52.209-1 QUALIFICATION REQUIREMENTS (Deviation 2026-O0038) (IAW RFO 9.206-2)

(a) *Definition*. As used in this clause—

Qualification requirement means a Government requirement for testing or other quality assurance demonstration that must be completed before award.

(b) One or more qualification requirements apply to the supplies or services covered by this contract. For those supplies or services requiring qualification, whether the covered product or service is an end item under this contract or simply a component of an end item, the product, manufacturer, or source must have demonstrated that it meets the standards prescribed for qualification before award of this contract. The product, manufacturer, or source must be qualified at the time of award whether or not the name of the product, manufacturer, or source is actually included on a qualified products list, qualified manufacturers list, or qualified bidders list. Offerors should contact the agency activity

designated below to obtain all requirements that they or their products or services, or their subcontractors or their products or services, must satisfy to become qualified and to arrange for an opportunity to demonstrate their abilities to meet the standards specified for qualification.
(Name) _____
(Address) _____
(c) If an offeror, manufacturer, source, product or service covered by a qualification requirement has already met the standards specified, the relevant information noted below should be provided.
Offeror's Name _____
Manufacturer's Name_____
Source's Name _____
Item Name _____
Service Identification _____
Test Number _____ (to the extent known)
(d) Even though a product or service subject to a qualification requirement is not itself an end item under this contract, the product, manufacturer, or source must nevertheless be qualified at the time of award of this contract. This is necessary whether the Contractor or a subcontractor will ultimately provide the product or service in question. If, after award, the Contracting Officer discovers that an applicable qualification requirement was not in fact met at the time of award, the Contracting Officer may either terminate this contract for default or allow performance to continue if adequate consideration is offered and the action is determined to be otherwise in the Government's best interests.
(e) If an offeror, manufacturer, source, product or service has met the qualification requirement but is not yet on a qualified products list, qualified manufacturers list, or qualified bidders list, the offeror must submit evidence of qualification prior to award of this contract. Unless determined to be in the Government's interest, award of this contract will not be delayed to permit an offeror to submit evidence of qualification.
(f) Any change in location or ownership of the plant where a previously qualified product or service was manufactured or performed requires reevaluation of the qualification. Similarly, any change in location or ownership of a previously qualified manufacturer or source requires reevaluation of the qualification. The reevaluation must be accomplished before the date of award.

17. Was an 8(a), HUBZone, service-disabled veteran-owned, economically disadvantaged women-owned, or women-owned small business set-aside or sole-source award regardless of dollar value.

(e) Except as provided in paragraph (g) of this clause, the Contractor shall make the representation(s) required by paragraph (b) of this clause by validating or updating all its representations in the Representations and Certifications section of the System for Award Management (SAM) and its other data in SAM, as necessary, to ensure that they reflect the Contractor's current status. The Contractor shall notify the contracting officer in writing within the timeframes specified in paragraph (b) of this clause, that the data have been validated or updated, and provide the date of the validation or update.

(f) If the Contractor represented that it was other than a small business concern prior to award of this contract, the Contractor may, but is not required to, take the actions required by paragraphs (e) or (g) of this clause.

(g) If the Contractor does not have representations and certifications in SAM, or does not have a representation in SAM for the NAICS code applicable to this contract, the Contractor is required to complete the following rerepresentation and submit it to the contracting office, along with the contract number and the date on which the rerepresentation was completed:

Section M – Evaluation Criteria for Award

EVALUATION CRITERIA FOR AWARD (IAW RFO 13.202, RFO 14.306, RFO 15.202)

Solicitation Requirements, Terms and Conditions: Offerors are required to meet all solicitation requirements, such as terms and conditions, representations and certifications, and required delivery schedules.

This acquisition will utilize Lowest Priced procedures restricted to technically qualified offeror(s), identified as such by being listed as an approved source on the Contract Screening Analysis Worksheet (761/762).

Per RFO 9.202(e): The contracting officer need not delay a proposed award to provide a potential offeror with an opportunity to demonstrate its ability to meet qualification standards. In addition, when approved by the head of an agency or designee, a procurement need not be delayed in order to comply with paragraph 9.202(a).

The government intends to award the requirement(s) represented in this solicitation to one awardee. However, the Government reserves the right to award no contract at all.

For the purposes of award, offers will be evaluated based on the following factors, listed in descending order of importance:

Order of Importance	Order of Importance
Price or Cost	01
Mission Capability	02
Past Performance	03

Factor 01- Price or Cost

The Offeror's price will be evaluated based upon the Total Evaluated Price (TEP). The Offeror's Price Proposal will be evaluated for the criteria of Price Reasonableness and Balance.

Price Reasonableness: The proposed prices will be evaluated for Price Reasonableness. For a price to be reasonable, it will represent a price to the Government that a prudent person would pay when consideration is given to prices in the market. Normally, price reasonableness is established through adequate price competition, but may also be determined through cost and price analysis techniques as described in RFO 15.404. For additional information see RFO 31.201-3.

Balance: The Government may also determine a proposal unacceptable should the proposed prices be unbalanced. Unbalanced pricing exists when, despite an acceptable total evaluated price, the price of one or more items/Contract Line Item Numbers (CLINs) is significantly overstated or understated as indicated by the application of price analysis techniques as those defined by RFO 15.404.

Total Evaluated Price (TEP): A TEP will be calculated to be used for evaluation of offers to determine the lowest-priced proposal. The TEP calculation will be a summation of all Contract

Line Item Pricing.

NOTICE FOR OPTIONS: Price will be evaluated by adding the extended prices for basic award and option quantities, if applicable.
