1. The project SOW does not mention any work on the fire alarm system. However, there are several fire alarm system devices in the existing ceiling.

   **Questions:**

   a. Will these devices be removed and reinstalled by others or should it be included in the scope of this project?
   b. If this work is to be included in the scope of this project, please confirm the system manufacturer and Point of Contact.
   c. If this work is to be included in the scope of this project, please confirm is any 3rd party inspection or testing is required.

   **Answer:** The fire alarm will be removed and reinstalled by others and will not be in the scope of this project.
