Provide a brief description of snow and ice control experience (public streets, private streets, parking lots, etc.)

List the types and quantity of equipment that will be available for use on a snow and ice control contract.

Is there an ability and willingness to deploy salt, sand, or other ice removal treatments if that service is needed?

The guaranteed minimum payment is intended to offset the costs associated with the mobilization of equipment and operators by the Contractor in response to service request(s) from the City. What is the total guaranteed minimum payment expected to perform services for the 2026/2027 winter season?

What is the minimum number of hours and the minimum payment required per call out? What are the hourly rates for equipment and/or operators performing services?
