

Request for Qualifications - RFQ 2027-4300-01

Engineering Services for Infrastructure Improvements

City of Madison, GA

Addendum 1 – Q&A

Question 1: Are there specific requirements for submitting an overall proposal response? Are we to just respond to the Statement of Qualifications form or just include the form with our overall response?

Answer: The City's intent is for firms to submit a complete qualifications/proposal package addressing all items listed in the RFQ (Items 1-9). The Engineering Statement of Qualifications Form should be completed and included as part of the overall submission package; it is not intended to be the sole response. Please organize your submission in the order outlined in the RFQ and include the completed Statement of Qualifications Form.
