Pre-Operational Readiness Review	General Requirement	43554	The System shall track what knowledge content is used for specific incidents.
Pre-Operational Readiness Review	General Requirement	43555	The SCR shall be able to rate the usefulness of content as it relates to specific incident types (Yes or No - Useful).
Pre-Operational Readiness Review	General Requirement	43556	The Knowledge Management System shall be able to aggregate the usefulness ratings of SCRs of specific knowledge content.
Pre-Operational Readiness Review	General Requirement	43557	The Knowledge Management System shall be able to identify knowledge content that is not useful for resolving the associated incident type.
Pre-Operational Readiness Review	General Requirement	43558	The System shall identify SCR searches of the knowledge management system that generate too many results.
Pre-Operational Readiness Review	General Requirement	43559	The System shall identify SCR searches of the knowledge management system that result in too few results.
Pre-Operational Readiness Review	General Requirement	43562	The System shall restrict SCRs from some search types: a) SCRs cannot search by the Knowledge Base article # b) SCRs cannot perform Google search through CRM

Category	Sub Category	Req ID	Requirement
Pre-Operational Readiness Review	General Requirement	43563	The System shall allow a SCR to perform a manual search during an interaction with a Contact.
Pre-Operational Readiness Review	General Requirement	43564	The System shall auto-populate knowledge base content to the SCR based on knowledge content associated with the incident type.
Pre-Operational Readiness Review	General Requirement	43565	The System shall auto-populate knowledge base content to the SCR based on the subject associated with an incident created via the request contact form (email) channel.
Pre-Operational Readiness Review	General Requirement	43566	The System shall sort the knowledge content results after a search (manual or auto-search) associated with incident types by: a) Usefulness b) Date created/updated
Pre-Operational Readiness Review	General Requirement	43567	The System shall display knowledge content to the SCR during an interaction with a contact.
Pre-Operational Readiness Review	General Requirement	43569	The Knowledge Management System shall be able to track how often knowledge content is used in association with specific incident types.
Pre-Operational Readiness Review	General Requirement	43570	The Initial Service Center Management Plan must also include the following topic areas: K) Service Center review process to provide the Exchange Executive Director with regular updates on the status and activities of the Service Center operations L) Quality improvement process to search for improvements to handling and flow of Service Requests, communication with users and provide trend information that can help manage Service Requests, improve service to users and potentially prevent future incidents .
Pre-Operational Readiness Review	General Requirement	43571	The Vendor shall prepare and deliver a Service Center Build and Implementation Plan that describes the plan for readying the Service Center Facility, including installing Equipment and Software.
Pre-Operational Readiness Review	General Requirement	43572	The Vendor shall prepare a User Manual (Preliminary) to include at a minimum: A) Getting Started B) Using the System C) Troubleshooting & Support
Pre-Operational Readiness Review	General Requirement	43582	The Vendor shall prepare an Infrastructure Readiness document to include at a minimum: A) Logical and physical architectures and networks for all central and local components B) Technical diagrams and schematics for all central and local components C) Existing System infrastructure components that will continue to be used/leveraged as well as new infrastructural components. Identification of new infrastructure components that can be leveraged or reused by other State agencies D) Schedule for availability, including any phasing if applicable E) How all CMS technical requirements for MITA, SOA and cloud computing are addressed F) Infrastructure test plans
Pre-Operational Readiness Review	General Requirement	43586	The Vendor shall develop and implement a Preliminary Training Plan that addresses the following: A) Development and Delivery methods and strategies B) Development and Delivery schedules C) Development and Delivery Roles and responsibilities of Vendor and Exchange teams including training management, logistics, establishment of Facilities (as applicable), trainers and users/trainees/participants D) Curriculum, Milestones, tasks, dates, participants, critical resources E) Training content – For each user type and level: content of training to be provided, description of training materials, training development and delivery methods, and location of training F) Training Delivery Sites, Facilities, and Equipment according to the training schedules G) Training Delivery tracking H) Training assessment and retraining I) Ongoing training
Pre-Operational Readiness Review	General Requirement	43587	The Vendor shall prepare a Test Report (Preliminary) to include at a minimum: A) Summary Assessment B) Detailed Test Results C) Variances D) Test Incidents E) Recommendations

Category	Sub Category	Req ID	Requirement
Pre-Operational Readiness Review	General Requirement	43588	The Vendor shall prepare a Data Use/Data Exchange/ Interconnection Security Agreement (Preliminary) to address and include the following information at a minimum: The Data Use Agreement (DUA) is developed by the Business Owner and Project Manager and initiated in the Design Phase, continued throughout the Development Phase and Test Phase, and completed in the Implementation Phase. A DUA is a legal binding agreement between a Federal agency and an external entity (e.g., contractor, private industry, academic institution, other Federal government agency, or State agency), when an external entity requests the use of personal identifiable data that is covered by the Privacy Act of 1974. The agreement delineates the confidentiality requirements of the Privacy Act, security safeguards, and the Federal agency's data use policies and procedures. The DUA serves as both a means of informing data users of these requirements and a means of obtaining their agreement to abide by these requirements. Additionally, the DUA serves as a control mechanism through which the Federal agency can track the location of its data and the reason for the release of the data. A DUA requires that a System of Record Notice be in effect, which allows for the disclosure of the data being used. There are five templates available depending upon need and are as follows: A) New Data Use Agreement B) Update to an Existing Data Use Agreement C) Amendment to an Existing Data Use Agreement D) Disproportionate Share Hospital Data Use Agreement (DSH) E) Disproportionate Share Hospital Data Use Agreement (cost reporting periods that include December 8, 2004 and thereafter) NOTE: The DUA templates can be found on the CMS internal Forms Locator website. More information on any of the Data Use Agreements can be found in the Privacy Office section.
Pre-Operational Readiness Review	General Requirement	43590	Information Security Risk Assessment (Final) A) Introduction B) System Identification C) Risks and Safeguards
Pre-Operational Readiness Review	General Requirement	43591	The Vendor shall prepare a System Security Plan (Final) which documents the System's security level and describes managerial, technical and operational security controls, to include at a minimum: A) System Identification B) Security Controls Detail by area
Pre-Operational Readiness Review	General Requirement	43592	The Vendor shall prepare an Automated Code Review Results deliverable to include at a minimum: A) Report with results from development code reviews that identifies software security vulnerabilities.
Pre-Operational Readiness Review	General Requirement	43593	The Vendor shall prepare a Business Product (Preliminary) to include at a minimum: A) Overview of the Systems solution delivered for the release B) Release version identification C)Hardware and software acquisition and installation status D)Data conversion issues and status E) Technical and function documentation status
Pre-Operational Readiness Review	General Requirement	43594	The Vendor shall prepare the Training Materials (Preliminary) for each user type and level to include at a minimum: A) Content of training to be provided A) Web-based instruction B) Instructor guides C) Student guides D) Exercise materials E) Training records
Pre-Operational Readiness Review	General Requirement	43595	The Vendor shall prepare an Infrastructure Readiness Complete document to include at a minimum: A) Validation that the Infrastructure Design has been configured, installed, tested (including performance, load, stress and volume testing), meets all requirements and is certified as operational. B) Results from testing Systems and components that will utilize the infrastructure and were identified in the Infrastructure Design.
Project Baseline Review	General Requirement		
Project Baseline Review	General Requirement		
Project Baseline Review	General Requirement	43499	The Vendor shall prepare a Release Plan that describes what portions of the System functionality will be implemented in which release and why; this plan should include at a minimum: A) Release Approach B) Release Schedule

Category	Sub Category	Req ID	Requirement
Project Baseline Review	General Requirement	43507	The Vendor shall prepare a Privacy Impact Assessment (Preliminary) deliverable to ensure no collection, storage, access, use or dissemination of identifiable respondent information that is not both needed and permitted. This deliverable must include at a minimum: A) Summary of PIA Required Questions B) PIA Required Information C) System Characterization and Data Characterization D) Information Sharing Practices E) Web Site Hosting Practices F) Administrative Controls G) Technical Controls H) Physical Access I) Approval/Demotion J) Percent Complete
Project Baseline Review			The Vendor shall prepare and submit Monthly Work Plan Updates to include at a minimum: A) Summary of Updates B) Updates to tasks and task start and end dates and percent complete C) Comparison to the approved baseline D) Comparison of actual level of effort against estimated level of effort E) Revised estimates to complete and estimates at completion F) Substantive changes in resource assignments G) Metrics associated with tasks on the critical path that did not start or complete on time and the corresponding number of days past the scheduled start or completion date
Project Baseline Review			The Vendor shall prepare PMP Updates in conjunction with the Federal gate reviews.
Project Baseline Review			The Vendor shall prepare the Master Facility Acquisition and Installation Plan to include, at a minimum: A) Overview and description of all Facilities, including any temporary Facilities. B) General approach to acquisition, preparation, and installation. C) Master schedule associated with securing, preparing, modifying and installing all proposed permanent Facilities. D) Staff and roles and responsibilities E) A complete description of each Facility, including office floor plans, planned leasehold improvements/modifications and hardware component footprints F) Work Plan defining all Site acquisition, preparation, and installation tasks and milestones G) A checklist of Requirements to demonstrate compliance with the State Fire Marshall, California Building Code (CBC), Americans with Disabilities Act (ADA) and Sustainable Measure Procedures

Category	Sub Category	Req ID	Requirement
Project Baseline Review		43511	The Vendor shall prepare the Equipment and Software Acquisition Plan to identify all Equipment, Software and corresponding maintenance required to support the System. This deliverable must take the form of an Excel spreadsheet or database which includes, at a minimum: 1. Item Number. 2. Description. 3. Specification. 4. Vendor. 5. Planned Purchase Month. 6. Planned Quantity. 7. Estimated Unit Price. 8. Total Estimated Price (Planned Quantity x Estimated Unit Price). 9. Estimated Shipping. 10. Estimated Tax. 11. Estimated Total (Sum of items 8, 9, and 10). 12. Estimated Monthly Payment (inclusive of financing). 13. Planned Purchase or Lease Indicator. 14. Planned Finance Rate. 15. Planned Shipping Location (by Facility for sales tax calculation purposes). 16. Actual Purchase Month. 17. Quantity. 18. Actual Unit Price. 19. Actual Total Price (Quantity x Actual Unit Price). 20. Actual Shipping. 21. Actual Tax. 22. Actual Total Purchased. 23. Actual Lease Payment (inclusive of financing). 24. Actual Purchase/Finance Indicator. 25. Finance Rate, if applicable. 26. Actual Shipping Location. 27. Maintenance information, including term, annual amounts and support level/type 28. Equipment and Software life expectancy and end date.
	General Requirement		
Project Baseline Review		43512	The Equipment and Software Acquisition Plan must also include: 1. Totals by Hardware Financed, Hardware Purchased, Hardware Maintenance, Total Hardware, Software Purchased, Software Maintenance and Total Software. 2. The number and location of Equipment spares. 3. A change log that includes the ID number, Invoice data affected, a description of the event, indicators for the area of impact and budget impact 4. A history of changes to Equipment and Software planned and purchased during the Term of the Agreement. Specifically, rows in the Excel workbook should not be deleted from the Plan, but instead marked and removed from the totals.
	General Requirement		
Project Baseline Review		43513	The Equipment and Software Acquisition Plan must be updated each year to reflect the results of the Annual Technology Refresh Assessment and Plan. The Vendor must also update the Plan on a regular and as-needed basis to identify changes to planned purchases and estimated and actual costs needed for budget and Contract management purposes. The Excel workbook or database must be kept current so it can be produced with no more than a few days notice.
	General Requirement		
Project Baseline Review		43514	The Vendor shall prepare Weekly and Monthly Status Reports to include at a minimum: A) Summary of overall progress B) Key tasks, deliverables and milestones completed during the applicable period. C) Team progress/status summaries D) Upcoming key tasks, deliverables and milestones for the next period E) Issues F) Risks G) Action Items
	General Requirement		

Category	Sub Category	Req ID	Requirement
Project Baseline Review		43589	The Project Management Plan must include the Initial Work Plan and must address the following subject areas at a minimum: A) Project Scope B) Overall Project Management Approach and PMO C) Communication Management D) Scope Management E) Issue Management F) Risk Management G) Schedule and Work Plan Management H) Quality Management I) Project Status Reporting J) Deliverable Management and List of Deliverables K) Requirements Management L) Configuration Management M) Contract Management N) Project Organization and Staff Management O) Budget Management
	General Requirement		
Project Baseline Review		43600	The Vendor shall prepare a Initial Work Plan in Microsoft Project, be and submitted within 21 days of contract start and include, at a minimum, the following information: A) Overall schedule with D&I and initial O&M phases. B) All major tasks, deliverables, and milestones with start and end dates, duration in days and predecessor and successor dependencies. C) All deliverable review and approval timeframes. D) A Gantt chart view showing all major tasks, deliverables and milestones. E) A critical path view showing critical path major tasks, deliverables and milestones. F) Vendor and Exchange resources assigned to each major task.
	General Requirement		
Project Baseline Review		43611	The Project Process Agreement (Final) must include at a minimum: Authorizes and documents the justifications for using, not using, or combining specific stage gate reviews and the selection of specific work products. A) Project Name B) Project Description C) Project Release D) Review Artifacts List: i) Artifact Name ii) Core/Recommended iii) Artifact Definition/Record iv) Agreement for the project's initial release: Provide (New), Combine, Waive, New Project Defined Artifact v) Justifications for Waive or Combine vi) Author vii) Justification & Notes
	General Requirement		
Project Management			
Project Management	General Requirement		
Project Management		38948	Work packages will be used to identify the scope of tasks, anticipated levels of efforts, and preliminary timelines, which upon approval will be reflected in the Reports Management sub-project schedule. Work will not begin until each work package is approved. • The Work Package will have overall time, cost and scope defined • Work Packages will be done using a flow approach (as detailed work is defined, a Work Package will be drafted) • Work Packages will include a schedule, FTE hours needed and description of the expected results of the effort (artifact) • Work Packages will include a documentation and knowledge transfer plan • No work can be billed to the CR without an approved Work Package • The burn rate for time and cost will be tracked as Work Packages are completed • A standing meeting will be used to review / approve Work Packages
	General Requirement		
Project Management	General Requirement	38949	Work packages (ad hoc queries, one-time use, etc.) will be used and defined via a standard template which includes the scope of work effort (easy, moderate, difficult) and priority to facilitate expediting approval processes based on the business priorities.
Project Management		44252	The Vendor shall provide and employ a Project Management methodology consistent with: A) Project Management Institute (PMI) Project Management Body of Knowledge (PMBOK®) B) CMS System Lifecycle Framework guidelines for project management.
	General Requirement		
Project Organization & Staff Mgmt			
Project Organization & Staff Mgmt	General Requirement		

Category	Sub Category	Req ID	Requirement
Project Organization & Staff Mgmt	General Requirement	44262	The Vendor shall indicate area of responsibility by team on the project Organization Chart as well as maintain position descriptions for the Vendor team. The Vendor must update these position periodically, but no less than quarterly, and make them readily available and accessible by all Project staff.
Project Organization & Staff Mgmt	General Requirement	44263	The Vendor shall document and maintain planned Staff assignments for Vendor staff, including position/title, roll-on and roll-off dates, full-time vs. part-time, and the extent to which any work will be done offsite. This information must be readily available to and accessible by all Project staff.
Project Organization & Staff Mgmt	General Requirement	44303	The Vendor shall document and maintain organization charts that include Vendor, Exchange PMO, Exchange staff, QA, IV&V and oversight consulting teams, at both summary and detailed levels (with details down to each individual). The Vendor must update these organization charts on an as-needed basis, but no less than monthly, and make them readily available and accessible to all Project staff.
Project Organization & Staff Mgmt	General Requirement	44305	The Vendor shall describe how Vendor staff will interact with, utilize, and collaborate with State staff for all work performed by the Vendor.
Project Organization & Staff Mgmt	General Requirement	44306	The Vendor shall identify assumptions and expectations for State staff who will be working along side Vendor and subcontractor staff resources identified in the Vendor organizational chart.
Project Organization & Staff Mgmt	General Requirement	44307	The Vendor shall notify the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Project Director as soon as possible and promptly develop and complete transition and training plans for the new or reassigned replacement staff when an unplanned, early Vendor employee or Subcontractor departure from the Project is unavoidable.
Project Organization & Staff Mgmt	General Requirement	44308	In the event of any performance concerns for Vendor or Subcontractor staff, the Vendor shall notify the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Project Director as soon as possible, and jointly discuss the approach for resolving the concern.
Provider Directory			
Provider Directory	Custom Grouping Rules		
Provider Directory	Custom Grouping Rules	42061	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the activation status of a file (Provider/Facility).
Provider Directory	Custom Grouping Rules	42062	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display gear box functionalities to activate provider/facility file for consumer visibility
Provider Directory	Custom Grouping Rules	42063	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide an activation date if the file has been updated
Provider Directory	Custom Grouping Rules	42064	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide a secondary file upload through a batch - Provider File - Facility File
Provider Directory	Custom Grouping Rules	42066	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) batch shall process only latest files uploaded in the batch location
Provider Directory	Custom Grouping Rules	42068	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) batch shall maintain the audit history and provider data file details in a database
Provider Directory	Custom Grouping Rules	42069	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide a batch process to activate the files for consumer visibility uploaded via the batch process
Provider Directory	Disenrollment		
Provider Directory	Disenrollment	42067	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) batch shall process .txt files
Provider Directory	Disenrollment	42070	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall confirm that all batch processes related to upload or activation for consumer visibility shall be displayed in the UI
Provider Directory	Health & Dental Plan Shopping		
Provider Directory	Health & Dental Plan Shopping	42038	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall maintain a Provider Directory functionality. The provider directory feature will be used to power provider search on Enrollment Portal during Plan Selection.
Provider Directory	Health & Dental Plan Shopping	42039	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the issuer admins to access the provider management functionality from the issuer admin portal
Provider Directory	Health & Dental Plan Shopping	42040	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the admin users to navigate to the provider management file page
Provider Directory	Health & Dental Plan Shopping	42041	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide the issuer admin users the functionality to select the type of data files: 1. Provider 2. Facility
Provider Directory	Health & Dental Plan Shopping	42042	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the issuer admin users to select the file and upload the file into the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system
Provider Directory	Health & Dental Plan Shopping	42043	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the file name when the file is selected by the admin user.
Provider Directory	Health & Dental Plan Shopping	42044	If no file selected, the indicator/message, will be shown to the user.
Provider Directory	Health & Dental Plan Shopping	42045	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display an upload button which will allow user to start the upload process of Provider/Facility files.
Provider Directory	Health & Dental Plan Shopping	42047	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display text error message "file exceeds 100MB" if Provider/Facility file exceeds limit of 100MB
Provider Directory	Health & Dental Plan Shopping	42048	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display text success message if provider/facility file is uploaded successfully
Provider Directory	Health & Dental Plan Shopping	42049	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide the issuer admin the ability to view the provider and facility files that are uploaded in the system

Category	Sub Category	Req ID	Requirement
Provider Directory	Health & Dental Plan Shopping	42050	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display additional details for each uploaded provider/facility files. (Refer child BR's)
Provider Directory	Health & Dental Plan Shopping	42051	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide the file name with the extension
Provider Directory	Health & Dental Plan Shopping	42052	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide the username, with the first name and last name of the user
Provider Directory	Health & Dental Plan Shopping	42053	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall indicate the type of the file uploaded. (Provider File/Facility File)
Provider Directory	Health & Dental Plan Shopping	42054	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display the validation status of the file uploaded
Provider Directory	Health & Dental Plan Shopping	42055	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide the date on which the file(Provider/Facility) was most recently uploaded.
Provider Directory	Health & Dental Plan Shopping	42056	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide the ability to display the link related to the logs
Provider Directory	Health & Dental Plan Shopping	42057	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the users to click on the logs link and download the logs file
Provider Directory	Health & Dental Plan Shopping	42058	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate error logs alongside the reason of error if the following fields are not populated correctly while uploading Provider Facility files in the provider directory.
Provider Directory	Health & Dental Plan Shopping	42059	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Provider Directory error log file shall provide the following details: - Upload Date and Time - File Name - Number of records - Records Passed - Records Failed - Error message for each error
Provider Directory	Health & Dental Plan Shopping	42060	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the users to download the uploaded (Provider/Facility)file
Provider Directory	Shop & Compare		
Provider Directory	Shop & Compare	42046	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display a text error message if file selected does not match the allowed file format.
Provider Directory	Shop & Compare	42065	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) batch shall perform the validation of the file and generate the error logs
Quality Management			
Quality Management	General Requirement		
Quality Management	General Requirement	44243	The Vendor shall establish, implement and update quality management processes that focus on building quality into instead of correcting errors downstream. These processes must address how Services and Deliverables, including Production Releases will: A) Meet defined Requirements, business and performance objectives, and user expectations. B) Be as free of errors as possible and meet all defined Acceptance criteria. C) Meet corresponding metrics must be defined and captured to measure all aspects of quality by phase or key task
Quality Management	General Requirement	44244	The Vendor shall define, implement, and report on a continuous process improvement program to address all phases and key functional areas of the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS). This continuous Process improvement initiative must address how best practices can be identified, applied, and institutionalized.
Quality Management	General Requirement	44245	The Vendor shall describe its approach, expectations, and assumptions for coordinating and working with QA, IV&V and oversight consultants as part of the overall Quality management methodology.
Quality Management	General Requirement	44246	Once California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) is operational, the Vendor shall conduct semi-annual California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) User Satisfaction Surveys; consolidate and report results; make recommendations for changes based on those results; and implement approved recommendations.
Quality Management	General Requirement	44293	The Vendor shall assist the State in preparing Oversight/Stakeholder Reports to provide project information.

Release Management			
Release Management	General Requirement		
Release Management	General Requirement	43762	The Vendor shall be responsible for resolving all identified defects regardless of priority (unless otherwise mutually agreed upon).
Release Management	General Requirement	43763	The Vendor shall provide a monthly Report of outstanding defects.
Release Management	General Requirement	43766	The Vendor shall be responsible for working closely and cooperatively with the Exchange in providing notification of content for each new System release or major feature addition or change, as requested per the Change Request Process. The following notification related to changes to baseline scope would require a change request. Notification includes: A) Job Aids B) Open Office Sessions/Webinars In addition, release Notes are to be provided with each release without a change request.
Release Management	General Requirement	43767	The Vendor must provide a pre-Release Open Office Session/Webinar prior to a major releases, scheduled to a mutally agreeable time.
Renewal			
Renewal	Case Management		
Renewal	Case Management	38956	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall close MAGI Medi-Cal Renewals when there is an open MAGI Medi-Cal Renewal and all MAGI Medi-Cal members are found Ineligible or discontinued.
Renewal	Case Management	38957	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall perform a data fix to close all open Medi-Cal Renewals when the following criteria is met: • The case is in Medi-Cal Renewal mode and there are no: o 'Eligible' MAGI Medi-Cal members, o 'Conditionally Eligible' MAGI Medi-Cal members, or o 'Pending' MAGI Medi-Cal members on the case.
Renewal	Eligibility Determination		
Renewal	Eligibility Determination	38320	The California Healthcare Eligiblity, Enrollment and Retention System (CalHEERS) system shall enable the consent for verification link on the portal home page during Renewal Mode.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

OTSI CalHEERS RFP #73040873 Addendum 1
October 31, 2025

Category	Sub Category	Req ID	Requirement
Renewal	Eligibility Determination	38321	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall evaluate consumers for APTC/CSR eligibility when they are actively renewing during renewal mode and have not explicitly provided consent for verification (i.e. checked the box).
Renewal	Eligibility Determination	38322	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall passively renew cases with multiple enrollments.
Renewal	Eligibility Determination	38823	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall update the fair share adjustment percentage amount for the benefit year 2018.
Renewal	Eligibility Determination	38839	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall continue the carry forward status for the next benefit year during renewals.
Renewal	Eligibility Determination	46472	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall populate the Renewal due date on the consumer home page with Renewal Mode Start Date + configurable number of days when: - the case is moved into Renewal Mode - the system date is still within Renewal Mode Start Date + configurable number of days; AND - NOD12 has not yet been generated
Renewal	Eligibility Determination	46473	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall populate the Renewal due date on the consumer home page with the DROP date for the case when -the case is moved into Renewal Mode - the system date is past the Renewal Mode Start Date + configurable number of days, AND - the NOD12 has not yet been generated
Renewal	Eligibility Determination	46479	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create a new DROP Sweep sub-run reason to stage individuals for Passive Renewals if they transition from MAGI Medi-Cal/MCAP/CCHIP to APTC/CAPS/CSR/CCP in the current year and are auto-plan selected after the case has completed either California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Active or Passive renewals for the remaining HH members regardless of whether Renewal Mode has been closed for the case or not.
Renewal	Eligibility Determination	46481	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the RAC completion date on the Account Home screen to display the Application Expiration Date as the last day of the Renewal period for Renewal Report a Change (RRC) applications when the Account Home screen is accessed after the auto renewal date for the case.
Renewal	Enrollment		
Renewal	Enrollment	38355	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall auto-enroll individuals who are completely Contingent Eligible for all Covered CA Programs (CCP, APTC and CSR).
Renewal	Enrollment	38356	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall attempt to auto-enroll individuals who were eligible for a Silver Cost Sharing plan but are currently enrolled in a non-Cost Sharing plan.
Renewal	Enrollment	38357	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall attempt to auto-enroll individuals who were eligible for a AI/AN Cost Sharing plan but are currently enrolled in a non-Cost Sharing plan.
Renewal	Enrollment	38824	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall update open enrollment period and renewal period for the benefit year 2018.
Renewal	Enrollment	38836	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall pick up consumers in the renewals last batch sweep if at least one member in the household is currently in Enrolled/Pending status.
Renewal	Enrollment	42141	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send a Yes or No response to carriers for the Hispanic, Latino or Spanish origin demographic question
Renewal	Enrollment	42142	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the value for the "Other Hispanic, Latino, or Spanish Origin" in the "PersonEthnicityText" tag in Account Transfer
Renewal	Enrollment	42143	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send "Other Race" in the "PersonRaceText" if the consumer selects "Other" for their race
Renewal	Enrollment	42421	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall run the existing Bronze to Silver Crosswalk BOT process for 2023 renewals.
Renewal	Enrollment	44581	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall passively renew consumers who are enrolled in a Bronze plan into the Silver version of that plan if they qualify for a \$0 net premium for that plan.
Renewal	Enrollment	44582	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall exclude cases with expired consent from the new passive renewal crosswalk process
Renewal	Enrollment	44583	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall excludes cases currently in Carry Forward Status from the new passive renewal crosswalk process
Renewal	Enrollment	44584	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall trigger QHP auto enrollment via BOT process for the new passive renewal crosswalk population if the final QHP premium amount is determined to be \$0. QDP auto enrollment will also be completed if the current QDP plan is available for the next year.
Renewal	Enrollment	44585	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall exclude cases going into Carry Forward Status during the Annual Eligibility Determination from subsequent enrollment into a new Silver Pan via BOT process.
Renewal	Enrollment	44586	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall capture the Pre and Post results with the following attributes via BOT process whenever available: Case #, current/future - QHP Plan Type, QHP Metal Tier, Carrier, Plan Name, current/future – QDP Plan Type, Carrier, Plan Name, User ID, Timestamp
Renewal	Enrollment	44587	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall suppress the Renewals notice (NOD12) from the new passive renewal crosswalk mapping population
Renewal	Enrollment	44588	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send the Eligibility notice (NOD01) with cover letter for the new passive renewal crosswalk mapping population
Renewal	Enrollment	44589	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall suppress the Enrollment notice (NOD69) from the new passive renewal crosswalk mapping population
Renewal	Enrollment	44590	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add a case note indicating that the case was included in the new passive renewal crosswalk process
Renewal	Enrollment	44591	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) case note shall indicate if the bot was successssfully able to renew the enrollment or not
Renewal	Enrollment	46027	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall enroll households that are in the Catastrophic Age Out Passive Renewal fallout populations through BOT enrollment automation processes.
Renewal	Enrollment	46028	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall enroll the aged out member in the bronze metal tier version of the product and carrier as their current plan based on the carrier crosswalk mapping.
Renewal	Enrollment	46029	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall enroll the remaining HH members in the same product and carrier based on their current CMS Plan ID.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Renewal	Enrollment	46030	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add a case note indicating that the case was included in the automated Catastrophic Age Out process that will indicate if the bot was successssfully able to renew the enrollment or not
Renewal	Enrollment	46031	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send the Eligibility notice (NOD01) with cover letter for the new passive renewal crosswalk mapping population
Renewal	Enrollment	46032	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall suppress the Enrollment notice (NOD69) from the new passive renewal crosswalk mapping population
Renewal	Enrollment	46033	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) case note shall indicate if the bot was successssfully able to renew all enrollments in a household or not
Renewal	Enrollment	46036	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall separate over aged dependents from their policyholder's health plan through BOT enrollment automation processes.
Renewal	Enrollment	46037	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall enroll any over aged dependent in the same product, carrier and metal tier as their current plan (plan that the household is enrolled in for the upcoming benefit year) based on their current plan's CMS Plan ID.
Renewal	Enrollment	46038	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall enroll each over aged dependent (identified in the over aged dependent population provided by CCA) in a household into separate enrollment plans.
Renewal	Enrollment	46039	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall only separate over aged dependents through the BOT enrollment automation process if renewals for the upcoming benefit year have been completed for the household.
Renewal	Enrollment	46040	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add a case note indicating that the case was included in the automated Over Aged Dependent process that will indicate if the bot was successssfully able to update the enrollment or not
Renewal	Enrollment	46482	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall custom group Medicare recipients in their own enrollment group during Passive Renewals for the next benefit year.
Renewal	Enrollment	46483	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall enroll the Medicare recipients in the same product, carrier and metal tier as their current plan, if it is still available for the next benefit year.
Renewal	Enrollment	46484	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall enroll the remaining eligible HH members into an appropriate crosswalk plan for the next benefit year.
Renewal	Enrollment	46485	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall auto-enroll individuals transitioning from MAGI Medi-Cal/MCAP/CCHIP to APTC/CSR/CAPS/CCP Eligibility when eligibility is determined manually via Active renewals but plan selection is not complete.
Renewal	Enrollment	46486	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall passively renew all eligible HH members who are enrolled in a Qualifying Health Plan (QHP) which is in pending or confirmed status in their same plan, or cross walked plan, if they have not actively renewed or opted out of renewals before the passive renewal job processes the case
Renewal	Enrollment	46487	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall passively renew all eligible HH members who are enrolled in a Qualifying Dental Plan (QDP) which is in pending or confirmed status in their same plan, or cross walked plan, if they have not actively renewed before the passive renewal job processes the case
Renewal	General Requirement		
Renewal	General Requirement	38339	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide for the functionality to map plans which have been assigned a new plan ID from one benefit year to another. (Note: This requirement applies to CCP/APTC/CSR programs only)
Renewal	Notices		
Renewal	Notices	38359	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall update content of NOD11 and generate updated NOD11 by mid-August.
Renewal	Notices	38360	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall generate the updated NOD11 (combined) regardless of NOD11a or NOD11b triggers.
Renewal	Notices	38361	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall generate Babel page for the English version only.
Renewal	Notices	39877	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall discontinue NOD12B and NOD12C.
Renewal	Notices	39878	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send NOD12A to all the recipients who originally received the NOD12A, NOD12B or NOD12C.
Renewal	Notices	39886	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall make language updates to NOD12A.
Renewal	Notices	39887	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall make language updates to NOD12D.
Renewal	Notices	42426	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to issue notice to qualified individuals who are up for annual eligibility redetermination to inform them that their consent for verification is required if they did not provide consent on their initial application (Consent for Verification = 0 years).
Renewal	Renewal		
Renewal	Renewal	38192	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall determine if an individual qualifies for the CCP/APTC/CSR redetermination process by checking whether the individual was eligible or conditional eligible for CCP/APTC/CSR during the previous benefit year.
Renewal	Renewal	38193	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall run redetermination but not attempt to auto-enroll a CCP/APTC/CSR qualified individual who never selected a health plan during the previous benefit year.
Renewal	Renewal	38194	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall soft pause a MAGI Medi-Cal consumer who meet the soft pause criteria when the consumer is not eligible for MAGI Medi-Cal or MAGI Medi-Cal Consumer Protection Programs during the MAGI Medi-Cal Renewals process.
Renewal	Renewal	38195	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall create an indicator to identify soft-paused consumers who are being sent to SAWS for Non-MAGI evaluation when consumer is not eligible for MAGI Medi-Cal and MAGI Consumer Protection Programs during the MAGI Medi-Cal Renewals process
Renewal	Renewal	38196	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall transfer eligibility reasons to SAWS when status is ineligible or soft pause.

Category	Sub Category	Req ID	Requirement
Renewal	Renewal	38210	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall modify the Plan Selection page to indicate the consumer's current plan as the consumer shops for different plans. [Placeholder: Checking with GI on feasibility of solution] (Note: This applies to CCP only as plan enrollment is not available online for Medi-Cal).
Renewal	Renewal	38211	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall finalize the projected eligibility resultsfor CCP/APTC/CSR consumers only after 33 days have past or authorization has been received by the individual.
Renewal	Renewal	38214	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall modify the Preview Plans functionality to allow consumers to select which benefit year to apply to the search criteria.
Renewal	Renewal	38217	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall calculate & display CSR changes on the Enrollment Summary page. [Placeholder: Checking with GI on feasibility of solution]
Renewal	Renewal	38324	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall close Exchange Renewal Mode for enrollment after December 15th for all enrollments.
Renewal	Renewal	38342	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the fair share adjustment percentage amount for the benefit year 2020.
Renewal	Renewal	38377	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall provide the functionality to send maintenance transactions to notify Issuer of changes to the plan ID. (Note: This requirement applies to CCP/APTC/CSR programs only)
Renewal	Renewal	38821	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall populate the Renewal due date on the consumer home page with the 30th day after the Renewal Mode start date when the case is moved into Renewal Mode and the NOD12 has not yet been generated.
Renewal	Renewal	38822	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall display a default value of 12/15 of the current benefit year as the renewal due date if the System date is past the 30th day after the Renewal mode start date and the NOD12 has not yet been generated.
Renewal	Renewal	38835	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall hold HX20 ESAC-1, HX20 ESAC-2, HX12, HX05, and HX40 MEDS transactions for renewals future benefit year and release the transactions when MEDS can process the transaction.
Renewal	Renewal	39549	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall populate the Renewal Prep Batch tables with enrollment data from GI.
Renewal	Renewal	39554	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall specify the previous calendar year (or years) when requesting SSA yearly income from the Renewal and Re-Determination Verification (RRV).
Renewal	Renewal	39832	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display Voter Registration Page during Active Renewal.
Renewal	Renewal	40351	Medi-Cal – Redeterminations (RVs) 1, 5 report • Total number of MAGI RVs done automatically via electronic periodic verification. • The total monthly number of MAGI and non-MAGI cases each county is case managing.
Renewal	Renewal	40352	CCP/APTC/CSR Reports - TBD
Renewal	Renewal	43792	The IVR system shall direct calls to the appropriate renewals work queue [To be confirmed] (Note: This requirement applies to CCP/APTC/CSR programs only)
Reporting			
Reporting	Eligibility Determination		
Reporting	Eligibility Determination	39593	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall enable CovCA the ability to report on New and Current consumers Eligibility and Enrollment for the California Premium Subsidy.
Reporting	Eligibility Determination	39594	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall enable CovCA the ability to report on current consumers historical California Premium Subsidy eligibility and enrollment.
Reporting	Eligibility Determination	40438	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create an on-going report of all review and authorization transactions at the case level.
Reporting	Eligibility Determination	40657	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) data warehouse shall include a flag which will indicate eligibility runs in which exchange FPL has been overridden due to unemployment income in the benefit year.
Reporting	Eligibility Determination	40658	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) data warehouse shall include the overridden APTC household FPL when the FPL is overridden due to unemployment income in the benefit year.
Reporting	Eligibility Determination	40659	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) data warehouse shall include UI overwrite eligibility overridden FPL and overridden flag in any reporting that contains eligibility attributes (i.e., OBIEE – Subject Areas).
Reporting	Enrollment		
Reporting	Enrollment	38186	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system will generate a report of transactions performed by manual override.
Reporting	Enrollment	38363	Provide consultation to support Data Integrity Analysis team in the documentation of business requirements and process instructions for the BI team.
Reporting	Enrollment	38364	Provide consultation and technical assistance on data analysis and methodology.
Reporting	Enrollment	38365	Provide support in the evaluation and analysis of data and system issues.
Reporting	Enrollment	38366	Support code and data fixes after prioritized by the Data Integrity Analysis team (REM).
Reporting	Enrollment	38367	Manage the form and structure for the enrollment audit file exchanged with carriers. Includes modifying the audit file as needed to support effective matching for enrollment reconciliation. Provide documentation for carriers and Covered California for interpretation and utilization of the audit file.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Reporting	Enrollment	38368	Provide design support and generation of reports for enrollment and tax data integrity sampling.
Reporting	Enrollment	38369	Provide design support and generation of reports to compare CMS reported data to findings in the Data Integrity Analysis activity.
Reporting	Enrollment	38370	Provide consultation and technical assistance in support of 834 carrier transaction creation and potential file splits in support of yearly enrollment transactions.
Reporting	Enrollment	38371	Provide analysis, design support and generation of reports for the renewal population.
Reporting	Enrollment	38372	Provide consultation and technical assistance in support of the CMS interim payment report and the reconciliation of CMS/carrier payments for 2016.
Reporting	Enrollment	38373	Generate enrollment flat file to send to carriers for alternative EDI processing. Process the response files to effectuate coverage as necessary)
Reporting	Enrollment	38378	Provide 1095 companion extracts to support analysis against carrier 1095 files.
Reporting	Enrollment	38379	Design, perform and test data fixes resulting from carrier reconciliation as necessary.
Reporting	Enrollment	38380	Continue to provide a production loaded test environment that includes both HBEX and GI data to support testing of data fixes prior to deployment.
Reporting	Enrollment	44518	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send the State Subsidy amount in the Oth Pay 1 field on the PBP report
Reporting	General Requirement		
Reporting	General Requirement	38093	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall update the existing MCAP report to account for the two new Aid Codes (0G and 0E).
Reporting	General Requirement	38396	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall store and provide ad hoc access to the Consent to Receive text messages and calls indicator and Date of Consent to the data warehouse.
Reporting	General Requirement	38538	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system will generate a report of the batch that includes the following data fields: 1) [Outreach Template Fields], 2) The prior household income - subsidy verification status, and 3) The post household income - subsidy verification status.
Reporting	General Requirement	38935	Collaborate on improvements and enhancements to the data warehouse, including design, build and deploy “new” functions, features, and data (See Attachment A for a current list of planned enhancements - do we need this?).
Reporting	General Requirement	38936	New Enhancements to the data warehouse shall achieve a data quality level of 99% or greater compared to source systems. This requirement will include data quality in all underlying layers of the data warehouse to include but not limited to: "DM Layer", ODS, and any other underlying data.
Reporting	General Requirement	38937	Participate in and conduct impact assessments of other Change Requests (CRs). With approval from the state resources would be charged to another CR. Track, assess and provide recommendations about reporting solutions for every upcoming CR in time to be considered in that CRs JAD. Additionally, any modifications to the data warehouse data structure, data quality, or user interface as an effect of other CRs, with approval, should be charged to the "originating" CR.
Reporting	General Requirement	38938	Update system documentation upon changes to baselines, which includes (e.g. ERD, Source to target mapping, Functional Design Documents).
Reporting	General Requirement	38939	ALL work conducted under this CR for ad-hoc report development, and including work packages and data model investigations, shall be documented in an appropriate and comprehensive way that will be approved by sponsors. Findings and design concepts shall be compiled and made available for future California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) data users in an efficient and appropriate manner.
Reporting	General Requirement	38940	Consider implementing every solution/work product as a part of this CR using Oracle Data Warehouse and Business Intelligence Best Practices in the design of all current and future changes and enhancements. All reports must be designed to use OBIEE except where not applicable. Where OBIEE is not applicable provide plans/feedback on how to integrate report into OBIEE.
Reporting	General Requirement	38941	Where reporting support is deemed not M&O by Accenture/California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) and as approved by Executive management, this CR may be utilized to authorize work as required.
Reporting	General Requirement	38942	Assist data warehouse and analytic users in refining queries and improving SQL ,OBIEE XMLs and other query scripts to achieve their desired analytic output; relay data model and SQL/ XML expertise; develop queries and extracts to support business operational needs that may require pulling data from source systems; perform issue resolution; respond to questions and concerns from users, and as appropriate indicate when issues should be reported formally by users (i.e., submitting ticket). Provide functional design documents -- and all final code scripts -- for all extracts developed by the Ad Hoc Reporting team at a level of detail that any new resources not originally involved with the effort can reproduce the result.
Reporting	General Requirement	38943	Provide 0.5 FTE per day, at a minimum - when needed, to responding to operational inquiries and issues that materialize throughout the day and assist Covered California and DHCS with troubleshooting and issue resolution. (batphone)
Reporting	General Requirement	38944	Provide technical support, subject matter expertise guidance, and development support for Covered California defined activities as "embedded staff." These "embedded staff" FTEs will work alongside exchange staff to refine knowledge transfer and assist in the development and improvement of reporting development, query development, data warehouse data structure issues, extract development, and other duties as defined by Covered California. Work products for embedded FTE will be more informal and not subject to the same requirements as formal work packages under this CR to increase efficiency. However, "embedded staff" may be requested to do similar activities, including ad-hoc query design, data and defect investigation, analytics, visualizations, documentation (including sharing of scripts). If staff other than the assigned "embedded staff" are relied on to assist the embedded staff and billed against the hours allotted to the FTE, their time shall be tracked specifically on a weekly basis.

Category	Sub Category	Req ID	Requirement
Reporting	General Requirement	38945	Generate the reports and extracts as identified in the report and extract inventories (See attachment B) where the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) state team delegates and has not operationalized. As new reports and extracts are identified, the Reporting team must work with users to identify the data requirements and update the report or extract inventory to reflect the new item. This includes preparing for operational cycles by revisiting the prior year's reports and making modifications for the new year, as appropriate. Reporting and extract requirements are generally categorized as: • Renewal reports • Program transition population reports • Open Enrollment reports • 1095 reporting • Marketing and Outreach (i.e., assisters, delegates, service channels) • CMS reporting and CMS performance stats (i.e., average concurrent users, unique visits, etc.) • Service Center Tracker • Batch fallout support • Carrier renewal reconciliation file • ROP Reporting: Automatically discontinue members after 90 days • Truven data file Additionally provide functional design documents in accordance with requirement XXX and provide suggestions/designs/plans for transitioning reports, where appropriate and feasible, to the data warehouse - including any related XML, SQL, or other query language.
Reporting	General Requirement	38946	Provide data warehouse and analytic users training and knowledge transfer on the data model, OBIEE, and BI Publisher. The Reporting team must also share copies of the final XML/SQL with Covered California and DHCS. The final copies of the XML/SQL must be added to the Projects Reports Library and be updated as necessary as changes to the data warehouse are made and charged appropriately to other CRs when and where applicable.
Reporting	General Requirement	38947	Provide weekly and monthly rollup of reporting of task assignments, issues or risks, and status. • Communicate estimates to complete new tasks, to include: task identifier, complexity, release target date, hour or resource estimates, target start and complete dates • Participate in prioritization activities with Covered California and DHCS that provide greater clarity on resource task assignments and levels of effort for current and pending work to facilitate improved understanding and communication of the ongoing work effort. • Conduct a weekly meeting with Covered California and DHCS reporting teams to review pipeline activities and statuses • Provide regular communication to Covered California's designated resource(s), to include the following: • Weekly hour and task status report for work performed • Weekly hour and task forecast report for tasks and resource allocation • Risks or issues with existing workload, such as out of office status of key resources, new requests that need prioritization with existing workload, defects identified that require resolution, ETL or other system issues impacting reporting or extract generation, release or priority release issues • Attend weekly CR Project Sponsor meetings • Ongoing communication of Reporting team service requests that impact ability to perform tasks identified in this CR
Reporting	General Requirement	38961	Where data warehouse and reporting support is deemed not M&O by Accenture/California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) and as approved by Sponsor Executive management, this CR may be utilized to authorize work as required.
Reporting	General Requirement	38962	Assist (Sponsor) data warehouse and analytic users in refining queries and improving XMLs to achieve their desired analytic output; relay data model and XML expertise; develop queries and extracts to support business operational needs that may require pulling data from source systems or Disaster Recovery system; perform issue resolution; respond to questions and concerns from users, and as appropriate indicate when issues should be reported formally by users (i.e., submitting ticket).
Reporting	General Requirement	38963	Generate the reports and extracts as identified in the report and extract inventories where the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) state team delegates and has not operationalized. As new reports and extracts are identified, the Reporting team must work with users to identify the data requirements and update the report or extract inventory to reflect the new item.
Reporting	General Requirement	38964	Work packages will be used to identify the scope of tasks, anticipated levels of efforts, and preliminary timelines, which upon approval will be reflected in the project schedule. Work will not begin until each workpage is approved. • The CR will have overall time, cost and scope defined • Work Packages will be done using a flow approach (as detailed work is defined, a Work Package will be drafted) • Work Packages will include a schedule, FTE hours needed and description of the expected results of the effort (artifact) • No work can be billed to the CR without an approved Work Package • The burn rate for time and cost will be tracked as Work Packages are completed • A standing meeting will be used to review / approve Work Packages
Reporting	General Requirement	38965	Prioritized work packages (ad hoc queries, one-time use, etc.) will be defined via a standard template which includes the scope of work effort (easy, moderate, difficult) and priority to facilitate expediting approval processes based on the client's priorities.
Reporting	General Requirement	39014	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall retire the following reports from the Post Prep or Post Eligibility Batch: • Report 7 • Report 5 • Report 14 • Report 12

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Reporting	General Requirement	39015	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall retire the following reports from the Post Enrollment Batch: • Report 10 • Report 11 • Report 12 • Carrier Response File Processing
Reporting			The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall provide a new report based on custom group cases that: • Are excluded from passive enrollment when an active renewal has started, • Custom grouping has been changed, and • Plan selection is completed for at least one of the groups.
Reporting	General Requirement	39017	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall provide a new report based on cases that continue carry forward status for next benefit year.
Reporting	General Requirement	39018	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall provide a new report based on cases where the QHP/QDP is not available in the rating region.
Reporting	General Requirement	39019	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall define and develop end-user documentation for the annual Renewals reports.
Reporting	General Requirement	39020	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall define and document a generation cycle for each Renewal Report.
Reporting	General Requirement	39117	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall remove the "Optional" text from all fields on the immigration document data collection page.
Reporting	General Requirement	39138	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall store the Carrier dispute information provided by CMS on a monthly basis
Reporting	General Requirement	39139	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall compare the dispute file records against any records which should be excluded from data matching due to the following: Pending Appeals Resolved Appeals Not Updated in Carrier System Pending Defect Data Fix Pending Litigation
Reporting			
Reporting	General Requirement	39140	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall uniquely flag the dispute records as excluded from further processing
Reporting	General Requirement	39141	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall take no further action on the dispute records flagged for no further processing
Reporting	General Requirement	39142	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall compare the dispute file records against the current database to determine if the data discrepancy has been resolved
Reporting			
Reporting	General Requirement	39144	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall uniquely flag any dispute record which is found to match the database data in all aspects
Reporting	General Requirement	39145	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall take no further action on dispute records flagged as data matched.
Reporting	General Requirement	39146	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall uniquely flag any dispute record which is found to have a data discrepancy
Reporting	General Requirement	39147	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall conduct a final review of all unresolved dispute records to determine the cause of the inconsistency. Possible cause would be: - Defect - Proration differences (won't make a correction) - PCR error - Operationally introduced error (includes APTC differences) - Incorrect data
Reporting			
Reporting	General Requirement	39148	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall uniquely flag any discrepancies associated to partial month enrollments
Reporting	General Requirement	39149	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall uniquely flag any discrepancies associated to defects and move them to the excluded list
Reporting	General Requirement	39150	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall uniquely flag and discrepancies associated to PCR errors and move them to the excluded list
Reporting	General Requirement	39151	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall uniquely flag any discrepancies associated to Operationally Introduced Errors and move them to the excluded list
Reporting			
Reporting	General Requirement	39152	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall uniquely flag discrepancies associated to Incorrect Data
Reporting	General Requirement	39153	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall route a response file of all the records with incorrect data to COVCA for Issuer coordination
Reporting	General Requirement	39154	COVCA shall route a response file back to California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) with any dispute records uniquely flagged as a denial as a result of the coordinated research
Reporting			
Reporting	General Requirement	39155	COVCA shall route a response file back to California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) with any dispute records uniquely flagged as a resolved as a result of the coordinated research
Reporting			
Reporting	General Requirement	39156	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the uniquely identified research flag based on the COVCA file
Reporting	General Requirement	39157	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall run a secondary data match on all excluded items to verify if a resolution has been reached
Reporting	General Requirement	39158	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send a response file to the Issuers with a resolution status of each dispute record
Reporting	General Requirement	39218	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall parse the SBMI file into individual carrier files.
Reporting	General Requirement	39219	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send each carrier a copy of their SBMI file each month
Reporting	General Requirement	39220	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send the carrier SBMI files via SFTP.
Reporting	General Requirement	39221	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send a copy of all files transmitted to and from CMS to COVCA via SFTP.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Reporting	General Requirement	39285	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall assess Digital Analytics Maturity & Develop Roadmap.
Reporting	General Requirement	39286	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall outline Website Measurement Requirements.
Reporting	General Requirement	39287	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall develop Digital Analytics Measurement & Reporting Strategy.
Reporting	General Requirement	39339	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement Data Layer and more advanced digital analytics tracking.
Reporting	General Requirement	39340	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall develop foundational Digital Analytics Operating Model.
Reporting	General Requirement	39341	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall combine Digital Analytics Data with additional data sources (e.g. enrollment data).
Reporting	General Requirement	40601	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall report on failure to upload due to malware or virus.
Reporting	General Requirement	41338	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall track and persist the below data elements: -Track the transitioning individuals who are auto-plan selected for a given coverage year -Differentiate between consumers who are added to a new enrollment or existing enrollment -Track the Opt In/Opt Out/Opt In No Response decision, Opt Out reason (optional), and timestamp of the attestation provided by the consumer, Opt In/Opt Out source, user role -Track the consumers landing to California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) from the microsite regardless of log in status -Track if the consumer changed their plan after auto-plan selection based on the duration of the SEP window -Track the delegate assignment -Track the auto-plan selection details at an individual level and per transition (If one person in a household transitions and another person transitions, this should be trackable. If a person transitions multiple times.)
Reporting	General Requirement	41391	CalHEERs shall create a new aging report to be developed at the end of each recon cycle that will capture all cases that are “N” as Attestation Indicator but are requesting to be reinstated from carriers.
Reporting	General Requirement	41409	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add encrypted 'PendingAppID' to Google Analytics Data Layer when new Pending App ID is generated.
Reporting	General Requirement	41410	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add 'Coverage year' to Google Analytics Data Layer.
Reporting	General Requirement	41594	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall persist the same UserRole, captured at the time of first log in, on Google Analytics Data Layer across HBX pages accessed throughout the session
Reporting	General Requirement	41597	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall persist the same UserDetailedRole, captured at the time of first log in, on Google Analytics Data Layer across HBX pages accessed throughout the session
Reporting	General Requirement	42964	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall include LRS transactions in the existing LEADER SAWS traffic and error monitoring reports.
Reporting	General Requirement	42965	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall differentiate LRS and LEADER transactions in the Los Angeles County traffic and error monitoring reports.
Reporting	General Requirement	42966	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall track LRS transactions in operational reporting.
Reporting	General Requirement	44497	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall limit the number of EDD requests made to the Income Services Verification to no more than one per day per person.
Reporting	General Requirement	44512	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall maintain two infrastructures for the 2019 and 2020 enrollment years.
Reporting	General Requirement	44513	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall update the Go Back file to include the State Subsidy amounts.
Reporting	General Requirement	44514	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall update the Carrier response Script (Python).
Reporting	General Requirement	44515	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall update the Carrier file action.
Reporting	General Requirement	44516	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall change the 'LAST_PREMIUM_PAID_DATE' field name to 'PREMIUM_PAID_THROUGH_DATE'.
Reporting	General Requirement	44525	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall utilize the Renewal Batch Job to perform an Eligibility Simulation for the State Subsidy Program
Reporting	General Requirement	45088	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system SAWS EHIT Traffic Report shall contain all message types and statuses.
Reporting	General Requirement	45089	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system SAWS EHIT Error Report shall contain all message types and statuses of ERROR and CANCELLED.
Reporting	General Requirement	45090	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall exchange the SAWS EHIT Traffic Reports with the SAWS over SFTP.
Reporting	General Requirement	45091	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall encrypt the SAWS EHIT Traffic Reports using the SAWS PGP public key.
Reporting	General Requirement	45092	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system SAWS EHIT Traffic Reports reflect the status of the traffic at the time of generation.
Reporting	General Requirement	45093	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system SAWS EHIT Traffic Reports shall reflect the traffic for the period of a day.
Reporting	General Requirement	45104	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall generate the daily report extracts in Comma Separated Value (CSV) format.
Reporting	General Requirement	45123	Collaborate on improvements and enhancements to the data warehouse, including design, build and deploy “new” functions, features, and data (See Attachment A for a current list of planned enhancements).
Reporting	General Requirement	45124	New Enhancements to the data warehouse shall achieve a data quality level of 99% or greater compared to source systems.
Reporting	General Requirement	45125	Participate in and conduct impact assessments of other Change Requests (CRs). With approval from the state resources would be charged to another CR.
Reporting	General Requirement	45126	Update system documentation upon changes to baselines, which includes (e.g. ERD, Source to target mapping, Functional Design Documents).
Reporting	General Requirement	45127	Conform to Sponsors Security Policies to ensure that all state security policy, standards, and guidelines are adhered to.
Reporting	General Requirement	45128	Implement every solution/work product as a part of this CR using Oracle Data Warehouse and Business Intelligence Best Practices in the design of all current and future changes and enhancements. All reports must be designed to use OBIEE except where not applicable.

Category	Sub Category	Req ID	Requirement
Reporting	General Requirement	45129	Where reporting support is deemed not M&O by Accenture/California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) and as approved by Executive management, this CR may be utilized to authorize work as required.
Reporting	General Requirement	45130	Assist data warehouse and analytic users in refining queries and improving XMLs to achieve their desired analytic output; relay data model and XML expertise; develop queries and extracts to support business operational needs that may require pulling data from source systems; perform issue resolution; respond to questions and concerns from users, and as appropriate indicate when issues should be reported formally by users (i.e., submitting ticket).
Reporting	General Requirement	45131	Provide 0.5 FTE per day, at a minimum, to responding to operational inquiries and issues that materialize throughout the day and assist Covered California and DHCS with troubleshooting and issue resolution. (batphone)
Reporting	General Requirement	45132	Provide data warehouse and analytic users training and knowledge transfer on the data model, OBIEE, and BI Publisher. The Reporting team must also share copies of the final XML/SQL with Covered California and DHCS. The final copies of the XML/SQL must be added to the Projects Reports Library.
Reporting	General Requirement	45133	"Provide weekly and monthly rollup of reporting of task assignments, issues or risks, and status. • Communicate estimates to complete new tasks, to include: task identifier, complexity, release target date, hour or resource estimates, target start and complete dates • Participate in prioritization activities with Covered California and DHCS that provide greater clarity on resource task assignments and levels of effort for current and pending work to facilitate improved understanding and communication of the ongoing work effort. • Conduct a weekly meeting with Covered California and DHCS reporting teams to review pipeline activities and statuses • Provide regular communication to Covered California's designated resource(s), to include the following: • Weekly hour and task status report for work performed • Weekly hour and task forecast report for tasks and resource allocation • Risks or issues with existing workload, such as out of office status of key resources, new requests that need prioritization with existing workload, defects identified that require resolution, ETL or other system issues impacting reporting or extract generation, release or priority release issues • Attend weekly CR Project Sponsor meetings • Ongoing communication of Reporting team service requests that impact ability to perform tasks identified in this CR"
Reporting	General Requirement	45134	Covered California may require assistance from the Reporting team when Covered California initiates the CRM Project. Support services will be detailed and approved in a Work Package format.
Reporting	General Requirement	45135	"Work packages will be used to identify the scope of tasks, anticipated levels of efforts, and preliminary timelines, which upon approval will be reflected in the Reports Management sub-project schedule. Work will not begin until each work package is approved. • The Work Package will have overall time, cost and scope defined • Work Packages will be done using a flow approach (as detailed work is defined, a Work Package will be drafted) • Work Packages will include a schedule, FTE hours needed and description of the expected results of the effort (artifact) • No work can be billed to the CR without an approved Work Package • The burn rate for time and cost will be tracked as Work Packages are completed • A standing meeting will be used to review / approve Work Packages"
Reporting	General Requirement	45137	"Generate the reports and extracts as identified in the report and extract inventories (See attachment B) where the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) state team delegates and has not operationalized. As new reports and extracts are identified, the Reporting team must work with users to identify the data requirements and update the report or extract inventory to reflect the new item. This includes preparing for operational cycles by revisiting the prior year's reports and making modifications for the new year, as appropriate. Reporting and extract requirements are generally categorized as: • Renewal reports • Program transition population reports • Open Enrollment reports • 1095 reporting • Marketing and Outreach (i.e., assisters, delegates, service channels) • CMS reporting and CMS performance stats (i.e., average concurrent users, unique visits, etc.) • Service Center Tracker • Batch fallout support • Carrier renewal reconciliation file • ROP Reporting: Automatically discontinue members after 90 days • Truven data file "
Reporting	General Requirement	45148	Work packages (ad hoc queries, one-time use, etc.) will be used and defined via a standard template which includes the scope of work effort (easy, moderate, difficult) and priority to facilitate expediting approval processes based on the business priorities.
Reporting	General Requirement	45170	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) must conform to State Administrative Manual §§5300-5350 to ensure that all state security policy, standards, and guidelines are adhered to.
Reporting	General Requirement	46554	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall be able to differentiate between Accelerated Enrollment granted between SAWS and California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Access Channels.
Reporting	General Requirement	46555	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add the access channel to the Medi-Cal Backlog report for consumers granted Accelerated Enrollment aid code 8E.
Reporting	General Requirement	47893	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create a new Google Analytic tag for the updated Health Preference Page to capture data
Reporting	Interfaces		

Category	Sub Category	Req ID	Requirement
Reporting	Interfaces	42621	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall report to CMS each member's 2014 enrollment(s) using the same IRS 1095 format with the exception of adding the Exchange member's 16 character QHP Identifier. This report shall be a separately named file and be produced through 2015 until all 2014 enrollments have been reconciled.
Reporting	Maintain Operational Data		
Reporting	Maintain Operational Data	38433	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) SAWS shall implement a periodic report based on the business validation rejection occurrences logged from the mismatch occurrences.
Reporting	Notices		
Reporting	Notices	40013	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall store an image of all notices and correspondences sent.
Reporting	Notices	40017	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide notices to individuals in their preferred written language and their preferred communication channel (within the guideline threshold languages.)
Reporting	Notices	40044	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide all notices in a manner or format that complies with all State and federal disability laws, including the ADA and Section 504 of the Rehabilitation Act, including any reasonable accommodations necessary
Reporting	Notices	40068	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide a written notice of eligibility redetermination to the eligible individual.
Reporting	Notices	40069	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to provide notices or correspondence in writing as specified by State and federal regulations.
Reporting	Notices	40114	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide functionality to prepare a notice to CMS Federal Data Hub with a minimum dataset of information regarding an individual's disenrollment from a qualified health plan through the Exchange.
Reporting	Notices	40115	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide functionality to send an electronic, real-time or batch transmission of information necessary for the qualified health plan issuer to provide a welcome package and identification card to the individual.
Reporting	Notices	40120	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide functionality to notify CMS Federal Data Hub regarding reconciled periodic enrollment information. This information is used to generate payments to qualified health plan issuers for advance premium tax credits and cost-sharing reductions, as well as for performance measurement and tax administration, as applicable.
Reporting	Notices	40153	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide written notices to the consumers in their preferred written language.
Reporting	Notices	40203	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide functionality to retain each notice in the completed format so the exact version sent to the recipient can be viewed and reproduced.
Reporting	Notices	40204	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide functionality to retain history and viewing capability of all sent notices. This includes the ability to designate notices which are kept indefinitely as a permanent part of the case record and will not be purged (e.g. - notices related to claims).
Reporting	Notices	40205	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall notify applicants of eligibility denial due to incomplete and/or unverifiable application information.
Reporting	Notices	44564	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall notify applicants of their eligibility determination/redetermination and the information used for determining their eligibility.
Reporting	Other Non-Health Services		
Reporting	Other Non-Health Services	39963	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall allow the Google Analytics user to capture the correct UserID for those logging in the "Admin" pages (e.g., "Search Case by --- " pages) so (s)he can analyze how many different users touch one application .
Reporting	Other Non-Health Services	39964	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall allow the Google Analytics user to track the "UserRole" DL variable, so (s)he can analyze how different personas use the application.
Reporting	Other Non-Health Services	39965	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall allow the Google Analytics user to track the location/position of the plan selected/added to cart from Shop-and-Compare (S&C) so (s)he can analyze how consumer select a plan
Reporting	REM		
Reporting	REM	48032	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create a new aging report to be developed at the end of each recon cycle that will capture all cases that are "N" and "O" as Attestation Indicator but are requesting to be reinstated from carriers.
Reporting	REM	48237	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the REM process as needed to account for changes to the weekly reconciliation file.
Reporting	REM	48238	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall reject the initial Response file and Go-Back Response file from the Carrier if there are any columns with SOGI information as part of the Reconciliation of Enrollment and Membership process.
Reporting	Reports		
Reporting	Reports	37907	"California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall build and execute summary reports of the population that is associated with a non-tax filing status as indicated by the 007 data element from the IRS. Said reports should be executed monthly. The report will include the following elements: - Benefit Year - Count (total) - Count of new 007 in last 30, 60, and 90 days - Count of cleared in the last 30 days by change in data from IRS and from attestation (separately)."
Reporting	Reports	37981	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not generate a 1095-A correction (NOD62B), for a given Marketplace Assigned Policy ID, after an original 1095-A (NOD62A) has been generated when there is only a change of enrollment status, the benefit end date(s) remain the same, and there are no changes to demographic or enrollment / household information.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

OTSI CalHEERS RFP #73040873 Addendum 1
October 31, 2025

Category	Sub Category	Req ID	Requirement
Reporting	Reports	38261	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate an extract report for the following consumers that were discontinued through the reasonable opportunity expiration process: The subscriber who was also disenrolled from their existing enrollment. All members of the plan who were also disenrolled from their existing enrollment. Dependent(s) but who were not disenrolled from their existing enrollment.
Reporting	Reports	38262	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the existing conditional eligibility extract to include the earliest ROP Expiration date applicable for a household, the earliest ROP expiration date for each verification type, and a flag if the consumer is currently in a Carry Forward Status.
Reporting	Reports	38272	"alHEERS shall enable listing of all APTC/CSR/CCP conditional eligible individuals with active/pending enrollments via Datawarehouse to include the following fields. AHBX Case ID, Individual ID, First Name, Middle Name, Last Name, Date of Birth, Coverage Start Date, Enrollment Status, Carrier Name, Carrier HIOS ID, Individual Residence County, Individual Residence Zip Code, Individual Preferred Written Language, Individual Preferred Spoken Language, US Citizen National Flag (Yes/No), Attested Subsidy FPL %, CCP Aid Code, Last Eligibility Determination Submission Date, Household Primary Contact's First Name, Household Primary Contact's Middle Name, Household Primary Contact's Last Name, Household Primary Contact's Email ID, Household Primary Contact's Preferred Written Language, Household Primary Contact's Preferred Spoken Language, Household Primary Contact's Mailing Address Line 1, Household Primary Contact's Mailing Address Line 2, Household Primary Contact's Mailing City, Household Primary Contact's Mailing State, Household Primary Contact's Mailing Zip Code, Subsidy Income Verification Status, Subsidy Income Document Upload status, Subsidy Income Reasonable Opportunity Expiration Date, Incarceration Verification Status, Incarceration Document Upload Status, Incarceration Reasonable Opportunity Expiration Date, California Residency Verification Status, California Residency Document Upload Status, California Residency Reasonable Opportunity Expiration Date, Deceased Verification Status, Deceased Document Upload Status, Deceased Reasonable Opportunity Expiration Date, SSN Verification Status, SSN Document Upload Status, SSN Reasonable Opportunity Expiration Date, Immigration Verification Status, Immigration Document Upload Status, Immigration Reasonable Opportunity Expiration Date, Citizenship Verification Status, Citizenship Document Upload Status, Citizenship Reasonable Opportunity Expiration Date, Minimum Essential Coverage Verification Status, Minimum Essential Coverage Document Upload Status, Minimum Essential Coverage Reasonable Opportunity Expiration Date, American Indian/Alaskan Native Verification Status, American Indian/Alaskan Native Document Upload Status, American Indian/Alaskan Native Reasonable Opportunity Expiration Date, Application Submitter/Service Channel, Agent License Number, Gender, Medi-Cal FPL, Mixed Household, Incarceration Error Code, SSN Error Code, Citizen Error Code, American Indian Upload Date, Lawful Presence, Lawful Presence Upload Date, Lawful Presence Error Code, Five Year Bar Met, Five Year Bar Met Upload Date, Five Year Bar Error Code, Five Year Bar Indicator, Five Year Bar Indicator Upload Date, Five Year Bar Indicator Error Code
Reporting	Reports	38375	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality for a consumer to opt out of Exchange coverage and provide the reasons for opting out.
Reporting	Reports	38376	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall add the opt-out reasons to the Data Warehouse.
Reporting	Reports	38540	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall add the opt-out reasons to the Data Warehouse.
Reporting	Reports	39659	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall store all request and response VLP data elements returned from the VLP service in the data warehouse for sponsors to retrieve the data when needed.
Reporting	Reports	39660	Monthly Report for No Call Reasons (This report should only pull for individuals who are eligible for Covered CA)
Reporting	Reports	39661	Monthly Report for error responses (DHS errors, Hub errors and California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) internal system errors. This report should only pull for individuals who are eligible for Covered CA)
Reporting	Reports	39662	Monthly Extract of VLP calls showing response codes from all three steps, as appropriate. (This report should only pull for individuals who are eligible for Covered CA)
Reporting	Reports	39699	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to provide a report on the number of applications generated and the distinct number of applications generated for which the duplication individual validation check was successful.
Reporting	Reports	39700	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to deliver a scheduled monthly report where the application was started during the prior month and the duplicate individual validation check was successful during the prior month.
Reporting	Reports	39701	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to provide a detailed report of the cases for which the duplication individual validation check was successful and they moved forward with submitting the application.
Reporting	Reports	39702	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to deliver a scheduled monthly report where the application was started during the prior month and the duplicate individual validation check was successful during the prior month.
Reporting	Reports	40207	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall be able to generate Correspondence dynamically, that can be viewed through the presentation layer, have the ability to be bundled for printing, and to be able to sent through email. The System is expected to issue notices including but not limited to the following categories: A) Eligibility and Enrollment B) Plan Management C) Financial Management D) SHOP
Reporting	Reports	40208	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to generate monthly reports to CMS about individual enrollments in Qualified Health Plans.
Reporting	Reports	40257	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to generate data and reports for any exception processing.
Reporting	Reports	40259	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide functionality to generate data and reports needed to comply with MCAP, C-CHIP, and BHP (if enacted) quality control initiatives and performance standards.
Reporting	Reports	40260	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide functionality to generate data on the administrative costs of the Exchange and waste, fraud and abuse as required by the ACA.
Reporting	Reports	40261	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide functionality to generate data and reports on enrollment trends.

Category	Sub Category	Req ID	Requirement
Reporting	Reports	40350	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to display a dashboard of caseload and performance metrics for active applications, renewals and appeals.
Reporting	Reports	40354	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall log those who viewed Personally Identifiable Information (PII) or Personal Health Information (PHI), what data elements they viewed, and time-stamp.
Reporting	Reports	40376	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to generate a report upon request by applicants: The report consists of identifying those who viewed their Personally Identifiable Information (PII) or Personal Health Information (PHI), what data elements they viewed, and time-stamp.
Reporting	Reports	40378	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall report to the IRS and enrollees each year certain information regarding the enrollee's coverage provided through the exchange.
Reporting	Reports	40442	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall generate data and reports needed to apply for and demonstrate appropriate use of federal grant funding.
Reporting	Reports	40514	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the capability to determine participation rates of an employer's employees. Provide the capability to share this information with the Issuers and employers.
Reporting	Reports	40527	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall receive and update the disposition from SAWS.
Reporting	Reports	40687	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall generate audit files required by the State Controller's Office (SCO).
Reporting	Reports	40699	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall generate reports on complaints received, forwarded, resolved, and pending resolution.
Reporting	Reports	40945	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall store the association between VCI request and Eligibility run to enable data population on CMS reports
Reporting	Reports	41325	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall capture the Enroller's UserID in Google Analytics when navigating through California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) pages on behalf of a Consumer.
Reporting	Reports	42843	This report is to work on the income end dating issue (enrollees who mistakenly put an end date in the app, thereby making themselves Medi-Cal eligible for 2015). Selection Criteria: • Income end date between 10/1 and 3/31 • Pending Medi-Cal status • Application start date after 10/13 • Cases with paid end date field used for income Report output: • Family size (may come as member level data) • Attested income • End date for the income • Contact information (Maribeth's previously used contact info variables in Report 7) • Historical FPL (for new enrollees coming in through Open Enrollment this will be blank. But for those renewing, this field will be very helpful) • Renewal vs. Open Enrollment flag • Language written • Language spoken
Reporting	Reports	43264	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the current AIM report to align to the MCAP eligibility requirements, which will be generated daily.
Reporting	Reports	43337	"The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall provide a daily report to each of the CCHIP counties (San Mateo, San Francisco, and Santa Clara) which shall include the following: - Individuals who were determined CCHIP Eligible and Conditionally Eligible in the day previous to the report."
Reporting	Reports	43338	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall indicate whether or not the 60 day pre-notice has been sent in the daily report being sent to each of the 3 CCHIP County Programs.
Reporting	Reports	43339	"The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall also include and flag the following individuals based on one of the below criteria in the daily CCHIP report: - Individuals who will be discontinued in 30 days; and - Individuals who reported an address change in the day previous to the report and are still Eligible or Conditionally Eligible in a different CCHIP county (must be present and flagged in both the current and new county reports); - Individuals who reported a change in the day previous to the report that will Discontinue the consumer from CCHIP;"
Reporting	Reports	44557	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide functionality to generate data and reports needed to comply with federal and State audit and oversight requirements.
Reporting	Reports	44559	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide functionality to generate data and reports on eligibility determination outcomes.
Reporting	Reports	44560	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide functionality to generate data and reports to support management of Assisters and Eligibility Administrators.
Reporting	Reports	44561	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide functionality to generate reports and data on the consumer experience related to average elapsed time for application completion, application withdrawals, page review timeframes, QHP, qualified stand-alone dental plan evaluation, etc. .
Reporting	Reports	44562	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide regular (monthly) reports on Exchange enrollees, including unique individual identifier, plan enrolled in, the type of coverage purchased, rating criteria information, demographic data, and effective dates for individual and small group market non-grandfathered plans.

Category	Sub Category	Req ID	Requirement
Reporting	Reports	44568	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall generate reports (ad-hoc, monthly, quarterly and annually) summarizing the numbers and type of subsidized applications received, the number of applications that resulted in enrollment, the number of enrollments by type of program (APTC, CSR, MAGI Medi-Cal, MCAP, C-CHIP), the timeframe from application to enrollment (also by type program, and the demographic data (age, sex, household composition, zip code or region) for applications and enrollments by program type.
Reporting		44569	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall generate monthly reports on SAWS referrals status Statewide and by zip code, ethnicity, the number referred, and number denied. The report shall show the aging of referrals from 0 to 45 days, 45 to 60 days, 60 to 90, and greater than 90.
Reporting	Reports	44570	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall generate reports (ad-hoc, monthly, quarterly, and annually) for the number of applications submitted by each registered Assister and Eligibility Administrator (e.g., Service Center Representative and County Eligibility Worker) for an entered timeframe.
Reporting	Reports	44571	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to track referrals made to SAWS and update disposition from MEDS.
Reporting	Reports	44572	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to track referrals made to SAWS
Reporting	Reports	44573	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall generate (ad-hoc, monthly, quarterly, and annually) for the number of applications that did not result in an enrollment submitted by each registered Assister.
Reporting	Reports	44574	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the necessary reporting capabilities required by ACA and by the State of California. While guidance from the federal government and California policymakers is still forthcoming, it is anticipated reporting will be needed to meet audit requirements, support operational efficiencies, provide decision support, gather and present user feedback, and respond to ad hoc queries.
Reporting	Reports	44575	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall generate data and reports on enrollment trends.
Reporting	Reports	44576	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall generate reports and data on the consumer experience.
Reporting	Reports	44577	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall generate reports and data on consumer use of the Technology Platform.
Reporting	Reports	44578	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall generate reports and data on consumer feedback.
Reporting	Reports	44579	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall generate reports (ad-hoc, monthly, quarterly, and annually) for the number of enrollments completed by each registered Assister.
Reporting	Reports	44594	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall allow for the tracking and reporting of rules usage by module/component and type throughout California Healthcare Eligibility, Enrollment and Retention System (CalHEERS).
Reporting	Reports	47018	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall develop a report that shows persistent records that have been flagged with an L2.
Reporting	Reports	47019	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall develop a consolidated report containing information for all carriers. This report will be by record and will display the persistent L2 error flag or flags for that record including the records financial impact.
Reporting	Reports	47020	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall develop a report that shows persistent records that have been flagged with an L3.
Reporting	Reports	47021	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall develop a consolidated report containing information for all Carries. This report will be by record and will display the peristent L3 discrepancy flag or flags for that record including the records financial Impact.
Reporting	Reports	47022	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall develop a consolidated report containing information for all carriers. This report will be by record and will display the persistent L5 discrepancy flag or flags for that record including the records financial impact.
Reporting	Reports	47023	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall develop a report that shows enrollment accuracy after each cycle by case level for each HIOS ID.
Reporting	Reports	47024	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall develop a report that shows financial accuracy after each cycle by case level for each HIOS ID.
Reporting	Reports	47047	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate a periodic report of which individuals have had an income verification waiver applied to their eligibility determination during MAGI Medi-Cal Renewals (RE).
Reporting	Reports	48242	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create a new SOGI report for active enrollments in the current benefit year.
Reporting	Reports	48243	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate the SOGI report on a monthly frequency.
Reporting	Reports	49018	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall integrate and configure Google Analytics with Optimizely.
Reporting	Reports	49019	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create reports in Google Analytics to track experiment outcome.
Reporting	Reports	49422	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall include "Conditional Eligible" MCAP individuals in the daily MCAP extract report.
Reporting	Reports	49423	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall include MCAP Eligibility Begin Date in the daily MCAP extract report.
Reporting	Reports	49424	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall include Conditionally Eligible MCAP individuals in the Weekly MEDS Alert Transactions report.
Requirements Management			
Requirements Management	Application Submission and Update		
Requirements Management	Application Submission and Update	39738	The cloud call recordings storage implementation shall support call recording and call records retention as specified.
Requirements Management	General Requirement		
Requirements Management	General Requirement	43468	The Vendor shall consider using agile techniques and methods through the development life cycle.
Requirements Management	General Requirement	43470	The cloud call recordings storage implementation shall support call recording encryption for the protection of PHI.

Category	Sub Category	Req ID	Requirement
Requirements Management	General Requirement	43777	The Vendor is required to provide the Equipment, Software, training, and Facilities to support Call Center functions that include: A) Incoming phone calls, faxes, e-mail, texts, and web-based interactions (online chat originating from Web Portal). B) Outgoing phone calls, faxes, e-mail, texts, and web-based interactions. C) Routing of callers to specific customer service operators based on user type and role (i.e., Individual, Employer, Navigator, Agent, or Issuer) for specific questions and assistance. D) Interactive Voice Response (IVR) System that supports California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) by providing information to standard requests (e.g., premium payment status, correspondence address, application status and plan contact information). E) Customer Relationship Management System (CRM) to log, track, refer, and record resolution to customer contacts. F) The cloud call recordings storage implementation shall support call recording and call records retention.
Requirements Management	General Requirement	44301	The Vendor shall develop and implement a Requirements Management approach that includes the following key elements: A) Requirements definition, tracking, traceability, verification and updates B) Mapping of Requirements to Deliverables and Deliverables to Requirements C) Mapping of Requirements to both System Test and UAT scenarios/conditions and vice versa.
Requirements Management	General Requirement	44322	The Vendor shall address and track all Requirements defined in Attachment 2 - Requirements as part of the Requirements Management approach. All Requirement changes, including additions, modifications, and deletions shall be incorporated through the Change Control process and formalized within the Requirements Traceability Matrix.
Risk Management			
Risk Management	General Requirement		
Risk Management	General Requirement	44255	The Vendor shall provide, at a minimum, provide the following information about risks: A) A description of the risk - taking into account probability, impact, and level of control of the Risk. B) Risk Exposure C) Open and Closed/Retired dates E) Dependencies F) Schedule Impacts, if appropriate G) Individual assignments H) Risk resolution or mitigation strategy I) Actual resolution or mitigation actions J) Risk Owner
Risk Management	General Requirement	44290	The Vendor shall establish and implement an approach to Risk Identification and Mitigation that is in compliance and alignment with the OSI PMO approach to Risk Management.
Risk Management	General Requirement	44291	Within the Risk Management Plan, the Vendor shall clearly describe its approach for managing the critical risk associated with meeting the federally imposed deadline (i.e., January 1, 2014) to deliver the Baseline System. The Vendor shall describe in detail its contingency plan, highlighting the key trigger events and/or dates that invoke the implementation of the contingency plan, impacts (i.e., monetary or otherwise) to the State, and remedies.
Schedule & Work Plan Management			
Schedule & Work Plan Management	General Requirement		
Schedule & Work Plan Management	General Requirement	44257	The Vendor shall plan and deliver an approach to Schedule and Work Plan management that provides for a clear understanding of project progress at both summary and detailed levels. This includes defining and reporting appropriate Work Plan metrics. The Vendor must clearly convey Schedule and Work Plan information to a diverse group of management stakeholders as well as more detailed information to QA, IV&V and oversight consultants.
Schedule & Work Plan Management	General Requirement	44258	In addition to the Work Plan, the Vendor shall provide a separate summary of tasks requiring California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Exchange, State or other stakeholder resources. The Vendor shall estimate these resources by stakeholder, and state any assumptions regarding anticipated involvement of these resources.
Schedule & Work Plan Management	General Requirement	44259	The Vendor shall deliver a Schedule and Work Plan Management approach that addresses the establishment of the baseline control techniques the Vendor will apply to facilitate monitoring and tracking of the updated California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Project Work Plan against the approved baseline.
Schedule & Work Plan Management	General Requirement	44294	The Vendor shall conduct a weekly Work Plan review meeting with the Exchange management team; attendees may include but not be limited to Exchange PMO, DHCS, QA, IV&V and oversight staff.
Scope Management			
Scope Management	General Requirement		
Scope Management	General Requirement	44253	The Vendor shall conduct formal monthly scope assessments during the D&I and initial O&M phases, and quarterly during the O&M period.
Scope Management	General Requirement	44266	The Vendor shall establish and implement a formal Change Control Process to manage Project Scope. Change Control will provide a process to discuss, analyze, and document the impact of the change in scope and determine direction and next steps.
Scope Management	General Requirement	44288	The Vendor shall inform the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Project Director of any potential deviation in scope or potential changes as soon as is reasonably possible to discuss, analyze and document the impact of the change.
Security			
Security	Alerts and Notices		
Security	Alerts and Notices	48061	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall modernize their Security Information and Event Management (SIEM) solution to enhance existing threat management capabilities.
Security	Alerts and Notices	48062	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall ingest in-scope Network logs on the new SIEM solution.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Security	Alerts and Notices	48063	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall ingest in-scope logs from California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) AWS Cloud environment on the new SIEM solution.
Security	Alerts and Notices	48064	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall ingest in-scope Operating System (OS) and Authentication logs on the new SIEM solution.
Security	Alerts and Notices	48065	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall ingest in-scope security event logs on the new SIEM solution.
Security	Alerts and Notices	48066	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall ingest in-scope CMDB and Email logs on the new SIEM solution.
Security	Alerts and Notices	48067	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall ingest the database logs on the new SIEM solution.
Security	Alerts and Notices	48068	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall get additional threat coverage by developing up to 10 additional correlations, which will have a footprint across MITRE ATT&CK techniques and tactics.
Security	Alerts and Notices	48069	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall modernize the SIEM use cases by leveraging the Context Aware Analytics, continuous data enrichment and Retroactive Threat Intelligence Correlation capabilities offered by Chronicle.
Security	Alerts and Notices	48070	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall automate SIEM alerts, which will help reduce the analysis time and enrich the current alert payload by using the newly integrated SOAR module.
Security	Alerts and Notices	48071	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall automate up to three current SIEM use cases using SOAR module.
Security	Alerts and Notices	48072	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall automate up to three new SIEM use cases developed as a part of the modernization using SOAR module.
Security	Application Submission and Update		
Security	Application Submission and Update	46529	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create a new admin user entitlement 'AdminSensitiveInfo' that will be used to provision access to edit contact information (home address, mailing address, email, or phone number) of a non-primary applicant that is flagged as sensitive from SAWS.
Security	Consumer Assistance - SHOP		
Security	Consumer Assistance - SHOP	42792	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system must be updated to provide the User with a comprehensive set of instructions on how to create/update a password based on current security standards. Instructions must be in both English and Spanish.
Security	Consumer Management		
Security	Consumer Management	47362	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create Family PACT security profiles for Family PACT consumers.
Security	Consumer Management	47363	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow a Family PACT consumer to have full read and write access for the consumer's own account.
Security	Consumer Management	47373	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create Family PACT security profiles for Family PACT providers.
Security	Consumer Management	49136	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall enforce all the new/existing consumers and authorized representatives to register for One Time Passcode verification methods on their login
Security	Consumer Management	49137	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall collect device information when the user successfully completes the authentication over Multi Factor Authentication verification options
Security	Consumer Management	49138	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall enforce the user for Multi Factor Authentication if the user logs in from the device that is different from the registered device
Security	Consumer Management	49139	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow users to login without MFA if the user is authenticating from the registered device
Security	Consumer Management	49140	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have an expiry time as 24 hours for the registered device
Security	Consumer Management	49141	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall clear the registered verification methods (Email, Phone) register device information when the user status changes from blocked to unblock
Security	Consumer Management	49142	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall remove Google re-captcha from HBX application on following pages: a.Login page b.Forgot Username c.Forgot Password d.Account creation and review e.My profile
Security	Consumer Management	49143	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall Implement MFA for consumer login via CiCi chatbot
Security	Consumer Management	49144	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Shall Remove OTP on tax form download when tax year is 2021 or before, for consumers and authorized representative
Security	Consumer Management	49145	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall remove “Register MFA modal popup” and Register MFA banner” from account home screen
Security	Consumer Management	49146	CalHEERS shall update messaging on ‘Register Your Account’ page to provide the next steps for users with no email or phone during MFA registration process
Security	Eligibility Determination		
Security	Eligibility Determination	45900	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the 3Scale/Fuse policies to host the Context Path and process SSA Payload (RJ3) Service.
Security	Eligibility Determination	45901	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement OAuth token based authentication with CMS for SSA (RJ3) service.
Security	Eligibility Determination	46382	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall transmit data to CMS for IFSV(RJ09) Service via the REST API Channel using a TLS 1.2-encrypted endpoint.
Security	Eligibility Determination	46383	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the 3Scale/Fuse policies to host the Context Path for IFSV (RJ09) Service.
Security	Eligibility Determination	46384	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement OAuth token based authentication with CMS for IFSV (RJ09) service.

Category	Sub Category	Req ID	Requirement
Security	Eligibility Determination	46396	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall transmit data to CMS for ESI (RJ14) Service via the REST API Channel using a TLS 1.2-encrypted endpoint.
Security	Eligibility Determination	46397	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the 3Scale/Fuse policies to host the Context Path for ESI (RJ14) Service.
Security	Eligibility Determination	46398	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement OAuth token based authentication with CMS for ESI (RJ14) service.
Security	Eligibility Determination	46409	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall transmit data to CMS for Non-ESI (RJ31) Service via the REST API Channel using a TLS 1.2-encrypted endpoint.
Security	Eligibility Determination	46410	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the 3Scale/Fuse policies to host the Context Path for Non-ESI (RJ31) Service.
Security	Eligibility Determination	46411	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement OAuth token based authentication with CMS for Non-ESI (RJ31) service.
Security	Enrollment		
Security	Enrollment	39811	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to notify a user that they have reached the maximum attempts for all registered verification methods.
Security	Enrollment	39812	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display a modal pop-up message when the user is locked out of the account at the Login page.
Security	Enrollment	39813	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display a modal pop-up message when the user is blocked out of the account at the Login page.
Security	Enrollment	39814	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the functionality to remove any registered verification method from the "Verification Registration" page for non-privileged users.
Security	Enrollment	39815	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the header text on the"My Profile" page.
Security	Enrollment	39816	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add a "Cancel" button on the "Security Questions" page.
Security	Enrollment	39817	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall remove the "Delete Verification Method" link from the"Register Account by OTP" page.
Security	Enrollment	39818	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the page name for the "Register Account by OTP" page when adding/editing OTP methods.
Security	Enrollment	39819	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall remove text from the header on the "Verification Registration" page.
Security	Enrollment	39820	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display a pop-up modal when a consumer clicks the Account Home icon, Language Change [globe] icon, Secure Mailbox icon, or Logout dropdown option from the "My Profile" page.
Security	Enrollment	39821	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall only display the popup modal when a consumer has unsaved edits on the “My Profile” page.
Security	Enrollment	39871	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not display the error message “The user account is locked due to multiple invalid login attempts.” when the user enters the incorrect user name or password, and the user's account is not locked on the Login page.
Security	Enrollment	39872	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not display any error messages when the account is locked or blocked on the Login page.
Security	Enrollment	39873	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the language in the paragraph on the “Verify By OTP” page.
Security	Enrollment	45839	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) should decrypt the request sent by CCA using Fuse.
Security	Enrollment	45840	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall encrypt the response before sending to CCA.
Security	General Requirement		
Security	General Requirement	37891	The contractor shall move the Armstrong call center NICE licenses to the Greenhaven call center NICE servers
Security	General Requirement	37914	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall allow all new and existing users to optionally register with OAAM so that they can choose how they want to be challenged to have a One Time Passcode sent to them electronically.
Security	General Requirement	37915	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall allow all new and existing users to optionally register their email and/or cell phone number with OAAM.
Security	General Requirement	37916	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall allow all new and existing users to select a challenge method of security questions, email, or text when retrieving their password through the forget password flow.
Security	General Requirement	37917	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall allow all new and existing users to select a challenge method of security questions, email, or text when retrieving their username through the forget username flow.
Security	General Requirement	37918	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall allow all new and existing users to select a challenge method of security questions, email, or text when the user is challenged during login.
Security	General Requirement	37919	The CalHEERS System shall only block users from login who have locked both One Time Passcode and Security questions by failing three consecutive One Time Passcode attempts and three consecutive Security questions attempts.
Security	General Requirement	37920	The CalHEERS System's Initial forgot password page shall contain both a username field and a field for the month and day of the account owner's birthday.
Security	General Requirement	37921	The CalHEERS System shall validate the user entered email address and cell phone number before saving them as valid One Time Passcode challenge method.
Security	General Requirement	37922	The CalHEERS system shall inform the consumer of their one time passcode via email or text message.
Security	General Requirement	37923	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall direct the user to the Create an Account page when the user selects "Create an Account" (California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) to update link) and enhance the Log In or Create an Account page by combining the log in information and the create an account information while making the log in information more predominant.
Security	General Requirement	38997	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall update the existing Secuirty protocols by removing the requirement for a maximum length for consumer passwords.
Security	General Requirement	38998	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall update the dictionary of unacceptable passwords.
Security	General Requirement	38999	"The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall allow the following special characters within the password: ` ~ ! @ # \$ % ^ & * () _ + - = [] \ { } ; ' : "" , . / < > ?"

Category	Sub Category	Req ID	Requirement
Security	General Requirement	39000	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall retire certain security questions in each of the five security question groups.
Security	General Requirement	39001	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall add additional security questions to each of the five security question groups.
Security	General Requirement	39002	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall update Consumer messaging on the portal related to password requirements, dictionary words, special characters, OTP codes, and security questions.
Security	General Requirement	39134	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide a secure way to receive the Role Change Spreadsheet.
Security	General Requirement	39135	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall process the Role Change spreadsheet to change the role of an Agency Manager to an Agent.
Security	General Requirement	39136	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall process the Role Change spreadsheet to change the role of an Agent to an Agency Manager.
Security	General Requirement	39137	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall process the Role Change spreadsheet when received within 3 business days and provide notification by email.
Security	General Requirement	39171	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall allow designated County and Service Center security administrators to have access to California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) identity management functions in order to create accounts.
Security	General Requirement	39172	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall provide monitoring and alerting of the entitlements and roles granted within the system.
Security	General Requirement	39173	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall provide monitoring and alerting of the use of these roles and entitlements within the system.
Security	General Requirement	39176	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall allow designated County and Service Center security administrators to have access to California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) identity management functions in order to enable accounts.
Security	General Requirement	39177	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall allow designated County and Service Center security administrators to have access to California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) identity management functions in order to disable accounts.
Security	General Requirement	39178	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall allow a single identity to have multiple entitlements/roles mapped to it.
Security	General Requirement	39303	The CalHEERS system shall send the webservice transaction through 2-way SSL.
Security	General Requirement	39304	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall send encrypted webservice transaction to DIVS.
Security	General Requirement	39309	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall use certificate authentication for the encrypted search request web service transactions.
Security	General Requirement	39310	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall receive encrypted web service transaction from DIVS for match result.
Security	General Requirement	39311	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall use certificate authentication for the encrypted match result web service transactions.
Security	General Requirement	39312	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate a transaction to be displayed on the transaction history and audit logs when eligibility is run as a result of a DIVS pass.
Security	General Requirement	39313	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall generate the daily count of transactions sent and received from DIVS.
Security	General Requirement	39919	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide the functionality for Infrastructure set up, scanning, cleaning, and quarantine of existing documents
Security	General Requirement	39920	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide the functionality to enable malware scan as part of attachment upload and be logged for tracking purposes
Security	General Requirement	40598	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall block & reject the file being uploaded by User if scan identifies the file has malware or virus.
Security	General Requirement	42213	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall allow the consumers to self register their accounts with following mandatory information: First name Last name Date of birth(mm/dd/yyyy) Email Username Password PIN
Security	General Requirement	42214	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall validate the user entered email address and cell phone number before saving them as valid One Time Passcode challenge method
Security	General Requirement	42215	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall inform the consumer of their one time passcode via email or text message
Security	General Requirement	42216	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall support separate set of password policies as below for Sales users and Internal admin users Internal/Sales Users Password Policy (i.e Internal Password Policy):- Your password must adhere to the following rules: - Cannot contain dictionary words, name, and common keyboard patterns (example: Qwerty1!) - Must be at least 8 characters - Cannot be more than 50 characters - Must have at least 1 UPPERCASE letter - Must have at least 1 lowercase letter - Must have at least 1 number - Must have at least 1 special character such as ` ~ ! @ # \$ % ^ & * () _ + - = [] \ { } ; ' : " " , . / < > ? - Must not be one of your previous 24 passwords

Category	Sub Category	Req ID	Requirement
Security	General Requirement	42217	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall support separate set of password policies as below for consumers and password should never expire Consumer Password Policy (External Password Policy):- Password - Must be at least 8 characters - Cannot be more than 50 characters - Cannot contain dictionary words, name, and common keyboard patterns (example: Qwerty1!) And must contain at least 3 of the following: - UPPERCASE letter (A-Z) - Lowercase letter (a-z) - Number (0-9) - Special character ` ~ ! @ # \$ % ^ & * () _ + - = [] \ { } ; ' : " , . / < > ?
Security	General Requirement	42218	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) systems should authenticate users against ForgeRock AM/Directory services
Security	General Requirement	42219	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall allow authorized agents to generate self delegation authentication code to the given consumer mobile number
Security	General Requirement	42220	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall generate messages for conditions that violate security rules at a minimum: A) Unauthorized access attempts on portal application B) Logon attempts that exceed the maximum allowed C) Termination of authorized sessions after a 15mins time of no activity
Security	General Requirement	42221	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall not allow the access to the Account Administration screen outside the whitelisted IP range
Security	General Requirement	42222	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) systems shall challenge the users based on adaptive/risk based authentication rules
Security	General Requirement	42223	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall allow all new and existing users to select a challenge method of security questions, email, or text during login, so that they can choose how they want to be challenged when the user is challenged during login
Security	General Requirement	42224	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall enforce the users to choose at least one of challenge methods (Security Q&A, OTP- mobile/email) during the login if user has not opted for any
Security	General Requirement	42225	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall only block users from login in following scenarios: - Exhausted three consecutive Security questions attempts and three consecutive One Time Passcode attempts (As mentioned sequence)
Security	General Requirement	42226	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall only block users from login in following scenarios: - Exhausted there consecutive One Time Passcode attempts
Security	General Requirement	42227	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall display a notification message on screen when internal and Sales California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) users log in (i.e. Legal Notice Page)
Security	General Requirement	42228	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system LW Security IAM services shall be integrated with ForgeRock IAM REST APIs
Security	General Requirement	42229	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall send the Password Expiry Notification for the Internal Users and Sales Users. Below mentioned is set for warning and expiry notification a)Password Expiry warning notification emails(post 45 day to 59 day) b)Password expiration notification mail(60th day)
Security	General Requirement	42230	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall allow designated County,DHCS and Service Center security administrators to have access to California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) identity management functions in order to create admin accounts within their organization/child organizations
Security	General Requirement	42231	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall allow designated County,DHCS and Service Center security administrators to have access to California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) identity management functions in order to generate internal admin user report with in same organization/child organizations
Security	General Requirement	42232	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall allow designated County,DHCS and Service Center security administrators to have access to California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) identity management functions in order to enable accounts.
Security	General Requirement	42233	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall allow designated County,DHCS and Service Center security administrators to have access to California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) identity management functions in order to disable accounts
Security	General Requirement	42234	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall allow a single user to have multiple entitlements per admin role mapped to it
Security	General Requirement	42235	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall allow designated County,DHCS and Service Center security administrators to have access to California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) identity management functions in order to add/remove entitlements or roles from user's profile with in their organization/child organizations
Security	General Requirement	42236	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall allow designated County,DHCS and Service Center security administrators to reset password, one-time passcode, security questions and unblock California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Application accounts for all individual consumers and Sales users within same organization/child organizations
Security	General Requirement	42237	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall allow L1 & L2 Help Desk Users to reset password, one-time passcode, security questions and unblock California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Application accounts for all California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) users
Security	General Requirement	42238	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall allow 30 concurrent user sessions

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Security	General Requirement	42239	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall expire all OTPs (Forgot password, challenge and delegation) in 10 minutes
Security	General Requirement	42240	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall provision the user to HBX database and ForgeRock directory services
Security	General Requirement	42241	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall send 6-digit one-time passcode (recommended as per NIST guidelines). Currently system sends out a 5-digit one-time passcode
Security	General Requirement	42242	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall provide a user to update there profiles. User is authorized to update the following attributes a)First Name b)Middle Initial c)Last Name d)Email e)DOB f>Password g)OTP Methods h)Security Questions
Security	General Requirement	42243	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall allow all new and existing users to select a challenge method of email or text during registration or login, so that they can choose how they want to be challenged when retrieving their password through the forget password flow
Security	General Requirement	42244	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall allow all new and existing users to retrieve their username by providing registered Email and DOB
Security	General Requirement	43151	The contractor shall expand the amount of users that can unblock user ids in OAAM
Security	General Requirement	43152	The contractor shall provide a system that can support 300 concurrent users unblocking accounts all at one time.
Security	General Requirement	44471	For Consumers' (non-privileged users), the password must contain 3 of 4 items (Upper Case, Lower Case, Special Character and Number).
Security	General Requirement	44472	The password policies shall be able to be separate and independent for privileged and non-privileged users.
Security	General Requirement	44532	For Consumers' (non-privileged users), the password must be no less than 8 characters in length.
Security	General Requirement	44961	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall generate alerts for conditions that violate security rules at a minimum: A) Unauthorized access attempts on data and System function B) Logon attempts that exceed the maximum allowed C) Termination of authorized sessions after a specified time of no activity
Security	General Requirement	44962	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Security and Privacy Framework, in compliance with the HITECH requirements and FISMA Continuous Monitoring Guidelines, shall implement necessary process, tools and technology to implement, manage, administer, monitor and govern all the compliance policies that are required to be implemented by the exchange very efficiently.
Security	General Requirement	44963	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Security and Privacy Framework shall implement appropriate security architecture and control to address various security attacks such as Spoofing, Tampering, Repudiation, Information (disclosure), Denial (of service), Elevation (of privilege) (STRIDE).
Security	General Requirement	44974	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) services architecture shall comply with security and privacy requirements for the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) deployed infrastructure.
Security	General Requirement	44975	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Security and Privacy Framework shall consider necessary security provisions and controls through a thorough evaluation of the System and data classification for the exchange, determine the level of risk the stakeholder will manage and define appropriate manage services model that will support the implementation of multi-zone architecture and a secure infrastructure.
Security	General Requirement	44977	The Vendor shall complete the annual ITEC security assessment.
Security	General Requirement	44978	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide security incident reporting and mitigation mechanisms, including at a minimum: A) Generate warning or report on System activity based on security parameters B) Terminate access and/or generate report when potential security violation detected C) Preserve and report specified audit data when potential security violation detected
Security	General Requirement	44979	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Security and Privacy Framework shall implement a security architecture based on Medicaid Information Technology Architecture 2.0 (MITA 2.0) S & P model with the following three fundamental security architectural elements: A) Multi Level Security B) Role Based Access Control (RBAC) C) Decentralized Label Model (DLM)
Security	General Requirement	44980	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Security and Privacy Framework shall guide the development and implementation of all the security controls necessary to comply with the security requirements of the Exchange and comply with HIPAA and HITECH security requirements for Creating, Collecting, Transporting and Processing of PHI, PII, IIHI, and FTI data.
Security	General Requirement	44981	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Security and Privacy Framework shall comply with the Affordable Care Act, Section 1561 requirements and enable building an interoperable and secure standards and protocols to facilitates secure enrollment of individuals, transmit and/or process individual's financial information (FTI) and minimize the risk of security and privacy vulnerabilities.
Security	General Requirement	44982	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Security and Privacy Framework shall implement appropriate security constructs to identify, verify, authorize, and authenticate users before allowing access to sensitive resources such as PII, PHI or FTI data.
Security	General Requirement	44983	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Security and Privacy Framework shall implement a defense-in-depth, multi-zone computing architecture that physically separates the layers between the System component; each layer is protected by firewalls and appropriate security devices based on the sensitivity of data and computation.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

OTSI CalHEERS RFP #73040873 Addendum 1
October 31, 2025

Category	Sub Category	Req ID	Requirement
Security	General Requirement	44984	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Security and Privacy Framework shall implement data encryption mechanism for sensitive data in transit shall be encrypted to protect data confidentiality and integrity as appropriate based on the sensitivity of data. FTI shall be encrypted based on IRS guidelines. If encryption is not used for FTI data, appropriate compensating security mechanism shall be in place such as switched Virtual Local Area Network (VLAN) etc.
Security	General Requirement	44985	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Security and Privacy Framework shall implement data encryption mechanism for Servers or server storage containing PHI or PI shall have sufficient administrative, physical, and technical controls in place to protect that data, based upon a risk assessment/System security review, or shall be encrypted using FIPS 140-2 validated Software
Security	General Requirement	44986	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Security and Privacy Framework shall build appropriate privacy protections into the design of the Exchange to control the collection, use, dissemination and disposition of PII, PHI and FTI data.
Security	General Requirement	44987	All the services and infrastructure developed for California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Security and Privacy Framework shall be using open security standards and frameworks such as: A) Policy: WS-Policy, WS-Trust, WS-Privacy, Security Assertion Markup Language (SAML), Enterprise Privacy Authorization Language (EPAL) B) Federation: WS-Secure Conversation, WS-Federation, WS-Authorization, XML Key Management (XKMS) C) Mechanism: Extensible Access Control Markup Language (XACML), XML Encryption, XML-Digital Signatures, Extensible rights Markup Language (XrML)
Security	General Requirement	44988	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Security and Privacy Framework shall comply with the Administrative/Management Safeguard requirements mandated by California DHCS ISO as defined in Information Technology Projects Security Requirements 1 (SR1) document.
Security	General Requirement	44989	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Security and Privacy Framework shall comply with the Technical/Operational Safeguard requirements mandated by California DHCS ISO as defined in Information Technology Projects Security Requirements 1 (SR1) document.
Security	General Requirement	44990	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Security and Privacy Framework shall comply with the Physical Safeguard requirements mandated by California DHCS ISO as defined in Information Technology Projects Security Requirements 1 (SR1) document.
Security	General Requirement	44991	The Vendor shall comply with State of California-required actions in response to a breach, including, but not limited to: A) Reporting timeframes B) Reporting party C) Research and investigation activities D) Mitigation of the circumstances that resulted in the breach
Security	General Requirement	44992	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide the functionality to report Personal Identifiable Information (PII) and Personal Health Information (PHI) viewing through an audit log that includes at a minimum, login ID and timestamp.
Security	General Requirement	44993	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall adhere to Tax Return security: IRS Section 6103
Security	General Requirement	44994	The Vendor shall design, document and implement a California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Risk-Based Security & Privacy Framework.
Security	General Requirement	44995	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Risk-Based Security & Privacy Framework shall include definition and process to design, implement, manage, administer, govern the Security and Privacy of the California Health Benefit Exchange System and data.
Security	General Requirement	44996	The Vendor shall implement the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Risk-Based Security & Privacy Framework.
Security	General Requirement	44997	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall have the capability to receive faxed application materials on secured fax servers.
Security	General Requirement	44999	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Security and Privacy Framework shall implement a comprehensive process and centralized service for Identity, Credential and Access Management (ICAM).
Security	General Requirement	45000	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Security and Privacy Framework shall implement data encryption mechanism for all equipment, workstations and laptops that process and/or store PHI or PI shall be encrypted using FIPS 140-2 validated Software. The encryption solution shall be full-disk unless otherwise approved by the ISO
Security	General Requirement	45001	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall have an identity management tool that will identify, match, and report individuals that are in the corresponding interface Systems (SAWS, MEDs) are the same individuals in the System. The Vendor is encouraged to leverage existing State efforts conducted with identify management with the Department of Motor Vehicles and the California Employment Development Department.
Security	General Requirement	45002	The Vendor shall support the State in ensuring Business Associate Agreements are in place in order to exchange Personal Identifiable Information (PII) and Personal Health Information (PHI), following DHCS policies, best practices, and HIPAA regulations. DHCS will function as Subject Matter Expertise support with this requirement
Security	General Requirement	45006	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Security and Privacy Framework shall comply with the following Federal and California state security and privacy policies: A) Federal Information Security Management Act (FISMA) of 2002 B) Health Insurance Portability and Accountability Act (HIPAA) http://csrc.nist.gov/publications/PubsFIPS.html C) Health Information Technology for Economic and Clinical Health Act of 1996 D) Privacy Act of 1974 E) Patient Protection and Affordable Care Act (ACA) of 2010, Section 1561 F) Safeguarding and Protecting Tax Returns and Return Information (26 U. S. C. 6130 and related provisions) G) E-Government Act of 2002 H) National Institution of Standards & Technology (NIST) Special Publications. NIST's Special Publications are available at: http://csrc.nist.gov/publications/PubsSPs.html I) National Security Agency (NSA) Security Recommendation Guides J) California Department of Health Care Services (DHCS) - Information Technology Projects Security Requirements 1 (SR1)

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Security	General Requirement	45007	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Security and Privacy Framework shall implement federal guidance and requirements for those with whom Exchange data are shared, and to enable effective security and privacy implementation and operation by the state of California in the following areas (but not limited to): A) System and Data Classification B) Security Controls C) OCIO Federated Identity Management Standards including WSSecurity, SAML 2.0 or greater, Liberty ID-FF and WS* Identity Standards D) Secured Infrastructure and Managed Services computing E) Data Encryption F) Audit Trails G) Continuity of Operations and Disaster Recovery H) Compliance Oversight I) Privacy
Security	General Requirement	45008	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Security and Privacy Framework shall comply with the general guidance for managing risk in National Institute of Standards and Technology (NIST) Special Publication (SP) 800-37, Guide for Applying the Risk Management Framework to Federal Information Systems.
Security	General Requirement	45009	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Security and Privacy Framework shall comply with the security classification guidelines for IT data and Systems (Low, Moderate and High) and use the security controls established at level as defined by NIST Federal Information Processing Standards (FIPS) Publication 199, Standards for Security Categorization of Federal Information and Information Systems. The data and the System categorization shall follow the guidance and standards defined in NIST SP 800-60, Guidance for Mapping Types of Information and Information Systems to Security Categories.
Security	General Requirement	45013	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Security and Privacy Framework shall identify a minimum set of security controls commensurate with the sensitivity of data stored and exchanged that will be adapted by all entities implementing and operating the Health Benefit Exchange. The minimum set of security control identified and defined shall follow the requirements of HIPAA, HITECH, FISMA, Tax Information Safeguarding Requirements and California state's security and privacy framework.
Security	General Requirement	45020	The Vendor shall monitor and maintain security and privacy standards to protect consumer privacy and continually add best practices to ensure consumer privacy is consistently maintained.
Security	General Requirement	45021	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) multi-zone architecture shall follow the recommendations defined in Medicaid Information Technology Architecture 2.0 (MITA 2.0).
Security	General Requirement	45023	The ICAM services shall implement the following principles: A) Identity Proofing: Provide a minimum set of administrative controls and requirements for identity proofing (user proofing who they say they are) and for periodic management of authenticators. B) Authorization: Users will be assigned roles to ensure that they have access to data that is needed to get the job done and nothing more (least privilege). C) Authentication: Enabling increasing complexity of authentication as the sensitivity of the System and data increases including but not limited to password policies, automatic password expiration policies etc. D) In addition to implementing ICAM services, California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Security and Privacy Framework shall consider appropriate Accountability and Non-repudiation requirements for most critical transactions.
Security	General Requirement	45024	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Security and Privacy Framework shall implement data encryption mechanism for all electronic files that contain PHI or PI data shall be encrypted using FIPS 140-2 validated Software when stored on any removable media or portable device (i.e., USB thumb drives, floppies, CD/DVD, Blackberry, backup tapes, etc.)..
Security	General Requirement	45025	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Security and Privacy Framework shall implement data encryption mechanism for all transmissions and data-links sending PHI or PI data between the application/ System and the Database Management System (DBMS) shall be encrypted using FIPS 140-2 validated Software.
Security	General Requirement	45026	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Security and Privacy Framework shall support the following baseline oversight activities: A) California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Security and Privacy Framework, shall define and implement appropriate process, tools and technologies to integrate compliance oversight activities with the Operations Governance of the Exchange. B) Ensuring risk management is performed in accordance with NIST SP 800-37 guidance C) Ensuring secured coding practices are implemented in the SDLC best practices to avoid common Software weaknesses and vulnerabilities D) Ensuring documentation of necessary and appropriate privacy artifacts. E) Serving as approval authority for accreditation of Systems and interconnections F) Enforcing ongoing monitoring and periodic compliance reporting and providing evidences on the compliance levels of security and privacy requirements, data exchange and usage agreements. G) Conducting System assessment.
Security	General Requirement	45027	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Security and Privacy Framework shall adopt the following privacy principle in guidance with DHHS: A) Individual Access B) Correction C) Openness and Transparency D) Individual Choice E) Collection F) Use and Disclosure Limitation G) Data Integrity H) Accountability
Security	General Requirement	45028	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall have the ability to time-out users using the web portal after a period of inactivity. The period of time shall be defined by the Exchange.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Security	General Requirement	45036	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Security and Privacy Framework shall implement the Public Key Infrastructure (PKI) that follows standard practices such as the use of accepted Certification Authorities (CA), documented Certificate Policies (CP), and Certificate Practice Statements (CPS) which will include key escrow strategy. Implementation shall use fundamental technical standards such as X.509 certificate format and Public Cryptographic Standards (PKCS). The PKI used across entities shall address interoperability requirements.
Security	General Requirement	45037	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Security and Privacy Framework shall address the following to minimize loss and facilitate effective disaster recovery: A) Systems shall be "fail-safe" to ensure that the System in failed state doesn't reveal any sensitive information or leave any access controls open for attack. B) Fully redundant network and Equipment components C) Use offsite storage in the event of physical disaster D) Build in contingencies for the storage of transactions where there is dependency on availability of data from business partners that provide authoritative data (e.g. the IRS, DHS and SSA). E) Leverage Virtualization to expedite disaster recovery.
Security	General Requirement	45038	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Security and Privacy Framework shall support necessary auditing mechanism to track and monitor access to all sensitive data, specifically PII and PHI information in compliance with Privacy Act, HIPAA and the Audit requirements defined in the Technical/Operational Safeguard section of (California DHCS ISO) Information Technology Project Security Requirements 1 (SR1) November 2011.
Security	General Requirement	45085	The CAIHEERS system shall limit access to ADMIN users to Covered California.Com to Information Security Officer(ISO) approved IP Addresses
Security	General Requirement	45119	The CalHEERs System's Login Flow, Registering Security Questions, Forgot Password, and Strong Authentication web page flows shall be developed and maintained by the Portal Team.
Security	General Requirement	45120	The CalHEERs system's Login Flow Web Pages shall utilize the Out of the Box (OOTB) Simple Object Access Protocol (SOAP) Application Programming Interfaces (APIs) from OAAM to support the login flow.
Security	General Requirement	45121	The CalHEERs System's Login Flow shall be configured to validate the user's credentials via the OAM Access Software Development Kit (ASDK).
Security	General Requirement	45144	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Security and Privacy Framework shall implement federal guidance and requirements for those with whom Exchange data are shared, and to enable effective security and privacy implementation and operation by the state of California in the following areas (but not limited to): A) System and Data Classification B) Security Controls C) OCIO Federated Identity Management Standards including WSSecurity, SAML 2.0 or greater, Liberty ID-FF and WS* Identity Standards D) Secured Infrastructure and Managed Services computing E) Data Encryption F) Audit Trails G) Continuity of Operations and Disaster Recovery H) Compliance Oversight I) Privacy
Security	General Requirement	45145	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Security and Privacy Framework shall comply with the following Federal and California state security and privacy policies: A) Federal Information Security Management Act (FISMA) of 2002 B) Health Insurance Portability and Accountability Act (HIPAA) http://csrc.nist.gov/publications/PubsFIPS.html C) Health Information Technology for Economic and Clinical Health Act of 1996 D) Privacy Act of 1974 E) Patient Protection and Affordable Care Act (ACA) of 2010, Section 1561 F) Safeguarding and Protecting Tax Returns and Return Information (26 U. S. C. 6130 and related provisions) G) E-Government Act of 2002 H) National Institution of Standards & Technology (NIST) Special Publications. NIST's Special Publications are available at: http://csrc.nist.gov/publications/PubsSPs.html I) National Security Agency (NSA) Security Recommendation Guides J) California Department of Health Care Services (DHCS) - Information Technology Projects Security Requirements 1 (SR1)
Security	General Requirement	45146	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Security and Privacy Framework shall comply with the general guidance for managing risk in National Institute of Standards and Technology (NIST) Special Publication (SP) 800-37, Guide for Applying the Risk Management Framework to Federal Information Systems.
Security	General Requirement	45147	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Security and Privacy Framework shall comply with the security classification guidelines for IT data and Systems (Low, Moderate and High) and use the security controls established at level as defined by NIST Federal Information Processing Standards (FIPS) Publication 199, Standards for Security Categorization of Federal Information and Information Systems. The data and the System categorization shall follow the guidance and standards defined in NIST SP 800-60, Guidance for Mapping Types of Information and Information Systems to Security Categories.
Security	General Requirement	45149	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall generate and report ALERTS for ADMIN users attempting to log in to coveredca.com from unauthorized IP Addresses
Security	General Requirement	45153	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have the ability to identify users location and allow/block users from logging in from identified regions and/or countries

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Security	General Requirement	45167	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall align with FIPS 140-2 validated soft token to meet the following IRS VPN Safeguard Computer Security Evaluation Matrix (SCSEM) requirements: - Shall have private keys that are non-exportable - Keys shall not be stored in plaintext (unencrypted) form - Distribution of the seed record and initial passphrases must be sent over a confidential channel to ensure that it is not duplicated in transit - Activation of the token must occur every time user authenticates using the soft token software - Token time limit must be 2 minutes or less
Security		45174	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall provide the ability for Security Administrators to reset password, one-time passcode, security questions and unblock California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Application accounts for their assigned users within the same organization.
Security		45175	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall allow Service Center representatives to reset password, one-time passcode, security questions and unblock California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Application accounts for all individual consumers and Sales users.
Security		45176	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall allow L1 & L2 Help Desk Users to reset password, one-time passcode, security questions and unblock California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Application accounts for all California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) users.
Security	General Requirement	45199	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement a security framework providing field level security for application pages.
Security	General Requirement	45200	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall document all specific field level security requirements in the Security Matrix.
Security	General Requirement	45201	Security Roles Matrix will be reviewed and updated to meet current business need.
Security	General Requirement	45202	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall develop required roles in the access management tool.
Security	General Requirement	45283	The data centers shall have a minimum of two physical barriers between FTI and those individuals without a need-to-know (Section 4.2, Table 3 of the IRS 1075 - September 2016).
Security	General Requirement	45294	The SIEM archival recovery system shall have the ability to retrieve the historical archive log data from tapes stored in a proprietary LogRhythm database.
Security	General Requirement	45295	The SIEM archival recovery system shall leverage virtual machines as opposed to the physical footprint at the data center.
Security	General Requirement	45296	The SIEM archival recovery system shall leverage the virtual machine and be capable to connect to the ZFS share for data recovery purposes.
Security	General Requirement	45297	Current LogRhythm physical deployment shall be decommissioned and removed from enclosures at the data centers.
Security	General Requirement	45732	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system database backups shall be configured accordance with defined Recovery Time Objective(RTO) and recovery point objective(RPO) in project
Security		45733	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall be take full Backup and continuous/ongoing incremental backups
Security		45734	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system database backups shall be support disaster recovery policies
Security		45735	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall be sent Backups to archive storage for 10-year retention purpose
Security	General Requirement	45736	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Technology Refresh - Oracle to RDS Aurora PostgreSQL Database - Database - Restore & Recovery
Security	General Requirement	45737	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall be capable to recover data lost or data corruption over a period, including Requirement to roll back individual records to fix database corruptions.
Security		45738	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall be capable to recover storage level corruption
Security		45739	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall be able to perform Point in Time Recovery(PITR) in case data corruption or release rollback, Point in Time recovery is possible for 35 days in RDS aurora.
Security		45740	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall be able to restore Old Image of database for Compliance with regulatory or internal policies
Security	General Requirement	45741	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall be able to restore current image in event of hardware of software issue
Security	General Requirement	45742	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall be able to restore current image in event of disaster recovery
Security	General Requirement	45743	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Technology Refresh - Oracle to RDS Aurora PostgreSQL Database - Database - Migration
Security	General Requirement	45744	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall capable to store migrated data in terms of database storage size, table size, index size, tables rows from source database (Oracle)
Security		45745	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall support migration of different data type(or have compatible datatype) compared to source database (Oracle)
Security		45746	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall support object type or alternative object type (like partition tables, soundex index) with similar functionality compared to source database (Oracle)
Security		45747	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall have capability to migrate full data from Source database (Oracle)
Security	General Requirement	45748	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall have capability to sync continuous data from Source database (Oracle)
Security	General Requirement	45749	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall be support validation of data and structure from Source database (Oracle)
Security	General Requirement	45750	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall be using optimal data migration process to have minimum impact on production database
Security	General Requirement	45751	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Technology Refresh - Oracle to RDS Aurora PostgreSQL Database - Database - Code Deployment
Security	General Requirement	45752	Automatic deployment
Security	General Requirement	45753	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall be able to maintain versioning of DB structure scripts/DBCR
Security	General Requirement	45754	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall be able to deploy the code fixes

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Security	General Requirement	45755	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall be able to compare deployed codes between environments
Security	General Requirement	45756	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Technology Refresh - Oracle to RDS Aurora PostgreSQL Database - Database - Monitoring
Security	General Requirement	45770	Calheers Database system shall support continous monitoring of database and database server
Security	General Requirement	45771	Calheers Database system shall configure alerts on critical metrics
Security	General Requirement	45772	Calheers Database system shall support monitoring internals of database
Security	General Requirement	45773	Calheers Database system shall support monitoring of database backups
Security	General Requirement	45774	Calheers Database system shall use monitoring tool
Security	General Requirement	45775	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Technology Refresh - Oracle to RDS Aurora PostgreSQL Database - Database - Decommission/Retire
Security	General Requirement	45776	Calheers Database system shall ensure sanitization mechanisms are in line with NIST 800 88 Guidelines for Media Sanitization
Security	General Requirement	45777	Calheers Database system shall support hypervisor enforces sanitization of the instance (container) image file space upon release
Security	General Requirement	45778	Calheers Database system shall support database engine upgrade and Patching activity as per project guideline
Security	General Requirement	45779	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall conducts capacity planning to ensure the necessary capacity for database storage and compute
Security	General Requirement	45780	archive data older from business tables
Security	General Requirement	45781	archive data older from business tables
Security	General Requirement	45813	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall upgrade reCAPTCHA to v2 Enterprise.
Security	General Requirement	45814	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement Google reCAPTCHA v2 Enterprise Invisible.
Security	General Requirement	45815	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add Execute and Assessment to detect Password Leakage.
Security	General Requirement	45843	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide messaging with clear instructions at login attempt for consumers whose California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) account have been disabled due to their dependent(s) being identified as a part of population with Sensitive Contact information.
Security	General Requirement	45844	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide messaging with clear instructions at new account creation attempt for consumers who are not permitted to create a California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) account, due to their dependent(s) being identified as a part of population with Sensitive Contact information.
Security	General Requirement	45935	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display a message advising the user to update their password when Password Leakage is detected.
Security	General Requirement	46216	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provision required infrastructure and implement PAM solution (Beyond Trust)
Security	General Requirement	46286	Version upgrade is required to address the vulnerabilities with existing Fuse (7.9) version to keep the system updated
Security	General Requirement	46287	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall enforce the use of TLS 1.2 or above for all California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) portal user sessions.
Security	General Requirement	46288	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement Multi Factor Authentication (MFA) for Consumers and Authorized Representatives. All users in California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) eco system shall be prompted for MFA.
Security	General Requirement	46289	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement Adaptive Authentication (based on device fingerprinting) to reduce the number of MFA challenges/questions for Privileged/Admin users (e.g. Admin Supervisor, County Eligibility Worker, etc.) and Sales users (Agent, CEC, Enroller etc.)
Security	General Requirement	46290	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall disable the accounts for the Consumers, Authorized Representatives and Sales users (Agent, CEC, Enroller etc.) after 430 calendar days of inactivity
Security	General Requirement	46291	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display a message to users during the login process, whose accounts are getting disabled due to 430 calendar days of inactivity.
Security	General Requirement	46292	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall re-direct the user to Contact Us Page (https://www.coveredca.com/Contactus/support/) during self re-eanble process, when user is not registered with MFA Options (email/mobile)
Security	General Requirement	46293	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create a process workflow for re-enabling (self service) disabled accounts of Consumers and Authorized Representatives.
Security	General Requirement	46294	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall capture the justification for disabling and re-enabling the accounts.
Security	General Requirement	46295	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide account re-enable capabilities to specific Service Center admin staff to re-enable Consumers and Authorized Representatives by using UserAccountAdministration module
Security	General Requirement	46296	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display appropriate message to Service Center admins while re-enabling the accounts, disabled due to inactivity (i.e. Applicable for Consumers/AuthReps)
Security	General Requirement	46297	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall only allow service center admins to re-enable the disabled sales accounts, which are not disabled due to inactivity
Security	General Requirement	46298	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement stronger password length as per MARS-E 2.2 requirements
Security	General Requirement	46299	Enforce at least the following minimum password requirements for Privileged/Admin users (e.g. Admin Supervisor, County Eligibility Worker, etc.) 1. MinimumPasswordLength = 15 characters
Security	General Requirement	46300	Enforce at least the following minimum password requirements for Sales users (Agent, CEC, Enroller etc.) 1. MinimumPasswordLength = 15 characters
Security	General Requirement	46301	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall onborad, identified existing privileged accounts (system accounts, service accounts, SaaS accounts to) the new privilege management solution (PAM)

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Security	General Requirement	46302	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall Implement auto rotation of secrets/passwords for identified application accounts.
Security	General Requirement	46303	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement a solution to support manual password rotation for secrets/passwords via authorized admins
Security	General Requirement	46304	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement access control for the system accounts (to adhere with least privilege access principles) within PAM solution
Security	General Requirement	46305	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement the monitoring capabilities in PAM solution to monitor access logs
Security	General Requirement	46306	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement secure access of the SSH Keys,SSH/RDP Sessions for identified servers
Security	General Requirement	46307	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) PAM solution shall provide the capability to securely elevate the access for an identified system account during the specified time window
Security	General Requirement	46308	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall Implement Pass-through authentication for identified accounts through the PAM Console
Security	General Requirement	46309	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall Implement access certification for PAM Access
Security	General Requirement	46310	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement SSO and MFA for PAM Application using OKTA
Security	General Requirement	46311	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create/update required SOPs and compliance documentation for new PAM solution
Security	General Requirement	46312	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement stronger password requirements as per MARS-E 2.2 Enforce the following minimum password requirements for Consumer Accounts and Authorized Representatives?MaximumPasswordAge = 430 calendar days
Security	General Requirement	46322	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create federated users for the new Agents with relevant access
Security	General Requirement	46323	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shallcreate Salesforce Partner Community user with right access
Security	General Requirement	46781	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement a secure two way file transfer set-up between California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) and CalSAWS.
Security	General Requirement	46782	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement an outbound fuse interface to connect with the CalSAWS FTP over the SFTP.
Security	General Requirement	46783	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall utilize the AWS family to authenticate the incoming CalSAWS Request file(s).
Security	General Requirement	46784	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement the outbound fuse application to scan and process the file(s).
Security	General Requirement	46879	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall modernize non-production firewalls to NGFW software with flexible subscription models because the current VM 300 (4 vCPUs) firewall cannot meet California Healthcare Eligibility, Enrollment and Retention System (CalHEERS)' increasing demands. To enhance capacity, existing non-prod firewalls to be modernized with a new NGFW flexible vCPUs firewall with 8 vCPUs.
Security	General Requirement	46880	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use a Lambda function to provide automated failover of active/passive firewalls to ensure high availability of non-production firewalls by replacing the current setup of manual failover of firewalls.
Security	General Requirement	46881	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall deploy new non-production firewalls that will require design and configuration changes in the architecture to ensure consistency with production firewall designs.
Security	General Requirement	46882	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall modify non-production traffic routes to disable the public interface and divert all outbound traffic to the Untrust interface. Change on California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) side and impacting interface partners will require SOPs update and SIT testing.
Security	General Requirement	47002	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement Malware scan for all the inbound files received from KP Corp Print Vendor over SFTP
Security	General Requirement	47003	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall isolate all the incoming files (Safe/Infected) from the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) application infrastructure
Security	General Requirement	47004	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall scan the incoming files for the malware and move the infected files to the quarantine folder
Security	General Requirement	47005	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall quarantine and send email alerts if a malicious file is detected as part of scans
Security	General Requirement	47006	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate email alerts for California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Security and Operations team, if a malicious file is detected
Security	General Requirement	47007	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate audit logs for malicious files detected as part of scans by clamAV
Security	General Requirement	47009	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the Password Hash algorithm for the incoming EHIT and VLP service requests for CalSAWS systems
Security	General Requirement	47010	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the Password Hash algorithm for the incoming EHIT and VLP service requests from CalSAWS (SHA-1 to SHA-2)
Security	General Requirement	47011	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall have a backward compatibility to support SHA-1 for the Password Hash Alogirthm for the incoming/outgoing EHIT and VLP Services requests from CalWIN
Security	General Requirement	47012	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the Password Hash algorithm for the outgoing EHIT and VLP service requests for CalSAWS
Security	General Requirement	47013	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the Password Hash algorithm for the outgoing EHIT and VLP service requests from California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) to CalSAWS (SHA-1 to SHA-2)
Security	General Requirement	47360	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow a self registration capability for the creation of Family PACT client accounts.
Security	General Requirement	47361	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall require SSApp clients to create a new account to apply for Family PACT program.
Security	General Requirement	47364	Account Creation Requirements for Family PACT clients: 1. California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall collect the following attributes for creation of a Family PACT account in IDM First Name, Last Name, DOB, User Name, Email Address or Phone, Password, User Type

Category	Sub Category	Req ID	Requirement
Security	General Requirement	47365	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall verify legitimacy of user by sending email/mobile OTP on provided email or phone in Family PACT account creation profile (to stop fake account creation)
Security	General Requirement	47366	Password Policy Requirements California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall enforce below password policy for Family PACT client accounts 1. MaximumPasswordAge = 430 calendar days (one year + three months) 2. Have at least 8 characters 3. Have no more than 50 characters 4. Not contain dictionary words, names, or common keyboard patterns (example: Qwerty1!)5. Disallow previous 24 passwords 5. And must contain at least three of the following: - UPPERCASE letter (A-Z) - Lowercase letter (a-z) - Number (0-9) - Special Character ` ~ ! @ # \$ % ^ & * () _ + - = [] \ { } ; ' : " , . / < > ?
Security	General Requirement	47367	Provision to downstream systems 1. California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provision the Family PACT users to LDAP system 2. California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provision the Family PACT users to the identified OU for Family PACT Clients
Security	General Requirement	47368	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall restrict duplication of Email or Phone for Family PACT users during registration or profile updates.
Security	General Requirement	47369	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow a self registration capability for the creation of a Family PACT provider account.
Security	General Requirement	47370	Family PACT Account Creation Requirements 1. California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall collect the following attributes for creation of Family PACT account in IDM: DOB, User Name, email address, or Phone, Password, User Type
Security	General Requirement	47371	Password Policy Requirements California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall enforce below password policy for Family PACT provider accounts 2. MaximumPasswordAge = 60 calendar days 3. Have at least 15 characters 4. Have no more than 50 characters 5. Not contain dictionary words, names, or common keyboard patterns (example: Qwerty1!)5. Disallow previous 24 passwords 6. And must have the following: - UPPERCASE letter (A-Z) - Lowercase letter (a-z) - Number (0-9) - Special Character ` ~ ! @ # \$ % ^ & * () _ + - = [] \ { } ; ' : " , . / < > ?
Security	General Requirement	47372	Provision to downstream systems 1. California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provision the Family PACT users to LDAP system 2. California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provision the Family PACT users to the identified OU for Family PACT Providers
Security	General Requirement	47374	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create a process for Family PACT Admin Account Creation
Security	General Requirement	47375	Family PACT Account Creation Requirements 1. California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall collect the following attributes for creation of Family PACT account in IDM - First Name, Last Name, DOB, Email Address User Type, Middle Name (Optional), (Optional)
Security	General Requirement	47376	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide the capability to auto generate username based on the First Name, Last Name, Middle Name combination during account creation and the username shall be notified to the Family PACT users on the provided email address.
Security	General Requirement	47377	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide the capability to generate a temporary password and the password shall be notified to the Family PACT users on provided email address.
Security	General Requirement	47378	Password Policy Requirements California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall enforce below password policy for Family PACT admin accounts 1. MaximumPasswordAge = 60 calendar days 2. Have at least 15 characters 3. Have no more than 50 characters 4. Not contain dictionary words, names, or common keyboard patterns (example: Qwerty1!)5. Disallow previous 24 passwords 5. And must have the following: - UPPERCASE letter (A-Z) - Lowercase letter (a-z) - Number (0-9) - Special Character ` ~ ! @ # \$ % ^ & * () _ + - = [] \ { } ; ' : " , . / < > ? 6. California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall notify users on approaching the Password Expiry Date - Password Warning Notification - 45 days - Password Expiry Notification - 60 days

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Security	General Requirement	47379	Provision to downstream systems 1. California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provision the Family PACT users to LDAP system 2. California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provision the users to Family PACT system 3. California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provision the users to the identified OU for Family PACT Admins
Security			California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create Family PACT security profiles for Family PACT admin users.
Security			California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow a Family PACT super admins role.
Security			California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow a Family PACT SCR admin role.
Security	General Requirement	47382	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow a Family PACT admin read-only role.
Security	General Requirement	47383	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow a Family PACT admin read-only role.
Security	General Requirement	47384	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall design & create the required Family PACT User Types for Client, Provider, Admin Users
Security	General Requirement	47385	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide capability to disable and enable the accounts of Family PACT users
Security	General Requirement	47386	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall disable the Family PACT accounts for the Family PACT Client and Providers after 430 calendar days of inactivity; also admins shall have capabilities to disable consumer and provider account
Security			California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall disable the Family PACT admin accounts after 60 days of inactivity
Security			California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow specific Family PACT admins & super admins capability to enable client, provider and admin accounts disabled due to inactivity via Family PACT application
Security			California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall clear the email/phone of Provider accounts (Staff and Site Certifier) when account is disabled due to Site Deactivation, disabled by site certifier or disabled by Admin
Security	General Requirement	47391	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide Family PACT account administration capabilities for authorized Family PACT admins & super admins to perform the following: - Search an user using First Name, Last Name, Username, Email, Phone, User type - Reset user password (manual/auto reset password) - User shall be notified with the new password over provided email address when performing auto reset password - Update User Type for Admin Users - Unblock user account - Enable/Disable user accounts
Security			California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide the following self-service capabilities for Family PACT clients: - Update basic profile information (First Name, Last Name, Email Address, Phone) - Update Password - Update MFA preferences - Retrieve User Name - Reset forgotten password - Reset Password on Password Expiry
Security			California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall only allow a Family PACT user with an email address associated to their account to retrieve user name
Security			California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall require a Family PACT user that does not have an email address associated to their account to call an admin to retrieve user name
Security	General Requirement	47395	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow Family PACT clients with an email address or phone associated to their account to reset forgotten password
Security			California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall authenticate the Family PACT users using User Name and Password
Security			California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall enforce registration of Email or Phone as a preferred MFA option
Security			California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall lock a Family PACT user account for 30 minutes on 3 invalid password attempts
Security	General Requirement	47399	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall auto unlock a Family PACT account after 30 minutes from last login attempt on a locked account that was locked due to 3 invalid password attempts.
Security			California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not allow disabled Family PACT user to access the Family PACT account
Security			California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall collect additional information before allowing the access to the Family PACT account
Security			California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement Multi Factor Authentication (MFA) for Family PACT Clients, Providers, and Admin users
Security	General Requirement	47403	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall block a Family PACT user account on 5 invalid MFA attempts
Security			California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow a Family PACT admin to unblock a user's account after the account was blocked due to 5 invalid MFA attempts.
Security			California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow a Family PACT user account 3 total attempts to generate the OTP such that the OTP is generated once and can be resent 2 time.
Security			California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the MFA to be valid for 15 minutes.
Security	General Requirement	47407	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow a Family PACT user to switch verification method in case the user is registered with both Email and Phone
Security			California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow a Family PACT user to change the preferred method of verification during login or using profile updates
Security			California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall determine the access authorization for users authenticating to Family PACT application
Security			California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall design, create, and implement role matrix for coarse grained authorization of Family PACT user access

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Security	General Requirement	47411	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall restrict unauthorized Family PACT users from accessing protected information/pages
Security	General Requirement	47412	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement session management for Family PACT.
Security	General Requirement	47413	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow maximum 30 concurrent Family PACT user sessions.
Security	General Requirement	47414	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall terminate a Family PACT session after 15 minutes of inactivity.
Security	General Requirement	47415	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall terminate a Family PACT session after 480 minutes of activity.
Security	General Requirement	47416	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall prevent Single Sign-on from California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) to Family PACT system and vice versa.
Security	General Requirement	47417	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall maintain log & audit of various transactions in Family PACT portal application to meet the required MARSE2.2 requirements
Security	General Requirement	47418	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall retain Family PACT audit records online for at least ninety (90) days and archive old records for ten (10) years to provide support for after-the-fact investigations of security incidents and to meet regulatory and organizational information retention requirements.
Security	General Requirement	47419	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall ingest the audit data for Family PACT Portal application to California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Splunk for audit data analysis, monitoring and reporting
Security	General Requirement	47420	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall ingest the logs from Family PACT portal application into California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Splunk for log analysis, monitoring and reporting
Security	General Requirement	47421	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement LW (microservices) to expose ForgeRock IAM APIs to Family PACT application
Security	General Requirement	47422	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display appropriate error messages on Family PACT user creation, profile update, user administration, authentication & authorization
Security	General Requirement	47810	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall use the MARS-E 2.2 authentication requirements for the document verification solution.
Security	General Requirement	47811	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall securely provision access to IDP based on a valid access authorization and intended system usage.
Security	General Requirement	47812	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall ingest audit events to a central logging and monitoring solution.
Security	General Requirement	47813	Google Doc AI solution shall not retain consumer Personally Identifiable Information (PII) post document processing outside California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system boundary.
Security	General Requirement	47814	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall send the webservice transaction through 2-way SSL.
Security	General Requirement	47815	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall send encrypted webservice transaction to IDP.
Security	General Requirement	47816	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall receive encrypted web service transaction from IDP for search request.
Security	General Requirement	47817	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall receive encrypted web service transaction from IDP for match result.
Security	General Requirement	47818	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall use certificate authentication for the encrypted match result web service transactions.
Security	General Requirement	47819	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate a transaction to be displayed on the transaction history and audit logs when eligibility is run as a result of an IDP pass.
Security	General Requirement	48141	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update existing 3scale products with new endpoints associated with v20 schema.
Security	General Requirement	48142	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update existing Gateway Fuse application with new endpoints associated with V20 EHIT schema.
Security	General Requirement	48209	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement 3scale/Fuse policies for outbound SAWS Imaging verificaion REST API
Security	General Requirement	48210	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement 3scale policy for outbound SAWS Imaging verificaion REST API
Security	General Requirement	48211	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement Fuse product for outbound SAWS Imaging verificaion REST API
Security	General Requirement	48494	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall isolate all the incoming files from the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) application infrastructure prior to scanning
Security	General Requirement	48495	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall scan the incoming files for the malware and move the infected files to the quarantine folder
Security	General Requirement	48496	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall quarantine and send email alerts if a malicious file is detected as part of scans
Security	General Requirement	48497	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate email alerts for California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Security and Operations team, if a malicious file is detected
Security	General Requirement	48498	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate email alerts for California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Security and Operations team, if a malicious file is detected
Security	General Requirement	48499	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement Malware scan for all the inbound files received from all the Partners/carriers over SFTP
Security	General Requirement	48686	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall remove Security Q&A as MFA method for Service Center Reps, Privileged/Admin users, and Sales Users.
Security	General Requirement	48687	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the Service Center Reps, Privileged/Admin users, and Sales Users having only security questions to authenticate (i.e Username/Password) and redirect user to "Register Your Account" page for the first-time login
Security	General Requirement	48688	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall allow the users having only security questions and expired passwords to authenticate (i.e. Username/Password) and redirect user to "Register Your Account" page for the first-time login
Security	General Requirement	48689	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall purge security question and answers from the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system for Service Center Reps, Privileged/Admin users, and Sales Users
Security	General Requirement	48690	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall require Service Center Reps, Privileged/Admin users, and Sales users to register for one of the OTP MFA methods (Email or Phone)

Category	Sub Category	Req ID	Requirement
Security	General Requirement	48691	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall require newly created Service Center Reps, Privileged/Admin users, and Sales users to register for one of the OTP MFA methods (Email or Phone)
Security	General Requirement	48692	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall require existing Service Center Reps, Privileged/Admin users, and Sales users to register for one of the OTP MFA methods (Email or Phone)
Security	General Requirement	48945	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall exclude Agency BOT users from mandatory OTP based (Email/Phone) MFA process
Security	General Requirement	48946	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall upgrade internal admin BOTs (used for Service center task automation) to use email based OTP as part of MFA process
Security	General Requirement	48947	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update "Register OTP Reminder" modal and "Update your profile" banner on Account Home page for Consumers and Authorized Representative
Security	General Requirement	49101	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall restrict duplication of username during registration
Security	General Requirement	49102	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall clear the email/phone of a Family Super Admin, SCR Admin, and Read-Only Admin when the account is deactivated by a Family PACT Super Admin.
Security	General Requirement	49103	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall extend the existing ForgeRock IAM solution with a logical separation for HBX and Family PACT application - ForgeRock Identity Manager - ForgeRock Access Manager - OpenDJ
Security	General Requirement	49135	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall enable Multifactor authentication for Consumers and Authorized Representatives to access California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) application
Security	Interfaces		
Security	Interfaces	46731	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall transmit data to CMS via the REST API Channel using a TLS 1.2-encrypted endpoint for VLP suite Service (RX142).
Security	Interfaces	46732	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the 3Scale/Fuse policies to host the Context Path for VLP Suite Service (RX142).
Security	Interfaces	46733	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement OAuth token based authentication with CMS for VLP Suite Service.
Security	Interfaces	46763	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall transmit data to SAWS via the REST API Channel using a TLS 1.2-encrypted endpoint for California Healthcare Eligibility, Enrollment and Retention System (CalHEERS)-SAWS VLP Interface.
Security	Interfaces	46765	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall transmit data to SAWS via the REST API Channel using a TLS 1.2-encrypted endpoint for California Healthcare Eligibility, Enrollment and Retention System (CalHEERS)-SAWS VLP Interface.
Security	Interfaces	46766	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create the 3Scale/Fuse policies to host the REST based service endpoints for Inbound Transaction.
Security	Interfaces	46767	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create the 3Scale/Fuse policies to host the REST based service endpoints for Outbound Transaction.
Security	Interfaces	47423	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement edge security via 3scale/Fuse api gateway for Communication between Family PACT and HAP systems
Security	Interfaces	47424	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall Implement the Open Market SMS service capability to Family PACT application
Security	Interfaces	47425	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement the Google Invisible Re-Captcha/Password Leakage service capability to Family PACT application
Security	Interfaces	47426	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall Implement the Smarty Street Address Validation service capability to Family PACT application
Security	Interfaces	47427	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall onboard a new interface "HAP" for API Security with identified end points
Security	Interfaces	47428	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall onboard a new interface "CA-MMIS" for API Security with identified end points
Security	Interfaces	47573	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update existing 3scale products with new endpoints associated with v18 schema
Security	Interfaces	47574	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update existing Gateway Fuse application with new endpoints associated with V19 EHIT schema
Security	Interfaces	47639	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create the 3Scale/Fuse policies to host the REST based service endpoints for Inbound Transaction.
Security	Interfaces	47640	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create the 3Scale/Fuse policies to host the REST based service endpoints for Outbound Transaction.
Security	Interfaces	48773	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall enforce one time password (OTP) verification during the tax form download when tax form year is 2021 or before.
Security	Interfaces	48774	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not enforce one time password (OTP) verification during the tax form download when tax form year is 2022 or after.

Security	Non-Functional Requirement	47906	Security Testing for CR 213355
Security	Non-Functional Requirement	48073	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall classify sensitive data types in-scope for data boundary protection use cases
Security	Non-Functional Requirement	48074	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement a solution to prevent data exfiltration to cover the following endpoint channels: USB, Print, Network Share and Bluetooth
Security	Non-Functional Requirement	48075	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement a solution to prevent data exfiltration to cover Web exfiltration channels
Security	Non-Functional Requirement	48076	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement controls to prevent access to certain website classifications based on Acceptable Use Policy
Security	Non-Functional Requirement	48077	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement Cloud Access Security Broker (CASB) controls to prevent data exfiltration from the following in-scope applications used in California Healthcare Eligibility, Enrollment and Retention System (CalHEERS): O365, SharePoint Online, OneDrive, Teams and ServiceNow
Security	Non-Functional Requirement	48078	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement API connections to the in-scope applications to identify potential sensitive data at rest

Category	Sub Category	Req ID	Requirement
Security	Non-Functional Requirement	48079	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement in-line protections to in-scope applications to prevent exfiltration to non-California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) tenants
Security	Non-Functional Requirement	48080	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall prevent uploading/downloading of files infected with potential malware/virus to the in-scope applications
Security	Non-Functional Requirement	48081	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall integrate the data boundary protection solution with the existing Security Incident Event Monitoring (SIEM) solution
Security	Non-Functional Requirement	48082	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create two dashboards for tracking incidents and alerts related to data boundary protection solution
Security	Non-Functional Requirement	48083	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create a Data Boundary Protection Standard Operation Procedures (SOP) for smooth operations of the implemented solution

Security	Verify Application Information		
Security	Verify Application Information	39100	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall process all responses returned from the Federal Hub based on the ResponseCodes and ResponseDescription Text for RIDP Service
Security	Verify Application Information	39210	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall process all responses returned from the Federal Hub based on the ResponseCodes and ResponseDescription Text for RIDP FARS Service v2.
Security	Verify Application Information	39211	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall update Portal messaging based on FARS v2 response codes.
Security	Verify Application Information	41016	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall transmit data to US Street Address API via 3-scale using a TLS 1.2-encrypted endpoint. (Rest-API call).
Security	Verify Application Information	42206	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall use Remote Identity Proofing (RIDP) and Fraud Archive Reporting Service (FARS) for all Primary Contact applicants.
Security	Verify Application Information	42207	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall require ID Proofing before a consumer can submit an application for insurance affordability programs.

Category	Sub Category	Req ID	Requirement
Security	Verify Application Information	42208	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall interface with the Federal Data Services Hub for Remote ID Proofing services including FARS
Security	Verify Application Information	42209	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall present a series of questions to consumers for the purpose of ID Proofing. These questions will be passed from the FDSH RIDP service
Security	Verify Application Information	42210	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System capture the consumers answers to RIDP questions and send to the FDSH for validation and verification.
Security	Verify Application Information	42211	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall allow RIDP questions to be presented to service center representatives, county eligibility workers, agents and certified enrollment counselors upon receipt of permission from the consumer.
Security	Verify Application Information	42269	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall allow permissioned users to bypass RIDP questions if they attest to verifying identity through alternative processes.
Security	Verify Application Information	42270	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall allow a consumer to bypass RIDP questions and instead upload alternative documents to verify identity.
Security	Verify Application Information	42271	The system shall allow the upload of documents that can be used to as proof of identity by service center representatives.
Security	Verify Application Information	45190	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall use the current production interface (Schema), as defined by CMS, of Remote Identity Proofing (RIDP)
Security	Verify Application Information	45207	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall use the current production interface (Schema), as defined by CMS, of the RIDP Fraud Archive Reporting Service (FARS) v.2.
Security	Verify Application Information	46437	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall transmit data to CMS via the REST API Channel using a TLS 1.2-encrypted endpoint for RIDP (RJ139) and FARS (RJ140)service.
Security	Verify Application Information	46438	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the 3Scale/Fuse policies to host the Context Path for RIDP (RJ139) Service.
Security	Verify Application Information	46439	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the 3Scale/Fuse policies to host the Context Path for FARS (RJ140) Service.
Security	Verify Application Information	46440	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement OAuth token based authentication with CMS for RIDP (RJ139) Service.
Security	Verify Application Information	46441	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall implement OAuth token based authentication with CMS for FARS (RJ140) Service.
Security	Web Portal Online Help		
Security	Web Portal Online Help	38589	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display a notification message when internal California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) users log in.
Service Center Operations			
Service Center Operations	Case Management		
Service Center Operations	Case Management	38351	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system will allow authorized users to request a reprint and remailing of any notice listed in a consumer's Documents and Correspondence secure inbox.
Service Center Operations	Case Management	38392	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall allow all users to upload documents to a case at any time.
Service Center Operations	Case Management	38451	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall allow all users to upload documents to a case at any time.
Service Center Operations	Case Management	38452	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall allow users to link existing documents that have already been transferred to California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) ECM/WCC by Novitex to a case.
Service Center Operations	Case Management	38453	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall crate a BPM (manual verification) task when a consumer uploads a document via the Documents and Correspondence page.
Service Center Operations	Case Management	38454	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall allow for one document to be associated to more than one outstanding verification to more than one consumer on a case.
Service Center Operations	Consumer Management		
Service Center Operations	Consumer Management	46602	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update case assignment rules in Salesforce for documents with type of "1095" to enter the General Correspondence Queue with a priority level of low.
Service Center Operations	Consumer Management	46603	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the "RecordTypeEnum" object in the LW Salesforce BPM to load values from the cache instead of using enumeration.
Service Center Operations	Consumer Management	46604	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall display "Mail", "Fax" or "California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Upload" for the case origin field on Salesforce BPM based on the case origin of the MWS case.

Category	Sub Category	Req ID	Requirement
Service Center Operations	Consumer Management	46606	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add a new case origin type of “California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Upload” to the list of available case origin types in Salesforce BPM.
Service Center Operations	Consumer Management	46607	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall include a case origin column in list views displayed on Salesforce BPM.
Service Center Operations	Consumer Management	46609	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall not create a BPM case, if the user attested to “Other QLE” and the system auto-detected a QLE while running the BRE.
Service Center Operations	Consumer Management	46610	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update case assignment rules in Salesforce for documents with type of ‘Incarceration’ to enter the Manual Verification ROP Queue with a priority level of low.
Service Center Operations	Consumer Management	46611	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the case assignment rules in Salesforce for documents with type of “Deceased” to enter the Manual Verification ROP Queue with a priority level of low.
Service Center Operations	Consumer Management	46613	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add a document type of ‘Deceased’ to the list of document types available to be sent to Salesforce BPM to create a MWS case.
Service Center Operations	Consumer Management	46614	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create a ‘Deceased’ document type Manual Verification MWS case on Salesforce BPM when a Deceased document category file is uploaded to the Documents and Correspondence page.
Service Center Operations	Consumer Management	46615	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create a BPM case with a status of “New” for MWS cases if there are no other open MWS cases in the respective assigned queue.
Service Center Operations	Consumer Management	46616	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the case assignment rules in Salesforce for documents with type of “Request to Amend Personal Information” to enter the General Correspondence Queue with a priority level of low.
Service Center Operations	Consumer Management	46617	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall categorize the following documents as 'Deceased' document types when received by mail or fax: - Notification of Deceased (HBEX 411 forms (a, b, or c)) -Copy of Death Certificate -Proof of Death - A signed declaration or affidavit attesting that the consumer is not deceased -Other
Service Center Operations	Consumer Management	46618	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall map "Deceased" document types received by mail or fax to the "Deceased" document type that is sent to Salesforce BPM to create an "Deceased" MWS case.
Service Center Operations	Consumer Management	46619	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update the "RecordTypeID" object for "1095" documents from "PaperApplication" to "ManualVerification".
Service Center Operations	Consumer Management	46620	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall map “Request to Amend Personal Information” documents received by mail/fax as “Request to Amend Personal Information” document type instead of “Manual Verification” document type when sending the file to Salesforce BPM.
Service Center Operations	Consumer Management	46621	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall categorize the following documents as 'Incarceration' document types when received by mail or fax: -Official release papers from the institution or Department of Corrections -Parole papers -Non-Incarceration Attestation Form
Service Center Operations	Consumer Management	46622	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall map "Incarceration" document types received by mail or fax to the "Incarceration" document type that is sent to Salesforce BPM to create an "Incarceration" MWS case.
Service Center Operations	Consumer Management	46623	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create an "MWS work with Case Origin by Queue and MWS Document Type" report in Salesforce BPM.
Service Center Operations	Enrollment		
Service Center Operations	Enrollment	38763	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create a new IVR flow to support Medi-Cal customers transitioning to Covered California.
Service Center Operations	Enrollment	38764	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall create new call types to track the calls.
Service Center Operations	Enrollment	38765	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add a new Precision Queues (PQ) called MTCC.
Service Center Operations	Enrollment	38766	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall provide standard reporting for the new PQ.
Service Center Operations	Enrollment	38769	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall add the new PQ to Work Force Management (WFM).
Service Center Operations	Enrollment	43794	The IVR system shall allow consumers to update their consent for verification via self-service
Service Center Operations	General Requirement		
Service Center Operations	General Requirement	37985	The IVR shall provide the functionality to announce the Expected Wait Time (EWT) to the English, Spanish, and Cantonese speaking callers.

Category	Sub Category	Req ID	Requirement
Service Center Operations	General Requirement	37986	The IVR must provide the functionality to provide the Caller with the option to be called back instead of waiting on hold in the call queue.
Service Center Operations	General Requirement	37987	The IVR must provide the functionality to play the call back messaging to the Caller after a variable amount of time. The variable time must be configurable.
Service Center Operations	General Requirement	37988	The IVR must provide the functionality to provide the the Caller with the option to remain on hold or to be called back.
Service Center Operations	General Requirement	37989	The IVR must provide the functionality to offer the Caller the option to be called back up to the time the queues are closed for the day. This will be a configurable item.
Service Center Operations	General Requirement	37990	The IVR must provide the functionality to place the phone number entered by the Caller into the Call Back Queue once. The system must not allow queueing of the same phone number multiple times.
Service Center Operations	General Requirement	37991	The IVR must provide the functionality to callback multiple times.
Service Center Operations	General Requirement	37992	The IVR must provide the functionality to validate the person answering the callback is the original caller.
Service Center Operations	General Requirement	38493	The California Healthcare Eligiblity, Enrollment and Retention System (CalHEERS) system shall move specialized teams to precision queue based routing and close down “legacy” skills routing.
Service Center Operations	General Requirement	41467	Provide a link to the Lead Generation Online Form from Covered California's website (www.coveredca.com).
Service Center Operations	General Requirement	41508	Provide a link to the Lead Generation Online Form within the cost calculator page.
Service Center Operations	General Requirement	41521	Provide a Lead Generation Online Form which will accept lead information and store a contact record in the CRM system for the purpose of tracking lead generation effectiveness.
Service Center Operations	General Requirement	41522	The system will store a list of grantees (name and grantee codes) for user selection via a drop down list.
Service Center Operations	General Requirement	41568	Migrate lead records generated by the Outreach and Education program from the mini call-center environment to the CRM system for Release 1.
Service Center Operations	General Requirement	42955	The Vendor must add a new skill group "County/Medi-Cal Liaison Team" to the Covered CA phone switch (ACD).
Service Center Operations	General Requirement	42956	The Vendor must associate the new skill group "County/Medi-Cal Liaison Team" to a dedicated toll-free phone number.
Service Center Operations	General Requirement	43769	The Vendor shall provide the capability within the Service Center to transfer callers to Healthy Families or County Welfare Departments call centers.
Service Center Operations	General Requirement	43771	The Vendor shall establish and provide a toll-free consumer service telephone and fax number for all applicants and enrollees that is available 24/7.
Service Center Operations	General Requirement	43772	The Vendor shall provide the Equipment, Software and Network to support a Service Center will provide services in English and Spanish and threshold languages identified in the Medi-Cal Managed Care Threshold languages; including but not limited to: IVR, Correspondences, Mail, Toll Free 800 number, Call Center, Imaging, and any other services conducted in the Service Center.
Service Center Operations	General Requirement	43773	The Vendor shall provide an automated Interactive Voice Response System (IVR) as part of the toll-free line.
Service Center Operations	General Requirement	43774	The Vendor shall maintain all IVR solution Software throughout the term of the Contract, inclusive of any application, customized and/or off-the-shelf software components that comprise the Imaging solution or related infrastructure.
Service Center Operations	General Requirement	43775	The IVR functionality must be able to recognize within query results and speak person and organization names, telephone numbers, dates and times, and dollars and cents amounts.
Service Center Operations	General Requirement	43781	The IVR functionality shall interact with a customer who is using a touch-tone phone and provide multiple authentication means for authenticating a user into the IVR System. The IVR functionality shall support the ability to authenticate a user by using a provided PIN number and have the ability to modify that number by the request of the customer.
Service Center Operations	General Requirement	43782	The System shall authenticate callers using their California Healthcare Eligiblity, Enrollment and Retention System (CalHEERS) application or account data. Callers will be required to enter their DOB, last 4 of SSN, zip code, and telephone number. All four data elements must be correctly entered for authentication to occur. IVR Authentication prompts must be implemented in English and Spanish only.
Service Center Operations	General Requirement	43783	The System shall use existing self-service functionality for account and application status. Explanation of the status will be expanded to include more detailed description of account or application status. Access to IVR self-service will be based on successful caller authentication. Information must be provided in English and Spanish only.
Service Center Operations	General Requirement	43784	The System shall prompt the self identified Medi-Cal eligible caller for the 5 digit zip code of their residence. The System will execute a look up of the associated telephone number for the County Medi-Cal office, based on the County of residence. This number will be provided to the caller. The prompt must be in English and Spanish.
Service Center Operations	General Requirement	43785	The System shall provide information regarding CoveredCA letters or notices received by the Caller. The prompt will provide an explanaiton of the notice and what, if any, actions the Consumer will need to complete. The system must also provide the Caller with the option to speak to an SCR. Information must be provided in English and Spanish.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Service Center Operations	General Requirement	43786	The current IVR logic for announcing estimated wait times in the non-English speaking queues, shall be removed.
Service Center Operations	General Requirement	43787	The System shall queue non-English calls for 40 minutes. After the 40 minute wait, the call will be routed to the General queue with no priority.
Service Center Operations	General Requirement	43788	The System shall provide Estimated Wait Time in 5 minute increments from 1 to 30 minutes, 15 minute increments from 31 to 89 minutes, and announce EWT of greater than 90 minutes thereafter. EWT threshold minutes must be configurable.
Service Center Operations	General Requirement	43789	Modify the existing IVR general information call tree to reflect program changes for renewals and open enrollment aligned with the attached "Basis of LOE Draft Call Tree".
Service Center Operations	General Requirement	43790	The IVR System shall include open enrollment and annual eligibility and enrolment renewal information, and application status.
Service Center Operations	General Requirement	43796	The IVR functionality must support text to speech (i.e., query results to speech) capability for all System supported language English and Medi-Cal Managed Care Threshold languages.
Service Center Operations	General Requirement	43797	The IVR functionality shall provide the capability for customers to query information on various programs within their cases or accounts (e.g., application status).
Service Center Operations	General Requirement	43798	The Vendor shall coordinate all IVR Equipment and Software warranty services for the IVR Equipment and Software that may be in use.
Service Center Operations	General Requirement	43799	The Vendor shall provide a development IVR environment to help develop code related to scripts, menu trees, caller decision points and call flow.
Service Center Operations	General Requirement	43800	The IVR functionality must be able to receive inbound calls and send outbound calls utilizing data from the California Healthcare Eligiblity, Enrollment and Retention System (CalHEERS) database.
Service Center Operations	General Requirement	43801	The IVR functionality must provide reports to analyze incoming call information and System usage. Report data must include, but is not limited to, call counts and duration, frequency of selected options, and points where customers end the call or exit the System.
Service Center Operations	General Requirement	43802	The Vendor shall be responsible for providing all Facilities that house IVR servers or data and must have, at a minimum, basic physical security measures to protect the IVR solution.
Service Center Operations	General Requirement	43803	The IVR functionality shall allow for a customer to be transferred to the appropriate office and/or worker.
Service Center Operations	General Requirement	43805	The System shall document all incoming SCR interactions received via phone channel, fax, and mail as an Incident and associate them to a specific contact (assuming that the contact is identified
Service Center Operations	General Requirement	43806	The System shall route incoming requests from CoveredCA.com based on form 'language' selected.
Service Center Operations	General Requirement	43807	The System shall store request/email text in the body of an Incident.
Service Center Operations	General Requirement	43808	The System shall capture incoming source channel as mail or fax, and the date in which correspondence was received by the fulfillment center.
Service Center Operations	General Requirement	43809	The System shall link the Incident record to image of mail received. For Release 1, fulfillment center will need scan image, and may need to eliminate confidential information from the attachments prior to scanning.
Service Center Operations	General Requirement	43810	The System shall administer and maintain the data to be captured for different incident types. Dynamically present a different data capture form to the SCR based on incident type.
Service Center Operations	General Requirement	43818	The System shall prompt alerts and notifications, based on statuses and information in California Healthcare Eligiblity, Enrollment and Retention System (CalHEERS) - to be defined by Business rules.
Service Center Operations	General Requirement	43819	The System shall integrate with Pitney Bowes to support visibility to campaign responses and general inquiries received through fax and mail channel and generate an Incident record.
Service Center Operations	General Requirement	43820	The System shall support the ability to update a lead with contact and application status information from California Healthcare Eligiblity, Enrollment and Retention System (CalHEERS).
Service Center Operations	General Requirement	43823	The Vendor shall provide a Customer Relationship Management (CRM) System that shall log, track, refer, and record resolution to customer contracts within its operation. The contact types shall include telephone, IVR, email, and web-based interactions (online chat).
Service Center Operations	General Requirement	43824	The System shall support the ability to update status of contact, based on campaign and/or source of contact (i.e. DNIS number).
Service Center Operations	General Requirement	43825	The System shall support the ability for a SCR to use assessment to generate Lead score.
Service Center Operations	General Requirement	43826	The System shall support the ability to generate opportunities for a Lead based on California Healthcare Eligiblity, Enrollment and Retention System (CalHEERS) and Marketing interactions.
Service Center Operations	General Requirement	43827	The System shall prioritize leads to work based on lead status.
Service Center Operations	General Requirement	43828	The System shall only allow an owner of a Lead and their supervisor to be able to edit Lead.

Appendix A-4 - SOW Exhibit A - System Requirements Specification
(Extracted from CalHEERS RTM)

Category	Sub Category	Req ID	Requirement
Service Center Operations	General Requirement	43829	The System shall systematically update Lead status and information.
Service Center Operations	General Requirement	43830	The System shall support the ability for a Lead task to include due date.
Service Center Operations	General Requirement	43831	The System shall support the ability for a SCR to indicate date completed on Lead task.
Service Center Operations	General Requirement	43833	The System shall display information from California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) including and if available: a) Contact information b) Dependent information c) Assister/Agent information d) Employer information (if applicable) e) Application information f) Appeal information g) Plan information h) Contact preference i) Outbound correspondence history (including link to document in California Healthcare Eligibility, Enrollment and Retention System (CalHEERS))
Service Center Operations	General Requirement	43834	The System shall support the ability to create a lead based on contact and application status information from California Healthcare Eligibility, Enrollment and Retention System (CalHEERS).
Service Center Operations	General Requirement	43835	The System shall receive a Notification when a Customer submits Complaint or Inquiry via California Healthcare Eligibility, Enrollment and Retention System (CalHEERS).
Service Center Operations	General Requirement	43836	The System shall create an Incident in CRM for a Complaint or Inquiry form submitted by a Customer via California Healthcare Eligibility, Enrollment and Retention System (CalHEERS)
Service Center Operations	General Requirement	43837	The System shall identify the Level 1 and Level 2 Incident Type based on Complaint and Inquiry Form Category and Subcategory.
Service Center Operations	General Requirement	43838	The System shall have the ability to store content of Complaint and Inquiry Form fields in the Incident (Subject, Message Content).
Service Center Operations	General Requirement	43839	The System shall automatically create a new Contact record when a Customer submits a Complaint or Inquiry Form via California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) if the Contact does not exist in RightNow, or associate the Incident to an existing Contact.
Service Center Operations	General Requirement	43840	The System shall have the ability to generate an automatic acknowledgement to the Customer when Complaint or Inquiries are received by California Healthcare Eligibility, Enrollment and Retention System (CalHEERS).
Service Center Operations	General Requirement	43841	The system shall support the ability to respond to Complaints and Inquiries through email, if an email address is available.
Service Center Operations	General Requirement	43842	The System shall allow for a Contact to initiate a web chat (both logged in and not logged into California Healthcare Eligibility, Enrollment and Retention System (CalHEERS)).
Service Center Operations	General Requirement	43843	The System shall require information to be collected when a web chat is initiated via California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) -Customer First and Last Name -Customer Email Address -Subject (Dropdown) -Language
Service Center Operations	General Requirement	43844	The System shall receive Contact information from California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) if the Customer is logged into California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) when Chat is initiated, including: - First and Last Name - Email address
Service Center Operations	General Requirement	43845	The System shall associate a dummy contact record to an anonymous web chat session (not initiated in California Healthcare Eligibility, Enrollment and Retention System (CalHEERS))
Service Center Operations	General Requirement	43846	The System shall support the ability to store a Chat Incident and associate it with a new/existing Contact record in RightNow. The Chat Incident should include the content of the Chat (read-only).
Service Center Operations	General Requirement	43847	The System shall prompt a Contact to initiate a proactive web chat when the Contact has been idle on a page for XX period of time.
Service Center Operations	General Requirement	43848	The System shall allow for a chat skilled SCR to receive up to 5 chats simultaneously.
Service Center Operations	General Requirement	43849	The System shall route web chat based on Language into Chat Queues for Chat Skilled Agents.
Service Center Operations	General Requirement	43850	The System shall support the ability to initiate co-browse during a customer interaction.
Service Center Operations	General Requirement	43851	The System shall track the date and time of when co-browse was initiated on the Incident Workspace.

Category	Sub Category	Req ID	Requirement
Service Center Operations	General Requirement	43852	The System shall support the ability to document Contact agreement to initiate co-browse.
Service Center Operations	General Requirement	43853	The system shall indicate if a co-browse occurred during an incident
Service Center Operations	General Requirement	43854	The system shall track whether or not the SCR received permission to take control of the customer’s screen using a Yes/No checkbox
Service Center Operations	General Requirement	43855	The system shall track the frequency of co-browse usage per incident record
Service Center Operations	General Requirement	43856	The System shall support additional Level 1 and Level 2 Incident categorization to organize Customer intent, including: - Eligibility - Application Assistance - Enrollment - Appeals - Disenrollment / Exit - Complaints
Service Center Operations	General Requirement	43857	The system shall support Supervisor escalations and reassignment of unresolved escalations per predefined business process.
Service Center Operations	General Requirement	43858	The system shall support Incident aging, and escalation of Incidents based on pre-defined business rules and: -Incident Type
Service Center Operations	General Requirement	43859	The System shall search contacts by: a) Lead status b) Customer segmentation c) Language
Service Center Operations	General Requirement	43860	The System shall have the ability to generate reports based on: a) Lead status b) Customer segmentation c) Language
Service Center Operations	General Requirement	43861	The System shall support the ability to input an individual lead into the system manually.
Service Center Operations	General Requirement	43862	The System shall support the ability to input a batch of leads (from a source like pre-load files).
Service Center Operations	General Requirement	43863	The System shall support the ability for a SCR to create an opportunity for a qualified lead and associate it to a Contact record.
Service Center Operations	General Requirement	43864	The System shall support the ability to assign a lead(s) to an SCR/SCR group/automated action based on pre-determined rules.
Service Center Operations	General Requirement	43865	The System shall support the ability to create aging rules for reminders.
Service Center Operations	General Requirement	43866	The System shall support the ability for a SCR to edit assigned Lead profile.
Service Center Operations	General Requirement	43867	The System shall support the ability to assign and re-assign ownership of a Lead.
Service Center Operations	General Requirement	43868	The System shall support the ability for a SCR to receive updates on Leads assigned to them.
Service Center Operations	General Requirement	43869	The System shall support the ability for a SCR to view report of Opportunity history/status (open, closed, etc.).
Service Center Operations	General Requirement	43870	The System shall support the ability to view create Opportunity views including: -Supervisor view of all incidents by team (i.e. for Lead) -Supervisor view of all teams (by team) (i.e. for Manager Level 1) -Command Center view of everything
Service Center Operations	General Requirement	43871	The System shall support the ability for a supervisor to reassign a Lead to another SCR.
Service Center Operations	General Requirement	43872	The System shall support the ability for an Opportunity to be re-assigned/re-distributed based on aging criteria.
Service Center Operations	General Requirement	43873	The System shall support the ability for a SCR to document notes and outcomes of interaction with Lead.
Service Center Operations	General Requirement	43874	The System shall support the ability for a SCR to update Lead profile based on interaction.
Service Center Operations	General Requirement	43875	The System shall set alerts to roles (e.g. supervisor, manager) in relation to task due date.

Category	Sub Category	Req ID	Requirement
Service Center Operations	General Requirement	43876	The System shall support the ability to end disposition of Lead task to trigger follow-up reminder/task.
Service Center Operations	General Requirement	43877	The System shall generate a weekly summary report of leads by Grantee (Grantee Code Number and Name). This report would show the reporting week and a running YTD column.
Service Center Operations	General Requirement	43878	The System shall generate a report showing distributed leads by assister and agent.
Service Center Operations	General Requirement	43879	The System shall document detailed task, including: b) Assignment c) Status d) Time Created e) Time Assigned
Service Center Operations	General Requirement	43882	The System shall support the ability for a SCR to manually set follow-up reminder/task.
Service Center Operations	General Requirement	43889	The System shall constrain a list of sub Incident type based on the parent Incident Type. Example: Release 1 'General Information' (Level 1) will have the following Level 2s: Plan Information, Affordable Care Act Information, Eligibility, Non-Covered California Programs, Other. 'Fulfillment Request' is a Level 1 Incident Type.
Service Center Operations	General Requirement	43890	The Administrator shall be able to update Level 1 and Level 2 Incident Type categorization per business need.
Service Center Operations	General Requirement	43891	The System shall associate an Incident type with every interaction.
Service Center Operations	General Requirement	43892	The SCR shall create incident notes associated with an Incident: including Incident Notes (Private Notes visible to SCRs only), and notes that may be customer facing for outbound responses.
Service Center Operations	General Requirement	43893	The System shall document all outbound SCR interactions via, phone, fax, email and mail as an Incident and associate them to a specific contact (assuming that the contact is identified).
Service Center Operations	General Requirement	43894	The System shall route calls intelligently based on incident type (lead generation call vs. inquiry call) and actor type.
Service Center Operations	General Requirement	43895	The System shall administer and maintain a set of scripts that can be presented to the SCR as recommendations. The System shall maintain a set of rules that control which script is presented to the SCR based on parameters contact type and/or incident type.
Service Center Operations	General Requirement	43896	The System shall associate a dialogue script with the business process to collect customer information.
Service Center Operations	General Requirement	43897	The System shall administer and maintain a set of checklists that can be presented to the SCR as recommendations.
Service Center Operations	General Requirement	43898	The System shall maintain a set of rules that control which checklist is presented to the SCR based on parameters contact type, incident type and/or CTI information.
Service Center Operations	General Requirement	43899	The System shall maintain a list of items (fields) that must be completed after a customer interaction that is specific to the product, call type- Incident Type (Level 1, Level 2), Actor Type.
Service Center Operations	General Requirement	43900	The System shall ensure all incidents will be tied to a contact. If contact does not exist, provide SCRs with the ability to associate the incident to a anonymous Contact record.
Service Center Operations	General Requirement	43901	The System shall associate multiple incidents with a Contact.
Service Center Operations	General Requirement	43902	The SCR shall have the ability to manually reassign the Incident to the appropriate Contact.
Service Center Operations	General Requirement	43903	The System shall document all incoming Phone interactions, and associate them to a Contact. A Contact is required for all Interactions.
Service Center Operations	General Requirement	43904	The System shall integrate with Cisco Softphone/CTI to pull in call details to incident record (details specified in Requirement 1.3.2.4).
Service Center Operations	General Requirement	43905	The System shall document interaction details including: a) Incident ID b) Incident Creator c) Incident Owner d) Incident Status e) Resolution Owner f) Incident Resolution (ex: document sent, etc.) g) Incident Channel i) Basic Contact Information j) Incident Type and Subtype and Associated Notes k) Date/Time (and Updated Date/Time)

Category	Sub Category	Req ID	Requirement
Service Center Operations	General Requirement	43906	The System shall view a calendar when logging an incident.
Service Center Operations	General Requirement	43907	The System shall associate information captured from telephony (CTI/IVR) with the incident: a) Routing selections b) ANI c) DNIS d) Language e) Call Type
Service Center Operations	General Requirement	43908	The System shall send the Incident # and disposition code to CTI (softphone) during call wrap up. The System shall prevent agent from leaving wrap state if disposition code (Incident Type) is blank.
Service Center Operations	General Requirement	43909	The System shall identify and assign SCR skill group profiles to determine work queue and tool access permissions.
Service Center Operations	General Requirement	43910	The System shall establish an escalation hierarchy based on SCR profile, which includes the following queues: a) Supervisor/supervisor queue, or b) Exchange home office queues
Service Center Operations	General Requirement	43911	The System shall reassign an Incident to a work queue or a specific individual including: a) Reassign to back office b) Support service c) Directly to an Individual (for supervisors only)
Service Center Operations	General Requirement	43912	The System shall associate tasks with an Incident.
Service Center Operations	General Requirement	43913	The System shall document all outgoing Phone interactions, and associate them to a Contact. A Contact is required for all Interactions.
Service Center Operations	General Requirement	43914	The System shall track incidents/contacts audit history: a) Date created b) Creator c) Last Modified d) Last Modified Date e) Assignment/Reassignment f) Status
Service Center Operations	General Requirement	43915	The System shall view, search and sort customer interactions by: a) Contact type b) Incident type c) Channel d) Date and Time Created e) SCR (Full Name)
Service Center Operations	General Requirement	43916	The SCR shall be able to view previous incidents/interactions performed with a Contact.
Service Center Operations	General Requirement	43917	The System shall manage Incident escalations (directly to supervisor or supervisor queue).
Service Center Operations	General Requirement	43918	The System shall customize notifications and reminders based on Incident type.
Service Center Operations	General Requirement	43919	The System shall push/pull Incidents based on SCR profiles (e.g. Tier 1 SCRs may have Incidents 'pushed' to them, Tier 2 SCRs may 'pull' Incidents based on workload).
Service Center Operations	General Requirement	43920	The System shall route/manage intake of Incidents from queues to SCR inbox based on: a) Skill b) Volume c) Language
Service Center Operations	General Requirement	43921	The SCR shall be able to view Incidents assigned (My Incident View) and status of Incidents.
Service Center Operations	General Requirement	43922	The System shall enforce security requirements and access-levels for incidents: a) Read only incident threads (free form incident notes) for peer-SCR b) Edit-access for TBD Manager/Admin level c) Incidents are automatically reassigned to an SCR that edits the incidents (i.e. if the incident is in another SCRs queue and a different SCR edits it, the incident is reassigned to the second SCR)

Category	Sub Category	Req ID	Requirement
Service Center Operations	General Requirement	43923	The System shall view incidents including: a) Supervisor view of all incidents by team (i.e. for Lead) b) Supervisor view of all teams (by team) (i.e. for Manager Level 1) c) Command Center view of everything
Service Center Operations	General Requirement	43924	The System shall support routing and receipt of emails sent to Covered California’s email inbox for general inquiries (info@hbex.ca.gov). All incoming email will generate an incident record in RightNow. Refer to website: http://www.healthexchange.ca.gov/Pages/ContactUs.aspx
Service Center Operations	General Requirement	43925	The System shall correlate incoming DNIS with particular set of marketing materials for both inbound correlation and outbound fulfillment.
Service Center Operations	General Requirement	43926	The System shall provide screen pop to SCR that identifies the campaign associated with the caller.
Service Center Operations	General Requirement	43927	The System shall provide data on a campaign level, including: a) Source of calls b) Number of calls c) Disposition
Service Center Operations	General Requirement	43928	The System shall search for existing contacts in RightNow by combination of: a) Last Name and First Name b) Last Name, First Name, and ANI c) Last Name, First Name, and DOB (R2 for DOB) d) Last Name, First Name, ANI and Zip Code e) Last Name, Middle Initial, First Name f) Range for date of last contact (pertinent for all contact types) g) ANI Only h) Company Name Only i) FEIN Only (R2 or R3 only) j) Assister ID Only k) Health Plan ID Only
Service Center Operations	General Requirement	43929	For telephony initiated searches, the System shall automatically search for existing contacts in RightNow by ANI and screen pop to: a) Contact Detail View for exact match b) Contact List View for multi-match c) Contact Search View for no match
Service Center Operations	General Requirement	43930	For a manual search, the System shall alert the SCR of any invalid formats.
Service Center Operations	General Requirement	43931	The System shall allow case insensitive search on Last Name, First Name, alphanumeric IDs, and Company Name.
Service Center Operations	General Requirement	43932	The System shall display search results for the purpose of identification including: a) Last Name (individual only) b) First Name (individual only) c) Middle Initial (individual only) d) Zip Code (pertinent for multiple Contact types) e) Contact Type (pertinent for all Contact types) f) Phone Number (pertinent for multiple Contact types) g) Company Name Only (pertinent for multiple Contact types) h) FEIN Only (R2 or R3 only) i) Assister ID Only j) Health Plan ID Only
Service Center Operations	General Requirement	43933	The System shall display additional contact details (including demographics, contact preferences, current status) and list of previous interactions (incident history), and attachments.
Service Center Operations	General Requirement	43934	The System shall provide a dialogue script to authenticate the contact based on predefined business rules (i.e. provide a dialogue script by contact type).
Service Center Operations	General Requirement	43935	The SCR shall be able to retrieve a list of open incidents generated via the Covered California’s email inbox for general inquiries (info@hbex.ca.gov) (e.g. ‘Fill my Inbox’ feature in RightNow pulls a certain amount of email incidents’ records for an agent to work on).
Service Center Operations	General Requirement	43937	The System shall execute a search and display contact information based on information received from IVR and delivered via softphone when call arrives to SCR.
Service Center Operations	General Requirement	43938	The System shall support the ability to track: a) Lead status b) Enrollment outcomes based on Lead activities c) Number of attempts

Category	Sub Category	Req ID	Requirement
Service Center Operations	General Requirement	43939	The System shall support the ability to track and maintain Opportunity statuses.
Service Center Operations	General Requirement	43940	The System shall support the ability to track Opportunity outcomes based on the Opportunity status. (Win/Lost, Lost Reason).
Service Center Operations	General Requirement	43941	The System shall populate knowledge base content, based on the chat subject.
Service Center Operations	General Requirement	43942	The System shall provide the ability for a Supervisor or Executive to generate ad-hoc reports and publish them as Public reports to CRM users.
Service Center Operations	General Requirement	43943	The System shall restrict a SCR from generating real-time productivity reports (Note: Business process shall include SCR productivity reports which are generated and scheduled on a weekly or monthly basis)
Service Center Operations	General Requirement	43944	The System shall provide the ability for a Supervisor or Executive to schedule reports
Service Center Operations	General Requirement	43945	The System shall provide the ability for a Supervisor or Executive to create dashboards
Service Center Operations	General Requirement	43946	The System shall provide the ability for a Supervisor or Executive to email reports
Service Center Operations	General Requirement	43947	The System shall report on number of individuals who filled out the contact us form and the subcategories (i.e. number of English).
Service Center Operations	General Requirement	43948	The System shall generate a report on number of opportunities created on a daily, weekly, and monthly basis.
Service Center Operations	General Requirement	43949	The System shall provide analytical reporting on opportunity win/loss results including percentage of win/loss, time to enrollment, and win/loss reason codes.
Service Center Operations	General Requirement	43950	The System shall report on number of pending opportunities on a daily, weekly, and monthly basis for purpose of managing opportunity pipeline.
Service Center Operations	General Requirement	43951	The System shall provide the telephone number to the Pinnacle Service Center and the Mini Call Center for Agents and CECs. This will replace the existing functionality of transferring the call to Pinnacle and Mini Call Center. The Caller will not be given the option to speak to an SCR. The Caller will be given the option to repeat the message.
Service Center Operations	General Requirement	43952	The System shall create and store a new Contact for: a) Individual b) Employee c) Employer d) Assister (need to determine if there is a difference between Assisters and grantees, and what differences to track) e) Agent/Broker f) QHP (Issuer)
Service Center Operations	General Requirement	43953	The System shall identify/associate Contact by Contact type.
Service Center Operations	General Requirement	43954	The system shall associate an Individual Customer with a Contact Type.
Service Center Operations	General Requirement	43955	The System shall provide the ability to change the contact type associated with an individual (e.g. an individual who is insured via their employer on the exchange, then changes job and is as an independent member on the exchange).
Service Center Operations	General Requirement	43956	The System shall conditionally capture information associated with the Contact for all of the Contact types associated with them.
Service Center Operations	General Requirement	43957	The System shall associate unique information associated with an individual's Contact record: a) First Name b) Middle Initial c) Last Name d) Zip Code e) ANI f) Address (need to confirm if we can store the address) g) Email Address h) Data Source (for batch uploads) i) Language Preference j) Preferred method of Communication (e.g. email, phone)

Category	Sub Category	Req ID	Requirement
Service Center Operations	General Requirement	43958	The System shall associate unique information associated with an employee's Contact record: a) First Name b) Middle Initial c) Last Name d) Zip Code e) ANI f) Address (need to confirm if we can store the address) g) Email Address h) Employer Name i) Language Preference j) Preferred method of Communication (e.g. email, phone)
Service Center Operations	General Requirement	43959	The System shall associate unique information associated with an assister's Contact record: a) Assister ID b) First Name c) Middle Initial d) Last Name e) ANI f) Email Address g) Assister Entity (the name of the company that the assister works for)
Service Center Operations	General Requirement	43960	The SCR shall retrieve document requests and/or information requests submitted via CoveredCA.com. CoveredCA.com provides customers with a pre-defined email form template to fill out. All incoming email from this channel will generate an incident record in RightNow.
Service Center Operations	General Requirement	43961	The System shall associate unique information associated with an employer's Contact record: a) Business Address b) Company Name c) ANI (or business phone) d) Email Address
Service Center Operations	General Requirement	43962	The System shall associate unique information associated with an issuer's (QHPs) Contact record: a) Business Address b) Company Name d) ANI (or business phone) e) Email Address
Service Center Operations	General Requirement	43963	The System shall associate unique information associated with an agent/broker's Contact record: a) Business Address b) Company Name c) ANI (or business phone) d) Email Address e) Agent/Broker ID (if available)
Service Center Operations	General Requirement	43964	The System shall collect unique identifiers specific to the Contact type.
Service Center Operations	General Requirement	43965	The System shall batch load Contact records from external systems.
Service Center Operations	General Requirement	43966	The System shall merge a Contact record (i.e. individual and employee).
Service Center Operations	General Requirement	43967	The System shall segment Contact's by demographic information, if available.
Service Center Operations	General Requirement	43968	The System shall prompt campaign related dialogue scripts to the SCR based on the DNIS number.
Service Center Operations	General Requirement	43969	The System shall segment Contact's by: a) the number the Contact dialed in on b) the DNIS number
Service Center Operations	General Requirement	43970	The System shall track a Contact's contact preferences.
Service Center Operations	General Requirement	43971	The System shall maintain a document request queue and/or an email request queue from CoveredCA.com (different from California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) inbound email queue).
Service Center Operations	General Requirement	43972	The System shall capture Contact status (i.e. Lead, Member).

Category	Sub Category	Req ID	Requirement
Service Center Operations	General Requirement	43973	The System shall capture different Contact status by Contact type based on pre-defined business rules.
Service Center Operations	General Requirement	43974	The System shall indicate “Do Not Contact” for customer.
Service Center Operations	General Requirement	43975	The System shall view the relationships between different contacts including: a) Employee/Employer relationship b) Individual/Assister relationship (if it exists) c) Employer/Agent/Broker relationship (if it exists)
Service Center Operations	General Requirement	43976	The System shall store basic demographic information, such as: a) Zip Code b) Date of Birth c) County d) Email Note: No SSN
Service Center Operations	General Requirement	43977	The System shall update demographic information directly in tool.
Service Center Operations	General Requirement	43978	The System shall sort incidents associated with a Contact by defined classifications (e.g. the Contact type under which the interaction occurred, the subject of the incident).
Service Center Operations	General Requirement	43979	The System shall view incidents/interactions related to a Contact in chronological order and the date/time associated with the incident/interaction.
Service Center Operations	General Requirement	43980	The System shall pre-populate approved email content from the Knowledge Base and send as outbound email communications to the customer from RightNow.
Service Center Operations	General Requirement	43981	The Vendor is required to provide the Equipment, Software, training, and Facilities to support the processing of high-volume, incoming mail, outgoing mail, and print processing functionality; specifically: A) Incoming Mail and Fax shall be: I) Scanned, tracked, and linked to the consumer application or case file in California Healthcare Eligiblity, Enrollment and Retention System (CalHEERS). II) Available online for review by multiple people III) Routed for the appropriate type of processing IV) Received Mail shall include the following sources: V) All mailed applications received at the central post office box – including attached customer verification and Documentation. VI) Undelivered/returned mail received at the central post office box. B) Incoming Email and Text messages shall be routed for the appropriate type of processing and/or to a specific Call Center Operator. I) Outgoing Correspondence shall be able to be generated dynamically or on-demand and be viewable through the presentation layer. California Healthcare Eligiblity, Enrollment and Retention System (CalHEERS) is expected to issue mailings in the following categories: II) Eligibility and Enrollment, including the request for individuals to verify key eligibility factors (e.g., income, household composition, residency, etc.) for the purposes of annual eligibility and enrollment renewal and reporting changes, if necessary. III) Plan Management, including annual eligibility review materials. IV) Financial Management including reports and notifications regarding premium payments and other financial transactions per user type. V) Have the ability for correspondence to be generated as: a) Print Media, which shall be bundled for printing and sent through the mail or faxed. b) Email, text messages, or online account notifications. VI) Print processing, which includes, but is not limited to, the printing of all notices, forms, letters, postcards, flyers, brochures, enrollment packages, and ad hoc mass mailings. Printed documents shall include basic black printing on white paper to full-color glossy multifold brochures and presentation materials.
Service Center Operations	General Requirement	43982	The System shall notify Pitney Bowes to send materials to a Contact and capture the date and timestamp of when the request was created via the incident record.
Service Center Operations	General Requirement	43983	The System shall restrict who can create and access fulfillment requests. Ability for all Service Center personnel to have the ability to create fulfillment requests, and track initiator. Fulfillment request statuses should only be updatable by Pitney Bowes.
Service Center Operations	General Requirement	43984	The System shall resolve and close a fulfillment request once all requested materials are sent.
Service Center Operations	General Requirement	43985	The System shall view a list of all of the available materials to send to a Contact. The list of available materials can be edited by a Business Administrator at any given time.
Service Center Operations	General Requirement	43986	The System shall select the specific materials to send to a Contact, and to send multiple materials to a Contact.
Service Center Operations	General Requirement	43987	The System shall document whether a Contact wants to receive the requested materials via physical mail or fax.

Category	Sub Category	Req ID	Requirement
Service Center Operations	General Requirement	43988	The System shall capture the appropriate Contact information to send a fax: a) First name b) Last name c) Fax number
Service Center Operations	General Requirement	43989	The System shall capture the appropriate Contact information to send a physical mail: a) First name b) Last name c) Address Line 1 d) Address Line 2 e) Address Line 3 f) City g) State h) Zip code
Service Center Operations	General Requirement	43990	Pitney Bowes shall be able to receive the transmission to send materials with all of the associated fulfillment details and acknowledge that request was received.
Service Center Operations	General Requirement	43991	Print/mail vendor shall be able to update the status of a fulfillment request: a) No Value b) Acknowledged c) Partial Fulfillment d) Sent e) Error
Service Center Operations	General Requirement	43992	The System shall associate a time and date on a fulfillment request with any change in status.
Service Center Operations	General Requirement	43994	The Vendor shall provide a Telecommunications Device for the Deaf (TDD) - Teletype (TTY) alternative phone number to provide service for hearing-impaired callers.
Service Center Operations	General Requirement	44011	The System shall search for existing contacts by combination of: a) Case ID b) Agent/Agent ID c) Agent name d) Assister numbers e) Agent numbers In addition to all of the search parameters captured in 3.1.1.1.
Service Center Operations	General Requirement	44012	The System shall search California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) records and RightNow records to provide all contact records available for the SCR.
Service Center Operations	General Requirement	44013	The System shall display search results for the purpose of identification including and if available: a) Case ID b) Agent/General Agent ID c) California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Status
Service Center Operations	General Requirement	44014	The System shall display additional contact information, in addition to that decided in 3.1.4.1, from California Healthcare Eligibility, Enrollment and Retention System (CalHEERS), including and if available: a) Application Status b) Plan Information c) Associated contacts: Dependents, Employees d) Appeals and Appeals Status
Service Center Operations	General Requirement	44016	The system shall associate the application status to a Contact record: a) individual b) employee c) employer
Service Center Operations	General Requirement	44017	The system shall identify potential duplicate Contacts within RightNow and California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) based on pre-defined business rules.
Service Center Operations	General Requirement	44018	The System shall make specific fields for a Contact's RightNow Contact record (individual, employee, employer) read-only for reconciled Contacts, if the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Contact record contains information for those fields. Updates to these fields will be systematically updated from California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) upon opening the RightNow Contact record.
Service Center Operations	General Requirement	44019	The System shall provide the ability for duplicate Contacts to be presented to the SCR so that necessary updates can be made and saved against the Contact record.
Service Center Operations	General Requirement	44020	If the contact doesn't exist in RightNow, but does exist in California Healthcare Eligibility, Enrollment and Retention System (CalHEERS), the System will create a new Contact record with basic contact information (based on the contact type) in RightNow.

Category	Sub Category	Req ID	Requirement
Service Center Operations	General Requirement	44021	The System shall segment Contact's by status if available: a) Eligibility b) Application c) Eligibility and Application d) Enrollment
Service Center Operations	General Requirement	44022	The System shall capture Application status and Eligibility information from California Healthcare Eligiblity, Enrollment and Retention System (CalHEERS) for a contact depending on data availability from California Healthcare Eligiblity, Enrollment and Retention System (CalHEERS).
Service Center Operations	General Requirement	44023	The CRM Shall provide the following but not limited to tracking reports: A) Abandonment Rate D) Average Speed of Answer E) On Hold Time
Service Center Operations	General Requirement	44024	The System shall track and Report RightNow interactions by Agent, Supervisor, Team, Site and Enterprise which include the following: a) Incidents Outstanding (Aging report) b) Record and track incidents in RightNow (number and duration) c) Track fulfillment request and confirmations d) Track out-bound dialing interactions e) Track contact creation f) Track call types via call arrival through the IVR g) Track Call types via Call typing by agent
Service Center Operations	General Requirement	44025	The System shall support ad hoc reporting.
Service Center Operations	General Requirement	44119	Provide entry point for gathering leads online via form on website. Modify current form.
Service Center Operations	General Requirement	44120	Provide the functionality to store contact information from leads including: 1. Individual or Small Business 2. Preferred Method of Contact 3. Fname 4. LName 5. Address 6. Telephone number 7. E-mail address 8. Business Name (show only if Small Business button selected) 9. How did you hear about us? 10. Preferred Language
Service Center Operations	General Requirement	44121	Provide the functionality to track how lead was gathered
Service Center Operations	General Requirement	44122	Provide the functionality to track the Lead within the Non-Consumer facing Form: 1. Date Entered 2. Date Lead Captured 3. Status
Service Center Operations	General Requirement	44123	Provide an external facing CRM web portal that allows consumers to self-identify themselves as a lead.
Service Center Operations	General Requirement	44124	Provide the functionality to receive leads from a variety of different sources including: -Covered California App -Covered California Website -Through an external facing CRM web portal
Service Center Operations	General Requirement	44125	Provide an internal facing CRM web portal that allows Covered California staff to identify and enter leads
Service Center Operations	General Requirement	44126	Provide the functionality to allow for a variety of different types of users including: Internal Covered California Staff by Department External Associates (Agents, Counselors, Educators, etc.)

Category	Sub Category	Req ID	Requirement
Service Center Operations	General Requirement	44127	Provide the functionality to store information about Covered California Organizations including: Organization Number Organization Type Organization Name Organization Phone Number Organization Street Address Organization State / City / Zip Organization Email Organization Contact Person First Name Organization Contact Person Last Name Organization Contact Person Email Organization Contact Person Phone Organization Description
Service Center Operations	General Requirement	44128	Provide the functionality to associate an Organization with leads
Service Center Operations	General Requirement	44129	Provide the functionality to store information about Covered California Advertising Campaigns including: Campaign ID Campaign Name Campaign Start Date Campaign End Date Campaign Organizer First Name Campaign Organizer Last Name Campaign Organizer Phone Campaign Organizer Email
Service Center Operations	General Requirement	44130	Provide the functionality to associate Advertising Campaigns with Leads
Service Center Operations	General Requirement	44131	Provide the functionality to collect information on the preferred method for how each lead wishes to be contacted for follow-up for additional information including: - Follow-up by Covered California Representative - Follow-up with email notifications from Covered CA -Follow-up with printed materials from Covered CA
Service Center Operations	General Requirement	44132	Provide the functionality to collect information on the preference mode for how each lead wishes to be contacted including: -Phone Call -Email -In-Person -Mail
Service Center Operations	General Requirement	44133	Provide the functionality to allow one (1) of the following Progress values to be assigned to each Opportunity: Expressed Interest Created Account Submitted Application Determined Eligibility Selected Plan for Enrollment Provide the functionality to allow one (1) of the following Status values to be assigned to each Opportunity: Open In-Progress Inactive Closed (Won) Closed (Lost) Provide the functionality to allow a Win/Loss Reason value to be assigned to each Closed Opportunity.
Service Center Operations	General Requirement	44134	Provide the functionality to allow a lead to identify a primary language preference from the 13 threshold languages and any other language as requested by Covered California
Service Center Operations	General Requirement	44135	Provide the functionality to allow a lead to identify if they are one of the following: -Individual / Family -Small Business
Service Center Operations	General Requirement	44136	Provide import/export functionality that allows users to upload multiple leads through a manual import

Category	Sub Category	Req ID	Requirement
Service Center Operations	General Requirement	44137	Support the ability to input a batch of leads (from a source like pre-load files).
Service Center Operations	General Requirement	44138	Support the ability to input an individual lead into the system manually.
Service Center Operations	General Requirement	44139	Support the ability to update Lead profile based on interaction.
Service Center Operations	General Requirement	44140	Provide functionality to prioritize leads captured based upon business rules: • First Name • Last Name • Language Preference • Zip Code • Preferred Method of Contact • Contact information that correlates with preferred method of contact • Went through “Shop and Compare tool” process Description- Opportunity Score- Manual or Automatic Lead requests an application- Medium- Manual Lead expressed interest in a program or product but did not enroll- Low- Manual Lead responds to a campaign- Low Lead is deemed exchange eligible by Quicksort- High- Currently manual-potentially automatic Lead received from California Agency- Medium- Automatic Lead initiated but did not submit an application- Medium- Manual Lead requests to be contacted in the future- High- Proposed automatic Lead is referred by a grantee- High- Proposed for automatic Lead is eligible for special enrollment- High- Manual Lead submitted an application but did not enroll in a plan- High- Manual Member is up for enrollment renewal- High- Manual Lead loses coverage from employer- High - Manual Lead is brought into system through Expiring Health Programs- High - Manual
Service Center Operations	General Requirement	44141	Provide the functionality to automatically qualify a lead as a "Contact" based upon business rules: • Automatically qualifying a lead as a contact should occur if the contact information consists of First Name, Last Name, and Contact Information
Service Center Operations	General Requirement	44142	Provide the functionality to allow administrative users the ability to override the automatic system qualification of a lead
Service Center Operations	General Requirement	44143	Support the ability to use assessment to generate Lead score.
Service Center Operations	General Requirement	44144	Provide the functionality to assign the Lead with Non-Consumer facing Form (continued): -Lead Assigned To
Service Center Operations	General Requirement	44145	Provide the functionality to score each "Contact" opportunity
Service Center Operations	General Requirement	44146	Provide the functionality to assign each "Contact" opportunity to the following roles based on business rules: Certified Enrollment Entity Agent Sales Entity Role: Distribution Rules for CEEs • Language • Zip Code • Round Robin distribution to organizations in the zip code - o Number of leads each org gets is based on lead to sales force ratios. - o 5 leads per day per salesperson they have on staff. • If Zip Code orgs are unavailable, lead should go to nearest zip code orgs within a 10-mile proximity. • If orgs within 10 miles are not available of the lead, the leads should go to nearest county sales orgs. Role: Distribution Rules for Certified Agent Orgs • If an EE is not available, the "Opportunity" should go to Agents using a round robin distribution based on date of California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Certification in CRM System and Language

Category	Sub Category	Req ID	Requirement
Service Center Operations	General Requirement	44147	Prioritize leads to work based on lead status (Opportunity Status, Progress, and Assignment).
Service Center Operations	General Requirement	44148	Support the ability to edit assigned Lead profile.
Service Center Operations	General Requirement	44149	Support the ability to assign a lead(s) to a group/automated action based on pre-determined rules.
Service Center Operations	General Requirement	44150	Support the ability to assign and re-assign ownership of a Lead.
Service Center Operations	General Requirement	44151	Support the ability for a supervisor to reassign a Lead to another SCR.
Service Center Operations	General Requirement	44152	Provide ability to track how many times a Lead is contacted and identify the date and notes associated with each contact.
Service Center Operations	General Requirement	44153	Provide functionality to run a variety of reports including the ability to run ad-hoc reports
Service Center Operations	General Requirement	44154	Provide the ability to re-distribute "Contact" opportunities
Service Center Operations	General Requirement	44155	Provide the ability to update a "Contact: file by adding notes and tracking the dates of each note throughout the life of that "Contact".
Service Center Operations	General Requirement	44156	Support the ability to update Opportunity Status, Progress, and Assignment based on source or Service Center interaction.
Service Center Operations	General Requirement	44157	Support the ability to document notes and outcomes of interaction with Lead.
Service Center Operations	General Requirement	44158	Support the ability to track and maintain Opportunity Progress. Default RightNow fields include: Expressed Interest Created Account Submitted Application Determined Eligibility Selected Plan for Enrollment
Service Center Operations	General Requirement	44159	Allow the owner of a Lead, their supervisor, SCRs, CCLAs, and Marketing Managers to edit an Opportunity Record. Allow the CCLA and Marketing Manager may always edit Opportunity Assignment.
Service Center Operations	General Requirement	44160	Support the ability for a user to receive updates on Leads assigned to them. E-mail notification templates to users who receive leads: • “Covered CA has sent you [XXX] leads. Please distribute among your sales force within two business days or your leads may be re-assigned another member of the Covered CA Sales Force.”
Service Center Operations	General Requirement	44161	Support the ability for a Lead task to include due date.
Service Center Operations	General Requirement	44162	Support the ability to create aging rules for reminders. User- Lead Status- Reminder to- CRM System Message- Reminder Schedule CRM System- Open- Business Analyst-“Distribute leads to LME’s”-Upon receipt of leads LME- Assigned to Sales Orgs- EEO Admins/Sales Execs- “Distribute leads to your Sales staff”- Upon receipt of leads Sales Org- Assigned to CEC/Agent- CEC/Agent- “You have new leads!”- Immediately when leads are assigned Sales Org/CEC/Agent Contacted Sales Org/CEC/Agent In Progress Sales Org/CEC/Agent App Started Sales Org/CEC/Agent Plan Selection Pending Sales Org/CEC/Agent Closed CRM System- Inactive- EEO- “[XXX] leads are about to become Inactive” - 4 days after a lead shows no progress CRM System- Dead-EEO/CCLA-“[XXX] leads are about to become Dead.” - 9 days after a lead shows progress
Service Center Operations	General Requirement	44163	Support the ability for an Opportunity to be re-assigned/re-distributed based on aging criteria. Lead Redistribution will occur for the following reasons: • Dead • Inactive • Declined by Sales Organization • Incorrectly assigned If a lead Redistribution should be needed, it will follow the same distribution rules as a new lead; accept that it will not go to the same sales organization that it was recalled from.

Category	Sub Category	Req ID	Requirement
Service Center Operations	General Requirement	44164	Set alerts to roles (e.g. supervisor, manager) in relation to task due date
Service Center Operations	General Requirement	44165	Systematically set follow-up reminder/task.
Service Center Operations	General Requirement	44166	Support the ability to track: - Lead status - Enrollment outcomes based on Lead activities - Number of attempts
Service Center Operations	General Requirement	44167	Support the ability to track Opportunity outcomes based on the Opportunity status. (Win/Lost, Lost reason).
Service Center Operations	General Requirement	44168	Support the ability for a user to indicate date completed on Lead task.
Service Center Operations	General Requirement	44169	The System shall search contacts by: - Lead status - Language
Service Center Operations	General Requirement	44170	Provide the ability to close a contact opportunity for a variety of reasons including: -Contact Enrolled -Contact Non-Responsive
Service Center Operations	General Requirement	44171	Provide the functionality to reopen a closed "Contact" opportunity
Service Center Operations	General Requirement	44172	Generate reports based on: - Lead status - Customer Segmentation - Language
Service Center Operations	General Requirement	44173	The System shall support the ability for a user to view report of Opportunity history/status (open, closed, etc.).
Service Center Operations	General Requirement	44174	The System shall support the ability to view create Opportunity views including: a) Supervisor view of all incidents by team (i.e. for Lead) b) Supervisor view of all teams (by team) (i.e. for Manager Level 1) c) Command Center view of everything
Service Center Operations	General Requirement	44218	CoveredCA Toll Free Number (TFN) 855-312-8161 will be disassociated from its hunt group destination in the Cisco Call Manager
Service Center Operations	General Requirement	44219	A new ACD skill for Callback Queuing will be established in the Call Manager
Service Center Operations	General Requirement	44220	SCRs currently assigned to the Callback Queue hunt group will be removed from that group and reassigned to the new ACD Callback Queuing Skill
Service Center Operations	General Requirement	44221	Inbound calls for TFN 855-312-8161 will be routed to the new ACD Callback Queuing Skill, with the appropriate greeting, time-of-day and holiday routing, and after hours messaging.
Service Center Operations	General Requirement	44222	Calls to the 855-312-8161 will remain in the Callback Queuing Skill queue until answered or abandoned, and will not overflow to any other skill group or queue in the CoveredCA Service Centers.
Service Center Operations	General Requirement	44223	Need English and Spanish language queues associated with the Callback Queuing Skill. English and all non-English (except Spanish) calls go to the English queue and Spanish only calls go to the Spanish queue.
Service Center Operations	General Requirement	44227	The IVR Call Flow must be update to announce the correct County Phone Number when the zip code entered crosses multiple counties. Information must be presented in both English and Spanish.
Service Center Operations	General Requirement	44228	The Vendor must add Cantonese language to all call flows and self-service of the IVR. All messaging will be the same as the exisitng English and Spanish versions.
Service Center Operations	General Requirement	44229	The IVR must allow the Cantonese speaking caller to navigate through all IVR option and listen to all messages in Cantonese. All messaging and options will be the same as the English and Spanish version.
Service Center Operations	General Requirement	44230	The IVR must provide all self-service functionality to the Cantonese speaking caller including: authentication, case/application status, plan information, premium amount, and plan effective dates.
Service Center Operations	General Requirement	44231	The IVR must provide the functionality for the Cantonese speaking caller to hear the same message as the English and Spanish speaking caller, in Cantonese, if they call the general number (1-800-300-1506) or the Cantonese number (1-800-339-8938).
Service Center Operations	General Requirement	44232	The IVR must provide the same options, etc... for the Cantonese speaking caller as the English and Spanish speaking caller, in Cantonese, if they call the general number (1-800-300-1506) or the Cantonese number (1-800-339-8938).
Service Center Operations	General Requirement	44233	Skill based routing for the Cantonese caller must be updated as these calls currently default to an SCR.

Category	Sub Category	Req ID	Requirement
Service Center Operations	General Requirement	44234	The IVR System must route incoming calls to Service Center Representatives who possess the skill level needed to complete the call. Routing is based on the path taken by the Customer in the IVR Call Flow.
Service Center Operations	General Requirement	44235	The IVR System must route the incoming call to a Service Center Representative (SCR) with a higher skill level, when there are no SCRs available with the assigned level needed.
Service Center Operations	General Requirement	44236	The IVR must provide the functionality and provisioning for identified staff to make updates to SCR skill levels and assignments. Over time, SCRs will acquire new skills and increase their skill level for each of the Call Types. Identified Covered CA staff will need to be given the ability to make changes to staff skill assignment.
Service Center Operations	General Requirement	44237	"The IVR System must be able to recognize the following call types and their associated skill levels: 1. Skill Level 1 - QHP Hotline 2. Skill Level 2 - New to Covered CA 3. Skill Level 2 - Renewing your enrollment with Covered CA 4. Skill Level 2 - Report a change to your account 5. Skill Level 2 - Special Enrollment 6. Skill Level 2 - Callback queue 7. Skill Level 3 - Need help accessing your online account 8. Skill Level 3 - Status of Applicaion - Covered CA 9. Skill Level 4 - Status of Applicaion - Medi-Cal 10. Skill Level 4 - Questions about a letter 11. Skill Level 4 - CEE/CEC/Agent 12. No Change to existing routing - Languages"
Service Center Operations	General Requirement	45040	The Vendor Service Center staff shall be available 24 hours a day, 7 days a week via the contracted onsite support hours or the after hour escalation process.
Service Center Operations	General Requirement	48404	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall trigger the creation of Renewal BPM cases for the enrollments that are not renewed successfully for the next year by Affordability Crosswalk and Catastrophic Age Out batches.
Service Center Operations	Plan and Benefit Assistance		
Service Center Operations	Plan and Benefit Assistance	38762	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) system shall change operating hours for QHP (Qualified Health Plan) queue to be independent of the main IVR.
Service Center Operations	Reports		
Service Center Operations	Reports	44026	"Cisco Courtesy Callback shall provide reporting functionality to identify and flag call types related to CCB options selected in the IVR."
Status Reporting			
Status Reporting	General Requirement		
Status Reporting	General Requirement	44295	The Vendor shall help prepare for and participate in periodic and ad-hoc meetings and presentations to Exchange, County, State and Federal Stakeholders, workgroups, and other committees regarding Project plans, status, risks, issues and recommendations, as appropriate.
Status Reporting	General Requirement	44310	The Vendor shall prepare and participate in Quarterly Balanced Scorecard Reviews to provide the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Steering Committee with tangible evidence regarding the overall progress and health of the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Project.
Status Reporting	General Requirement	44321	As part of normal ongoing status reporting, the Vendor must: A) Conduct weekly status meetings with Vendor and State California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Project Team managers; other attendees may include but not be limited to Exchange PMO, QA, IV&V and oversight consultants. The Vendor shall commit to storing written status meeting records, in a format agreed to, within two (2) business days of the weekly status meeting B) Provide Weekly Status Reports at least 24 hours prior to the status meeting C) Lead and/or participate in standing status or committee meetings with Exchange Project staff, Exchange and State staff and QA, IV&V and oversight consultants.
Technical			
Technical	General Requirement		
Technical	General Requirement	40238	Code merge of Agile pilot effort to current codebase(CR 128570)
Technical	General Requirement	40239	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall merge the ROP config screen changes developed as part of CR 128570 into California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) current active code stream
Technical	General Requirement	40240	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall merge the batch changes (31A, 31C and 31B) developed as part of CR 128570 into California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) current active code stream
Technical	General Requirement	40241	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall update batch 31C to apply the filters as per the configuration page on the cases retrieved by 31A and update 31B to process the filtered cases for ROP processing
Technical	General Requirement	40242	Following existing ROP defects will be addressed as part of this CR 118210, 123545, 124091, 124089, 124092, 124452, 143657, 146134, 151530, 123830
Technical	General Requirement	45676	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Technology Refresh - Oracle to RDS Aurora PostgreSQL Database - Database - Configuration

Category	Sub Category	Req ID	Requirement
Technical	General Requirement	45677	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall provide infrastructure for production and non-production environments for database migration
Technical	General Requirement	45678	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall install databases for production and non-production environments
Technical	General Requirement	45679	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall setup high availability for Production and Load Test Environments
Technical	General Requirement	45680	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall setup additional environment for performance test with production data
Technical	General Requirement	45681	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) database system shall complainace with security pocilies defined by project
Technical	General Requirement	45682	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) database system shall complainace with data rentention pocilies defined by project
Tools			
Tools	Enrollment		
Tools	Enrollment	49020	California Healthcare Eligiblity, Enrollment and Retention System (CalHEERS) shall employ Optimizely, an A/B testing platform, to facilitate configuration-based experiments for variants defined by modifications in screen display. These variants will encompass changes to the presentation of screen elements, including their display attributes, labels, and values.
Tools	Enrollment	49021	California Healthcare Eligiblity, Enrollment and Retention System (CalHEERS) shall setup the Optimizely Account.
Tools	Enrollment	49022	California Healthcare Eligiblity, Enrollment and Retention System (CalHEERS) shall configure Optimizely to accept requests from the California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) application.
Tools	Enrollment	49023	California Healthcare Eligiblity, Enrollment and Retention System (CalHEERS) shall update the California Healthcare Eligiblity, Enrollment and Retention System (CalHEERS) application to enable integration with Optimizely, allowing it to send and receive experimentation variations.
Tools	Enrollment	49024	California Healthcare Eligiblity, Enrollment and Retention System (CalHEERS) shall create, develop, and configure the selected use case within Optimizely.
Tools	Enrollment	49025	California Healthcare Eligiblity, Enrollment and Retention System (CalHEERS) shall develop custom tagging of the use case in BR 1.4 for metrics reporting.
Tools	General Requirement		
Tools	General Requirement	39903	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall remove all Google Analytics code/tags/events on Certified Enrollers webpage (Covered CA Home > Find Help > Certified Enrollers webpage (https://apply.coveredca.com/hix/broker/search?anonymousFlag=Y&recordType=null&recordId=null&lang=en)).
Tools	General Requirement	39904	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add Google Tag Manager (GTM) on Certified Enrollers webpage (Covered CA Home > Find Help > Certified Enrollers webpage (https://apply.coveredca.com/hix/broker/search?anonymousFlag=Y&recordType=null&recordId=null&lang=en)).
Tools	General Requirement	39905	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall add the following elements to data layer. 1. pageName 2. pageCategory 3. referringPageUrl 4. destinationPageUrl 5. userRole 6. userDetailedRole 7. userSignin 8. getInsuredTool: 9. caseID 10. applicationID
Tools	General Requirement	40159	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall upgrade Adobe Lifecycle to Adobe Experience Manager 6.5
Tools	General Requirement	40160	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall support All existing notices with Adobe Experience Manager 6.5
Tools	General Requirement	40161	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall generate all supported language notices in Adobe Experience Manager 6.5
Tools	General Requirement	40162	California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) shall conduct/review performance of notices generated with Adobe Experience Manager 6.5
Tools	General Requirement	45029	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System database shall provide automatic replication and synchronization of table updates to multiple databases.
Tools	General Requirement	45030	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System database shall provide standard query language (SQL) capabilities for database queries.
Tools	General Requirement	45031	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall have a purge utility for removing records at a user-configurable time and criteria.
Tools	General Requirement	45032	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall have the ability for remote network monitoring and administration of all applications.
Tools	General Requirement	45033	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide archive and archive retrieval tools.
Tools	General Requirement	45034	The Vendor shall provide the necessary industry standard tools and technologies to support deployment, runtime operations, administration, monitoring, alerting and on-demand provisioning of resources.
Tools	General Requirement	45035	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Data Layer shall include industry standard tools and technologies to support design, development, testing (e.g., functional, load and performance), runtime management and monitoring of all information Systems.
Tools	General Requirement	45041	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) environments shall provide necessary tools and technologies for development, deployment, runtime, operations, administration and governance of the shared services.
Tools	General Requirement	45045	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall utilize standard e-mail protocols. (e.g. IMAP, MAPI, POP3, SMTP, etc.).

Category	Sub Category	Req ID	Requirement
Tools	General Requirement	45046	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide toolsets to accommodate the following: A) Database maintenance B) Report design and generation C) Application security administration D) interface design E) System upgrade administration F) API maintenance; and G) Archiving/purging of data.
Tools	General Requirement	45048	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide an Interactive Voice Response (IVR) System.
Tools	General Requirement	45049	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall integrate error messages with on-line help function.
Tools	General Requirement	45050	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall include an industry standard Customer Relationship Management tool.
Tools	General Requirement	45051	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Service Layer shall include the necessary industry standard tools and technologies such as web/application server, web services environment (e.g., SOAP engine), technology (e.g., Java/JEE, .NET) runtime environment, integration adapters to implement and provide runtime environment for California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) web services.
Tools	General Requirement	45052	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Service Layer shall include the necessary industry standard tools and technologies to support end-to-end lifecycle phases such as analysis, design, implementation, discovery, runtime environment, management and monitoring of web services.
Tools	General Requirement	45053	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Business Process Layer shall include Business Process Management System (BPMS) based on open standards (e.g., BPMN, WS-BPEL, WSDL, XML) to implement end-to-end business process lifecycle phases such as analysis and modeling, implementation, runtime management and monitoring and process optimization.
Tools	General Requirement	45054	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) Business Process Layer shall include tools and technologies to support effective Business Activity Monitoring (BAM) and reporting of various business performance matrices.
Tools	General Requirement	45056	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall include industry standard tools to implement the web portal, IVR and fax interfaces.
Tools	General Requirement	45059	The Vendor shall configure all fax servers to apply a unique identifier (e.g., document number) to each application and all related application materials for each specific application.
Tools	General Requirement	45060	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall support sending email messages.
Tools	General Requirement	45064	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall maintain a System-wide calendar, which can be updated on-line by the user, for production scheduling.
Tools	General Requirement	45066	The Vendor shall provide all the necessary industry standard tools and technologies to support all storage requirements including, but not limited to: file storage, content management, data warehouse, business intelligence, and reporting, relational database, business rules repository, identity storage, and certificate storage.
Tools	General Requirement	45068	The California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) System shall provide a configuration management tool.
Tools	General Requirement	45081	Accenture shall Provide (8) Quick Test Professional (QTP) licenses to the state.
Tools	General Requirement	45112	Accentrue shall provide (1) 4 hour class on the QTP product
Tools	General Requirement	45113	Accenture shall provide (80) hours of ongoing as need / one on one QTP product support.
Training			
Training	General Requirement		
Training	General Requirement	43475	Training content shall include information covering but not limited to: A) Core functionality available from the web portal; B) “Backend” reporting and data extraction such as xml that can then be used and combined with Non-MAGI Medi-Cal enrollment data, performance data on workflow completion timeframes and volume; C) How workflow is related to California Healthcare Eligibility, Enrollment and Retention System (CalHEERS) functionality – where paper /System interfaces are required; D) How and what Systems interface with California Healthcare Eligibility, Enrollment and Retention System (CalHEERS)
Training	General Requirement	43476	The Vendor shall provide an approach and services for Statewide training development and delivery for all Exchange user/customer types. Responsibilities include all aspects of training on a Statewide basis, including but not limited to providing training Facilities (if needed), Equipment, materials, organization, logistics, and staffing. Training must be tailored specifically for each user group within the scope of California Healthcare Eligibility, Enrollment and Retention System (CalHEERS).
Training	General Requirement	43477	The Vendor shall develop training materials, curriculum and courses in support of its overall training approach.
Training	General Requirement	43478	The Vendor shall develop work instructions and procedures for training.
Training	General Requirement	43479	The Vendor shall determine the delivery method (Instructor-Led, Web-Based, Workshop) that is most appropriate for the Users and develop the materials accordingly.
Training	General Requirement	43481	The Vendor shall conduct training for each new System release or major feature addition or change, as requested per the Change Request Process. Training related to changes to baseline scope would require a change request.
Training	General Requirement	43482	The Vendor shall provide training to users Statewide. Training shall be tailored for each user group by functional role within the scope of California Healthcare Eligibility, Enrollment and Retention System (CalHEERS).

Category	Sub Category	Req ID	Requirement
Training	General Requirement	43483	The Vendor shall propose and provide training using a variety of delivery methods, to include but not limited to: A) Face-to-face / Direct Delivery – formal class sessions, lectures, hands-on demonstrations and examples; B) On-line; C) Hardcopy training materials and reference materials; D) Computer Based Training; E) Other innovative methods
Training	General Requirement	43484	The Vendor shall provide training Facilities (if proposed) that will include: A) Provide adequate space and Equipment; B) Facilitate the training of staff Statewide; C) Accommodate the volume of trainees
Training	General Requirement	43495	The Vendor shall commit to full responsibility of training through the terms of: A) System development; B) System Implementation; C) Operations and Maintenance
Transition Management			
Transition Management	General Requirement		
Transition Management	General Requirement	44074	The Vendor shall continue to maintain and update Documentation in the electronic library through the end of the Term.

APPENDIX B FORMS

APPENDIX B – FORMS

This appendix contains all forms and attachments referred to in the Office of Technology & Solutions Integration (OTSI) California Healthcare Eligibility, Enrollment, and Retention System (CalHEERS) System Development, Maintenance and Operations (SDMO) Request for Proposal (RFP) #73040873. Bidders should carefully review each section of the RFP to identify/review the submission requirements related to each form provided within Appendix B, FORMS.

Please note, links are provided as a courtesy. Therefore, the State makes no guarantee the links provided are currently valid. Bidders should visit the appropriate State web site for the current location to ensure compliance with a requirement.

TABLE OF CONTENTS

APPENDIX B-1: BIDDER QUESTIONS AND/OR REQUEST FOR CHANGES

In order to submit questions or to submit a request for change, you must obtain a User ID and password for SharePoint. Bidders must sign and submit Appendix B-4, CONFIDENTIALITY STATEMENT FORM and Appendix B-5, ACCESS AUTHORIZATION FORM to the Procurement Official.

It is the bidder's responsibility to provide the Procurement Official the required documentation to obtain a User ID and password for SharePoint access. The bidder must identify a single point of contact, email, street address, and phone number. The User ID, password and instructions will be provided to the single company contact within five (5) State business days after receipt of required documentation.

This will be the sole method for bidders to submit RFP questions, clarifications, and/or request for change. If questions, clarifications, and/or request for change are submitted using another method, bidders will be redirected to the SharePoint site.

APPENDIX B-2: PROPOSAL SUBMISSION CHECKLIST

Compliance Criteria
Has your Company submitted the following pre-proposal information? (See Section 1, INTRODUCTION AND OVERVIEW)
☐ Form B-3: Intent to Bid Form ☐ Form B-4: Confidentiality Statement Form ☐ Form B-5: Access Authorization Form
Does your Proposal follow the format specified in Section 8, PROPOSAL FORMAT?
☐ Packaged and labeled as identified ☐ Provided in the number of copies and formatted as identified ☐ Provided in the format as identified ☐ No cost data provided in any volumes, except Volume III
Is your Proposal provided in the following order, as identified in Section 8, PROPOSAL FORMAT?
Volume I – Response to Administrative and Bidder Requirements
Section 1 – Cover Letter and Executive Summary (see Section 5, ADMINISTRATIVE REQUIREMENTS)
☐ Table of Contents, Table of Tables, and Table of Figures ☐ Cover letter with original signature and information ☐ Executive Summary
Section 2 – Administrative Response (see Section 5, ADMINISTRATIVE REQUIREMENTS)
☐ Appendix B-6: Response to Administrative Requirements Form ☐ Appendix B-7: Workers' Compensation Certification Form ☐ Appendix B-8: GSPD-05-105 Bidder Declaration Form ☐ Appendix B-9: STD 843, Disabled Veteran Business Enterprise (DVBE) Declarations Form ☐ Appendix B-10: Bidding Preferences and Incentives Form ☐ Appendix B-11: Commercially Useful Function (CUF) Certification Form ☐ Appendix B-12: Secretary of State Certification ☐ Appendix B-13: Seller's Permit ☐ Appendix B-14: Payee Data Record Form ☐ Appendix B-15: Iran Contracting Act of 2010 Form ☐ Appendix B-16: Federal Debarment, Suspension, Ineligibility and Voluntary Exclusion - Certification Form ☐ Appendix B-17: California Civil Rights Laws Certification ☐ Letter of Bondability ☐ Appendix B-24: CalHEERS Artificial Intelligence Risk Assessment Form
Section 3 – Bidder Response
See Section 5, ADMINISTRATIVE REQUIREMENTS
☐ Appendix B-18: Statement of Compliance with SOW Requirements Form
See Section 6, BIDDER REQUIREMENTS
☐ Appendix B-19: Bidder (Company) Qualifications Instructions & Form(s)
☐ Appendix B-20: Bidder (Company) Reference Form(s)
☐ Appendix B-22: Key Staff Qualifications Form(s) (for each required Key Staff)
☐ Appendix B-23: Staff Reference Form(s)
☐ Bidder Responses to the Understanding & Approach Requirements
Volume II – Completed Contract
☐ Appendix A, STD 213 IT, Standard Agreement
☐ Entire copy of Appendix A-1, General Provisions - Information Technology
☐ Entire copy of Appendix A-2, CALHEERS SDMO Special Provisions
☐ Entire copy of Appendix A-3, CalHEERS SDMO Additional Federal Provisions
☐ Entire copy of Appendix A-4, Statement of Work
Volume III – Cost Data
☐ Appendix D - Cost Workbook
☐ Additional Cost Data

The State makes no warranty that the checklist is a full and comprehensive listing of every requirement specified in the solicitation. Checking off the items on the checklist does not establish your Company's intent nor does it constitute responsiveness to the requirements. The checklist is only a tool to assist participating bidders in compiling the Final Proposal response. Bidders are encouraged to carefully read the entire solicitation. The need to verify all documentation and responses prior to the submission of Final Proposals cannot be over emphasized.

APPENDIX B-3: INTENT TO BID FORM

Office of Technology & Solutions Integration

Send the this form to the Procurement Official (Alina Corpus) at:

CalHEERSProcurement@otsi.ca.gov

Select one:

_____ We intend to submit a bid and have no problem with the RFP Requirements.

_____ We intend to submit a bid but have one or more problem(s) with the requirements for the reason(s) stated below.

_____ We do not intend to submit a bid for reason(s) stated below and have no problem with the RFP Requirements.

_____ We do not intend to submit a bid for reason(s) stated below and have one or more problem(s) with the RFP Requirements.

Include reasons (as applicable):

The individual to whom all information regarding this RFP shall be transmitted is:

Name:			
Address:			
City, State and ZIP Code:			
Telephone:		FAX:	
Email:			

Sincerely,

_____ Signature	_____ Date
_____ Name and Title of Authorized Representative	_____ Telephone
_____ Company Name	_____ Street Address, City, State, Zip

APPENDIX B-4: CONFIDENTIALITY STATEMENT FORM

As an authorized representative and/or corporate officer of the company named below, I agree that all persons employed by this company will adhere to the following policy:

All information belonging to the Office of Technology & Solutions Integration (OTSI), or their affiliated agencies is considered sensitive and/or confidential and cannot be disclosed to any person or entity that is not directly approved to participate in the work required to execute this Contract.

I certify that I will keep all California Healthcare Eligibility, Enrollment, and Retention System (CalHEERS) Project information, including, but not limited to information concerning the planning, processes, development or procedures of the Project, and all communication with the OTSI or its affiliates derivative of any procurement process, confidential and secure. I will not copy, give or otherwise disclose such information to any other person unless the OTSI has on file a Confidentiality Statement signed by the other persons, and the disclosure is authorized and necessary for the Project.

I understand that the information to be kept confidential includes, but is not limited to, specifications, administrative requirements, terms and conditions, concepts and discussions, as well as written and electronic materials. I further understand that if I leave this Project before it ends, I must still keep all Project information confidential. I agree to follow any instructions provided by the Project relating to the confidentiality of Project information.

I fully understand that any unauthorized disclosure I make may be the basis for civil or criminal penalties and/or disciplinary action (for state employees). I agree to advise the contract manager immediately in the event of an unauthorized disclosure, inappropriate access, misuse, theft or loss of data.

All materials provided for this Project, except where explicitly stated will be promptly returned or destroyed, as instructed by an authorized OTSI representative. If the materials are destroyed and not returned, a letter attesting to their complete destruction which documents the destruction procedures must be sent to the contract manager at the OTSI before payment can be made for services rendered. In addition, all copies or derivations, including any working or archival backups of the information, will be physically and/or electronically destroyed within five (5) calendar days immediately following either the end of the contract period or the final payment, as determined by the OTSI.

All personnel assigned to this project shall be provided a Confidentiality Statement and will be expected to sign and return it to the representative listed below before beginning work on this project.

Name:	
Title:	
Company Name:	
Street Address:	
City / State / Zip Code:	
Signature / Date:	
Contact Phone #:	
Email Address:	

APPENDIX B-5: ACCESS AUTHORIZATION FORM

This form will provide a single company contact a User ID and password for access to SharePoint in order to submit questions, to submit a request for change, and access to the Bidders' Library.

Bidders submitting a question or request for change will require access to SharePoint.

This also provides access to the Bidders' Library. The Bidders' Library is provided to help bidders understand the scope of the California Eligibility, Enrollment and Retention System (CalHEERS) System Development, Maintenance and Operations (SDMO) Request for Proposal (RFP) and prepare a proposal response to the OTSI CalHEERS M&O RFP #73040873.

The content of the Bidders' Library includes detailed information on current CalHEERS services and background on CalHEERS.

All requirements, terms, conditions, rules, and instructions are included or referenced in the solicitation.

Bidders are not required to review the supplemental information but are strongly encouraged to do so. Items in the Bidders' Library may be updated at any time; therefore, bidders are advised to check for periodic updates.

The State does not guarantee the accuracy or the relevancy of the supplemental information and any of the supplemental information relied upon is at the bidder's risk.

To request access, please read the following and submit the information requested:

- Fill out the information below for the individual to whom access information is requested:
- The Confidentiality Statement Form must also accompany this request form in order to receive authorization.

Name:	
Title:	
Company Name:	
Street Address:	
City/State/Zip Code:	
Signature / Date:	
Contact Phone #	
Email Address	

Within five (5) business days upon receipt of this form, an Email will be generated providing a user identification (ID), a password, and Bidders' Library access instructions.

APPENDIX B-6: RESPONSE TO ADMINISTRATIVE REQUIREMENTS FORM

Bidder shall indicate agreement to each of the Administrative Requirements as presented in Section 5 of RFP #73040873. By responding with a “Yes” the bidder confirms that it:

- Read the individual requirements within each section of the Administrative Requirements identified below,
- Understands each individual requirement within each section of the Administrative Requirements, and
- Agrees to comply with each individual requirement within each section of the Administrative Requirements.

Bidders’ responses of a blank or a “No” answer for any mandatory requirement will be cause for the proposal to be deemed nonresponsive. Failure to provide a response to each mandatory requirement, where indicated, may result in disqualification.

RFP 5 Section	RFP 5 - Section Title	Admin. Req. #	Bidder Agrees (Y/N)
5.2	Confidentiality (M)	A1, A2	
5.3.1	Consumer In-Use (M)	A3

APPENDIX B-8: GSPD-05-105 BIDDER DECLARATION FORM

A copy of the GSPD-05-105 Bidder Declaration and its instructions is available as a fill and print PDF at:

<https://www.documents.dgs.ca.gov/dgs/fmc/gsp/pd/gspd05-105.pdf>

APPENDIX B-9: STD 843 DVBE DECLARATIONS FORM

A copy of the STD 843 Disabled Veteran Business Enterprise Declarations (DVBE) and its instructions is available as a fill and print PDF at:

https://www.documents.dgs.ca.gov/dgs/fmc/gsp/pd/pd_843.pdf

APPENDIX B-10: BIDDING PREFERENCES AND INCENTIVES FORM

ALL BIDDERS: COMPLETE ALL SECTIONS BELOW AND SUBMIT WITH YOUR PROPOSAL.

SMALL BUSINESS PREFERENCE

Bidder must check the appropriate box from the choices below.

- ☐ I am a DGS certified Small Business and claim the Small Business Preference. My DGS Small Business certification number is: _____ Expires on: _____
- ☐ I have recently filed for DGS Small Business preference but have not yet received certification, but I am claiming the Small Business preference.
- ☐ I am not a DGS certified Small Business, but 25% or more of the revenue from the award will go to DGS certified Small Business Subcontractors performing a Commercially Useful Function and therefore I am claiming the preference.

Bidder must complete and submit Form B-8: GSPD-05-105 Bidder Declaration Form, indicating the percentage of the revenue that will be received by each DGS certified Small Business Subcontractor. The form can also be found at the following link:

<https://www.documents.dgs.ca.gov/dgs/fmc/gspd/gspd05-105.pdf>

- ☐ I am not claiming the DGS Small Business preference.

DVBE INCENTIVE

Bidder must check the appropriate box from the choices below.

- ☐ I am a DGS certified DVBE. A copy of my STD. 843 form is attached.
- ☐ I have recently filed for DGS DVBE certification but have not yet received certification.
- ☐ I am not a DGS certified DVBE, but a percentage of the revenue will be going to DGS certified DVBE Subcontractors performing a Commercially Useful Function, and therefore I am claiming the DVBE incentive.

Bidder must submit a completed Form B-8: GSPD-05-105 Bidder Declaration Form, indicating the percentage of the revenue that will be received by each DGS certified DVBE Subcontractor. Bidder must also submit a Form B-9: STD 843 DVBE Declarations Form, for each DVBE Subcontractor, signed by the DVBE owner/manager. The form can be found at the following link:

https://www.documents.dgs.ca.gov/dgs/fmc/gspd/pd_843.pdf

- ☐ I am not claiming the DVBE incentive.

Name of Bidder: _____

Signature & Date: _____

APPENDIX B-11: COMMERCIALLY USEFUL FUNCTION CERTIFICATION FORM

Bidder Name: _____

COMMERCIALLY USEFUL FUNCTION DOCUMENTATION

All certified small business, micro business, and/or DVBE Contractors, Subcontractors or suppliers must meet the commercially useful function requirements under Government Code Section 14837 (for SB) and Military and Veterans Code Section 999(e)(2)(for DVBE).

Please answer the following questions as they apply to your company for the goods and services being acquired in this solicitation.

Subcontractor Name (submit one form for each SB/DVBE): _____

Mark all that apply: DVBE: ☐ Small Business: ☐ Micro Business: ☐ N/A: ☐

1.	Will the Subcontractor be responsible for the execution of a distinct element of the resulting Contract?	Yes ☐	No ☐
2.	Will this Subcontractor actually be performing, managing, or supervising an element of the resulting Contract?	Yes ☐	No ☐
3.	Will this Subcontractor be performing work on the resulting Contract that is normal for its business, services, and functions?	Yes ☐	No ☐
4.	Will there be any further subcontracting that is greater than that expected to be Subcontracted by normal industry practices for the resulting Contract?	Yes ☐	No ☐
5.	Will this Subcontractor be responsible, with respect to products, inventories, materials, and supplies required for the Contract, for negotiating price, determining quality and quantity, ordering, installing, if applicable, and making payment?	Yes ☐	No ☐

A response of "No" in questions 1-3 or a response of "Yes" in question 4, may result in your proposal being deemed nonresponsive and disqualified.

The Bidder must provide a written statement below detailing the role, services and goods the Subcontractor(s) will provide to meet the commercially useful function requirement. If the Bidder is not claiming a Small Business or DVBE, indicate "Not claiming a preference" in the box below.

At the State's option prior to award, Bidders may be required to submit additional written clarifying information.

By signing this form, the undersigned Bidder certifies that the Certified Small Business or DVBE satisfies the Commercially Useful Function requirement, and will provide the role, services, and/or goods stated above.

Signature_____
Date_____
Name and Title of Authorized Representative_____

Company Name,_____
Street Address, City, State, Zip

APPENDIX B-12: SECRETARY OF STATE CERTIFICATION

ATTACH A COPY OF THE BIDDER'S SECRETARY OF STATE CERTIFICATION TO THIS FORM.

For more information on the Secretary of State, Certification refer to the following website link:

<http://www.sos.ca.gov>

APPENDIX B-13: SELLER'S PERMIT

ATTACH A COPY OF THE BIDDER'S CALIFORNIA SELLER'S PERMIT TO THIS FORM.

For more information on seller's permit or certification of registration, refer to the following link:

<https://cdtfa.ca.gov/formspubs/pub73.pdf>

APPENDIX B-14: PAYEE DATA RECORD

ATTACH A COPY OF THE BIDDER'S STD 204, PAYEE DATA RECORD TO THIS FORM.

Refer to the following website link to obtain the appropriate form. Payee Data Record (STD 204) for information:

<http://www.documents.dgs.ca.gov/dgs/fmc/pdf/std204.pdf>

APPENDIX B-15: IRAN CONTRACTING ACT OF 2010**IRAN CONTRACTING ACT**

(Public Contract Code sections 2202-2208)

Prior to bidding on, submitting a proposal or executing a contract or renewal for a State of California contract for goods or services of \$1,000,000 or more, a Bidder must either: a) certify it is **not** on the current list of persons engaged in investment activities in Iran created by the California Department of General Services (DGS) pursuant to Public Contract Code section 2203(b) and is not a financial institution extending twenty million dollars (\$20,000,000) or more in credit to another person, for 45 days or more, if that other person will use the credit to provide goods or services in the energy sector in Iran and is identified on the current list of persons engaged in investment activities in Iran created by DGS; or b) demonstrate it has been exempted from the certification requirement for that solicitation or contract pursuant to Public Contract Code section 2203(c) or (d). The DGS list of entities prohibited from contracting with public entities in California per the Iranian Contracting Act, 2010, can be found at: [Department of General Services Procurement Division Iran Contracting Act List](#).

To comply with this requirement, please insert your Bidder or financial institution name and Federal ID Number (if available) and complete **one** of the options below. Please note: California law establishes penalties for providing false certifications, including civil penalties equal to the greater of \$250,000 or twice the amount of the contract for which the false certification was made; contract termination; and three-year ineligibility to bid on contracts. (Public Contract Code section 2205.)

OPTION #1 – CERTIFICATION

I, the official named below, certify I am duly authorized to execute this certification on behalf of the Bidder/financial institution identified below, and the Bidder/financial institution identified below is not on the current list of persons engaged in investment activities in Iran created by DGS and is not a financial institution extending twenty million dollars (\$20,000,000) or more in credit to another person/Bidder, for 45 days or more, if that other person/Bidder will use the credit to provide goods or services in the energy sector in Iran and is identified on the current list of persons engaged in investment activities in Iran created by DGS.

Bidder Name/Financial Institution (Printed):		Federal ID Number (or N/A):

Date Executed:		Executed in:	

OPTION #2 – EXEMPTION

Pursuant to Public Contract Code sections 2203(c) and (d), a public entity may permit a Bidder/financial institution engaged in investment activities in Iran, on a case-by-case basis, to be eligible for, or to bid on, submit a proposal for, or enters into or renews, a contract for goods and services.

If you have obtained an exemption from the certification requirement under the Iran Contracting Act, please fill out the information below, and attach documentation demonstrating the exemption approval.

APPENDIX B-16: FEDERAL DEBARMENT, SUSPENSION, INELIGIBILITY AND VOLUNTARY EXCLUSION – CERTIFICATION FORM

Federal Requirement

Contractors are required to provide the following certification to the agency before award of a purchase order using federal funds. This certification is required by the regulations implementing Executive Order 12549, Debarment and Suspension, 29 CFR Part 98, Section 98.510, Participants; responsibilities. The regulations were published as Part VII of the May 26, 1988 Federal Register (pages 19160-19211).

Present Status

The prospective recipient of federal assistance funds certifies, by submission of this signed certification, that neither it nor its principals are presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in this transaction by any federal department or agency.

Attach Explanation

Where the prospective recipient of federal assistance funds is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this certification.

Instructions for Certification

BEFORE COMPLETING CERTIFICATION, READ THE FOLLOWING INSTRUCTIONS THAT ARE AN INTEGRAL PART OF THE CERTIFICATION.

1. By signing and submitting this certification, the prospective recipient of federal assistance funds is providing the certification as set out below.
2. The certification in this class is a material representation of fact upon which reliance was placed when this transaction was entered into. If it is later determined that the prospective recipient of federal assistance funds knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, the Department of Labor (DOL) may pursue available remedies, including suspension and/or debarment.
3. The prospective recipient of federal assistance funds shall provide immediate written notice to the person to whom this certification is submitted if at any time the prospective recipient of federal assistance funds learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.
4. The terms "covered transaction," "debarred," "suspended," "ineligible," "lower tier covered transaction," "participant," "person," "primary covered transaction," "principal," "proposal," and "voluntarily exclude," as used in this clause, have the meanings set out in the Definitions and Coverage sections of rules implementing Executive Order 12549.
5. The prospective recipient of federal assistance funds agrees by submitting this certification that, should the proposed covered transaction be entered into, it shall not, knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by the DOL.

6. The prospective recipient of federal assistance funds further agrees by submitting this certification that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion – Lower Tier Covered Transactions," without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.

7. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or voluntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may but is not required to check the List of Parties Excluded from Procurement or Nonprocurement Programs.

8. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

9. Except for transactions authorized under paragraph 5 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal Government, the DOL may pursue available remedies, including suspension and/or debarment.

APPENDIX B-17: CALIFORNIA CIVIL RIGHTS LAWS CERTIFICATION

Pursuant to Public Contract Code section 2010, if a Bidder or proposer executes or renews a contract over \$100,000 on or after January 1, 2017, the Bidder or proposer hereby certifies compliance with the following:

1. **CALIFORNIA CIVIL RIGHTS LAWS**: For contracts over \$100,000 executed or renewed after January 1, 2017, the contractor certifies compliance with the Unruh Civil Rights Act (Section 51 of the Civil Code) and the Fair Employment and Housing Act (Section 12960 of the Government Code); and

2. **EMPLOYER DISCRIMINATORY POLICIES**: For contracts over \$100,000 executed or renewed after January 1, 2017, if a Contractor has an internal policy against a sovereign nation or peoples recognized by the United States government, the Contractor certifies that such policies are not used in violation of the Unruh Civil Rights Act (Section 51 of the Civil Code) or the Fair Employment and Housing Act (Section 12960 of the Government Code).

CERTIFICATION

I, the official named below, certify under penalty of perjury under the laws of the State of California that the foregoing is true and correct. <i>Bidder Company Name (Printed)</i>		<i>Federal ID Number</i>
<i>By (Authorized Signature)</i>		
<i>Printed Name and Title of Person Signing</i>		
<i>Date Executed</i>	<i>Executed in the County and State of</i>	

**APPENDIX B-18: STATEMENT OF COMPLIANCE WITH SOW REQUIREMENTS
FORM**

STATEMENT OF WORK (SOW) by indicating "Yes" the Bidder confirms that it:

- Read the individual requirements within each section of the SOW identified below,
- Understands each individual requirement within each section of the SOW, and
- Agrees to comply with each individual requirement within each section of the SOW.

A blank or "No" answer in any row will be cause for the proposal to be deemed nonresponsive.

SOW Section	SOW Requirement Sections	Yes	No
1	Introduction & Organization		
2	Contractor Personnel Requirements		
3	Project Management Requirements		
4	System Change & Enhancements Requirements		
5	Program Support Requirements		
6	Operations Requirements		
7	Transition Requirements		
8	Deliverables Requirements		
Exhibit A	System Requirements Specification		

By signing this form, the Bidder also acknowledges that change requests will continue to be applied to CalHEERS during both the process of conducting this solicitation and the Transition Phase of the resultant Contract and agrees to take responsibility of, and comply with, all SOW & System requirements at the time the Incumbent Contractor rolls off the project or upon the request of the State Project Director or designee.

The Bidder shall complete and include this form in their response in accordance with RFP, Section 8, PROPOSAL FORMAT. Failure to sign this certification may result in the proposal being deemed nonresponsive.

APPENDIX B-19: BIDDER (COMPANY) QUALIFICATIONS INSTRUCTIONS & FORM

The following are instructions for the completion of Appendix B-19: BIDDER (COMPANY) QUALIFICATIONS INSTRUCTIONS & FORM.

The Bidder must list the mandatory experience needed for each requirement.

(1) Company Name:	Provide the name of the company submitting the proposal on RFP #73040873.
(2) MQ # & Company Mandatory Qualification (MQ)	The State has provided each Mandatory Qualification (MQ) # and requirement as identified in RFP, Section 6, BIDDER REQUIREMENTS.
(3) Project Details:	The Bidder must provide the details of the project being referenced to meet the mandatory qualification including, workplace, project name, project description, time period, and reference contact name. The reference contact must not be employed by this company, must have had supervisory or managerial responsibility for the Bidder's work on the project, and must be the individual identified in Appendix B-20: Bidder (Company) Reference Form.
(4) Experience:	The Bidder must describe their qualifying experience on the stated project.
(5) Total Duration:	The Bidder must provide the cumulative total duration of project experience, on a per MQ basis, as represented by the projects referenced.

Note: It is the Bidder's responsibility to ensure that each mandatory qualification is met in full and addressed in Appendix B-19: BIDDER (COMPANY) QUALIFICATIONS INSTRUCTIONS & FORM, so that the State can establish compliance. If the State cannot determine that the years of experience for each of the mandatory qualification has been met, the proposal may be deemed nonresponsive.

If the mandatory qualification indicates that the experience must be on a large and complex IT system, the Bidder and Reference must use the following attributes to qualify as a large and complex IT system:

- A solution that integrates at least two (2) applications, one of which is a COTS.
- A solution that interfaces with at least five (5) external systems, at least one (1) of which is real-time.
- A solution that is accessed by at least one thousand (1,000) users at multiple locations.
- A solution that has a dollar value of at least ten million (\$10,000,000) dollars.
- A solution that includes multi-tiered processing, including a consumer or user facing front-end optimized for multiple user interface platforms.

An example form has been provided:

APPENDIX B-20: BIDDER (COMPANY) REFERENCE FORM, INSTRUCTIONS (PART 1 OF 2)**NAME OF COMPANY REQUESTING THE REFERENCE CHECK:****"Type Firm Name Here"**

The company above has listed you as a reference and is requesting that you complete this Bidder (Company) Reference Form.

INSTRUCTIONS FOR COMPLETING THE REFERENCE FORM:

Step 1: In Table 1, the Bidder (Company) has provided the Reference information, please verify that this is correct.

Step 2: In Table 2, complete Columns 1, 2, and 3 by marking "Yes" or "No" and providing an explanation if needed.

Step 3: In Table 3, complete Column 2 by utilizing the description of points provided in the table header.

Step 4: At the bottom of the page, print your name, your company's name, then sign and date.

Step 5: Return the completed Bidder (Company) Reference Form to the Bidder.

TABLE 1 – Reference's Information This information should match the information provided in Appendix B-19, Bidder (Company) Qualifications Instructions & Form	
Reference Contact Name:	
Reference Company Name:	
Reference Company Address:	
Reference Telephone Number:	
Reference Email Address:	

TABLE 2 – The Reference must complete Columns 1, 2, and 3.		
COLUMN 1	COLUMN 2	COLUMN 3
Did the Bidder/Company provide you with a copy of the completed Appendix B-19, Bidder (Company) Qualifications Instructions & Form, prior to your completion of this form?	Did the Bidder/Company named at the top of this page perform the services described in Appendix B-19, Bidder (Company) Qualifications Instructions & Form (including the functions as described and the time period provided)?	During this specific project, I was in a managerial or supervisory role that had oversight over this company?
☐ Yes ☐ No* *(Add explanation here, if needed)	☐ Yes ☐ No* *(Add explanation here, if needed)	☐ Yes ☐ No* *(Add explanation here, if needed)

**APPENDIX B-20: BIDDER (COMPANY) REFERENCE FORM, INSTRUCTIONS (PART
2 OF 2)**

TABLE 3 – The Reference must complete Column 2.	
The Reference shall rate the Bidder/Company's performance and abilities by entering a rating value (in Column 2) for each corresponding Performance and Ability Statement (listed in Column 1). 3 points = Excellent. The Bidder/Company's performance was above average during this engagement. 2 points = Good. The Bidder/Company's performance was average during this engagement. 1 point = Poor. The Bidder/Company's performance was below average during this engagement. 0 points = No Value. The Bidder/Company's performance was unsatisfactory during this engagement.	
COLUMN 1	COLUMN 2
Performance and Ability Statements	Points Value: 3 points = Excellent 2 points = Good 1 point = Poor 0 points = No Value
The Bidder/Company provided qualified individual(s).	
The Bidder/Company resolved issues in a timely manner.	
The Bidder/Company completed the Project on time.	
The Bidder/Company completed the Project within budget.	
What was your overall satisfaction with the Bidder/Company?	
TOTAL POINTS FOR ALL STATEMENTS:	

By signing this form, the Reference is certifying that all information provided on this form is correct.

APPENDIX B-21: KEY STAFF QUALIFICATIONS INSTRUCTIONS

The following are instructions for the completion of Appendix B-22, KEY STAFF QUALIFICATIONS FORM. The Bidder must list the mandatory experience needed to meet each Mandatory Qualification requirement. Additionally, the Bidder must list the experience needed to meet any Desirable Qualification requirement the bidder chooses to respond to. The Bidder must complete Appendix B-22, KEY STAFF QUALIFICATIONS FORM, for each Key Staff outlined in RFP Section 6.3.1, BIDDER KEY STAFF QUALIFICATION REQUIREMENTS. A separate KEY STAFF QUALIFICATIONS FORM will be required for each Mandatory or Desirable Qualification requirement, for each Key Staff position.

(1) Key Staff Position = The Bidder must enter the Key Staff position.

(2) Bidder Name = The Bidder must enter their Company Name.

(3) Proposed Individual's Name = The Bidder must enter the name of the Key Staff being proposed.

(4) Mandatory Qualification (MQ) Requirement # = The Bidder must enter the Mandatory or Desirable Qualification Requirement #.

(5) Mandatory Qualification Requirement = The Bidder must enter the Mandatory or Desirable Qualification Requirement text, as identified in RFP Section 6.3.1, BIDDER KEY STAFF QUALIFICATION REQUIREMENTS, outlined in Table 6-8.

(6) Project Information = The Bidder must provide details of the project(s) being used to meet the experience required within the mandatory qualification requirement. The Bidder must also provide the Reference Contact Name for a reference that can validate the relevant experience. The reference must be external to the Bidder's organization and must have had a managerial or supervisory responsibility for over the Proposed Individual's work on the project.

(7) Role & Relevant Experience = The Bidder must provide the role they played on the related project and a description of experience being used to meet the mandatory qualification.

(8) Total Duration = The Bidder must provide the total, cumulative duration worked across all the projects referenced to meet the MQ Requirement, taking into consideration the identified Percentage of Time(s) information.

Note: If a mandatory qualification requirement calls for the bidder to submit a certification (e.g., PMP or CSSIP), the Bidder shall include that certification directly following the B-22 form in their proposal.

EXAMPLE ONLY

(1) Key Staff Position:	Enterprise Architecture Manager	
(2) Company Name:	Company ABC	
(3) Proposed Individual's Name:	John Smith	
(4) Mandatory/Desirable Qualification #:	6.3.1-1	
(5) Mandatory/Desirable Qualification:	The Project Manager shall have a minimum of five (5) years' experience within the past ten (10) years, supervising teams of fifty (50) people or greater on projects that involved Large and Complex IT Systems.	
(6) Project #1		
Company Name:	Company ABC	
Project Name:	XYZ IT Project	
# of System End Users:	10,000	
# of Integrated Applications:	3	

# of COTS Integrated:	2
# of External System interfaces:	8
# of Real-time Interfaces:	2
System Value (\$):	\$ 100,000,000
Multi-tiered processing (Y/N):	Y
Consumer or User Facing Front-end (Y/N):	Y
Start/Finish Dates:	01/01/2011 - 12/31/2016
Percentage of time:	100%
Reference Contact Name:	Rod Jones
(7) Relevant Experience	
Role:	Enterprise Architecture Manager
Description of relevant experience:	Mr. Smith worked on a project tasked that developed widgets. As an Enterprise Architecture manager, Mr. Smith established and used a coherent set of guidelines, architecture principles and governance regimes that provide direction in the design and development of an enterprise's architecture.
Project #2

APPENDIX B-23: STAFF REFERENCE FORM (PART 1 OF 2)**STAFF REFERENCE COMPANY'S NAME: "Type Firm Name Here"**

The company above has listed you as a reference and is requesting that you complete this Staff Reference Form for a competitive proposal. Returning this form is a crucial element to the proposal and failure to return the form could cause the Bidder company to be disqualified from the proposal.

REFERENCE INSTRUCTIONS:

Step 1: Complete Table 1, enter all the requested information.

Step 2: Complete Table 2, columns 1, 2, and 3 by marking "Yes" or "No" and providing an explanation if needed.

Step 3: Review Table 3, Description of Point Values, to be used for the completion of Table 4.

Step 4: Complete Table 4 by rating the Staff person.

Step 5: At the bottom of the page, print your name, your company's name, then sign and date.

Step 6: Return the completed Staff Reference Form to the Bidder Appendix B-23: Staff Reference Form

PROPOSED STAFF'S NAME: "Type Your Proposed Staff's Name Here"**PROPOSED KEY STAFF POSITION: _____**

Table 1 – Reference Information	
This information should match that provided in the Staff Qualifications Form.	
Reference Contact Name:	
Reference Company Name:	
Reference Telephone Number:	
Reference Email Address:	
Work Relation:	

Table 2 – The Reference must complete this table.		
COLUMN 1	COLUMN 2	COLUMN 3
Did the Bidder Company provide you with a copy of the completed Staff Qualifications Form for the proposed Staff named at the top of this page prior to your completion of this form?	Did the Bidder Company named at the top of this page perform the services described in Staff Qualifications Form (including the functions as described and the time period provided)?	During this specific project, I was in a managerial or supervisory role that had oversight over this individual.
☐ Yes ☐ No*	☐ Yes ☐ No*	☐ Yes ☐ No*
*(Add explanation here, if needed)	*(Add explanation here, if needed)	*(Add explanation here, if needed)

APPENDIX B-23: STAFF REFERENCE FORM (PART 2 OF 2)

TABLE 3 – Descriptions of Points Values	
Points Value	Description
Excellent = 2 points	The performance and abilities of the Staff was above average during this engagement.
Good = 1 point	The performance and abilities of the Staff was average during this engagement.
Poor , N/A or No Value = 0 points	The performance and abilities of the Staff was unsatisfactory during this engagement.

TABLE 4 – The Reference must complete this table. The Reference shall rate the Staff performance and abilities by entering a rating value (in Column 2) for each corresponding Performance and Ability Statement (listed in Column 1).	
COLUMN 1	COLUMN 2
Performance and Ability Statements	Points Value: Excellent = 2 points Good = 1 points Poor, N/A, = 0 points No Value
Rate the performance of the Staff during this engagement.	
Rate the ability of the Staff to perform the contractually, required work in a timely manner.	
Rate the verbal and written communication skills of the Staff.	
Rate the ability of the Staff to engage in positive working relationships with other coworkers.	
Rate the knowledge of the Staff in the required areas of expertise.	
TOTAL POINTS FOR ALL STATEMENTS:	

By signing this Form, the Reference is certifying that all information provided on this form is correct.

Name of Reference Contact (print): _____

Name of Company Reference (print): _____

Signature of Reference Contact: _____

Date: _____

APPENDIX B-24: CALHEERS ARTIFICIAL INTELLIGENCE RISK ASSESSMENT FORM

ATTACH A COPY OF THE BIDDER'S CALHEERS ARTIFICIAL INTELLIGENCE RISK
ASSESSMENT FORM.

Refer to the Bidders' Library to obtain a copy of the appropriate form.

Appendix C Glossary

APPENDIX C – GLOSSARY

The following terms and acronyms strictly pertain to the RFP and Contract and do not encompass the Project Glossary as a whole.

1 ACRONYMS

A/R	Applicant and/or Recipient
AB	Assembly Bill
ABE	Accenture Billing Engine
AC	Access Control
ACA	Affordable Care Act
ACD	Automatic Call Distribution
ACF	Administration for Children and Families
ACH	Automated Clearing House
ACL	Access Control List
ACN	Accenture, LLP
ACO	Accountable Care Organization
AD	Active Directory
ADA	Americans with Disabilities Act
ADDIE	Analysis, Design, Development, Implement and Evaluate
ADKAR	Awareness, Desire, Knowledge, Ability, Reinforcement Methodology
Admin	Administrator
AE	Administering Entity
AE	Administering Exchange
AES	Advanced Encryption Standard
AFDC	Aid to Families with Dependent Children Program
AHRQ	Agency for Healthcare Research and Quality
AHT	Average Handle Time
AI	Action Item
AIDS	Acquired Immunodeficiency Virus
AIIM	Association for Information and Image Management
AIM	Access for Infants and Mothers
AJAX	Asynchronous JavaScript and XML
ALJ	Administrative Law Judge.
ALM	Application Lifecycle Management
Alt	Alt
AMAG	AMAG Technology Group
AMS	Asset Management System
ANSI	American National Standards Institute
AO	Application Outsourcing
AOA	Annual Operational Assessment
APAS	Advance Premium Assistance Subsidy
APD	Advanced Planning Document
API	Application Programming Interface
AppDev	Application Development
A-PT	Action Phase Topic
APTC	Advanced Premium Tax Credit

AR	Architecture Review
AR	Authorized Representative (Individual)
ARB	Architectural Review Board
ARC-AMPE	Acceptable Risk Controls for ACA, Medicaid, and Partner Entities
ASB	Auditing Standards Board
ASC	Accredited Standards Committee
ASCII	American Standard Code for Information Interchange
ATIN	Adoption Taxpayer Identification Number
ATM	Automated Teller Machines
ATO	Authorization to Operate
AV	Actuarial Value
AW	Administration Workstation
AWS	Amazon Web Services
BA	Business Analyst
BABOK	Business Analyst's Body of Knowledge
BAC	Budget at Completion
BAFO	Best and Final Offer
BC	Business Continuity
BC/DR	Business Continuity/Disaster Recovery
BCM	Business Change Management
BCM	Business Continuity Management
BCMP	Business Continuity Management Program
BCP	Business Continuity Plan
BDC	Backup Data Center
BE	Business Engine
BHP	Basic Health Plan
BI	Business Information
BI	Business Intelligence
BIC	Benefits Identification Card
BIDS	Business Intelligence Development Studio
BMC	Boulette, Moores, Cloers
BO	Business Objects
BOB	Board Options Brief
BOE	Basis Of Estimate
BOM	Bill of Materials
BP	Basic Profile
BPC	Business and Professions Code
BPEL	Business Process Execution Language
BPI	Business Process Improvement
BPM	Business Process Management
BPM	Business Process Model
BPMN	Business Process Modeling Notation
BPMS	Business Process Management System
BPR	Business Process Reengineering
BR1	Business Rule #1

BR	Business Requirement
BRE	Business Rules Engine (resides within CalHEERS-HBX)
BREfS	Business Rules Exposure for SAWS
BRMS	Business Rules Management System
BSD	Business Service Definition/Description
BVI	Blind or Visually Impaired
BVT	Business Validation Template
C&A	Certification & Accreditation
CA	California
CA	Certificate Authority
CA	Computer Associates
CAB	Change Advisory Board
CAHPS	Consumer Assessment of Health Care Providers and Systems
Cal	California
CAL	Client Access Line
CALEXT	California Extensions
CalFresh	California EBT/food stamps
CalHEERS	California Healthcare Eligibility, Enrollment, and Retention System
CalNOD	CalHEERS Notice of Design
CalSTARS	California State Accounting and Reporting System
CalWIN	California Work Opportunity and Responsibility to Kids Information Network
CAIWORKs	California Work Opportunity and Responsibility to Kids
CA-MMIS	California Medicaid Management Information System
CAP	Consumer Assistance Programs
CAP	Corrective Action Plan
CAPS	California Advance Premium Subsidy
CBAP	Certified Business Analysis Professional
CBT	Computer-based Training
CC	Covered California
CCA	Covered California
CCB	Change Control Board
CCHCS	California Correctional Health Care Services
CCHIP	County Children's Health Initiative Program
CCIIO	Center for Consumer Information and Insurance Oversight
CCMP	Contract Change Management Process
CCN	Case Control Number
CCP	Common Checkout Page
CCP	Covered California Plan
CCP	Consumer Protection Programs
CCR	Change Control Request
CCS	California Children's Services
CCSAS	California Child Support Automation System

CCU	Covered California University
CD	Compact Disk
CD	Configuration Design
CDB	Capacity Database
CDCR	California Department of Corrections and Rehabilitation
CDI	California Department of Insurance
CDN	Content Delivery Network
CDTFA	California Department of Tax and Fee Administration
CDP	Client Data Protection
CDS:EWC	Cancer Detection Section – Every Woman Counts
CDSS	California Department of Social Services
CDTFA	California Department of Tax & Fee Administration
CE	Continuous Enrollment
CEC	Certified Enrollment Counselor
CEE	Certified Enrollment Entity
CEW	County Eligibility Worker
CFACS	Centers for Medicare and Medicaid (CMS) Federal Information Security Management Act (FISMA) Controls Tracking System
CFO	Chief Financial Officer
CFR	Code of Federal Regulations
CFS	Carry Forward Status
CG	Center of Gravity
CG	Companion Guides
CHDP	Child Health and Disability Prevention Program
Chg	Change
CalHHS	California Health and Human Services
CHIP	California Health Insurance Program
CHIP	Children’s Health Insurance Program
CHIPRA	Childrens Health Insurance Program Reauthorization Act
CI	Configuration Item
CIN	Client Index Number
CIN	Customer Index Number
CIO	Chief Information Office
CIS	Customer Information System
CISO	California Information Security Officer
CISSP	Certified Information Systems Security Professional
CIT	CalHEERS Information Transmittal
CIT	Carrier Integration Testing
CIT	Carrier Interface Testing
CIT	County Information Transmittal
CM	Change Management
CM	Configuration Management
CMCS	Center for Medicaid and CHIP Services
CMDB	Configuration Management Database

CMI	Current Monthly Income
CMIPS	Case Management Information and Payrolling System
CMMI	Capability Maturity Model Integration
CMP	Change Management Process
CMS	Center for Medicare and Medicaid Services
CMS ELC	Centers for Medicare and Medicaid Services Exchange Life Cycle Model
CMSFDSH	Centers for Medicare & Medicaid Services Federal Data Services Hub
CMSR	CMS Minimum Security Requirements
CMT	Crisis Management Team
COB	Coordination of Benefits
CobIT	Control Objectives for IT
COBRA	Consolidated Omnibus Budget Reconciliation Act
COLA	Cost of Living Adjustment
COM	Component Object Model
COMs	CalSTARS Operations Memos
COO	Chief Operations Officer
CORBA	Common Object Request Broker Architecture
COTS	Commercial Off the Shelf
COVID	Corona Virus Disease
CP	Certificate Policies
CP	Critical Path
CPI	Continuous Process Improvement
CPM	CalSTARS Procedures Manual
CPPACA	California Patient Protection and Affordable Care Act
CPRA	California Public Records Act
CPU	Central Processing Unit
CR	Change Request
CRFI	CalHEERS Request for Information
CRM	Customer Relationship Management
CRP	Change Readiness Plan
CRT	Customer Resolution Team
CRUD	Create-Read-Update-Delete
CSB	CalHEERS Service Bus
CSC	Customer Service Center
CSDD	COTS Software Design Description
CSR	Client Service Reporting
CSR	Cost Sharing Reductions
CSR	Customer Service Request
CSS	Cascading Style Sheets
CSV	Comma Separated Value (file)
CT	Cancel/Term
CTA	California Technology Agency
CTI	Computer Telephony Integration
CTIOS	Computer Telephony Integration Object Server

CTO	Chief Technology Officer
CUETA	California Uniform Electronic Transactions Act
CUF	Commercially Useful Function
CW	County Worker
CWDA	County Welfare Directors Association (of California)
CWS	Child Welfare Services
CWS/CMS	Child Welfare Services/Case Management Services
DAM	Database Activity Monitoring
DB/Db	Database
DBA	Database Administration/Administrator
DBL WDO	Double Window
DC	Data Center
DCOM	Distributed Component Object Model ()

2 GLOSSARY

The following terms and definitions shall be given the meaning referenced below, unless context requires otherwise. For additional terms and definitions, refer to A-1 GENERAL PROVISIONS of this Contract.

#

3 Times Data Encryption Standard

A mode of the Data Encryption Standard that encrypts the data 3 times

508 Compliance

Section 508, an amendment to the United States Workforce Rehabilitation Act of 1973, is a federal law mandating that all electronic and information technology developed, procured, maintained, or used by the federal government be accessible to people with disabilities. Technology is deemed to be "accessible" if it can be used as effectively by people with disabilities as by those without.

820

The X12 820 transaction set provides the EDI format for transmitting information relating to payments. It is typically used in conjunction with an electronic transfer of funds for payment of goods, insurance premiums or other transactions. The actual funds transfer is often coordinated through the Automated Clearinghouse (ACH) system. As of Sep 2015, CalHEERS is requesting that Carriers provide 820 payment information to CalHEERS, but CalHEERS is not processing them.

834

An 834 is an enrollment transaction that transfers enrollment information from the exchange to the carrier in either an initial enrollment or a maintenance 834 due to a reported change (i.e., name change). Sometimes referred to as Feed.

9.5 Plan

First benefit design offered by Covered CA in 2014. The design offers all medical benefits and vision (for children) but pediatric dental was sold as a separate product.

999

An EDI (Electronic Data Interchange) 999 serves as a receipt to acknowledge that an EDI transaction was received, and whether the received transaction had errors. The 999 may acknowledge receipt of a transaction but it does not necessarily mean the transaction will be processed.

A

Accenture Billing Engine

Also known as Open CIS. A Third-Party software product from Accenture that provides the capabilities of the Exchange for the Financial Management business area of the CalHEERS system. This includes plan premium aggregation, billing, collections, and reconciliation.

Acceptance

A State confirmation to the Contractor that a Deliverable or Service has conformed to its applicable Acceptance Criteria in accordance with the processes described in the SOW.

Acceptance Criteria

The subset of Specifications against which each Deliverable or Service shall be evaluated in accordance with State of Work (SOW) Section 8, and which shall be described in Deliverable Expectation Documents (DEDs), executed Change Requests (CRs) and other Deliverables.

Access for Infants and Mothers

A State program in which the State provides prenatal care to pregnant women who do not have health insurance. The AIM program targets middle income families who are without insurance coverage, or those with coverage but have deductible greater than \$500. The AIM Program ended and has been replaced with the Medi-Cal Access Program (MCAP). The logic for the two programs overlaps and references to both are found in CalHEERS design documentation.

Accountable Care Organization

Accountable Care Organizations (ACOs) were established under the Medicare Shared Savings Program, a portion of the ACA, and were originally designed to support Medicare participants but have grown to include private payer networks as well. ACOs are networks of healthcare providers who collaborate to provide improved and more cost-effective treatment to patients in part by sharing information and eliminating redundancies for patients. ACO providers are graded against a series of quantitative benchmarks that are adjusted to account for regional cost differences. These benchmarks are spread across four categories: Patient/Caregiver Experience, Care Coordination/Patient Safety, Preventative Health, and At-Risk Population.

Action Item

Requires the completion of a task or activity.

Active Directory

Microsoft's proprietary directory service. It runs on Windows Server and allows administrators to manage permissions and access to network resources. Active Directory stores data as objects. An object is a single element, such as a user, group, application or device, e.g., a printer.

ADKAR

Prosci's model for handling change. ADKAR stands for Awareness, Desire, Knowledge, Ability and Reinforcement.

Admin Portal

The Admin Portal is a CalHEERS web portal which allow Service Center, County Eligibility Workers and role driven administrative staff access to portal pages to manage consumer cases.

Administration for Children and Families

The Administration for Children & Families (ACF) is a division of the U.S. Department of Health & Human Services. ACF promotes the economic and social well-being of families, children, individuals and communities.

Administrator

SCR and CEW user Roles

Advance Payments Prohibited

No advance payment shall be made for Deliverables or Services furnished by Contractor pursuant to this Agreement, provided, however, that advance payments are permitted under this Agreement and maintenance and support agreements, consistent with the terms of those agreements.

Advanced Planning Document

Advanced Planning Documents are used to request federal funding for the acquisition and management of information systems.

Advanced Premium Tax Credit

Beginning in tax year 2014, the Affordable Care Act (ACA) created a refundable tax credit (the “premium assistance credit”) for eligible individuals and families who purchase health insurance through an exchange. Individuals eligible for the premium tax credit must have annual incomes between 100 and 400 percent of the Federal Poverty Level (FPL); tax credits are also available for legal immigrants with incomes below 100 percent of the FPL and not eligible for Medicaid. The refundable premium tax credits are available for the purchase of health insurance coverage offered through health insurance exchanges. The payment of this tax credit is made on an advance basis to an eligible individual of a Qualified Health Plan (QHP) through a health insurance exchange.

Affiliate(s)

Affiliates are business concerns, organizations, or individuals that control each other or that are controlled by a third party. Control may consist of shared management or ownership; common use of facilities, equipment, and employees; or family interest. The employees or receipts of all affiliates are included when stating the corporation or business size.

Affordable Care Act

The comprehensive health care reform law was signed into law on March 23, 2010, and was amended by the Health Care and Education Reconciliation Act on March 30, 2010. The name “Affordable Care Act” is used to refer to the final, amended version of the law.

The Affordable Care Act (ACA) is a comprehensive federal health care reform law enacted in March 2010. The law was enacted in two parts: The Patient Protection and Affordable Care Act (PPACA) and the Health Care and Education Reconciliation Act. The name Affordable Care Act is used to refer to the combined version of the law. Under the ACA, states were authorized to expand Medicaid, effective January 1, 2014, to many low-income individuals under age 65 who were previously ineligible for coverage.

Affordable Coverage

Employer coverage is considered affordable — as it relates to premium assistance from the federal government (also known as the Advanced Premium Tax Credit [APTC]) — if the employee's share of the annual premium for self-only coverage is no greater than a certain percentage of annual household income. Individuals offered employer-sponsored coverage that's affordable and provides minimum value are not eligible for premium assistance.

Agency for Healthcare Research and Quality

The Agency for Healthcare Research and Quality (AHRQ) is the lead Federal agency charged with improving the safety and quality of America's health care system. AHRQ develops the knowledge, tools, and data needed to improve the health care system and help Americans, health care professionals, and policymakers make informed health decisions.

Agent

Licensed salespersons that represent one or more health insurance companies and presents their products to consumers (CalHEERS system role).

Agent Manager

A Covered California employee (or designee) who is responsible for reviewing Agent and General Agent applications for acceptance as a certified agent, monitoring agent activities and compliance, and managing agent complaints and decertification.

Agent/Agency Portal

The Agent/Agency Portal is a CalHEERS web portal that allows for Certified Insurance Agencies and Agents to register and provide management of insurance coverage on behalf of their CalHEERS customers (book-of-business).

Agreement Term

The term for the Agreement shall begin on the Execution Date and shall continue for five years unless terminated earlier as provided in the Agreement.

Alert Report

One of the Medi-Cal Eligibility Data System (MEDS), Capacity Database (CDB) or Income Eligibility Verification System (IEVS) reports used to inform users of situations that may require action on their part.

Allowed Amount

The amount a health insurance plan and health care provider have agreed on as reimbursement for a service by contract.

Alt

Baseline Alternative

Amazon Web Services

AWS (Amazon Web Services) is a comprehensive, evolving cloud computing platform provided by Amazon that includes a mixture of infrastructure as a service (IaaS), platform as a service (PaaS) and packaged software as a service (SaaS) offerings. CalHEERS leverages AWS to support cloud computing and data storage.

American National Standards Institute

Founded in 1918, ANSI is a voluntary organization composed of over 1,300 members that creates standards for the computer industry and for a wide range of technical areas, from electrical specifications to communications protocols.

American Public Human Services Association

Provides networking opportunities and other resources for health and human service professionals to influence policies and practices to support the health and well-being of

all children and families. The American Public Human Services Association is a membership organization representing state and local health and human service agencies through their top-level leadership.

Americans with Disabilities Act
State and Local Government Activities

Title II covers all activities of State and local governments regardless of the government entity's size or receipt of Federal funding. Title II requires that State and local governments give people with disabilities an equal opportunity to benefit from all of their programs, services and activities (e.g., public educations, employment, transportation, recreation, health care, social services, courts, voting, and town meetings).

State and local governments are required to follow specific architectural standards in the new construction and alteration of their buildings. They also must relocate programs or otherwise provide access in inaccessible older buildings, and communicate effectively with people who have hearing, vision, or speech disabilities. Public entities are not required to take actions that would result in undue financial and administrative burdens. They are required to make reasonable modifications to policies, practices, and procedures where necessary to avoid discrimination, unless they can demonstrate that doing so would fundamentally alter the nature of the service, program, or activity being provided.

Annual Household Income

The total amount of income for a family in a calendar year. The modified adjusted gross income of the household used for tax purposes.

Annual Limit

A cap on the benefits your insurance company will pay in a year while you're enrolled in a particular health insurance plan. These caps are sometimes placed on particular services, such as prescriptions or hospitalizations. Annual limits may be placed on the dollar amount of covered services or on the number of visits that will be covered for a particular service. After an annual limit is reached, you must pay all associated health care costs for the rest of the year.

ANSI 270

EDI Health Care Eligibility/Benefit Inquiry (270) is used to inquire about the health care benefits and eligibility associated with a subscriber or dependent.

ANSI 271

EDI Health Care Eligibility/Benefit Response (271) is used to respond to a request inquire about the health care benefits and eligibility associated with a subscriber or dependent.

ANSI 276

EDI Health Care Claim Status Request (276) can be used by a provider, recipient of health care products or services or their authorized agent to request the status of a health care claim.

ANSI 277

EDI Health Care Claim Status Notification (277) This transaction set can be used by a health care payer or authorized agent to notify a provider, recipient or authorized agent regarding the status of a health care claim or encounter, or to request additional information from the provider regarding a health care claim or encounter. This transaction set is not intended to replace the Health Care Claim Payment/Advice Transaction Set (835) and therefore, is not used for account payment posting. The notification is at a summary or service line detail level. The notification may be solicited or unsolicited.

ANSI 834

Benefit Enrollment and Maintenance Set (834) can be used by employers, unions, government agencies, associations or insurance agencies to enroll members to a payer. The payer is a healthcare organization that pays claims, administers insurance or benefit or product. Examples of payers include an insurance company, health maintenance organization (HMO), preferred provider organization (PPO), government agency (Medicaid, Medicare etc.) or any organization that may be contracted by one of these former groups.

ANSI 835

Health Care Claim Payment/Advice Transaction Set (835) can be used to make a payment, send an Explanation of Benefits (EOB), send an Explanation of Payments (EOP) remittance advice, or make a payment and send an EOP remittance advice only from a health insurer to a health care provider either directly or via a financial institution.

ANSI ASC X12/ASC X12

The official designation of the U.S. national standards body for the development and maintenance of Electronic Data Interchange (EDI) standards.

Appeal

The right for an individual to request a petition for a case review related to eligibility determination decisions. The appeal may begin with a request for redetermination, which could lead to a formal appeal fair hearing, or a customer may enter the appeal process via a direct request for a fair hearing. Appeals can be initiated online, in-person, or on the phone, but all verbal requests will need to be followed up by a request in writing.

Applicable State Health Subsidy

State-funded premium assistance

Applicant

An individual who is seeking an eligibility determination to enroll in a QHP in the Exchange, to receive advance payments of the premium tax credit or cost-sharing reductions, or to receive benefits through other State health programs. In the context of a Small Business Health Plan Option (SHOP), the term applicant indicates an employer or employee.

Application Disposition

The HX34 is used to update information on a pending application which has been previously reported to MEDS via an HX18. The HX34 is used to report denials or changes in application status and to report corrections to application information such as income or family size.

Application ID

Found in CalHEERS. Is assigned to a consumer filling out an application.

Application Lifecycle Management

Tool used to store and run test scripts and log defects.

Application Programing Interface

A source code-based specification intended to be used as an interface by software components to communicate with each other.

Application Transaction (Generated via the Create Application Web Service)

The HX18 is used to report new applicants to MEDS or to report a new application for a client already known to MEDS. The AP18 establishes the client as an active client for the reporting county, which then allows the county to update client information on MEDS during application processing prior to completing the eligibility determination.

Application Withdraw (Withdraw)

An activity performed by a consumer who withdraw his or her application prior to submission of the application and therefore eligibility determination is not calculated.

Application-to-Application

Connectivity used to solve the problem of putting together a diverse set of application subsystems.

Architecture Review Board

CalHEERs committee supporting infrastructure enhancements, fixes, and short-term patches, typically via DBCR or PCR. Services performed under Operations and Maintenance allocation, and typically not requiring a Production outage.

As-Is

The current business environment/process used at Covered California, Department of Healthcare Services (DHCS), and California counties.

As-Is Business Process Model

A business process model that portrays how a business process is currently structured.

Assembly Bill

A bill is a proposed law under consideration by a legislature. If the author is an Assembly Member, the bill is introduced in the Assembly and is an Assembly Bill. If the author is a Senator, the bill is introduced in the Senate and is a Senate Bill. A bill does not become law until it is passed by the legislature and, in most cases, approved by the executive. Once a bill has been enacted into law, it is called an act or a statute.

Asset Management System

The platform used to track the acquisition, maintenance, and upkeep of assets.

Assistant Project Director

The Assistant Project Director, working under the direction of the State Project Director (CalHEERS), is responsible for managing and overseeing all aspects of the Project, applying the Office of Technology & Solutions Integration's (OTSI) Best Practices,

industry standards, principles, methods and techniques to deliver the solution. The Assistant Project Director plans, guides, and oversees the day-to-day internal activities that support the Project.

Assister

An individual who assists a consumer with a Medi-Cal or Covered California application, examples include call center representatives, community health navigators, community non-profit organizations, authorized representatives, licensed insurance agents.

Assister Entities

Covered California Certified Enrollment Entities. Changed by Covered CA 6/21/13.

Association for Information and Image Management

ALLM, the Association for Information and Image Management, is a nonprofit organization that develops and publishes standards that detail enterprise content management.

Attribute

One characteristic about a configuration item (CI), e.g., model number, or folder location.

Audit

The Exchange reserves the right to monitor, audit or investigate Contractor's use of the Exchange Confidential Information collected, used, or acquired by Contractor under this Agreement.

Authentication

The process of verification that an individual or an entity is who it claims to be. Ensures that the authenticated user has the appropriate privileges to access resources.

Authorized Representative (Individual) (Also referenced as Auth Rep)

A person authorized by a Consumer (Individual) to perform the functions available to the Consumer (Individual), such as completing an application and selecting a health plan. This person is not certified as an Enrollment Counselor.

Auto Plan Selection

Consumer who transitioned from MAGI Medi-Cal/MCAP/CCHIP to APTC (Eligible/Conditionally Eligible) will be auto selected into a health plan (systematically enrolled). This can be an existing or new plan based on a defined hierarchy.

Automatic Call Distribution

The ACD system is the brain of the Service Center environment; it is responsible for distributing the calls intelligently to SCRs based on caller need identified by the IVR system. It will route calls based on variables or rules defined as part of the business process.

Availability

The property that data or information is accessible and useable upon demand by an authorized person.

B

Balanced Scorecard

Beginning with month four of the CalHEERS Project schedule, i.e., four months after the Execution Date, and every quarter thereafter for eight consecutive quarters, the Exchange shall measure Contractor Management Performance for the previous quarter

to determine the extent to which Management Performance Compensation is payable. The Exchange will document these measures using a Balanced Scorecard approach, and will adhere to the guiding principles, assumptions, and scoring mechanics outlined herein to complete the Balanced Scorecard.

Baseline

A baseline is a snapshot (at specific point in time) of the attributes and relationships for every CI in the CMS. A CI can be compared to a baseline to see what attributes and relationships have changed since that baseline.

Benchmark Plan

The Benchmark Plan is the lowest cost plan associated with each of the four tiers presented to the Employer during Employer Plan Selection. This plan is used to provide a total estimated annual premium cost for the Employer based on the selected tier, employee roster data, and rating region. Also known as the Reference Plan.

Beneficiary

An individual enrolled in a health insurance plan who receives benefits through those policies.

Benefit Plans

Health Insurance Plans.

Benefit Summary

An overview of the services provided by health insurance plans. Does not include all requirements or qualifications of each benefit. It shows current rates for all benefit programs including health, dental and life insurance. This document provided for informational purposes and does not constitute an agreement. HHS will provide a standard template for benefit summary display on the Self-Service Portal and on printed materials.

Benefit Year

A Calendar year for which a health plan provides coverage for health benefits.

Benefits

Medical services for which an insurance plan will pay, in full or in part.

Benefits Identification Card

An identification card that is issued to Medi-Cal beneficiaries as proof of their eligibility for the program. At the time of service, a provider verifies eligibility using the number and issue date on the BIC. It is generated by a DHCS vendor using a batch file from MEDS, this identification card is mailed to the customers address within a few days of determining presumptive or actual eligibility for services.

Best and Final Offer

Best and final offer or BAFO is a term used in bids to indicate that there will be no further negotiation on the amount or terms. It encompasses bids containing final pricing and deliverables submitted by bidding contractors based on the negotiations conducted during the initial bid stage.

Binder Payment

This is the first payment made in the individual market. It binds the customer (new member) to the plan they have selected and ensures they will be covered from the 1st of the month when the coverage begins.

BOT

A software program that performs automated, repetitive, pre-defined tasks. Bots typically imitate or replace human behavior. Because they are automated, they operate much faster than human users.

Breach

Shall mean either a confirmed “breach of the security of the system” as such term is specifically defined under the California Information Practices Act (California Civil Code §1798.29(f)) or the acquisition, access, use or disclosure of [either Personally Identifiable Information \(PII\) or](#) protected health information in a manner not permitted under the Federal HIPAA Privacy Rule which compromises the security or privacy of the protected health information (45 Code of Federal Regulations (CFR) §164.402).

Broker

Licensed insurance salesperson who obtains quotes and plan from multiple sources information for clients.

Bundled

Multiple deliverables of different medium types that will be delivered on the same timeline. The DED will be combined (see definition for combined) into one document to set the expectations and address all the requirements of all the bundled deliverables. Each deliverable will be delivered as a stand-alone deliverable because they are different medium types (i.e., Word, Excel, PowerPoint, RTC, PDF). The DEL # and names would remain the same and each DEL would be associated to its name and DEL #. For example, the SOW Requirements Management Plan, Traceability Tool, and Report are bundled. There is one DED for all three deliverables and three distinct Deliverables: 1- SOW requirements Management Plan in Word, 2- SOW Traceability Tool in SharePoint/Excel, 3-SOW Report in Excel/PDF.

Business Analyst

A Business Analyst serves as a liaison between Sponsors and the System Integrator to identify and document requirements, process improvements, and provide support through the project life cycle.

Business Day(s)

All days that all state agencies are open for business, excluding weekends, State holidays or other days mutually agreed upon by the parties in writing. Unless otherwise indicated, a business day commences at 8:00 a.m. and concludes at 5:00 p.m., Pacific Time (PT).

Business Impact Analysis

The process of determining the criticality of business activities and associated resource requirements to ensure continuity of operations through system issues.

Business Intelligence Development Studio

Business Intelligence Development Studio (BIDS) is a Microsoft Visual Studio component that interacts with SQL Server Integration Services to perform customizable extract, translate load tasks.

Business Legal Name

The Legal Name registered with the Secretary of State's Office.

Business Process

A sequence of user activities which, when complete, results in the accomplishment of a business objective.

Business Process Analysis

A systematic, disciplined approach that critically examines business processes in order to reduce impact from the implementation of the CalHEERS solution.

Business Intelligence Development Studio

Business Intelligence Development Studio (BIDS) is a Microsoft Visual Studio component that interacts with SQL Server Integration Services to perform customizable extract, translate load tasks.

Business Process Execution Language

Business Process Execution Language

Business Process Improvement

A systematic, disciplined approach that critically examines business processes in order to identify process efficiencies in order to achieve more efficient results.

Business Process Management

A holistic management approach focused on aligning all aspects of an organization with the wants and needs of clients. It promotes business effectiveness and efficiency while striving for innovation, flexibility, and integration with technology.

Business Process Management System

A suite of BPM components. Four critical components of a BPMS include Process Engine, Business Analytics, Content Management, and Collaboration Tools.

Business Process Model

A graphical depiction of the activities in a business process, which illustrates the responsibilities of system users and user interactions with a system and each other.

Business Process Modeling Notation

A standard notation for use in creating graphical models of business process operations as defined by the Business Process Management Initiative and documented in the CMS Blueprinting How-To Guide.

Business Process Reengineering

A systematic, disciplined approach that critically examines business processes within and between enterprises in order to identify significant process improvements.

Business Requirement

As defined in the BABOK 2.0 (Business Analyst's Body of Knowledge), business requirements are "higher-level statements of the goals, objectives, or needs of the enterprise. They describe the reasons why a project has been initiated, the objectives that the project will achieve, and the metrics that will be used to measure its success."

Business Rules Engine (resides within CalHEERS-HBX)

A software system that executes one or more business rules in a runtime production environment.

Business Rules Exposure for SAWS

BREfS is the Business Rules Exposure for SAWS, which is the ability for the County Eligibility Systems to leverage the business rules in CalHEERS to determine eligibility for consumers, which further enables the "no wrong door" policy.

Business Rules Management System

A software system used to define, deploy, execute, monitor and maintain the variety and complexity of decision logic that is used by operational systems within an organization or enterprise. This logic, also referred to as business rules, includes policies, requirements, and conditional statements that are used to determine the tactical actions that take place in applications and systems.

Business Validation Template

This is a Kaiser term. It's a flat file format that Kaiser and the Exchange use to pass, for example, the membership reconciliation information or any other member transactions that may require manual intervention when trying to enroll them into Kaiser's systems.

C

CalCOBRA

"Cal-COBRA is a California law that is like Federal COBRA.

1. Cal-COBRA applies to employers and group health plans that cover from 2 to 19 employees. It lets you keep your plan for up to 36 months.
2. Cal-COBRA is also for people who use up their Federal COBRA. When your 18 months of Federal COBRA ends, you can keep your health plan up to 18 more months under Cal-COBRA."

CalHEERS Concept of Operations v1.5 November 2012

A document describing the key operational concepts of the CalHEERS application.

CalHEERS Information Transmittal

CalHEERS Information Transmittal is the process used to formally communicate to the CalHEERS stakeholders.

CalHEERS Integration Lead

The CalHEERS Integration Lead project manager responsible for integration of Exchange programs, including CalHEERS, Assister Program, Exchange Service Center, Small Business Health Options Program (SHOP).

CalHEERS Request for Information

CalHEERS Request for Information is the process used to formally request information from CalHEERS stakeholders.

CalHEERS System Administrator

A CalHEERS, Covered California, DHCS or OTSI employee who has been authorized to perform "super user" functions in the system.

CalHEERS Training

The discipline responsible for the design, development, and delivery of CalHEERS training. Training is designed to prepare users to do their jobs using the system and help consumers to understand how to navigate the CalHEERS application to select and obtain health coverage.

California Correctional Health Care Services

California Correctional Health Care Services

California Department of Corrections and Rehabilitation

California Department of Corrections and Rehabilitation

California Department of Insurance

An agency charged with overseeing the regulation of insurance regulations, enforcing statutes mandating consumer protections, educating consumers, and fostering the stability of insurance markets in the state of California.

California Department of Tax & Fee Administration

The California Department of Tax & Fee Administration (CDTFA) is the public agency charged with assessing and collecting sales and use taxes, as well as a variety of excise fees and taxes, for the U.S. State of California.

California Health Benefit Exchange

Covered California, also known as the California Health Benefit Exchange or Exchange, was created by the California State Legislature to implement key elements of the Affordable Care Act (ACA). CalHEERS is the key implementation of that law.

California Healthcare Eligibility, Enrollment, and Retention System

The CalHEERS is a cloud-based system that supports a combination of public-facing and State administrator portals, backend validation, and transfer of information enabling the eligibility, enrollment, and retention for consumers for healthcare affordability programs in the State of California. It is jointly sponsored by the California Health Benefit Exchange (Covered California) and the Department of Health Care Services (DHCS).

California Medicaid Management Information System

The system used to manage the Medicaid program and process Medi-Cal claims in California.

California Public Records Act

Governmental records shall be disclosed to the public, upon request, unless there is a specific reason not to do so. Most of the reasons for withholding disclosure of a record are set forth in specific exemptions contained in the CPRA. However, some confidentiality provisions are incorporated by reference to other laws. In addition, the CPRA provides for a general balancing test by which an agency may withhold records from disclosure if it can establish that the public interest in nondisclosure clearly outweighs the public interest in disclosure. For additional information, please see the Department of Justice's [Summary of the California Public Records Act](#).

The **California Relay Service (CRS)** is a statewide 24-hour dual-party relay system that bridges the communication gap between people who are deaf, hard of hearing, or speech-disabled, and those they wish to communicate with by telephone. Specially trained operators relay conversations between Telecommunication Devices for the Deaf (TDDs) users and those without TDD.

California Technology Agency

California Technology Agency The recognized central IT organization for the State of California, the Technology Agency is responsible for the approval and oversight of all state information technology projects (works hand in hand with OTSI).

California Work Opportunity and Responsibility to Kids

A welfare program that gives cash aid and services to eligible needy California families.

California Work Opportunity and Responsibility to Kids Information Network

CalWIN is one of the three State Automated Welfare Systems (SAWS) in California. CalWIN provides service to 18 Counties Statewide.

California's Health Care Safety Net

California's health care safety net is a complex web of programs and providers that serve low-income, uninsured residents. It includes Medi-Cal.

CalSTARS Operations Memos

CALSTARS Operations Memos (COMs) are one way of communicating information to agencies about CALSTARS. Information on the COM may later be added to the CALSTARS Procedures Manual through Transmittal Letters.

CalSTARS Procedures Manual

The manual reflects the financial reporting principles and standards required by the State of California and its control agencies.

CalWORKS

California Work Opportunity and Responsibility to Kids, a welfare program that gives cash aid and services to eligible needy California families.

Cancellation

Occurs before effectuation & effective date.

Carrier

Carriers are CalHEERS Interface partners. Carriers are insurance companies providing medical, dental and/or vision plans for Covered California or California Health Benefit Exchange (also called Issuers). Carriers receive aggregated premium payments from all SHOP employers. Plan assessment fees and agent commissions are deducted from the aggregated amount and retained by Covered California. Carrier's payments are sent on the 8th of the month. If the 8th of the month is a weekend or holiday, the payments are sent on the next business day.

Carrier Integration Testing

An activity performed to test the exchange and processing of 834 EDI files with existing and new (if any) Health and Dental Carriers to ensure production readiness for

enrollment in the next benefit year. Carrier Integration Testing is also carried out on an ad-hoc basis when a Carrier makes changes to their SFTP interface or related systems. This may also be seen referenced as 'Carrier IT' and 'Carrier Interface Testing'.

Carrier Interface Testing

An activity performed to test the exchange and processing of 834 EDI files with existing and new (if any) Health and Dental Carriers to ensure production readiness for enrollment in the next benefit year. Carrier Interface Testing is also carried out on an ad-hoc basis when a Carrier makes changes to their SFTP interface or related systems. This may also be seen referenced as 'Carrier IT' and 'Carrier Integration Testing'.

Carry Forward Status

Carry Forward Status

Cascading Style Sheets

CSS is a style sheet language used for describing the look and formatting of a document written in a markup language.

Case Control Number

Physically links Multiple Member's Eligibility to a Single Case; Case Id is static even if applicant leaves the IFP.

Case ID

When a family applies for Health Benefits, then each member of the household is assigned a Member ID. The person applying is called the primary member or primary contact. The household is identified by a Case ID. The household case id for someone does not change unless the make-up of the household changes i.e., Husband and wife divorce. Then one of the two will keep the existing case ID but the other will not be setup in their own household and will now have a new case id. Note: the member id will not change for the individual. The group then gets an Application ID for each Application submitted. If the members get covered by different plans, then I'm not sure if that means there are 2 different Application IDs or if it is 1. See also Subscriber ID.

Case Notes

The function of adding written or system generated notes to a case.

Catastrophic Plan

Minimum Coverage Plan. Changed by Covered CA 6/21/13.

Center for Consumer Information and Insurance Oversight

Oversees the implementation of the provisions related to private health insurance and assists in implementing many provisions of the Affordable Care Act. State-based Exchanges must meet detailed federal requirements in order to obtain approval (or conditional approval) from the U.S. Department of Health and Human Services (DHHS). The application process established by the Centers for Medicare and Medicaid Services (CMS), Center for Consumer Information and Insurance Oversight (CCIIO) for documenting compliance with federal Exchange requirements and seeking federal approval is the Blueprint for Approval of State-based and State Partnership Insurance Exchanges.

Center for Medicare and Medicaid Services

US federal agency which administers Medicare, Medicaid, and the Children's Health Insurance Program.

Certified Educator

A Covered California Certified Educator is an individual who works for an organization supported through Covered California's Outreach and Education Program. Certified Educators disseminate clear, accurate and consistent messages about Covered California that eliminate barriers, increase interest in Covered California programs and Medi-Cal and motivate consumers to enroll in coverage. Certified Educators must attend a two-and-a-half-day initial training through Covered California and pass an exam to become certified through Covered California. Certified Educators cannot provide enrollment assistance (i.e., they cannot help consumers fill out their application for insurance) and thereby are prohibited from handling payment information on behalf of a consumer. Certified Educators have already been selected for 2013 and 2014. More information is available at <http://hbex.coveredca.com/outreach-n-edu>.

Certified Enrollment Counselor

A person who has completed Certified Enrollment Counselors certification activities, belongs to a compensated Certified Enrollment Entity (IPA or Navigator) or non-compensated Certified Enrollment Entity, and assists Consumers (Individuals) with application, plan selection, and enrollment functions in the CalHEERS solution. Does not include Agents.

Certified Enrollment Entity

- a. *Certified Enrollment Entity (Compensated)*: An organization or entity that registers with Covered California to provide the services required of CECs that may be compensated by Covered California or through federal funds. The CEE contracts with or employs CECs. There are two types of compensated CEEs: (1) In-Person Assistance (IPA) and (2) Navigator entities.

The main difference between the two types of CEEs is funding source. IPA entities are funded through federal funds and Navigator entities are funded through Covered California's operating funds. Application assistance payments are made to the CEEs as a result of the assistance provided to consumers by their CECs. The individual CEC does not receive the application assistance payment.

- b. *Certified Enrollment Entity (Non-compensated)*: An organization or entity that registers with Covered California to provide the services required of CECs but is not compensated by Covered California. In order to carry out these services, the CEE contracts with or employs CECs. These non-compensated CEEs include hospitals and providers and may be compensated by other sources. They cannot be funded by Covered California's federal funds or operating funds.

Certified Enrollment Entity Contact

A person appointed by the Certified Enrollment Entity to update account information and associate, approve, and disassociate Certified Enrollment Counselors associated to the Certified Enrollment Entity (CalHEERS system role).

Certified Insurance Agent

A person or entity who has completed agent certification activities and holds an active life and health agent license in California, and assists employers and employees with

application, plan selection, and enrollment processes into health insurance coverage in or out of Covered California. Individual market agents are compensated by Issuers. Certified Insurance Agents are compensated by Covered California. They also assist individuals in the individual exchange. Certified Insurance Agents cannot be Navigators.

Certified Representative

- (A) Service Center Representative: an Exchange employee operating in a call center
- (B) Certified Enrollment Counselor
- (C) Certified Application Counselor
- (D) Certified Insurance Agent
- (E) Certified Plan-Based Enroller

Change Advisory Board

The Change Advisory Board (CAB) is an Advisory Board and is an Information Technology Service Management (ITSM) supported concept for determining the risks and benefits of a change, align resources and assess scheduling.

The CAB consists of IT and business representative with technical expertise that review and approve the requested changes and contribute to the assessment and prioritization of changes. They review changes for impact to/from their respective areas and focus on what, why, and how aspects of the change. The CAB also reviews resource availability for deployment, timing of deployment and environment impacts.

All changes to Designated Configuration Items shall be entered into the change management system (ServiceNow) and should pass through the CAB.

Change Agent Team

A workgroup comprising of State or county representatives from one site who work collaboratively with System Integrator OCM team on OCM activities and take ownership for implementing the Change Readiness Plan in their site.

Change Hours

Change hours will be estimated by the System Integrator at the request of the Exchange and included in a System Change Request. System Change Requests will be mutually agreed upon prior to work beginning. SCRs will be considered time and materials estimates that may be adjusted depending on the actual effort required to complete the work for the SCR. The parties will address further processes regarding SCRs in the Project Management Plan Deliverable.

Change Management

An approach to transitioning individuals, teams, and organizations from a current state to a desired future state.

Change Readiness Plan

A document that details the implementation steps to address significant differences between the current and future roles and business processes. The Change Readiness Plan will include steps to transition to the new way of working, as well as resolutions for potential barriers related to implementing the Change Readiness Plan.

Change Request

A written form that when mutually agreed to and executed, in writing, modifies, deletes or adds to the Deliverables or Services, in whole or in part, and that is made in accordance with the terms of the Statement of Work (SOW).

Change Request Design Acceptance

Occurs when the applicable executed Change Request is moved, by the CalHEERS Project, to a status of "Design Accepted" in a Change Request tracking tool.

Change Request Implementation Acceptance

Occurs when the applicable executed Change Request is moved, by the State, to a status of "Build Accepted" in the CR tracking tool.

Charges

The amount(s) to be paid for Services and Deliverables, in whole or in part, as described in the Contract.

Child Health and Disability Prevention Program

A preventive program that delivers periodic health assessments and services to low-income children and youth in California.

Children's Health Insurance Program

A joint State/federal program to provide health insurance to children in families who earn too much money to qualify for Medicaid yet cannot afford to buy private insurance.

Cisco Voice Portal

The Cisco Voice Portal will provide receipt of information on the SCR's workstation.

Claim

A notice to the insurance company that a person received care covered by the plan. A claim also may be a request for payment and will state so.

Class of Admission (USCIS Code)

USCIS code that describes the category that was used to admit an immigrant to the U.S. as a permanent resident or conditional permanent resident.

Clear Case

The IBM Rationale tool that is a repository and version controller under UCM procedures.

Client Index Number

The CIN is the primary identifier for individuals who have applied for public benefits (CalWORKs, Food Stamps, Medi-Cal, etc.) and uniquely identifies a recipient across multiple programs. It is generated and controlled by the California Department of Health Services' Statewide Client Index.

Closeout

The closeout process is a process when a contract has met all of the terms of a contract and to finish or resolve all contractual requirements for a physically complete contract. Closeout is completed when all administrative actions have been completed, all disputes settled, and final payment has been made.

CMS Blueprint How-to Guide v1 January 27, 2012

A CMS document that provides guidance on how to document business processes.

Coinsurance

Consumers' share of the costs of a covered health care service. It is calculated as a percentage of the allowed amount for the service. The consumer pays coinsurance plus any owed deductible.

Collaborative Application Lifecycle Tool

A collaborative tool that creates a centralized repository for storing, collaborating on and sharing deliverables and artifacts from IT projects in support of Medicaid administration and establishment of Exchanges.

Comma Separated Value

A comma-separated values (CSV) file is a delimited text file that uses a comma to separate values. Each line of the file is a data record. Each record consists of one or more fields, separated by commas. The use of the comma as a field separator is the source of the name for this file format. A CSV file typically stores tabular data (numbers and text) in plain text, in which case each line will have the same number of fields.

Commercial Off the Shelf

Commercial Off-The-Shelf (COTS) is a Federal Acquisition Regulation (FAR) term defining a non-developmental item (NDI) of supply that is both commercial and sold in substantial quantities in the commercial marketplace, and that can be procured or utilized under government contract in the same precise form as available to the general public.

Common Checkout Page

This is a web service provided by NIC for the payment interface to CalHEERS.

Communication Item

An identified difference that does not require the development of resolutions and may be addressed in the site training or communication materials.

Community Based Organization

A third party that assists customers in applying for services and/or benefits in and out of the Exchange.

Community Outreach Network

Uncompensated community partners providing outreach and education about Covered California in local communities.

Companion Guides

Instructions for health care issuers, clearinghouses, and software vendors.

Company Offering

An instance of an offering that combines the carrier (e.g., Aetna), the plan type (e.g., medical, dental, vision), the market type (e.g., market, SHOP), the charges and the formulas used to calculate them, and the general ledger account applied for billing or payment transaction for the service.

Compatibility

Contractor warrants that, if the Software, in whole or in part, is replaced or upgraded by Contractor with replacement or upgraded Software components provided by Contractor, or Contractor provides Custom Software Deliverables or Enhancements, the Software as upgraded, replaced, and modified shall operate with the rest of the Software, Equipment and Data in the System, including without limitation, Custom Software and Third-Party Software and Enhancements, without loss of any Functions, as provided in the Specifications and without any Deficiencies. If the Exchange decides to produce Enhancements or to upgrade any of Third-Party Software which is used as part of the System with new versions or releases, Contractor shall, at no cost to the Exchange install and maintain the Software to operate in accordance with its Specifications and to be compatible with the Enhancements and new versions or releases of the Third-Party Software.

Computer-Based Training

A self-paced training delivery method in which the trainees learn by executing training programs on a computer.

Conditional Eligibility

Eligibility has been determined but is for a limited period due to a need for more information.

Confidential Information

Various trade secrets and information that the State desires to protect against unrestricted disclosure and that may be exempt from disclosure to the public or other unauthorized persons under State and federal laws, including without limitation (i) any nonpublic information or documentation concerning the State's business or future products or plans; and (ii) information that is designated as confidential by the State. The following are also hereby designated the State's Confidential Information: assister, assister employee, customer, customer employee, client, client employee, and CalHEERS employee personal information, including but not limited to names, addresses, Social Security numbers, e-mail addresses, telephone numbers, financial profiles, credit card information, driver's license numbers, medical data and health information, and law enforcement records, and such other Confidential Information as is described in this definition.

Confidentiality

The property that data or information is not made available or disclosed to unauthorized persons or processes.

Configuration(s)

The setting up of the business rules and workflow of business decisions to be used to implement the specific business rules and workflow of CalHEERS, without utilizing program language or database queries and the entering of data into tables that a software "rules engine" will process to determine workflow sequences, value limitation, and other variables, all without altering the Software source code.

Configuration Management Database

A CMDB is a database that houses CIs and provides functionality for reporting and managing those CIs. CMDBs may cover a large number of CI classes or be specialized

for a certain CI Class. SharePoint is an example of a CMDB that is optimized to house and manage document Configuration Items.

Confirmation

The State's receipt of Notice and detailed supporting information that will be based on the Acceptance Criteria described in each applicable DED from the Contractor that the Contractor has, as applicable, completed a Deliverable or Service in accordance with its Acceptance Criteria or pretested a Deliverable or Service for compliance with the Specifications, and confirmed the Deliverable or Service is ready for applicable Acceptance Tests.

Conflicts of Interest

Contractor, by entering into the Agreement with the Exchange to perform or provide work, Services or materials, has thereby covenanted that it has no direct or indirect pecuniary or proprietary interest, and that it shall not acquire any interest, which conflicts in any manner or degree with the work, services or materials required to be performed and/or provided under the Agreement and that it shall not employ any person or agent having any such interests.

Consumer (Individual)

An individual seeking information, eligibility, or enrollment in a health subsidy program (such as MAGI Medi-Cal and CHIP) or nonsubsidized health insurance program.

Consumer Assessment of Health Care Providers and Systems

The Consumer Assessment of Healthcare Providers and Systems (CAHPS) program is a multi-year initiative of the Agency for Healthcare Research and Quality (AHRQ) to support and promote the assessment of consumers' experiences with health care. First launched in October 1995, the program has expanded beyond its original focus on health plans to address a range of health care services and meet the information needs of health care consumers, purchasers, health plans, providers, and policymakers.

Consumer Assistance

One of the five (5) Organizational Change Management (OCM) Business Process Areas included in the business process models, which includes Process Consumer Inquiry/Complaint, Perform Member Management, Create Consumer Surveys/Notices, Generate Exchange Reporting, Register Assister Enrollment Entity, Monitor Assister Enrollment Entity, Register Assistors, and Monitor Assister Activity.

Consumer Assistance Programs

Programs or services that provide assistance and advisory services to individuals or other potential exchange customers.

Consumer Operated and Oriented Plan (CO-OP)

A program which will foster the creation of qualified nonprofit health insurance issuers to offer competitive health plans in the individual and small group markets.

Consumer Portal

The Consumer Portal is a CalHEERS consumer facing web portal providing the ability to apply, shop, enroll, renew, and report life events associated with initial and ongoing health care services and associated affordability benefit programs.

Continuing Coverage

Eligibility for State health care programs is re-determined on an annual basis. The year-long period of enrollment is considered continuing coverage as opposed to the two-month period of coverage granted through the presumptive eligibility.

Contractor Expenses

Contractor shall submit detailed, correct invoices in triplicate and in accordance with Exchange's standard invoicing requirements or other procedures agreed to in writing by the parties to the State Project Director or designee for all Charges and other amounts to be paid by Exchange hereunder.

Contractor Liaison

Contractor shall designate an individual or individuals as liaison on all Facility related matters.

Contractor Technology

Intellectual property owned by Contractor and its Subcontractors prior to the Execution Date (as well as certain modifications, enhancements or improvements to such intellectual property developed hereunder without payment of federal funding or Federal Financial Participation by the Exchange or developed or owned by Contractor or its Subcontractors outside the scope of this Agreement), including Contractor's or its Subcontractors' proprietary methodologies, project management and other tools, deliverable examples, procedures, processes, techniques, data models, templates, general purpose consulting and software tools, utilities, and routines; the Pre-existing Software; and Contractor's Confidential Information.

Controlling Health Plan

A CHP means a health plan that— (1) controls its own business activities, actions, or policies; or (2)(i) is controlled by an entity that is not a health plan; and (ii) if it has a subhealth plan(s), exercises sufficient control over the subhealth plan(s) to direct its/their business activities, actions, or policies.

Conversion Software

Data conversion programs are written to transform data from the source system into a format and/or code values that are acceptable as input to the target system.

Converted Data

The Data which has been successfully converted for Processing by the System as described in the conversion plan Deliverable.

Coordination of Benefits

A provision used to establish the order in which health insurance plans pay claims when and individual has more than one health insurance plan.

Correspondence

Written or rendered information presented, mailed, emailed, Faxed or texted to a customer, consumer, or client that is not a Notice of Action (NOA).

Cosmetic Deficiency

A cosmetic and inconsequential Deficiency in the Exchange's reasonable judgment.

Cost Allocation

The process of identifying, aggregating, and assigning costs to cost objects.

Cost Sharing

Any expenditure required by or on behalf of an enrollee with respect to essential health benefits; such term includes deductibles, coinsurance, copayments, or similar charges, but excludes premiums, balance billing amounts for non-network providers, and spending for non-covered services.

Cost Sharing Reductions

A decrease in cost sharing for an eligible individual enrolled in a silver level plan in the Exchange.

Cost-Plus

~~The Contractor will mark-up their Cost-Plus Actual Cost for an item by a fixed bid percentage set for the term of the Contract.~~

Cost-Plus Actual Cost

~~The true and final (after all volume or other discounts, kickbacks, etc.) cost to the Contractor from the manufacturer or vendor for obtaining a Cost-Plus item. The Cost-Plus Actual Cost is intended to represent the best possible price available to the Contractor, allowing best possible price for the State while also allowing a fair profit for the Contractor based on their bid percentage.~~

County Children's Health Initiative Program

County Children's Health Initiative Program (CCHIP) is an existing health insurance program that offers affordable and comprehensive medical, dental, and vision insurance for children aged 0-19 who qualify. CCHIP is only available in three counties: San Mateo, San Francisco, and Santa Clara.

County Eligibility Worker

A County Welfare Department employee who assists Individuals in-person with plan selection and enrollment in Covered California after assisting the Individuals with their health subsidy program application.

County of Responsibility County of Responsibility (COR) is the County designated to manage the Case person's eligibility for a period of time. COR is established by the CalHEERS System and communicated to SAWS and MEDS via the Interfaces.

County Welfare Directors Association (of California)

A non-profit association representing the Human Services directors from each of California's 58 counties.

Course

The set of training modules representing training for a set of closely related business processes.

Coverage

What the health plan does and does not pay for. Coverage includes almost everything mentioned in this booklet: benefits, deductibles, premiums, limitations, etc.

Covered California

The customer-facing name of the California Health Benefit Exchange.

Covered California Certified Enrollment Counselors

Previously Assister, Covered CA Certified Enrollment Counselor is the broad category of non-Customer system users in California. They are Navigators, Non-Compensated Assistants, and Administrative Staff (which may be any of CalHEERS, MRMIB, or SAWS Staff). A person who has completed assister certification activities, belongs to a compensated Assister Enrollment Entity (IPA or Navigator) or non-compensated Assister Enrollment Entity, and assists Consumers (Individuals) with application, plan selection, and enrollment functions in the CalHEERS solution. Does not include Agents.

Covered California Certified Insurance Agents

A person or entity licensed by the state, which acts on behalf of a customer and supports the application, eligibility and enrollment processes into health insurance coverage in or out of the Exchange. (also "Broker"). An Agent is someone who has completed agent certification activities and holds an active life and health agent license in California, and assists employers and employees with application, plan selection, and enrollment processes into health insurance coverage in or out of Covered California. Individual market agents are compensated by Issuers. SHOP Agents are compensated by Covered California.

Covered California Plan

Similar to QHP, all health plans that are certified by Covered CA to participation. Plans that receive this certification will provide essential health benefits, follow established limits on cost-sharing (like deductibles, copayments, and out-of-pocket maximum amounts), and meet other requirements defined by the Exchange. (See related item Qualified Health Plan Certification)

Create New Eligibility

The HX20 is used to add new eligibility to MEDS or to report a change in eligibility information for a client who is already active on MEDS.

Credits

Any credits due the Exchange under this Agreement may be applied by the Exchange against Contractor's invoices with appropriate information attached, upon giving of Notice required herein, if any, by the Exchange to Contractor.

Critical Path

The Critical Path, the longest necessary path through a network of activities when respecting their interdependencies, which may be identified with the Program Evaluation and Review Technique and the Critical path method.

Cross-Site Scripting

A type of computer security vulnerability typically found in Web applications, such as web browsers through breaches of browser security, that enables attackers to inject client-side script into Web pages viewed by other users.

Current Monthly Income

Current Monthly Income

Curriculum

The set of courses comprising the CalHEERS training solution.

Custom Grouping

This is where you have household members in Different plans, E.g., Husband is with Anthem and the wife, and 2 kids are with Blue Shield. Note: As of Feb 2016, this is only allowed on Unsubsidized plans. Even having different metal levels within 1 Carrier is 2 separate plans, so it would still be custom grouping. Plan selection by custom grouping allows users to categorize members into separate groups in order to set preferences, compare plans, and enroll by group (as opposed to choosing one plan for all members or selecting separate plans for each person). See WPS06.07 – Indiv Application – Enrollment v40.1 for visuals.

Customer

An individual, employer, or an employee, or qualified entity seeking information, eligibility or enrollment into a health insurance or health related product available on the Health Benefit Exchange.

Customer Index Number

An identification number that will be used by the Exchange to uniquely identify each customer.

Customer Relationship Management

A system to be used at Covered California Service Center to manage interactions between customers and Covered California Service Center staff.

Customer Resolution Team

It is comprised of CC's PT IIIs at the Fresno and Rancho centers. They handle escalated calls transferred to them from the SCRs and have permission to perform terminations and re-enrollments. PT = Program Technician. Our SCRs (the call center agents) are PT IIs. The CRT is comprised of PT IIIs. (In a perfect world, these would be our "stars" that have been promoted, however, currently; these folks have been hired as PT IIIs into State service and have received the same training as the PT IIs).

Cutover

Multiple events whereby responsibility of Contract System Development Maintenance and Operations (SDMO) service(s), functions(s) or component(s) is transferred from the incumbent Contractor to the successor Contractor (or State).

Cutover Activities

Cutover activities are timed and scheduled activities that occur during a predetermined cutover window once a "go" decision is made.

Cutover Schedule

A tool used to monitor each of the cutover activities that need to occur on the CalHEERS Project during the cutover window.

D

Damage to Property

Contractor shall protect and be responsible for any loss, destruction, or damage to Property (except Work Products other than Deliverables) which results from or is caused

by Contractor's acts or omissions or from the failure on the part of Contractor to maintain and administer that Property in accordance with the terms of the Agreement.

Dashboard/Wallboard

Wall display that shows service center real time performance reports.

Data

The State's records, files, forms, data, converted Data, and other information and documents in electronic or hard copy form. In addition, Data is any information, formulae, algorithms, or other content that the State, the State's employees, agents and end users upload, create or modify. Data also includes user identification information and metadata which may contain Data or from which the State's Data may be ascertainable.

Data Center

A facility, either directly maintained or obtained through Cloud Services, used to house computer systems and associated components, such as telecommunications and storage systems. It generally includes redundant or backup power supplies, redundant data communications connections, environmental controls (e.g., air conditioning, fire suppression) and various security devices.

Data Conversion Tool (DCT)

The Data Conversion Tool provides both data conversion and the client team with a single repository for the creation and maintenance of conversion requirements and information, including data maps and data validation log.

Data Exchange File

The DEX file contains warrant (check) numbers and/or print control numbers for EFT transactions.

Data Governance

Data Governance is how an enterprise manages its data assets.

Data Integrity

Data integrity is concerned with three aspects of the data in a database: accuracy, correctness, and validity. Data integrity has the following meanings: (1) The condition that exists when data is unchanged from its source and has not been accidentally or maliciously modified, altered, or destroyed; (2) The condition in which data is identically maintained during any operation, such as transfer, storage, and retrieval; and (3) The preservation of data for its intended use.

Data Lake

A data lake is a storage repository that holds data in its native format, i.e., structured data, un-structured data, etc.

Data Services Hub

Data Services Hub

Data Use/Data Exchange/Interconnection Security Agreement

A system interconnection is defined as the direct connection of two or more IT systems for the purpose of sharing data and other information resources.

Data Verification Matrix

A document identifying which partners CalHEERS will interface for all electronic verification of eligibility data elements.

Data Warehouse/Data Warehousing

Data Warehouse also known as an enterprise data warehouse (EDW or DW), is a system used for reporting and data analysis, and is considered a core component of business intelligence. DWs are central repositories of integrated data from one or more disparate sources.

Day In The Life Of

An Organizational Change Management work product containing a description of a typical day in the current and future business environment.

Day(s)

Calendar day(s), unless otherwise indicated.

Decision Log

Log containing requests for decisions by the project management group (or other stakeholders) as well as documents the final decision determinations.

Decision Point (DP)

An issue encountered when data mapping is being performed that must be tracked until a resolution is found, or until the issue is further escalated through the project formal issue tracking process.

Decline (Opt Out)

An activity performed by a consumer who declines to continue with program enrollment after their program eligibility for that program has been determined. When a consumer opts Out or Declines, a discontinuance of APTC/CSR or MAGI Medi-Cal will be initiated by the system.

DED and DEL Comments Log

The comments log contains consolidated review comments provided by the CalHEERS Project Review Team. The deliverable owner provides responses to each review comment.

Deductible

A portion of the covered expenses (typically \$100, \$250 or \$500) that an insured individual must pay before benefits are paid by the insurance plan. Deductibles are standard in many indemnity policies and are usually based on a calendar year.

Deficiency

A failure of a Deliverable or Service, or an omission, defect or deficiency in a Deliverable or Service, which causes it not to conform to its Specifications.

Deliverable Expectations Document

Deliverable expectation documents that include the Acceptance Criteria for each Deliverable. The DED describes the proposed approach to preparing a Deliverable, including the methodology, format, content and level of detail. The approval of the

document represents a common understanding between CalHEERS and the Contractor on aforementioned deliverable details.

Demonstration video

A type of CalHEERS training, in the form of brief, 3-5 minute segments of recorded system interaction and text instructions with a voiceover narration intended for consumers visiting the portal.

Denial of Service

Threat aimed to deny access to valid users, such as by making a web server temporarily unavailable or unusable.

Dental Coverage

Benefits that help pay for the cost of visits to a dentist for basic or preventive services, like teeth cleaning, X-rays and fillings.

Dental Health Maintenance Organization

A type of dental plan product that delivers dental services by requiring assignment to a primary dental care provider who is paid a per-patient fee for providing all required dental services to the enrollee unless specialty care is needed. Dental health maintenance organizations (DMHOs) require referral to specialty dental providers. These products do not include coverage of services provided by dental care providers outside the dental plan.

Dental Preferred Provider Organization

A type of dental plan product that delivers dental services to members through a network of contracted dental care providers and includes limited coverage of out-of-network services.

Department of Finance

A state cabinet-level agency within the government of California. The Department of Finance is responsible for preparing, explaining, and administering the state's annual financial plan.

Department of Health Care Services

A department within the California Health and Human Services Agency that finances and administers a number of individual health care service delivery programs, including Medi-Cal, which provides health care services to low-income people.

Department of Labor

The Department of Labor (DOL) administers and enforces more than 180 federal laws. These mandates and the regulations that implement them cover many workplace activities for about 10 million employers and 125 million workers.

Department of Managed Health Care

Department of Managed Health Care. A regulatory body governing managed health care plans, sometimes referred to as Health Maintenance Organizations (HMO) in California.

Department of Social Services

CDSS strives to carry out its mission of providing aid, services and protection to needy children and adults. At the same time, the Department strives to strengthen and encourage individual responsibility and independence for families.

Dependent

A child or other individual for whom a parent, relative or other person may claim a personal exemption tax deduction. Under the Patient Protection and Affordable Care Act, individuals may be able to get premium assistance to help cover the cost of coverage for themselves and their dependents.

Dependent Coverage

Insurance coverage for family members of the policyholder, such as spouses, children or partners.

Desk Reference Guide

State owned and created document to support state tasks. Could be in support of a Project Process but is not a Contractor product.

Design Artifact

A Design Artifact is a demonstration tool used in Joint Application Design (JAD) Sessions.

Detailed Design Review

Federal Enterprise Lifecycle Reviews of Exchange of design deliverables.

Determination

Eligibility Determination

Determination Eligibility Response

A dataset sent from CalHEERS to SAWS through eMerging Health Information Technology (eHIT). It is an electronic transmittal containing case member eligibility as determined in the CalHEERS system back to SAWS.

Determination of Eligibility Response - Unsolicited

Determination of Eligibility Response – Unsolicited

Difference

An instance in which the CalHEERS application business processes or roles are different to the current environment.

Digital Subscriber Line

Digital Subscriber Line, a method for transmitting data over phone lines without interfering with voice service.

Disbursements

An outgoing payment created by the Exchange and disbursed through the State Controller's Office (SCO) to a Certified Insurance Agent, a Certified Enrollment Entity, an Employer, or an Issuer (Carrier).

Disclosure

The release, transfer, provision of access to, or divulging in any other manner of PII outside the entity holding the information. Disclosure includes if a person or entity outside of the entity holding the information takes possession or control of PII, such as if PII is encrypted by an unauthorized person as the result of a ransomware attack.

Discontinuance

The HX40 is used to discontinue eligibility for a client who is active in MEDS.

Discovery

Prior to Pre-JADs, CalHEERS and Sponsors may conduct discovery sessions to clarify the context, the business need, and intent of Change Requests (CRs). Sponsors may also request these sessions to clarify the scope of a CR and to develop/refine the requirements to have effective conversations during Pre-JADs.

Discrepancy

A Discrepancy is a failure to match when comparing consumer data entry with verification rules and may result in a non-reasonably compatible outcome.

Domain Controller(s)

Server that responds to security authentication requests (logging in, checking permissions, etc.)

Domain Name Service

Provides a name to IP address resolution.

Domains

An Active Directory are centralized directory databases identified by their domain name structure (DNS), the namespace.

Dry Run Testing

The purpose of the DRT is to simulate the cutover and validate converted data within the target application.

E**Education & Outreach**

The process and activities associated with targeting and increasing awareness of potential exchange customers regarding the Health Benefits Exchange and health care insurance options and programs that may be available to them.

Effectuation

Once an individual has enrolled in a plan and made their first month's payment they are effectuated and will receive health insurance coverage from the Carrier they have paid. The initial (binder) payment must be made for an individual to be considered effectuated. An enrollment group is considered effectuated if they have made their first monthly premium payment.

Electronic Benefits Transfer

Electronic Benefit Transfer is an electronic system that automates the delivery, redemption, and reconciliation of issued public assistance benefits by providing the consumer with the equivalent of a Debit Card. (From www.ebt.ca.gov - This website is a resource for California EBT cardholders to check individual account balances, view

transaction history detail, check claim status, and locate retailers and automated teller machines (ATMs) that accept the EBT card. The Golden State Advantage card is California's EBT card. It is similar to a bank debit card that provides a way for you to spend your food and/or cash benefits when your monthly benefits are deposited into your EBT account. You can use your EBT card at any store or ATM that displays the Quest® mark in California and throughout the United States.)

Electronic Fund Transfer

Electronic Fund Transfer as it applies to money being paid, e.g., via a file to the SCO.

Electronic Health Information Transfer

The eHIT interface is comprised of both real-time WEB Services and scheduled batch processes. Together, these technologies implement the data transfer between Statewide Automated Welfare Systems (SAWS) and California Healthcare Eligibility, Enrollment and Retention System (CalHEERS).

Elevation of Privilege

Threat aimed to gain privileged access to resources for gaining unauthorized access to information or to compromise a system.

Eligibility

Eligibility is the process of applying a complex set of rules to specific data associated with a consumer, to identify eligibility for one or more established health insurance and affordability programs available within the CalHEERS Application.

Eligibility Administrator

A Covered California employee (or designee) who is responsible for determining health insurance affordability program eligibility for individuals, processing exceptions, inquiries, and appeals related to the eligibility determination. This was a CalHEERS system role; it was replaced with SCR roles.

Eligibility and Enrollment

One of the five OCM Business Process Areas included in the business process models, which includes Apply for Health Insurance, Determine Eligibility and Enroll, Evaluate Exemption Request, Process Administrative Renewal Exceptions, Process Exchange Program Appeals, and Reconcile Enrollment with Issuers

Eligibility Case Period

The Eligibility Case Period table holds eligibility period dates, such as: The date used for determining same day eligibility remediation, and the begin date and end date of eligibility remediation. It is also used to check whether the period has been cloned (a record or eligibility segment that has been copied from a previous run) and stores the ECP ID of the previous run from which the record has been copied over.

Eligibility Determination

Performed by authorized program staff or automated systems according to the rules of the program for which the applicant is applying, utilizing documentation presented by the applicant.

ED is a transaction through the CalHEERS Business Rules Engine (BRE) ED (A call to the BRE) and is performed at:

- Application – Eligibility Determination
- Administrative Renewal – (Annual) Every 12 month (Medi-Cal and APTC)
- Periodic Re-Verification
- Change of Circumstances
- Mass Updates
- Federal Poverty Level (FPL) Cost of Living Adjustment (COLA)
- Social Security Administration (SSA) COLA
- Rules Changes

Eligibility Determination Request

Eligibility Determination Request is a dataset sent from SAWS to CalHEERS through eHIT. It is an electronic transmittal containing eligibility determination information from the SAWS applicant/case.

Eligibility Evaluation Reason Code

Eligibility Evaluation Reason Code

Eligibility Status Action Code

HX20 ESAC 1 (Initial Eligibility)
HX20 ESAC 2 (Update Eligibility)
HX20 ESAC 6 (initial closed period prior)
HX20 ESAC 7 (Update closed period prior)

Eligibility Verification

A provider is able to verify a Medi-Cal beneficiary's eligibility through the Point of Service network. The provider uses the beneficiary's Benefits Identification Card (BIC) to validate coverage to ensure payment for covered care.

Eligible Employer-Sponsored Plan

The term "eligible employer-sponsored plan" means, with respect to any employee, a group health plan or group health insurance coverage offered by an employer to the employee which is:

- A governmental plan (within the meaning of section 2791(d)(8) of the Public Health Service Act), or
- Any other plan or coverage offered in the small or large group market within a State. (State of WA EEI-16).

Eligible Immigration Status

An immigration status that's considered eligible for getting health coverage through Covered California. View a list of individuals with "lawfully present" status for eligibility and enrollment purposes in the individual market.

Emergency Services

Evaluation of an emergency medical condition and treatment to keep the condition from getting worse.

Employee

An individual who is eligible for health insurance coverage because he/she meets minimum employment qualifications of a small business employer participating on the SHOP Exchange.

Employee Retirement Income Security Act (29 U.S.C. section 1001, et seq.)

The Employee Retirement Income Security Act of 1974 (ERISA) provides a comprehensive federal scheme for the regulation of employee pension and welfare benefit plans offered by private-sector employers.

Employee Self Service Tool

A tool for Covered CA staff to log tickets regarding CalHEERS and other systems.

Employer

A business that qualifies and elects to purchase health insurance via the Small Business Health Options Program (SHOP). This is limited to employers with less than 50 (but not 0) employees in the initial enrollment period.

Employer Contribution

Any financial contributions towards an employer sponsored health plan, or other eligible employer-sponsored benefit made by the employer including those made by salary reduction agreement that is excluded from gross income.

Employer Identification Number

An Employer Identification Number (EIN) is also known as a Federal Tax Identification Number and is used to identify a business entity.

Employer Tax Credit

A tax credit of up to 35 percent of small business premium costs in 2010 for employers with fewer than 25 full-time workers and average annual wages less than \$50,000. The rate increase to 50 percent in 2014.

Employment Development Department

Employment Development Department (EDD) is a CalHEERS Interface partner. EDD is a California Department that provides quarterly wage, unemployment insurance income (UI) and disability insurance income (DI) for CalHEERS to verify individual self-attested income during the CalHEERS eligibility determination processes.

End User License Agreement

A legal contract entered into between a software developer or vendor and the user of a software detailing the rights and restrictions which apply to the use of the software. Often shortened to "EULA."

Engineering Workflow Management

IBM® Engineering Workflow Management is a collaborative software development tool that teams use to manage all aspects of their work, such as iteration and release planning, process definition, change management, defect tracking, source control, build automation, and reporting.

Enhancement(s)

Updates, additions and modifications to, and new releases for the Software and Third-Party Software, and all associated changes to the Documentation as a result of Enhancements, including but not limited to Enhancements produced by executed Change Requests (CR).

Enrollee

A Qualified individual or qualified employee enrolled in a QHP.

Enrollment

Enrollment is registration of individuals into health care services. Actual enrollment is done by the consumer selected Insurance Carrier or County Social Services Agency.

Enrollment Assistance Program

Enrollment Assistance Program carried out by assisters, Certified Enrollment Counselors, Certified Enrollment Entities, and agents.

Enrollment Counselor Manager

A Covered California employee (or designee) who is responsible for reviewing Enrollment Counselor applications for acceptance as a Certified Enrollment Counselor, monitoring Enrollment Counselor activities and compliance, and managing Enrollment Counselor complaints and decertification (CalHEERS system role).

Enterprise CalHEERS Security Framework

The CalHEERS Enterprise Security Framework integrates the guidance contained in the CMS harmonized security and privacy framework that has been created to assist health insurance exchanges structure their security and privacy program.

Enterprise Service Bus

A method of allowing integration of enterprise applications services and services built on newer technologies (e.g., J2EE, .NET). The ESB acts as a middle layer communicating between the two architectures.

Essential Health Benefits

Individuals enrolling in QHPs must receive coverage that meets or exceeds the “Essential Health Benefits” standard. The Department of Health and Human Services will launch an effort this fall to collect public input on the Essential Health Benefits standard. Based on expectations in the ACA, that standard will offer robust coverage, including mental health and substance abuse services that are often excluded from commercial plans. It may also include some Medicaid-optional benefits that states have selected not to cover in order to make plans more affordable for certain populations.

Exception

Data elements that are not included or do not fit into the general rules of eligibility determination.

Exchange

Covered California, identified interchangeably in California Government Code Section 100500 as the Exchange and the California Health Benefit Exchange, was created by the California State Legislature to implement key elements of the Affordable Care Act (ACA). CalHEERS is the key implementation of that law.

Exchange Life Cycle

Stages through which process/products are developed over a period of time.

Exchange Project Director

The person designated by the Exchange to be responsible for financial and contractual matters regarding the Agreement, including but not limited to, the person to whom the Exchange's signature authority has been delegated in writing and the person designated by the Exchange to be responsible for day to day management of the Exchange's resources for the Project and monitoring the status of Contractor's performance under the Agreement. The term includes, except as otherwise provided herein, an authorized representative of the Exchange Project Director acting within the limits of his/her authority.

Exchange Reference Architecture

CMS specified key architectural principles and guidelines that support the business of providing Medicaid and Exchange services. Included are IT principles, technology standards, IT governance, and identified areas where collaborative discussions are necessary to ensure the most effective and efficient environment for Medicaid and CalHEERS IT services.

Exchange Service Area

The area in which the Exchange is certified to operate.

Exchange Worker

An employee of the Exchange or an employee of an entity with responsibility for the operation of the Exchange. Exchange workers will have specific roles and responsibilities within the Exchange for the operation of each functional area. The term "Exchange Worker" is used describes users who will have access to internal functionality for the operation of the Exchange, such as eligibility specialists, local office workers, call center representatives, business analysts, supervisors, executive management report consumers and more.

Exclusive Provider Organization

An exclusive provider organization (EPO) is a type of health care doctor and hospital network that offers a full array of covered benefits from a single network. Covered benefits are not paid for services rendered by a doctor or hospital that is not part of the network, except in the case of emergency or plan-approved care outside the network.

Exemption

Permission or entitlement not to participate in the Individual Mandate to carry Health Care Insurance as defined by the Affordable Care Act (ACA)

Expanded System

The Baseline System combined with Core Enhancement Functionality which the Exchange has chosen in writing within one year of the Execution Date to be designed, developed, and implemented by Contractor.

Explanation of Benefits

A statement sent by an insurer to explain how the covered benefits and associated costs were paid to the provider.

Extensible Application Markup Language

A simple and declarative language based on XML. In XAML, it is very easy to create, initialize, and set properties of objects with hierarchical relations.

Extensible Markup Language

A markup language created by the World Wide Web Consortium (W3C) to define a syntax for encoding documents that both humans and machines could read. It does this through the use of tags that define the structure of the document, as well as how the document should be stored and transported. Often shortened to “XML.”

External Coordination

A group within the Back Office that handles more difficult issues for the Carriers.

F**Facilities Costs**

Contractor shall be responsible for all costs related to the operation of each Facility, including, but not limited to, leasehold improvements, utilities, security, telephone, office equipment, supplies, janitorial services, storage, transportation, insurance, fax and copy machine equipment and supplies, and the telephone system required to support help desk call routing and tracking.

Facility(s)

The buildings and land to house certain Equipment, Software, Data, and Project related activities hereunder.

Family

A group of people generally living in the same residence with a familial relationship.

Federal Data Service Hub

The Federal Data Services Hub (FedHub) is a CalHEERS Interface partner. The Federal Data Service Hub is a gateway used to facilitate access to data required to support the Patient Protection and Affordable Care Act health coverage program. The service was built and is maintained by the Internal Revenue Service (IRS) and federal Health and Human Services (HHS). It combines data on income and employment from IRS records, health and entitlements from HHS records, identity from Social Security, citizenship from Department of Homeland Security records, criminality from Department of Justice records, and residency from state records. Also involved are the Department of Defense, the Department of Veterans Affairs, the Office of Personnel Management, the Peace Corps, and state Medicaid administrations. The hub accesses and passes data that is used to verify the information provided by the consumer or on their behalf by an enrollment entity or agent that enables a decision about an applicant's eligibility for health care assistance programs.

Federal Employee Health Benefit Plan

A system of managed competition through which employee health benefits are provided to civilian government employees and annuitants of the United States government. Workers pay one-third of the cost of insurance, and the government pays the other two-thirds.

Federal Financial Participation

The federal government's share of an expenditure made by CalHEERS/DHCS under this Contract.

Federal Poverty Level

The poverty guidelines used for determining financial eligibility for certain federal programs including SAWS.

Federal Tax Information

Any return or return information received from the IRS or secondary source, such as the Social Security Administration or the Center for Medicaid Services (Internal Revenue Code (IRC) §6103(b)(1)&(2)), as well as any information which is derived from return or return information (Internal Revenue Service Publication 1075, Section 1.4.1).

Federally Facilitated Exchange

Consumers in FFE states will access both Qualified Health Plans and Insurance Affordability Programs (Medicaid, CHIP and Premium Tax Credits) through the FFE, requiring the FFE to coordinate closely with state Medicaid, CHIP and insurance agencies. Consumers in FFE states will access both Qualified Health Plans and Insurance Affordability Programs (Medicaid, CHIP and Premium Tax Credits) through the FFE, requiring the FFE to coordinate closely with state Medicaid, CHIP and insurance agencies.

Federally Facilitated Marketplace

The Federally-Facilitated Marketplace (FFM) is an online option to buy health insurance for individuals and small businesses that provide insurance for their employees. Through the FFM, individuals and small businesses can compare health plans, get answers to questions, determine eligibility for lower out-of-pocket costs and enroll in health plans.

Visit [HealthCare.gov](https://www.healthcare.gov) for more information.

File Clearance

The process used to determine whether an applicant is known to any of the health or social services programs whose eligibility data is maintained in MEDS.

Final Acceptance

Final Acceptance occurs when the Contractor repairs all Deficiencies, identified during the applicable Warranty Period, related to the Baseline system requirements. The Contractor will receive a Final Acceptance Notice from the State when this event has occurred.

Final Detailed Design Review

Federal Enterprise Lifecycle Reviews of Exchange of final design deliverables.

Financial Administrator

A Covered California employee (or designee) who is responsible all or any of the following financial functions in the system: billing, accounts receivable, inquiries, exception processing, delinquency, and accounts payable (CalHEERS system role).

Financial Help

Federal program to help to reduce the cost of an individual's or family's monthly health insurance payments and co-pays.

Financial Management

Financial Management is the ability to aggregate and produce monthly invoices for participation fees based on effectuated enrollments for health and dental coverage with contracted Carriers.

First Data Government Solutions

First Data Government Solutions has been contracted by the CalHEERS Project to provide Project Management and Technical Support Consulting Services to support State Project staff during.

Fiscal Systems and Consulting Unit

A division of the California Department of Finance.

Five-Year Bar

The “5-year bar” is a 5-year period that qualified immigrants must wait until they are able to receive subsidized health coverage, among other things. They are barred from receiving subsidized health coverage during that 5-year time period. See also NQI.

Fixed Budget Amount

The Fixed Budget is the amount represented for HW, SW, Cloud Hosting Services by the total dollar baseline amount by Fiscal Year. Refer to the Cost Workbook tabs D-2, D-3, and D-4 for an example of the use of a Fixed Budget amount.

Fixed Price Amount

The fixed price amount payable and paid by the State to the Contractor under this Contract.

Franchise Tax Board

Franchise Tax Board (FTB) is a CalHEERS Interface partner. FTB is a California Agency responsible for timely and accurate reporting and payment individual and business tax information specific to CA income. The information from the validated returns is used to assist in the income assessment during eligibility determination for healthcare assistance programs.

Function(s)

A discrete capability of Software on CalHEERS.

Function Area

A grouping of activities or processes on the basis of their need in accomplishing one or more tasks

Functional Design Document or Functional Design Definitions

Functional Design Document or Functional Design Definitions

Funding

The parties acknowledge and agree that this Agreement is dependent upon the availability of State and/or federal funding. The Exchange’s obligation to pay interest consistent with Government Code Section 927 and as described in this Agreement is subject to such interest specifically being permitted under law and being available from the Exchange’s funds for such interest.

Funding Opportunity Announcement

A funding opportunity announcement (FOA) is a notice in Grants.gov of a federal grant funding opportunity. Funding opportunity announcements can be found at Grants.gov/FIND that lets organizations apply for grants for over 1,000 grant programs from 26 federal agencies. Each FOA includes instructions -- a Grant Application Guide, and forms -- a Grant Application Package.

G

General Agent

General Agents are contracted with Covered California to act only in the SHOP (Group Market). The Agent/General Agent associated with a Group Enrollment is maintained at the Group Level, not the member level.

General Ledger Account Number

Used by CalSTARS. Each GLAN has a list of Transaction Codes that post to that GLAN.

Go-Live

As described in the Work Plan, the event that occurs after the CalHEERS Project gives Acceptance for a Release and puts a Release into Production. The Go-Live event for the last Release shall be the Go-Live event for the System.

Grantees

Covered California Certified Educations. Changed by Covered CA 6/21/13.

Group Products

Insurance products pre-selected by employers that are offered to their employees to enroll in.

Guided Practice

In Instructor-led Training courses, Guided Practices are training exercises conducted by the instructor that take trainees through a system interaction step by step.

H

Headless Dashboard

Headless is a mode that provides the very necessary service/components status of the application. Splunk Dashboard in CalHEERS provides the metrics based on the raw data from the backend of the CalHEERS application (Users, Transactions, Virtual Servers, Database, Application Performance).

Health and Human Services

The United States government's principal agency for protecting the health of all Americans and providing essential human services.

Health Benefit Exchange

The California Health Benefit Exchange was created by the California State Legislature to implement key elements of the Affordable Care Act (ACA). CalHEERS is the key implementation of that law.

Health Care Options

Health Care Options is a program within the Department of Health Care Services (DHCS). The California Health Care Options (HCO) Program provides Medi-Cal beneficiaries with resources to make informed decisions about their Medi-Cal benefits.

The main functions of the HCO Program are designed to assist Medi-Cal beneficiaries in understanding, selecting, and using managed care plans. The services provided by HCO to Medi-Cal beneficiaries include but are not limited to customer service, mailing of informing materials, education and outreach services in managed care counties, and enrollment/disenrollment processing. The HCO Program is currently responsible for 15 service areas(counties).

Health Coverage

Legal entitlement to payment or reimbursement for your health care costs, generally under a contract with a health insurance company; a group health plan offered in connection with employment; or a government program like Medicare, Medicaid (Medi-Cal in California) or the Children's Health Insurance Program (CHIP).

Health Coverage Verification

Health Coverage Verification.

Health Information Portability and Accountability Act

Allows persons to qualify immediately for comparable health insurance coverage when they change their employment or relationships. It also creates the authority to mandate the use of standards for the electronic exchange of health care data; to specify what medical and administrative code sets should be used within those standards; to require the use of national identification systems for health care patients, providers, payers (or plans), and employers (or sponsors); and to specify the types of measures required to protect the security and privacy of personally identifiable health care.

Health Information System

HIS stores information relating to the name and type of plan, start date and stop date. It is loosely coupled to the MEDS system in that the only requirement for acceptance of a plan transaction is the existence of eligibility in a program during the same period. The purpose of this system is to provide a centralized source of all plan information.

Health Information Technology for Economic and Clinical Health Act

The Health Information Technology for Economic and Clinical Health (HITECH) Act, enacted as part of the American Recovery and Reinvestment Act of 2009, was signed into law on February 17, 2009, to promote the adoption and meaningful use of health information technology.

Health Insurance

A contract that requires your health insurer to pay some or all of your health care costs in exchange for a premium.

Health Insurance Marketplaces

Under the Patient Protection and Affordable Care Act, these are resources where individuals, families and small businesses can learn about their health coverage options; compare health insurance plans based on costs, benefits and other important features; choose a plan; and enroll in coverage. Marketplaces also provide information on programs that help people with low to moderate income and resources pay for coverage. This includes ways to save on the monthly premiums and out-of-pocket costs of coverage available through the marketplaces, and information about other programs, including Medicaid (Medi-Cal in California) and the Children's Health Insurance Program (CHIP). Marketplaces encourage competition among private health plans and are

accessible through websites, call centers and in-person assistance. In some states, such as California, the marketplace is run by the state. In others, it is run by the federal government.

Health Insurance Oversight System

In order to be registered to sell Health Insurance, a Carrier must register with HIOS. Carrier's get assigned a unique 5 digit HIOS number. The Health Insurance and Oversight System (HIOS) is a web-based application that allows CMS Center for Consumer Information and Insurance Oversight (CCIIO) to collect insurance statistical data from state entities, Individual and Small Group Health Insurance Carriers (SHOP). The Health Insurance Oversight System (HIOS) will allow the government to collect data from states and individual and small group market issuers, which will be aggregated with other data sources and made public on a consumer facing website. One initial mechanism for the states to submit their data is through the use of the HIOS Excel template.

Health Insurance Oversight System ID

Health Insurance Oversight System number that uniquely identifies each new Qualified Health Plan (QHP) and new Qualified Dental Plan (QDP) approved by CMS.

Health Insurance Plan

Health insurance plans sold through Covered California, the state's marketplace for the federal Patient Protection and Affordable Care Act, provide essential health benefits, follow established limits on cost-sharing (such as for deductibles, copayments and out-of-pocket maximum amounts) and meet other requirements of the federal health care law.

Health Level 7

HL7 and its members provide a framework (and related standards) for the exchange, integration, sharing, and retrieval of electronic health information; v2.x of the standards, which support clinical practice and the management, delivery, and evaluation of health services are the most commonly used in the world.

Health Maintenance Organization

A type of health insurance plan that usually limits coverage to care from doctors who work for or contract with the health maintenance organization (HMO). It generally won't cover out-of-network care except in an emergency. An HMO may require you to live or work in its service area to be eligible for coverage. HMOs often provide integrated care and focus on prevention and wellness.

Health Plan Identification Number

A Federal Rule that establishes the standard for a unique health identifier for health care providers for use in the health care system and announces the adoption of the National Provider Identifier (NPI) as that standard.

Health Subsidy Programs

Medi-Cal, CHIP, and Exchange.

Healthcare Effectiveness Data and Information Set

HEDIS is a tool used by more than 90 percent of America's health plans to measure performance on important dimensions of care and service.

Healthy Families Program

The Healthy Families Program is low-cost health, dental, and vision coverage for children and teens up to age 19. It provides comprehensive coverage for children who do not have employer-sponsored insurance and do not qualify for no-cost Medi-Cal.

High Dated

The record/data end date is set far off into the future with a pseudo date, such as the year 2500.

Historical Data Server

The Administration and Data Server contains The Administration Workstation, Real-time Database, Historical Database (HDS) and Detail Database (DDS) Server components.

Hospitalization

Care in a hospital that requires admission as an inpatient and usually requires an overnight stay. An overnight stay for observation could be outpatient care.

Household

Individuals who comprise a family unit and who live together under the same roof; individuals who dwell in the same place and comprise a family; all those who are under the control of one domestic head. For the purposes of insurance, the terms family and household are frequently used interchangeably.

HP LoadRunner

The HP LoadRunner tool used for creating and executing automated performance test cases.

HP Quality Center

The HP Quality Center tool used as a single repository for test management. It will manage, maintain, and establish traceability for the project test cases, test results, and test reporting.

HP Quick Test Professional

The HP Quick Test Professional tool used for creating, automating, and executing project test cases. It will be integrated with the HP Quality Center tool. This tool will be used for storing, maintaining, and executing automated regression test scripts.

Human Centered Change

Change Management framework which delivers a more tailored and responsive training and change experience for all stakeholders.

I**Identity Based Encryption**

Identity Based Encryption. IBE enables a simple identity, such as an email address, to be used as public key to facilitate secure communication with any recipient. IBE does not require end-user certificates and thereby eliminates the usability and management problems inherent in traditional PKI based communication solutions. Related to DHCS Secure Email. A secure email is encrypted allowing PII and any other sensitive or confidential data to be sent. Provided by Voltage Security.

Image

A generic term for a document uploaded to the document management system through a scanning process. The term is used independently of file format and can represent multiple format types such as documents, pdfs, jpegs, tifs etc. The term is used synonymously with “document image” and “scanned image.”

Implementation

The process for making the System and Hosting Services Operational for the Exchange for Processing the Data in Production.

Implementation Services

The term for the Implementation Services shall begin on the Execution Date and continue until completed as described in the Work Plan

Implementation Site Support

The onsite structure of support that serves as the first point of contact for user questions during the one-month period after cutover.

Income Eligibility Verification System

Federally mandated system under Social Security Act Title IV-A for TANF/CalWORKs, and Title XIX for the Medi-Cal only programs for the purpose of verifying eligibility and benefit amounts available under these programs. The databases used in the ongoing IEVS include, but are not limited to:

- Wage information from the State Wage Information Collection Agency
- Unemployment/disability compensation benefits from the agencies administering those programs
- Benefits/pensions/wage information from the Social Security Administration (SSA)
- Internal Revenue Service (IRS)/Franchise Tax Board (FTB) unearned income data
- Inter/intra-county duplicate benefit matches
- Social Security number (SSN) verification information from SSA

Independent Practice Association (aka Certified Enrollment Counselor)

An independent practice association (IPA) is a legal entity organized and directed by physicians in private practice to negotiate contracts with health insurance issuers on their behalf.

Indian Health Service

The Indian Health Service (IHS), an agency within the Department of Health and Human Services, is responsible for providing federal health services to American Indians and Alaska Natives.

Individual

A customer seeking information, eligibility determination, and potential enrollment into an insurance product supported by the Health Benefit Exchange. Individuals may include the head of household, a spouse, other member of a household, or qualified entity.

Individual Case Eligibility

The Individual Case Eligibility table holds eligibility determination details for an individual, such as: Eligibility Source code, Type code, Type Reason code, Run date, Household MAGI CHIP premium amount, Run reason code, Household composition code, and SAWS Referral Flag indicator. (The ICE table has been deprecated and no longer in use.)

Individual Commissions

Are paid by the Carrier. Covered California has no responsibility for this.

Individual Consumer

A customer seeking information, eligibility determination, and potential enrollment into an insurance product supported by the Health Benefit Exchange. Individuals may include the head of household, a spouse, other member of a household, or qualified entity.

Individual Mandate

A government requirement stating that effective in 2014 individuals will be required to have insurance coverage meeting the minimum essential benefits as defined by the ACA. This is also commonly referred to as “individual responsibility.” As per Covered CA, 6/21/13, do not use this phrase when discussing the tax penalty.

Individual Products

Various insurance products available to individuals through the Health Benefit exchange differentiated by affordability, type of coverage (bronze, silver, gold), amount of deductibles or co-pays.

Individually Identifiable Health Information

Medical patient information that allows others to trace the information back to an individual. IIHI includes part or all of the following demographic information: name or partial name, address, Social Security number, Zip code, birth date, phone number, diagnosis or mental health status, employer, relatives, billing information or any other combination of information used to identify a patient.

Ineligibility

Not eligible to receive benefits for Medi-Cal and/or an extended Medicaid program.

Information Disclosure

Threat action to read a file that one was not granted access to, or to read data in transit.

Information Exchange Agreement

CMS uses an Information Exchange Agreement (IEA) to disclose personally identifiable information (PII), and/or protected health information (PHI), to an HHS Operating Division (OpDiv), Federal or State agency. The IEA states the terms and conditions for the data exchange between CMS and the other party, including the privacy and security safeguards to ensure we protect PII/PHI.

Initial Enrollment Period

The period during which a qualified individual may enroll in coverage through the Exchange for coverage during the 2014 benefit year.

Initiating Change Request

The form that the business fills out to initiate a Change proposal that they need implemented in the system. This Includes: Problem statement, Business Objectives, Policy Drivers, Impacts, Workarounds, Approval for Pre-JAD.

In-Person Assister

In-person Assister (now referred to as Certified Enrollment Counselor)

Installation

The process of putting a new system or piece of Equipment in its place and making it ready for use.

Instructor Led Training

The traditional training delivery method, with a trainer leading instruction either in a classroom or over the internet in a web demonstration format.

Instructor Led Training- In Person

An in-person Webinar session facilitated by a subject matter expert or certified trainer in a classroom setting.

Instructor Led Training- Virtual

Webinar session facilitated by a subject matter expert or trainer using virtual technology (e.g., MS Team)

Insurance Affordability Programs

Advance payments of the premium tax credit, cost-sharing reductions, Medicaid, CHIP, and the Basic Health Program.

Insurer

A company that provides health insurance plans (see “carrier”).

Integration Lead

The CalHEERS Project Integration Lead project manager responsible for integration of Exchange programs, including CalHEERS, Assister Program, Exchange Service Center, Small Business Health Options Program (SHOP).

Integrity

The property that data or information have not been altered or destroyed in an unauthorized manner.

Interactive Voice Response

An automated telephone system that interacts with callers, gathers information and routes calls to the appropriate recipient.

Interagency Agreement

An interagency agreement (I/A) is a contract between two (2) or more California State agencies. (GC § 11256).

Interested Party

A person who has appropriate permissions to apply for health care on behalf of another individual.

Interface Control Document

Interface Control Document (International Classification of Diseases)

Interface Test Description

Interface Test Description. Outlines the testing details of the interface between CalHEERS and an External Entity, e.g., SCO.

Interfaces

Custom Software that is developed for transmitting Data between the System and other systems.

Interim Process (or Production Load)

Interim Process (or Production) Load. A Kaiser term. It is an internal tool that KPC uses. KPC receive either an 834 or BVT from CalHEERS and then they use IPL to load the data into KPC's system. IPL was initially developed to assist with testing 834's. It then morphed into being used in Production, so it does not have full functionality.

Internal Revenue Service

The federal agency responsible for administering and enforcing the Treasury Department's revenue laws, through the assessment and collection of taxes, determination of pension plan qualification, and related activities.

International Standards Organization

Founded in 1947, the ISO promotes worldwide proprietary, industrial and commercial standards.

Interoperability

Being able to accomplish end-user applications using different types of computer systems, operating systems, and application software, interconnected by different types of local and wide area networks. (James A. O'Brien and George M. Marakas)

Investment Income

The income you get from an investment, like interest you get from a bank or dividends you get from a stock you own.

Issue Management Tool

A responsive tool set the project uses to log project level issues, streamline the issue tracking process, effectively manage workload, and increase productivity.

Issuer

A health insurance issuer, qualified health plan issuer, etc. that offers health plans.

Issuer Data Manager

A Health Plan employee (or designee) who is responsible for uploading, verifying and maintaining Issuer and QHP level data for the Health Plan (CalHEERS system role).

J**Jenkins**

Application build and deployment tool used to create new CIs and to execute deployments of Baselines to all environments. Not the tool of record for build and deployment but can serve as a backup to Rational Team Concert.

Job Access with Speech

Job Access with Speech

Job Aids

Written training materials distributed to CalHEERS users to assist them in training or on the job.

Job Function

Activity of responsibility associated with a job role.

Job Role

Logical grouping of job functions (responsibilities) needed to produce specific service offering and/or work. There may be one or more roles for each job category.

Job-Based Health Plan

Coverage that is offered to an employee (and often his or her family) by an employer.

Joint Application Design

JAD Sessions are meetings where all stakeholders review and refine requirements, and update and review all impacted functional and technical designs. Participants discuss the future state of the system post CR (Change Request) implementation to ensure all perspectives are considered, and Sponsors are able to validate and approve that the new functionality fully meets the requirements.

Joint Planning Team

The combined team of site and System Integrator staff responsible for all implementation activities required to bring a site to a state of cutover readiness.

K**Key Action Dates and Times**

Important actions, dates and times associated with this solicitation by which the actions must be taken or complete.

Key Staff

The Contractor's required key personnel for this Contract, as listed in Statement of Work Section 2.

L**Large and Complex IT System**

An IT system that meets all of the following criteria:

- A solution that integrates at least two applications, one of which is a COTS.
- A solution that interfaces with at least five external systems, at least one (1) of which is real-time.
- A solution that is accessed by at least one thousand (1,000) users at multiple locations.
- A solution that has a dollar value of at least ten million (\$10,000,000) dollars.
- A solution that includes multi-tiered processing, including a consumer or user facing front-end optimized for multiple user interface platforms.

Large Employer

An employer who employed an average of at least 101 employees on business days during the preceding calendar year and who employs at least 1 employee on the first day of the plan year.

Launchpad

Application build and deployment (plus other functions for other teams listed elsewhere) tool governing the build of new application CIs and the deployment of Baselines. Acts as the tool of record for build and deployment.

Lawful Presence

Interchangeable with Lawfully Present, below.

Lawfully Present

An alien resident of the state meeting certain criteria making them eligible to various services.

Learning Management System

A software application for the administration, enrollment, documentation, tracking, and reporting of CalHEERS training programs. It also stores training materials, training schedules, CBTs, and evaluations.

Learning Objective

An expected concept or ability that trainees will understand or have upon completion of a CalHEERS training module.

Legal Business Name (or Business Legal Name)

This is the legal name of the Business.

Legal Resident of California

A person who is lawfully present is determined to be a legal resident of California in accordance with federal law.

Legislative Analyst's Office

The Legislative Analyst's Office (LAO) has provided fiscal and policy advice to the Legislature for more than 70 years. It is known for its fiscal and programmatic expertise and nonpartisan analyses of the state budget. The office serves as the "eyes and ears" for the Legislature to ensure that the executive branch is implementing legislative policy in a cost efficient and effective manner. www.lao.ca.gov

Lessons Learned

The knowledge gained through experience that is documented, analyzed and used to improve future efforts or activities of a similar nature.

Life Event Needing Verification

Life event needing verification.

Liquidated Damages

The Exchange and Contractor agree that failed, delayed, and/or other performance not in compliance with the terms of this Agreement by Contractor may cause damages to the Exchange which may be uncertain and impractical or difficult to ascertain; and the Exchange shall assess, and Contractor promises to pay the Exchange in the event of

such failed, delayed, and/or other performance not in accordance with the terms of Exhibit C, the amounts described in Exhibit C as liquidated damages and not as penalties.

Logical Data Model

Defines logical data structures and objects. This data model includes: 1) data volumes (if available) 2) logical data model definitions 3) logical data model diagram.

Long-Term Care

Services that include medical and non-medical care provided to individuals who are unable to perform basic activities of daily living such as dressing or bathing regardless of their age. They can be provided at home, in the community, in assisted living or nursing homes.

Los Angeles Eligibility, Automated Determination, Evaluation and Reporting System

The automated welfare system previously used by Los Angeles County.

Low Income Health Plan

The waiver involves expanding coverage today for those who will become “newly eligible” in 2014 health care reform, implementing models for more comprehensive and coordinated care for some of California’s most vulnerable residents, and testing various strategies to strengthen and transform the state’s public hospital health care delivery system to prepare for the additional numbers of people who will have access to health care once health care reform is fully implemented.

M

MAGI Medi-Cal

Modified Adjusted Gross Income Medi-Cal

MAGI-Based Medicaid

Medicaid based services determined via the new Modified Adjusted Gross Income (MAGI) process beginning 1/1/2014.

Major Risk Medical Insurance Program

Major Risk Medical Insurance Program (MRMIP) is a program within DHCS that provides health insurance for Californians unable to obtain coverage in the individual health insurance market because of their pre-existing conditions. Californians qualifying for the program participate in the cost of their coverage by paying premiums.

Manage Open & Special Enrollment Periods

The Exchange and SHOP are required to manage that allowed window of health care elections (an open enrollment period). This includes notification of upcoming election periods and corresponding open eligibility rules. Life events, QHP decertification, or employer SHOP participation, could lead to special enrollment period which would permit health care elections outside of normal open enrollments.

Managed Care Organization

A health insurance company that provides healthcare networks and health plans.

Managed Care Plan

A term that typically refers to a Health Maintenance Organization (HMO), Point of Service, Exclusive Provider Organization (EPO), or Preferred Provider Organization (PPO); any health plan with specific requirements, such as pre-authorization or second opinions, which enable the primary care physician to coordinate or manage all aspects of the patient's medical care.

Managed Medi-Cal

This is a Kaiser term (other Carriers also do it). A person signs up for Medi-Cal and then they get outsourced to Kaiser for the services. Kaiser is managing the Medi-Cal services for the County.

Managed Risk Medical Insurance Board

The Managed Risk Medical Insurance Board was created in 1990 with the charge of advising the Governor and the Legislature on strategies for reducing the number of uninsured persons in the state. The Board is dedicated to improving the health of California by increasing access to affordable, comprehensive and quality health care coverage. MRMIB operates the Healthy Families Program, Access for Infants and Mothers (AIM), Pre-Existing Condition Insurance Plan (PCIP), and the Major Risk Medical Insurance Plan (MRMIP).

Management Information System/Decision Support System

A subsystem of the California Medicaid Management Information System (CA-MMIS) and serves as the Medi-Cal Program's centralized and integrated data warehouse. The MIS/DSS contains both Medi-Cal Fee-for-Service claim and Managed Care encounter data, along with related beneficiary eligibility and provider information, within a highly sophisticated relational database coupled with leading-edge business intelligence data mining and reporting tools. The MIS/DSS is used primarily by DHCS staff and management in their efforts to more effectively and efficiently manage the Medi-Cal Program.

Manual 834

A manual 834 is a template that Plan Management has provided and given to certain groups (Appeals, EC, hotline, etc.) to "communicate" information that we have in CalHEERS (or intend to have in CalHEERS after helpdesk ticket resolution) to the carrier when the information cannot be sent in electronic format. Mostly Mercedes Ignacio of EC (External Coordination) uses it after a data fix is done or appeals may use it to communicate a judge's order.

Manual Eligibility

Manual Eligibility

Manufacturers' Warranties

Contractor assigns to the Exchange all of the licensors' and manufacturers' warranties and indemnities relating to the Third-Party Software and Equipment to the extent Contractor is permitted by the licensors and manufacturers to make such assignments to the Exchange. Such assignment is subject to all of the terms and conditions imposed by the licensors and manufacturers with respect thereto.

MAXe2

A proprietary system used as the system of record for the Healthy Families Program (HFP), Access to Infants and Mothers Program (AIM) and the Single Point of Entry (SPE).

Medicaid

Medicaid is a federal health care program available to individuals and families that meet certain categorical, income, resources, citizenship and residency, and other requirements established under Title XIX of the Social Security Act. Medicaid funding is available to states that meet the applicable requirements of Title XIX and file a State Plan describing their program with the federal Department of Health and Human Services. The federal government and State governments each pay a portion of the cost of the program, with the proportion varying based on the per capita income of the residents of the State.

Medicaid Information Technology Architecture

With MITA, CMS is establishing a national framework of enabling technologies and processes that support improved administration for the Medicaid program and foster integrated business and IT transformation across the Medicaid enterprise.

Medicaid Management Information System

The mechanized claims processing and information retrieval system which states are required to have for Medicaid processes.

Medi-Cal

California's Medicaid health care program.

Medi-Cal Access Program

State program that provides pregnant women with comprehensive health coverage for a low cost with no copayments or deductibles for its covered services.

Medi-Cal Bridge Program

A Bridge program is a program designed to help a Medi-Cal beneficiary transfer to another health care program when that individual no longer meets the eligibility requirements for Medi-Cal. For example, if a child is no longer eligible for Medi-Cal at annual re-determination due to excess income, the county will 'bridge' that application to the Healthy Families program for eligibility determination purposes.

Medi-Cal Dental Managed Care

Medi-Cal's dental managed care program provides a comprehensive approach to dental health care. This program combines clinical services and administrative procedures to provide timely access to primary care and other necessary services in a cost-effective manner. It is only available in Sacramento and Los Angeles counties. In Sacramento, a beneficiary must choose between one of three plans, and in Los Angeles, a beneficiary may choose one of three plans, or may elect to remain in fee-for-service Denti-Cal. See <http://www.denti-cal.ca.gov> for more information.

Medi-Cal disposition

A worker "dispositions" a case (sends a disposition) by authorizing the eligibility determination in their respective SAWS system. The receipt of the disposition is the technical term used to describe this action and a worker may not be familiar with that term but instead with authorizing the eligibility result sent from CalHEERS. Specific to

this situation in a worker's world, they would have to be complete the renewal and authorize eligibility in order to close the renewal out.

Medi-Cal Eligibility Data System

MEDS is a database managed by DHCS that collects and retains eligibility data on individuals who apply for and/or become eligible for Medi-Cal. MEDS is a system of applications, networks, databases, people and procedures working together to support delivery of certain health and human services program benefits to Californians who qualify for those programs. The data maintained within the MEDS database originates from counties, State agencies, federal agencies, and nongovernmental organizations such as health plans.

Medi-Cal Eligibility Division (DHCS)

The Medi-Cal Eligibility Division of the California Department of Health Care Services is responsible for the development, coordination, clarification, and implementation of Medi-Cal regulations, policy, and procedures to assure Medi-Cal eligibility is determined accurately and timely by the 58 county human services agencies.

Medi-Cal Inmate Eligibility Program

Medi-Cal Inmate Eligibility Program

Medical Loss Ratio

The percentage of your premium dollars that an insurance company spends on providing you with health care and improving the quality of your care.

Medical Record Number

Medical Record Number. It's the member identifier that is assigned by Kaiser to each member upon enrollment. It is assigned after KPC passes the member info over to KP.

Medically Necessary

Health care services or supplies needed to prevent, diagnose, or treat an illness, injury, condition, disease, or its symptoms and that meet accepted standards of medicine.

Medically Needy-Aged-Disabled

The Medically Needy Aged program provides medical assistance to persons aged 65 and over who have insufficient funds to pay their medical bills, but whose income and resources are too high for them to qualify as Categorically Needy.

Medicare

A social insurance program administered by the United States government, providing health insurance coverage to people who are aged 65 and over; to those who are under 65 and are permanently physically disabled or who have a congenital physical disability; or to those who meet other special criteria.

Medicare Advantage Prescription Drug

A Medicare Advantage MAPD includes Medicare Part D prescription drug coverage.

Member

An individual who has effectuated coverage in a Covered California health plan.

Member ID

A unique identifier assigned by the Exchange that uniquely identifies every member of a household, including the Subscriber.

Membership Administration Command Center

This is a Kaiser term. Membership Administration Command Center. It's just a term/meeting used to identify prod issues.

Membership Information Unit

This is an LA Care term. Member Payment System and Services.

Membership Issue Resolution team

KP term: Membership Issue Resolution Team. The Team that issues like data fixes are sent to from Covered California and CalHEERS. MIRT logs and prioritizes the requests so that they get worked.

Microsoft SQL Database Server

A Microsoft database management system that can respond to queries from the client machines formatted in the SQL language.

Minimum Acceptable Risk Standards for Exchanges

The suite consists of the ACA System Security Plan Procedures, Version 1.0; ACA System Security Plan Template, Version 1.0; ACA System Security Plan, Workbook; and ACA Internal Revenue Service Safeguard Procedures Report Template.

Minimum Coverage Plan

Covered California health insurance plans — and all health plans in the individual and small-group markets — are sold in four levels of coverage: Bronze, Silver, Gold and Platinum. In addition to these categories, Covered California offers a "minimum coverage plan," also known as a "catastrophic plan," which helps protect a person from financial disaster in the event of a serious and expensive medical emergency. Minimum coverage plans are designed to cover excessive medical bills that occur above the limit that you would be able to manage financially. Covered California offers minimum coverage to those up to age 30 or those individuals who prove they are without affordable coverage options or are experiencing financial hardship.

Minimum Essential Coverage

Minimum Essential Coverage means any of the following:

- Government sponsored programs include those covered under:
 - o The Medicare program under part A of title XVIII of the Social Security Act
 - o The Medicaid program under title XIX of the Social Security Act
 - o The CHIP program under title XXI of the Social Security Act
 - o The TRICARE for Life program
 - o The veteran's health care program under chapter 17 of title 38, United States Code
 - o A health plan under section 2504(e) of title 22, United States Code (relating to Peace Corps volunteers)
- Employer-sponsored plan
 - o Coverage under an eligible employer-sponsored plan
- Plans in the individual market
 - o Coverage under a health plan offered in the individual market within a State

- Grand-fathered health plan
 - Coverage under a grandfathered health plan.
- Other coverage
 - Other health benefits coverage, such as a State health benefits risk pool, as the Secretary of Health and Human Services, in coordination with the Secretary, recognizes for purposes of this subsection. (State of WA EEI-16)

Minimum Essential Health Benefits

Benefits that must be covered by a Qualified Health Plan. offered through the Health Benefits Exchange as defined by HHS and health care reform legislation.

Minor Deficiencies

A minor failure to perform or conform to Specifications in the Exchange's judgment as described in the Contract.

Mixed Case or Mixed Household

A Case that has a mix of a Covered California QHP and Medi-Cal. Example, the parents are enrolled with Kaiser and the kids are in Medi-Cal.

Modified Adjusted Gross Income

Adjusted gross income (AGI), modified by adding back in any deductions for passive activity losses, tuition, fees, student loan interest paid, IRAs, half of self-employment tax, employer-paid adoption expenses, and domestic production activities.

Modified Adjusted Gross Income (Medi-Cal Assistance Program)

MAGI (Modified Adjusted Gross Income) is a methodology created under the Affordable Care Act (ACA) to determine financial eligibility for Medi-Cal as well as for premium tax credits and cost-sharing assistance through Covered California, the state's health insurance marketplace.

Multiple Employer Welfare Association

Multiple Employer Welfare Arrangements (MEWAs) provide health and welfare benefits to employees of two or more unrelated employers who are not parties to bona fide collective bargaining agreements. In concept, MEWAs are designed to give small employers access to low-cost health coverage on terms similar to those available to large employers. For certain employers they represent the only available option for providing employees with health care because insurance companies often will not insure small employers that do not fall within their desirable risk category.

Multipurpose Internet Mail Extensions

Multipurpose Internet Mail Extensions (MIME) is an Internet standard that extends the format of email to support: Text in character sets other than ASCII, Non-Text attachments, message bodies with multiple parts, header information in non-ASCII character sets. MIME's use, however, has grown beyond describing the content of email and now is often used to describe content type in general including for the web (see Internet media type) and as a storage for rich content in some commercial products.

Multi-State Plan

Office of Personnel Management will contract with insurers to offer at least two multi-state plans in each Exchange. At least one plan must be offered by a non-profit entity

and at least one plan must not provide coverage for abortions beyond those permitted by federal law. Each multi-state plan must be licensed in each state and must meet the qualifications of a qualified health plan. If a state has lower age rating requirements than 3:1, the state may require multi-state plans to meet the more protective age rating rules. These multi-state plans will be offered separately from the Federal Employees Health Benefit Program and will have a separate risk pool.

N

Nano Video Training

Animated video that is typically 30 seconds to 2 minutes in length, that provides a targeted overview of a specific topic.

National Association of Insurance Commissioners

The National Association of Insurance Commissioners (NAIC) is the U.S. standard-setting and regulatory support organization created and governed by the chief insurance regulators from the 50 states, the District of Columbia and five U.S. territories. Through the NAIC, state insurance regulators establish standards and best practices, conduct peer review, and coordinate their regulatory oversight.

National Automated Clearing House Association

National Automated Clearing House Association (the Electronic Payments Association—ACH)

National Committee of Quality Assurance

The National Committee for Quality Assurance is a private, 501(c)(3) not-for-profit organization dedicated to improving health care quality.

National Health Law Program

National Health Law Program

National Health Law Program

National Health Law Program

National Information Exchange Model

National Information Exchange Model (Organization for standards for information exchange) As of May 2013, development uses NIEM 2.1 standards.

National Provider Identification

A unique ten-digit identification number required by HIPAA for all health care providers in the United States.

Navigator

A service provider who helps people who get insurance through Covered California, such as, self-employed or people who do not have access to insurance through their employers. They provide individuals and families with the information necessary to determine which health insurance option best fits their needs and then help them enroll in their plan of choice.

Navigator grantee

A Covered California Certified Enrollment Entity that was awarded grants to participate in the Navigator Program.

Navigator Program

A program established by federal law to provide fair and impartial information to consumers about enrollment into insurance plans through health benefit exchanges. Grant funds are awarded to Certified Enrollment Entities to perform outreach, education and enrollment assistance to consumers. The Covered California Navigator Program begins in 2014 and will be funded through Covered California operating funds.

Necessary Resources

Contractor shall provide the Staff and all other materials and resources necessary for the performance of the Services.

Negative Action

This is a Medi-Cal term. It refers to doing things like Cancelling or Terminating a person from MC. The state will go thru specific actions with dates specified to achieve the result.

Negotiation Process

A process parties go through to reach an agreement and achieve the goal of agreeing on contract terms that are fair, reasonable and beneficial to both parties.

Network

The telecommunications lines, Equipment, Software, and Services for transmitting Data and other information for the CalHEERS and its Users.

Never Married

This is a SAW status; it means that the person has never been married before. This is different from Single (but it is not clear why and how).

No Increases

Contractor shall not increase the Charges or Maximum Amount due from the Exchange under this Agreement for all Services, Deliverables, or Facilities during the term of this Agreement, except as otherwise specifically permitted in the Agreement. In addition, no cost of living adjustments shall be permitted in the Agreement.

No Wrong Door

Ensures that a customer who approaches the State for health assistance programs is correctly directed to the program for which they are eligible.

Non-Paid Entity

This is an Entity that does not get paid. E.g., a CEE that chooses to not get paid for the work their CEC's do. PBE's are also Non-Paid Entities.

Non-MAGI based Medicaid

Medicaid based services whose eligibility requirements remain the same following the implementation of the new MAGI process beginning 1/1/2014. Process and consumers include:

- No income determination made by Medicaid agency
- SSI, Title IV-E recipients
- Individuals deemed to be receiving SSI
- Express Lane Agency income finding

- Eligibility on the basis of being blind or disabled or need for long-term care services
- Eligibility for Medicare cost sharing assistance
- Medically needy
- Individuals aged 65+

Non-Production

Non-Production

Non-Repudiation

Implies that one party of a transaction cannot deny having received a transaction nor can the other party deny having sent a transaction.

Non-Warranty

Non-Warranty

Notice

A written document given by one party to the other. Except as the parties may otherwise agree, any notice or demand or other communication required or permitted to be given under this Contract or applicable law shall be effective if and only if it is in writing, properly addressed, and either delivered in person, or by a recognized courier service, or deposited with the United States Postal Service as first-class certified mail, postage prepaid, return receipt requested. Notices shall be effective upon receipt or four (4) business days after mailing, whichever is earlier.

Notice Design Document

A document that captures the detailed design components of a Notice. This document is used as input by the application designers and developers to create or update notices. It captures the business needs and purpose as well as the functional, technical details for the notice.

Notice of Action

A written form of documentation to inform customers and/or third parties (i.e., insurers) of the outcome of an enrollment or any life or policy changes.

Notice of Damage

Upon the loss of, destruction of, or damage to any of the Property (except Work Products other than Deliverables), Contractor shall give Notice to the Exchange Project Director thereof and shall take all reasonable steps to protect that Property from further damage.

Notice of Proposed Rule Making

A public notice that is issued by law when an independent agency of the US government wishes to add, remove, or change a rule or regulation as part of the rulemaking process.

Notice Transfer Object

An object which contains parameters to fill notice variables in a notice template.

O**Object Code**

The binary code version of a Software program loaded into a computer's memory to enable it to perform a program function.

OCM Communications Liaison

A State or county representative from one site who works collaboratively with System Integrator OCM team on OCM communication coordination activities and takes ownership for coordinating communication activities across the Medi-Cal changes.

OCM Lead

A staff member of the System Integrator OCM team with responsibility for liaising directly with one or more OCM Change Agent teams and/or OCM Communications Liaisons teams and facilitating the OCM activities with the designated teams.

Offering

An item configured for sale or other financial purposes in ABE, in this case, health insurance.

Office of Administrative Law

A State Department.

Office of Management and Budget

The core mission of OMB is to serve the President of the United States in implementing his vision across the Executive Branch. OMB is the largest component of the Executive Office of the President. It reports directly to the President and helps a wide range of executive departments and agencies across the Federal Government to implement the commitments and priorities of the President.

Office of Personnel Management (CMS)

The U.S. Office of Personnel Management (OPM) serves as the chief human resources agency and personnel policy manager for the Federal Government. OPM provides human resources leadership and support to Federal agencies and helps the Federal workforce achieve their aspirations as they serve the American people. OPM directs human resources and employee management services, administers retirement benefits, manages healthcare and insurance programs, oversees merit-based and inclusive hiring into the civil service, and provides a secure employment process.

Office of Technology & Solutions Integration

The OTSI provides project management, oversight, procurement and support services for a multi-billion-dollar portfolio of high criticality projects. In this capacity, OTSI coordinates communication, collaboration and decision making among project stakeholders and program-side sponsors of the projects. OTSI currently has oversight of the CalHEERS Project for the State of CA.

Official Correspondence

Official correspondence (OC) is used to memorialize CalHEERS State leadership approval of our agreement with a change or clarification being made regarding the System Integrator contract, or other official communication needs between the State and its SI.

On-the-Job Training

Comprises informal training that occurs at various points during the project lifecycle, most likely prior to the technical implementation and prior to the start of the Maintenance Phase. This approach is deployed to teach project-specific tools and methods that are used to operate CalHEERS.

Open Enrollment

A specified period of time in which individuals may change insurance plans and insurance carriers. Open enrollment occurs once a year.

Open Office Sessions

Open Office Sessions are Instructor-led Training delivered to participants over the web. These sessions are provided by the CalHEERS training instructors during the immediate post-implementation period for each CalHEERS release. Instructors provide SCRs and other state employees with a forum for questions and answers.

OpenShift Container Platform

Hybrid cloud foundation for building and scaling containerized applications.\

Operational

The condition when a Software Deliverable, a Service, or the System and Hosting Services are functional in accordance with applicable Specifications and used for their purposes in Production.

Operational Readiness Review

Federal Enterprise Lifecycle Reviews of Exchange of Operational Readiness deliverables.

Operations

Operations covers all things related to supporting the day-to-day needs of CalHEERS and infrastructure supporting the System for things such as: planning, problem management, processes, reporting, interfaces, site/facilities, capacity, backup and recovery, data retention, environments, performance, and hardware/software.

Opt Out (Decline)

An activity performed by a consumer who declines to continue with program enrollment after their program eligibility for that program has been determined. When a consumer opts Out or Declines, a discontinuance of APTC/CSR or MAGI Medi-Cal will be initiated.

Oracle Access Manager

The foundation of the new Oracle Access Management platform. Access Manager provides the core functionality of Web Single Sign On (SSO), authentication, authorization; centralized policy administration and agent management, real-time session management and auditing.

Oracle API

Service Provisional Mark-Up Language

Oracle SQL Developer

An integrated development environment for development and management of Oracle Database.

Oracle® Adaptive Access Manager

Improves the security of sensitive online operations—such as data access, financial transactions, and business processes—by providing real-time risk analytics, risk-based authentication, anti-phishing and anti-malware capabilities.

Oracle® Data Integrator

A Data Warehouse ETL (Extract, Transfer, Load) Tool that processes the moving of data from production to the Data Warehouse.

Oracle® Identity Manager

Used for security. System that maintains URLs and access. If OIM is down the default is to allow no URLs to be mapped to individuals and therefore access is blocked for everyone.

Organizational Change Management

One of the three CalHEERS implementation disciplines, which includes communication with entities through the Change Agents and OCM Communications Liaisons and business process analysis activities.

Organizational Project Management Maturity Model

The Project Management Institute (PMI) methodology for improving organizational project management by using identified project, program and portfolio best practices.

Other Health Products

Non-insurance-based health products that maybe offered on the Exchange, to support customers' health needs. These products include, but are not limited to, Wellness Programs, durable medical equipment and Health Savings Accounts.

Other State Programs

Programs that may be incorporated at a later date such as SNAP and TANF.

Out of Pocket

Direct outlays of cash that may or may not be reimbursed.

Out-of-Pocket Costs

A nonreimbursable expense paid by a patient. This could include any medical benefits that a plan doesn't consider covered services.

Out-of-Pocket Limit

The most one pays during a policy period (usually a calendar year) before your health insurance or plan begins to pay 100 percent of the allowed amount. This limit never includes the customer premium, balance billed charges or health care the customer's health insurance plan doesn't cover. Some health insurance plans can't count all copayments, deductibles, coinsurance payments, out-of-network payments or other expenses toward this limit. In Medicaid, the limit includes premiums.

Outreach and Education

Outreach and Education (sometime this also means Operations Equipment).

Overpayments to Contractor

Contractor shall promptly, but in all cases within 30 Days, pay to the Exchange the full amount of any erroneous payment or overpayment upon Notice of an erroneous payment or overpayment to which Contractor is not entitled or when otherwise discovered by Contractor, provided, however, that such Notice sets forth sufficient detail to substantiate the overpayment.

P

Paperwork Reduction Act of 1985

Small Business Paperwork Reduction Act of 1985 - Amends the Paperwork Reduction Act of 1980 to direct the Director of the Office of Management and Budget to set a goal to reduce the burden on small businesses of Federal collections of information by at least five percent by October 1, 1986, and for each of the next two years by not less than an additional five percent.

Participant Guides

Materials developed for both ILT and CBT that guide trainees throughout the course, including hands-on activities, scenarios, and step-by-step instructions.

Patient Centered Outcomes Research Institute

The Affordable Care Act imposes a fee on issuers of specified health insurance policies and plan sponsors of applicable self-insured health plans to help fund the Patient-Centered Outcomes Research Institute. The fee, required to be reported annually on the second quarter Form 720 and paid by its due date, July 31, is based on the average number of lives covered under the policy or plan.

Patient Protection and Affordable Care Act (Federal)

The comprehensive health care reform law was signed into law on March 23, 2010, and was amended by the Health Care and Education Reconciliation Act on March 30, 2010. The name "Affordable Care Act" is used to refer to the final, amended version of the law.

Payment Error Rate Measurement

The PERM program measures improper payments in Medicaid and CHIP and produces error rates for each program.

Payment Events

The events after which Contractor can issue invoices for the Charges.

Payment Month

Related to CMS, the payment month is defined as the month in which the payment is made.

Per Member Per Month

This is the fee that the Carrier (also known as Issuer) pays Covered California (CC) for participating in the SHOP Medical, Individual Medical, SHOP Dental or Individual Dental markets. Is also referred to as a Participation fee.

Performance

Contractor shall begin to perform the Services on the Execution Date. Contractor shall perform the Services as described in this Agreement.

Performance Standard(s)

A process parties go through to reach an agreement and achieving the goal of concluding a contract that is fair, reasonable and beneficial to both parties.

Periodic Verification

Automated periodic check against the Federal HUB. Occurs six months from eligibility date.

Permanently Residing in the U.S. Under Color of Law

An immigration category that was created by the courts for public benefits eligibility. It is not recognized by the U.S. Citizenship and Immigration Services (USCIS).

~~Personal Health Information~~

~~PHI is, as defined by 45 CFR 160.103, information transmitted or maintained by a covered entity or its business associates in any form or medium. It includes an individual's past, present, or future physical or mental health or condition, the provision of health care to the individual, or the past, present, or future payment for the provision of health care to the individual, and that identifies the individual or for which there is a reasonable basis to believe can be used to identify the individual.~~

Personally Identifiable Information

PII is information that can be used alone or with other information to identify, contact, or locate a single person, or to identify them in context. It includes: (1) A first and last name; (2) A home or other physical address, including street name and name of a city or town; (3) An e-mail address; (4) A telephone number; (5) A social security number; and (6) any other identifier that permits the physical or online contacting of a specific individual. PII also includes information defined as Personal Information in California Civil Code section 1798.3 and section 1798.29(g)-(h)

Physical Data Model

Transforms the Logical Data Model into a design that can be physically implemented on a relational database management system (RDBMS) software and hardware platform. The detailed specifications are used to generate the database.

Physical Media Warranty

If applicable, Contractor warrants that each copy of the Custom Software provided by Contractor is and will be free from physical defects in the media that tangibly embodies the copy. Contractor shall replace, at Contractor's expense including shipping and handling costs, any Custom Software provided by Contractor that does not comply with this warranty.

Physical Safeguards

Physical measures, policies, and procedures to protect a covered entity's electronic information systems and related buildings and equipment, from natural and environmental hazards, and unauthorized intrusion.

Plain Language

Language that the intended audience, including individuals with limited English proficiency, can readily understand and use because that language is concise, well organized, and follows other best practices of plain language writing.

Plan

A set of Health Care coverage rules that a person enrolls in which provides certain benefits. See also Product and Metal.

Plan and Carrier Management

Plan and Carrier Management (retired) – Now using Enrollment as project terminology.

Plan Assessment Fee

The Plan Assessment Fee will be withheld from SHOP Premiums that will consist of two parts, the sustainability % and the Agent commission %. This fee is also known as the Plan Participation Fee.

Plan Based Enroller

A Health Plan employee (or designee) who has completed Covered California approved training and belongs to a Health Plan and is non-compensated with application, plan selection, and enrollment functions in the CalHEERS solution (CalHEERS system role).

Plan Choice and Assister Portal

PCAP is the project name for the CalHEERS enrollment solution and is tracked as Change Request 189474. The PCAP Project scope includes the replacement of the existing Commercial Off-The-Shelf (COTS) product(s) with a custom solution that is integrated with the Health Benefit Exchange (HBEX) to produce a combination of a custom/Salesforce solution for the CalHEERS Eligibility and Enrollment functionality. It also defines the future state of the CalHEERS Enrollment solution that will be in production post Release 23.4.

Plan Dependent

An individual who, according to state law, is allowed to join the family policy.

Plan Management

Plan Management is the maintenance and coordination of health and dental plan related activities between Covered California and Carriers.

Plan Manager

A Covered California employee (or designee) who is responsible for approving QHP submissions and rates, processing appeals, reviewing complaints, and monitoring and decertifying QHPs. Also responsible for reviewing and approving carrier applications for Covered California (CalHEERS system role).

Plan Participation Fee

The Plan Participation Fee will be withheld from SHOP Premiums that will consist of two parts, the sustainability % and the Agent commission %. This fee is also known as the Plan Assessment Fee.

Plan Participation Rate

Can be given as a %.

Plan Year

A 12-month period of benefits coverage under a group health plan. This 12-month period may not be the same as the calendar year.

Please Find Attached

Used to reference email attachments.

Point of Contact

A person or department that can be approached for information or assistance on a specific topic.

Point of Service

A type of managed care group health insurance with characteristics of both an HMO and a PPO. As with an HMO plan there is a designated primary physician and some services are provided through an HMO network, however there is some flexibility as with PPO plans.

Policy

The agreement between the person buying health insurance and the company providing it, describing specific health care services that will be covered, any coverage limitations and any out-of-pocket costs (co-pays) that might be required.

Policy Level Reporting

Reporting at the Policy level.

Portable Document Format

A file format that captures all the elements of a printed document as an electronic image that you can view, navigate, print or forward to others. PDF files are created using Adobe Acrobat or similar products. CalHEERS notices are loaded to the CalHEERS portal as PDF files.

Portal

A web site that collects and displays information from diverse sources in a unified way.

Post Implementation

The period of time immediately following implementation of a release of CalHEERS functionality.

Post-Cutover

Activities that occur following the cutover. Synonymous with the term post-implementation.

Potential Eligibility

The results of the self-assessment screening process which tells a customer what benefits they are potentially eligible for.

Pre-Existing Condition Insurance Plan

A program administered by MRMIB.

Pre-Existing Medical Condition

Any illness or condition a patient has prior to obtaining insurance.

Pre-Existing Software

All computer programs which were developed and owned by Contractor and its Subcontractors prior to the Execution Date or outside the scope of this Agreement, and any modifications thereof and derivative works based therein; Third-Party Software

provided by Contractor to the Exchange under this Agreement; and the Documentation used to describe, maintain and use such Pre-existing Software, including such Third-Party Software.

Pre-JADS

Pre-JAD Sessions are meetings conducted to identify and clarify requirements ensuring a well-defined scope ahead of the Joint Application Design (JAD) sessions. These sessions aim to gather initial input from key participants, align expectations, and set the foundation for a productive and focused JAD phase. The Business Requirements sheet for a Change Request is finalized during Pre-JADs and approved at the end of Pre-JADs to begin Impact Assessment.

Preferred Provider

A provider who has a contract with your health insurer or plan to provide services to you at a discount. Check your policy to see if you can see all preferred providers or if your health insurance or plan has a "tiered" network and you must pay extra to see some providers. Your health insurance or plan may have preferred providers who are also "participating" providers. Participating providers also contract with your health insurer or plan, but the discount may not be as great, and you may have to pay more.

Preferred Provider Organization

A health care delivery system where providers contract with the PPO at various reimbursement levels in return for patient steerage into their practices and/or timely payment. They differ from other health care delivery systems in the way they are financed, providing more choice, benefit flexibility and enrollee access to providers and medical services both in and out-of-network.

Pre-Implementation

The period of time immediately before implementation of a release of CalHEERS functionality.

Preliminary Joint Application Development

Pre-JAD Sessions are an opportunity to introduce system functionality to key project stakeholders, gain a common understanding of requirements and how they support business, validate and approve functionality that fully meets the requirements, and define the scope of work for the detailed design sessions for product configuration and/or extension changes. Pre-JADs take place prior to the formal JAD sessions.

Preliminary Design Review

Federal Enterprise Lifecycle Reviews of Exchange of design deliverables.

Premium

The money paid to an insurance company for coverage. Premiums are usually paid monthly and may be paid in part or in full by your employer.

Premium Assistance

As per Covered CA 6/21/13, use for the individual market only.

Premium Billing, Collections, and Reconciliation

The process where the SHOP and/or Individual Exchange produces and sends QHP enrollment reports by plan and coverage level to employers to enable the employer to pay the appropriate premiums for their employees.

Premium Tax Credit

The subsidized portion or federal contribution, of health insurance premium payments that a customer may qualify for based upon income and family size. Receipt of premium tax credits may come in the advanced form (direct from IRS to a qualified health plan) or via a tax credit filing.

Pre-Note

This is the transaction used to make a dummy \$0.00 payment into a bank account prior to making regular deposits. This was missed in the initial design and A refused to add it. It adds risk that the first payment made will result in errors.

Pre-Operational Readiness Review

Federal Enterprise Lifecycle Reviews of Exchange of Operational Readiness deliverables.

Preventive Services/Preventive Care

Routine health care that includes screenings, checkups and patient counseling to prevent illnesses, disease or other health problems.

Pricing Region

There are 19 pricing regions in California. For health plans that consumers can get through Covered California, either with or without premium assistance, the plans available and their prices vary by region. The easiest way to find the pricing region you live in is to use our Shop and Compare Tool online at <https://www.coveredca.com/shopandcompare/#calculator>. After entering your home ZIP code, the Shop and Compare Tool will show you your pricing region. You may also call our Service Center for assistance.

Primary Care Provider

A physician (medical doctor [M.D.] or doctor of osteopathic medicine [D.O.]), nurse practitioner, clinical nurse specialist or physician assistant, as allowed under state law, who provides, coordinates or helps a patient access a range of health care services.

Priority Support Unit

A part of CCA Service Center. Abbreviation is PSU.

Print-Mail Services

The Services that are provided by the Contractor with respect to the Print Mail Service Center and consisting generally of providing mail processing and printing services for the Project and providing the Print-Mail Service Center, and the hardware, software, communications devices, and other equipment, assets, and infrastructure required for performance of Print-Mail Services, as further described in the Contract.

Privacy Incident

Shall mean either: i) the loss of control, compromise, unauthorized disclosure, unauthorized acquisition, unauthorized access, or any similar term referring to situations where persons other than authorized users and for an other than authorized purpose

have access or potential access to PII, whether physical, or electronic; or ii) a reasonable belief that unauthorized acquisition of PII that compromises the security, confidentiality or integrity of the PII has occurred.

Private Cloud

The utilization of scalable and virtualized computing, storage, and network capabilities for the CalHEERS expanding user and member populations. The CalHEERS private cloud solution will not be shared with any other clients.

Processing

The performance by the Software residing on the Equipment of logical operations and calculations on the Data.

Producer

The service provider of the SOAP Web Service.

Product

A Level Of Coverage Such As HMO Or PPO. A Product Change Is Like From HMO To PPO, A Metal Change Is Not A Product Change. See Also Plan and Metal.

Production

The use of Function(s) in CalHEERS' production environment(s) to perform its regular business operations. The environment(s) where the features associated with eligibility and enrollment for health care affordability plans for CA clients are accessed and the complete set of the CalHEERS online user activities occur. Production includes, but is not limited to, interfaces for data exchange, data input, storage, and output, and infrastructure (cloud-based, on-premises, Software as a Service (SAAS), Infrastructure as a Service (IAAS), etc.).

Production Change Request

Production Change Request

Program Integrity

The planning, prevention, detection, and investigation/recovery activities undertaken to minimize or prevent fraud, waste, and abuse.

Program Integrity Division

Covered California Program Integrity Division. It is a meeting with the Sponsors to discuss Production Tickets. They tell CalHEERS their "must-haves" and CalHEERS Project staff provide responses to any questions about a particular defect.

Project

CalHEERS' design, development, implementation, operations and hosting of the System, as described in the Solicitation, the Response, applicable Deliverables, the Work Plan, and the other parts of the Contract.

Project Cutover Coordinator

The primary contact for the System Integrator Project Cutover Lead, who acts as the coordinator for the cutover activities on the CalHEERS Project.

Project Cutover Lead

The System Integrator lead responsible for planning and executing Project Cutover Activities after the Go-Live decision has been made. The Project Cutover Lead works with the CalHEERS Project Cutover Coordinator.

Project Implementation

The discipline responsible for the management of the processes and tools necessary to plan, manage, and track the activities that support the CalHEERS implementation project wide. This includes the Project Implementation effort and planning and execution of the cutover activities.

Project Implementation Readiness Assessment

The meeting where progress in each of the readiness areas is reviewed and discussed using the Project Implementation Readiness Dashboard.

Project Implementation Readiness Coordinator

The primary contact for the System Integrator Project Implementation Readiness Lead who acts as the coordinator for the project readiness activities on the CalHEERS Project.

Project Implementation Readiness Lead

The System Integrator lead responsible for managing and tracking the Project Implementation Readiness activities in preparation for Go-Live. The Project Implementation Readiness Lead works with the CalHEERS Implementation Readiness Coordinator.

Project Management Maturity

The program or method to systematically improve or mature project management processes.

Project Process Guides

A detailed description of how to execute a process. They are intended to be used for consistency throughout the project. A process may have output artifacts in any of these artifact types.

Project Resource Structure

A breakdown of project personnel from major high-level sponsor and stakeholder organizations down to the CalHEERS State and System Integrator work-performing individuals.

Project Review Baseline

Federal Enterprise Lifecycle Reviews of Exchange Project Management Baseline deliverables.

Project Server

Microsoft® tool used to manage the work plan and report hours against.

Project Web Access

PWA time reporting process.

Property

All Exchange Equipment, the Deliverables, the Work Products, and other Exchange real and personal property, unless otherwise excluded herein.

Protected Health Information

PHI is, as defined by 45 CFR 160.103, information transmitted or maintained by a covered entity or its business associates in any form or medium. It includes an individual's past, present, or future physical or mental health or condition, the provision of health care to the individual, or the past, present, or future payment for the provision of health care to the individual, and that identifies the individual or for which there is a reasonable basis to believe can be used to identify the individual.

Provider

A provider is a physician, hospital, clinic or other individual or institution that has a valid provider agreement with DHCS to provide Medi-Cal services to program beneficiaries.

Public Health Service Act

The operating division of the Health and Human Services Department (HHS) responsible for promoting the protection and advancement of the American population's physical and mental well-being.

Public Records

Contractor acknowledges that this Agreement shall be a public record under State law, subject to California Government Code Section 100508. Any specific information that is claimed by Contractor to be Confidential Information must be clearly identified as such by Contractor.

Q

Qualified (or Qualifying) Life Event

A change in your life that can make you eligible for a special enrollment period to enroll in health coverage. Examples of qualifying life events are moving to a new state, certain changes in your income and changes in your family size (for example, if you marry, divorce or have a baby).

Qualified Dental Plan

Certified dental insurance plans offered to consumers and small businesses purchasing coverage through Covered California.

Qualified Employee

Employees offered coverage through a SHOP by a qualified employer.

Qualified Employer

Employer that has been determined eligible to participate in a SHOP.

Qualified Entity

Any entity that provides a service to the public, to assist with eligibility and enrollment. Qualified Entities may include Navigators, Agents, Consumer Assistance Programs, or less formal entities such as guardians, interested parties and or those with power of attorney.

Qualified Health Plan

Certified health insurance plans offered to consumers and small businesses purchasing coverage through Covered California.

Qualified Health Plan Certification

The process that will grant a “qualification” status to health plans, which will be required for participation on the Exchange.

Qualified Individual

An individual who is determined eligible to purchase health insurance coverage on the Health Insurance Exchange.

Quality Dental Plan

Under the Affordable Care Act, starting in 2014, all dental plans must be certified by the exchange to participation. Plans that receive this certification will provide essential dental benefits, follow established limits on cost-sharing (like deductibles, copayments, and out-of-pocket maximum amounts), and meet other requirements defined by the Exchange.

Quality Health Plan

Under the Affordable Care Act, starting in 2014, all health plans must be certified by the exchange to participation. Plans that receive this certification will provide essential health benefits, follow established limits on cost-sharing (like deductibles, copayments, and out-of-pocket maximum amounts), and meet other requirements defined by the Exchange. (See related item Qualified Health Plan Certification).

Quality of Service

Description or measurement of the overall performance of a service.

Quality Rating System

A rating criteria and process used to determine a Health Plan’s quality rating. This resulting rating may be used to support the certification of qualified health plans.

Quick Reference Guides

Reference guides that provide users with quick and easily accessible information

R

Rational Team Concert

IBM® Rational Team Concert™ is a collaborative software development tool that teams use to manage all aspects of their work, such as iteration and release planning, change management, defect tracking, source control, and build automation.

Reasonable Opportunity Period

It is for the enrollees Covered California needs to provide additional documentation for: citizenship, immigration status, income, etc. They have 95 days to provide docs, if not they will be termed.

Reconciliation

The RX20 is used to update information to MEDS and reconcile the client’s data between CalHEERS and MEDS.

Reconciliation, Enrollment, and Membership

Reconciliation, Enrollment, and Membership covers all Recon activities done by the CCA team and they work with the System Integrator to complete Recon and resolve disputes.

Reconsideration

An action or inquiry made by a customer, or qualified entity acting on behalf of a customer, regarding a potentially incorrect eligibility determination. This step may be taken prior to a formal appeal request.

Redetermination

On an annual basis, a beneficiary's categorical, financial and other eligibility-related circumstances must be re-evaluated to determine whether the individual remains eligible for the program. This re-evaluation process is known as the re-determination.

Reductions in Payments Due

Amounts due the Exchange by Contractor, including but not limited to liquidated or other damages, or claims for damages, may be deducted or set off by the Exchange from any money payable to Contractor pursuant to this Agreement. The Exchange shall provide Notice to Contractor of any such deduction or set-off and 30 Days, opportunity to cure the breach resulting in such damages or resolve the claims for damages prior to exercising such deductions or set-offs.

Reference Materials

Materials developed for CalHEERS users on the job.

Reference Plan

The Reference Plan is the lowest cost plan associated with each of the four tiers presented to the Employer during Employer Plan Selection. This plan is used to provide a total estimated annual premium cost for the Employer based on the selected tier, employee roster data, and rating region. Also known as the Benchmark Plan.

Referral

Collecting data and sending to a corresponding agency, such as DHCS (for MAGI and non-MAGI Medi-Cal) or MRMIB for Access for Infants and Mothers.

Rehabilitative/Rehabilitation Services

Health care services that help you keep, get back or improve skills and functioning for daily living that have been lost or impaired because you were sick, hurt or disabled. These services may include physical and occupational therapy, speech-language pathology and psychiatric rehabilitation services in a variety of inpatient and outpatient settings.

Reinsurance Program

The ACA creates reinsurance program, and corresponding assessment, within each state in order to stabilize the individual market during the first three years of the insurance exchanges, when the risk of adverse selection as a result of the market reforms is the greatest. The assessment is imposed for a limited number of years, beginning in 2014 and ending in 2016 (see "transitional reinsurance program.")

Relationship

A relationship describes how a CI interacts with other linking of one CI to another CI or a CalHEERS Incident, Problem, or Technical Change Record.

Release

The combination of Functions described as a Release in the Response, applicable Deliverables, and the Work Plan.

Remote ID Proofing

Remote Identity (ID) Proofing is intended to verify of the authenticity of consumer's identity, so that Covered California has a reasonable level of assurance that the person filling out an application is the person they purport to be.

Renewal

Annual process which typically occurs every October to redetermine eligibility to the Covered California programs.

Reports

An existing report submitted to the State on a regular basis (various formats).

Reporting Administrator

A Covered California employee (or designee) who has the ability to access and run reports in the CalHEERS solution, including ad-hoc reports (CalHEERS system role).

Request for Proposal

A request for proposal (RFP) is a solicitation made, often through a bidding process, by an agency or company interested in procurement of a commodity, service or valuable asset, to potential suppliers to submit business proposals.

Requirements Traceability Matrix

The RTM contains all project requirements which are individually linked to the deliverables, test cases, or other project activities that confirm the completeness of each requirement.

The Contractor and the CalHEERS Project will utilize the RTM to jointly track completion of the open requirements listed on the RTM. The Contractor will provide Notice to CalHEERS when a Baseline RTM requirement is completed. If CalHEERS does not respond to or agree with Contractor's assertion, CalHEERS and the Contractor will work together in good faith to resolve the concerns. If no such resolution is reached the issue will be addressed via the dispute resolution provisions set forth in this Contract. The Contractor and CalHEERS agree that where CalHEERS accepts a requirement as completed by indicating "Yes" in the RTM under the column heading "Implemented?" the requirements will not be revisited or reconsidered.

Resolution

The approaches (technical, business process or combination) for resolving the OCM identified significant differences, thereby preparing the site for the implementation of the CalHEERS application.

Response feed

That is the terminology most carriers are using for the effectuation of enrollment sent to Covered CA so the case will change from the "Pending to Enrolled" status. This then allows the Hotline / SCRs to make necessary corrections to the case. The Hotline is charged with correcting escalated referrals and requests from Kaiser itself and other

carriers but cannot do so when the case is in Pending status, hence we need the enrollment feed sent again.

Retired Annuitant

Former state employee who comes back but are limited on hours and so work special shifts.

Risk

NIST Special Publication (SP) 800-30 “[t]he net mission impact considering (1) the probability that a particular [threat] will exercise (accidentally trigger or intentionally exploit) a particular [vulnerability] and (2) the resulting impact if this should occur [R]isks arise from legal liability or mission loss due to: 1. Unauthorized (malicious or accidental) disclosure, modification, or destruction of information 2. Unintentional errors and omissions 3. IT disruptions due to natural or man-made disasters 4. Failure to exercise due care and diligence in the implementation and operation of the IT system.”

Risk Adjustment

A statistical process that takes into account the underlying health status and health spending of the enrollees in an insurance plan when looking at their health care outcomes or health care costs.

Risk Adjustment Program

ACA requires states to set up a risk adjustment program for health plans operating both inside and outside the new insurance exchanges. The program assesses a charge on health plans in the state that have low-cost enrollees, the revenue from which is then used to pay plans with high-cost enrollees.

Risk and Issue Management Group

Group responsible for tracking, reviewing, and deciding on the disposition of risks and issues.

Risk Assessment

An evaluation of potential threats against safeguards and security interest and the countermeasures necessary to address potential vulnerabilities. It is a five-step process that provides the decision-maker with a firm foundation upon which to make an informed decision. During a risk assessment, the value of the information, analysis of the threat, and determination of the information’s vulnerability are conducted. Following the completion of these three activities, a determination of the risk rating is made, and countermeasures are considered and implemented, as necessary.

Risk Management

The integrated process of assessing the threat, the vulnerabilities, and the value of the asset, and applying cost-effective countermeasures.

Risk Management Programs

The financial management strategies associated with managing Exchange risk, including reinsurance, risk adjustment and risk corridor programs.

Risk Management Tool

Standard tool that the project uses to log project-level risks.

Roll Backward/Forward

Ability for plans to roll coverage effective dates backward or forward.

Root Cause Analysis

The process of discovering the root cause of problems in order to identify appropriate solutions.

Roster

A list of people. For example, CEC roster will be a list of Counselors. Employer (or Employees) roster is a list of employees enrolled in a plan which will be used, for example, to create the bill. (Only people on the roster could be billed).

Rough Order of Magnitude Cost

Refers to an initial estimate of the cost of a project or parts of a project.

Rules of Behavior

Provides appropriate use of all CalHEERS information technology resources for operators (e.g., developers, system and network administrators, database administrators, testers) including state employees, contractors, and other authorized users which the organization has the authority to impose rules of behavior with regard to system access.

S**Scenario-Based Learning**

A training method that provides trainees with CalHEERS relevant processes using training simulations.

Schedule

The dates described in a Work Plan for deadlines for performance of Services and other Project events and activities.

Security Incident

The act of violating an explicit or implied security policy, which includes attempts (either failed or successful) to gain unauthorized access to a system or its data, unwanted disruption or denial of service, the unauthorized use of a system for the processing or storage of data, and changes to system hardware, firmware, or software characteristics without the owner's knowledge, instruction, or consent. Incidents include the loss of data through theft or device misplacement, loss or misplacement of hardcopy documents, and misrouting of mail, all of which may have the potential to put the data at risk of unauthorized access, use, disclosure, modification, or destruction. Adverse events such as floods, fires, electrical outages, excessive heat are not considered incidents. For purposes of this Agreement, a "Security Incident" shall, in accordance with the HIPAA Security Rule, likewise be deemed to consist of the attempted or successful unauthorized access, use, disclosure, modification or destruction of information or the interference with system operations of CalHEERS (45 CFR §164.304).

Self Service Portal

CalHEERS Help Desk Self Service Portal (SSP). Tickets are entered tickets thru SSP.

Self-Attest or Self-Attestation

An option to provide information (e.g., income) required by an entity without providing the data via authoritative source (e.g., IRS tax return) or attestation via notary public. Self-Attestation requires that you attest that the information you provide is accurate under the risk of perjury. Proposed CMS rules include that for APTC and Cost Share Reduction a head-of-household taxpayer can self-attest their income and household composition when IRS tax return data is not available or is significantly differs from available data.

Self-Hosted Maintenance and Support

Maintenance provided by Contractor when the Exchange does Self-Hosting.

Self-Hosting

Operation of the Software by the Exchange on the Exchange's equipment

Senate Bill

A bill is a proposed law under consideration by the Senate. A bill does not become law until it is passed by the legislature and, in most cases, approved by the executive. Once a bill has been enacted into law, it is called an act or a statute.

Service Center

A Covered California Service Center is a department designated to assist consumers by responding to inquiries and provide tailored information to match consumers health care needs and eligibility with the best plan and coverage. Service Center locations are in Fresno, Irvine, McClellan and Rancho Cordova.

Service Center Representative

A state employee of the Covered California Service Center, and responsible for working directly with Covered California consumers. A county eligibility worker could also fulfill this requirement (CalHEERS system role).

Service Center Representative – Appeals

This is a CalHEERS system role. A Covered California Service Center employee who provides front line support to Consumers, answering questions and entering information in the CalHEERS application on the Consumer's behalf. This employee also has the ability to process appeals.

Service Center Representative – MEDS

This is a CalHEERS system role. A Covered California Service Center employee who provides front line support to Consumers, answering questions and entering information in the CalHEERS application on the Consumer's behalf. This employee also has the ability to process MEDS alerts.

Service Center Supervisor

This is a CalHEERS system role. A Covered California Service Center employee who provides supervisor responsibilities to Service Center Representatives.

Service Center Supervisor – Enhanced

This is a CalHEERS system role. A Covered California Service Center supervisor employee who has enhanced page access capacity, for example the ability to access the Manual Eligibility Determination Page.

Service Level Agreement

The standards to which the System shall perform, and which Services and Deliverables will meet as described in this Contract.

Service Now (Ticket Management System)

Tool used to manage incidents and infrastructure/code.

Service Object Access Protocol User Interface

Test client for web services.

Service Oriented Architecture

A method that allows differing services to communicate together through interfaces and messages. This is becoming more common in web-based applications.

Service(s)

The tasks and services to be performed by the Contractor (and/or its Subcontractors), as described in the Contract.

Share of Cost

The amount that a Medi-Cal beneficiary must pay or obligate each month for medical costs before Medi-Cal will pay for services rendered if the beneficiary earns more than the maintenance need permitted under Title XIX.

Shared Services

Refers to the provision of a service by one part of an organization or group where that service had previously been found in more than one part of the organization or group. Thus, the funding and resourcing of the service is shared and the providing department effectively becomes an internal service provider.

SharePoint

Microsoft® tool used to store and share project documentation.

Shop and Compare Tools

Tools that will be made available to facilitate the comparison of available QHPs. The Exchange will support tools for both the individual and the SHOP Exchange.

Significant Difference

The CalHEERS OCM categorization of an identified business process or role difference that requires development of a resolution; identified based on the extent of the change required, and significance of the impact to the site.

Silver plan

Covered California health insurance plans — and all health plans in the individual and small-group markets — are sold in four levels of coverage: Bronze, Silver, Gold and Platinum. As the metal category increases in value, so does the percentage of medical expenses that a health plan covers compared with what you are expected to pay in co-pays and deductibles. On average, Platinum-level plans cover 90 percent of health care costs, and you pay 10 percent; Gold plans cover 80 percent, while you pay 20 percent; Silver plans cover 70 percent, while you pay 30 percent; and Bronze plans cover 60 percent, while you pay 40 percent. Plans in higher metal categories have higher monthly premiums, but when you need medical care, you pay less. Alternatively, you can choose

to pay a lower monthly premium, and when you need medical care, you pay more. You can choose the level of coverage that best meets your health needs and budget.

Simple Object Access Protocol

A protocol specification for exchanging structured information in the implementation of Web Services in computer networks. It relies on XML Information Set for its message format, and usually relies on other Application Layer protocols, most notably Hypertext Transfer Protocol (HTTP) or Simple Mail Transfer Protocol (SMTP), for message negotiation and transmission.

Single Sign On

Single sign-on (SSO) is a property of access control of multiple related, but independent software systems. With this property a user logs in once and gains access to all systems without being prompted to log in again at each of them. Conversely, Single sign-off is the property whereby a single action of signing out terminates access to multiple software systems.

Site Coordinator

A site staff member leading the CalHEERS implementation for their specific site.

Site Implementation

Site implementation is the discipline responsible for overall management of the implementation effort and is led by the Site Implementation Manager.

Site Implementation Manager

Site implementation is the discipline responsible for overall management of the implementation effort and is led by the Site Implementation Manager.

Site Implementation Readiness Assessment Template

Template that provides a metrics-based evaluation of readiness status that leads to an evaluation of the likelihood of a successful cutover. Interchangeable with “Site Implementation readiness Review Template,” below.

Site Implementation Readiness Review Template

Template used to assess site readiness, used at a site meeting conducted ten days prior to cutover. Review of the SIRR results in an actual recommendation as to whether the site is ready for cutover, that feeds into the Project Implementation Go/No-Go decision.

Site(s)

The locations for the Equipment, Software, and Project staff, including without limitation the Facilities, Contractor’s back up site and Contractor’s training sites.

Small Business Health Option Program

The component of Covered California designed to allow small businesses to shop for and enroll their employees in qualified health plans.

Small Business Tax Credit (ends 2016)

A tax credit for small businesses that have less than 25 full-time employees, pay an average wage of less than \$50,000 a year and pay at least half of employee health insurance premiums.

Snippets

Pulled into a notice which is Information specific to a client or decision.

Social Security Administration

SSA is an independent government agency responsible for the Social Security system which provides income to retired citizens 65 years and older.

Social Security Number

In the United States, a Social Security number (SSN) is a nine-digit number issued to U.S. citizens, permanent residents, and temporary (working) residents under section 205(c)(2) of the Social Security Act, codified as 42 U.S.C. § 405(c)(2). The number is issued to an individual by the Social Security Administration, an independent agency of the United States government. Its primary purpose is to track individuals for Social Security purposes.

Soft Pause

Soft Pause is when a member (Parent, Child, Aged, Blind or Disabled) who is on Medi-Cal is found to be no longer eligible for the program that they are on. The Soft Pause indicator is set for the member. They continue to get services under the same Medi-Cal Aid Code while it is determined whether they are eligible for other programs or not. Soft Pause is typically about a 30-day continuation but could be longer. They will be taken off soft pause by either being discontinued from Medi-Cal or is placed in some other program. This is an action that is done by the Counties.

Software as a Service

A software distribution model in which applications are hosted by a vendor or service provider and made available to customers over a network, typically the Internet.

Source Code

The series of instructions to a computer for carrying out the various tasks that are performed by a computer program, expressed in a programming language that is easily comprehensible to appropriately trained persons and that translates such instructions into Object Code which then directs the computer to perform its functions.

Source of Record

Source of Record. The system or entity that stores or originates the actual value. Aka Source of Truth or System of Record. E.g., CalHEERS is the SOR for an individual's address as it is entered by the individual into CalHEERS. The Carriers are the SOR for the Effective Date for a Member as they are the ones who receive payment and then notify CalHEERS.

Special Enrollment

The opportunity for people who experience a life-changing event (such as the loss of a job, a divorce, the death of a spouse, or the birth of a child) to sign up immediately in a health insurance plan, either through Covered California or through an unrelated insurance company, even if it is outside of the plan's specified open-enrollment period.

Special Enrollment Period

A period during which a qualified individual or enrollee who experiences certain qualifying events may enroll in, or change enrollment in, a QHP through the Exchange outside of the initial and annual open enrollment periods.

Specifications

The technical, functional, and other written specifications that define the requirements for the Project, as described in the Contract, -prior Deliverables or Services which have received Acceptance, the Service Level Agreements, executed Change Requests, all applicable State and federal laws and regulations (as of the execution date and thereafter as addressed in executed Change Requests), and the requirements established by the Information Exchange Agreement. The Specifications are, by this reference, made a part of this Contract, as though completely set forth herein.

Spoofing

Threat action aimed to illegally access and uses another user's credentials, such as username and password.

Spoofing, Tampering, Repudiation, Information (Disclosure), Denial (of service), Elevation (of Privilege)

Spoofing identity, Tampering with data, Repudiation and nonrepudiation, Information Disclosure, Denial of service, Elevation of Privilege

Staff

The Contractor's employees, Subcontractors and agents who shall provide the Services on behalf of Contractor.

Stakeholder Analysis

The process of identifying individuals or groups that are likely to affect or be affected by the proposed change and assessing them in relation to the change.

Standard Operating Procedures (SOP)

Specifically for Operations, an existing process, usually to support of the system and usually has an output in a spreadsheet. Examples include batch runs, daily maintenance, upgrades, license renewals.

State Administrative Manual (California)

The State Administrative Manual (SAM) is a reference source for statewide policies, procedures, requirements and information developed and issued by authoring agencies such as the Governor's Office, Department of General Services (DGS), Department of Finance (DOF), and Department of Human Resources (CalHR). In order to provide a uniform approach to statewide management policy, the contents have the approval of and are published by the authority of the DOF Director and the DGS Director.

State Controllers Office

The Controller is the state's independent fiscal watchdog, providing sound fiscal control over more than \$100 billion in receipts and disbursements of public funds a year, offering fiscal guidance to local governments and uncovering fraud and abuse of taxpayer dollars.

State Project Director

The State Project Director is responsible for planning, directing, and overseeing the Project, and ensure that Deliverables and Functionality are achieved as defined in the Contract, Project Charter, funding documentation and subsequent Project plans. The Project Director provides leadership and strategic direction to the organization to ensure

Project and organization objectives are accomplished via effective Project management. The Contractor will report to the State Project Director.

The State Project Director is also responsible for the management of all resources assigned to the Project, serves as the primary liaison between the Project and the Project Sponsors and Steering Committee, and escalates decisions and issues as needed. The Project Director coordinates Project related issues with other efforts, reviews and resolves Project issues not resolved at lower levels and directs the Project management Functions. The Project Director acts as the principal interface to the Contractors.

Statement of Standards for Attestation Engagements (SSAE) 16

A regulation created by the Auditing Standards Board (ASB) of the American Institute of Certified Public Accountants (AICPA) for redefining and updated how service companies report on compliance controls.

Statement of Work

Captures a detailed overview of the project in all its dimensions.

Statewide Automated Welfare System (Consortium)

Statewide Automated Welfare System (SAWS) is a CalHEERS Interface partner. SAWS is used to administer intake, eligibility determination and benefit calculation, re-determination, benefit issuance, case management, fair hearings, quality control, fraud and reporting for CalWORKs, Medi-Cal and SNAP programs. The SAWS consist of two separate county consortia systems, CalSAWS and CalWIN.

Statewide Client Index

A DHCS system that generates and controls CINs. It allows access to a beneficiary's information for file clearance purposes used by several state agencies and departments to establish identity information and assign and individual CINs.

Statewide Client Index Number

Identifier used in MEDS.

Status at a Glance

A type of Report that shows the status of tasks in an easy-to-read format.

Strategic Prioritization with Executive Approval for Research

A collaborative work group made of leaders from CCA, DHCS, CWDA and CalHEERS State whose purpose is to identify and strategically prioritize research initiatives that drive HCD towards fulfilling the UX vision for CalHEERS.

Structured Query Language

Often shortened to SQL, it is a language used to view or update information within a database.

Subcontractor

A person, partnership, or company, which is not in the employment of or owned by Contractor and which is performing Services under this Contract under a separate agreement with and/or on behalf of Contractor.

Subject Matter Expert

A person who is an expert in a particular area or topic.

Sub-Process

A compound activity that is included within a process.

Subscriber ID

For the Individual market, the Subscriber ID in the 834 is the member ID of the primary tax filer (or primary coverage person). For the SHOP market, the Subscriber ID in the 834 and 820 is the member ID of the employee.

Subsidy

Cost-sharing subsidies and tax credits will reduce the cost of premiums and other out-of-pocket expenses for health coverage that qualifying individuals or families purchase through Covered California. The preferred way of describing this in consumer-facing text is premium assistance.

Summary of Benefits and Coverage

An easy-to-read summary that lets you make apples-to-apples comparisons of costs and coverage between health plans. You can compare options based on price, benefits and other features that may be important to you. You'll get a summary of benefits and coverage (SBC) when you shop for coverage on your own or through your job, renew or change coverage, or request an SBC from the health insurance company.

Support

The technical and customer support Services which are described as such in the Solicitation, the Response and in the Work Plan

Surrender of Property

Contractor shall surrender to the Exchange all Property upon the earlier of it no longer being required or termination of this Contract (as provided in Section 14.5 of CalHEERS SDMO Special Provisions) or expiration (in accordance with the applicable Transition Plan Deliverable) of this Agreement.

System Center Configuration Manager

A lifecycle management tool from Microsoft to keep track of a network's inventory, tracking application installation, deploying updates and security patches.

System Change Request

A written form used by Contractor and the Exchange to describe an Enhancement.

System for Electronic Rate and Form Filing

This system was developed by the National Association of Insurance Commissioners (NAIC) as an effective and efficient means for Insurance Carriers to transmit policy rate and form filings between the carrier and state regulators. It is also used by carriers to load their plan and rate information into CalHEERS. Once loaded, the plan information is available to consumers for selection through the Covered California website.

System Integrator

A system Integrator is a professional organization or entity that implements enterprise-wide IT applications, brings together component subsystems into a whole and ensuring

that those subsystems function together and who governs the deployment-to-operation lifecycle of a complex IT solution within an organization.

System Requirements Management Tool

The System Requirements Management Tool (SRMT) is the ALM Requirements Module used to maintain and trace system requirements for CalHEERS.

System Testing

Testing that is performed on the Releases and System and Hosting Services (in whole or in part) by the Contractor before beginning Acceptance Tests on the Releases and System and Hosting Services as further defined in the Test Plan and Test Reports Deliverables and Work Plan.

T

Target State Architecture

Framework that defines the architectural products and solutions required for the implementation of the CalHEERS Technology Refresh Initiative, which aims to replace proprietary legacy software with scalable technology and architecture running natively with the cloud.

Tax Credit

One of the largest premium assistance programs for health insurance. Starting in 2014, it helps consumers pay health insurance premiums. Tax credits will also be available to small businesses with no more than 25 full-time-equivalent employees to help offset the cost of providing coverage. The preferred way of describing this in consumer-facing text is premium assistance, but the phrase "tax credit" may be used in employer-facing text. As per Covered CA 6/21/13 use Tax Credit in SHOP or when referring to the employer market. Use Premium Assistance for the individual market only.

Tax Dependent

An individual who is claimed by another for tax purposes. The individual who is claimed is called a tax dependent.

Tax Household

The taxpayer(s) and any individuals who are claimed as dependents on one federal income tax return. A tax household may include a spouse or dependents.

Tax Penalty

Starting in 2014, consumers who don't have health insurance will pay a tax penalty, starting at \$95 per individual, \$285 per family, or 1 percent of income, whichever is greater. In 2016 it is \$695 per individual, \$2085 per family, or 2.5 percent of income. Exempt are those who make too little money to file a federal tax return and those ineligible for premium assistance and who would have to spend more than 8 percent of their household income on the lowest-cost Bronze Plan.

Taxes

Contractor shall remit to the California Board of Equalization sales and use taxes to the extent they are applicable to Deliverables or Services provided by Contractor to the Exchange. Contractor may charge the Exchange for such sales and use taxes on such Deliverables or Services on applicable invoices, and the Exchange shall reimburse Contractor for such taxes. However, Contractor must pay all other applicable taxes

under the Agreement including, but not limited to, taxes based on Contractor's income or revenue, and personal property taxes levied or assessed on Contractor's personal property to which the Exchange does not hold title.

Technical Report Type 3

Technical reports that describe the 834, 820, 999, TA1 etc. transaction types. Available at the WPC website <http://www.wpc-edi.com/>

Template

Usually in the form of a document, a file with a basic outline for work that needs to be created or brought to current.

Temporary Assistance for Needy Families

A federal assistance program providing cash assistance to indigent families with dependent children.

Term

The term for the Agreement shall begin on the Execution Date and shall continue for five years unless terminated earlier as provided in the Agreement.

Text Telephone

A special telephone device used by the hearing or speech impaired to communicate by typing messages back and forth instead of talking or listening. Sometimes referenced as teleprinter or teletypewriter (TTY), an electromechanical typewriter paired with a communication channel.

The Act

Social Security Act

The Code

Internal Revenue Code of 1986

The Exchange's Property

The Exchange will provide Contractor access to and use of the Exchange's Property as described in a Deliverable.

The Federal Managers' Financial Integrity Act

The Federal Managers' Financial Integrity Act (FMFIA) (of 1982) requires agencies to establish internal control and financial systems that provide reasonable assurance of achieving the three objectives of internal control, which are: effectiveness and efficiency of Operations, Compliance with regulations and applicable laws, and reliability of financial reporting.

Third Party Software Licenses

~~Prior to utilizing any Third Party Software product that may be included as part of a Software Deliverable to the Exchange and that could be used directly by the Exchange if the Third Party Software would be installed on the Exchange's Equipment, Contractor shall provide to the Exchange copies of any applicable license agreement from the licensor of the Third Party Software to allow the Exchange to pre approve such license agreement.~~

Threat

An adapted definition of threat, from NIST SP 800-30, is “[t]he potential for a person or thing to exercise (accidentally trigger or intentionally exploit) a specific vulnerability.” There are several types of threats that may occur within an information system or operating environment. Threats may be grouped into general categories such as natural, human, and environmental.”

To-Be

The resulting site environment once the CalHEERS application is implemented in a site.

To-Be Business Process Model

A business process model that portrays how a business process will be structured in the future based on the use of the CalHEERS solution.

Tool

An application or application data file that the project uses that may generate a report or be a vehicle for referencing specific information.

Training

The discipline responsible for the design, development, and delivery of CalHEERS training. Training is designed to prepare users to do their jobs using the system and help consumers to understand how to navigate the CalHEERS application to select and obtain health coverage.

Training Coordinator

A site staff member leading the CalHEERS training for their specific site.

Training Environment

During training courses, trainees will enter data into the CalHEERS training environment. It is similar to the CalHEERS production application but does not use live data. Each course’s practice scenarios can be set up and executed by participants in the Training Environment.

Training Lead

The System Integrator lead responsible for oversight of the Training team that provides training focused on Consumers, Assisters, Eligibility Administrators, and CalHEERS Project staff.

Training Materials

Materials in various formats created to support an OCM, educational, training, or other process.

Train-the-Trainer

Training material with Trainer notes so that Trainers can train other employees and deliver the course independently.

Transition

Transition is the process to implement an awarded contract with minimal issues or disruption to the State. Transition refers to the changeover from:

- One Contract to another; and/or
- From one Contractor to another; or

- For every Contract, consideration shall be given to both the transition in and out requirements.

Transition Management

The implementing, planning, and monitoring of a change in contract from one company or organization to another.

Transitional Reinsurance Program

The ACA creates reinsurance program, and corresponding assessment, within each state in order to stabilize the individual market during the first three years of the insurance exchanges, when the risk of adverse selection as a result of the market reforms is the greatest. The assessment is imposed for a limited number of years; beginning in 2014 and ending in 2016 (see “reinsurance”)

Transition-In

Transition-In is those activities the Contractor must perform where the incumbent contractor must transition contract operations to the State, the Contractor or a third party.

Transition-Out

Transition-Out are those activities the Contractor must perform where it must transition contract operations to the State, another contractor or a Third-Party.

TriCare

Government Health Insurance considered to be minimal essential coverage.

True Cost

The Cost the System Integrator (SI) paid for, and in turn charges the State, for an item or service that includes no mark up, kick-back or labor costs. Under this Contract, True Cost only applies to Hardware, Software, and Cloud Services as identified in the Statement of Work.

Truven

Truven is a contractor to Covered California working to set-up a data warehouse for us that will incorporate claims processing (the majority of the data). EAS stands for Enterprise Health Analytics Solution project. Carriers will be making monthly data submissions to us through Truven.

U**Unauthorized Code**

Any: (i) virus, Trojan horse, worm or other software routines or equipment components designed to permit unauthorized access to disable, erase, or otherwise harm Software, Equipment, or Data or to perform any other such actions; and (ii) back door, time bomb, drop dead device, or other software routine designed to disable a computer program automatically with the passage of time or under the positive control of a person other than a licensee of the Software. Unauthorized Code does not include software routines in a computer program, if any, designed to permit an owner of the computer program (or other person acting by authority of the owner) to obtain access to a licensee's computer system(s) (e.g., remote access via modem) solely for purposes of maintenance or Operations.

Update County Of Responsibility

The HX05 is a batch interface from CalHEERS to MEDS to report a transfer of responsibility for a client's case from one county to another.

Update Demographics

The HX12 is a batch interface from CalHEERS to MEDS to update client information for a client who is active in any segment on MEDS.

Uptime

The time that the entire System and Hosting Services are Operational, as measured 24-hours-a-day, Monday through Sunday, on a monthly basis, except for mutually agreed upon scheduled maintenance activities. Uptime is referred to as "Availability". If the CalHEERS exercises its Self-Hosting Option, Uptime shall only apply to the System.

Urgent Care

Care for an illness, injury or condition serious enough that a reasonable person would seek care right away, but not so severe as to require emergency room care.

Use Case

A sequence of steps that details how an individual interacts with the system.

Use of Property

Any Property furnished to Contractor by the Exchange shall, unless otherwise provided herein, or approved in writing by the Exchange Project Director, be used only for the performance of its obligations under and subject to the terms of this Agreement.

User Account

A set of login, password, demographic and other information related to a CalHEERS system identity.

User Experience

UX (User Experience) refers to a person's emotions and attitudes about using a particular product, system or service. It includes the practical, experiential, affective, meaningful and valuable aspects of human-computer interaction and product ownership.

User Role

A set of responsibilities or job functions assigned to or expected of a person or group of individuals. Individuals assigned to a role must be able to complete functions associated with the role.

User(s)

Parties who will have use of and access to the System and Services.

V**Validation, Enrichment, Transformation, Routing, and Service Operation**

The elements of an infrastructure for key service integration that includes:

- A Validation (V) request
- An Enrichment (E) request which adds additional information from internal and external data sources

- Inbound and outbound data transformation (T) to transform inbound data to canonical format and outbound data to the external target format
- Configuration-driven routing (R) to dynamically route the request to the appropriate service/process
- Service Operation (O)

Variable Text

Text which can change in each letter such as a name or address.

Versions

Unless otherwise mutually agreed to in writing, Contractor shall, during the Project, maintain any and all Third Party Software products at their most current version or no more than one version back from the most current version at no additional charge for such Services.

Very Lawful Presence (Services)

The VLP service suite is comprised of multiple services that are available to state-based exchanges (SBE) for the purpose of verifying consumer immigration information. This information will be verified against attested information from the consumer's health insurance application. The federal hub (FDSH) interfaces with the Department of Homeland Security (DHS) to retrieve immigration information based on the requests from the SBE.

Veterans Administration

Department of Veterans Affairs

Virtual Private Network

Tool used to connect to the data centers in order to access many of the above-mentioned tools.

W**Web Based Training**

Web-based training is any form of training that is delivered online.

Web Conference

Web Conference Courses are Instructor-led Training but delivered in a Virtual Classroom. Participants attend instructor-led system demonstrations remotely and have the opportunity to interact with the instructors to ask questions and get answers.

Web Portal

A web portal or links page is a web site that functions as a point of access to information in the World Wide Web.

Web Services Definition Layer

An XML-based interface definition language that is used for describing the functionality offered by a web service.

Webinar

An Instructor-led training held via the Internet. Trainees will register and sign up for webinars using the Covered California LMS.

Wellness Program

A program intended to improve and promote health and fitness that's usually offered through the workplace, although insurance plans can offer them directly to their enrollees. The program allows your employer or plan to offer you premium discounts, cash rewards, gym memberships, and other incentives to participate. Some examples of wellness programs include programs to help you stop smoking, diabetes management programs, weight loss programs, and preventative health screenings.

Wireframe

A representative illustration of the functional design of a CalHEERS application page.

Wireframe Page Specifications

A visual guide that represents the skeletal framework of a website.

Withdraw (Application Withdraw)

An activity performed by a consumer who withdraw his or her application prior to submission of the application and therefore eligibility determination is not calculated.

Withholding Payments

If a Contractor fails to deliver Deliverables or to provide Services which satisfy Contractor's obligations hereunder, the Exchange may provide Notice to Contractor of such failure and, if Contractor fails to correct such failure within 30 Days of the date of such Notice, shall have the right to withhold payments due hereunder for (i) the Deliverables or Services which Contractor has failed to deliver or provide as required in the Agreement, respectively, and (ii) Key Deliverables, milestones (in the Cost Schedules described in Exhibit A), Hosting Services, and Operations and Maintenance Services adversely affected by such failures in the Exchange's reasonable judgment. The Exchange may withhold any such payments due hereunder to Contractor, without penalty or work stoppage by Contractor, until such failure to perform is cured.

Work Plan

The overall plan and delineation of tasks, activities and events to be performed, Deliverables to be produced, Services to be provided, and associated resource requirements with regard to the Project. Each revised Work Plan shall be incorporated herein upon its Acceptance by the CalHEERS Project.

Work Product

New artifacts to be created to support a new process, new deliverable, or new report as a status or output of a process. Deliverables and products produced by Contractor under this Contract including but not limited to, Deliverables, models, processes, techniques, findings, conclusions, recommendations, reports, designs, plans, diagrams, drawings, Configurations, Custom Software, databases, documents, pamphlets, advertisements, books, magazines, surveys, studies, computer programs, films, tapes, and/or sound reproductions, to the extent provided by law.

Work Product Tool

An application or application data file that the project uses that may generate a report or be a vehicle for referencing specific information.

X**XML Schema**

It is used in the interface with SAWS.

Z

APPENDIX D - COST WORKBOOK

INTRODUCTION - BIDDER COST WORKBOOK

This worksheet provides general instructions for completing the OTSI CalHEERS RFP #73040873, Appendix D - Cost Workbook, which is required to be submitted as part of the bidders' proposals. This worksheet also gives an overview of the various worksheets that bidders must complete to arrive at the overall estimated costs for the contract. For evaluation purposes, the different cost categories within this cost workbook fall into one of two designations; Evaluated and Unevaluated.

Instructions (Important - Please Read These General Instructions First):

- 1) Input the bidding company's name at the top of worksheet D-1, Cell B1, and the name will be auto-populated on all the worksheets.
- 2) Please note the following pertaining to the color coding of cells within each worksheet:
 - Cells filled Yellow = Bidders shall populate data in Yellow cells only, unless worksheet instructions specify otherwise.
 - Cells filled Green or Grey = Data within these cells is not to be altered by bidders, unless worksheet instructions specify otherwise.
 - Cells filled Light Green or White = These cells are formula-driven and will be auto-populated via formulas provided by the State, except where worksheet instructions state otherwise.
 - Cells filled Light Blue = Data the State is providing for consideration.
- 3) Bidders need not worry about rounding as the State has implemented formulas that include rounding within Appendix D-1, Total Cost Summary, at the Cost Category level.
- 4) Bidders must provide costs within all years identified in this cost workbook. If the State chooses to not exercise any of the option years (years 6-10), contract year 5 will be considered the Transition-Out year.
- 5) Additional rows may be added to worksheets where specified in the instructions. However, bidders are not permitted to delete any rows or columns.
- 6) If additional rows are inserted by the bidder, it is the bidder's responsibility to ensure the formulas are carried down accurately.
- 7) Note that the State will not be held responsible for any miscalculations due to additional rows or otherwise altering of the worksheet by the bidder.

Summary of Worksheets:

- Tab D-1, Total Cost Summary - Identifies the total estimated cost of the proposed contract summarized in a single worksheet using the data from the other worksheets in the workbook.
- Tab D-2, Instructions - Provides detailed instructions for filling out the D-2, SDMO Hardware Cost worksheet.
- Tab D-2, SDMO Hardware Costs- This worksheet identifies the Bidder costs for Hardware.
- Tab D-3, Instructions - Provides detailed instructions for filling out the D-3, SDMO Software Costs and the Service Center Software Costs worksheets.
- Tab D-3, SDMO Software Costs and Service Center Costs - This worksheet identifies the D-3, SDMO Software Costs and Service Center Software Costs.
- Tab D-4, Instructions - Provides detailed instructions for filling out the D-4, Cloud Hosting Data Center Services Costs and Service Center Cloud Hosting Data Center Services Costs worksheets.
- Tab D-4, Cloud Hosting Data Center Services Costs - This worksheet identifies the Bidder costs for D-4, Cloud Hosting Data Center Services and Service Center Cloud Hosting Data Center Services Costs.
- Tab D-5, Instructions - Provides detailed instructions for filling out the D-5, SDMO Fixed Price Onshore Costs worksheet.
- Tab D-5, SDMO Fixed Price Onshore Costs - This worksheet identifies the Bidder onshore costs for the activities identified in the Statement of Work. (All Key Staff, except the Transition Manager, must be costed under Fixed Price Onshore/Offshore Costs.)
- Tab D-5.1, Instructions - Provides detailed instructions for filling out the D-5.1, SDMO Fixed Price Onshore Costs (Year 1) worksheet.
- Tab D-5.1, SDMO Fixed Price Onshore Costs (Year 1) - Identifies the Bidder Year 1 onshore costs, for the activities identified in the Statement of Work. (All Key Staff, except the Transition Manager, must be costed under Fixed Price Onshore/Offshore Costs.)
- Tab D-5.2, Instructions - Provides detailed instructions for filling out the D-5.2, SDMO F.P PSS Onshore Costs worksheet and the D-5.3, SDMO F.P.PSS Onshore Costs (Year 1) worksheet.
- Tab D-5.2, SDMO F.P. PSS Onshore Costs worksheet.
- Tab D-5.3, SDMO F.P. PSS Onshore Costs (Year 1) worksheet.
- Tab D-5.4, Instructions - Provides instructions for filling out the D-5.4, SDMO F.P. - Offshore Costs worksheet.
- Tab D-5.4, SDMO F.P. - Offshore Costs - This worksheet collects the Bidder detailed onshore costs for the Project Support Services activities identified in the Statement of Work.
- Tab D-5.5, Instructions - Provides instructions for filling out the D-5.5, SDMO F.P. Offshore Costs (Year 1) worksheet.
- Tab D-5.5, SDMO F.P. Offshore Costs (Year 1) - Identifies the Bidder Year 1 Offshore costs, for the activities identified in the Statement of Work. (All Key Staff, except the Transition Manager, must be costed under Fixed Price Onshore/Offshore Costs.)
- Tab D-5.6, Instructions - Provides detailed instructions for filling out the D-5.6, SDMO Fixed Price PSS Offshore worksheet & D-5.7 SDMO Fixed Price Offshore (Year 1) - PSS worksheet.
- Tab D-5.6, SDMO Fixed Price Offshore Costs - PSS - This worksheet identifies the Bidder offshore costs for the activities identified in the Statement of Work. (All Key Staff, except the Transition Manager, must be costed under Fixed Price Onshore/Offshore Costs.)
- Tab D-5.7, SDMO Fixed Price Offshore Costs (Year 1) - PSS - Identifies the Bidder Year 1 offshore costs, for the activities identified in the Statement of Work. (All Key Staff, except the Transition Manager, must be costed under Fixed Price Onshore/Offshore Costs.)

- Tab D-6, Transaction Based Costs - Identifies the Bidder costs for Transaction-Based services based on Transaction types and estimated volumes provided by the State.
- Tab D-7, Instructions - Provides detailed instructions for filling out the D-7, System Changes Costs worksheet.
- Tab D-7, Onshore System Changes Costs - This worksheet identifies the Bidder costs for Onshore System Change Work which is directed via the change management process outlined in the Statement of Work.
- Tab D-7.1, Onshore System Changes Staffing Rates - This worksheet identifies the Onshore Hourly Staff Rates the Bidder will use when performing onshore system change work as defined in the Statement of Work. The onshore staffing rates identified will auto-populate into D-7, Onshore System Changes Costs.
- Tab D-7.2, Instructions - Provides detailed instructions for filling out the D-7.2, Offshore System Changes Costs worksheet.
- Tab D-7.2, Offshore System Changes Costs - This worksheet identifies the Bidder costs for Offshore System Change Work which is directed via the change management process outlined in the Statement of Work.
- Tab D-7.3, Offshore System Changes Staffing Rates - This worksheet identifies the Offshore Hourly Staff Rates the Bidder will use when performing offshore system change work as defined in the Statement of Work. The offshore staffing rates identified will auto-populate into D-7.2, Offshore System Changes Costs.
- Tab D-8, Transition-In (TIP1 & TIP2) Costs - This worksheet identifies the Bidder costs for Transition-In as defined in SOW Section 7.1, TRANSITION-IN, including costs related to the Transition Manager, Transition-In related Deliverables (identified in the Transition-In Milestones), and the Transition-In associated performance bond.
- Tab D-8.1, Transition-In (TIP1 & TIP2) Payment Milestones - This worksheet uses the cost data from D-8 to calculate the five (5) milestone related payments that the Bidder will receive upon successful completion of the Transition-In milestones.
- Tab D-8.2, Transition-Out Costs - This worksheet identifies the Bidder costs for Transition-Out as defined in SOW Section 7.3, TRANSITION-OUT, including costs related to the Transition Manager and the Transition-Out related deliverables (identified in the Transition-Out Milestones).
- Tab D-8.3, Transition-Out Payment Milestones - This worksheet uses the data from D-8.2 to calculate the five (5) milestone related payments that the Bidder will receive upon successful completion of the Transition-Out milestones.

<Vendor Name>

APPENDIX D-1, INSTRUCTIONS - TOTAL COST SUMMARY

DO NOT MAKE ANY CHANGES TO THIS WORKSHEET. IT IS FORMULA-DRIVEN AND PULLS COST DATA FROM THE OTHER WORKSHEETS IN THIS WORKBOOK.

Appendix D-1, TOTAL COST SUMMARY, summarizes all the costs associated with the Bidder's proposal, both evaluated and unevaluated, for purposes of the procurement.

Line 1 - Shows Bid Amount A which is assigned an evaluation point value of 2,000 of the total 3,500 cost points. This subtotal includes Lines 2 through 5.

Line 6 - Shows Bid Amount B which is assigned an evaluation point value of 300 of the total 3,500 cost points. This subtotal includes Line 7.

Line 8 - Shows Bid Amount C which is assigned an evaluation point value of 1,000 of the total 3,500 cost points. This subtotal includes Line 9.

Line 10 - Shows Bid Amount D which is assigned an evaluation point value of 200 of the total 3,500 cost points. This subtotal includes Lines 11 and 12.

Line 13 - Shows the Evaluated Contract Costs Subtotals by year and for the total term of the contract.

Lines 14 - Shows the Unevaluated Contract Costs. This Subtotal includes Lines 15 through 18.

Line 19 - Shows the Unevaluated Contract Costs Subtotals by year and for the total term of the contract.

Line 20 - Shows the subtotal of evaluated and unevaluated costs commbined for each contract year, as well as the Total Contract Cost (rounded up to the whole dollar).

D-1: Total Cost Summary

APPENDIX D-2, INSTRUCTIONS - SDMO HARDWARE COSTS

Appendix D-2, SDMO HARDWARE COSTS, is used to identify all of the bidder's hardware costs associated with the CalHEERS solution.

Line 77 - Provides the State projected hardware budget value estimated for proposal evaluation purposes only. The actual budget value varies depending on the CalHEERS business needs.

Any Deliverables, Artifacts, or Standard Operating Procedures related to the topic of SDMO Hardware, including any offcycle updates, are to be costed under SDMO Fixed Price Onshore or Offshore Costs, except for those Deliverables identified within the Transition-In and Transition-Out Milestones.

For Hardware function/specifications and to determine the hardware needed for your proposed solution, see the CalHEERS Hardware/Software Inventory located within the Bidders' Library.

Bidders are to propose the same, alternative or different replacement hardware, via Column 7 (Proposed Hardware), as long as such hardware meets or exceeds the specifications of the existing hardware.

Bidders are only permitted to populate this tab with the True Cost, as defined in Appendix C - Glossary, of the hardware items they propose as part of their solution.

- Bidders are not permitted to apply any mark-up on top of the actual cost of the hardware items identified in this tab.
- Bidders are not permitted to add any labor costs related to the hardware items identified in this tab, as those costs shall be identified within the line that supports SOW 6.14 - System Hardware/Cloud Services/Software, within Tab D-5, SDMO Fixed Price Costs.

Bidders are permitted to insert additional rows into the bottom section of the worksheet to identify additionally proposed hardware. Bidders must ensure that the formulas at bottom of the table are updated to include any added rows.

Bidders must include all Hardware cost impacts associated with technology refresh in this worksheet, entering those costs within the year they are planned (please review SOW 6.6 Technology Refresh, for details).

Bidders shall NOT include staffing costs (labor hours) associated with the below listed Tech Refresh activities in this worksheet, as they are to be costed within Appendix D-5 - SDMO Fixed Price series of cost worksheets:

- Technology Refresh planning, management, assessment, reporting, tracking, deliverable development, workplan development/maintenance, artifact development/maintenance (e.g., Tech Refresh Roadmap).
- Implementation of State approved technology refresh recommendations.

The costs identified within this worksheet (Appendix D-2, SDMO Hardware Costs) will be linked to Appendix D-1, TOTAL COST SUMMARY, and will be part of the bid amount.

Column 1, Line # = No entry needed unless rows are added at the bottom for additional hardware.

Columns 2 through 6 = No entry needed. These columns are used to identify the different hardware components for the CalHEERS solution.

Column 7, Proposed Hardware = Bidders must enter the proposed hardware that is either the same or comparable to the listed item, completing the same function and meeting or exceeding the specifications of the existing hardware.

Column 8, Install Location = Bidders must enter the Install Location as either Contract Site or specify a site name for all hardware identified as part of bidder's solution.

Columns 9, 12, 15, 18, 21, Unit Cost = Bidders must enter the unit cost for each hardware item, inclusive of all related costs. For Year 1, Bidders are to enter costs which consider and align with the Bidder's Transition In Plan.

Columns 10, 13, 16, 19, 22, Quantity = Bidders must provide the quantity of hardware needed per hardware item for each contract year.

Columns 11, 14, 17, 20, 23, Total Cost Year X = No entry needed, formula-driven.

Column 24, Total Item Cost = No entry needed. The State has included a formula in this column that will sum the costs for each hardware item over the term of the Contract.

APPENDIX D-3, INSTRUCTIONS - SDMO SOFTWARE COSTS AND SERVICE CENTER SOFTWARE COSTS

Appendix D-3, SDMO SOFTWARE COSTS (minus Service Center), is used to identify all of the bidder’s software costs associated with the CalHEERS.

Line 245 - Provides the State projected software budget value (minus service center) estimated for proposal evaluation purposes only. The actual budget value varies depending on the CalHEERS business needs.

Any Deliverables, Artifacts, or Standard Operating Procedures related to the topic of SDMO Software, including any offcycle updates, are to be costed under SDMO Fixed Price Onshore or Offshore Costs, except for those Deliverables identified within the Transition-In and Transition-Out Milestones.

For Software function/specifications and to determine the software needed for your proposed solution, please see the CalHEERS Hardware and Software Inventory within the Bidders' Library.

Bidders are to propose the same, alternative or different replacement software, via Column 9 (Proposed Software), as long as such software meets or exceeds the specifications of the existing software.

Bidders are only permitted to populate this tab with the True Cost, as defined in Appendix C - Glossary, of the software items they propose as part of their solution.

-Bidders are not permitted to apply any mark-up on top of the actual cost of the software items identified in this tab.

-Bidders are not permitted to add any labor costs related to the software items identified in this tab, as those costs shall be identified within the line that supports SOW 6.14 - System Hardware/Cloud Services/Software, within Tab D-5, SDMO Fixed Price Costs.

Bidders are responsible to accurately propose software for their solution, delineating between software to be represented on D-3, SDMO Software Costs (minus Service Center), and software that is Cloud Hosting related and thus should be represented on D-4, Cloud Hosting Data Center Services Costs (minus Service Center).

Bidders are permitted to insert additional rows into the bottom section of the worksheet to identify additionally proposed software. Bidders must ensure that the formulas at bottom of the table are updated to include any added rows.

Bidders must include all Software cost impacts associated with technology refresh (minus the Service Center) in this worksheet, entering those costs within the year they are planned (please review SOW 6.6 Technology Refresh, for details).

Bidders shall NOT include staffing costs (labor hours) associated with the below listed Tech Refresh activities in this worksheet, as they are to be costed within Appendix D-5 - SDMO Fixed Price series of cost worksheets:

-Technology Refresh planning, management, assessment, reporting, tracking, deliverable development, workplan development/maintenance, artifact development/maintenance (e.g., Tech Refresh Roadmap).

-Implementation of State approved technology refresh recommendations.

The costs identified within this worksheet Appendix D-3, SDMO Software Costs (minus Service Center), will be linked to Appendix D-1, TOTAL COST SUMMARY, and will be part of the bid amount.

Column 1, Line # = No entry needed unless rows are added at the bottom for additional software.

Columns 2 through 6 = No entry needed. These columns are used to identify the different software components for the CalHEERS solution.

Column 7, Notes = Bidders can enter notes, if necessary but are not permitted to include any information that alters/impacts the cost of the proposed software item.

Column 8, Host Location = Bidders must enter the host location as either Contract Site or specify a site name.

Column 9, Proposed Software = Bidders must enter the proposed software that is either the same or comparable to the listed item, completing the same function and meeting or exceeding the specifications of the existing software.

Columns 10, 13, 16, 19, 22 Unit Cost = The Bidder must enter the unit cost for each software item proposed, inclusive of all related costs. For Year 1, Bidders are to enter software costs which take into consideration and align with the Bidder’s Transition-In Plan.

Columns 11, 14, 17, 20, 23 Quantity = Bidders must provide the quantity of licenses needed for each software item by contract year.

Columns 12, 15, 18, 21, 24 Total Cost Year X = No entry needed, formula-driven.

Column 25, Total Item Cost = No entry needed. The State has provided formulas that calculate the cost of each software item over the term of the contract.

Appendix D-3.1: Service Center Software Costs, which starts at Excel row 254 is used to identify all of the bidder's software costs associated with the Service Center.

Line 27 - Provides the State projected Service Center software budget value estimated for proposal evaluation purposes only. The actual budget value varies depending on the CalHEERS business needs.

Any Deliverables, Artifacts, or Standard Operating Procedures related to the topic of SDMO Software, including any offcycle updates, are to be costed under SDMO Fixed Price Onshore or Offshore Costs, except for those Deliverables identified within the Transition-In and Transition-Out Milestones.

For Software function/specifications and to determine the software needed for your proposed solution, please see the CalHEERS Hardware and Software Inventory within the Bidders' Library.

<Vendor Name>
APPENDIX D-4, INSTRUCTIONS - CLOUD HOSTING DATA CENTER SERVICES COSTS (minus Service Center)

Appendix D-4, Cloud Hosting Data Center Services Costs (minus Service Center), is used to identify all of the bidder's hosting data center costs associated with CalHEERS operation in the cloud, except hosting data center costs associated with the Service Center.

Any Deliverables, Artifacts, or Standard Operating Procedures related to the topic of Cloud Hosting Data Center Services, including any offcycle updates, are to be costed under SDMO Fixed Price Onshore or Offshore Costs, except for those Deliverables identified within the Transition-In and Transition-Out Milestones.

For details on the existing CalHEERS cloud hosting data center services, [please see State provided Ref Documents \(e.g. S1018\) in the Bidders' Library for the additional data supporting Cloud Hosting](#), as well as, the D-6.18-1 - Hosting Services Plan, and the D-6.2-6 - Capacity Management Plan, within the Bidders' Library.

While the current CalHEERS Cloud Hosting Data Center Services are provided through AWS, bidders are permitted to propose alternative or replacement hosting services, as long as such services meet or exceed the specifications of the existing services.

Bidders are only permitted to populate this tab with the True Cost, as defined in Appendix C - Glossary, of the Cloud Hosting Services they propose as part of their solution.

- Bidders are not permitted to apply any mark-up on top of the actual cost of the cloud hosting service items identified in this tab.
- Bidders are not permitted to add any labor costs related to the cloud hosting service items identified in this tab, with exception to the one-time infrastructure costs related to a migration. Bidder Labor costs shall be identified within the line that supports SOW 6.17 - Hosting Services, within Tab D-5, SDMO Fixed Price Costs.

Bidders must include all cloud hosting data center services costs impacts associated with technology refresh in this worksheet, entering those costs within the year they are planned (columns 24 through 38), please review SOW 6.6 Technology Refresh, for details.

Bidders shall NOT include staffing costs (labor hours) associated with the below listed Tech Refresh activities in this worksheet, as they are to be costed within Appendix D-5 - SDMO Fixed Price series of cost worksheets:

- Technology Refresh planning, management, assessment, reporting, tracking, deliverable development, workplan development/maintenance, artifact development/maintenance (e.g., Tech Refresh Roadmap).
- Implementation of State approved technology refresh recommendations.

Bidders are responsible to accurately propose software for their solution, delineating between software to be represented on D-3, SDMO Software Costs (minus Service Center)/D-3.1, Service Center Software Costs, and software that is Cloud Hosting related and thus should be represented on D-4, Cloud Hosting Data Center Services Costs (minus Service Center)/D-4.1, Service Center Cloud Hosting Data Center Services Costs.

Bidders are permitted to insert additional rows into the bottom section of the worksheet to identify additionally proposed services. Bidders must ensure that the formulas at bottom of the worksheet are updated to include any added rows.

The costs identified within this worksheet (Appendix D-4, Cloud Hosting Data Center Services Costs) will be linked to Appendix D-1, TOTAL COST SUMMARY, and will be part of the bid amount.

Column 1, Line # = No entry needed unless rows are added at the bottom for additional cloud hosting data center services.

Columns 2 through 18 = Bidders must provide all the details related to the product, services, or resources proposed under cloud hosting data center services for the CalHEERS solution, inclusive of all related costs, including initial installation, including migration if proposed as part of the solution, and associated with recurring costs for Contract Year 1 through 5.

Column 19 through 22 = One-time Infrastructure Costs, Bidders must enter the details pertaining to the one-time costs for installation of their proposed cloud hosting data center services, including migration if applicable. Bidders need to ensure that there is no overlap between One-time installation Costs and the recurring costs of Contract Year 1.

Column 23 = Total One-time Infrastructure Costs, No entry needed unless rows are added at the bottom for additional cloud hosting data center services. The State has provided formulas that calculate the One-time Installation Costs of each cloud hosting service, summing to a subtotal at the bottom of the column.

Columns 24 through 38 = Contract Year X Recurring Costs = The Bidder must enter the details, unit cost and quantity for each product, services, or resources proposed, inclusive of all related costs within the Contract Year. For Year 1, Bidders are to enter cloud hosting data center services costs which take into consideration and align with the Bidder's Transition-In Plan.

Column 39 = Total Recurring Costs, No entry needed unless rows are added at the bottom for additional cloud hosting data center services. The State has provided formulas that calculate the Total Recurring Costs of each cloud hosting data center service, summing to a subtotal at the bottom of the column.

Column 40, Total Cloud Hosting Data Center Services Cost (Minus Service Center) = No entry needed unless rows are added at the bottom for additional cloud hosting data center services. The State has provided formulas that calculate the total cost of each product, services, or resources proposed for Contract Year 1 through 5.

Bidders are permitted to insert additional rows into the bottom section of the worksheet to identify additionally proposed products, services, or resources. Bidders must ensure that the formulas at bottom of the worksheet are updated to include any added rows.

Appendix D-4.1 (Located on Tab D-4, starting at Row 68), Service Center Cloud Hosting Data Center Services Costs, is used to identify all of the bidder's cloud hosting data center services costs associated with the CalHEERS Service Center.

All Instructions for Appendix D-4 (above) apply to Service Center Cloud Hosting Data Center Services Costs, however Appendix D-4.1 is limited to covering only the proposed cloud hosting data center services and costs associated with the CalHEERS Service Center.

APPENDIX D-5, INSTRUCTIONS - SDMO FIXED PRICE ONSHORE COSTS

Appendix D-5, SDMO FIXED PRICE ONSHORE COSTS, is used to identify the bidder’s costs for providing the ongoing services required to maintain and operate CalHEERS.

All Key Staff (and applicable support staff), except for the Transition Manager, are to be costed under the D-5, Fixed Price Onshore/Offshore series of worksheets. The Transition Manager (and applicable Non-Key Staff) should be costed under Appendix D-8, Transition-In Costs, and Appendix D-8.2, Transition-Out Costs.

All Deliverables, Artifacts, or Standard Operating Procedures, including any off cycle updates, are to be costed under SDMO Fixed Price Onshore or Offshore Costs, except for Deliverables developed in association with individual Releases and Change Requests or identified within the Transition-In and Transition-Out Milestones.

Column 1, Line # = No entry needed.

Column 2, SDMO Activity = No entry needed. The State has provided the name of the SDMO activity from Appendix A-4, Statement of Work.

Column 3, SOW Reference = No entry needed. The State has provided the section reference in Appendix A-4, Statement of Work.

Column 4, Estimated Annual Hours Year 1 =No entry needed. The State has provided formulas transfer the bidder identified effort from D-5.1 into this sheet.

Columns 9, 14, 19, 24, 29, 34, 39, 44, 49 Estimated Annual Hours Year X = The bidder must provide the estimated annual hours for each service from the Appendix A-4, Statement of Work. The bidder is expected to meet all the Contract requirements within these hours.

Columns 5, Onshore Blended Rate Year 1 = No entry needed. The State has provided a formulas to transfer the blended onshore rate for SDMO Fixed Price Onshore Costs from D-5.1, and auto-populate the rate down the column.

Columns 10, 15, 20, 25, 30, 35, 40, 45, 50 Onshore Blended Rate Year X = The bidder must enter a blended rate for SDMO Fixed Price Onshore Costs. The blended rate will be the multiplied by the annual hours to determine an annual staffing cost for each activity. The State has provided a formula to auto-populate the rate down each column.

Columns 6, 11, 16, 21, 26, 31, 36, 41, 46, 51 Total Staffing Cost Year X = No entry needed. The Total Annual Cost will be calculated for each activity by multiplying the bidder Estimated Annual Hours by the bidder identified Blended Rate.

Column 7, 12, 17, 22, 27, 32, 37, 42, 47, 52 Other Costs Year X = Onshore costs included in these columns are specific to other non-staffing components of cost associated with the activity, including subcontracts, bid as part of the SDMO Fixed Price. Any costs identified as Other require the bidder to provide supplemental cost details, including a basis of estimation, the number of units, and per unit rate. **Note: labor efforts supporting Hardware, Software, and Cloud Hosting Services (exluding effort for cloud one-time infrastructure implementation) shall be included in this worksheet, as all other aspects of those cost categories should be identified in their respective worksheets: Appendix D-2, SDMO Hardware Costs, or Appendix D-3, SDMO Software Costs, or Appendix D-4, Cloud Hosting Data Center Services Costs.**

Columns 8, 13, 18, 23, 28, 33, 38, 43, 48, 53 Total Annual Cost Year X = No entry needed. The Total Annual Cost will be calculated for each activity, by year, by adding the Total Staffing Cost and Other Cost.

Column 54, Total Onshore Activity Cost = No entry needed. The Total Activity Cost is the sum of Total Annual Costs for the SDMO activity for Years 1 through 10.

Line 11 - While estimating the effort for Quality Management activities, bidder's should pay close attention to SOW Section 3.10.7.2, Implementation of Improvement Recommendations, Req. #s 3.10.7-10 through 3.10.7-16.

Line 14, CalHEERS Project Processes = The bidder must enter their associated costs in this line.

Line 15, CalHEERS Project Training = The bidder must enter their associated costs in this line.

Lines 20-23, 27 - No entry required. These costs are solicited via the Appendix D-7, Onshore System Changes Costs worksheet.

Line 56, Technology Refresh = Bidders shall only include onshore staffing costs (labor hours) associated with the Tech Refresh activities listed below in this worksheet, entering those efforts within the year they are planned (please review SOW 6.6 Technology Refresh, for details):

- Technology Refresh planning, management, assessment, reporting, tracking, deliverable development, workplan development/maintenance, artifact development/maintenance (e.g., Tech Refresh Roadmap).
- Implementation of State approved technology refresh recommendations.

Bidders shall NOT include Hardware, Software, Cloud Hosting Data Center Services costs associated with Technology Refresh in this tab, as they are managed in other tabs within this workbook.

Line 68, Project Support Services = No entry needed. The State has provided formulas that will pull the necessary data from Appendix D-5.2, SDMO Fixed Price Onshore - PSS Worksheet.

Line 71, Total SDMO Fixed Price Onshore Cost - No entry required. The State has provided a formula to SUM all Total Onshore Activity Costs.

Line 72, Cost Percentage of Prior Year = The State expects the Contractor to implement process efficiencies and reduce the Total Annual Cost by at least five percent (5%) per year, starting between Contract Year 2 and Contract Year 3. Any bidder that does not comply with this requirement may be deemed non-responsive.

APPENDIX D-5.1, INSTRUCTIONS - SDMO FIXED PRICE ONSHORE COSTS (YEAR 1)

Appendix D-5.1, SDMO FIXED PRICE ONSHORE (YEAR 1), is used to identify the bidder's onshore costs for providing the services required to maintain and operate the CalHEERS within Year 1.	
All Key Staff (and applicable support staff), except for the Transition Manager, and all Deliverables (except those identified by the State as Transition-In or Transition-Out Milestones) are to be costed under the D-5, Fixed Price Onshore/Offshore series of worksheets. The Transition Manager (and applicable Non-Key Staff) and the Transition-In and Transition-Out Milestone related Deliverables are to be costed under Appendix D-8, Transition-In Costs, and Appendix D-8.3, Transition-Out Payment.	
All Deliverables, Artifacts, or Standard Operating Procedures, including any off cycle updates, are to be costed under SDMO Fixed Price Onshore or Offshore Costs, except for Deliverables developed in association with individual Releases and Change Requests or identified within the Transition-In and Transition-Out Milestones.	
Column 1, Line # = No entry needed.	
Column 2, SDMO Activity (Onshore) = No entry needed. The State has provided the name of the SDMO activity from the Appendix A-4, Statement of Work.	
Column 3, SOW Reference = No entry needed. The State has provided the section reference associated with the Appendix A-4, Statement of Work.	
Column 4, Line #2, Bidder Onshore Blended Rate Year 1 = The bidder must enter a blended rate for SDMO Fixed Price Onshore Costs (Year 1). The blended rate will be auto-populated for each SDMO activity and will be multiplied by the bidder identified Estimated Hours Month X to determine the monthly and annual staffing cost for each activity within (Year 1).	
Column 5, 8, 11, 14, 17, 20, 23,10 26, 29, 32, 35, 38, Estimated Hours Month X = Bidders are to enter the estimated onshore effort (in total hours) related to each SDMO Activity in each month of Year 1. Please note the following:	
1) The bidder takes full responsibility for all aspects of the SDMO Activity within the first month where the bidder identifies effort in D-5.1.	
2) The effort entered within D-5.1 must align with the bidder's plan for Transition-In.	
3) The bidder is expected to meet all the Contract requirements within the hours identified. Any additional hours needed to perform these activities must be provided to the State at no cost.	
4) The total effort/cost within Year 1, cannot be greater than the highest yearly effort/cost within Years 2-10.	
Columns 7, 10, 13, 16, 19, 22, 25, 28, 31, 34, 37, 40, Total Cost Month X = No entry needed. The State has provided a formula to multiply the Bidder Onshore Blended Rate Year 1 by the bidder estimated hours for each Year 1 month, then adds any bidder identified costs in the Other Costs Month X column, resulting in the total cost for each month within Year 1.	
Column 41, Total Onshore Cost Year 1 = No entry needed, The State has provided formulas to collect the monthly cost totals by activity.	
Line 14, CalHEERS Project Processes = The bidder must enter their associated costs in this line.	
Line 15, CalHEERS Project Training = The bidder must enter their associated costs in this line.	
Lines 21-24, 27 and 28 = No entry required. These costs are solicited via other worksheets of the Appendix D, Cost Workbook.	
Line 68, Project Support Services = No entry needed. The State has provided formulas that will pull the data from D-5.3.	
Line 71 - No entry needed. The State has provided SUM formulas to provide both monthly effort and cost subtotals, as well as, the Total SDMO Fixed Price Onshore Cost Year 1.

D-5.2 Project Support Services - Detailed Cost Breakdown Instructions

The Purpose of the Project Support Services Tabs (D-5.2 & D-5.3) is to provide the State with a detailed cost breakdown of the bidder’s Onshore Project Support Services costs for CalHEERS.

Tab "(D-5.2) SDMO F.P. Onshore-PSS" Cost Breakdown Instructions:

This tab correlates with **Appendix D-5.2 SDMO Fixed Price Onshore 1ab**

Column 2, SOW Subsection = Identifies the subsections within SOW Section 6.18

Column 3, SOW Section 6.18 - Project Support Services (Onshore) = Provides a breakout of certain Project Support Services activities for which the State requires additional cost details.

Column 4, Estimated Annual Hours Year 1 = No entry needed. The State has provided formulas to transfer the bidder identified effort from tab (D-4.1) SDMO F.P. Ons(Yr 1)-PSS into this sheet.

Columns 9, 14, 19, 24, 29, 34, 39, 44, 49 Estimated Annual Hours Year X = The bidder is required to provide the estimated annual hours for the Project Support Services activities from the SOW Section 6.19. The bidder is expected to meet all the Contract requirements within these hours.

Columns 5, Onshore PSS Rates Year 1 = No entry needed. The State has provided formulas to transfer this data from tab (D-4.1) SDMO F.P. Ons(Yr 1) into tab (D-4) SDMO F.P. Onshore-PSS.

Columns 10, 15, 20, 25, 30, 35, 40, 45, 50 Onshore PSS Rates Year X = Bidders are required to provide a yearly Offshore Hourly Rate for each Offshore Project Support Services activity.

Columns 6, 11, 16, 21, 26, 31, 36, 41, 46, 51 Total Staffing Cost Year X = No entry needed. The Total Annual Cost will be calculated for each activity by multiplying the Estimated Annual Hours by the bidder identified Blended Rate.

Column 7, Other Costs Year 1 = No entry needed. The State has provided a formula to transfer the bidder identified other costs from the (D-4.1) SDMO F.P. Ons(Yr 1)-PSS tab.

Column 12, 17, 22, 27, 32, 37, 42, 47, 52 Other Costs Year X = The bidder is required to provide the Other Costs for contract years 2-10. Onshore costs included in these columns are specific to other non-staffing components of cost associated with the activity, including subcontracts, bid as part of the SDMO Fixed Price. Any costs identified as Other require bidders to provide supplemental cost details to include a basis of estimation, the number of units, and per unit rate. Note that all Hardware and all Software used by the Prime Vendor should not be included in this worksheet, but in Appendix D-2, SDMO Hardware Costs or Appendix D-3, SDMO Software costs.

Columns 8, 13, 18, 23, 28, 33, 38, 43, 48, 53 Total Annual Cost Year X = No entry needed. The Total Annual Cost will be calculated for each activity, by year, by adding the Total Staffing Cost and Other Cost.

Column 54, Total PSS Onshore Activity Cost = No entry needed. The Total Project Support Services activity Cost is the sum of Total Annual Costs for the PSS activity for Years 1 through 10.

Total Project Support Services (Onshore) Cost - No entry required. The State has provided a formula to SUM all Total Onshore PSS Activity Costs.

The State has provided formulas to transfer the Total Staffing Cost, Other Cost, and Total Annual Cost data (by Year) from tab (D-5.2) SDMO F.P. Onshore-PSS, into the line #68 of the associated year within tab (D-5) SDMO Fixed Price Onshore.

Tab "(D-5.3) SDMO F.P. Ons(Yr 1)-PSS" Cost Breakdown Instructions:

This tab correlates with tab **Appendix D-5.1 SDMO F.P. Onshore(Yr 1)**

All Key Staff (and applicable support staff), except for the Transition Manager, and all Deliverables (except those identified by the State as Transition-In or Transition-Out Milestones) are to be costed under the D-5, Fixed Price Onshore/Offshore series of worksheets. The Transition Manager (and applicable Non-Key Staff) and the Transition-In and Transition-Out Milestone related Deliverables are to be costed under Appendix D-8.1, Transition-In Costs, and Appendix D-8.3, Transition-Out Costs.

Column 2, SOW Subsection = Identifies the subsections within SOW Section 6.19 (provided to the bidder).

Column 3, SOW Section 6.18- Project Support Services (Onshore - Year 1) = Provides a breakout of certain Project Support Services activities the State requires additional cost details for.

Column 4, Bidder Onshore PSS Rates (Year 1) [highlighted Blue] = Bidders are required to provide an onshore hourly rate for each Project Support Services activity. The rate provided for each activity will be multiplied by the bidder identified Estimated Hours Month X, from the associated activity, to determine the monthly and annual staffing cost for each Project Support Services activities within (Year 1).

Column 5, 8, 11, 14, 17, 20, 23, 26, 29, 32, 35, 38, Estimated Hours Month X = Bidders are to enter the estimated onshore effort (in total hours) related to each Project Support Services activity in each month of Year 1. Please note the following:

- 1) The bidder takes full responsibility for all aspects of the Project Support Services activity within the first month where the bidder identifies effort in (D-5.1).
- 2) The effort entered within (D-5.3) must align with the bidder's plan for Transition-In.
- 3) The bidder is expected to meet all the Contract requirements within the hours identified. Any additional hours needed to perform these activities must be provided to the State at no cost.

Column 6, 9, 12, 15, 18, 21, 24, 27, 30, 33, 36, 39, Other Costs Year 1/Month X = The bidder is required to provide the Other Costs for Year 1/Month X. Onshore costs included in these columns are specific to other non-staffing components of cost associated with the activity, including subcontracts, bid as part of the SDMO Fixed Price. Any costs identified as Other require bidders to provide supplemental cost details to include a basis of estimation, the number of units, and per unit rate. Note that all Hardware and all Software used by the Prime Vendor should not be included in this worksheet, but in Appendix D-2, SDMO Hardware Costs or Appendix D-3, SDMO Software Costs.

Columns 7, 10, 13, 16, 19, 22, 25, 28, 31, 34, 37, 40, Total Cost Month X = No entry needed. The State has provided a formula to multiply the Bidder Onshore PSS Rates Year 1 by the bidder estimated hours for each Project Support Service activity, for Year 1/Month X, then adds any bidder identified costs in the Other Costs Month X column, resulting in the total cost for each Project Support Service activity within Year 1/Month X.

Column 41, Total Onshore Cost Year 1 = No entry needed, The State has provided formulas to collect the monthly cost totals by Project Support Service activity.

Line 43, Total Project Support Services (Onshore - Year 1) Cost - No entry needed. The State has provided SUM formulas to provide both monthly effort and cost subtotals.

The State has provided formulas to transfer the Total Cost data (by Month) from tab (D-5.3) SDMO F.P. Ons-PSS(Yr 1), into line #68 of the associated month within tab (D-5.1) SDMO F.P. Onshore(Yr 1).

APPENDIX D-5.4, INSTRUCTIONS - SDMO FIXED PRICE OFFSHORE COSTS

Appendix D-5.4, SDMO FIXED PRICE OFFSHORE COSTS, is used to identify the bidder's offshore costs for providing the services required to maintain and operate the CalHEERS.

All Key Staff (and applicable support staff), except for the Transition Manager, are to be costed under the D-5, Fixed Price Onshore/Offshore series of worksheets. The Transition Manager (and applicable Non-Key Staff) should be costed under Appendix D-8, Transition-In Costs, and Appendix D-8.2, Transition-Out Costs.

All Deliverables, Artifacts, or Standard Operating Procedures, including any off cycle updates, are to be costed under SDMO Fixed Price Onshore or Offshore Costs, except for Deliverables developed in association with individual Releases and Change Requests or identified within the Transition-In and Transition-Out Milestones.

Column 1, Line # = No entry needed.

Column 2, SDMO Activity = No entry needed. The State has provided the name of the SDMO activity from Appendix A-4, Statement of Work.

Column 3, SOW Reference = No entry needed. The State has provided the section reference in Appendix A-4, Statement of Work.

Column 4, Estimated Annual Hours Year 1 = No entry needed. The State has provided formulas to transfer the bidder identified effort from D-5.5 into this sheet.

Columns 9, 14, 19, 24, 29, 34, 39, 44, 49 Estimated Annual Hours Year X = The bidder must provide the estimated annual hours for each service from the CalHEERS Statement of Work. The bidder is expected to meet all the Contract requirements within these hours.

Column 5, Offshore Blended Rate Year 1 = No entry needed. The State has provided a formulas to transfer the blended offshore rate for SDMO Fixed Price Offshore Costs from D-5.5 and auto-populate the rate down the column.

Columns 10, 15, 20, 25, 30, 35, 40, 45, 50 Offshore Blended Rate Year X = The bidder must enter a blended rate for SDMO Fixed Price Offshore Costs. The blended rate will be the multiplied by the annual hours to determine an annual staffing cost for each activity. The state has provided a formula to auto-populate the rate down each column.

Columns 6, 11, 16, 21, 26, 31, 36, 41, 46, 51 Total Staffing Cost Year X = No entry needed. The Total Annual Cost will be calculated for each activity by multiplying the bidder Estimated Annual Hours by the bidder identified Blended Rate.

Columns 7, 12, 17, 22, 27, 32, 37, 42, 47, 52 Other Costs Year X = Offshore costs included in these columns are specific to other non-staffing components of cost associated with the activity, including subcontracts, bid as part of the SDMO Fixed Price. Any costs identified as Other require bidders to provide supplemental cost details to include a basis of estimation, the number of units, and per unit rate. Note that all Hardware, Software, and Cloud Hosting Services used by the Prime Vendor should not be included in this worksheet, but in Appendix D-2, SDMO Hardware Costs or Appendix D-3, SDMO Software Costs, or Appendix D-4, Cloud Hosting Costs.

Columns 8, 13, 18, 23, 28, 33, 38, 43, 48, 53 Total Annual Cost Year X = No entry needed. The Total Annual Cost for each activity by year will be calculated for each service by adding the Total Staffing Cost and Other Cost together. These costs are linked to Appendix D-1, TOTAL COST SUMMARY and will be part of the bid amount.

Column 54, Total Offshore Activity Cost = No entry needed. The Total Activity Cost is the sum of Total Annual Costs for the SDMO activity for Years 1 through 10.

Lines 6, 7, 10, 11, 15, 20-23, and 27-28 = No entry required. These costs are solicited via other worksheets of the Appendix D, Cost Workbook.

Line 56, Technology Refresh = Bidders shall only include offshore staffing costs (labor hours) associated with the Tech Refresh activities listed below in this worksheet, entering those efforts within the year they are planned:

- Technology Refresh planning, management, assessment, reporting, tracking, deliverable development, workplan development/maintenance, artifact development/maintenance (e.g., Tech Refresh Roadmap).
- Implementation of State approved technology refresh recommendations.

Bidders shall NOT include Hardware, Software, Cloud Hosting Data Center Services costs associated with Technology Refresh in this tab, as they are managed in other tabs within this workbook.

Line 68, Project Support Services = No entry needed. The State has provided formulas that will pull the data from Appendix D-5.6, SDMO Fixed Price Offshore - PSS Worksheet..

Line 71, Total SDMO Fixed Price Offshore Cost - No entry required. The State has provided a formula to SUM all Total Offshore Activity Costs.

Line 72, Cost Percentage of Prior Year = The State expects the Contractor to implement process efficiencies and reduce the Total Annual Cost by at least two percent (2%) per year starting between Contract Year 2 and Contract Year 3. Any bidder that does not comply with this requirement may be deemed non-responsive.

APPENDIX D-5.5, INSTRUCTIONS - SDMO FIXED PRICE OFFSHORE (YEAR 1) COSTS

Appendix D-5.5, SDMO FIXED PRICE OFFSHORE (YEAR 1), is used to identify the bidder’s offshore costs for providing the services required to maintain and operate the CalHEERS within Year 1.

All Key Staff (and applicable support staff), except for the Transition Manager, and all Deliverables (except those identified by the State as Transition-In or Transition-Out Milestones) are to be costed under the D-5, Fixed Price Onshore/Offshore series of worksheets. The Transition Manager (and applicable Non-Key Staff) and the Transition-In and Transition-Out Milestone related Deliverables are to be costed under Appendix D-8 Transition-In Costs, and Appendix D-8.2, Transition-Out Costs.

All Deliverables, Artifacts, or Standard Operating Procedures, including any offcycle updates, are to be costed under SDMO Fixed Price Onshore or Offshore Costs, except for those Deliverables identified within the Transition-In and Transition-Out Milestones.

Column 1, Line # = No entry needed.

Column 2, SDMO Activity (Offshore) = No entry needed. The State has provided the name of the SDMO activity from the Appendix A-4, Statement of Work.

Column 3, SOW Reference = No entry needed. The State has provided the section reference associated with the Appendix A-4, Statement of Work.

Column 4, Line #2, Bidder Offshore Blended Rate Year 1 = The bidder must enter a blended rate for SDMO Fixed Price Offshore Costs (Year 1). The blended rate will be auto-populated for each SDMO activity and will be multiplied by the bidder identified Estimated Hours Month X to determine the monthly and annual staffing cost for each activity within (Year 1).

Column 5, 8, 11, 14, 17, 20, 23, 26, 29, 32, 35, 38, Estimated Hours Month X = Bidders are to enter the estimated offshore effort (in total hours) related to each SDMO Activity in each month of Year 1. Please note the following:

- 1) The bidder takes full responsibility for all aspects of the SDMO Activity within the first month where the bidder identifies effort in D-5.5.
- 2) The effort entered within D-5.5 must align with the bidder's plan for Transition-In.
- 3) The bidder is expected to meet all the Contract requirements within the hours identified. Any additional hours needed to perform these activities must be provided to the State at no cost.
- 4) The total effort/cost within Year 1, can not be greater than the highest yearly effort/cost within Years 2-10.

Columns 7, 10, 13, 16, 19, 22, 25, 28, 31, 34, 37, 40, Total Cost Month X = No entry needed. The State has provided a formula to multiply the Bidder Offshore Blended Rate Year 1 by the bidder estimated hours for each Year 1 month, then adds any bidder identified costs in the Other Costs Month X column, resulting in the total cost for each month within Year 1.

Column 41, Total Offshore Cost Year 1 = No entry needed, The State has provided a SUM formula to collect the monthly cost totals.

Lines 6, 7, 10, 11, 15, 20-23, and 27-28 = No entry required. These costs are solicited via other worksheets of the Appendix D, Cost Workbook.

Line 68, Project Support Services = No entry needed. The State has provided formulas that will pull the data from D-5.7.

Line 71 - No entry needed. The State has provided SUM formulas to provide both monthly effort and cost subtotals, as well as, the Total SDMO Fixed Price Offshore Cost Year 1.

D-5.6 Project Support Services - Detailed Cost Breakdown Instructions

The Purpose of the Project Support Services Tabs (D-5.6 & D-5.7) is to provide the State with a detailed cost breakdown of the bidder's Offshore Project Support Services costs for CalHEERS.

Tab "(D-5.6) SDMO F.P. Offshore-PSS" Cost Breakdown Instructions:

This tab correlates with **Appendix D-5.4 SDMO Fixed Price Offshore**

Column 2, SOW Subsection = Identifies the subsections within SOW Section 6.18 (provided to the bidder).

Column 3, SOW Section 6.18 - Project Support Services (Offshore) = Provides a breakout of certain Project Support Services activities the State requires additional cost details for.

Column 4, Estimated Annual Hours Year 1 = No entry needed. The State has provided formulas to transfer the bidder identified effort from tab (D-5.7) SDMO F.P. Off-PSS(Yr 1) into this sheet.

Columns 9, 14, 19, 24, 29, 34, 39, 44, 49 Estimated Annual Hours Year X = The bidder is required to provide the estimated annual hours for the Offshore Project Support Services activities from the SOW Section 6.18. The bidder is expected to meet all the Contract requirements within these hours.

Columns 5, Offshore PSS Rates Year 1 = No entry needed. The State has provided formulas to transfer this data from tab (D-5.7) SDMO F.P. Off-PSS(Yr 1) into tab (D-5.6) SDMO F.P. Offshore-PSS.

Columns 10, 15, 20, 25, 30, 35, 40, 45, 50 Offshore PSS Rates Year X = Bidders are required to provide a yearly Offshore Hourly Rate for each Offshore Project Support Services activity.

Columns 6, 11, 16, 21, 26, 31, 36, 41, 46, 51 Total Staffing Cost Year X = No entry needed. The Total Annual Cost will be calculated for each within each year, the bidder provided Offshore Hourly Rate will be multiplied by the bidder identified Estimated Annual Hours Year X, to determine the annual Total Staffing Cost for each activity.

Column 7, Other Costs Year 1 = No entry needed. The State has provided a formula to transfer the bidder identified other costs from the (D-5.7) SDMO F.P. Off-PSS(Yr 1) tab.

Column 12, 17, 22, 27, 32, 37, 42, 47, 52 Other Costs Year X = The bidder is required to provide the Other Costs for contract years 2-8. Offshore costs included in these columns are specific to other non-staffing components of cost associated with the activity, including subcontracts, bid as part of the SDMO Fixed Price. Any costs identified as Other require bidders to provide supplemental cost details to include a basis of estimation, the number of units, and per unit rate. Note that all Hardware and all Software used by the Prime Vendor should not be included in this worksheet, but in Appendix D-2, SDMO Hardware Costs or Appendix D-3, SDMO Software costs.

Columns 8, 13, 18, 23, 28, 33, 38, 43, 48, 53 Total Annual Cost Year X = No entry needed. The Total Annual Cost will be calculated for each activity, by year, by adding the Total Staffing Cost and Other Cost.

Column 54, Total PSS Offshore Activity Cost = No entry needed. The Total Project Support Services activity Cost is the sum of Total Annual Costs for the PSS activity for Years 1 through 10.

Total Project Support Services (Offshore) Cost - No entry required. The State has provided a formula to SUM all Total Offshore PSS Activity Costs.

The State has provided formulas to transfer the Total Staffing Cost, Other Cost, and Total Annual Cost data (by Year) from tab (D-5.6) SDMO F.P. Offshore-PSS, into line #68 of the associated year within tab (D-5.4) SDMO Fixed Price Offshore.

Tab "(D-5.7) SDMO F.P. Off-PSS(Year 1)" Cost Breakdown Instructions:

This tab correlates with **Appendix D-5.5 SDMO F.P. Offshore(Yr 1)**

All Key Staff (and applicable support staff), except for the Transition Manager, and all Deliverables (except those identified by the State as Transition-In or Transition-Out Milestones) are to be costed under the D-5, Fixed Price Onshore/Offshore series of worksheets. The Transition Manager (and applicable Non-Key Staff) and the Transition-In and Transition-Out Milestone related Deliverables are to be costed under Appendix D-8, Transition-In Costs, and Appendix D-8.2, Transition-Out Costs.

Column 2, SOW Subsection = Identifies the subsections within SOW Section 6.18 (provided to the bidder).

Column 3, SOW Section 6.18 - Project Support Services (Onshore - Year 1) = Provides a breakout of certain Project Support Services activities the State requires additional cost details for.

Column 4, Bidder Offshore PSS Rates (Year 1) [highlighted Blue] = Bidders are required to provide an onshore hourly rate for each Project Support Services activity. The rate provided for each activity will be multiplied by the bidder identified Estimated Hours Month X, from the associated activity, to determine the monthly and annual staffing cost for each Project Support Services activities within (Year 1).

Column 5, 8, 11, 14, 17, 20, 23, 26, 29, 32, 35, 38, Estimated Hours Month X = Bidders are to enter the estimated onshore effort (in total hours) related to each Project Support Services activity in each month of Year 1. Please note the following:

- 1) The bidder takes full responsibility for all aspects of the Project Support Services activity within the first month where the bidder identifies effort in (D-5.5).
- 2) The effort entered within (D-5.7) must align with the bidder's plan for Transition-In.
- 3) The bidder is expected to meet all the Contract requirements within the hours identified. Any additional hours needed to perform these activities must be provided to the State at no cost.

Column 6, 9, 12, 15, 18, 21, 24, 27, 30, 33, 36, 39, Other Costs Year 1/Month X = The bidder is required to provide the Other Costs for Year 1/Month X. Onshore costs included in these columns are specific to other non-staffing components of cost associated with the activity, including subcontracts, bid as part of the SDMO Fixed Price. Any costs identified as Other require bidders to provide supplemental cost details to include a basis of estimation, the number of units, and per unit rate. Note that all Hardware and all Software used by the Prime Vendor should not be included in this worksheet, but in Appendix D-2, SDMO Hardware Costs or Appendix D-3, SDMO Software Costs.

Columns 7, 10, 13, 16, 19, 22, 25, 28, 31, 34, 37, 40, Total Cost Month X = No entry needed. The State has provided a formula to multiply the Bidder Offshore PSS Rates Year 1 by the bidder estimated hours for each Project Support Service activity, for Year 1/Month X, then adds any bidder identified costs in the Other Costs Month X column, resulting in the total cost for each Project Support Service activity within Year 1/Month X.

Column 41, Total Offshore Cost Year 1 = No entry needed, The State has provided formulas to collect the monthly cost totals by Project Support Service activity.

Total Project Support Services (Offshore - Year 1) Cost - No entry needed. The State has provided SUM formulas to provide both monthly effort and cost subtotals.

The State has provided formulas to transfer the Total Cost data (by Month) from tab (D-5.7) SDMO F.P. Off-PSS(Yr 1), into line #68 of the associated month within tab (D-5.5) SDMO F.P. Offshore(Yr 1).

APPENDIX D-6, TRANSACTION-BASED COSTS

Appendix D-6, Transaction-Based Costs, is used to identify the Bidder’s cost for processing CalHEERS transactional activities on a per transaction basis.

Column 2, Transaction Type = The State has provided the Transactional Types that occur on the current contract.

Column 3, Unit (Per) = The State has defined the units associated with each Transaction.

Column 4, Average # of Units (Monthly) = The State has provided the average number of Units that are processed on a monthly basis for associated transaction types. The numbers presented are based on historical processing levels.

Column 5, Average # of Units (Annually) = The State has provided the average number of Units that are processed on an annual basis for associated transaction types. The numbers presented are based on historical processing levels, and are typically a one-time annual effort.

Column 6, Cost Per Unit = The Bidder must provide the cost per unit for each transaction type.

Column 7, Monthly Cost = Formula-driven. The State has calculated the monthly cost for each transaction type, for use in calculating other columns in the tab.

Column 8, # of Processing Months in Year 1 = Bidders must identify the number of months, within contract Year 1, for which they plan on processing each transaction type taking into consideration their plan for Transition-In.

Column 9, Year 1 = Formula-driven. The formula in this column multiplies the figures in the "Monthly Cost" column by the figures in the "# of Processing Months in Year 1" column for each Transaction Type. The transaction-based costs for Year 1 are not evaluated or scored.

Column 10 through 18, Year 2 through 10 = Formula-driven. The formula in these columns multiplies the numbers in the "Monthly Cost" column by 12 (months in a year) for each Transaction Type.

Column 19, Total Cost = Formula-driven. The formulas in this column sums the transaction-based costs for each transaction type over the term of the contract, and sums at Line 35 providing the total transaction-based cost for the term of the Contract.

APPENDIX D-7, INSTRUCTIONS - ONSHORE SYSTEM CHANGES COSTS

DO NOT MAKE ANY CHANGES TO THIS WORKSHEET. IT IS FORMULA-DRIVEN AND PULLS COST DATA FROM THE OTHER WORKSHEETS IN THIS WORKBOOK.

The hours identified for Onshore System Changes is estimated for the proposal evaluation. The actual number of onshore hours per release and year varies depending on the CalHEERS business needs.

Key Staff are excluded from being costed in this worksheet, as they are costed under the D-5, Fixed Price Onshore/Offshore series and D-8/D-8.2, D-8.3, Transition In/Out series of worksheets. Key Staff are not permitted to bill for any work completed in the System Change work steam over the term of the contract.

All Deliverables, Artifacts, or Standard Operating Procedures, including any off cycle updates, developed in association with individual Releases and Change Requests are to be considered in the costs identified within this worksheet.

The Bidder shall warrant all work for the term the Contract and that work shall be incorporated within the elements of this worksheet. The State will not permit the bidder to identify warranty costs otherwise.

Warranty costs shall be incorporated into the staffing rate sheet for all enhancements.

The hours estimated for Year 1 and 10 are lower due to Transition In/Out.

The defined effort assumes that the Contractor will start the first development cycle based on the timeframes specified in SOW Section 7, TRANSITION REQUIREMENTS.

Column 2, System Change Staffing (Onshore) = The State has provided the onshore staffing structure for CalHEERS system changes.

Column 3, (Lines 1 - 33), Total Hours = The State has provided the estimated total onshore hours allotted for each staffing type.

Columns 4, 7, 10, 13, 16, 19, 22, 25, 28, 31 Hours Year # = The State has provided the estimated onshore hours for each staff role for each year.

Columns 5, 8, 11, 14, 17, 20, 23, 26, 29, 32 Labor Rates = The staffing rates will auto-populate, via formula, from Appendix D-7.1, ONSHORE SYSTEM CHANGES STAFFING RATES.

Columns 6, 9, 12, 15, 18, 21, 24, 27, 30, 33 Total Cost Year # = The total year system change costs are calculated by multiplying the estimated onshore system change hours by the associated onshore staffing labor rates. These costs will be linked to Appendix D-1, TOTAL COST SUMMARY, and will be part of the bid amount.

APPENDIX D-7.1, INSTRUCTIONS - ONSHORE SYSTEM CHANGES STAFFING RATES

Bidders must use this worksheet to identify the planned onshore costs associated with adhering to System Changes requirements as defined in the following SOW Section 4, SYSTEM CHANGE & ENHANCEMENTS REQUIREMENTS, subsections:

- SOW Section 4.1, SYSTEM/SOFTWARE DEVELOPMENT LIFECYCLE (SDLC)
- SOW Section 4.2, CHANGE MANAGEMENT AND CONFIGURATION MANAGEMENT (SYSTEM)
- SOW Section 4.3, CHANGE/REFRESH/UPGRADES
- SOW Section 4.4, CODE DEVELOPMENT
- SOW Section 4.8, TESTING

Work performed in association with the following SOW Section 4, SYSTEM CHANGE & ENHANCEMENTS REQUIREMENTS are not to be included when completing this worksheet.

These activities are already covered under the M&O FIXED PRICE worksheets:

- SOW Section 4.5, SYSTEM REQUIREMENTS MANAGEMENT
- SOW Section 4.6, RELEASE MANAGEMENT
- SOW Section 4.7, ORGANIZATION & BUSINESS CHANGE MANAGEMENT
- SOW Section 4.9, DEFECT MANAGEMENT

Column 2, Onshore Position = No entry needed. The State has provided the staffing positions anticipated for CalHEERS system changes.

Columns 3-12, Hourly Rates Year X = The bidder must provide onshore hourly labor rates for each position for Year 1 through Year 10. The State identifies that the Bidder provided rates are the maximum rates to be charged for the position. These rates will be linked to Appendix D-7, ONSHORE SYSTEM CHANGES COSTS, where formulas will caculate the Total System Change Costs (onshore) bid amount.

APPENDIX D-7.2, INSTRUCTIONS - OFFSHORE SYSTEM CHANGES COSTS

DO NOT MAKE ANY CHANGES TO THIS WORKSHEET. IT IS FORMULA-DRIVEN AND PULLS COST DATA FROM THE OTHER WORKSHEETS IN THIS WORKBOOK.

The hours identified for Offshore System Changes are estimated for the proposal evaluation. The actual number of hours per release and year varies depending on the CalHEERS business needs.

Defined effort assumes that the Contractor will start the first development cycle based on the timeframes specified in SOW Section 7, TRANSITION REQUIREMENTS.

The hours estimated for Year 1 and 10 are lower due to Transition In/Out.

Key Staff are excluded from being costed in this worksheet, as they are costed under the D-5, Fixed Price Onshore/Offshore series and D-8 & D-8.2, Transition In/Out series of worksheets. Key Staff are not permitted to bill for any work completed in the System Change work stream over the term of the contract.

All Deliverables, Artifacts, or Standard Operating Procedures, including any off cycle updates, developed in association with individual Releases and Change Requests are to be considered in the costs identified within this worksheet.

The Bidder shall warrant all work for the term the Contract and that work shall be incorporated within the elements of this worksheet. The State will not permit the bidder to identify warranty costs otherwise.

Warranty costs shall be incorporated into the staffing rate sheet for all enhancements.

These costs will be linked to Appendix D-1, TOTAL COST SUMMARY, and will be part of the bid amount.

Column 2, System Change Staffing (Offshore) = The State has provided the offshore staffing structure for CalHEERS system changes.

Column 3, (Lines 1-38) Total Hours = The State has provided the total offshore hours allotted for each staffing type.

Columns 4, 7, 10, 13, 16, 19, 22, 25, 28, 31 Hours Year # = The State has provided the estimated offshore hours for each staff role for each year.

Columns 5, 8, 11, 14, 17, 20, 23, 26, 29, 32 Labor Rates = The staffing rates will auto-populate, via formula, from Appendix D-7.3, OFFSHORE SYSTEM CHANGES STAFFING RATES.

Columns 6, 9, 12, 15, 18, 21, 24, 27, 30, 33 Total Cost Year # = The total year system change costs are calculated by multiplying the estimated offshore system change hours by the associated offshore staffing labor rates. These costs are linked to Appendix D-1, TOTAL COST SUMMARY, and will be part of the bid amount.

APPENDIX D-7.3, INSTRUCTIONS - OFFSHORE SYSTEM CHANGES STAFFING RATES

Bidders must use this worksheet to identify the planned offshore costs associated with adhering to System Changes requirements as defined in the following SOW Section 4, SYSTEM CHANGE & ENHANCEMENTS REQUIREMENTS, subsections:

- SOW Section 4.1, SYSTEM/SOFTWARE DEVELOPMENT LIFECYCLE (SDLC)
- SOW Section 4.2, CHANGE MANAGEMENT AND CONFIGURATION MANAGEMENT (SYSTEM)
- SOW Section 4.3, CHANGE/REFRESH/UPGRADES
- SOW Section 4.4, CODE DEVELOPMENT
- SOW Section 4.8, TESTING

Work performed in association with the following SOW Section 4, SYSTEM CHANGE & ENHANCEMENTS REQUIREMENTS are not to be included when completing this worksheet.

These activities are already covered under the M&O FIXED PRICE worksheets:

- SOW Section 4.5, SYSTEM REQUIREMENTS MANAGEMENT
- SOW Section 4.6, RELEASE MANAGEMENT
- SOW Section 4.7, ORGANIZATION & BUSINESS CHANGE MANAGEMENT
- SOW Section 4.9, DEFECT MANAGEMENT

Column 2, Offshore Position = No entry needed. The State has provided the staffing positions anticipated for CalHEERS system changes.

Columns 3-12, Bidder Staffing Labor Rates = The bidder must provide hourly labor rate for each position for Year 1 through Year 10. The State identifies that the Bidder provided rates are the maximum rates to be charged for the position. These rates will be linked to Appendix D-7.2, OFFSHORE SYSTEM CHANGES COSTS, where formulas will caculate the Total System Change Costs (offshore) bid amount.

APPENDIX D-8, INSTRUCTIONS - TRANSITION-IN (TIP1 & TIP2) COSTS

This worksheet is used to capture the bidder’s costs for Transition-In (TIP1) activities from the current Contract to the new Contract, as well as the Transformation (TIP2) activities which will begin in parallel and thereafter.

The State expects the Transition-In activities to be completed within the first twelve (12) months of Contract start. The State Expects the Transformation activities to be completed by the twenty-fourth (24) month of Contract start.

All Deliverables, Artifacts, or Standard Operating Procedures, including any offcycle updates, identified within the Transition-In or Transformation Milestones are to be considered in the costs defined within this worksheet.

Bidders should also include the Transition Manager costs, associated with the Transition-In activities, within this worksheet.

Column 2, Transition-In or Transformation Activities = No entry needed. The State has provided a list of Transition-In and Transformation activities from SOW Section 7.1, TRANSITION-IN PHASE 1 (TIP1) TAKEOVER, and SOW Section 7.2. TRANSITION-IN PHASE 2 (TIP2) TRANSFORMATION.

Column 3, SOW Ref = No entry needed. The State has provided a reference to each appropriate SOW section.

Columns 4-27, Month # = Bidders must provide all allowable Transition-In and Transformation costs. These costs will be linked to Appendix D-1, TOTAL COST SUMMARY, and will be part of the bid amount.

Column 28, Total Cost = No entry needed, formula-driven. Provides the subtotal costs for each activity, as well as, the Total Transition-In Costs (in Line 13) and Total Transformation Costs (in Line 24) These costs will be linked to Appendix D-1, TOTAL COST SUMMARY, and will be part of the bid amount.

Line 25, Performance Bond Costs = Bidders must enter the amount of the Performance Bond Costs. The Performance Bond costs will not be evaluated or awarded any points.

APPENDIX D-8.1, TRANSITION-IN (TIP1 &TIP2) PAYMENT MILESTONES

DO NOT MAKE ANY CHANGES TO THIS WORKSHEET. IT IS FORMULA-DRIVEN FROM THE OTHER WORKSHEETS IN THIS WORKBOOK.

The State expects the Takeover activities to be performed within the first twelve (12) months of the Contract.
The State expects the Transformation activities to be performed within the first twentyfour (24) months of the Contract.
Column 2, Transition-In Payment Milestones = The State has provided a list of Transition-In Milestones from SOW Section 7, TRANSITION REQUIREMENTS.
Column 4, Percentage of Transition In Costs = The State has provided the percentage of costs that will result in the contractor payments.
Column 5, Transition In Costs = These costs will be calculated based on the percentages in column 4.
Column 6, Holdback 10% = This column shows the amount of holdback for each payment.
Column 7, Contractor Milestone Payments = This column shows the amount that will be paid to the contractor for reaching each payment milestone.

D-8.1: Transition-In (TIP1 & TIP2) Payment Milestones						
1	2	3	4	5	6	7
Line #	Transition-In Payment Milestones	Payment Milestone Number	Percentage of Transition-In or Transformation Costs	Transition-In or Transformation Costs	Holdback 10%	Contractor Milestone Payments
1	Takeover Planning Activities	M1	15%	\$0.00	\$0.00	\$0.00
2	Takeover Execution (Part 1) Activities	M2	20%	\$0.00	\$0.00	\$0.00
3	Takeover Execution (Part 2) Activities	M3	20%	\$0.00	\$0.00	\$0.00
4	Takeover Verification Activities	M4	25%	\$0.00	\$0.00	\$0.00
5	Takeover Cutover, Initial Ops, and Final Review Activities	M5	20%	\$0.00	\$0.00	\$0.00
6	Transition-In Takeover Holdback Payment	M6			\$0.00	\$0.00
7	Transition-In Takeover Costs/Payments					\$0.00
8	Transformation Rqmt Package 1 (180 rqmts)	M7	10%	\$0.00	\$0.00	\$0.00
9	Transformation Rqmt Package 2 (180 rqmts)	M8	10%	\$0.00	\$0.00	\$0.00
10	Transformation Rqmt Package 3 (180 rqmts)	M9	20%	\$0.00	\$0.00	\$0.00
11	Transformation Rqmt Package 4 (180 rqmts)	M10	20%	\$0.00	\$0.00	\$0.00
12	Transformation Rqmt Package 5 (180 rqmts)	M11	20%	\$0.00	\$0.00	\$0.00
13	Transformation Rqmt Package 6 (Balance rqmts)	M12	20%	\$0.00	\$0.00	\$0.00
14	Transition-In Transformation Holdback Payment	M13			\$0.00	\$0.00
15	Transition-In Transformation Costs/Payments					\$0.00
16	Total Transition-In Takeover & Transformation Costs/Payments					\$0.00

APPENDIX D-8.2, INSTRUCTIONS - TRANSITION-OUT COSTS

This worksheet is used to capture the Bidder's costs for Transition-Out activities.
The State expects these activities to be completed within the final twelve (12) months of the Contract.
All Deliverables, Artifacts, or Standard Operating Procedures, including any offcycle updates, identified within the Transition-Out Milestones are to be considered in the costs defined within this worksheet.
Bidders should also include the Transition Manager costs associated with the Transition-Out activities within Appendix D-8.2.
Column 2, Transition-Out Activities = No entry needed. The State has provided a list of Transition-Out activities from the SOW Section 7.3, TRANSITION-OUT.
Column 3, SOW Ref = No entry needed. The State has provided a reference to each appropriate SOW section.
Columns 4 through 15, Month # = The bidder must provide all allowable Transition-Out costs in monthly increments.
Column 16, Total Cost = No entry needed, formula-driven. These costs are linked to Appendix D-1, TOTAL COST SUMMARY, and will be part of the bid amount.

D-8.2: Transition Out Costs

APPENDIX D-8.3, TRANSITION-OUT PAYMENT MILESTONES

DO NOT MAKE ANY CHANGES TO THIS WORKSHEET. IT IS FORMULA-DRIVEN FROM THE OTHER WORKSHEETS IN THIS WORKBOOK.

The State expects these activities to be performed within the final twelve (12) months of the Contract.

Column 2, Transition-Out Payment Milestones = No entry needed. The State has provided a list of Transition-Out milestones from the SOW Section 7.4, TRANSITION PAYMENTS.

Column 4, Percentage of Transition-Out Costs = The State has provided the percentage of costs that will result in the contractor payment.

Column 5, Transition-Out Costs = These costs will be calculated based on the percentages in column 4.

Column 6, Holdback 10% = No entry needed. This column shows the amount of holdback for each milestone payment, which sums in Milestone 18 on Line 5.

Column 7, Contractor Milestone Payments = This column shows the amount that will be paid to the contractor for reaching each payment milestone.

D-8.4: Transition-Out Payment						
1	2	3	4	5	6	7
Line #	Transition-Out Payment Milestones	Payment Milestone Number	Percentage of Transition-Out Costs	Transition-Out Costs	Holdback 10%	Contractor Milestone Payments
1	Transition-Out Planning Deliverables	M14	5%	\$0.00	\$0.00	\$0.00
2	Transition-Out Deliverables (refer to SOW Section 8.13)	M15	10%	\$0.00	\$0.00	\$0.00
3	Successful Cutover of Transition-Out Components	M16	50%	\$0.00	\$0.00	\$0.00
4	Completion of All Transition-Out Work Plan Activities	M17	35%	\$0.00	\$0.00	\$0.00
5	Holdback Payment	M18				\$0.00
6	Total Transition-Out Costs/Payments			\$0.00		\$0.00
