b. Factor 2 - Price: The Government will evaluate the total overall price for completeness and determine if it is fair and reasonable IAW FAR13.106-3(a). The Government expects competitive quotes to be submitted for this procurement and will use these competitive quotes to determine price reasonableness. The Government intends to evaluate quotes and award without discussions; therefore, quotes should be for offerors' best pricing. If competitive quotes are not received, the Government reserves the right to utilize other methods identified in the FAR to determine price reasonableness.

i. **Completeness:** Each offeror is required to provide complete pricing for each contract line identified. This section must be mathematically accurate and include all CLINs that the Offeror identifies in their quote.
