#	Questions	Answers
1.	The RFI 26-742 K-12 Fresh Pizza Program looks to be hard spec'd for a program that uses par-baked, not fresh, personal pan pizza which utilizes equipment in-house (high labor requirements). Would this RFI accept proposals from a hot baked, fresh delivery pizza program to DeKalb County schools that is NSLP compliant but individual slices (not personal pan pizza)? This program supports local business owners. All indications appear that the preferred operational model is for child nutrition staff to bake personal pizza and serve in individual boxes to students.	DeKalb County School District School Nutrition Services is seeking information specifically related to a fresh pizza program that aligns with the scope of work outlined. The district is not currently considering proposals for a delivered pizza program that provides individual slices.
