Questions & Answers for Frozen & Dry Goods **Bid # 2026-05-26:**

The following Questions and Answers are provided to clarify specifications and requirements for the above-referenced Request for Proposal. We appreciate the thoughtful questions submitted and the continued interest in doing business with our organization. All responses are considered an official part of the proposal documentation.

Question 1

Q: Does Fayette have weekly or yearly usage they can send?

A: We will provide a copy of our velocity report from our current distributor. A request has been made to our current distributor and once available we will include it with the other documents.

Question 2

Q: Fayette has a lot of MFFS beef items, are these spec'd or can they be purchased from other vendors that have beef commodity items, or are these supposed to be commercial items?

A: We are requesting the commercial equivalent of those commodity items.

Question 3

Q: Where does Fayette want us to put our product code numbers?

A: Thank you for the question. Please enter the product code number in **Column K (Manuf. Item# or Manufacturer Item Number)** of the bid specification sheet.

Question 4

Q: On the items that say or approved equal, does it matter who the vendor is or is it optional?

A: The manufacturer is not the determining factor; however, the proposed product must meet all stated specifications to be considered an **approved equal**. Please note, the items specified are the preferred brand. If you want to provide an alternate brand, please submit a manufacturer spec sheet with your bid for each substitution for evaluation. This will help us determine if the item is an “approved equal”.

Question 5

Q: On the bid at the moment the Birria Beef states that 2.5 oz for 1m/ma, should it be 2.5 oz serving credits 2 m/ma?

A: Yes, that is correct.

Question 6

Q: Do we go by the yellow highlighted description or the MFG code?
