Modine HDB-100AS Specifications:

- BTU Input: 100,000 BTU/hr
- BTU Output: Approximately 80,000 BTU/hr
- Thermal Efficiency: About 80 percent
- Heat Exchanger: Tubular aluminized steel
- Airflow (CFM): 1060 (low), 1500 (medium), 1850 (high)
- Static Pressure Capability: Up to 0.8 inches W.C.
- Blower Motor: 1/2 HP, multi-tap, PSC, totally enclosed
- Dimensions: 35.5 inches width, 18.5 inches height, approximately 34.5 inches depth
- Weight: About 150 pounds (shipping ~151 lb)
- Electrical Supply: Typically 115V (other motor voltages available)
- Blower Amperage: Approximately 3 to 4 amps on high
- Venting: Power-vented for horizontal or vertical small-diameter vent pipe
- Ignition System: Direct-spark ignition, continuous retry, 100 percent shut-off
- Safety Features: Vent pressure switch, high-limit control, flame-rollout protection
- Construction: Aluminized steel cabinet, powder-coat finish
- Clearance: 1 inch minimum from ceiling
- Warranty: 10-year heat exchanger, 2-year parts
