The National Park Service (NPS) intends to award a firm-fixed-price contract with an economic price adjustment provision, consisting of a one-year base period and four one-year option periods, to the responsible quoter whose quotation conforms to the requirements of the solicitation and offers the lowest evaluated price to the Government.

GENERAL INFORMATION:

This Request for Quotation (RFQ) is issued on Standard Form (SF) 18. This acquisition is conducted in accordance with FAR Part 12, Acquisition of Commercial Products and Commercial Services.

The Government intends to award a single contract to the responsible quoter whose quotation conforms to the requirements of the solicitation and offers the lowest evaluated price to the Government.

The contract resulting from this solicitation will be a Firm-Fixed-Price Contract with Economic Price Adjustment (EPA) based on **actual deliveries ordered** by the Government.

Because propane is a commodity product whose market price is subject to fluctuations resulting from changes in supply and demand, energy markets, transportation costs, weather events, geopolitical conditions, and other factors beyond the Contractor's control, the Government has determined that an Economic Price Adjustment provision is appropriate to allocate the risk associated with market price volatility. Accordingly, FAR 52.216-2, Economic Price Adjustment—Standard Supplies (Jan 1997), will be incorporated into the solicitation and resulting contract. Any adjustment to contract prices shall be made in accordance with the terms and conditions of the clause and the pricing methodology specified elsewhere in the solicitation.

The contract price shall consist of a fixed contractor markup and transportation component applied to the applicable published propane index identified in the Economic Price Adjustment clause and Schedule.

COMPLIANCE WITH RECENT EXECUTIVE ORDERS 14148/14208

System updates may lag policy updates. The System for Award Management (SAM) may continue to require entities to complete representations based on provisions that are not included in agency solicitations, including 52.223-22, Public Disclosure of Greenhouse Gas Emissions and Reduction Goals—Representation, and paragraph (t) of 52.212-3, Offeror Representations and Certifications—Commercial Products and Commercial Services. Agencies will not consider or use these representations. Entities are not required to, nor are they able to, update their entity registration to remove these representations in SAM.

III. PRICE SCHEDULE

Offerors shall complete the **Price Schedule, Attachment 1**. Failure to provide pricing for all Contract Line-Item Numbers (CLINs) for the Base Period and all Option Periods may render the quotation ineligible for award.

Price adjustments for propane furnished under this contract shall be based on the most current Conway Principal Average daily pricing published in the *Butane Propane News (BPN) Weekly Propane Newsletter* (https://bpnews.com/tag/bpn-pricing-and-supply).

The published Conway Principal Average in effect on the date of delivery shall serve as the basis for determining the delivered propane price in accordance with FAR 52.216-2, Economic Price Adjustment—Standard Supplies, and the pricing methodology established in this solicitation.

Offerors shall propose a firm-fixed-price markup (add-on) to be applied to the applicable Conway Principal Average price. The proposed markup shall include all costs associated with transportation, overhead, profit, and any other costs necessary to perform the contract unless otherwise specified in the Schedule. The markup shall remain fixed within each contract period and the Price Schedule should contain separate markups for each option year and shall not be subject to adjustment.

The unit price for each delivery shall be calculated as follows:

Delivered Unit Price = Current Conway Principal Average + Contractor's Fixed Markup

The resulting delivered unit price shall be rounded to the nearest cent ($0.01) per gallon.

With each invoice, the Contractor shall provide documentation from the applicable *Butane Propane News (BPN) Weekly Propane Newsletter* identifying the Conway Principal Average used to calculate the delivered unit price. Information regarding subscriptions and access to the publication may be obtained from Butane Propane News at subscriptions@bpnews.com.

For evaluation purposes, Offerors shall complete Attachment 1 using the evaluation pricing methodology identified in the Price Schedule.

The Government will evaluate proposed pricing for fairness and reasonableness. Price reasonableness may be determined through comparison with competitive quotations received, the Independent Government Estimate (IGE), historical pricing information and current market conditions.

The Government may also evaluate whether a quotation reflects a clear understanding of the contract requirements and whether the proposed pricing presents any performance risk to successful contract execution.

IV. QUOTE SUBMISSION

Closing Response Date/Time: June 22, 2026, no later than 1:00 p.m. MDT

The offerors shall submit a quote to the Contracting Officer to Stacy_Vallie@ios.doi.gov.

Questions regarding this solicitation shall be submitted in writing to the Contracting Officer and will be accepted through June 16, 2026, at 1:00 p.m. MDT. Telephone inquiries will not be accepted to ensure all vendors receive consistent information. Responses to questions will be provided through a solicitation amendment, if necessary.

Quotes shall be in accordance with and in the order detailed in this section. Failure to submit quotes according to the instructions provided within the solicitation may result in the respondent's quote not being considered for award.

Offers shall submit the following information in its entirety:

1. Complete the checklist for quote on **Attachment 1 – Price Schedule.**

   NOTE: Please check SAM.gov regularly in any case an amendment was posted, as this amendment must be reviewed, acknowledged by signing the SF30 and ensuring that it is provided with your final quote package.

2. Complete attached Price Schedule and insert total unit price and/or amount, in reference to ALL line items listed. Ensure this document is not edited for any reason (outside of adding units of measure, quantities, etc.) and the unedited Price Schedule is provided with final pricing – if needing to make edits or alter the document, provide an addendum outlining these changes or additional information wanting to make apparent to the evaluators.

   NOTE: Alternate quotes will not be accepted. Provide us with the final offer total, as this will be the evaluated price.

3. Submit all required documents via email by the date and time listed in this solicitation. Offerors are responsible for submitting quotes so as to reach the Government office designated in the solicitation by the time specified in the solicitation. Offerors should consider and account for potential delays in transmissions between when an electronic submission is submitted and when an electronic submission is received. Late quotes will not be accepted.

4. To be considered for award your company must obtain a Unique Entity Identifier (UEI). Your company shall also be registered in the System for Award Management (SAM) at https://www.sam.gov and be considered a small business for the size standard associated with the NAICS code of this solicitation, and this registration must be "active" in SAM at the time of quote close date/time, as well as, at the time of award and throughout the entire award/contract performance.

5. If you have any registration questions or if you need assistance with registration or updating SAM, please contact the National APEX Accelerator nearest you. Website: Home - National Apex Accelerator Alliance // APEX Accelerators.

V. AWARD SELECTION PROCESS

Award will be made to the responsible quoter whose quotation conforms to the solicitation and offers the lowest evaluated price.

A price evaluation will be performed to determine the reasonableness of the proposed price. Reasonableness will be determined considering other competitive prices received and comparison to the independent Government estimate. If multiple contract line items are included in the price schedule, prices will also be evaluated to determine whether any line items are unbalanced. Offerors are cautioned to distribute costs appropriately.

Quotes will receive a preliminary review to determine whether the quote contains sufficient information, as required by the solicitation, to allow the government to perform a meaningful evaluation. If the results of this preliminary review indicate that the quote lacks sufficient information to allow a meaningful evaluation to be conducted, the Contract Specialist/Contracting Officer may eliminate the quote from further evaluation and consideration for an award.
