SECTION H - SPECIAL CONTRACT REQUIREMENTS
SOURCES ELIGIBLE FOR AWARD CONSIDERATION

(a) Competition under this solicitation is restricted to the following sources:

(1) Approved Sources listed in Section B -- sources that have been approved by the prime manufacturer or the Government for supply of item(s) listed in this solicitation, to assure the requisite safe, dependable, effective operation and support of military equipment.

(2) Sources that have been approved prior to award -- other than approved sources listed in Section B.

(3) Non-manufacturers--offers from non-manufacturers (distributors) will only be considered for award if the required item(s) is new material and has been or will be obtained from a source of supply which has been approved prior to award. The source and part number of the item the offeror intends to supply must be stated in the offer.

(b) Only offers submitted by the above sources will be considered for award under this solicitation.

(c) Offerors (prospective manufacturers or non-manufacturers [distributors]) who wish to become an approved source of supply for an item listed in this solicitation should proceed per the instructions set forth in paragraph (d) below. It is noted that offeror requests for source approval in conjunction with this procurement will not be a cause for delay in this solicitation action. However, if it is determined that additional sources will clearly benefit the Government and that any delay incident to their approval would not impact readiness, a reasonable delay may be entertained. Whether or not such delay will occur will be solely at the discretion of the Government, and the time set for opening of the Invitation for Bids or the closing date of the Request for Proposals may or may not be extended. An extension will be witnessed by issuance of an amendment to this solicitation.

(d) Offerors (prospective manufacturers or non-manufacturers [distributors]) seeking to obtain source approval, must submit a Source Approval Request (SAR) package, for review and approval, to the Systems Readiness Directorate (SRD), Aviation and Missile Center, DEVCOM. Source approval must be obtained prior to being considered for contract award. Approvals are made on an individual part number basis for a specific manufacturing location (CAGE). SAR instructions can be found at https://www/avmc.army.mil/Directorates/SRD/SAR/. Questions concerning SAR submissions can be directed to the SRD SAR Team at usarmy.redstone.devcom-avmc.mbx.amr-m-sar@army.mil.

(e) The Aviation and Missile Lifecycle Management Command (AMCOM) may require additional data, testing, or plant visits before it is able to completely evaluate a SAR. This may require the offeror (at no expense to the Government) to supply parts for testing, engine run up, or flight tests. In that event, the requestor will be so advised. AMCOM reserves the right to approve a contractor for award prior to completion of physical testing of the offered item. In such cases, the contractor shall perform any outstanding tests and provide all required documentation at no cost to the Government prior to entering upon full production. Lack of successful performance within the specified timeframe shall be grounds for a no cost termination.

(f) When a SAR is received, it will be processed for evaluation. If the evaluation and approval (including preparation or update of the requisite technical data package (TDP)) occurs before award, the requestor will be considered for award if a proposal was submitted per (d) above. If the evaluation/TDP preparation has not been completed prior to award, AMCOM will continue the process until complete. If the requestor's SAR becomes approved, the requestor will be eligible for consideration on all future solicitations for the item.

(g) All approval or disapproval notices shall be officially provided to the contractor by the appropriate technical official.

(h) Non-manufacturers (distributors) seeking to supply an item from a non-approved source must first ensure that the source becomes approved in accordance with (d) above prior to contract award.

REVISIONS TO DRAWINGS/PART NUMBERS REQUIREMENT

(a) Sources in receipt of this solicitation are requested, at no cost to the Government, to immediately notify the Contracting Officer if they are aware of any change(s)/revision(s) to the drawing(s) or part number(s) in this solicitation which have been approved by the Government for implementation. Notification of part number changes shall be supported by data which indicates the type of change, approving authority as required by ANSI EIA 649 MIL-STD-973 and date and method of submittal of provisioning documentation and drawings.

If complete data package has not been previously provided, the contractor shall, at no direct cost to the Government, immediately submit applicable drawings, along with a copy of the approval change authority, to the Contracting Officer, at the office symbol and mailing address listed in the "ISSUED BY" block on page one (1) of this document. The minimum acceptable data includes the next higher assembly and the item of Supply Detail Drawings which will allow provisioning, National Stock Number assignment and updating of AMCOM's data records.

(b) The contractor hereby verifies previous contractual submission of technical data:

Contract No.:_____

Name of Offeror or Contractor:

Explanation of Data Rights:_____

(c) The Government is not by this request soliciting, nor is the Government liable for cost incurred by the offeror in preparing or developing modifications, deviations, waivers, or other changes to drawings or part number(s). Furthermore, this request does not authorize changes to the drawing(s) or part number(s) for this acquisition, another contract, or for any other purpose. Offerors performing any contract awarded as a result of this solicitation must comply with the drawing(s) and specifications as set forth herein, unless this solicitation is amended or any resulting contract is modified by the Contracting Officer.

(d) All proposed part number changes shall be submitted pursuant to the requirements of the requirement entitled, " ENGINEERING CHG PROPOSAL, VALUE ENG CHG PROPOSAL, REQUEST FOR VARIANCE, ENG RELEASE RECORDS, NOTICE OF REVISION, AND SPECIFICATION CHG NOTICE PREPARATION AND SUBMISSION INSTRUCTIONS"

ENGINEERING CHG PROPOSAL, VALUE ENG CHG PROPOSAL, REQUEST FOR VARIANCE, ENG RELEASE RECORDS, NOTICE OF REVISION, AND SPECIFICATION CHG NOTICE PREPARATION AND SUBMISSION INSTRUCTIONS

1. Contractor initiated Engineering Change Proposals (ECPs), Value Engineering Change Proposals (VECPs), and Request for Variance (RFVs), collectively referred to as "proposals", shall be prepared, submitted and distributed in accordance with paragraphs 2, 3 and 4 below except as specified in paragraph 5 below

2. Format.

a. Class I ECPs require the "Long Form Procedure" for documenting the change and describing the effects of the change on the suitability and supportability of the Configuration Item (CI). Class I ECPs should be limited to those that are necessary or offer significant benefit to the Government. Class I ECPs are those that affect the performance, reliability, maintainability, survivability, weight, balance, moment of inertia, interface characteristics, electromagnetic characteristics, or other technical requirements in the specifications and drawings. Class I ECPs also include those changes that affect Government Furnished Equipment, safety, compatibility, retrofit, operation and maintenance manuals, interchangeability, substitutability, replaceability, source control specifications and drawings, costs, guarantees or warranties, deliveries, or schedules. Class II ECPs are those that do not affect form, fit and function, cost, or schedule of the system CI and do not meet the other criteria described above for Class I ECPs.

b. Long Form Procedure: Class I changes to the CI require that DD Form 1692, pages 1 through 7 (as applicable), be prepared. Use of this procedure assures that all effects of the change on the CI are properly addressed and documented to the necessary detail to allow proper evaluation of the proposed change.

c. Short Form Procedure: ECPs and VECPs , which meet the requirements of Class II ECPs, shall be prepared using DD Form 1692 (page 1 only). Supplemental pages may be used with the form as necessary. The responsible Defense Contract Management Agency (DCMA) Contract Management Office (CMO) will validate data entries in Block 5 "Class of ECP", Block 6 "Priority", and Block 8 "Justification Codes."

d. The Contractor shall not manufacture items for acceptance by the Government that incorporate a known departure from requirements, unless the Government has approved an RFV. RFVs shall be prepared using DD Form 1694.

e. Each ECP and RFV shall be accompanied by a written and signed evaluation prepared by the responsible Defense Contract Management Agency (DCMA) technical representative. The DCMA written evaluation shall be considered part of the ECP/RFV proposal.

f. Classification of RFVs.

(1) Major RFVs. RFVs written against CIs shall be designated as major when the RFV consists of acceptance of an item having a nonconformance with contract or configuration documentation involving health; performance; interchangeability; reliability; survivability; maintainability; effective use or operation; weight; appearance (when a factor); or when there is a departure from a requirement classified as major in the contractual documentation.

(2) Critical RFVs. RFVs written against CIs shall be designated as critical when the RFV consists of acceptance of an item having a nonconformance with contract or configuration documentation involving safety or when there is a departure from a requirement classified as critical in the contractual documentation.

(3) Minor RFVs. RFVs written against CIs shall be designated as minor when the RFV consists of acceptance of an item having a nonconformance with contract or configuration documentation which does not involve any of the factors listed above in paragraphs f(1) or g(2), or when there is a departure from a requirement classified as minor in the contractual documentation.

g. Proposals shall include sufficient technical data to describe all changes from existing contract requirements.

h. Proposals shall include sufficient justification for making the change, including a statement of contract impact, if the

change is not authorized.

i. Proposals for ECPs shall set forth a "not to exceed" price and delivery adjustment acceptable to the Contractor if the Government subsequently approves the proposal. If approved, the equitable increase shall not exceed this amount.

j. Times allowed for technical decisions for ECP and RFV proposals will be worked out via mutual agreement between the Contractor and the Government.

k. Proposals for VECPs shall set forth a "not less than" price and delivery adjustment acceptable to the Contractor if the Government subsequently approves the proposal. If approved, the savings shall not be less than this amount.

l. The Contractor shall utilize DD Form 2617, "Engineering Release Record" (ERR) to release new or revised configuration documentation to the Government for approval.

m. The Contractor shall utilize DD Form 1695, "Notice of Revision" (NOR) to describe the exact change(s) to configuration documentation specified as a data requirement in the contract. The Contractor shall describe the change using sub-sections entitled "WAS" to describe the current contractual technical requirement and "IS" to describe the proposed new requirement.

3. Submittal. The preferred method of submittal is digitally as a single file in Adobe Acrobat Portable Document Format (PDF). Unless otherwise specified, alternate methods of submittal shall be proposed to and authorized by the PCO prior to submittal. If the hardcopy method is requested and approved, the Contractor shall submit two (2) copies of each proposal to the responsible Administrative Contracting Officer (ACO). One (1) copy of each proposal shall be returned to the Contractor within (5) working days after receipt by the ACO, stating whether or not the proposal is in compliance with this provision. Any unresolved differences between the ACO and the Contractor concerning ECPs, VECPs, or RFVs will be submitted to the PCO for resolution.

4. Distribution.

a. Electronic Distribution. The preferred method of distribution for unclassified is through the email or DOD safe site (https://safe.apps.mil) addressed to the PCO. Classified material shall be distributed via SIPERNET or by classified email as determined by the PCO. Microsoft Word is required for use with the transmittal letter (E-mail). Required forms will be attached to the E-mail. All forms may be obtained from the Office of the Secretary of Defense Executive Services Directorate DoD Directives Division website (http://www.esd.whs.mil/DD/) via the DoD Forms menu. The forms are provided in fillable Adobe Acrobat Portable Document Format (PDF). In order to access and use the forms, the user must have the "Adobe Acrobat" software installed on their computer. Drawings may be scanned and sent as an attachment. In some cases, because of size, drawings may have to be sent as hard copies or sent under special electronic instructions provided by the PCO.5. Alternate Format, Submittal or Distribution Process. Proposals may be prepared in a different format, submitted using a different submittal process or distributed in a different manner than specified in paragraphs 2, 3 and 4 above, so long as the alternate approach is in accordance with a Government approved configuration management plan governed by this contract or the PCO authorizes the alternate format, submittal, or distribution process.

5. Alternate Format, Submittal or Distribution Process. Proposals may be prepared in a different format, submitted using a different submittal process or distributed in a different manner than specified in paragraphs 2, 3 and 4 above, so long as the alternate approach is in accordance with a Government approved configuration management plan governed by this contract or the PCO authorizes the alternate format, submittal, or distribution process.

6. Government Acceptance. Acceptance of a proposal by the Government shall be affected by the issuance of a change order or execution of a supplemental agreement incorporating the proposal into the contract unless the PCO authorizes another method of acceptance. The Government will notify the Contractor in writing if a proposal is determined to be unacceptable.

CALIBRATION REQUIREMENTS

The calibration of Test, Measurement and Diagnostic Equipment shall be in accordance with American National Standards Institute/National Conference of Standards Laboratories (ANSI/NCSL) Z540-3-2006 (General Requirements for Calibration Laboratories and Measuring and Test Equipment) or ISO 10012:2003 (Quality Assurance Requirements for Measuring Equipment). Terminology shall be as defined by International Organization for Standardization (ISO) 8402, Quality Management and Quality Assurance Vocabulary.

K-10 52.209-13 VIOLATION OF ARMS CONTROL TREATIES OR AGREEMENTS--CERTIFICATION FEB/2026

(a) This provision does not apply to acquisitions at or below the simplified acquisition threshold or to acquisitions of commercial products and commercial services as defined at FAR 2.101.

(b) Certification. [Offeror shall check either (1) or (2).]

____ (1) The Offeror certifies that--

(i) It does not engage and has not engaged in any activity that contributed to or was a significant factor in the President's or Secretary of State's determination that a foreign country is in violation of its obligations undertaken in any arms control, nonproliferation, or disarmament agreement to which the United States is a party, or is not adhering to its arms control, nonproliferation, or disarmament commitments in which the United States is a participating state. The determinations are described in the most recent unclassified annual report provided to Congress pursuant to section 403 of the Arms Control and Disarmament Act (22 U.S.C. 2593a). The report is available at https://www.state.gov/bureaus-offices/under-secretary-for-arms-control-and-international-security-affairs/bureau-of-arms-control-verification-and-compliance/ ; and

(ii) No entity owned or controlled by the Offeror has engaged in any activity that contributed to or was a significant factor in the President's or Secretary of State's determination that a foreign country is in violation of its obligations undertaken in

any arms control, nonproliferation, or disarmament agreement to which the United States is a party, or is not adhering to its arms control, nonproliferation, or disarmament commitments in which the United States is a participating state. The determinations are described in the most recent unclassified annual report provided to Congress pursuant to section 403 of the Arms Control and Disarmament Act (22 U.S.C. 2593a). The report is available at https://www.state.gov/bureaus-offices/under-secretary-for-arms-control-and-international-security-affairs/bureau-of-arms-control-verification-and-compliance/ ; or

____ (2) The Offeror is providing separate information with its offer in accordance with paragraph (d)(2) of this provision.

(c) Procedures for reviewing the annual unclassified report (see paragraph (b)(1) of this provision). For clarity, references to the report in this section refer to the entirety of the annual unclassified report, including any separate reports that are incorporated by reference into the annual unclassified report.

(1) Check the table of contents of the annual unclassified report and the country section headings of the reports incorporated by reference to identify the foreign countries listed there. Determine whether the Offeror or any person owned or controlled by the Offeror may have engaged in any activity related to one or more of such foreign countries.

(2) If there may have been such activity, review all findings in the report associated with those foreign countries to determine whether or not each such foreign country was determined to be in violation of its obligations undertaken in an arms control, nonproliferation, or disarmament agreement to which the United States is a party, or to be not adhering to its arms control, nonproliferation, or disarmament commitments in which the United States is a participating state. For clarity, in the annual report an explicit certification of non-compliance is equivalent to a determination of violation. However, the following statements in the annual report are not equivalent to a determination of violation:

(i) An inability to certify compliance.

(ii) An inability to conclude compliance.

(iii) A statement about compliance concerns.

(3) If so, determine whether the Offeror or any person owned or controlled by the Offeror has engaged in any activity that contributed to or is a significant factor in the determination in the report that one or more of these foreign countries is in violation of its obligations undertaken in an arms control, nonproliferation, or disarmament agreement to which the United States is a party, or is not adhering to its arms control, nonproliferation, or disarmament commitments in which the United States is a participating state. Review the narrative for any such findings reflecting a determination of violation or non-adherence related to those foreign countries in the report, including the finding itself, and to the extent necessary, the conduct giving rise to the compliance or adherence concerns, the analysis of compliance or adherence concerns, and efforts to resolve compliance or adherence concerns.

(4) The Offeror may submit any questions with regard to this report by email to NDAA1290Cert@state.gov. To the extent feasible, the Department of State will respond to such email inquiries within 3 business days.

(d) Do not submit an offer unless--

(1) A certification is provided in paragraph (b)(1) of this provision and submitted with the offer; or

(2) In accordance with paragraph (b)(2) of this provision, the Offeror provides with its offer information that the President of the United States has--

(i) Waived application under U.S.C. 2593e(d) or (e); or

(ii) Determined under 22 U.S.C. 2593e(g)(2) that the entity has ceased all activities for which measures were imposed under 22 U.S.C.2593e(b).

(e) Remedies. The certification in paragraph (b)(1) of this provision is a material representation of fact upon which reliance was placed when making award. If it is later determined that the Offeror knowingly submitted a false certification, in addition to other remedies available to the Government, such as suspension or debarment, the Contracting Officer may terminate any contract resulting from the false certification.

USE OF SUPPLIER PERFORMANCE RISK SYSTEM (SPRS) IN PAST PERFORMANCE EVALUATION (JUN 2024)
(1) The Government will use the Supplier Performance Risk System (SPRS) (https://www.sprs.csd.disa.mil/) (formerly Past Performance Information Retrieval System Statistical Reporting (PPIRS-SR)) and may use other performance history to evaluate suppliers past performance.

(2) SPRS collects quality and delivery data on previously awarded contracts and orders from existing Department of Defense reporting systems to classify each supplier's performance history by Federal supply class (FSC) and product or service code (PSC). The SPRS application provides the contracting officer quantifiable past performance information regarding a supplier's quality and delivery performance for the FSC and PSC of the supplies the Government is purchasing.

(3) The contracting officer will use the quality and delivery classifications identified for a supplier in SPRS to evaluate a supplier's past performance in conjunction with the supplier's references (if requested). The Government will use this past performance information in accordance with the basis for award stated in the solicitation.

(4) SPRS generates classifications daily for each contractor. The SPRS Software User's Guide for Awardees/Contractors (https://www.sprs.csd.disa.mil/pdf/SPRS_Awardee.pdf) and the SPRS Government User Guide (https://www.sprs.csd.disa.mil/pdf/SPRS_Government.pdf) provide instructions for accessing SPRS classifications. Contractors have access to SPRS for their own classifications only. Suppliers are encouraged to review their own classifications; the SPRS reporting procedures and classification methodology detailed in the SPRS Software User's Guide for Awardees/Contractors (https://www.sprs.csd.disa.mil/pdf/SPRS_Awardee.pdf); and the SPRS Evaluation Criteria (https://www.sprs.csd.disa.mil/pdf/SPRS_DataEvaluationCriteria.pdf). The SPRS Software User's Guide for Awardees/Contractors (https://www.sprs.csd.disa.mil/pdf/SPRS_Awardee.pdf) provides the method to challenge a rating generated by SPRS.

SECTION M - EVALUATION FACTORS FOR AWARD

This document incorporates one or more provisions by reference, with the same force and effect as if they were given in full text. Upon request, the Contracting Officer will make their full text available. Also, the full text of a provision may be accessed electronically at these addresses:

For FAR clauses: https://www.acquisition.gov/

For DFARS clauses: https://www.acq.osd.mil/dpap/dars/dfarspgi/current/index.html

If the provision requires additional or unique information, then that information is provided immediately after the provision title.

EVALUATION CRITERIA

1. MINIMUM TECHNICAL REQUIREMENTS. TO BE TECHNICALLY ACCEPTABLE AND THUS, ELIGIBLE FOR AWARD, A PROPOSAL MUST CONFORM TO ALL SOLICITATION REQUIREMENTS, SUCH AS TERMS AND CONDITIONS, REPRESENTATIONS AND CERTIFICATIONS, AND TECHNICAL REQUIREMENTS PROVIDED WITHIN ALL SECTIONS OF THIS SOLICITATION AND/OR WITHIN ITS ATTACHED ADDENDA. PROPOSALS RECEIVING A TECHNICAL RATING OF "UNACCEPTABLE" WILL BE INELIGIBLE FOR AWARD.

2. PRICE. IN ADDITION TO MEETING THE SOLICITATIONS TECHNICAL AND QUANTITY INCREMENT OR RANGE REQUIREMENTS ABOVE AND COST AND PRICING REQUIREMENTS BELOW, THE GOVERNMENT WILL EVALUATE A PROPOSALS PRICING FOR REASONABLENESS. EVALUATION OF A PROPOSAL'S PRICING WILL NOT OBLIGATE THE GOVERNMENT TO ORDER THE ESTIMATED QUANTITIES OR TO DISTRIBUTE ORDERS IN THE MANNER EVALUATED. THE GOVERNMENT MAY REJECT A PROPOSAL AS "UNACCEPTABLE", IF ITS PRICING IS DETERMINED TO BE MATERIALLY UNBALANCED.

3. COST AND PRICING DATA. OFFERORS MUST PROVIDE ALL COST OR PRICING INFORMATION REQUIRED BY FAR 15.4. FAILURE OF A PROPOSAL TO PROVIDE COST OR PRICING INFORMATION REQUIRED BY FAR 15.4 WILL RESULT IN SAID PROPOSAL BEING DEEMED UNACCEPTABLE, AND THUS, INELIGIBLE FOR AWARD.

(a)AWARD. The Government intends to evaluate proposals and, if necessary, conduct discussions with all responsible offerors within the competitive range. The award will be made to the offeror whose proposal conforms to the terms and conditions of the solicitation and represents the best value to the Government. Therefore, award may be made to other than the lowest priced or the highest technically rated offer.

(b)RELATIVE IMPORTANCE AND TRADE-OFFS. The Government will base the determination of best value on a comparative assessment of the offerors' prices, past performance, and the other evaluation factors identified elsewhere in this solicitation. The determination of best value also considers the relative importance of the evaluation factors. All evaluation factors, when combined, are:
[X] significantly more important than cost or price. As other evaluation factors become more equal, the evaluated cost or price becomes more important.
[ ] approximately equal to cost or price; or
[ ] significantly less important than cost or price. As the evaluated cost/price becomes more equal, relative importance of all other evaluation factors becomes more significant.
The final award decision may involve a trade-off among cost or price and the non-price factors. Factors that may be considered in the trade-off process include, but are not limited to:
Item criticality and weapons system application
Current inventory status
Historical delivery or quality problems
Concerns over limited supply sources and industrial base
Benefits from obtaining new sources
(c)COST OR PRICE. The Government will evaluate the offered cost or price. The Government will add any other cost or price evaluation factors identified elsewhere in this solicitation (e.g., Buy American Act or FOB Origin transportation costs) to arrive at the offeror's evaluated cost or price. The evaluated cost or price will be used in conjunction with the other non-price factors to determine the best value to the Government.

(d)PAST PERFORMANCE. Past performance includes, but is not limited to, the offeror's record of conforming to contract requirements and standards of good workmanship; adherence to contract schedules, including the administrative aspects of performance; the offeror's reputation for reasonable and cooperative behavior and commitment to customer satisfaction; and generally, the offeror's business-like concern for the customer's interest.
(i) The Supplier Performance Risk System (SPRS) is the current term for past performance that is formerly known as Past Performance Information Retrieval System Statistical Reporting (PPIRS-SR), as applicable, will be used to evaluate quality and past performance on DLA awards.
(ii) In addition, offerors may submit with their offer information on past and current Federal (non-DLA Aviation), State and local government and private sector contracts performed by the offeror at the proposed performance location within the last three years that are similar in nature to this acquisition. Offerors electing to submit this data must furnish at least the following information: name and address of the contracting entity; the contract number; award and completion dates; the dollar value; the contract type; the items

or services provided; two references, with title and phone number; and any problems encountered and the corrective action taken by the offeror.
(iii) By submitting past performance information, the offeror agrees to permit the Government's representatives to contact the listed references and inquire of the offeror's performance. If more than three contracts are identified, the Government reserves the right to randomly select and limit its review to three contracts. In addition to the information provided, the Government may consider information obtained from other sources when evaluating the offeror's past performance. Offerors will be given the opportunity to discuss negative past performance information obtained from references if the offeror has not had a previous opportunity to comment on that information.
(iv) Offerors with no past performance history (whether internal or external to the Federal government) will not be evaluated favorably nor unfavorably.

(e) PAST PERFORMANCE EVALUATION FACTORS. The Government will use the past performance evaluation factors marked below in addition to cost or price and other evaluation factors specified in the solicitation. Unless indicated otherwise, past performance is significantly more important than other non-price factors. Within the past performance subfactors, SPRS assessments (as applicable) will be weighed most heavily. Historical quality history and delivery schedule compliance (not captured in SPRS) will be weighed more heavily than the remaining past performance subfactors. All other non-price evaluation factors specified in this solicitation weigh equally, unless otherwise indicated.
[ ] SPRS Assessments (i.e., quality and delivery)
