

Appendix 6 - REQUIREMENTS CHECKLIST

ARCHITECTURE COMPONENTS	DESCRIPTION & SPECIFICATIONS
n tier architecture	
Provide architectural diagram of components	
Web Server Hardware (Identify & List Specs)	
Indicate hardware components	
Web Server Software (Identify & List Specs)	
Indicate software components (e.g. - HTML, Images)	
App Server Hardware (Identify & List Specs)	
Indicate hardware components	
App Server Software (Identify & List Specs)	
Indicate software components (e.g. - EJBs, JSPs...)	
Database (Identify & List Specs)	
Indicate database product(s)	
Database Server Hardware (Identify & List Specs)	
Indicate hardware components	
Database Server Software (Identify & List Specs)	
Indicate software components (EJBs, JSPs...)	
Desktop Hardware (Identify & List Specs)	
Indicate desktop hardware	
Desktop Software (Identify & List Specs)	
Indicate desktop platform software	
Describe how same will be managed/distributed	
Identify size and frequency of downloading	

Browser Requirements (Identify & List Specs)

Indicate software/version requirements

Report Writers (Identify & List Specs)

Indicate product/version requirements

Indicate ad hoc & standard reporting tools

ARCHITECTURE COMPONENTS	DESCRIPTION & SPECIFICATIONS
Languages (Identify & List Specs) e.g. - J2EE Compliant, Java based, EJBs, HTML, XML, JSPs JavaScript, Java Beans, Servlets	
LAN & WAN (Identify & List Specs) Protocols (TCP/IP?), Wiring, Switch, Router, Bandwidth	
Data/File Transfers (Identify & List Specs) Indicate product/version requirements (SFT, Connect:Direct)	
System Management (Identify & List Specs) Indicate product/version requirements (Tivoli, Peregrine)	
Testing/Performance Assessment Tools (Identify & List Specs) Indicate product/version requirements	
Security: (Identify & List Specs) Controlled through Application Authenticated thru NJ Portal Use PKI SSL, Encryption in transport/storage	
Data Warehouse / Cleansing Tools (Identify & List Specs) Indicate products for data conversion Indicate products for data warehousing	
Application Integration Tools (Identify & List Specs) Indicate product/version requirements	

(e.g. - Websphere, Transaction
Gateway)

**Other Tools / Technologies (Identify & List
Specs)**

Identify category/bidder/version
information

(e.g. - GIS, Imaging, Office Suite Integration)

(e.g. – eForms, eMail, etc.)

All Other Components (Identify & List Specs)
