SECTION B
SUPPLIES OR SERVICES AND PRICES/COSTS

This Request for Proposal (RFP) is to establish a **Multiple Award Contract (MAC)** for the manufacture of Transfer Housing Assembly used on the F-16 M61A1 20MM Gun System in accordance with (IAW) the drawings and technical data attached hereto. Only proposals from offerors who are approved sources or who have satisfied published pre-qualification requirements will be eligible for award. Current **approved** and **prequalified** sources are: General Dynamics-OTS (CAGE: 05606); Thomas Instrument Inc. (CAGE: 5H860); and Jemco Components & Fabrication Inc. (CAGE: 721Z6).

All clauses/provisions in this solicitation and resultant contract are important, and the offeror shall ensure that it has reviewed and understands each one. Signing the face page of the solicitation acknowledges review and agreement of all provisions contained within. There are specific contractor fill-ins required in this solicitation. Please review carefully and complete all required fill-ins.

Note 1: Contract awards resulting from this RFP will be Indefinite Delivery/Requirements Contracts IAW RFO 16.504. IAW RFO 52.216-27, up to three (3) contracts may be awarded as a result of this RFP.

Note 2: Pricing periods will be established under a “Pricing Matrix”, included under Section J – List of Attachments, identifying kinds, quantities and unit prices for Contract Line Item Numbers (CLIN) 0001, 0002 and 0003 for five, one-year ordering periods. CLINs within the solicitation may contain quantity ranges but are not limited to the quantity breakouts. Unit prices for quantity ranges should be established based on the "most economical range" falling in the particular quantity range and under the appropriate Pricing Period. The Pricing Matrix is to be the Ordering Menu for all orders placed/issued over the life of the contract. **The contractor is encouraged to provide economic price breaks that are considered advantageous to both the contractor and the Government.**

Quantity: The required quantity is not known at this time. The quantities reflected in the Schedule and Pricing Matrix represent the Government’s Best Estimated Quantities (BEQs) based on the actual history and projected requirements. These BEQs do not represent a minimum or a maximum quantity. Failure of the Government to order the BEQ quantity shall not entitle the contractor to an equitable adjustment in price under the contract.

Estimated contract value is determined based on the maximum quantity under each Ordering Pricing Period extended by the applicable unit price for that period as shown on the Pricing Matrix.

Evaluation Criteria for Award is defined in Section M of this solicitation. Calculation for Total Evaluated Price is shown with Pricing Matrix Attachment.

Note 3: For the purposes of RFO 52.216-22, the Contractor shall not be required to make any deliveries under this contract after completion of all orders.

Note 4: Period of Performance for the contract will begin upon date of basic contract award announcement and issuance of initial order. Specific delivery dates shall be established in delivery orders. The resultant contract will have one (1) 12-month basic ordering period, and four (4) twelve-month ordering periods. CLIN structure denoting the ordering periods will be as follows:

CLIN 000X- Award of Basic Contract through 12 months
CLIN 100X- Ordering Period 1 (13 months after Basic award through 24 months)
CLIN 200X- Ordering Period 2 (25 months after Basic award through 36 months)
CLIN 300X- Ordering Period 3 (37 months after Basic award through 48 months)
