Air Pollution Control GP-009A Renewal Notification

NJ STATE PUBLIC HEALTH ENV & AGRICULTURAL LAB General Permit #:

GEN170001

Program Interest No: 61242

Expiration Date: 09/18/2022

Mailing Address	Plant Location
██████████, ADMINISTRATIVE DIRECTOR NJ STATE PUBLIC HEALTH ENV & AGRICULTURAL LAB PO BOX 360 Trenton, NJ 08625	NJ STATE PUBLIC HEALTH ENV & AGRICULTURAL LAB 1034 River Rd Nj State Police Div Headquarters West Trenton Mercer County, New Jersey

March 10, 2022

Dear ██████████:

You are receiving this General Permit Notification in lieu of your general permit five-year renewal notice. The above referenced general permit is due to expire on the date listed above and will not be renewable on or after February 3, 2020.

A new General Permit 009B for Boiler(s) Each Greater Than or Equal to 10 MMBTU/hr and Less Than 50 MMBTU/hr has replaced General Permit 009A on February 3, 2020. GP-009B allows for the construction, installation, reconstruction, modification and operation of boilers with a stack height of 20 feet or greater above ground to ensure that the natural gas-fired boiler(s) installed and operated will cause negligible health impact. General Permit 009B is now available for your use, at <https://www.state.nj.us/dep/aqpp/gp1list.htm>.

You may continue to operate boiler(s) under your current GP-009A until the first of the following events occur:

- Replacement or modification of the boiler(s) registered in your current General Permit 009A; or
- Expiration of your current General Permit 009A.

Before the occurrence of either event mentioned above, you must register for General Permit 009B or apply for a standard Pre-Construction Permit (PCP), if your facility does not meet the requirements of the new GP-009B. Please be aware that GP-009B allows boilers only, and a case by case application will be required for heaters permitted currently under GP-009A.

Helpful Tip: General Permit GP-009B allows facilities to register all boiler(s) on site, each with a maximum gross heat input rate to the burning chamber of greater than or equal to 10 MMBTU/hr and less than 50 MMBTU/hr, in one permit. It is recommended that you evaluate all the air permits at your facility and supersede those Preconstruction Permits (PCPs) and active General Permits GP-009A that will be included in this new general permit. This will avoid additional renewal fees.

If you need additional information regarding this notification, please call General Permits Help desk at 609-633-2829.

Certificate to Operate Control Apparatus and/or Equipment

This five year certificate is being issued under the authority of Chapter 106, P.L. 1967 N.J.S.A.26:2C-9.2. The possession of this document does not relieve you from the obligation of complying with all provisions of the New Jersey Administrative Code, Title 7, Chapter 27.

In addition to the facility specific requirements listed in this permit, the facility must comply with all applicable rules and requirements as well as the information contained in the approved permit. The facility must also comply with any applicable requirements of the N.J.A.C. 7:27-8.1 et. Seq. and other state rules summarized in the General Provisions for Preconstruction Permits, www.state.nj.us/dep/aqpp/applying.html

Air Pollution Control GP-018 Renewal Notification

NJ PUBLIC HEALTH ENVIRON & AGRIC LABORATORY General Permit #:
GEN090001

Program Interest No: 61369

Expiration Date: 12/02/2014

Mailing Address	Plant Location
[REDACTED]	NJ PUBLIC HEALTH ENVIRON & AGRIC LABORATORY 1034 RIVER RD TRENTON MERCER COUNTY, NEW JERSEY

August 11, 2017

Dear [REDACTED]

You are receiving this General Permit Notification for your boiler(s) and/or heater(s) general permit, GP-018. The above referenced general permit has expired on the date listed above and is not allowed to be renewed after August 07, 2017. Therefore, this GP-018 is terminated on the same date of August 07, 2017.

A new General Permit 018A for Boiler(s) and/or Heater(s) Each Greater Than or Equal to 5 MMBTU/hr and Less Than 10 MMBTU/hr has replaced General Permit 018. General Permit 018A is now available for your use, at <http://www.njdeponline.com>. You must register for General Permit 018A or apply for a standard Pre-Construction Permit (PCP) to continue operating your boiler(s) and/or heater(s).

Helpful Tip: General Permit GP-018A allows facilities to register all boiler(s) and/or heater(s) on site in one permit. It is recommended that you evaluate all the air permits at your facility and supersede those Preconstruction Permits (PCPs) and active General Permits (GP-018) that will be included in this new general permit. This will avoid additional renewal fees.

Re: Physical Connection Permit No.: 1610-WPC240002

Dear [REDACTED]

Enclosed is your Physical Connection Permit Renewal for two 4-inch RPZs, one 8-inch and one 0.75-inch DCVA located at NJ Public Health Environmental & Agricultural Lab, River and West Upper Ferry Road, Ewing Township, New Jersey TO PROTECT THE COMMUNITY WATER SYSTEM, Trenton Water Works PWSID NJ1111001 at the corresponding service connections. This permit is issued by NJDEP in accordance with the provisions of N.J.S.A. 58:12A-1 et seq., N.J.S.A. 58:11-9.1 et. seq., and N.J.A.C. 7:10-10.1 et. seq. based on Renewal Application received on March 18, 2024.

Please have your Certified Tester submit Test Results following each quarter of the 2024 calendar year using the NJDEP Online Quarterly Service, but no more than 30 days after a pressure test and/or internal inspection failure per N.J.A.C. 7:10-10.6(g). NJDEP Online Tester Reporting enables you to complete NJDEP Online Renewal Service that is auto-approved for the 2025 permit year (provided that satisfactory test/inspection results for your facility have been correctly submitted online each quarter). For help click the ANSWER LINKS FOR PHYSICAL CONNECTION PERMIT QUESTIONS:
<https://www.nj.gov/dep/watersupply/pdf/pcp-answer.pdf>.

All renewal fees must be paid via NJDEP Online with credit card or e-check as part of the Renewal Service. **Note that backflow prevention device quarterly test reporting and applicable N.J.A.C. 7:10-10.6 annual internal inspection reporting via NJDEP Online are requirements of this permit and necessary for renewal per N.J.A.C. 7:10-10.5 to avoid violations and potential enforcement administrative penalties (fines).**

If you have any questions, you may contact the Bureau by email at physicalconnection@dep.nj.gov or by phone at (609) 292-2957.

Sincerely,

[REDACTED]

Permit Requirements

Submittal/Action Requirements

Applicable Subject Items	Submittal/Action Type	Requirement
1610,Physical Connection Group(WSPG880135)	Submit Online Renewal Application	In accordance with N.J.A.C. 7:10-10.5(e) an online permit renewal shall be submitted at least sixty days prior to expiry of this permit. . [N.J.A.C. 7:10-10]

Text Requirements

All Phases

1610,Physical Connection Group (WSPG880135)

- 1. For this permit to remain valid, each backflow prevention device listed on this permit shall be inspected and tested for tightness under prevailing pressure conditions at least once every three months pursuant to N.J.A.C. 7:10-10.6(a)1. [N.J.A.C. 7:10-10]**
- 2. For this permit to remain valid, each double check valve or double swing check valve assembly backflow prevention device listed on this permit shall be dismantled and internally inspected annually in the third or fourth calendar quarters. An internal inspection shall consist of the dismantling of a double check valve assembly or reduced pressure zone backflow preventer assembly to visually inspect the integrity of the internal mechanism including the clappers, discs, springs and facing rings pursuant to N.J.A.C. 7:10-10.6(a)2. After reassembly, the owner of the facility shall have the backflow prevention device tested for tightness to ensure integrity of the device. [N.J.A.C. 7:10-10]**
- 3. A reduced pressure zone backflow preventer assembly shall not be subject to the internal inspection pursuant to N.J.A.C. 7:10-10.6(a)2 above except for routine maintenance as specified by the manufacturer, or for investigation of a malfunction, or as specifically required by the supplier of water pursuant to N.J.A.C. 7:10-10.6(a)4. [N.J.A.C. 7:10-10]**
- 4. The Department shall approve a reduction in the frequency of the pressure tests conducted pursuant to N.J.A.C. 7:10-10.6(a)1 if the owner of the facility in which the physical connection is located demonstrates to the Department that the facility is not in operation during any time in a calendar year pursuant to N.J.A.C. 7:10-10.6(a)3. [N.J.A.C. 7:10-10]**
- 5. For this permit to remain valid, the inspections and testing required pursuant to N.J.A.C. 7:10-10.6(a) shall be conducted by a certified tester who holds a valid backflow prevention device tester's certificate issued by a certifying agency approved by the Department pursuant to**

N.J.A.C. 7:10-10.8. [N.J.A.C. 7:10-10]

- 6. No administrative change to an existing Physical Connection Permit shall be made without notifying the New Jersey Department of Environmental Protection within 14 days of such change pursuant to N.J.A.C. 7:10-10.7(a). [N.J.A.C. 7:10-10]**
- 7. No modification to an approved physical connection installation as listed in N.J.A.C. 7:10-10.7(b) shall be made prior to modifying this physical connection permit, except as provided in N.J.A.C. 7:10-10.7(d). [N.J.A.C. 7:10-10]**
- 8. A copy of this Permit and records of pressure tests, maintenance and annual internal inspections on the Quarterly Test and Maintenance shall be kept at the facility, for at least five (5) years and shall be exhibited upon request of Department Personnel, supplier of water or administrative authority. N.J.A.C. 7:10-10.2(f) [N.J.A.C. 7:10-10]**
- 9. Upon completion of each test and inspection, the owner of the facility shall have the results and certifications of those present recorded on the Quarterly Test and Maintenance Report Form, and shall mail copies to the local administrative authority and supplier of water within 5 days of the test. [N.J.A.C. 7:10-10]**
- 10. The permittee is advised that renewal of the permit will require the online submission of the quarterly test results by the Certified Tester prior to the online renewal submission. [N.J.A.C. 7:10-10]**
- 11. The permit is revocable, or subject to modification or change, at any time, when in the judgement of the New Jersey Department of Environmental Protection such revocation, modification or change shall be necessary. [N.J.A.C. 7:10-10]**
- 12. The issuance of this permit shall not be deemed to affect in any way action by the New Jersey Department of Environmental Protection on any future application. [N.J.A.C. 7:10-10]**
- 13. The granting of this permit shall not be construed in any way to affect the title or ownership of property, and shall not make the New Jersey Department of Environmental Protection or the State a party in any suit or question of ownership of property. [N.J.A.C. 7:10-10]**
- 14. This permit does not waive the obtaining of Federal or other State or local Government consent when necessary. This permit is not valid and no work shall be undertaken until such time as all other required approvals and permits such as plumbing permit (N.J.S.A. 5:23-2.23) have been obtained. [N.J.A.C. 7:10-10]**
- 15. As per N.J.A.C. 7:10-10.10, an applicant for a permit under this subchapter or any person, subject to the limitation on third party appeal rights set forth in P.L. 1993, c.359 (N.J.S.A. 52:4B-3.1 through 3.3), who believes himself or herself to be aggrieved with respect to any decision made by the Department regarding such permit application submitted pursuant to this subchapter, may contest the decision and request an adjudicatory hearing pursuant to the Administrative Procedure Act, N.J.S.A. 52:14B-1 et seq., and the Uniform Administrative Procedure Rules, N.J.A.C. 1:1 within 20 calendar days of the receipt of the permit decision. Filing details and the required form to be submitted are available at www.state.nj.us/dep/watersupply/dws_const.html [N.J.A.C. 7:10-10]**

Merchant & Evans, Inc.

LW2011-026

LIMITED ROOFING WARRANTY

REVISED 06/16/11

PROJECT: New Jersey Laboratory **OWNER:** New Jersey Laboratory

This Limited Warranty is issued by Merchant & Evans, Inc., 308 Connecticut Drive, Burlington, New Jersey 08016, herein after referred to as "The Company" and "The Installing Contractor" designated herein and runs to The Building Owner, herein after referred to as "The Customer". The Terms and Conditions of this Limited Warranty shall constitute the entire agreement and understanding between The Company, The Installing Contractor and The Customer with respect to the Warranted Roofing System on the Project specified above, only.

I. PERFORMANCE STANDARDS:

The Company solely warrants that the Warranted Roofing System as herein defined will, under normal atmospheric conditions and ordinary wear and tear by the elements as herein defined, perform as follows:

The Warranted Finish will not blister, peel, chip, check or crack, lose adhesion, chalk in excess of eight or fade in excess of five for a period of **TWENTY (20)** years. Cracks or checks are defined as breaks in the coating as distinguished from microchecking at the radii, which shall be considered normal and acceptable. Failure due to mechanical damage of the coating after manufacturing is outside this Warranty. Additionally, the panel system will not fail to remain weather-tight for a period of **TWENTY (20)** years.

The Installing Contractor solely Warrants for the designated periods stated above, that the Warranted Roofing System as herein defined will be installed in a workmanlike manner and in accord with The Company's published installation guidelines and/or specific instructions for the project.

II. FAILURE TO COMPLY:

If the Warranted Finish and/or Warranted Roofing System fails to perform in accordance with the PERFORMANCE STANDARDS noted above, The Company's and the Installing Contractor's liability under this Warranty will be limited to refinishing or replacing or repairing that portion of panels having a defective Warranted Finish and/or defective Warranted Roofing System. Refinishing and/or repairing shall be performed using standard field practices and materials (not necessarily the Warranted Finish) selected by The Company and/or The Installing Contractor. Refinishing and/or replacing and/or repairing shall be done only on areas deemed non-performing and not necessarily on performing areas.

The Company and/or The Installing Contractor will, in all instances, at its own discretion, determine whether refinishing and/or replacing and/or repairing is required in order to fulfill the original performance guarantee without extension of the duration thereof. Claims or defects must be made by the Customer in writing to The Company and The Installing Contractor within thirty (30) days after initial discovery of the defect. Notwithstanding anything to the contrary stated in this Warranty, Liability, corporate or otherwise, in examining, replacing, repairing, and refinishing the non-performing warranted finish or warranted roofing system shall be limited to costs not to exceed the purchase price from The Company of the original product.

III. EXCLUSION AND MODIFICATION OF WARRANTIES:

There are no Warranties which extend beyond the description on the face hereof and except as provided herein.

THIS LIMITED WARRANTY IS IN LIEU OF AND EXCLUDES ALL OTHER WARRANTIES, EXPRESSED OR IMPLIED, INCLUDING ANY WARRANTY OR MERCHANTABILITY OR THAT THE GOODS ARE FIT FOR, OR CAN BE FOR A PARTICULAR PURPOSE BY THE CUSTOMER. THE COMPANY AND THE INSTALLING CONTRACTOR DISCLAIMS AND THE CUSTOMER WAIVES ALL REMEDIES NOT PROVIDED HEREIN INCLUDING ANY LIABILITY OF THE COMPANY AND THE INSTALLING CONTRACTOR IN TORT, STRICT OR OTHERWISE, FOR DAMAGES OR INJURIES TO PERSONS OR PROPERTY OR FOR LOSS OF USE, OR REVENUE OR PROFIT, WHETHER DIRECT, INCIDENTAL OR CONSEQUENTIAL INCLUDING MOLD CLAIMS, RESULTING FROM ANY DEFECT IN DESIGN, MATERIAL WORKMANSHIP OR MANUFACTURE, WHETHER OR NOT CAUSED BY NEGLIGENCE ON THE PART OF THE COMPANY AND THE INSTALLING CONTRACTOR, ORAL STATEMENTS MADE BY THE COMPANY'S AND THE INSTALLING CONTRACTOR'S REPRESENTATIVES ABOUT THE PRODUCT AND WRITTEN DESCRIPTIONS OF THE PRODUCT APPEARING ELSEWHERE THAN ON THE FACE HEREOF ARE NOT WARRANTIES AND SHALL NOT BE RELIED UPON BY THE CUSTOMER.

Purchase Orders and Contracts of the Customer, acknowledgements by The Company and The Installing Contractor, product literature, promotional material or advertising shall in no way affect, alter, or modify any of the Terms or Conditions of this Warranty. The Terms and Conditions of the Warranty shall constitute the entire agreement, understanding and responsibilities by and between The Company, The Installing Contractor and The Customer with respect to the Warranted Finish and/or Warranted Roofing System on the PROJECT specified above. None of the Terms and Conditions of the Warranty may be modified by any party unless done so in writing. If any of the Terms, Conditions, Limitations of this Warranty are violated by the Customer then the Terms, Conditions and Provisions are absolutely void and of no legal effect. If any party ceases to exist, other surviving parties are not bound to obligations of the non-surviving party.

This Warranty is subject to the Conditions and exclusions printed in Schedule A, and incorporated as a part of this Warranty.

SCHEDULE A

I. DEFINITIONS:

As used in this Warranty, the following words shall be ascribed the respective meanings as herein set forth:

- A. "CUSTOMER"- The Person, Firm or Corporation to whom this Warranty runs, or, building "Owner".
- B. "NORMAL ATMOSPHERIC CONDITIONS" AND "ORDINARY WEAR AND TEAR BY THE ELEMENTS"- This term shall exclude corrosive or aggressive atmospheres, including but not limited to those atmospheric conditions set forth in Paragraph II hereof.
- C. "WARRANTED FINISH"- When applicable, these are approved colors of the exterior finish noted herein when applied to coil coated panels manufactured by The Company and installed by The Installing Contractor that are exposed to normal atmospheric conditions.
- D. "REPLACEMENT"- Replacement includes repairing or replacing non-performing products supplied by The Company and/or non-performing installation provided by The Installing Contractor but does not include the cost of other materials and labor required for removal and/or re-installation of other materials not supplied by The Company or The Installing Contractor.
- E. "WARRANTED ROOFING SYSTEM"- The standing seam metal roof system (SSMRS) manufactured by The Company and installed by The Installing Contractor.
- F. "MECHANICAL DAMAGE"- Refers to any physical damage such as scratches and abrasions to the Warranted Finish after the Warranted Roofing System is manufactured by The Company.

II. WARRANTY LIMITATION

This Warranty shall apply only to the Warranted Finish and/or the Warranted Roofing System as herein defined which has been exposed to normal atmospheric conditions, and shall not apply where any failure of the Warranted Finish and/or the Warranted Roofing System is the result of fire, vandalism, radiation, harmful fumes, dissimilar metals, foreign substances in the atmosphere inside or outside, including corrosive aggressive atmospheres such as those contaminated with chemical fumes or salt spray, mishandling or non-compliance with The Company's published product information, falling objects, acts of God including: hurricanes, tornadoes, floods, damage from wind-storm, etc., or deliberate damage from riots, civil commotions, acts of war, or mechanical or any other physical damage to the Warranted Finish and/or the Warranted Roofing System. In addition, this warranty shall not apply to any failure of, or damage to, the Warranted Finish and/or Warranted Roofing System as the result of moisture entrapment or other contamination, or to a defect in design such as ice-damming, improper drainage, failure of guttering, etc. which is detrimental to the Warranted Finish and/or Warranted Roofing System prior to or after its use by the Customer; nor to damage to the Warranted Finish and/or Warranted Roofing System as the result of edge corrosion or failure of the metal substrate from aggressive atmospheres, storage, fabrication, shipping, or processing by the installing contractor; nor to any damage to the Warranted Finish and/or Warranted Roofing System resulting from circumstances where it is subjected to continuously generated abrasive forces or continual or periodic submersion in water; nor does this warranty apply to any air dry touch up paint systems and/or non coil coated finishes.

III. TERRITORIAL RESTRICTIONS

Subject to WARRANTY LIMITATIONS as herein above set forth, this Warranty shall extend to the Warranted Finish and Warranted Roofing System which is installed as an exterior building component anywhere in the Continental United States, but excluding the States of Hawaii and Alaska.

IV. DISCONTINUANCE OF WARRANTIES

The Company reserves the right to discontinue issuance of Warranties. Discontinuance of future warranties will not affect the Terms and Conditions of this written Warranty since it shall remain in effect for the full WARRANTY PERIOD, unless the WARRANTY PERIOD is reduced or discontinued by mutual agreement of all parties. If the Company shall determine to liquidate, dissolve or sell its building products business, The Company may give notice to you and if no written notice of complaint is received by The Company within four (4) months after the date of such notice, this Warranty shall terminate and expire and The Company shall not have any further liability hereunder.

V. USE OF TRADE MARKS AND ADVERTISING

The Company trade names, product names, names of the Warranted Finish and Warranted Roofing System described herein or the Terms and Conditions of the Warranty shall not be used by the Customer in any of its advertising, promotional material, technical reports, or any other published communications without the prior written permission of The Company.

VI. ASSIGNMENT

This Warranty is extended to the Customer as the original purchaser. It is non-transferable and non-assignable. No rights against The Company or The Installing Contractor shall be created by any transfer or assignment nor shall any rights against The Company or The Installing Contractor survive any transfer or assignment.

VII. CLAIMS

In the event of alleged failure of the Warranted Finish and/or Warranted Roofing System, written notice containing particulars sufficient to identify the Customer and PROJECT and also reasonably obtainable information with respect to the time, place and circumstances thereof shall be given by or on behalf of the Customer to The Company and The Installing Contractor WITHIN THIRTY (30) DAYS of the detection of such failure. The Company and The Installing Contractor reserves the right to examine and investigate each complaint and to jointly determine with the Customer (or any party authorized by the Customer) the exact cause of any failure. If the failure of the Warranted Finish and/or Warranted Roofing System is not the result of any act or omission on the part of The Company and/or The Installing Contractor then The Company and The Installing Contractor shall have no further obligation on the CLAIM and all examination and investigative costs such as traveling expenses, laboratory analyses, and professional services will be paid for entirely by the Customer. The Customer shall further provide any information and personnel having knowledge of, or information pertaining to, the CLAIM of an alleged failure of the Warranted Finish and/or Warranted Roofing System in question.

The Company and The Installing Contractor will not participate in any CLAIMS or pay any CLAIMS until the full contract price for all work performed and materials furnished is received by The Company and The Installing Contractor.

Saddle Brook, NJ 07663

Guarantee Number: ANM101069855

Date of Completion: 2/23/2011

**Terms & Maximum Monetary Obligation to
Maintain a Watertight Roofing System.**

Years 20 **\$**
No Dollar Limit

Coverage

The components of the Roofing System covered by this Guarantee are:

Total Squares: 675

Membrane Spec. and Type : 3PID

SBS

Insulation Type : NRG3, NRG3, Fesco

Accessories (Type and Quantity) :

These Johns Manville Guaranteed components are referred to below as the "Roofing System" and ALL OTHER COMPONENTS OF THE OWNER'S BUILDING ARE EXCLUDED FROM THE TERMS OF THIS GUARANTEE, including any amendments thereto.

Johns Manville* guarantees to the original Building Owner that during the Term commencing with the Date of Completion (as defined above), JM will pay for the materials and labor reasonably required in Johns Manville's sole and absolute discretion to repair the Roofing System to return it to a watertight condition if leaks occur due to: ordinary wear and tear, or deficiencies in any or all of the Johns Manville component materials of the Roofing System, or workmanship deficiencies only to the extent they arise solely out of the application of the Roofing System. Non-leaking blisters are specifically excluded from coverage. Should any investigation or inspection reveal the cause of a reported leak to be outside the scope of coverage under this Guarantee, then all such investigation and inspection costs shall be borne solely by the Building Owner.

WHAT TO DO IF YOUR ROOF LEAKS

If you should have a roof leak please refer to directions on the reverse side. Failure by the Building Owner to comply with any of the directions on the reverse side of this document will render the coverage provided under this Guarantee, including any applicable amendments and/or riders, null and void.

LIMITATIONS AND EXCLUSIONS

This Guarantee is not a maintenance agreement or an insurance policy; therefore, routine inspections and maintenance are the Building Owner's sole responsibility (see reverse side of this document). Failure to follow the Maintenance Program on the reverse side of this document will void the Guarantee in its entirety. This Guarantee does not obligate JM to repair or replace the Roofing System, or any part of the Roofing System, for leaks or appearance issues resulting, in whole or in part, from one or more of the following (a) natural disasters including but not limited to the direct or indirect effect of lightning, flood, hail storm, earthquake, tornados, hurricanes or other extraordinary natural occurrences and/or wind speeds in excess of 55 miles per hour; (b) misuse, abuse, neglect or negligence; (c) installation or material failures other than those involving the component materials expressly defined above as the Roofing System or exposure of the Roofing System components to damaging substances such as oil, fertilizers, or solvents or to damaging conditions such as vermin; (d) any and all (i) changes, alterations, repairs to the Roofing System, including, but not limited to, structures, penetrations, fixtures or utilities (including vegetative and solar overlays) based upon or through the Roofing System as well as any (ii) changes to the Building's usage that are not pre-approved in writing by JM; (e) failure of the Building substrate (mechanical, structural, or otherwise and whether resulting from Building movement, design defects or other causes) or improper drainage; (f) defects in or faulty/improper design, specification construction or engineering of the Building or any area over which the Roofing System is installed; (g) defects in or faulty/improper architectural, engineering or design flaws of the Roofing System or Building, including, but not limited to, design issues arising out of improper climate or building code compliance; or (h) in instances of a recover project, Johns Manville is not responsible for the performance of pre-existing materials that predated the recover. Instead, Johns Manville's sole responsibility in recover systems where JM materials are adhered to existing materials is limited to the installed recover JM Roofing materials up to the wind speed listed herein. Guarantee coverage is limited to replacing recover JM Roofing materials only (and not the pre-existing materials - which is the Owner's responsibility) as required to return the roofing system to a watertight condition due to a claim covered under the terms and conditions herein. Johns Manville is not responsible for leaks, injuries or damages resulting from any water entry from any portion of the Building structure not a part of the Roofing System, including, but not limited to, deterioration of the roofing substrate, walls, mortar joints, HVAC units and all other non-Johns Manville materials and metal components. Moreover, the Building Owner is solely and absolutely responsible for any removal and/or replacement of any overburdens, super-strata or overlays, in any form whatsoever, as reasonably necessary to expose the Roofing System for inspection and/or repair.

This Guarantee becomes effective when (1) it is delivered to Owner; and (2) all bills for installation, materials, and services have been paid in full to the Approved Roofing contractor and to JM. Until that time, this Guarantee is not in force, has no effect - and JM is under no obligation whatsoever to perform any services/work.

The Parties agree that any controversy or claims relating to this Guarantee shall be first submitted to mediation under the Construction Industry Arbitration and Mediation Rules of the American Arbitration Association (Regular Track Procedures) or to such other mediation arrangement as the parties mutually agree. No court or other tribunal shall have

Maintenance Program

In order to continue the coverage of this Guarantee, the following Maintenance Program must be implemented and followed:

1. Building Owner must notify JM Guarantee Services Unit (see below) immediately upon discovery of the leak and in no event later than ten (10) days after initial discovery of the leak, time being of the essence. Failure of the Building Owner to provide timely notice to JM Guarantee Services of any leak is a material ground for termination of the Guarantee.
2. In response to timely notice, JM will arrange to inspect the Roofing System, and
 - (i) If, in JM's sole and absolute opinion, the leak(s) is/are the responsibility of JM under this Guarantee (see Limitations and Exclusions), then JM will take prompt appropriate action to return the Roofing system to a watertight condition, or
 - (ii) If, in JM's sole and absolute opinion, the leak(s) is/are not the responsibility of JM under this Guarantee, then JM will advise the Building Owner within a reasonable time of the minimum repairs that JM believes are required to return the Roofing System to a watertight condition. If the Building Owner, at his expense, promptly and timely makes such repairs to the Roofing System (time being of the essence) then this Guarantee will remain in effect for the unexpired portion of its Term. Failure to make any of these repairs in a timely and reasonable fashion will void any further obligation of JM under this Guarantee as to the damaged portion of the Roofing System as well as any other areas of the Roofing System impacted by such failure.
3. In the event an emergency condition exists which requires immediate repair to avoid damage to the Building, its contents or occupants, then Building Owner may make reasonable, essential temporary repairs. JM will reimburse Building Owner for those reasonable repair expenses only to the extent such expenses would have been the responsibility of JM under the Guarantee.

There are a number of items not covered by this Guarantee that are the sole, exclusive responsibility of the Building Owner. In order to ensure that your new roof will continue to perform its function and to continue JM's obligations under the Guarantee, you must examine and maintain these items on a regular basis:

- Maintain a file for your records on this Roofing System, including, but not limited to, this Guarantee, invoices, and subsequent logs of all inspections performed and repairs that are made to the Roofing System.
- Inspect your Roofing System at least semi-annually. This is best done in the Spring, after the Roofing System has been exposed to the harsh winter conditions, and, in the Fall after a long hot summer. It is also a good idea to examine the Roofing System for damage after severe weather conditions such as hailstorms, heavy rains, high winds, etc.
- Since these types of Roofing Systems typically have a low slope, they are easily examined. However, care must be taken to prevent falling and other accidents. JM expressly disclaims and assumes no liability for any inspections performed on the Roofing System.

When checking the Roofing System:

- Remove any debris such as leaves, small branches, dirt, rocks, etc. that have accumulated.
- Clean gutters, down spouts, drains and the surrounding areas. Make certain they allow water to flow off the Roofing System. Positive drainage is essential.
- Examine all metal flashings and valleys for rust and damage that may have been caused by wind or traffic on the Roofing System, and make certain they are well attached and sealed. Any damaged, loose, or poorly sealed materials must be repaired by a JM Approved Roofing Contractor only.
- Examine the areas that abut the Roofing System. Damaged masonry, poorly mounted counter flashing, loose caulking, bad mortar joints, and any loose stone or tile coping can appear to be a membrane leak. Have these items repaired by a JM Approved Roofing Contractor if found to be defective.
- Examine the edges of the Roofing System. Wind damage often occurs in these areas. Materials that have been lifted by the wind need to be corrected by a JM Approved Roofing Contractor.
- Examine any roof top equipment such as air conditioners, evaporative coolers, antennas, etc. Make certain they do not move excessively or cause a roof problem by leaking materials onto the Roofing System.
- Check the building exterior for settlement or movement. Structural movement can cause cracks and other problems which in turn may lead to leaks in your Roofing System.
- Examine protective coatings; any cracked, flaking, or blistered areas must be recoated.

Protecting your investment:

- Avoid unnecessary roof top traffic.
- If you allow equipment servicemen to go onto the Roofing System, advise them to be careful. Dropped tools, heavy equipment, etc. can damage the membrane. Log all such trips to the Roofing System.
- Do not allow service personnel to make penetrations into the Roofing System; these are to be made only by a JM Approved Roofing Contractor.

All the terms and conditions of this Guarantee shall be construed under the internal law of the state of Colorado without regard to its conflicts of law principles. Invalidity or unenforceability of any provisions herein shall not affect the validity or enforceability of any other provision which shall remain in full force and effect to the extent the main intent of the

No one is authorized to change, alter, or modify the provision of this Guarantee other than the Manager, Guarantee Services Unit or authorized delegate. JM's delay or failure in enforcing the terms and conditions contained in this Guarantee shall not operate as a waiver of such terms and conditions. This Guarantee is solely for the benefit of the Building Owner identified above and Building Owner's rights hereunder are not assignable. Upon sale or other transfer of the Building, Building Owner may request transfer of this Guarantee to the new owner, and JM may transfer this Guarantee, in its sole and absolute discretion only after receiving satisfactory information and payment of a transfer fee, which must be paid no later than 30 days after the date of Building ownership transfer.

In the event JM pays for repairs which are required due to the acts or omissions of others, JM shall be subrogated to all rights of recovery of the Building Owner to the extent of the amount of the repairs.

Because JM does not practice Engineering or Architecture, neither the issuance of this Guarantee nor any review of the Building's construction or inspection of roof plans (or the Building's roof deck) by JM representatives shall constitute any warranty by JM of such plans, specifications, and construction or in any way constitute an extension of the terms and conditions of this Guarantee. Any roof inspections are solely for the benefit of JM.

JM does not supervise nor is it responsible for a roofing contractor's work except to the extent stated herein, and roofing contractors are not agents of JM.

*JOHNS MANVILLE ("JM") is a Delaware corporation with its principal mailing address at P.O. Box 5108, Denver, Colorado 80217-5108.

Maintenance Program

In order to continue the coverage of this Guarantee, the following Maintenance Program must be implemented and followed:

4. Building Owner must notify JM Guarantee Services Unit (see below) immediately upon discovery of the leak and in no event later than ten (10) days after initial discovery of the leak, time being of the essence. Failure of the Building Owner to provide timely notice to JM Guarantee Services of any leak is a material ground for termination of the Guarantee.
5. In response to timely notice, JM will arrange to inspect the Roofing System, and
 - (iii) If, in JM's sole and absolute opinion, the leak(s) is/are the responsibility of JM under this Guarantee (see Limitations and Exclusions), then JM will take prompt appropriate action to return the Roofing system to a watertight condition, or
 - (iv) If, in JM's sole and absolute opinion, the leak(s) is/are not the responsibility of JM under this Guarantee, then JM will advise the Building Owner within a reasonable time of the minimum repairs that JM believes are required to return the Roofing System to a watertight condition. If the Building Owner, at his expense, promptly and timely makes such repairs to the Roofing System (time being of the essence) then this Guarantee will remain in effect for the unexpired portion of its Term. Failure to make any of these repairs in a timely and reasonable fashion will void any further obligation of JM under this Guarantee as to the damaged portion of the Roofing System as well as any other areas of the Roofing System impacted by such failure.
6. In the event an emergency condition exists which requires immediate repair to avoid damage to the Building, its contents or occupants, then Building Owner may make reasonable, essential temporary repairs. JM will reimburse Building Owner for those reasonable repair expenses only to the extent such expenses would have been the responsibility of JM under the Guarantee.

There are a number of items not covered by this Guarantee that are the sole, exclusive responsibility of the Building Owner. In order to ensure that your new roof will continue to perform its function and to continue JM's obligations under the Guarantee, you must examine and maintain these items on a regular basis:

- Maintain a file for your records on this Roofing System, including, but not limited to, this Guarantee, invoices, and subsequent logs of all inspections performed and repairs that are made to the Roofing System.
- Inspect your Roofing System at least semi-annually. This is best done in the Spring, after the Roofing System has been exposed to the harsh winter conditions, and, in the Fall after a long hot summer. It is also a good idea to examine the Roofing System for damage after severe weather conditions such as hailstorms, heavy rains, high winds, etc.
- Since these types of Roofing Systems typically have a low slope, they are easily examined. However, care must be taken to prevent falling and other accidents. JM expressly disclaims and assumes no liability for any inspections performed on the Roofing System.

When checking the Roofing System:

- Remove any debris such as leaves, small branches, dirt, rocks, etc. that have accumulated.
- Clean gutters, down spouts, drains and the surrounding areas. Make certain they allow water to flow off the Roofing System. Positive drainage is essential.
- Examine all metal flashings and valleys for rust and damage that may have been caused by wind or traffic on the Roofing System, and make certain they are well attached and sealed. Any damaged, loose, or poorly sealed materials must be repaired by a JM Approved Roofing Contractor only.
- Examine the areas that abut the Roofing System. Damaged masonry, poorly mounted counter flashing, loose caulking, bad mortar joints, and any loose stone or tile coping can appear to be a membrane leak. Have these items repaired by a JM Approved Roofing Contractor if found to be defective.
- Examine the edges of the Roofing System. Wind damage often occurs in these areas. Materials that have been lifted by the wind need to be corrected by a JM Approved Roofing Contractor.
- Examine any roof top equipment such as air conditioners, evaporative coolers, antennas, etc. Make certain they do not move excessively or cause a roof problem by leaking materials onto the Roofing System.
- Check the building exterior for settlement or movement. Structural movement can cause cracks and other problems which in turn may lead to leaks in your Roofing System.
- Examine protective coatings; any cracked, flaking, or blistered areas must be recoated.

Protecting your investment:

- Avoid unnecessary roof top traffic.
- If you allow equipment servicemen to go onto the Roofing System, advise them to be careful. Dropped tools, heavy equipment, etc. can damage the membrane. Log all such trips to the Roofing System.
- Do not allow service personnel to make penetrations into the Roofing System; these are to be made only by a JM Approved Roofing Contractor.

All the terms and conditions of this Guarantee shall be construed under the internal law of the state of Colorado without regard to its conflicts of law principles. Invalidity or unenforceability of any provisions herein shall not affect the validity or enforceability of any other provision which shall remain in full force and effect to the extent the main intent of the
