2015 AND 2016 USED CARS

Notice ID: USPIS06232026

Questions and Answers

1. Are the two vehicles requested required to be brand new with no prior owners or are they allowed to be pre-qualified/pre-owned vehicles.

   Answer: The vehicles are not required to be brand new and may have had prior owners. However, they must meet all of the minimum technical specifications, condition requirements, and any other requirements identified in the solicitation. The Embassy reserves the right to determine whether any offered vehicle is acceptable based on its overall condition, maintenance history, mileage, and compliance with the solicitation requirements.

2. The solicitation specifies the minimum technical requirements; however, could you please advise whether the Embassy has any preferred manufacturer or model (for example, Toyota, Honda, Subaru, or another equivalent vehicle), provided that all minimum specifications are met or exceeded?

   Answer: There is no preferred manufacturer or model. Offerors may propose any manufacturer or model that meets or exceeds the solicitation requirements. Quotes will be evaluated based on the technical requirements and evaluation criteria set forth in the RFQ, including the vehicle's condition and its ability to meet operational needs.
