(X) 9A. AMENDMENT OF SOLICITATION NUMBER
140L3726Q0101

☒ 9B. DATED *(SEE ITEM 11)*
06/29/2026

☐ 10A. MODIFICATION OF CONTRACT/ORDER NUMBER

10B. DATED *(SEE ITEM 13)*

11. THIS ITEM ONLY APPLIES TO AMENDMENTS OF SOLICITATIONS

☒ The above numbered solicitation is amended as set forth in Item 14. The hour and date specified for receipt of Offers ☒ is extended. ☐ is not extended.

Offers must acknowledge receipt of this amendment prior to the hour and date specified in the solicitation or as amended, by one of the following methods: (a) By completing items 8 and 15, and returning 1 copies of the amendment; (b) By acknowledging receipt of this amendment on each copy of the offer submitted; or (c) By separate letter or electronic communication which includes a reference to the solicitation and amendment numbers. FAILURE OF YOUR ACKNOWLEDGMENT TO BE RECEIVED AT THE PLACE DESIGNATED FOR THE RECEIPT OF OFFERS PRIOR TO THE HOUR AND DATE SPECIFIED MAY RESULT IN REJECTION OF YOUR OFFER. If by virtue of this amendment you desire to change an offer already submitted, such change may be made by letter or electronic communication, provided each letter or electronic communication makes reference to the solicitation and this amendment, and is received prior to the opening hour and date specified.

12. ACCOUNTING AND APPROPRIATION DATA *(If required)*

13. THIS ITEM APPLIES ONLY TO MODIFICATIONS OF CONTRACTS/ORDERS. IT MODIFIES THE CONTRACT/ORDER NUMBER AS DESCRIBED IN ITEM 14.

CHECK ONE	
☐	A. THIS CHANGE ORDER IS ISSUED PURSUANT TO: *(Specify authority)* THE CHANGES SET FORTH IN ITEM 14 ARE MADE IN THE CONTRACT ORDER NUMBER IN ITEM 10A.
☐	B. THE ABOVE NUMBERED CONTRACT/ORDER IS MODIFIED TO REFLECT THE ADMINISTRATIVE CHANGES *(such as changes in paying office, appropriation data, etc.)* SET FORTH IN ITEM 14, PURSUANT TO THE AUTHORITY OF FAR 43.103(b).
☐	C. THIS SUPPLEMENTAL AGREEMENT IS ENTERED INTO PURSUANT TO AUTHORITY OF:
☐	D. OTHER *(Specify type of modification and authority)*

E. IMPORTANT: Contractor ☐ is not ☐ is required to sign this document and return _____ copies to the issuing office.

14. DESCRIPTION OF AMENDMENT/MODIFICATION (*Organized by UCF section headings, including solicitation/contract subject matter where feasible.)*

See continuation page

Except as provided herein, all terms and conditions of the document referenced in Item 9A or 10A, as heretofore changed, remains unchanged and in full force and effect.

NAME OF OFFEROR OR CONTRACTOR

ITEM NO. (A)	SUPPLIES/SERVICES (B)	QUANTITY (C)	UNIT (D)	UNIT PRICE (E)	AMOUNT (F)
	This amendment is issued to answer Request For Information (RFI) sent by one or more potential offerors. The solicitation period is extended from 7/10/26, 9AM PDT, to 7/17/26, 9AM PDT. Site visits will occur on 07/11/26 at 900AM Mountain Time. Vendors shall RSVP to Ben Becker, bbecker@ios.doi.gov. The location of the site visit is: 1600 HWY 95, Jordan Valley, OR. Question: The math is not adding up on the bid schedule from what the scope of work has. Bid schedule is only for 11,403 acres and the statement of work is calling for 17, 473. 11,403 is in the updated SOW and correct acres. Answer: The Bid Schedule is correct, 11,403 acres. Question: The second concern is on the transportation of the seed to and from the job site. Will is be I a dry van, will it be in stock trailers, will it be on flatbed trailers. It also states that the contractor has to load seed into van or trailer. Do this mean we can bring equipment(loaders, skid steers, forklift) to the yard to load pallets of seed on to transporting vessel. On all my other seeding contracts since 2003 when I started doing reclamation the Govt always have loaded seed and transported out to the job site in a central location within seeding area. If contractor now has to do these duties, our bids will reflect this. This will also eliminate some contractors, to pull a dry van you will need a semi truck, this requires a CDL, which I have, but things need to be written more specific so all contractors are bidding apples to apples. This solicitation has a few item that can cause contractors to bid on how we interpret the statement of work. As in the SOW at 3.1.2 The Government will furnish all seed required for the contract. The Government shall be responsible for loading and hauling the Government furnished seed from the field office to the work site. The seed will be stored in a government furnished trailer. Continued...				

ITEM NO. (A)	SUPPLIES/SERVICES (B)	QUANTITY (C)	UNIT (D)	UNIT PRICE (E)	AMOUNT (F)
	Answer: As stated in the SOW, the government will load and transport the seed to the job site. The trailer will be a 53' dry van. The contractor will need to provide their own pallet jack and loader, skid steer, or forklift to get the pallets out the van if they wish to unload the pallets. Most contractors unload the seed by hand into a pickup or open trailer for transport to specific work locations as the progress through the treatment areas.) If this contractor can provide clearer verbiage, I will be happy to use it in the next contract for better clarification. Question: Could we also get a map of the project areas so I can download to Avenza to go ground truth the work sight to see how the terrain and ground conditions are, if the fire was hot enough to burn sagebrush to the ground or are there a lot of stobs. Placing eyes on locations is a must to bid correctly. Answer: Maps included in Amendment One. They are georeferenced and will load into Avenza. The level of burn severity varies in the sagebrush and rabbitbrush in the treatment areas. There are some areas with unburned portions of shrubs, leaving stobs, and other areas where the shrubs burned completely to the ground and did not leave stobs for the majority of that area. We did not get any flat tires on the UTVs while driving through and areas in the fires. Can't guarantee they will not get any flats though. Question: The Statement of Work indicates that the Government will furnish the rangeland drills and carts. For liability, maintenance, and operational reasons, would the Government allow the contractor to use its own drill seeding equipment instead, provided it meets the performance requirements of the solicitation? Answer: Vendors can use their own drills if we can have the specifications and phones to approve them.

ITEM NO. (A)	SUPPLIES/SERVICES (B)	QUANTITY (C)	UNIT (D)	UNIT PRICE (E)	AMOUNT (F)
	They would cover all maintenance and tires for the projects. Question: Can you please explain in more detail of what you are expecting the contractor to do in the below statement of work. It says that vehicles cannot be staged within the boundary, does that mean that we cannot drive a truck and trailer loaded with seed in there to deliver the seed to the tractor and seeders? If no vehicles can be in this area how to do you propose to get seed and employees in there in there? Also, for safety of all employees a vehicle has to be nearby with tools and supplies and in case of any emergency. Wilderness Study Areas: The 3,909 acres of the Little John Native seeding area and 535 acres of the Rock Creek Native seeding area are within the Owyhee River Canyon Wilderness Study Area (WSA). Work shall not be performed in WSA areas during muddy conditions. Vehicles shall not be staged within the WSA boundary Answer: The COR will go into more details on the WSA during the pre-work meeting. This area is closed to normal motorized vehicles. This means that multiple vehicles cannot be staged inside the WSA area. This is a sensitive area to ground disturbances and there is a need to keep vehicle activity to a minimum. One vehicle and trailer to move seed and the minimum necessary number of vehicles to move personnel will be allowed in the WSA. All trash will be removed from area. Example: no seed dry vans will be staged in the WSA. No vehicles or drill seeding will be allowed inside the WSA during muddy conditions. No "road" will be allowed to be formed, take multiple ways into and out of the area by not using the same tracks each time. Question: Can you clarify the below statement. Are you saying that the BLM is only supplying 1 drill and 1 cart tire per seeder for the whole seeding time and acres? When you say that it is the contractor's responsibility to obtain them, are you saying that it is the Continued...

	contractor's responsibility to pay for them and find them if tires are needed? Please clarify the below statement of work. If spare mounted tires are available, the Contractor may request one drill and one cart tire from the COR. If spare wheels and tires are not available from the Government, it is the Contractors responsibility to obtain them if they deem necessary. Answer: The BLM will supply tires and rims if the damaged tire/rim is from normal wear and tear, not negligence or high-speed damage. Question: Can you tell us if a pallet fork will be available to move the pallets of seed in the seed trailer. Answer: Negative, a pallet jack will not be provided and is not listed under the Government Provided Materials. Site visits will occur on 07/11/26 at 900AM Mountain Time. Vendors shall RSVP to Ben Becker, bbecker@ios.doi.gov. The location of the site visit is: 1600 HWY 95, Jordan Valley, OR. Offerors shall acknowledge receipt of this amendment when providing a quote. Period of Performance: 09/21/2026 to 03/01/2027
