Evaluation Criteria

RFO Provision 52.212-2, Evaluation -- Commercial Products and Commercial Services Items and its addendum apply to this acquisition. As prescribed in RFO 12.205(a)(2), the following addendum is provided for this solicitation and hereby amends any language therein:

Addendum to 52.212-2 Evaluation Commercial Products and Commercial Services

BASIS FOR CONTRACT AWARD: Government evaluation will be conducted on received quotations considering the evaluation factors listed herein. Consistent with Simplified Acquisition Procedures the quotations will be evaluated in accordance with RFO 12.201-1. Comparative evaluations will be utilized whereby the government will compare all quotes that meet the Government's requirements as defined in Addendum to 52.212-1 and 52.212-2. The government will select an awardee whose quote is considered the most advantageous to the government, price and other factors considered. Therefore, the Government reserves the right to select an awardee that provides benefit to the government exceeding the minimum standards but is not required to do so.

This selection will be based on an integrated evaluation of the factors as described below.

Part I - Technical Capability
Part II - Prior Experience
Part III - Price.

I. Technical capability evaluation:
In evaluation of this factor, the Government will confirm that quoter's technical part of quotation shall be clear, concise, and include all stated elements to ensure effective evaluation and for substantiating the validity of stated claims. The quoters should not simply rephrase or restate the government's requirements but rather shall provide convincing rationale to address how they intend to meet these requirements.

II. Prior Experience evaluation

In evaluation of this factor, the Government will confirm that the offeror submitted prior experience information of at least two (2) but no more than four (4) projects. Prior Experience must be relevant to the one required by Technical Specifications. Relevant prior experience includes projects completed within three (3) years from the solicitation posting date. In evaluation of this factor, the Government will confirm that the offeror submitted the Prior Experience in the format required by Addendum to RFO 52.212-1.

III. Price Evaluation:
The reasonableness of the quotation will be determined on the total price provided for this solicitation. The

total price will be determined by the sum of all the unit price submitted for each of the items listed on the Price List (Attachment 3 Price Schedule). Quoters should give the best available price to the Government for each unit price in terms of arriving at the most competitive price. Additionally, as this requirement is commercial and will result in a "firm-fixed price", a comparison of quoters' total price will satisfy the requirement for price analysis, in determining the price fair and reasonable. The Government may determine that an offer is unacceptable if the prices are significantly unbalanced.

Important note: The listing of the above evaluation factors is not in any order of importance.

No additional requirements or terms and conditions apply to this acquisition.

Defense Priorities and Allocations System (DPAS) assigned rating is: none.

SAM Requirement - Offerors are required to be registered and have an active profile in the System for Award Management (SAM) at the time a quotation is submitted in order to comply with the annual representations and certifications requirements. If company is not registered in SAM, they may do so by going to SAM website at https://sam.gov/help.Offerors should provide their CAGE code and confirmation of their SAM registration along with their quote.
