TO: ALL OFFERORS

FROM: DARLA KOFF
SUPERVISOR OF CHILD NUTRITION, CAESAR RODNEY S.D.

SUBJECT: ADDENDUM TO RFP - CONTRACT NO. SRS270001-PIZZA

ADDENDUM #1 QUESTIONS & ANSWERS

QUESTIONS	ANSWERS
1. First, are the scheduled delivery times, specifically the 9:30 am deliveries, able to be adjusted for quality control? Our pizzas are made hot and fresh and ideally served within a 10–15-minute window to maintain peak quality. It would be great to know if there's any flexibility in the delivery schedule.	The delivery times specified in this solicitation are the District's preferred delivery schedule. To allow for reasonable logistical considerations, the District will permit a delivery variance of up to five (5) to ten (10) minutes before or after the scheduled delivery time, provided that such variance does not disrupt school operations. Consistent adherence to the agreed-upon delivery schedule is expected, and repeated deviations beyond the allowable window may be considered a failure to meet contract requirements.
2. Is there room to adjust the days of service for each school? For example, would it be possible to move the days around a bit to better accommodate the needs of each location? We're open to discussing options to make sure everything runs smoothly.	The delivery days identified in this solicitation are established to meet the operational needs of the District and are not subject to modification by the vendor . Proposals must be based on the ability to deliver on the specified days and within the designated delivery windows. No changes to the assigned delivery days will be permitted unless initiated and approved in writing by the District.
3. Do you have the projected full volume for the school year in terms of pizza slice count? Having this information will allow us to plan accordingly and ensure we're prepared to meet demand.us to plan accordingly and ensure we're prepared to meet demand.	This RFP allows for a multi-vendor award. If only one vendor is awarded, the projected full volume is 91,728 slices (11,466 pizzas over a 10-month period). If two vendors are awarded, the projected full volume for EACH vendor is 45,864 slices (5,733 pizzas over a 10-month period).

All other terms and conditions remain the same.
