

Columbus is comprehensively updating our zoning code for the first time in 70 years. Our current effort is focused on expanding economic and housing opportunities for all Columbus residents.

You are receiving this notice because you own or occupy a property identified as being in the Downtown District.

The Zone In initiative is proposing updates to the Downtown District code that include modernized language. In addition, in order to align with the City's policies relating to auto-oriented uses, other proposed code revisions include prohibiting new drive-thru/drive-up uses; new automobile service, repair, and fuel facility uses; and new stand-alone surface parking lot uses.

A public comment period is now underway.
