**Companies must have attended first prebid conference in order to attend second. Companies must attend both prebid conferences to be eligible to submit a proposal.*

REVISED PROJECT SCOPE

SERVICES BEING SOUGHT

This is an addition to the original RFP, only the Price Proposal form is being replaced, and all requirements in the original must also be met.

The Jackson County Board of Commissioners, through this Addendum Two, is adding to the original project scope both Jail Access gates as well as the Jackson County Correctional Institute as follows:

- A new Jail Management Program for physical security (Software)
- Two work stations (front control Room and Rear Control/Office)
- New PLCs (boxes, wiring, etc.)
- Additional camera locations
- The addition of a card reader on the new front door
- It should have new electric locks for approximately 25 mechanical locks and two magnetic locks
- Ability to control the drive through gate from Control

All firms submitting proposals in response to this Request for Proposals (RFP) must provide a list of existing customers (specifically jails) with varying tenure with the respective vendor.

System Components and Infrastructure Requirements

The following components are anticipated to be required as part of the proposed solution. Equivalent alternatives must be approved by the County prior to submission:

- Workstations: Dell workstations with 27" Dell monitors and APC UPS battery backup, fully integrated with the County's existing EcoStruxure IT monitoring environment, for security system operations
- Server Infrastructure: Dell rack-mounted server with APC UPS, fully integrated into the existing EcoStruxure IT environment, supporting both server and network switching infrastructure

Documentation and Deliverables

The selected firm shall provide the following:

- Complete shop drawings
- Equipment layout drawings
- Device termination drawings
- Comprehensive training for County staff and system administrators
- All shipping and freight costs to the project site
