D. Questions & Answers

Please see answers in **RED** below.

1. As mentioned in today's meeting. In document JAL192590415-Substation-Rehab-Contract-5-Step-1.pdf, PART 3 the following is mentioned:

"SEPTA is soliciting Requests for Qualifications for the final design and construction for the Traction Power Substation Rehabilitation (the "Project"). Those Proposers submitting acceptable RFQ Proposals in Step One will then be asked to submit a firm fixed price for **the final design and construction of the Lansdale and Hatboro Substations and 12th and Portal Switching Station in Step Two**".

Is this a mistake?

Yes this was a misprint. It should read: “Those Proposers submitting acceptable RFQ Proposals in Step One will then be asked to submit a firm fixed price for **the final design and construction of the *Traction Power Substation Rehabilitation Program – Contract 5 Broad, Loudon, Park and Castor Substations Project*** in Step Two”.
