	Section Reference	Question	Answer
1	Form attachment Manufacturer/Mill Certification	I had a question regarding the MANUFACTURER/MILL CERTIFICATION. I am assuming this form is to assure that resellers have permission to sell products that a certain manufacturer makes? If that is the case, if it is a bid proposal for items from a number of manufacturers, does one need completed by each and every one of those manufacturers? Also, my business is small, so we are often not able to open reseller accounts through the manufacturers themselves, but rather a wholesaler who sells our business a plethora of items from thousands of manufacturers. What would our business do in that instance?	The Manufacturer/Mill Certification form is to be submitted with the invoice for the quoted items shipped to the facility. Therefore, the Attachment A - Item Specifications form lists the items that may require the signed form to certify that your business is an authorized reseller for that item. Whether the form is required depends on the item bid, as different manufacturers have different requirements. Consequently, the bidder must determine whether the form is necessary.

4	IFB Notes and Attachments section.	To support a potential submission, could you please clarify the specific types of medical supplies required or the preferred proposal format? I reviewed the statement of work on the portal, but it does not outline the additional details needed to prepare a complete response.	Please refer to the IFB Notes and Attachments tab and select the 02. Attachment A – Item Specifications attachment.
